I wish I could say that I wrote the following , but I must give all the credit to Bernadine Grabber, who works here at the Slatonite, and comes up with something "bright" quite often. Bernadine is an exceptional employee, and as you read this, you will see why it is a pleasure to work with her . Her wit and efficiency makes the days pass faster.

Decisions! Decisions, Decisions!!

There 's an old saying, "if you take care of the little things, the big things take care of themselves." But these mass-media commercials intruding upon the housewife's daily life give her a lot of tough little decisions to make, to wit:

Shall she run over her child's trike in the driveway-or take a pill?

Does she want the shirt collars to come not clean, but clean clear through. Is there enough muscle inner washing machine? Does she fight a cold with the reliable old remediesor swallow a clock that bubbles for twelve hours?

Shall she take the lunchtime sponsor's suggestion of thirty kinds of soup, crackers and a vapo-rub? Is the vapo-rub to spread on the crackers?

If nine out of ten doctors take schmalta pills, wonder what kind the other one takes?

Shall she have double pleasure or an assortment of gay colors in her chewing gum?

Shall she bite off her poor old mother's head for suggesting more salt in the stew-or shall she take a pill?

Does she want to be out in front-or is it really what's up front that counts?

Shall she just go to bed and sleep all night -or would she rather have ping pong balls bouncing on her pillow?

Shall she wash away her gray with loving care or would she just keep her same ol'varigated wig? And why can't she get her family to brush after every meal? When she needs a quick fresh lift, shall she take a drink or an elevator? Hardest of all is that stunning poser: Shall she be a dish-

washer-or buy one? Ridiculous choice isn't it? Decisions, decisions, decisions!!

We spent last Christmas up there, and had our first experience with riding on a ski-do. It is similar to a golf cart but is built on a ski. Just the thing for a tired ole reporter who is too lazy to climb the mountains, but doesn't want to miss out on any fun.

### "Iesous ahatonhia!" These words of joy and exultation come from Canada's first Christmas carol. If they seem somewhat incomprehensible, the explanation is simple. They are written in the language of the Huron Indians. The meaning is, "Jesus is born!"

The carol of the Huron nation was written by Father Jean Brebeuf, Jesuit

If you've experienced the fever, chills, headache, sore throat, cough, soreness and aches that accompany a case of the flu, you probably want to have nothing more to do with the disease.

Influenze, as the disease is properly called, is caused by virus, one that can only be seen with powerful electron microscopes.

A person who has, or is coming down with influenza, will have the minute virus in the fluids of his nose and mouth. The disease is spread when

Vaccination is the only effective method of preventing flu, although good sanitation and personal hygiene are a help. If you wish to be protected against influenza this winter, you had best act quickly.

Flu shots should be obtained early in the fall, and completed at the latest by mid-December.

# Stocking Up Starts with Santa

Santa Claus, envisioned today as a jolly, cheerful man with an affinity for children, was a romanticist too, according to legend.

The first Santa Claus, St. Nicholas, started the custom of hanging stockings by the chimney when his romantic heart was touched, and he gifted a bankrupt merchant's hree marriageable daughters with gold for their dowries. Desiring anonymity, he tossed the three bags of gold through the window, or, as some tell it, down the chimney. One of the bags landed in a stocking which had been hung up to dry on the mantelpiece. Hanging up stockings thus became part of the holiday

## Where Santa Is "Right At Home" Along with "Why is the sky blue?" and "Why can't I see

the wind?," the favorite question of children everywhere i very often, "Where does Santa Claus live when Christmas i all over?'

Parents faced with this puzzler needn't get involved in explanations of just what and where is the North Pole They can answer, with a straight face and a map to back then up, "Why, Santa Claus, Indiana, of course!"

Or how about Bells, Tennessee; Evergreen, Alabama Holly, Washington; or Noel, Missouri, as suitable quarters for Santa?

These are just a sample of the many towns and villages all over the country that are named in the spirit of Christmas, in the hope of preserving the good will and cheer of this happy season all year.

There's only one disadvantage to living in one of these towns. Local parents, faced with the question, "Where does Santa live?" certainly can't say, "Why, right here in Christmas, Arizona, son," or the next logical question would be, much to Dad's consterna-

# 2 Tigers Named All-District

Slaton High School landed Larry Smith and Johnny Hennington on the All-District 4-AA football team selected by coaches last week.

Smith was picked as a defensive linebacker, and Henning-ton was also listed on the defensive unit as a halfback. Two other Tigers drew honorable mention -- Mike Ball at offensive guard and Leonard Hurst as a defensive lineman,

Denver City, conference champion, paced the all-district selections by placing 11 players on the 25-man team. Morton had 6 selections, Post 5, Slaton 2 and Frenship 1 on the offensive and defensive first teams. Gurad Mike Noble and end Jerry Martin of Denver City and Danny Pierce of Post were the only players to make it both ways.

The Tigers relied heavily on their defense to chalk up a 5-5 record--the best in several years, so it was not surprising that the all-district selections were on the defensive unit. Smith and Hennington are both seniors, as are Ball and Hurst.

## All-District Team is:

# Seeking Log Was **Family Affair**

The traditional Yule log survives today more in art, song and story than as an actual "blazing Yule." After all, not every home has a fireplace nowadays, and even when a fireplace exists, its proportions are usually far from sufficient to accommodate the Yule logs of yesteryear.

During ancient times in England, however, it was a solemn family ritual to select the log, dry it and burn it according to custom. Logs from fruit-bearing trees were preferred.

The whole family went along to select the log, as this was thought to bring good luck for the coming year, and to fright en away any witches.

ly, or did not burn brightly, it meant bad luck ahead.

Andrew Jackson was fond of giving large, colorful parties for young and old on Christ mas Day. Frozen ices, a novelty at that time, were served, and there was a small, frosted pine tree, surrounded by toys. Franklin Pierce introduced the modern Christmas tree to
