Leading the Retail Furniture Association of Texas in Dallas Sunday was island Tomlinson, local furniture dealer and member of the Retail Furniture Association of Texas. Bland was one of the directors meeting convened at 2:00 p. m. The Texas Furniture Association is being held in Dallas week from Monday through Friday.

Tomlinson accompanied his son, Fred, to Dallas. The Slatonite also visited their son, Fred Tomlinson, son-in-law and daughter and granddaughter, Mr. and Mrs. Freddie Howell and family while in Dallas.

Attending the Furniture Association in Dallas this week was local furniture dealer, Clark R. R.

Low parts of rudeness, intolerance, egotism, rumors, prejudices, deep seated hatred, ignorance, selfishness mixed with the lack of desire of understanding can cause a grave situation that stems from a small seed that can affect devastation upon the lives of the innocent and the unborn for generations. These equal parts of various elements of the above mentioned can cause happiness and prosperity for EVERYONE.

According to opinions of many, the flowers of the past few days have been welcome. If its benefits I'm not complaining, but I have the Slatonite's charity raffle Tuesday just 30 minutes prior to the show.

Mr. and Mrs. John Kurtz of Lawrence, Kansas, were in this week to re-subscribe to the Slatonite. They have been visiting their mother, Mrs. Julius Stahl, Phoebe, together with other family. Mrs. Kurtz states she had a 2-day celebration, Wednesday being her birthday and Thursday being the Fourth of July.

Without a license is issued upon by the Game and Fish Commission; at least that seems to be the proper conclusion after the large number of fish handed out at Buffalo Station on July 6th. Understand some regulations were issued to residents of Precinct 2 alone. Minimum fines levied here were \$25 (including court costs).

Additional bits of information: Does your alligator mope? To keep him out of it, keep his water at 75 degrees night and day and use a sun lamp and keep in combination.

Plastic can now be blown into bottles.

Some oil may soon be helpful as a dietary aid, we hear. A process has been developed to make proteins and supplements from petroleum products.

District Judges Get Pay Boost By Commission

Salary increases for each of the three district judges serving Lubbock County were approved Monday at a meeting of the County Commissioners Court.

Increase of \$3,500 per annum was authorized for each judge; this together with \$1,500 already received from county funds, added to the state salaries, is reported to provide an overall salary of \$17,000 per year for the judge position.

In other budget consideration, the court authorized increase of \$25 per month for the courthouse building superintendent, for the remainder of the year, bringing his salary to \$525 per month.

A Slaton firm was awarded contract for purchase of two pickup trucks, Slaton Motor Company low net bidder at \$2,913.06 for two trucks equipped with V-8 engines and standard shifts. The bid was said to allow trade-in allowance of \$800 for two old trucks.

In other action the commission approved 14 time deposit transactions, purchased several items of right-of-way, and approved a number of special bills.

Present at the session were County Judge Bill Davis and Commissioners George Green, Arch Lamb, Les Derrick and Alton Brazell.

Applicants For Postal Jobs Are Solicited

The Slaton Post Office is seeking applications from local residents who are interested in becoming postal clerks or city carriers. Postmaster Rush Wheeler announces.

Persons who apply and who pass a written test given by the civil service commission will be placed on a list of eligibles, and will be considered for future job openings.

Clerks and carriers are now paid a starting rate of \$2.26 per hour. Anyone interested in a carrier in the postal service may obtain complete information from Postmaster Wheeler, or from the executive secretary, Board of U. S. Civil Service Examiners, U. S. Post Office, Fort Worth, Texas.

The Post Office Department is the largest employer in the Federal Service. Postal employment is unusually stable and normally leads to a lifetime career.

Together with all federal employees, they receive regular step increases in salary. They have benefits including low-cost life insurance, comprehensive health benefits programs, paid vacations, and substantial retirement incomes.

Little League Champions

Season record of 14 wins and one loss shows unmistakably why the Yankees are Slaton Little League Champions for the '63 season. Coach of the near-unbeatables was Ed Stricklin, with Bobby Taylor as manager.

Non-Political Advisory Group Will Aid Mayor

Relative inactivity marked the regular Slaton City Commission meeting Monday evening.

A statement by the mayor, together with representation from a specially appointed advisory committee, highlighted the short session.

Mayor Cain read a 2-page report to the commission, entitled "Mayor's Statement to City Commission and the People of Slaton," wherein he had stated:

"I ran for the Mayorality with but one purpose in mind and that was to do the best job as Mayor that had ever been done and to serve but one interest—all that I did and that interest—the welfare of the City of Slaton . . .

"One of my campaign promises was that I thought the voice of the people should be heard and respected by the City Administration."

His statement went on at this point to elaborate on the several opinions voiced to him regard-

ing policies, hiring, firing, etc., and he concluded after the many separate instances of both advice and complaint that "it now appears clearly to me that calls, advice and complaints may or may not indicate the majority, and since there is no way for one to know how the majority stands, I have decided that I would like

to have some help . . . I am interested only in doing a good job for the City of Slaton mayor. I am not a member of any faction or group. I am interested in any personal I do not have any grudges axes to grind. . . I have the fore asked a committee of 1 Slaton business and professional men to serve as a MAYOR ADVISORY COMMITTEE."

American Legion Officers Were Installed Monday

Ells Schmid was installed Monday evening as commander of the Slaton American Legion Post in ceremonies conducted by Claude C. Cravens.

Other officers installed were Emmett Waldrop, 1st vice-commander; S. W. Clark, 2nd vice-commander; Bobby Reynolds, adjutant; Joe Teague, finance officer; L. R. Gregory, chaplain; A. Dennis, historian; W. H. Legate, service officer; J. E. Robertson, sergeant-at-arms; and Claude Cravens, judge advocate.

Past Commander Luther Gregory was elected as delegate to attend the Department convention to convene in Fort Worth on August 9th, 10th, and 11th.

Committee Represented Pember was present at Monday night meeting, and as that "commission action"

Committee Represented
Pember was present at Monday night meeting, and as that "commission action" voting for the committee split vote coming at last regular meeting) be rescinded. Pemi pointed out that understand had been by the five men of the committee would not be an official City Committee; that it would not have any authority in city affairs and that it would not in any way usurp the authority of the Commission; that would be non-partisan and not political; that it would be biased, impersonal and unpartisan that it would report its findings to the mayor, and that any action taken before the commission would be by the mayor.

To clarify these points, the commission discussed at length the purpose of the committee, attempting to clear any misunderstanding as to function and purpose, resulting in a unanimous vote that previous Commission vote and action be rescinded. This done, the mayor appointed the same men as an Advisory Committee to the Mayor.

Scout Received God and Country Award Sunday

Scout Byron E. Johnson of Troop 125 in Slaton received the "God and Country" award on Sunday, July 7th, during the worship service in the local First Presbyterian Church. This award was given to Byron in recognition of study and service to the church of which he is a member.

Byron, the son of Mr. and Mrs. Byron E. Johnson of 610 S. 10th St., had been working on the requirements for the award since August 1, 1961. After completing the requirements to the satisfaction of his minister, the Rev. Fred Ryle, Byron met with a special committee of the Slaton Ministerial Alliance to review his work. After that review, the award was approved by the Lubbock and the National offices of the Boy Scouts of America. Byron was handed a letter from an official of the Board of Christian Education of the United Presbyterian Church in the United States of America which congratulated him on his achievement.

Several Scouts from Troop 125 attended the worship service in uniform to see Byron receive the rare award.

Two boys, passengers in the Acosta truck, were believed unhurt. The accident was investigated by Patrolman Bo Melton.

Because of the recent bagworm infestation and increase cost of control of weeds and grass, the Cemetery Board does not have at its disposal the necessary available funds to spray all trees and shrubs, mow all property and chop the weeds, and take care of the necessary expansion that is necessary to the complete operation of the cemetery.

Signed: Jonas Cain, Mayor

EDITORIALLY SPEAKING

Observations and Potpourri

If a nation expects to be ignorant and free in a state of civilization, it expects what never was and never will be. . . where the press is free and every man able to read, all is safe.

—Thomas Jefferson

In scanning over the mailing list of the large number of out-of-town subscribers to the Slatonite, and in talking with the visiting guests the the recent ex-students reunion, we again are reminded that the hometown newspaper is the record and picture of the community — at least so in the minds of our out-of-area friends whose main contact with the community is the paper.

Assuming that this fact be true, we find that a double obligation is incurred: your Slatonite to report fully and fairly, for the community to live an image that makes for good news!

We shall continue in our attempt to be good reporters, and we trust the news you make is good news—that which will favorably project the picture of "the good life" that is prevalent in Slaton.

We can remember our years in the service, especially those overseas, when the hometown weeklies were eagerly awaited. We didn't care whether we knew a person mentioned in our tent-mate's hometown paper . . . we just enjoyed the folksy items, all the time unconsciously, perhaps, forming a picture in our mind of that community in Minnesota or Jersey, though we had never been close to the area.

Though having been in the newspapering business for a number of years before World War II, we believe our experience during that period first caused us to KNOW the influence and image of the old hometown as projected on a printed sheet.

So remember, the headlines next week, and any week, are of your making. Let's have good news, again and again; someone might be reading and watching, you know!

An ambitious young man ventured to approach a great and successful merchant and inquire, "May I ask you the secret of success?"

"There is no secret," replied the merchant. "You just jump at your opportunity."

"But how can I tell when my opportunity comes?"

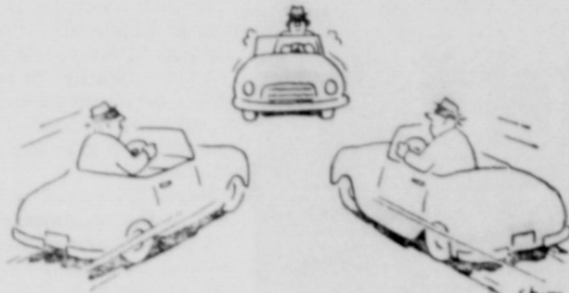

"You can't—you have to keep jumping."

Inspector to Scotsman wishing to join the police force: "Now suppose you came upon a great crowd of rioters and you were all alone, what would you do to disperse them?"

"I'd pass the hat around, sir."

Rushin' Roulette by Chon Day

RUSHIN' ROULETTE

40,500 persons killed in highway accidents in 1962.

YOU TELL ON YOURSELF

You tell what you are by the friends you seek,

By the ever manner in which you speak,
By the way you employ your leisure time,
By the use you make of dollar and dime.
You tell what you are by the things you wear,
By the spirit in which you burdens bear,
By the kind of things at which you laugh,
By records you play on the phonograph.
You tell what you are by the way you walk,
By the things of which you delight to talk,
By the manner in which you bear defeat,
By so simple a thing as how you eat.

By the books you choose from the well-filled shelf;

In these ways, and more, you tell on yourself.

Should Have Known Better

Dale and Ronald Cooley in a recent issue of their fine Limon Leader let their readers in on a shock they got recently. Seems a chap passing through Limon got a bit short of funds and pretty well covered the town seeking someone willing to cash a personal check for him, and finally he came to the office of the Limon Leader. Here he sought to cash a check for \$50.00 written on a counter check of the Hugo bank. The Cooleys were not only very skeptical of the worth of the check, but they felt anyone who expected a country weekly to have a spare \$50.00 in cash in the till, and be ready to part with it for a stranger's signature on a piece of paper must be crazy, literally, actually insane. So they called Town Marshal Jerry L. Kempf, and after he picked up the would-be "paper hanger" it developed the Cooley brothers were just plain 100 percent correct. The chap was on a 24 hour pass from a mental hospital at Norman, Okla., and had papers showing he formerly was a mental hospital patient at North Little Rock, Ark. You may not have to be crazy to try to pass a phony \$50.00 check at a country newspaper office, but it sure is good evidence that you are.

Doug Meador Says . . .

Poverty is seldom a reflection on a man's honesty extended over a lifetime, it may cast a shadow on his try.

Love may change its axis but it ever must remain force with enough might to lift the slab of hate and sunlight to reach the soil where peace will grow.

One of the great tragedies of modern times is that many small boys will never know the glory of having a horse.

Sometimes I am convinced that perhaps a very few separates enthusiasm and egotism.

A liar will not run out of material but unless he has memory, he may eventually be forced to give free to attract an audience.

Corvair 700 Club Coupe

The hardest part about parking a Corvair is finding a nickel

That may be a slight overstatement, but such jauntiness comes easily when you're a Corvair owner.

And you can usually back it up—as easily as you can back up a Corvair. You'll find yourself doing that occasionally, if only to adjust the brakes—they're self-adjusting. That's all there is to it, and that's a good example of how delightfully easy Corvair is to own, drive and maintain.

But since we began by talking about driving, let's stick with that awhile. A large factor in the fun of driving a Corvair is the location of its engine in

the rear. Why the rear? It gives Corvair extra traction on any road surface. It provides a nearly flat floor for more useable interior space. Best of all, it produces steering so light, so responsive, you wonder why no other American-made car thought of it.

Corvair's engine is also air cooled, we might add, which means there's no antifreeze or water for you to add. Ever.

All that pleasure from something so practical almost makes you think Corvair is unique among American cars. Which isn't surprising, because it is!

Beginning with one store in 1953, by January 1, 1963 Shop Rite Foods was operating nine Piggy Wiggly stores, and at that time three more stores and the Piggy Wiggly franchise were purchased in Amarillo from the Boston Family. These three stores have since been replaced with new, large, modern stores. Fantastic growth sprang from this small beginning, and soon Piggy Wiggly customers in other large areas of Texas began enjoying savings gained by volume buying, and Piggy Wiggly began to be recognized as the place to save on nationally famous brands. These facts coupled with the fast, friendly service within the stores made the Piggy Wiggly famous in the west. Help us celebrate our 10th Anniversary by registering daily for these valuable prizes. No purchase is necessary, you need not be present to win. Only residents of Texas, New Mexico, and Oklahoma, 18 years or older may participate. Employees of Piggy Wiggly, its subsidiaries and their immediate families are not eligible.

ground water in the Southern High Plains of Texas is designed to aid in greater profit from the water resource and in turn provide a better way of life for the people of the region; it is not designed to more accurately predict the day of doom.

On south of the Canadian River in Texas. (See insert map in upper left hand corner of the chart) The region includes all or parts of 21 counties and embraces about 10,650 square miles or 6,818,000 acres. Of this acreage about 60 percent or 4,000,000 acres are irrigated with water pumped from wells.

So far as records are available, the first large-scale commercial irrigation well in the region was installed in the fall or winter of 1910. Because numerous factors, some of which were low efficiency of the slow-speed pumps, high cost of oil engines and fuel, and introduction of the tractor which permitted large-scale dry farming, irrigation did not develop rapidly until during the severe drought of the late 1930's.

The left-hand column in the chart shows annual cumulative number of irrigation wells. A study of the column shows that about 45,200 wells were developed during the 52-year period of record; of that total, 27,700, or 61 percent, wells drilled during the 10-year period 1953-62. Few of the wells that were drilled in recent years are used to irrigate new lands; some of them are to supplement previously existing wells, chiefly to do it quicker. Many inevitable, were drilled to offset declining yields, especially where water-bearing sands are very thin.

The second column shows acres irrigated. Most of the ir-

are draining heavily on state road funds. He pointed out that the State Highway Department worked up a plan for access roads to McGee Bend in 1959. That work has been proceeding in cooperation with the surrounding counties. But there was no new Nacogdoches County road in the plan.

State Highway Engineer D. C. Greer stated that the farm-to-market road law specifically authorizes use of that money for building roads to recreation areas. Petry said some people

PADRE'S DEED
Lawyers have drawn up the deed by which state-owned land in Laguna Madre will be transferred to the United States. This land is to become a part of the Padre Island National Seashore.

But deed can't be signed by the School Land Board until the law authorizing the transfer takes effect on August 23.

VACATION
Gov. John Connally and his family took off for the family ranch at Floresville for a brief vacation.

So far his vacation has been interrupted twice for speeches in Austin and Dallas. Connally also took along a pile of work to do. He has many appointments to state boards, Commissions and courts to make. He gathered up a file of letters containing recommendations. These will help him decide whom to name to the two new Courts of Civil Appeals (at Corpus Christi and Tyler), to the new Parks & Wildlife Commission, and to many other state boards.

He also obtained an opinion from Atty. Gen. Waggoner Carr, saying that the six new justices he will name need not live in the districts at the time of their appointments. Only requirement is that they move into the district before they take oath of office.

call these fish-to-market roads. known communist to register. But he has not decided where to bring suit.

A 1951 law requires any communist remaining in Texas as long as five days to register with the Department of Public Safety. No one ever has registered.

Two weeks ago, U. S. Atty. Gen. Robert Kennedy notified the man, a resident of San Antonio, to register within 20 days under Federal registration law, or face prosecution.

Carr picked up the ball and decided to try to make him register under the unused state law, too.

LIQUOR FINES
People still keep violating the liquor laws.

Liquor Administrator Coke Stevenson Jr. reports that his agents filed 743 cases last month. There were 738 convictions, with 28 jail terms for violations. Fines came to \$46,172 during the month.

The Lubbock district, mainly dry, was as usual the location of the largest number of cases among the 18 enforcement districts.

INSURANCE UP
Recommendations of higher auto insurance rates have been made to the State Board of Insurance, by insurance companies, and the Board's own staff.

Losses under current rates prompt a general statewide increase averaging 8.6 per cent. But there are variations.

Farmers and ranchers, who have chalked up a good non-accident record, will get substantial cuts. They will range from 20 to 30 per cent, in various parts of the state.

City drivers will face higher rates for their public liability insurance. Statistics show that where there are more cars there are more accidents.

State is divided into 26 rating territories. Drivers living in safer areas will pay less for their insurance.

Board will announce its decision soon, and new rates will take effect on August 1.

SEWER AID
State Health Department has compiled a list of 37 cities awaiting word that Congress has appropriated money to continue the federal-aid program for construction of sewage treatment facilities.

These cities have applied for \$4,067,626 worth of grants to help them build \$15,980,384 worth of projects.

Expected Texas allocations is about \$3,200,000. So some will have to do without federal aid—or wait for next year.

ETHICS
Three representatives who piloted a tough code of ethics bill through the House of Representatives still are trying.

Reps. James E. Nugent of Kerrville, Robert C. Eckhardt of Houston and Travis Peeler of Corpus Christi presently are seeking help from the Attorney General in drafting a new version for the next session of the Legislature. Later on they hope to talk with Governor Connally about it.

Their bill zoned through the House. But it was nixed in the Senate.

It would prohibit state officials (and legislators) from having extensive business holdings in areas they regulate—or legislate.

SWEDS CELEBRATE
Some 1,300 Texans of Swedish descent gathered in Austin to observe the 125th anniversary of the arrival of the first Swede in Texas.

He was S. M. Swenson, who became quite a power in Texas affairs, and then brought hundreds of other Swedish immigrants to Texas.

Swenson family still operates a large ranch in Throckmorton and Jones Counties.

A program in two languages marked the observance.

CLERKS
Folks who keep the official records in the 254 courthouses of Texas had a convention in Austin.

County Clerk Val D. Huvar of Victoria County wound up as the new president of the County and District Clerk's Association of Texas.

Runnels County Clerk Frankie Berryman was named first vice president, and will move up to president in 1964.

SALES UP
Retail sales in Texas improved a bit in May, after a slump in April.

May sales were 4 per cent above April and 1 per cent above May, 1962.

RAINS ON THE RANGE
Ranchers got some breaks in some parts of the state, reports the U. S. Department of Agriculture.

Summer range and pasture feed prospects continue on the upgrade in the northwest part of Texas. Prospects also were improved by rains in the central and southeastern parts of the state. There ranchers had been culling herds, and sales had been heavy until the rains came.

BED-ROCK RULING
Securities Commissioner William M. King issued an order prohibiting further sales of stock in the Roka-Bed Corporation of Lubbock.

Firm was organized to make children's furniture, including a baby bed which would rock baby to sleep when he cries.

Advertising said Roka-Bed had been tested on 5,000 babies. But promoters told investigators no such tests had been made.

Stock was sold to about 200 persons, mainly in the South Plains area.

FARM NEWS

BY BERT NEFFLEY

We were privileged this week to take a leisurely tour of the experimental operations at the Tech farms, and we do not hesitate to recommend a similar inspection by any of our friends.

Some of the experiments were being carried out, and effectively so, via methods that would cause grand-dad to turn over in his grave—in disbelief. For instance: Radio-active materials, geiger counters, and other scientific implements are utilized in testing root patterns, moisture withdrawal, etc. Sure looks unbelievable to see fine crops growing around signs that warn "radio-active material in use".

Hear lots of discussion on the benefit of the warm days as cotton-growing weather. Actually, we bet the warmer nights are

doing the most good. Heard one farmer, whose crop was some "three weeks late" in planting time, say that he now considers his cotton only two weeks behind, the conducive weather helping him to gain a week. Believe Agent McElroy knew what he was talking about in forecasting a normal or near-normal crop.

Farm mortgages recorded during 1962 amounted to \$3.5 billion, or 16 percent more than the preceding year. Take your pick of the reasons: new technology, price-cost squeeze, consolidation and enlargement of farms, reduced farm income or depleted financial reserves.

One bright spot is that land values have increased along with the farm debt.

G. A. Camp Being Held This Week

Dr. Charles Wood, pastor of the Slaton First Baptist Church, is serving as assistant camp pastor at the G. A. Camp being conducted for girls at the Floydada campsite this week.

Two groups of local girls are attending the camp expected to draw attendance of nearly 1,000 Baptist young people. Nine local girls, ages 9-10, left for the camp Monday morning in company with Mrs. Wood and Miss Canzada Lee. Another group, in the 11-12 year age bracket, went to the camp on Wednesday.

CARED FOR CHILDREN

Slaton High School FHA girls cared for children of adults who attended the beginning clothing construction class taught at Slaton High School June 24-28, by Mrs. Judy Davis and Mrs. Joyce Cheatham.

Attending the class were Mrs. A. R. Pierce, Mrs. Laura Roberts and children Leslie and Cissy, Mrs. J. O. Holton, and Mrs. Alton Meeks.

Girls in charge of child care were Dianne Underwood, Paula Dunn, Jan Scott, Nan Saage, Joan Claiborne, Thelma Kidd, and Mary Ruth Green.

Police Activity

Jail arrests over the July 4th week-end were even fewer than usual, city police records show. Arrests included: disturbance, 1; drunk, 7; destruction of private property, 1; simple assault, 1; possession by minor, 3; and one man held for the Lubbock sheriff's office.

Lin Gallegos was charged with burglary and transferred to the sheriff's office. The subject was reported working in the yard of Mrs. Tom Turner, 405 S. 8th, on Friday morning; when Mrs. Turner went into the house to get money to pay him, she discovered a dresser drawer ransacked and a screen on a nearby window cut. Gallegos gave a statement to Chief Gene Martin in presence of witnesses, but refused to sign the statement.

Hubcaps were reported stolen, and an attempt was told of entry to a soft drink machine at the Kirksey Gulf Service Station, the machine damaged to some extent.

The high school building on North 20th was entered Thursday night through a window broken on the east side. A day earlier a pay phone was taken from the wall at the Slaton Theatre, part of the phone found later in the alley behind Self Furniture.

Earl Lavoy McCuiston Jr., 22, of Rt. 5, Taboka, was charged in Justice Court at Lubbock with assault with intent to rape, records at the District Attorney's office reveal, the victim described as a 14-year old Slaton girl. Bond of \$2500 has been made, according to the sheriff's office.

MR. AND MRS. J. W. LAMB

Golden Wedding Celebration, Open House For Mr. and Mrs. J. W. Lamb on Sunday, July 21st

Friends of Mr. and Mrs. J. W. Lamb are invited to an open house celebration on Sunday, July 21st, honoring the pioneer couple on occasion of their Golden Wedding Anniversary. The open house will be held between the hours of 3 and 5 p. m. on the anniversary date at Fellowship Hall, Wilson Methodist Church.

Mr. Lamb and Miss Lena Parish were married July 25th, 1913, near Milford in Ellis County, Texas. The vows were read in the home of the bride's mother and father. The newly married couple lived and farmed in that vicinity for the first four years of their marriage, then moving to West Texas in 1917 where they

farmed near Slaton for 14 years. Next move was to Lynn County, near Wilson, where they have lived for 32 years. Mr. and Mrs. Lamb were childhood acquaintances and school mates in the Hamlett Lane Community in Ellis County. However, Mrs. Lamb admits that it probably was not "love at first sight".

Four of six children of the marriage still are living: R. A. Lamb of Wilson, Herbert Lamb of Seattle, Washington; Mrs. O. W. Lemon, Lubbock and Mrs. O. W. Ray of Slaton. Also there are 11 grandchildren and five great grandchildren.

Both Mr. and Mrs. Lamb are lifelong members of the Methodist Church, and he still teaches a men's Sunday School class and has been song leader in various churches for more than 50 years. Mrs. Lamb is active in WSCS work and other church and community activities.

"We enjoy being home folks," Mrs. Lamb stated, "and we are interested in what goes on in our community and church. We haven't traveled much, being more interested in the things about us."

Both enjoy reading and can't remember when they didn't take the Slatonite. All friends and relatives are extended a warm invitation to celebrate with the Lambs on July 21st.

Bride-Elect Was Feted With Shower

A miscellaneous shower was given in the home of Mrs. Erwin Heinrich, Sunday, June 23rd, honoring Miss De Etta Buskemper, bride-elect of Mr. Donald Shelby, the wedding transpiring June 27th.

In the receiving line were the bride-to-be, Mrs. Oscar Buskemper, Mrs. Luke Shelby, Mrs. F. K. Heinrich and Mrs. C. W. Buskemper. Guests were greeted by Mrs. Erwin Heinrich.

Hostesses consisted of the following: Mrs. C. W. Buskemper, Paul Meurer, Florence Strube, Alvin Buskemper, Leon Buskemper, Paul Buskemper, Eugene Bruedigam, Henry Kitten, Curtis Bruedigam, Erwin Heinrich, Willie Heinrich, Herbert Heinrich, Durwood Cordell, Bill Seideman, Frank Kitten, O. From grain so light to pleasure bright

IN TEXAS **BEER IS A NATURAL**
From nature's light grain comes sparkling, light beer... Texas' traditional beverage of moderation - it's light, sparkling, delicious.
And naturally, the brewing industry in Texas considers it noteworthy that it contributes more than twenty million dollars to the state in exise taxes each year plus additional millions in licenses and permit fees. These millions of dollars help support our public schools, farm roads, old age pensions, teacher retirement funds and help needy children and blind citizens.
