City Judge Luther Gregory won a Texas Safety Assn. award for traffic safety promotion, but Slaton was unofficially tabbed a "middle of the roader" in maintaining an effective traffic safety program, it was revealed here Monday night in the presentation of the city's annual traffic inventory.

Prepared by the National Safety Council from reports sent in from the city, the presentation was made on behalf of the national organization by C.A. Dempsey, Texas Department of Public Safety officer.

Slaton's community traffic safety activities showed a slight gain in 1963, rising from a rating performance of 57 per cent in 1962 to 63 last year. However, it was indicated the trend was for a gradual gain for a year or two, then a decrease in performance.

Dempsey emphasized that the analysis of the report was not meant to offend anyone or attemping to put the blame on any official. The report came up with nine suggested targets for 1964-65 improvement. They

1. Eliminate angle parking on J.S. and state highway routes through the city.

# **Water Board** Named; Dog **Pound Planned**

BY O.G. NIEMAN Editor

Water and dogs -- two of men's best friends--were topics for discussion at Slaton City Commission meeting Monday night. An enemy, the pesky mosquito,

also came in for discussion. A "Best in Texas" award for traffic safety promotion was presented to City Corporation Court Judge Luther Gregory in another highlight of the meeting. Slaton's annual traffic inventory was also outlined prior to the award presentation by C.A. Dempsey, safety officer from the Texas Department of Public Safety.

The commission discussed immediate and long-range water needs, leaving the longrange program in the hands of a newly-appointed Water Research Board.

Named to the seven- man committee were T.A. Wallace, Charles Walton, Doug Galassini, Bo Becker, Jim Hughes, Dr. Don Hatchett and Edwin Forrest.

In other action the commission approved the site for a dog pound and authorized funds, not to exceed \$1,250, for constructing the facility. The pound will be located behind the sewer pump station near the intersection of Railroad Ave. and

New Maxico St. The city recently passed a new dog ordinance providing for the animals to be tagged, vaccinated and kept from running loose. The complete ordinance is published in today's Slatonite and becomes effective Oct.

Selection of the site for the dog pound took considerable time but was agreed upon unanimously. Commissioner Robert Banks Ir. was reluctant to agree on the site, but finally voted with the group when no suitable alternate location was presented.

It was pointed out that no houses were close to the location and that the pound would be washed and cleaned daily. City officials thought the pound should be easily accessible, and not located out of the city limits.

Several commissioners reported a deluge of calls from citizens complaining about mosquitoes in the past week or two. It was pointed out that a Lubbock County crew sprayed the city, or portions of it, Friday evening, and that they were called over again Monday.

The county crew has been providing the service for a number of years, according to Mayor Jonas Cain. The city of Slaton has no equipment for spraying the insects--or their breeding places. Commissioner Earl Reasoner requested that the county health officer be invited to attend the city meeting. and explain what is being done, or needs to be done.

Reasoner said many citizens were worried about the mosquitoes after reading about encephalitis ( or sleeping sickness) outbreaks in other towns. He said he felt it was the city's duty to check into the situation further.

The commission agreed, and (See WATER on Page 7)

Chairman, Lubbock County

# DON'T SELL AMERICA SHORT

DEAR LUBBOCK COUNTY VOTER:

We want you and every person in Lubbock County, Texas to know the Issues In the 1964 Novem General Election so that Tuesday, November 3rd, 1964 you can strike a blow for Liberty through the world by scratching nominees of all political parties for President and Vice President of all UNITED STATES OF AMERICA except the Republican nominees -- United States Senator BARRY WATER and CONGRESSMAN WILLIAM MILLER, You must scratch not only the democrates, he minor par ty or your ballot may not be counted,

Senator GOLDWATER HAS served his country well in World War II, In the China, Burma, India The ter of Operations ( and is now a Major-General in the U.S. Air Force Reserve) and in the UNITEDSTA SENATE where regardless of the issue and the pressures he has stood for the sovereignty and indep dence of the UNITED STATES OF AMERICA and for the dignity of the individual and has steading and courageously voted time and time again against big government. Which is choking off the right each of us, day by day.

The bureaucrats do not come out and tell you the kind of socialistic society they are planning for but piece by piece it is falling into place -- as in the story of the German in prewar Hitler German worked in the baby carriage factory. His wife was going to have a baby and kept . after him to baby carriage to be ready, but it seems that in a country gearing for war there were none to be b in the local stores -- so the prospective father decided he would scrounge a part at a time and tail home; and finally when he had all of them and he put them together and lo and behold had a ma

Senator GOLDWATER is for continued freedom for you, your family and this great nation the LNTE STATES OF AMERICA,

Congressman BILL MILLER is a brave and resolute graduate of NOTRE DAME UNIVERSITY who has always been in the forefront of Congressional efforts to preserve and extend freedom of the individual everywhere.

If you want to help elect this team, inform yourself on the issues -- then inform your neighbor, you

If you wish to help the Lubbock County (Goldwater - Miller campaign by going to work for this tea whose election would preserve this nation for your and yours -- then send a donation today to the Li bock County Republican Party, 2138, 19th Street, Lubbock, Texas and get in touch with the party quarters at phone number PO3-4671 or the Lubbock County Republican Party at its above address Lubbock, Texas. If you will be able to help locally be door to door campaigning or by helping to every voter to vote or as a dedicated poll watcher on election day.

Strangely enough, a large percentage of Americans do not vote--we must not lose our freedom property, our future, our very lives -- through our own apathy. We must know the facts and we can then cast an informed vote, "Know the truth--and the truth will make you free,"

### Workers To Start Closing Dam Gap

1/2 pt. Milk

AMARILLO-- Workers will begin closing the gap in the Sanford dam northeast of here in about a week, C.O.(Spike) Crane, resident engineer on the project, said this week.

Water will be diverted through the tunnel along the so. side of the canyon wall while the dam is being completed, Crane said. It is expected the dam will begin impounding water in March or April, depending on weather encountered during the winter.

The lake will supply water the 11 Panhandle South Plains Cities, including Slaton, which are members of the Canadian River Municipal Water Authority.

The cities will begin drawing water from the lake in 1967, by which time an aqueduct system now under construction will have been completed.

# A BIGGER World

## THE CHURCH FOR ALL - ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily

There comes a time, even in a chick's life, when the way must open to a greatly expanded world. When his confining shell no longer allows proper growth, he makes a point of throwing off his shackles and steps out into a big, strange world.

This comparatively simple phenomenon is paralleled in human existence as each child grows toward adulthood, and reaches out for the wider horizon. What he finds there will depend in great part on what he has been taught.

For this reason the early and continued guidance of Christian home and church are all-important. From these things the foundation of faith is built. Through faith and understanding the shackles of fear and bondage are dispelled. and your child grows spiritually strong to meet the ever-widening horizons and challenges of a modern world.

# A letter to our Congressman from JOE B. PHILLIPS

The Hon. George Mahon Congressman, 19th District 1211 New House Office Building Washington 25, D.C.

Dear Mr. Congressman:

This is another letter to acquaint you with my views concerning issues in this year's Congressional Campaign. Whenever it is convenient, I would be delighted to discuss publicly our opinions in an open forum.

I am unalterably opposed to our government's aiding communistic countries which are openly dedicated to burying us as a nation. Selling wheat to the Russians, was in my opinion, a very serious mistake. By extending credit to the USSR to buy wheat, we have turned our backs on the patriots in Cuba who burned their crops in an effort to bring about a collapse of the communist government in

It is my conviction that we must not give any foreign aid to those nations which are communist or communist dominated. In my opinion, we need to develop a realistic foreign policy to serve our interests and those of our allies. We need to help our friends, but we must stop aiding and abetting an enemy dedicated to our destruction.

Very truly yours,

JOE PHILLIPS **ELECT JOE B. PHILLIPS**
