## Recipe Of The Week

### Mrs. Brooks Grows Irises For Hobby

If you have time this week to drive out to the James T. Brooks farm on Route 2, you will find a beautiful garden of irises by their home. Mrs. Brooks invites anyone who would like to see them. To get there you drive four and one half miles East on Highway 2150. They live in the third house on the left past the second railroad crossing.

These irises didn't just happen by chance. They have been Mrs. Brooks' hobby for over 14 years. She has over 300 iris plants with many different varieties and colors. Some have been blooming before Easter and the late ones will quit blooming about the first week in June.

She says irises may be planted in the spring before blooming or in autumn. The plants with rhizomes give the best flowers if they are replanted about every four years. Some rhizomes cost up to \$30. Mrs. Brooks said she didn't know where the iris originated for it even grew back in Biblical days. They grow wild on the hills in The Holy Land. She has 14 Dykes Medal winning irises in her garden. This is rated as one of the best irises.

Mrs. Brooks is a member of the South Plains Iris Society and the American Iris Society. Mr. and Mrs. L. E. Brooks, her husband's brother, of Iowa Park spent the weekend with the Brooks, Mrs. L. E. Brooks served as one of the judges for the Iris Show held in Lubbock Saturday and Sun-

day. Mr. and Mrs. Brooks have four children and seven grandchildren. Their children are Mrs. William Jones and Mrs. Johnny Flanagan of Slaton, James Thomas Brooks, Jr. of Olton and Mrs. Ronnie White of Dallas.

It's a woman's WHIRL

BY LAVON NIEMAN

While thousands of Americans will be remembering Mom on her day, few may realize how far back into history the roots of Mother's Day extend.

The Greeks and Romans chose the Ides (15th) of March to honor a universal mother-Mother Earth. Instead of a corsage or a boutonniere, every member of the family wore a garland of leaves as they danced in the streets.

Many ancient nations worshipped mother-goddesses; in fact, some scholars think this was man's earliest form of religion. But the ancient Germans went a step further. They thought there was something divine - literally -- about all women, and mothers were sometimes regarded as living goddesses!

Mom has been treated like a queen, if not quite like a goddess, on many occasions since. By old English custom, mid-Lent Sunday was "Mothering unday" when people went back to the "mother church" for their baptism and also visited their mothers with flowers and other gifts. Small rich pastries called "mothering cakes" were popular presents for mama.

But it wasn't till May 10, 1808, that mothers were formally honored anywhere in the United States. On that day, a Miss Anna Jarvis sponsored a church service in Grafton, W. V. to honor her late mother and other mothers of the community.

After an intensive letter-writing campaign, she saw Mother's Day recognized in every state in the union by 1911, and in 1914 President Wilson proclaimed it a national holiday.

Flowers have been connected with Mother's Day from the very beginning; because Miss Jarvis' mother had loved carnations, they became the official Mother's Day flower. But many people prefer their mother's favorite flower, whatever it may be.

Though floral tributes may be the most popular Mother's Day gifts, modern mother receives everything from pansters to dishwashers. On May 12, American mothers will collect an estimated one-and-a-quarter billion dollars worth of gifts!

Even ancient German mamas, "goddesses" though they may have been, never had it so good. But then, American mothers have earned every penny of this annual tribute. There are 63,616,058 individual mothers in this country--and they are raising, or have raised, 131,810,351 children!

These mothers include women of all ages; young marrieds pushing spoonfuls of pablum, PTA members worried about the new mathematics, working women beating the rush hour home, and grandmothers who, going full circle, are back pushing pablum to their grandchildren.

Most mamas of pre-school children find motherhood a full-time job. Those who work outside the home number only 11,182,455 -- as compared with 29,930,338 working marrieds who have either older children, or no children at all.

But whether or not she contributes to the family income, Mama is sure to be honored May 12 in almost every American household for the good job she has done. Whatever presents she gets, she is apt to feel like a famous mother of Roman legend, Cornelia.

One day a boastful lady called on her and displayed a flashy array of jewels -- then asked to see Cornelia's jewels. Cornelia promptly sent for her two young sons and told the visitor, "These are my jewels--in which alone I delight."

WHAT A GRANDMOTHER IS...

A grandmother is a lady who has no children of her own, so she likes other people's little girls. A grandfather is a man grandmother. He goes for walks with boys and they talk about fishing and tractors and like that.

Grandmas don't have to do anything except be there. They are old, so they shouldn't play hard or run. It is enough if they drive us to market where the pretend horse is and have lots of dimes ready. Or if they take us for walks, they slow down past things like pretty leaves or caterpillars.

They never say "Hurry up". Usually they are fat, but not too fat to tie the kids' shoes. They wear glasses, and they can take their teeth and gums off. It is better if they don't typewrite or play cards, except with us. They don't have to be smart, only answer questions like why dogs chase cats or how come God isn't married.

They don't talk like visitors do, because it is hard to understand. When they read to us they don't skip words or mind if it is the same story again.

Everybody should try to have one, especially if you don't have television because grandmas are the only grownups who have got time.

(Written by Patsy Gray, Age 9, Reprinted from PTA Magazine, June 1967.)

For those faithful Slatonite readers who are wondering why we don't have an appropriate Mothers Day picture of a local mother and family; and a picture of the GA installation at Westview Baptist Church; and the Babe Ruth baseball recognition ceremony; and the CYO officers...it's because we have a BLANK roll of film. We'll try to do better!

Mrs. Winnie Vaughn and Mrs. Charlotte Sartor of the Cinderella Beauty Salon attended classes at the Herring Hotel in Amarillo Sunday. The seminar was presented by Mike and Charlotte Sweeney, a styling duo from Shreveport, La.

The Slatonite would like to welcome the following new subscribers this week: Fred Wiley, Farmers Gin and Grady Wilson, all of Slaton; Pvt. Joseph Bednarz, Pvt. David Jaynes, Jack Mason and Blanche E. Baker of Lubbock.

### Seal Knots

Knots in wood contain sap which can bleed through and discolor a finish coat of paint. To avoid this problem, fill cavities with wood putty or patching compound. When is dry, sand the area smooth and then seal the area with knot sealer of shellac. After this precautionary measure, you'll be ready to finish the wood.

## What to Tell Your Son

What does a father say to his son before his first Little League baseball game? Thanks to a "letter to the editor" from Mrs. Paul Winterrowd of Southland, we can advise dad what to say to his son. Mrs. Winterrowd writes: "Since Slaton's Little League is beginning another season, I thought maybe some of the parents might feel as I do, and as the poem states.

League. You may not have space in the paper, or you may not find it suitable, but I wanted to offer the following for 'what-it's-worth department.' The Editor thinks it's very suitable, Mrs. Winterrowd, and a "poem" worth making space for. The author isn't identified, but it came from the current issue of "Memo", a Wilson Sporting Goods publication.

Its title: WHAT DOES A FATHER SAY TO HIS SON BEFORE HIS FIRST GAME?

★★★★★

This is your first game, son. I hope you win. I hope you win for your sake, not mine. Because winning's nice. It's a good feeling. Like the whole world is yours. But it passes, this feeling. And what lasts is what you've learned. And what you learn about is life. That's what sports is all about. Life.

THE WHOLE thing is played out in an afternoon. The happiness of life. The miseries. The joys. The heartbreaks. There's no telling what'll turn up. There's no telling whether they'll toss you out in the first five minutes or whether you'll stay for the long haul. There's no telling how you'll do. You might be a hero or you might be absolutely nothing. There's just no telling. Too much depends on chance. On how the ball bounces. I'm not talking about the game, son. I'm talking about life. Just it's life that the game is all about. Just as I said.

BECAUSE EVERY game is life. And life is a game. A serious one. Dead serious. But that's what you do with serious things. You take your best. You take what comes. You take what comes and you run with it. Winning is fun. Sure. But winning it not the point. Wanting to win is the point. Not giving up is the point. Never being satisfied with what you've done is the point. Never letting anyone down is the point. Play to win. Sure. But lose like a champion. Because it's not winning that counts. What counts is trying.

# Washington Wins Third in State

Slaton High School's great all-around athlete, Richard Washington, won a third-place in the state track and field meet at Austin Friday night to bring home the only University Interscholastic League honors for SHS. Washington was involved in a "photo-finish" in the 440-yard dash, with both second and third places timed in 49.5 seconds. Judges placed Washington third behind a runner from Fort Worth, Kirkpatrick. Darrell Davis of Haskell, winner in the region meet at Lubbock, won the race in 49.4--just a nose ahead of the runners-up. SHS track coach Gene Franklin had high praise for the Tiger sprinter. "If the race had been five yards further, I think Richard would have taken it," said the coach. Washington is only a junior and will have a chance at going to state in the Class AAA ranks next year. He was also an all-district football and basketball performer for the Tigers the past season. Slaton High has hopes for additional honors this week when sophomore Marilyn Davis will compete in the girls' state track meet at Abilene.

## LETTERS to EDITOR

If you wanted to believe in freedom, its soul-sickening to see such a lack of patriotism and love of country as is evident at our ball games and public function where we gather in complete freedom as Americans. It seems most people consider such things as Loyalty Day as belonging only to the Veterans organizations. I've never carried a gun in defense of my country but I hope and pray that by taking a little of my time to pay respect and homage to those that have, that I can in some small way pay some of the great debt I, as a free American, owe to all the Freddy Millers.

Sincerely,  
Mrs. B. D. Clements  
(Note from editor:) In response to "What do you think?" last week we had several phone calls agreeing that Slaton men should close their businesses during Freddie's services. One response came from a woman saying she thinks that all businesses should certainly close on Memorial Day also to pay respect to ALL veterans and service men.

## CITIZEN OF THE MONTH

A girl who has been active her four years in Slaton High School is Diane Jaynes. Diane was elected April's Citizen of the Month. She was born April 4, 1950, in Galveston, Texas, and is the daughter of Dr. and Mrs. S. H. Jaynes.

Diane has participated in F. H. A. - 3 years, F. H. A. state meeting, and band - 4 years.

DIANE JAYNES

She has been on the Student Council all four years of high school, freshman class favorite, Freshman F.H.A. president, Who's Who in English III, Academic Sweater award in English, Award of Excellence - 4, and was chosen Most Courteous her senior year.

When asked what she thought about moving to AAA, Diane replied, "I think it will be a challenge to the students of Slaton High School, if everyone tries harder, it will help to improve our school."

Diane's plan after graduation is to attend college.

VOLUME 48, NO. 14 SLATON HIGH SCHOOL MAY 9, 1968

## SHS HAS 33 LEFT-HANDERS IN STUDENT BODY OF 482

In a recent survey conducted at Slaton High it was determined that out of 482 students only 33 are left-handed, although some students claimed to be ambidextrous, 20 of these are boys.

The sophomore class contains the largest number of left-handed students with 13 to 10's credit, 12 of which are boys.

Only two Slaton High faculty members, Mr. Green and Mr. Carnes, are left-handed.

Handedness is only part of a general difference in control of the two sides of the body by the brain. People are also right or left-footed and even have a preferred eye.

Dominance is hereditarily determined but does not preclude a shifting of preference by training.

Many famous people are left-handed, such as Rock Hudson, Judy Garland, and even two of the Beatles, Ringo and Paul. Because most people (about

94%) are right-handed, machines, industrial assembly processes, sporting equipment, and various items of furniture are designed and organized for them.

Many people who are left-handed were forced as children to become right-handed. (There are about 100-200 million of them.) Some adjusted nicely, many didn't. Now it is generally thought to be a terrible thing to retain people. Psychologists say this causes many people to stutter.

Archaeological evidence indicates that ancient man was predominantly right-handed, as are contemporary primitive people.

## Senior Flag Is Displayed

Thursday morning, May 9, saw the rise of the 1967-1968 senior class as students arriving at school were greeted by a large flag proclaiming "Seniors 1967-1968."

The night before, three intrepid seniors, Dennis Brooks, Ricky Polk, and Johnny Outlaw, climbed the flagpole in front of Slaton High School and attached the senior flag with pieces of rope.

When Coach Kerr arrived at school, he paid proper respect to the flag by saluting it. He also gave permission to the senior class to fly the flag for the remainder of the school year.

## Camelot Theme For J-S Banquet

Ladies - in - waiting, castles, the shields of armor, and a feast fit for kings were just a few scenes at "Camelot", or the Junior - Senior banquet April 26.

The seniors were welcomed by Neill Carter, president of the junior class, Tom Davis, president of the senior class, expressed the Seniors appreciation for the pretty banquet.

After the welcome the students were served fried chicken, baked potatoes, tossed salad, fruit cocktail, and cherry cobbler by Bruce's Restaurant.

The colors in the theme were purple, orchid, and gold. The stage was decorated with the back drop of a castle and a fountain.

The class prophecies were read by Debbie Donaldson and Carol Green. Following the prophecies, a skit called "Camelot" was presented by the junior class boys. The music for the prom was provided by "The Boys."

A woman was ill in bed and her husband was making her a cup of tea. "I can't find the tea," he called out.

"I don't know what could be easier to find," she answered. "It's right in front on the pantry shelf in a cocoa tin marked matches."

"Do you ever go out with girls?" the steely eyed army psychiatrist snapped at the young recruit.

"No sir," the red faced young man replied.

"Why not? Don't you like girls?"

"Well, yes sir, I do," murmured the young man uncomfortably. "but usually my wife objects."

## Social Studies Include Civics, History Classes

In the social studies department at Slaton High School, we find that three of the courses are required and the others are elective.

Those that are required are the following: world history, American history and Civics. World history is offered to the students their freshmen year. If the students cannot schedule all their courses that year and include world history, it is offered the next three years.

American history is required the junior year and civics is required the senior year. Civics is mainly to teach the students about the government and how it is run. It is taught the first semester and then the students may take an elective

in other social studies offered. Texas history and world geography are the electives offered to the students. These courses may be taken at the starting of the second semester after civics.

World history is taught by Mr. Crowe, American history - Coach Davis, Coach Hosden, and Mr. Nichols, civics, Texas history and world geography - Coach Martin.

## Editorial

Spring has sprung and with it comes the annual epidemic of that dreaded disease, the "blahs."

The "blahs" is a very common and contagious ailment that may cause the downfall of many a good student and the ruin of many perfect grade cards.

The symptoms of this ailment include drowsiness, laziness, and over-all do-nothingness.

The cure? Enthusiasm, interest, and doing what has to be done.

In the three remaining weeks of school, let's "lick the blahs." Fight laziness with enthusiasm. Combat drowsiness with keen interest in your work. And, in all things, do what has to be done.

## Teachers, Students Give Views On Proper Dress

### STUDENTS:

This week, one student from each class was asked what they think is the proper dress for school. These are their replies:

"I think that the proper dress for school should be very casual but not so casual that it becomes sloppy. I think girls should wear dresses of reasonable length or slacks. Boys should wear jeans or slacks and sport shirts. The main thing is to be neat and clean."

Donna Alspaugh, Senior

"I think that dress for school should be simple and casual. School clothes should be comfortable as well as proper fitting and the right length. I think that sloppiness should be avoided at all times. In order to feel well, you have to look well! Fine clothes aren't the important thing. Cleanliness is what counts."

Bruce Hill, Junior

"School is not a formal affair, nor is it totally casual. Because school is in between these two phases, what you wear to school should be neither formal nor completely casual, just comfortable. Most high school students have enough sense to know what to wear and what not to wear, and shouldn't go to either extreme."

Judy Eblen, Sophomore

"I think that the students of Slaton High should dress casually. The boys should wear either nice jeans or slacks and a nice shirt. The girls should wear dresses and occasionally nice slacks. When Coach Kerr calls for "dress-up" day, everyone should dress up, to keep Coach Kerr happy."

Glen Akin, Freshman

### TEACHERS:

Teacher's were also asked their opinion on proper dress. These are their replies.

"A person's school wardrobe should be becoming in color, style, and fabric. One's school wardrobe should be neat, simplicity in design, easy to care for, durable, and appropriate for the classroom.

"Individual becomingness regarding style is one of the most important factors in wardrobe planning. A person may be fashionable without dressing in the extreme fads, clothing, hair styles, and make-up.

"Cleanliness, neatness, a pleasant attitude, and a pleasing personality contribute toward a respectable student."

Miss Harris, Homemaking

"Most students in this school do not dress to extremes. By this I mean they dress in conventional styles and the "wild" styles are ignored.

"I don't think the dress of today's young people is any more outlandish than some other generations. I remember when pink and charcoal were the latest colors and mohawk haircuts were the style. I do admit that some people, usually girls in short-skirted dresses, sometimes try to create a stir but it usually is recognized as just that and is passed by."

"Long hair? Well, if boys want to look like tramps (that's what people with long hair were called when I was younger) I feel we must protect them from themselves."

Coach Martin, Civics

"Girls should always wear dresses of the proper length

*Men and Glory*

*"he taketh the wise in their own craftiness."*  
—Job 5:13

Wisdom in the ways of the world is shortsightedness if a man is at the same time foolish with God. In the first epistle to the Corinthians, Paul the Apostle reminded them that the Lord knew the vain thoughts of many who professed to be the wise men of the world.

Pride has its place, in any worthwhile achievement, yet we can become too proud, too vain. We can become so enamored with success we may tend to forget that there is a far greater glory to be found in a simple life of Christian service.
