

# Community Thanksgiving Worship Service - 9 a. m. - First Presbyterian Church

## Worth While All The While! On the Rails

**JUNE SPIKES**  
**AND THERE:**  
It is that time of year when everyone is out to give thanks for the things we should be thankful for all the time here's hoping everyone has a very enjoyable Thanksgiving Holiday . . .

The Slaton Division has an interesting Thanksgiving which they can be proud of for outstanding performance during the year, 1962, the Slaton Division has been awarded the Division Safety Trophy. The trophy will be on display in the Division Office as soon as the engine is completed, so that the trophy drop by the Division Office. And the Division Building is also a little fresh paint on the outside. Guess we have to thank Slaton since our district is really getting the City Hall and the other across from the

## VACATIONS AND TRIPS

I am sure there will be a number of trips made this week-end since it is Thanksgiving so let's don't forget to take our safety with us. That goes for me too as we are planning on spending Thanksgiving Day in Amarillo with relatives. I'm already hungry just thinking about it!

Enginemen O. E. Lankford and R. W. Lamb will enjoy Thanksgiving away from home on their annual hunting trip on the J. W. White Ranch at Mason, Texas. This group of men sponsor a group of boys from an orphanage near San Antonio so these boys can hunt for a day and then they will fix a dinner for them with all the trimmings. That certainly sounds like a good way to give "Thanks". Dispatcher and Mrs. R. C. Samner and "Duchess" (their Siamese cat) made a weekend trip to El Paso last weekend and report a very enjoyable trip . . . My mother, Mrs. K. C. Scott drove to Amarillo last week with Mrs. Fred Stottlemire, widow of Engineer, where she spent a week with her two sisters and Mrs. Stottlemire continued her trip onto Oklahoma . . . Conductors A. A. Traueck and C. J. Felty were also two of the lucky ones to get to make a hunting trip . . . Mrs. D. R. Copeland, wife of Switchman Copeland, is planning a trip to her native country of England.

## VISITORS IN SANTA FE HOMES:

Airman 2/c Keith Carter with his wife and daughter, Sandra, are visiting in the home of Keith's parents, Division Office Clerks Bob and Margaret Carter. Keith is stopping off for a visit on his way to Masawa Air Base, Japan and will leave San Francisco December 8th, while his wife and daughter will extend their visit. Won't it be fun for the Carters having their granddaughter with them for Christmas!

## SICK LIST:

Mighty happy to report Engineman C. E. Corley is supposed to be moved home to Slaton this weekend from St. Anthony's Hospital in Amarillo . . . Brakeman C. F. Bradford is on leave of absence due to illness and hope he will be back to work real soon.

## SYMPATHY

Our deepest sympathy is extended to family and friends of furloughed Car Department Employee J. E. Dillard who passed away in Slaton . . . also

hired to complete the department — Don G. Kelly of Brownfield has been employed as chainman but as yet Don hasn't moved his family to Slaton; however, T. L. Beach has transferred from the GC to work as chainman here and has already moved his family to Slaton where they are at home at 835 South 15th Street. Sorry to see the Pearsons and Townsends leave, but happy to welcome all these new faces to the Slaton Division and to Slaton.

A new employee in the Mechanical Department has been added to fill the vacancy left by Car Man Carlton Scroggins — he is Car Man W. O. McClain from Cleburne, Texas. The Trainmaster's Office has been adding some new employees also — three new student brakemen-switchemen have been employed — Larry M. Vereen of Lubbock, Robert V. Waggoner of San Angelo and Bill Barry, son of Conductor and Mrs. M. D. Barry of Slaton. The welcome mat is really out for all of these new rail hands. Mr. R. D. Shelton, Assistant to the President, stopped off for a short visit at Slaton last week and was accompanied by his son, Jimmy, who will be the new car secretary on Assistant General Manager J. H. Blake's car in Amarillo. I'm sure a lot of you old Slatonites will remember the Sheltons, who are at home in Chicago at the present time.

## Training Meet Is Attended by Scouts

Seven Boy Scouts from Troop 125 attended the Junior Training meeting Saturday at the Tech Coliseum in Lubbock. The school was conducted for patrol leaders, scribes and scoutmasters. Lunch was served at the Tech cafeteria, and the Scouts then went to see the Tech-Colorado ballgame at Jones Stadium.

## Cotton Classing Activity Is Up; Receipts Heavy Within County

W. K. Palmer, officer-in-charge, has reported classing activities are beginning to look normal for this time of the year at the Lubbock Classing Office. Daily sample receipts are running over 20,000 samples per day. A full shift of forty classers has been in operation for the past week. A double shift will be started on November 19. The Lubbock office classed 93,000 samples for the week ending November 16. This brought the total classed at Lubbock to 231,400 and the office had a carry-over of 20,000 samples. The Lamesa office reported 12,000 samples classed for the week. This brought the total classed for the year to 53,000 samples, with a carry-over of 2,000 samples. The Brownfield office classed 22,200 samples for the week. This gave the Brownfield office a total of 69,800 samples for the year. A carry-over of 8,000 samples was reported by that office.

The three classing offices had classed a total of 693,400 samples through November 16, 1961. A total carry-over of 33,900 samples was reported at that time. Light Spotted grades accounted for one-half of the samples classed. Strict Low Middling and Middling Light Spotted were the predominant grades with percentages of 30 and 39 percent. Strict Low Middling accounted for 10 percent. Eleven percent of the samples classed were Middling. The average staple length was slightly shorter for the week compared with the previous week. For the week of November 9 it was 30.2 thirty-seconds of an inch, this past week it was 30.1 thirty-seconds of an inch. The predominant staple was 15/16 with 57 percent

to the family and friends of Extra Gang Foreman H. N. Hindman who passed away in the Santa Fe Hospital at Temple, November 10th.

## Tigers End Play in Tie

The Slaton Tigers ended their football season play Friday night in identical manner in which they started it — with a tie!

## Training Meet Is Attended by Scouts

Seven Boy Scouts from Troop 125 attended the Junior Training meeting Saturday at the Tech Coliseum in Lubbock. The school was conducted for patrol leaders, scribes and scoutmasters. Lunch was served at the Tech cafeteria, and the Scouts then went to see the Tech-Colorado ballgame at Jones Stadium.

Bluebonnet Club, 2:30 p.m.

## Baker, Hennington Are Season Award Champs

Baker and Hennington each will be given a pair of tickets to the Cotton Bowl New Year game.

## Slaton C. of C. Meet Postponed

Regular Slaton Chamber of Commerce meeting, set for the third Tuesday evening of each month, has been postponed this month until Tuesday night of next week.

## Hard Freeze Is Story of Week

Clearing weather Tuesday is permitting cotton again to make its trek from field to gin, the pulling temporarily hindered over the weekend by light snow flurries in some areas. Light snow fell Sunday night and Monday in the Slaton area, with none remaining on the ground. Heavier fall commenced immediately north of Lubbock, with several inches told from the Plainview vicinity northward.

## Key Personnel for Disaster Duty Are Designated at Mercy Hospital

In a further move to speed and facilitate movement of patients in case of disaster of any type in Slaton, key personnel have been designated for handling flow of traffic at Mercy Hospital at any time the Civil Defense organization is called into duty.

## Livestock Survey Being Conducted On Rural Routes

Rural mail carriers from the Slaton postoffice are this week distributing livestock survey cards along their routes, Postmaster Barry Ford reports.

## ONE FIRE RUN

One fire call was answered over the week-end in Slaton, with the department extinguishing a cotton trailer fire Friday afternoon near the Co-op Gin. Light damage was reported.

## Slaton C. of C. Meet Postponed

# EDITORIALLY SPEAKING

## Observations and Potpourri

To those who tire of our generalizations in this column, our discussion of possibly far-fetched principles, our concern of national trends . . . to these good readers we bow, adding a thought tossed our way by Bob Wear, our good friend and public speaker extraordinary from up Canyon way:

We must look into our own hearts as individuals for the qualities we would have in government, for this country, being "of and for" the people, is a government of individuals.

If we would have morality in government — be moral. If we would have honesty — be honest.

You can always spot a well-informed man. His views are usually the same as yours!

It's in the Good Book:  
"In all labor there is profit." — Proverbs 14:23

Hats off to our good neighbor whose son asks for the garage keys and comes out with the lawn mower!

Our son who majors in agronomy is on his way . . . he declaims that agriculture is something like farming, only farming is doing it!

### The Meanings of Materialism

There is a constant stream of critics of our present "way of life" saying that we Americans are too materialistic, that we are soft, that we take the easy way out of everything.

And there is some truth in the charge. There is a rash of hotel and motel building at present, with these new structures designed to take the visitor from his comfortable automobile to his comfortable room with the least possible amount of effort, via drive-in registration windows, front door ramps, etc.

New homes are built with every labor saving device, including automatic, radio guided lawn mowers and automatic lawn sprinklers which take all effort out of yard work. The housewife without servants has an array of electrical gadgets which take the work out of housework.

Driving an automobile is effortless any more, with power brakes, power steering, power seat lifts, automatic shifts — even power window button.

We have even progressed to electric tooth brushes, because it is too much effort to work a tooth brush the old fashioned way. We have had electric shoe shine outfits, electric razors and other labor saving devices for a long time.

We Americans have long eagerly sought the "easier way" to do things, and in doing this have become the most inventive nation in the world.

Of course, all this easy way of life does not come without some accompanying drawbacks. Physical condition is poor, generally, among our people, and especially among the younger generation. A high percentage of those examined for military service cannot pass the physical.

In Perryton, a survey of our sixth graders reveal that at the start of a school year, most are woefully weak in muscle strength, and we are fortunate to have a school system that is trying to put muscle back on the kids through a sound physical education program.

It is readily seen that soft living deteriorates us physically. That is not enough to cause serious concern.

If soft living is deteriorating us morally and spiritually, we ought to get concerned about it.

It makes us nauseated to see news pictures of college students, some of them at our own University of Texas, carrying placards around urging capitulation to Russia on the "better Red than dead" theme.

It bothers us to learn of the widespread, and accepted practice, that one-third of American boys of Boy Scout age have never been inside a church.

It bothers us to learn of the widespread, and accepted practice, of cheating in college classrooms. It bothers us when the television quiz show scandals broke a few years ago and far too many people reacted with the remark: "They did nothing really wrong — they just got caught."

It is nice to live comfortably. It is a goal that all of us seek — to procure the "better things of life" for us and our family.

But we wonder if in doing so we are giving up something much more important — the ability to sacrifice, do without, endure discomfort, stand by principles despite attack, live by a moral code that has not changed with the times.

There is a great deal of difference between easy living and softness. — Ochiltree County Herald

### Noted Director To Judge Entries In Band Contest

The director of Texas Christian University's "Show Window Band" will be at Texas Tech Tuesday (Nov. 20) to judge the 37 area high school bands, including the Slaton band, in the Interscholastic League marching contest. He is James A. Jacobsen, who has been at TCU since 1955 as director of the marching, symphonic and stage bands. He will serve on the panel of judges with Frank Pierson of Iowa State University and an unannounced judge.

The colorful halftime performances will begin at 1 p.m. in Jones Stadium on the Tech campus.

Jacobsen's band has appeared on national television a number

of times, including telecasts of the Cotton Bowl halftime shows in 1956, 1957 and 1959.

In constant demand as a guest conductor and judge, he has judged all-state band festivals in Oklahoma, Louisiana, California, Arkansas and Arizona and was adjudicator at the famous Tri-State Band Festival.

Jacobsen was marching band clinician for the Texas Bandmasters Association annual convention, which is the only time a Texas bandmaster has been invited to head this part of the clinic.

Everything for the office. The Slatonite.

#### IF YOUR PLATES DON'T FIT GET "CUSHION" NOW

A new Plastic Jelly. Apply "Cushion" from side to dry plates. Place in mouth and bite down gently. "Cushion" flows and molds to shape of gums. "Cushion" expands and forms soft, moist, in place that holds for weeks. To remove just peel out and apply more. Plates can be washed and soaked without damage. Try it.

3 mo. supply only \$1.49 At all drug stores.

## Notes from Neighbors: Events and Opinion

From the Exchanges of the Slatonite

### Reaction to the Times . . .

A friend of mine, who visited in Houston several days ago, surprised me. She mentioned that it was almost impossible to find any firearms or ammunition for sale. Residents of the town had depleted the supplies from sporting goods and hardware stores. Even antique weapons and curios were in demand.

Many people had also worked out plans for evacuating the city on a moment's notice.

She told her relatives in the Panhandle she might be dropping in anytime for an indefinite stay. She might as well stay home as I understand one of the missiles was pointed toward the Amarillo Air Force Base.

Now would be a good time to limber up the old knees and start doing a little praying and I don't mean that facetiously either. — Cecil Waggoner in The Claude News

### On Being Counted . . .

Disgusting to us is the refusal of persons to take part in politics because they are afraid they might lose a 5 cent sale. They imagine that by taking no side, they will please all sides. The exact opposite is true. Instead of pleasing all sides, they please no sides.

Politics is no more controversial than religion. We would all hold in contempt the person who refused to align himself with a church with the excuse, "If I join the Presbyterians, it might cost me the Church of Christ trade, and if I join the Church of Christ, it might cost me the Presbyterian trade — so I will join no church and get both the Church of Christ and Presbyterianian trade.

How much business do you suppose Grady Briggs ever lost because of his boldness in proclaiming his political affiliation? NOT ONE RED CENT!

Democrats and Republicans alike respect Grady's political views. In fact, we trade with him just because he isn't afraid to stand up for his convictions. Of course, there is another reason why we patronize Grady. Whether we're looking for a tail light for a 1925 Maxwell or an atomic warhead, we can be pretty sure of finding it at Briggs Hardware. It may take Mrs. Briggs a few minutes to find it — but she'll find it, you may be sure! — Tulia Herald

### Remember the Old Remedies?

Readers of this column will recall that we have frequently referred to some of the concoctions frequently used by Mexican curanderos, some of which have been approved and adopted by the American medical profession.

Some of us recall the tiny bag of asafoetida around our neck to ward off disease, dousing with sugar, turpentine and kerosene as a remedy for croup and perhaps a spring tonic of wild cherry tree bark and mullein to cleanse the blood.

A resident of Sweeney, Texas is the owner of one of the first medical journals printed in the United States — "Gunn's Domestic Medicine." Here is the remedy for "putrid sore throat":

"Take Cayenne pepper, in powder, two tablespoonfuls with one teaspoon of salt; put both into half pint of boiling water; let stand for one hour and strain liquid off. Next put this liquid into a half pint of strained vinegar and warm it over a fire. Of this medicine give two tablespoonfuls every half hour."

It was further noted, "If the weakness is very considerable, add one fourth whiskey to the concoction, and give wine or toddy made with spirits and sweetened with sugar to support the system."

Recommendations for those with asthma were:

"Arise early and take active exercise, particularly by ascending to the highest and steepest hills and mountains, where they can breathe the pure mountain breeze. Always arise from a hard bed instead of a soft one, and swallow a raw egg before walking."

The author also described the treatment of dropsy as recommended by his fellow colleague, Dr. William Mead.

"Take two or three handfuls of rusty nails and put them in a half gallon of good apple vinegar; boil down to a quart and strain it well through a linen cloth; add the vinegar to a quart of molasses, a handful of Chamomile flowers, and a handful of lavender from the garden. Stew this mixture down to a quart. Dose: A large tablespoonful, to be increased gradually to one and one half." — Raymondville Chronicle

### Doug Meador Says . . .

Haughty summer is suddenly indignant at the tures of the winter wind and there is a rustle in the leaves like a taffeta petticoat hurrying in the darkness. The brash romancer will wait at the melancholy gate of the whispered stirring of frosty grass brings a surrender.

### Take a Lesson from the Rattler . . .

This rattlesnake's belly was bigger than his eyes — and he got caught last week trying to go through a 1-inch mesh fence.

With eight rattles, he was still alive when Frank V. Hurd found him on the Hurd place in East Sweden.

"He was stuck in the fence and couldn't strike very far," Hurd said. "I killed him with a .22."

The snake was trying to get into Hurd's pheasant pen. — Crosbyton Review

### Sounds like Fun . . .

The Brady School Board Tuesday night declared a school holiday for Friday, Nov. 16, the opening of the deer season.

The opening of hunting season is traditionally a school holiday in Fredericksburg — Brady Herald

### On Remembering . . .

Lon Pate, editor of the Haskell Free Press recently noted sign which read: "Remember the Alamo — and Sol Estes." It might be an ideal solution. Unfortunately, it isn't practical. We can't forget the man until he is over. In fact, we'd better not forget until the moment figures out a way to prevent similar irregularities. — Pat Bennett, Crosbyton Review

### Reservists Finish Fort Gordon Course

FORT GORDON, GA. (AHTNC) — Two Slaton, Tex., Army Reservists, Privates Roy L. Kitten, 18, and James Bednarz, 18, completed the eight-week radio relay and carrier operation course under the Reserve Forces Act program at The Southeastern Signal School, Fort Gordon, Ga., Nov. 2.

Kitten, son of Mr. and Mrs. Frank H. Kitten, 705 S. 20th St., is a 1962 graduate of Cooper High School.

Bednarz, son of Mr. and Mrs. Walter W. Bednarz, Route 1, is a 1961 graduate of St. John's Seminary in San Antonio.

### Wilson Serviceman Promoted in Denver

Harold J. Schneider, son of Mr. and Mrs. Frank J. Schneider, Route 1, Wilson, Tex., recently was promoted to specialist four in Denver, Colo., where he is a member of the Army Medical Research & Nutrition Laboratory at Fitzsimons General Hospital.

Specialist Schneider entered the Army in September 1961 and completed basic training at Fort Carson, Colo.

Schneider is a graduate of Wilson High School and received a B. S. degree in 1959 from the Texas Technological College, Lubbock.

### MASONS LEVEL HIGH SCHOOL CORNERSTONE

Prominent Texas Masons met in Fort Worth recently to level the cornerstone for a \$350,000 high school and auditorium at Masonic Home and School of Texas. The structure is part of an expansion program which already includes a new chapel and an infirmary.

Among participants were, left to right: Dr. J. D. Temme Jr. of Fort Worth, president of the Masonic Home Independent School District board; G. R. M. Montgomery of Fort Worth, Past Texas Grand Master and president of the Home's board of directors; G. R. M. Montgomery II of Fort Worth; Joan Kemmerer of Fort Worth, Past Texas Grand Master and a Home director; Robert L. Dillard, Jr. of Dallas, Grand Master and vice president of the board of directors, who leveled the cornerstone; Jim W. Weatherby of Kerrville, Deputy Grand Master; John R. Collard Jr. of Spearman, Grand Senior Warden, and J. Carroll Hinsley of Austin, Grand Junior Warden.

### Slaton Student Is Initiated at South Plains College

Tommy Stell of Slaton was one of four members of Phi Theta Kappa initiated at a recent meeting at South Plains College, Levelland.

In order for a student to be eligible to Phi Theta Kappa, he must attain a 3.25 grade average.

### Hints Given On Bird Selection

The gobbler season of the year is here. More turkeys are bought during this time than any other season of the year, says F. Z. Beanblossom, poultry marketing specialist, Texas A&M College.

He says that homemakers who buy their turkeys through retail stores should consider a number of things when making their purchase. First of these is the size of the bird and will depend on the number of people to be served and how well the family will eat the leftovers. Generally, 3/4-pound of ready-to-cook turkey per person should be allowed for generous portions.

The next factor to consider is the quality of the turkey, according to Beanblossom. The best quality birds are Grade A and will have an even covering of fat over the entire body. Grade A turkeys are broad breasted and have bulging thighs and large drumsticks and give the best meat to bone ratio for your turkey dollar. The homemaker should select a bird without blemishes, such as torn skin or bruises, the specialist says.

The grade and inspection identification is important and should be noted when buying. Beanblossom says. These are metal or cardboard tags and

are on the bird for the buyer's benefit. A tag saying "Inspected for wholesomeness by U.S. Department of Agriculture" shows that it was processed in a plant under the supervision of the USDA inspection program. The tag reading "U. S. Department of Agriculture Grade A" means that the turkey has been given an official grade of A by the USDA grader in the plant.

Beanblossom also recommends that the homemaker cook the turkey according to its weight. Allow 15 to 20 minutes per pound of ready-to-cook turkey and cook in a 325 to 350 degree oven.

## A 390 V-8 NOW STANDARD FOR MERCURY

MONTEREY CUSTOM 4-DOOR SEDAN

You just can't buy an underpowered Mercury Monterey. The engine that comes as standard equipment this year is a big 390-cubic-inch Marauder V-8 with double-barrel carburetor. The standard engine for the bucket-seat S-55 is a Super Marauder 390 V-8 with 4-barrel carburetor. And, if your taste runs to something even hotter, other Mercury V-8 options range up to a scorching Super Marauder 406. But remember, Mercury Monterey has nothing less powerful than the Marauder 390 V-8. And this is the sizzler with Breezeway Design. The Breezeway rear window opens for unique Flo-Thru ventilation: side windows can stay closed to keep out dust and weather, hush wind noise. See '63's elegant performance car... Mercury Monterey!

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford  
TEXAS PRESS ASSOCIATION

ans have turned Tex-wo-party state. vvy vote for Jack Cox hn Connally, election mbers to the national Representatives and nbers to the Texas is substantial Repub- s in nearly all areas, interpreted by many tol observers as mean- never again will the ic nomination be "tan- o election."

carried 204 counties and Cox carried 50. But it was the substantial Cox votes in the 204 counties he lost which makes this election significant.

Connally is conferring with legislators and with state boards and commissions. He will not make complete budget recommendations, since outgoing Gov. Price Daniel is required, under the Constitution, to make budget recommendations to the Legislature in January.

But Connally will make his own budget proposals in his message to the Legislature.

Industrialization, tourism, higher education and water conservation are the areas of state activity which Connally stressed most in his campaign. He will propose the creation of a Bureau of Commerce to take over tourist and industry-attracting.

The new governor, with a 120,000-vote margin of victory under his belt, said he holds no ill will toward areas which voted against him, that he will be governor for Republicans as well as Democrats.

Main areas where Republicans ran strong were in the oil areas of West and East Texas, in the major cities, and in the Panhandle. They elected local officials in Midland, Ector, Smith, Dallas, Kerr, Bexar, Pecos, Hutchinson, Zavala and Randall Counties.

After the longest political campaign in Texas history there is a desire — on the part of many candidates, newspaper reporters who travel with the candidates, and the voting public — to return to the shorter

campaign periods.

The old late-in-July, late-in-August and early-in-November voting months were far less strenuous than the present early-in-May, early-in-June and early in November dates.

Campaigning in the heat of the summer now is very much preferred over the cold winter months and the long, tedious battle period that extends from December to November.

Don't be surprised if there is a big demand to return to the old election dates. They consumed only about 120 days, compared with this year's long, drawn-out, pace-killing, man-killing, more-than-300-day battle.

Governor-Elect John Connally has been quoted as saying he would favor moving the primary elections to August or September, as they are in most two-party states.

Under the present system the various party organizations close shop during the summer. Then it becomes necessary to re-organize and re-vitalize each setup for the General Election campaign. Heretofore the momentum generated carried them through to the November election. They got it all done in one big swoop.

Another reason for reverting to the old dates is that the cost of maintaining a long campaign naturally is much greater than the expense involved in a short one.

Officials of state and federal government had a heated discussion about land values on Matagorda Island in a preliminary round in the General Land Office.

Main bout will take place during the November 19 session of the U. S. District Court at Victoria, where the federal government has filed a suit to condemn a lease on some 16,000 acres of land on the island.

U. S. has leased land on Matagorda Island since 1942 for Air Force bombing practice. But when Land Commissioner Jerry Sadler was notified on May 31 that a new 5-year lease was in the offing, he raised objections.

Uncle Sam leases state-owned land there for less than six cents an acre annually. Some of it is subleased for grazing at 25 cents per acre.

In last week's Austin meeting between representatives of the U. S. Department of Justice, the State Attorney General and the Land Office, it was learned that federal appraisal of the disputed property was made from an airplane.

Government appraiser placed a 44-cent-per-acre value on beach and grass land owned outright by the U. S.; set a six-cent value on some state land; and a zero value on other state-owned property — to reach a 25-cent rental rate.

State land was described as "marshy and boggy," but Rep. Grainger Melhany, chairman of a legislative committee on state-owned lands, said he's like to own "some of that worthless land," which is thought to be rich in mineral value.

Land office questioned the government's need for all the land it seeks to lease.

An assistant to the U. S. Attorney General replied that U.S. Air Force and Navy bombing and strafing operations were subject to error — both human and mechanical — and simultaneous use by the public and armed forces would be "impractical."

Gov. Price Daniel appointed Major General James E. Taylor chairman of a 35-member Texas Emergency Resources Planning Committee.

In answer to a presidential request, the committee will plan for conservation and use of es-

sential resources and services at state and local levels in case of nuclear attack, and a temporary breakdown of control of service operations.

James H. Garner, state coordinator of Civil Defense and Disaster Relief, will serve as State Emergency Planning Director. Other members of the committee include representatives of government, industry, commerce, consumers' services, labor and agriculture.

Unemployment in the state dropped in September to its lowest level since October, 1959, September showed 155,400 unemployed, compared to 170,100 in August.

Employment increased from 3,471,300 hired workers to 3,472,800. Texas Employment Commission predicted an overall gain in employment between September and November, with a heavy concentration in non-factory industries.

The Texas Water Commission authorized a permit to the City of Gainesville to build a \$1,724,143 dam system on Fish Creek, a tributary of the Red River.

Plans for the dam, which was backed by local citizenry 2 1/2 to 1 in a local bond election, will include a reservoir with storage capacity of 23,210 acre feet; supply pipelines to town; and a filter plant.

Surface water will be used with water from Trinity wells until the well supply dwindles. Then the reservoir is expected to supply all water for a population expected to reach 24,000 in 1995.

Only about 10 per cent of the estimated 25,000 blind people in Texas are taking advantage of a free service just for them, said Dr. Dorman H. Winfrey, director of the Texas State Library.

Winfrey said that this 10 per cent "read" about 5,467 talking books last year. But he estimated that the books which are recorded on phonograph records would be read by 10,000 if they were told about them.

The state library circulates both talking books and Braille, free of charge, including postage, to any eligible blind person. Inquiries about eligibility should be sent to the State Commission for the Blind, 201 East 14th Street, Austin.

An attorney for Texas State Optical accused the State Board of Optometry Examiners with passing a rule unrelated to optometry when the board met with the House Committee on State Licensing and Examining Boards.

House committee is in the process of checking the efficiency of operations of each of Texas' 24 state licensing agencies.

Rule challenged by attorney Quentin Keith would prevent optometrists from practicing un-

der a trade name, and force an optometrist to be in his office 50 per cent of the time he's open for business.

Disputed rule — approved in December, 1959 — has never gone into effect because of a restraining order Lee Optical filed three days after its passage.

Injunction is still effective, since the suit has not come to trial.

Texas Tourist Council hired an executive vice-president, Bill Stinson, a member of governor-elect John Connally's campaign staff.

Stinson, former public relations director for the Gunter Hotel in San Antonio, will open an office in Austin soon.

Between 1929 and 1961, farmers' and farm laborers' incomes showed a percentage decrease of 12.8 per cent, according to the Bureau of Business Research.

Percentages are up in mining, contract construction, manufacturing and retail trade, but down in transportation, property income and proprietors' income.

Governor Daniel picked 31 state officials, historians and East Texans to study the feasibility of a state park in the Big Thicket area.

A report is due by the time the Legislature meets in January.

The state deficit has increased despite higher tax collections.

Robert S. Calvert, State Comptroller, reports the general fund deficit stood at \$56,284,799 as of October 31. This compares to \$51,002,099 a month earlier.

Revenue for two months of the fiscal year, started September 1, totals \$206,970,520, up from \$172,948,556 of the previous year.

Spending for the two months

was \$278,985,927, more than \$62,000,000 ahead of last year.

Gov. Price Daniel wants regulatory control over radiotopes used in Texas vested in the State Health Department.

On behalf of the State he has asked the Atomic Energy Commission to transfer control to the Health Department "as soon as possible."

Included in the governor's request is the licensing and regulation of by-products, source and special nuclear materials.

Some 50 top general aviation leaders have asked the Texas Aeronautics Commission to expand its program of improving small airports and giving safety instructions.

Commission Chairman Paul M. Fulks of Wolfe City pointed out that the commission's problem lies in the more than \$20,000 accruing monthly from unclaimed aviation fuel tax refunds.

Shelby M. Kritser of Amarillo, vice chairman of the commission, said authority is needed from the legislature to spend the money.

An estimated \$100,000 annually is needed to assist dozens of small airports in the state.

Reports to the Texas Highway Department indicate tourist traffic into the state is on the rise. Travel promotion is credited with ending the five-year decline.

### AT MARTINDALE SERVICE STATION

Middle age is when you don't care where your wife goes, just so you don't have to go along.

The world is full of givers, and though it seems a paradox, in the final count they will be the richest of all.

Did you know that cigarettes contain 14 times as much arsenic as is permitted in food?

Money talks alright. To most of us it says: "5-4-3-2-1-zero and there she goes."

To have known the best, and to have known it for the best, is success in life.

If you want to test your memory, try to remember what you were worrying about 1 year ago today.

We invite you to test our service.

## Martindale's Phillips STATION

Mrs. Bertha Frances Allen, 110 North Kansas, Roswell, N. M., has baked as many as 7 or 8 cakes in a single day in her electric oven. Mrs. Allen bakes occasionally for intimate friends. She likes the cleanliness of her electric oven, the even baking of gentle electric heat and electric's automatic features.

Robert Binns, 1108 Meadow Lane, Roswell (Mrs. Allen's grandson), like all men, has a favorite dish he likes to cook. Here, Ynaia, his wife, checks his Swiss Steak recipe, making sure he's seasoned it to her liking. Ynaia is delighted with clean electric cooking — wouldn't cook any other way.

Like her mother, Mrs. W. B. Binns, McGaffey Road, Roswell, is also proud of her cookery. In the picture, she shows off the cleanliness of her electric oven. Notice, in particular, the clean sides and bottom of the pan she's using. Elements clean themselves and drip wash easy as saucers.

The fourth generation is coming along fine, thank you, as here we see Mrs. Robert Binns teaching 4 1/2-year-old Kelly how to properly set a table. With the tradition of good cooking in this Reddy family, you can be sure that Kelly will be a great cook when she grows up — and she'll be cooking electrically — like all progressive homemakers.

## Cook better electrically, like this Reddy family

Now you, too, can take advantage of modern electric cooking and with a written guarantee that either you are completely satisfied with the new electric range you buy (you'll have a full 60 days to use it) or your Reddy Kilowatt Electric Appliance Dealer will refund your money. Not only do you get the written guarantee but you will also receive free wiring — there will be no charge to wire in your new electric range. This offer is available to customers of Southwestern Public Service Company who live in single family residences or two family dwellings. See your Reddy Kilowatt Electric Appliance Dealer this week. Tell him you want to buy the range that gives you complete satisfaction — of course, it's electric!

### AT CARLSBAD

Mrs. Fannie Patterson is  
spending the Thanksgiving holi-  
days with her daughter and son-  
in-law, the J. R. McCaslands of  
Carlsbad.

Mr. and Mrs. J. R. Mueller

### Reception Will Honor J. R. Muellers Friday

Mr. and Mrs. J. R. Mueller  
of Wilson will be honored on  
occasion of their Golden Wed-  
ding Anniversary at a recep-  
tion to be given this Friday,  
from 2 to 4 p.m., at the St.  
John Lutheran Church educa-  
tional building.

Hosts will be their sons and  
daughters of the couple, includ-  
ing LeRoy Mueller of Sundown,  
Burnell Mueller, Lubbock; Mrs.  
Marcus Wilke of Southland, and  
Mrs. L. H. Traweck of Wilson.

Assisting with the hospitali-  
ties will be six grandchildren.

Mr. and Mrs. Mueller were  
married November 19, 1912, at  
Cuero, with the late Rev. Wil-  
liam Utesch performing the  
ceremony. Mrs. Mueller was  
formerly Miss Katherine Muel-  
ler. They made their first home  
near Nopal and moved to Lynn

### Senior Citizens Had Thanksgiving Program Friday

Fifty-seven members and  
guests were present at the  
Thanksgiving program and din-  
ner of the Slaton Senior Citizens  
Club when it met Friday at the  
clubhouse.

Local pastors and wives were  
special guests of the club, and  
Dr. Charles Wood, pastor of the  
First Baptist Church, brought  
the Thanksgiving message.

### Letters to Editor

## Old Friends

Some time last spring we mentioned that Hugh Young, class of 1924, had visited Slaton in the company of Bruce Gentry of Lubbock. Bruce was by one day last week and reported that they had just returned from spending several days with Hugh and his family in California. Bruce said that they had a wonderful time in Palm Springs and at Catalina. Hugh has a chain of thirty or more cleaning establishments and Bruce says that he is the process of opening six more very soon. Evidently O. Z. Ball did a good job of teaching Hugh the finer points of finance as well as the cleaning business when Hugh worked for him as a boy in school here. Hugh's parents are both in their 80's and living there in California. Hugh's address is 9406 E. Valley Boulevard, Rosemead, California.

I noted an item in the business news that concerns a Slaton Ex. Cecil Bybee, class of 1949, has been named assistant controller for Sun-X Glass Tinting International, Inc., Houston, Texas.

After graduating from Slaton High School, Cecil attended San Antonio College, Texas Wesleyan College and Texas Tech where he received his degree. Cecil was an Auditor with the accounting firm of Price Waterhouse and Company, Houston before joining the glass tinting firm.

Many of you remember Cecil as a quarterback on the Slaton High School football team in 1947 and 1948. Cecil was determined to get an education as he remained here and went to school with the help of Coach Tilley and the quarterback club after his parents had moved away.

I also see by the papers that J. T. Bolding, class of 1950, is getting married. J. T. and Miss Barbara Jean Blake of Roby will be married December 21st.

After graduating from Slaton High School J. T. attended Howard Payne College, Brownwood, Southwestern Baptist Theological Seminary, Fort Worth, Texas Tech, Lubbock, and the University of Illinois where he received his master's degree. Some time in between schools J. T. served his time in the Army. He is presently an instructor of mathematics at Hardin-Simmons University, Abilene. J. T.'s address is Box 594, Hardin Simmons University, Abilene, Texas.

Your correspondent will be on a week's vacation just prior to next week's paper and in Austin December first through the fourth taking an examination for Certified Texas Assessor. So if some OLD FRIEND doesn't come to the rescue this column will be blank for a couple of weeks. Of course this column has been written for and on behalf of Slaton Exes for the past several months and we would only be too happy for some talented ex to take over and do a professional job for a couple of weeks. How about it fellow? Any volunteers? Just prepare the copy and present it to the Slatonite.

Those paying dues since last week were Bruce Pember, Joyce Pember Cheatham, Maybelle Pember Kern, Joan Pember Adams.

**Be still**

"There is no fear in love; but perfect love casteth out fear." — I John 4:18  
Since we have turned to Thee to pray,  
Vanish are our fears away;  
Inward tensions all have fled;  
Absent too is any dread.  
Oh to our hearts such joy  
You bring  
Since You have come to be  
our King!

# Personal Work and Peace Corps Connections are Related in Letter

Editor's note: Mr. and Mrs. E. Todd of Slaton are in receipt of a most interesting letter from a cousin, Jerry W. Guy, who is a member of much publicized Peace Corps. The Todds have graciously permitted the Slatonite to pass the contents of the letter along to our readers; we believe it gives an intimate insight into functions of the Corps individuals that seldom is afforded in the "canned" stories released by professional publicists.)

The letter, date-lined in the Dominican Republic, follows:

As you are aware, I am in the Dominican Republic. I'm stationed with another fellow, Joe Da Rosa, from San Diego, in a small community, Sabana de la Mar, on the northeast coast. The population is roughly 3,000 in the village, with farmers living in the area. Joe and I have only been here a couple of weeks. Previously, we were with eight other PCV's in La Herradura. The latter is a very small pueblo near Santiago, the second largest city in the country and in the north. It was there that began the project of establishing the first vocational agriculture school in the country. It was only a temporary assignment for most of us. We were only to help get the project started.

We reconditioned an old house in which we lived dug irrigation ditches for vegetable crops, cleared land, built fences and planted around 2,000 pineapples. The pineapple here is extremely delicious.

Classes are to begin at the school next September. It was partly through our efforts that the Ford Foundation of New York donated \$278,500 to the project. The project was conceived of and given birth to by a group of industrious, hard-working businessmen from Santiago. Construction of the actual buildings, etc., are to begin soon. One fellow is still there working on the project.

Since then, the other nine of us have scattered to various assignments in the country. There are only 21 of us in the first group. However, an additional 19 arrived last week for

the second group. The latter group are English teachers.

Our group is concerned with agriculture and community development. The latter term encompasses any and everything that pertains to a community. Later projects for the groups will include water drilling (an urgent problem), forestry, again urgent, for much of the reserves are going to waste, cooperatives, and other community development projects.

We have been warmly received here in the country. The people are friendly and wonderful. We find that oftentimes our language is the same—the desire for progress. Time is the greatest factor of all to be considered. We can't rush it and we can't spend too much of it. The fulcrum lies somewhere in the middle.

I feel that the majority of our work will be accomplished in the south-southwestern part of the country. It is here that is found the most depressed area. The primary problem is water. If we can solve this one problem in this one area, I think our trip will be more than paid for. In some respects, it's like looking at the waste lands of far West Texas. You know what that looks like, so it might give you something to compare it with.

One project we consider extremely important is that of recreation. There is a tremendous amount of natural talent here going to waste. The basic reason — no sports equipment. We hope to begin a Babe Ruth baseball league here in the coming months. But equipment is our biggest problem. I've actually seen kids playing with a stick for a bat and a rock for a ball on a small plot of cleared ground. This is how earnest their desire is to play. As you know, three big leaguers from the Giants are from here, as well as a few others in the big leagues. If you have any ideas as to how we can obtain some donated equipment, I would certainly appreciate new or used equipment — any thing in the sports field.

As for the missionary work here, I know little of it. The Catholic Church is quite naturally the strongest — in fact very strong. I do know that there is some sort of Protestant program here and will try to find out further information for you if you desire it.

Right now I have a cold and a fever. Suppose I better get some rest and try to defeat it. Write on occasion, would enjoy hearing from you. Thanks for any help you may be able to provide.

Jerry W. Dupuy  
Sincerely,  
Peace Corps,  
American Embassy  
Santo Domingo,  
Dominican Republic

**Flavor Rich Cake...an Easy Dessert**

**DELICIOUSLY RICH AND LUSCIOUS** as this Fudge Mocha cake is an easy to prepare treat when you use the convenient products available these days. Fudge coconut cake mix, the addition of eggs and water, bakes to feathery texture with a rich flavor. The topping is flavored with instant mocha flavor mix and instant coffee. Shown here as an instant dessert, you could bake the cake in 8 or 9-inch layers with the Mocha Topping between and atop for a fancy dessert.

**FUDGE MOCHA DELIGHT**  
Prepare fudge coconut cake mix as directed on the packaging in a 13x9x2-inch pan. When cake is cool place on a plate and frost with Mocha Topping.

**MOCHA TOPPING**  
1 cup whipping cream  
1 teaspoon instant quality coffee  
2 tablespoons instant chocolate flavor mix  
Dash of salt  
3/4 cup whipping cream, chocolate flavor mix, coffee, and salt  
Beat until cream holds its shape. (Do not overbeat.) Use as topping for cake or other dessert. Makes 2 servings.

**Daniel To Be Honored By Special Dinner**

State Commissioner Ben Ramsey has accepted chairman of a statewide steering committee for sponsorship of an annual dinner December 12 at the State Fair Livestock Coliseum honoring Governor Dan Price Daniel. Ramsey said, "He is the only man ever to serve his state as Governor, Attorney General, and U.S. Senator and Governor of his friends from all parts of the state are joining in these plans for a function to show appreciation to the man and his gracious wife who moved to Texas and its people."

**Cotton Bowl Rodeo Is New Attraction**

Mail orders are now being accepted for the first annual Cotton Bowl Rodeo, to be held here Dec. 27-31 in the State Fair Livestock Coliseum as a major attraction of the Cotton Bowl Festival Week. There will be seven performances, nightly at 8 p.m. Dec. 27, 28, 29, 30 and 31, with Matinees at 2 p.m. Saturday and Sunday, Dec. 29 and 30. The nation's top cowboys will compete in the Cotton Bowl Rodeo. There will be competition at each performance in saddle bronc and bareback riding, Brahma bull riding, calf roping and steer wrestling. The purse totals \$10,500. An additional attraction will be the National Finals of the Girls Barrel Racing, with a purse of \$2,500. The Cotton Bowl Rodeo is sponsored by the State Fair of Texas and has been approved by the Rodeo Cowboys Association. It will continue the high standards of quality established here by the National Finals Rodeo which was held in Dallas the past three years. "It will be a rugged, fast-moving, competitive attraction just as the National Final was," State Fair officials declared.

**Can Be Activated in Hours  
Ninety Packaged Hospitals Ready For Emergency Use Within State**

Texas has 90 "packaged" hospitals on hand, ready for almost instant use following enemy action or a major natural disaster. Most of them are located at least 15 miles from assumed strategic target areas. Units of this type in the South Plains and Panhandle area are situated at Abilene, Canyon, Childress, Odessa, Snyder and Pital at Amarillo. Wellington, with a training hospital. The hospitals, costing \$21,000 apiece were provided by the federal Office of Civil and Defense Mobilization as part of a nationwide stockpile program. They are administered in Texas by the state Office of Defense and Disaster Relief, with technical cooperation from the Texas State Department of Health. Outgrowths of the mobile army hospitals developed and tested during the Korean War, they can be completely installed by 40 or 50 people in four or five hours. In one test exercise an installation was made in 70 minutes by experienced personnel. Local civil defense organizations in designated locations store and otherwise manage the hospitals and equipment. Emergency conditions such as the Cuban crisis are occasions for making sure the hospitals are in a high state of readiness. Each unit — already crated for instant shipment into stricken areas, is a complete 200-bed affair with facilities for three operating rooms, a pharmacy, x-ray service, clinical laboratory, sterilizing room, central supply room, and electrical power supply. Each hospital weighs 24,000 pounds and contains 8,000 individual pieces of equipment, including a 1500-gallon water tank and pump for emergency water supplies. There are also complete medical supplies, from surgical caps and gowns to ether and alcohol which are separately packaged and marked to avoid fire hazard. Local civil defense authorities provide refrigeration for items such as insulin and blood derivatives. Antibiotics and other materials with expiration dates are labeled "deteriorative" to indicate they must be periodically inspected and rotated. State civil defense and health authorities estimate that emergency hospitals will have to provide at least half the total hospital beds following a major emergency, since most conventional hospitals are located in metropolitan centers which may be targets of enemy action. Doctors and nurses to staff emergency hospitals will be recruited from the community where the unit is installed for service, according to present planning.

*There's a Friendly Church Near You*

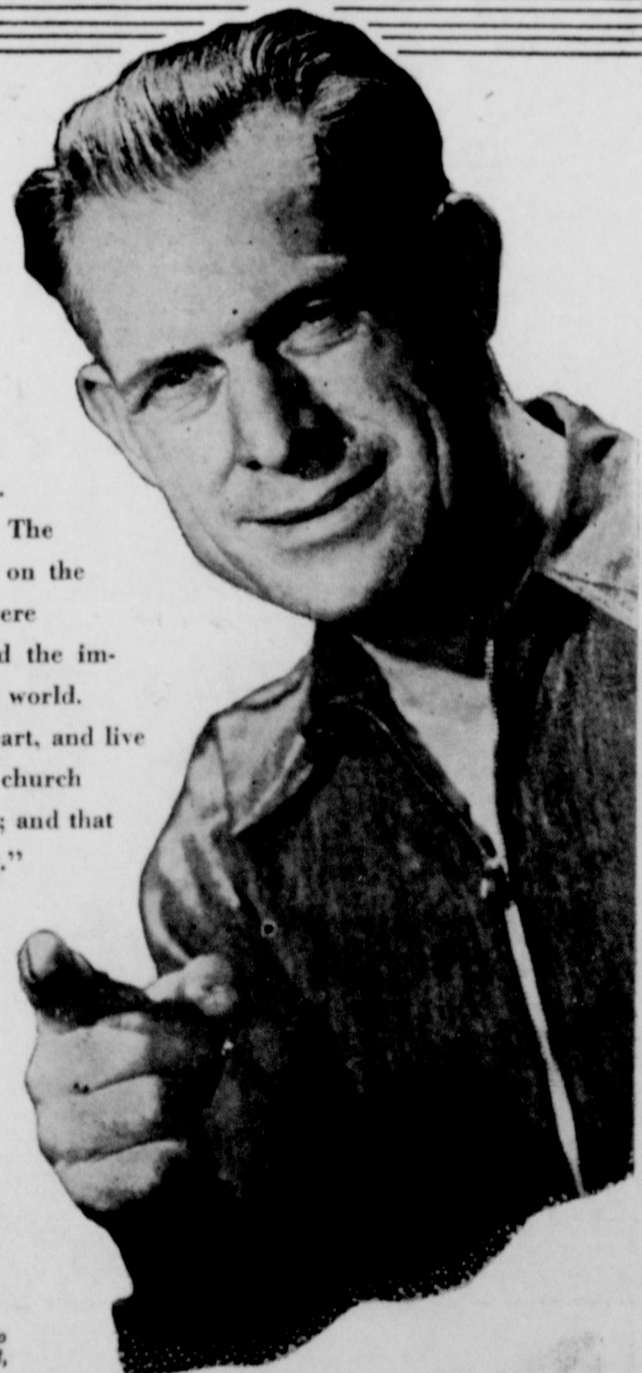

*Listen, Friend....*

— let me tell you something about the church. It's a place where "everybody is somebody". The 'working man' and the 'white collar' man are on the same level. My best and truest friendships were formed at church. It was there that I learned the importance and value of my life to God and to the world. I work with my hands, worship God with my heart, and live with the knowledge that my life—invested in the church — is a strength to the community in which I live; and that is one of the things that makes life worth living."

Perhaps you, too, can say what this man says— from your own experience. However, if you have not discovered the meaning and purpose of life as it is revealed in the Bible taught by the church, why not avail yourself of the opportunity now?"

"A wise man will hear, and will increase learning; and a man of understanding shall attain unto wise counsels." PROVERBS 1:5.

"Other foundation can no man lay than that is laid, which is Jesus Christ!" 1 CORINTHIANS 3:11

**Wedding Vows Renewed  
At St. Joseph's Church for  
Mr. and Mrs. Buxkemper**

St. Joseph's Church in Slaton  
was the setting Saturday for  
renewal of wedding vows on oc-

**No. 1 Continued  
From Page 1**

10th, and since moving here  
from Kermit he has been quite  
active in local civic organiza-  
tions and community affairs.  
At present he is president of  
the Jaycees, and is a member  
of the Lions Club and the Cham-  
ber of Commerce.

Ware has expressed his ap-  
preciation for the trade and  
friendships enjoyed during his  
tenure as owner of the firm,  
and he states that his immedi-  
ate plans are to go hunting!

casation of the twenty-fifth anni-  
versary for Mr. and Mrs. Clar-  
ence O. Buxkemper.

Rev. Edward Clinton presid-  
ed at the pledging of vows,  
and offered the Holy Sacrifice  
of the Mass in honor of the  
Blessed Virgin Mary. Assisting  
Father Clinton in the sanctu-  
ary were sons of the Buxkemp-  
ers, Roland and Kevin, both  
students in San Antonio semi-  
naries studying for the priest-  
hood.

Baskets of white mums, en-  
hanced by silver leaves and  
ribbon, decorated the altar.

Host at dinner Saturday eve-  
ning were Roland, James, Kevin  
and Anton, the Buxkempers'  
four children.

Miss Karen Buxkemper, a  
niece, registered guests, and  
Mrs. Victor Buxkemper presid-  
ed at the serving of the three-  
tiered white and silver wedding  
cake.

Special guests for the day  
were Victor Buxkemper, Mrs.  
E. E. Wilde of San Angelo, Mrs.  
E. L. Brasch and Mrs. C. B.  
Schniers of Slaton, all mem-  
bers of the original wedding  
party of 25 years ago. Other  
members, unable to attend,  
were Raymond Rohmfeld of  
Ballinger and Mrs. Leoran  
Hoelscher of Rowena. Other  
guests registered were from  
Slaton, Ballinger, Rowena and  
San Angelo.

The couple was married Nov.  
16, 1937, in St. Boniface Church  
in Olfen, Texas. Mrs. Buxkem-  
per is the former Miss Lucille  
Rohmfeld. The couple lived  
near Ballinger for two years,  
but since that time have made  
their home near Slaton where  
Mr. Buxkemper is engaged in  
farming.

**LETTERS TO THE EDITOR**

Dear Editor of The Slatonite,  
I am enclosing a prepared  
statement which I read to my  
congregation Sunday morning,  
November 18. I would appreci-  
ate it if you would print it in  
your paper as a letter to the  
Editor. The Christian people of  
my congregation are greatly  
disturbed over this matter and  
expressed so to me personally.  
I would appreciate seeing The

Slatonite voicing strong oppo-  
sition also to the Liquor inter-  
est having any relation whatso-  
ever to the youth organizations  
of our city.

Thank you so very kindly for  
your consideration of this mat-  
ter.

Charles L. Wood  
**A PREPARED STATEMENT  
READ TO THE FIRST  
BAPTIST CHURCH  
NOVEMBER 18**

An article appearing in last  
week's Slatonite carrying the  
heading "Beverage Group  
Pledges Aid to Local Causes"  
and appearing under a picture  
of three members of the Lub-  
bock County Beverage Associa-  
tion, has caused a great con-  
cern on the part of many Chris-  
tian citizens of our community.  
My own heart has been greatly  
disturbed over this matter.

It is a very sad day when the  
Youth Organizations of our city  
have to depend on the Liquor  
interests for their support, and  
even go so far as to court the  
support of the Liquor interests.

For the Liquor interests to  
pose as the benefactors of the  
youth of our city is the very  
height of hypocrisy. Since when  
have the Liquor interests ever  
shown any kind of concern for  
the decency and morality of  
our youth. Their sole concern  
is to sell their product which  
is the greatest devastator of  
life known to man, and the  
greatest enemy facing America  
today. The only reason the Li-  
quor interests would make a \$2-  
000 gift to the youth organiza-

tions of our city is to soften  
up the strong feeling against  
such interests by the thinking  
Christian people of our commu-  
nity, and to increase the sale  
of their product.

I call upon the youth of our  
city to respond with a vigorous  
protest to this support of their  
organizations by the Liquor in-  
terests. This is a very insidious  
thing for children and young  
people. The Liquor interests  
are posing as your friends and  
benefactors. They are the far-  
thest from this. They are nei-  
ther your friends or your bene-  
factors. The end result of their  
product is the destruction of  
self and of home, of morals and  
of all that is good for youth.

Don't be misled by the idea  
that the Liquor interests are  
your friends. They are not.  
I urge you to protest vigorously  
to your leaders about this  
support. Let them know that  
you do not want to belong to a  
youth organization that is sup-  
ported by such an evil as li-  
quor.

No youth organization of our  
city needs one penny of support  
from the Liquor interests of  
our county or anywhere else.  
If it takes the Liquor interests  
to make a go of these youth or-  
ganizations then I say we don't  
need the kind of youth organiza-  
tions that must depend upon  
the Liquor interests for their  
support. Let's keep our youth  
completely free from any sup-  
port by the Liquor interests of  
our county.

I call upon the leaders of the  
following organizations to let it  
be known once and for all that  
they do not want the support  
of the Liquor interests for the  
youth organizations of our city

The Slaton Slatonite

Thursday, November

and to let the Liquor interest  
know that their support is nei-  
ther needed or wanted. I ad-  
dress my plea to the leaders of  
the Little League, the Pony  
League, the American Legion  
League, the Girls' Summer  
Youth Program, the Boy Scouts,  
and the Slaton Welfare Group.  
My very life protests vigor-  
ously against any Liquor inter-  
ests posing as the benefactor  
of the youth of our community  
and against any youth organi-  
zation receiving support from  
the Liquor interest  
ing this letter of  
Slatonite hoping to  
printed and also to  
of the above name  
organizations. I urge  
of you to let your  
this matter be  
personally by letter  
or personal contact  
persons respon-  
leadership of the  
ganizations.  
First Baptist  
Charles L.

**Rites Held For  
J. E. Dillard**

Funeral services for J. E.  
Dillard, retired railroad worker  
and Slaton resident for 32 years,  
were conducted Saturday after-  
noon in the Williams Funeral  
Home Chapel in Slaton.

Mr. Dillard, 61 years of age,  
died Thursday afternoon at  
Mercy Hospital following a long  
illness.

Rev. Leroy Deans, pastor of  
the Lutheran Church, officiated  
at the services; burial was in  
Englewood Cemetery.

Survivors include the wife,  
Opal; two sons, Lee Ray, Lub-  
bock, and O. D. of Slaton; two  
daughters, Miss Carrie Dillard and  
Mrs. Dora Carpenter, both of  
Tahoka; four brothers, Will, Ta-  
homa, Jim, Sam and Bud, all  
of California; and six grand-  
children.

Pallbearers were B. A. Han-  
na, J. L. Phillips, L. J. Meyers,  
O. D. Morris, Alex Shelton and  
C. O. Heinrich.

**Police Blotter**

Jail empty at presstime Tues-  
day.  
Arrests since last Thursday:  
drunk, 11; possession by minor,  
1; indecent exposure, 1.

**TO ALL... A HAPPY  
THANKSGIVING**
