## Texas State Health Officer Urges Towns To Clean-Up

It is imperative that Slaton be clean up says Dr. W. E. Payne, City Health Officer. Each and every resident knows whether they are personally guilty of unsanitary habits and of keeping their premises in an unsanitary condition. The City now has equipment and enough working force to keep garbage cleared away and if you are not receiving proper attention a phone call to the City Secretary will get results. Let's keep our children and youths safe from polio if possible.

Dr. Geo. W. Cox, State Health Officer has issued the following statement and suggestions concerning the control and prevention of poliomyelitis which is now occurring in certain sections of the State.

Until recently it was generally believed that this infection is transmitted by means of discharges from the respiratory tract. It is now believed that poliomyelitis may be another of the several gastrointestinal infections. Therefore, control measures must include clean-up campaigns and improvements in sanitation.

Strict sanitary measures must be observed in all communities. Stringent efforts should be made to eliminate the house-fly and to destroy its breeding places. All mosquitoes and mosquito breeding places must be eliminated at once. Every effort should be made to institute approved garbage collection systems immediately. Safe water supplies must be assured. Where adequate municipal sewage disposal systems are not in operation, it is vitally important to promote and maintain sanitary septic tanks and outdoor privies.

All swimming pools should, under rigid supervision, maintain those standards approved by the Texas State Department of Health. This necessarily includes maintenance of proper chlorine level. Where such standards are not maintained, those pools should be closed immediately.

All raw foods and vegetables should be washed thoroughly before use and protected from flies, filth and insects. All eating and food handling establishments should adhere strictly to the State Law concerning the sterilization of dishes and utensils. Those restaurants with insufficient personnel to maintain approved sanitation should close one or two hours a day so that employees can assist in maintaining cleanliness and high sanitary standards.

Every effort should be made to secure approved milk. Rats and mice should be eliminated. Maintain in the home the same sanitary standards that are necessary in community life. Particular attention should be paid to personal hygiene. Excreta from cases and contacts should be handled and

disinfected with the same scrupulous care as in typhoid fever or bacillary dysentery.

Over-exertion in children should be avoided. Children should not visit homes where there is illness. Polio cases should be quarantined for 14 days and adults who work in food establishments should be particularly instructed in personal hygiene. It is advisable to reduce to a minimum all human contacts, especially in children during an outbreak of this disease. It is not advocated that schools, churches, and theatres be closed.

Early symptoms of infantile paralysis are headache, fever, vomiting, drowsiness, followed by stiffness in the neck and back. When suspicious symptoms appear, a physician should be called immediately.

## Armory For Slaton Is Hope Of Local Guard Executive

Major Walter F. Smith of the Texas State Guard says that Slaton may have an opportunity to secure a National Guard Armory if we make a strong enough plea and fulfill the requirements that are necessary.

Major Smith says that a number of Armories will be constructed in the near future and that more than one can be located in each County. The buildings will cost from \$150,000.00 to nearly \$300,000.00 and will not only provide housing and storage for National Guardsmen, but will have recreational centers where the people of the different towns in which they are located, can meet for any purpose not illegal.

The one thing that Slaton will have to have will be a Company of National Guardsmen, if we hope to get a building of this kind. Major Smith says he does not have all the information needed for an application to be filed for an Armory to be constructed in Slaton but he is endeavoring to find out what the requirements are and as soon as he does he will submit them to the Slaton Chamber of Commerce and other civic organizations.

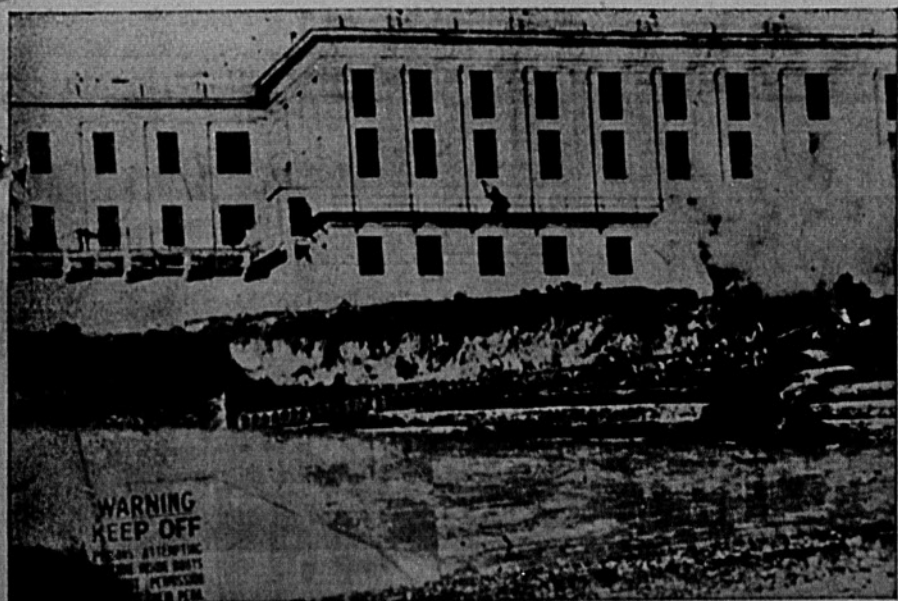

## MEMORIAL SERVICES TO HONOR HOLT WALDREP

Judge Raley has notified Mr. and Mrs. J. S. Waldrep that memorial services will be held at the grave of their son, J. Holt Waldrep in Lubbock Cemetery next Thursday, May 30, between the hours of 5 and 6 o'clock.

Lt. (jg) Holt Waldrep was with the Naval Air Corps and was in an air-plane crash, November 29, 1943, in Dallas and died December 3.

His wife is with the Braniff Airways in Lubbock.

## Prisoners Rebel

SAN FRANCISCO, Calif.—(Soundphoto)—Alcatraz prison guard crouches below a window to keep out of line of fire from armed convicts within the main cell block of the Federal Penitentiary as a tear gas shell explodes at right. This photo, made from a police boat cruising about the island depicts a savage battle in progress on "The Rock."

## LEAN AND FAT LIONS TO PLAY SOFT BALL

The Lions Club will sponsor a softball game at softball grounds Saturday night May 25th, 8 p. m. between the Fats and Leans. All proceeds realized will go into the Lions Club activities fund.

Regular quarterly zone meeting will be held at Slaton, Thursday, May 30th. Representatives are to be present from Post, Snyder, Lamessa and Ackerly and probably other clubs from surrounding cities.

## BAPTIST MINISTER RETURNS

Reverend W. F. Ferguson who has been holding Revival Meetings in Florida, where he also visited his daughter and her family, has returned to Slaton and will take over his duties again at the Baptist Church.

## Lasater Manager Of Local Store

Among the business changes that have recently been made in Slaton is the retirement of E. N. Pickens as manager of the Piggly Wiggly here in Slaton. Mr. Pickens served as the manager of the store since its establishment and is a pioneer in the business life of Slaton. Mr. Pickens has many other interests that require his time, including the management of extensive farming interests.

Mr. M. A. (Hack) Lasater, who has taken over the management of the Slaton Piggly Wiggly, is a young man who has had many years experience in the Grocery business, coming here from Lubbock, where he was manager of one of the largest Piggly Wiggly Stores there. Mr. Lasater was recently discharged from the Army having gone into the service while employed here in Slaton at the store which he now manages. He is well known here having served the folks in this area for several years.

He is a member of the Baptist Church and an experienced business man.

In commenting on his duties he said that he intends to make this store one of the cleanest and best stocked food stores in the South Plains. He hopes to take his place with the progressive business men of the town and to be a part of the community life. His family has been moved to Slaton and Slaton is home to them.

## Review Of City Activities For Year Shows Excellent Progress

In a survey of business transactions of the City, its progress over the past year and side lights on the activities of different kinds, City Secretary J. J. Maxey, rehomes in the course of construction in operation than there were one year ago, making a total of 1110 in all, with an increased investment of \$6000.00 by the City in water mains, water wells and other permanent equipment.

The water receipts are up over 15% over the same time a year ago. At the present time it is estimated that there are 30 new homes in the course of construction or just completed and ready to be occupied, two new business buildings are nearing completion and several more are being contemplated.

47 blocks of paving have been completed since last year and 6 blocks have been paved in the center on Garza Street. The City of Slaton has spent \$12,815.00 on its share of the paving which was alleys and intersections. The property owners have invested something like \$50,000.00 in the last year on paving.

## Recreation Center To Be Ready For Use Before Long

Travis Reynolds, Cub Scout Director, reports that considerable funds have been collected for the Recreation Center that is to be established at the Slaton Club House Park and that some equipment has been ordered and will be installed as soon as it arrives.

While there has not been enough money collected to supply all of the equipment that it is hoped to eventually install, there is enough to begin the construction of the play ground and Mr. Reynolds says that he hopes to have it practically open within 2 weeks, so that the younger children can enjoy it.

The co-operation and interest that has been shown in getting the Recreation Center established is greatly appreciated by those who have been working on the

project and they believe it will be a great benefit in keeping the young folks of the city interested in wholesome entertainment.

## Slaton Business Man Is Buried

Funeral services were held last Wednesday afternoon from the Methodist Church for Noah Columbus Dickson, who died at his home last Saturday from a heart attack.

Mr. Dickson had been a resident of Slaton and this area for the past 27 years.

At the time of his death he was operating the Dickson Produce and Hatchery and had been in that line of business for nearly ten years, before that he was a farmer.

An active church worker and progressive business man Mr. Dickson was well known in this area for his high standards of conduct and was popular with all who knew him.

He was born July 8, 1889, at Gordon, in Palo Pinto County, was married to Miss Lydia Lee Walker June 24, 1907 in Palo Pinto County and was the father of eight children, seven of whom survive him. Services were held at the Methodist Church by Reverend Luther Kirk under the direction of the Williams Funeral Home and interment was in the Englewood Cemetery.

Active pallbearers were Travis Reynolds, Ernest Hillen, Joe Sanders and Marvin Abernathy. Honorary bearers were Lee Wooten, Charles Walton, Fred Reasoner and Roy Saage.

Survivors are his wife, three daughters, Mrs. Addie Mae Miller Ft. Myer, Va., Mrs. Velma Lee Wright, Slaton, and Miss Betty June Dickson, Slaton; four sons, D. L. Dickson, Redwood City Cal., Ralph C. Dickson, Fort Stockton, Texas, C. E. Dickson, Slaton, Jack Dickson, Tacoma, Washington in U.S. Army, and one brother, J. M. Dickson, Gordon, Texas, and two sisters, Mrs. Carey Welty, and Mrs. Hester Mayo, both of Gordon, Texas.

## Candidate For Mexican Presidency

MEXICO CITY, MEXICO—Offering the people of Mexico a platform calling for a greatly improved standard of living, closer relations with the United States, and industrialization of the country, Miguel Aleman is winding up his campaign for the Mexican presidency. Aleman is the administration candidate. During the regime of Manuel Avilla Camacho he served as secretary of the interior and head of the cabinet. Observers predict his overwhelming election on July 7. His only opponent is Ezequiel Padilla, former foreign minister. Aleman is shown with Senora Aleman at their Mexico City home.

## Slaton Needs Bus Station Says Slatonite Subscriber

Slaton, Texas  
May 15, 1946

A. M. Jackson,  
Dear Sir:  
After having read in your paper of May 3, the letter written by C. T. Scroggins on; "Should Slaton Have an Airport?" I find myself wondering, "Why Slaton doesn't have a Bus Terminal?"

To me it seems more essential, at the present time to have a proper place in which to wait for a bus.

There are smaller towns than ours that do have them, so why shouldn't we? Let's have a bus station now and wait until more of us start flying, to have an airport.

Sincerely yours,  
A Subscriber

## TWO SLATON STUDENTS RECEIVE TECH HONORS

Two Slaton students at Texas Technological College were among 140 women students honored at the 15th annual recognition service on the Tech campus recently. Awards were made only to those women students who have maintained a high scholastic average and who have shown leadership in campus activities.

The students honored were: Mary Ann Schmidt and Kathryn Whitehead. Miss Schmidt, daughter of Mr. and Mrs. Fred H. Schmidt, is a senior child development major. Miss Whitehead, daughter of Mr. and Mrs. A. E. Whitehead, is a senior Spanish major.

## Slaton Men Go On Buying Trip

Alan Payne and Bill Layne spent the last week end in Dallas where they went to buy merchandise and fixtures are still hard to get but that some items that have previously been difficult to find are now available and some that have been fairly plentiful have become scarce.

## Soft Ball Games Getting Crowds

The Soft Ball Schedule for the remainder of this week and for next week is as follows:

- Friday, May 24  
Southland vs Wilson  
Posey vs Vibrators  
Monday, May 27  
Slaton Bakery vs Union  
Slaton Hardware vs Wilson  
Tuesday, May 28  
Vibrators vs Union  
Slaton Hardware vs Wilson  
Thursday, May 30  
Slaton Bakery vs Posey  
Southland vs Santa Fe

On Thursday May 23 the Slaton Bakery played the Santa Fe and the Slaton Hardware played Union but the results were not available at the time that this paper went to press. Results of last weeks were not available due to the fact that no official record was kept, but it is hoped that this will be remedied before long.

Much interest is being shown by the public and larger crowds are in attendance each week.

JAP SWORD DISPLAY TO BE IN LUBBOCK 28

An historical and educational collection of Japanese Samurai swords, knives, dirks, spears, and firearms gathered on Kyushu by men of the Fifth Marine Division will arrive in Lubbock May 28th and be on display for the general public, civic organizations and school students in Lubbock vicinity two full days, it was revealed today by Gy Sgt. Ralph J. Metcalf in charge of the Lub-

bock, U.S. Marine Corps, recruiting office. Perhaps the finest collection of its kind Sgt. Metcalf said, the weapons are on display in a Mobile Museum now touring the nation, stopping briefly for public showing in major cities sustaining Marine Corps recruiting stations. Arrangements have been made with city officials in Lubbock to have the display located at Texas and Broadway, on Texas Avenue.

The "Mobile Museum" painted a Marine Corps red and yellow, contains nearly 100 of the Samurai weapons collected by the Fifth Marine Division on Kyushu, in the home islands of Japan. Sgt. Metcalf further announced that this exhibit stands for some of the finest steel in the world. The swords, especially, fashioned by craftsman who kept the steel formula a family secret down through the centuries, were as traditional in their manufacture as was the tradition that the families for whom they were forged should maintain eternal possession of them.

A Samurai, the exhibit shows, was no fool, he always carried a spare sword. The extra sword was a few inches shorter than his regular blade, but came in handy if the bigger model was broken in battle. It wasn't removed for either eating or sleeping.

Legend is woven around some of the pieces, as is the case of an expertly engraved hari-kari knife. Fashioned by Muramasa, legend has it that he possessed a particularly fiery and violent temper which was forged into his swords. This volcanic temper is supposed to have carried over into owners of the weapons and they were apt to fly into rages without cause and behead innocents to pass the time.

A Samurai nobleman once owned a matchlock rifle in the collection that is perhaps the oldest firearm in the group. First fired in 1740, it shows considerable skill in its construction, inlaid with swords and dragons—symbols of great power.

An early example of Japanese artillery is another featured item. The gun, dating back to Napoleon's

JAP MAP OF WORLD AT TECH MUSEUM

A Japanese map of the world and other Japanese articles were recently lent to the West Texas Museum on the Texas Technological College campus by Bill Thurman of Lubbock, former Tech student. The articles were obtained while Thurman was stationed in Nagasaki, the city of atomic bomb havoc.

The map shows Japan as the hub of the universe and all other countries are subordinated to the land of the Rising Sun.

A message in a bottle dropped into the Missouri River at Fort Denton, Montana was found on a beach near Recife, Brazil, 48 months and 12 days later.

A time, about 1820 was named by four men. It was fired by resting it on the knees of three of these heroes and loosed a ball weighing about one pound.

The exhibit also includes models of Japanese warships of the battleship, cruiser, submarine and carrier types.

**THIS WEEKS LESSON**

"Soul and Body" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientists, on Sunday May 26.

The Golden text is "Know ye not that ye are the temple of God, and that the spirit of God dwelleth in you?" (Corinthians 3:16).

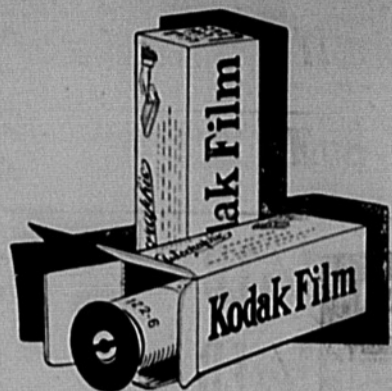

Among the citations which comprise the Lesson - Sermon is the following from the Bible: "We are confident, I say, and willing to be absent from the body, and to be present with the Lord." (Cor. 5:18)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with key to the Scriptures" by Mary Baker Eddy: "When you say, 'Man's body is material,' I say with Paul: Be willing rather to be absent from the body and to be present with the Lord" (page 216).

JUST TALK  
by  
A.M.J.

The following from the Canyon News seems a timely warning—  
Officials in every town of the Panhandle are worried about the flock of grafters who are working this section. Their rackets run all the way from selling advertising in useless publications, to putting out fans, song books, etc. As usual they always get some local organization to sponsor their project, and take one or more local people with them. When the project is finished everyone connected with it is ashamed that he had anything to do with the hold-up. The facts are simple: If any local organization feels the need for money to carry on its work, why does it not go directly to local people and ask them for donations? Why pay some outsider fifty per cent to accompany local people on their rounds of soliciting? It is the presence of these local people that puts over the deal. This is a job for the Chamber of Commerce. Let's have an advertising committee which will pass on such things. Cut out all grafters, and approve only such projects that show merit. Then comes the big test: IF LOCAL BUSINESS MEN WILL STICK TOGETHER AND NOT PATRONIZE THESE GRAFTERS THE RACKET WILL BE STOPPED. The newsman all ways calls for such a letter of recommendation from these solicitors. The grafter always smiles and says that he does not bother with such letters as local business men pay no attention to such recommendation anyway. That is a very, very bad recommendation for business men and shows a lack of faith in the judgement of local people who are trying to save them from grafters. Let's stick together, and keep the people of Canyon from being bled by these outside leeches. There will be a vast army of them coming through to garner in the millions of surplus dollars which are on deposit in every town of the nation.

If Preacher Kirk wants to know the names of some of those who are not very good Sunday School customers besides Horace Sanders and me I can give him a long list including A. E. Whitehead, who has very little to do and should be right up front in the class, he needs some work done on him too for gloating over other folks who are not as fortunate as he is.

Three pairs of shorts and two pairs of my pajamas gave way last week, one pair of pants developed a weakness at a vital point

and if such things continue, please do not get misled and think that an Indian raid is going to take place, it will be me in a blanket, and not sitting Bull I will be standing up.

Last week I saw Bug Guinn standing before a show window and I stopped and asked him what he was so interested in. "That Kodak, there," said Bug, "isn't it a dandy?"

"Why I didn't know you are interested in photography," I said.

"Yep," said Bug, "I take pictures of my dogs, got the walls of my room covered with them and thousands more stuck away in my desk."

"Is that all you take pictures of," I asked.

"Yeah, my wife takes a few pictures of the kids, but me, I take pictures of my dogs."

All of which proves that you never can tell by looking at a man what he might be interested in, I did not have any idea that Bug even has a dog, nor did I suspicion that he took pictures of anything.

Since I have been editing the Slatonite, if what I do could be classified as editing, I have received some odd letters, most of them unsigned, but the queerest one was one that came this week. It was post-marked from Dallas, had a three cent stamp on it and inside there was a blank piece of paper,

LAFF-A-DAY

My wife talks to herself, but she doesn't know it. She thinks I'm listening!

not a word on it either printed or written. There was one nice thing about the letter, it did not contain a dun like most of the letters I get from Dallas.

As much as we hate to admit it the Slatonite made two errors last week, and both about the ages of different people. One that has been here only a few days, the other about one who has been around longer than any one else on whom we have a record in Slaton.

Our first confession is about the date of the birth of Bruce Pember, Jr. We said he was born Monday May, 10, but his arrival was Monday May 13th. On the other end of the line we stated that Grandma Henderson, the oldest woman in Slaton would be entertained Mother's Day by friends. Mrs. Henderson was entertained royally but she is not the oldest woman in Slaton as Mrs. Marable, 93, mother of Mrs. J. F. Merrell is several years older than the age we gave as that of Mrs. Henderson. There may

be several whose ages are more than Mrs. Henderson's and so we bow our head in shame, we did make two mistakes and wish to correct them.

And now we get down to the strike situation. When I asked W. T. Cherry if he knew how it could all be settled, he said if he did he would not be here in Slaton, and since then I have quit worrying about the railroads, the coal miners and the paper mills and have put in my spare time on the weather. The weather is something that can be depended upon, it will never be just right and it is as far from being right at the present time as it could possibly be and therefore can be worried over with zeal and distress. Our apricot tree that had six apricots on it, let three of them drop off and my wife says it is because of the drouth one of my grape vines has given up the ghost, which has pleased my wife very much, because she hates the gnats that

eat up all the leaves as they appear and it looks like all the peaches are going to fall off our two peach trees, our sweet cherry tree produced two dyspeptic looking cherries and a bird pecked a hole in one of them, all the blooms have fallen off my two pecan trees, the leaves look as if they have been burned by a blow torch and the sweet corn I planted a month ago has not come up yet. I join with the farmers in a big gripe about the weather and with them say something should be done about it as well as about the strikes.

While there does not seem to be any great danger at the present time in this part of the country, from polio it is a good time to stop and check up on the sanitary condition of Slaton. Dr. Payne our City Health Physician, who has made it a point to make a close inspection of the alleys and premises of the town, says we need to clean up, especially some of the folks who are keeping cows, swine and poultry on their premises. There is always a definite danger from polio in the summer months and Dr. Payne says that whether there is a polio epidemic raging in other places or not that Slaton should be kept cleaner. In one town I believe it was Stamford, the merchants closed recently, one afternoon from 2:00 to 5:00 and devoted the time to cleaning up the premises of the business houses. This would be a profitable thing for any town to do, why not Slaton?

Surveys among newspaper readers indicate that not more than 11 per cent would like to have their newspapers without display advertising.

Howdy Folks: We read that the Republican Congressmen are formulating a positive, constructive legislative program.

Many folks were beginning to think that the GOP was becoming too old to dream.

In counting the wasted man hours don't overlook the time in reading political speeches.

A newspaper item says that the government prints and distributes speeches made by congressmen entirely at a loss.

It might be added that they are read the same way.

The second hardest thing in the world is writing a political speech, the hardest is reading it.

On the other hand, it's easy to get a good grease-job. Just let us do it for you.

## Side Lights From Washington

By George Mahon  
This is being airmailed from Washington Saturday afternoon, May 18th. An 8 cent stamp is required for this purpose today, but the odds are very heavy in favor of a 5 cent airmail rate within a few weeks. The House passed unanimously this week a bill establishing a 5 cent airmail rate—a program which some of us have favored since V-J Day. The 5 cent spread between the regular mail and the airmail rate has retarded airmail. There is little doubt but that the Government will make more revenue out of the 5 cent rate than the higher rate, on account of increased volume.  
The chances are that airmail will be expanded to the point where practically all first class mail except that which is local in character will go airmail. The

more mail that goes by air, the more our aviation industry is supported and the greater the backlog of experienced pilots in this Country.

At present we have a large number of airmen who have been discharged from the service and who would like each month to have a way to get in a little flying time in order not to lose their ability to pilot an airplane.

The Army has a lot of surplus planes and there are many available air fields. General Carl Spant, who took General Hap Arnold's place as head of the U. S. Army Air Forces, will be before our Military Appropriations Committee Monday to ask us to put through an appropriation of one billion two hundred million dollars for the Air Forces for the coming fiscal year. I am going to ask him to expedite the Army program for reserve pilots so that these discharged veterans under a well-supervised plan may have an opportunity to continue to fly. I would like to see a National Guard

Life in Old Buildings  
**REPLACING** old buildings that are worn out is one of the necessary and costly steps many farmers will have to take. Few farmers, however, can afford the luxury of discarding sound structures that can be repaired and remodeled economically.  
Improved remodeling techniques and modern building materials have made it possible to do wonders in restoring old buildings, both inside and out. The cost usually is much less than for a new structure.

One of the modern materials which has come into wide use in modernizing interiors of all types of farm service buildings is asbestos cement board. This material, made in 4 x 8 foot sheets, covers large areas rapidly and reduces the number of joints. It makes a permanent interior lining that is fire-proof, weather-proof and easy to clean, thus promoting safety, comfort and sanitation. Asbestos board is equally adapted for use as exterior siding in remodeling old farm buildings. It is proof against rats, termites, rot and rust and requires no painting or preservative treatment.  
Asbestos board is recommended for lining and re-siding dairy, hog and poultry structures, grain bins, garages, utility sheds and other buildings.

Unit in aviation established in West Texas.

The National Guard will have a bigger and better program in the future than it has ever had in the past. The Guard was a great factor in the victory which we won in the war and it will represent a larger reserve force for national defense in the future.

The Reserve Officers Training Corps in the school is due for expansion. Texas Tech is slated for a bigger ROTC program than ever before, which will include, if desired, when appropriate plans are completed an ROTC unit in aviation.

The military Appropriation Bill is scheduled to pass the House in June. Indications are now that the bill, for the first time in years, will include no money for the purchase of horses and mules. The General Staff of the Army has decided to abandon the horse cavalry.

The Army is asking for the 2000 horses and 1347 mules which it still has on hand in Continental U. S. The prize horses of the Army now are the horses that were captured in Germany and brought to the United States last October. These animals are valued at more than one million dollars, and the Army is besieged with offers of purchase.

We approved in the House of Representatives this week a \$75,000 fund to be used in the investigation of un-American activities by one of the Committees of the House. This is the committee of the House, supported by many patriotic organizations, which investigates and gives publicity to the un-American activities of individuals and groups within our Country. The measure was bitterly contested, but the final vote was 240 for and 81 against.

# THEY ARE IN MORTAL DANGER

*Because YOU May Not Be Keeping Your Premises Clean*

**Many diseases including the dread POLIO are caused by filth and poor sanitation...**

*Let's Not Let It Happen Here*

### HERE'S HOW

1. Control of Fly Breeding. PLACE ALL GARBAGE IN COVERED CONTAINERS, avoid throwing dish-water on the ground, patch broken screens, keep stock and chicken lots, scrupulously clean and at a reasonable distance from the home.

2. Proper disposal of human wastes. Sewer connection is safest. Toilet bowls should be kept clean and free of fouling. Privy vaults should be tight, and

the seats kept covered. In other types of privies the fecal matter should be covered with sand, ashes or lime to prevent flies, cockroaches or rats from coming in contact with any infectious material.

3. Protection of food supply by keeping food covered and inaccessible to Flies, Rats and Mice. Dishes should be washed in hot, soapy water, or sterilizer. Purchase no spoiled or contaminated food stuff for human consumption.

4. Control of rats and mice. Keep food away from rats. Place baited traps in run-ways, close up rat openings. Support community-wide rat poisoning campaigns.

5. Control of Mosquito Breeding. Examine premises closely for standing water in cans, bottles and other artificial containers. Destroy all mosquito-breeding places.

CHICK CHATS

CULL FLOCKS NOW TO SAVE ON FEED

Always necessary in successful poultry raising, culling your flock takes on added importance during the spring. At this time of the year, the farmer can go a long way toward keeping his summer feed cost within bounds by wise culling. Getting rid of the chicks which are lagging in development will save feed and give the poultry raiser an opportunity to produce a uniformly better flock by fall.

CULL NOW

An added reason for severe culling this spring is that while feed is scarce you can't afford to bother with lagging hens. For this same reason, it is a good idea to start examining your laying flock closely to find any hens that may be loafing. The laggards should be culled and sold.

Separate the cockerels from the pullets at this time also. Market all surplus cockerels just as soon as possible, keeping only those which appear to have the best breeding qualities. Usually, it is desirable to retain enough cockerels to maintain a proportion of one male to 15 females among your medium and heavy breeds. For Leghorns and other light breeds, keep only one rooster to 20 hens. This action will save you, besides reducing the number of cockerels to a number that will allow close care and encourage the development of better breeding stock.

KEEP BEST COCKERELS

In selecting the cockerels, keep birds that had long pin feathers in their wings at hatching time or tail feathers at 10 days of age. The flock owner should prepare for this by marking the promising cockerels early in life. Keep for later selection the largest cockerels at 8 to 12 weeks old. Hold on to those cockerels that are free of standard disqualifications and have no bodily deformities. Look for points on the sides of the comb and feathers on shanks, toes, and between the toes. Get rid of any with these disqualifications.

BE A NURSE!

Prepare now for a useful interesting profession. There are many opportunities open for registered nurses. Nurses have a scientific course of study along with actual practice at the bedside and in the special departments of the hospital. Various courses are given at Texas Technological College and at the hospital.

Nursing education may be obtained very reasonably. Room and board are free and other expenses are much less than those of a college student. Whether you choose a career in nursing, marriage, or both, your nursing will be of great value to you. If you are a high school graduate, seventeen to thirty-five years of age and in good health be sure to investigate a nursing career. The next class will start June 1, 1946. **HOW TO USE THE BIBLE.**  
 When in sorrow read John 14.  
 When men fall you, read Psalm 27.  
 When you have sinned, read Psalm 51.  
 When you worry, read Matthew 6:19-34.  
 Before church service, read Psalm 84.  
 When you are in danger, read Psalm 91.  
 When you have the blues, read Psalm 34.  
 When God seems far away, read Psalm 139.  
 When you are discouraged, read Isaiah 40.  
 If you want to be fruitful, read John 15.  
 When doubts come upon you, try John 7:17.  
 When you are lonely or fearful, read Psalm 23.  
 When you forget your blessings, read Psalm 103.  
 For Jesus' idea of a Christian, read Matthew 5.  
 For James' idea of religion, read James 1:19-27.  
 When your faith needs stirring, read Hebrews 11.  
 When you feel down and out, read Romans 8:31-39.  
 When you want courage for your task, read Joshua 1.  
 When the world seems bigger than God, read Psalm 90.  
 When you want rest and peace read Matthew 11:25-30.  
 When you want Christian assurance, read Romans 8:1-30.  
 For Paul's secret of happiness read Col. 3:12-17.  
 When you leave home for labor or travel, Psalm 121.  
 When you grow bitter or critical, read 1 Cor. 13.  
 When your prayers grow narrow or selfish, Psalm 67.  
 For Paul's idea of Christianity, read 2 Cor. 5:15-19.  
 For Paul's rule on how to get along with men, Rom. 12.  
 When you think of investments and returns, Mark 10:17-31.  
 For a great invitation and a great opportunity, Isaiah 55.  
 For Jesus prayer, Luke 11:1-13, Matt. 6:5-15.  
 For the prophet's picture of worship that counts, Isaiah 58:1-12.  
 For the prophet's idea of religion, Isaiah 1:10-18, Micah 6:6-8.  
 Why not follow Psalm 119:11 and hide some of these in your memory?  
 If you doubt the ultimate triumph of the gospel, read Rev. 7:9-17, Rev. 11:15.

## THE DREAMER

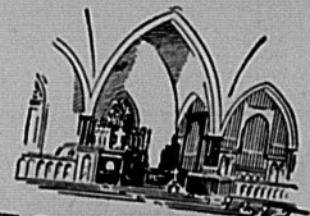

His sister is "growing up," ever becoming more "sensible." But he is still a dreamer . . . forever chewing on a blade of grass and thinking of happy tomorrows . . . forever staring into space to behold the man he wants to become.

The Bible tells of another dreamer—the youthful Joseph. He, too, had visions of great tomorrows . . . that's why his brothers sold him into slavery!

Older folks don't always understand the dreams of youth. Even loving parents sometimes stifle the visions that shine in the eyes of a growing boy. They don't realize that *dreams can come true.*

The dreams that are written in a boy's bright face are the seeds of great living. But to find root and to bring forth their harvest, they need moral and spiritual nourishment.

The Church understands your child's dreams! The Church's program of religious training aims to develop character, courage and faith. And these turn youthful dreamers into great men!

### THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the Church of his choice. They are: (1) For his own sake, (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to Church on Sunday.

*Looking Ahead*

**EARLY** in March, national press wires carried a story about 16 members of Congress who said they thought the national budget should and could be balanced. They made it plain by signing a written statement. They were half-and-half senators and representatives. Seven were democrats and nine were republicans. Their names:

- |            |             |
|------------|-------------|
| SENATE     | HOUSE       |
| Byrd       | Cox         |
| Bridges    | Doughton    |
| Taft       | Halleck     |
| Tydings    | Knutson     |
| Vandenberg | Martin      |
| Walsh      | Taber       |
| Wherry     | Whittington |
| White      | Woodruff    |

My hat is off to these realistic statesmen. I hope their ranks soon embrace the entire Congress.

**Huge** OUR next chance to have a balanced budget will be in the fiscal year of 1947. It starts next July 1, and ends June 30, 1947. The United States is already in debt for 280 billion dollars—everything it has. This does not mean all the country is worth, but it does mean everything the people of this nation have saved since 1776.

The United States today is like some pioneer settler of colonial days whose log cabin might have burned with everything of food and clothing inside. The energetic young head of a family of

four who has just finished paying for an \$8,000 home can depend on starting now to buy it all over again in taxes, paying no more than his rightful share.

**Fresh TAX** on this enormous Start debt of \$2,000 per man, woman and child, will be a new, yearly expense for our government. Interest on it will cost Uncle Sam more than he ever raised by taxes in any single year. If ever America's common people deserved a balanced budget so they could look frankly and boldly at the truth of debts and taxes, it is now.

There are ways to start balancing the national budget and the sooner it starts the better. The war is over and war bureaus can be reduced in size and cost. The number of federal employees can be cut more than most of us imagine. Spending what we do not have can be stopped also if we really set our heads to do it. By doing this we can save what we do have left.

With all savings gone, we have something left. The settler whose cabin burned had his energy and his good name left. The home owner who must start now buying all over again in taxes, still has his credit and a job we hope. Just so the United States, with prestige among nations and a sound economic system has something left; something of value that must be preserved.

## Plan Encampments for Woodmen Uniform Rank

Lt. Col. Edward Howell, All-American football star, former coach at Kansas State Teachers college, Louisiana State and Yale universities, and army athletic and military training officer during the war, has joined the Woodmen Society's staff to direct the activities of Woodcraft's semi-military Uniform Rank.

Five District Encampments, offering Uniform Rank members a week of healthful out-of-doors recreation, are being planned to be held this summer.

The Uniform Rank is one of many "Fraternity in Action" activities of the Woodmen Society that give members the opportunity to increase their circle of friends and to enjoy many pleasant social hours. These are "plus" benefits Woodmen receive with safe, sound, legal reserve Woodmen life insurance protection furnished them at cost.

Call the local Woodmen representative. Let him give you the facts about Woodmen insurance protection and fraternal benefits.
