

Charter Amendment Approved 3 To 1

The Slaton Slatonite

VOLUME 54, NO. 42 THURSDAY, JULY 30, 1964 Price 10c

Kathy Brown Is Winner

Kathy Brown, formerly of Slaton and now living in Lubbock, is one of three winners in a state-wide historical essay contest.

Earlier she won first place in a contest sponsored by South Plains Electric Cooperative at Lubbock, and that first place gave her the right to compete in the state contest sponsored by Texas Electric Cooperatives, state-wide association of the rural electric cooperatives in Texas. TEC has just announced that Kathy and two other contestants, Horace Pipkin of Keller and Jimmy Raffel of Coleman, are the top three winners in the state contest. Their individual placings will be announced at the annual convention of TEC members in Austin August 12-14. First-place winner will receive a scholarship of \$500; second will receive \$300; and third, \$200.

Kathy, daughter of Mrs. Martha Brown of Slaton, completed Slaton High School this spring and has moved to Lubbock to attend Texas Tech. She was valedictorian of her graduating class at Slaton, and won many other honors in school. She was a class president, was editor of the high school yearbook two years and editor of the school newspaper one year, and was selected "Citizen of the Year" during her senior year.

Her essay gave a detailed history of the South Plains rural electric cooperative, including anecdotes of the early years of struggle in organizing the cooperative.

The three judges, one a TV station news director and the other two teachers at the University of Texas, one in journalism and the other in English, gave high praise to the essays.

"It was a difficult task to judge the essays for one reason — they were all excellent," one judge said.

TABLES TURN

San Angelo police last week had two men in jail — a bum and a drunk.

They decided to quit feeding the bum, turned him out and gave him a wrist watch and a pocket book containing \$162.55 that belonged to the drunk.

Then the drunk made bond and demanded his property.

The bum is probably a drunk now.

Trying To Save One

The two unidentified youths made an attempt to save this exhausted sheep that was many of hundreds involved in the truck accident Saturday afternoon. Many volunteers rounded up the surviving sheep of which approximately 200 were killed.

The Drivers Escaped

The above pictures tell the story of the tragic wreck that occurred on Bypass 84 and FM 400 Saturday afternoon. Both drivers miraculously escaped with their lives, however approximately 200 head of sheep were killed when the sheep truck, driven by a San Angelo man overturned after colliding with a pickup truck traveling north on Bypass 84. The pickup truck, driven by William Young of Lubbock was crushed into the ground, but Young escaped with his life and severe neck and back injuries.

2 Hundred Sheep Killed In Wreck

A collision that could have cost the lives of two men occurred about 12:30 p.m. Saturday at the intersection of Farm to Market Road 400 and the new Highway 84 bypass. Fortunately, only a couple hundred sheep were killed.

Wm. Young, 4929 West 9th, Lubbock, driving a pickup truck, had been to visit his parents, who have lived on a farm east of Taboka for a number of years. He had returned to Highway 84 at a point between Post and Slaton.

At the intersection he was struck by a tractor-trailer triple-deck stock truck driven by Clint McNeely, 2202 Stanton, San Angelo.

The pickup was knocked into the borrow ditch, and the truck overturned, the tractor coming to rest on its side on top of the pickup.

McNeely was not injured. Young was, through some miracle, thrown down between the seat and floor boards of the pickup, sustaining only minor neck and back injuries. He was expected to be discharged from Mercy Hospital Tuesday. The space in which he survived was no larger than about three feet square. He is employed by Randolph Manufacturing Co. at Lubbock.

The stock truck which McNeely was driving was owned by Bill Taylor of San Angelo, and was loaded with 605 head of sheep. Some 200 were killed outright and fork lift trucks and shovels were used by city employees to load the carcasses into trucks. Those not killed strayed in all directions, and

Joe Fish Dies

Joe Fish, 62, died at 11:50 p.m. Tuesday night at Simmons Hospital Sweetwater. He was born August 6, 1901 in Rhoades, Iowa.

Mr. Fish was a paint foreman for Santa Fe in Slaton, moving to Sweetwater two months ago.

He was married to Zella Slater January 30, 1932 in Skee-dee, Okla.

He is survived by his wife, two daughters, Mrs. James Carrigan, of Sweetwater, and Mrs. Jack Hutchison of Okla. City. Two brothers, Harry Fish of Ponca City, Okla., and Sam Fish of Princeton, Kans. Three sisters, Mrs. Jennie Hammon of Ponca City, Mrs. Ruth Hart of Chanute, Kans., Mrs. Loretta Hill of Louisburg, Kans., and three grandchildren.

Service will be Friday, 2 p.m. at the Chapel of Memories in Patterson's Funeral Home, Sweetwater. Rev. Preston Barrett, Pastor of the First Christian Church, officiating. Interment will be in the Garden of Memories Cemetery.

Busbys Place In Rodeo

Mike and Debbie Busby, children of Mr. and Mrs. Brannon G. Busby, are making a name for themselves in area rodeos. Mike, age 8, placed second in Pee Wee division, pole bending event in Brownfield last week. Debbie Busby, age 13, placed first in Junior division, pole bending event. She recently placed first in this event and first in barrel race at Floydada.

Mike and Debbie plan to enter more rodeos this summer.

WEATHER

Slaton weather head up joyce According to the automatic recording machines of Pioneer Natural Gas Co., the temperature ranges for the week were:

Wednesday	96-66
Thursday	93-64
Friday	96-66
Saturday	100-68
Sunday	100-70
Monday	101-66
Tuesday	7-69

In the city election Tuesday, the charter amendment raising the ceiling in city taxes from \$1.50 to \$2.00 per \$100 assessed valuation was carried about 3 to 1. The vote was 470 for, 175 against. Slaton has demonstrated that, given the facts, its people will do what is necessary to make it a good town.

Bids Opened

Bids were to be opened in Amarillo by the Canadian River Municipal Water Authority on four pumping plants and water lines from Lubbock to Slaton, Tahoka, O'Donnell, Lamesa, Levelland and Brownfield. Contracts had been let earlier for the pipe line from the dam to Lubbock via Amarillo and Plainview. The line to Pampa and Borger has not yet been advertised.

All pipe lines are to be ready by the time the CRMWA has water for the cities to be served, which is still expected to be sometime in 1967. Slaton must make whatever arrangements are necessary before that time.

Contract has been made with the city of Lubbock to treat water for Slaton when it passes Lubbock. Additional storage must be built here if we are to receive reasonable benefit from the Canadian.

In Ward 1, Clark Self, Jr. was elected commissioner by a vote of 170 to R. M. McMinn's 115. Mr. McMinn's defeat did not indicate that he was unpopular; a good many people felt that having a mayor and one commissioner who are former railroaders, it might be better to "share the work." We now have a mayor and one commissioner who worked for the railroad, a Negro commissioner who is a working man and union official, a commissioner who is a farmer — cotton grower, and a merchant. Everybody's interests will be well represented.

Wife Of Former Resident Dies

Funeral services were held in Lubbock Tuesday for Mrs. Sandy Waldrep, wife of a former Slaton resident.

Her husband, Sandy, graduated from Slaton High School and attended Texas Tech. They met and were married there.

Mrs. Waldrep was 42 years, a native of Lubbock, but had lived in Dallas the last ten years. She died there.

Funeral was in Sanders Memorial Chapel, with Rev. Andrew Jumper, pastor of First Presbyterian Church, officiating.

Burial was in Lubbock City Cemetery.

Survivors are her husband, a daughter, Sandra Lynn Waldrep, Odessa, a son, Larry of Waco; a brother, Mert Starnes, Austin, her grandmother, Mrs. Mary Starnes, Lubbock, and a grandchild.

Front row — Rubin Alvarado, David Flores, Gary Beard, Essy Scott, Jerry Burrell.

Mrs. Melton Services Held

Mrs. Toy Pearl Melton died Saturday morning in Slaton Convalescent Home. She was born 76 years ago at Pilot Point, Texas, and had lived in Slaton 35 years.

Funeral services were held at 11:00 a.m. Monday in First Baptist Church, with Dr. Charles Wood, pastor, officiating. He was assisted by Dr. William Turner of Lubbock.

Burial was in Englewood Cemetery under direction of Williams Funeral Home.

Mrs. Melton's nephews were pallbearers.

She is survived by three daughters, Mrs. Curtis Dowell, Slaton; Mrs. Thurmon Bartlett, Friona; and Mrs. John Crawford, Midland; two sons, Paul Melton, Slaton, and Travis Melton, Midland; ten grandchildren and six great-grandchildren.

Services Held

Funeral services were held in Lubbock Tuesday for Mrs. Sandy Waldrep, wife of a former Slaton resident.

Her husband, Sandy, graduated from Slaton High School and attended Texas Tech. They met and were married there.

Mrs. Waldrep was 42 years, a native of Lubbock, but had lived in Dallas the last ten years. She died there.

Funeral was in Sanders Memorial Chapel, with Rev. Andrew Jumper, pastor of First Presbyterian Church, officiating.

Burial was in Lubbock City Cemetery.

Survivors are her husband, a daughter, Sandra Lynn Waldrep, Odessa, a son, Larry of Waco; a brother, Mert Starnes, Austin, her grandmother, Mrs. Mary Starnes, Lubbock, and a grandchild.

C-Commission Notes

Slaton City Commission met in regular session at 7:30 p.m. Monday, July 27.

Mayor Jonas Cain, Commissioners B. H. Bollinger, Robert Banks, Jr., and Earl Reasoner were present. Ward one was not represented, pending election of a successor to Truett Bownds, resigned.

City officials who appeared to report and answer questions included City Attorney C. S. Cravens, Jr., Secretary Robert B. Sokoll, Police Chief Robert Bredlove, Corporation Court Judge Luther B. Gregory, City Cemetery Superintendent Cam D. Jordan.

J. S. Edwards, Jr., Dr. Don Hatchett, Derrell Baugh, Lynn Cross and other citizens were there part or all of the meeting.

Minutes of previous meeting which had been mailed to Commissioners were approved without being read again.

Dr. Hatchett and Mr. Edwards presented and explained plans which had been made for constructing and financing a nine-hole municipal golf course on city owned land north of the sewer farm. Briefly, 28 of Slaton's substantial citizens will sign notes for \$2,000 each to finance construction, if the city will contract with them for use of the land and give them surplus water from the sewer plant after it has been treated. The city's problem in the past has been disposal of this water, in fact, law suits have been threatened because it was allowed to overflow on private land. The golf committee said S. S. Forrest would take any excess water which the golf course couldn't handle.

Some discussion was had about whether the city should make a contract with the Golf Association before it was incorporated. Actually, the members of the present unincorporated body are personally liable for more than they would be in a corporation with limited liability. Dr. Hatchett assured the Commission they would incorporate if assured a contract would be signed, but did not want to incur the expense of incorporating until that was certain.

The city would lose some \$700 a year it has been receiving from rentals of the land for farming purposes, but would at the end of 20 years receive free a municipal golf course which would be worth at least \$100,000. Meanwhile they could possess it at any time by assuming the balance of debt, and it should be clear within fifteen years at most.

Dr. Hatchett and Mr. Edwards told the commission they had not intention of hurrying a decision, and the Commissioners decided to give it further study.

Commissioner Banks said a light was needed at Ivory and Geneva Streets, where a new church and drug store have been built. Moved Bollinger, seconded Banks, it be installed, carried.

Commissioner Bollinger said he had nothing in particular to report.

Commissioner Reasoner said neighbors were complaining there were only three trash barrels for eight trailers at the Lurist court between Garza and Lynn and they were being allowed to run over with once weekly collection. Mayor Cain See C-COMMISSION, Page 8

NAVAL AIR STATION, Dallas, Texas, 22 July — Brent Ray Wilkins, 6, 230 South 16th, Slaton, Texas, is the youngest contestant entered in the 33rd Annual Model Airplane Championship being held here. This is Brent's first national meet as a contestant. His father, Ray A. Wilkins, introduced him to the Nationals four years ago. Brent will be flying in Class 1/2 A Gas, and in junior combat. With Dad's help this youngster began flying model airplanes three years ago.

Four Hurt In Car Wreck

About 4:30 p.m. last Wednesday, Negro farm woman Elora Collins approaching Slaton on Farm to Market Road 41, collided with a car proceeding toward Lubbock at the intersection with the new Highway 84 bypass. It was driven by Robert Hugh Collins of Houston, who was accompanied by two Japanese businessmen, Shogo Mokafima of Houston and Yaechi Yamaguchi of Tokyo. They are executives of a Japanese Pipe Company. No serious injuries were sustained.

The car driven by Mr. Collins was making about 60 miles per hour on Highway 84, and was rented from a leasing firm in Fort Worth. Damage was estimated at \$600. It was a '64 Chevrolet.

Mrs. Collins was driving a '54 Ford owned by Leonard Collins, Route 1, Slaton, which was damaged \$300. Her speed was estimated at 20 miles per hour at time of accident.

Patrolman Gene Carpenter of the City Police Department investigated the accident, and filed charges against Mrs. Collins for failing to yield right of way (running Stop sign) and for not being in possession of driver's license.

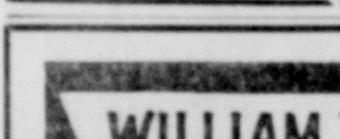

Mr. Collins and the two Japanese businessmen hurt in the accident Wednesday at FM-41 and US-84 bypass were discharged from Mercy Hospital at Slaton Friday. Their injuries were not serious.

The English teacher asked her third grade class to write a short composition with an unexpected ending. She gave an "A" to Johnny for his paper which read: "Will you marry me?" he asked.

"No," she replied. "And they lived happily ever after."

"My husband talks in his sleep. Does yours?" "No, he's terribly annoying, he just chuckles."

News about Railroad Folks For Railroad Folks

Railroad News..

At a late hour Monday, the transient who was killed in the wreck at Canyon Saturday had not been identified. Body was mangled, and the only article found in the clothing was a safety razor.

Included in the derailed cars was one of frozen turkeys. Some railroad men guessed total damage to loadings, equipment and track, and cost of clearing it up would run half a million dollars.

Cause was attributed to a journal bearing which overheated and burned off.

In Dallas last week, an engineer saw a 17-year old boy lying on the track about 100 yards ahead of his train. When he whistled and "big holed" the train, the boy sat up, made no attempt to get off the track, and was killed.

On the Central Vermont Railroad, a 54-year old conductor was killed when his caboose derailed and rolled down an embankment into the Connecticut River.

Twenty two railroads paid total of \$35,250 for 141 violations.

Violations of the Safety Appliance Acts during May. Sixty-one violations were on the Southern Pacific, mostly defective air and hand brakes and improper airbrake tests.

Forty-seven cars, mostly perishables, in an 80-car freight train en route Clovis to Amarillo were derailed just west of Canyon Saturday afternoon. No members of the crew were injured, but a youthful trespasser on the train was killed. Authorities had not identified him late that day.

Both the eastward and westward main tracks were blocked by the derailed cars, stopping traffic between Canyon and Clovis until a temporary bypass track could be constructed. However, the Slaton Division track through Canyon was not obstructed, and the San Francisco Chief passenger train and one freight train were detoured from Clovis to Amarillo via Lubbock.

Probably not many at Lubbock knew Former President Eisenhower paid his second visit to Lubbock about 6:30 p.m. Saturday, at least we haven't heard it mentioned. The first was during the 1952 election campaign. His business car was attached to the detoured San Francisco Chief.

Missouri - Kansas - Texas has been authorized to discontinue four daily passenger trains between Dallas and San Antonio because of cancellation of mail contracts by Post Office Department. They will continue to be operated east of Dallas.

Chicago & North Western and Chicago Great Western railroad officials announced from Chicago they are planning a merger.

In Dallas last Wednesday, a 17-year-old Negro boy climbed over a standing flat car, was struck by a Santa Fe passenger train and knocked under a moving freight.

The State Parks and Wildlife Commission announced from Austin last Thursday the 1964 open season on mourning doves in the north zone will begin at noon September 1 and run through October 30. Shooting hours are from noon until sunset.

Bag limits are 12 per day but not more than 24 in possession at any time.

Deer Killed Out Of Season

Report from the Boy Scout at Tres Ritos says one of the counselors killed two deer out of season. He had taken a girl friend to a movie at Taos and was bringing her home when a deer jumped in front of his car. Killed itself and disabled the car. So he walked to the Scout Camp at Angostura, got a truck and started pulling the wrecked car in. But another deer charged the side of the truck and broke its neck. About a quarter from Lon Porter's place.

Game Warden Mike Martinez probably took both deer car-

rides down to Lubbock and donated them to the hospital.

What amused at least two Slaton cabins within a mile where the deer were into the 30's every day. And are enduring a grege temperatures for reason or another.

August Kitten much more for his suit him.

And the other going to haul enough trunk of his car to place. Somehow stove isn't as fire.

Christianity is a religion of happiness. Happiness comes from *being, doing and sharing*—not by getting and keeping.

Our nation was founded upon the ideals of the Christian religion. But there are forces at work which would destroy the very foundation of our faith, tear down the citadel of freedom and altogether consume our heritage of peace.

"Isms", schisms", pagan religions and godless governments form an unholy alliance with Satan, arch enemy of God and man.

These, with gluttonous appetites, feed mercilessly upon the peoples of the world. They look with passionate hunger upon America; upon our government, freedom of enterprise, schools, churches, homes, children—all that we hold dear!

Is this danger real? It is, indeed. Is there anything that you can do to ward off the danger? There is. *You, as one, can stand up for Christ and be counted!* You can join the millions who are on the march with Christ, the "Captain of our salvation" and the "Prince of Peace".

Next Lord's day, God's people will again assemble for spiritual replenishing and further preparation for world-wide spiritual conquest for Christ. Number yourself among them. Too much is at stake to be "A.W.O.L.!"

"We wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places." Ephesians 6:12

The Slaton Slatonite, Thursday, July 30, 1964 3

Mrs. Parker Honored

Mrs. Jim Parker was honored with a bridal shower at Grace Lutheran Parish Hall July 15 from 9 a. m. to 10:30 a. m.

The table was draped with a white table cloth and a large toy truck filled with fruit was used for a center piece.

Coffee, small doughnuts and melon balls were served to the guests. Thirty-four guests registered.

Hostesses were Mesdames A. A. Russel, C. J. Miller, Arthur Stolle, Edmund Wilke, James Riney, Alva Albright, Leo Stolle and Wallace Becker.

scout jamboree news 1-14 oyce

A report received from Slaton Scouts Doug Williams, Billy Martin, Allen Underwood and Byron Johnson, Jr., who left Slaton July 7 to attend the 6th National Jamboree, reveals that they arrived at Valley Forge, Pa., July 16. En route they went on sightseeing trips to New York City, where they attended the Yankee - Oriole baseball game at Yankee Stadium, visited the United Nations' Headquarters, attended the World's Fair, visited Washington, D. C., where they attended both Houses of Congress, toured the Smithsonian Institute, and witnessed the changing of the Guard at the Unknown Soldier's Tomb.

The Scouts broke camp at Valley Forge the morning of July 24 and started their return trip homeward.

VFW Auxiliary

The Ladies V. F. W. Auxiliary Post 6721 met for their regular meeting Monday at 8 p. m.

The meeting was called to order by Charlotte Becker, president. Opening prayer was given by Shirley Mosser. Minutes from the previous meeting were read and approved.

Applications for twenty-one new members were accepted. Twenty of these are from Tahoka and one from Big Spring.

Plans were made for a kitchen shower for the V. F. W. kitchen.

It was reported that Mrs. Johnny Mosser, an auxiliary member, is recovering after surgery.

The Treasury report was given and approved.

The next meeting will be held Monday at 8 p. m., August 10, at the Post Home.

MRS. LARRY DEE CLARK

Karen Buxkemper, Larry Clark Are Wed

In a double ring ceremony Miss Karen Elizabeth Buxkemper exchanged wedding vows with Larry Dee Clark, at 7 p. m. July 28, in St. Joseph's Catholic Church, Msgr. Peter Morsch officiating. The Church was decorated with baskets of Glad-

tiol. The couple will reside in Lubbock where Clark is employed by Lubbock Auto Co., and the bride by City of Lubbock, Corporation Court. Both are graduates of Slaton High School and attended Texas Tech.

The parents of the bride are Mr. and Mrs. Victor Buxkemper. Mrs. T. L. Talbert is the mother of the groom.

Miss Jeanette Brosch, cousin of the bride was maid of honor. Miss Carole White of Lubbock, and Miss Merry Goldgar of Dallas, were bridesmaids.

Gene Clark of Dallas, brother of the groom, was best man. Jim Lowry and Richard Marriott were groomsmen.

James Buxkemper, Kevin Buxkemper and Richard Polk acted as ushers.

Melissa Locke, dressed in all white, was flower girl. Acolytes were Gary and Tracy Buxkemper, brothers of the bride.

Charlene Kitten provided traditional wedding music, and Mrs. D. T. Hlavaty was soloist.

The bride, given in marriage by her father, wore a formal gown fashioned from silk organza designed with a fitted bodice, sculptured neckline outlined by Chantilly lace and elbow length sleeves. The waist was encircled by lace appliques, dotted with seed pearls. The controlled skirt was highlighted by a deep scalloped border of lace around the hemline which swept into a chapel length train. Her veil of English illusion cascaded from a lace caplet covered with lilies of the valley and buds trailing on the side. She carried a cascade of phalaenopsis orchids centered with a white orchid.

The attendants wore street-length dresses of pink sateau fashioned with fitted bodice with scalloped neckline and short sleeves. The skirts were accented in back with a bow. Headpieces were matching bows accented with seed pearls and matching maline. They wore pearl necklaces, and carried cascades of white pompon daisies.

A reception followed in St. Joseph's Hall. The houseparty included Mesdames C. O. Buxkemper, C. B. Schniers, Edward Brosch, Leroy Buxkemper and Landis Franke.

For traveling to Ruidoso and other points in New Mexico the bride wore a white raw silk suit with blue accessories and orchids from her wedding bouquet.

Sla-Ton Tops

Seventeen members attended SLA-TON TOPS Club Thursday, July 23, meeting in the guest dining room of Mercy Hospital, with a group loss of 19 pounds for the week.

The group organized February 27, 1964 with 6 members. Total membership now is 20. Total loss of weight group since organizing is 240 1/2 pounds. One new member joined this week.

Linda Kay Reeves

Engagement Announced

Mr. and Mrs. Charles Herrera of San Antonio, Texas, announce the engagement of her

daughter Linda Kay Reeves to Mr. Gomer Harold Trout, son of Mrs. W. G. Trout, Slaton. The wedding will be in St. Marks Episcopal Church in San Antonio in the early fall.

Among Other Matters

By J. L. H.

Mr. and Mrs. Billy Butler visited Sunday in the homes of the J. B. Butlers and of Ruby and Charlie Boyce. Later both the Butler families visited the David Reeds in P...ford.

Recent visitors in the home of the Brannon G. Busbys were Mr. Busby's sister and family Mr. and Mrs. Bill Jones, Adam and Karen of Irving, Texas, also friends of the Busbys, Mr. and Mrs. Max Vaughn and children, Maxann and Danny, of Neosho Missouri.

Mr. and Mrs. Dudley Berry spent the week end visiting their son Lyle in Houston. Mr. Berry returned home, but Mrs. Berry stopped off in Dallas and will visit Mrs. Martin, mother of Mrs. Martin Collins the rest of the week.

Judge Luther B. Gregory and Mrs. Gregory got back home about 2:00 a. m. Monday from the American Legion State Department Convention in San Antonio and reported a very pleasant trip.

Post Commander Ellis P. Schmid and Mrs. Schmid remained there for a few days. He is a retired Army major and was to be given a checkup at Brooks General Hospital.

Mrs. Paul Roch (Dellah Manire) is here from Pocatello, Idaho, looking after business. Her father, retired railway engineer E. B. Manire, is in the Santa Fe Hospital in Topeka. Mr. Roch stopped over in Lubbock to look after business there.

Traweeks Celebrate 50th Anniversary

Mr. and Mrs. William Robert Traweek of Redwine Community celebrated their 50th wedding anniversary Sunday, July 26, 1964. They have spent most of their married life in commu-

Queens

These pretty girls above each represent a Slaton Babe Ruth team. Representing The Chiefs who raised the most money, Holly McSween was named Queen. Left to right — Kathy Edwards, Cubs; Linda Alba, Jets; Jackie Thomas, Comets; Holly McSween, Queen, Chiefs; Vicki Nowlin, Ginners; Polly Neal, Colts; Jacque Edwards, Flyers.

ties around Tahoka. Their marriage ceremony was performed while sitting in a buggy in front of the Court House in Tahoka. Mrs. Traweek was Lula Luttrell, daughter of Mr. and Mrs. J. W. Luttrell.

A dinner was given in their honor in the home of their daughter, Belle Woodfin of Slaton. Those attending were: Robert Neal Woodfin of Slaton, Charlie Dean and Theresa Woodfin and son Mark of Lubbock. The have three grandchildren and three great grandchildren. A friend, Mrs. Mert Mudgett, of Slaton, presented the couple with a wedding cake, topped with a miniature bride and groom in their golden years.

FARM NEWS

Drouth and continued hot weather continued up until Tuesday, and there was no forecast of rain. Slaton got only a few drops on Friday and Sunday, but it was scattered showers were better in other parts of the county.

Applications were reported being filed at Abilene and Levelland for permission to graze soil bank or diverted acreage. It is feared if rain does not come, cattle men will be forced to sell off a lot of beef they would otherwise hold, which will further depress the market. In fact, it might ruin some of the ranchers.

American beef is being well received in England, but we continue to import beef, mutton and pork from all over the world to compete here with domestic meats that would furnish a market for surplus grain, as well as employment on ranches, in feed lots and packing houses.

Dryland grain sorghum is beyond help from rain now, and dryland cotton production will be well below last year.

At Austin Friday, the Texas House Interim Committee on Protection and Development of Soil and Water Resources.

State Water Commissioner Otha Dent said the present charges for application filing and drilling permits, in effect since 1917, do not today pay cost of processing them.

Rep. Bill Clayton of Springlake, chairman of the committee, said many old water laws needed changing.

Clayton said efforts are being made to stop setting up water districts except as provided by the constitution.

The committee will also ask power to make loans for underground as well as surface water development.

H. G. Wells of Tulsa, representing the High Plains Underground Water District, wants the terms of the Water District directors made longer and staggered, to save election costs and always have experienced men on the boards. He said it would save this district \$3,000 a year.

Delwin Jones of Lubbock, nominee for the state legislature, was present at the hearing.

Quite a furor is being raised in Washington by some Congressmen because the price of bread didn't drop along with the "price" of wheat.

Fact is, the flour mills have to buy "marketing certificates" at 70 cents a bushel for every bushel of wheat processed into flour now.

Before July 1, the millers were paying an average of \$1.75 a bushel for hard wheat. Now the market is around the support price of \$1.30 — but when you add it to the 70 cents processing tax, it comes to 25 cents more than in June.

Two irrigation wells south of Idalou on FM 400 had grease plugs removed from their engines by vandals last Wednesday, causing damage estimated at \$1,800.

The first load of 1964 milo was delivered to a Crosbyton elevator last week by J. H. Moore who farms south of there. It was said to have run about 55 pounds per bushel and tested 15.90 cent moisture.

Area production is expected to be well below last year because of the drouth, and rains now would be too late on much

of the dryland acreage.

With the improved moisture situation over much of the state, it is time to take a look at the grazing situation, says Bobby Ragsdale, Extension range specialist.

First, Texas cattle and deer numbers are at an all time high. Ranges in their present condition will not be able to support these animals and maintain their productivity over a long period of time.

Overstocking prevents build-up of litter which aids in water and soil stabilization. Revegetation from natural seeding and regaining vigor for forage plants already present is also retarded by overstocking. The specialist points out that overgrazing rangelands will allow little or no chance for range improvement.

To remedy this situation, Ragsdale offers several suggestions: breeding herds should be kept to a minimum and dry animals should not be maintained. Also, temporary and permanent pastures should be utilized to reduce grazing pressure on native grasslands. Ragsdale suggests that improved Bermuda pastures be used in a deferred grazing program to maintain the present herd rather than buy more cattle to graze the additional grass.

In looking ahead, Ragsdale says that proper deer harvest should be worked into the ranch operation to insure maximum returns from this resource as well as to prevent excessive grazing on rangeland.

Recent purchase of a group of 72 crossbred and straightbred steers by Texas Agricultural Experiment Station No. 1, located here, gives an indication of the advantages of crossbreeding beef cattle.

The local rancher who raised the cattle told Edward M. Neal, substitution superintendent, that all the steers were managed identically. Yet when the substitution made the purchase, the crossbreds weighed 110 pounds more than their straightbred cousins.

In this case the crossbreds were $\frac{3}{4}$ Hereford - $\frac{1}{4}$ Brahma. The straightbreds were good, commercial steers of a popular English breed.

The crossbreds weighed 461 pounds and cost the substitution \$21.70 per cwt. The 351-pound straightbreds cost \$24. per cwt. Even though the crossbreds brought less per pound, their greater weight made them worth about \$16. more per head than the straightbreds.

"Not only did the rancher benefit because he pocketed an extra \$16," Neal said, "but we benefited because we got an extra 110 pounds of steer for the small extra cost."

Crossbreeding has long been recognized by Texas A&M University livestock specialists as one way to increase efficiency of beef cattle production. At the

Livestock and Forage Research Center at McGregor, crossbred steers (nicknamed "Hurry Ups") have weighed more than 1,000 pounds when only 12 months old.

The Steers bought by the Beeville substitution are to be used in a feeding experiment to find how summer climatic conditions in different parts of Texas affect cattle on feed.

Soon the steers are to be divided into similar groups and shipped to experiment substations around the state. The climatic environment will be the only variable in the test. All groups will be fed a ration shipped from Texas A&M University.

A similar test, conducted between the cooler months of October and March of 1962-63, indicated that steers develop and fatten almost identically in all parts of Texas.

Effects of various cotton ginning practices on cotton and cotton products are described in a marketing research report recently released by the U. S. Department of Agriculture. A copy of the report, MRR-655, "Effects of Cotton Ginning Practices on Cotton Yarn Properties, Weaving Performance, and Fabric Properties," may be obtained by writing the Office of Information, USDA, Washington, D. C.

Commercial slaughter plants in Texas during April produced 117.1 million pounds of red meat, reports the Texas Crop and Livestock Reporting Service. This is 7 percent above the 109.3 million pounds produced in April a year ago. Red meat production for the first four months of 1964 totaled 437.8 million pounds, 5 percent above the same period of 1963. Nationally, red meat production was up 10 percent in April over the same month in 1963 and the first quarter production in 1964 was up 8 percent with a total of 10,512 million pounds produced.

August-March exports of cotton by the United States totaled 3.8 million running bales, 64 percent above the same period in 1962-63 and 8 percent above the average of the past 5 seasons.

As temperatures start hitting the 80-90 degree range and higher, livestock men are urged to consider the relative humidity as a factor in minimizing shrink and heat-induced deaths. For example, transit hog deaths can be expected to more than double when the temperature is at 85 degrees and the relative humidity is at 35 percent as compared with 75 degrees and relative humidity 50 percent or below, reports Livestock Conservation, Inc.

The beef import problem is one of the topics slated for discussion at the two-day Livestock and Meat Marketing Institute to be held this fall at Texas A&M University.

In announcing plans for the institute, Ed Uvacek, livestock marketing specialist at Texas A&M, said one of the highlights of the event will be a two-hour panel discussion on the meat import and export situation.

Members of the panel will include a meat broker, a processor, a cattle exporter, a cow and bull packer, a national packer, a government official and a livestock producer, he said.

The institute will be the second of its kind held on the Texas A&M campus. It is designed to give livestock producers and meat processors and market men an opportunity to meet and discuss mutual problems of the industry, Uvacek said.

The broad audience and coverage of the institute is an example of the changing services offered by land grant colleges, he said.

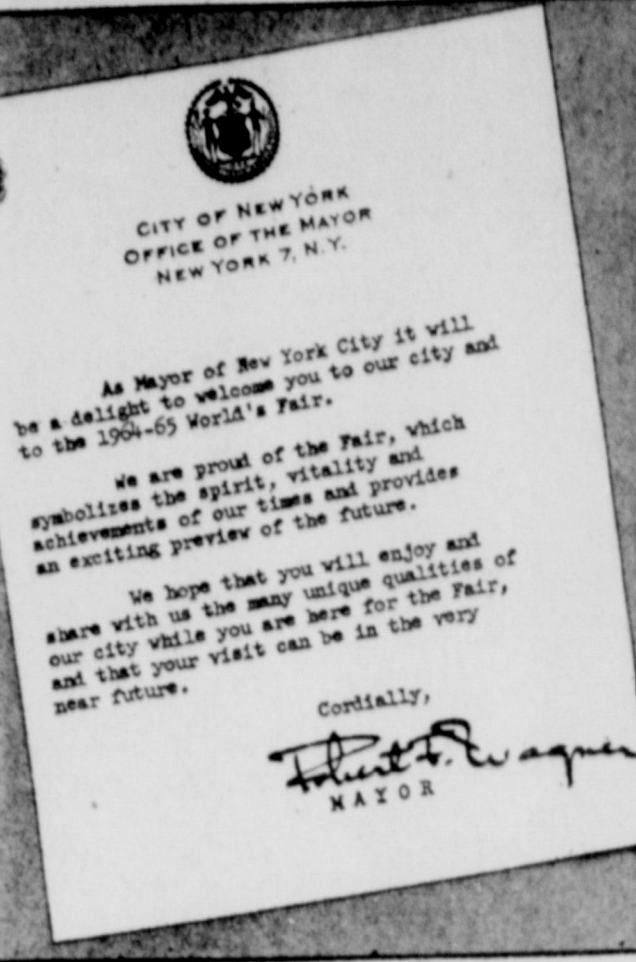

"Today's agriculture involves many problems away from the farm and ranch. These problems increase as the livestock and meat industry becomes more specialized," Uvacek said.

The economist said the upcoming institute can provide a common ground where livestock producers can learn the problems of the processors and sellers of meat and meat products.

Other topics to be covered at the institute include meat demands and specification buying, using outlook for profits, and cattle and lamb feeding in Texas.

The institute will be held Sept. 24-25. Persons interested in the production, processing or marketing of livestock and meat are invited to attend, Uvacek said.

Cooperative Extension Work in Agriculture and Home Economics, Texas A&M University and the United States Department of Agriculture cooperating. Distributed in furtherance of the Acts of Congress of May 8, 1914, as amended, and June 30, 1914.

ently underway to promote the sale of U. S. livestock products, beef, and other meats and meat products in Western Europe and the United Kingdom. The program was actually initiated May 26 when Secretary of Agriculture Orville L. Freeman, acting on behalf of the entire U. S. livestock and meat industry, signed a cooperative market development agreement with the American Meat Institute.

With the overall objective of developing an expanded export market, this program is being carried out through joint financing by the U. S. Department of Agriculture and U. S. agricultural and trade groups, with USDA's contribution coming from Public Law 480 market development funds.

Countries included in the developmental program are the United Kingdom, West Germany, France, Italy, Belgium, Switzerland, the Netherlands, and Spain. Meat supplies are currently lower than normal in each of these countries and prices to consumers are unusually high. Marketing prospects in these countries have been reported as good in the months ahead.

The supermarket situation this week points to the fact that the beef bonanza for consumers is continuing. With the outdoor cooking season at hand, other types of meat are becoming more competitive for the consumer dollar, says Mrs. Gwen Clyatt, Extension Service consumer marketing specialist.

PROMOTIONS UNDERWAY TO INCREASE MEAT SALES ABROAD

An intensive campaign is pres-

On The Witness Stand
By far the most vital people in our system of justice are witnesses. Everyone else in a trial exists to hear what they have to say.

Our courts need witnesses. A jury to find the facts. The judge to apply the law. The lawyer to tell his client's story.

Chances are you worry about stepping up, taking an oath, and telling your story in court.

On some rare occasions you could be called upon to testify about something affecting your own standing in the community. As a witness you too may have the right, for example, not to testify against yourself or somebody else's lawsuit or crime trial.

If you are ever in such a bind, consult a lawyer of your own choice on what to do. The lawyer who called you to testify has a sworn duty to protect his client, not you. But your lawyer is sworn to keep what you tell him secret and to advise you in your own interests within the law.

Wise lawyers tell their witnesses to obey twelve rules:

1. Go to the place (say, the scene of an accident). Check your memory before you go to court. People forget and get caught up on details. But if you check what you saw and heard you're on solid ground.
2. Visit a court. Hear how other witnesses testify. It will help you see your role on the witness stand.
3. Wear clean, conservative clothes.
4. Don't memorize your story word for word. That is the surest way to sound bad. But think of what you saw and heard.
5. Listen to the questions you are asked with care and answer thoughtfully.
6. Give a simple, direct answer in your own words. Don't be rushed.
7. If you err — and people often do — correct yourself at once. If you can't remember some detail, say so. Don't bluff.
8. Tell the truth. Don't figure which side you may help. Don't identify yourself with either side.
9. Stop when the judge breaks in, and don't try to sneak an answer in before he can stop you. What you might say could end in a "mistrial."
10. Keep cool and don't sass back.
11. If they ask you: Certainly.

you have talked to other people — the lawyer for example, and yes, you may be reimbursed for certain of your expenses incurred in attending the trial.

12. Remember, without witnesses our law would fail to do justice. If you are called, be a good witness.

(This newsfeature, prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because slight variations in facts may change the application of the law.)

WAKE UP YOUNGER!

By Helen Alpert

TIPS TO OLDER DRIVERS

Dear Helen: I'm 80, still at the wheel of my trusty old car, a high-riding old fellow with only a few dented fenders over the years. I mean the car, not me. When does a guy decide to quit driving? At what age?

DEAR TOBIAS: No fixed age. Driving a car is a "seeing task" calling for good vision, wide field of vision, judgment of distance, rapid adaptation to light and dark. If you'd like to study my free booklet, "Tips For the Older Driver," write to me at National Senior Center, Lehigh Acres, Fla. 33936. This is free to readers! Don't forget the stamped, self-addressed envelope for the reply!

THE OLDER AMERICAN

Dear Helen: A club speaker kept using the term, "The Older American." Am I one? Or is it a special kind of retiree?

DEAR LILY: You're one, honey. You're sitting right up there with nearly 18 million companions. The Older American is . . . 3 former Presidents, almost 10 per cent of the population of our country, nearly one and a half million folks on farms, one out of 4 U. S. Senators, 2 million people working fulltime, 12 and a half million on the Social Security list, over 2 million war veterans, over 3 million people who left Europe to make their home in this country. "The Older American" is the title and subject of a superb book from the 1963 President's Council on Aging. For 50c, get it from the Government Printing Office, Washington, D. C. 20402. My free copies are all gone. So sorry!

JURY DUTY

Dear Helen: I got a summons for jury duty. Please rush me the rules about serving on a jury. I'm a little nervous about the whole thing, never been to court in my life.

JURY BOX

Dear jury box: Congratulations for accepting an important civic duty! We need a million kids like you! Jury Duty summons comes by certified mail, and were you too nervous to notice that in the envelope was a small Handbook for Trial Jurors? It tells you everything you need to know before entering the courtroom. You return it to the bailiff when you show up. If you haven't got this, phone the County Court House immediately and ask to speak to the office of the Circuit Court Judge who will preside at the trial. The name of the Judge is stamped on the summons. Get ready to enjoy yourself. It's interesting! I'm on a jury next week!

100 YEARS OLD

Dear Helen: Our newspaper printed a picture and the story about a woman musician here who was 100 years old this month. Would you know how many people in the United States have reached this wonderful age? Just a few? Or many?

FAITHFUL READER

Dear Faithful Reader and thanks for being a Faithful Reader: This news will stagger you. We can boast of over 19,000 people in our country who are all over 100 years old! Man, that's living!

MILES OF CLUBS

Dear Friend: We live in California. One of your readers asked about Golden Age Clubs near her, said she couldn't find any. If she lives near me, I'll be glad to introduce her to our wonderful clubs. Or she can write to Miss Marjorie Borchardt, President, Allied Senior Citizens Clubs, 427 W. 5th St., Slaton, Texas.

Room 402, Los Angeles, Calif. for addresses of hundreds of clubs.

GRANDMA MOSES?

Dear Helen: I'm 74. After my husband passed away, I began to paint. There is a well-known woman artist who lives outside of town. Will you advise me how to ask her to let me come work in her studio? I could learn a lot this way. I would be very quiet. Please suggest the best approach. I have my heart set on this.

VERMILLION

Dear Vermillion: Unless an artist is also a professional instructor, artists usually cannot tolerate anybody around. An artist I know happened to mention last night that she is unable to take one brush-stroke in the presence of a visitor. I suggest you write a letter expressing your deep interest inquiring if she might hold some classes. If you get a brush-off, go to your nearby recreation center and propose that art classes be started. These centers love eager-beavers like you!

NEED HELP ON A PROBLEM?

Write to Helen Alpert, National Senior Center, Lehigh Acres, Fla. 33936. Please send a stamped, self-addressed envelope. Or write to this newspaper. Ask for the free list of booklets sent with the compliments of this column.

Grandson Regional Winner

Michael G. Reese, 17, grandson of Mrs. Dove Reese of Slaton, is a regional winner in the Fisher Body Craftsman's Guild model car competition. Reese received a \$2,000 scholarship. Michael says he hopes his design car will win him a scholarship in national competition. This is the third regional prize Reese has won in Texas-Louisiana competition. His design is now entered in a General Motors Design contest.

"The judges told me I almost won a \$5,000 scholarship last year," he said, "but my model was damaged on the way to Detroit."

Reese said he built a special box lined with foam rubber for his model. He began work on the car in September and shipped it to Detroit June 5. Reese designed a sports car for this year's contest. It is dark metallic blue with a vinyl top framed with dentist's wire. "You design the car first," Reese said, "then visualize it. Every detail of the model must fit perfectly."

Michael is a Houston High School senior. His parents are Mr. and Mrs. Edgar G. Reese, 5019 Kinglet, Houston.

Selective Service Thursday asked for 6,200 men to be drafted for the Army in September. The low was 6,000 in June and 14,000 in March. The Navy, Marines and Air Force are getting enough volunteers. A total of 2,981,950 men have been drafted since 1950.

The Library of Congress contains 12 million books, the majority of which can be ordered from the main reading room.

ATHLETE'S FOOT HOW TO TREAT IT

Apply strong T-4-L liquid. Peel it back to check itching. Rubbing in 2-3 days, watch infected skin slough off. Watch healthy skin replace back. Use antiseptic, soothing T-4-L FOOT POWDER top-fine for sweaty feet, heel odor. TODAY at all drug stores.

New Liner Assures Clean Oven

A unique new solution to the age-old clean oven problem is a disposable "oven" that can be thrown away when soiled. It's a semi-rigid aluminum liner which fits inside any Roper 30-inch Charm gas range, old or new. Homemakers get a perpetually clean, shining oven without use of dangerous cleaning acids or incinerator-type heat levels. In photo sequence above, the cook inserts the liner and pops a cherry pie into the oven. The pie's delicious, but the juice boiled over. So the cook just puts the liner in the waste container. Actually, she could have wiped it clean hundreds of times before throwing it away. The "Silver Liner" covers the sides, back, and bottom of the oven. It's a clever adaptation of the throw-away principle widely adopted by homemakers in the use of disposable vacuum cleaner bags, kitchen foil, and paper towels.

Balch At San Diego

Russell L. Balch, son of Mrs. Ezra W. Balch of Route 1, Wilson, Tex., has reported for recruit training at the Naval Training Center, San Diego, Calif.

He will study basic military law, customs and etiquette of the Navy, seamanship, and a basic knowledge of shipboard routine.

Also included in the training is extensive military drill, first aid, swimming, water survival tactics and physical fitness.

Upon completion, he will be assigned to a ship or station or receive additional training at a service specialty school.

On July 24 a son was born to Mr. and Mrs. Glen Edward Larence of Lubbock. He weighed 7 pounds, 2 ounces, and was named Jerry Don.

Historians are unable to identify a period in recorded time when men did not wear armor.

PEST CONTROL FOR CALL ARCHIE OLD PO 2-2007 Lubbock

Second Glance R. L. Harston At George Air Force Base

Continued From Page 1 because of the election of a city commissioner from Ward 1 being held at the same time. The election had to be in that ward to make it legal, and the commissioners didn't want to ask the people to vote in two places.

Quite a number of people who went to city hall to vote did not continue on to the Junior High School.

County Commissioners Court at Lubbock Tuesday considered a deal with a firm of architects, Haynes and Kirby, to make a study of the needs and possibilities for more courthouse and other space. No firm agreement was reached. A citizens' committee of twenty is also making a survey.

The commissioners also decided to begin a series of inspection tours of all county-owned property August 11.

Last time we looked in the kitchen at the Slaton county clubhouse it was nice and clean.

32nd Tactical Fighter Wing at George AFB, Calif. Airman Harston, a weapons mechanic, previously served in Germany. The airman's unit is equipped with the new F4C Phantom, the world's fastest jet fighter. The 32nd supports the TAC mission of providing fire-power and other air support to U. S. Army forces. The airman is a graduate of Tactical Air Command's (TAC) New Home (Tex.) High School.

PUT A TIGER IN YOUR TANK!

Visit Six Flags Over Texas this summer. More than a hundred acres of fun for everyone. Be sure to include a ride on Humble's "Happy Motoring" Freeway. Even youngsters can safely steer the miniature sports cars. Stop at your Enco dealer's before you go. He has coupons for you, each worth 50¢ on a child's ticket for Six Flags.

NEW HIGH-ENERGY ENCO EXTRA GASOLINE BOOSTS POWER THREE WAYS:

- 1 Cleaning Power!** Dirt can clog even a new carburetor in a few months of normal operation—causing hard starting and rough idling. Your very first tankful of New Enco Extra will start to clear away these deposits—in new engines or old—to improve power and mileage.
- 2 Firing Power!** Spark plug and cylinder deposits can cause misfiring, pre-ignition and hot spots. New Enco Extra neutralizes these harmful deposits—to help preserve the power of new cars and restore lost power to many older cars.
- 3 Octane Power!** New Enco Extra has the high octane that most cars now need for full smooth performance without knocking. You'll get all these extras with New Power-formula Enco Extra gasoline—it puts a tiger in your tank! *Happy Motoring!*

Police Blotter

Police arrested on Saturday night, had plenty to do. Vandiver and Robinson's cases of van-dive windshields and broken windows has been broken. Who did the car owners do it at the time it was reported until long damage was done, and they themselves found the car owners had damaged.

Damage were owned by Underwood, Doug Millard Woods, J. E. Waldrock Sand and Gravel Robertson, W. L. McKnight, C. P. McFagin and Glen Ed.

The damage was done to soft drink bottles and one windshield was with a .22 caliber rifle and the officers' regulated a baseball bat been used on other.

This was going on, a person report came in, the man returned.

Before 3:00 a.m. an unsuccessful attempt to break into Skimble - in Grocery at Division Streets. Foot of the burglar was size nine and a half.

At 4:45 a.m. Mrs. John B. East Lubbock, was by a noise in her window. She had left a table and a chair on the table and a chair on the table.

At 5:15 a.m. Mrs. John B. East Lubbock, was by a noise in her window. She had left a table and a chair on the table.

FARM NEWS

Drouth and continued hot weather continued up until Tuesday, and there was no forecast of rain. Slaton got only a few drops on Friday and Sunday, but it was scattered showers were better in other parts of the county.

Applications were reported being filed at Abilene and Levelland for permission to graze soil bank or diverted acreage. It is feared if rain does not come, cattle men will be forced to sell off a lot of beef they would otherwise hold, which will further depress the market. In fact, it might ruin some of the ranchers.

American beef is being well received in England, but we continue to import beef, mutton and pork from all over the world to compete here with domestic meats that would furnish a market for surplus grain, as well as employment on ranches, in feed lots and packing houses.

Dryland grain sorghum is beyond help from rain now, and dryland cotton production will be well below last year.

At Austin Friday, the Texas House Interim Committee on Protection and Development of Soil and Water Resources.

State Water Commissioner Otha Dent said the present charges for application filing and drilling permits, in effect since 1917, do not today pay cost of processing them.

Rep. Bill Clayton of Springlake, chairman of the committee, said many old water laws needed changing.

Clayton said efforts are being made to stop setting up water districts except as provided by the constitution.

The committee will also ask power to make loans for underground as well as surface water development.

H. G. Wells of Tulsa, representing the High Plains Underground Water District, wants that the terms of the Water District directors made longer and staggered, to save election costs and always have experienced men on the boards. He said it would save this district \$3,000 a year.

Delwin Jones of Lubbock, nominee for the state legislature, was present at the hearing.

Quite a furor is being raised in Washington by some Congressmen because the price of bread didn't drop along with the "price" of wheat.

Fact is, the flour mills have to buy "marketing certificates" at 70 cents a bushel for every bushel of wheat processed into flour now.

Before July 1, the millers were paying an average of \$1.75 a bushel for hard wheat. Now the market is around the support price of \$1.30 — but when you add the 70 cents processing tax, it comes to 25 cents more than in June.

Two irrigation wells south of Idalou on FM 400 had grease plugs removed from their engines by vandals last Wednesday, causing damage estimated at \$1,800.

The first load of 1964 milo was delivered to a Crosbyton elevator last week by J. H. Moore who farms south of there. It was said to have run about 55 pounds per bushel and tested 13.90 cent moisture.

Area production is expected to be well below last year because of the drouth, and rains now would be too late on much

of the dryland acreage.

With the improved moisture situation over much of the state, it is time to take a look at the grazing situation, says Bobby Ragsdale, Extension range specialist.

First, Texas cattle and deer numbers are at an all time high. Ranges in their present condition will not be able to support these animals and maintain their productivity over a long period of time.

Overstocking prevents buildup of litter which aids in water and soil stabilization. Revegetation from natural seeding and regaining vigor for forage plants already present is also retarded by overstocking. The specialist points out that overgrazing rangelands will allow little or no chance for range improvement.

To remedy this situation, Ragsdale offers several suggestions: breeding herds should be kept to a minimum and dry animals should not be maintained. Also, temporary and permanent pastures should be utilized to reduce grazing pressure on native grasslands. Ragsdale suggests that improved Bermuda pastures be used in a deferred grazing program to maintain the present herd rather than buy more cattle to graze the additional grass.

In looking ahead, Ragsdale says that proper deer harvest should be worked into the ranch operation to insure maximum returns from this resource as well as to prevent excessive grazing on rangeland.

Recent purchase of a group of 72 crossbred and straightbred steers by Texas Agricultural Experiment Station No. 1, located here, gives an indication of the advantages of crossbreeding beef cattle.

The local rancher who raised the cattle told Edward M. Neal, substation superintendent, that all the steers were managed identically. Yet when the substation made the purchase, the crossbreds weighed 110 pounds more than their straightbred cousins.

In this case the crossbreds were $\frac{3}{4}$ Hereford - $\frac{1}{4}$ Brahman. The straightbreds were good, commercial steers of a popular English breed.

The crossbreds weighed 461 pounds and cost the substation \$21.70 per cwt. The 351-pound straightbreds cost \$24 per cwt. Even though the crossbreds brought less per pound, their greater weight made them worth about \$16 more per head than the straightbreds.

"Not only did the rancher benefit because he pocketed an extra \$16," Neal said, "but we benefited because we got an extra 110 pounds of steer for the small extra cost."

Crossbreeding has long been recognized by Texas A&M University livestock specialists as one way to increase efficiency of beef cattle production. At the

Livestock and Forage Research Center at McGregor, crossbred steers (nicknamed "Hurry Ups") have weighed more than 1,000 pounds when only 12 months old.

The Steers bought by the Beeville substation are to be used in a feeding experiment to find how summer climatic conditions in different parts of Texas affect cattle on feed.

Soon the steers are to be divided into similar groups and shipped to experiment substations around the state. The climatic environment will be the only variable in the test. All groups will be fed a ration shipped from Texas A&M University.

A similar test, conducted between the cooler months of October and March of 1962-63, indicated that steers develop and fatten almost identically in all parts of Texas.

Effects of various cotton ginning practices on cotton and cotton products are described in a marketing research report recently released by the U. S. Department of Agriculture. A copy of the report, MRR-655, "Effects of Cotton Ginning Practices on Cotton Yarn Properties, Weaving Performance, and Fabric Properties," may be obtained by writing the Office of Information, USDA, Washington, D. C.

Commercial slaughter plants in Texas during April produced 117.1 million pounds of red meat, reports the Texas Crop and Livestock Reporting Service. This is 7 percent above the 109.3 million pounds produced in April a year ago. Red meat production for the first four months of 1964 totaled 437.8 million pounds, 5 percent above the same period of 1963. Nationally, red meat production was up 10 percent in April over the same month in 1963 and the first quarter production in 1964 was up 8 percent with a total of 10,512 million pounds produced.

August-March exports of cotton by the United States totaled 3.8 million running bales, 64 percent above the same period in 1962-63 and 8 percent above the average of the past 5 seasons.

As temperatures start hitting the 80-90 degree range and higher, livestock men are urged to consider the relative humidity as a factor in minimizing shrink and heat-induced deaths. For example, transit hog deaths can be expected to more than double when the temperature is at 85 degrees and the relative humidity is at 35 percent as compared with 75 degrees and relative humidity 50 percent or below, reports Livestock Conservation, Inc.

The beef import problem is one of the topics slated for discussion at the two-day Livestock and Meat Marketing Institute to be held this fall at Texas A&M University.

In announcing plans for the institute, Ed Uvacek, livestock marketing specialist at Texas A&M, said one of the highlights of the event will be a two-hour panel discussion on the meat import and export situation.

Members of the panel will include a meat broker, a processor, a cattle exporter, a cow and bull packer, a national packer, a government official and a livestock producer, he said.

The Institute will be the second of its kind held on the Texas A&M campus. It is designed to give livestock producers and meat processors and market men an opportunity to meet and discuss mutual problems of the industry, Uvacek said.

The broad audience and coverage of the institute is an example of the changing services offered by land grant colleges, he said.

"Today's agriculture involves many problems away from the farm and ranch. These problems increase as the livestock and meat industry becomes more specialized," Uvacek said.

The economist said the upcoming institute can provide a common ground where livestock producers can learn the problems of the processors and sellers of meat and meat products.

Other topics to be covered at the institute include meat demands and specification buying, using outlook for profits, and cattle and lamb feeding in Texas.

The Institute will be held Sept. 24-25. Persons interested in the production, processing or marketing of livestock and meat are invited to attend, Uvacek said.

Cooperative Extension Work in Agriculture and Home Economics, Texas A&M University and the United States Department of Agriculture cooperating. Distributed in furtherance of the Acts of Congress of May 8, 1914, as amended, and June 30, 1914.

CITY OF NEW YORK
OFFICE OF THE MAYOR
NEW YORK 7, N. Y.

As Mayor of New York City it will be a delight to welcome you to our city and to the 1964-65 World's Fair.

We are proud of the Fair, which symbolizes the spirit, vitality and achievements of our times and provides an exciting preview of the future.

We hope that you will enjoy and share with us the many unique qualities of our city while you are here for the Fair, and that your visit can be in the very near future.

Cordially,
John F. Wagner
MAYOR

ently underway to promote the sale of U. S. livestock products, beef, and other meats and meat products in Western Europe and the United Kingdom. The program was actually initiated May 26 when Secretary of Agriculture Orville L. Freeman, acting on behalf of the entire U. S. livestock and meat industry, signed a cooperative market development agreement with the American Meat Institute.

With the overall objective of developing an expanded export market, this program is being carried out through joint financing by the U. S. Department of Agriculture and U. S. agricultural and trade groups, with USDA's contribution coming from Public Law 480 market development funds.

Countries included in the developmental program are the United Kingdom, West Germany, France, Italy, Belgium, Switzerland, the Netherlands, and Spain. Meat supplies are currently lower than normal in each of these countries and prices to consumers are unusually high. Marketing prospects in these countries have been reported as good in the months ahead.

The supermarket situation this week points to the fact that the beef bonanza for consumers is continuing. With the outdoor cooking season at hand, other types of meat are becoming more competitive for the consumer dollar, says Mrs. Gwen Clyatt, Extension Service consumer marketing specialist.

It's the Law in TEXAS

On The Witness Stand

By far the most vital people in our system of justice are witnesses. Everyone else in a trial exists to hear what they have to say.

Our courts need witnesses. A jury to find the facts. The judge to apply the law. The lawyer to tell his client's story.

Chances are you worry about stepping up, taking an oath, and telling your story in court.

On some rare occasions you could be called upon to testify about something affecting your own standing in the community. As a witness you too may have the right, for example, not to testify against yourself in somebody else's lawsuit or crime trial.

If you are ever in such a bind, consult a lawyer of your own choice on what to do. The lawyer who called you to testify has a sworn duty to protect his client, not you. But your lawyer is sworn to keep what you tell him secret and to advise you in your own interests within the law.

Wise lawyers tell their witnesses to obey twelve rules:

1. Go to the place (say, the scene of an accident). Check your memory before you go to court. People forget and get caught up on details. But if you check what you saw and heard you're on solid ground.
2. Visit a court. Hear how other witnesses testify. It will help you see your role on the witness stand.
3. Wear clean, conservative clothes.
4. Don't memorize your story word for word. That is the surest way to sound bad. But think of what you saw and heard.
5. Listen to the questions you are asked with care and answer thoughtfully.
6. Give a simple, direct answer in your own words. Don't be rushed.
7. If you err — and people often do — correct yourself at once. If you can't remember some detail, say so. Don't bluff.
8. Tell the truth. Don't figure which side you may help. Don't identify yourself with either side.
9. Stop when the judge breaks in, and don't try to sneak an answer in before he can stop you. What you might say could end in a "mistrial."
10. Keep cool and don't sass back.
11. If they ask you: Certainly.

you have talked to other people — the lawyer for example, and yes, you may be reimbursed for certain of your expenses incurred in attending the trial.

12. Remember, without witnesses our law would fail to do justice. If you are called, be a good witness.

(This newsfeature, prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because slight variance in facts may change the application of the law.)

WAKE UP YOUNGER!

with Helen Alpert

TIPS TO OLDER DRIVERS
Dear Helen: I'm 80, still at the wheel of my trusty old car, a high-riding old fellow with only a few dented fenders over the years. I mean the car, not me. When does a guy decide to quit driving? At what age?

DEAR TOBIAS: No fixed age. Driving a car is a 'seeing task' calling for good vision, wide field of vision, judgment of distance, rapid adaptation to light and dark. If you'd like to study my free booklet, "Tips For the Older Driver," write to me at National Senior Center, Lehigh Acres, Fla. 33936. This is free to readers! Don't forget the stamped, self-addressed envelope for the reply!

'THE OLDER AMERICAN'
Dear Helen: A club speaker kept using the term, "The Older American." Am I one? Or is it a special kind of retiree?

DEAR LILY: You're one, honey. You're sitting right up there with nearly 18 million companions. The Older American is . . . 3 former Presidents, almost 10 per cent of the population of our country, nearly one and a half million folks on farms, one out of 4 U. S. Senators, 2 million people working fulltime, 12 and a half million on the Social Security list, over 2 million war veterans, over 3 million on people who left Europe to make their home in this country. "The Older American" is the title and subject of a superb book from the 1963 President's Council on Aging. For 50c, get it from the Government Printing Office, Washington, D. C. 20402. My free copies are all gone. So sorry!

JURY DUTY
Dear Helen: I got a summons for jury duty. Please rush me the rules about serving on a jury. I'm a little nervous about the whole thing, never been to court in my life.

JURY BOX
Dear jury box: Congratulations for accepting an important civic duty! We need a million kids like you! Jury duty summons comes by certified mail, and were you too nervous to notice that in the envelope was a small Handbook for Trial Jurors? It tells you everything you need to know before entering the courtroom. You return it to the hall when you show up. If you haven't got this, phone the County Court House immediately and ask to speak to the office of the Circuit Court Judge who will preside at the trial. The name of the Judge is stamped on the summons. Get ready to enjoy yourself. It's interesting! I'm on a jury next week!

100 YEARS OLD
Dear Helen: Our newspaper printed a picture and the story about a woman musician here who was 100 years old this month. Would you know how many people in the United States have reached this wonderful age? Just a few? Or many?

FAITHFUL READER
Dear Faithful Reader and thanks for being a Faithful Reader: This news will stagger you. We can boast of over 10,000 people in our country who are all over 100 years old! Man, that's living!

MILES OF CLUBS
Dear Friend: We live in California. One of your readers asked about Golden Age Clubs near her, said she couldn't find any. If she lives near me, I'll be glad to introduce her to our wonderful clubs. Or she can write to Miss Marjorie Borchardt, President, Allied Senior Citizens Clubs, 427 W. 5th St.,

DEAN HEINRICH, 22, and Andrea Diana Roberts, 16, Slaton.

New Liner Assures Clean Oven

A unique new solution to the age-old clean oven problem is a disposable "oven" that can be thrown away when soiled. It's a semi-rigid aluminum liner which fits inside any Roper 30-inch Charm gas range, old or new. Homemakers get a perpetually clean, shining oven without use of dangerous cleaning acids or incinerator-type heat levels.

In photo sequence above, the cook inserts the liner and pops a cherry pie into the oven. The pie's delicious, but the juice boiled over. So the cook just puts the liner in the waste container. Actually, she could have wiped it clean hundreds of times before throwing it away.

The "Silver Liner" covers the sides, back and bottom of the oven. It's a clever adaptation of the throw-away principle widely adopted by homemakers in the use of disposable vacuum cleaner bags, kitchen foil, and paper towels.

Mr. and Mrs. Elsworth Carl Sherman of Lubbock have named their 6 pound girl Caria Jo. She arrived July 23.

Weighing in at 8 pounds, 13 ounces, Manuel, Jr. arrived July 23. The proud parents are Mr. and Mrs. Manuel M. Valdez of Slaton.

On July 24 a son was born to Mr. and Mrs. Glen Edward Larence of Lubbock. He weighed 7 pounds, 2 ounces, and was named Jerry Don.

Historians are unable to identify a period in recorded time when men did not wear armor.

PEST CONTROL FOR CALL
ARCHIE OLD

Grandson Regional Winner
Michael G. Reese, 17, grandson of Mrs. Dove Reese of Slaton, is a regional winner in the Fisher Body Craftsman's Guild model car competition. Reese received a \$2,000 scholarship.

Michael says he hopes his design car will win him a scholarship in national competition. This is the third regional prize Reese has won in Texas-Louisiana competition.

His design is now entered in a General Motors Design contest.

"The judges told me I almost won a \$5,000 scholarship last year," he said. "but my model was damaged on the way to Detroit."

Reese said he built a special box lined with foam rubber for his model. He began work on the car in September and shipped it to Detroit June 5.

Reese designed a sports car for this year's contest. It is dark metallic blue with a vinyl top framed with dentist's wire. "You design the car first," Reese said, "then visualize it. Every detail of the model must fit perfectly."

Michael is a Houston High School senior. His parents are Mr. and Mrs. Edgar G. Reese, 5019 Kinglet, Houston.

Selective Service Thursday asked for 6,200 men to be drafted for the Army in September. The low was 6,000 in June and 14,000 in March. The Navy, Marines and Air Force are getting enough volunteers.

A total of 2,981,950 men have been drafted since 1950.

The Library of Congress contains 12 million books, the majority of which can be ordered from the main reading room.

ATHLETE'S FOOT HOW TO TREAT IT
Apply strong T-4-L liquid. Feel it take hold to check itching, burning in minutes. In 3 days watch infected skin slough off. Watch healthy skin replace it. Be pleased IN ONE HOUR or your 40c back. Use antiseptic, soothing T-4-L FOOT POWDER too—fine for sweaty feet, foot odor. TODAY at all drug stores.

Visit Six Flags Over Texas this summer. More than a hundred acres of fun for everyone. Be sure to include a ride on Humble's "Happy Motoring" Freeway. because of the election of a city commissioner from Ward 1 being held at the same time. The election had to be in that ward to make it legal, and the commissioners didn't want to ask the people to vote in two places.

Quite a number of people who went to city hall to vote did not continue on to the Junior High School.

County Commissioners Court at Lubbock Tuesday considered a deal with a firm of architects, Haynes and Kirby, to make a study of the needs and possibilities for more court-house and other space. No firm agreement was reached. A citizens' committee of twenty is also making a survey.

The commissioners also decided to begin a series of inspection tours of all county-owned property August 11.

Last time we looked in the kitchen at the Slaton county clubhouse it was nice and clean.

32nd Tactical Fighter Wing at George AFB, Calif.

Airman Harston, a weapons mechanic, previously served in Germany.

The airman's unit is equipped with the new F4C Phantom, the world's fastest jet fighter. The 32nd supports the TAC mission of providing fire-power and other air support to U. S. Army forces.

The airman is a graduate of Tactical Air Command's (TAC) New Home (Tex.) High School.

TAILOR MADE FOR FAMILY TRADE

Balch At San Diego

Russell L. Balch, son of Mrs. Ezra W. Balch of Route 1, Wilson, Tex., has reported for recruit training at the Naval Training Center, San Diego, Calif.

He will study basic military law, customs and etiquette of the Navy, seamanship, and a basic knowledge of shipboard routine.

Also included in the training is extensive military drill, first aid, swimming, water survival tactics and physical fitness.

Upon completion, he will be assigned to a ship or station or receive additional training at a service specialty school.

On July 24 a son was born to Mr. and Mrs. Glen Edward Larence of Lubbock. He weighed 7 pounds, 2 ounces, and was named Jerry Don.

PUT A TIGER IN YOUR TANK!

NEW HIGH-ENERGY ENCO EXTRA GASOLINE BOOSTS POWER THREE WAYS:

- 1 Cleaning Power!** Dirt can clog even a new carburetor in a few months of normal operation—causing hard starting and rough idling. Your very first tankful of New Enco Extra will start to clear away these deposits—in new engines or old—to improve power and mileage.
- 2 Firing Power!** Spark plug and cylinder deposits can cause misfiring, pre-ignition and hot spots. New Enco Extra neutralizes these harmful deposits—to help your engine fire smoothly, to help preserve the power of new cars and restore lost power to many older cars.
- 3 Octane Power!** New Enco Extra has the high octane that most cars now need for full smooth performance without knocking. You'll get all these extras with New Power-formula Enco Extra gasoline—it puts a tiger in your tank! *Happy Motoring!*

... lack. W. L. Pickens brought the action to void the formulas for the field in Anderson and Henderson Counties. Pickens claims the formulas would allow neighboring leases to drain oil from under his property. Under the Commission order, allowables would be based 50 per cent on tract size and 50 per cent on acre feet of oil-bearing sand beneath. District court here has upheld the order.

Finance companies won a major battle with the State when the Third Court of Civil Appeals in Austin refused Regulatory Loan Commissioner Frank Miskell's motion for rehearing on the State's case against Terminal, Texas Public Finance, Beneficial Finance and Consolidated Credit.

Court affirmed the opinion of the 53rd District Court in Austin that the 1963 Texas Loan Act section which says a loan company cannot be licensed unless 51 per cent of its stock is owned by Texans is unconstitutional.

EDUCATION - JOB OPPORTUNITY - Texas Department of Public Safety is offering educational opportunities along with jobs for young men who can qualify.

Fifty will be selected between August and October for the DPS Law Enforcement Academy here. Graduates of the four-month school, covering 800 hours of instruction in 95 subjects, will fill vacancies in the highway patrol, license and weight, motor vehicle inspection or driver licensing divisions.

Young men 21 to 55 who can meet physical and mental requirements will be given qualifying examinations on August 5, September 12 and October 10. School will begin on November 19. Students earn \$375 a month while in training and \$438 to \$453 a month on graduation.

REDISTRICTING - Fourth in a series of public hearings held by the Legislative Council Study Committee on Congressional Redistricting will be held in San Antonio. Legislators seek public opinion on the way to draft redistricting to conform with the U. S. Supreme Court edict. It's a matter which must be settled during the 1965 session.

Speaker of the House Byron Tunnell says he believes redistricting - both congressional and legislative - should be handled at the end of the session, after higher education proposals and tax matters are out of the way.

His idea conflicts with those of Governor Connally and Atty. Gen. Waggoner Carr who have said redistricting should be the first item on the Legislature's agenda.

PASSENGER TRAIN HEARING SET - Railroad Commission issued notice that it will hold hearings on the Texas and Pacific Railway's request to discontinue operation of two passenger trains now operating between Fort Worth and El Paso. Fort Worth hearing will be held on September 15, and the El Paso hearing on September 17. Railroad claims it has suffered a net loss of \$200,000 on these trains over the past year.

FOOD STAMP PLAN - William M. Herndon, who administers the commodities distribution program for the State Department of Public Welfare, says the Federal Food Stamp Program, just passed by Congress, will take at least five years to filter down into all counties which otherwise would participate in the surplus commodities distribution program.

Under the proposed program, low-income and no-income families may trade federally-supplied stamps for food at any grocery store, instead of limiting their supplies to those items declared surplus commodities and distributed on a county-agent basis. Luxury and imported items will be exempt from the plan. Barred from the stamp "shopping" list are bananas, coffee, cocoa and tea. But the switch must be gradual because current surpluses must be used up, and it has not

A TIP FOR TEENS

Sew your own fashions

IT'S FUN TO SEW AND PROFITABLE TOO, since you can make your clothes budget do quadruple duty and sail through school with a wardrobe that will really steal the show.

There is ample professional information on the art of sewing to help you acquire that custom-made look. First, know your size... fit is all important. Patterns should be purchased from body measurements, not by ready-to-wear sizes.

The array of exciting, easy-to-make pattern designs... including separates and jumper outfits which make wardrobes stretch so far... are the answer to a beginner's prayer. The patterns guide you step by step. The skirt and neckline zippers called for in many of the patterns are easy to apply, too. Just follow the ABC instructions in the package of the Talon Zephyr nylon coil zipper.

Next, look over the vast selection of fabulous new fabrics in a "wonder world" of colors. There are brocades, fake furs and stretch fabrics which are perfect for all types of garments, especially for sports togs because they "give" with one's movements. Pressing is most important as you sew for a professional look and a press cloth should always be used over the zipper area.

With a little planning now, you can easily switch from one season to another and have the wardrobe to put you in the swing of things, always looking your best. It's so gratifying to look appealing through your own efforts, and to reap the rewards of approval from those whose opinions count the most.

Installs Voice Alert System

Lamesa city council last week accepted a bid of \$29,965 from a Lubbock firm for the installation of a voice alert civil defense system. There are said to be only five others of this type in the nation. A federal grant will pay half the cost, with the county and city sharing the balance.

City and county discussed hiring a full time Civil Defense Director, but took no action. Ray Renner was reappointed a director of the Canadian River Municipal Water Authority.

H. C. Mayfield who has been sheriff at Lamesa nine years, has resigned as of August 1. He was defeated for renomination in the primary election, and has said he wants to begin now making permanent

through the right eye. Roberta Hightower, 35, who gave the same Lubbock address as Key, had been arrested by Deputy Sheriffs Cleo Rogers and Dennis Ploeger.

Mrs. Lawrence ordered the body removed, and returned to Lubbock Monday to complete the inquest, returning a verdict of death from a gunshot wound.

The Hightower woman was charged with murder with malice in the court of Justice of the Peace F. R. Land at Lubbock and was released from jail after making \$3,500 bond.

been determined yet how much Congress will appropriate for the program.

YARBOROUGH ASKS SCREWORM FUNDS - Sen. Ralph Yarborough's Austin office announced he has urged the Senate Subcommittee on Agriculture Appropriations to earmark \$5,500,000 to continue the screwworm eradication program in the Southwest.

Unless a barrier zone is established along the Mexican border, Yarborough said, reinfestation of "free" areas will occur and a \$12,000,000 investment in the program will be lost.

PARKS OVERCROWDED - All state parks in Texas are overcrowded, says Director W. M. Gosdin.

Gosdin pointed out that 47,944 persons visited Corpus Christi State Park on Easter weekend and the level has held up through mid-summer. Other major parks such as Garner, Inks, Goose Island, Brownwood and Fort Parker are handling capacity crowds.

A \$160,000 expenditure at Huntsville State Park provided only a third of the facilities that could be utilized, reports the park chief.

New expansion projects at Falcon, Lake Whitney and Dam B will help take care of next year's visitors but probably won't come close to meeting demand for park facilities, Gosdin said.

APPOINTEE - Tom E. Beard, County Attorney for Hill County, has been appointed by Governor Connally as District Attorney for the 66th Judicial District.

Beard, a Baylor University law graduate who is also the Democratic nominee for the position he was appointed to, succeeds the late Jerry E. Clarke.

RETAIL SALES ON RISE - UT Bureau of Business Research's seasonally-adjusted index of retail sales in Texas shows a two per cent rise in June. Bureau reports that in the

first six months of 1964 retail stores recorded a rise of five per cent over the first half of 1963.

Biggest increases over the 1963 period were made by automotive dealers and stores dealing in women's ready-to-wear. But every retail category showed a rise, except meat-less grocery stores.

SHORT SNORTS - State Education Commissioner J. W. Edgar still is looking into complex legal angles of an Eagle Pass school controversy in which former Odessa W. T. Poulos was dumped as superintendent two weeks after he was hired, in the wake of a school board election.

The highway and heavy construction industry in the U. S. cut its industrial accident rate in half between 1948 and 1961, according to Hugh McMillan, president of the Texas Highway-Heavy Branch, Associated General Contractors.

Yorktown Community Bank, DeWitt County, and Security Bank of Spring, Harris County, were chartered by State Banking Board.

Texas Employment Commission announced it had selected 290 youth counselors to work in the intensive Federal State effort to rehabilitate unskilled and unemployed youth.

J. P. Has Busy Week

Justice of the Peace Mrs. Frank Lawrence spent a busy Saturday when State Police brought her ten misdemeanor cases, driver's licenses, etc.

Then she was called about midnight Sunday to conduct an inquest in the death of Henry Keys, Jr., a 32-year old Lubbock Negro. She found him at the nightspot known as Jessie and Big Mama's Truck Stop on Highway 84 between Slaton and Lubbock. He had been killed by a single .38 caliber pistol bullet

How to keep the entire family "in HOT WATER"

There are times when it's fun to be in "hot water." Nothing is more irritating than to be out of hot water when you need it. With a modern quick-recovery electric water heater you're sure of hot water for every family use. If your present water heater is 8 to 10 years old it may be time to replace it. Ask your Public Service manager about electric water heating - and Reddy's low 1¢ electric water heating rate.

C-Commission

Continued From Page One
said he would send someone to talk to the people about getting more barrels.

Mayor Cain requested Attorney Cravens and Police Chief Breedlove to see what could be done about reducing the speed limit from 70 to 50 miles per hour on the new US-84 bypass around the town. This road has been open since July and there have been four major wrecks since that time.

Commissioner Reasoner suggested the Chamber of Commerce see about putting more SLATON signs on the new bypass.

Commissioner Bollinger reported he had been requested to look into the matter of closing an alley between 9th and 10th Streets, or improving it. There being no commissioner from this ward, it was agreed investigation would be made.

Mayor Cain announced he had appointed Mr. Cecil Scott and Mrs. August Kitten to be members of the city cemetery board. A third member had declined to serve, and the vacancy will be filled at a later meeting. Cam Jordan, Cemetery Superintendent, said he had nothing to report at this meeting, but would like to be furnished with additional copies of the rules and regulations governing the cemetery. Secretary Sokoll will furnish them.

Derrell Baugh, who operates an electrical contracting service maintaining about half the irrigation wells in the vicinity again requested permission to install a radio antenna on one of the city water towers. He said he had about \$2,700 invested in radio equipment, and it would cost an additional \$1,000 to erect an equivalent antenna. It was decided to allow this, on a two-year contract at a monthly rental of \$7.50, and with clauses relieving the city of liability. Some discussion was had about favoring Baugh over competitors, but none of them has asked for the privilege, and there would be room for ten more antennas on the tower if needed.

City Attorney reported lease drawn up with Slaton Motor Co. for two police cars was acceptable to them and would be returned to city secretary for the Commissioners' approval. Also lease on office space in city hall for Justice of the Peace.

Mayor Cain read letter from the Reclamation Service inviting Slaton representatives to attend opening of bids July 28 at Amarillo on aqueducts and pumping stations on Canadian River between Lubbock and Slaton. Being election day here, no one seemed inclined to accept the invitation.

Chief of Police Breedlove asked for an ordinance to prohibit trespass on private property. It appeared he had no authority to prevent trespass if no other laws were violated. City Attorney will look into it.

Mr. Breedlove said that in

the last three months 48 juveniles had been placed in the city jail, which was no place for them, and he asked approval of the creation of a city juvenile counseling board of five people. He said the county juvenile officer would devote a half day each week to Slaton, and Judge Howard Davidson, who is the juvenile authority, recommended it. Breedlove particularly wanted to avoid jailing juveniles between the ages of 10 and 16 but had nowhere else to hold them. He was authorized to recommend such a board for approval of the commission.

Breedlove also requested "one way" and "do - not - enter" signs on the divided streets around the city square. This was authorized previously, and will be followed up.

Lynn Cross requested a light in the alley behind Garza, and between 9th and 8th Streets. It was thought since this was not a street, matter should be handled with Utility Co.

Mayor Cain reported changing city's fiscal year from April 1 to January 1, or calendar year, was presenting problems which had not been anticipated. Moved Banks, seconded Reasoner, previous action be rescinded, and carried. Moved Banks, seconded Bollinger, fiscal year be made October 1 to September 30, to correspond with tax-collection year. Carried.

Moved Reasoner, seconded Bollinger, City Secretary be authorized transfer \$1,500 from sewer fund to general fund to meet current expenses. Carried.

During acquisition of land for water wells, city had to take a house which they sold under mortgage, on which is still due \$2,400, and on which payments are being made regularly at rate of \$50 per month with 6 percent interest. Secretary Sokoll informed commissioners, without recommendation an offer had been received from an individual to buy this mortgage for \$2,000 cash, but he had consulted Slaton Savings & Loan and they offered \$2,200. Reasoner didn't like city being in real estate and mortgage business; Bollinger thought better take the cash offer. Reasoner moved, Banks seconded, action be tabled. Carried.

Police Judge Gregory said he had nothing to report.

A special meeting of the commission was called for 4:00 p.m., Wednesday, July 29, at which results of charter amendment election July 28 will be canvassed, and the newly elected commissioner from Ward 1 sworn in if present.

The Rains Came Down

Tuesday evening about seven o'clock the long drought was broken for part of Slaton.

A half to a whole inch fell in a few minutes in the western part of the town.

But down in the southeastern part the dust was still blowing. We still need more rain.

Rural people have the same need for electricity that city people have, plus hundreds of additional uses. Years ago, they tried desperately to get electric service and when everything else failed, they built the South Plains Electric Cooperative. This modern, efficient, dependable system furnishes a low cost electric service that is first rate. The member-owners of South Plains find that electricity in addition to being a good mixer is a good blender, cutter, heater, cooler, grinder, lighter, freezer, dryer, pumper, sander, slicer, cooker, trimmer and a lot of other things you can probably name. South Plains Electric Cooperative is a proud accomplishment of determined people building a better way of life in the rural areas. Rural electrification is good for all Texans.
