### **GOLF COURSE OPENING SET**

Slaton's new municipal Q golf course will have its official opening April 30, it was announced Tuesday by Dr. Don Hatchett, presdent of the Golf Course Association.

The directors met Monday night to decide on the opening date and set rules regulations for the course. Complete rules will be announced next week.

The new course - called Slaton Golf Course at present - is located several miles northeast of town near the city's sewage disposal plant, It has been underwritten by a group of private citizens.

Green fees were set at \$1.50 for week days and \$2 on Saturdays, Sundays and holidays. A year's membership will sell for \$125, allowing the golfer to play anytime with out paying the green fee. A man-wife membership will sell for \$150, and children 19 and under can be added on the family play at \$10

The association is making provisions for electric carts on the course. People who bring their own carts will be charged \$1 for each nine holes of play. The course plans to have carts for rent sometime in the future.

A pro shop has been moved to the course, and a concession stand will be installed in the building.

Robin is the 6-year-old daughter of Mr. and Mrs. M. W. Kerr. Mr. Kerr is principal at Slaton High School and her mother is teacher of commercial subjects at SHS, She also has a big brother who serves as her escort at many of her performances. He is 8-year-old Gary, and just as handsome as Robin is beautiful.

The latest honor earned by Robin was being featured in

Twirling". The National Baton Twirling Association, Janes-ville, Wis., released the news this week that Robin had been selected.

Mrs. Carolyn Green, formerly of Slaton and now of Duncan, Okla, was Robin's first teacher and, working with her, Robin acquired the love for twirling. When Mrs. Green left Slaton, Robin chose to continue her twirling lessons. She was coached by Jimmy Williams first and is now a student of Benni Dunn Evans of Lubbock.

### Americanism Is Topic at Rotary Club Meeting

Members of the Junior American Legion Auxiliary were presented as the program when the Rotary Club met last Thursday for its noon luncheon in the club house.

The program "Youth In Americanism", was led by Mrs. Ells Schmid, president of the American Legion Auxiliary and also wife of the Rotary president. She introduced Robin Kerr, Slaton's "Miss Poppyette" who came dressed in her costume of poppies and red suit. Escorting her was her brother, Gary, the only male member of the auxiliary.

Also introduced were Nancy McSween, who attended Girl's State last year; Ann Ayers, chairman of the junior auxiliary; Rita McCann and Anna Margaret Pettigrew, district officers; Jan Webb, chaplain; Barbee Pettigrew, attendent to Robin; Rita Payne, sargent at - arms; and Judy Boyd, national security officer.

Rotary Anns attending who are also American Legion Auxiliary members were Mmes. L. R. Gregory, J. W. Pettigrew, O. G. Nieman, Claude Cravens, Roy McCann, and Schmid.

Several out of town Rotary guests also attended.

This season's crop was one the largest ever harvested on the South Plains but was slightly lower in grade and staple and much lower in micronaire than the 1964-65 crop.

Final harvesting figures of this season's crop have not been completed but estimates indicate that approximately 2,175,000 bales will be harvested. The 1964-65 season produced approximately 1,-863,000 bales.

Fifty-six per cent of the South Plains cotton this season was classed in the White grades and the remaining 44 per cent in the Light Spotted, Spotted and Tinged grades. During the 1964-65 season, 64 per cent was classed in the White grades and 36 per cent in the Light paring their articles for mail- | Spotted and Spotted grades.

The average staple length of the South Plains crop remained the same as the 1964-65 average -- 30.0/32nds inch, or 15/16 of an inch. Average staple length was very good during the early part of the

During the week ending Oct. 19, 90 per cent of the cotton at Lubbock had micronaire of 3.5 and better. During the week ending Dec. 21, only 27 per cent was in this desirable category of 3.5 and better.

Most of the cotton having micronaire of 3,2 and below was harvested after Dec. 1.

### Easter Egg Search Is Ancient Custom

for colored eggs this Easter, they'll be renewing a custom far older than Christianity.

Eggs represent the new life that returns to earth every spring -- around the time of Easter, The custom of exchanging eggs as part of the celebration began in ancient times. The ancient Persians often dyed eggs in the colors of spring and gave them to their friends as gifts. Some early peoples believed that the earth had hatched from a giant egg.

World Book Encyclopedia says the early Christians of Asia and other eastern lands exchanged eggs at Easter. They colored the eggs red. Elaborate decoration became

the rule in some eastern European lands, The Ukranians are famous for their beautifully decorated Easter eggs. Each village makes its own design -- fir trees, horses, priests' robes, flowers, bell towers, crosses, chapels, etc. Residents of Czechoslovakia, Poland, Lithuania, and other lands also are known for their highly decorated Easter eggs.

In England, friends often exchanged eggs at Easter, although nowdays these usually are chocolate eggs. The Irish break the long Lenten fast by eating eggs at dawn on Easter. Germans color eggs green

### Shower Planned Walstons Lose Home In Fire

While the Leon Walstons were away from their home last Saturday, fire struck their home and burned everything in it. The house and household goods were a total loss.

The house was located about one mile West of town on Union Road, and was on the Vasker Browning farm. The Brownings had lived in the house for a number of years before moving into Slaton

Mr. Walston was out in the field working, Mrs. Walston was in Slaton at her motherin-law's home, and their daughter, Rosa, 19, was visiting out of town over the weekend.

The fire struck during a sand storm about 1:45 p.m. Before Walston could get to his home after spotting the smoke, fire was already coming out the roof, Slaton volunteer firemen did what they could. The Walston's home and

household goods were covered by insurance. They are now living with his mother, Mrs. D. W. Walston, 350 W. Crosby. There will be a shower for the family from 7 to 9 p.m. in Fellowship Hall of the First

Baptist Church on April 15, It will be a "come and go" affair and friends may contribute money or any useful household item to the family.

SUNDAY'S A SERMON

#### APRIL

April brings a season of contrast. It is spring. If the weather may be unpredictable on a day-to-day basis, we are assured that winter has had its turn and are cheered by the welcome song of the bird and the equally welcome sight of new ife a'borning in the fields and

It is easy to feel young at heart We must resist the urge to become footloose and fancy free. We could leave our cares and responsibilites and contemplate the ramblings of a brook as it courses the meadows, flowing

endlessly to the sea. In this season of new-life, surrounded by the wonders of nature's beauty coming forth in a burst of color and greenery, our thoughts eventually must turn to the higher meaning and the higher purpose of our own existence. Spring can be for us a time of spiritual re-birth. We have but to turn our thoughts and our steps to the church by the side of the road. There now is being told the story of the example of the life of Christ upon earth. In this lesson of dedication and sacspirit of faith and purpose

# 'Straw Vote' Asked On ge Sunday Burial Policy fth

Do you think the City of as possible. Results of the Slaton should set a policy against burials in Englewood Cemetery on Sundays?

This question is under study by the city commission and they have expressed a desire to know the feelings of as many citizens

Helen's Favorite: Date-Pecan Goodies (30 to 40 cookies) cup chopped dates 1 cup chopped pecans

1 cup sifted confectioners' 1 unbeaten egg white

Mix dates, pecans and sugar Add to egg white. Mix thoroughly. Drop from teaspoon on greased cookie sheet. Bake in a moderate (350°F.) oven, 12 minutes or until a light brown in color. Cool. Remove from sheet. If desired, these may be topped with cut-up cherries or colored sugar before baking.

"Frivolous harassment" or an attempt by the federal agency to destroy all state authority over voting procedures, said Gov. John Connally.

"A deliberate, shocking atto abuse Texas," charged Atty. Gen. Waggoner Carr. He plans to challenge the right of the Justice Department to delve into such details of election operation as registration dates.

ROAD BEAUTY BILL HIT --Outdoor advertisers, motel owners, tourist attraction operators and salvage dealers at a public hearing here vigorously attacked standards for implementing new federal legislation aimed at beautifying highways by policing billboards and junkyards.

In two days of testimony before Paul E, Warren, U. S. Bureau of Public Roads Examiner, 61 witnesses hammered at the detailed standards, although many said they supported the original intent of the bill.

Most said the regulations proposed by the U. S. Department of Commerce would destroy or seriously damage their businesses.

In addition to witnesses' testimony, the examiner received 84 written statements. Final regulations will not be adopted until hearings have been concluded in all 50 states

Lubbock County (Pd. Pol. Adv.)

and Puerto Rico.

COURTS SPEAK Supreme Court will review on May 4 a suit to force reapportionment of Midland County commissioner's precincts to require substantially equal population in each, A district court ordered the reapportionment, but El Paso Court of Civil Appeals reversed the decision.

Supreme Court refused for second time to hear an appeal from a judgment against the S. W. Richardson estate for failure to pay state, county and school property taxes on 32,750 - acre St. Joseph Island in 1960 and 1961.

Austin District Court temporarily enjoined operations of Marketmakers Inc. of Beverly Hills, Calif., three Texas organized corporations and eight individuals. Attorney General Carr has described the operations as a "pyramid club scheme" (similar to old chain - letter clubs) which has defrauded hundreds.

TEXAS GROWS -- Texas is 13,151 miles bigger than anyone thought, New acreage was discovered after the first detailed study of Texas' area in 20 years was completed by Land Commissioner Jerry Sadler. Reports shows the state contains 177,052,700 acres, or 276,600 square miles.

However, Alaska's 571,065 square - mile - area still makes Texans live in the second largest state in the Union. BUSINESS ACTIVITY UP --Texas business activity index resumed an upward trend in February after three months of "approximate stability," UT's Bureau of Business Research reports.

Hand - in - hand with business gains, non-farm employment soared to new heights with South and West Texas out in front, Overall, the state showed the smallest jobless percentage for February in 14 years -- 3.6 per cent. Construction industry scored

a big 16 per cent increase in February over January. Total construction for the first two months of 1966 was 24 per cent above the same period in 1965, a record year. Major cities showing sharp-

est growth rates were Dallas, Beaumont, San Angelo and Amarillo. OIL DISCOVERY PERIOD EXTENDED -- Onshore oil dis-

covery allowable period has been extended from 18 to 24 months by order of State Railroad Commission. Commission will hear proposals to increase the number of onshore wells which are

status. Limit now is five wells in any one reservoir. commission spokesman said the agency is trying to to increase oil and gas reser-

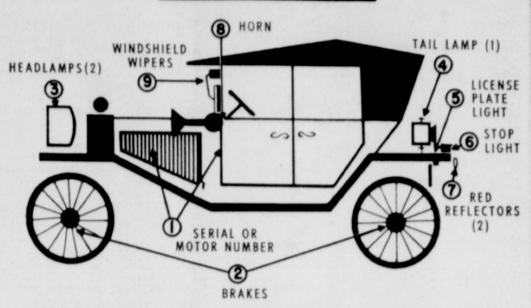

discovery allowable

In Washington, Attorney General Carr told Federal Power Commission that a proposal to import Canadian natural gas to U. S. would create unfair competition with Texas gas, particularly in the state's Permian Basin area.

STUDENT AID RECEIVED -rederal grants totaling 2,476,-728 to assist 9,244 Texas college students at 70 institutions have been approved by U. S. Office of Education, Grants are part of the workstudy program under which Federal funds provide 90% of payrolls for student jobs, with local colleges and agencies

providing 10%. SHORT SNORTS Governor Connally has ap

Santa Fe Railway System's consolidated net income reached an all-time high of \$90.9 million in 1965, an increase of \$10.2 million or 12.7 pct above the \$80.7 million earned in 1964, according to the company's annual report to its 134,699 stockholders. The 1965 net was equivalent to \$3.45 per common share compared with \$3.04 in 1964, according to Ernest S. Marsh, Santa Fe president.

The report pointed out that 1965 earnings include credit of approximately \$30,2 million representing federal income tax effect of depreciation acceleration, investment tax credit and adjustment of prior year's taxes. Consolidated net income for 1965 also includes non-recurring item of \$4.2 million realized from sale of Western Pacific stock.

Rail freight revenues were record \$551.8 million despite adverse effects of the dock strike at gulf ports, floods in the midwest and Rocky Mountain regions during the first half of the year and absence of military traffic related to the 1964 desert strike maneuvers in California and Arizona, Express revenues increased 3.8 percent, while passenger revenues decreased 3.9 percent and mail revenues dropped 2.0 percent.

1.17 percent while revenue freight ton miles increased 4.59 percent and rail freight revenues increased 3.4 perreflecting a continuing cent. trend toward heavier loadings of cars, longer average haul and changes in the types of handled, procommodities ducing a higher average re-

The most significant increase in loadings was in grain but there were also encouraging increases in iron and steel products, chemicals and in the movement of coal and coke, Piggyback traffic and shipment of new automobiles in multilevel rack cars showed increases of 21.4 percent and 37.8 percent, respectively, over 1964.

Capital expenditures for modernization and improve-

of 157.3 million in 1965. The major expenditures were for 111 road diesel locomotives and 5,970 freight cars of various types. Physical plant improvements included completion of 37.5 miles of trackage in the York Canyon Line over which a unit coal train will

commence operations in 1966. Gross capital expenditures now programmed for 1966 total a record \$188 million, including appropriation of \$43 million for 2,700 new freight cars since the first of the year. New equipment authorized includes 60 diesel road locomotives and approximately 7,800 freight cars including more than 3,000 trough hatch 100ton covered hopper cars for handling of bulk commodities,

The report pointed out that an acceptable compromise had been reached by agreement between the Eastern and Transcontinental Lines in the Transcontinental Divisions case which has been pending since 1954. The agreement accords the Eastern Lines an increase in divisions approximating half the amount they would have received under an Interstate Commerce Commission decision. The annual reduction of Santa Fe revenues as a result of the settlement will be about \$3.6 million. This case also involves disputes with midwestern roads, and while settlement has been reached with midwestern roads representing approximately 60 percent of the revenues accruing on the traffic affected, the remaining midwestern roads rejected the proposed settlement and litigation will presumably have to continue in the Supreme Court as to this portion of the divisions

According to Marsh, "Revision of Federal Laws relating to carriers is long overdue to rectify the unequal treatment of the several forms of transportation and to recognize the far reaching changes in the competitive situation existing in this country today,

The railroads still hope for enactment of legislation providing for (1) equality of regulation and greater freedom of rate making, (2) adequate user charges for publicly provided facilities, and (3) the ations." The report pointed out are included in the current administrative recommendations ment reached a record level on transportation policy.

The final tabulation of cotton production from the 23 Texas | 25 or 35 percent with strong

Plains counties represented by Plains Cotton Growers, Inc., came to 2,205,-097 running bales in 1965. This is the third largest crop on record for the area and is over 300,000 bales above the 1,899,351 bale total for 1964. The figures were compiled

crop. The 1965 output on the Plains was exceeded only in 1961 and 1962, when totals were 2,344,-803 and 2,328,293 bales respectively.

by PCG from the U.S. Bureau

of Census report on state and

county ginnings for the 1965

The prolific High Plains area accounted for 14.79 percent or about one-seventh of the 14,-912,461 bale total U.S. production, and 47.62 percent, almost one-half, of the 4,630,-181 bales grown in Texas.

Lubbock County again lead all Plains counties with 271,943 bales, and was the fifth largest producer in the nation behind California's Fresno and Kern counties, each with over 400,000 bales, and Maricopa and Pinal counties in Arizona, with 304,753 and 277,141 bales respectively. Other High Plains counties ranking in the nation's top ten were Hale, eighth, and Hockley, tenth. Joining Lubbock County to

lead all Texas counties in cotproduction were Hale (216,475), Hockley (199,288), Lamb (193,141) and Lynn (185,-619). These were followed in Texas by Hidalgo County which turned out 169,739 bales. The air is rife with spec-

ulation as to how much production will drop in the nation and on the High Plains under the new cotton law effective this year. This law calls for a mandatory acreage cut of 12 1/2 percent on all farms and gives farmers the option

payment incentives offered those electing the larger cuts,

Friday, April 1 was the last day for farmers to "sign-up" with county ASCS offices to indicate their planting intentions, and the extent of acreage reduction on the Plains won't be known for some time after that. But preliminary reports show a high percentage of farmers, both on the Plains and elsewhere, taking the maximum 35 percent reduction.

So it is probably safe to say that this area has seen its last 2 million bale crop, at least for the four years of this pro-

once again be Easter. In some lives, Easter becomes an exhibition instead of an experience, a blissful one-day affair instead of a year long inspiration. To some it means beautiful flowers, new clothes and unusual hats. But to others it brings the true meaning, the assurance that Jesus Christ was what and who He claimed to be, the Son of God. To each of you, my family would like to wish you a most blessed Easter, not only on April 10, but all year long. I read a little poem the other day and l think it is very good and I would like to share it with you. "ALL MY LIFE"

EASTER PAGEANT The Southland Elementary School will present an "Easter Pageant" tonight beginning at :30 p.m. The students will portray some of the events that occurred from Palm Sunday to the resurrection. The Pageant will have a cast of 79 and a choir consisting of 81 voices will be featured. There will also be special music and poem recitations. The teachers and pupils have been working very hard on this Easter Pageand and we think that it is going to be very special. The public is cordially invited to attend. There will be no admission charges, but it has been requested that no cameras be brought. Hope to see you there! DISTRICT GAMES PLAYED

The Southland High School and Junior High girls played their district volleyball games at Sundown last week. Since there has been so much flu in our little school, a lot of the girls didn't get to attend the games, so it was a little rough!

High School won fourth place and those playing were Polly Martin, Patsy Gindorf, Libby Sales, Jettie Crawford, Marian Eckert, Mickey Mason, Judy
