Saturday's Election

Slaton and Lubbock County voters will select one of their State Representatives Saturday.

This is a run-off election between Homer Hensley and Reed Quilliam. Hensley is a Lubbock businessman and Quilliam a Lubbock attorney.

A paradoxical situation faces the man who will win this race . . . he will NOT have been selected by a majority of the people of Lubbock County, he will not even have been selected by a majority of the qualified voters of the county. Yet he will represent a very select few.

That very select few will be those who have enough interest and enough sense of participation in government to VOTE.

On the average, you can figure that only about 60 per cent of the persons who COULD do so pay their poll tax, even in a Presidential election year such as 1960. Add to that the fact that only in the very good election years as much as 60 per cent of the qualified voters bother to go to the polls. Add to that the probability that only half that figure will vote in a run-off election such as Saturday's. Add to that the probability the race will be close, with less than a thousand votes between victor and vanquished . . . and what do you come up with? Surely it will be only a very small percentage of the population of the county.

Using the formula above, and remembering that there are 155,485 residents in the county, according to the census crews, you will find that less than 30 per cent of the total population paid-poll taxes, or approximately 45,000 persons. In the State Representative election in the May 5 Primary, approximately 18,000 persons voted. This is about 40 per cent of the qualified voters. If half this number turn out Saturday, there will be a 20 per cent vote, if one of the candidates beats the other by 1,000 votes, he will have received the support of only a little over 11 per cent of the qualified voters and will have been named to important public office by just a little over 3 per cent of the persons living in Lubbock County, or 5,000 residents.

Appalling, isn't it?

Homemaking Dept. Slates Adult Classes

Two classes for adults have been scheduled for the month of June, and one the first week in July, according to Mrs. Ima Dora Halle, homemaking teacher at Slaton High School.

The first class is scheduled from June 13-16, and will be in making plastic flowers. All materials will be available upon registration at the homemaking department. The first meeting for this class will be at 8:30, Monday, June 13. Any out-of-school youth or adults who wish to register for this class should call Mrs. Halle to make reservation as a limited number can be accepted.

During the week of June 20-24, Mrs. Halle will hold the demonstration class in clothing construction. This class will include some of the beginning techniques and some advanced, however tailoring will not be taught until the fall semester. There will be a nursery school conducted by Mrs. Judy Bryant and the homemaking students which will run corresponding hours to the clothing class. The class will begin at 9 a.m. and last till 11 or 11:30 a.m. No children under 2 1/2 years of age can be accepted in the nursery class. Any person wishing to enroll her child in the nursery class should contact Mrs. Bryant at the earliest possible date at Phone VA 8-3902. No reservation is necessary for the clothing class.

Another class in making plastic flowers will be held June 27 through July 1st. This will be a mixed class of homemaking girls and adults. Boys may also enroll for this course, but all who plan to enroll should call Mrs. Halle for reservations. Mrs. Bryant will help conduct the classes.

The Bible Baptist Church will conduct a Vacation Bible School for one week starting June 6th, and running through June 10th. The school will start each evening at 7 p.m. and dismiss at 8:30. We will see that each child has a ride home. Rev. H. E. Summar, pastor, said.

Bible Baptist Sets Vacation Bible School

A special "Mystery Guest" will be introduced at the Sunday School hour Sunday at 10. Until then we will call him Mr. "X". Mr. "X" will be with us each evening at the Bible School. He is a happy fellow and we promise that you will love him, Summar said.

There will be a class for all ages of boys and girls. You may register Sunday afternoon from 2 p.m. to 2:30 p.m. or each evening at 7.

At 2:30 p.m. this Sunday, everyone is invited to attend a special service at the Church. Message by Dr. Ray Tatum from Lubbock and perhaps one more speaker.

Rites Are Held For Infant

Graveside service for Stanley Robert, infant son of Mr. and Mrs. Louis Wilkins, was held Wednesday, June 1, in Englewood Cemetery with Rev. C. M. Fields.

Survivors include the parents; the paternal grandparents, Mr. and Mrs. E. D. Duncan of Slaton; the maternal grandparents, Mr. and Mrs. Lynn Nell of Abilene; and two uncles, Jimmy Northcutt of Abilene and Dickie McCain of Slaton.

Run-Off Election Saturday

Slaton and Lubbock County voters will return to the polls Saturday, to mark their choice for representation in the State Legislature, place One, and in the race for Court of Criminal Appeals.

Homer Hensley and Reed Quilliam face the voters for the second time this year in the

Saturday, June 4th, runoff election, as candidates for the State Legislature.

Quilliam led the ticket in the Primary but Lubbock County voters gave such strong support to write-in candidate D. L. Jones that the race was thrown into a runoff. Jones got over 4,000 votes to approximately 8,000 for Quilliam and 6,000 for Hensley.

The other runoff race features W. T. McDonald and Lloyd Davidson in their race for a seat in the Court of Criminal Appeals. Davidson is the incumbent but the race was close the "first time out."

Interest is expected to be slack for this runoff because of the small number of offices to be filled. This is still a Democratic Primary and winners will merely be representing the party in the November General Election. However, nomination by the Democratic Party in this part of the state at least is tantamount to election.

Recently-Established Committee For Better Schools Has Meeting

The Slaton Citizens Committee for Better Schools met May 26 at 8 p.m. at Bruce's Cafe.

After a discussion of accomplishments of citizens committees in other communities, a list of three things all committees should have in common were read. They are (1) They are representative of the entire community. They reflect as fully as possible all parts of it, all viewpoints and all interests.

(2) They begin with facts and base all recommendations upon a continuing study of all relevant facts. (3) They are independent in thought and action but they always take steps to establish and maintain a cooperative working relationship with legally-established authorities.

The committee decided to request The Slatonite to publish the time of school board meetings, so members could attend, and become familiar with the way this policy-making board functions.

It was reported that sixteen names of children needing or desiring summer school were listed with the committee. Plans were made to meet with school principals to determine if all names had been listed with them.

The next regular meeting of the committee will be held late in June. Members will be notified of the exact date. Anyone wishing to join the organization was requested to call Mrs. R. L. Henry at VA 8-4581 or Mrs. W. D. Edwards at VA 8-3791.

Little League Standings

The Slaton Little League finished 3 weeks of play May 27th.

This year, they still have 6 teams each in the Minor and Major League and for the first year here in Slaton there are 4 teams in the Pee Wee League.

The Minor games start at 4 each afternoon, 5 days a week, in the Little League Park; the Pee Wees start at 5:00, playing 4 days each week on their own field with their season closing June 7th, and Major games at 6 each afternoon.

Good games are being played each day at both fields and if you have not been attending, you are the loser, LL representatives said.

Game standings as of May 27th are:

In the Pee Wees, the Pirates and Cubs are tied for 1st place with 6 games played and 4

wins; Red Sox have won 3 out of their 6 games and the Braves 6 games with 1 win.

The Minor League has 3 teams fighting for 1st place. Yankees, Indians and Giants have all won 3 of their 5 games; the Dodgers and Cardinals have played 5, won 2 and have a tie game, their time for play ran out with them tied the last two innings; the Tigers have won 1 out of 5 games.

In the Major League, the Dodgers are leading with 5 wins out of 5 games; Indians have 3 wins in 5 games; Cardinals and Tigers have 2 games won out of 4 played and Yankees have 5 games played and no wins.

Individual standings by teams as of May 27th are:

Nearly 3 Inches Rain Saturday And Sunday

The rains finally came to Slaton.

And with the rains came broad grins on the faces of farmers, some causing dimples resembling dollar marks. Of course, not everybody was happy . . . the hail caused considerable damage in some spots, little damage in others and practically none in others. Even those who got heavy hail damage would have welcomed the rain, though, had it come alone.

Saturday night's downfall measured out to be an even up two inches at the City Water Department's headquarters, north of Slaton Motor Co. Then Sunday night, more rain came to raise the total to 2.75 inches.

Part of the credit is undoubtedly due to Slaton Implement Company, which ran an ad in The Slatonite a couple of weeks ago requesting a three inch rain for its farmer customers. Mail delivery, that old nemesis of ours, probably was responsible for the week-late results. One

thing, though, the ad did not mention wanting any hail . . . wonder who got their wires crossed?

By the time you get this, Wednesday evening or night, much cotton seed has gone into the ground as many farmers were waiting for the Slatonite ad to "deliver" before planting. Wise practice.

Tiger Town To Elect Officers

All Tiger Town members are urged to attend the dance Saturday because the new officers will be elected. It will also be decided how many nights during the summer it will be opened.

If any boy left their coat at Tiger Town after the graduation dance or took another coat by mistake, please contact Joe Melcher.

"DO IT OURSELVES" PROGRAM

As in most all other towns, small and large, our Chamber of Commerce and other organizations have endeavored to interest various kinds of manufacturers and industrialists to move or start some kind of activity here that would bring an increase in the city's business activity and local payrolls.

Some fortunate communities that have had natural resources such as abundant water or fuel supplies have been able to bring such activities to their areas but Slaton unfortunately does not have any of these to offer. Some towns have even gone so far as free sites for such activities and others no taxes, or very low taxes, as concessions but even if Slaton could, or would, do this it would be poor treatment for those of us who have to pay full price for the privilege of doing business in the community.

There is one way that some worthwhile activities might be added to the progress of Slaton and that is for the business men of our town to get together and invest their own money in some business ventures that could be developed into worthy projects. There are towns mainly in the nation where manufacturing enterprises are in the ownership of the business men of the community. Such enterprises in many cases started out small and grew into big corporations while others remain small but prosper and do well.

Perhaps if some intense investigation were made to find out what kinds of manufacturing or distributing activities could help to prosper in this area, then certain groups of business men in Slaton could be induced to take over the development along those lines.

The fact that the people of Slaton can "do it themselves" has been proven by the organization and successful operation of the Slaton Savings & Loan Co. in which a large number of Slaton stock holders have invested.

Most any well thought plan for the organization of a manufacturing or distributing plant with the financing and development left up to the business men of Slaton could likely succeed but it would have to be strictly on the up and up. A. M. J.

MAKE THE SKEETERS SCOOT

The season is here for mosquitoes and flies and as there were several cases of sleeping sickness in this area last year and numerous cases in West Texas, some serious consideration should be given the ideas of eradicating these pests as far as possible.

Similar to cigarettes and lung cancer, the fact cannot be proven beyond a shadow of a doubt that sleeping sickness is caused by mosquitoes but there are indications that mosquitoes and flies do cause a number of serious illnesses.

The sanitary department did excellent work last summer and fall by spraying insecticides in the alleys and other breeding places for flies and mosquitoes. Now is a good time to renew the precautions on full scale.

Prevention of one serious illness or a death from contamination by insects is worth all the costs of that is required for the program. A. M. J.

The Sounding Board

(Editor's Note: Melvin Tomme of The Rails thinks we are too soft on teenage drivers who abuse traffic laws. His suggestion for handling them follows. Next, Burl McClellan of The Hansford Plainsman of Spearman, who says age can slip up on you.)

Melvin Tomme in The Rails Banner: Suggestion to safety-minded residents of Rails — There are a few teenage and older drivers that are raising the roof with cars and an apparent license to fly on our city streets. I would suggest if one of them runs into you because of his speed and recklessness, which is likely, that instead of reporting him to your law enforcement officers you simply get out of your car and proceed to stomp him in the pavement. It might cost you 20 bucks for fighting but I think it would be worth it. There is no cause to let these overgrown kids drive 55 and 60 an hour up and down Main Street, paying no attention to the traffic lights or people in other cars. It is the time something was done and a sound thrashing probably would be best, especially since it would be a surprise move. Most of these kids show by their actions they don't know what a good tanning means.

BURL McCLELLAN in the Hansford Plainsman (Spearman): Age is a sly old fox that slips up on one in most unexpected ways. Very few people really consider themselves as being old. They may joke about getting old and slowing down, but few really admit to themselves that age is coming up in the race.

However, no matter how hard one tries to overlook the fact, there are always those little things that keep popping up to remind one of the fact. Things like graduation announcements from your old high school buddy's children or things people say.

During the middle of one of our TV shows the phone rang and with a very youthful spring we bounded up and answered it. A very soft female type voice inquired, "Do you have fresh eggs?" In our best gentlemanly voice we said, "I'm sorry, you must have the wrong number. This is the McClellan residence." Then we got it right in the face. The voice said, "If you have fresh eggs, you had better slap their face goodby."

Yes, when you fall for that for that one it has been a long time since you were a kid.

Lee Meurer, son of Mr. and Mrs. Paul Meurer of Slaton, left Sunday, May 29, for Fort Knox, Ky., for basic training in the Army. Lee graduated Monday of last week with the class of 1960 at Slaton High School. He volunteered for six months active duty in the Army, and will serve in the Reserve for five and a half years after his discharge.

CHRISTMAS SHOPPING causes a good number of people to become strong "buy at home fans." Some of the stories I heard last Christmas illustrate why.

For instance, there was the young father who traveled to a large city more than 50 miles away to get a "bargain" in electric trains for his son.

AFTER FIGHTING traffic and crowds, I found that the

train I expected to buy was gone. Then I beat the sidewalks for two hours and didn't find anything in my price range," the father moaned.

"I came back home whipped and \$15 poorer. But my wife said we had to have the train. So I went to one of our local stores, prepared to pay any price. Well, there it was, just a blocks from home. Same train. Same price."

Dear Editor:
I see where a Texas citizen can now make one slight traffic bobble and get his personal auto insurance rate upped 20 per cent for three years; two bobbles, 40 per cent, etc.

My calculating neighbor figures under this system each ticket a Texas traffic officer writes is worth around \$60 in cash to some insurance company.

Which he says makes each hard-working ticket dispenser a rich asset to the underwriting business, and ought to entitle him at least to an honorary vice presidency in some good insurance money mine.

I have finished my course, I have kept the faith (II Timothy 4:7)

When Christopher Columbus started out "against wind and the high seas" on his expedition to the New World, he ventured forth with three small ships. He conquered all opposition and all difficulties, including the mockery of his contemporaries, for he had faith that the world was round.

Just before the Apostle Paul lost his life, he wrote a letter to Timothy. In it we find one of Paul's finest phrases: "I have kept the faith." He was referring to his faith in Jesus Christ.

Today we can have hope if we keep the faith. Christ offers to each one of His faithful servants the crown of righteousness and eternal life.

Our Lord Jesus recommended that we have faith even if it is as small as a grain of mustard seed, for even that much faith is capable of great things. Without faith we can do nothing; but through faith in our Lord, we can do what He would have us do, for faith is the very essence of life.

PRAYER: O Lord, our God, increase daily our faith. Give us the assurance that we are Thy faithful servants. Help us to reveal our faith through personal dealings with others. In the Saviour's name. Amen.

Thought for the Day

By keeping his faith, the Christian lives a useful and victorious life.

IT SEEMED that tears came into the man's eyes as he shouted "Why in the blankety-blank didn't the guy advertise?"

A more tragic story concerned a little girl's bike. This bargain was expected to arrive for Christmas from a mail order house. Here's the mother's story:

"THREE DAYS before Christmas we became nervous. When the bicycle hadn't arrived by Christmas Eve we were frantic. A telephone call assured us that "the bicycle would be delivered by express that night. But when it finally came, it was a boy's bike. It was too late to make a change. We just had to explain that Santa Claus had made a mistake. Never again," she sighed.

We may feel that people involved in such incidents get just what they deserve. However, they aren't entirely at fault. The local merchant who hasn't adequately advertised his goods, encourages his potential customers to go on wild goose chases.

JUST TALK

BY A. M. J.

Before I get out of the "I Remember" mood I'd like to call attention to how exasperating it is to see some boy or girl, or even young man or woman, skipping and jumping, bending and climbing. In my circles such demeanor is unknown.

Of course, there was a time when I used to do such things but now it seems very undignified and besides it is impossible. When attended by folks in my age group such things bring on complications that require a trip to the doctor, several shots in the arm, or elsewhere, some old fashioned liniment and some new fashioned miracle drugs.

Not long ago a mouse got to roaming around and from the squealing and goings on it would have seemed that a lion and invaded our home.

Although I have no great objections to sharing a closet or two with a well behaved mouse I could not get the idea over with our cocker who has a private room in the rear along with some discarded furniture, old photographs and my desk.

My wife put up as much as hullabaloo as the cocker. Loading a grocery cart with some choice smelling cheese and a half dozen mouse traps I set traps in all the likely places. I went to sleep one night and woke up when the dog started howling about twelve o'clock and my wife screamed burglar.

The night was dark, all the chairs were in the way and I turned over a glass of water on the table by my bedside, the dog was screaming so loud I could not think. I scraped a picture off the wall before I could turn on the light to find the porch circling the back room with a mouse trap hung on her ear, the neighborhood fire alarm went off and all the porch lights went on in the block. The mouse has quit stomping around and the dog is as afraid of the mouse traps as he would be of a hyena and I wake up nearly every night at twelve expecting another catastrophe, although I am sure it will not be caused by a mouse.

About four years ago I became entranced with a flower and fruit tree catalogue and although I managed to resist ordering a dwarf tree that would bear apples, peaches, and pears on the same plant, I did succumb to five dollars for two dwarf peach trees that

would produce large size peaches in profusion, of the most delicate and sweetest flavor. They required little room a garden and made excellent foliage. On of them died after drinking up about a thousand gallons of water and the other has been hanging onto life by the narrowest margin.

This year it has three anemic peaches and I have serious doubts that they will make it to maturity even if a hail storm does not get them. But just the same I have deep-seated objections to paying fifteen cents for a great big, rosy cheeked peach in the fruit store and if it takes the rest of my life I going to have some peaches off of a dwarf peach tree unless I loose my house and lot because of a mortgage caused by buying peach trees.

If things have worked out right, I am off on a combined fishing trip to Lake Travis near Austin and a visit to relatives in Austin where we once made our home.

This is being written ahead of time and I have caught some of the biggest fish I have ever seen and all of them between midnight and two o'clock in the morning. Not only have I dreamed of fish, but I have smelled them in my sleep and I have read a slew of sporting magazines telling in detail how to catch old tricky Blackie, the "big un" that has been hiding behind a big rock where the water boats around a bend.

He is one of the best educated fish in Lake Travis or in any other lake anywhere but I am going to outsmart him with a yellowheaded shannon splinner with a bacon rind on it. The

bottle of bacon rind cost me more than two pounds of the best grade bacon on the market and I have a selection of the most growsome looking things that flop, twist and screech that I am going to drag through the water if the shannon splinner with the bacon rind dessert on it does not suit Blackie.

If the sports magazines know anything at all about what they write about I'm going to be the fishiest smelling man in Texas as soon as I have a couple of hours at the resort. Personally I detest the odor and cleaning of fish and I'm sure I'm going to dislike myself.

When Dial Telephones were installed in a rural community, telephone company operators conducted an indoctrination program on the use of the use of the new equipment.

After a lengthy conversation with a sweet old lady, one operator felt she had finally accomplished her mission, but the subscriber announced she had another question.

"What number do I dial," she demanded, "when I want to listen in?" George Donaldson

NOW! A low-cost way to control JOHNSON Grass in Cotton

It's DOWPON—the economical grass killer. Instead of chopping or cultivating all season, just apply Dowpon to your fields—in the spring before planting, or in the fall, after harvest—and you'll be rid of tough problem grasses. That's because Dowpon, sprayed on the leaves, kills the whole grass plant, from the tops to the deepest roots—at a rock-bottom cost per acre. Also use selectively in some crops.

VOTE FOR INTEGRITY

ELECT REED QUILLIAM
STATE REPRESENTATIVE
(District 97, Place 1)
IN THE RUNOFF ELECTION
THIS SATURDAY, JUNE 4

WHERE I STAND

- Revision of our outmoded Texas Constitution by means of a Constitutional Convention composed of representative leading citizens.
- Adoption of the Hale-Aiken Report in full except that I would prefer delaying the proposed \$405 base salary increase until the third year of a teacher's service (thus not using much of the available money on "short time" teachers), and using the savings thus effected to increase the annual increments of career teachers.
- The right of every man to work without the necessity of joining a labor union to hold his job, and I would oppose any attempt to repeal the "Right to Work Act" in Texas.
- A much stronger "hot check law" to protect our businessmen.
- A strong "small loan" law, providing for a reasonable interest rate on small loans which would be strictly enforced, and eliminating all the "gimmicks" which allow the "loan sharks" to prey upon their victims.
- Meeting our responsibility to higher education, and especially Texas Tech, through higher appropriations.
- Establishment of a "Little Hoover Commission" study wastes and duplications in state government.
- A long range tax program which would eliminate the lobbyist influence in Austin. If the Legislature not have to look for new taxes every session, there would be little need for lobbyists, whose primary job is to get new taxes from being levied on the businesses of the present.
- Exemptions for cotton trailers from license tax.
- Elimination of the objectionable features of the automobile insurance law by legislative action. Insurance Commission does not take this action.
- Meeting our responsibility to those that need help, such as our mental patients, retarded children, and to our increasing aged population.
- Stronger juvenile laws for curbing juvenile delinquency, and improved facilities for rehabilitation of our offenders.
- Requiring all persons to carry liability insurance. Worst traffic offenders generally have no insurance (they damage others).

DO YOU AGREE THAT MEN'S NEIGHBORS ARE THE BEST JUDGES OF THEM?

THEN LOOK AT THESE RESULTS OF THE FIRST PRIMARY ELECTION FOR STATE REPRESENTATIVE

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

| Day | Book | Chapter | Verses |
|-----------|-----------|---------|--------|
| Sunday | Galatians | 5 | 1 |
| Monday | Psalms | 119 | 44-48 |
| Tuesday | I Peter | 2 | 13-20 |
| Wednesday | Romans | 8 | 31-39 |
| Thursday | Romans | 12 | 1-9 |
| Friday | Romans | 12 | 10-21 |
| Saturday | Romans | 15 | 1-7 |

Our future presidents and prime ministers — from what spiritual heritage shall they arise?

The ultimate giants of science and industry — what faith will they profess?

The fathers and mothers of our grandchildren and great-grandchildren — what convictions will be taught in their homes?

All this we are deciding today... in our churches... in our families.

For one generation can bequeath only to the next that which it, itself, possesses.

Our own religious life, our own determination to provide our children with thorough spiritual training, our own faithfulness in filling our churches with families — these positive purposes, expressed Sunday after Sunday, will mold TOMORROW'S LEADERS.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

AUTIN, Tex.—Gov. Price's money raising proposals that many of next year's tax battles will be fought on familiar terrain.

The program submitted by the governor to the State Finance Commission is the same as the one he submitted in 1959. Even the total goal for 1960 is the same.

The 1959 Legislature passed a bill aimed at raising \$185,000 in new money. Governor Price estimates 1961 new money needs at \$193,000,000. It is to cover an expected deficit of about \$68,800,000 and annual spending of \$82,527,000.

To raise this money, the governor suggests revising the operation franchise tax formula and increasing the liquor gross receipts tax on sales and the auto sales tax. He also suggests passing the bonded-property act (allowing the state to take over bonded bank accounts, property, etc.) and putting a tax on cigarettes sold on other bases.

Governor Daniel also told the commission of four other tax items which he said had been suggested by others.

These include:

- A 10 per cent increase on items in the Omnibus Bill except cigarettes, and franchise.
- A 1-cent-a-gallon increase in gasoline tax.
- A tax of 1 cent per thousand feet on the processing

of natural gas.

4. A 3 per cent tax on gross receipts of gas pipeline companies.

Governor Daniel said he knew his proposal would be criticized as "riding the same old horses." But he said the affected tax sources would not be taxed any heavier than those in neighboring and competing states.

Finance Commission is to begin committee work this month and hold another joint session of its 34 members — all leaders in their fields — in June.

TAX EXEMPT SALES JUMP some tax revenue through sale of tax-exempt cigarettes on military posts, reports State Comptroller Robert S. Calvert.

Calvert told the State Finance Commission that since the state tax increased to eight cents a pack last year, cigarette sales at federal installations have jumped almost a million packs a month.

He said sale of tax-exempt cigarettes in March, 1960, was up by 1,500,000 packs over what it was in March, 1959.

Military officials denied that non-taxed cigarettes selling privileges had been abused.

DEMO HOUSING PROBLEM—Austin hotel and motel facilities will be stretched beyond capacity when an estimated 5,000 come here June 14 for the State Democratic Convention.

SOUTHLAND STAR SIGNS

Darrell Jones, football and track star from Southland High School recently signed an athletic contract with West Texas State coach Jack Harris. Jones, who earlier said he was going to attend West Texas, could not sign until track season was completed.

Democratic Executive Committee has ruled that no room reservations will be made for persons living within 75 miles of the Capital City.

Also in preparation for the big day, SDEC has named a credentials committee whose job will be to decide which delegates shall be admitted.

Four counties had "rump" rival delegations to Austin. Governor Daniel, pooh-poohing the "rump" groups, said they were all too small to be a threat to the official delegations.

"There is more harmony in the Texas Democratic Party now than ever before," said the governor.

A Message from "Teague Drug"

SENATOR KEFAUVER PRAISES PHARMACISTS

On April 18th he said - quote - "The pharmacist only adds his profit on to what the manufacturer charges him. He is entitled to make a reasonable profit and is not the one to blame." End of exact quote.

THANK YOU SENATOR KEFAUVER.

We know you are now more familiar with drug economics than when you started your investigation. Soon, we hope, you will also learn that the ethical drug manufacturers are due much praise for their research developed new products that are helping us live a longer, healthier life. They too must make a profit.

WANT TO THANK OUR CUSTOMERS.

You never "criticized" us about the sensational newspaper headlines. You always had complete confidence in the fairness of our prescription prices. You know our policy is to add to the cost of ingredients only the amount of profit needed to operate a good pharmacy — no more.
