Unique For Slaton And Texas

One of the most unique establishments in all West Texas is almost a part of Slaton. It is better known in distant parts and is appreciated by some of the most exclusive and hard to please men who love and appreciate sports. . . . We are about to give you some of the details concerning the S-Bar Ranch Shooting Resort.

Seven miles northeast of Slaton the S-Bar Ranch is located on a part of the Smart Ranch and offers the hunter the same conditions that can be found only in the most isolated places.

The S-Bar was planned and built up by Mr. and Mrs. S. B. Wallace over the past five or six years and is now at its peak. Not only does it offer pheasant and quail hunting but the visitor may bring his own dog or be provided with a trained and obedient bird dog. 1,685 acres of land are in its borders covered with all kinds of native grasses to which have been added many acres planted in grain sorghums. These natural habitats of wild birds is allowed to grow high and thick and it takes the skill of a real hunter to get birds although the Wallaces have taken great pains to provide enough game to guarantee the limit for every hunter who cares to visit the S-Bar.

The full operation of the Lodge is under the direction of Mrs. Wallace who stresses the fact that safe hunting conditions are enforced. The number in each hunting party is limited and she assures her guests that altho it is easy and convenient to reach the S-Bar there is nothing tame about the pleasure after you reach the resort.

All birds killed at the S-Bar are fat, healthy and delicious to eat.

That such an enterprise is so near the door of Slaton gives our town something that is different, something that everyone of our citizens can point to with pride and something that promises to become of real value to the South Plains, to Texas and is now drawing hunters from all parts of our nation. The season has just begun and Mrs. Wallace reports several hunting parties have been entertained and reservations have been made by many prominent men from Texas and other states. A. M. J.

Emerson On Friendship

Our friendships hurry to short and poor conclusions, because we have made them a texture of wine and dreams, instead of the tough fiber of the human heart.

The laws of friendship are great, austere, and eternal, of one web with the laws of nature and morals. But we have aimed at a swift and petty benefit, to such a sudden sweetness. We snatch at the slowest fruit in all the garden of God, which many summers and many winters must ripen. We seek our friend, not sacredly, but with an adulterate passion which would appropriate him to ourselves.

A FRANK OPINION

"Mr. Chairman," said the speaker, "there are so many ribald interruptions that I can scarcely hear myself speak."

"Cheer up, Governor," called a voice from the rear of the audience; "you ain't missing much."

"Do you want your eggs turned over, Sir?" asked the waitress as she noticed that the customer was not eating his eggs "straight up."

"Yes," said the customer, "turn them over to the Museum of Natural History."

THE AMERICAN WAY

Punished Capital

The Sounding Board

(Editor's Note: Arthur Mayhew writes a column in "The Toreador," student newspaper at Texas Tech. Last week, the column, entitled "The Spastic," was devoted to the proposed wet-dry election in Slaton. No matter what side you are on, you undoubtedly will be interested in the column.)

Arthur Mayhew's column, "The Spastic," in the Texas Tech Toreador:

"These are times that try men's souls."

Sometimes credited to a colonial named Tom Paine, the above statement in actuality belongs to the grand people of Slaton, a town some 15 miles southeast of Lubbock.

Why? Those far-sighted people have recently filed a petition which if approved will force a wet-dry election in Lubbock County by November. This is welcome news to one who is tired of risking life and limb driving to Amarillo, Big Spring, and the far city of Bledsoe, New Mexico.

To us, confirmed drinkers, the election is none too soon. The people of Lubbock have too long had the ostrich approach. Prohibition is moral legislation and it failed on a nationwide scale many years ago; Lubbock remains a die-hard to the end.

Lubbock has been dry since around 1907; rather, dry in name only. One only has to drive over to northwest Lubbock on any given night, pull up in a driveway and get whatever beverage is desired, ala a drive-in.

For you the statistically minded, Lubbock is one of the three largest dry towns in the United States. The state of Mississippi is legally dry but bootleg liquor is sold with the Mississippi state tax on it. The state officials are not dumb.

Also, one national magazine last year stated that Lubbock had one of the best organized bootlegging rings in the world. It also said that our city had more churches and bootleggers than any other town its size in the United States.

The majority of the persons who vote Lubbock dry time after time leave the polls and go out to the country club and drink alcoholic beverages of various kinds.

A state liquor control board officer here once told us that Lubbock leads all districts in Texas for liquor violations. So, evidently, people are going to drink.

To give another example of Lubbock thinking, a local television station recently presented a national telecast honoring one of America's great consumers. The program was sponsored by

the National Brewers' Foundation, a group that promotes the interests of beer brewries in general.

Since the show, the TV station has received more than 200 letters and phone calls protesting the sponsor. However, less than half of the protesters even saw the show as protested by the wording of the letters.

One "irate" citizen said that he didn't approve of the whiskey ads; the ads concerned beer. Another wanted to know when they (the station) was going to have another show sponsored by beer, because she "didn't want her children to watch the show." Ye gods!

People can't shut out the outside world! Why make everyone a criminal by forcing them to buy from a bootlegger. A reputable liquor store operator will not sell to minors; a bootlegger will sell to any and everyone.

As if anyone doubted it, this column is a personal one. We would like to know what the general student body thinks. The majority of students probably come from wet counties and are no worse for it.

Let "The Spastic" know what you think. Send a note, post card

Slide Church In Achievement Program

DALLAS—The Slide Baptist Church near Lubbock and the Jerusalem Baptist Chapel of Hale Center have been named co-representatives in the District Nine Church Achievement program sponsored by the Baptist General Convention of Texas.

Both churches conducted programs with international influence of such merit that judges were unable to select a single representative, said district missions secretary Franklin E. Swanner.

The Slide Baptist Church will sponsor a young Korean girl

soon. We have a long, red cotton carpet waiting for just such an occasion. Ed.)

through four years of study at Mary Hardin-Baylor College, Belton, as one of their annual projects.

Divided into three categories, the Church Achievement Program is judged on projects designed to build a better church, community and world. The program is designed for churches in communities of 2,500 population or less, Latin American churches and missions.

The Slide Baptist Church won honorable mention in last year's Church Achievement Program and another District Nine church, the First Baptist Church of Halfway, won the top state award the previous year.

In addition to sponsoring the Korean girl, Miss Kyung Ok Yen as a student at Mary Hardin-Baylor, the Slide Baptist Church set up a long-range improvement plan, enacted 143 projects this year, and completed all but one (the church is still seeking

a minister of music to direct the church choir).

The Rev. Claude Cone is pastor of the Slide Baptist Church and Herbert Pinkert is chairman of the program's general programs committee.

Around and About Slaton

Tony Steffens, who had real good luck at the Buffalo Lakes fish kill, reports that a good part of the ones he gathered were only stunned and he had stocked a tank with them. So far, they seem to be as lively as they were before being knocked out. Many goldfish were among those picked up. A lot of folks tried to get to Buffalo Lakes when the kill was in progress but the crowd was so big some never did get near the lakes.

The M. M. Bruster new home on South 17th Street is nearing completion. It is being constructed of Italian pink stone from Colorado and promises to be one of the most attractive homes in Slaton. Mr. Bruster claims credit for the outside attractions he made a trade with his wife that he would leave the responsibility of the interior arrangements and decoration if she would consent to his selecting the materials and colors for the exterior.

Richard Edwards, James Vardy and Mike Davis are settled at Dorm 5 at Texas Tech as Freshmen and launched on the road to whip the world.

Mr. and Mrs. Dan Janso are now residents of Slaton. Mrs. Janso is a teacher in the public schools here and Mr. Janso is attending Tech. They are the parents of one child.

Mr. and Mrs. Silas Wilson, Paul Wilson and Mr. W. R. Wilson returned last week from Kentucky and other points where they visited W. R. Wilson's former home.

Mrs. W. R. Wilson returned last week from Cleburne where she attended a family reunion and visited relatives and friends.

The show must go on and the mails must be delivered according to tradition. Last week it seemed doubtful on several occasions for the mail in Slaton but the bedraggled postmen got the job done, a little tardy, but delivered just the same.

The early hail and storms must have ruined most of the flowers in Slaton for fall. At this time of the year the roses and chrysanthemums are not doing so well and its getting late for them to put on much of a show. Maybe next year. A. M. J.

Miller is shown here with Bob Huser of Huser Hatchery, dealer for all DeKalb farm products. Over 4,000 sorghum heads were shown at the fair with exhibitors from Kansas, Oklahoma, Nebraska, New Mexico and Texas in competition. The outstanding sample of Miller's was DeKalb D55-A, grown on dry land west of Slaton.

Southland Continues Winning Way; Defeats Patton Springs, 28-6

SOUTHLAND — Southland's Eagles turned the tables on Patton Springs last Friday night and defeated their opponents, 28-6.

The win preserved Southland's undefeated record, and sent them into the game this week against Guthrie with an outstanding record.

Southland kicked off to Patton Springs and held them for four downs and then moved the ball 40 yards to score in seven plays.

Darrell Jones scored from 20 yards out and Sammy Ellis scored the extra points on a keeper play.

The Eagles held on again after the kickoff, and, from the

20 yard line, Jones passed to Clinton Smith for the touchdown. The try for extra points was no good.

In the second quarter, Jones went sixty yards for the third Eagle score.

Patton Springs kicked off to start the second half. Jones scored from 50 yards away, and the extra point try was no good.

Patton Springs scored in the third quarter.

Patton Springs defeated Southland last year and the Eagles were determined to win this time.

This Friday, the Eagles play Guthrie at Southland. Game time is 8 P. M.

Texas Gov. Price Daniel will snip the silken ribbon that officially opens the fair, and Vice President Richard M. Nixon will speak briefly. The official party will then proceed to the General Exhibits Building where Vice President Nixon will press a button to open the second annual Texas International Trade Fair.

The fabled "Nikko Exhibition"

from Japan is another feature. The elaborate replica of the venerated Nikko Shrine near Tokyo is a "cultural treasure" of the Japanese, cost \$2½ million to build, and has been allowed outside Japan for the first time. The only other place in the U. S. it has been shown was at the Oregon Centennial Exposition this summer, where it was the featured attraction.

Another great new feature at the fair is the just completed \$2,000,000 Livestock Coliseum, which will house three big horse

shows during the fair. Over 900 entries from 25 states and Canada are listed for the horse shows.

Entertainment attractions at the fair this year include the McGuire Sisters in the "Star Light! Star Bright!" revue with Rowan and Martin in the Music Hall, the all-new 19th edition of "Ice Capades," the State Fair "Shower of Stars" series of free shows, and the million dollar Midway featuring "Dancing Waters."

A WONDERFUL NEW WORLD OF FORDS FOR 1960

FINEST FORDS
 OF A LIFETIME

This new Ford Galaxie, like all the new, beautifully proportioned 1960 Fords, is styled from a new viewpoint. Traditional automotive elegance combines with modern design in the style of a new decade!

In 1960, for the first time in history, your Ford Dealer presents not one, not two, but *three new lines* of Ford cars . . .

1. The 1960 Fords—The Finest Fords of a Lifetime, beautiful from any Point of View, worth more from every Point of Value!
2. The 1960 Falcon—The New-size Ford, the world's most experienced new car and the easiest car in the world to own!
3. The 1960 Thunderbird . . . The World's Most Wanted Car!

Introducing the New-Size Ford . . .
 the 1960 Ford *Falcon*

Meet the New-size Ford—the Falcon! Here's a car with plenty of room for six big adults and all their luggage. It's sized to handle and park like a "small" car . . . powered to pass and climb like a "big" car . . . and built like no other car for savings!

It gives you up to 30 miles per gallon on regular gas. Aluminized mufflers normally last twice as long as ordinary kinds. A Full-Flow oil filter lets you go 4,000 miles between oil changes. Even insurance can cost you less! And this Falcon is the world's most experienced new car. It was driven over every mile of numbered Federal Highway in EXPERIENCE RUN, U.S.A.—a grueling demonstration climaxing Ford's 5 years of development and testing.

The Falcon has the features that American car buyers expect. Its gearshift is on the steering column—not on the floor. Its engine is located up front for greater stability and safety. Best news of all is the Falcon's low, low price. See it at your Ford Dealer's . . . and see the difference!

Now you can see them—the Finest Fords of a Lifetime! Economy-minded Fairlanes. Big-value Fairlane 500's. Elegant Galaxies. A breath-taking new Sunliner convertible and a brand-new hard-top model, the flashing Starliner. Then there's a whole new world of Station Wagon Living, too. It all adds up to 15 glittering variations of the world's newest, most elegant styling theme!

And Ford sets the new trend in power. Ford's Thunderbird 292 V-8 and 352 V-8, like the famous Mileage Maker Six, bring a new world of smoother, hotter performance—on regular gas.

To top it all, the Finest Fords of a Lifetime are priced for savings. Ford is still priced to outvalue all comparable models of its major competitors.

Ford savings, however, only begin with a low price. You save still more with engines that thrive on regular gas and save up to a dollar on every tankful . . . a Full-Flow oil filter that lets you go 4,000 miles between oil changes . . . Diamond Lustre Finish that never needs waxing . . . aluminized mufflers that normally last twice as long as conventional types . . . new, safer, Truck Size brakes that are the biggest ever in Ford's history . . . and new soft-tread, Tyrex cord tires that run quieter, last longer.

In every way these are the Finest Fords of your Lifetime! See them at your Ford Dealer's!

Smith Leads Team
On Years Average

This year the Slaton Tigers have faced four opposing teams. They have lost three games and won one. The Tigers line up in the back field consists of five main players on offense. These boys have carried for a total of 1002 yards against the opponents. While the opponents have gained 987 yards against the Tigers, the Tigers have gained this yardage in 242 plays. Twenty-five of the plays were passes in which 5 were completed for a total of 88 yards.

The Tigers have had 4 passes intercepted. The opponents have gained their yardage in 175 plays and have made 897 yards rushing and 290 yards passing.

The Tigers have run a total of 80 plays per game, while the opponents have run an average of 44 plays per game. Now an average of 60 plays a game is good and this means that the back field is going to be going all the

time. The Tiger backfield has led in yardage gained per play by Giles Smith. He has carried the ball 59 times, gained 334 yards, and lost 10 yards. This gives him an average of 5.5 yards per carry.

He is followed close by David Bishop who has carried 75 times, gained 391 yards, and lost 15 yards. It gives him an average of 5.1 yards per carry.

Randy Sanders is next with 30 carries, 122 yards gained, and has lost 23 yards. His average is 3.3 yards per carry.

Bill Barry follows close with 26 carries for 93 yards gained, and 12 yards lost and a 3.03 yard average per play.

Gary Ward has carried only 16 times for 47 yards gained and 13 yards lost for an average of 2.01.

While the Tigers were running out their averages, the opponents weren't doing so bad themselves. They have managed to run out a 5.7 yard average per play. They have been forced to punt 12 times for an average of 30 yards per punt.

The Tigers have punted only 11 times for an average of 30 yards per punt. In four games the Tigers have racked up 58 first downs. The place where the team is hurting the most is on fumbles. They have fumbled 21 times and recovered only 10 of them. The Tigers still have a winning ball club and all they have to do to prove it is to get out there and really try and want to win.

Choraleers Elected Officers for 1959-60
 Lola Hopkins was elected Choral president for the year 1959-1960. The following officers are: Pam Henry, vice president; Maxine Moore, secretary-treasurer; Dana Heaton, reporter; Betty Johnson, music librarian. Mrs. M. G. Davis is the director.

ON DISPLAY TODAY!

The 1960 Fords go on display today at Slaton Motor Company, 9th and Lynn. This 1960 Ford Galaxie Town Victoria shares the all-new styling characteristics of the other Ford models, yet bears unmistakable resemblance to the elegant Thunderbird profile. The new Galaxie is one inch lower than the 1959 model, but has more interior room for six big persons than ever before. The Galaxie also is available as a two or four door sedan. All Fords for 1960 have the slim-line, forward sloping front roof pillar that eliminates the "dog leg" for easier entry.

Wanted... Your Problems

Well kids, that's what we said. Out new counselor is just waiting for you. Mrs. Wilkinson's vivacious personality and winning way makes her just what we need at S. H. S.
Her work is classified into three general groups: adaptive, distributive, and adjustive counseling. The adaptive counseling is designed to help you choose as early as possible, the courses which would be practical in our community. Mrs. Wilkinson hopes in the near future to be able to help high school students secure jobs in Slaton. The second group is distributive and it is to help you decide on your educational goals and aims. There is a file on college material containing requirements, types of colleges, catalogs and tuition. There is also a file for non-college students on vocational information. Mrs. Wilkinson hopes to expand the tests this year and work with the parents, teachers, and students in their interpretation. Eventually she will have a file on the grades of every high school student, as well as personal data. Mrs. Wilkinson also hopes to counsel with the eighth grade students and their parents in preparation toward their high school work. The third and last group is adjustive counseling. This is to help you with your emotional problems, no matter how personal they may be. Mrs. Wilkinson will keep what you confide to her in strictest confidence. —Tiger's Cage

DESTINATION ASSURED!

In a moment the letter will be "on its way".
The sender has no doubt concerning its destiny — it is in safe hands.

¶ How can there be such certainty? Because, again and again "Uncle Sam" has proven his *capability* and *dependability*.

¶ "Turning the letter loose" is a commitment, an act of trust, an expression of faith. How simple; yet how sure!

¶ But there is one who is greater than "Uncle Sam"; greater than all. One who is capable of shaping the life and destiny of every human being. One therefore, who is worthy of the trust of all. *His name is Jesus.*

¶ Millions testify of the greatness of His love and power; of the hope that "maketh not ashamed"; of "the peace that passeth understanding".

¶ Do you know these things? You can know them: turn the "letter loose — let go, and let God".

¶ "Commit thy way unto the Lord; trust also in Him, and He shall bring it to pass". Psalm 37:5 Find your way to His house next Lord's day.

"Other foundation can no man lay than that is laid, which is Jesus Christ" 1 Corinthians 3:11

JUST TALK
BY A. M. J.

Another big problem has been added to my burden since I undertook several weeks ago to give advice to those afflicted with love, family and pressure can troubles. The latest one comes from Mrs. Bobby Edmondson who claims that her son, Bobby, Jr. is looking for a home for two very smart, very graceful kittens. Now most anyone knows that a boy the age of Bobby is not looking for a home for his kittens, in fact it is most likely that Bobby would put up a terrific howl should anyone try to provide any such home but I'll bet odds that Mrs. Edmondson would slip a couple of kittens to any one who is in serious need of kittens and if there should occur a sudden shortage of kittens any where in the area Mrs. Pearl Pinckert might fill in the demand. The last time I checked up she had thirteen.

Walt Townsend, better known as "Oklahoma," in reminiscing about his early experiences, said that one of his first customers for a shave was a man who had lost all of his lower teeth and did not wear false teeth. His chin slid around all over his face and "Oklahoma" admits that he did not do a very good job. After paying him the man got up, stepped over and into the next chair, and told a barber, of longer experience, to give him another shave.

"Oklahoma" tries to entertain his customers the best he can but complains that the old gag about barbers talking too much is not true—it's the folks who come into the barbershop who gab too much. It's terrible, some of the gab that goes on in a barber shop. Probably nearly as spicy as beauty parlor gossip.

In a recent clean-up, paint-up and throw away campaign at our house it nearly broke my heart to see some of my favorite old keepsakes go to the trash pile. A pair of rubber wading boots, that I used to wear when I fished in Colorado, some hair restorer that had a strong pungent odor like the flea soap we use on the dogs to keep the fleas happy, a twenty five dollar electric razor, that I bought twenty-five years ago, that still runs but sounds like a gas powered lawn mower chewing up a dog tail, a pocket knife equipped with a screw driver, nut cracker and a file all gummed up with some glue that ran on it in the tool box where I left them six years ago, and forty-two bottles of medicine and pills with labels on the bottles and boxes so faded that it was impossible to tell how much or how many to take at any given time. I'll bet that those things cost me over five hundred dollars all put together, and all represented some great hopes and mild disappointments in my past. The hair restorer came in handy when the bone started to show through my thigh, the boots were supposed to lead me to a mammoth trout, the knife was a donation from me to the genius who thought up such a combination and I am glad to say I have forgotten most of the ills I overcome in spite of the doctors who prescribed them and the druggist who supplied the obnoxious portions.

Never one to hide my head under a basket, in fact I seldom wear a hat, I am always quick to lay claim to my accomplishments of my relatives. Accordingly I feel that I must tell about the honor claimed by my little niece, four years old, as related by letter.

Her name is Jeanie, she lives in New Orleans and is an enthusiastic attendant at kindergarten. Recently she came home displaying a big gold star which had been awarded her at the school. When her mother inquired concerning the accomplishment for which she had distinguished herself it was for being the best skipper in the entire school. The great honor is being reflected all down the line.

Mrs. F. T. Longtin, who specializes in worrying with the young fry said that not long ago when she instructed a group of little ones to sit in a circle on the floor on a rug, the son of Dr. W. E. Payne remained seated in a chair and sullenly glared at her. When she out glared him and insisted on his joining the others he willingly jumped down and remarked "Aint I a stinker."

Judge Smith, who returned last week from a fishing trip and was ready to go on another just before the rains started, reports that Mrs. Hack Lasater is all a-twitter, has lost all her interest in new fall and winter clothes, has a far away look in her eye and will bring up the subject of fish when customers come into the hardware store. Any conversation will lead right up to the fact that she caught a ten pound catfish last week at Possum Kingdom Lake. It is dangerous to show any lack of interest in the subject and one should always ask for the full details on how the fish was landed.

Mr. and Mrs. W. A. Carnes attended the funeral Saturday in Jacksonville, Texas, of Mrs. Carnes' grandmother, Mrs. F. M. Carnes, 92. She passed away early Friday at Baptist Rest Haven in Houston. Mr. Carnes is the high school science teacher.

Mr. and Mrs. Dan Liles returned recently from Vernon, Tex. where they attended the funeral of Mr. Liles' brother M. V. Liles. Mr. Liles died suddenly while on a fishing trip.

Sue Wilson of Slaton has been named to the cast of the North Texas State College Supper Theatre production, "Gay Nineties Revisited," Oct. 8 and 9.

Miss Wilson, daughter of Mr. and Mrs. Harold Wilson, 755 S. 21st, is a senior education major.

The Texas-Oklahoma game will be telecast and six South-west Conference games will be broadcast this weekend by the Humble Company.

Mr. and Mrs. Elmer Nelson have returned from two trips, one to California to see a niece married and another to Woodward, Oklahoma.

Mr. and Mrs. C. E. Upham recently returned from a motor trip to California.

STRENGTH FOR THE WEEK

The Source of Temptation
Then the Lord God said to the woman, "What is this that you have done?" The woman said, "The serpent beguiled me, and I ate." Gen. 3:13.

In our meditation for last week we emphasized the fact that temptation is a universal experience. No one, not even the saintliest person is exempt.

What then is the source of temptation? From whence does it come? The Bible does not leave us in doubt regarding this. Satan is the real author of all temptation. At the very dawn of the human race the tempter appeared and, by his beguilements, brought ruin upon the whole human race. And every effort that God has made to restore mankind was resisted by Satan with all his might. When Jesus, the Son of Man, appeared the devil summoned all his subtlety and skill and he tried every trick in his bag in order to defeat the purpose of the Redeemer. Even though the devil was defeated in the battle, he has not ceased his attacks upon Christ's followers.

Satan never reveals his real nature in the temptations with which he seeks to beguile and deceive the Christians. He comes to us under cover of very attractive allurements. Sometimes it is through our own desires and lusts, and he subtly tries to make us believe that it is always right to follow our own inclinations. Be yourself, follow your own desires, indulge your appetites, look out for yourself.

—that is the way you enjoy life. Such a philosophy scorns the idea of sacrifice and labor for others. Sometimes temptation comes to us through our associates and even our dearest friends. And always the glitter and glory and gayety of the world, like a powerful magnet, draws the hearts of the Christians. The forms of temptations are many, but the author is always the same and his purpose is ever the same, namely to rob us of God.

Dear Lord, help us that Satan may not prevail over us, and help us not only to gain but to hold the victory. Amen.

Mr. and Mrs. J. A. Smith Share Their Vacation Trip With Slatonite Readers

Mr. and Mrs. J. A. Smith have just returned from a 4500 mile trip through the mountain country of southeastern United States. They visited with Mrs. H. S. Crews at Greenville, Texas their first night out—going then to Memphis via Pine Bluff, Ark. They left Memphis early and drove to Brownsville, Tenn. for breakfast at "Ye Old Tavern," one of the most unique eating places they saw on the whole trip. The walls were hung with old wooden wear-bread bowls, bread boards, rolling pins etc. These were all extremely large pieces—one rolling pin at least 24 inches long. At Jackson, Tenn. they visited the Casey Jones Museum which was located in the home he was living in at the time of his death. The furniture was all as it had been when he lived there. They crossed the beautiful Kentucky Lake on their way to Nashville where they went through the Capitol Building and on the Hermitage, the home of Andrew Jackson. This large home is set in the center of a beautiful estate. They drove on through many tobacco fields to Glasgow, Ky. where they spent the night.

At Burkesville, Ky. they took a scenic drive to the top of the mountain overlooking the city. There they had breakfast at the Alpine Restaurant, a glass enclosed building, which allowed a view of the surrounding country. They drove on to the Cumberland Falls State Park. There had been a lot of rain and the falls were running full, making a beautiful sight and sound. That night was spent in Cumberland.

Leaving Cumberland they drove north through the Cumberland Mts. on the eastern edge of Ky. through the great coal mining districts to Williamson, W. Va. Thirty miles an hour was good time over this road which went over, under and around

the mountains. The houses in the mining towns were built almost on the edge of the highways, with the mts. rising directly behind them. The people had to walk on the road for there was no place else to walk. At Williamson they had a high view over one of the large railroad yards filled with cars of coal as far as one could see. They arrived in Charlestown, W. Va. in time to visit the Capitol Building there. It is built in an Italian style of Marble of all colors and sits high above the Kanawha River, a most beautiful setting.

The trip went on then over the W. Va. Turnpike through the most beautiful country of mountains and trees that were beginning to put on their fall colors, and onto the Blue Ridge Parkway. This part of the drive, through the Blue Ridge Mts. was really the highlight of the trip. The road was a two lane road on top of the ridge but had many overlook points built so one could stop and view the great panorama below them. This Parkway, which formerly ended at Asheville, N. C. now goes on West through the Smokey Mt. National Park. The drive from Mt. Ashville and through the Park was spectacular. One particular place of beauty was Maggie's Valley, known as the most photographed valley in the U.S. They went through an Indian Reservation up and over a 5000 foot mountain and then down and around to 732 feet where the Indian town and school was located. The Smiths spent several hours at Gatlinburg Tenn. a tourists haven. The many shops there specialize in Native handicrafts of the surrounding states.

The next stop was Chamblee, Ga. north of Atlanta, where they visited with Mr. and Mrs. Robert E. Coshun, Mrs. Smith's nephew. The Coshuns had recently moved there from Kenosha, Wis. Mr. Coshun is Assis-

tant General Manager of the Simmons plant at Atlanta. Their home is set in a wooded area with a creek running through their property, and after the rains they said one could hear the creek rolling along over the rocks. Quite a contrast to West Texas. While there they visited many of the historical points in and around Atlanta Kennesaw Mt. State Park the scene of the Great Battle of Kennesaw Mt. during the Civil War Stone Mt. a great bald mt. of Solid granite the largest piece of exposed granite in the world. The State of Ga. is now carving a Memorial on the side of this great rock. This is a very difficult task as the mt. is domed shape and completely bare of all foliage so the workers have to be suspended from the top by cables. Another place of interest was the Cyclorama a painting 50 feet high and 400 feet in circumference. A building was especially built to house this round painting. It depicts the Battle of Atlanta. The foreground has been built in to give it a great depth and it is impossible to tell where the painting stops and the foreground starts.

After leaving Atlanta the

Smiths went to Lynchburg, Tenn. driving around the large Guntersville Lake which is a part of the TVA system. At Lynchburg they went through the Jack Daniels Distillery one of the oldest in the U.S. Until recently is worked on a very small scale by one man but now it has enlarged and has become a great industry. The trip through this place showed the making of the product from the weighing of the ingredients to the boiling and packaging and shipping. Although this whiskey is made there not a drop of it can be sold as the county is dry. They then visited Mr. Smith's nephew and family, Mr. and Mrs. George Friend, at Arab, Ala. Mr. Friend is with the Missile Laboratory at the Red Stone Arsenal at Huntsville, Ala.

The trip back lead through Birmingham, Ala., Jackson and Natchez, Miss., Alexandria, La., to Bellville, Texas where they visited with Mr. Smith's brother and family, the W. J. Smiths—then to Houston to visit the E. W. Ottmers and the C. Z. Rileys—a niece of Mr. Smith. The last stop was at Ganado where they visited with Mr. and Mrs. Geo. T. Smith, parents of Mr. Smith.

Toughest Driver in Town!

Careful Percy McFidget—who would believe that he's harder on his car than anybody in town? Why, he never goes over 35 or takes a trip over 10 miles!

Actually this kind of driving is very hard on a car engine because the engine seldom gets "warmed up" sufficiently. The oil tends to be sluggish. Sludge forms in the crankcase. The way is open for dangerous wear and corrosion.

But there's something you can do about this, to protect your motor. If you have to do a lot of start-and-stop driving at low speeds, as most of us do, use Trop-Artic Motor Oil. It flows fast... resists sludge formation... helps your car run better, longer. Get Trop-Artic Motor Oil at any station where you see the Phillips 66 Shield.

1959 TIGER STARTING LINE-UP

Tigers Settle For 14-14 Tie With Crosbyton In Mud-Soaked Contest

The Slaton Tigers scored two touchdowns in the last two minutes of the first quarter, but had to be satisfied with a 14-14 tie with the Crosbyton Chiefs last Friday night. The game was played in a steady rain.

Crosbyton received the kickoff on their own five and returned the ball to the 30. Four plays had picked up a first down on the Slaton 46. Two stabs at the line had moved the ball to the Slaton 35 yard line; from that point fullback David Edwards moved for 7 yards over tackle, and over center for one yard. The next play was held for no gain and the ball went over on downs.

The Tigers failed to gain in three plays and were forced to kick. The ball rolled dead on the Chief 25 yard line for a 38 yard kick. The first play brought a fumble which Slaton recovered on the 25. Barry was held for no gain. Bishop battered the line

for 13 yards in two carries and a first down on the 15 yard line. Bishop carried over tackle for 5 yards. Smith moved over tackle for 3 yards and two more plays carried to the first down on the 7 yard line.

Bishop was held for no gain on an off tackle play. Smith carried for 6 yards over tackle and Bishop broke over center for the touchdown. An off tackle play carried for the extra point.

On the first play after the kickoff Crosbyton fumbled and Slaton recovered on the Chief's 13 yard line. Barry made 5 over left tackle. Bishop went for 3 yards over center and Barry made a first down on the 3 yard line. Smith carried over left tackle for the TD. An end run for the extra point was no good.

Both Slaton TD's came in the last 1:35 of the first quarter. Crosbyton drove to the Slaton 5 after taking the ball on downs midway in the second quarter.

The drive started on the Crosbyton 36 yard line. Eighteen plays were run during the drive. Fullback David Edwards carried 10 of these for a total of 28 yards. With a first down on the 5 yard line three tries at the line lost 3 yards and a pass was incomplete. Slaton ran the clock out to end the first half.

The second half was played in midfield except for two drives mustered by the Chiefs. Crosbyton recovered a fumble on their own 30 yard line and drove for a TD, the big play being a pass which covered 27 yards and set

up a first down on the 5 yard line. Edwards went around left end for the TD. An attempted end run was no good for the point.

The following touchdown was recovered by Crosbyton on the Slaton 30 yard line. It took only four plays for the Chiefs to score. Edwards went around left end for the last ten yards and the TD. The try for the extra point was good and the score stood 14-14.

The Tigers play the Lockney Longhorns Friday night at Lockney.

THERE'S A DIFFERENCE
A canny Maine farmer who made it a rule to think before speaking, was approached by a stranger one day and asked, "How much is that prize Jersey heifer of yours worth?"

The farmer thought a moment, then asked, "Are you the tax assessor, or has she been killed by a train?"

Whether you are a tax assessor, or a train engineer, or what have you, we hope that you will come in to see us. We hope that your friends will come in and tell us that you told them about our good service, and those PHILLIPS 66 products.
