They earned this honor by receiving the highest number of points which are given for participation in FHA activities. June and Donna are seniors this year and have been active in FHA for the past four years. Both girls received the State Degree, and Miss Johnson is the out-going president of the local Chapter. Miss Roach, a freshman, is the honoree for the Little Sister Chapter. She served as an officer this year and received her Junior Degree.

SOME STORES TO STAY OPEN MEMORIAL DAY. OTHERS CLOSE

Although Memorial Day, Monday, May 30th, is a regular closing day for most local merchants, many plan to remain open to serve their customers. Open on the day will be representatives of all different types of stores in the community, from food stores to clothing stores and service stations.

You Can Still Join Training Class

The Dale Carnegie Class being offered in Slaton is expected to get off to its first session in Fellowship Hall of the First Methodist Church at 6:30 p.m. today.

There are still some vacancies in the class and interested persons may attend this first session tonight free of charge. The course proposes to help persons find confidence in themselves, help them to speak in public and to "sell themselves."

The course, to be instructed by "Red" Norman of Western Sales Institute, was scheduled to be started last week, but was delayed because of school activities for many class members.

City Okays Bid On Sewer Work; New Water Well To Be Activated

The bid of Panhandle Construction Company of Lubbock was accepted at Monday night's meeting of the Slaton City commission on the installation of sewer lines in the community.

The firm had low bid of \$21,032.90 for sanitary sewer extension work in the Wilson Addition.

and in the northwest portion of the city. The work will get underway immediately and the firm's bid asked 75 days to complete the job. There were three other bids entered, running up to \$24,937.93.

The commission also authorized George Willis, water and sewer superintendent, to move the water pump in City Well No. 19 to Well No. 23, a new well recently completed.

Well 19 is not producing enough water for the pump and by spending approximately \$300 on the pump it would be suitable for the new well located on the King lease.

Also, it will be necessary to install an additional 200 feet of six inch A. C. pipe line in order to adequately take care of production from the new well.

Cost will be \$334 for pipe, p installation.

The group authorized purchase of two 45 mile-hour signs, one 20th.

In other activity, the commission voted to contribute \$5 on the director's salary of Girls Summer Program, at request of Dr. Glen Payne. Contribution matches 1 a year's.

The group canvassed votes in the recent City Charter Amendment Election and it was reminded unchanged.

It was decided to let a pr of \$2,000 stand as the price purchase of N. 19th St between Lynn and Crosby. L Porter had made an offer \$1,000 for the property and w to settle with adjacent proprie owners. The \$2,000 price h previously been set and v be unchanged.

The possibility that dision will be taken up at i next meeting on the re-distri ing of the City's four voti wards was pointed up. May Clark Self, Sr. said he wo read a letter from the C Attorney concerning the po ble re-districting and the co mission's next meeting.

June Purpose of the re-distri ing would be to more equa distribute the community population among the fo wards.

A good response is anticipated and tentative plans are for Ladies Night each Thursday.

Ladies Night To Be In June

Ladies Night at the swimming pool is set for the first Thursday in June. This time will be set aside for Ladies Only and ladies of all ages are urged to take advantage of this time.

Remember the date, June 2nd!

Unless Another Challenger Shows Up... Class Of 1960 Still Biggest!

Boy... did we get into it! Serves us right, though, for not checking facts. Last week, we said this year's graduating class was the biggest ever. Right away, Pauline Scott came trooping up to say the Class of 1930 had just as many graduates, 67, as this year. So there, she added.

Turns out we still could have been right, howsoever, 'cause they found one more graduate out at SHS this week and marched 68 of 'em down the aisle for diplomas.

Did any previous class have more, or as many as 68 graduates? Mrs. Scott brought in several original Slatonite clippings, printed 30 years ago, to prove her point that the Class of '30 had 67 grads.

By the way, this Class of 1930 is planning a reunion on July 23rd of this year, their third celebration of this nature. They try to get together every five years.

In the Class of '30, there were 26 boys and 41 girls. It was billed then as "one of the largest, if not the largest, in Slaton's history."

Class members were, girls maiden names: Josephine Adams, Dorothy Alcorn, Ruby Allison, Grady Billingsley, Alva Joe Blundell, Mildred Boyd, Chloe Bell Calvert, Flora Mae Cook, Aubyn Dowell, Pearl Edmondson, Inez Gattis, Pauline English, Frances Eubank, Ella Loyce Gentry, Melba Hillyer, Mae Hall, Frances Harlan, Fay Jesse, Marcella Kelly, Fern Wicker, Dorothy King, Irene Kost, Estelle Lamb, Pauline Marriott, Lorene McClintock (valuedictorian), Zana Patterson, Hazel Reeder, Pauline Sanders, Ila Sipe, Nadine Smith, Jewell Smith (salutatorian), Alene Smithee, Bonnie Thomas, Evelyn Triplett, Margaret Whatley, Virgie Wynne, Edna

These boys form their own political parties and elect a boy to each of our state offices. The boy who is elected serves in that office for one day and learns as much as he can about the operation of the office.

When he returns home, he will make a report of his observations to the American Legion and to the school and any other such organization requesting the report.

Mrs. Henry Patton, 250 S. 7th, has returned home from Fort Worth, where she attended the funeral of her brother, W. T. Richardson, who died at 3 a.m. Wednesday, May 18. He had been a resident of that city for 35 years.

SLATON HAS A QUALITY MARKET

The business men of Slaton, in this modern time of chain stores and super super dupe markets, have an advantage over the big sale organizations that could be made to pay and pay big.

Both the owners and their employees live in Slaton, small enough community to enable them to know and cater to each individual in a way that is impossible for big organizations.

It is not necessary that each clerk and business man woman have a personal liking for every customer, regardless of how desirable that would be, but it is possible, and necessary, for good business that each individual be given a welcome and the kind of service at he can get only from someone who knows him or her.

There is a certain duty that every person owes, who sides in a town, large or small, to give preference to their home town merchant, but unless that home town merchant can meet his needs in both price and quality his duty has been performed when he gives his home town store, or business institution, an opportunity to fill his needs.

It is quite often evident Slaton merchants are underrating the quality the Slaton market can afford and will buy regardless of whether the local merchants stock the items or not. It perhaps may not be a large enough high quality market for the local stores to meet all of the requests but if local merchants can not or will not, they should not complain when Slaton people and the Slaton area, go to other places besides Slaton to trade.

It should be pointed out that even in the bigger cities the merchants do not carry the wide variety of merchandise they carried before prices increased to the extent they are now.

The local merchants should be able to meet the larger store competition better now than ever because wholesalers no longer give big concessions in price for quantity buying. They can sell all they can make without reducing their prices and the little fellow is able in most instances to get his merchandise about as cheap as a plunging corporation.

It would seem that the local merchants are perhaps too timid to take advantage of their opportunities and at they might expect too much of the local customer who is able to pay for what he wants and is not likely to be satisfied with anything less.

WE HAVE ONE BIG ADVANTAGE

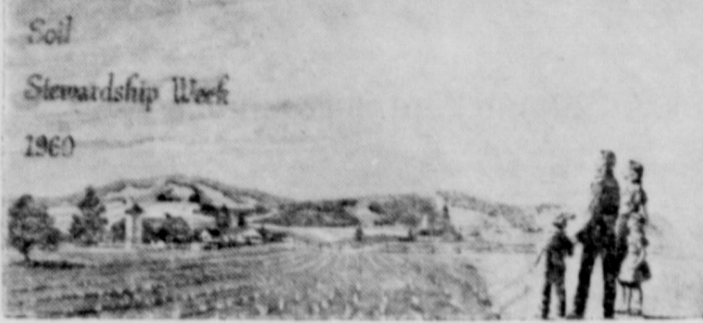

While it is not easy to recognize a tax bite when it is expertly put into effect by a well-organized school district or town commission, it seems that the people of Slaton enjoy a modest tax cost compared to many other towns and communities.

This manner of writing might of course encourage some of those in position to do so to bring our town more to date by increasing our tax rates thus discouraging further development of business expansion and home building but it is also evident that this advantage could, and should be, brought in bright focus to business institutions and to people who are seeking a new location to make their homes where expenses are reasonable.

One of the best and fastest growing markets for homes, for either older construction or new, is that of people who are retired and are looking for a quiet place with mild climate with the conveniences of a city. Slaton is that bill to the dot and we should proclaim our advantages far and wide. It is nice to live in Slaton and don't let anyone forget it.

THE SPIRIT OF THE PEOPLE

Soil Stewardship Week 1960

CONSIDER THIS SOIL

(Editor's Note: Soil Stewardship Week, sponsored by soil conservation groups across the nation, is currently being observed. The following thoughts were contributed through the Lubbock County Soil Conservation District.)

Consider this soil. It lies as far as the eye can see. It covers millions on millions of acres around the globe, yet it is a rare thing and cannot be replaced.

This soil is a living thing. Yet it can be destroyed. This soil is a fruitful thing. Yet it can become sterile.

This soil is God's gift to mankind, given unto our stewardship. Yet it can be despoiled and wasted.

This soil produces crops and verdant grass and trees. It cannot be duplicated by chemistry or physics. This soil is an intricate house of myriad elements. Yet it is so common-place as to be known as dirt.

It fills the flower pot in Manhattan, serves as a garden in Minnesota, and produces an orchard in California and a cotton field in Texas... this thing called soil.

It is the spectacle of the Grand Canyon, the flatness of the Plains, and the rolling convolutions of the Shenandoah Valley... this thing called soil.

It is the source of our nourishment; it provides the means of our protection.

God has willed we can live with it; we cannot live without it.

Consider this soil. Consider it well.

Local Business

"Rarely ever has a product achieved a highly profitable sales position over a reasonable period of time without the use of newspaper advertising..."

This comment, taken from a newly published booklet on national advertising, has been offered as advice to manufacturers seeking nationwide sales.

The publication points out that a manufacturer can advertise most economically by selection a medium which is adjusted to the climate, living habits, and local customs.

Since "advertising considerations must be based on selectivity, timing, flexibility and proper coverage" newspapers provide most of the media answers for most advertisers.

"The direct relation of net profits to volume of newspaper advertising has been established over many years," the booklet states.

Although the author was dealing with the problems of national advertising, his comments are retail advertising. Newspaper advertising does the same work for an entire retail business that it does for a single nationally distributed product.

And the local retail unit which fails to identify itself with regular newspaper advertising is leaving a void which is likely to be filled by competition. For, regular newspaper advertising is a standing notice that a store is a progressive institution, ready to provide the best in modern service.

The absence of such notice in the newspaper is likely to lead local consumers to the opposite conclusions. For when a business fails to maintain its identity, people are likely to assume that the business itself is suffering a decline.

A resourceful man isn't necessarily a man of means.

The Sounding Board

(Editor's Note: In the first article here, an editorial in the Stamford American points up a need for that community that could be well considered here. Read it and see if you don't agree. The second article reflects editor Troy Martin's concern over the recent actions of Soviet Premier Nikita Khrushchev. He could have a point.)

CENSUS FIGURES POINT UP NEED FOR ADDED WORK OPPORTUNITIES

As Doug Meador, publisher of the Matador Tribune, puts it there are a lot of fine people in

this area but quality doesn't count with the census takers.

Most Stamfordites were shocked when they heard that the city had lost almost 800 in population over the last decade. That just couldn't be, they reasoned, what with utilities installations at an all-time high. "Eight hundred people surely will represent at least a hundred empty houses and we just don't have them," they concluded.

However further investigation plus a check with Mrs. Martin Blackburn who helped take the

local count, revealed the bitter truth. The folks just aren't here any more.

Rainey Park, the defense housing units which were located on Vanderbilt street and which housed some 200 persons ten years ago, are no more. There was a veterans housing installation just south of the Stamford Sanitarium that is no more. A drive around town will reveal numerous abandoned houses—houses that will require more than they are worth to make them fit to live in. The loss appears, in the main, to be among the working class of people—day laborers, Negro and Latin American populations both are down substantially.

One other factor also cost the city between 125 and 150. College students now are counted where they attend school. Ten years ago they were counted where they live.

Mrs. Blackburn said that census workers could see the

handwriting on the wall could tell that the city was going to come up to the 6,500 figure that was talked about. They checked and rechecked maps to make sure that Roy Arlidge was in town, they even checked son Jack in Knox City for information about the city. Still the figure was the same.

A casual personal of seems to indicate that the 5,000 to 6,000 bracket hit harder than other cities. City, Seymour, Brook, Anch— all showed losses with Stamford losing a slight gain.

All of this points up the need to bring in some opportunities for unskilled labor. That's the problem.

THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

THURSDAY, MAY 26

Read II Timothy 1:8-14

I know whom I have believed, and am persuaded that he is able to keep that which I have committed unto him (II Timothy 1:12)

God has spoken to me in various ways and in many situations, but never so clearly as one morning in 1950. Jack, our only son, had left the day before for army training in preparation for overseas duty.

My devotional guide directed me to this verse: "I know whom I have believed, and am persuaded that he is able to keep that which I have committed unto him." Quietly I let it speak directly to my deep need. As I fully committed Jack to God that day, there came to me a peace and an assurance such as I had never known. I can truthfully say that I was less anxious about him during those months of overseas duty than ever before.

I am reminded of Abraham Lincoln's statement that he had been driven to knees many times because there was no other place to go. There is wisdom in making it a practice to turn always in faith to God, the one true source of strength and power for the living of these days.

PRAYER: Our Father, we give Thee thanks for Thy ever-present, loving nearness. Grant us the faith to believe that in Thy strength we can face any situation and come out victoriously. In the name of our blessed Redeemer we pray. Amen.

LOADED GUN POINTED AT HEADS

Those who would co-exist, strongly recommend a look at the front pages of almost every newspaper morning daily of the world.

Recently displayed on the pages across the country is the picture of Nikita Krushchev, foreign minister and Premier of the Soviet Union, and Marshall Malenkov.

Look into the faces of these three men who butchered Hungary, who killed people in their own country literally by the millions for resistance. There is one thing you will not find there—Mercy.

We hope the people of Olton will think seriously on this matter. Krushchev's boast that he would make war on the US cannot be considered in the abstract sense by people who live in the Olton community. This man has a loaded gun pointed at our heads.

If we allow Krushchev 15 minutes head start in a future

war, the chances are good that 75 percent of the people of Olton will not see the next hour strike.

Consider this, even before Amarillo became a base for planes of the Strategic Air Command it was reported to be Russia's Prime Target No. 15 in event of attack.

Now think on this, a Cobalt nuclear warhead explosion scoring a base hit on Amarillo would demolish that city in a boiling, searing instant. In all probability the area would be patterned with explosions something like depth charging for submarines. This would insure destruction of all adjacent bases and industry.

In event this should happen, Olton, too, probably would be flattened. Those who die in the first terrible confusion will be the lucky ones. The rest would perish from the hideous radiation burns that would accompany Cobalt fall-out.

IF WE TAKE THE ATTITUDE THAT THIS SERIOUS MATTER IS SOMETHING HAPPENING FAR AWAY AND OF NO CONCERN TO US, THEN WE ARE LIKE STUPID CATTLE WAITING

Mercury's the better low-price car and you can prove it!

ADD UP MERCURY'S EXTRA VALUES: Just stop in at our showroom and see the proof firsthand. Open the front door of a Mercury—it's up to 5 inches wider than other low-price cars so you can get in and out that much easier. Slide into the front seat. Notice how the instrument panel has been moved far forward. What other car gives you this feeling of spaciousness? Now accept our invitation to go on a private demonstration. Notice the steady, silent smoothness of the ride. That's because Mercury has a 7-to-8-inch longer wheelbase than other low-price cars—is up to 494 pounds heavier, and has far more sound-proofing all-weather insulation.

Try the brakes. They're up to 26% larger in a Mercury. Notice the view. Mercury's windshield and windows give you up to 21% greater visibility than other low-price cars. Now, for the best news of all, just keep on reading...

COMPARE MERCURY'S LOW PRICES: prices start \$63 to \$66* below even the lowest-priced V-8 powered Plymouth Fury or Chevrolet Impala!

And we're not talking about a "stripped" Mercury. This price comparison is based on a deluxe-appointed Mercury Monterey with luxurious nylon interior and thick wall-to-wall carpeting. So why settle for less? Get all your money can buy with Mercury—the better low-price car.

*Based on comparison of manufacturers' suggested 1960 retail base prices for lowest-priced V-8 models.

WHAT GREATER GIFT CAN YOU GIVE A 1960 GRADUATE? What greater gift could you, as a parent, an employer or a friend give a graduate than the gift of courage and confidence? Courage to be themselves at all times and have people like them as they are? Confidence in themselves so that others will have confidence in them? Management has become increasingly alert to studies which have shown that even in engineering, only 15 percent of one's financial success depends upon technical knowledge. The other 85 percent depends upon the ability to lead with people. Thomas T. Holme, chairman of the Department of Industrial Administration at Yale University, showed that 90 percent of the problems which confront business organizations are human, only ten percent are technical. Chauncey Depew said, "There is no other accomplishment which any person can have which will as quickly win for them a career and secure recognition as the ability to speak acceptably." What are the plans of the graduate you know? A Job? College? Business School? Service? Marriage? What better way to start any of the above careers than by taking the training designed to the individual? Why wait? You will be busier next year. Why not have to drive farther next year. Why not investigate the benefits of the largest adult training course in the world today? Why not see for yourself why 750,000 graduates of the Dale Carnegie Training are facing life with new abilities, new hopes, new interests, and new enthusiasms? Why pass up the best opportunity you will ever have to effectiveness in whatever pursuit they have singled out to participate in the world-famous Dale Carnegie Course now being offered in Slaton for the first time? As Ed Cunningham, retail sales manager of the Borden Company in Lubbock, said, "It cost so little and gives so much." Attend the free, no-obligation meeting at 6:30, Thursday night, May 26th, in the Fellowship Hall of the First Methodist Church or call Joe Hood at the Slaton Slatonite, phone VA 8-4201, for further information today! The Dale Carnegie Course is sponsored in Slaton by the Board of Stewards, First Methodist Church. The Dale Carnegie Courses are presented in this area by James E. "Red" Norman and Associates, 2702 134 Street, Lubbock, Texas.

DEGREE!

What Every Parent Knows and Every Graduate Should Know . . .

All planned education is reflected, over a period of a lifetime, in increased earning power.

Kenneth Gauthier, training supervisor for Kaiser Aluminum and Chemical Corporation, writes, "I have participated in discussions on over 400 promotion boards where men and women were chosen for promotion to supervisory jobs in industry and business. I have yet to hear of a person being promoted because of his skills. The question always asked is, 'How does he get along with people? How does he handle men?' That, in the final analysis, determines leadership."

If the graduate of today wants to be able, at age 65, to look back over his life and say, "I have given my family a standard of living that can be purchased for an average wage of \$100 per week for my working span of 40 years," he is asking some employer or customers to pay him a total of \$208,000.00! If the graduate of today is a little more ambitious, and would like to give his family a standard of living that can be purchased for \$150 per week, he is asking for a total earning power of \$320,000.00! Few of us realize how valuable we are!

What is the difference between the \$208,000.00 and the \$320,000.00? ONE difference is \$92,000.00, which can buy the homes, the standard of living and the education for our children that each of us want. The other difference is simple: **INCREASED ABILITIES!** That's right . . . increased abilities. Real simple isn't it? The man or woman who wants to win promotions and increased pay must first expect to become more valuable to his employer. Otherwise it is like kicking a stove and saying, "Give me some heat, stove, and then I will put in some wood."

Since 1912, the Dale Carnegie Institute of Leadership Training has given over 750,000 graduates the abilities they needed to achieve financial and personal success in life. You could put off your decision to participate in the Dale Carnegie Training all your life while waiting for "the right time" or "the right place" just as you could have put off graduating from High School until "the right time" or "the right place". Now is the right time! Slaton is the right place! The Dale Carnegie Training is going to be offered right here in Slaton this summer. Prepare yourself during the summer months for the job you have accepted or will accept. Prepare yourself to enter fully into College life if your plans include college this fall. Gain the abilities now that you will so sorely need as you participate in college classes and activities.

There will be a meeting Thursday night at 6:30 p.m. in the Fellowship Hall of the Methodist Church to show you how the Dale Carnegie Training will help you. Attend this free, no-obligation meeting Thursday night, May 26th, at 6:30 p.m. in the Fellowship Hall of the Methodist Church or call Joe Hood at the Slaton Slatonite (phone VA 8-4201) for further information.

The Dale Carnegie Course is sponsored in Slaton by the First Methodist Church Board of Stewards. The Course is presented by James E. "Red" Norman and Associates, 2702 21st Street, Lubbock, Texas.

A SALUTE TO SLATON

The following merchants of Lubbock wish to take this opportunity to congratulate the people of Slaton on entering their 50th year of Progress. Although Slaton has not yet reached its 50th Anniversary, it is getting very close, and 50 years ago right now, activity was under way to bring the community into being. Since that time, Slaton has been a valued friend of Lubbock and its merchants. These merchants are expressing their gratitude to our community and wishing it another 50 years of progress as the two communities become closer and closer together, in more ways than one.

STANDARD OPERATING PROCEDURE

Mr. Welling mows his lawn every Saturday — he and his two assistants.

Technically, it's a one-man operation. But not to Billy and Jean. They insist on helping.

And, what is more, they NEED to help! Imitating what Daddy does is *standard operating procedure* for children. It's an essential part of growing up.

Remember this need as another Sunday approaches. You are alarmed over the spread of delinquency. You are determined that your children have adequate religious education.

The Church can provide all but one of the essentials in religious education. THE EXAMPLE which affords real incentive for your children's every effort MUST COME FROM YOU.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Mrs. Eakins attended Slaton schools and her husband is a 1956 graduate of Wilson high school. He served 3 years in the Marine Corps and is now employed by Shop-rite Food Inc. in Lubbock.

The wedding music was furnished by Mrs. H. G. Stokes and the soloist was Miss Charlotte Bland.

The bride was given in marriage by her father.

The bride's gown was fashioned of white chantilly lace with sabrina neck line with sequins and pearls on yoke. Long pointed sleeves. Its glorious bouffance is dramatized by alternating tiers of wispy nylon tulle and band lace, underscored by rich nylon net skirt and full satin slip.

Her veil was fingertip length and fell from a crown of pearls.

She carried a cascade of white carnations with white streamer and a white satin bible.

She wore pearls, a gift from the groom. She also wore an old British penny in her shoe. For something blue she wore a blue garter, and a borrowed handkerchief in her bouquet.

Kathy Huddleston, cousin of the bride, from Hereford, Texas was flower girl. She wore a short dress of gold lace over yellow satin, with flowers at her waist. With pleated head piece to match her dress. She carried a white basket with yellow satin lining and bouquets of white flowers on-hand. She dropped colored rose peddles preceding the bride.

The attendants were dressed in identical dresses, hand made by the bride's mother.

Mrs. Randle Weaver, bride's sister served as matron of honor in a baby blue dress.

Mrs. Carl Magouirk in pink. Mrs. Kenneth Baker, in turquoise blue, and Miss Johnnie Williams, in gold over yellow were her other attendants.

The attendants dresses were made of lace over satin, full gathered street length dresses and large puff sleeves. They wore pleated head pieces to match their dresses. They wore white accessories and carried a rose of white and pink.

The bridegroom's attendants wore black pants and white dress coats with black bow tie.

Mr. Edd Eakin, groom's brother served as best man of Slaton. Ushers were Mr. Kenneth Baker of Slaton, Mr. Randle Weaver of Wilson, and Mr. Walker Menzler of Wilson.

Candle lighters were Deredwood Eakin, brother of the groom of Wilson and Jerry Hodge of Slaton.

The ringbearer was Ronnie Johnson of Lubbock.

A church reception followed the wedding. Mrs. Wayne Huddleston and Mrs. Dick Johnson served as hostess.

For travel the bride shows a turquoise two piece linen suit with white accessories and a white corsage.

They will be at home at 2117 B. St. in Lubbock.

NOW LOOK WHAT CORVAIR'S GONE AND DONE!

The same Corvair that tallied a thumping 27.03 miles per gallon* in the Mobilgas Economy Run... went right on to climb Pikes Peak earlier in the spring than any car has ever tried!

We wanted to show you what the fabulous traction of Corvair's rear-engine design and the sure-footedness of four-wheel independent suspension really mean. So the identical Economy Run car went right on to 14,110-foot Pikes Peak—and right up to the top of that savage mountain, on April 15, still deep in winter's snow and ice. No other car— even specially equipped—had ever been able to conquer that nightmare alpine road so early in the spring. But Corvair (with United States Auto Club officials aboard to certify that not one nut or bolt was changed) purred right to the summit without chains or even snow tires! That just underscores the fact that Corvair is totally unique. But you'll find that out the first five minutes you're at the wheel!

STRENGTH FOR THE WEEK

of the most familiar and red stories is what is called, the "Parable of the Prodigal Son." A story told by Jesus to illustrate the love of a wayward child. recorded in the 15th of the Gospel of Luke. are those who feel that are entitled, "The Par- the Loving Father." doubt, that would make title for the parable, for loving Father. But I ke to suggest that an-

other heading would also be appropriate. We might call it, "The Parable of the Man Who talked to Himself." You will observe that in the story, nothing worth happened until it is said, "When he came to himself, he said: I will arise and go to my father, and I will say to him, 'Father, I have sinned.'" Up to that time his condition had been going from bad to worse. But after he had talked to himself, and had revealed to himself his own deplorable condition, he

had talked to himself what he ought to do, and then he did it. He never would have retraced his steps, had been restored to his father's favor, if he had not looked at himself as he really was, considered the good things he was missing, and said to himself, "This is the thing I will do."

Perhaps one of our own greatest needs is to take time to sit down with ourselves and take stock of our condition. Are we, like the prodigal, seeking happiness apart from the Father's will? Are we feeding our souls of the husks of life, when we might be sitting at our Father's table and feeding on the "Bread of Life" and drinking "The Water of Life?" If so, we should face the facts, then like the prodigal say, "I will arise and go to my Father." That we will be received, welcomed and forgiven, we know, for he has given us this gracious invitation:

"Come to me, all who labor and are heavy laden, and I will give you rest. Take my

yoke upon you, and earn from me, for I am gentle and lowly in heart, and you will find rest for your souls."

I do not know the author of this poem, but since it is expression of one who has talked to himself about his need, and the assurance of a welcome by his Father, I give it to you. Thou knowest, Lord, the weariness and sorrow Of the sad heart that comes to Thee for rest: Cares of today and burdens for tomorrow, Blessings implored and sins to be confessed. I come before Thee at Thy gracious word, And lay them at Thy feet: Thou knowest, Lord: Thou knowest, Lord: Therefore I come, Thy gentle call obeying, And lay my sins and sorrows at Thy feet. On everlasting strength my weakness staying, Clothed in Thy robe of righteousness complete; Then rising and refreshed I leave Thy

County Has 13 Children In State School

There are 13 children from Lubbock County at Austin State School, a 45-year-old State institution for retarded children. There are more than 2,000 children at the school, and they have come from 198 counties. There is no house of worship on the grounds, and of course it isn't practical to take very many of the children to churches off the campus.

Three years ago a group of volunteer men, women, and ministers began the work of raising \$95,000 to build a Chapel for the Children. Only \$25,000 remains to be raised. Con-

thone And follow on to know as I am known. Clarence N. Wylie, pastor First Presbyterian Church

tributions have gone in from 123 counties, but at \$45.00 per child, our county is still \$270.00 short of its quota.

There may be those among our readers who will want to have a part in doing for these children who cannot do for themselves.

Contributions are fully deductible. Checks or money orders should be made to:

the Sharp Trader buys at better than wholesale

...because he buys where his bread is buttered

A REAL sharp trader doesn't need "connections" or "special discounts" or catalogs, or any other gimmick to get what he buys at BETTER than wholesale.

Maybe you think we're kidding?

Not at all. It's a fact. When you BUY in the community you LIVE in, you know that every cent you pay for goods and services above wholesale cost stays here at home with you. By staying here, it can

get around to buying MORE good things for you and your family.

It's trading material . . . and TRADE ALONE builds communities with better opportunities, better schools, better churches, better neighbors.

Any ONE of these advantages could bring you returns beyond measure in a BETTER LIFE, as well as real CASH returns in the form of increased business,

improved property values, a better job, more people to help you carry the load of normal community expense.

All of this — which you don't get for your money when you buy somewhere else — makes the cost of the actual GOODS very low . . . when you buy them at home.

That's how the SHARP TRADERS get BETTER than wholesale values.

MUST BE GROWN ON IRRIGATED LAND

Under a simple contract, deliver it to us 15 per cent or lower moisture content this fall, and

WE WILL PAY

\$1.63 PER 100 POUNDS

COME BY THE WILSON COOP GIN FOR YOUR SEED, and BE READY TO PLANT.

SEED \$6.00 PER 100 LBS.

THERE IS NOTHING COMPLICATED OR INVOLVED ABOUT THE DEAL. YOU PLANT IT, GROW IT AND WE TAKE THE CROP OFF YOUR HANDS AT OUR WILSON, TEXAS ELEVATOR.

Following are some of the Questions we have been asked by Farmers:

QUESTION: Is Texioca-54 the same as the Waxey Kaffir grown during the mid-forties?
ANSWER: No Texioca-54's main parent is Martin Milo.

QUESTION: How is The Yield?
ANSWER: Substantially the same as Red Hybrids.

QUESTION: How can we pay \$1.63 per 100 pounds?
ANSWER: Because the yield from the acres you plant is already contracted to Corn Products Company at that price. Corn Products Company makes a high-grad cooking starch to go in frozen foods.

QUESTION: Is it more difficult to raise than Milo?
ANSWER: No. The same farming methods are used as for Milo.

QUESTION: Does it stand as well as Milo?
ANSWER: Yes, Better, in fact.

QUESTION: Do you have an unlimited amount of seed?
ANSWER: No. The seed we have on hand is all there is available, so it will be well for you to make arrangements for your seed now.

QUESTION: What are the prospects for growing Texioca in the future?
ANSWER: There will be more seed available next year and there will be a demand for more acres.

QUESTION: What is the planting rate?
ANSWER: 4 to 6 pounds per acre is recommended.

QUESTION: When is the best planting time?
ANSWER: June 10-20th. However, it makes as well proportionately as milo when planted earlier.

QUESTION: Must it be 13% moisture when you deliver it to us?
ANSWER: No. 15% or below.

QUESTION: Will it dry well in the field?
ANSWER: Yes. About like Martin and better than most red hybrids.

QUESTION: Is it difficult to harvest?
ANSWER: No. The head grows well above the leaves. It has an open type head which threshes more easily than most red hybrids.

Seniors Present Their 'Last Wills'

I, Morris Davidson, being of excellent character and well developed mind, do hereby make this my first will and testament. I would like to leave my ability to move to a new town my senior year to Bill Wheeler. I also leave to anyone stupid enough to take it, two subjects under Mr. Carnes. I leave the seat behind the steering wheel of the car to my sister Terry, may you have more gas and less flat tires than I have had this year. To Carl Meeks, I leave my locker, which is 291, so that he will not have to go so far at dinner to put his books up. To Don Edwards I leave what little brains I have but I don't think they will do you much good.

I, Karen Henry, being of the original 5' 5" body and sound one-track mind do hereby make this my last will and testament. To Gene Talbert I leave one bath-size beauty bar of Sloppo soap to wash out his huge, overgrown MOUTH. To Eddie Gravel, I leave my copy of "How to Turn over a New Leaf," and a steel-plated helmet for protection against Mrs. Gilmore's deadly pencils. To next year's Bookkeeping class, I leave this warning "Don't"

But if you don't heed this, this year's class hopes you enjoy working day and night, Saturday and Sunday, wearing your fingers and brains to nothing, straining your eyeballs to read upside down, and threatening murder to your fellow bookkeepers, for messing up their work sheets after you copied it so neat. And besides, there's Stonewall and his hay and potatoes to put up with.

I, Jerene Verkamp, being of sound mind and body, will the following items to the students of S.H.S. For the number one thing I will to Kay Short my seat in Spanish. of a little mind and large feet, hereby give my last will and testament. I will to any person stupid enough to become a member of the floor-scurbbing association my job of manager of the Slaton Tigers' basketball team. I will to anyone who wants it my seat in 6th period study hall with all the other loafers. I will to someone who takes speech next year my ability of being a very good actor. I will to Kenneth (Rat) Armstrong another big beautiful year with Mrs. Brown. I will to Margie Baxley an autographed picture of Charles White.

I, Clovis Cochran, being of sound mind and body, do hereby make my last will and testament. To Ronnie McCormick I leave the ability to get the required inches in journalism. You can do it Ronnie, provided you work on the senior issue

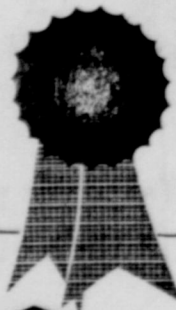

and enter a Western Day novelty. To Claudine Townsend I leave my good fortune to make it through Bookkeeping. All you need is a strong right hand, sharp pencil, good eraser, and a weak mind. This I also leave to any lamebrain that signed up for Bookkeeping. Last, I leave all the fun I've had during the past four years to every underclassman.

I, Donna Wilke, being short of mind and tall of body, will to Janet Adamek a cherished F.H.A. state degree and my place on the all-district team. It won't be easy. To Pat Pett-

grew I leave my place in the Homemaking Dept. along with all the fun possible to make your senior will the best ever like you have helped to make mine. To Jeanette, Judy, Elaine and Fonda I leave the ability not to be kicked off or kicked out. I hope you go all the way to state next year.

I, Jerry (Slick) Harlan, do hereby will and bequeath my first will and testament. To Abbey Wright I leave all my first copies of themes, book reports, and cheat sheets. To Danny Edwards and Ab I leave my ability to graduate in four years. To Robbie Merrill I leave my looks, charm, and wonderful personality, you need it. To Danny Kitten I leave my position in F.F.A. To Judie Bishop I leave all my "Days Work" chewing tobacco. To Gene Talbert I leave my position as boys cheerleader. That's all I'm giving away, I need to take the rest with me. I, Suzanne (Triple "S")

Cooper having poor eye-sight, but a wonderful figure, do hereby make my first will and testament. First I would like to leave 20 pounds of my blubber to Lundy Roache although you really don't need it. Second I leave my front chair in Mrs. Martin's class to Claudine Townsend, sometimes front seats come in handy. Third I will my wonderful alto voice to Marilyn Gilmore, no matter how it sounds just keep singing. I leave my chair in the board room to Gene Talbert and I leave my position as Society Editor of the Tigers Cage to Johnnie Williams, that is if you think you can stand Stonewall Jackson for a year. I leave my ability to never really learn how to sew to Dora Tucker, I really don't have to leave this to her, she'll never learn anyway. To Linda Hogue, Marilyn Gilmore, Linda Shelton, and Steffie Johnson I leave all my old test

papers, book reports, and new ways to cheat, be careful with the last one. Last but not least, I leave my wonderful acting ability to Joe Melcher and Don Edwards, I figure it will take two people for this job on account of my size.

I, David A. Bednarz, of Slaton, and County of Lubbock, State of Texas, being of sound and disposing mind and memory, and not acting under fraud, menace, or the undue influence of any person whatsoever, do make, publish, and declare this my last will and testament. First: I give and bequeath all my books back to the school and give my locker to anyone who needs it. Second: I give and bequeath to the "Alias Chicago Kid" my ability to get through school without having any fights, doing any homework or needing library books. I also give and bequeath to him my skill to avoid being killed play-

my old torn up typewriter. Then to all poor souls of SHS I leave this whole rotten mess—I sure pity you.

I, Bill McCrary, being in sound body and sound mind, hereby will my business to R. Tex. Smoot.

I, Maxine Moore, being of less brain and more body, do hereby make my last will and testament. To any unimaginative person taking journalism next year, I leave my imagination. Believe me, you'll need one when Mr. Jackson assigns stories to be written on such subjects as Boondoggling. I will my position as society editor of the Tigers Cage to any girl who loves to write gossip columns in spite of the fact that they won't be printed because of their abolishment this year. To Linda Hogue, a future book-keeping student, I will a box of Kleenex. You will cry millions and millions of tears each

day when you walk into book-keeping class. To Marilyn Gilmore, Linda Shelton, Steffanie Johnson, and Linda Hogue, I will all my civics notes, tests, and hope that you are given the same test I was. Last of all to the girl who is elected secretary and treasurer of the Choraleers I will Mrs. Davis's grade book, the absentee blanks, and the duty of checking the class roll every day. Also, it really helps if you have about different boxes to put money in for about four different things all to all be collected at the same time.

I, Charley "Rice" White, having a hollow mind and a crooked business, do hereby leave the following things to the following persons: To Coach Keer I leave my 30 laps a day, I think he needs them worse than I do. I leave my dice to any girl that is a gambler and to any junior next year I leave one of my nicknames Para-Dice-White; and to all Seniors of

1960 I would like to wish the very best of luck to each and every one.

I, Johnny W. Owens, being of a very intelligent mind, which I created during my four years at S.H.S., and being the owner and bearer of an enormous and beautiful physique, do hereby give my first, last, and only will and testament. I do decree that Pete Harris shall have my parking place. That Dwayne (Neb) Smith shall have some of my genius so he can pass Algebra II. I do hereby will my good looks to Robby Merrill (Poor Guy). To Mrs. Brown I give my full support and admiration to the Democratic Party and do promise to vote this year for Lyndon B. Johnson for President of the U. S. Since I haven't anything else to will that I do not want for myself I leave dear old S.H.S., knowing that I pass this way only once in a lifetime and would like to wish the best of

luck to all Seniors of the graduating class of 1960.

I, David Childers, being of stronger body than of mind, do make this my last will and testament. To Wayne Odem I leave three inches of my chest because I think he needs it worse than I do. To Danny Seward, I leave my good looks and charming personality. To Mrs. McSpadden I leave all my broken finger nails that I bit Carnestrating to pass typing trying to pass typing. To Mr. Carnes I leave half a can of chocolate protein pills, may he eat them quickly. If I will anything else I leave Slaton High School as a ho-bo so I'll call it quits.

I, Tommie McCall, being of exhausted brain and body, leave to Johnny Morris my position on the Annual Staff. With this goes the 1863 Royal Typewriter without ribbon, and a hiding place in the closet when Mrs. Martin gets mad. To some poor unsuspecting soul I leave the

honorable position as editor of the Tigers Cage. With this goes my long black bull whip, assignment sheets, and title which was given me by the class as "the meanest editor S.H.S. ever had." To DeAnna Cole I will my seat as first chair flute. Watch Mr. Townsend's Baton, he gets pretty wild sometimes. To anyone who will cherish my battered baton, Horace, and my Acme Thunderer whistle (which never has been the same since I washed it with soap) I will the position of Drum Major. Last of all I leave to Roger Cummings my locker (which I never did know the number). Be sure and knock before opening so you won't disturb that lovely family of peck rats.

I, Beverly Myers, being of little mind and a lot of body, do hereby leave my last will and testament. To Jerry Hodge I leave my battered old typing

to Slaton Senior High. First I leave to Don Caldwell my super-sonic ability to get through high school without getting a girl friend. To Mr. Jackson I leave the name Strube because he is always yelling it and also I leave him the ability to do bookkeeping next year, plus some hay. To Don Edwards I leave just my plain common sense to use in and when Mr. Townsend just stares at you, you need it. To Deljuan Wilson I leave first chair bass in our marvelous base section.

I, Beverly Beades, being in weak mind and enormous body, do hereby will my position in Bookkeeping to Linda Hogue; my typewriter and eraser to Johnnie Williams; my good old faithful, well-used civics book to Thelma Comstock; my English Grammar and Literature books to Claudine Townsend; and last but not least, my locker, who has served its purpose well, to Judy Smith.

I, Betty Joyce Schneider

being of small mind and larger body, do hereby leave this last will and testament. To anyone who wants to try it I leave the right to get married, have a baby and return to school (Believe me it's not easy), and finally making it by a small margin. To anyone who can manage it I leave the privilege of being in Mrs. Brown's class for four years. That is an honor not everyone receives (and I never failed a course). The rest of my belongings I'm taking with me because I'm not crazy enough to leave anything else behind for good ole SHS.

I, James William Cole, being of degenerative Oklahoma descent and a chemical makeup so diversified and complicated that not even the famed Mr. Carnes could analyze me (or Red's cheat note methods); and being of such a low frame of mind and despairing heart that the only true beatnik to graduate from Slaton High (our own Bill Barry) cannot even inspire me with his crude, lowly forms of literature called poetry; and believing in certain inalienable

rights of every human being such as reading Mad magazine without parent's consent, saying dirty things about teachers behind their backs, drinking strawberry soda pops on the Jewish sabbath without having to burn incense, and playing with tinker toys in the privacy of one's own home with Federal regulations do hereby bequeath my last will and testament. To every member of Slaton High School, I leave nothing, because I am taking it all with me. To Robert Keys I will a little good luck. With the sacreligious jokes you've been telling you'll need it to keep from being struck by lightning. My prize package of nicknames I will to no one, since they are my most prized possession. Finally I will my ability to have virtually no dates throughout high school and then go steady throughout my senior year to Wayne and Layne Odom. You've got a good start.

I, Carmen Perez, being of short body and hollow mind, do hereby make my last will and testament. To any lucky per-

son who gets to share locker number 297, hope you can keep it clean. It isn't easy. To all the unfortunate students willing to work hard in Bookkeeping I leave Mr. Jackson. Also I leave my chair in Choral to Carlene Taylor. I hope you can sing better than I can. My uniform I will to someone who can get into it. I also will my Choral robe to anyone who takes Choral and can get into my robe. To all the Freshman I leave three more years ahead of you, make good use of them. To Leandro Ybarra I leave my ability to do nothing. To Gloria I leave the empty Dr. Pepper bottle in my locker. Please take it to Mrs. Wicker when you get a chance.

I, Peggy Gentry, being of weak mind and body, do will to any person that is crazy enough to take bookkeeping, my broken pencils, worn-out erasers, and transqualizers. To Linda Hogue, I will the title, RAWHIDE. To Marilyn Gilmore, I will my place in the Choraleers robe closet, good luck.

I, Kay Gordon, being of little body and not much more brain, do hereby make my last will and testament. To anyone dumb enough to take bookkeeping under Mr. Jackson I leave them all of my worn out erasers. You'd better back out while you have a chance, you don't know what you're getting into. Just ask any of us suckers this year. To my little brother I leave my ability to go through four years of high school without playing hooky. To Bonnie Cole I leave my Choral Robe. Better watch it, it may be a little short on you.

I, Betty Lou Johnson Magouirk, having no mind and too much body, do hereby leave my last will and testament. I leave to Rita West to carry those heavy folders to choral each day and I leave to Marilyn Clark my old battered locker

that won't open. I leave to Gloria Orsoso my Librarian position, maybe she can help Mrs. Wilkinson, Mrs. Jansa's English classes better than I. I leave to Kay Baker the ability to get out of school in four years. I leave my seat in the section to anyone that can get there first.

I, Lola Hopkins, being of confused, scattered, and immature mind, do make, publish, and declare the following as and for my last will and testament. I would like to will to anyone, with a strong voice, my position as secretary of the Slaton Pep Squad. I would also like to will my position as president of the Slaton Choraleers to some unlucky girl. I hope you aren't as nervous as I was. I also want to will my position in journalism to anyone who wants to write editorials every day in class. Good Luck. And now in these final moments I will to any junior with the appetite to accept, my seat in bookkeeping, my pencils, my hundreds of erasers, my tranquilizer pills, and without any regret I leave the beloved Mr. Jackson.

I, Tommy Foster, in a weak mind and a strong body, hereby make my last will and testament. I will to Kenneth Ratman Armstrong my Algebra II book. To anyone who needs a locker, don't get mine. My chair in D. E. to Gerald Leech Clark. I leave to major Raymond Smoot my best wishes, (he'll need it.) To Danny Edwards I leave the ability to try to get out of school within the next five years. (I hope you make it). To all students who are going to take D. E. (Get your business straight).

I, Joe Wood, definitely not being of sound mind do hereby make my last will and testament. To Gall Johnson I leave my old battered locker

ing football for I am sure he will need it. Third: I give and bequeath my skill not being caught by the Principal loafing in the office to Roger Kitten. Fourth: I will keep and devise all my other skills and take them with me for I am the only one who can use them.

I, June Johnson, wish to bequeath the following: To Sue Liles I give my temper and sharp tongue. I can certainly do without them, and, Sue, you are calm enough to handle them.

I, Jerry Kitten, of the City of Slaton, Lubbock County, of the State of Texas, being of sound mind and body, and not acting under fraud, menace or the

undue influence of any person whatsoever, do make, publish and declare this to be my last will and testament. First, I give and bequeath to Mr. John Don Shelby the ability to do all my homework especially in Plane Geometry and the ability to get my book reports in on time. Second, I do hereby nominate and appoint Ann Hadlock to keep my parking place on the south side of school for she needs it to entertain her dear friends. Third, I will to Richey Polk the ability to stay out of mischief in school and not to go out of town every Sunday. I leave all my other abilities and skills to be left as they are for no one deserves them.

I, Billy Dickson, being an insane person, do hereby make my last will and testament to old SHS. I will to my little brother the privilege of being beaten every day my Freshman year, every other day my Sophomore year, just 15 my Junior year and none my Senior year. I will to Kenneth (Rat)

Armstrong my seat in English IV. 5th one on the second row from the windows. It is a good one to read a book in and I know that is what you'll be doing. I will to Gerald Clark Smoot's class for film to us next year because it's going to be hard. I will to anyone who is crazy enough to take my 'ace in the mixed choral. I hope you can sing better than me. Mrs. Davis will surely appreciate it. I will to Mr. Smoot the lumber he will need to build a bigger boat next year so every one can get in it. I hope these are carried out if I do happen to get out of SHS this year.

I, Carolyn Barnes, being of weak mind and enormous body, do hereby make my last will and testimony. I leave to Rhonda Eanes, Janice Hill, Mary Elliot, and Dorothy Lewis my corner in the gym. Take care of it girls, I've had it four years. To any poor soul who has the courage to take chemistry next year, I leave my great scientific mind. To all girls taking homemaking next year, I leave my ability to please Mrs. Haile by always doing things neatly. To Cookie I leave my nice clean locker. Don't worry, she knows where it is. To Laine, my little sister, I leave all my happiness in school.

I, Marilyn Nelson, being of sound mind and weak body, do hereby make my first will and testament. First, I will my place in the robe closet to Kay Short. I hope she doesn't get covered with robes as much as I did. I will my ability to get along with all of my teachers to Carolyn Howell. And last of all I will my ability to stay single throughout my Senior year to Rita West. I know she will need it.

I, John (Butch) Dodson, being of little intelligence and extraordinary body, do make my last

will and testament. To anyone who is crazy enough, I leave my last will and testament. To anyone who is crazy enough, I leave my back seat in D. E. and Mr. Smoot with his 1001 times—told jokes. To anyone taking journalism and bookkeeping I leave all my erasers and pencils. Last but not least I leave my parking place to anyone who wants it.

I, Carolyn Etter, being composed of pure blubber, will very little because I want to take everything with me, however, I want to will to Judie Bishop all one can get in it. I hope these are carried out if I do happen to get out of SHS this year.

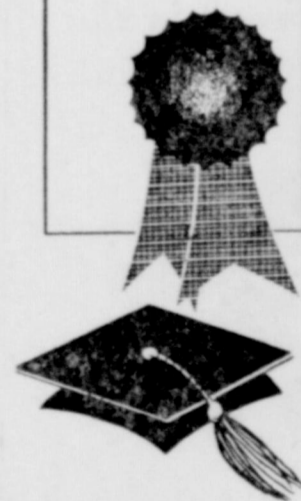

I, Billy Snider, having a little bit of mind, hereby make my last will and testament. I will my work-out note book to anyone who will take better care of it than I did. I leave my worn out marching shoes to Don Caldwell, wear another hole in 'em will ya. And I gladly, with no regrets whatsoever, leave my bookkeeping book to Mr. Jackson.

I, Roy Strube being of fat mind and little body, do hereby make my last will and testament
