SMITH has signed a proclamation June 4-10 "Try Walking Right," designating the entire month as "Correct Posture Month." The proclamation, Gov. Smith signed, says that the American people are suffering from the effects of poor posture. Ralph Perkins, president of the American Chiropractic Assn., says he is glad to see the proclamation because "I'm glad to see that the government doesn't suppose that means he isn't right."

Perkins urges all citizens of Texas to take steps to improve their health by regular walking. "Walking, of course, is good for you. So is riding a bicycle. That's why we should do those things. Anybody who knows that anything that's good for you is very enjoyable. This walking, jogging, barbells, turnips, getting up early, listening to the Congressional Quar-

## Film On Safety Rules Scheduled Here On June 1

Slaton area business people and farmers -- who also will be affected by some of the regulations -- are invited to attend a meeting in Slaton Junior High School Auditorium at 7:30 p.m. Thursday, June 1, regarding new federal safety regulations now in effect.

Herbert M. Kurtz, assistant area director for the Occupational Safety and Health Administration (OSHA), will preside at the meeting arranged by the Educational Committee of Slaton Chamber of Commerce, J. C. McClesky, president.

Kurtz will answer questions regarding the new regulations and their enforcement, and will show a film on the rules.

One excerpt from the lengthy set of rules reads as follows: "Proper toilet facilities shall be provided for each sex. Drinking water should be made available within 200 feet of any location where employees are regularly engaged."

Another reads: "Storage of materials shall not create a hazard. Bags, containers, bundles, etc., stored in tiers shall be stacked, blocked, interlocked and limited in height so that they are stable and secure against sliding or collapse."

AWARD WINNERS---These members of the Slaton High School graduating class were named to special awards during ceremonies Monday night. Standing, left to right, are Bernard Kitten, Darrell Eastman, Patsy Gamble and Susan Green. Seated from left are Cynthia Akin, Barbara McCain, Tom Longtin and Randy Barkley. (SLATONITE PHOTO)

## Special Awards Winners Listed

Winners of special awards were announced in ceremonies Monday night as diplomas were handed to 113 Slaton High School seniors who were graduated at the program in the gymnasium.

Valedictorian Randy Barkley, who plans to attend a church-related college, received the scholarship award from colleges of state-supported schools. Salutatorian Cynthia Akin, who plans to attend a state-supported school, received the award from colleges of church-supported schools.

Classroom Teachers Assn. announced that its annual scholarships would go to Tom Longtin and Barbara McCain, and Athenian Study Club announced a \$100 scholarship to Susan Green.

The United Methodist Church Scholarship to an outstanding Methodist senior went to Patsy Gamble. The Kappa Kappa Iota scholarships for outstanding students from each of the four high school classes went to Frank Love, freshman; Kay

Stephens, sophomore; Lana Dickson, junior; and Barkley, senior.

Darrell Eastman was named winner of the Steve Bourn Memorial Scholarship, a \$150 award to an outstanding athlete. The American Legion chose Miss Green and Bernard Kitten as recipients of its annual scholarship awards.

## Memorial Day Plans Uncertain

Some will close and some won't, and others haven't decided yet, a random check of some of Slaton's businesses regarding the Monday Memorial Day holiday indicated Wednesday.

All government offices will be closed, as will Citizens State bank, Slaton Savings & Loan, most retail firms, most insurance agencies, and utility firms. Some retail businesses indicated they would stay open, however.

One businessman said he may compromise and leave the door halfway open.

## More Articles Found Here

More items stolen in recent burglaries here were brought into the Slaton Police Dept. this week by officers who continued to question four youngsters believed to be involved in the thefts. A number of stolen articles have been identified by the owners, officers said.

Among articles recovered by officers last week, mostly at two residences on S. 6th and S. 8th streets, were seven transistor radios, four shavers, record player, travel clock, fishing equipment, tools, camera, personal papers, and miscellaneous items.

Meanwhile, new burglaries were reported. C. C. Kirksey, operator of a service station at 340 N. 9th, reported loss of articles totaling \$123.11, including tires, oil, filters and change from a cigarette machine. A window was broken by the burglars to gain entry to the station Saturday night.

T. M. Culver, 305 N. 15th, reported loss of a 16-foot Sears aluminum ladder.

Korral Drive-In, 330 N. 9th, also was burglarized Saturday night, with entry gained by breaking a window. Coin box

from a cigarette machine, containing \$10, was missing, as was a radio valued at \$15.

About \$12 was stolen from a coin-operated newspaper vending machine at Ham's Food Mart Saturday.

Cars driven by Vicki Viola Rackler, 300 S. 8th, and Alice Mae Washington, 820 Willis, were involved in a collision on W. Lubbock Street Saturday, with damage estimated at \$275.

Jimmy Doss of Slaton said he was driving south on Arizona St. about 11:45 p.m. Monday when a youth threw a brick at his car.

Marvin Turner of Idalou, an employe of the Slaton Police Department, had a police receiver antenna broken on his car while it was parked across from the police station Monday.

Charges of murder without malice have been filed against Robert Griffin, 80, of Slaton, in the knifing death of Eddy Johnson, 64, on May 9. On Wednesday Griffin was in county jail in lieu of \$1,000 bond.

## Injured Youth Is Paid Special Tribute Here

David Brake received a medal Tuesday, even though he didn't think he earned it.

The 17-year-old son of Mr. and Mrs. Charlie Brake, 1325 W. Crosby, was critically injured in a two-car smashup on Woodrow Road west of the city on Jan. 16, and for weeks lay near death. But now he has recovered to the extent that he is at home, understands what is going on, although he can't speak, and is moved about in a wheel chair.

His mother is quick to give credit for his remarkable improvement to the supreme outside source. "The prayers of so many people for David's recovery have had effect," she said. "They have been a tremendous help."

On Friday, David was visited by Col. C. O. Bowen, head of the Slaton High School ROTC unit, and Sgt. L. B. Winters of the unit, who presented David, who had been a member of the unit for three years, with several

honors.

On behalf of the American Legion, Sgt. Winters presented the Legion's award for military excellence. The military excellence honor medal from the cadet corps also was presented to David.

Using a board on which the alphabet is painted, David points to letters and spells out words to converse with others. His mother said he asked her what he had done to deserve the military excellence awards. When Col. Bowen explained to him Tuesday that "you've been one of our top cadets," David just shook his head.

The youth's promotion to cadet lieutenant colonel also was made effective, Col. Bowen said.

David soon will enter Bivins Rehabilitation Center in Amarillo for treatment, his parents said. The Brakes have a daughter and another son, Mrs. Connie Duncan of Lubbock, and Shelby, 9, at home.

POLICEMAN OF YEAR--Shown above is Captain Jeff Creager, left, named Policeman of the Year by the Slaton Police Department, as he receives his award from Police Chief Glenn Farmer. Approximately 55 persons attended the fourth annual Awards Banquet sponsored by the American Legion and VFW at the American Legion Hall last Wednesday, May 17. Glenn Hunsucker of Wayland Baptist College was speaker for the occasion, speaking on changes of law enforcement in recent years. He said, "Changes don't come without sacrifice, and your policemen are sacrificing." Creager was chosen for this honor by fellow policemen as well as other citizens of Slaton. Farmer also was presented an award by the Police Department in appreciation for his work and loyalty. The presentation was made by Patrolman Doug Crabtree on behalf of the department. ### From Where I Stand

By Merle King

A trip to the Greenhorn Mountains of Colorado was a refreshing change of scene for me last week. Patches of snow still were visible in sheltered places, while new, shimmering leaves on the aspens contrasted beautifully against the dark green of the pines. The rhythm of rushing streams, a bit too cool for wading, caused my thoughts to drift from computer to contentment. On Thursday, fun was going to an art exhibit in LaJunta, Colorado, sponsored by the Fine Arts League of Southeastern Colorado. It was interesting to note how paintings reflect the country; an artist represents. Titles included "Winter Lingers On", "The Blizzard of '69", "Snow Bound", "Winter Evenings", "Snow Flowers" and "Frosty Pines". Needless to say, it was a very "cool" show. All in all, it was a restful week--eating Mother's cooking, resting, hunting antiques in out of the way places, photographing quaint little railroad depots and putting some paint on a piece of canvas.

ANSIL O'NEAL, local manager for Pioneer Natural Gas Co., joined company executives at Cloudfroft, N.M., this week for a supervisory training school.

MR. and MRS. CLYDE MCGINLEY of Oak Creek Lake arrived Monday for a visit with MR. and MRS. TIP CULVER and family. Tuesday night they attended grandson TIP CULVER'S eighth grade graduation.

MICHELE VICKERS' fourth birthday anniversary Sunday, May 21, was reason enough for grandparents, MR. and MRS. WORTH BRISCO, of San Angelo, to travel north. Michele, daughter of MR. and MRS. JIM VICKERS, JR., was honored with a family party on Saturday.

He is employed in the hospital at Lubbock State School.

CATHY CLARK of Hurst, is a houseguest this week of MR. and MRS. BILL GREEN and family. Cathy is a Texas Tech student.

## FOOT NOTES

BY MARGRET BARTLEY

The school bells are ringing for the last time this school year. Remember how glad we always were for that long-awaited LAST DAY OF SCHOOL! Now that I think about it, I bet my mother wasn't near as happy about it as I was. But I don't remember having to be entertained, like some of the youngsters now. I found my own "good stuff" to do during the summer months. Mine spend most of their time saying, "Take me over to so and so's house" or "let's go to.... just anywhere."

They don't seem to enjoy cleaning out their closets, cleaning up the back yard, keeping the weeds out of the garden, writing letters, or keeping the little one out of mischief. Maybe they're just not being raised right! I ask that no one check with my mother on my behavior! I'm writing this the way I remember it.)

We're already knee deep in baseball this summer. I've heard that mothers should be banned from the baseball park when they have sons playing, and sometimes I can understand that. But I just can't stay away. I'd sure hate for him to do something good, and me miss it. It's a great feeling when YOUR OWN PERSONAL KID makes a great play. It's usually your own that won the ball game, at least, when you are the one re-telling the story. But that's a mother for you.

Mrs. Marlene Mullins had my deepest sympathy last week as she led 150 fourth grade students through their end of school musical program. It was great, but I know how many things can go wrong trying to get just three kids to follow orders. How about 150???? They couldn't forget anything but the words to the song, the steps to the dance, the props for their scene.....rip the skirt off the costume.....get the chicken pox.....

Now it's time for swimming. I know I'm a worry wart, but I just can't let my kids go swimming unless I'm there to make sure they come up after they go down! Lifeguards could be standing shoulder to shoulder around the pool, and I'd still worry about my own I guess.....Sometimes I think I can't live with them at this age, but it sure is hard to let them grow up.....

HAPPY SUMMER HOLIDAYS!

## Consumers Want to Know

by MARGARET SPADER  
Director of Consumer Affairs  
National Association of Manufacturers  
*What should a room air conditioner warranty cover?*  
Before you buy the appliance, find out if the warranty covers both parts and labor, for how long and who must do the repair work. Most companies will pay for defective parts and the labor to repair or replace them during the first year. If the sealed refrigeration system is found defective during the first five years, the company will usually repair or replace any part found defective. If there are conditions in the warranty you don't understand, inquire about them, particularly in regard to what the company will pay for and what the owner is expected to pay.

Mrs. Marlene Mullins, ending her first year at Stephen F. Austin School, directed the students in a musical program Friday evening. (SLATONITE PHOTO)

We transferred a room air conditioner from the living room to a small bedroom. It worked perfectly until moved. The bedroom is far too cold and uncomfortable now. What causes this?

The size of a room affects the operation of an air conditioner. If the appliance is too large, it pulls down the temperature of the room too quickly and turns itself off before removing moisture from the air. This causes a clammy feeling in the room.

Do dryer-dried clothes wear out faster than line-dried items?  
The answer is no because there is more stress and strain on clothes hanging in the wind and bleached or faded by the sun. A properly used clothes dryer should lengthen the life of clothes.

Gold is so ductile a metal that one ounce of it can be drawn out into a wire 35 miles long.

**Memorial Day**  
Once again Memorial Day is here - that one day each year when we dedicate our thoughts and prayers to those who have gallantly fallen in battles for our nation. It is also a time for us to realize we must use these vehicles - our lives - to help God's work in this world.

War, as America's young generation is realizing, can not be stopped by a shout or cry for peace. The reason for war and conflict is in each individual. We hate, we are jealous, we become angry, and we fight. The problem of war is almost a fundamental thing in the modern world. But there is an alternative.

God has let us know that we

have the potential to do good, to love instead of hate, to share instead of to accumulate, to live as brothers and children of God. But the problems are in ourselves because we let evil enter into our lives, and we let it grow and breed there.

There is a solution though, and it is love. For love and good to work for the whole world, it must start on a more human scale - within each individual. And love is contagious. When we begin to love God and our neighbors, others too will want to latch on to this dynamic force. Love can spread rapidly from individuals to communities, from communities to nations, and from nations it can spread

## Tickets For Grid Game Available

Tickets for the Coaches All-America football game in Lubbock June 24 need to be pushed, Ed Mooney, Detroit Lions line-backer, told Slaton Lions Club Monday.

Mooney and Chuck King were on hand to promote the annual all-star football game being held for the third straight year in Lubbock. He noted that the game was about to collapse when it was brought to Lubbock for the first time, and had such great success in the last two years that it has put Lubbock on the map for football fans over the nation.

Mooney noted that among those who already have indicated they will participate in the game this year are Nebraska's Jerry Tagge and Jeff Kinney, and that other stars who will play have not yet been announced.

Members of Slaton Lions Club are selling tickets to the contest at \$7 each, or tickets may be obtained at The Slatonite.

## UTOPIAN DREAM

Inflation would be wonderful if it covered incomes only, and other prices stayed put.

**DULCIMERS EVERYWHERE** -- Stinson Behlen of Slaton is shown with some of the dulcimers he has made. He will show his wares and skill at the Texas Arts and Crafts Fair in Kerrville May 31-June 4. (SLATONITE PHOTO)

## Dulcimers From Slaton Going All Over Globe

Stinson Behlen, 1010 S. 14th, who makes dulcimers, will display his craft at the Texas State Arts and Crafts Fair in Kerrville May 31-June 4, showing the three-stringed and four-stringed instruments which he makes for people all over the world.

Some woods native to this country and others from such places as Africa and West Germany are used in making the instruments, which Behlen supplies to some major music companies in the U. S. Last year, Behlen said, he made about 95 dulcimers.

## Thought For Food

An impressive appetizer for a beef standing rib, rib eye (Delmonico) or sirloin tip roast dinner is beef bouillon or consommé on the rocks.

For a tasty chip or cracker dip, combine finely diced, ready to serve meat, ham, or dried beef with sour cream and chopped chives.

A big roast that gives double duty is a good buy. Any leftover from a special dinner can be sliced thin, spread with a homemade or commercial dip or spread, rolled up, secured with a small pick and arranged on lettuce for luncheon service. Or secure the rolled slices with several picks and cut each roll in two or three segments and serve as appetizers.

The 1970 human population figure is expected to reach the 3.6 billion point. With the world having a 2 percent increase rate

every 3 years in population, we are adding 1 million people every five days. 70 - 73 million people each year. To feed that many more people, agriculture must continue to utilize the tools and weapons of production efficiency: machinery, vehicles, fertilizers, and chemicals.

Outdoor cooking calls for a solid bed of glowing coals. Allow 30-45 minutes after lighting a fire to get cooking ash-gray coals.

SENIOR CITIZEN OF THE YEAR--Mrs. Fannie Patterson received a pink carnation corsage Friday when she was named Slaton's Senior Citizen of the Year, at a meeting of the Senior Citizen's Club. (SLATONITE PHOTO)

## Mrs. Fannie Patterson Named Senior Citizen of the Year

Mrs. Fannie Patterson was named "Senior Citizen of the Year" Friday at a meeting of the Slaton Senior Citizens Club. Having served as the club's president about ten years (some club records have been lost), Mrs. Patterson was cited for her devotion to club members, and activities, as well as community affairs.

A 14-year member of the 15 year old club, Mrs. Patterson feels that its main objective is to bring people of 50 years of age or older, together one day each week for fun, games and a good meal. Having raised her own five children, one member stated "she treats us like her own children, takes care of the

little details that make the meetings so enjoyable, and really gets us organized." I don't know what we would do without her." She is a member of the First Baptist Church and is president of the T.E.L. Sunday School Class.

The 28 members present for Friday's meeting heard Rev. Linam Prentice of the Evangelical Methodist Church as he brought the devotional period.

Live to learn, and you will learn to live better, with yourself, with your fellow man. From every encounter of life you will draw a measure of profit and a worthwhile experience.

## SUNDAY'S SERMON

Freedom We hear a lot these days about "freedom." It is a word used by many groups and individuals, in almost the same breath they use to criticize society and "the establishment."

If we listen carefully, sometimes, we learn that these individuals are not talking about freedom as many of us know it. Theirs is not freedom of choice, but freedom from responsibility. For some, freedom is disassociation, rejection of the moral and social values that many of us hold so important to the business of successful living.

THURSDAY, MAY 25, 1972

Read Psalm 23; II Corinthians 4:8-18

My cup runneth over. Surely goodness and mercy shall follow me all the days of my life. (Psalm 23:5-6)

A reporter said of the weather, "Tomorrow is expected to be a carbon copy of today." The Christian should never find it necessary to say this of his days. Although the common duties are repeated and the Christian's life is one of continuity, each day is different. There is expectancy--hope--adventure! He asks, "With what will God fill my cup today?" If one is ready for humble and faithful service, there will be joy. There may be pain or sorrow, of course, but God's creative love will even work good out of it.

Because of our redemption in Christ, new peaks are waiting to be explored ever day. The prophets saw something of the splendor in the distance, but did not experience it. The mystery was fulfilled at the coming of Christ.

How impossible for any tomorrow to be a "carbon copy" of today! PRAYER: Our Father, we thank Thee for fresh hope and new insights that make it impossible for life to grow stale for those who love Thee. May we live each day with bright expectancy, praying as Thy Son, our Savior, taught us: "Our Father, who art in heaven. . . Amen."

THOUGHT FOR THE DAY

With Christ within, I face each new day with a spirit of expectancy.

**From Mrs. E. Poole, Greeley, Colorado:** With nostalgia, I remember winter evenings as a child. My grandparents raised us. Grandma had an old pump-type organ. Grandpa played the violin. My brother and I sat on an old quilt behind the pot bellied coal heater.  
 I remember the tunes, such as: Turkey In The Straw, Rose of Tralee, Old Dan Tucker, and our favorite, The 7 Step. My brother and I called it Addle-Diddle-Dee--and still do, when we think of it.  
 The evenings generally ended with grandma getting a pan of earthsmelling apples from the root cellar, under the kitchen floor. And grandpa told stories of pioneer adventures.

Dear Consumer

It's Grass Cutting Time: Be Careful

By Virginia Knauer  
Special Assistant to President Nixon  
for Consumer Affairs

What domestic appliance do you know of that can cut like a knife, shoot like a gun or explode like a bomb?

Your rotary power lawn mower can if it is carelessly used.

The most hazardous part of your mower is the fast rotating blade, but you should be aware of other hazards too. Rocks and other debris can be hurtled from the discharge chute at high speeds. A mower gas tank being filled while hot can explode. A mower running in a closed garage can emit poisonous carbon monoxide fumes. Or loose clothing — even long hair — can be caught in a mower's exposed moving parts.

The power mower is a valuable tool for the modern homeowner, but it is not a toy and should be taken seriously. In 1969 an estimated 140,000 injuries were caused by mowers. Fortunately, there are two ways to reduce the injury toll: design a safer mower and increase consumer awareness about safety.

Improved safety features are becoming available on many models, such as discharge chutes that minimize ejection of dangerous objects and guards that keep the operator's feet away from the blades.

Look on your mower for the triangular silver-colored safety seal, sponsored by the Outdoor Power Equipment Institute, which indicates that the mower has been certified by an independent laboratory to meet standards set by the American National Standards Institute in 1968.

In small print you will read: "ANS B71.1-1968." The standards have been upgraded in 1972 so that later in the year you may see a new gold-colored seal labeled "ANS B71.1-1972."

However, the ANSI standard is voluntary and is only a minimum standard.

Here is where consumer safety awareness comes in. By investigating the safety features of the mower you buy and by paying a few extra dollars if necessary, you can get a mower whose safety features exceed the minimum. Ask your dealer for the free safety mowing guide published by OPEI or write to Outdoor Power Equipment Institute, 734 15th St. N.W., Washington, D.C. 20005.

The OPEI guide can be especially useful if you own a mower bought many years ago when safety features were fewer or if you have lost your owner's manual. Also, you should have your mower inspected annually by a serviceman to eliminate loose parts, cracked blades and other hazards.

To report a mower accident, write a letter to OPEI and send a copy to Food & Drug Administration, Bureau of Product Safety, Room 222-C, 5401 Westbard Ave., Bethesda, Md 20816. Include the manufacturer's name, the model number and the serial number. This will aid FDA in its efforts to gather data about product-related injuries.

Union Monopoly Threatens Exports, Says Farm Bureau

Union monopoly power is threatening our export market, both for farm products and industrial goods, William J. Kuhfuss, president of the American Farm Bureau Federation, said.

"In the last six months of 1971, the United States experienced a foreign trade deficit for the first time since 1893," Mr. Kuhfuss explained. "We are importing more than we are exporting. This simply says we are not in a competitive position with our products. Overall wages and imposed labor demands are basically responsible. The biggest increases in both retail and wholesale costs are increased wages which are being reflected in everything from capital investments to hourly wages. We are all benefited by good wages, but excesses must be avoided if we are to remain competitive in the market. Wage demands must be related to productivity," he said.

"In the long run, commodities are going to be produced where they can be best produced for the lowest price.

Don't Try to Memorize Social Security Number

Don't try to memorize your social security number. Don't — especially — try to repeat your social security number from memory when an employer asks you for the number for his records when you start a new job.

That advice comes from social security officials here.

"Your social security number has nine digits," a spokesman noted. "If you try to memorize it, you can easily

give a wrong number when you try to repeat it. If you furnish a wrong social security number to an employer, it may cause difficulty in crediting your earnings to your social security record. That may eventually affect your social security benefits."

An employee's earnings are credited to his social security number when they are reported by his employer. The employee's earnings determine

the amount of monthly social security benefits he may collect when he retires or becomes severely disabled; also the amount of benefits his family may get if he dies prematurely.

"If all of your earnings are not credited to your social security number, your benefits may amount to less than they should," the spokesman said.

Advice from social security: Always carry your social se-

curity card in your purse or wallet. When starting a new job, always show your social security card to your employer and make sure he copies the number and the name from your card.

"Remember," the spokesman said, "Don't try to memorize your social security number. It could cost you money."

### Senior Prophecy

The Junior Class has gazed into their crystal ball (which you can get for about \$1.35 at K-Mart) and predicted the successes and failures of their upperclassmen.

DAVID COX is foreseen to be the star basketball player for the Los Angeles Lakers who will fall off the bench and break his left arm. He will go on to become the first male secretary ever to achieve completely equal rights and will sit on the Boss's lap to take dictation in shorthand (??).

SHERRY EDWARDS will be the girl who will undertake two projects upon graduation -- being married to an Aggie and being an Airline Receptionist, and never get either one off the ground. She will also be the first Female Football Coach A&M ever had.

DONNA KITTEN will become lead bass singer in her family rock group, which now numbers twelve. She will be forced, however, to buy a red wig to fit in with the rest of the group.

MARK GATZKI will be the owner of Weight Watchers, but will be forced to give up his position because of his almost religious devotion to the drinking man's diet.

CLIFTON LEHMAN will puzzle the nations leading Dermatologists when he comes to them and exhibits a perfectly matched set of red hands and purple feet. The mystery will be cleared up, however, when it is learned that he is owner and operator of the Lehman Meat Market and Wine Cellar.

RONNIE MAEKER will be the newly appointed principal at Wilson High School, where he will institute a strict no dress code: hair no less than eight

(SENIOR WILLS)

I, DARROW TALKMITT, being of hazy mind and neglected body to bequeath this last will and testament: To Patsy Fox, I leave my old spit cups to use in emergencies. To Tony Bishop, I leave a large chest so his track uniform will fit. I leave to John Earl Fields and Danny Crowson my constructive criticism to the coaches, players, and referees. To Coach Downey, I leave that chew of Red Man and 10 cans of Copenhagen I had to spit out in P.E. To my sister, Twilla, I leave a kick to get to school on time, whenever she goes. To Mr. Taylor, I leave one large bag of carrots.

I, MARK GATZKI, being of sometimes sound mind and body, do bequeath: To all girls in high school, I leave my blue denim bell-bottomed jeans to wear to class (patch pockets, optional). I leave a coke and candy machine in the library for just students. To P.E. boys, I leave my official Rinky-Dink uniform; cutoffs and shatter-proof glasses. To Greg Wied, I leave a booklet of jokes with no punchlines. To Miss Price, I leave a monocle and whip. To Chris Coleman, I leave a mirror with indentation for his nose.

I, DAVID COX, being of questionable mind and excellent body, do hereby bequeath To Leland Brieger, I leave my front-row seat in English, along with four cases of Somnax and a soft pillow. To Danny Crowson, I leave my unique ability to never make a free throw during a basketball game. To Mr. Cook, I leave one old rookie tuba player. To Coach Blair, I leave a basketball uniform with low-mileage and a wornout spot on the bench. To Mr. Downey, I leave 3/4 of a bus seat, with the remaining part to go to John Earl Fields. And, last and least, I leave a wreath of funeral flowers to Wilson High School.

inches long for girls, twelve inches long for boys. Students may wear nothing but jeans, and both boys and girls are required to wear full beards. If you would like any further information, Ronnie and his lovely wife Barbara may be contacted in the homemaking cottage.

DARROW TALKMITT, the world-renowned "Tom, Pig-Eye, Copenhagen Kid", Champion Bull Rider and/or Fullback, will be awarded the Silver Spittoon award in the contest to determine who has the most nicknames at Ranger Jr. College. It is predicted that he will be the first WHS graduate to have his lower lip amputated from the excessive use of snuff.

SUZY MCCORMICK will play with the New York Philharmonic and receive a standing ovation from her fans. She won her first recognition when she accompanied Deputy Savell on his solo in the Toilet Bowl, where she was received warmly. . . because the stadium caught fire when Richard's Flaming Halo fell off his head. She blew her Flute while Richard burned.

KARLA MOORE will be in charge of dorm reservations at Tech and will be coach, referee, manager, player, and captain of Texas Tech University's Basketball, Football, Swimming, Tennis, Golf, Track, Hockey, Polo, Tiddy-Winks, and Tic-Tac-Toe teams. In her spare time she will also be cheerleader, announcer, water-boy, and ticket-taker. She will graduate with honors -- and ulcers -- and blisters---

CATHY COLEMAN will be the first nurse at Houston Medical Center even to get turned on by Bourbon Flavored Tobacco and put all of the bedpans in the refrigerator.

DONNA MOERBE will still be a candy stripper at Mercy Hospital. She would have been promoted, but she confused the orange juice with the orange-flavored laxative drink. Color Donna's patients gray.

JUANA ORTEGA will receive her degree in mechanics with the university of Mexico, but will get a traffic ticket for driving without headlights on her way to commencement ceremonies.

ARTURO "FATS" VERGARA will be fired from five consecutive jobs for shooting pool on company time. He will then become head of Levi-Strauss Pant Co. in charge of the Retirement of Old Blue-Jeans.

LA NELL MARTIN will be the first in the 1972 graduating class to get married and the last to realize what has happened the past twelve years. Her first baby will undoubtedly be named Shirley Temple. Our sympathies if the first baby is a boy.

RICHARD SAVELL will find happiness as the first singing cop with the Texas Highway Patrol. He will also sing his version of the National Anthem, "Somewhere Over The Rainbow", at the first annual Toilet Bowl, featuring The Muddig Crows and the Pottstown Firebirds.

MARK KOSLAN will become owner and manager of the Gatzki Gin. There is some speculation that he will convert it into a Pool Hall and make his fortune at \$1.00 a game.

Maestro CARL WILKE will win his fame when he first delivers his heart-breaking rendition of "Three Blind Mice" to the president of the United States immediately following this President will declare war -- on the United States.

JAN GATZKI will be the new wife of Mark Koslan and all America will ask, "Can Jan Find True Happiness In A Pool Hall?"
