## Christmas Decor To Up November 25

Chamber of Commerce Monday night in Slaton Bank, set a tentative date for their annual banquet arrangements for Christmas decorations.

## SCHEDULE OF EVENTS

Rotary, Club, Sen. Dorcas Class, 3:00 p.m. G. L. E. W. O. W., 5:00 p.m. L. A. to B., 10:00 a.m. Senior Citizen, Club, 10:00 a.m. Visit Shit in Attend Church of City Commission, 7:00 p.m., American Legion, 8 p.m. A. A. meets in First Christian Church, 8:00 p.m. Drivers Examiner, Lions, 8:00 p.m. V. F. W., 8:00 p.m.

## Thanksgiving Dinner Is Scheduled

Community Thanksgiving dinner will be held at the West-End Church, 830 S. 11th Street, at 7:30 p.m. Service is sponsored by the Slaton Industrial Alliance and it is hoped that all

## 34 Rural Mishaps Reported

The Highway Patrol investigated 34 accidents on rural highways in Lubbock County during the month of October, according to Captain L. L. Posey, Highway Patrol Supervisor of this area. These wrecks accounted for two persons killed, thirty six persons injured, and a property damage of \$20,347.00.

## Named Tucker Member Of College Band

DENTON--Dee Allan Tucker of Slaton is a member of the North Texas State University Brass Choir, which will perform here in a concert of music for organ and brass Nov. 13.

## Church Report

Attendance at church schools in Slaton Sunday, November 12 totaled 1,345 in the 8 churches which reported.

## Peace Corps Examinations Are Scheduled

The Peace Corps examinations will be held in Abilene, Texas on November 28 and 29, 1961 at 8:30 a.m. promptly for those in this area who wish to apply.

## Junior Play Is Scheduled Friday

The Junior Play will be presented Friday night at 8 in the high school auditorium. General admission will be 25¢ and 50¢. The name of the play is "We Shook the Family Tree."

## Rodney Maeker To Sing In Choir

Rodney Maeker, son of Mr. and Mrs. Edmund Maeker of Wilson, has been asked to sing in the Texas Lutheran Choir in Slaton, Texas.

## Hennington Boy Winner Of Contest

Johnny Hennington Jr., with 15 correct guesses and the closest score on the tie-breaker game, is the winner of last week's Slatonite Football Contest.

## Vernon Chism, son of Mr. and Mrs. Charles Chism, is awed by the size of old No. 2925, the "retired" locomotive which is located near the Santa Fe depot in a City Park. "Old Ironsides" got a face-lifting this past summer and this shot shows the never-ending fascination the "choo-choo" has for small fry.

## Parsley Is Candidate For State Legislature

Bill J. Parsley, a 33 year old Lubbock attorney, has announced he will seek the office of State Representative in the newly created Place 3 for Lubbock County.

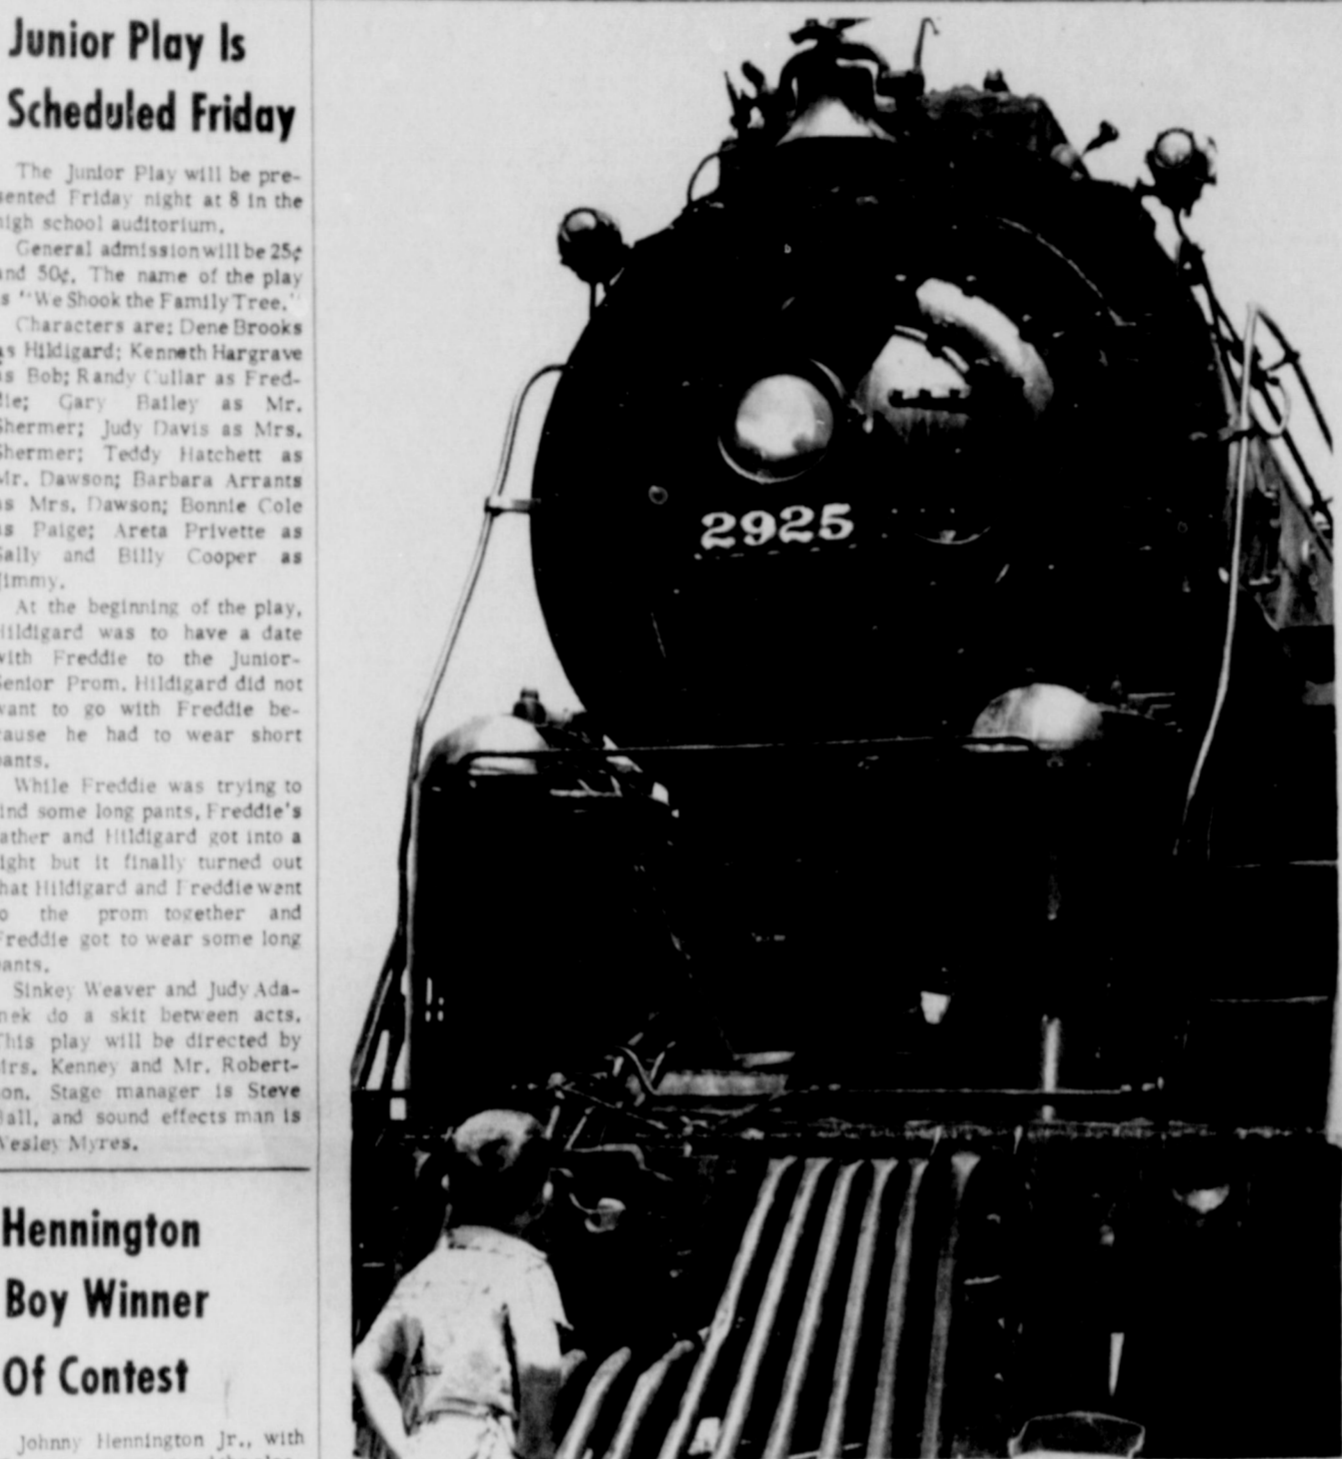

## Shamrock Area Manager Named

Robert V. Heard of Amarillo, Texas, has been appointed area manager of refined products sales for the Shamrock Oil and Gas Corporation in Texas, Oklahoma, Kansas and Nebraska.

## Credit Union Assets Now Over Quarter Million

Assets of the Caprock Santa Fe Credit Union climbed above the quarter-million mark on October 31, 1961, it was reported her last week.

# \$50,000 Bond Election Tuesday

IT SURE IS BIG !

## 1962 Paving Program At Stake

A \$50,000 City bond election will be held Tuesday, to decide the community's 1962 paving program.

If the issue carries in next Tuesday's balloting, the money will be used to pay the City's part in the Paving Assessment Program for 1962. If it fails there will be no assessment paving program next year, City officials said.

Officials pointed out that the bond issue is not designed to raise taxes as the City would pay only the interest on the bond money through 1973, when it would start paying the principal at the rate of \$5,000 per year.

In their meeting Monday night, the City Commission passed on first reading as an emergency measure Ordinance No. 206, changing the minimum and maximum sanitation service charges in the business district. The minimum was raised from \$1 per month to \$1.50 and the maximum will be worked out with individual stores on a cost basis.

Other items, taken from the minutes: R. H. Todd, Jr., Chairman of the Planning and Zoning Commission, appeared before the Commission and discussed the interpretation of a B-1 area with the Commission. This discussion and clarification of interpretation necessary due to the fact that a request had been made to the City for a certificate allowing a coin operated laundry to be built in a B-1 area and the fact that the ordinance is not specific in naming this particular use in a B-1 area.

After full discussion of this matter and hearing comments from two citizens, I. T. Longtin and M. G. Mitchell, the Commission voted unanimously on motion by Mr. Stokes and second by Mr. Walker to authorize the building department to refuse a certificate of conformance on any type of business that is not specifically named in the zoning Ordinance for that particular zone.

C. I. Elder, Street and Sanitation Superintendent, appeared before the Commission and recommended that I. D. Duncan, machine operator in his department, be raised from \$250.00 to \$260.00 per month effective November 15, 1961. Mr. Elder pointed out that this salary would be in line with others in his department doing similar work. On motion by Mr. Stokes and second by Mr. Walker the Commission voted unanimously to accept this recommendation.

Mr. Elder reported that he had been handed petitions from Citizens in the South East part of town requesting that name of Jackson Street be changed to Collins Street. By mutual consent the Commission agreed to have the City Attorney prepare an amendatory ordinance to effect this change.

Mr. Elder also reported that he had used almost all of the car load of Uvalde Mix material used to patch paved streets and asked authority to order another car load of this material. The Commission agreed by mutual consent that this should be done.

I. H. Wilson, Building and Electrical Inspector, appeared before the Commission and reported that Mr. Kunkel had resigned from the Electrical Examining Board and that the Board recommended M. J. Rushing to fill out the unexpired term. On motion by Mr. Walker and second by Mr. Dixon the Commission voted unan-

## Farm machinery can lend a hand or take one.

Assets of the Caprock Santa Fe Credit Union climbed above the quarter-million mark on October 31, 1961, it was reported her last week.

The organization, serving local Santa Fe Railway employees, was formed in August of 1954 with 18 members. Currently, there are 602 members and assets of the Credit Union totalled \$251,527.84 on October 31st.

Since its inception it has made 2,185 loans amounting to \$1,008,670.23.

# The Slaton Slatonite Sports

## Denver City Triumphs, 54-6

Denver City's Mustangs, defending state champions in AA football, invaded Tiger Field last Friday night and galloped off with their 10th straight win of the season, 54-6.

For Denver City, it was frosting on the cake since Coach Don Orr's crew had already sewed up the District 3-AA title and a role in the state playoffs. They meet Crane Saturday afternoon in Denver City in a bi-district tilt that is rated as a toss-up in the view of some pigskin observers. The Mustangs will enter the contest riding the crest of a 25-game winning streak.

The Tigers gained one distinction from the game, though. They scored six points against a team which has allowed only 46 points to be scored against it during the entire 10-game season.

Slaton got its score late in the fourth quarter, with 22 seconds remaining in the game, in fact. Halfback Webster Tefertiller had gone back as if to punt from his own 47 yard line. Instead, he took the ball, cut to his right and swivel-hipped and sped his way down to the Mustang 17 yard line. From there, on the next play, quarterback Ronnie Jones hit Gregg Nowlin, who had eluded the defensive halfback, with a touchdown pass and the Tigers had scored against mighty Denver City's first defensive unit! The try for extra points failed.

Mustang fullback Pat Hubbard who leads all other players in the South Plains in scoring, hit paydirt first for the visit-

ors with a 25 yard dash off tackle in the first quarter. Kim Freeman kicked the extra point. In the second quarter, Denver City racked up three scores and two extra points with Tommy Jones plunging over center from three yards out, Jones hitting tackle for 14 yards, and Bobby Hunnicutt passing 16 yards to Jones. Freeman converted after the first two scores and missed on the try after the third.

After the intermission, won hands down by the Tiger Band, Hubbard got a touchdown on a four yard plunge at tackle and Freeman converted. Then Kenneth Brewer, 120-pound half-back, skirted end for 12 yards and a touchdown. In the fourth quarter, Mike Martin passed seven yards to Eddie Adams for a touchdown and Freeman converted; then Brewer skirted end for a yard and the final Mustang tally, Freeman missed the extra point attempt.

Salvage by Nickel-Plating

# Tigerettes Down Crosbyton

Slaton's Tigerette basketball teams took a doubleheader from Crosbyton Tuesday night, the varsity sneaking by 33 to 32 and the "B" team winning, 33-9. The varsity led 8-6 after the first quarter, then fell behind at halftime, 17-20. They came back to edge ahead in the third quarter, 26-25 and both teams got seven points in the final stanza.

Jane Thompson led the Tigerette scoring parade with 17 points, followed by Glenda

Bownds with 11, Elaine Barnes with three and Joyce Gamble, two. Sylvia Culley led Crosbyton with 16 points, making Jane Thompson high point scorer for the game.

Marilyn McSween led the "B" team to victory, scoring 16 points as the team jumped to an early lead in the game and was never threatened. The "B" teamers led 9-0 at the end of the first quarter, 17-5 at halftime, 27-8 at the end of the third stanza and adding six points in

the last period while their Crosbyton opponents were getting one free throw.

Wanda Gallimore got four points to lead Crosbyton "B".

The Tigers, boys basketball team, will join the Tigerettes in basketball Saturday night at Lockney as the season will get underway in full swing. Both teams will play the Longhorns, there, Saturday night. Then both teams return home Monday to entertain Petersburg's roundballers in Junior High Gym.

Both girls teams now boast 2-0 records and the Tigerettes are defending bi-district champions.

# No Yule Like An Old Yule

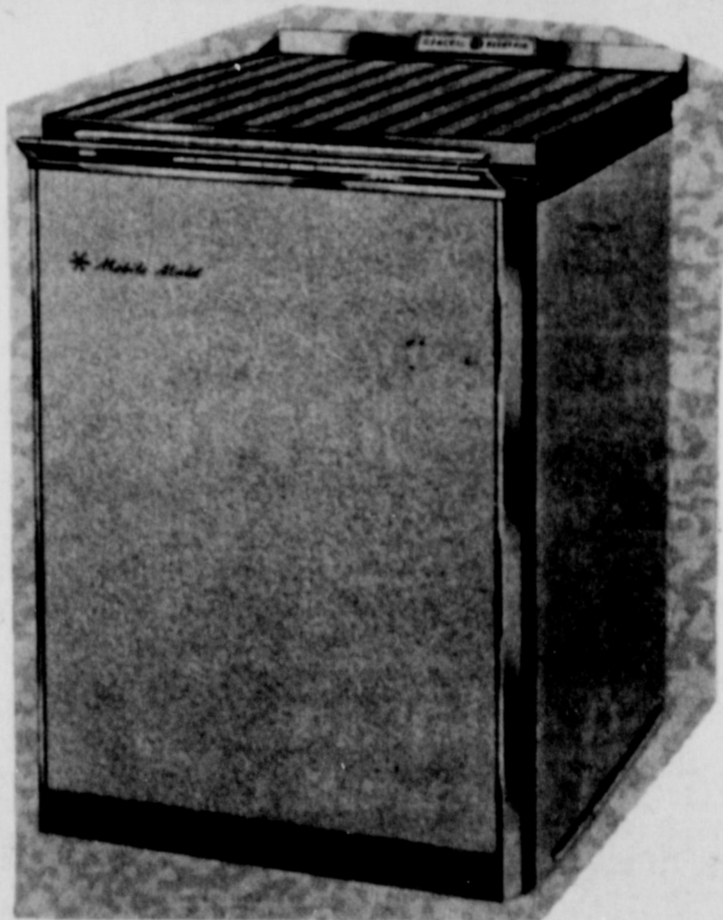

Women like to receive pretty little things for Christmas but they like pretty big things better \* remember the old song --"She Doesn't Want A Partridge In A Pear Tree Or Two Turtle Doves Or Three French Hens Or Four Mocking Birds. She Wants Something Big" - to make this her one unforgettable Christmas - "Chip In" if you have to but get her something big like a sofa, or bedroom suite, or carpet. Like a Dryer - any woman without an electric dryer is sentenced to hang - help her live better with a GE Dryer.

**A 2 Minute Dryer  
1 Minute To Load -  
1 Minute To Unload**

# God Rest Ye Merry Gentlewomen, Let Nothing You Dismay

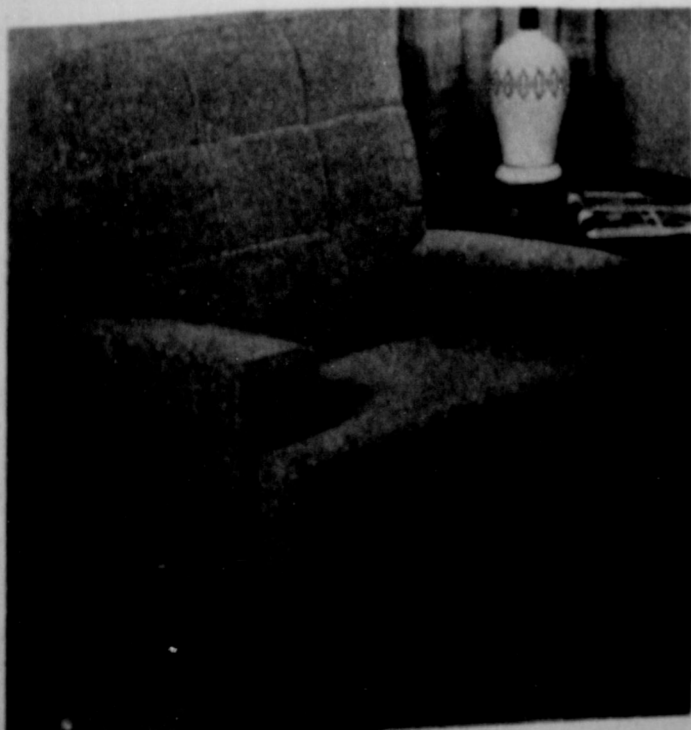

But how can she rest if she has to do the dirtiest, grubbier job in the world - washing dishes by hand. Give her a General Electric portable dishwasher that washes dishes better than anything in the world - including humans.

**4 1/2 Minutes After Dessert,  
She's Through With The Dishes**

# A Chair-y Christmas &

# A Happy New Year

Why is a chair the perfect gift? Because everybody sits. I sit, you sit, he or she sits, we sit, you all sit, they sit. The giver doesn't have to wonder—does she wear a 12 or a 14—does he fish in fresh water or salt? Sitting is like eating and breathing and sleeping. We all do it. And we all bend in just about the same places. Even Queen Victoria, who used to sweep regally and majestically about the corridors of Buckingham Palace, would occasionally grow tired of sweeping and would suddenly sit. She sat, in fact, with nary a glance behind her, trusting the Court of St. James to put something between her and the marble floor. We, of course, recommend that people look before they sit. And we hope that when they look, on Christmas morning, they'll see

### 19 Varieties Of Corn Are Tested

Nineteen varieties of corn were tested at the High Plains Research Foundation in the 1961 season. The varieties were planted on April 18 and fertilized at planting time with an application of 225 pounds of 13-39-0 per acre.

The fertilizer was placed about four inches to the side of an four inches below the seed at planting time. A sidedress application of Uran at 57 pounds or nitrogen per acre was applied on May 12 and an additional 40 pounds per acre was applied on June 9.

Five irrigations of 3 1/2 inches each were applied during the growing season. Dr. Earl H. Collister, Chief Agronomist conducted the tests assisted by Paul M. Belcher. All plots were harvested by hand during the period from October 2 to October 6.

The first nine varieties were equal in yielding ability. The yields of shelled corn at 14 percent moisture follows: P.A.G. 10185, 168.73; Asgrow, 300, 167.17; Texas 28, 160.25; P.A.G. 485, 158.16; Asgrow 500, 154.23; Texas 26, 150.45; Steckley 30-B, 149.92; Texas Experimental 6006, 148.90; Funks, G-711AA, 148.68, Asgrow 105W, Texas 36, 144.48; Texas 30, 144.19; Steckley 15-B, 141.23; Texas 34, 136.59; P.A.G. 436, 136.36; Texas 17W, 135.77; Texas Experimental 5803.

### Cholera Program Pressed

Congress has passed a law authorizing the Department of Agriculture to undertake a broad federal-state hog cholera eradication program.

The new law permits the secretary of agriculture to establish a 12-member advisory committee to help develop plans for an eradication program. Also, under the new law, the USDA will be authorized to prohibit or restrict interstate movement of virulent hog cholera virus, sometimes used to inoculate animals.

The USDA's animal disease eradication division will administer federal phases of the program in co-operation with states that wish to participate.

ANTI-FREEZE offers maximum protection when diluted to a 60 per cent solution, says a producer. At 100 per cent, the liquid does not give 100 per cent freeze protection -- paradoxically the water you add actually lowers the freezing point to some extent.

A 1,000 MILE LONG "mountain range" with some peaks more than 6,000 feet high was discovered at the bottom of the Pacific this fall in a spot south of Alaska where existing charts showed almost a flat bottom. The Department of Commerce survey ship Pioneer used new echo-sounding equipment to locate the underwater range, and expects to find more uncharted formations.

Phil Brewer, owner of Brewer Insurance Agency, was a recent winner in Insurance Company of North America's "Message to the Men" contest.

# The Slaton Slatonite Society Clubs

## Mrs. J.A. Wright Will Present Pupils In 2-Part Recital Saturday

Mrs. J. A. Wright will present her piano pupils in a two-part recital Saturday, November 18th in the chapel of the First Methodist Church.

One group of pupils will perform beginning at 2:45 and the other will start at 3:30 p.m. Playing in part one, or the 2:45 p.m. portion of the program, will be Ramona Key, Mary Leslie Cole, Bob Crow, Dana Trimpa, Carolyn Thompson, Mary Wood, Kathy Cook, Ricky Merrill, Philip Holt, Gaines Teague, Don Crow, Laura Lynn Basinger, Lynn Swanner, Gary Cook, Cynthia McWilliams, Debbie White, Lorna Scroggins, Brenda Jones, Steave Meador, Darwin Belt, Nancy Norman, Robert Glen Englund, Mary Frances Brownling, Mary Helen Champion, Susan Cagle, Deborah McWilliams, Anne Ayers and Rita Kay Payne.

McSween, Rosa Walston, Nan Saage, Jan Scott, Paul Troutt, Nancy Smith, Sherrea Belt, Martha Ellis and Dana Heaton.

## Play Presented By Junior Class In Southland

The Junior Class of Southland High School will present "Boys about Bobette," an uproarious comedy in three acts. Bobette Braddock, a dyed in the wool tomboy, plays football with the "Dirty Dozen" team. And a more sloppy lovable and laughable, bunch it would be hard to find.

This fast moving comedy will be presented on Nov. 17, in the Southland High School Auditorium, at 7:30 p.m. Admission charges are 50¢ for adults and 25¢ for children. Reserved seats, are being sold by class members for 75¢. Everyone is invited to attend. Va'll come!

## Mrs. A.R. Keys Hostess To Class

Mrs. A. R. Keys was hostess to the T. E. L. S. S. of the First Baptist Church Thursday, November 7, at 7:30 p.m. Mrs. Wilson co-hostess were Mrs. Nell Sartain, and Mrx. T. E. McClanahan. Mrs. C. D. Willis, president presided over the meeting. The meeting was opened with prayer by Mrs. Raymond Smoot, teacher. Mrs. Boyd Meeks read the minutes and gave the treasury report. Old and new business was discussed by the class. Committees were appointed for our Christmas Party Dec. 5. Mrs. Willis led the closing prayer.

## Dorcas Class Meets In Mrs. Sam Wilson's Home

The Dorcas S. S. Class, of the First Baptist Church met in the home of Mrs. Sam Wilson Tuesday, November 7, at 7:30 p.m.

## Evans High School News

The homemaking students of Evans High School met on September 22 and organized their New Homemakers of America Club. Officers elected were as follows:

If you are interested, join us Thursday, November 16, at 7:00 p.m.

## Mrs. W.K. Fry Host

Mrs. J. A. Wright and Mrs. Flora Mae Williams presented inspirational piano and organ music Tuesday night when the Junior Civic and Culture Club met with Mrs. W. K. Fry.

The numbers played were, In a Monastery Garden by Keselbey, by the Cathedral, McDonald, Prelude to Worship, Haxley, Andante Cantabile, Martin, Ah Sweet Mystery of Life; Victor Herbert; Indian Love Call, Frime, Adagio, Op. 27 No. 1 Beethoven, and Meditation by Massenet.

Mrs. Charlie Brake presided at the meeting. Roll call was answered with singing, humming, or whistling by each member a portion of her favorite tune. Mrs. M. H. Lasater presented a farewell gift on behalf of the club to Mrs. Melvin Kunkel. Final plans were made for game night to be held Monday, night, Nov. 13 at the Club House at 8:00 p.m.

Mrs. Lasater, critic, praised the club on the good attendance and the interest.

Present in addition to those named above were, Mesdames Joe Belote, Oma Faye Brown, Ed Caldwell, W. B. Christman, Ray Conner, C. E. Hogue, Virgie Hunter, Yates Key, L. T. Kincer, J. J. Maxey, Lois Merrill, R. M. Shepard, Joe Wicker, W. A. Wilke, C. E. McCoy, and a guest, Mrs. B. H. Crandall.

MRS. FRAZIER LAWRENCE BRIDGES JR.

## Bridges-Klattenhoff Brides Said In Slaton

The wedding trip to Santa Fe, N.M., and his bride, the bridegroom, Mr. and Mrs. Klattenhoff of Slaton, were married at 2:18 p.m. Their marriage rites were performed at 7 p.m. Friday at the Methodist Church with Rev. R. Herring of Memphis officiating at a double-ring ceremony.

contoured train was caught at one side by a single rose. Wears Mantilla

The bride's handmade Italian lace mantilla flowed from a square crown of cut crystal beads and pearls. She wore a cameo, gift from the bridegroom, and carried a bouquet of white butterfly roses and gardenias.

Mrs. Mackie Klattenhoff served her sister-in-law as matron of honor. Bridesmaids were Mrs. Joe Don Gamble of Lubbock and Miss Barbara Thomas of Tahoka, who was cousin of the bride, Misses Jane and Kara Anderson of Lubbock and a cousin, Gayle Williams of Wolforth, who was junior attendant.

They wore sapphire blue satin dresses designed with scoop necklines three quarter length sleeves and fitted bodices, highlighted by set-in midriffs, with flat bows at the center front. The street-length bell skirts featured unpressed pleats. The attendants wore sapphire blue circles of net, trimmed in sequins and their bouquets were cascades of white mums.

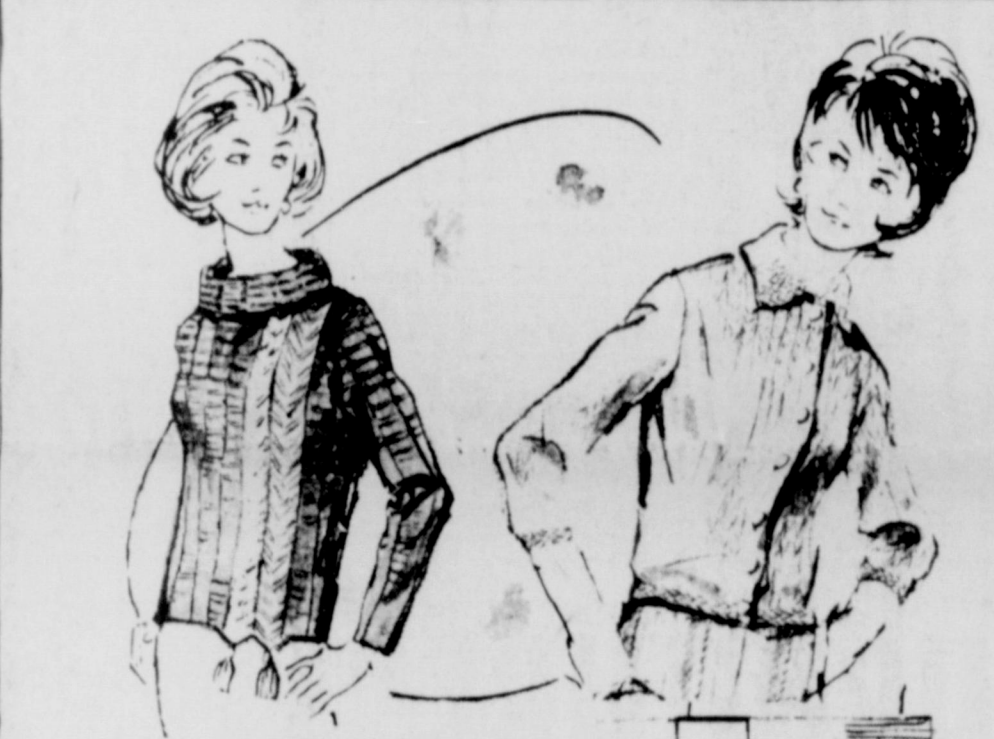

Sam Vaughtner of Lubbock was best man. Bill Conley and Buddy Wimberly of Lubbock seated guests and Joe Young and Willis Powers of Lubbock, Bill Klattenhoff and Steve Williams of Wolforth Mackie Klattenhoff were groomsmen the last named serving as junior attendant.

Assist In Hospitalities The subsequent reception was held in Fellowship Hall. The house party included Mmes. Alma Caldwell, Jack Cook, Harry Brown, C. C. Kirsey, Jack Cole, Grady Wilson, Bill Smith, Leon Vaughn, H. H. White, Lon Porter, Frank A. Drewry, W. T. Brown, Mildred Lokey, George Taylor, Jessie Prosser, Ray Conner, Arthur Saage, Earnes Kercheval, Ross Barron, Alton Sumrall.

Also Mmes. Virgie Hunter, Bill Wampler, George Hays, Bart Jones, Edwin Haddock, Joe Brooks, W. A. Wilke, Jack Shepard, Joe Walker, N. M. Brieger, Walter Jochez, Frank M. Hathaway, of Midland, Bill Conley, Lanny Swanner, Joe Young, and Miss Judy Allen.

The bride traveled in a two-piece wool dress with black and green accessories. She wore a corsage of gardenias from her wedding bouquet.

Mrs. Bridges is a graduate of Texas Tech with a major in music education. She is a member of Sigma Kappa social sorority. She is employed by Lubbock Savings and Loan Assn. Her husband is a senior at Tech where he is majoring in advertising a member of Alpha Delta Sigma, national advertising fraternity, he is employed by Hemphill-Wells.

THURSDAY, NOVEMBER 16, 1961

The State Of Texas, County Of Lubbock, City Of Slaton.

Ordinance No. 206 An Ordinance Amending Ordinance No. 159 Which Regards The Provision For Service Charges For The Collection Of Garbage, Trash

And Rubbish By The City Sanitation Department In The City Limits Of The City Of Slaton, Texas.

Be It Ordained By The City Of Slaton, Texas: Section 1: Section 12 of City Ordinance No. 159 is amended to read as follows:

"Section 12. The fair and reasonable rates for collecting garbage, rubbish, trash, and tree limbs from houses, buildings and premises used for residential purposes have been found to be \$1.00 per family unit per month. For multiple dwellings or apartments, each family unit will be considered

as a single family residence; and fixing charges for department stores, tourist courts and other large business houses shall be worked out between the City of Slaton, Texas and the occupant or owner of the premises on the basis of volume of garbage, trash and rubbish which are hauled on the aver-

age each month from the premises which charge shall not be less than \$1.50 per user per calendar month and not more than \$100.00 per month for daily pick-up of the garbage, trash, rubbish and tree limbs for such large business establishments' premises. If no agreement can be worked out such service charges shall be set by the City to conform with commercial rates but not to exceed \$100.00 a month. Charges fixed herein for the removal and disposal of all garbage, trash, rubbish or tree limbs shall be levied by the City of Slaton against all owners, occupants, tenants or lessees using and occupying any building, house, structure or premises receiving such service. Since the proper and prompt removal of all refuse and garbage, trash, rubbish and tree limbs and other accumulation is essential to the preservation of public health and safety, it is necessary that this charge be levied against every person, owner or occupant, tenant or lessee using or occupying any premises, except those that haul the refuse away themselves each successive seven days, and thus provide for a more even and equitable distribution to the cost of this service to the citizenship enjoying the benefits thereof. Any person who shall fail or refuse to pay the charges herein specified within 20 days from the date same shall become due and payable shall have his services suspended, and the city health officer shall be notified immediately for appropriate action in accordance with the ordinances and laws regulating sanitation, including this one."

Section 2: The fact that the City of Slaton is put to great expense in the removal and disposal of refuse, garbage, and other accumulations in and around residence, business and commercial institutions creates an urgency and emergency, and in the interest of the preservation of public health, peace and safety, it is deemed necessary that this ordinance shall become effective from and after its passage and publication, and it is accordingly so ordained. PASSED AND APPROVED on this 13th day of November, A. D., 1961.

City Of Slaton, Texas By: L. O. Lemon Mayor Attest: J. J. Maxey City Secretary

# Testing Facilities 'Big Enough'

One of the biggest criticisms of animal research--doing it with too few animals--should be overcome with completion of Texas Technological College's new livestock facilities. "We'll have pens big enough to perform experiments on large enough numbers to give conclusive results," said Tech Dean of Agriculture Gerald W. Thomas. "And the tests will include all phases of livestock feeding research--from soil to table."

RESEARCH PEOPLE hear frequent complaints from producers that tests were conducted on too small a scale, added Dr. Ralph Durham, Tech animal husbandry department head. The new pens will allow 20 head in each pen or a total of 400 on the side where steers will be fed. On the other side, Dr. Durham said, will be an area equally as big for tests with breeding cattle.

A feature of the facilities is its hillside slant-made on the flat terrain near Lubbock by hauling in many truckloads of dirt. Dean Thomas said Tech researchers were tired of mud in winter. The pens will be floored with concrete. Another feature is the lengthy round bottom feed trough.

IN ANSWER to remarks that round bottom troughs are impractical, Dr. Durham said that if cattle are fed correctly there won't be enough feed left to require cleaning the trough. Future tests will be unsurpassed in silage-grain related studies in beef production. The setup will tie in soils, crops, yields and beef production representative to the Plains of Texas. There'll be about 1,600 acres in the facilities, including farm land. Crops are produced generally under irrigation, but more dryland production is planned.

To be sure of competent tests of feed ingredients, Dr. Durham has produced 11 varieties of silage. Each variety has trench silo. "That way," Dr. Durham said, "we can determine exactly the production cost and pounds of beef gain per acre. The big silo contains 3,300 tons of silage,

but 8,000 tons are on hand."

THIRTY-THREE acres each of white, red and yellow endosperm grain sorghum have been harvested and stored to compare feeding value, Dean Thomas added. Tests comparing the three types of sorghum have been limited because of lack of availability of the new grain with yellow endosperm. Hereford and Angus cattle are used in Tech's feeding tests. Dean Thomas described plans for the new beef cattle and dairy centers, making them equally as impressive as the feeding pens. Swine and sheep centers also are scheduled for construction in the near future.

ONE OTHER outstanding feature of Tech's livestock research is use of students as the labor force. "The best way for them to learn animal husbandry is to do jobs which must be done when they graduate and are on their own," Dr. Durham concluded. JAMES E. VANCE.

## LEGAL NOTICE

The State Of Texas, County Of Lubbock, City Of Slaton. Ordinance No.

Ordinance Designating Boundaries Of Four Wards In The City Of Slaton, Texas.

WHEREAS, in order to make a more equitable distribution of the voting population of the City of Slaton, Texas, between the four wards necessary to establish the following boundaries for the wards of the City of Slaton, Texas:

Therefore, Be It Ordained By The City Of Slaton, Texas: Section 1: The boundaries of the four wards of the City of Slaton, Texas, shall be as follows: The territory in said City lying south of Division Street and west of Ninth Street shall be known as Ward No. One; the territory in said City north of Division Street and east of Ninth Street shall be known as Ward No. Two; the territory in said City lying north of Division Street and east of Street shall be known as Ward No. Three; and the territory in said City lying south of Division Street and east of Street shall be known as Ward No. Four.

Section 2: The City Secretary is hereby directed to publish this ordinance in the official newspaper of the City of Slaton, Texas, for the edification and information of all of the people of Slaton, Texas. And It Is So Ordained. Passed And Approved: City Commission the 23rd of October, A. D., 1961.

Passed And Approved: City Commission the 13th of November, A. D., 1961. L. O. Lemon Mayor Attest: J. J. Maxey City Secretary

# The Key... And The Open Door

One of the disturbing discoveries of life is that the truth one man cherished seems a mystery to another.

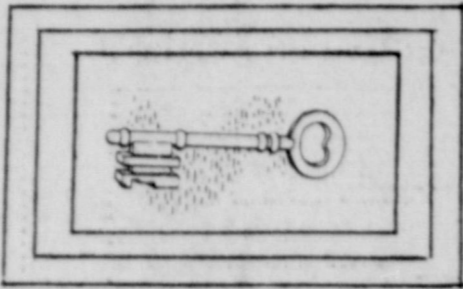

But is that surprising? We live in a world of doors and locks. To the man with the Key a door opens. To another it remains closed.

Among the keys to spiritual truth is one called HUMILITY. It accounts for many of the millions who worship God every Sunday in the churches of our land.

An American President once said, "I have been driven many times to my knees by the knowledge that my own strength, and that of all around me, was insufficient for that day."

He ruled a nation divided. But neither Blue nor Gray ever questioned the humility of the man who signed his name, "A. Lincoln."

Not only the portal, but the Truth of God's House, is every Sunday an Open Door to humble men.

## Worship Together This Week.

## ROGERS DISCUSSES RADIOACTIVE FALLOUT

Many questions are being asked and much concern is being evidenced with relation to the fallout from a nuclear explosion. The people should be given every possible bit of information on the subject. Hence, I have tried to gather together a few facts to pass on to you concerning the problem.

It appears that radioactivity comes from two sources: the explosion of a nuclear bomb, or the explosion of a thermonuclear weapon or hydrogen bomb. Both create radioactive fragments. The most important, or perhaps the most dangerous, are Strontium 90, Cesium 137, and Iodine 131.

The thermonuclear weapon adds another radioactive element, to-wit Carbon 14. When such an explosion occurs at or near the earth the dust particles are of course made radioactive. If such a weapon is exploded high in the air, the radioactivity of ground dust is minimized.

Radioactivity can give you cancer, shorten your life, make

your hair fall out, give you anemia, make you sterile, or affect heredity so that you or your offspring will produce malformed children. Such tragic results, however, depend entirely upon the dosage absorbed by the individual. Although the overall amount of radiation one gets from fallout is less than four percent of the natural radioactive dose absorbed day in and day out from cosmic rays, water, bricks, rocks in the ground, and so forth, this does not mean that there is no danger from fallout. It is here that the four elements, to-wit: Iodine 131, Strontium 90, Cesium 137, and Carbon 14 become important.

Fallout radiation, although no greater than natural radioactivity, insofar as dosage is concerned, could contain more concentrated amounts of one or all of the elements referred to, which would increase the danger. In other words, Iodine 131 could be taken into the body by drinking contaminated milk. Although milk presently con-

tains Iodine, it is the position of one group of scientists that the Iodine content would need to be increased approximately 1,000 times that which has been detected in the past before serious worry should be indulged. It has been suggested that since radioactive Iodine has an average life of about twelve days, the use of aged or powdered milk would measurably minimize any possible danger.

Strontium 90 cause bone cancer or leukemia. There is a continuing controversy between scientists as to the dose of Strontium 90 necessary to produce either.

### CARD OF THANKS

I want to thank everyone for their prayers, flowers, gifts, visits, and the many deeds of kindness shown during my recent illness. Especially to Dr. Glen Payne and all the nurses at Mercy Hospital I thank you. We appreciate and love everyone of you. May God bless you all is our prayer.

Mrs. George Gamble

Carbon 14 affects the genes, the heredity-controlling units inside your germ cells. Linus Pauling, a Nobel Prize chemist, has estimated that there will be 100,000 genetic deaths throughout the world in the next few generations as a result of Carbon 14 from tests up to 1958. It was also estimated that Carbon 14 has a life expectancy of 8,000 years. It is not like Iodine 131. It doesn't go away.

Cesium 137 also produces genetic defects. But it would appear from the information I have that the possibility of damage from Cesium 137 is much more remote than the other elements above named.

I pass this information on as scientific data that has been produced by scientists and translated by able newspaper people. Personally, I am in somewhat the same position as the President of the Pampa Rotary Club in the early days of the Atomic Age. He had procured the services of a scientist to address a dinner meeting of the Rotary Club. The scientist warned us of the top level secrecy of atomic information, but proceeded to outline in such detail the intricacies of the science of Einstein could have used him. When he had concluded his long dissertation I assured him that none of the members would reveal a secret of how to split the atom.

## THE AMERICAN WAY

Depends On Who Does the Fixing.

Here are a few "gems" from other papers you might enjoy: From Marvin Tomme's column in the Ralls Banner:

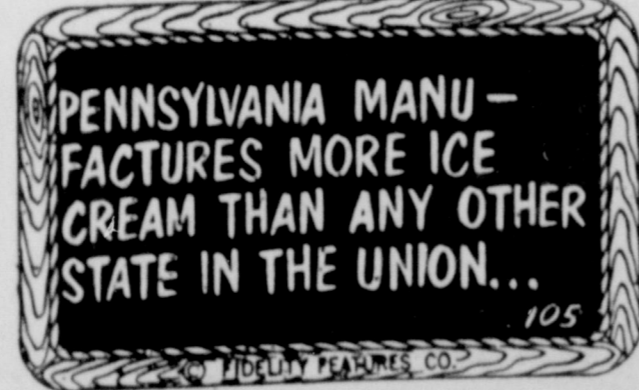

Could be that I'm trying to cut the national debt and deficit spending too much at one time, but I received an example this week that has pretty well capped the show. I found in my post office box, as I'm sure did other area editors, the brown manila envelope used by the government and marked--Official Business--carrying no stamp, but the stern warning and the penalty against using the envelope for personal reasons. On the trip back to the office I worried about whether I had failed to pay my income tax, if I was being drafted or if this was the notification of a national emergency. After centering the envelope on my desk and staring at it until I had gathered enough courage to open it I thought of at least a dozen other things that could be borne in the little epistle. Finally, after deciding I shouldn't throw it away and say I had not received any such thing, I opened it to find I had been worrying over absolutely nothing. The letter was an advertisement for the second edition of "Chief Propelled," an international recipe cook-book of the Reese Officer's Wives Club. The letter states that various gourmet delights(?) found in the book are the concoctions of officer's wives who have been stationed in countries around the world. Oh well, what's a few envelopes and

sheets of paper? It won't be missed in the national budget and surely a few hundred more pieces of mail won't put the postal department in the red--much more. By the way, I lost the price of the book but I do remember it takes 15¢ for handling.

Sudden thought: Middle age is when you'd rather pay the piper than dance.

Daffynition: Distillationment--finding a corn pad while drinking champagne from a slipper.

I don't know if Mr. K. will make good his threat to bury us but he has--for the moment--buried "Good Old Joe" Stalin, his former chief and mentor in mass murder; in the dark of the night K. had his henchmen close the black mausoleum for "repair." The remains of the number two hero of Russia were roused from their eight-year slumber and moved to a cemetery and planted unceremoniously six feet under. Khrushchev's denunciation of Stalin before this year's party congress wasn't made public until just before Stalin's removal from his tomb and the average Russian wasn't ready for this climax. Apparently the Russian people share the universal disapproval of those who speak evil of the dead, considering the talk following Stalin's removal from his place beside Lenin. And if Mr. K. doesn't sleep well at night, it just might be that Old Joe has come back to haunt the little balding successor.

You don't have to have a remarkable memory to recall when you wished for the income you can't live on now.

Sudden Thought: It's a free country, but the upkeep is pretty costly.

From "Uncle Zeb's column in the Claude News:

If we cannot be a lighthouse we can strive to be a taller candle. Whatever we may lack in qualifications we can make up in part by our willingness to make the best of the talents we do possess.

Mr. Spurgeon once said: "Be good, and do good. Do all the good you can; in all the ways you can, as often as you can, and as long as you can."

If we live each day as if it would be our last, someday we will be right. We should work as if we needed no help, and pray as if we were helpless.

If we hide behind the shortcomings of another as our excuse for doing nothing, we are admitting that they are bigger than we are.

Someone has said, "We should behave like the duck, keep calm and unruffled on the surface, but to keep paddling like the mischief underneath."

We shouldn't complain about growing old. There are lots of folks who would give anything for the opportunity. If we are not getting older, we are gone.

It is said that you can judge a man by three standards: the things about which he laughs most, the things he blames his troubles upon, and the way his children act when he comes home.

Our experience is only a dead loss unless we can use it for more than it cost us.

TV SETS outnumber flush toilets or bathtubs in American homes, says the Census Bureau. Some 88 per cent of U. S. homes had television, only 85 per cent had sanitary plumbing. Another census oddity: married women outnumbered married men by 300,000 in the 1960 count, mainly due to the absence of married servicemen stationed abroad or married crewmen of merchant vessels at sea. ... DOGS can be trained to smoke -- but it's hard to get them to enjoy it, reports a doctor in St. Paul.

## Our Men In Service

V CORPS, GERMANY (AHTNC)-- Army PFC James L. White, whose wife, Ola, and parents, Mr. and Mrs. Jack White, live at 100 E. Geneva, Slaton, is scheduled to participate with other members of the 50th Infantry in Exercise Main Barge, a V Corps field training exercise to be held in central Germany Nov. 13-17.

The exercise, which will involve some 28,000 troops, is designed to develop small unit leadership and test combat readiness. Friendly forces, opposed by an 'Aggressor' force, will be supported by both conventional and atomic-capable artillery. The exercise will also feature assault crossings of the Main River.

A rifleman in the infantry's Company A which is regularly stationed in Wildflecken, White entered the Army in June 1960, completed basic training at Fort Ord, Calif., and arrived overseas last November.

The 19-year-old soldier attended Slaton High School.

FORT BLISS, TEX. (AHTNC)--Army Pvt. Kenneth B. Harston, son of Charlie B. Harston, Route 1, Wilson, recently completed a three-week course in communications, driving and methods of instruction at Fort Bliss, Tex. Harston entered the Army in

### SHAMROCK TIPS

"I use him when the grease life is broken" You might read about our type of service in story books--it's that amazing... but we're wide-open when you want to drive. Give us a trial soon.

WYLIE OIL COMPANY 1400 S. 9th VA 8-7110

January 1961 and completed basic combat training at Fort Hood, Tex.

The 22-year-old soldier, son of Mrs. Junita I. Harston, 406 Avenue X, Lubbock, is a 1957 graduate of New Home High School.

KIRCH GONS, GERMANY (AHTNC)-- Specialist Five LeRoy B. Bloodworth, son of Mrs. Irvin Reed, Slaton, recently re-enlisted for six years in the Regular Army while serving as an assistant tank commander in Company B of the 3d Division's 33d Armor in KorchGons, Germany.

Specialist Bloodworth entered the Army in 1955 and was stationed at Fort Hood before

his arrival overseas last January on this tour of duty.

The 24-year-old soldier is a 1955 graduate of Slaton High School.

The owner of a circus was being pestered by a clown to engage him and his pet monkey.

"My partner is very clever," he said, "he can talk, sing and dance--he is positively human."

"If that's the case," exclaimed the circus owner, "why is he on a leash?"

"Because," confessed the clown, "he owes me twenty bucks!"

### BLUE-CHIP INVESTMENT

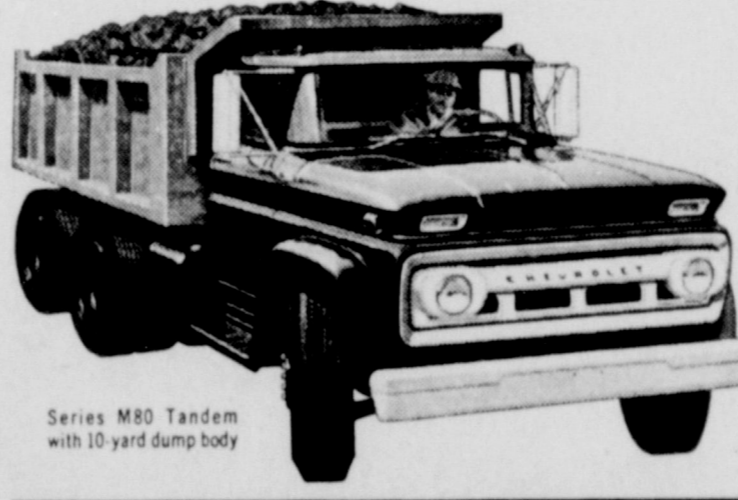

A Gas clothes dryer is more than a purchase. It's an investment that pays real dividends. Clothes last longer because nothing is gentler to even the most delicate fabrics. Gas drying is safer -- authoritative statistics say so. And when you can save up to \$25 a year on utility costs, isn't this an investment in smart housekeeping? See your Gas Appliance Dealer now, during his Fall Sale of Dryers.

# HIGHLIGHTS AND SIDELIGHTS

## From The State Capitol

### Number Of Tourists Times In Texas

is the State Highway Department.

The upcoming all-day session is designed to build grassroots support for legislation to finance a program of advertising.

**SAFE HIGHWAYS**--An increase in highway fatalities this year, after a 26 per cent decline in past years, disturbs the state's chief policeman, Col. Homer Garrison Jr. of the Department of Public Safety.

Present statistics indicate the number of deaths in 1961 will be 20 to 25 more than the 2,254 of 1960. So Colonel Garrison has sent out word for his men to redouble their efforts to remove the unsafe and reckless drivers from the highways.

Program includes more use of radar equipment to check speeds, especially the new type which requires only one highway patrolman per car. It also includes more stopping of drivers to make sure they hold drivers licenses.

Tougher enforcement policy will be followed by Governor Daniel's annual Christmas traffic safety drive starting with Safety Sunday -- December 10. Governor Daniel urged pastors to remind their members of their personal and moral obligation to drive carefully.

**CAMPING OUT** -- More and more people are using the state park system for overnight camping.

Bill M. Collins, executive director of the State Parks Board, reported that 398,419 persons registered for overnight camp facilities in Texas parks during the fiscal year which ended August 31. This is far above the 297,418 of the previous year.

Attracting the greatest number were the rugged canyons of Garner State Park. Gain there was 70 per cent, or an increase to 138,951 from 99,731, during 1961. Palo Duro Canyon and Huntsville State Parks also showed substantial gains in campers.

**WATER CHANGES**--Personnel

of the important State Board of Water Engineers has undergone a shake-up.

Governor Daniel has moved Chairman Durwood Manford to the State Board of Insurance, which is troubled by several legislative investigations. Manford, a former speaker of the House of Representatives, can be expected to work on Board-Legislature relations.

To replace Manford, Daniel chose as chairman of the Board of Water Engineers Joe D. Carter of Sherman. He moved him from his present job as executive director of the Texas Water Development Board, the state water lending agency.

Carter has been in state water work since 1952. He has served as legal counsel for the Texas Water Resources Committee; legal examiner for the Board of Water Engineers; and as the first executive secretary of the Water Development Board.

He is an attorney and a former representative and senator.

H. A. Beckwith of Eagle Pass was named to the Board of Water Engineers. He previously served 10 years on the board. Since 1958 he has been its chief topographic engineer. R. M. Dixon of Dallas leaves the board.

The Board of Water Engineers is the state's water administrative and planning board. It decides who can take water from Texas streams. It also has worked out a master plan for meeting the needs of the state for municipal and industrial water for the year 1980.

**MORE TAX LAWS?**--City officials had their annual meeting, and heard Governor Daniel give support to their main thesis--that cities need new sources of revenue if they are to handle the growing problems caused by Texans moving to town.

Most likely avenue is the movement to have the state abandon the property tax, so it can be used exclusively for city and school purposes. The State and Local Tax Study Commission created by the Legislature in 1959 is specifically directed to report on this possibility.

Speaker James A. Turman filled two vacancies on that study group. He named Reps. Charles L. Sandahl of Austin and Charles N. Wilson of Trinity to work with senators and citizens who have been named to it by Governor Daniel and former Lieut. Gov. Ben Ramsey.

In addition to reporting on the idea of state abandonment of the ad valorem tax, now bringing in about \$40,000,000 a year, the commission will report on whether other new tax sources should be granted to cities which need them.

Most startline tax news came from James McGrew, research director for the Texas Research League. He said it is a very close question whether the new sales tax will produce enough state revenue in the two years starting September 1, 1963, to keep the state's books in the black. The big factor -- steady and heavy growth of public schools and colleges.

**HIGH HEAD COUNT**--Enrollments in the 19 colleges and universities operated by the state government rose sharply this year -- about 11 per cent.

Total head count at the 19 schools this fall was 100,982. This compares with 91,960 a year ago and 52,568 only 10 years ago.

Addition of the University of Houston to the list of state-supported colleges in 1963 will give the state school total a big jump. Its 11,860 enrollment this fall makes it the second largest in the state, second only to the University of Texas' 20,396.

Texas Tech at Lubbock has become the third largest with 10,212 enrolled.

Colleges and universities which are not state-supported showed a smaller gain than the state schools -- from 59,036 to 60,924. One factor in the change was the move of Midwestern University at Wichita Falls into the state-supported group.

Fastest-growing college is Arlington State. It had 1,318 students 10 years ago and now has 8,318 to rank it fifth largest. Right behind is Texas A & M, which has 8,835 students this fall.

**MORE TIME**--The State Board of Insurance urged all insurance companies to extend by 60 days the 90-day period allowed under Texas standard policies for filing proofs of loss on Hurricane Carla.

While it was not an order, it is fairly certain the industry will obey the Board's suggestion voluntarily.

Legislative investigation was completed on the claim-paying practices arising out of Carla. Rep. Charles Ballman of Borger, chairman of the House Investigating Committee, suggested strongly that some legislation should result.

Legislators were particularly critical of the fact that the Texas policy carries the word "hurricane" on the front, but also carries an endorsement which limits the coverage somewhat.

They also found many Texans do not have their insurance policies, because mortgage companies require that the policy be filed with them. Legislators suggested that copies be supplied the homeowners, too. Some insurance companies do, and some do not.

**NURSE PROGRAM**--Studies by the State Board of Vocational Nurse Examiners reveal that 24,613 vocational nurses have been licensed in Texas since 1951. Also 103 training schools now are in operation over the state. Examinations on October 20 and 21 resulted in licensing of 656 candidates.

It now takes one year in a vocational nurses school or two years in a professional nursing school to become eligible to take the state board examinations.

**WORKING ON THE HIGHWAYS**--Texas Highway Commission laid out \$20,000,000 worth of work for its staff to do to improve safety on 2,433 miles of primary highway.

List includes 378 projects in 156 counties, and ranges from pavement and bridge-widening to complete reconstruction.

Highway workers are getting some new training, too. They will be taught how to detect radiation contamination, so traffic can be routed away from unsafe areas in case of a nuclear attack.

Announcements for office, state-wide speaking tours, and fund raising dinner plans are setting the stage for the upcoming campaigns.

Only announced candidate for governor, thus far, has been Jack Cox of Breckenridge. Cox will be running in the Republic primary.

As yet, no formal announcement has been made by any Democrat. But the field of probable candidates is growing daily.

Formal announcements by three senators for the lieutenant governor's race assures warm competition for the place left open when Ben Ramsey moved to the Railroad Commission.

Sen. Jarrard Secrest of Temple, Sen. Bob Baker of Houston, and Sen. Preston Smith of Lubbock are the announced candidates. There is likely to be GOP opposition for this post as well as at least one other Democrat.

Only thing certain now is that there will be stiff competition for those primary votes on May 5.

**CAPITOL VALUE** -- For years, the huge red granite State Capitol, which was paid for with

3,000,000 acres of West Texas land, has been carried on the state's books at a value of \$131.50.

Board of Control has appraised the Capitol at \$9,948,391. They valued the land on which it is located at \$5,143,623. It's not for sale for the total of \$15,092,014. But at least it's on the books right, now.

Incidentally, the old Capitol is getting a re-furnishing. Workmen are replacing cracked and splintered panels in the hallways, and removing the old varnish. It will come out lighter and brighter.

**NEW LAWS**--Atty. Gen. Will Wilson quickly plugged one possible loophole in the "Blue Law."

He advised Dist. Atty. Henry Wade of Dallas that a corporation owning two or more stores must close them the same day. One can't open Saturday and the other Sunday. Nor can a store accept orders by phone in advance to be delivered on Sunday.

Wilson also is busy interpreting other new laws, among them the one requiring holders of property for others, except banks, to report it to the state when the owner hasn't been around for seven years.

He advised Treasurer Jesse James that an oil company which holds royalties outside Texas on oil produced in Texas does not have to report it to the State of Texas except that amount held for persons whose last known address was in Texas.

The attorney general expects so much work out of this new law that he set up a special division to handle it.

In another opinion, Wilson held that wiretapping to record phone conversations is not illegal in Texas.

**THIRD ROUND**--In the next few weeks, Gov. Price Daniel will have completed his third round of appointments.

Most of the state's operations are directed by 3 or 9-member boards, appointed for six-year overlapping terms.

These appointments are made to more than 140 state boards and commissions.

Latest appointments include: David B. Irons, Dallas; Dr. Horace Cromer, Austin; Mrs. H. E. Butt, Corpus Christi, and Howard Tellepsen, Houston, to the Board for State Hospitals and Special Schools; Max Starcke, Austin, and Harry Hornby, Uvalde, to the State Parks Board; and Sam G. Wood, Killeen, and Hatton W. Simpson, Tyler, to the State Board of Pharmacy.

**WATER POLLUTION BOARD**--Governor Daniel named former Rep. Sam Wohlford, Stratford; J. S. Hudnall, Tyler, and C. G. Shigley, Freeport, as public members on the new State Water Pollution Control Board.

Board of Water Engineers Chairman Joe D. Carter, State Health Commissioner J. E. Peavy, M. D., and Game & Fish Executive Secretary Howard Dodgen, or their alternates, will complete the board.

In the future, no one may discharge waste of any kind into or adjacent to the public waters of Texas, or the Gulf of Mexico, without a permit from this board.

Unfortunately, this board was handed a big job but no operating money. Governor Daniel will ask the Legislature, at a special session in January, to provide some expense money for it.

**SHORT SNORTS**

Starting January 1, the State Welfare Department will begin paying medical, hospital and nursing home bills for the 225,000 needy aged who are on the old-age assistance rolls. Program will cost about \$12,000,000 in state money in the coming 20 months. Federal dollars match the state's.

Governor Daniel has reactivated the Governor's Committee for the White House Conference on the Aging, to resume its study of the problems of the aging. Sen. Crawford Martin of Hillsboro was named chairman.

The first month's payments under the new natural gas tax totaled \$356,481, but \$305,532 of it was paid under protest. Gas pipelines have brought suit to kill the new tax.

Income from the first 90,780 reports received by Comptroller Robert S. Calvert was \$7,206,727. Calvert thinks it will be February, when the first full quarter's sales tax is collected, before he can tell whether it will yield the estimated \$319,000,000 in two years.

### Don Edwards Is In NTSU Choir

DENTON--Donald William Edwards of Slaton is a member of the North Texas State University Choir, which will perform here in a concert of music for organ and brass Nov. 13.

The choir will appear on a program presented during the annual joint meeting of the Dallas and Fort Worth chapters of the American Guild of Organists.

Directed by Richard Lamb, graduate teaching fellow in the School of Music, the choir will sing "In Ecclesiis Benedicite Domino" by Giovanni Gabrieli.

Edwards, son of Mr. and Mrs. J. S. Edwards Jr., 745 S. 18th, Slaton, is a freshman music major at NTSU. He is also a member of the West Dorm Association on campus.

With 11,350 Americans killed by fire during the year, 1960 added up to the worst on record.

The unprecedented destruction of life and property occurred in almost 2,124,000 fires.

Principal causes of fire, according to the NFPA, were careless smoking, defective heating and cooking equipment, electrical defects, and mishandled flammable liquids.

More Nickel Used for Plating

The electroplating industry in both the United States and Europe used substantially more nickel in 1960, mainly as a result of the use of improved plating techniques which provide higher quality nickel plating.

## Old Friends

Mrs. I. C. Tucker returned last week from a trip to California where she visited her son, James C. Tucker, class of 1940. James is the dealer for the Los Angeles Times Newspaper in Brawley, California. The Tuckers live at 103 West J in the same city. Mrs. Tucker also visited her sister, Pauline Rice (Kirksey), class of 1932, and her husband Robert Kirksey, class of 1930. The Kirkseys live in Crestline, California and can be reached at P. O. Box 245, Crestline. We understand that Bob operates a concrete and masonry business in that area.

Another Slaton mother visiting children in California the past two weeks was Mrs. O.Z. Ball. Shirley Ball, class of 1953, and her husband, Jimmy Barton, class of 1952, now live at 815 - 33rd Street, Apartment C, Bakersfield, California. Jimmy is the assistant branch manager for S.I.C., a credit association. The Bartons are reported to be doing fine but have the Texas blues.

Bruce Maxey, class of 1942, with his wife and two daughters, visited family and friends in Slaton last Saturday. Bruce is the assistant foreman in the sheet metal works at the Amarillo Air Force Base. The Maxeys are at home at 2707 Aletha, Amarillo.

Leo (Red) Wisely, class of 1930, was a Slaton visitor last week. Red lives at 707 West Eleventh, Post, Texas and is employed by the Texas Highway Department.

Jackie Shepard, class of 1958, and his family have been visiting his mother and dad, Mr. and Mrs. R. M. Shepard, for the past few days. Jackie is serving in the Navy and will be stationed at the Corpus Christi Naval Base Hospital.

In last week's report we inadvertently changed Wayne Kirkpatrick's name to Jack. Our sincere apologies Wayne, we must have been thinking about the Post Kirkpatrick. At lease we found out that some one reads the ex-students news since our attention was called to the error. We appreciate anyone calling our attention to any error that we might make.

Our thanks to Edith Haliburton, class of 1956, and Dorothy Jones, class of 1943, for getting the list of names and addressed of their classes in this week. These lists have been transferred to a card file which is complete on these two classes. The secretary, Mrs. R. M. Shepard, will appreciate receiving lists of other classes as soon as possible.

...SPACE SHIPS with blast-off weights equal to that of our biggest battleship--50,000 tons--appear "feasible," according to a report to the American Rocket Society.

HOW FULL is your freezer? It may make a difference, if the electricity goes off. Specialists at the Department of Agriculture report the food will stay frozen about two days if the freezer is fully loaded, only one day if it's half full. Dry ice will help keep the con-

tents frozen if the power failure is a long one. SMOOTHER-TEXTURED ice cream is produced when the formation of large grainy crystals can be minimized. A development in Louisville, Ky. already used extensively in the manufacture of peanut butter and margarine has been applied to the production of ice cream. This Votator continuous-processing equipment utilizes temperatures lower than usual in the ice cream industry--with regulator smaller crystals.
