## JUST AROUND SLATON

By Mrs. Ellen Perry

"Around Town" is a feature of The Slatonite with this week's informal chat with the first column on the front page. It may say that first page but that's the place I've for . . . in it I hope to tell you something interesting about persons, unappreciated, and things to find in the stores in Slaton, it will be just what we need. "Just Around and in order for it to be will need the help of all who have something unround your place, places and things you think interesting to your to know. I and I are back in operating The Slatonite having been away for the three years . . . everyone so cordial in their that we just can't keep happy to be back . . .

Will need your cooperation to give you a good hometown paper . . . if you have a new baby or had a party, a reunion or are going to be married, we'd like for you to write about it. Our phone is VA 8-4201 and we'll try to have you call us any

always a big job to move over a new business . . . has been no exception . . . first day in the office was checking office supply and spending several with a salesman restocking . . . come the last of the we should have a pretty line of supplies . . . come tell us the things you need if we don't have it, we'll

I know . . . we just take so of our conveniences and for granted these days we don't stop to appreciate . . . for instance, most of have radios, televisions, phones, record players and of other little things to life comfortable . . . well Sunday night, our first night in Slaton, we didn't have a radio but it went haywire, and we realized how much depended on these things to in contact with the outside world. We do have a telephone now but the evenings so quiet you can hear a pin without the television and to . . . one of these days we'll be back in our regular time of evening listening, we

The other afternoon I was Bland's Furniture and as I looked through the store thought a large doll lying in one of the baby beds . . . immediately I supposed Bland was trying to emphasize the comfort of his beds for the little when suddenly the doll came to cry . . . it was a doll right, a real living doll, little granddaughter . . . which gives me the chance to you about our little granddaughter, Mary Ellen, who will be two years old next week . . . we have acquired since we in Slaton . . . and a honey if there ever was one . . . if there is a reason why we hated to leave Slaton, it was because we had to leave her and some weekend we're not in our regular place at work and

## McAdoo Downs Tigers 83-82

Slaton's Tigers dropped a hard-fought game to McAdoo Tuesday night by 83-82 in a game played away from the home court.

The contest with McAdoo was the final game before the season ending week. The Tigers face Denver City here Friday night, and then travel to Stanton Tuesday night to close out the year.

Against McAdoo, Ronnie Jones led the scoring with 20 points, hitting nine field goals and two free throws.

Dick Martin had 13 points, and Larry Burk and Webber

Tefertiller had 12 points each. Slaton led by 25-14 after the first quarter, and was in the lead 49-30 at halftime.

The gap closed in the third quarter when the Tigers were hard hit with personal fouls, many of which were seemingly unjustified.

McAdoo outscored Slaton in the third by 22-14, and caught up in the final.

By the end of the game, all the first team for Slaton had been taken out of the game by fouls and "homers" and when the final whistle blew, the tally stood at 83-82.

## James Ellis To Seek Office Of County Judge

James A. Ellis, Lubbock Attorney, has announced his candidacy in the Democratic Primary for the Office of Judge, County Court at Law, Lubbock County, Texas. The post is presently held by Judge Robert J. Allen who is not seeking reelection.

Ellis is currently engaged in the general practice of law and maintains his law offices in the Lubbock National Bank Building in Lubbock. He has been engaged in legal practice in Lubbock since 1951.

He is a former County Judge of Hockley County, Levelland, Texas, and served in such capacity for six (6) years. He was Assistant Attorney General of Texas at Austin under Governor Sellers for two (2) years. Also, he was connected with the legal department of the City of Lubbock for almost a year under the late Vaughn Wilson.

Ellis is a Texas Tech Graduate of 1934. He majored in Government and has since done graduate work in the field of Government. He has been a lecturer and instructor of American Government in the College Evening Program of Texas Tech for the past ten (10) years. He is also former Superintendent of the Public Schools in Plains and Anton, Texas.

James A. Ellis is 49 years of age and resides with his family at 2307 59th Street in Lubbock. His family consists of his wife, the former Myrtle Peden, and two sons, James Jr., 18, and Johnny, 16. The James A. Ellis family was one of the families nominated for "Lubbock Family of the Year" in 1961. He is a member and Sunday School Teacher in the First Methodist Church in Lubbock.

Ellis is a member of the Downtown Lions Club in Lubbock. Also, he is past President of the Levelland and Plains Lions Clubs.

In regard to his candidacy for the Office of Judge, County Court at Law, County Judge, County Court at Law, Lubbock County, Texas.

(Continued on page 3.)

## Political Announcements

The following announcements have been authorized to be published in the Slaton Slatonite subject to the action of the Democratic Primaries.

For County Judge: James A. Ellis  
For County Commissioner: George Green

## Paul Boswell Resigns

Announcement of the resignation of Paul Boswell, head girls basketball coach and assistant football coach, was made this week by the Slaton school board after a regular meeting Tuesday night.

The resignation, to become effective June 1, 1962, was tendered Dec. 14, but no action was taken until Tuesday night's meeting.

Boswell came to Slaton in September of 1959. In the three years he has been here, his Tigerettes have won two bi-district championships and were regional finalists one year.

A composite record of the Tigerettes under Boswell's coaching stands at 67 won and 27 lost.

Regarding his resignation, Boswell said that "We've enjoyed our stay in Slaton and particularly appreciate the attitude of the girl basketball players and their parents during the seasons we've had."

As to future plans, Boswell said that he had been considering two offers, but had made no definite decision.

\*\*\*\*\*  
In other action, the board sold an additional \$55,000 worth

of bonds voted in 1959 at an interest rate of 2.9 percent which is the best interest rate the Slaton school has sold bonds

## Gov. Daniel Proclaims FFA Week

Governor Price Daniel has proclaimed the week of February 17-24 as FFA Week in Texas.

In presenting the proclamation to James Morris, President, Texas FFA Association from Anahuac, the Governor pointed out that the importance of agriculture in our state increases as Texas progresses, and it is vital to our well being that we train skilled farmers and ranchers to provide a plentiful supply of food in years to come.

James Morris received the proclamation on behalf of the 37,000 active FFA members in 900 chapters and more than a quarter of a million former students.

The FFA is composed of boys who are studying vocational agriculture in the public schools in preparation for careers in farming, ranching, and related fields.

In studying the science of agriculture, these Future Farmers are striving to improve this great industry for the welfare of all citizens.

## Science Programs Are Offered To High School Age

COLLEGE STATION, Texas -- (Spl) -- Three special science training programs for high school boys with high academic ability have been scheduled at Texas A&M College next summer.

Sponsored under grants from the National Science Foundation, the math, biology and physics programs are designed for boys between their junior and senior years in High School, said Coleman Loyd, coordinator for NSF programs at Texas A&M.

The programs include a math course for 30 high-ability boys from July 4 to July 13, and a biological sciences course for 16 talented boys from July 16 to Aug. 24.

A special physics course June 4 to July 14 is scheduled for 30 high ability boys who are in smaller school systems not offering high school physics.

The National Science Foundation is providing \$8,650 for instructional expenses and stipends for the math course, \$5,760 for the biology program, and \$9,400 for the physics course.

Students selected for the three special courses will pay as much as they can toward living expenses. Those selected but unable to provide living expenses will receive stipends to meet necessary costs.

All applications from residents of Slaton (Continued on page 3.)

## Tillery Displays Model Bridge Made In Scout Work

Robert Tillery, son of Mr. and Mrs. R. W. Tillery, built a scale model of a monkey bridge, used in scouting to cross streams and washes.

Robert age 14, of Scout Troop #128 of Slaton, built this scale model in one week, one of the many things built by the Boy Scouts under the leadership of W. A. Riley.

Anyone wishing to see this scale model it is now on display

in the past several years. Part of the proceeds of this bond will be used to pay part of the cost of the addition to the high school which will be kept until a need arises for its use.

The board called an election on April 7 for the purpose of electing two trustees to the school for a term of three years. The terms of Bob Ayers and J. T. Kendrick expire this April.

The board passed a resolution congratulating Dr. Vardy on his being named Man of the Year in Slaton.

PAUL BOSWELL

LUBBOCK . . . Tom Ewens of Lubbock has been elected president of the Texas Tech chapter of Alpha Tau Omega social fraternity.

Other new officers for the spring semester include: David Baldwin, treasurer, Lubbock; Larry McCarty, vice president, Dumas; Posey Brown, records, 5338 Vanderbilt, Dallas; Tommy Simes, secretary, 814 W. Ave. H., Lovington, N. M.

Tommy Evans, ritual chairman, El Rancho Estates, Fort Worth; James Vardy, ritual chairman, El Rancho Estates, Fort Worth; James Vardy, ritual chairman, Slaton; Butch Nachlinger, pledge trainer, Hermleigh; Rocky Johnson, social chairman; and Tommy Johnson, rush chairman, both Pampa.

## Missionaries In Italy

## Message To Slaton From Residents Now In Europe

(Editor's Note: The following is from Mr. and Mrs. Harold Mobley, former minister and his wife of the Church of Christ, Slaton. The Mobleys are now missionaries in Italy.)

OUR FIRST CHRISTMAS AND NEW YEARS IN ITALY

For our children Christmas came early this year. Santa made his first appearance December 6 at the Swiss school. He gave each of them a bag of nuts, an apple, orange, dried figs and candy. The reason for his early visit: The Swiss, Germans and Dutch observe December 6 as Americans observe December 25, putting their shoes out by the door and hanging stockings to be filled with candies and gifts, or switches.

Around the 16th the Christmas decorations began to appear, and by the 24th almost every store regardless of size had a tree up. We saw them in milk stores, meat markets about the size of a walk-in closet, and public garages alike. We even passed two trucks on the highway with lighted trees mounted on the cab.

The Italians celebrate the 25th of December almost as Americans, with gifts and a big Christmas dinner. This is strictly a family day for them with as many of the family together as possible.

Even though the Italian children receive gifts the 25th, their real "children's day" is not until Epiphany, January 6. Tradition says that the wise men arrived in Bethlehem on this day to adore and give gifts to the baby Jesus.

The Italian children's Santa is an old woman called Befana. She carries two sacks on her back, one filled with toys and candy, the other with

children. But even for the bad children the coal is a pleasant gift for it's really candy with the appearance of coal.

Everyone seems to get into the Christmas spirit, even the postman, the street cleaner, and garbage man. A few days before Christmas, each one stops at each house in his territory for a "Christmas bonus." It is customary to give about a dollar to each of them. On Christmas and New Years day, the policemen directing traffic from the middle of the intersections, receive gifts, individuals and firms place candy, bottles of liquor, cakes and various other gifts around their favorite policeman's stand.

New Years eve is celebrated here much like in the States with many parties lasting through the night. But the Italians observe a tradition which is strange to us. At midnight, the ones who observe this tradition throw old bottles and trash out the windows on to the streets and sidewalks. This is to symbolize a "clean and fresh start" for the New Year. At midnight we heard old cans and bottles crashing to the sidewalks and street in front of our house. This gets to be both noisy and messy in a section of apartment buildings 5 and 6 stories high. (We didn't take part in this tradition.) On New Years day when we saw the streets, we felt so sorry for the poor street cleaner that we decided to increase his "bonus" for next year.

You were in our thoughts much of the time during this holiday season. We wish to express our appreciation for the many beautiful cards, and packages, and each remembrance for us. We wish all of you a new year filled with happiness and contentment.

## Small Number Of Vehicles Have Met Safety Inspection

Less than thirty per cent of the registered vehicles in this area have been safety inspected for 1962, according to Captain Alan Johnson, Motor Vehicle Inspection Service of the Texas Department of Public Safety.

With the April 15 deadline for having the vehicles checked, rapidly approaching, this means there are approximately 56,500 vehicles in Lubbock County remaining to be inspected by the 80 approved inspection stations available.

Many motorists are going to find long lines awaiting them as the deadline draws nearer, due to the inspection stations not being able to cope with this large number.

The Captain urged drivers to have their vehicles inspected

as soon as possible to avoid this last minute rush. In addition, he reminded drivers that this time of the year is noted for adverse weather conditions which prevents the inspection stations from checking the vehicles.

"Passenger cars are inspected for brakes, lights, reflectors, horn and windshield wipers; while commercial vehicles are inspected for the above plus additional items required by law," Captain Johnson said. "All motorists not displaying a valid 1962 inspection sticker by April 15 will be in violation of state law."

## Chemicals Conference Scheduled

LUBBOCK -- The role of chemicals in West Texas Agriculture will be discussed at the ninth annual Agricultural Chemicals Conference Feb. 13-15 at Texas Tech, Lubbock.

The conference is aimed primarily at agricultural chemicals dealers, distributors, processors, manufacturers and interested farmers.

Registration will begin Tuesday, Feb. 13 at Parkway Manor Motel. The fee is \$3. The conference program will begin Wednesday.

The Wednesday morning session will feature discussions of the use of chemicals on individual farms, the nematode control program in Midland County, and the Texas sales tax as it applies to agricultural chemicals.

A highlight of the afternoon session will be a panel discussion of "What's New in Agricultural Chemicals." The discussion will include insecticides, fungicides, harvest-aid chemicals, livestock feed additives and sorghum midge.

The panel will be followed by talks on weed control in cotton and grain sorghum and interaction of production factors.

Tuesday's program will center on soil testing and fertility. It will be concluded by a panel discussion on "Results of Soil Fertility Research in 1961."

## Tigerettes Fall To McAdoo 56-41

Slaton's Tigerettes, in the final non-district game of the season, fell to McAdoo by 56-41 Tuesday night.

The Tigerettes trailed 12-9 at the end of the first quarter and were behind 25-18 at halftime.

Going into the final quarter

Glenda Bounds led the scoring for Slaton with 18 points, hitting 8 field goals and two free throws.

Next was Elaine Barnes, with 13 points. James Thompson scored six points and Marilyn McSweeney and Janet Adamek both had two each.

are Denver City here Friday night, and Stanton there Tuesday night, to round out the season.

Last Friday night the Tigerettes fell to Post.

Glenda Bounds again was top scorer with 25 points, hitting 11 from the field and three from the free throw line.

## The Answer To Socialized Medicine

It has been charged that the medical fraternity and allied groups have little if any interest in the medical problems of elderly people in the lower-income brackets--and that, therefore, the federal government must provide medical care, preferably by adding it to the social security system.

Those who have been misled into believing that should find much food for thought in a joint announcement made by the National Association of Blue Shield plans and the American Medical Association in mid-January.

The announcement concerned a new, nationwide program of surgical and medical care benefits for all low-income people over 65. The cost is estimated at about \$3 a month. No government subsidies are involved. Single persons whose incomes are \$2500 or less and married couples in the \$4000 and under categories will be eligible. The plan will pay all medical and surgical costs, along with the bills for X-ray, anesthesia, and various tests. People over 65 with higher incomes can also enroll, and in their case an additional charge can be levied by the physician concerned.

Dr. F. J. L. Blasingame, executive vice-president of the AMA, said the plan represents "another important step in the direction of achieving through voluntary, private initiative an effective solution to the problem of meeting health care needs of the aged." And the new plan is in addition to other effective programs--such as the Kerr-Mills bill, passed last year, which provides federal subsidies, through a system of joint federal-state administration, for elderly people in the very low income brackets. Also, there are many state and local welfare programs which

provide medical services for people who cannot afford to pay.

These are some of the answers to those who claim that we need socialized medicine, government dominated medicine, or a catch-all program of giving government-paid medicine to anyone drawing social security benefits whether they need assistance or not.

### DON'T CULTIVATE WEEDS

Writing in the Trumpeter, Paul J. Cupp, president, American Stores Company says:

"The story is told of the great Roman Emperor Hadrian finding an aged man planting olive trees, and since they grow so very slowly, saying to him: 'Old man, these trees will not bear fruit for many years. Do you expect to be alive to eat of the fruit of your labor?'"

"The old man replied: 'If God wills, I shall eat--and if not, my son will eat. My father and his father before him planted trees that I might have fruit. It is my duty, then, to provide for those who shall come after me.'"

"Here is illustrated a basic principle of human progress. Our forefathers did not plant many olive trees, but they did better in planting ideas and cultivating knowledge, practicing thrift and industry, so that we have become a part of the most prosperous society the world has ever seen. We should know clearly how this all came about, and realize that the old-fashioned virtues have lost none of their validity and value."

Too many people in the United States are failing to cultivate the ideas planted by our forefathers, that gave us freedom, individual opportunity and responsibilities.

If we don't start cultivating the olive trees of ideals we inherited, we will find ourselves buried in a tangle of socialistic weeds, the seeds of which are now being planted.

## 21st Century Utopia-- If the Bomb Permits

By MARTIN HEERWALD  
United Press International

SEATTLE, Wash. (UPI)—The theme exhibit for Seattle's 1962 World's Fair will show fairgoers the kind of Utopia possible in Century 21, if man chooses not to destroy himself.

The world of tomorrow will be housed in an unique, tent-shaped coliseum of steel and aluminum, so constructed that it rises to an 11-story height at its peak with

no inner supports to absorb space or obstruct views.

"Century 21 -- The Threshold and the Threat," will depict the cities, landscapes, homes and total environment for man in the next century. The danger of nuclear destruction will not be pictured, but designers of the show have constructed it in such a way that the threat will follow viewers like a shadow.

The show will be projected onto 3,250 aluminum cubes, cleverly bolted so they will seem to float in gravity-defying patterns above the coliseum floor.

Spectators, 100 at a time, will view the show by taking a "bubbleator," a huge, transparent elevator, to platforms. They will see the entire show on the "cloud" of four-foot cubes in 21 minutes. A new show will begin every two minutes, 40 seconds.

The theme show is being put together by Donald Deskey Associates, Inc., New York. William Joachim, executive director of the show, says the electronic requirements are so exact that "we're actually building an electronic computer."

Alfred Stern, show producer, says the theme will create a solitary, detached atmosphere showing "the promise of man's dreams, time ticking away, the threat before the threshold."

Approximately 4,000 effects will be presented during the 21-minute show. Lights will range from deep colors to pastels, music from jazz to symphonic themes, while vivid scenes of man at work and play in all seasons of the next century are projected.

Stern says the entire show will be controlled by precise timing on electronic tape. "Light, sound and motion will motivate people to move through the show. We will be reaching them in a very intimate, emotional way."

The whole show, including the coliseum, which will become a giant sports palace for the city after the fair.

### HIGHLIGHTS AND SIDELIGHTS

**NAMES IN THE HAT**--With the special session of the Texas Legislature ended, candidates for state offices quickly grabbed the spotlight.

Most surprising announcement was the filing of former Gen. Edwin A. Walker as a Democratic candidate for governor.

Then came Gov. Price Daniel's statement that he would seek re-election to a fourth term as governor.

Land commissioner Jerry Sadler predicted that Daniel would run again, and cancelled his tentative plans to seek that post. Instead, he announced for re-election.

Attorney General Will Wilson said failure of the loan shark bill to pass was the determining point in his decision to file as candidate for governor.

John Connally, already actively campaigning for the office of governor, came to Austin to pay his \$1,000 filing fee and left immediately on a flying organizational trip to West Texas.

Gubernatorial candidate Marshall Formby opened state headquarters in Austin. He appointed Dr. James B. Ray of Austin, Wendell Gambill, Dr. Joe Webb and Clint Formby to organize his campaign.

Don Yarborough, Houston attorney, paid Austin a visit to announce his candidacy for governor.

So far, the only Republican contender for governor is Jack Cox of Breckenridge.

Agriculture Commissioner John C. White filed for re-election to the post he has held since 1950. White said 1962 should be a turning point in achieving greater self-determination for farmers and ranchmen.

J. Evetts Haley of Canyon is the only other announced candidate for commissioner of agriculture.

Other candidates for statewide offices flooded the State Democratic Central Committee headquarters.

William G. Street of Littlefield filed for associate justice of the Supreme Court, Place Three, against incumbent Judge Zollie Steakley, Judge Meade Griffin, who holds Place One on the Supreme Court, drew Jesse Owens of Amarillo as an opponent. As of Saturday Judge James R. Norvell had no opponent in his campaign for re-election to Place Two on the court.

County Judge Woodrow W. Bean of El Paso; Warren G. Moore of Tyler; and Manley Head of Austin, filed for Congress -- at large.

Judge W. T. McDonald of Bryan, Court of Criminal Appeals justice, joined the attorney general race.

Immediately after the House passed the loan bill, Speaker of the House James A. Turman announced for Lieutenant governor.

That brought the total of democrats running for the second top spot to six; Sen. Preston Smith of Lubbock; Sen. Crawford C. Martin of Hillsboro; Sen. Robert W. Baker of Houston; Sen. Jarrard Secret of Temple and former representative Gene Smith of Fort Worth, plus Turman.

O. W. (Bill) Hayes of Temple and Kellis Dibrell of Sequin both filed as candidates for lieutenant governor. Dibrell practices law in San Antonio, Hayes is vice president of Cogitental Belton Company in Belton. Both are 43 years old.

Earlier, two other republicans had filed for the same office--Congressman-at-large. They were Giles E. Miller, Dallas publisher, and Desmond Barry, Houston industrialist, SUGGESTS FORUM -- Tom Reavley, Austin attorney running for attorney general, suggested joint appearances for himself and opponents, Waggoner Carr of Lubbock, Les Procter of Austin, Tom James of Dallas and Judge W. T. McDonald of Bryan.

"Joint appearances of the candidates will bring the issues and the candidates squarely before the people of Texas," he said.

## Read Romans 8 :31-39

Nay, in all these things we are more than conquerors through Him (Romans 8:37).

In our service for the Master, we are often too eager to see our account right away. Dwight L. Moody tells that one morning he was in his study because he could not see much fruit of his work.

One of his friends came in and sensed his gloom. The visitor asked: "Had studied the life of Noah, Moody replied, 'No, I never studied it particularly.'"

When the visitor left, Mr. Moody took down his Bible and read how he had toiled for God many, many years, yet never got discouraged, Moody said to himself, "Well, I ought not to be discouraged." The clerk and he could say: "Let us ask God to give us hope, that we may be ever

If the Lord wants us to work without any fruit, let us work on for Him, for us, we can do our best, and leave the rest in His hands.

PRAYER: O God, give us an unquenchable love for Thee. Grant also that the challenge of helping others love Thee, inspire us to do our best to leave the results in Thy hands. For the Savior's sake, Amen.

THOUGHT FOR THE DAY

If we do our work for the Master, God will not permit it to be

A Chinese proverb says, "Life is not a vessel to be drained, but a cup to be filled." Regular worship throughout the year offers one of the best ways of filling our "cup."

From Bill Turner's column in The Oltan Enterprise. SO NOW all the conservatives are a bunch of nuts! That's the impression left in the first of a series of articles now appearing in the Avalanche-Journal. Reiman Morin, a Pulitzer Prize-winning reporter for the Associated Press, says "rightist thinking has permeated many segments of American society." And, it seems to me, he puts anyone who is right of center-conservative in the category of the far right, or extremist. His description, he says "does not apply, in all respects, to every rightist. There are many groups and many different shades of opinion among them." But the description of the rightist, he says, "does point the general direction of what appears to be a rising river of opinion in the United States today."

nedy's plans to set up a Department for Urban Affairs . . . you're an extremist. Don't ever believe that some Supreme Court decisions actually benefited the Communists. . . you're an extremist. Don't be against our government's purchase of UN bonds . . . you're an extremist. IT SEEMS TO ME the whole effort of those who blast at conservatives is one which would make the American people be "moderate." In other words, don't protest or gripe. You've never had it so good. Let government do what it wishes . . . get bigger and bigger . . . pretty soon you won't have any problems at all. Or maybe that's not exactly right. There'll always be problems, I suppose, but we could lose the right to decide them for ourselves. From Doug Meador's column in the Matador Tribune. Winds blow across a cradle and cool a baby's tears, or brush the brow where a feverish child sleeps. They drive the storm clouds of youth, tumbling into chasms of young despair and quickly wash the blue porcelain skies to make the world a temple of ecstasy. The winds are fraught with urgency in the harvest years and blow softly against the sails of memories in the twilight. A dried leaf falls on the polished ebony waters and hurries from the

Massiveness and heaviness have passed for years as positive indications of quality in high fidelity components. But transistors are being used more and more in fine components and their use is likely to increase. So it will take some psychological adjustment for the old timer to accept the lack of both weight and size in transistorized components. An outstanding example of massiveness and size not meaning what they used to is the new Knight transistorized FM stereo multiplex tuner. The tuner, the model 250M, is not completely transistorized. Where tubes work better than transistors, the engineers used nixistors, tiny tubes which RCA makes of ceramic and metal. Nixistors don't shade transistors much in size, so the next result is that the Model 250M tuner is about as big as a cigar box and weighs perhaps as much as a box of cigars. It is not a lightweight in performance, however. It performed perfectly on FM multiplex with only a 99-cent television "rabbit ears" antenna. shore, caught by the soft breath of eternity. Accurate data concerning a man's greatness should be obtained from some source other than direct. If two can live as cheaply as one, they can watch television for the same price, unless, of course, they are influenced to buy different sponsored products. One of the oldest forms of deception is to cover a malicious distortion of truth with the cloak of an innocent man. Instant coffee is not so new. The cowboy had it by the simple process of dashing a dipper of mudhole water over Arbutle grounds and placing the blackened coffee pot on the coals. The world is so delicately adjusted to its mountain of ignorance that any major shifting of the balance would develop a calamity. Deceit has a steady market value and is often in short supply, depending on the number of eager suckers who have worked enough to buy it.

### Science Program--

dents of Texas must be submitted through the offices of high school principals. Out of state applicants may apply directly to the NSF coordinator's office at Texas A&M. Dr. W. S. McCulley, A&M College associate professor of math, will direct the math course. Directing the biology program will be Dr. John J. Sperry, professor of biology. The physics program will be directed by Dr. Melvin Eisner, professor of physics.

### James Ellis--

Court at Law, Ellis stated: "Lubbock County is entitled to secure the best in the way of public service from its elected officials, and I shall endeavor to meet that challenge."

of the FM channel. The tuner is not without disadvantages. In tests on the "rabbit ear" antenna it picked up the sound of a Channel 4 television station weakly and the sound of a Channel 13 TV station strongly. It also picked up the tower radio at a nearby airport. None of these extraneous signals came in, however, on a channel FM station was using. The tuner could be improved from the standpoint of convenience by adding an output for a pair of stereo headphones.

What to Eat With Soup for Breakfast

TODAY ACROSS AMERICA, youngsters and oldsters are spooning and sipping soup to help awaken sleepy appetites. Chowders, broths, or vegetable-meat soups can be delightful, warming stimulants, easily prepared from the can in four quick minutes. Soup starts the day in merry style. The flavorful liquid has a comforting way of creating a cheerful outlook—of helping to make the opening hours of a day a time for conversation. Best of all, it is food of complementary nature, and the perfect team-mate with established breakfast foods. So, let's consider the question so frequently asked: "What do you eat with soup for breakfast?"

Catholic Daughters Meet Sunday

Grand Regent, Mrs. A. W. Steffens presided for the meeting of Our Lady of Assumption No. 1364 Catholic Daughters of America last Sunday afternoon at 2:00 p. m. Thirty three members attended the meeting.

A sick committee was appointed for the month of February which included Mrs. Paul Buxkemper, Mrs. C. J. Buxkemper, Mrs. Alvin Buxkemper, Mrs. John Denzer and Mrs. Alphonse Denzer.

A reception for new members was planned for March 11. The degree team from Slaton will be in charge of a reception for the Court in Amarillo on February 25.

Short words are best and the old words when short are best of all.

## Elizabeth Smith, Earl Stennett Exchange Vows

Miss Elizabeth Smith became the bride of Earl Gordon Stennett at 10:30 Friday morning in the home of the bride's parents, Rev. Comstock officiated at the ceremony.

Parents of the couple are Mr. and Mrs. T. S. Newman of 1205 1/2 Garza in Slaton and Mr. and Mrs. Bert Stennett of 630 S. 9th St. in Slaton.

The bride given in marriage by her father, wore a white lace sheath dress and carried a bouquet of red roses over a white Bible.

Miss Rose Smith, sister of the bride served as maid of honor, she wore a white sheath street-length dress.

Preston Smith, brother of the bride, served as best man. A reception was held in the home of Mr. and Mrs. T. S. Newman, Mrs. D. H. Blackley and Mrs. Bronell Daniels served at the punch bowl.

After a wedding trip to Big Spring the couple will reside in Slaton.

The bride attended Slaton High School. Her husband is a 1958 graduate of Slaton High School and is now employed at Gibson Wholesale in Slaton.

Guests attending the wedding were Mrs. B. W. Brown and Toy, Onita Stennett, Mr. and Mrs. Bert Stennett, Mr. and Mrs. Preston R. Smith, Mr. and Mrs. Bronell Bains, Rommie Edwards, Mr. and Mrs. Tim Bourn, Miss Rose Marie Smith, D. H. Blackley, Stewart Newman.

MRS. EARL GORDEN STENNETT

## Longer Gloves Are Becoming Popular

Glove lengths vary from the briefest of all, which stops at the wrist, to 20-button-plus. The very short glove has a young and jaunty look; the 8-button glove is a staple in any wardrobe, but 10-12 to 16-button lengths are becoming increasingly popular.

We refer to 4-button, 8-button, and on up, when we wish to designate how far the glove should extend beyond the wrist, says Mrs. Mary Jo Carlton, county home agent with the Co-operative Extension Service of New Mexico State University. This practice began when French gloves were fastened with buttons placed one inch apart. Today, button-length refers to the number of inches the glove measures from the base of the thumb to the top edge.

Remember, 20th century rules about glove lengths are concerned with fashion rather than time of day, Mrs. Carlton explains.

For very formal bare-shouldered fashion, wear 20-button-plus extending from above elbow to shoulder, she advises.

Sleeveless daytime or dinner dress calls for very short gloves or opera length, which is 16-button and comes above the elbow.

A 10-button crush glove or 12-button elbow length, or even a longer glove crushed to a shorter length may be worn with a cap sleeve. An elbow sleeve looks best with an elbow glove that meets the sleeve; and a below-elbow or bracelet sleeve is best with an 8-button or very short glove.

"There are no set rules for glove colors, but the over-all rule is match -- or contrast," the county home agent points out. "Lighter or darker shades in the same color family may be considered as matching colors."

## Katherine Cooper To Be Home Demonstrator

The Woodrow Home Demonstration Club met Thursday afternoon with Mrs. Dunson as hostess.

Mrs. Allen Hagens presided over a short business session. The club members will send a Valentine package to their boys at Trovis State School in Austin.

Mrs. Katherine Cooper volunteered to be Home Improvement Demonstrator.

Members present covered coat-hangers with plastic lace demonstrated by Mrs. Bennie Hagens.

There were ten members and one visitor, Mrs. J. R. Gaines present.

The next meeting will be February 15 with Mrs. Ruby Gonzales as hostess. The program will be on packing a suitcase demonstrated by Mrs. Bennie Hagens.

## Mrs. Bill Pohl Hosts Dorcas Class

The Dorcas S. S. Class of the First Baptist Church, met in the home of Mrs. Bill Pohl, February 1 at 7:30 p.m.

Mrs. Edgar Moseley was co-hostess, Mrs. C. D. Willis gave the opening prayer, Mrs. Clifford Young brought an interesting devotional from the 34th chapter of Psalms and the 2nd chapter of Exodus.

Mrs. Boyd Meeks, secretary, read the minutes and gave the treasure report.

Old and new business was discussed by the class during the meeting. Mrs. Raymond Smoot, teacher, on the Shelter Protection Instruction she had been attending.

Refreshments of cake and coffee were served to the following: Mesdames Raymond Smoot, Boyd Meeks, Wade Thompson, C. D. Willis, H. E. Woods, Sam Wilson, Olen Dickerson, C. R. Bain, Ernest Carroll, Mr. and Mrs. Edgar Moseley, Mr. and Mrs. Bill Pohl, and one guest Mrs. Ethel Tate.

## COMPACT AMERICAN IS BECOMING RARE

UP, UP, UP go American men and women as each succeeding generation gets taller and heavier. And the rate of increase is speeding up, says the Nutrition Research Division of the Department of Agriculture. Statistics taken from many sources show that men born in the late 1920's average a minimum of an inch taller than those born about 1900 who, in turn, are an inch higher than men born in the 1870's. Today's average man, the Department says, is 5 feet 10 inches tall compared with 5 feet 9 in 1925 and 5 feet 8 in 1900. Women are taller, too. Those 17 to 25 years of age average 5 feet 4 1/2 inches, an inch above the iris of the 20's. The average weight of today's fully grown male is 158 pounds, compared with 134 in 1900. . . IF THE EARTH were as smooth as a ball, the seas would cover the planet to a depth of 12,000 feet.

We are living in the most spectacular and dangerous period in history -- an era of discovery and sacrifice. To master the courage necessary to see us through this difficult time, we need a deep religious belief. Seek your faith, keep it strong, practice it. Keep religion in American life. Worship this week at the church or synagogue of your choice.

## BEAUTY - News & Views

By TONI WOODWARD - ANS

THE ICY COLD and bitter winter winds wreak havoc with milady's skin, especially those women who are active outdoors on the ski slopes and skating rinks.

Guard against windburn and chapped face and hands by keeping a small tube of antiseptic First Aid Cream with you. Dab it on forehead, cheeks, nose and chin when you venture forth for winter fun, and your skin will have all the protection it needs.

The multi-purpose cream also is ideal for minor cuts you may suffer when skis tangle or skates slip.

## Zesty Meat Loaf

MEAT LOAF is an easy-to-prepare, hearty main dish for winter evenings. And it can be deliciously different, if you mix a little A. I. Steak Sauce with the ingredients. Try it

and see if your family doesn't ask, "Mom, how can meat loaf taste so good?"

## HAMBURGER LOAF

- 2 beaten eggs
- 1 cup rolled bread crumbs
- 1 lb. ground beef
- 2 Tbsps. A. I. Steak Sauce
- 1 tsp. salt
- 3/4 cup milk

Mix ingredients in order given and pack in 5" x 9" loaf pan or 8" ring mold. Bake 45 minutes at 350°. Turn out on platter. Surround loaf or fill center of ring with cooked rice, peas or sauteed mushrooms. Serves 6.

## One Step Ahead

HERE is a stunning '62 Advance design No. 2877, adaptable in fabrics from light summer to heavy winter weight... because of the elegant casual lines... one of the first to feature Talon's new Zephyr, a zipper with modern age precision. It's made of nylon where metal used to be! Won't pinch, snag, catch or slip and it pulls itself out of every jam in two zips. Colors, of course, with both fabric and coil dyed to permanency, so the closure is barely more detectable than a seam.

## PTA To Meet Monday Evening

The February meeting of the Parent-Teacher Association will be held Monday, February 12, at 7:30 p. m. in West Ward auditorium.

The Rev. Fred Ryle, pastor of First Presbyterian Church, will be the speaker and music will be under the direction of Mrs. J. D. Perkins.

All parents and friends of the association are invited to attend the meeting according to Mrs. Tommy Davis, publicity chairman.

...it's always FAIR weather when Reddy and your dryer get together

No matter what it's doing outside -- raining, snowing, sleeting, blowing -- weather indicator will read FAIR... if you have an electric clothes dryer you can wash clothes anytime -- morning, noon or night at YOUR convenience. KNOW you can dry them -- you no longer are a slave to the outside weather.

Reddy's ready to get together with you to make it fair drying weather -- together with your Reddy Kilowatt Electric Appliance Dealer.

**FOR and AGAINST**  
 for CHRIST-against COMMUNISM  
 BY BILLY JAMES HARGIS, LL.D.  
 FOUNDER CHRISTIAN CRUSADE

**A Confusing Book**

One of the reasons why most Americans are so unaware of the perils hanging over our nation, and are so confused on the subject of Communism is the type of books they read and trust. In this brief column we will deal with one example, a book entitled "The True Believer."

The July 1961 issue of the Interchurch News, an official monthly publication of the Office of Information of the National Council of Churches, recommended this book by Eric Hoffer to its readers: "You will turn again and again to this probing study of fanaticism and mass movements for interpreting the signs of the times." Here is a quote from this fantastic book which shows the type "interpreting" into which it will mislead readers.

"If the Communists win Europe and a large part of the world, it will not be because they know how to stir up discontent or how to infect people with hatred, but because they know how to preach hope."

Could the Interchurch News give one example of a country the communists have conquered because of popular support won through the "hope" they preach? Of course not, even though left-wing liberals claim nations were taken over this way. An open minded examination of facts will prove them completely wrong, as has been proven in the case of China, Cuba and other Red-enslaved lands. Communists take over a nation through deceit, clever infiltration, propaganda, subversion, coalition government, and force.

In the preface to his book, Eric Hoffer observed that all mass movements, including Christianity, "share essential characteristics which give them a family likeness." He said that, "All movements, however different, draw their early adherents from the same types of mind." Throughout this ridiculous book the author persists in placing Christianity in the same class with Communism and other totalitarian tyrannies.

Hoffer agreed with the communist view of religion as being the "opium of the people," but he went a little further and also observed that: "Stalinism is as much an opium of the people as are the established religions." I wonder if the millions of suffering human beings in communist prisons and slave labor camps considered Stalinism to be an "opium" relieving their misery, or if they consider the communist tyranny under its present leaders to be such an opium?

"The True Believer" is only one example of much absurd and misleading literature recommended by leaders of the National Council of Churches.

**OUR MEN IN SERVICE**

FORT ORD, CALIF. (AHT-NC) -- Army Pvt. Dewey M. Corley, 23, whose wife, Linn, lives in Tahoka, Tex., completed the automotive maintenance helper course at Fort Ord, Calif., Jan. 26.

Corley was trained to perform maintenance on military vehicles and to recover all types of automotive materials. He entered the Army in August 1961.

Corley is a 1957 graduate of Wilson High School. His parents, Mr. and Mrs. William B. Corley, lives in Wilson.

The USS PROVIDENCE was the first U. S. Pacific Fleet guided missile cruiser to earn the Missillery "E" for outstanding marksmanship.

"What's Helen's new husband like?"  
 "I've never seen him, but knowing Helen, I'd say he's a mousy one."

# 66 Casualties Noted During 1961 Hunting

Reports of 66 hunter casualties were received from wardens of the Game and Fish Commission for the calendar year 1961, according to T. D. Carroll, coordinator of information and education of the Game and Fish Commission.

Of the 66 reports, all but three

involved guns--shotguns, rifles, or pistols. One hunter was the victim of a heart attack, one lady fell from a hunting stand in a tree and was badly bruised, and one male hunter fell from a tree and broke his back.

Twenty youths (under 21 years of age) were victims of shooting accidents--seven of them fatal.

Two youngsters were injured in target practicing--one the victim of a ricochet. Another youth, a 15 year old lad, was fatally shocked when the water pipe he was lifting to dislodge a rabbit came in contact with a power line.

Most of the accidents were the result of careless gun handling. However, in six instances, according to Game and Fish Commission reports, victims were mistaken for deer. One hunter mistook two hunters for deer and injured both of them at the same time. Of the six "mistaken for deer" casualties, one was fatal.

# Farm Facts

In 1960, the cost of the standard "market basket" which the government uses to measure price trends, averaged about 2% below 1958 and about the same as in 1952.

The average factory worker in 1960 could buy a market basket of farm foods for a whole month with the earnings from 43 hours of work. In 1952, he worked 55 hours and in 1947 he worked 64 hours to buy the same amount of food.

We spent \$394 per person for food in 1960, compared with \$319 in 1947-49, but the 1960 food costs represented only 20% of our disposable income, compared with 26% in 1947-49. If we ate the same foods as we did in 1939, only 15 cents of our spendable dollar would go for food rather than 20 cents.

Price spread--difference between what the farmer gets and what the consumer pays--rose from 48% to 60% between 1946 and 1960 as a result of higher taxes and higher costs of labor and transportation.

Only major factor in price spread which has declined since 1946, according to the Grocery Manufacturers of America, is the net profit per dollar of sales for food manufacturers and distributors.

Of those 10 additional casualties, six were fatal and, of the six, four were known to be youths.

During the months of November and December, eight hunters reportedly fell victim to fatal heart attacks while hunting. The average age of these victims was 54.4 years.

Several unusual accidents occurred. One man broke his ankle stepping from a jeep. In another instance, a jeep over-

Texas has oil reserves of more than 19 billion barrels.

Nineteen, or 30 per cent, of the shooting accidents reported by field men were fatal. Women were listed in two of the accidents, though only one was involved in a firearm accident. The other fell from a tree.

The reorganization of the Game and Fish Commission went into effect September 1, 1961, at the beginning of the hunting season. Many field personnel were shifted to new areas and this, no doubt, influenced the efficiency of their reporting.

A check of news clippings from the various newspapers published in the state revealed 10 hunting accidents reported for the months of November and December which were not reported by Game and Fish Commission field men, who reported 30 during that same period of time.

Although the official Uniform Hunter Report of the Game and Fish Commission was recorded as received (66 accidents, 19 fatalities), there is no doubt that the totals were appreciably higher and that 25 or more Texas hunters lost their lives in hunting accidents during 1961.

Two Big Problems Left

Governor Proclaims Session Productive

A hectic final night ended the special session of the Texas Legislature. Two major problems -- loan regulation and appropriations -- were left unfinished.

Senate killed the loan regulatory bill by a two-vote margin, after the House had approved it by 18 votes. It was described by experts as the strongest loan regulatory law in the nation.

Death came to the appropriations bill in the House. It would have provided money to advertise for tourists, repair San Jacinto Monument, repair damages done to state properties, pay Senate employees, and finance a number of other items.

Gov. Price Daniel called it a very productive session, nevertheless.

He said it had settled two long-standing issues -- bank-scheat reporting and farm-to-market road policy.

Daniel was disappointed about the failure of the loan legislation, tourist advertising, and San Jacinto Monument repairs. But he said he would not call this Legislature back into session in the foreseeable future.

Lawmakers headed for home to file for re-election and begin their campaigns for the same or other offices.

This session set some sort of a record for fast action on bills to solve local problems. These ranged from closing the season on alligators in Orange County, to a score of bills creating new water districts (to undertake drainage, hurricane protection or water supply projects).

Daniel was pleased at the bill changing the name of the State Board of Water Engineers to the Texas Water Commission, and reworking it into an image of the State Highway Commission. The chief engineer takes over full administrative control, leaving policy matters in the hands of the three-member commission.

Governor Daniel stalled a flood of mail, telegrams and

phone calls, which he had elicited, and decided that there was a definite public demand for him to try to become Texas' first four-term governor.

**WHO SHOULD CENSOR?** -- Question of school book censorship was buffed about by 22 witnesses, when the House Textbook Investigating Committee held its fourth weekly public hearing.

Some 200 persons attended the hearing.

Frank Wardlaw, director of the University of Texas Press, said, "There are no men wise enough to serve as censors." He stated that he would prefer that his children's textbooks be censored by authoritative professors, rather than by unqualified individuals.

Author J. Frank Dobie said "the more textbooks are censored, the weaker they become."

The opinion that regulation of teaching materials by elected

trustees has worked satisfactorily was expressed by former Baylor University trustee Joseph M. Dawson.

**SHORT SNORTS**

Governor Price Daniel announced the appointment of Rep. B. H. Dewey Jr. of Bryan to the executive committee of the Southern Regional Education Board.

In another appointment, Governor Daniel named J. Walter Friberg, Wichita Falls attorney, as district judge to fill the unexpired term of newly-elected Congressman Graham B. Purcell Jr.

State Highway Commission ordered State Engineer D. C. Greer to start plans for a four-lane highway to serve the NASA space center in Harris County.

Assistant Attorney General Gordon C. Cass resigned effective March 1 to practice law in Lampasas.

OUR BOYS IN SERVICE

**SCHOFIELD BARRACKS, HAWAII (AHTNC)** -- Army PFC Melvin R. Elliott, 22, whose wife, Barbara, lives at 1120 S. 12th St., Slaton, Tex., is receiving three weeks of training with other members of the 25th Division's 14th Infantry at the Pohakuloa Training Area in Hawaii. The exercise is scheduled to end Feb. 10.

The 14th is being tested on its ability to fire its weapons accurately and effectively and its ability to live in the field under simulated combat conditions. The training will culminate in a three-day live-fire exercise in which the 14th will be supported by tanks and artillery. This tactical maneuver will test the ability of 25th Division units to work together to accomplish their common mission.

Elliott, a fire team leader in the 14th's Company B which is regularly located at Schofield Barracks in Hawaii, entered the Army in February 1960, completed basic training at Fort Carson, Colo., and arrived in Hawaii the following November.

The son of Mr. and Mrs. John R. Elliott, 1135 W. Lynn st., he is a 1958 graduate of Slaton High School and was

employed by Hestand Wholesale Grocer before entering the Army.

**For Dieters**

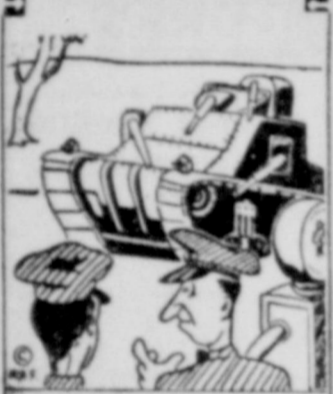

**NEW YORK (UPI)** -- Dessert toppings made with instant non-fat dry milk are kind to the budget and the waistline. They contain two-thirds fewer calories than whipped cream.

To make 2½ cups of fruit whipped topping, mix ½ cup each of instant nonfat dry milk and well-chilled orange juice. Whip with electric mixer or rotary beater 3 to 4 minutes, or until soft peaks form. Add 2 tablespoons of lemon juice and continue whipping 3 to 4 minutes more, until stiff peaks form. Gradually add ¼ cup of sugar. Fold in ½ cup of drained crushed fruit. Serve immediately, since this topping does not hold up as well as cream.

**Barrel Pickles**

**NEW YORK (UPI)** -- The kind of dill pickle that used to be sold from a barrel at the corner grocery is returning to the stores in barrel-shaped glass jars. The new cured-in-wood dills naturally ferment during the weeks they remain in wooden tanks. Lactic acid develops that gives them a unique flavor.

**BEDROOM CANOPIES**—This 18th Century French bedroom by Mrs. Henry Parish, II, A.I.D. was one of the star settings in the "Decoration and Design 1962" show in New York. Highlighting the room are two canopied beds. Canopies, bedspreads, and bed upholstery are all done in a cotton batiste print, which is repeated in curtains. by F. Schumacher.

**RUSTIC ROOM**—The rustic scenes in the colorful drapery fabric are repeated in the upholstered chair in this converted barn designed by Barbara Barondess MacLean, A.I.D., who also designed the fabric for F. Schumacher.

**ONE-ROOM LIVING**—Interior Designer Ellen Lehman McCluskey puts limited practical use in this room by carefully camouflaging a bed and by including suitable for several rooms. Giving unity is the hand printed cotton fabric by Romann used for canopy, drapes, and wall covering.

**Cotton Stars**

Cotton played a starring role at the annual interior design show staged recently at the Seventh Regiment Armory in New York.

The show, "Decoration and Design 1962" co-sponsored by the New York chapter of the American Institute of Interior Designers, the Resources Council of A.I.D., and the Herald Tribune.

Shows that exhibit only home furnishings and Design 1962" was a demonstration demonstrating how these can be properly in integrated rooms and vignettes, as interpreted by American interior designers. More than 125 hand-drawn setting rooms and vignettes in the show the new individualism of living in a futuristic manner.

In addition, a wealth of decorating homemakers could be found in the settings by experts. And cotton proved to be just in vogue with the designers showing at "Design 1962" as it is with homemakers across the country.

**Tobacco Seed Is a Mighty Mite**

WASHINGTON (UPI) — It took an agency of the U.S. Government to settle the issue, but now it's official. There are 314,000 tobacco seeds in an ounce. One of the tiniest yet most prodigious of all seeds, this mighty mite has amazing properties. One tablespoonful is enough to plant three or four acres of land — and there are four tablespoonfuls to the ounce. Varying figures have been used and there have been heated arguments. Tobacco News, official publication of the tobacco industry, said a Tennessee farmer, to settle an argument, spent eight

and a half hours one winter day counting the seeds in a level teaspoonful and reached 21,105 before his eyes gave out. The arguments were settled through a project supervised by R. N. Jeffrey, principal physiologist for tobacco investigations at the Agricultural Research Service laboratories in Beltsville, Md. Fifty seeds were counted out and weighed on an analytical balance, because no ordinary scale would be precise enough. To make the experiment as thorough as possible, the seeds of 15 varieties of tobacco were counted and weighed. Jeffrey found that the average weight per seed for all the tobacco varieties is 0.0902 milligrams, an average of 314,000 seeds per ounce. The official report said: "The weights of different lots of 50 tobacco seeds varied from 3.3 to 5.9 milligrams, indicating a range of number per ounce from 430,000 for the lightest to 240,000 for the heaviest."

**COLOR PHOTOGRAPHY** is just 100 years old, but this hobby on which U. S. amateurs spend a third of a billion dollars each year is a horse of a different color from what was in pioneer days. In 1891, for example, one George Lippman displayed color photographs that were quite good. But Lippman's laborious method remained only a curiosity, since exposure time -- up to 10 million times as long as required today -- would strain the exposure time -- up to 10 million times as long as required today -- would strain the patience of the most willing subject.

A BLOW to women drivers is a National Safety Council statement that they have higher accident rates than men when statistics are related to the number of miles driven by each sex.

INGENUOUS METHOD is used to handle bags of color pigments at Holland Color and Chemical Co. A dozen bags are metal-strapped together between corrugated cardboard. On the bottom sheet are nine stubby "feet," short lengths of corrugated tubing leaving spaces for the insertion of the fork of a lift truck. They're easily stacked and handled by machine and no bags touch floor or ground.

**3 sizzlers in 3 sizes! Now at your Mercury dealer's!**

**1. Compact Mercury COMET.** Lively, frisky, nimble! Comet scoots up hills, scampers through traffic. A choice of two engines. For extra power—the brilliant Mercury Comet 170 "6". For extra economy—the Mercury Comet "6." For extra resale value, too, Mercury Comet leads all the compacts!  
**2. New standard-size Mercury METEOR.** A top performer thanks to Meteor's balance of size, weight, and power. Three great engines: gas-stretching Meteor "6," 221 V-8, and hot new 260 V-8. Big-car features at compact prices — more than half of all compact models are priced above the Meteor 2-door sedan.  
**3. The big Mercury MONTEREY.** Here's sizzle enough to warm the heart of any man. Up to 405 horsepower if you like. Your choice of five sizes: a Monterey "6," a 292 V-8, a 352 V-8, a 390 V-8, and a magnificent all-new mile-melting Mercury Marauder 406—the most advanced V-8 engine in America.

**It's the Law  
in  
TEXAS**

**NO WILL? WHO INHERITS  
PROPERTY?**

What will happen if you should die without executing a legal and proper will? Who will inherit your property? Your husband, wife, mother, father, children, your wife's relatives? The best way you can say who will have it is to provide a will which will protect your rightful beneficiaries and dispose of your property in accordance with your wishes.

When a deceased has no will, or dies "intestate" as the law calls it, the property of that person is distributed according to a detailed formula fixed by law. In some cases this may be the way you yourself would divide it -- but in many cases it is not.

The provisions of the law concerning the distribution of the property of a person who dies without a will are rather complicated, and all of the possibilities cannot be covered by a general statement.

There are different rules for real estate and for personal property, for community property and for separate property, for homestead property, and for all of the many possible combinations of surviving relatives. Each situation must be carefully studied to determine the correct distribution of the property.

For example, here is a general idea of how the community property which you and your spouse have accumulated will be divided if you do not make a will prior to your death.

If your husband or wife survives and there are no children, the surviving spouse receives all of the property.

If, in addition, there are surviving children or descendants of deceased children, they would divide one-half of the property, while the surviving spouse would receive the other one-half.

Of course, grandchildren do not share in the estate unless their parent who would inherit is deceased. And when descendants of previously deceased children do inherit, they receive only the portion that the child would have received, regardless of the number of such descendants.

An odd note, perhaps, is that the surviving spouse already owns one-half of the community estate prior to your death, and the law adds nothing to this share where there are children surviving.

When there are only children and their descendants surviving, they divide the entire community estate between them.

(This newfeature, prepared by the State Bar of Texas, is written to inform -- not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised.)
