Citizens Told Highway 84 Not Necessarily To By-Pass Slaton

W. H. Garrett, senior resident engineer for the Texas State Highway Department made the statement Friday at a meeting of local citizens that Highway 84 need not by-pass Slaton for possibly 10 years. He told the 25 men present that the highway department at the present time is only making a survey around the town for a location line for the eventual construction of the highway.

Strong Possibility

"There is a strong possibility that no actual construction will begin until such time as traffic conditions on an alternate route warranted the construction of the loop around the town," he said. "If traffic increases at the present pace in the next 10 years the citizens here will probably want a four-lane road to handle it."

Among the citizens present were several who were interested in the effect the planned highway construction would have on the proposed motel in the city. Some of the residents who are interested in assisting in the financing of the motel construction had expressed some misgivings about the highway by-passing the town.

Citizens Petition

It was proposed at the meeting that the citizens of this community petition the county to purchase the right-of-way for the four-lane road around the city in return for a promise from the state not to build on it for a period of 10 years and the construction by the state of an alternate route through the city on two one-way streets.

Under this set-up traffic would be directed through the city south on 9th St. and north on 8th St. The highway around the city would not be constructed for a period of 10 years or until such time as traffic conditions necessitated the construction of it.

The highway department would not build the two one-way streets through the city unless the county makes the right-of-way available to the state highway dept. for future construction. The roads through town would be maintained as alternate routes through the city until such time as a highway was wanted by the residents or traffic warranted the construction of it.

"If they are going to approve two one-way streets and aided you in the construction, I don't see any particular reason to build around town, but we need the right-of-way for when we have to expand. If you get the right-of-way and the highway department spends money on this two-way street route, as long as that facility provided a satisfactory condition for the traffic, there would be no particular need to build the expressway, but if the traffic count got heavy enough for a four-lane road, I think the people of Slaton would be the first to holler," he related.

Question Raised

The question was raised at the meeting as to whether the proposed purchase of the right-of-way around town would involve another bond issue. According to Bruce Pember, chairman of the C of C

More Volunteers Needed to Man Observer Post

More volunteers are needed to help man the ground observer post which is planned here, according to Bill Daniels, post supervisor. The post will be set up in conjunction with the nation-wide civil defense program to assist in the spotting of all aircraft which flies over the nation.

The first step locally is to get enough volunteers to agree to help with the post according to Daniels. He can be contacted at home, phone 314 or at the police station, phone 402.

Seventeen Arrests Reported in City During Weekend

Slaton police reported 17 persons arrested and jailed over the weekend in the city. Most of the arrests were made in the Flats for offenses ranging from drunkenness, drinking after hours, and fighting. One arrest was made for vagrancy and prostitution. Jim Alba, Slaton Latin American, was arrested by local officers for possession of more than the legal amount of whiskey. He was released on \$500 bond from county court at Lubbock earlier in the week.

WEEK'S QUESTION . . .

Should The Highway Pass Through Business Section?

By Ross Short

Are you in favor of the purchase of a right-of-way by the county commissioners for a highway around Slaton, providing the state highway department will construct a one-way traffic system through the city to be maintained for ten years prior to the construction of the by-pass road? Or do you prefer that the commissioners do nothing and let the highway stop at the city limit?

This question was asked 14 Slaton merchants Tuesday. All businessmen voiced an opinion, and discussed the pros and cons of how the new four-lane road from Lubbock will affect Slaton.

Eight voiced the opinion that they opposed any highway that did not go through the town.

"Do Nothing"

"I want the commissioners to do nothing and let the highway department stop at the city limit," said N. L. Cress, owner of an Humble Station on South 9th. Cress pointed out that at least half his business came from travelers. "There's 200 thousand dollars worth of filling stations in six blocks here that cannot stay open if a highway is built that misses the town."

"There'll be more bats in these buildings around here than there is in Carlsbad Caverns if the highway goes around this town," stated H. C. Maxey, cafe owner and 31 year resident of Slaton. "Fifty per cent of my business comes off the road, and its the same way with most all of the business places along the highway," he added.

"If the town were bigger, we might be able to stand something like a by-pass highway, but I don't want the four-lane road to miss Slaton," said Mrs. B. C. Welch, owner of Western Auto.

Spend on Roads

Charles L. Smith, owner of C and W Furniture thought that the money should be spent on farm-to-market roads instead of on a right-of-way for such a highway. "If we have set up a plan to spend money for our city streets for traffic, it is foolish to allow a highway to be built that will ruin the town 10 years later," declared Smith, adding that a highway down railroad avenue would be cheaper and better for the town than a highway which went around Slaton on the west.

Six of the fourteen merchants voiced opinions favoring the purchase of a right-of-way for construction of the highway around the town, but would not allow their words to be quoted.

One merchant said that he felt his business solid enough to continue, no matter which way the highway ran. "I'm in favor of the commissioners buying the right-of-way, and they can build the highway right now if they want to," he

said, but quickly added, "Please—don't quote me."

Better in 10 Years

"In 10 years, Slaton will have to have some means of relieving traffic congestion due to the automobiles that will be drawn by a four-lane road," said another merchant who also preferred to remain anonymous.

"A highway around the town wouldn't hurt me, and I am in favor of purchasing the right-of-way at once," said another business man. "However," he added, "some of the people who trade with me are opposed to the by-pass road, and I can't afford for you to put me down as saying that I'm in favor of such a plan."

"I figure that if I can't offer merchandise and service that will draw something besides transient business, that I don't deserve the business in the first place," stated a store manager, but he added that most of Slaton's service station men didn't feel that way.

MOST COURTEOUS CLERK FOR APRIL is Mrs. L. A. Reasoner, an employee of McSween Clinic. She is shown with Bill Sledge, business manager at the clinic, as he pins a corsage on her in honor of her award. Mrs. Reasoner, whose husband is a lineman for Southwestern Public Service, is a busy homemaker and mother. They have two children a girl 13 and a boy 10. She likes the type work she does at the clinic very much and says she feels highly complimented by this honor. She laughingly said that people didn't know her very well to choose her as most courteous. This award is presented each month by the Slaton Chamber of Commerce and The Slatonite.

Directors Meet To Discuss Community Clinic Plans

The directors of the Chamber of Commerce met in a called session Wednesday afternoon to discuss plans for a proposed Community Clinic in the city. The men met with Melvin Kunkel, chairman of the community clinic committee of the C of C.

The clinic will meet May 28 and 29 at the High School Auditorium at which time people from all walks of life and every vocation will be called upon to attend and offer their ideas on the needs of this community.

The future work programs of the Chamber of Commerce will be taken from the suggestions which are offered at the clinic.

Meeting with the residents will be experts of the West Texas Chamber of Commerce community staff. They will be available for consultation and advice.

At the close of the clinic all material submitted by those citizens, who attend, will be turned over to the West Texas C of C for detailed analysis, and a written report containing recommendations will be made to the local chamber within a short time.

The survey of the opinions and ideas of those at the meeting will then serve as the basis for the program of work for the local chamber.

'Water Supply Best In 10 Years'

"The city water supply is in the best shape now that its been in for the 10 years I've been here," according to Forrest Davis, city water superintendent. "We won't be low on water this summer."

Slaton's newest well was connected to the city water mains Monday and is pumping 640 gallons per minute. When the well was completed in November of last year it was hailed by city officials as the largest well ever drilled in the city's history. The well is located on the King Lease and according to Davis is capable of 1000 gallons per minute.

With the new well in use the city is cutting off some of the older and poorer producers which pumped from 40 to 100 gallons per minute. "We have room on the same acreage to drill two more wells and we have a permit already to drill, but we expect it to be at least a year before we have to drill another one," he stated.

School to Host Students Entitled To Enroll in Fall

School officials have requested that all children who are legally entitled to start school for the first time in September meet at West Ward at 1:15 p. m. Tuesday, May 15. Parents are requested to be present also.

Purpose of the meeting is to orientate the child to school environment and to inform the parents as to the various items that the school expects from both the child and the parent.

The meeting will also give the parent an opportunity to ask questions regarding the school and its policies. This project is jointly sponsored each year by the Slaton Schools and the Elementary Parent-Teacher Association.

Various people will be available to answer any questions that may arise. This program, according to P. L. Vardy Jr., school superintendent, has been carried out for the past several years and has proven in each instance to be a successful one.

Over an inch of rainfall had been recorded here Wednesday morning following two days of on again off again rainfall. Rainfall Monday night was recorded locally at half an inch.

Tuesday the weather forecast called for showers, which later in the day was changed to a forecast for heavy rainfall and possible tornadoes. Late Tuesday evening heavy black clouds began to roll into the area and sometime after midnight the rain began to fall, accompanied by thunder and heavy lightning. Many residents commented on having had a poor night's sleep as a result of lightning and apprehension about the tornado warnings, which fortunately proved needless in this area.

The morning train from the south was delayed until about 6 p. m. Tuesday as a result of a track washout below Sweetwater near Coleman. The track was washed out Monday night and it was about 2 p. m. Tuesday before it could be repaired according to H. L. Marsh, chief dispatcher for the Slaton Division of Santa Fe Railroad.

Marsh said that the track was still washed out between San Angelo and Brownwood Wednesday evening and he figured it would be another day before it would be open again.

Rainfall Tuesday night was recorded at between 70 inches to 1.25 inches. Union Gin reported a half inch rainfall Monday night and 1.5 inches Tuesday night.

Over an inch of rain was recorded on the the Rudolph Schwertner farm one mile south of town. Norbert Kitten reported .95 inches Tuesday night and .70 inches Monday night.

WHY LET CRIME GROW?

Last year a movie, Blackboard Jungle, told the dramatic and often grimy story of the deplorable conditions which exist in some public schools in those cities with a high rate of juvenile delinquency. Too many people were able to dismiss its important message by saying Hollywood had dramatized the situation way out of realistic proportion. Yet vice has not disappeared from juvenile records.

In El Paso, Texas, recently, a young gang bombed the home of their high school principal. In a midwestern city a special police detail of trouble-shooters was assigned for a week to a section of the city where purse-snatchings, robbery and attacks had become so frequent that any adolescent on the street came under suspicion.

This year Hollywood has made a movie about another social problem. The Man With the Golden Arm is about dope addiction. It is not a pretty story. The characters are not admirable. But Hollywood has not overdramatized this situation any more than it did that of juvenile crime. The United States has the highest incidence of drug addiction of any of the Western nations.

The film studios are focussing on some of the more important social diseases of the nation. To shrug off their efforts as mere entertainment is to ignore what is obvious: That these problems are dangerous to the welfare of the nation, to every man, his wife and his child.

The needs for slum clearance, proper housing, new schools, adequate legislation against dope pushers, for improved welfare and mental health facilities have been stated for the American public often. Must social action wait until each one of us has been slugged, robbed or attacked?

NEW WAY TO CENSOR

The Quebec government seems to be trying to control the province's newspapers. A bill introduced into the legislature, with the backing of Premier Maurice Duplessis and his large party majority, would create a four-man board to allot newsprint to the newspapers and fix the prices. Obviously journals friendly to the administration are more likely to be favored than opposition papers. This board could also set fines of \$50,000 to \$150,000 against any company disobeying its orders. There is no redress, for the measure forbids applying to a court for relief.

If enacted, this bill would permit the board to suppress any newspaper by denying it newsprint or furnishing it only at an exorbitant price. With no appeal possible from the board's rulings, the government would have complete control over the chief vehicles of public opinion. Even Moscow has no more sure-fire method of ordering the papers what to permit.

The bill, under the present circumstances of newsprint shortage, may have been well meant. But like too many of our own more hastily conceived laws, it was not, to put it kindly, thoroughly enough thought out as to its possible consequences.

We wouldn't exactly say Quebec is using a not-good way to run a railroad, but certainly it is not a satisfactory method of getting newsprint to small newspapers.

Parents, to the energetic teenager, often seem like old people who still don't know what their offspring learned years ago. But when that strong right arm is sought to soothe the daily crisis, parents suddenly have value.

Those who seem to manage always to spend more than they make, at least ought to let us in on how they do it.

Life is too short to bear grudges—and it would be if we were to double our life spans.

Let's hope that candidates for the various offices this year will try to throw more light on the issues and less mud on each other.

A person who would refer to the "common" cold would not consider anything unusual.

Whatever became of the good old days when the worst problem a parent had with a child was keeping him out of the cookie jar? One old timer says there never were such days.

"BE YE DOERS OF THE WORD, AND NOT HEARERS ONLY." — JAS. 1:22

STRENGTH FOR THE WEEK

By Rev. Jim Tomlinson

"So when Pilate saw that he was gaining nothing, but rather that a riot was beginning, he took water and washed his hands before the crowd, saying, 'I am innocent of this man's blood...'" — Matt. 27:24 (niv)

Legend has it that over the waters of Lake Lucerne, at the foot of Mount Pilatus in Switzerland, the ghost of Pilate can be seen on moonlit nights, forever moaning, forever washing his hands. It is true to life. For there is no more pathetic sight than to see a man dodging the issue of Jesus Christ throughout his life. Forever washing his hands, forever saying to himself, "I am innocent of this man's blood."

We can't escape the issue of what Jesus can do for our lives. We can ignore him. But that does not dispose of him. We can admire

him. But that is not enough. We can reject him but he is forever reappearing. Like Pilate we have Jesus on our hands whether we want him or not. It is only when we accept him as Lord and Savior that life becomes clean and whole, strong and peaceful.

Even as there is no more pathetic sight than the person who refuses to be responsible for repaying Jesus with their life, there is no more beautiful and inspiring a sight as the life of one who accepts his debt to Jesus for the life-giving blood. Nothing greater than the life which depends on Jesus for making the least of mistakes and weaknesses and through faith in God and a sense of the true meaning of life makes the most of the innermost possibilities hidden in the soul.

Let us ask ourselves today, "Have I accepted my responsibilities for Jesus' death, or have I felt within my heart that Jesus died for someone else? Have I been waiting for Jesus to make some personal contact with me or have I accepted the death of Jesus Christ as the most personal thing that has ever happened to me?"

Wilson Girl National F. H. A. Officer Candidate

Ida Pearl Mason, Wilson High School F. H. A. member, will be Texas' nominee for National F. H. A. vice president at the organization's national convention in Chicago this summer.

Miss Mason was nominated from her area in March to attend the State Future Homemakers of America meeting which was held in Ft. Worth April 19-21. She competed against a candidate from each of the areas in Texas, making a total of 10 girls in the state competition. She represents 50,000 girls from Texas.

In Chicago, Miss Mason will compete against the state winners from Arkansas, Louisiana and Ok-

lahoma, for National F. H. A. vice president.

She will leave for Chicago from Ft. Worth on a chartered train June 30. Accompanying her will be 50 sponsors and 200 other Texas F. H. A. girls attending for various reasons. The girls will stay at the Conrad Hilton Hotel, and the convention will also be held there.

She will make the trip with all her expenses paid. The entire trip will include eight days.

THERE WERE NEVER 37 more excited boys than these members of the junior high school varsity basketball and football teams as they got ready to make a trip to Lake Stamford for a week-end camping trip. The campers left here last Friday at noon and returned tired but happy Sunday afternoon. Left to right in the front row are five of the men who accompanied the boys. They are C. E. Dickson, Elton Smith, H. J. Belcher, George Harlan, and Coach M. W. Kerr.

Junior High Varsity Spends Weekend Fishing

The 37 members of the junior high school football and basketball teams spent the weekend camping and fishing at Lake Stamford under the guidance of seven of the boys' fathers. The boys and their sponsors left here Friday at noon and traveled the 120 miles to the lake via bus and several pickup trucks.

Broken up into small groups for better supervision the boys spent the two days swimming and fishing on the shore of the lake. Fishing was good and the men and boys all had fish at a couple of their meals. Worst accidents were several cases of sunburn which some of the boys received from trying to cram too much swimming into a few days. The boys and their supervisors were Macky Belcher, Gene Talbert, Johnny Morris, Neely Corner, Ronnie McCormick, Dale Barleson, and H. J. Belcher, supervisor; Billy Dickson, Hally Brookshire, Tommy Stell, Frank Chapple, Charles White, Steve Smith, and C. E. Dickson, supervisor.

Eddie Gravell, Tommy Claiborne, Johnny Clack, Robert Keys, Billy Patterson, and C. E. Gravell and B. J. Brush, supervisors; Danny Edwards, Jerry Harlan, Randy Sanders, George Hinson, James Wright, and George Harlan, supervisor; Dwayne Smith, Bobby Baxley, Johnny Owens, Jay McSweeney, James Cole, and M. D. Barry, supervisor; and Bill Barry, Giles Smith, Danny Winn, Moses Diaz, T. L. Blissard, Jimmy Vaughn, Larry DeLaney, Julian Perez, Roy Malone, Alfred Blissard, and Elton Smith and M. W. Kerr, supervisors.

The banquet, one of four held each year, was designated as the first of an annual athletic dinner at which guests will be members of the Tiger football, basketball, and track teams.

W. C. Williams gave the invocation and P. L. Vardy Jr., acted as master of ceremonies during the event. Red Kincer, Bart Jones, Paul Walker, Vasker Browning, and Willie Wilke prepared and served the meal to those present.

Prior to the introduction of the speaker, Vardy welcomed the high school students. Coach Willard Hedges introduced the Tigerette Basketball team, followed by the introduction of the basketball boys by Coach M. W. Kerr. Coach Leonard Ehrler introduced the 1955-56 Tiger football team.

The meeting ended with a short meditation by the Rev. J. B. Sharp, pastor of the Slaton church.

One 15 year pin was presented last year and three employees were recognized for 10 years service with the city. Other pins went to five men with five years experience each and five men were given three year pins.

Parents Meet To Plan Summer Program for Girls

A meeting of parents of school age girls and other interested persons will be held Monday, May 7 at 7 p. m. for the purpose of discussing the organization of a summer recreation program for the girls in the community. The meeting will be held in the City Hall Auditorium.

In a previous meeting April 30, the parents who were present decided that it would be better to offer the girls a more varied program rather than only a softball league as planned. The program as it was tentatively set up would include such activities as softball, volleyball, basketball and skating.

Two committees were appointed at the meeting Monday night. One of the committees was formed for the purpose of looking into the possibility of finding a director or for such recreation program. Members of this committee include Max Arrants, Harmon Thompson, and James George.

The other committee, headed by Mrs. Max Arrants will be in charge of a fund raising campaign in the city. The newly formed organization of parents will distribute forms for the girls to fill out a little later on. These forms will give the group some idea of what the girls would like included in the program and also how many girls would be interested in such a program.

All interested parents are urged to attend the meeting May 7, according to J. D. Perkins.

Be sure of a stand of small grain...
KILL ALL SPECIES OF WIREWORM WITH A SINGLE

dieldrin

seed treatment

NEWLY SEEDING FIELDS make good feeding grounds for true and false wireworms and other soil insects. If there is not enough moisture in the soil to permit quick sprouting, seeds are vulnerable to insect attack for several days. But the threat of wireworm damage should be recognized at all times.

A dieldrin preventive seed treatment is a sure way to protect small grain seeds until they sprout.

LOW-COST PROTECTION

It costs just pennies per acre to treat seed with dieldrin, but dollars per acre to feed the wireworms untreated seed! A dieldrin seed treatment prevents "spotty" stands... eliminates the expense of time and money for re-planting or sowing extra seed for the wireworms to feed on... assures you of a longer

grazing period. And dieldrin does not harm plant development.

COMPATIBLE WITH FUNGICIDES

Dieldrin is compatible with fungicides... can be applied at the same time to save the expense and work of a double treatment. You can buy dieldrin-treated seed from your seed dealer, or treat the seed yourself. Dieldrin can be applied as a slurry, dry, or in a grain drill. A convenient method is to apply dieldrin to the seed in the grain drill as you plant. Follow directions on the label for the particular formulation you buy.

LESS WORK AT PLANTING TIME

Seed can be treated now and stored until planting time. Dieldrin eliminates the rush of treating seed and planting within a few days. Dieldrin formulations are available throughout the small grain growing area. See your local supplier.

Ford Trucks Cost Less!

Ford costs start low— Ford costs stay low...

Certified studies show Ford Trucks last longer than any of the other four leading makes

Compare Ford model for model with any other truck line and you'll find that, based on factory-suggested list prices, Ford has more models priced under competition than any other line.

But low initial cost is only one of the reasons why Fords cost less. Take resale value—it stays high, thanks to the demand for used Ford Trucks. Take operating costs—no other trucks give you the dependability of Ford's rugged chassis design with the gas and oil economy of a modern Short Stroke engine. Only Ford gives you a Short Stroke engine, V-8 or Six, in every truck—and at no extra cost.

Ford Trucks cost less to maintain because they last longer. This is a fact certified by independent life insurance experts. There are plenty of reasons why. Ford Pickups, for example, have the highest combined front and rear axle capacity in the half-ton field. Ford Heavy Duty engines have sodium-cooled valves that last up to five times longer because they run up to 225 degrees cooler.

When you take everything into consideration, you'll agree it costs less to own a FORD Truck. Before you buy any truck, see your Ford Dealer.

FORD TRUCKS LAST LONGER

Certified by independent insurance statistics for the sixth consecutive year! Studies of over 10,000,000 current license registrations show that Ford Trucks last up to 9.3% longer than any of the other 4 leading truck makes!
