Western Day To Be Held Here Tomorrow

Day at Slaton High School tomorrow. The school's activities will get underway with a parade through Slaton, to begin at 10 a.m. The parade will proceed down Lubbock to Eighth, north and then back to High School on Garza Street.

At 11 a.m., an assembly program made up of local High School talent will be held, to be followed by a barbecue at 12:15. Then again at 1:30, another assembly program will be held, to feature such out-of-town guests as Gene Ebens, recording artist of Lubbock; the Lu-Bocks, the Sla-Tons and others. Also at the afternoon assembly will be announcements of winners of the Western Day

King and Queen election, winners in the parade and best western dressed boy and girl. The students vote today on the Western Day King and Queen with winners being announced in the Friday afternoon assembly. Each class will have nominees in the election. Western Day activities will conclude with a dance at the V. F. W. Hall from 9 until 12 p.m.

Charter Amendment Election

(Editor's Note: We had intended to editorialize on next Tuesday's City Charter Amendment Election, but we think you'll agree that the subject is quite well covered in the following pro and con opinions. The election would change the method of electing city commissioners from a ward basis to at-large elections in which the entire community would vote on each commissioner.)

In Support Of The Charter Amendment

Curiosity about the future is tempered by his fear of the unknown. People do not want to have today's joys spoiled by tomorrow, but they can never completely in freeing themselves from the future elections of Negro and Spanish-American Commissioners.

As a citizen, I doubt the wisdom of the proposed amendments. As an attorney, I feel their legality is certainly suspect. Politically it has dangerous overtones. There are facts existing so important to this question that apparently have been discounted by the advocates of the amendments.

First: Within the past five years at least our City Commissioners have been elected in which fewer than 100 people participated in the elections. Second: It is no secret that Slaton is divided into many economic factions, social factions, religious factions and racial factions. In the past, these factions have prevented Slaton from developing as it should and today remain as stigmas to its growth.

Third: The lack of citizens responsibility is reflected in the types of people which we have put into office. It has been extremely hard to get a qualified individual to accept the responsibility of running for office. Fourth: Voter interest is always lowest in the "off years" when there are no Federal, State and County elections. Small interest groups organized find it easier to capture local political offices.

Fifth: There are an estimated 900 potential voters of Negro and Spanish extraction concentrated in Ward Four. The two recent local elections have indicated that they are not well organized as a coalition group... yet. But given an issue such as we have here and some outside help which has been offered and this group could be the dominant political force in Slaton. When this day arrives it will be a contest of race against race and the issue then will not be limited to a City Commissioner's election but equal privileges in our eating establishments, integrated schools, parks, swimming pool, etc.

The proposed amendments have other practical consequences. It will foster group politics: "the most good for the fewest." It will further the causes of those who would prefer to see our town split rather than united. It will allow a small selfish group of citizens to ride in on their white charges under the guise of the saviours of Slaton to run the city as they see fit under the noble slogan of "Keep the niggers out." The older citizens, pensioned citizens and the small salaried citizens living in the older section of Slaton will lose their equal voice in the city government to the rapidly developing south and west sections of town, where there are more liberal leaders who are demanding City money for expanded City facilities they need.

Logic would dictate, if one wants to "solve" the rising tide of colored political interest, that this group should be contained to vote for as few Commissioners as possible and never allowed to have any influence on the election of all commissioners. The proposed amendments will force the "whites" to unite behind a slate of candidates and vote in strength each and every election year. This has not (let me reiterate, has not) been the history of Slaton either to unite or vote in strength in any city election.

Opposition To The Charter Amendment

The charter amendments proposed by the constituted City Commissioners, to be voted on Tuesday, May 10, have grave implications for all voting citizens should seriously consider casting their vote. Implications to me transcend the racial question and have a direct impact on every Slaton citizen. Few can seriously argue that the proposed amendments to the charter are not an effort designed to prevent any

As an attorney, I feel that the amendments, if approved, would be subject to attack upon several Constitutional grounds. There are other reasons why these amendments should be defeated. In closing, Slaton has problems which cannot be solved in the manner proposed. No one wants to see our city become a battleground over civil rights. If the problems are to be solved, responsible leadership and general citizen concern must emerge from both sides to mediate the differences.

Two Elections Imminent In Slaton

A DAY AT THE CIRCUS
Patricia Ann Davis, daughter of Mr. and Mrs. T. A. Davis of Slaton, went to the circus Monday. Miss Davis is shown here with a clown during the afternoon performance of the Lions Club-sponsored circus.

CoC To Contact Group To Help Conduct Survey

The Slaton Chamber of Commerce authorized board vice-president Dr. Lee Vardy to contact one of two school organizations in the near future to determine if they would be willing to help in a current CoC project, at its board meeting Monday night. The project, dubbed "Operation," is a survey of the community to determine many matters of concern to the CoC, including the available labor market, feelings about services and goods available, etc. The project will probably be activated in the early summer. In other business the board discussed current problems in regard to the swimming pool and voted to purchase an ad in The Slatonite in an effort to "get out the vote" for the city's Charter Amendment Election next Tuesday.

Democratic Primary Saturday; Amendment Election Tuesday

The Slaton electorate will march to the polls for the third time this year Saturday. This time it's for the Democratic Primary. Voters will mark their ballots for the candidate of their choice in races ranging from the Governor's race to Precinct Two Constable. About the only local issue to face the voters developed during the past few days when C. C. "Cliff" Weaver began campaigning as a write-in candidate against Allen L. Meurer in the Precinct Two Constable office. Statewide, the voters will mark their choice for governor (Price Daniel or Jack Cox), Lieutenant Governor (Don Yarborough or Ben Ramsey, and Attorney General (Wagoner Carr, Robert Everett L. Bob. Looney or Will Wilson). The State Representative race has drawn the most interest area-wise, with D. L. Jones coming out as a write-in candidate against Homer Hensley and Reed Quilliam in the District 97, Place One race. In the District 97, Place Two race, E. H. (Ed) Boedeker opposes J. Collier Adams. In the Chief Justice, Court of Civil Appeals, 7th Supreme Judicial District, James G. Denton of Lubbock County opposes Jesse Owens of Potter County. Most of the other races are not contested. Precinct Democratic Conventions are scheduled in each of Slaton's three voting boxes, immediately following the closing of the polls Saturday night. All three voting polls, Precinct 26, 27 and 28, are in City Hall. J. C. Smith Jr. is the presiding judge in Precinct 26, Charlie Whalen in 27 and Joe Walker Jr. in 28. All qualified voters who are Democrats can vote.

City Commission Has Busy Session

Slaton's expansion was evident in Monday night's City Commission meeting as \$12,334 worth of water pipe and fixtures was purchased and a date was set to accept more bids on sewer construction. Commissioners also authorized city engineer H. B. Reeves to seek bids for the sewer construction materials. May 23 at 7:30 p.m. was the date set for submitting the bids.

Sixty-Five Hear Labor Spokesman

Sixty-five persons attended a meeting in Bruce's Cafe last Sunday afternoon as guests of four local Railway Brotherhoods. Attending the meeting were members of the Brotherhoods, local businessmen and other interested citizens. Miller, general chairman of the Brotherhood of Locomotive Firemen and Enginemen, was the speaker. Miller's purpose in the meeting was to give the union's point of view in current railway labor-management disputes. Miller cited the unity among the ranks of the brotherhoods, applauding meetings of the type held Sunday afternoon. He explained that both labor and management are supposed to operate under the Railroad Labor Act in efforts to bring about changes in rules, wages, etc. He showed where government has a large part in any railway labor-management activities, pointing out that many disputes are often settled through a federal fact-finding board, though that group's decisions are not binding on either party.

The present dispute, centering around what has been termed "featherbedding," has not been approached in the manner in which it should have been, or in the manner in which such things have been approached in the past. He remarked that the railroads want to eliminate certain work rules placing the determination of "who, when, where and how" at their own disposal. The same applies to the manner in which railway workers' pay is based, he said, and where

several out-of-town plumbers have been installing plumbing in Slaton, although they have no licenses here. Police Chief Eugene Martin was granted permission by the council to attend a policemen's school at College Station August 21-25. O. N. Alcorn, was re-appointed judge of the city's corporation court. In other items of business, Sed Meadors was awarded an easement of a small strip of city property, and the council voted to repair damage to Jack Nowlin's sidewalk on Garza street that was damaged during paving operations. The commission also approved extending water lines to blocks one and nine in the Johnson addition at the request of Commissioner Dixon. He said there were a number of residences ready to pay their fee and tie on to the city lines.

Poppy Day Is Set Saturday

The local V. F. W. and V. F. W. Auxiliary will conduct the annual "Poppy Day" here Saturday. The sale of Poppies on the downtown streets of Slaton will be under the direction of W. H. W. committee in charge of the project for the men's organization, and Mrs. Hugo Mosser, V. F. W. Auxiliary president.

IN SUNDAY MEETING
These men were all present last Sunday when four local Railway Brotherhoods had a joint meeting to which Slaton businessmen and other citizens were invited. Left to right, they are, Ford Stausell, Joel Combs, J. Cain, R. E. Lee, Aubrey Miller, the speaker, and O. Z. Ball.

Haliburton of Slaton Recently Named Room Leader At Boys Ranch

Haliburton, formerly of Slaton and now living at Calico, Tex., was named room leader of the nationally famous Boys Ranch near Amarillo, was appointed Room Leader in recognition of his outstanding abilities in leadership and acceptance of responsibility.

This is the first step toward eventual appointment to the Junior Staff, the highest that can be conferred on a boy at the Boys Ranch. The Junior Staff is composed of a small group of boys who have been selected for positions of authority and responsibility. According to Jim's dorm parents, he demonstrated the qualities of leadership, citizenship and teamwork that all members of the Junior Staff must possess.

Jim's other capabilities is a skill with heavy machinery. He has been at Boys Ranch two years and in that time has become one of the best heavy equipment operators on the Ranch. In overhauled earthmoving machinery and bulldozers that have been donated to the Ranch for training purposes, Jim's skill has been of great benefit to the expansion projects of the Ranch and has prepared him with a trade he can use when he leaves his present "home".

Alcorn Cites Advances In Administration

"It's no coincidence that the most positive gains in the Texas Land Program have come during my administration," said Land Commissioner Bill Alcorn as he wound up the final days of his campaign for re-election.

"Since we took over the once scandal-ridden office three years ago, we have provided the state its most accurate accounting of public domain in 121 years," he emphasized. "We have collected \$140,000.00 from our public school and college lands. Furthermore we have created a geological and petroleum engineering department which, added to our other departments, provides the basis for the most modern Land Office in the United States."

"The Land Department has," Alcorn repeated, "made greater gains for good and efficient operation in the past three years than it made in its first 121 years."

by everyone at the Ranch and has made many friends from among the 261 boys from all over the nation who now call Boys Ranch their home. He is an outstanding citizen of the Ranch and a fine young man the people of Slaton can be proud of.

Lt. Col. Schmid Commands Top Missile Battalion

Mr. and Mrs. Magnus Klattenhoff and Mrs. F. A. Drewry returned Thursday from El Paso, where they visited Mrs. Drewry's son, Lt. Col. Eldon W. Schmid, and witnessed the annual service firing of six Nike-Ajax and Nike-Hercules guided missiles at McGregor Field.

The missiles were fired by the 5th Missile Battalion of the 6th Artillery of Germany, commanded by Col. Schmid. The Battalion score was the highest fired by a Nike Missile Battalion in six years. All missiles were successful and troop performance grade was highest ever made by service practice.

Col. Schmid and the Battalion returned to Germany Sunday. Nearly 1,000,000 American men, women and children were injured or killed last year because an automobile driver exceeded the speed limit.

Motor vehicle accidents killed 37,600 and injured 2,870,000 persons on U. S. highways during 1959.

These were 2,910 pedestrians killed and 66,030 injured on U. S. roads last year because they crossed between intersections.

Will Wilson Is Seeking Another Term In Office

Attorney General Will Wilson will be on the Democratic Primary election ballot Saturday, May 7, as a candidate for re-election to the post in which he has distinguished himself as a vigorous law enforcement official and outstanding chief legal officer for the state of Texas.

Wilson has won nationwide recognition as Attorney General of Texas for his concerted and effective drives to rid the state of organized racketeering, loan sharks who prey on needy people, anti-trust or price-fixing law violations and illegal medical practitioners.

Wilson declared it is his firm belief that healthy climate for the progress and prosperity of Texas can be maintained only through solid enforcement of the laws of Texas.

"In the Attorney General's race this year there is only one central issue involved—whether Texas shall continue to vigorous law enforcement," Will Wilson said this week.

"We have conducted our campaign for re-election on a high plane befitting the high office we seek. The organized forces of the loan sharks, racketeers, medical quacks and price-fixers we have fought so often in the courts the last three years are fighting us on every turn in the campaign. Reason: They will use any means to see us out of the Attorney General's Office."

"Our opposition, has conducted a campaign of vilification. They have offered no concrete platform for the betterment of our state, but have relied on namecalling and mudslinging and irresponsible charges instead as the basis for its campaign."

"We believe the people of Texas will give our law enforcement record an overwhelming vote of confidence on Saturday, May 7."

Wilson served two terms as District Attorney of Dallas County, six years as a member of the Supreme Court of Texas, before being elected Attorney General in 1956.

BROILER MEALS GIVE VARIETY AND SAVE TIME

A perfectly broiled steak is the quickest way for a woman to win a man's heart. The broiler in an electric range is the surest way to gain the gourmet's delicate touch in preparing delicious foods from simple broiled vegetables to the more expensive steaks and chops.

Whether the broiling is done

under the oven unit or in a separate compartment, the glowing red coils match the performance and palatable results attained with a charcoal grill. A simple adjustment for the correct distance of the meat from the broiler cooks your steak to the exact doneness you desire.

Broiling steaks and chops is not the only benefit and use of the broiler. "It is the wise homemaker who plans a complete broiler meal for each time the broiler is used," says the Home Service Advisor of Southwestern

Public Service Company. The economist offers this broiler meal suggestion: scored ham slice, broiled sweet potato halves, and apple rings with marshmallow in the center. Or you might wish to try salmon steaks, with cooked potato slices, and tomato halves arranged around them on the broiler pan.

"Don't waste the dripping from the meat being broiled," the home service advisor urged. "String bean, canned asparagus, may be placed below the broiler rack in the pan and ser-

ved with the juices of the meat over them." Fruits such as peaches, pears, oranges, grapefruit halves, apricots, pineapple rings, etc., add essential minerals and vitamins to your completed broiler meal," she said.

IT PAYS FOR ITSELF

One of the most attractive features of the home freezer to the budget-minded homemaker is the indisputable evidence that the freezer will pay for itself, and do it in less than three

years. The saving in food in a recent survey more than \$112 a year, some families reported the survey reported savings of more than \$100

small amount, for it has
estimated that the average
family wastes 10% of its food
in spoilage and waste.

STORE LEFT OVERS
While it is not an economic
directly, the fact that the
makes it possible to
left-overs and make them
planned-over meals, adds
saving value. The family
freezer offers
of the same thing ni-

ght after night, and rather than
keep serving them the same old

Clothes Dryer Is 'Most Wanted' Of All Appliances

The clothes dryer is the
"most wanted" appliance on the
planned purchase lists of Ame-
rican homemakers.

Repeated surveys by national
magazines and appliance manu-
facturers alike have indicated
dryer is expected to experience
this with the result that the
most phenomenal growth in
appliance history.

Million In Use

Already it has set an enviable
record with more than one mil-
lion dryers in use although it
has been on the market in force
for only about five years.

The one million women who
now own dryers are the real
salesmen who have made this
new appliance the "most want-
ed." Many of them, asked if
they were forced to give up
their automatic washer or dryer
said they would prefer to lose
the washer first.

Saves More Labor

They point out to surveyors
that the dryer not only saves

more labor than any other ap-
pliance but it saves clothes as
reduces the number of garments
needed.

Leading dryer manufacture
predict a starting growth for
the dryer business in the ne-
five years. Executives forecast
six million new dryers in a
dition to the one million now
use.

The extent of this record,
achieved can be appreciate
when anyone considers that a
though the automatic wash-
industry is 15 years old it has
just reached the six million
figure which the dryer indust-
expects to hit in 10 years.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	I Samuel	2	1-11
Monday	Ephesians	5	1-2
Tuesday	II Corinthians	12	9-10
Wednesday	Psalms	39	1-7
Thursday	Psalms	31	1-3
Friday	Psalms	46	1-11
Saturday	Psalms	48	9-14

A Mother's Prayer

Dear God . . . help me to live up to the faith I see in my child's eyes. Help me to be the person she thinks I am. I am so very human . . . yet to her I am wise as a sage. I am so very frail . . . yet to her I am a tower of strength.

I can bind her cuts and bruises . . . I can soothe her small hurts, both physical and mental . . . I can give her love . . . I can protect and cherish her. Yet I can never be half of all I must be, without You to guide me.

Help me . . . and watch over her. In Your Church, teach her the things that are beyond my power . . . so that she will one day be a better woman than I; and in her turn, a better mother.

JUST TALK
BY A. M. J.

It would be interesting to read some of the things that must turn up in notes left in books that go out and come to the libraries. Last week I got a book from Mrs. Merrell, the County City Librarian and while thumbing through it found a notation that was more interesting than the book itself.

There was no signature to the notation. The title was: "In the I Remember Department". Here are some of the things listed: Kerosene lamps and lanterns, cedar buckets and tin dippers, washstands with bowls and pitchers, horse and mule farming with one horse plows, home made lye soap made from the ashes from around the big old iron pot used to boil the clothes, hog killing and home made sausage, barrelled sour kraut and barrels of salt mackerel that smelled to heaven, hot beds and cold frames for early spring plants, winter onions in the garden, loose leaf lettuce seared with hot bacon grease, fly paper loaded with dead flies, white oleomargarine, hens with broods of chicken, feather mattresses stuffed with chicken and geese feathers, Fourth of July picnics with fire works and hand concerts, asofotida bags around the childrens necks to guard against diseases and most all personal contacts, free liver and soup bones at the meat market, corn shuck bed ticks with some of the cobs still among the shucks, chromo portraits, lace curtains, pantries for food storage, cradles for the babies, rocking chairs for real comfort and gossip, barn dances, wash boards and tubs, copper wash boilers, slates and blue back spellers, medicine shows.

To these I would like to add from my own store of memories such things as boys tops, real agate marbles, short pants for boys up to high school age, ice wagons, drawn by horses, from which to swipe cool hunks of ice in the summer time, lots better than ice cream, jaw breakers that you sucked all day, they sold for one cent each, going bare foot from May to September, home made pies and cakes, and if you are as old as I am, which is not likely, you may add some of your own "I Remember."

Just Talk
Last week while I was wandering around in our back yard thinking and looking at things that should be chopped, dug or raked, a car came to a sudden stop in the alley and a most attractive young lady asked me if I were Mr. Jackson? I had to admit, guiltily, that I am. Then she said "I wish you would put something in the Slatonite about all the folks burning trash all over town. Several of my neighbors have ruined my wash on the line several times lately by smoking them up and letting soot and burning paper fall on them." She smiled very sweetly and continued "You know who I am don't you, I'm Mrs. Williams."

Feeling that it would be most impolite and almost criminal to admit that I was so entranced I replied "Sure I know you and I'll have the trash burning stopped immediately."

Since that time I have been wondering which Mrs. Williams

she is and also how in the Hill I am going to get the burning stopped.

Just Talk
My sister, Mrs. W. B. who lives in Paris, Texas, has lived there most of her life. She came to Slaton ten days ago to visit us. Paris has only twenty five, or thirty, thousand inhabitants, and as the people of Lubbock think, it is probably the biggest and most important city in Texas. I thought perhaps my sister might be impressed by the importance so I took her on a wide sweep into the business and residential areas of Lubbock. On the entire trip she did not stop chattering about many advancements in Lubbock including the Campbell Co., a new box factory, the T. Atchinson Electric Equipment Factory and I feel sure she has heard nothing concerning what a whole of a city Lubbock is, even though I bragged to her with her in defense of the growth and development of Lubbock Paris won by a wide margin.

STRENGTH FOR THE WEEK

It becomes quite evident, even in a casual reading of the Bible, that the great men described there were men who believed in a God who was big enough to do for them what they could not do for themselves. Or, if we turn to secular history, we find that many, if not most, of the world's worth while leaders have been men who had discovered for themselves the greatness of God.

But more important than what the Christian religion does in maintaining or restoring health, or furnishing the ideals for successful service, is the power it imparts to live courageously in the absence of those things. When God is put at the center of one's life, and his God is not too small, his life is linked with a power far beyond his own strength and so he has courage to live enthusiastically and with purpose.

Many men and women today are living, often with an inner dissatisfaction, without any faith in God at all. This is not because they are particularly wicked but because they have not found with their adult minds a God big enough to account for life in all of its ramifications and complexities.

We have just passed through the Easter season, which is the observance of the resurrection of Jesus Christ. He was one who met every circumstance of life courageously, and victoriously, because he was absolutely sure that his heaven-

ly Father was almighty, and that even death could not separate him from his Father. Now Easter means that Jesus Christ is alive. He is no longer on the cross, or in the sepulchre. He is alive! And the presence, and the power of the living Christ has been made available to all who will believe it and accept it. There never was, or is, or ever will be anything small about Jesus Christ. When we accept Him as our Savior, trust Him as our Lord, and follow Him as our Master, we have a God that is big enough for every circumstance of life.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — A great number of persons are not aware of the fact that the Legislature, at its 1959 session, moved the primary and run-off elections forward several months.

Candidates are not in sufficient abundance this year to impress this fact upon the voters. Now with only a short period remaining, many of them are surprised to learn that not one out of a hundred voters knows when the elections are to be held.

Those who are campaigning have not failed to stress the earlier voting dates. First primary will be held on Saturday, May 7. The run-off, if any should be necessary, is scheduled for June 4.

If you are going to be out of town during the first primary election, May 7, you have from now until May 3 to vote absentee for that election.

After May 3 you must go to the polls if you want to vote. For those living in a county seat town, the simplest procedure is to go by the county clerk's office. If you do not live in the county seat, you can write the county clerk for the necessary forms.

Voting in the Democratic primaries is essential to participation in other Democratic party activities this year. No one will be allowed to take part in a Democratic precinct convention unless he has a poll tax that has been stamped "Democratic." Poll tax holders must vote in the primary, absentee or at the polls, to get their poll taxes stamped.

This new section of the election law was designed to keep out the so-called "one day Democrats" who participate in Democratic primaries and conventions and Republican conventions, too. People who go to the GOP precinct conventions will have their poll taxes stamped "Republican." This shuts the door on their having any part in Democratic Party affairs until they get a new poll tax.

An intensive campaign has been under way for several weeks to educate voters to the new procedures and dates and the importance of their voting and coming to precinct conventions.

3. Stinging caterpillars are about and will be around feeding on trees and shrubs until fall. Health Department officials particularly urge parents to warn their children not to pick up the fuzzy, fascinating moth larvae. Stings should be treated as bee or wasp stings — by cleaning with alcohol and covering with calamine or other soothing lotion.

OIL SLUMPS FURTHER - Texas oil allowable has been further reduced to a permissible flow of 2,574,894 barrels a day for May. An eight-day producing pattern, as low as at any recent time, was set by the Railroad Commission. A number of independent producers ask for an even sharper cut to seven days. They said the industry was going into a lower-demand season with too much oil on hand.

Recent crude oil price cuts have intensified the general gloom of the Texas oil industry. It raises, too, the probability that state tax revenue from oil will fall substantially below expectations.

CRIMINAL CODE CHANGE Directors of the State Bar of Texas approved recommendations for extensive changes in the Texas Criminal Code. But they took a "make haste slowly" view about taking the proposals to the Legislature. If enacted, the revisions would bring about considerable change in the way criminal court trials are conducted.

Bar directors suggested the proposals might be voted upon by lawyers and studied in seminars over the state before presentation to the Legislature in 1963.

Read Colossians 3:8-17
Put on then, as God's chosen ones, holy and beloved, compassion, kindness, lowliness, meekness, and patience, forbearing one another and, if one has a complaint against another, forgiving each other. (Colossians 3:12, 13, RSV.)
During "Family Week" a mother and father lost the only happiness they possessed — their daughter, seventeen years old. The parents did not live harmoniously, and in the home there was no peace or security or love. The daughter took her own life.
What a difference it would have made if the parents had

dedicated themselves to Christ and lived harmoniously! What a difference if this daughter had been encouraged in the home to love God and had experienced the many benefits of daily family worship!

As in that home, in many other homes parents are guilty of the moral, intellectual, and spiritual defeat of their sons and daughters. Great is the responsibility of parents and of supreme importance their example to their children. A home where God is revered and daily worship does not have room for serious conflicts and deep-rooted misunderstandings. PRAYER: Eternal Father, help us as we try to make our home a house of prayer and worship. Help us as we worship there, that we may receive power to overcome evil and to do good. We ask in Christ's name. Amen. Thought for the Day
A home where God is revered does not have room to harbor conflicts and misunderstandings.

Error In One 'Cook Book' Recipe Noted

Editor's Note: Dail Cooper of Shreveport, La., who pointed out a recipe in the Slaton "Cook Book" a couple of months ago, says there was an error in it. Here's her letter.

I wish to call your attention to an error that was made in printing of my recipe for Tarts, on page three (3) of the Cook Book Edition. It should be as follows:

1 cup butter, 2 sticks
1 cup flour (sifted twice before measuring)
4 tablespoons sugar
4 tablespoons vanilla
2 cups finely chopped nuts

The error could have been caught but I shudder to think they would taste if the error that was printed was plan on visiting in Slaton this summer and I will be some explaining to do, if you should try this recipe. I would appreciate it very much if somehow you could call attention to this error.

Yours truly,
Dail Cooper Smith
Printed recipe called for 4 tablespoons of vanilla and not the sugar.

A Message from "Teague Drug"

DO NOT LISTEN TO UNQUALIFIED ADVICE

George P. Larrick, U. S. commissioner of Food and Drugs said, quote —

"IT IS ESTIMATED THAT APPROXIMATELY 50,000

Canvassers now sell vitamins and food supplements. These agents are not qualified to advise the public on matters of diet and health. Yet, many of them are in a sence practicing medicine without a license.

To make sales, they do not hesitate, in the privacy of the home, to recommend their products for the treatment of any disease condition.

When this leads to delay in obtaining competent medical treatment, it is very dangerous." (end of quote)

DEPEND ON A PHYSICIAN FOR ADVICE.

No one else has the knowledge to advise you what treatment you need when you are sick.

ALWAYS GET VITAMINS FROM YOUR PHARMACIST.

You can depend on us to supply the professional quality vitamins approved by physicians. Our strict observance of pharmacy's Code of Ethics guarantees you honest value.

NOTICE TO BIDDERS

Sealed proposals addressed to The Honorable Mayor and City Commission of the City of Slaton, Texas, will be received at the office of J. J. Maxey, City Secretary until 7:30 P.M., May 23, 1960 for furnishing all necessary materials, machinery, equipment, superintendence, and labor for constructing certain Sanitary Sewer Improvements for the City of Slaton, Texas, consisting of the following principal items of work and the necessary incidentals and appurtenances: installation of one 100 G.P.M. package type Lift Station, complete; furnishing and installing approximately 375 feet of 8" Vitrified Clay Sewer Mains and approximately 8,350 feet of 6" Vitrified Clay Sewer Mains including the necessary Manholes, Cleanouts, and Branch Connections; and furnishing and installing approximately 115 feet of 6" Cast Iron Force Main.

Bidders must submit a Cashier's or Certified Check issued by a bank satisfactory to the Owner, or a Proposal Bond from a reliable Surety Company, payable without recourse to the order of The City of Slaton, Texas, in an amount not less than five percent (5%) of the largest possible bid submitted as a guaranty that the Bidder will enter into a contract and execute bond and guaranty in the forms provided within ten (10) days after notice of award of contract to him. Bids without the required check or Proposal Bond will not be considered.

The Successful Bidder will be required to furnish a Performance Bond and a Payment Bond each in the amount of the contract, written by a responsible Surety Company authorized to do business in the State of Texas, and satisfactory to the City Commission, as required by Article 5160, V.A.T.C.S., as amended by H.B. 344, passed by the 56th Legislature, Regular Session, 1959.

All lump sum and unit prices must be stated in both script and figures. The Owner reserves the right to reject any or all bids and to waive formalities. In case of ambiguity or lack of clearness in stating the prices in the bids, the Owner reserves the right to consider the most advantageous construction thereof, or to reject the bid. Unreasonable (or "Unbalanced") unit prices will authorize the Owner to reject the bid.

EARLY COTTON!

ORTHO CID E Soil Treater X is the cotton grower's best insurance against the high cost of replanting. It creates a protected zone in the furrow around the seed and allows the tender seedling to develop normally in spite of cold, wet, infected soil. The early maturity and better stands which result can bring greater profits from higher yields of top grade cotton.

Church Fetes Wilson Class To Dinner

WILSON—The Wilson Seniors attended a buffet dinner at the Methodist Church on April 19 at 6 p. m.

The ladies of the church prepared the meal of baked ham, green beans, beets, potatoes, salad, hot rolls, pie and tea and served it to the nineteen seniors present, the sponsors, the school principal and wife, school superintendent and wife and Rev. Bandy and wife. Rev. Bandy was the speaker for the occasion.

Those attending were Sherry Tillery, Shirley Behrend, Sue Coleman, Joan Walker, Sue Campbell, Geneva Wuenche, Linda Roper, Bobby Wied, Joe Dean Feagin, Ray Woodall, Buford Rinne, Tommy Stell, Dean Daniel, Albert Rinne, Donald Klaus, Milton Ehlers, Monnie Nolte, Billy Weaver, Jerry Swope, Mr and Mrs. Melvin Delaney, Mr. and Mrs. Bill Vardeman and Mr. and Mrs. Johnny Clark.

Some Tips That Could Save A Life

Here are some tips from the National Safety Council that could save a life—your baby's!

They cover subjects ranging from baby's bath to biting crib bars.

They're designed to help wipe out accidents—No. 1 killer of persons 1-24 years of age.

Baby's bath—always check water temperature to prevent scalding. Watch out for hot faucets. Never leave baby alone in the bath. Forget the phone or the doorbell when you're busy with baby.

Toys—choose them for safety. Give baby sturdy rattles, brightly colored objects hung in view, large, soft, colored balls and push-pull toys with rounded edges. Stuffed animals or dolls make good toys for baby as long as they don't have hard button eyes that can be pulled loose and swallowed.

In the crib—no pillow. Make sure the bars are up and locked when baby's in the crib, and that crib and window sills are coated with lead-free paint. Beware of thin plastic mattress covers.

"When baby graduates from the crib to the floor, clear it of all obstacles. Don't leave things around he can get hurt on," the Council advised. One of the main hazards:

Poisons—lots will taste anything, even poisons. Are any of these items—all potential killers—within a child's reach in your home: aspirin, iodine, perfume, nail polish remover, drain cleaners, match heads, shoe polish or kerosene?

"Many poisonous substances," the Council emphasized, "have a delayed reaction any may not produce symptoms for some time after they're swallowed. Don't wait for symptoms to develop—administer first aid and call a doctor."

GETS SAFETY PLAQUE

The Slaton Division Maintenance of Way Department of the Santa Fe Railway System received a safety plaque Friday for an outstanding safety record during 1959. This was the first time the department had qualified for a safety award, having gone the entire year of 1959 without a reportable injury. The plaque was presented during a quarterly safety meeting of the Slaton division employees, before 175 employees. R. D. Bisbee, division engineer, received the plaque for his employees from A. M. Hansen, assistant to superintendent of safety, from Peka, Kans. Shown following the presentation are, left to right, Hansen; Kenneth C. May, Slaton division superintendent; Bisbee (holding plaque); and D. D. Baird, safety supervisor for the Slaton and Pecos divisions, of Davis, N. M.

Rev. Deans And Richard Becker Attend Meeting

Astor Leroy R. Deans and delegate Richard Becker of Grace Lutheran church on May 9-11 will attend a historic Lutheran Convention in St. Mar's Lutheran Church, Austin. The three-day convention of pastors and delegates from 255 congregations in Texas, Louisiana and Arkansas, will include a concluding convention of the Texas District of the American Lutheran Church on May 9, the constituting convention of the Southern District of the American Lutheran Church on May 10 and 11. The final two days will merge Texas District, American Lutheran Church, the South

Central District, Evangelical Lutheran Church, and the Nebraska District, United Evangelical Lutheran Church into the Southern District of the American Lutheran Church. Parent bodies of the three churches held their constituting convention in Minneapolis, Minnesota, late in April, and the Southern District is the first of the nation's 19 districts to be constituted. The first day's sessions will be presided over by the Rev. Vernon A. Mohr, president of the Texas District, and feature an address by Dr. George Schultz, Director of Stewardship and Finance of the American Lutheran Church, Columbus, Ohio. Reports of the various committees and activities of the Texas District ALC will be heard and there will be a con-

cluding church service that night. Tuesday's constituting convention of the Southern District of The ALC will open with a communion service. The business sessions of the constituting convention will be presided over by the new president of The American Lutheran Church, elected at the Minneapolis meeting. Dr. Raymond Olson, Executive Director of Stewardship and Finance of The American Lutheran Church, will be the principal speaker, and delegates will choose the president, vice president, secretary, and treasurer of the new district as well as the members of eleven standing committees. Merging of the three bodies into The American Lutheran Church climaxes almost a decade of study and effort, with

a membership of nearly 100,000 in the new district, and over two and one-half million in the nation. Fittingly, the two conventions will be held in the new \$4,000,000 church plant of St. Martin's church that was dedicated on March 27, and is the largest single church building project ever undertaken by a congregation of the American Lutheran Church. Centurettes Meet In Home Of Mrs. Wheeler Mrs. Stanley Wheeler was hostess Monday, May 2, to the Centurettes when Mrs. Earl Foerster, president, presided. Mrs. Tip Culver was program chairman for the evening when she presented a talk on "Mental Illness". Refreshments were served to Mesdames Earl Johnson, Jack Haliburton, Joe Holland, Jerry Jones, Hobart Limmer, Donald Basinger, Joel Combs, Ray Wilkins, Joe Ross, Charlie Akin, Jerry Don Ross, Jackie Haire, Tim Bourn, Foerster, Wheeler, and Culver. The next meeting will be in the home of Mrs. Harley Castleberry.

Wilson Pianists Give Recital

The piano pupils of Mrs. James P. Burnett of Wilson will be presented in a recital on Monday, May 9, from 8 to 9 p.m. in the Wilson High School Auditorium in Wilson. The program will feature numbers by such composers as Bach, Clementi, Mozart, Grieg, as well as Scher, Bentley, Burnam and other contemporary composers. Those who will perform are: Gary Cook, Jan Skinner, Carolyn Baker, Ricky Deans, Joy Jones, Gloria Foster, Libby Wilke, Gary Williamson, Sherri Stoker, Esther Penn, Raeland Cook, Mike Coleman, Kathy Nolte, Wanda Wuensche, Delva Becker, Larry Schneider, Jane Stoker, Linda Grabber, Claudia Valtin Maeker, Claudia Camden, Belinda Becker, and Carolyn Schneider.

REED QUILLIAM IS QUALIFIED TO BE YOUR State Representative

DISTRICT 97, PLACE I

REED QUILLIAM SPEAKS OUT ON:

The Texas Constitution— A good constitution should be concise, flexible, and devoted to fundamental principles of government. Our Texas Constitution is an outmoded, unwieldy document so full of detailed restrictions that it makes impossible the adaptation of our laws to changing need and conditions (See below under Taxes). We urgently need a Constitutional Convention for the purpose of revising this outdated instrument.

Economy in Government— I, like most of you, want economy and sound business practices in government. Texas must clear up its deficit (currently \$90 million) and balance its budget. My efforts will be directed toward eliminating: (1) duplications in government jobs and services; (2) "give-away programs" which benefit persons fully able to work and earn a living, but are too lazy to do so; (3) "frill" expenditures, such as have come to light recently in connection with construction of the State Courts Building, and the proposed \$130,000 for a college president's home. I believe there is merit in the proposal to set up a "Little Hoover Commission" to study wastes and duplication in our state government.

However, I think that you, as voters, should examine carefully what a candidate means when he calls for "economy" in government. If it is used to mean short-changing my children and yours in their education, I am against it. If it means that we are to refuse our responsibility to help care for those unable to care for themselves (mental patients, retarded children), or to refuse care for our increasing aged population, I am against it. Be sure that you understand the candidates interpretation of the word "economy."

Taxes— First, I would oppose any tax not absolutely necessary to conduct our government in accordance with the principles of economy outlined above. A main cause for our needing new taxes every time the legislature meets is that some 85% of our tax revenues are earmarked for special funds by the Constitution and statutes, leaving only a small portion of our tax dollar for meeting current needs out of the general fund (even though some special funds may have a surplus). Thus, constitutional revision would go a long way toward helping our financial situation. If new taxes are necessary, I would favor a long-range, broad-based tax program, rather than the "who gets it in the neck this year" approach the legislature has used for nearly two decades.

Public Schools and Teachers— If we are to remain a great state, we must provide our children with first-class education. Yet Texas ranks 35th among the states in per-child expenditures for education. We cannot expect quality education unless we are prepared to pay for it. I unqualifiedly favor a teacher salary increase. I would prefer modification of the Hale-Aiken recommendations to provide that the proposed \$405 base increase would not begin until the third year of a teacher's service (thus not spending much of the available money on persons who teach only a year or two), and using the savings thus effected to increase the annual increments of career teachers.

"Hot Check" Law, Exemptions from Execution— Texas is currently a "dead-beat's paradise." Our "hot check" law, through its provision that the drawer of a check has 10 days in which to pay the holder before the presumption of fraud arises, allows the professional "hot check" writers to make their escape and beat our businessmen out of millions of dollars annually. The law has other weaknesses, too, and I will not only support, but will introduce corrective legislation. Also, our laws with regard to execution and forced sale need revision, since the many exemptions provided make it impossible, in many cases, to collect honest debts, even though a judgment against the debtor has been obtained.

Insurance Law— There are several objectionable features to the new insurance law. However, I am reliably informed that the Insurance Commission is in the process of making a number of important revisions in the law which would do away with its objectionable features. If the Commission does not take this action, I would favor legislative correction.

Loan Sharks— Our small loan laws are probably the worst in the nation. I have, in my law practice, seen cases where individuals paid what amounted to 50 per cent interest on small loans, although most of this interest was disguised under some other name. It's time the legislature took some action.

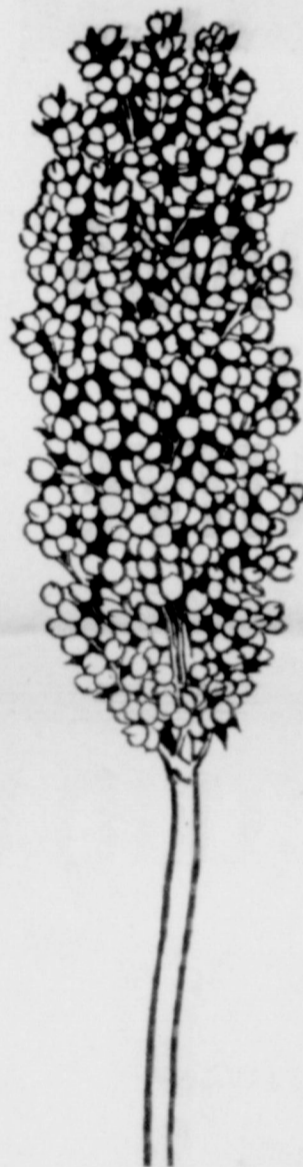

Texas Tech and Higher Education— As with our public schools, we must recognize our responsibility to higher education throughout the state, in general, and to Texas Tech in particular. We must provide first-class, not mediocre, educational opportunities for our leaders of tomorrow. As a former member of the college's role as one of the great educational institutions of the nation, and I believe that one of my most important functions as a legislator would be to assure that Tech receives the funds necessary to grow and progress in keeping with this role. **Paid Pol. Logans Plentiful

As early as 1840, when a party promised the voters Dollars a Day and Roast Beef, the slogan was as much a part of presidential election campaigns as the handshake

and the stump. It's a fitting arena for the slogan, which was once the battle cry of the Scots. According to World Book Encyclopedia, the word comes from "slough," meaning "army," and "gairn," or "call." The voters of 1840 took up

the battle for two dollars, conceding that "Van, Van (Martin Van Buren) is a Used-up Man." They gave their votes to "Tippecanoe and Tyler Too" -- William Henry Harrison, the hero of the Indian battle of Tippecanoe, and his running mate, John Tyler.

In 1864, when Lincoln was running for a second term, the Union was warned: "Don't Swap Horses in the Middle of the stream." The cry was to echo 80 years later, when Franklin D. Roosevelt won a fourth term in the dark years of World War II.

Horace Greeley thundered "Turn the Rascals Out" in 1872, but Grant held the presidency for another term.

The country wasn't ready for "The Plumed Knight," as James G. Blaine was called, and the election went to Rutherford B. Hayes.

Blaine was back in 1884. But he had the misfortune of being labeled an opponent of "Rum, Romanism and Rebellion. The Catholics turned against him and helped elect Grover Cleveland.

William McKinley promised "The Full Dinner Pail" in 1900, setting a precedent for Hoover's later pledge of "A Chicken in Every Pot, a Car in Every Garage."

In 1916 the country re-elected Woodrow Wilson with the explanation, "He Kept Us Out of War."

Five months later the U. S. was in the war. When the next election rolled around, the voter wanted "Normalcy" and Warren G. Harding.

In 1924 the electorate decided to "Keep Cool with Coolidge." By 1932 they were ready for a "New Deal," and the "Forgotten Man" gave his vote to FDR.

More recently some people thought "We Need Adlai Badly," but the elections of 1952 and 1956 proved that more people like Ike.

What will the slogan be this year? Maybe we'll hear "I'll Stick With Dick" . . . or "My Cup of Tea is Kennedy" . . . or "What's Good for the Country is Hubert Humphrey."

The first U. S. president to die in the White House -- and the one who served the shortest time in office -- was William Henry Harrison. World Book Encyclopedia says Harrison died in 1841, one month after he was inaugurated.

ference Study On Children And Youth

Note: This is another series of articles on the findings of the Governor's Committee for the 1960 Conference on Children and Youth. Today's deals with a study on juvenile delinquency made by the committee.

ing juvenile delinquency constitute many problems facing today's children and youth. But delinquency in itself is a problem affecting only a small minority of young Texans.

The Governor's Committee for the 1960 White House Conference on Children and Youth conducted extensive studies of delinquency, its causes and cures. And much of the responsibility, it was found, lies on the doorsteps of the communities.

Because of its findings, the Committee recommended that communities tackle the problem on an every-day basis in the following areas:

Schools, law enforcement, juvenile court and probation, churches, youth participation and recreation, youth employment and health.

Emphasis was placed on the need for continuing work with communities to prevent delinquency by affirmative action in those areas which affect youth development.

Highlights of the Committee's findings include:

1. The moral, religious, and value decay within many homes has given rise to growth of delinquency.
2. In the field of law enforcement, there is an inability to cope with the lack of respect by youthful offenders for the individual and property rights of citizens; insufficient personnel trained in serving youth; lack of respect for police and lack of concern on the part of communities for law enforcement.
3. In the area of treatment of juvenile offenders, a need was noted in the fields of rehabilitation and diagnosis, probation, detention, parole. Understaffed—or none at all—juvenile probation departments and lack of treatment facilities for the mentally ill and severely disturbed

Calvert Is Only Candidate With Court Experience

One of the important races to be decided in Saturday's election will be for Chief Justice of the Texas Supreme Court.

Associate Justice Robert W. Calvert of Hill County is one of two candidates for this position.

Judge Calvert has been on the Supreme Court since 1950, and is the only member of the court who is a candidate to succeed the present chief justice, who is retiring, and is the only candidate for chief justice with Supreme Court experience.

"Judge Calvert has served with great distinction as associate justice for almost ten years," Gaynor Kendall of Austin, state campaign manager, said. "He therefore knows from actual experience the additional administrative duties which he must assume as chief justice, and he has demonstrated by his service with the other judges his ability to furnish the leadership the court requires."

J. H. Nail Gets Santa Fe Boost

J. H. Nail, Telegraph engineer for the Santa Fe Railway at Chicago, has been named superintendent of communications for the railroad's Western Lines with headquarters at Amarillo, effective May 1.

He succeeds Dale R. Weems, who has been promoted to communications superintendent at Topeka, Kansas.

Nail has been in communications work for the Santa Fe since 1943 at Topeka and Los Angeles. He was made communications engineer at Topeka in November 1952 and went to Chicago in July 1959 at telegraph engineer.

Weems' railroad career dates from 1941. He worked in Topeka and Chicago prior to his appointment to the Western Lines post last July.

Studies by the The Travelers Insurance Companies show that driver error caused 85 percent of the highway accidents in 1959.

Congratulations to Mr. and Mrs. John Curry, Tahoka, on the birth of a daughter, born April 29, weighing 7 lbs. 9 ozs.

Congratulations to Mr. and Mrs. Moren Whaley, Slaton, on the birth of a son, born May 1, weighing 6 lbs. 9 ozs.

Congratulations to Mr. and Mrs. D. F. Craddock, Lubbock, on the birth of a daughter, born May 3, weighing 8 lbs. 2 ozs.

Congratulations to Mr. and Mrs. W. J. Johnson, Slaton, on the birth of a daughter, born April 26, weighing 7 lbs. 12 1/2 ozs.

Congratulations to Mr. and Mrs. Dwayne Preston, Slaton, on the birth of a daughter, born April 27, weighing 8 lbs.

Congratulations to Mr. and Mrs. Alfredo Muniz, Slaton, on the birth of a son, born April 29, weighing 5 lbs. 13 ozs.

Although making up less than 14 percent of the driving population, drivers under age 25 were involved in nearly 29 percent of all fatal accidents in the United States during 1959.

Local Teenage Baseball Needs Supporters; You'll Be Contacted

Officials of the newly-formed Babe Ruth League and American Legion Junior Baseball in Slaton have mailed out letters to citizens and businessmen in Slaton urging financial support of teenage baseball in the community.

Here is the letter: "TO: THE CITIZENS AND BUSINESSMEN OF SLATON

Teen-Age Baseball is an important part of life in Slaton. The good that has come from the American Legion and PONY League Programs in the past can never be truly evaluated — we cannot know what would have been had these programs not existed. We cannot know how much "Juvenile Delinquency" has been prevented by these organizations. We can only point with pride to the boys who have been associated with the programs in the past few years. Most certainly any project which contributes to the development of future citizens has a material value to a community—a value which must be purchased in hard cash.

In order that needs of ALL boys between the ages of 13 and 18 may be met, the PONY League Program has been replaced by the three-year Babe Ruth League Program.

To insure the continuation of teen-age baseball in Slaton at least \$2000 must be raised immediately by officials of the newly established Babe Ruth League and American Legion Baseball.

Within the next few days you will probably be contacted by a local worker in one of these organizations and asked to purchase a membership, sponsor a team, buy advertising on the outfield fence, or pledge an outright donation. In any case, please consider his call as an opportunity to invest in the future of Slaton's youth and buy as much citizenship, character, dependability and youthful vigor for your town as you can

possibly afford. Sincerely, Raudin McCormick, President"
