FIRE! - A Slaton fireman stands starkly silhouetted against the backdrop of a blazing house which burned on New Mexico St. early Sunday morning. This was the home of Andrew Trotty, who was out of town at the time. Firemen conducted a grim search of the ruins after the blaze was extinguished, expecting to find the body of a youth who was believed inside. However, he turned up unharmed. Earlier in the night, firemen answered an alarm to a vacant house on Arizona St., and during the Trotty home fire a house occupied by Jerry Mask, 840 Oklahoma, caught fire, with damage confined to the attic. The volunteer firemen, who were up most of the night, get \$1 per fire call.

> In another development related to the Independence Day observance. Chief of Police Fred Clark and Fire Chief Don Kendrick reminded citizens of the ordinance prohibiting use of fireworks in the city limits.

> Kendrick noted that with the lack of recent rainfall the danger of starting fires from explosives was greatly increased, and commented that it not only is illegal but also dangerous to set off fireworks around dry grass.

> Chief Clark said the ordinance, city ordinance No. 100, would be enforced as usual, and noted that violation of the ordinance carries a possible penalty of a fine up to \$100. Parents are liable for the actions of their children, Clark said.

A few weeks ago there was talk of a nationwide ban on fireworks, in view of the growing number of injuries and deaths attributed to their use, but no such ban was imposed. Consequently, fireworks may be touched off outside the city limits

Early Paper Next Week

The Slatonite will be published one day early next week, on Wednesday instead of Thursday, since July 4th is a holiday. This means that all copy, advertising and news, should be turned in by 5 p.m. Monday instead of the normal copy deadline of 5 p.m. Tuesday.

The Slatonite will be closed Thursday, as will most other businesses and offices in the city.

THURSDAY Read Psalm 100; 1 Corinthians 13: 11-12

Enter into his gates with thanksgiving, and into his courts with praise: be thankful into him, and bless his name. (Psalm 100:4).

Little Kirk was sad, even though he was at a party. It seemed that all his cousins were having birthdays one right after another, and his had long since passed. "Why don't I have a present to open?" he wailed.

'You do," I said. 'Where?'' he asked, looking around for a brightly wrapped package.

You opened it this morning." I answered. "Every new day is a surprise package from God," I explained. "It is like opening a present from Him."

As grown-ups, we know that the gifts we receive on birthdays and holiday occasions are not always just what we wanted. However, we try to accept all gifts with grace. But, we are sometimes bitter about things that happen in our lives. We should accept all circumstances, rejoicing in the good things and accepting gracefully those "gifts" we do not vet understand.

PRAYER: Help, me, O Lord, to appreciate and to wisely use the gifts which come to me each day from You, Amen.

THOUGHT FOR THE DAY: Every new day is a surprise package from God.

SPANISH STYLE DESK AND MATCHING CREDENZA

The quality of this desk and matching credenza is unmistakably the finest. Built to Commercial Desk & Equipment Company's rigid construction standards, special attention has been given to the distinctive design details of the massive yet graceful desk and credenza. The entire chassis is constructed of select solid oak, with an impressive richness of Spanish accent brought out by a handrubbed satin lacquer finish. The solid mahogany hand-carved or raised solid oak panels, along with massive solid oak posts inset into the chassis and genuine naugahyde top inlays present unmatched distinction. All drawers operate on heavy duty suspension guides. Pedestals are individually locked by a trouble free positive locking system. Inlays available in black, red, and green.

All officers assigned to the crime prevention units in the six cities have been graduated from the National Crime Prevention Institute in Louisville, Kentucky.

These officers are now specially trained to anticipate and reorganize crime risks in their communities. They are going directly into the neighborhoods, advising the property owner and working with them to devise the least expensive methods of removing the risks." states William R. Corbett, CJD crime prevention pro-

the public on a people-topeople basis. They survey businesses and homes to point out weaknesses in security, then make recommendations. These may consist of replacing existing doors with solid wood doors, deadbolt locks, or other measures that would strengthen the home or business against a criminal attack and reduce the percentage of theft.

An Austin public relations firm was selected to design and produce spot announcements for radio and television use for each phase of the campaign. Stories for newspaper use on crime prevention techniques are also prepared with the help of each designated crime prevention unit. Early reports show that all media have responded by giving unlimited free space to educate the public on methods of self-protection.

In addition to mass education, the crime prevention specialist will talk to citizens in their homes, whether it's one family or a gathering of a neighborhood.

They use demonstration props and films to tell the story of how best to protect family and property.

Vacation bound? There's a chance you might also be heading for trouble if you haven't taken certain precautions

before leaving home. Law enforcement experts and our Consumer Protection Division attorneys say that what is vacation time for most folks is working time for many burglars. pickpockets, and con men.

They suggest that you plan in advance to burglarproof your home and to guard against possible thefts or consumer frauds

on your trip. While the number of such occurrences is small compared to the number of vacationers, it only takes one bad experience to ruin a trip.

Here's a list of things to check before you leave: - Stop mail, newspaper,

and other deliveries. - Tell a neighbor or your apartment manager that you to keep an eye on the place.

- Leave a few lights on turn certain lights on and

Cut your lawn just before leaving and, if you will be gone a long time, have someone cut it while vou're away.

- Check all windows and doors to make sure they are locked. A sliding glass patio door can be more securely fastened by wedging a stick at the top or bottom of the door.

- Check with your local

until you have returned. - Before leaving, engrave all valuables in your home and those you will be taking with you in the car with your driver's license or

Some police forces will loan you an engraver to mark your belongings and will register your number on their master list. This may discourage burglars from taking your goods and can make indentification of recovered stolen goods much

After taking precautions to secure your home from burglars while you are gone, don't let down your guard when you get into the car and drive away. There are a few things to remember during your trip too:

- Make sure you have had your car serviced and thoroughly checked before leaving and always get out

of the car to watch when having it serviced on the road. There are a few unscrupulous persons who sometimes take advantage of tourists with out-of-state license plates. If your car was given a clean bill of health before you left, you can better evaluate warnings about faulty fuel pumps, air filters, batteries,

- Take traveler's checks or use credit cards, and keep a list of your credit card numbers in a safe spot.

- Men should avoid keeping billfolds in back pockets, or at least button the pocket if possible. To

AUSTIN, Tex. - A flood of Mexican aliens, estimated at more than a million a year, is pouring into Texas, according to a new Texas Good Neighbor Commission

More than half the illegal entrants cross the Rio Grande into Texas.

Good Neighbor Commission said the number of such entries is greater than the total number of immigrants who entered the

U.S. legally from all the countries of the world.

Last year, the GNC noted, 575,000 deportable Mexican aliens were found in the U.S., and immigration officials figure one escapes for every one apprehended. Sophisticated smug-

gling techniques aid the crossings.

Immigrations have a social and economic impact in virtually all regions, since the aliens move on to metropolitan areas all over the U.S. in search of better jobs and safety from arrests.

Top AFL-CIO officials promply called for tough new state laws making it an offense to hire illegal aliens, punishable by stiff fines or
