

Senate Votes Ban On Union Health Funds

WASHINGTON, May 8. (AP)—The Senate voted today a ban on union controlled health and welfare funds and the involuntary check-off on union dues.

The vote was 48 to 40. Adoption of the ban as an amendment to pending general labor legislation was a victory for Senator Taft (R-Ohio) after a sharp reversal yesterday when the Senate killed, 44 to 43, a Taft-backed proposal to forbid industry-wide bargaining.

Body Snatching Charges Probed By Gov. Jester

AUSTIN, May 8. (AP)—Charges of body snatching against some undertakers in the recent Texas City disaster today had Governor Beauford Jester studying existing laws and thinking of some new ones.

Jester said there had been instances reported to him of undertakers holding bodies, without permission, and refusing to return them to the morgue or to relatives until a high-priced funeral had been arranged.

The governor said Mayor J. C. Trahan of Texas City had suggested to him last night that legislation was needed to prevent possible future occurrences. Jester said he talked with Trahan in Galveston where both had attended a ceremony in which a check for \$47,000 had been accepted for Texas City relief from the city of New Orleans.

"One of the first things Mayor Trahan asked of me after the disaster was to appeal to undertakers to return bodies so that official count and identification could be made," Jester recalled. "There were instances reported," he said, "of bodies being whisked away under guise of still being alive and going to hospitals that never reached hospitals at all." He said that instead they went to private undertaking establishments.

The governor said he would ask the attorney general for a brief on all existing laws dealing with the subject and would then recommend new legislation if necessary.

Immigration Ban Removal Asked

LAKE SUCCESS, N. Y., May 8. (AP)—The Jewish agency for Palestine today called on the United Nations—and specifically Britain—for "immediate relaxation" of Holy Land immigration restrictions. The agency said removal of the ban should be the "decisive contribution" from the mandatory power leading to establishment of a Jewish national home and peace in Palestine.

It then called on the UN to take a first-hand view of the "human tragedy" in Europe's displaced person camps through the proposed UN inquiry commission which also may go to Palestine itself. Climaxing his long fight for a hearing in the general assembly's extraordinary session on Palestine, the agency put forth Rabbi Abba Hillel Silver of Cleveland, American section chairman of the agency's executive, for its lead-off statement to the 55-nation UN political committee.

300,000 Greet Aleman On Return

MEXICO CITY, May 8. (AP)—President Miguel Aleman was back in his own land today, convinced that his nine-day visit in the United States and President Truman's visit to Mexico had demonstrated qualities of international amity "which should be an example for the whole world."

A roaring crowd estimated to number between 300,000 and 400,000 persons—one of the largest throngs ever seen in this old city—greeted the returning chief executive at the airport last night with tumultuous shouts of "Bravo, Bravo," and "Viva Aleman."

MacArthur Denies Plan To Defend Japs

TOKYO, May 8. (AP)—General MacArthur gave the Japanese their first official assurance today that the Allies would protest them until a peace treaty is signed, but vigorously denied promising that "the United States would undertake future defense" of the country.

The supreme commander issued a special statement which obviously referred to reports following his meeting Tuesday with Emperor Hirohito. He did not specifically mention the conference. Neither Allied headquarters nor Japanese government officials would discuss the matter further.

Truman Certain Lasting Peace To Be Achieved

Birthday News Conference Held By President

WASHINGTON, May 8. (AP)—President Truman told a birthday news conference today that he is certain that the world eventually will achieve a lasting peace.

Summing up the two years since he announced victory over Germany May 8, 1945, Mr. Truman said the country has surmounted many obstacles and that he is confident of its ability to survive others.

His political philosophy, the President said, is unchanged and he is still an optimist. As sure as he was standing there before the correspondents, he said, he was sure that we will get a lasting peace and a vital United Nations.

The President, who is 63 today, made it clear that until peace is consummated, he has no intention of withdrawing Myron C. Taylor as his personal envoy to the Vatican. Mr. Truman was told that the President of the Southern Baptist convention had complained that Taylor has not been withdrawn and that the minister said he had been promised that Taylor would be withdrawn when the peace treaties were ready.

The President said he thought he had told the delegation of Protestant clergymen, who called on him last year, that he would withdraw Taylor when peace had been consummated.

Peace, he said, has by no means been consummated. As he passed another birthday, Mr. Truman said he is "feeling fine" and he had called in the correspondents to let them see how he is faring after more than two years in the White House.

President Asks Training Law

WASHINGTON, May 8. (AP)—President Truman said today he will try to get this session of congress to enact a law for universal training.

He told a news conference he is expecting a report soon from a committee of clergymen, educators and others which is studying the problem for him. Some congress members have expressed the view that time is running short for the matter even to get consideration at this session.

But the president said he is going to try to get it through before adjournment. Congress leaders are aiming for adjournment July 31.

Crash Of Duster Plane Kills Vet

RAYMONDVILLE, May 8. (AP)—Howell Stepleton, 25, overseas veteran of the Army Air Corps, was killed today when a duster plane crashed and burned near the Willard Oil Field six miles east of here. Survivors include his wife, a teacher at New Braunfels, and a brother, Ed, for whose firm he was working at the time of the accident.

'Marshall Field Of England' Dies

LONDON, May 8. (AP)—H. Gordon Selfridge, Wisconsin-born founder of a London merchandising fortune, died today at his home, he was 83. Selfridge introduced many American merchandising methods to London.

He began his career at the age of 15 with the firm that was to become Marshall Field's. He obtained an interest in the business and at 39 had accumulated a fortune so that he could retire in 1903 and pursue his hobbies, travelling, collecting art objects and reading.

In 1909, however, he established the first department store in Europe—Selfridge's on Oxford Street, London, and soon became known as "The Marshall Field of England." His death came after a short illness of bronchial pneumonia, at his home in Putney, fashionable residential district in southwest London.

Oklahoma Lawmaker To Be Charged With Assault For Shooting Affray

OKLAHOMA CITY, May 8. (AP)—A tall veteran of the southwest Pacific war ended his freshman term as an Oklahoma lawmaker in the county jail today, accused of trying to kill a fellow legislator in a wild shooting affray on the floor of the state senate.

State Rep. Jimmie Scott, 35, was booked on a technical charge of assault with intent to kill after

he pumped a bullet into 64-year-old State Senator Tom Anglin in the senate chamber yesterday, fired a second shot that went wild and then fled, only to be captured and disarmed in the senate wash-room.

Both men are from Holdenville. W. N. Mounger and W. A. Carlie, assistant Oklahoma county attorneys, said a charge of assault

Long Lines Settlement May End Phone Strike

\$4.40 Pay Hike Given Operators

WASHINGTON, May 8. (AP)—Company and union officials agreed today to settle the strike of long distance operators for a pay hike averaging \$4.40 a week and the government predicted a quick end to the whole coast-to-coast telephone tieup.

John J. Morgan, president of the American Union of Telephone Workers, said the long distance walkout would end as soon as his nine-member board okayed the settlement, possibly late today in New York.

He said his 20,000 members still might refuse to cross the picket lines of other unions in the National Federation of Telephone Workers who have been off the job since April 7.

But John W. Gibson, assistant Secretary of Labor, and Edgar L. Warren, director of the U.S. Conciliation Service, declared: "With the settlement of this most important case, the other strikes between the Bell associated companies and their unions should be quickly settled."

A.T.&T. is the parent corporation of the Bell system.

An official of the NFTW estimated that 200,000 of the 287,000 members of federation unions who walked out 31 days ago are still on strike. At the peak of the tieup some 340,000 workers were idle, including non-members of NFTW affiliates. Like other unions in the National Federation of Telephone Workers, the long distance operators struck April 7 for a \$12 week-

ly increase. They dropped this demand to \$6 a week after steel, auto and other big industry unions settled for that amount without strikes. Under the agreement hammered out in a 7 1/2 hour session with government conciliators, which ended at 2:25 o'clock (CST) this morning, pay increases for long distance operators will range from \$2 to \$4 a week everywhere except Buffalo and Boston. In these cities some workers will receive pay hikes of \$5 weekly, if the agreement is ratified.

While terms of the settlement are not subject to approval of the NFTW's 49-member policy committee, which was adjourned, indefinitely Tuesday night, Moran told a news conference that the pact would be submitted to his fellow officers on the federation executive board for their informal approval. The tribunal approved, by a 3 to 2 vote last night, a government petition asking that the Brazilian communist party—one of the largest in the western hemisphere—be declared illegal and closed. In the last election, in January, the party polled about 800,000 votes. It elected 17 deputies and one senator in the federal congress, 18 members of this capital's 50-member city council, 60 members of various state legislatures and helped to elect the governors of eight Brazilian states. The Senator, Luis Carlos Prestes, who is secretary general of the Brazilian communist party, called all the party's branches immediately after yesterday's decision, ordering them to obey the verdict calmly. He said the decision would be appealed to the Brazilian supreme court and announced that the party's national convention, scheduled for May 25 in Rio, had been postponed indefinitely.

Plan To Prolong Meet Abandoned

AUSTIN, May 8. (AP)—House tax forces today chose not to press immediately for a showdown on their plan to hold the legislature in session until Gov. Beauford H. Jester disposes finally of all appropriations measures.

A resolution to this effect was being debated yesterday when the resolutions period expired. The House then by a three-vote margin refused to extend the period. A motion to dispense with the period entirely today was accepted without any objection whatsoever and the house went to work on a calendar of senate bills. Advocates of the plan said they had not abandoned it, but would probably take it up again next week.

Fire Damages Oil Furnace At Cosden

Workmen Thursday began surveying damage which may reach \$75,000, to a heavy oil furnace at Cosden Petroleum Corporation's refining plant three miles east of here. Fire in the unit burned out late Wednesday after erupting in flames at 6 o'clock in the morning when a four-inch tube through the furnace ruptured. R. L. Tollett, president, said that accurate damage figures could not be established pending a check of the heavy oil furnace on the No. 1 cracking plant. It had cooled sufficiently Thursday morning for workmen to begin their survey. No injuries resulted from the mishap. As the sudden drop of pressure flashed on the control unit, but so much fuel, under almost white hot temperatures, had been dumped into the furnace that there was no alternative but to let it burn out. The loss renders the No. 1 cracking unit inoperative pending replacement. Damage is fully covered by insurance, said Tollett, and the company holds use and occupancy coverage of \$500 per day for time lost on the unit.

CHINESE NATIONALISTS GUARD BRIDGEHEAD — Chinese Nationalist army soldiers, on the front line, crouch in a trench as they guard a bridgehead on the bank of the Sungari river. This spot is reported the most important in the Changchun defense perimeter and has twice been besieged by Communist forces in recent months. (AP Wirephoto).

Plea To Save Willie Francis Again Rejected

WASHINGTON, May 8. (AP)—The supreme court today rejected two last minute attempts to save Willie Francis from going to the Louisiana electric chair for the second time.

The high tribunal said, however, its action was without prejudice. Thus, attorneys for Francis could carry their "grave new" allegations to Louisiana courts.

These allegations were made in a petition filed with the supreme court earlier in the day. The petition said now information had been received that the executioner and other persons at the state's first attempt to execute Francis "were so drunk that it was impossible for them to have known what they were doing."

Francis, an 18-year-old Negro, was put into the state's portable electric chair last May but the device failed to work. State officials said later that this was because of a mechanical failure.

Another attempt to execute Francis for the murder of a white druggist at St. Martinville, La., is scheduled to be made tomorrow. The supreme court considered Francis' appeal at a special closed conference lasting an hour and five minutes. While it was under way the court's regular argument session was deferred.

Protest Cutting Off Oil Division Funds

WASHINGTON, May 8. (AP)—Walter S. Hallanan, chairman of the National Petroleum Council, protested to Senators today against the House's vote to cut off funds for the interior department's oil and gas division.

Hallanan, who also is Republican national committeeman for West Virginia, told the Republican-controlled Senate appropriations committee he knows "frivolous and extravagant spending of public money must be stopped."

But he said the House rejected a \$245,000 appropriation for the oil and gas division under a "wholly false conception" that it serves only the petroleum industry.

It is an agency which deals with "critical shortages in petroleum products that threaten our essential military requirements," he said, adding: "We should think primarily of our responsibility in protecting the security of the American people."

The House in an economy drive cut nearly in half the funds asked by the Interior Department and is slashing appropriations for other agencies heavily.

The cuts have brought loud protests from agency officials and reply accusations at the capitol that cabinet officers are trying to embarrass the House Appropriations Committee.

The charge was made by Rep. Stefan (R-Neb.), chairman of the sub-committee which earlier this week recommended a 23 per cent cut in the 1948 budget of the state, commerce and justice departments. It was echoed by Rep. Taber (R-N.Y.), chairman of the full committee which upheld Stefan's group.

Russia Demands Romanian Flour

WASHINGTON, May 8. (AP)—The state department reported today that Russia is demanding 400 freight carloads of white flour from Romania, where the United States has been sending emergency food shipments to help cope with famine conditions.

The department said in an announcement that it was advised the Romanians are about to meet the demand and deliver the flour, which is for use of Soviet military occupation forces in Romania.

The reported transfer therefore does not directly violate Romanian commitments to the United States not to export indigenous food supplies while receiving emergency aid from this country.

A department official said press reports that some food is being actually sent out of the country are being investigated. If found true, he said the United States will have no recourse but to cease giving emergency aid.

Papers Promised

WASHINGTON, May 8. (AP)—Senators investigating wartime Arabian oil deals today were promised all relevant papers from the files of the late Franklin D. Roosevelt but were denied the right to search through voluminous files here and at Hyde Park, N. Y.

House Near Vote On Aid Measure

WASHINGTON, May 8. (AP)—An approaching administration plea for perhaps \$75,000,000 to reinforce southern Korea confronted congress today as the House entered the voting stage of its fight over helping Greece and Turkey resist communistic domination.

After two full days spent in general discussion of the \$400,000,000 Greek-Turkish aid bill, the House turned to specific proposals for restricting the program and changing its terms. Chief among the amendments likely to be put to a showdown test before nightfall is one to shift the burden to the United Nations.

To a hushed House near the close of yesterday's debate Democratic Leader Rayburn of Texas cried out against a return to "isolationism."

In impassioned tones he declared: "God help us, God help this world, if we do not accept our responsibility to help countries that do not want to be smothered by communism."

From across the aisle, where the Republicans have been divided on the issue since it first was posed by President Truman nearly two months ago, Rep. Wadsworth (R-N.Y.) voiced the answer of those in GOP ranks who have lined up behind the administration's expanding foreign policy.

'AMONG MISSING'

AUSTIN, May 8. (AP)—Gov. Beauford Jester said today he would be "among the missing" at Gregory gymnasium May 17 when Henry Wallace speaks there.

Jester declined to make further comment on the record.

SHOT IN OKLAHOMA SENATE—Tom Anglin, (left), veteran Oklahoma state senator, was shot in the hip during an altercation in the state senate chamber at Oklahoma City. Fellow legislators and other eye witnesses seized Rep. Jimmie Scott, right, as his assailant. Both men are Democrats from Holdenville, Okla. (AP Wirephoto).

CHECK YOUR GUNS!

AUSTIN, May 8. (AP)—The Texas House of Representatives today took facetious notice of yesterday's gunplay on the floor of the Oklahoma Senate. A sign in the office of Sergeant-at-Arms Ernest Boyett, posted under a newspaper headline of the Oklahoma shooting, read: "Check Your Guns Here."

### Three Cities Seeking Airport Facilities

MISSION, May 8. (AP)—Officials of the cities of McAllen, Edinburg and Mission today were studying means whereby airport facilities at Moore Field would be turned over to them provided they agreed to pay a \$700 utilities bill at the field.

The War Assets Administration has agreed to turn the former army air field over to the cities

if they pay the bill which has accumulated since the end of the field's use as an airbase.

### Boxing For Relief

GALVESTON, May 8. (AP)—The all-star boxing bout last night for the benefit of relatives of Texas City firemen who lost their lives in the April 16th disaster netted \$4,983, sponsors of the event announced. This sum did not include tax deductions.

## Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe your own. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barconate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonful twice a day. That's all there is to it.

If the very first bottle doesn't show the simple, easy way to lose

bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloot disappears—how much better you feel. More alive, youthful appearing and active.

### Schools To Check On Dressing Room

Possibility of securing buildings from the Big Spring Bombardier School for conversion into dressing rooms will be explored by representatives of the Big Spring schools.

The board of trustees Wednesday evening instructed E. S. (Pat) Murphy, athletic director, and W. C. Blankenship, superintendent, to ascertain availability and cost of two buildings suitable for conversion.

Should this be possible, the structures would be erected inside the south confines of the football stadium so that they would not only have locker, equipment storage and dressing room space but also would have rooms suitable for ticket window purposes.

Murphy explained that the present set up over-taxed dressing room facilities at the high school gym and that arrangement was unsatisfactory for high school football and baseball purposes, in addition to penalizing the regular physical education program for boys.

### Rifleman Needed By Regular Army

The Regular Army is in need of twelve former servicemen who had experience as a Rifleman—MOS 745, or Military Policeman—MOS for duty at the US Disciplinary Barracks, New Cumberland, Pennsylvania, M-Sgt. David C. Lillard, local recruiting sergeant, announced today.

Eligible men may enlist for 18 months, two or three years for this assignment.

Complete details on grade vacancies and an explanation of the duties men enlisting for this assignment will perform may be secured at the Recruiting Station, Post Office Building.

### Directors For Negro University Chosen

AUSTIN, May 8. (AP)—The board of directors of the newly created Texas State University for Negroes is going ahead with plans to provide the same educational facilities for the negro people as are offered to the white people. Craig V. Cullinan, chairman of the board, said here yesterday.

## Alcohol Said America's Greatest Unsolved Public Health Problem

SAN FRANCISCO, (UP)—Alcoholism is not only America's greatest unsolved public health problem but it is on the upgrade, according to Dr. George S. Johnson, professor of neuropsychiatry at Stanford University's school of medicine.

Of the 100,000,000 men and women of drinking age in United States, 50,000,000 use alcoholic beverages, 3,000,000 become excessive drinkers and these last 750,000 become chronic alcoholics, he said.

The doctor pointed out that while only six per cent of the users of alcohol become inebriated, a percentage figure falls into insignificance when the total figure of 3,000,000 is considered.

"To say that there are 3,000,000 inebriated indicates that there is a problem of sufficient size to warrant serious consideration," Dr. Johnson said in a talk before the National Conference of Social Work.

"Alcoholic psychoses accounted for 4.5 per cent of all first admissions to hospitals for mental diseases in 1938," he said. "An additional 6.9 per cent were patients suffering from alcoholism without psychosis."

Dr. Johnson pointed out, however, that statistics show that while alcohol is an important factor in mental disease and social maladjustment, it is not the sole factor. "nor does its use in the main lead to mental diseases or social maladjustment."

He cited a quotation from a research specialist in alcoholic effects: "In moderation, wine, beer and spirits may be taken throughout a long life without impairing the general health."

Then Dr. Johnson listed the social effects directly traceable to the

- use of alcohol:
1. Arrests for drunkenness—1,000 to 3,000 per 100,000 population.
  2. Arrests for drunken driving—30 to 325 per 100,000 population.
  3. Disorderly conduct while drinking—85 to 1,375 per 100,000 population.
  4. Deaths involving alcoholism—one in every 200 total accidental deaths in 1940.
  5. Fatal traffic accidents—one in every five involving drivers or pedestrians.

"The evidence submitted is intended to point out that while the excessive use of alcohol is associated with misconduct and problems of public safety, with mental disease and death, and with various physical disabilities, alcohol itself is not the cause," he said.

"Side by side with the fact of alcoholic addiction in a very small minority and of inebriety in a somewhat larger number, stands the equally significant fact that the majority of so-called civilized men and women can consume alcohol with moderation during the greater part of their lives without becoming inebriated or addicts or affecting their general health," he said.

## We Have A Big Stock Of ARMY SURPLUS GOODS

There are many new items in this stock. New shipment are arriving most every day. See these bargains. You can save money.

- A new shipment, all sizes **BLACK NAVY OXFORDS** ..... \$5.95
- All leather or cord soles **NAVY WORK SHOES** ..... \$4.95
- Smooth leather with cap **ARMY SHOES** ..... \$4.95
- NEW NAVY RAINCOATS—NOW \$6.95**
- TARPAULINS—All sizes, new \$3.77 up**
- Complete with poles and stakes **16x16 ARMY TENTS—New** ..... \$49.50
- We have the mattress for them **ARMY BUNK MATTRESS—NOW \$6.00**

# MOTHER'S DAY ITEMS

You'll Find The 'Right' Gift At Anthony's! Smart NEW HANDBAGS

In A Feature Offer!  
Excellent quality patent plastic. Easy to keep clean... serviceable... inexpensive. Splendid selection of styles such as pouch, underarm, top handles, frames. In black, white, bright red, and pastel shades. Well made in every detail... excitingly new in design...  
**\$2.98**

Stunning New Rayon and Cotton Summer GLOVES **98c**  
Washable pastel shades or white. Popular 3-button lengths. Sizes 6 1/2 to 8 1/2.

★ SHEER NYLONS  
Perfect Quality 51-Gauge!  
Yes, 30 denier finer quality 51 gauge nylons in beautifully sheer blonde-beige perfection. If Mother loves fine things you'll please her with these gorgeous nylons. Sizes 8 1/2 to 10 1/2.  
**\$1.59**

★ JEWELRY GIFTS  
Lovely Chateaines By Coro  
Popular chateaine type pins and ornaments in several new designs, characters and sizes. Includes floral designs and music hall replicas in silver or gold. An ideal gift for Mother.  
**\$2.98**

A Bed Jacket **2.98**  
Cap sleeves, lace trims on shoulders and front. White or blue. Beautifully designed for loafing or convalescing.

A Lovely Scarf **1.98**  
Florals, modernistic motifs or solid colors. Oblong or square shapes. Crepes or sheer crepes. A lovely gift.

2-Bar Rayon Panties **59c**  
In short legs, Hollywood briefs or band bottoms. All-elastic waistband. In terrace or white. Lovely quality.

Some Lovely Lingerie Will Please Her!  
**RICH SATIN GOWNS**  
With Lavish Lace Trims **\$3.98**  
Full swing skirts... lavishly trimmed bodice of fitted brassiere type midriff. White or terrace. Sizes 34 to 42. A wonderful and useful gift for any mother.

Lovely Tricot Knit RAYON GOWNS **\$2.79**  
Beautiful 2-bar tricot knit rayon gowns: tailored styles with fitted bodice and built up shoulders. Needs no pressing. White, black, pink, blue, maize.

2-Bar Tricot Knit Rayon Gowns **\$3.98**  
Our finest 2-bar tricot knit gown with full 80-inch skirt. Fitted midriff with lace trims on shoulders and bodice. Colors are blush, maize, white, black. Sizes 34 to 42.

Lace Trim or Tailored Multi-Filament CREPE SLIPS **\$3.98**  
Sensational new rhythm cut slips of gleaming multi-filament crepe; with fitted bodice tops in either lavishly lace trimmed or simple tailored styles. One of the best qualities we've had in a long time. White or terrace. Sizes 32 to 42. Wonderful values.

4-GORE RAYON SATIN SLIPS **\$1.98**  
A practical, comfortable, wearable slip of shadowproof rayon satin. A great favorite everywhere. Terrace or white. Sizes 32 to 44.

**Anthony's**  
Big Spring, Texas

### Legion Urges Passage Of Training Act

WASHINGTON, May 8. (AP)—The American Legion urged President Truman today to recommend congressional action on universal military training without waiting for a final report on a commission he named to study the subject.

Paul H. Griffith, national commander, noted that Congress plans to wind up its session by July 31 and said unless hearings are started without delay no decision is likely this year.

His letter to Mr. Truman added: "It is my understanding that your advisory commission has held 14 meetings and heard in excess of 200 witnesses, since commencing its research last December.

"Though the commission may not be ready to tender a final report, I believe Congress would welcome even a preliminary account of the commission's findings at this time for the sake of guidance."

Dr. Karl T. Compton, president of the Massachusetts Institute of Technology is head of the commission.

Several GOP leaders in Congress have told newsmen there is little enthusiasm in either house or senate for a full dress debate on the training proposal at this session.

### Regular Rotary Meet Scheduled Tomorrow

Fred Keating, president of the Rotary club, Thursday reminded all Rotarians that the week's regular meeting will be held Friday at 8:30 at the Howard County Junior College.

The club is joining with other service units in Big Spring in honoring visiting high school seniors to the college campus Friday evening for a barbecue. Previously, the city park had been mentioned as a possible site, but the affair will be on the HCJC campus at the bombardier school.

### Quick-Frozen Apple Sauce With Real Springtime Appeal

It's easy to give the children a dessert treat for lunch no matter how busy you are. Quick-frozen apple sauce now abundantly available, is ready to serve as soon as it is thawed, and it's sure to strike a note of high popularity with the family. Several kinds of apples are chosen and blended to give a distinctively refreshing flavor that has real springtime appeal. Children like it with all sorts of cookies, with gingerbread, with crisp crackers, or just with bread and butter. It's a lunch-time treat for grown-ups too. Just before serving, sprinkle with cinnamon, nutmeg, or a little of both to give it spicy deliciousness.

### BURGLARS MISS CARTON OF TEA

OKLAHOMA CITY, Okla., May 8. (AP)—If a carton was good enough for their tea it was good enough for their money. So figured a tea company.

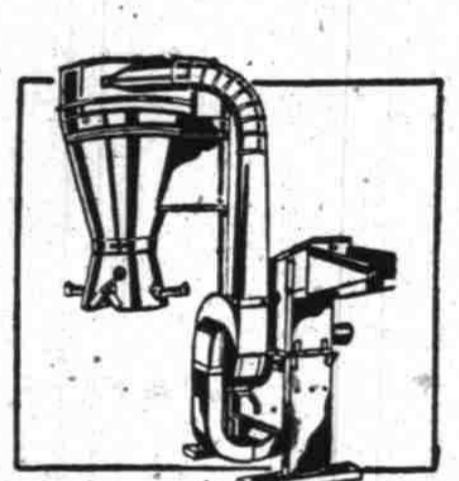

When burglars entered the office during the night and took a cash box from a filing cabinet they got no money. The firm's money was hidden in a carton of tea.

## Montgomery Ward

219-221 W. 3rd. Phone 628

# SAVE ON FARM NEEDS!

You'll find—like farmers everywhere—that your money goes farther at Ward's. Visit Ward's. You'll agree—at Ward's, better farm needs cost you less!

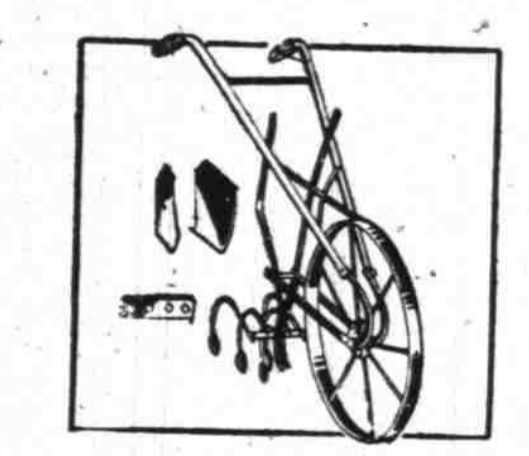

**NEW HAMMERMILL** **95.00**  
All the features of Ward's famous mills, in a model for 1-plow tractors! See it at Ward's... today!

**FENCE CONTROLLER** **16.95**  
Operates on either battery or 110 A.C. current in all kinds of weather. Gives strong, safe shock!

**WARD'S SISAL ROPE** **3.00**  
Ward's Powr-pull sisal rope is strong—beats Govt. strain tests! Weatherproofed for long service!

Balanced overdrive type for fast, accurate work! 24" wheel. Tool, extra attachments are included.

**J&J FILTER DISKS** **55c**  
Save at Ward's on nationally-known J&J disks! Finest quality, long-fibered, non-absorbant cotton!

**TABLE SEPARATOR** **28.45**  
Accurately skims 35 quarts in 20 minutes! Easy to adjust, operate and clean! Priced low—SAVE!

**Few Changes Likely In Tax Cutting Bill**

WASHINGTON, May 8. (AP)—Top Republicans on the Senate Finance committee indicated today that few changes are likely in the "20-30" House bill cutting individual income taxes some \$4,000,000,000 a year.

Chairman Millikin (R-Colo.) summoned the committee into a session behind closed doors to begin detailed consideration of the legislation. In two weeks if open hearings the group heard recommendations of the plan from industrialists, heavy criticism of it from the CIO, and a declaration against any tax reduction whatever at this time from Secretary of the Treasury Snyder.

**World's Fair For Women Planned**

CHICAGO (U.P.)—A "world's fair" of women's fashions and beauty products will be held in Chicago from Sept. 19 to 23.

A committee of fashion and cosmetics manufacturers announced they hoped to make the show, known officially as the National Women's Exposition, an annual event attracting at least 300,000 persons.

It will be the first complete exposition of products for women held in this country. Exhibits will include clothes, furs, shoes, millinery, lingerie, accessories and beauty aids.

Experts will demonstrate the cosmetics, and mannequins will model the clothes.

In place of the conventional style show, however, the exposition committee is planning to install a "Wheel of Glamour," a ferris wheel upon which "the most beautiful models in the country" will ride.

**French Convicts Will Be Employed**

PARIS, France (AP)—To meet the French manpower shortage, all convicts serving sentences under five years of imprisonment are to be employed at work in the national interest, such as agriculture, mines, reconstruction and textile. It was announced by the French ministry of labor.

This is in line with a recent statement by Communist Minister of Labor Ambrose Croizat that "all parasites must work."

There are now about 30,000 persons serving sentences under five years, including 12,734 political offenders and 2,887 persons sentenced by military tribunals. None of them was sentenced to hard labor — which is only applied to people condemned to more than five years.

Difficulties however may arise because of lack of qualified guards and lack of credits to promote new ones, a spokesman for the ministry of labor said.

**EXCHANGE WEATHERMEN**  
WASHINGTON, May 8. (AP)—The United States and Russia have agreed to exchange five weather experts each under an arrangement which Moscow initiated, the state department disclosed today.

Canning by the hermetic sealing process was invented in France late in the 18th Century to preserve food for Napoleon's armies.

**Good Turn For Firemen Backfires**

EAST FAIRMONT, W.Va. (U.P.) — Lowell Morgan did the local fire department a good turn once but never again.

When a small fire broke out in an automobile, Morgan raced from his furniture store with a fire extinguisher and put out the blaze.

A few minutes later a fire engine arrived. Morgan asked the captain if he could re-fill the extinguisher.

"Sure," said the firman, "for a buck."

Rubber can be processed so that it will stretch as much as 1,000 per cent but by other processes it can be made so that it will not stretch at all.

**The Dance Amazes Even Taxidermist**

BALTIMORE (AP)—A taxidermist's business is a quiet one, but it has its bizarre moments—thanks to the customers.

M. D. Oxenham engaged for many years in the stuffing of animals, gives as one example the pretty dark-haired girl who entered his shop with two long dead snakes wrapped up in a package.

"Will you stuff these?" she asked. "I want them coiled as though ready to strike, and the coil should be a little larger than this hat band, so it'll fit snugly on my head."

Oxenham inquired whether the girl didn't think she'd frighten people wearing the snakes on the street.

"I won't wear them on the street," she promised. "I do a dance at a night club here, and the snakes will create a nice effect."

**Youngsters Profit During Butter War**

NEWTON, Ia. (U.P.)—Youngsters here made 10 cents a pound selling butter when two grocers had a price war.

The rival markets dropped the price from 6 cents to 45 cents a pound within a few hours, with one pound to a customer. At the same time, another grocer put up a sign in his store offering 55 cents a pound for all butter brought to him.

He took in about 50 pounds, mostly from children, and sold it right back over the counter.

**Plane Searchers Find Clothing, Oil Slick**

VANCOUVER, B.C., May 8. (AP) Searchers for the missing Trans-Canada Airlines transport, which disappeared with 15 persons aboard nine days ago, reported today finding clothing and an oil slick in the Gulf of Georgia, close to where an "undetermined contact" had been made with anti-submarine detection equipment.

AT BAGHDAD TRACK—Two Arab youngsters help their father saddle his horse at a remote playground of the sport of kings—the British Sports Club track—near Baghdad, Iraq.

### Many Students Expected Friday For HCJC Fete

Students from more than a dozen high schools in the area are expected here Friday to join in activity climaxing "Pioneer Week" at the Howard County Junior college. The visitors will be welcomed at the college by members of Big Spring service clubs and college officials, and a special program for the entertainment of the high school students has been arranged. "Pioneer Week" opened Monday at the college, and students have been required to wear typical western attire to classes throughout the week. The ABC club will be in charge of a special program beginning at 8:30 p. m. Friday, which will be attended by members of all service clubs in the city. Clubs which usually meet earlier in the week suspended their regular luncheon sessions to participate in the joint meeting. A barbecue will be served to the visitors by the service clubs and the chamber of commerce. Final event on the program is a ball, which is to be held at 8:30 p. m. in the gymnasium, with the HCJC orchestra furnishing music.

### Brownsville Man Heads Assessors

GALVESTON, May 8. (AP)—Ralph T. Agar of Brownsville was elected president of the Tax Assessors - Collectors' Association of Texas at the concluding session of the association's 14th annual convention yesterday. Frank Hoyt and second vice presidents respectively and George F. McCullar, Kingsville was re-elected secretary-treasurer. The association chose Fort Worth as site for the 1948 convention.

### Inverchapel To Visit Texas In October

WASHINGTON, May 8. (AP)—Lord Inverchapel, British ambassador to this country, is looking forward to a visit to Texas in October. At a luncheon given in his honor yesterday by the Texas congressional delegation, the ambassador said he contemplates visiting some Texas colleges to mingle with and talk with students.

### 100 Ft. Worth Business Men To Visit Here

A trade development group composed of approximately 100 business men representing the Fort Worth chamber of commerce will be in Big Spring for approximately one hour on the afternoon of May 30. Fort Worth chamber officials announced today. The group will arrive at 2:15 p. m. by special train. They plan to visit cities in the Panhandle, Eastern New Mexico and points west of Big Spring in Texas earlier. The Big Spring chamber of commerce today received a letter of appreciation from the Dallas Manufacturers and Wholesalers association for the local reception that group's trade development party received during a visit April 21.

### Air Lines' Traffic Increasing Steadily

The curve on Pioneer Air Lines' traffic continued upward during April, according to a report today from Robert J. Smith, president. The line carried 4,790 passengers last month, a 12 per cent gain over March, which had a whopping gain over February, the month in which Pioneer put through its route expansion which included Big Spring.

### May's Son Testifies At War Fraud Trial

WASHINGTON, May 8. (AP)—Robert May testified today at the war fraud trial of his father, Andrew J. May, former Kentucky representative, that two checks for \$1,000 cashed at the capitol by the elder May in 1944 were "political contributions." The government has charged that A. J. May got the proceeds

### Shooting

(Continued From Page One)

erty settlement. Anglin's law firm represented the woman. Scott insisted he fired only after Anglin threatened to kill him and started to draw a gun. Anglin, prominent in state politics for more than 30 years and acting governor of Oklahoma on several occasions, suffered a deep flesh wound in his left hip but physicians at University Hospital said his condition was not serious. The wounded man denied he had threatened Scott or was even aware of any animosity between them.

from the two checks for interceding with Army authorities seeking preferential treatment for a son of Joseph F. Freeman, on trial with May, and for E. A. Feldman, a California war contractor.

### Baptists Oppose Federal Aid To Church Schools

ST. LOUIS, May 8. (AP)—The Southern Baptist convention prepared to vote today on a recommendation that it oppose any federal aid to education involving application of public tax money to church schools.

The convention was told yesterday that "the historic wall between the church and the state is being undermined."

A public relations committee report, to be submitted to the convention by Dr. Walter P. Binns, president of William Jewell College, assails government aid to church schools. This supports the stand taken yesterday by convention president Louis D. Newton of Atlanta, who in the opening address, condemned the recent supreme court action in upholding use of public school funds for transportation of children to Catholic schools.

The committee report states that a consistent application of the act upheld by the supreme court "poses a threat to the future of the public school system, since principle would allow not only Roman Catholics but 250 different denominations in the United States to put hands into the public treasury for support of their sectarian schools."

### Weather Forecast

DEPT. OF COMMERCE WEATHER BUREAU  
BIG SPRING AND VICINITY—Partly cloudy and clear. Occasional showers. Expected high today 86. Low tonight 64. High Friday 82.

### COTTON

NEW YORK, May 8. (AP)—Cotton noon prices were 80 cents to 81.40 a bale higher than the previous close. May 26.88, July 34.80, Oct. 29.88.  
WALL STREET  
NEW YORK, May 8. (AP)—Irregularly lower tendencies persisted in today's early stock market dealings. The pace slowed after a fairly active opening but fractional declines predominated near midday. Light professional selling again was attributed partly to doubts regarding the business outlook, growing consumer resistance, wage-price problems, taxes and the foreign picture. A little bidding here and there was based on earnings, dividends and hopes for a technical comeback.

LUCKY ANGLER—While his pet dog looks on with interest, 12-year-old Oscar Brett of Philadelphia lands a nice trout to start the new fishing season right.

### Two Plead Guilty In Justice Court

Weldon Jones and Charles Parrott, taken into custody by Constable J. T. Thornton last week, entered pleas of guilty to the charge of drunkenness in justice court Wednesday afternoon and each was fined \$1 plus court costs. They were returned to confinement when they could not produce the money with which to pay their penalties.

### Two Cities Bid For Church Convention

ST. LOUIS, May 8. (AP)—Memphis, Tenn., and Oakland, Calif., are the principal cities bidding for the 1948 Southern Baptist con-

### Soft Spot Found

ANNAPOLIS, Md. (AP)—Residents of nearby Raynor Heights watched a small airplane, its motor dead, seek a spot for a crash landing, then plummet into a woods. A number of them hurried to the scene, expecting a sight of sudden death. Instead, they found both the pilot and a young girl passenger sitting calmly beside the plane, whose wings had been shorn off by the trees and which had landed upside down.

vention but convention sentiment today appeared to be in favor of Memphis, which has been host to the Baptist messengers several times in the past.

### Andrews Man New Lions Governor

M. O. Woolam, Andrews, is to be the first governor of the newly created Lions district 2-T-2, delegates reported Wednesday on their return from the last convention of jumbo district 2-T in El Paso. Effective in July, 2-T is to be divided, this territory falling within the south district. Convention city for 2-T-2 is to be Fort Stockton, only bidder for the honor. Woolam defeated J. W. Toombs, Alpine, and B. A. Copass, Iraan, in a spirited election for south half honors. Attending from here were President and Mrs. Otis Grafe, Mr. and Mrs. K. H. McGibbon, Mr. and Mrs. Cecil McDonald, Harold Steek, Boone Horne, George Melcar and Bill Daves.

### Luther Farmer Dies In Local Hospital

Funeral services of Westbrook Robertson, 81, who died in a local hospital last night, will be conducted at the Eberley chapel at 3 p. m. Friday but plans for the last rites are incomplete pending word from relatives.

A farmer by trade, Mr. Robertson had lived in the Luther community for the past two decades. He was born in Alabama April 20, 1866.

### Two Local Bidders Get War Surplus

Big Spring bidders have been successful in two War Assets Administration surplus sales, WAA reports indicated today. Z. J. Cox, 2107 Gregg, bought two of 60 lots of property offered at the Abilene Army Air field, and WAA tabulations indicated office chairs were included. Among 192 veterans purchasing miscellaneous furniture at a mail-order catalogue sale were four Big Spring men. E. P. Driver bid in a steel office desk for \$10; Walter F. Frey and Edward A. Savage, typewriters at \$29.16 each; and J. B. Knox, Jr., two rotary office chairs at \$3.50 each. Furniture is on the national set-aside list.

# Both Houses Of Legislature Busy Trimming Appropriation Bills

AUSTIN, Texas, May 8. (AP)—The trimming of major appropriation bills continues in both houses of the legislature.

The latest slash of funds came yesterday when the House Appropriations Committee whacked approximately \$2,500,000 off the \$43,145,177 departmental appropriation measure which was passed by the Senate.

Rep. C. S. McLellan of Eagle Lake, chairman of the sub-committee which handled the bill, said the reductions in funds recommended for the various state departments were made without cutting proposed salary increases any more than necessary.

These salary increases, he said, were above the general increase anticipated for all state employees.

Reported to the House for consideration, the revised departmental bill would now appropriate slightly more than \$40,000,000 for the next two years.

This is approximately \$1,000,000 more than Gov. Beauford Jester recommended, and is \$12,000,000 above the present biennial appropriation.

A three-and-a-half hour filibuster in the Senate ended yesterday with passage of a bill which Sen. Fred Harris of Dallas had attempted to talk to death.

The measure would reallocate the surplus of the state road bond retirement fund in an attempt to produce more farm-to-market roads. The surplus would be distributed equally between the highway department and county lateral road funds, the county portion to be apportioned on area of the county, rural population and lateral road mileage.

The bill returns to the House for concurrence in an amendment which would add \$1,000,000 to the surplus by reducing the emergency operating margin of the state fund from \$3,000,000 to \$2,000,000.

The House re-referred to the committee on banks and banking

a bill which would prohibit banks from charging or deducting any sum for the payment of checks drawn upon them by their depositors.

Small town and rural representatives strongly opposed the measure. Re-referral of the bill was tantamount to killing it at this late stage of the session.

Finally passed by the House was an amended Senate bill to allow insurance companies to invest not more than 5 per cent of their capital assets in building and loan associations and banks.

## Billies Defeat Senior Sextet At Knott, 26-7

KNOTT, May 8.—The retiring seniors took a 26-7 walling from the future regulars of the Knott high school six-man football team here Wednesday afternoon, giving local fans hope that Coach Homer Barnes will come up with a winner in the 1947 season.

Ditto, Harland, Barnes and A. Shanks scored touchdowns for the winners while conversions were picked up by Hughes and Roman.

Hughes and Barnes proved the most consistent ground gainers while Harland and Shanks showed promising ability at the wings.

"Farmer" Burchell scored the lone Exes TD. Nichol added the extra point on a pass. Big Charlie Shanks and "Baby" Nichols were threats in the Ex attack.

Starting lineup: Knott High — Harland and A. Shanks, ends; Ditto, center; Barnes, Roman and Hughes, backs. Exes—Tate and Nichols, ends; Riddle, center; Adams, C. Shanks and Burchell, backs.

## Trophies Crowd Store Window

STANTON, May 8.—A window in Morgan Hall's drug store is bulging with trophies won by Stanton basketball teams during the past two years.

While most of the display is devoted to trophies sacked up by the girls' team, four winners are noted for the boys quintet. Crowded into the window are no less than 13 first place trophies won by girls in tournaments at Coahoma, Ackerly, Union, Stanton, Courtney, Hermleigh, Hargrove and the district 19 and district 21-B meets. Centerpiece, of course, is the 2nd place trophy for the league of Texas high schools which this year had a state cage meet at Hillsboro.

Fame of the Stanton lassies has been such that recently, on consecutive days, East Texas scholastics enroute to the Carlsbad Caverns have stopped in Stanton to see the team.

## Stanton Diamond Nears Completion

STANTON, May 8.—Softball players and fans hope to have the new softball park in operation here soon.

The new playing field just west of the Co-op Gin at the western extremity of town and just south of the tracks, has been fenced. Holes are down and poles are going up for a battery of lights. When completed the plant is due to be one of the best lighted in this area.

Schedule for the Stanton city league is being held up pending completion of the field.

## Lobos, Abilene Lose In WT-NM

By The Associated Press  
Amarillo's Gold Sox found their big guns silenced for the first time this season and lost to the Albuquerque Dukes 10-4 last night to allow Lubbock to increase its West Texas-New Mexico League lead by a game.

The Hubbers downed Lamesa 10-4 to go two games ahead of the Gold Sox.

Clovis outlasted Borger 14-11 in a fight between the two cellar teams while Pampa edged Abilene 4-3.

## Fall In Price Of Vetch Seen

BROWNWOOD, Tex., May 8. (AP)—R. H. Nelson, district production and marketing field agent said here yesterday that there were over 100,000 acres of vetch in the favored producing area of the West Cross timbers this year. He predicted that the seed, selling for about 20 cents a pound, might drop below the 13 cents government support price if the acreage yield is high.

Nelson spoke at a meeting of seed dealers from Oregon, Arizona, Louisiana and Texas to discuss price support and insect control of vetch seed.

Wilson Westbrook of the Production and Marketing Administration Grain Division, Washington, said that the West Cross timbers vetch growing area from Brownwood north is free of weevil.

He added that Arkansas is the only state that has set up controls requiring fumigation and sealing of containers of imported vetch seed.

A. E. Ruhmann, Waco seed man, proposed the initiation of steps to prevent weevil-infected seed distribution in Texas.

Charles V. Griffin, Brown county agent, said that experimental dusting on two farms showed no positive results.

## Wesleyan Resigning From Conference

ABILENE, May 8. (AP)—The resignation of Texas Wesleyan from the conference will be considered by the faculty representatives at the conference at their annual meeting here tonight.

Dean W. B. McDaniel of McMurry College said that among reasons submitted by the college in submitting its resignation was that "carrying on a full athletic program as required by the conference was too expensive in Fort Worth."

The faculty representatives will be guests of Dr. George L. Landolt, Austin College, conference president, before their business meeting.

## Chihuahua Test Wells Down To 3,600 Feet

MEXICO CITY, Mex., May 8. (AP)—Pemex, the government oil monopoly, said today test wells in the northern border state of Chihuahua had reached a depth of 3,600 feet.

Pemex said drillers had found a 1,800-foot salt cap which indicated the wells were nearing oil.

## Flying School Here To Buy Second Plane

STANTON, May 8.—Interest in flying here is sufficiently high that a second plane may be added for training purposes.

R. B. (Bob) Whitaker, partner in a flying school which operates here as an auxiliary to the San Angelo Flying Service, said a surplus army trainer might be added to supplement an Aeronca now in use.

The school has 10 students enrolled and is approved for schooling under the GI bill of rights.

### Faith Healer Rests After First Contacts

PALM SPRINGS, Calif., May 8. (AP)—Avak Hagopian, 30, Armenian faith healer, rested today after brief, initial contacts with three patients he hopes to cure. He saw Vaughn Arakelian, 35, epileptic son of Krikor Arakelian, wealthy vintner who brought Avak from Iran; Mrs. Alvera

Arakelian, arthritic wife of Vaughn's brother, Diram, and Mrs. Zena Narsessian, partially paralyzed friend of the family. Valid since he was nine, would be valid since he was nine, would be valid since he was nine, would be valid within two weeks.

### Soil Conservation Advocates Gather

DALLAS, May 8. (AP)—Farmers, stockmen, landowners and soil conservation advocates of Texas gathered here today for the third annual regional soil conservation conference.

Dr. Hugh H. Bennett, Washington, chief of the Soil Conservation Service, was to speak on "Better Business through Soil Conservation." Featured also was to be a discussion of "Better Health through Soil Conservation" by M. K. Thornton, agricultural chemist of the Texas A.&M. College Extension Service.

### POSTAGE DUE, BUT THE CASH INSIDE

SALINA, Kas., May 8. (AP)—A letter with four cents postage due arrived at Kansas Wesleyan university. School officials, busy conducting a drive for \$110,000 to help build a memorial library in honor of war dead, opened it to find \$279 in cash—the gift of an anonymous donor.

### DeWitt Droop, Grandpa Gallup Too Insistent

AUSTIN, May 8. (AP)—Pity the poor pedestrian, but not too much. He continues to be the victim in more than one-fourth of all the fatal traffic accidents in Texas. He generally has the right-of-way and insisting on it costs him broken bones, or his life.

Department of public safety experts say this is because he may resemble or be the counterpart of one or more of these mythical characters they have created for their latest safety booklet:

DeWitt Droop, nursing last night's hangover, standing off the curb waiting for a light to change, oblivious that the next passing car may reduce him to mush.

Grandpa Gallup, the old boy who leaps out from between two parked cars with the speed of a frightened gazelle. Goodbye, Grandpa.

Certie Grinwell, who skims across the avenue against a red light, barely escapes your left front fender, then flashes a toothy smile to signify: "No hard feelings."

The public safety department's review of Texas motor vehicle traffic accidents in 1946 is a booklet with the latest dope, and about the newest dopes, involved in the most recent accidents. Some of it is funny—funny as a crutch.

About pedestrians, the cold figures show they were involved in 26.75 per cent of all the fatal accidents in 1946.

This should not make you drivers smug. The same tables of statistics show that in more than 80 per cent of the so-called accidents, drivers were the causative factor. They either "accidentally" or deliberately violated a traffic law or a safety practice.

### Texas Medical Group Headed By Dr. Pickett

DALLAS, May 8. (AP)—Dr. E. Pickett, Sr., of Carriazo Springs, as president-elect of the State Medical Association of Texas, automatically took over the presidency of the association at its house of delegates session today, the final day of the 80th annual convention of the state group. Dr. Pickett succeeded Dr. C. C. Cody, Jr., of Houston.

At the final general lecture session this morning at Hotel Adolphus, convention delegates heard five eminent guest speakers. Dr. Thomas B. Magath, Rochester, Minn.; Dr. Waldo E. Nelson, Philadelphia, Pa.; Dr. Joseph M. Donald, Birmingham, Ala.; Dr. Harry M. Weber, Rochester, Minn.; Rear Adm. William L. Mann, Georgetown, Texas.

The convention will close at 4:30 p.m. following a combined sections' meeting at which the visiting experts who have been speaking during the week will give their final addresses.

Tuberculosis still exists as a major cause of death among infants and children, and its control is dependent upon the detection and segregation of all openly active cases, irrespective of age, Dr. Nelson declared.

Dr. Nelson stressed the importance of considering the tuberculous child's family as a unit in relation to the source of the infection and future management of the case.

Modern naval warfare—on land, in the air, on sea and under the sea—creates extremes of environmental conditions that require careful study and research by the Naval Medical Department, Ad. Mann said.

### Soviet Says Its Radio Truthful

LONDON, May 8. (AP)—The Soviet radio told the world today that it was truthful and objective, whereas the British and American radio was slandering and biased.

"When Alexander Popov, the great Russian scientist, invented the radio he dreamed of enriching mankind with the most perfect method of communication and of broadening the outlook of peoples," Moscow radio explained.

"But the world has witnessed time and again that any great accomplishment of the human brain can be distorted."

Soviet information, Moscow radio said, "is objective because we have nothing to hide. We have no monopolist press which pays generously for lies. . . . American and British broadcasting companies follow the methods of the reactionary press which believes in slandering and slandering (they) not only distort facts but conceal them."

### School Trustees Hear Summary Of Evaluation

School board members were given exhaustive summaries of results of the high school evaluation, here 10 days ago, at the regular meeting Wednesday evening.

Charles Romine, supervisor of high school instruction, explained findings on the library, pupil activities, curriculum and course of study, outcomes and instruction.

Walter L. Reed, principal, discussed ratings on guidance, plant, staff and administration.

As for library, charts prepared by a visiting committee of 20 secondary and college instructors and administrators, showed that the high school library here rated as good or better than 64 per cent of 200 schools of the nation, used as a base for the criteria.

Other summary figures include: Pupil activity 68 per cent; curriculum 73 per cent; outcomes 79 per cent; instruction 87 per cent; guidance (this is the first year the program has been operative here) 38 per cent; plant 38 per cent; staff 78 per cent; administration 82 per cent.

In the guidance field, Den Bennett, supervisor of elementary education, said that a system of periodic tests and records on each student was being set up so that a complete profile of the child would be available to teachers and particularly to the guidance director when the student reaches high school.

Bennett, W. C. Blankenship, superintendent, and Pat Murphy, athletic director, were named as a committee to recommend to the board a plan for establishing a system of principalships and athletic directors in elementary schools.

### Feeding Test Results Delayed

Tabulation of results from the annual feeding tests at the US Experiment Farm will not be completed for some time yet, Fred Keating, superintendent, said Thursday.

Two score calves, on feed at the farm for six months, were marketed last week in Fort Worth at 25 cents a pound across the board.

Some were graded higher but Keating took the loss price. Carcasses were graded exceptionally high by Armour's, the packer buyer.

Object of the test primarily was to continue studies of minerals on the diet of calves. Findings so far, and preliminary studies of bladder precipitates this year, indicate that bonemeal or phosphoric acid supplements greatly reduce and frequently erase feed lot troubles from clogged urinary tracts.

### Dr. W. Oliphant Of Dallas, Dies

DALLAS, May 8. (AP)—Dr. W. L. Oliphant, 47, Dallas religious leader, attorney and author died late yesterday a short time after he had preached a sermon at Searcy, Ark.

He was stricken with a heart attack in his hotel room after he had returned from a meeting at the Church of Christ there.

Dr. Oliphant was in his 23rd year as pastor of the Oak Cliff Church of Christ and had been a practicing attorney in Dallas for the past 10 or 12 years.

Funeral arrangements are pending. Surviving are his widow; two daughters, Miss Eleana Mae Oliphant and Miss Linda Lois Oliphant, both of Dallas; his parents, Mr. and Mrs. J. E. Oliphant, Dallas; two sisters, Mrs. Wilford L. Cannon, Dallas, and Mrs. Frank Stanley, California.

Big Spring (Texas) Herald, Thurs., May 8, 1947

### Agriculture Course For High School Set

Vocational agriculture was added to the Big Spring high school curriculum by the Big Spring Independent School district board of trustees in a four and a half-hour regular session Wednesday evening.

This action, the first step toward following through on the recent evaluation criteria in the high school, was but one of a host of matters claiming attention of the board.

Other high spots on the agenda were: Receiving of bids, contingent upon the calling and carrying of an election, for a potential school expansion bond issue; appointment of a summer school faculty; arranging for text book selections; an appropriation for a summer band program; fixing of use and rental policies for school athletic properties; explaining of implications of the \$55 per capita bill; selection of board members to award eighth grade and senior diplomas; reports on the high school evaluation.

Vocational agriculture, mentioned frequently by the evaluation committee as one of the curriculum area deficiencies (vocational shop, arts and crafts were others), drew a \$1,000 salary appropriation, plus the necessary monies for equipment. Under the Smith-Hughes act the federal government reimburses the major portion of vocational teacher salaries.

Although indicating other appointments might be necessary, depending upon demand, the board named Lorena Huggins, Zaida Brown, Letha Amerson as summer school faculty members and Mrs. Earl Brownrigg as alternate.

W. C. Blankenship, superintendent, was authorized to get text book committee reports for typing and agriculture and to confer with the board for approval.

In order to prepare the band in advance of the football season, \$400 was set aside for a summer band program under direction of Joe L. Haddon. The board fixed a rental fee of \$50 for night use of the football field. Rentals of \$15 day and \$35 night were fixed for the baseball park. The latter figure was acknowledged to be a bare minimum but was pegged at that figure in recognition of public contributions to the park. The board affirmed a previous position pledging \$1,000 advance, to be repaid out of rentals, to the ball park.

Reports on boilers in the various schools reflected a safe condition with some minor part replacements recommended.

Permission was granted to use the North Ward diamond for games, provided that responsibility for proper maintenance and protection of plants were assumed by those using the property.

Blankenship said he felt there was no doubt that Big Spring would qualify for the \$55 state per capita, but that under amendments the district would have to submit its budget to the state board of education for approval. It meets the requirements of using state per capita funds, plus a minimum of 40 per cent of local maintenance funds, for teacher salaries.

Blankenship estimated that current trends indicated resources of \$380,846 for the next school year and disbursements of \$386,620, or a deficit of \$5,773. However, the year would start Sept. 1, 1947 with an estimated balance of \$21,878, which would be reduced to \$16,105 by the end of the fiscal year. It is out of this figure, barring any windfalls from the state, that expansion and increased operation, costs must come.

The board received, without obligation, bids on a potential of one million dollars from bonding companies and called a special meeting for May 14 to give a decision on whether to pledge sale of securities upon the contingency of calling and carrying of an election.

The proposition was entertained on the premise that the bond market might change.

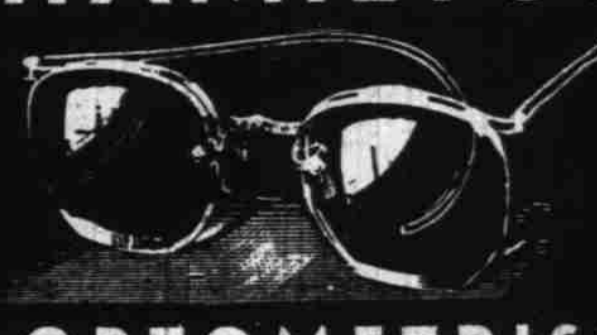

Dr. J. E. Hogan was named to distribute high school diplomas, and Marvin Miller, who has a daughter in the class, was selected to distribute eighth grade promotion certificates. Board members present were Ira Thurman, president, John Coffee, secretary, Dan Conley, Dewey Martin, Justin Holmes and Miller.

**AUTO MISHAP FATAL**  
BEAUMONT, May 8. (AP)—Grady B. Woods, 40, manager of the C. E. Evans Food Stores of Beaumont was killed instantly yesterday when his car careened off the highway.

### Showers Forecast

By The Associated Press  
Scattered thundershowers to-night and rising temperatures to-morrow were forecast for most of Texas.

An audience of approximately 250 persons attended the Texas City relief benefit program sponsored by the Big Spring Colored Civic League in the Municipal auditorium Wednesday night.

Cauble Credited With Saving Woman's Life

J. D. Cauble, formerly of Big Spring, was credited with saving the life of Mrs. Fred Parker last Saturday afternoon when he rescued her from the smoke-filled Parker home east of Graham before the building was completely destroyed by fire.

field and refinery workers, was attempting to rescue Mrs. Parker from the house which she had re-entered in search of clothing.
They were forced to return to the outside for air, but Cauble made a second try and located the woman overcome by smoke in the bedroom. Although she was burned and stunned, he succeeded in pushing her through the smoke to the outside.

### 'Duel In The Sun' Ending Friday

The spectacular production, "Duel In The Sun," which has played to large audiences at the State theatre since Tuesday, will have its final screenings here Friday. The picture originally was billed through Saturday, but a conflict in bookings has necessitated its early termination. Done in Technicolor and including nearly every device the sweeping western drama should have, "Duel In The Sun," tells the story of early ranch days on the Texas Plains. There is a cattle baron who fights the coming of the railroads, the tough cowhand, who tames the meanest stallion, and who, too, has a winning way with women; there are impressive scenes of great natural beauty and stupendous scope and color, with great herds of cattle and large bunches of horses. The picture boasts one of Hollywood's earlier optimistic outlook. Niffer Jones, Gregory Peck, Joseph Cotten, Lionel Barrymore, Herbert Marshall, Lillian Gish, Walter Huston, Charles Bickford, Harry Carey, Otto Kruger and Sidney Blackmer.

### Army Observes V-E Day Anniversary

PARIS, France, May 8. (AP)—The US Army's only formal V-E Day anniversary observance in France was held today at St. Germain in the Paris outskirts, where troops paraded before Brig. Gen. Howard L. Peckman of Jewett City, Conn., new commander of the American Graves Registration Command in Europe.

### Whooping Crane Keeps Secret Of Nesting Ground

NORTHFIELD, Minn., May 8. (AP)—The majestic whooping crane, stork-like bird of the marshes, now nearly extinct, is again on the wing northward to its secret nesting grounds. Despite a systematic search last year by a Minnesota zoologist who covered thousands of miles in Canada by airplane in addition to receiving assistance on the ground by Royal Canadian Mounted Police and other observers, the whooping crane kept its nesting place a secret.

But Dr. Olin Sewall Pettigill, Jr., associate professor of zoology at Carleton college, Northfield, leader of the extensive search last year, said the long-necked bird with the resonant voice, did establish a home somewhere in the far north last year. Observation of the cranes recently at Arkansas National Wildlife Refuge near Austin, Texas, where the birds winter annually, revealed there were three young birds—hatched in 1946—among the 25 at the wintering grounds. Pettigill believes the 25 birds are all that remain out of the species which old records say once "darkened the sky" in their migration.

This spring's search for the well-hidden nesting grounds, which zoologists say must be found in order to give the whooping cranes a chance for a comeback, will be two-fold. Robert P. Allen, representing the National Audubon Society and the US Fish and Wildlife Service will head one searching party. In the other will be Pettigill and Edward F. Dana of Portland, Maine, who will start early in June by flying to Great Slave Lake in northwest territory to begin their hunt.

The big birds which stand more than four feet in height and have a wing spread of seven feet, took off from Arkansas in mid-April for their annual flight to the northern part of the continent.

### Eastus Acquitted Of Income Tax Evasion Charges

DALLAS, May 8. (AP)—Former US District Attorney Clyde O. Eastus of North Texas was acquitted of income tax evasion charges last night by Federal Judge William H. Atwell.

Joe H. Jones, former assistant district attorney and law partner of Eastus, was found guilty by a jury on similar charges Monday and was to be sentenced today. Immediately after Judge Atwell announced his decision, US Marshall Red Wright arrested Newt S. Locke, war-time contractor and a prominent witness in the Jones and Eastus trials, on charges of income tax evasion.

Both Eastus and Jones were charged with not reporting a \$13,000 fee received by their law firm from Locke. Jones testified he gave Eastus \$4,000 of the fee and Eastus denied this in his testimony, charged with failure to pay income taxes in 1942 and 1943 on income received from their law firm. Coy W. Herne, income tax investigator who handled the Eastus-Jones cases testified during the trials that the income tax Eastus had not paid or reported for the two years was about \$2,400. He testified Jones owed the government \$3,181.59.

In announcing his finding in the trial of Eastus, Judge Atwell said: "I don't believe much that is charged against Eastus. I think Jones took advantage of him, to say the least. Eastus' mentality is highly flavored with egoism and officialism; he desires to be recognized. He has mental storms. Or as one witness put it, 'he blows his top.' At Eastus' trial Federal Judge James C. Wilson of Fort Worth was one of several witnesses who testified concerning the former district attorney's mental condition. Judge Wilson said he had written and telegraphed the attorney general concerning Eastus' mental condition.

**\$35,000 Hospital, But No Doctor**  
DONNA, Texas. (U.P.)—Donna is a city of 5,000 with plans for a modern hospital—but only one doctor. Citizens raised \$35,000 for the hospital while a similar amount was being pledged by a town benefactor. Then residents learned that one of their two doctors was leaving Donna. The town also is without a dentist, although a new office building has a suite set aside for dental officers just waiting for a dentist to move in.

### DO FALSE TEETH Rock, Slide or Slip?

**PASTEETH** an improved powder to be sprinkled on upper or lower plates. Holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, sticky, pasty taste or feeling. **PASTEETH** is alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get **PASTEETH** at any drug store.

## Local Toastmasters Do Lot Of Talking

Now nearing its first year of operation in Big Spring is the Toastmasters club.

The name is at once descriptive, for one of the objectives of the organization, sponsored by the YMCA and affiliated with Toastmasters International, is to equip members for the chore of serving as toastmaster at appropriate gatherings.

But more than that, Toastmasters is an organization to help members develop the faculty, for oral expression. Consequently, almost every program has from three to four five-minute talks (one of them an educational talk about some phase of speaking) and a featured 10-minute address.

As yet there are relatively few polished speakers and none of them in the silver-tongued class, but club members take peculiar interest in the general progress of speakers.

There is one sure-fire device against monotony occasioned by what might otherwise become a stereotyped program. It is the critique. Each meeting, after speakers have done their best of worst, they get a firm grip on the table as the toastmaster for the evening introduces the general critic.

Things pick up as the general critic unleashes a hungry special critic upon each speaker. At the outset of the organization here, critics were timid and nice. "It was a fine talk. I enjoyed it very much. I don't believe I can find anything to criticize about it." Such were the platitudes.

But now, seasoned members rally to the cause. This is more apt to be typical. "You spoke clearly, but your talk wasn't effective. Your line of reason didn't have anything that resembled logic or cohesion. You had a few expressive gestures, but you must have been weary the way you leaned on the speakers stand for support. I believe if you had studied your notes or practiced your talk, you wouldn't have to be looking at them more than at your audience. You had a lot of conviction, but you weren't convincing, etc."

In fact, veteran members can shut their eyes and tell how long a member has been in the club by listening to his appraisal of a fellow member's speech. They don't get nasty, but they don't pull punches either, even though they know it may come back in full measure.

One of the key points of the Toastmasters is to teach members to say what they have to say concisely, effectively, clearly and within specific time limits. When they get within one minute of the deadline, the sergeant-at-arms flashes a yellow caution light. When the time is up the red goes on, and the speaker may finish his sentence or brave the wrath of an irate critic.

Another standing feature is the table topic period. A topic master for the evening proposes a controversial item for discussion. Members may comment as they see fit (some time they are assigned sides regardless of their personal opinions). Discussions are held with two minutes so that the largest possible number may participate. Grammar does not go unnoticed, for the speaker that says "I seen this happen" is liable to have something happen to him. Or if he uses an adverb instead of an adjective, some critic is apt to catch the scent. Loose construction is frequently recalled with withering results.

Toastmasters seem to get a kick out of their Monday evening sessions at the Episcopal parish house, for attendance among the limited membership of 30 generally is high. They seem bent on mastering one of the key slogans: "Stand up, Speak up, Shut up."

## Traffic Mirrors Killed 1,959 Texans In '46

AUSTIN, May 8. (AP)—Traffic accidents killed 1,959 Texans in 1946 compared with 1,517 in 1945, the State Department of Public Safety announced today.

The final roundup of statistics on the year's traffic toll showed the increase in fatalities to be 29 per cent. December was the worst month, with 200 killed in motor-vehicle smashups. The report included all reported accidents up to March 18. Some may still be outstanding from 1946.

Deaths in cities over 2,500 population increased 13 per cent, parallel to a 13 per cent increase in accidents in these congested areas. Deaths in towns under 2,500 increased 76 per cent, with a 77 per cent increase in total accidents.

On the highways, the death toll

was 34 per cent greater, parallel to the 34 per cent increase in all accidents.

County road accidents killed 22 per cent more people in 1946 than in 1945, and, accidents were up 15 per cent.

Comparing the traffic death rates (number killed per 100,000 population) in 1941—the last pre-war year—with 1946, the Public Safety Department found that there were decreases in 10 cities of more than 10,000 population.

### Brig. Gen. Berry Sworn Into Office

AUSTIN, May 8. (AP)—Brig. Gen. K. L. Berry was sworn in as Texas' new adjutant general yesterday during ceremonies in Gov. Beauford H. Jester's office.

The oath of office was administered by Judge W. O. Murray, fourth court of civil appeals, San Antonio.

Nine other governor's appointees, the directors of the new state university for Negroes, also took the oath of office.

It is estimated that 70 per cent of Hong Kong's European dwellings were destroyed or damaged during the Japanese attack and occupation.

### Moratorium Placed On Telephone Bills

DALLAS, May 8. (AP)—A moratorium on telephone bills was declared today by the Dallas division of the Southwestern Bell Telephone Company.

Company officials said that because of the current strike against the firm they had no employees to make out bills and audit collections, so they would rather have the public not make payments now.

"It probably will be several weeks after the strike is settled before the bills are sent out," an official said.

The road leading to the Huguenot village of Fransch Hoek, near Cape Town, South Africa, was started by elephants before the white settlers came to the land.

The US Waterways Experiment Station, largest hydraulic laboratory in the world, is in Vicksburg, Miss.

**Truman To Visit Mother On Sunday**

WASHINGTON, May 8. (AP) — President Truman is planning to fly to Grandview, Mo., to visit his 84-year-old mother, Mrs. Martha Truman, on Mother's Day. Although definite arrangements have not been announced, the ten-

tative schedule calls for the president to leave at dawn Sunday and return later in the day. The chief executive's mother is recovering from a hip fracture suffered in a fall several months ago. See *Duel In The Sun* at the State Theatre. Get your albums at *The Record Shop*.

**Grown-Up Tea Parties Good Afternoon Pickup**

By CHARLOTTE ADAMS  
Associated Press Food Editor

The average hard-working house-keeper and mother is likely to be feeling slightly worn and bedraggled any time after four o'clock in the afternoon. At such a moment there's nothing more comforting than a good cup of tea. How about making a resolution, Mother, that from Your Day on this year you'll have only good cups of tea.

It isn't hard to brew tea properly, but few of us in this country seem to do it right. In the first place, it pays to buy good tea. Such tea has far more flavor and fragrance than ordinary tea. **How to Brew Tea**—First, heat the pot in which you mean to brew the tea by filling it with boiling water. Start with fresh cold water in your kettle and bring it to a full, rolling boil. Dry the brewing pot and put into it a teaspoonful of tea per cup of water. Now pour the rapidly boiling water directly onto the tea. Let the brew stand from three to five minutes, depending upon how strong you like your tea. Now strain off the tea into another pre-heated tea pot, and serve at once, with cream or milk, lemon and sugar, according to taste. If it's a tea party you're giving it's fun to stick lemon slices with a few whole cloves.

What to serve with tea is again a matter of personal taste. Most real tea lovers, as well as ladies who watch their waists, like best to have just the thinnest of bread and butter sandwiches, because the tea's the thing.

Thin cucumber sandwiches, with just a grind of pepper and a dash of salt are delicious with tea. So are rolled ones with a sprig of watercress sticking out of the top.

If you want to make the tea-party a bit special, whip up the following muffins and serve them hot.

**Raisin Sour Cream Muffins**—  
2-3 cup seedless raisins  
2 3-4 cups sifted all-purpose flour  
1-4 teaspoon salt  
3 teaspoons baking powder  
1 teaspoon garlic salt  
2 tablespoons granulated sugar  
1 1-2 cups sour cream  
1-2 teaspoon soda  
2 eggs  
Rinse and drain raisins. Sift together flour, salt, baking powder, garlic salt and sugar. Add cream, in which soda has been dissolved, and stir to blend. Add beaten eggs and beat. Add raisins and mix.

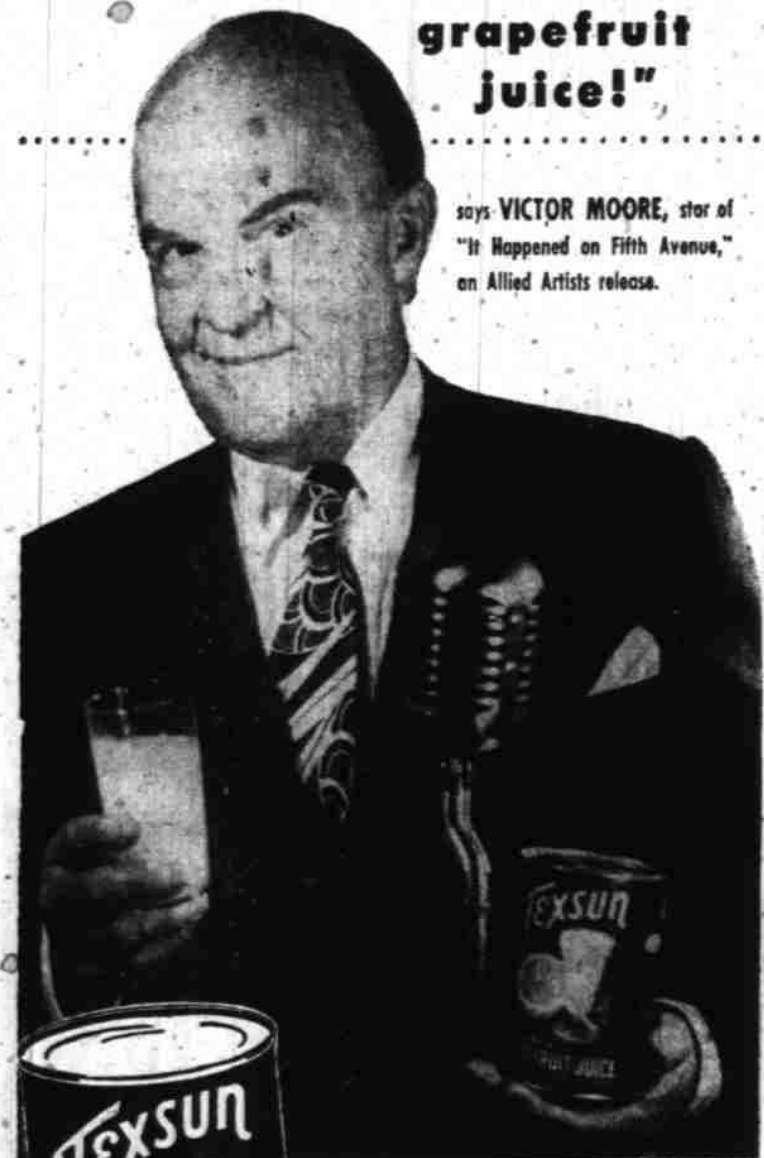

Fill greased hot muffin pans about three-quarters full and brush tops with milk. Bake in 450 degree oven about 18 minutes.

**Tips To Keep Midnight Snack-Seekers Happy**

When spring is in the air, there's likely to be demand for extra snacks between meals or at bed time to revive flagging energies. Be prepared for these impromptu refreshments by stocking cream cheese, jam and jellies for quick sandwich makings. It's a good idea, too, to keep on hand the new, instant, decaffeinated coffee, so snack seekers can make their own beverage right in the cup without fussing with a coffee pot, and enjoy sociable extra cups without losing sleep later on. Homemade spreads such as chopped hard cooked eggs mixed with mayonnaise are popular with snack seekers. Another favorite is cottage cheese mixed with red and green peppers minced.

### Try This One On The Family When They're In Mood For Variety

By CHARLOTTE ADAMS  
Associated Press Food Editor

- Fruit Juice**  
Patty Treat  
Cauliflower Polonaise  
Tomato and Cucumber Salad  
French Dressing  
Chocolate Blanc Mange  
(Recipes Serve Four)
- Patty Treat—**  
4 slices pineapple  
2 cups mashed sweet potatoes  
2 cups cooked ham, ground  
1-2 teaspoon dry mustard  
1-3 cup thick white sauce  
2 teaspoons grated onion  
4 slices bacon  
Arrange pineapple slices in a buttered casserole. Shape sweet potatoes into patties the same size

as the pineapple slices. Combine ground ham, mustard, white sauce and onion and shape into same size patties. Then place a potato slice on top of each pineapple slice and top with a ham patty. Wrap a strip of bacon around each and secure with toothpicks. Bake for 30 minutes or until nicely browned in a 375 degree oven.

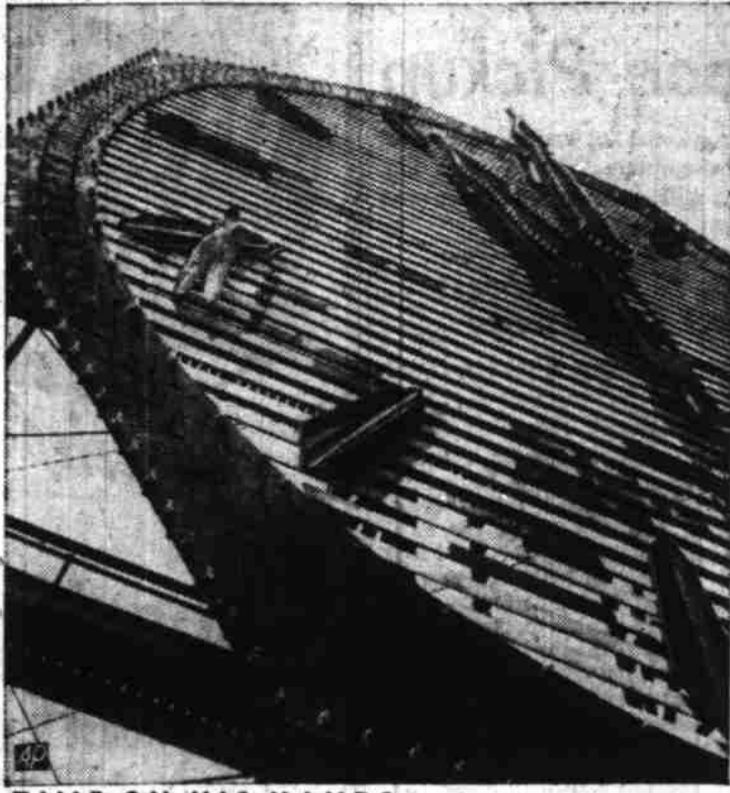

**Cauliflower Polonaise—**  
1 head cauliflower  
1-2 cup dry bread crumbs  
1-3 cup butter or margarine  
1-2 tablespoons lemon juice  
Salt and pepper to taste  
Paprika  
Separate cauliflower into florets. Place in a small amount of boiling, salted water. Cover and boil rapidly for ten to twelve minutes. Drain. Brown bread crumbs in butter or margarine. Add lemon juice and salt and pepper to taste. Pour over hot cauliflower and add a dash of paprika.

### Stuff Steak Tonight For Supper Variety

By CHARLOTTE ADAMS  
Associated Press Food Editor

- Vegetable Juice Cocktail**  
Stuffed Flank Steak  
Fluffy Mashed Potatoes  
Southern Style Spinach  
Cabbage and Pepper Salad  
Sour Cream Dressing  
Molasses Coconut Pudding with Hard Sauce  
(Recipes Serve Four)

**Southern-Style Spinach—**  
2 pounds spinach  
1-4 cup butter or margarine  
1 hard-cooked egg yolk  
2 tablespoons pimiento, chopped fine.  
Wash and clean spinach. Cook spinach in water that clings to the leaves, five to ten minutes. Drain and chop. Add butter or margarine and cook five minutes longer, stirring frequently. Add sieved egg yolk and pimiento.  
**Molasses Coconut Pudding—**  
2 1-4 cups flour  
1-2 teaspoon salt  
1 teaspoon baking powder  
1-3 cup shortening  
1-2 cup sugar  
3 eggs, well-beaten  
3-4 cup milk  
3-4 cup dark molasses  
3-4 cup moist coconut  
Sift flour and measure. Add salt, baking soda and sift again. Cream shortening and gradually add sugar. Cream until light and fluffy. Add eggs. Beat thoroughly. Add dry ingredients alternately with milk. Blend and add molasses and coconut. Pour into a greased mold. Cover and place mold on a rack in a steamer with one inch of water. Cover steamer and cook for one and one half hours. Serve hot with hard sauce.

**TIME ON HIS HANDS**—A lot of time is saved when this giant clock, on the Colgate plant in Jersey City, N. J., goes on summer schedule. Here Norman Reeves, plant electrician, adjusts a bulb high above the waterfront.

### Contempt Action Against Official Of WAA Delayed

FORT WORTH, May 8. (AP)—A contempt of court action against the National War Assets Administrator, Robert M. Littlejohn, will be held in abeyance for at least 30 days.

Federal Judge James C. Wilson, who in February signed an order forbidding trespassing by Littlejohn or his agents on property at Port Arthur, operated as a shell manufacturing plant during the war by Texsteel Manufacturing Company, has modified the injunction.  
In an order sought by United States Attorney Frank E. Porter he has given Littlejohn and four other WAA executives named in the show cause order on the contempt action filed in United States District Court 30 days in which "to go upon the property involved."  
They, and Department of Justice representatives, were given permission to inventory real estate, real estate holdings and personal property there and make appraisals on them. Texsteel and the WAA have been involved in a lengthy dispute over the land and buildings and equipment on it.  
This provides an ideal solution to the said problem in spring meal planning. Cottage cheese with its flaky white color and delicate flavor combines tastily with onions, chopped chives, olives, parsley, celery, cucumbers, pimientos, green peppers, tomatoes, carrots and many other vegetables. It also goes

### Auction Company To Start Sheep Sales

The West Texas Livestock Auction company has completed plans for beginning regular sheep sales on May 15.  
Henceforth, the auction company will solicit consignments of sheep, hogs and horses for sale on commission basis each Thursday, while cattle sales will continue each Tuesday.  
The Thursday auctions will be the first regularly scheduled sheep sales ever to be conducted in Big Spring.

### Cottage Cheese Ideal Solution To Problem Of Summer Salads

Cottage cheese becomes more plentiful with the seasonal increase in milk production, and the price is expected to be reasonable in comparison with other protein

foods.  
This provides an ideal solution to the said problem in spring meal planning. Cottage cheese with its flaky white color and delicate flavor combines tastily with onions, chopped chives, olives, parsley, celery, cucumbers, pimientos, green peppers, tomatoes, carrots and many other vegetables. It also goes

### Plenty Of Kraut On Shelves During May

Home makers should find plenty of sauerkraut on grocers' shelves during May, and the price should be reasonable in relation to other food costs. Here's why.  
Farmers set a new record in production of cabbage for kraut last year. They grew about 264,000 tons, which was more than 31,000 tons above the previous high in 1945.  
This much cabbage made a lot of kraut. In spite of the continuing shortage of tin for cans, the 1946-47 canned pack of sauerkraut is expected to approach closely the previous record output. On February 1 packers and wholesalers had half again as much canned sauerkraut as was on hand a year earlier.  
In addition to the kraut put up in cans, a lot was stored in bulk this season. About twice as much as the normal amount was on hand in processors' tanks on February 1 this year. Much of this kraut is still available.  
The first hybrid vegetable—the crossing of two varieties of the same family—was corn. Tomatoes and cucumbers are hybrids now, too.

We Reserve the Right to Limit Quantities

From where I sit... by Joe Marsh

Where's the Argument?

You should have heard Ed Carey and Spike Miller debating the merits of Guernseys versus Holsteins. Ed's our firebrand, and Spike handles hardware—but to hear them argue you'd have thought that they'd been dairying for life.

Finally they put it up to Sam Carter, who breeds dairy cows! Sam bemoans and haws... and concludes there's a lot to be said for Holsteins, and about as much for Guernseys... take your pick!

Actually, Ed and Spike were like people arguing about—say, beer

versus buttermilk. Folks who've never tasted beer will sometimes get mighty vehement about their choice of beverages. And folks who've never tasted buttermilk will be equally pig-headed.

From where I sit, it's in things we know nothing about that we get bigoted and stubborn. But when it comes to things we know a lot about, we're able to see both sides... be tolerant and reasonable... and above all, understanding.

Joe Marsh

Cattle Prices Steady At Sale

Cattle prices steadied after a temporary decline and receipts gained considerably at the West Texas Livestock Auction company's weekly sale Tuesday.

The market held for the most part at figures of a week ago, with fat yearlings topping the sale at 23.70 cwt.

Other prices: Fat cows, 12.00-16.00; fat calves, 19.00-23.00; canners and cutters, 8.00-12.00; bulls, 15.50; Hereford cows and calves, \$120-\$138 a pair; mixed cows and calves, \$95-\$120 a pair; stocker cows, 11.00-13.00; stocker yearlings, 18.00-19.00; stocker calves, 18.00-20.00.

Hogs topped at 23.70. Hog receipts totaled 55 head, while 650 head of cattle went through the ring.

MONTY VISITS SON—Field Marshal Viscount Bernard L. Montgomery, (left) chief of the British Imperial general staff, visits his son, Trooper David Montgomery, at Chatterick Camp, where David is taking training.

Orosco Draws Prison Sentence

Elauterio Orosco, one of seven persons who paraded before Judge Cecil C. Collings Tuesday afternoon to enter pleas of guilty, was the only one to draw a prison sentence. The others got suspended prison terms.

Orosco, who admitted burglarizing the Mittie Evans cafe here, heard himself assigned five years in the state penitentiary.

Woodrow Wade got off with a two year suspended sentence on a charge of driving while under the influence of intoxicants (second offense). John Henry Pryor drew a like term for the identical charge.

A two-year suspended sentence was given Edward Bryant on a burglary count. Eladio Zubiate was given two years suspended sentence for burglary as was Donaciano Lara on the same charge. Admission of forgery guilt earned Lloyd Cross a two-year suspended term.

Case Of Negro Going To UT Is Reset

AUSTIN, May 8. (AP)—The Third Court of Civil Appeals today reset argument for June 4 in mandamus case attempting to force the University of Texas to establish a branch university for negroes.

Argument had originally been set in the appeals court for May 28.

The case was brought by Everett H. Givens, Austin Negro dentist, against the regent of the university. He asked the court to issue a mandamus forcing establishment of a branch school for Negroes which would be maintained by sharing in the university permanent fund.

The mandamus was denied by the 53rd District Court in Travis County on Feb. 20.

Previously the court overruled attempts by the State Attorney General to have the case dismissed. The state contended that Givens sought no legal relief and denied that the board of regents had "any clear legal duty to establish or provide a branch university for instruction of colored youths."

Bonus Is Awarded Corsicana Teachers

CORSICANA, May 8. (AP)—The 110 teachers of the Corsicana school system will receive a bonus of 80 per cent of a month's salary this month and a \$40 blanket increase for next year.

The board of education voted the bonus and increase last night. The bonus came from the \$6 extra state apportionment received last summer after contracts and budget had been prepared, Supt. W. H. Norwood said.

The salary range for next year will be from \$180 to \$280 per month, with a \$15 per month additional for teachers with master degrees.

Model Plane Contest To Be Held In Angelo

SAN ANGELO, May 8. — More than \$100 in cash prizes will be awarded to winners in a big "U-Control" contest for model airplane owners here on May 18, officials announced today.

The competition will be conducted at the Sky Harbor Airpark, beginning at 1 p.m.

Events will be held for both junior and senior divisions, with equal prizes. Entry fee for juniors is 50 cents and for seniors \$1.

See Duel In The Sun at the State Theatre. Get your albums at The Record Shop.

Vaccinate Pets Against Rabies, Dr. Sadler Urges

Calling attention to an increase in rabies in several areas of West Texas, Dr. F. E. Sadler, director of the Midland - Ector - Howard county health unit, today urged all owners of dogs and other pets to vaccinate their animals against the disease.

"If all stray dogs were destroyed and all pets vaccinated for rabies, it would go far toward stamping out this justly feared, fatal disease," Dr. Sadler asserted.

Dr. Sadler emphasized that dogs suspected of having rabies should not be killed immediately, but should be confined 10 days for observation to see if the disease develops. If the dog should die during the observation period, the head should be packed in ice and shipped to the State Health Department for examination.

The health unit director cautioned that freezing the brain, killing the dog prematurely or in such a manner as to injure the brain might cause uncertain laboratory findings.

After a dog is confined 10 days and is then killed, there still is ample time for a victim of his bite to be treated for rabies prevention, Dr. Sadler advised. However, if the disease is found conclusively in the dog, the victim should then begin treatment without delay, he warned.

Gas Tax Hike Not Favored In House

AUSTIN, May 8. (AP)—A test vote in the house yesterday indicated the representatives are not in favor of a two-cent per gallon increase on the gasoline tax.

By a 56 to 82 vote, the house slapped down a resolution calling for suspension of joint rules so that the bill could "be considered at any time" and sent the tax measure to the rules committee.

Adoption of the resolution would have had little practical effect on the bill's progress. Rep. Davis Clifton of McKinney, the bill's author said his principal aim was securing a test vote.

"A vote against this resolution is a vote against more farm-to-market roads," Clifton declared. His bill provides that the revenue obtained by upping the tax from four to six cents a gallon shall be used for rural road construction.

Will The Children All Be Busboys?

FORT MYERS, Fla. (AP)—Mary Louise Sheffield and William Frank Arthur, waitress and waiter at a restaurant here, couldn't get time off during Judge Hiram Bryant's office hours to be married.

So when the judge came in for lunch, they produced their license and suggested that he marry them while he was waiting to be served. The proprietor of the cafe gave the bride away and customers served as witnesses.

# Economic Period Of Leveling-Off

Now that there seems to be some trends developing on the prize horizon, the long-range question develops on what will happen to prices on manufactured goods.

Some astute observers believe that the present development is one of readjustment rather than the establishment of a major trend. They base their convictions upon these points: That price adjustments have been in the raw material and food fields principally, that there have been no significant straws in the wind on the industrial scene.

Back of this is the fact that labor beat industry to the punch. Industry had two courses: 1) to raise wages, or 2) to reduce prices. One must linger upon the thought that industry followed a third course too long—that of doing nothing. If it had the choice between lowering prices and raising wages, it certainly made no serious move to avail itself of the first option and embraced the second only under pressure.

Be that as it may, the prospect now is that industry will make a conscientious attempt to hold the price line—that it absorb as much of the labor increase out of profits as possible instead of passing it all on to the sorely beset consumer.

This dims hopes for early reduction of costs on manufactured goods. Rather a hold the line policy appears more likely. There is this much for which to hope—industry is in a better position to absorb the wage increases because most of the staggering financial blow of reconversion is out of the way and because the increase (which was on top of increases) is substantially lower percentage wise.

Should management and labor relations improve and the productive output mount steadily, then costs will be in a position to come down for more can be produced for less industrial overhead. This saving can be passed on to the consumer. When that moment comes, the genuine trend will be established. Until then we may be said to be going through a leveling-off period.

# Organization With Potentialities

Those who turned out for the Colored Civic League's program last night for benefit of Texas City relief were treated to good entertainment.

They doubtless were conscious of an array of talent which they only hazily knew existed. They may not have been conscious of the motivating force behind the affair.

Although the league is entirely too young to pass any accurate judgment upon it, the fact that it does represent a voluntary effort on the part of our Negro citizens to make their contribution not only to their community is noteworthy. There is good reason to believe that the league may come out of the initial enthusiasm of organization with a solid program to challenge its members.

That the league should present a benefit program for those who suffered in the coastal city explosion is significant, for it gives breadth to the character of the organization. The objective was humanitarian, and it proves that no one group has a corner on humanitarian impulses.

Applied in a constructive manner, this same spirit can accomplish much in Big Spring for the Negro citizen. The pity of it is that white's have been too little concerned about helping the Negroes help themselves. In the league, there is a program of self-improvement, not only of physical and material things, but in the cultural realm as well. It will be interesting to observe the unfolding of the league's program among its people.

The Nation Today—James Marlow—

# Circus Fat Lady Brings Grief

WASHINGTON, (AP)—A lady has brought the state department a load of grief.

This lady, hugely fat and part of a circus, was one of about 70 paintings which the department bought for \$49,000.

The department sent the paintings abroad for other people to see how life is in America and the kind of art we produce here. This was meant to create goodwill and respect for us. But it was only part of the department's information and cultural program.

Some people in this country saw a copy of the fat lady picture and started screaming to their congressmen:

She doesn't represent life in America. And who said it's art? An art expert in the state department had done the buying of the pictures. Department officials now think this was a bad idea.

They say: We should have let a committee of outside experts do the picking for us. No more paintings will be bought. But they say the government won't lose money on the deal, that art galleries here may buy the pictures for \$49,000 or more.

A lot of congressmen are in a mood to kill the whole information and cultural program.

The art show, and particularly the fat woman, have given them a lot of fuel for the fire they're building to destroy the program.

The program's purpose is to get good-will for us among other peoples by telling about life here and what our foreign policy is.

This is done through radio broadcasts, news bulletins, pictures, magazines, books.

This year it's costing \$19,000,000. For next year the department wants \$31,000,000. Congress may let it have only part, or not a dime.

Every week, through short-wave broadcasts in 25 languages, the department shoots out 400 hours of programs.

These include straight news, features and information about America.

(Last month, officials say, the department received 25,000 letters in 40 languages asking for more information or special information.)

His experiments also indicated that any artificially induced change was permanent, dying out only when the line of descent died out. It is for this reason that Dr. Muller urged a more careful use by the medical profession of X-rays.

"Mutations happen naturally

fresh conferences with Mahomed Ali Jinnah, Moslem leader, and Pandit Nehru, political chief of the all-India congress (predominantly Hindu) and vice president of the Indian interim government. And it shortly became apparent that a discussion of a possible partition of the country to satisfy Moslem demands was boiling up.

Mahatma Gandhi, spiritual guide of the Hindus and the most powerful individual in all India, also conferred with the new viceroy and sounded the note of compromise. If peace comes to India, there can be no doubt that Gandhi will have played a major part in bringing it about. He even has advocated Jinnah as government, and joined with the Moslem chief in signing an appeal for a cessation of the bloody rioting between the Moslems and Hindus in many parts of the country.

best that could be hoped for in any event.

The great princes, many of whom have had virtual power of life and death over their subjects, are mighty jealous of their sovereign prerogatives. The Moslems of British India have been insisting that those areas which are inhabited largely by their people should be granted absolute independence—Pakistan they call it. The Hindus of British India, who outnumber the Moslems about three to one, have demanded a unified country. This politico-religious Moslem-Hindu quarrel has resulted in terrible bloodshed in recent months.

It is only within the past few days that there have been indications of a break in the storm. When Mountbatten arrived in New Delhi at the end of March to replace Lord Wavell as viceroy, he immediately inaugurated

chirping. For all they know, I might have been creating a hit tune.

"That's right," the director averred. "There are hundreds of potentially hit songs being created by amateurs who are merely whistling aimlessly. Such people are even better at writing hits than professional tunesmiths. Because they think up a simple tune and keep it, whereas the professional would probably discard it, thinking he has heard it before."

Although Goulding had vocal training in his youth, he plays no instrument, relying on his violin-like whistle, which spans three octaves. He said the single note is better for composing than the chords of a piano, wherein the melody can get lost. "Anybody who can whistle, can compose," he declared.

I added that it helps if one is a film director and can spot one's song in one's picture.

"Quite right, my boy," he smiled, "quite right."

Cary Grant, who once had to learn to play piano as well as Cole Porter, now is studying ice

"Always Remember, Pal—I'm For You"

Hal Boyle's Notebook

# Damaging Life Stream

BLOOMINGTON, Ind. (AP)—

A world-renowned scientist—Indiana University students call him "Mister Mutation"—believes the medical profession is permanently damaging the American life stream through the unwise use of X-rays.

"There is no dosage of X-rays so low as to be without risk of producing harmful mutation," Dr. Herman Joseph Muller, Nobel Prize winning geneticist told me in an interview.

Mutations are inheritable changes in physical characteristics caused by changes in the genes, the infinitesimal key-stones of heredity that keep us in the image of our ancestors.

Dr. Muller, a small balding man of middle age, is the first man in history to show that these changes in the pattern of heredity can be artificially induced. He did it 21 years ago by subjecting fruit flies to changes in temperature and radiation.

He thereby produced "fruit fly" offspring with such new inheritable characteristics as three wings, a changed eye color, or a shortened life expectancy. He proved that such mutations are recessive and mostly deleterious—that for every such change which improved the fruit fly breed there were hundreds that hurt it.

His experiments also indicated that any artificially induced change was permanent, dying out only when the line of descent died out. It is for this reason that Dr. Muller urged a more careful use by the medical profession of X-rays.

"Mutations happen naturally

all the time," he said, "but a heavy dosage of X-rays may speed up the rate of a million fold in a given period."

He was particularly critical of the use of X-rays to produce fertility in women long sterile.

He said that medical men who employed such treatments were ignoring the certainty that X-rays in the required dosage would produce harmful mutations among the patient's descendants.

"Most mutations are not spectacular," he said.

"That is, women treated in this manner probably won't start anything so dramatic as a line of two-headed children. But they will hand down slight weaknesses hard to put your finger on, such as inability to stand high or low temperatures, a shortened life expectancy, a reduced bodily vigor."

"The mutation could show up in the next generation or perhaps not for five thousand years. But the mutation is permanent and the damage is permanent."

Dr. Muller said genetic discoveries were "meeting resistance from the medical field—they are just being shoved aside."

Other experiments have found that other agents, such as mustard gas and certain coal tar chemicals, also produce harmful mutations. But you won't have to worry about marking your grandchildren by personal over-indulgence in drinking and smoking.

Dr. Muller found that alcohol and nicotine had no tendency to produce mutations.

Washington Merry-Go-Round—Drew Pearson

# Recalling VE-Day's Rosy Hopes

WASHINGTON—Notes on the anniversary of an armistice—San Francisco, May 8, 1945: The United Nations being born.

Simultaneously, the end of the war in Europe... Auto horns and ticker tape... Senator Tom Connally saying, "The war is over."

American Legion vets in uniform, older vets in gold-blue uniform: "Remember 1918 when you and I did this in Paris? We never thought it would happen again."

Sailors kissing pretty girls, soldiers slinging, sleeping backs, pumping beams... A new union of nations. The United Nations... The end of our traditional isolation, the end of war... We won't make the same mistake we made after 1918. This time America will stick with the other nations, stick and pitch for peace.

Sailors kissing pretty girls, strange girls... Texas Tom shaking hands, slapping backs, pumping beams... "The war's over in Europe. Hitler's finished."

Senator Vandenberg beaming... Ed Stettinius grinning... back on my desk, a letter from an old schoolmate, his son missing in action... But now there'll be new hope—through the new United Nations... No more boys missing in action.

The Russians, it's true, acted strangely at the armistice, holding up the final announcement. But they've suffered a lot. Gone through hell. You have to understand them... Then there was that story of mine which everyone denied—the story of how Stalin ordered American troops out of Potsdam, back to the River Elbe.

We were practically in Berlin, trying to help win the war as quickly as possible. But the Russians wanted us out... Well, if they wanted to waste their own men, taking Berlin themselves, that's their business. Peculiar people, the Russians... Meanwhile, let's get ahead with building up this new United Nations. Because peace is here to stay.

WASHINGTON, D. C., May 8, 1947: Seems a long time since war. The anti-aircraft guns are gone from Potomac Park. The grass is reseeded and greener than ever. Nothing to remind you of war—except the Wave barracks. And a sailor with an accordion serenading a Wave... Willow trees dripping low around the Potomac... Lovers lounging on park benches. Skies reaching down to caress the horizon. Pansies preening themselves in gaudy, prideful glory... War seems long ago, very long ago—but not quite forgotten.

Across the park surrounded by cherry trees sits the Jefferson Memorial... Once women chained themselves to cherry trees along the tidal basin in protest against chopping down the trees to make room for the Memorial... They were fanatics against change... But now the Memorial basins in the sunlight, and new trees, planted around its base, look as if they had been there forever... Jefferson wouldn't particularly like that. He believed in change.

The only thing that hasn't changed is war—and methods of preventing war... In Moscow, London and Paris we still talk about preserving peace by

establishing boundaries. For 2,000 years invading armies have rubbed out those boundary lines...

This week the Senate is considering a peace treaty for Italy. Months were spent surveying, charting, arguing about a boundary line around Trieste, separating Italians from Yugoslavs... Yet for decades those two people have lived so close, so mixed up that no boundary can ever separate them... Their only guarantee to peace can be human intercourse, culture and friendship... When I was in Fiume after World War I, I was arrested by Italian officers because they thought I was a Yugoslav... Among the top brackets, hatred was that intense... Not far away, in the Serbian mountains, 100 Bulgarian prisoners were helping me rebuild devastated villages, and the Bulgars with their Serbian guards and conscript Albanians sat around their campfires every night together, talking about peace and home and the futility of war. Peasants, there was no hatred among them.

Times change. Even nature changes... There was a time when my father-in-law, strolling through these same fields with Teddy Roosevelt, was dared by Teddy to swim the Potomac, cold with the thaw of March... Both swam it—over and back... And the now cultivated parkland with its cherry trees and paddy beds was then such a deserted swampland that they were able to walk to the back door of the White House, dripping and half undraped, unseemingly even by Mrs. Roosevelt... Yes, times change. Imagine President Truman getting away with that in teeming, thriving Potomac Park today!... My father-in-law believed in war, believed in war's inevitability. He was sent by T. R. to Germany to study the Kaiser's military machine, brought back to the US Army its present system of indirect artillery fire—then considered revolutionary... Now atomic bombs make artillery as out of date as bows and arrows... Even war changes—at least its methods of killing. The only thing doesn't change is the fact that we keep on—killing.

CHAINED WOMEN  
Across the park surrounded by cherry trees sits the Jefferson Memorial... Once women chained themselves to cherry trees along the tidal basin in protest against chopping down the trees to make room for the Memorial... They were fanatics against change... But now the Memorial basins in the sunlight, and new trees, planted around its base, look as if they had been there forever... Jefferson wouldn't particularly like that. He believed in change.

The only thing that hasn't changed is war—and methods of preventing war... In Moscow, London and Paris we still talk about preserving peace by

Graves on Guadalcanal. Graves in Normandy. Graves on Iwo Jima. A quarter of a million graves!... Two years since VE Day... Seems such a long time ago... Have we forgotten?... Alfred Noyes says: "And while you deck out your graves you shall not know how many scornful legions pass you by... When the foe struck we have watched you giving and seen you move the mountains with one touch... What can be done, we know. But have no fear. If you fall now, we shall not see nor hear."

Texas Today—Jack Rutledge

# The First Lady Of Brownsville

An active, wiry little woman possessively paces the streets of Brownsville. Many of the things she sees—the new buildings, the new industries, the new parks—make her proud.

Sometimes she finds something she doesn't like. She'll write a letter to the paper about it. Recently she neglected a monument honoring the hero for whom Brownsville is named displeased her.

The Herald prints her letters. She is Mrs. Jesse O. Wheeler—and the Herald's masthead daily says: "Established as a Daily Newspaper July 4, 1892, by Jesse O. Wheeler."

She no longer owns the paper. She hasn't for years. But as one of Texas' first career women, she has helped build it.

"Her husband, the founder of the Herald, was born in Victoria, the daughter of a prominent Victoria physician. They moved to Brownsville when it was a rough frontier town—far unlike old, dignified and safe Victoria."

She was barely out of her teens at the time. She knew nothing about newspapers. But labor was scarce, and she helped her husband. She wrote many of those early editorials—and they were widely quoted. She learned to love the profession.

In 1908 Wheeler died. In those days, few women worked. But Mrs. Wheeler decided to carry on. She stayed, not as a figurehead, but as the editor and publisher. She ran the works.

During her regime The Herald became a member of The Associated Press. It was costly, and rather daring for a small paper. For many years Mrs. Wheeler was the only woman in Texas who held a membership in The Associated Press.

Earlier, she had brought the first leased wire telegraph news to the Valley. She installed the first typesetting machine south of Houston. In 1910 she brought the first press to South Texas that used newsprint rolls. (It was on old duplex flatbed, and a plant in New York state still uses it.)

She continued to modernize. Improve the paper, write editorials, that were so good in 1914 a New York publisher, the late Jason Rogers, listed The Herald as one of the 400 most influential papers in the United States.

The Herald's Valley leadership was challenged several times. She met, and defeated, the challengers. The paper grew and prospered.

—it grow. The Herald, after changing hands several times, today is owned by Leo E. Owens. But Mrs. Jesse O. Wheeler, the frail little woman who helped found The Herald gets her name in the paper more frequently than the publisher.

**Horror Show Here Tonight**

The seekers after thrills are promised a real holiday at a midnight special stage show at the Ritz theatre tonight.

The attraction is Dr. Silkini and company in a creepy stage presentation called the "Asylum of Horrors," which features in person the re-creation of that monster, Frankenstein. The show includes five acts, each of them guaranteed to be a shocker for the weak-nerved. There are vampires, goblins, mystery monsters and other creatures designed to stand the hair on end.

The midnight program also includes a screen feature, itself a mystery thriller, "The 13th Hour," with Richard Dix and Karen Morley.

**'Open House' Held To Exhibit New Automobile**

The largest and most complete exhibition of new automobiles to be shown here since before the war opened today at the Big Spring Motor Co.

The local Ford distributor is joining with other Ford dealers throughout the country in a week-long "open house" observance designed to acquaint the general public with multiple new features which have been incorporated in the 1947 Ford cars and trucks.

The 1947 model Ford cars boast several advancements in body designs and offer an increased selection of colors. A total of 10 new colors have been added since the 1946 models were produced.

The Big Spring Motor Co. will have passenger cars of several body types on display in the firm's show room throughout the week, and also the Ford pickup and Ford trucks.

Visitors will be welcomed at the "open house" and all will be invited to make a thorough inspection of the new Ford cars and trucks.

AUSTIN, May 8. (AP)—A proposed constitutional amendment which would take Texas back to a system in which full pardoning power is vested in the governor went to the Senate calendar today.

The measure was voted favorably out of the Senate's committee on constitutional amendments yesterday over opposition of former Gov. James V. Allred who warned the committee it "should long consider before returning to a system already condemned by the people."

Vote was 4 to 1 against sending the amendment to a subcommittee and a voice vote recommended Senate passage.

Growing out of an investigation of the state's pardons and paroles system by the Senate general investigating committee, the measure by Sen. A. M. Aikin, Jr., of Paris would do away with the state board of pardons and paroles created by a constitutional amendment adopted at the polls in 1936.

The investigation report, which charged there had been "gross abuses" by the board and "laxity" in the governor's office, had recommended that the state return full pardoning power to its chief executive. A companion measure to Aikin's resolution has been introduced in the House by Rep. Herman Yeak of Bremond.

"I think it would be a serious mistake to go back to the old system," the committee was told by Allred, the lone witness who appeared at yesterday's public hearing.

"The board system was meant to be a double check system—the board could check on the governor and the governor could check on the board," he declared.

The former governor, who served from 1935 to 1939 while the board system was being set into operation, charged that the governor had a full share in responsibility for the success of such a system.

"The board can't do a cockeyed thing unless the governor signs the pardons they recommend," he said.

"There is nothing in the record to reflect against the system while either I or Sen. W. Lee O'Daniel was governor. But the state audit will show that the curve went up in 1941."

Allred said the audit showed 4,500 clemencies had been granted in one year since that time.

Former Gov. Coke Stevenson held office from 1942 until Gov. Beauford Jester was inaugurated in January of this year.

Allred said he admired Jester for being cautious—"perhaps overly so"—in acting on clemencies and said that he did not feel there would be a repetition in Jester's term of what had been found to have happened previously.

Allred has for some time been at political odds with Stevenson and went on the air on one occasion last summer to criticize Stevenson's pardons and paroles policy.

Allred said that he "just happened to be in Austin" at the time of the hearing and that he represented no one but himself.

**Reece Says Truman Trying To Get Radicals' Support For '48 Vote**

WASHINGTON, May 8. (AP)—Republican National Chairman Carroll Reece said today President Truman's "anticipated and indicated vetoes" of GOP tax and labor bills will be "tantamount to an open announcement that he is seeking radical support" in 1948.

Writing in the Republican News, national committee organ, Reece said in an editorial entitled "twilight of double talk":

"The Truman administration's march toward the left in anticipation of next year's campaign is being accelerated as the Republican legislative program nears final enactment.

"The reason is obvious.

"It will be a matter of weeks, perhaps only 30 days, before important segments of that program will be on Mr. Truman's desk for approval or veto . . .

"If his spokesmen are to be believed, and if his own statements are to be taken at face value, he has made up his mind to attempt to veto the measures which the people ordered last November—in order to placate and consolidate the Left-Wing elements upon which his hope for election next year must rest."

Reece said the Congress-White House showdown is fast approaching because the Senate has "cleared the decks" for action on tax reduction, curtailment in federal spending, and labor regulation measures.

"When the Senate acts upon these measures; as it will in the very near future," Reece wrote, "the Republican program, will, generally speaking, have been completed insofar as such completion lies within the power of the Republican majorities in Congress."

"Mr. Truman's anticipated, and indicated, vetoes of some, or all, of the bills comprising this program will then be tantamount to an open announcement that he is seeking radical support for his campaign in 1948.

"He knows full well—as proved by the last presidential election—that a Democrat candidate for president cannot possibly be elected without the support of the Wallaces and Peppers, and others of that complexion.

approval or veto . . .

**Many Never Suspect Cause Of Backaches**

This Old Treatment Often Brings Happy Relief

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause recurring backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scant passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

**Missing Good Chance For Pun**

LOS ANGELES, May 8. (AP)—There ought to be a pun in this—something about the shoe being on the other foot, maybe.

Anyway, Alonzo Cash arrived here from Phoenix, Ariz., last Sunday and bought a couple of beers and dinner for an elderly panhandler. The beggar thereupon turned on Cash, robbed him of \$138 and forced him to exchange his new shoes for his assailant's battered footwear.

Cash found the beggar sleeping on a park bench today, complete with new shoes. The Arizonan called police and effected a re-exchange under the supervision.

**Texas City Verified Death Toll Now 489**

TEXAS CITY, May 8. (AP)—The American Red Cross has announced that the verified death toll in the Texas City disaster has risen to 489.

Of this total 366 have been identified and 123 remain to be identified at the Camp Wallace morgue.
