Slaton, Lubbock County, Texas

TEN CENTS

Wheeler is Postmaster; Began Duties Tuesday

RUSH WHEELER

Rush Wheeler, Slaton resident since 1957, Tuesday morning began duties at the postmaster position here, succeeding Barry Ford, postmaster since January of '61.

Ford will remain at the local postoffice, likely serving in clerical and other capacities.

Presidential nomination of Wheeler for the \$6,255 job came in early March, and all technicalities were completed this Monday when Postal Inspector A. A. Slingerland of Lubbock administered the oath of office to Wheeler.

Wheeler was one of the 10 applicants for the local postal job, taking the written test in mid-June of last year. For some three years he operated a department store here, more recently being employed in Lubbock at the downtown J. C. Penny store.

Mr. and Mrs. Wheeler have three sons: Mike, Bill and Pat.

PRETTY CHEERLEADERS for the 1963-64 term at Slaton High School already are in the spirit of the game, practicing new yells and anticipating the July cheerleader school which they will attend in Galveston.

Pictured here in one of their formations are (l. to r.) Peggy Kirksey, sophomore; Kathy Gass, junior; Diana Schutte, senior and head cheerleader; Carole White, senior; Rita Martindale, freshman; and the petite mascot, center front, Leisa Ren.

Extensive Re-Planting Taxing Seed Supplies

Rain-shy farmers, many of whom have re-planted washed-out cotton two or more times, have experienced another discouraging week, but summer days interrupted by several hard afternoon and evening showers. Rain fell in the Slaton area both Thursday and Friday of last week, followed by a repeated and heavier performance Saturday. Showers again fell in several localities Tuesday, and forecast continues for scattered showers. Ginners report that an acute

shortage of all cotton seed has been effected because of the extensive re-planting, with certified seed almost impossible to get. The popular 101-A Paymaster variety seed supply has been exhausted for all practical purposes, with some Gregg certified seed being available early in the week.

Reports tell of four plantings already attempted by some cotton growers, and all agree that the calendar is now becoming a prime factor in the crop outlook. Rare exceptions have seen burrs made with a June 15th (or later) planting, but the rule has been that earlier seeding is much safer.

Dry weather lakes are running over, and any rainfall now finds no place to flow, consequently many fields are soaked to the extent that planting is unduly delayed, even with the drying 90 degree temperatures experienced this week.

Tuesday evening rainfalls reported to the Slatonite included (See No. 3, Back Page)

Babe Ruth Ball Queen Contest Candidates Vie

Interest is reported high in the Babe Ruth League Queen Contest, with vote reports now coming in. Caron Caldwell, representing the Chiefs, leads in early reports with 2986 votes; Carla Fondy, Flyers candidate, close at heel with 2750 votes. Collette Holt of the Cubs has tallied 1755 votes. Reports from other teams had not been received by officials late yesterday.

Team standings in the Babe Ruth League (up to Sunday, June 9th) are:

Team	Won	Lost	Pct.
Comets	6	1	.857
Cubs	4	2	.667
Ginners	3	4	.429
Flyers	3	4	.429
Chiefs	2	5	.286
Colts	0	2	.000

Huge Bass Yields To Line of Member Methodist Picnic

A week-end Sunday School outing at Lake Thomas makes the news by virtue of a big 5 lb., 8 oz. black bass snagged in those waters by Nan Saage.

Nan was among members of the sophomore Methodist class taken by teacher Bill Hall to Lake Thomas for a Friday-Sunday outing. Others making the trip were Marilyn McSween, Jan Scott, Judy Edwards, Sharon Self, a guest; David Jaynes, Larry Gamble, Mike Ball and Ray Ayers.

Hiring of a new city secretary in Slaton was authorized at regular meeting of the City Commission in a long Monday evening session.

The motion, passed in a 3-2 split vote, in effect dispenses with the services of J. J. Maxey who has served in the secretary capacity since Nov. 14, 1944.

Motion for the change came when Mayor Jonas Cain stated that he believed it proper time to consider re-hiring or change of department heads in the city administration, whereupon Commissioner B. H. Bollinger made a motion that a new city secretary be hired, and Commissioner Fernando Gonzales seconded the move. No discussion was forthcoming, and voting found Bollinger and Gonzales favoring the move, Commissioners Robert Hall Davis and Truett Bownds, voting "nay". Mayor Cain, exercising his prerogative of voting in any "tie" situation, cast the deciding vote, that for employment of a new secretary.

Incumbent Maxey at that time requested that he be allowed to remain in the position until such time as the city audit was completed, and Mayor Cain replied, "I want you to".

Absolutely no other discussion of reasons or issues was presented by any commissioner at the meeting regarding the secretary change.

At presstime today Maxey had issued no statement as to his future plans.

Though the Monday night action was triggered by call for consideration of employment of department heads, no motions were made regarding any of the other positions, and this item of business proved to take less

time for transaction than any of the many items on the agenda.

METER READING

George D. Willis, water and sewer superintendent, was present and virtually placed "on the carpet" for the longest discussion of the meeting. Mayor Cain questioned Willis at length regarding methods of reading meters, and final decision by mutual consent of the commission was for Willis to instruct his meter readers to walk on their reading tour this month, using the pick-up next month, then comparing the costs and efficiency of the two methods. Mayor Cain in the meantime had pointed out receipt of numerous complaints by taxpayers who asserted their meters had not been read properly or read at all during some months.

JAIL SCANNED

Mayor Cain directed intense questioning to Police Chief Gene Martin, reporting that the mayor found the jail in a very unsanitary condition when he inspected it on Monday morning of this week. Martin advised that 14 drunks had been handled through the jail over the weekend to cause this condition, the inspection coming before cleanup had been effected.

Martin further told that the traffic survey, requested at last meeting, was about one-half complete and would be finalized by time of next regular session of the commission.

FIRE DEPARTMENT

Firechief Curtis Dowell was on hand and injected subject of a pay raise for the resident firemen. No action was taken.

Dowell also advised that the used siren recently purchased should be installed in the south sector of town, and the group voted unanimously to authorize such installation. The chief also took the floor to evaluate equipment of the fire department, telling that one 1928 model pumper had barely passed state inspection and was in bad condition at present time, one 1956 pumper was in good condition, and that the 1940 model booster truck was in bad condition. He advised that the department is in need of additional pumping equipment to adequately protect the city from bad fires.

SCHOOL WATER RATES

Mayor Cain told that Dr. P. L. Vardy, superintendent of schools, had requested the school be given a summer rate in order that the various school properties could be watered adequately during the summer months. After discussion, the commission voted unanimously in favor of motion by Commissioner Davis, second by Bownds, that the schools be charged 30c per thousand gallons for all water used over the minimum charge of \$3.50 for the summer months through Sept. 15th of this year.

OTHER ITEMS

Mayor Cain suggested that the budget be approved as previously presented and studied. Unanimous approval was given on such motion by Bollinger for approval of the budget with specified exceptions.

Two bids, one by a Lubbock firm and the other by the Slatonite, were revealed for several items of office furnishings for the remodeled city hall. Commissioner Bollinger moved that the bid from the local firm be accepted, and the motion was adopted with Bollinger, Gonzales and Bownds favoring, Davis dissenting.

Commissioner Bownds reported that he had received complaints of children riding bicycles on sidewalks. He also averred that additional mosquito control in the city was needed. By mutual consent, the commission decided to instruct the sanitation superintendent to contact the city-county health unit regarding additional fogging and dusting.

Commissioner Bollinger told that Bill Rust had a number of trees that he wanted pulled and that six or eight loads of caliche were needed. No discussion or motion was noted.

Several other routine items, minor purchase requests and policy decisions were handled during the meeting. All commissioners were present.

Slaton Junior At Girls State

Mary Ruth Green, junior high school student, left Tuesday morning to represent her community at Bluebonnet Girls State in Austin, the American Legion Auxiliary-sponsored statewide meeting for junior girls.

As at Boys State, the Bluebonnet Girls State program is devoted to training in citizenship and state government functions. The local Legion Auxiliary annually sends a girl on expense-paid trip to this meeting, her selection coming on basis of scholarship, character, aptitude, ambition and leadership.

Mary Ruth is the third daughter of Mr. and Mrs. George Green to be accorded honor of a trip to Girls State, Joan Green having attended in 1949, and Venita Green selected in 1957.

The 10-day convolve convened Wednesday in Austin.

MARY RUTH GREEN

-WEATHER-

Temperature readings, day by day extremes, have been recorded as follows by the Slaton office of the Pioneer Natural Gas Company:

Thursday	66-92

Methodists Add Youth Worker To Summer Staff

Rev. Lonnie Eakle of Lubbock has been employed as a summer youth worker at the First Methodist Church here, according to announcement by Rev. Rollo Davidson, began his activities early last week.

On June 3rd, Eakle and his wife, Terri, were introduced to the counselors at a hamburger supper in the parsonage. Counselors are Mr. and Mrs. Greeley Myers, Senior High; and Mr. and Mrs. Homer Cowdrey, Junior High. Also present was Bruce Pember Jr., president of the Senior High MYF.

Fellowship Hall was the scene of a Thursday evening party for the Senior High group. Games and informal fellowship were means of getting acquainted and planning future activities. Frosting punch and cookies were served to thirty-five youth and six adult workers.

On Friday evening the Junior High youth enjoyed games and refreshments of sandwiches, pops and cookies. There were 25 youths and five adults present.

Among numerous activities being planned, the four outstanding dates are: June 24-28 Junior High Camp at Methodist Camp in Ceta Canyon and Youth Assembly (Senior High) at McMurry College in Abilene; July 8-12 is Youth Activities Week for the Junior High group.

Mr. Eakle will continue his studies in Texas Tech this fall where he lacks only one semester to graduate. His plans are to continue his work toward preparation for the ministry in Perkins School of Theology in

Schmid Is Named Post Commander

Ellis P. Schmid, Slaton insurance man and civic worker, was named Monday night as new Commander of American Legion Post 438.

In the annual officer election, others elected included Jno. E. Waldrop as vice commander; Bobby Reynolds as adjutant, and Surman W. Clark, 2nd vice commander.

Wilburn Legate, service officer; Henry Jarman, mess officer; Arthur Dennis, historian; Ernest Robertson, sergeant-at-arms; Joe H. Teague III, finance officer; Luther R. Gregory, chaplain; and Claude S. Cravens, judge advocate.

Gregory is retiring commander. Other retiring officers are John A. Schmidt, Douglas Galassini, Carter Shaw and T. A. Johnson.

ELLIS P. SCHMID

Be still

"Be still, and know that I am God:

God: I will be exalted among the heathen, I will be exalted in the earth." Psalm 46:10.

Oh still us Father; let us know That in our hearts

there burns a glow Which only comes from Thy inner light.

Vanished forever is the night, And this quiet place—

All-Star Game Climaxes Pee Wee Play for Season

The big finale of the Pee Wee baseball season will be staged this Saturday afternoon when the all-star game will be played at 5 o'clock at Pee Wee Park.

Six members from each Pee Wee team will be on the bench for game participation, representing the Pirates, Braves, Cubs and Red Sox.

No admission charge will be made, and the public is invited, according to word from Bob Clodfelter, league president.

The Pirates emerged as league champions, playing their last game on Monday of this week, defeating the Cubs 11-1. Season standing of the Pirates was 7 won, 2 lost.

Judge Declaims Tax Reduction

"The tax rate in Lubbock County has been reduced for the last two years. The tax rate this year is \$1.33 per \$100 evaluation as compared to \$1.41 the previous year," Lubbock County Judge Bill Davis told Rotarians here Thursday.

For the past several years building and increase of businesses has increased the property evaluation for tax purposes several millions of dollars. Last year the increase of evaluation was \$10,000,000, the judge stated.

"Due to the increase of evaluation and a conservative administration the tax rate has been reduced," Davis said.

"I believe you get more for your tax dollar in Lubbock County than you could get anywhere else. I'm thankful to be a resident of this county and I hope that you are, too," the judge concluded.

EDITORIALLY SPEAKING

Observations and Potpourri

If a nation expects to be ignorant and free in a state of civilization, it expects what never was and never will be. . . . where the press is free and every man able to read, all is safe.

—Thomas Jefferson

Do We Really Want To Do Something About It?

It is the common complaint in many circles these days there "is too much federal control" in our schools, businesses, welfare programs, industries, farm programs and practically every other facet of our economic and political way of life.

With the prevalent era of automation we are warned by experts that we must train our work force, young and senior, in new technological devices, and procedures if we are going to maintain a wholesome economic way of life.

What steps have been taken in Slaton to train our crop of high school graduates, students who have dropped out of school and other workers who have been replaced by automation procedures? Very little. Some of us are training a few persons in our plants and businesses, but most of us do not have the facilities, time or money to train any appreciable number of workers.

It is stated there is only one trade school in Lubbock County, and that is a barber's school. There is a dire need for skilled printers, type setting operators, pressmen, office machine operators and mechanics, butchers, sales engineers, farm equipment mechanics just to mention a few. These tradesmen earn high wages that are placed back into our economy.

If we do not take steps to train our own then eventually the federal government will have to step into the picture, but probably not before our welfare programs and criminal courts have become over laden with victims of unemployment.

We are like most small towns, we are always wishing that industry would come to our community. What better industry could we create than a large trade school with several departments of courses offered in the various fields that have a severe shortage of skilled persons to the work needed in so many places including our own area?

Surely we have a few skilled laborers in many fields who would be willing to sacrifice a little time to help get the school started until it could pay its own way, and hire skilled instructors. Also, we believe there are private funds that could be made available to obtain the necessary equipment, texts, land and buildings to establish a technological trade school in our home town.

It is our sincere belief this is one area that all of us should begin working toward immediately, and we further believe that the time would be short before you began to see the wonderful results of such a splendid community spirited program.

We invite you to voice to us your opinions and ideas about Slaton owned trade schools.

Editor Reminisces About Days On The Farm

T'OTHER DAY I had occasion to recall some of the summer jobs down on the farm when I was a youngun. Even with seven kids, Papa never had enough hands to do all the jobs that had to be done.

One summer, when I was about 10 years old, my left foot broke out with a fungus, and I couldn't wear a shoe. Then, while I was leading a mule to water, stumbling along because of the bad foot, the mule stepped on my good foot, and skinned it up all over.

The pain was eased somewhat by the thought in the back of my mind: I would get out of work for a day or two because I couldn't walk.

But Papa had other ideas. It was hay-baling time, and he put me on the sulky rake. I was mad, and one of the mules I was driving was the one that had stepped on my foot. I plied the whip. The ground was rough, and the rake had no shock absorbers. Pretty soon I had a boil on my sitter.

I don't recall what kind of job I drew then, but to the best of my recollection, I still didn't get to loaf any that summer.

Times have changed. Youngsters these days never know what it is to work from daylight to dark then "relax" doing the barn chores by lantern light.

That's fortunate in some ways. But in other ways it is not so fortunate. The pendulum has swung from one extreme to the other. Youngsters these days don't have enough opportunities to work.

This is a disadvantage, just as a steady diet of hard work with little opportunity for fun and relaxation, in a different day, wasn't all good.

But the youngster that learns how to work—just as the one who really learns how to study—will have an advantage in later years over the one who does not.

It takes time and patience for parents to impart this lesson. Yet there's none more important.

Notes from Neighbors

Events and Opinions

Editor Charges Amarillo Writer Of "Managing" Political News

I won't say anything here about Mr. Izzard's tantrums, not much that is. Just in order to keep his readers in a turmoil, and to promote the candidacy of Senator Goldwater as the Republican nominee for President, Izzard keeps on setting up straw men, and punching straws in them. His last effort in building a straw man is the belaboring of Senator Fullbright of Arkansas and Senator Clark of Pennsylvania for something they are alleged to have said or written. Naturally both men, to have drawn Izzard's fire, of a necessity had to be Democrats. Regardless of the merits or demerits of these two Senators' pronouncements, it is doubtful if they could speak for the Democratic Party or the administration.

This is an old demagogic trick, take a statement by a prominent person, or in a lot of cases not so prominent in or out of context, and apply it to all of his party, group or associates. It so happened that Senator Goldwater touched on this same subject when he addressed the graduates recently at the New Mexico Military Institute at Roswell during commencement exercises. To be charitable I guess we should assume that it was just a coincidence that the Senator's picture, in numerous poses, was splashed across the front page of the Amarillo Morning News, and of course there was a three column heading on an article giving a resume of his address. The whole thing might not have been so noticable if it was not for the fact that we have area Universities, here in Texas, here in the Panhandle at Lubbock and Canyon, with graduating exercises that failed to get the coverage that Goldwater received in Roswell, New Mexico. Still Mr. Izzard trumpets about managed news.

B. M. Nelson, Castro County News.

Urges Petition To Save Lives At Crossing

Last week a traveling salesman from Lubbock was going north into South Plains, he laid down a train making the crossing at the intersection.

This young salesman was killed and is survived by a wife and four small children.

This is the fifth fatality at this particular train crossing in South Plains. The continual presence of autos plowing into the side of the train would indicate that some warning device is necessary at this railroad crossing.

True, a flashing red light combined with traffic bars that raise and lower would be very expensive . . . yet, what price can you put on a person's life?

Possibly a flashing red light without the traffic bars would serve the need of this particular situation.

The Hesperian will be glad to publish a petition of interested citizens who would like for the crossing of this railroad crossing to be corrected. We believe that a petition should be submitted, and we are happy to accompany a group to Lubbock to discuss this need with the district highway engineer.

We believe there is a definite need for safety precautions at South Plains railway crossing . . . we believe it is foolish to continue to ignore it and allow more lives to be lost. As responsible citizens we are our brother's keeper and have an obligation to see that our best efforts are devoted to correcting this hazard at South Plains. The Floyd County Herald.

Remember When

Pop let you have the family car for the first time—Gee, that was a big occasion and you were a very important person and pop knew how it was going to be all the time.

Dad dug up the dough for your first formal when you told him you just had to have it or you were just going to die.

He came to your rescue when you got to that place in the tree where you couldn't get up or down, and you felt sure you would starve to death right there.

Took you fishing and taught you exactly where to hook the minnow or worm, and how to get the hook out of the fish you caught.

Sunday, June 16th is Father's day and you can repay him for the things he did without, so that you could have something you wanted. For the love and concern that made Dad stand between you and any real or imagined danger that threatened you.

You don't have to spend more than you can afford, Dad wouldn't want you to, but do let him know you REMEMBER and CARE. That makes everything worth while.

The fertilizer testing of the beans are being conducted by Delbert Langford, Associate Agronomist and Billy Gene Warren, Laboratory Assistant at the Foundation. For several years, the most profitable fertilizer application has been 100 pounds of nitrogen preplant and 50 pounds side-dressed in the Foundation's fertilizer testing.

Flame Cultivation for weed control on castor beans include six different treatments compared with the non-flamed beans. Hale Inbred variety is being used in 1963 in the Flame Cultivation test. The tests are being conducted by Jack Parks, Assistant Agricultural Engineer, and Dale Deeves, Laboratory Assistant.

Early experiments in the use of flame resulted in decreased infestation of the leaf spot disease because the feeder roots were not severed and thus not allowing the entry of the leaf spot spores into the broken roots.

Castor beans are being produced in Hale, Swisher, Castro, Farmer, Lamb, Lubbock and Hockley counties in the High Plains of Texas. The Baker Castor Oil Co. and the Cas-Tech Co. operate in the High Plains, near Plainview. The Baker Co. Their headquarters are in or has receiving stations in Plainview, Farwell, Anton, Hart and

DO YOU HAVE CHINCH BUGS IN YOUR LAWN?

Here's a good way to find out! Take a large metal can, such as a coffee can, and cut away both ends to produce a metal tube. Insert the tube several inches into the ground in a suspected area. If the ground is hard, you may find that stepping on the edges helps. Pour water into the portion of the tube remaining above ground. Within five minutes chinch bugs should float to the top if they're present.

Why is it important to know? Chinch bugs can wipe out a lawn in a few days if unchecked. Last year that's just what happened to thousands of homeowners in the Gulf and Atlantic states — from Texas to Massachusetts.

Identification of chinch bugs is not difficult once you find one to examine. Adults are brown to black in color, about one-quarter inch long, and have whitish wings which are folded over. They hover at ground level where they suck juices from stems. Discolored patches of turf are a sign that they're present. Grass first turns yellow, then brown.

Formulations containing ethion, a basic pesticide chemical, have proven highly effective in curbing chinch bugs. Marketed under many different brand names, ethion-containing compounds are available both in spray and granular forms.

Begin applications promptly once you know chinch bugs are present — they spread rapidly. Even if you don't spot any in your own yard, but you know they're in the neighborhood, it's wise to take action. And whatever chemical formulation you use, follow label instructions to the letter for safest and best results.

Slaton Teacher Is Selected For Special Course

John Wayne Richey of Slaton has been announced as one of the 60 participants, screened from more than 500 applications, for the Texas Tech Summer Institute for High School Biology Teachers, Commencing last Friday, the special course is administered under a grant from the National Science Foundation, and will continue until August 8.

Lectures and demonstrations will be given by staff members of the Tech biology department and by visiting lecturers. In addition, field trips are planned to supplement the program, including two extensive trips each lasting one week at Xitilla, Mexico, north Mexico City, and Taos, N. M., plus additional local field trips.

Tulia, The Cas-Tech Co. at Tulia and Plainview.

Few insect pests bother the castor bean plant. False Chinch bug is the only one doing any damage in the High Plains, and that was in 1958. Most released varieties seem to be resistant to the Alternaria Leaf Spot.

In commenting on the castor bean research projects underway at the Foundation, Dr. Earl Collister, Director, said, "the increasing market and need for castor beans and the low production in comparison with foreign imports make this crop an important subject for study in the various aspects at the High Plains Research Foundation."

County Flood Victims Aided By Red Cross

More than 250 persons have received emergency assistance from the American Red Cross Disaster Service since flash floods struck on May 22nd and May 31st, chairman Bob Nash of the Lubbock County Red Cross Chapters announced.

In its disaster relief effort, the Red Cross has already provided food, clothing, shelter, and medical care costing an estimated \$4,150.00, and considerably more than this amount will be spent in assisting those families who will require help in the repair of homes, replacement of household furnishings, and meeting other disaster-caused needs, Nash said.

"Indications now are that the total number of families registering with Red Cross for assistance may reach 60 with 350 persons involved." The Red Cross is prepared to meet the needs of these families, Nash said.

Summer Music Camp Held At Texas Tech

Approximately 300 high school musicians enrolled in the annual Texas Tech Music Summer Camp beginning Monday (June 10) at Tech.

Participants in the camp from high schools throughout West Texas will attend classes in band choir, orchestra, twirling, drum majoring, instrumental technique, theory, vocal technique and rhythm.

Latest Red Cross reports show that 41 families have been materially affected by the flash floods and that 114 homes had minor damage.

Nash also reported that the Terry County Red Cross Chapter has a disaster operation in progress and that 18 families have registered for assistance in Brownfield.

All Red Cross assistance is an outright gift, without obligation to repay.

Classes are held six hours each day with supervised recreational activities planned for the remainder of the day. The classes are taught by Tech music faculty and area school directors.

The young musicians will divide into two bands, a choir and an orchestra for their ensemble work. A concert will climax the two weeks of intensive musical training, according to Keith McCarty, assistant professor in the Tech music department.

The concert will be held in the Ballroom of the Tech Union Building at 6:30 p. m. June 21.

Conductors of the large ensembles are Paul Ellsworth (orchestra); Gene Kenney, choir; Dean Killion, band; and Fred Smith, band. All are members of the Tech music department except Smith, who is Brownfield Band Director.

The junior high and elementary school division is now open for registration. The camp is to be held from June 24 through July 3, with classes and recreational activities planned similar to the high school session.

Tuition for the junior division is \$21, and \$39.50 for room and board. The elementary string

The Slaton Slatonite Thursday, June 13, 1963

program meets only one-half day, with tuition of \$11. Further information on the camps may be obtained from McCarty, Music Department, Texas Tech, Lubbock 9, Tex.

How to strengthen the bridge of love at your house

For some couples, of course, the honeymoon is never over.

But most husbands and wives aren't so lucky. The problems and pains of day-by-day living, the awesome conflicts of our swiftly changing world itself, all come smash together sometimes... in what seems a concerted effort to shake the very foundations of marriage. Love just seems to go right out the window. And as the divorce courts can testify, sometimes it goes forever.

What can you do to strengthen the bridge of love in your family? Many a troubled couple has found rewarding and unexpected answers in their church or synagogue.

Discover in yourself forgotten resources of successful, purposeful living. Worship together this week and find a deeper contentment in the life you lead.

District Deputy Installs Office's

Court Our Lady of Assumption, Catholic Daughters of America, met June 5, at St. Joseph Hall with Grand Regent Carol Kitten presiding.

Correspondence included a "Thank You" from the City Chairman for helping with the

recent Cancer Drive. Lorena Piwonka, Chairman, reported for the sick committee. The committee for June will be Hilda Kitten, chairman; Annie Schnell, Marie Schuette, Annie Schuette and Dorothy Schneirs. Seven new members, who were received into the order recently in Lubbock, were welcomed. They were Ladell Singer, Janice Lee, Elizabeth Katrola and Jeanette Schneider.

District Deputy Helen Kitten invited all members to go to Nazareth for their reception on June 9. She was then assisted by Ada Mae Kitten in the installation of officers for the ensuing year.

Installed were: Grand Regent Carol Kitten, Vice Regent Irene Steffens, Prophetess Rosemarie Hurst, Financial Secretary Norma Jean Kitten, Historian Lanelle Heinrich, Treasurer Sue Bednarz, Monitor Nell Hlavaty, Lecturer Iris Melcher, Sentinel Dora Pinkert, Trustees Dorothy Sokora and Connie Lewis.

The meeting was adjourned and refreshments served by the Lecturer. Door prize was won by Myrtle Melcher.

Rev. Davidson Returns, Pastor of Local Church

By action of the Northwest Texas Methodist Annual Conference just concluded in Abilene, Rev. Rollo Davidson was returned last week to serve the First Methodist Church here for his 5th year.

All other pastors were returned in this immediate area, including Rev. Roy Bassett to the Southland - Graham Chapel charge, and Rev. Johnnie F. Williams to Cooper.

Rev. J. Howard Crawford is new appointee as District Superintendent of the Lubbock District.

Bishop Paul V. Galloway was presiding bishop reading appointments of the ministers to their churches, and Bishop Kenneth Copeland of Nebraska was guest conference speaker.

Old Friends

By J. J. Maxey

Last Thursday at Rotary, John Arthur Schmidt, class of 1947, was honored by the club by dedicating the club bulletin to him and declaring June 6, 1963 John Arthur Schmidt day. Mayor Jonas Cain also read a proclamation making John Mayor for a day. All in all it could not have happened to a better guy. John has been an outstanding citizen in every way. He was born some thirty two or three years ago here in Slaton. Received all of his elementary and high school training here and received a degree in business administration from the "West Point on the Brazos" Texas Agricultural and Mechanical College in 1952. After graduating from college, John received a commission as 2nd Lieutenant in the Army and served his time in Germany. After receiving his discharge from the Army John came home and went to work at being the kind of citizen that we admire. He served in the Jaycees organization when they were really busy in civic betterment. He served two terms on the Board of City Development, one year as its president. He has been a Rotarian for a number of years and will finish his year as president on June 30th. John is a christian gentleman in every sense and according to his Pastor, Fred Ryle, is always willing to do his part in church activities whether it is repairing the church or filling the pulpit in the absence of the Pastor.

By the time this article is in print, John will have terminated his business here in Slaton and will be ready to start another avenue of service. We can only wish John the best in what ever he does and say that Slaton's loss is gain for some one else.

In looking at the calendar we see there are only nine more days to get ready for the biggest and best reunion ever for Slaton Exes. We are hearing from quite a few out of town people that plan to be here on that day. We mailed luncheon tickets to the following last week: Coach A. C. (Stump) Hamilton, 3703 40th., Lubbock; Mrs. Bobbie Embry, class of 1925, Route 2, Box 82 Abernathy; Mrs. Harry M. Bruner (Jewel Johnson, class of 1928, Box 591, Lamesa; R. C. Brackeen, class of 1943, 221 West Roosevelt Avenue, Electra; Paul and Mildred Basinger, class of 1928 and '30, 3511, 42nd., Lubbock; Travis Campbell, class of 1931, Route 4, Dimmitt; Robert Lee Hagler, class of 1934, Route 2, Box 125, Post; Mrs. W. D. Seright (Elizabeth Latimer), class of 1925, 1513 North 33rd., Lawton, Okla.; Durwood Kelly, class of 1926, 321-3 Main Street, Clovis, New Mexico; Mrs. Luther Yates (Kay Porter), class

of 1953, 5305 Beatonne, El Paso; Otis and Nadine Cannon, class of 1930, 3601 28th St., Lubbock; Mrs. Lucille Cogburn (Lucille Savell), class of 1938, 2301 Condon, Colorado Springs, Colorado.

We had another letter from Vernon Lemens (Slaton's first coach) last week saying that his calendar had been marked for several weeks to be in Slaton June 22nd. Mr. Lemens is an Attorney in Austin and can be addressed at 1509 Guadalupe Street, Austin.

Had a note from Roy L. Foutz, class of 1932, who is Pastor of the South Side Church of Christ in Greenville. Roy writes that it is almost impossible for him to be away from his field on week ends but will be thinking of all his "OLD FRIENDS" on June 22nd. Roy also sent five bucks for association expenses.

A note from Hazel and Duck Woolever, class of 1929 and 1930, saying that they would be here for the reunion. Duck is the Plumbing Inspector for the City of San Angelo and they can be addressed at 528 Pulliam Street in San Angelo. Hazel also sent five bucks for association expenses.

We received a four page letter this week from Mrs. Howard Bloom (Madeline Smith), class of 1928, who is the Health Coordinator for the Los Angeles schools. Madeline writes that she doesn't know how we found her address but has really enjoyed our news letter that is mailed periodically. Due to their school program ending on June 21st, Madeline says that it will be impossible for her to attend the reunion but will be here for a short visit some time during the summer. Madeline also sent us some information on her sisters and brothers.

Mrs. Marshal H. Duncan (Elizabeth Smith) lives at 2328 N. Galveston, Texas. They own and operate Marshals' cafe in Galveston and according to Madeline is a real good place to eat while in Galveston.

Kathleen Costales (Kathleen Smith) lives at 10726 Cassina Avenue, South Gate California and is employed by Douglas Aircraft Co., Inc. of Long Beach in the engineering processing field.

Mrs. Donald W. Haney (Joyce Smith) lives at 2302 Julia Lane, Laurel, Maryland. Joyce's husband is a research physicist.

Jerald W. Smith lives at 6105 Brook Lea, Houston 17, and is employed by Lindy Air Products Co. of that City.

Madeline also sent us a check for \$50.00 (decimal is not misplaced) to be used in association work and sends greetings to all of her old friends. She can be addressed at 1 Seahunst Road, Rolling Hills Estate, California.

Virta Zuma came by early Monday morning and brought us a financial statement of association business since our last report was made in September of 1962.

STRICTLY BUSINESS

by McFeatters

"Noticed how much Miss Betts resembles the boss since she started working for him?"

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

Texas Research League, a non-profit government study organization that does many administration studies at the request of the state, has issued a report on its year-long probe of the Railroad Commission. Many of its recommendations on agency management and oil and gas conservation already are being programmed.

On schedule change involves the staffing and management of Railroad Commission district offices. Commission now has 12

such offices. Responsibilities with respect to wells and staff members are so varied that the League believes the system unfairly imbalanced.

District 8 in Midland, for example, has approximately four times as many wells as District 4 in Corpus Christi, but each office is staffed with only four engineers. Wichita Falls has more than twice as many wells as Houston, but two less field men.

Four field men watch over 62,148 operating wells in the beyond the high school.

Connally told them Texas needs a "total policy to guide all institutions, all segments of Midland district, yet 21 men

Total Income \$488.06
Total Expenses \$252.10
Balance on Hand \$235.96
May 31, 1963 \$235.96

Luncheon tickets will be available from any of the officers or at my office. We urge each of you who plan to attend to secure your tickets as early as possible in order that we may have some idea of how many to guarantee.

Those paying dues since last report were John L. Gordon, Roy L. Foutz, Duck and Hazel Woolever, Madeline Smith Bloom, Otis and Nadine Cannon, Kay Porter Yates, Durwood Kelly, Price Ragsdale, W. K. and Mary Fry, and Bobby Ayers.

oversee 26,036 wells in the Kilgore area.

League's answer to the problem is to redistrict and cut the districts from 12 to 10.

The huge Midland district would be divided into three areas with new offices at Lubbock and Fort Stockton.

San Angelo, Refugio, Mount Pleasant and Palestine offices would be absorbed by other districts under the new operation plan.

PADRE ISLAND PARK PLANS UNDEWAY

If and when Congress approves a \$1,500,000 appropriation to meet the land-buying needs of Padre Island National Seashore park, newly-named park superintendent William L. Bowen will begin to acquire land for the proposed 80.5-mile coastal playground.

U. S. Secretary of the Interior Stewart Udall said Bowen will open an office in Corpus Christi some time after July 1 with a small staff. Bowen, Kansas-born veteran of the national park service, took part in preliminary studies leading to the establishment of the new national seashore area on Padre Island.

COMMITTEE OF 25 AT WORK

Gov. John B. Connally entered his "Committee of 25" with a coffee, then set them to work. Committee has the year-long task of studying education our higher education enterprise. He said this included state, church and private schools, junior and senior colleges and academic and technical institutions.

Committee met and decided to send their chairman, H. B. Zachry of San Antonio, suggestions on how to approach the challenge. They meet again in August.

SPECIAL SESSION TALK DWINDLES

Rumors of a special session to get an appropriations bill more to Governor Connally's liking still are going around. But now predictions are being made about a January session, rather than one in the summer or fall.

Connally said he didn't like the one passed by the Legislature in the regular session because it "short-changed" higher education.

HOME-BUILDING ABUSES

Reported abuses of home building practices and loans were the subject of a recent conversation between Governor Connally and Lubbock District Attorney Alton Griffin, president of the state district and county attorneys association.

Connally said, "It may be that additional legislation will

GOOD NEWS

Although state and federal animal health officials reported that 72 Texas counties are now tagged "screwworm infested" the report was good news, said Dr. R. G. Garrett, executive director of the Texas animal Health Commission.

Garrett said that 333 samples confirmed as screwworms in the March 31-April 27 period represented a decrease of 95 to 98 per cent in the number of cases in years before the screwworm eradication project went into effect.

"We're real happy with the success of the program," Dr. Garrett said. "We hope to be completely successful in wiping out the screwworm by the end of the three-year program."

He said livestock producers were responsible for the stamping out of the costly pest in at least two ways: Through their \$3,000,000 contributions and through "excellent" cooperation in reporting cases and sending samples.

"It's strictly a producers' program... initiated by livestock producers and wholeheartedly supported by producers."

The three-year, \$12,000,000 producer-federal-state program almost has reached the mid-way point in its progress.

Records of more than 8,000 school bus drivers were screened before Elmer J. Ashby of the Carlisle Independent School District, Rusk County, was selected "Texas Public School Bus Driver of the Year" by the Texas Education Agency.

POST MORTEM

About 300 state labor leaders came to Austin to reflect on the accomplishments—of lack of accomplishments—of the 58th Legislature.

Speakers at the seminar included Rep. Dick Cherry, Waco Democrat, and Rep. Ike Harris, Dallas Republican, and Sen. A. R. (Babe) Schwartz of Galveston.

"The 58th could turn out better than the 59th," Cherry said. "Next time, you'll have the problems of a big tax session and a second-term speaker (Speaker Byron Tunnell, supposedly) running for Attorney General."

As session achievements, Cherry listed the Padre Island bill, Municipal Annexation bill, Tourist Development program, Water Storage expansion and provisions for teacher retirement. Measures for rural development, which did not pass, were among what he considered failures of the Legislature.

BEER IS A NATURAL

Brewed slowly, by a centuries-old natural process, beer is Texas' traditional beverage of moderation—sparkling, delicious.

And naturally, the Brewing Industry is proud of the millions of dollars it contributes to this state's economy through wages, advertising, rentals, insurance, transportation and utilities. Money made in Texas, spent in Texas. In Texas, beer belongs, enjoy it.

Utilization of Excessive Amount Lake Water Is Urged by Engineer

A spokesman for the High Plains Underground Water Conservation District, when contacted recently, had the following comments on using lake water. He said, "The heavy rains that we've experienced during the past couple of weeks have left quantities of water available in the thousands of lakes and depressions throughout the South and High Plains."

W. L. "Bill" Broadhurst, Chief Hydrologist for the Water District, continued by saying, "It's true that most of the cropland does not at this time need additional moisture; however, there are areas where the rain fell so fast that most of the water ran off. Also, there is layout

land or improved pastures than can nearly always use a little more moisture.

"At any rate, if an individual has a lake on his farm and does not presently have a way to pump water from it back to his cropland, now would be an excellent time for him to think seriously about installing a pump and pipeline. There are many reasons why we think that this is good business.

"First, runoff water that collects in the lakes is generally the least expensive water that can be developed.

"Second, water that remains in the lakes is largely wasted because probably 90 percent will evaporate and do no one any good.

"Third, a mosquito-breeding haven is alleviated when the lake water is used.

"Fourth, if the lake bottom is utilized as a pasture or some other income producing endeavor, the lake water needs to be pumped from the lake as quickly more compatible than ground water to growing plants because of its warmer temperature.

Broadhurst continued, "There is one other important reason for using lake water when it is available. Using it, rather than pumping ground water from storage, results in substantial savings of underground water.

"We could go on and on talking about the advantages of pumping and using lake water, but however the individual personally looks at the picture will probably dictate what action, if any, that he will take in utilizing runoff water from his own lake.

"The High Plains Water District naturally urges the use of rainfall runoff to supplement ground water requirements. Our thinking on the subject is simple and two-fold: (1) Water pumped from wells is mined from storage, and (2) to prolong ground-water supplies, rainfall must be used.

Broadhurst concluded his comments by saying, "We would like for each irrigator who has a lake on his land, to consider putting this runoff water that it catches to a beneficial use. We think that this is just good, sound business any way you look at it; and not only for the irrigator, but for his entire community as well."

News about Railroad Folks For Railroad Folks

BY JUNE SPIKES

When You Take Safety For Granted, You Are Asking For An Accident!

HERE AND THERE

Retired Engineer J. E. Rucker dropped in to say "hello" the other day on his way to check on a permit and said he just had to come see how nice our office building looked. Part of us are waiting to get that "face-lifting," but we feel sure our time will come . . . Bridge In-

pector A. C. (Archie) West-1968 was in the office last week looking like his old smiling chipper self and he returned to duty Monday, June 10th, after having been off quite a spell due to a heart attack. New faces pop up this time of year—among them at the moment who is working as station relief clerk is Jerry Hodge . . . Donald Bagby has been transferred to La Junta, Colorado, as Chairman in the Engineering

Department at that point. Ronald's sister, Jan, lives there so that should be mighty nice for both of them . . . Chief Clerk J. W. Bagby has just returned from a visit in La Junta with his daughter, Jan, and her family . . . Brakeman Q. W. Withers has turned in his resignation to go into the restaurant business at Hermleigh, Texas.

CLOUD Nine NOTICES:

Like I have said before this is sort of a double CLOUD Nine Notice—Steno Margaret and Transportation Clerk Bob Carter are grandparents again! A baby daughter was born to Airman 2/c and Mrs. Keith Carter in San Antonio, June 7th. That makes two little granddaughters the Carters can boast about!

VISITORS

Miss Ann Hightower was the house guest last week of Signal Supervisor and Mrs. B. H. Crandall. Ann is Mrs. Crandall's niece and has returned to Las Cruces to the University of New Mexico where she is a student. Ann's father, John M. Hightower, who is stationed at Tiwanan, Formosa, was promoted to Brigadier General in the Army, June 1st.

Mrs. Michael Herman (Elaine)

has been a recent visitor in the home of her parents, Engineer and Mrs. Troy Pickens as well as her grandparents, Retired Conductor and Mrs. P. A. Minor. Elaine is making her home in Houston, Texas, at the present time . . . Relief Clerk Pati Elmore had visitors from her home state of North Carolina, last week Pati and husband Bill made a weekend trip with their visitors to El Paso and Juarez which surely sounded like fun!

SICK LIST

Operator John Kent Jones of Hamlin is on sick leave . . . Fireman E. W. Woody is going back to work after having been on sick leave for quite some time . . . Retired Engineer E. M. Lott is in the Santa Fe Hospital at Topeka, Kansas . . . Brakeman J. M. Woods is on sick leave . . . Switchman E. E. Smith is back to the old job after having ear surgery at Temple Hospital . . . Patsy Pettigrew, daughter of Engineer and Mrs. Hern Pettigrew, is home after having had surgery in Lubbock . . . I know all these folks in the hospital and recuperating at home would love getting cards. They have such cute ones these days.

No. 2 Continued From Page 1

S. M. U. Mrs. Eakle, the former Terri Tune of Lubbock, is employed at Webster-Harris-Walborn in Lubbock, but plans to participate in the choir and assist with youth activities each Sunday.

No. 3 Continued From Page 1

At the C. J. Rhoades place 2 1/2 miles southwest of Slaton, a light shower at the Bobby Townsend farm west of Posey, and other light showers or no rain at all in other localities north and northeast of Slaton and Posey. Raymond Bukkemper, 4 miles south of Slaton, told of .5 inch, and J. W. Hobbs, Jr., 4 miles east of Wilson, reported .4 inch. Jerry Don Ross told of .8, and Robert Meeks, 3 miles out on Canyon Road, received only .1 inch rainfall.

Rain gauged at the city measuring station totaled .3 Tuesday evening. Earlier city rainfall included .4 inch last Thursday and Friday, and 1.25 more pouring out Saturday afternoon.

No. 1 Continued From Page 1

aster for the merchants in the town. The observation was based on the bureau's experience with the network of interstate highways now under construction with the help of federal funds. The bureau said it knew of several instances where the merchants feared the construction of a by-pass only to find that after it was built that the new highway was a boon to business.

Business Improves

It said such roads actually gave business a shot in the arm by removing traffic from the community.

This resulted in better driving and parking conditions on streets once clogged with cars. When traffic conditions improved—reports the bureau—city customers who previously had shunned local merchants began coming back.

The bureau also pointed out that when a by-pass is constructed, it usually is hooked up with part of the interstate system.

Since federal law prohibits locating places of business along such highways, the travelers will have to find their food and lodging in nearby communities.

The bureau said the number of motorists using the interstate system is climbing daily which eventually will mean more customers for businesses along the way.

Considers Economic Impact Rex M. Whitton, federal highway administrator, said that before any highway is approved for federal funds, the bureau considers the economic impact on the communities near it.

"Where real or seeming conflicts of interest occur," he said recently, "they must be weighed in the balance, with the objective of attaining the greatest overall economic benefit to the nation as a whole."

He said these highways must have limited access to maintain their high-speed, safe-driving character.

Whitton said the new highways would not be effective if they allowed frequent access to places of business on the road.

ORDINANCE

Several complaints have been filed with City Commissioner Truett Bownds concerning bicycles being ridden on sidewalks. The City Commission has requested that Chief of Police Gene Martin enforce ordinance number 186 which violators who are convicted are liable to a fine up to \$200.00. The commission and police department urges everyone to please comply with this ordinance.

From Where I Stand . . .

By Merle King

A tragic event of the past week, the untimely death of Mrs. Pauline Churchill, leaves a vacant spot in the community and is a personal loss to me. Mrs. Churchill died suddenly in Colorado while enroute to Washington state where she was to have visited a daughter.

Miss Nancy Johnston, daughter of Mr. and Mrs. T. L. Johnston, will be spending the summer with her parents, having completed her freshman year at Texas Tech. Nancy was a patient at Mercy Hospital the first part of the week.

Mr. and Mrs. Clark Self, and Charles have returned from a vacation to Dallas, where they attended Six Flags; to Ozona where they visited relatives; and visited in San Angelo enroute home.

Mrs. M. R. Jones and children, Rinda and Randy, are guests in the home of their mother and grandmother, Mrs. L. G. Bain.

Recent guests in the home of Mr. and Mrs. A. E. Whitehead, 625 West Garza, were Mrs. Russ Holland and children of Kingsville, Texas and Mrs. Maurice Jones of Corpus Christi, Texas. The Whitehead's grandchildren

from Lubbock have also been visiting in Slaton. They are Jimmy, Stephen and Lisa Griffin and Fred and Robert Mitchell.

Mrs. G. C. Walker, Sr., of Collinsville, Texas has been a guest of Mr. and Mrs. W. T. Davis, 700 West Lubbock.

Mrs. Virgie Spar's Hunter left recently for Washington D. C. for a visit with her son-in-law and daughter, Major and Mrs. C. D. Woods Maj. Woods is on duty in the Pentagon. On June 20 Mrs. Hunter is due to fly from New York to England on the first lap of a 34 day air tour which will include Italy, Turkey, Israel, Greece, Egypt, Japan and Lebanon; then to Switzerland and France and return to the United States.

Mrs. Stella King of Big Spring was a weekend guest in the home of her son and daughter-in-law, Mr. and Mrs. John King and Debra.

Mr. and Mrs. Cecil Scott and Jan and Jill returned Wednesday after a three week vacation. The Scotts visited in Lovington with her parents, Mr. and Mrs. E. D. English; in Dallas they were guests of a former Slaton resident, Miss Myrtle Teague; and in Ft. Worth the Slaton family visited with Mr. and Mrs. Clyde McDowell. The party toured Six Flags while in Ft. Worth.

Los Angeles, Disneyland, the Hollywood Wax Museum, Long Beach, and Knotts Berry Farm were on the itinerary when Mr. and Mrs. Jake Wendel and daughters, Dana and Lynne vacationed recently in California. They spent one day in Phoenix, Arizona enroute home.

Wheatley - Haley Engagement Is Told

Mr. and Mrs. Glenn Wheatley announce the engagement and approaching marriage of their daughter, Frances Elaine to A/2C Larry D. Haley, son of Mr. and Mrs. Fred Haley of 407 West 6th St. in Plainview.

Miss Wheatley is a May graduate of Post High School. Airman Haley attended Plainview High School before entering the Air Force. He is stationed at Dyess Air Force Base, Abilene. The chosen wedding date has been set for August 3, at 108 North Ave. M. Church of Christ in Post.

Mrs. Charles Dodson, nee Carolyn Joyce Etter

Carolyn Joyce Etter Is Bride Charles M. Dodson

Their wedding ceremony evening, Charles H. and his bride, the former Carolyn Joyce Etter, were exchanged in the home of the bride's parents, Mr. and Mrs. Mark Etter, with James T. Bolding officiating.

Mrs. Larry Ragsdale of Snyder attended the bride as matron of honor. Miss Kay Lynn Etter, sister of the bride, was flower girl. They wore dresses of orchid and white accessories. David Dodson served his brother as best man.

For her wedding trip the bride wore a dress of gold raw silk, with matching coat and black accessories. The couple will be at home at Park Hill Terrace on Marcy Drive in Big Springs, Texas, where the groom is employed by Hardwicke-Elter Co.

VICTORIA VISITOR

Nelson Price, son of Mrs. W. L. Housour, of Victoria, Texas visited in the home of his mother and visited other relatives this past weekend.

Slaton Girl Elected To Area FHA Position

Nine girls from Slaton were in attendance at the annual South Plains Future Homemakers of America officers training school conducted June 5-6 at Crane Hall on the Texas Tech campus.

Peggy Kirksey of Slaton was elected 4th vice president for the 1963-64 year at that session, her duties to include supervision of the talent show next year, playing the piano and assisting in relaxers (songs sung while one relaxes).

Attending from Slaton in company with Mrs. Joyce Cheatham, advisor, were Jan Bednarz, 1st vice president of the local group; Charlotte Vaughn, 2nd vice president; Diane Kuss, 5th vice president; Nan Saage, parliamentary; Belinda Becker, assistant 4th vice president; Glenna Payne, sergeant-at-arms; Peggy Kirksey, 4th vice president; Joan Caliborne, historian; and Vicki Roche as hostess chairman. These girls, Mrs. Joyce Cheatham, Nelda Ray and two mothers departed for the meeting early Wednesday. Taking cars were Mrs. Albert Kuss, Mrs. Roy Saage, Mrs. Cheatham and Nelda Ray.

Sectional meetings and general election were highlights of the

PEGGY KIRKSEY

first day activities. Camp project was a visit to the museum and the new library on the Tech campus, with Nelda Ray in charge.

An evening talent show was held, with the Slaton group having signature bingo as its offering. The activities of the first day were concluded with a swimming party.

The concluding day included one sectional meeting and two general sessions, with talent shows again held, and a final "farewell" meeting was held at which time group reports were tendered.

Some 215 FHA girls representing 23 area schools registered for the camp.

Mrs. Larry Joe Delaney, nee Miss Nancy Jane Casstevens

Larry Joe Delaney, Bride On N. Mex. Honeymoon

Larry Joe Delaney and his bride, the former Miss Nancy Jane Casstevens, are honeymooning in New Mexico and will establish a home in Belen, New Mexico.

The bride is the daughter of Mr. and Mrs. C. C. Casstevens of 3708 29th St., Lubbock. She is a graduate of Monterey High School and attended Lubbock Christian College.

Mrs. Young Host To Dorcas Class

The Dorcas Sunday School class of the First Baptist Church met last Thursday evening in the home of Mrs. Clifford Young, with Mrs. Lois Rogers as co-hostess.

The meeting was opened with prayer led by Mrs. Wade Thompson and Mrs. Young brought the devotional from Ephesians 116, 17 and John 4.

Mrs. Boyd Meeks read the minutes and gave the monthly report.

Mrs. Joe Delaney of Slaton and C. E. Delaney of Amarillo are parents of the bridegroom, who is a graduate of Slaton High School and was a student at Lubbock Christian College. He is employed by the Santa Fe Railroad.

Virgil Trout officiated for the double ring rites read in the home of the bride's parents on Saturday evening, June 8.

Mrs. Lois Rogers presided over a short business session. Mr. Sam Wilson gave the closing prayer.

Refreshments were served to Mesdames Raymond Smoot, Wade Thompson, Sam Wilson, Boyd Meeks, Lois Rogers, Ernest Carroll, Clifford Young, Mrs. Young's two granddaughters, Kathy King and Cynthia Akin.

The bride, who was given a marriage by her father, wore a street length dress of white Chantilly lace. It was designed with a scalloped neckline embroidered with seed pearls and elbow length sleeves. A silk organza bow enhanced the bodice design. Her pearl necklace was a gift of the groom and she carried white orchids showered with stephanotis.

Miss Barbara Casstevens of Lubbock was her sister's maid of honor and Miss Sue Delane of Slaton and sister of the groom, was bridesmaid. The identical dresses were fashioned from pink rose printed fabric. Each carried a long stem white rose.

Jim Vickers of Slaton was best man and Eddie Williams of Wilson was groomsman.

The bride's parents were hosts for a reception afterward. When the couple left on the wedding trip, the bride was wearing a pink silk suit with white accessories.

SNOW ...in June?

Of course not! But, it's our way of pointing out that the electric snow thrower is just 1 of the 166 electric appliances that contribute to better living.

Have you counted lately? How many electric appliances are you enjoying? Bet it's a bunch!

A new owner every thirty seconds!

Going OLDS is the Going Thing!

We could say "nearly 1,700 buyers a day," or "over 10,000 new owners a week!" Fact is, Oldsmobile sales are really soaring! And why not? It was a dollar-saving Olds Dynamic 88, for instance, that swept Class "G" in the 1963 Mobil Economy Run! Add stunning, go-places style... sensational Rocket performance. No wonder value-wise people are going Olds at such a fantastic rate.

Check Underway On Boll Weevils

Plains Cotton Growers, Inc., has announced that the extensive boll weevil survey initiated the week of May 21 has discovered the presence of weevils in only five of the 23 counties being checked in the Red Rolling Plains and along the eastern edge of the Caprock. Officials of the survey warn, however, that farmers should be especially watchful for the pest all over the area as weather and other conditions become more favorable for weevil emergence.

Major objectives of the survey, being conducted by inspectors from both state and federal agencies as well as from PCG, are to determine whether the boll weevil overwintered in the counties concerned following the 1962 crop season, and to investigate the possibility of this insect becoming an established threat to cotton production above the Caprock. It is significant that the five counties where weevils have been found to date—Jones, Stonewall, Haskell, Fisher, and Dickens—are all located below the Caprock.

Inspections will continue at frequent intervals throughout the summer in an effort to halt the northward movement of weevils in Texas and to minimize damage through early detection and control measures. Special efforts will be made in counties along the Caprock to locate over-wintering areas and to determine if weevils have survived the winter above the Caprock. These counties include Briscoe, Crosby, and Floyd, where boll weevils caused considerable late damage during the 1962 season.

Counties involved in the initial survey in addition to those mentioned are: Childress, Coke, Collingsworth, Cottle, Donley, Foard, Hall, Haskell, Hardeman, Jones, Knox, Mitchell, Motley, Nolan, Runnels, Taylor, and Wheeler. Agencies participating in the inspections are the Plant Pest Control Division of the U.S.D.A., F.H.A., Texas A & M, and the Texas Department of Agriculture.

LEGAL NOTICE

STATE OF TEXAS)
COUNTY OF LUBBOCK)
NOTICE OF DISSOLUTION
OF PARTNERSHIP

Plans and specifications including minimum wage rates as provided by law are available at the office of Julian F. Smith, Resident Engineer, Post, Texas, and Texas Highway Department, Austin. Usual rights reserved.

Most Cotton Here Is Eligible For New "Mike" Test

Most of the cotton produced in this area will be eligible for the new U. S. Department of Agriculture "mike" test offered for the first time to farmers throughout the country.

This has been pointed out by W. K. Palmer, Officer-in-Charge of the Agricultural Marketing Service Cotton Classing Office in Lubbock.

"The 'mike' test is made only on cotton which is classed for grade and staple," Mr. Palmer explained. "Last year we classed 2,270,000 bales for farmers served by this office—100 percent of the cotton in this territory."

The term, "mike" comes from the micronaire airflow instrument which is now widely used to determine the spinning utility of cotton. The "mike" reading indicates the fineness and maturity of cotton, which is related closely to manufacturing

waste, yarn appearance, fabric finishing and processing efficiency in the manufacture of cotton goods.

"Farmers who have their cotton 'miked' should be in a better position to market it on the basis of its quality," he said.

All farmers in Smith-Doxey improvement groups are eligible for the "mike" service, which costs 8 cents per sample. Cotton is classed without charge for Smith-Doxey farmers.

Ginners are filing the applications for the micronaire testing service. They are urged to apply early. July 1 is the deadline for applying.
