## CASEWORKER HERE EACH WEDNESDAY Welfare Program Outlined

In order to reach indigent and needy families who cannot go to the Lubbock office, Lubbock City-County Welfare Department is now sending a case worker to Slaton each Wednesday afternoon.  
The worker will be in the mayor's office at Slaton Municipal Building from 1 to 4 p.m. each Wednesday. Applications for assistance will be taken by the case worker, and she can also certify eligibility.  
Announcement of the new service was made last week by Bill Smith, Slaton board member, and Mrs. Rosa Settles, director of the City-County Welfare Department.  
Mrs. Settles explained that the City-County Welfare Department is a public, tax supported family agency established primarily to meet "the un-

Slaton School trustees approved a budget of \$855,568 for the 1967-68 term, and also approved a full state-passed salary increase for teachers, amounting to about \$50,000 here, during a meeting Tuesday night.  
Last year's budget was tabbed at \$1,051,884 but included almost \$288,000 in new buildings. The new budget, except for teacher pay raises, will be about the same as last year's operating budget.  
In other business, the board approved contracts for nine new teachers, set the school cal-

endar for the new term, selected a depository and approved bills.  
The teacher pay hike, as approved by the state legislature, gives a \$630 basic raise per year for each teacher. The raise actually ranges from \$630 down to \$396, depending on the teacher's degree and years of experience.  
Supt. Lee Vardy said the raise would probably average about \$535 per year for local teachers. In discussing the pay increase, Slaton trustees decided to keep the \$200 above

state minimum in effect here.  
In other words, the state minimum salaries now begin at \$4,734 and Slaton will be paying \$4,934. Beginning pay for a master's degree is \$5,040 and Slaton will be paying \$5,240. Teachers get automatic increases for each year of experience.  
The board also approved the full state increase for special teachers and administrators. The school board recently voted a 15 percent across-the-board tax increase for this year to take care of increased teacher

pay.  
School will start here Sept. 5, observing the traditional Labor Day holiday on Monday before starting classes Tuesday. The board debated between Aug. 28 and Sept. 5 before choosing the latter date.  
A change on the calendar this year was approved when trustees decided to set up a full week for the Easter holiday. Classes will dismiss Friday afternoon of April 5 and resume on Monday, April 15. This was just two more school days off from the usual Thursday-

Friday-Monday holiday at Easter.  
Other holidays include Thanksgiving, Thursday and Friday, Nov. 23-24; Christmas, dismiss Thursday, Dec. 21 and resume Wednesday Jan. 3; District Teacher's Conference, Friday, March 2.  
With the approval of nine new teachers, Dr. Vardy said the faculty was complete except for a high school math teacher and junior high band director. New Teachers employed: Mrs. Maxine Walker, S.F. Austin; Mrs. Pat Branscum, Evans; Mrs. Sandra Cole, Evans; Mrs.

Connie Gardner, West Ward; Mrs. Lucille Jordan, junior high; Joe Sparkman, junior high; Mrs. Georgia Shipley, junior high; Miss Garne Harris, high school; Ronald Lyda, high school.  
Citizens State Bank was again approved as the official depository for school funds. Trustees also approved the school's membership in the Educational Service Center.  
Dr. Vardy reported several applications had been received for the position of school tax assessor-collector but requested no action yet.

The City Commission selected Head in a closed-door meeting last Thursday. Mayor Cain

said the commission was called to discuss applications, but went ahead with the decision to hire Head after looking over his qualifications.

### Recipe Of The Week

BY LAVON NIEMAN

I don't know if it's a record or not, but this reporter thinks 10 grandchildren living within a block of their grandparents is "a big bunch of grand kids". If you think your grocery bill is high, think what Mr. and Mrs. Virgil Jones might be with 10 grandchildren in and out of their home almost every day. Maybe that's why they have a vegetable garden by their home at 1120 W. Dickens.

Or maybe, it's like Mrs. Jones says, "It's my hobby--gardening and grandchildren". She also enjoys quilting and remembers the grandchildren when it comes to that hobby, too. She is quilting her 14th quilt, having given each one to one of her 14 grandchildren.

She says her greatest ambition is to see their grandchildren grow up and make fine citizens.

You'd think after visiting with the grandchildren all week, she might like a rest on Sunday. But when Sunday rolls around, another set of children get her attention. The babies in the nursery at the First Baptist Church get their share of her love Sunday after Sunday. She and her husband have been working in the nursery about 10 years.--this time, about 19 years ago they worked in the nursery for several years.

The Jones' children living within a block from them are Mrs. Bob Milliken, Mrs. A.W. Latham and William Jones. Their other children are Joe Bob Jones of Happy and Roy Jones of San Angelo.

Following are some of Mrs. Jones' favorite recipes. She said with all the squash she grows, she needed to prepare it some way where the children would eat it and "invented" the following recipe for "Squash Casserole".

**SQUASH CASSEROLE**

4 or 5 medium tender squash  
1 medium onion  
1 egg  
Fritos  
Cheese  
3/4 stick oleo

Boil egg. Cook and mash squash. Cook onion in the oleo until tender. Mix with squash, salt and pepper to taste in casserole dish. Chop boiled egg over squash, grate cheese over top, crush Fritos and cover. Place in medium hot oven until cheese melts and Fritos are brown. Serves 6 to 8.

**MAN'S POUND CAKE**

1 cup shortening  
3 cups sugar  
6 eggs separated  
1 cup buttermilk  
3 cups flour  
1/4 teaspoon soda

1/2 teaspoon salt  
1 teaspoon almond  
Blend sugar and add yolks of eggs  
Sift together flour, salt and add almond buttermilk. Fold beaten egg whites, tube pan one hour  
utes in 350 degree

**BEAN SALAD**

1 Tablespoon salt  
1 cup sugar  
1 cup vinegar (white)  
1/2 cup salad oil  
Mix and let stand  
1 #303 can Lima Beans  
1 small can green beans  
1 small can English  
Drain in colander  
Chop small jalapenos, 1/2 cup onions, 1 cup chopped large green peppers  
Mix all ingredients  
stand in glass bowl in refrigerator, served, keeps indefinitely

**ORANGE GLAZE**

1 cup butter  
4 eggs  
2 cups sugar  
4 cups flour  
1/2 teaspoon soda  
1-1/2 cup buttermilk  
1 table spoon grape  
1 cup chopped pecans  
1 8 oz. package of Cream sugar  
Cream sugar together. Add eggs sugar and beat. Add and soda top creamed mixture with buttermilk, rind and dates and into greased, flour  
Bake 1-1/2 hours done. Before remove, punch holes  
Four hot icing over pan and let cool  
moving from pan.  
**ICING FOR GRANGE**

## Fatigue..Woman's Greatest Enemy

BY RUTH RUCKER

Fatigue--where does it come from?

To begin with, a woman's biological nature makes her more vulnerable to fatigue than men. There are times in the monthly menstrual cycle when physical and emotional re-

serve strength are lower than usual. And too, there are three periods of great bodily change--adolescence, pregnancy, and menopause--when fatigue is inevitable. These are God's laws of nature, and woman can do little but to accept and adjust.

But modern women of today are fatigued for other reasons. One of the utmost problems revolves around the female role. What is a woman's role in life? Wife, mother, and homemaker? Assistant breadwinner? Career woman? Worker for community good? A combination

maybe? Which results in strenuous efforts to perform multiple tasks.

Social change has made a terrific impact on the modern female, too. Couples are marrying earlier. Millions of women with pre-school children are working outside the home. Families are on the move; some even live on wheels. It becomes more and more difficult to make a home a place for rest, refreshment, and contentment.

And fatigue comes from unsuspected sources, too. Loneliness, frustration, the compul-

sive drive of modern life causes a strange kind of fatigue which can not be remedied by normal rest.

So, even in a society filled with time- and labor-saving devices, women are fatigued. It is the noise of modern life that destroys the soul. If a woman neglects her own personal security, then when the noise stops there is no inner music.

Fatigue has many faces. The frustrated, the bored, the lonely, those who suffer from an inability to love. The genuinely overworked. Those who try to be all things to all people. Those who live with secret fear and guilt. Those who live with uncertainty. Every woman must look within herself, recreation, and some means of expressing her creative values. Women need a break in the circle of monotony!! A woman needs to find her something to make her feel more of a whole person. Every woman can and must find something to stimulate her mind and heart, or she loses the value of living!

A personal appraisal is the key to happiness in life. Assess your responsibilities, and accept those which are of most importance to you as an individual. Understand your physical make-up and your metabolic pattern, and then adapt according to it--for it cannot be changed. Plan your time, but MAKE time for rest, recreation, and reviving your zest for life itself.

There is a natural order of life, and in this order of things we must live. A time to be born and a time to die; a time for being young and helpless and a time for growing up; a time for falling in love; a time for growing older. We cannot change this anymore than we can change the passage of time itself.

Part of the secret in mastering the fatigue problem is knowing and accepting Nature's timing. I speak not only of the laws of physiological growth and biological development, Life inevitably brings sorrow, suffering, joy, contentment, struggle, achievement, and disappointment. There is a time for each of these. Man has the choice between accepting them in faith--faith in life as a whole--or fighting them in bitterness and loneliness. Wisdom comes from the awareness of timing, recognition of change, and knowledge of one's own limitations.

True, the clamor of modern life sometimes obscures that deeply personal sense of rhythm and timing in our lives. It gets lost in the blare of the radio and television, the whirring of labor-saving devices, the urgent beep of the car waiting at the door, the insistent ring of the telephone. But we must keep close to the murmur of that inner melody that tells us who we are and what we are about; otherwise we will be pushed here and there on ceaseless waves of life which get us nowhere.

"Be still, keep quiet, just do your best. And know that I am God."

William C. Nall and wife of Long Beach, Calif., are here visiting his mother, Mrs. Elizabeth Klaus, and other relatives and friends.

woman to realize her own physical and emotional limitations. Ask yourself these questions: When do I have energy? How long does it last? How long can it keep renewing itself under different kinds of strain? How does my energy vary in the daily cycle and the monthly cycle?

Because of their biological make-up, a woman's available energy is variable. There are times when her store of energy rises and falls capriciously; so she must plan for it. These times must be handled with understanding, intelligence, and HUMOR. When your emotional tone is low and dreary, do not drive yourself. Do what you can.

Changing pace is a helpful technique for happy management of the stresses of life. Every woman, if she is to cope with the fatigue problems, needs planned rest, some time to herself, recreation, and some means of expressing her creative values. Women need a break in the circle of monotony!! A woman needs to find her something to make her feel more of a whole person. Every woman can and must find something to stimulate her mind and heart, or she loses the value of living!

### Slaton Coaches Attend Annual THSCA School

Football season is officially underway for Slaton High School Coaches' Association Coaching School in San Antonio this week.

Athletic Director and head football coach Ernie Davis and his five-man staff will join some 5,000 football, basketball and track instructors from high school and college throughout the nation in one of the best schools of its kind anywhere.

The men's heavy schedules during the four-day session will include classroom lectures from 8 a.m. to noon and from 1 to 3:30 p.m. This is followed by field demonstrations of plays and procedures mapped out in the classroom.

The coaches turn spectators Wednesday and Thursday nights for the annual all-Star basketball and football games.

Attending from Slaton schools are Davis, Bob Martin, Kenneth Housden, Eugene Franklin, R.G. Copeland and Joe Sparkman. Mrs. Davis, Mrs. Martin and Mrs. Franklin also made the trip to San Antonio.

**Shoe Story**  
For every pair of shoes a man buys, his wife buys three, according to the U. S. Department of Agriculture. His daughter also gets three pair for every one he buys the boys. An optimistic note is that women and girls usually pay less for shoes than men.

## OUTDOORS IN TEXAS

BY VERN SANFORD

Fishing is the most popular recreational activity. So states the Department of Interior. Recently the Department completed a study of some 40 recreational areas around the country, extending from the Virgin Islands to Mt. McKinley in Alaska. These areas provide "wide and colorful fish" ranging from tarpon to trout.

With this money, and with the help of industries, the state is telling the Texas story to the nation. Hunting and fishing are two important assets that will attract tourists to Texas. Texas has more deer population than any other state. More deer are being killed here every year than anywhere else in the nation. Furthermore, we have more equitable laws, and our non-resident license fee is nominal.

Now Texas is adding a facility to the list—Padre Island, the national seashore from Corpus Christi to Port Isabel. Here is a stretch of land little more than 100 miles long, off the coast of Texas. A major portion of it is being taken over by the Federal government. A superintendent has been appointed and the development is to get underway soon.

As for fishing Texas has forged ahead of many other states. Originally Texas had practically no water. But there are many impoundments today to provide top fishing, especially for bass, crappie and catfish.

Appliances Household appliances you don't use are an unwise investment. To get full value from money invested in appliances, learn to use and care for each appliance correctly. Try to use the appliance in as many ways as you can, and always refer to the manufacturer's instructions when necessary.

Mrs. Swindle is very active in the Home Demonstration Club and is forever winning blue ribbons on her flower arrangements. Mr. Swindle was building on a barn out at the farm when the Monks got there. They must have asked about everyone and they said to say a big "HELLO" to everyone. If you ever go anywhere close to Paris, go by and visit with the Swindles. Their address is 2524 Lamar Ave., Paris, Texas, and their phone number is 4-2711.

Howard Monk's sister, Mrs. Cleta Rudolph from Columbus, Ohio, and his brother, Jimmy O'Conner from Carlstad, N.M., were recent guests in the Howard Monk home.

Well, our three cheerleaders, Karen Melcher, Dayneen Dunn and Sherri Wilke, returned from Texas Tech on Friday, tired but happy. Seems like they did real good while they were up there, because they came home with two blue ribbons and three white ones and they came out in third place in their division. They did a few new yells for me and they looked pretty good to me. Congratulations, girls. We'll be out there watching you, come September.

## LETTERS TO THE EDITOR

July 31, 1967

Dear Sir:  
My copy of The Slatonite for July 20 has just arrived today. Do you know of any reason for the delay?  
I am writing to you for two copies of a picture of J.B. Young that appeared in the Slatonite July 6. Also send six copies of the July 6 edition.  
We are enjoying the news of Slaton since we have moved to San Angelo. We are living on Lake Nassworthy and we enjoy the boating, fishing and skiing. We have had a lot of out of town company and we are getting re-acquainted with friends we had here before moving to Slaton. We miss our Slaton friends and hope they will be calling on us soon.  
Yours truly,  
Mrs. J.B. Young  
Box 3367  
San Angelo, Texas 76901

Note from editor:  
In answer to your question about your paper being late, we also received a note from another concerned subscriber, Mrs. Maude Englund of Rapid City, S.D. She finally received her July 20 Slatonite on July 31. She thought maybe the railroad strike had something to do with the delay.  
I can assure you we mail all The Slatonites each Thursday in the Slaton post office and just depend on the postal department from there. Sorry yours was late arriving.  
The editor

## Auto Insurance Rates Depend On You!!

# EFFECTIVE AUG. 1st

Your Auto Insurance will be subject to a Safe-Driver Rating Plan. This plan has been designed to help stabilize Insurance premiums by charging drivers who receive several tickets with **ADDITIONAL PREMIUMS!**

# YOU CAN HELP TWO WAYS

**1.**

Make Our Highways a safer place to travel. You can do this by being extra careful with your own driving and by keeping a wary eye peeled on the other driver as well. Remember, it makes no difference who has the right-of-way if you're killed in a needless accident.

**2.**

When you are contacted by your local independent Insurance Agent, please furnish him the necessary (and correct) driver information. If you're a careful driver — we want to know it. If you're not, the records in Austin will eventually tell the story, so help us all by doing your best to give the correct information.

## Be a doer

"But be doers of the word, and not hearers only, deceiving yourselves" -- James 1:22

One of the easiest things to do is to daydream your way through a Sunday service.

Can you put forth the effort necessary to examine your life? Are you complacent? Are you satisfied because you have heard the message and the things should be concerned about through life, going through the motions, in a set, disciplined non-awareness? Open up your eyes, your ears. See and stand, hear and have concern for your part in the world and how you fit -- be a doer, not a doer.

Read your BIBLE daily and GO TO CHURCH SUNDAY

tious and sincere efforts to obtain work may exclude the family from aid. Any person who believes he is eligible for assistance from this department may apply at the Slaton mayor's office on Wednesday afternoon, or by going to the department offices on the second floor of the Old Courthouse in Lubbock. The head of the household must apply, if he is physically able, otherwise the spouse may begin the application.

The department offers basic maintenance, medical services, and distribution of U.S. Department of Agriculture donated foods to eligible families. These latter commodities are distributed on the second and fourth Wednesdays in Slaton.

Basic maintenance items include food, rent and utilities, household supplies. Medical services include hospitalization in emergencies, convalescent and nursing care, medicine and medical supplies prescribed by a licensed physician.

For emergency hospitalization, Slaton residents must use Mercy Hospital to be eligible. Slaton pays 35 percent of the medically indigent bills here, and helps in the overall work of the department through county taxes.

The department does not go out and seek clients. The person must want help and be willing to apply for assistance. While planning with clients and giving financial aid and services, the department's goal is to aid those persons, who can be so helped, to become self-supporting as soon as feasible, and to assure those who cannot become self supporting the opportunity to maintain a healthful standard of living.

**Turtle's Turn**  
Giant sea turtles, some up to eight feet long and weighing 3,000 pounds, flock to the east coast of Malaysia in May of each year. They come ashore with the tide and lay billiard-size eggs in the warm sand. As many as 1,000 have been counted during the annual spawn.
