George Green Announces For Re-election

George G, Green, Lubbock county commissioner of precinct 2, today authorized the Slatonite to announce his candidacy for re-election subject to the Democratic primary.

In announcing his candidad Green said:

"I want to again thank the people of Precinct 2 and Slaton for the fine support you have always given me in my previous campaign and again I solicit your support in the upcoming election in 1966.

"I am fully aware of the tax burden of each tax payer in Lubbock County and I have tried to give each one a fair representation of each tax dollar spent. Our tax rate of Lubbock County has at all times been reasonable, in fact, only six or seven counties in the State of Texas can boast a lower tax rate.

"Precinct 2 has more miles of county paved roads in it, than any two precincts or possibly all three precincts. I have built between 80 and 90 miles of paved roads out of precinct funds in Precinct 2. "The paved roads are vital

to the economy of the precinct. I feel like a county that grows as much cotton and grain and other farm products as Lubbock, does have a great need for good roads not to mention the help it is to school buses, rural mail carriers and local traffic. "I have cooperated with city

and school officials in Slaton in helping them solve some of their problems. I think Slaton can be very proud of their park and club house which is one of the nicest in Lubbock County.

"If again elected to this office, I will try to the best of my ability to merit your confidence in me,

"Your vote and support will be greatly appreciated,"

My daughter, Mrs. Everett Mangum invited me, her brothers and sisters over for supper Christmas Eve. After supper we all exchanged gifts and had a very enjoyable occasion. Attending were the Charles Gentrys and children from Lubbock; Mr. and Mrs. Ray Johnson and daughter, Brenda; Mr. and Mrs. Bobby Swann and children, and myself.

I think most of the cotton crop has been gathered around here. It is very unusual for the cotton to be gathered so late here, but we had so much warm weather it stayed green and refused to stop making. We gathered more cotton than we ex-
