FEATURES ACE REID, AWARDS, INSTALLATION OF OFFICERS

Annual C of C Banquet Monday

Slaton Chamber of Commerce takes a look back and launches a new decade when the 44th annual banquet is held here Monday night in the junior high cafeteria.

Ace Reid, nationally-known cartoonist and creator of "Cowpokes", headlines the annual Chamber event which also features the installation of new officers and directors and presentation of special awards.

The banquet is set for 7:30 p.m. with Bill Ball as master

of ceremonies. A limited number of tickets were reported available Wednesday at the Chamber office or from one of the directors, according to banquet chairman Jake Wendel. They are priced at \$4 each.

Robert H. Davis is to be installed as the new C of C president, taking the gavel from Clark Self Jr. Other new officers will be J. C. McClesky, vice president, and Steve Smith, treasurer.

This will mark Davis' second

reign as president, having served as the Chamber leader in 1959. Self is also completing his "second time around," after serving as president in 1961.

Newly-elected directors for three-year terms are Bill Adams, Glen Akin, J. W. Holt, J. C. McClesky and Jake Wendel. Retiring directors include Dee Bowman, David Hughes, and Self.

Presentation of the Chamber's "Man of the Year" award will be made by Tommy Wal-

lace, last year's recipient. The C of C "Outstanding Club" award will be presented by director Don Kendrick. Legion Post 488 took the top club honor last year.

The Athenian Club's "Woman of the Year" award is to be presented by Mrs. Roy Poage, club president. The honor last year went to Mrs. R. C. Hall Jr.

The big event will also serve, unofficially, to introduce the Chamber's new manager, Earl Bartley. He succeeded Ted

Weaver last month, coming here from Seminole.

Dinner music is to be provided by Mrs. Harvey Munkowsky, and the invocation is by the Rev. Johnnie Moore. Decorations will be handled by directors' wives.

Wendel said a crowd of 275 to 300 people are expected for the banquet, including a good representation of our-ot-town guests.

Welcomes Cowpoke Artist

Ace Reid sure hits the nail on the head when he says "Cowpokes" seems to be the universal comment of farmers and many others when they see the latest "Cowpokes" cartoon.

The man who "hits the nail on the head" will be the featured speaker at the annual banquet of the Slaton Chamber of Commerce Monday night at 7:30.

Reid's "Cowpokes" cartoons are famous, but Ace suffered along with many other cartoonists during the long and hard struggle to get his "Cowpokes" distributed. Ace found other ways to use his talents.

He printed his first book of "Cowpokes" in 1930, and the book is still being sold. Two years later, he published "Cowpokes Wanted", and it was received with public enthusiasm. His later books "Cowpokes Wanted", and "Them Cowpokes" were also successful.

Reid got into the calendar and postcard business as his enterprises blossomed. He has now dimensioned several years ago to discover to his surprise and delight that he has a talent as a cartoonist after-dinner speaker.

"Cowpokes" was born on a dusty drawing table. (See COWPOKES, Page 4)

C-C Manager Urges Community 'Involvement'

Earl Bartley, Slaton's new Chamber of Commerce manager, was guest speaker at the regular weekly luncheon meeting of Slaton Rotary Club last Thursday in the Clubhouse.

Bartley told Rotarians his job in the community was a real challenge, and he added that the work is also a challenge to all citizens interested in the progress of the city.

The Chamber manager said he believed that most people in the area have always looked upon Slaton as a city with unlimited opportunities. Bartley said the community needed to be concerned with three big factors -- agriculture, industry, and recreation.

Emphasizing that attitude is an important factor in any community, Bartley called for "community involvement" in helping make Slaton a better place to live.

"I look forward to working with you for community accomplishment," Bartley stated. He was introduced by program chairman Tommy Wallace.

J. S. Edwards presided at the Rotary meeting. Several guests and visiting Rotarians were introduced at the luncheon.

Mid-Town Mayor COMMUNITY ACTION COMES FROM CLUBS AND COMMITTEES THAT WORK.

Over 1,900 people in Slaton came in contact with the Slaton City Police last year, according to a report compiled by the police department. Of the 1,916, who were either arrested or given a traffic ticket, only 120 escaped with just a traffic warning.

While taking a look at all the figures compiled, 1969 had to be a busy year for Chief Head's police force. City Judge Arvin Stafford also was a busy man, as \$19,340 in total fines was issued by the city court and \$9,765 was collected for traffic arrest fines.

Of the 1,796 who were arrested or fined, 928 were for traffic violations; there were 649 jail arrests, 131 prisoners were held for other departments, such as the Texas Highway Patrol; 59 were prisoners held for juvenile court, and 29 were prisoners held for county court.

With traffic violations leading the list, the most flagrant violations were speeding with 285 arrests; excessive noise with motor vehicle with 183 arrests; running stop signs with 84 arrests; illegal parking, 39; failing to control vehicle to avoid accident, 34 and running red lights, 33.

Kitten Defeats Lubbock Man For Water Board

Two Slaton men won election to water districts in two separate elections Tuesday, with Ray Kitten defeating incumbent Russell Bean of Lubbock as Precinct 1 member of the board of the High Plains Underground Water Conservation District.

V. G. Browning was re-elected without opposition to the Lubbock County Water Control & Improvement District, which operates Buffalo Springs Lake.

Kitten defeated Bean by a vote of 329 to 280--a surprisingly large number of voters for such an election. A total of 99 voters turned out at the Slaton box in the Community Clubhouse.

The Slaton farmer was Bean's first opponent since he was first elected in 1963. The precinct in the district includes Lubbock County, northern Lynn County and western Crosby County. Bean, who had served as board president, was reportedly at odds with other board members over the firing of district general manager Tom McFarland last August.

Also re-elected on the Buffalo Springs Lake board along with Browning were Burl Kiser and Gordon Rose.

GYM HEATER PROBLEM AIRED

The calling of the annual trustee election and a discussion of a heating problem at the high school gym highlighted a regular monthly meeting of the Slaton School Board Monday night.

The board also approved a request for use of the Evans Gym by the Slaton FFA Chapter, discussing plans for the Head Start program, approved employment of a seventh-grade math teacher, discussed several other business matters and approved monthly bills.

The trustee election is scheduled Saturday, April 4, with Charlie Whalen as presiding election judge. Three trustees are to be elected this year, with the terms of Ted Swanner, Jack Clark and Dr. M. J. McSweeney expiring. Terms are for three years. Candidates must file 30 days prior to the election.

Supt. J. C. McClesky reported a major problem in the heating facilities at the new high school gym. Eb Stricklin, local heating and plumbing man, was at the meeting on the request of the school chief to explain the situation.

Stricklin suggested a heating engineer be called in to "straighten out" the situation, and also recommended regular maintenance of such school equipment. The board agreed. Don Mitchell, Slaton High vocational agriculture teacher,

Voter Signup On Increase

Lubbock County's voter registration picked up the past week and, as the total reached 18,282, officials anticipated an all-time high on the poll list.

Last year's total was slightly more than 46,000. The office indicated the production of a new record in two weeks left in the registration.

First candidate to place his name on The Slatonite's "political calendar" was Max Arrants, Lubbock County Commissioner of Precinct 2, who is seeking re-election.

Persons have until Jan. 31 to register and become qualified voters. Registration can be performed at the Slaton substation on the east side of the square, or at the Lubbock County Courthouse.

The Democratic and Republican primaries are May 2, and the general election is set for Nov. 3.

appeared at the meeting to request the use of Evans Gym for the annual junior stock show in February and a pig sale in October.

Both shows are sponsored by the Future Farmers of America chapter at Slaton High. Robert H. Davis also supported the request. The board approved the request after a short discussion.

McClesky announced that Virgie Hunter, principal at S.F. Austin School, has been appointed as director of the summer Head Start program. She will name an advisory council of nine persons to work with the program. Plans are being made subject to Federal approval and allocation of funds.

The board approved the employment of Patricia Long as a seventh-grade math teacher. McClesky also announced that choral director Johnny Wilson has resigned, and a replacement is being sought.

Trustees present for the meeting were Swanner, Clark, Bettye Burks, R. C. Hall, Tommy Davis and Don Kendrick. Also present were principals M. W. Kerr, James Perkins and Virgie Hunter; Supt. McClesky and business manager Buford Duff; Mitchell, Davis, and O. G. Nieman.

City Studies Farmland Bid

Only one bid was received on the lease of the city's airport land, it was revealed Monday night at regular Slaton City Commission meeting.

The one-year lease bid was from Bobby R. Harlan for \$5,000. After lengthy discussion, the commission postponed action on the bid and was scheduled to make a decision sometime this week.

In other business, the commission approved bills, approved issuance of a letter to the county commissioner's court concerning the local constable, heard several citizens discuss problems on abandoned houses, and discussed complaints on a dance hall.

The commission also authorized the mayor to negotiate an agreement with R. L. Kinchele,

If your brother sins... against you... forgive him. (Luke 17:3)

Love God so that we can live each day free from the emotional burdens of yesterday, free from regret and resentment. Through Him we can release all the conditions and situations that have troubled us. Forgive as we are forgiven. In this way we'll forget to be upset by what others do. Thank You, Father-God, for Your forgiving love that fills us with the solace, eliminates the burdens and hurts from our minds.

City Police Arrested 1,796 Persons in '69

A total of 516 offenses were reported to the police department. The report showed that 354 offenses which were reported were cleared. Even though it's hardly an offense, the department lists "sick cared for" in this category as it is now operating the ambulance service for Slaton. Fifty-six persons were cared for in this way.

Leading the list under offenses reported was "doors left open" which numbered 67. This was 67 times the police should have been thanked wholeheartedly, as they were probably the ones that found the doors unlocked after business man had gone home for the night.

All 67 of these offenses were cleared, revealing 67 extra trips to town made by various business people.

Theft over \$5 was reported 63 times with 24 of these cases being cleared; 53 reports for burglary were made with 30 cleared by the police; vandalism numbered 37 with 10 cases cleared; 29 items of found property were turned in and the owners of 22 were located; 28 for embezzlement fraud with 14 cleared; and 28 thefts over \$50 with only 7 cleared. Two murders were investigated and cleared during the year and four suicide attempts were checked out.

The police investigated 127 accidents with a total damage to vehicles estimated at \$60,608. Eleven of the accidents occurred on U.S. 84 and F.M. 41; 10 were on 9th and Lubbock Streets; seven were on U. S. 84 and F.M. 400; five were on 9th and Dayton Streets; seven were on F.M. 400; five on 8th and Garza Streets; five on U.S. 84 Business Route; and five on U.S. 84 and Cemetery Road.

Total number of gallons of gas used in patrol cars in 1969 was 9,482.7.

Nursing Home News

This week proved to be a very busy one at Slaton Nursing Home since there was a lot to do in getting the new year started off right, but "busy people are happy people."

Some of the residents decided on different rooms, so there was quite a turn-over in room changes. A new list of rooms and residents has been posted on the bulletin board in the hall, so if you are visiting and need to know the room number of the person you want to see, the information is there for your convenience.

We have also made up a new birthday list, and if any individual or organization would like to have a copy, let us know and we'll be happy to type a copy for you.

We are very sorry that Mrs. Essie Franklin moved from the home, but since losing her son in Lubbock she decided she needed to be nearer her other children. We will really miss her. We are so sorry about Alfred Watson's passing. Our deepest sympathy goes to Mrs. Watson and his family.

Our deepest sympathy is also extended to the family of Mrs. Lillie Finch.

We would like to welcome Mrs. Edith Lewis, Mrs. Lillie Allen and Mrs. Nora Carnes to our home. They add a note of cheer to all, and we hope they will be very happy with us.

Mrs. Virgie Hunter has started out the new year with her usual Wednesday afternoon program. May God bless her for this. She plays the piano for the residents every week and they really enjoy her music. Thanks to Rev. Clinton Eastman for the Sunday afternoon service. Everyone seems to really look forward to this service.

Thanks to Charlene Webb and Gladys Block for the singing at the home Sunday afternoon. To Charlene and Gladys -- our family really appreciates your singing! They are here on the second Sunday of each month. We have games every week-day afternoon. If any of you would like to come and play dominoes or "42" with us, you are most welcome.

Minister's Wife Earns Tech Degree .. Finally

LAVON NIEMAN

22 years of working to earning a college degree, Bruce Parks is the one who won't be starting school at Texas Tech. Mrs. Parks -- or as she is known -- is to be a woman with a degree. And it took a while, we're sure.

canning and becoming a coed. Since 1966, she had three interruptions which made it necessary for her stay out of school. She said she got used to being asked, "Are you still in school?"

Along with her family being so helpful to her, she was quick to mention that she didn't think she'd ever made it without her dear neighbor and friend, Gertrude King, who became a "second mother" to her children.

In 1966, the Parks were living in Lorenzo, and she made her trips back and forth from there. Then the move to Slaton one and a half years ago required her to drive from here. She said she drove through sleet, ice, snow, rain and sand storms but never had any trouble until the very last day of school. She had a flat tire before getting to Lubbock, hitched a ride as far as the Lubbock National Bank, called a taxi and made it to her last class just eight minutes late.

Along with being a coed (off and on for 22 years), a preacher's wife (which involves many extras), and a mother, Mary finds time to teach an adult Sunday School Class, sing in the choir (she says she just fills a space), is active in the women's society and attends guild meetings. Also, she obtained grades to be listed on the Dean's Honor Roll. We are told by church members that she also does Bruce's visiting for him in the hospital and to shut-ins when he is out of town. And from all indications, she could probably fill the pulpit, if need be.

When I called Mary for an interview, I said it was for a recipe feature which we finally got around to and the recipes she gave me look different and

delicious. We hope you enjoy them.

COWPOKES—

board during one of the greatest droughts known in the Southwest, and Reid's cartoons were the only humor that farmers and ranchers could smile about in those days.

The true-to-life antics of Reid's cowpokes made the suffering Southwesterners realize they were not alone in their fight with the elements. Readers would have been surprised to learn the creator of the cartoon was just as broke and was in a financial drought as much as they were.

Even though he sometimes didn't know where his next meal was coming from, Ace continued to expound the hardships and disappointments of his real-life cowboys. Readers could tell from situations that the artist knew their problems.

And they were right. Ace (Asa E. Reid) was reared on 4,000 acres of land at Electra. After years of shocking wheat, breaking horses and fixing fences, the 6-footer decided it was easier to draw cowboys than to be one. He never studied cartooning formally, but he has been drawing pictures of cowboys since his childhood.

He continued to draw for Navy publications during 3 1/2 years of service after graduating from high school. He also served on an attack transport which participated in landings on Iwo Jima, Okinawa and other Pacific islands.

He tried ranching and oil drilling after returning from service, then set his sights on breaking into cartooning. Ace had a hard time selling a syndicated cartoon, but he

finally started placing them with weekly papers and making about \$17 a week.

Today, from his Kerrville studio, Ace's "Cowpokes" cartoons are mailed to hundreds of newspapers and magazines, and Reid is now one of the nation's biggest self-syndicated artists.

A one-man exhibit honoring Reid was held at Texas Tech in 1959. The exhibit of his cartoons and western scenes were on view for a month. Some of his cartoons were also chosen to hang in the National Cowboy Hall of Fame in Oklahoma City.

One of his greatest highlights several years ago was when the Texas Legislature cited him as an Outstanding Texan and commended him for his "wit and skill in depicting the Old West and in giving future generations assurance and confidence in the past to insure their faith in the future."

Reid and his wife, Madge, live on the Draggin' S Ranch near Kerrville. "I have to cartoon to afford it," Ace laughingly admits.

We expect Claude home from Vietnam Feb. 3, just 25 days from now. We're keeping the Christmas decorations up and his gifts under the tree till he arrives. We're even planning a big, delayed Christmas dinner for him.

We plan to come to Slaton to visit next summer and hope to see all of our friends and relatives then.

"I REMEMBER"

From Alfaretta Courtright, Alvin, Texas: I remember the woodpile. It was my responsibility to carry in each night enough wood to last the next day. I remember once, just for a prank and to see what would happen, I carried in almost the entire woodpile--almost a kitchen full of wood. I saw all right. I had to carry it right back out.

I remember one time I heard a buzzing sound coming from the woodpile. Every armload of wood I heard that buzzing, louder and louder. I told my parents, but they just thought I was lazy and sent me back for more wood.

It was one armload too many for a nest of bumblebees. I took one more stick and the bees flew all over me. I ran to the house, dropping wood all the way. I suppose I was a funny sight and they just laughed, but it wasn't so funny to me. I do not remember that I ever considered it funny, but I survived. I was swollen and sick for weeks then, but I am almost immune to any kind of sting and have been ever since. I can thank the bees and the wood pile for that.

Grain Sorghum Producers Board Will Establish Advisory Groups

The Texas Grain Sorghum Producers Board has asked the assistance of the Texas Agricultural Extension Service in its effort to establish an advisory committee in the 29-county High Plains area which includes Dawson County.

The committee was proposed by the TGSPB immediately after the Board members were elected in early October in order to give the Board broader representation and to develop a closer working relationship between the Board and local producers.

Extension Service District Agricultural Agents Billy C. Gunter of Lubbock and W.W. Grisham, Jr. of Amarillo pointed out that they would encourage all county agricultural agents in the 29 counties to consult with their County Program Building Committees on the appointment of advisors to the TGSPB.

"It is hoped that the Crops Subcommittee of each County Program Building Committee will select one producer as an advisor," said Gunter and Grisham. "This individual would then serve in an advisory capacity from that particular county to the 12-man Board. We would

also encourage the Crops Subcommittee to invite a representative of the Board to present an annual report and discuss other matters involving the TGSPB."

K.B. Parish of Springlake, chairman of the Board, in explaining the advisory committee will play an active and important role in our administration of research and market development. We want to assure each grain farmer that his investment will work to give the best possible return."

The TGSPB was formed following the passage of a referendum for assessing five cents per ton on grain sorghum produced in the area. These funds will be used in programs of research, disease and insect control, education and promotion designed to encourage efficient production, marketing and use of grain sorghum. This program is designed to ultimately improve the net income position of grain farmers.

The Board is made up of area producers elected to the responsibility of administering these funds for programs which it believes most vital to grain sorghum producers on the High Plains.

Cotton 'Mike' Better in '69

The 1969 cotton crop showed much improvement in micronaire over the 1968 crop, according to W. K. Palmer, in charge of the Lubbock Cotton Classing Office of the USDA.

Final figures of this season's harvest have not been completed, but estimations indicate approximately 1,300,000 samples will be classed. Just over 1,500,000 samples were classed by the cotton classing offices on the South Plains for the 1968 season.

cent of the 1969 crop as compared to 48 per cent in 1968. Spotted and Tinged grades made up 23 per cent of the 1969 crop and only 14 per cent of the 1968 harvest. Below grades for 1969 totaled 5 per cent compared to less than 1/2 per cent in 1968.

The average staple length for the South Plains for the 1969 crop was 31.41/32nds of an inch compared to 32.7/32nds of an inch for the 1968 crop.

Micronaire for the 1969 crop showed 65 per cent in the 3.5 and better ranges compared to 40 per cent in 1968.

 SFN -- (Something For Nothing) ...

The World's Most Character - Destroying Drug

LSD, STP and POT - the escape-from-reality drugs - have attracted an enormous amount of attention because they are undermining the character of a small fraction of our young people. Unfortunately, the most prevalent, pernicious and destructive of all escape-from-reality drugs - SFN - is destroying American character on a much wider scale, almost unnoticed and unmentioned.

Nothing. For most people, its temptation is almost irresistible. It is habitforming to a frightening degree. In almost every human heart there is a spark of larceny which, fanned by the insidious influence of SFN, burns away the two cardinal virtues of man-self-respect, and self-reliance. Psychologically, it has the guilt-producing impact of receiving stolen goods - even if these goods are legally stolen.

Nothing corrodes the human spirit as deeply as subsidized idleness. As proven by the rioting and looting, it leads to the desire for illegally stolen goods. The experts say that many people on SFN reach the point where they are virtually beyond rehabilitation.

The full name of SFN is Something-

Highlights AND Sidelights
 by Vern Sanford
 TEXAS PRESS ASSOCIATION

AUSTIN--Lagging voter registration may spell bad news for Democratic officials, according to no less an authority than U. S. Sen. Ralph Yarborough.

Yarborough called a news conference in the Statehouse the day after State Republican Chairman William Steger of Tyler announced Texas GOP's plan to field strong candidates for both senator and governor this year.

Steger cited a poll as the basis of Republican hopes, but Yarborough said registration statistics, not polls, are the real cause for Democrats to be wary. He said 80 percent of Republican strength already has registered in such large counties as Harris, Dallas and Midland, while the sign-up is poor in traditional Democratic strongholds.

On that same day, Secretary of State Martin Dies Jr. urged all eligible adult Texans to exercise their constitutional rights by registering. Dies is the state's chief election officer. January 31 is the registration deadline. Dies issued these reminders:

*Any citizen 21 years of age or older on the day of an election, who has been a resident of the state for at least one year and a resident of his home county for six months immediately preceding the election, is qualified to register for voting.

*Eligible persons may register by personal appearance at the main office, branch office or authorized substation of the home county tax assessor-collector. Written applications may also be made to the tax assessor-collector.

*The husband, wife, mother, father, son or daughter of a voter may act as his agent in registering if the agent is a qualified voter.

*A person who moves to Texas after Oct. 1 may register during the regular period or afterward but must have been registered for 30 days before voting.

*Any person who will meet qualifications before Feb. 28, 1971, may register during the regular period. Those who will become 21 after January 31 may register during the regular period or afterward.

Dr. M. Harvey Brenner, a sociologist at Yale University, has just completed a statistical study of mental health in the United States, covering the period from 1910 to 1960. He reports that "doctors can forecast the general state of mental health with a glance at society's unemployment figures."

Dr. Brenner's study deals, primarily, with people whose behavior requires them to be admitted to mental institutions, but common sense tells us that, for every case that reaches this extreme, there are hundreds that approach it.

The use (acceptance) of SFN is encouraged by the world-wide fundamental weakness of the mass mind - ignorance of the simple fundamentals of how man produces and exchanges goods and services. There is no such thing as something for nothing. Every economic good has a source, a destination, and a cost that must be paid. And the man who pays nothing pays the highest price of all.

The tragic irony of SFN is the humanitarian spirit in which it is dispensed. The truth is that nothing is more inhuman than destroying the fabric of character. To the normal man who wakes up in the morning with nothing useful to do, and nowhere to go where he is needed, life becomes a nightmare out of which he must make some sense or lose his senses.

This "sense" is that he is one of those special persons to whom the world owes a living. And if it is not a good living, or as good as he thinks he deserves, his resentment against society knows no bounds.

LSD, STP, and POT are frightening but SFN is worse.

No economy, however strong, no system, however dynamic, can long avoid its deadening influence on the national character.

In every society there is useful work for every able bodied citizen. For the mental health of the nation, it must be arranged and provided.

SOUTHLAND NEWS

MRS. TOMMY WILKE

Lots Of Folks On Sick List

Hello, out there in news-paper land. Another great week is about gone. Has your week been a blessing to others? Have you helped anyone in need? Have you shared a part of what you have with others? Did you know that a smile or a kind word to someone else might change their entire life? Is your community, church, neighborhood or family just a little bit better because of you? How about asking yourself these questions and then answering them with a humble heart? How's your score?

LOTS OF ILLNESS
Still a lot of sickness in the community. Mrs. Otto Klaus has been in Mercy Hospital for over a week with the flu. Carl Wartes went into West Texas Hospital last week for surgery, but it had to be postponed because he had the flu. Mrs. Wartes also had a bad case of the flu. Mrs. J. C. Leake was still in Mercy Hospital the last part of last week, but don't know if she is still there at this writing, or not. I am sure there are others

in this community who are sick and have been sick, and we sincerely hope that everyone will be well before too much longer.

Spence Bevers had minor surgery at Methodist Hospital on Wednesday of last week and is home and doing real well.

ON LEAVE
Pete Mendez, who is serving in Uncle Sam's Army and has been stationed in Germany, is at home on leave at the present, but will be leaving for Vietnam on Saturday of this week. He has been in the service for two years and still has one more year to go. May God keep this young man safe during his endeavors.

Mr. and Mrs. Donald Pennell and Mrs. Lynn Freeman went to Dallas over the week-end where they visited with Mr. and Mrs. Royal Pennell. They also visited in Ft. Worth with Mr. and Mrs. James Smith. Mrs. Pennell is the former Phyllis Smith, daughter of the Chester Pennell family of Southland.

GUEST SPEAKER
Don Corley, missionary to the Navajo Indians at Farmington, N.M., was guest speaker at the Southland Baptist Church last Wednesday night, January 7. He gave a most interesting talk and showed slides about the Indians on the Navajo Reservations. Brother Bill Dodd, local pastor, is planning on having different speakers of interest during the coming weeks and months.

BASKETBALL
Southland boys' and girls' basketball teams met Wilson here on Tuesday night of last week, but lost both games. Boys 84 to 43, with Douglas Smallwood tossing in 18 for Southland. Girls - were tied up at 60-60 at the end of the game and had to go into three minute overtime with the outcome 69-66. Sherri Wilke hit 37 for Southland. Southland Jr. High teams played Wilson at Southland on Monday night, results unknown at this time. Southland High School will play Meadow and Union this week. Good luck!

Mr. and Mrs. Arthur Stolle and Mrs. Pauline Stewart visited with Mr. and Mrs. Adolph Kiesel in Anton on Sunday. Edmund and Yours Truly attended the musical, "Name" at Lubbock Municipal Auditorium last Friday night, compliments of our son, Darrell, and daughter, Sherri. We enjoyed the play very much.

Connie Abshire, daughter of Mr. and Mrs. Delbert Abshire, has been out of school since the Christmas holidays. She has been real sick, but is beginning to feel somewhat better. She is

hoping to get to come back to school very soon now.

SHOWER
Mrs. Dahlonna (Winterrowd) Anderson was honored with a bridal shower in the home of Mrs. Buddy Hall on Saturday afternoon. Her chosen colors were carried out in the decorations and refreshments.

Here's a little thought for this day, "I have noticed that folks are generally about as happy as they have made up their minds to be. Any person who is always feeling sorry for himself, should be. It takes both rain and sunshine to make a rainbow."

Hope to see you next week!

Col. Bowen Is Guest Speaker At Lions Club

Col. Cliff Bowen presented a program on the Slaton Junior ROTC program at the regular weekly luncheon meeting of the Slaton Lions Club Monday in the Clubhouse.

Wayne Edwards was introduced as a new member of the club and several guests were introduced. Several members from the Lubbock Rosebud Lions Club and the Tahoka Lions Club were present.

Col. Bowen, a member of the club, announced that the Lions would play the ROTC cadets in a donkey basketball game on March 17. Proceeds will go to the ROTC building fund.

Program guests Monday included Sgt. Lindol Winters and cadets of the month Don Smith and Freddy Maldonado.

Col. Bowen said the high school ROTC program has 110 cadets in its first year here—a big corps considering there are about 240 boys in high school. He explained the academic and drill classes in which the cadets participate. Cadets must be 14 years old, but there are no limitations on height or weight.

The colonel also mentioned the possibility of scholarships for top cadets. Competitive exams are conducted each year for the honors.

A question-and-answer period followed the colonel's talk. Supt. J. C. McClesky told members that the program has helped cut down on disciplinary problems in school and contributed to school pride.
