THE OLYMPIC GAMES

The young athletes of all nations and both sexes who are competing at Los Angeles for world championships constitute, beyond doubt, the finest aggregation of physically perfect humanity that has ever been assembled at one time and place in the history of the world.

There is no question whatever that the modern athlete is far superior to those of ancient days. We often hear of the remarkable physical prowess of some of the primitive races, but in every contest where it has been possible to match an intelligent, trained athlete of the modern era against the best of the primitives the victory has fallen to the modern.

We venture the belief that the Olympic Games have done more than any other one influence to spread the gospel of physical training and outdoor sports throughout the civilized world. As we get older we realize that physical health is the most valuable asset the individual can have. Given sound health, and the controlling intelligence which enables its possessor to engage in physical sports, any young man or young woman need not worry about such immaterial things as riches. Youth does not always realize it, but all the money in the world is worth nothing to one who has not the health to enjoy the things it will buy.

Another great benefit, which is none the less real because it is intangible, is the spirit of international sportsmanship which the Olympic games engender. Let thousands of young folks of different nations, speaking different tongues, reared in differing environments and inculcated with different standards and ideals get together in friendly contest, they are sure to discover that there is not much difference, after all, between their respective peoples. And the more often they get together as good sportsmen, the sooner will come about the understandings which make for world peace.

CUT DOWN MILITARY EXPENDITURES

Every nation in the world, apparently, except France and Japan, is anxious to accept President Hoover's proposal to the Disarmament Conference that all countries shall reduce their offensive armaments by one third. Japan at the moment is under the control of the military party and its members do not like the idea of losing their jobs, while France, as usual, demands "security."

France is the most heavily armed nation in the world, and intends to remain so unless the rest of the world will guarantee that Germany will not make another attempt to gobble her up. We can hardly blame France for her fear of Germany, in view of the fact that the attempt has been made from across the Rhine twice in the memory of men still in their prime. But the French people are groaning under the weight of taxes for military purposes as much as the rest of the world. The proposal would not affect France's defensive fortifications and guns, and would lessen the strength of any attacking power.

To cut the French army to "police" size would release 550,000 men now under arms for useful productive labor, with corresponding saving to the taxpayers of France. Our own country's share in the estimated saving of \$15,000,000,000 for the whole world would be around four billion dollars. It would be much more for France, with its population less than half of ours.

We are hopeful though not overconfident, that out of the Disarmament Conference will come something tangible which will at once enable the world to reduce taxes and at the same time give better guarantees against another war than now exist. The most definite assurance of security that could be offered to France is the proposal made by Chancellor von Papen, of a military alliance between Germany and France. If that was made in good faith then it seems to us that the French, if they do not accept it,

will simply be proving what the Germans believe, that the aim of the French politicians is not security but conquest.

TWO MONTHS' WORK FOR NOTHING

How would the average citizen like to work 61 days without any pay whatever?

The answer is that he wouldn't like it at all. But that, in effect, is what he is doing. Sixty-one days' work out of each year is required to pay the cost of government. In 1924 it was 46 days, and in 1913 about 25 days.

The ratio is constantly rising. Carried to the inevitable conclusion, it means that in the not-too distant future, the taxpayers will be working for the tax eaters all the time, and for themselves not at all. Every time a new department comes into existence, no department comes into existence, a little more of the money we earn finds its way into the Treasury.

As President Hoover has said, to continue on the tax road we are traveling is to impoverish the nation. In the last 16 years the cost of government has increased nearly 150 per cent. The results are found in hoarding of capital, industrial retrenchment, unemployment. The tax issue, in all its phases, is one of the most important problems the American people have ever faced.

THE INDISPENSABLE FOODS

When the family budget must be curtailed, the amount of care exercised in buying foods must be increased.

Certain foods are essential to the health of both adults and children. Among these are cereals, citrus fruits, leafy vegetables, eggs and—most important of all—first-quality milk.

Milk in its various forms contributes more than half the total calcium consumed in the ordinary American diet. It is the greatest of the bone builders. According to health authorities, better health is often enjoyed by thin children who have been properly fed with milk and fruits, than by children of normal weight who over-indulge in filling and fattening foods. housewife should take every precaution to make sure that it comes from a responsible source of supply, and is of unquestioned purity.

Dr. M. C. Overton and wife spent the week-end with Slaton friends.

Black-Draught Clears Up Sluggish Feeling

"I have used Thedford's Black-Draught for constipation for a long time," writes Mrs. Frank Champion, of Wynne, Ark. "If I get up in the morning feeling dull and sluggish, a dose of Black-Draught taken three times a day will cause the feeling to pass away, and in a day or two I feel like a new person. After many years of use I would not exchange Black-Draught for any medicine."

P. S.—If you have children, give them the new, pleasant-tasting SYRUP of Thedford's Black-Draught.

LOCAL GOSSIP

Mr. and Mrs. H. L. Diamond are the parents of a son born July 21 named Billy Ray.

Mr. and Mrs. Allen Cameron Jephson of Pittsburgh Pa. have been visiting at the Wilmesmeier home here. Mrs. Jephson was formerly Miss Dorothy M. Wilmesmeier. Mr. Jephson is connected with the Mellon Institute of Research at Pittsburgh, he is an Australian Scientist and doing extensive Research work. After leaving Slaton they visited Alburguerque, Carlsbad Carven and El Paso. They are now enjoying a fishing and camping trip in New Mexico and will also visit at Batesville Ark. before returning to their home in Pittsburgh.

Mrs. W. P. Florence, who is president of the City-Line Home Economic Club was sent by her club to attend the Farmer's Short Course at College Station this week.

She left last Saturday night to be gone ten days and to come back by way of Galveston.

Mr. and Mrs. C. E. Tracy and family of Wellington Kansas, who were in Slaton on a two weeks visit with their daughter and son in law Mr. and Mrs. H. I. Purkey have returned home. They like Texas very much.

All members of the First Baptist Church who are interested in the calling of a Pastor please try to be present Sunday July 31st, as the church will be called into conference immediately following the Sunday School hour.

The afternoon of August 17th at 3 o'clock the City Line Dem. Club will entertain McClung Club in a social meeting all members are requested to be present.

Lee of Conshohocken tires and tubes. Tire accessories. Unique Gasoline. Moco Batteries. Phillips Service Station—Phone 397.

Harry Evans is visiting his sister, grandparents, and other relatives of Plainview. A few days.

Mr. and Mrs. H. L. Henderson and children of Justiceburg visited Mr. and Mrs. G. R. Evans and family Sunday.

Mrs. Fred Melton, is visiting her daughter, Mrs. Lee Bartlett, of Meadaw.

Claude Gentry of Shallowater, was in town on business Saturday.

Mrs. Henry Leininger, and daughter, Helen, were in town Sunday visiting friends.

Mrs. R. H. Gear and son Irwin, left Thursday for California to spend the rest of the summer.

Mrs. J. E. Bomar, of Oxnard, California, arrived Saturday for an extended visit with Mr. and Mrs. R. G. Shankle.

Mrs. Emma Wallace and granddaughter, Maxilene Cooper, left Tuesday to visit relatives in Trenton.

E. R. Legg left Tuesday for Trenton.

Just Received shipment Phillips Phillips Dry Cleaning Fluid. Dries in one-third time of ordinary cleaning fluid. At Phillips Petroleum Co. — Phone 397.

Mr. and Mrs. S. N. Gentry, of the Posey community, have a new baby girl, born Monday, July 19, whose

name is Eunice Laverne.

Mrs. Arthur Laurence, of Kaurence, Kansas, who has been visiting here with her sister, Mrs. Carl Lewis, and her mother, Mrs. W. R. Steckman, has returned home. She was accompanied by her mother.

Misses Audrea and Pauline Marriott left Thursday afternoon for Los Angeles and San Francisco California. They expect to be gone until the 15th of August.

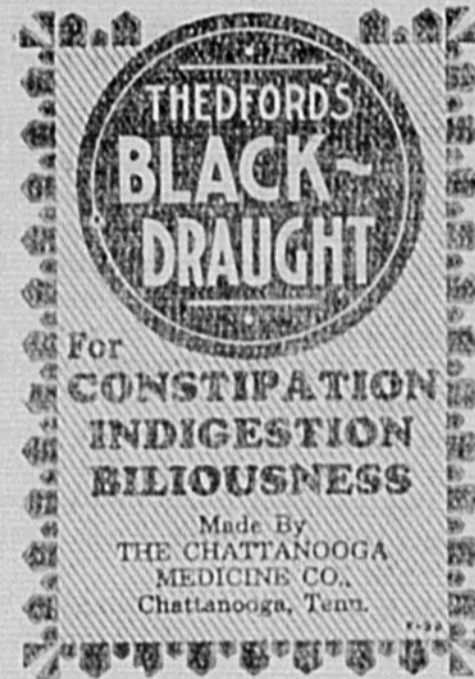

Two hundred and fifteen of the 253 Texas counties will be represented in the Agriculture Show at the 1932 State Fair of Texas, according to J. A. Moore, superintendent of Agriculture who has predicted a real reflection in his department of another crop in Texas this year.

Thanks

I sincerely thank the Voters and friends of Slaton and Community who made it possible for me to receive the largest vote for TAX ASSESSOR in the Primary election last Saturday. I earnestly solicit a continuance of your help, and also solicit the vote and influence of those whose friends were eliminated from the Run-Off Primary, August 27th, 1932.

Sincerely

W. H. Meador

Col Art Goebel, world famed flyer has been named one of the judges in the model airplane contest which is being conducted as one of the features of the Southwest Aviation Exhibit at the 1932 State Fair of Texas. Entries have been received in the contest from all parts of Texas. The contest is open to everyone—there being three classes—juniors, seniors and a free-for-all class.

THANKS

We wish to thank our loyal friends for their support in the Primary, July 23rd. You gave us a nice plurality for which you have our sincere thanks.

We appreciate the fair and courteous way our opponents conducted their campaigns, and earnestly solicit the vote and influence of the eliminated candidates and their friends in the Primary, August 27. If re-elected, we will do our best to give you a fair, honest, and economical administration of the County's business.

Tom Abel for Sheriff

To all his friends and supporters: Tom Abel will be in the run-off for Sherriff August 27th. In order to go over the top he needs the help of all his friends.

If you think Tom is the man for that job.

If you think his faithful service in Lubbock county as a peace officer entitles him to the job.

If you think he is honest and brave.

If you think he will make one of the best sheriffs Lubbock county has ever had.

If you think Lubbock county is entitled to the best peace-officer they can get.

Then give Tom a helping hand, and help him get over the top.

Join the "TOM ABEL" for Sheriff Club. Go to, or write, Mayor T. M. George's office, Slaton, Texas, and tell him you will help.

We need everybody's help. Railroad men, Merchants, Farmers, Men and Women, Boys and Girls all can help.

Join the "TOM ABEL" for sheriff Club

LOCAL NEWS

CLASS PICNIC
Mrs. C. E. Fike's Sunday school class enjoyed a picnic last Friday evening at the Cox ranch. Many games were played and there was a general spirit of good natured fun about the whole affair.

The high point of the evening's fun was reached with a typical Methodist picnic spread which included fried chicken and all the fixings. Those attending were: Rev. and Mrs. C. E. Fike, Mrs. Allen Ferrell, Misses Connor, Lorene McClurek, Maggie George, Jo Hestand, Mildred Johnson, Jewel Johnson, Inez Tunnell, Gertrude King, and Misses Sug Robertson, Howard Hoffman, Charles Fike, T. A. Worley, Wilbrun Dowell, Wray, Pat Henry, and Harry Tunnell.

CHURCH OF CHRIST REVIVAL
Beginning Sunday, July 31 and continuing through August 14, the Church of Christ in Slaton will conduct an open air Gospel meeting at eleventh and Division streets. Evangelist L. R. Wilson of Knoxville will do the preaching and Albert Smith, local minister will direct the song service. Brother Wilson needs little introduction to the people of Slaton as this is his third consecutive meeting here. The other meetings were very successful, and we hope to make this the best of the three.

The meeting will start Sunday with the local minister doing the preaching, and Brother Wilson will arrive in time to begin his part of the meeting Monday night. Services will be held at 10 A. M. and 8:15 P. M. each day. We cordially invite you to attend this meeting.

CHRISTIAN SCIENCE CHURCHES
"TRUTH" was the subject of the lesson-sermon in all Churches of Christ, Scientist, Sunday, July 24.

The golden text was from Isaiah 65:16. "He who blesseth himself in the earth shall bless himself in the God of truth; and he that sweareth the earth shall bless himself in the of truth."

Included in the passage read from the Bible was the following from Deuteronomy 32:4: "He is the Rock, his work is perfect; for all his ways are judgment: a God of truth and without iniquity, just and right is he."

The service also embraced citations from the Christian Science textbook, "Science and Health with Key to the Scripture," by Mary Baker Eddy; among which were the following from pages 297 and 272:
"A belief in Truth is better than a belief in error, but no mortal testimony on the divine rock . . . The spiritual sense of truth must be gained before Truth can be understood. This sense is assimilated only as we are honest, unselfish, loving, and meek."

The 12 best flocks of 4-H Club poultry in Texas this year will be entered in an egg laying contest at the 1932 State Fair of Texas. Records of all 4-H club poultry are now being made and from these the entries will be selected. The contest will last 16 days of the fair and huge baskets in the top of each pen will contain all of the eggs laid during the contest in full view of the public. Superintendent Walter Burton expects this to be one of the big features of the poultry show this year.

Mrs. G. E. Lockhart of Lubbock was the winner of the quilt given away by the City Line Dem Club Saturday afternoon.

She Reduced 38 Pounds The Safe Way

"I have been taking Kruschen Salts for 4 months and I think they are wonderful. I am 32 years old and 5ft. 2 in. tall. I was very fat. I weighed 165 lbs. and now I weigh 127 lbs. and feel fine. If I let up taking the Salts one morning I feel lazy and heavy," Mrs. Florence Loftus, Boston.

This is just one of hundreds of letters we get every month—Kruschen not only causes you to lose fat but which you are losing it you gain in health—in vivaciousness—you lose fat where fat is most prominent and at the same time keep stomach, liver, kidneys and bowels functioning naturally.

Any drugstore in the world will sell you a jar of Kruschen for a trifling sum—take one-half teaspoonful in a glass of hot water every morning—go light on fatty meats, potatoes and sweets. But for your health's sake demand and get Kruschen Salts—imitations are numerous. It's the little daily does that does it.

Culinary Jingles
by Virginia Gibson..

A clever, good cook, I don't know why, Once baked a concoction and called it a pie. She filled it with apple, she filled it with mince; We've thought of pie highly ever since!

THOUGH we did not originate the dish, Americans eat more pie than does any other nation. Pies are now as typically American as New England baked beans and southern biscuits and chicken.

Unfortunately, pies have been given a bad reputation, dietetically

speaking. Of course, we all admit that there are pies and pies. Those that are sad and gummy are at a disadvantage from the start, but those whose pastry is well-made are just packed full of nutrition and thoroughly digestible. That should be a comfort to those of us who like our pie and want it served frequently.

A large part of the trouble has been that pies have been considered as merely a finish to a meal, whereas they should be thought of as a hearty dish. If the main part of the meal has been light, a more

substantial pie, such as custard, butterscotch, or pumpkin is in order, but if the meat has been rich, the pie should belong to the lighter fruit class. The fruit pies are particularly valuable for their mineral contribution. Calcium, for example, is contributed by dried apricots, raisins and prunes which also carry added iron.

Speaking of adding minerals to the diet, it is well to remember that additional calcium and phosphorus are supplied if self-rising flour is used in making the pie-crust. This self-rising flour contains both of these minerals brought to it by the leavening which is put in at the mill. Naturally, such a flour will make it easier to make a delicate pastry which may be eaten in digestive safety by any individual who has a normal, full-grown digestive system.

The greatest troubles that pie-bakers experience seem to be that they use too much water and that they handle the dough too roughly. In using self-rising flour, one-fourth as much shortening as flour (by measure) is a good rule, with just enough cold water, added a little at a time, to make a ball that will clean the bowl of loose flour. In rolling out the pastry, roll from the center toward the edge in all directions, never back and forth after the fashion of wash-board scrubbing. Pastry shells are baked quickly in a hot oven, but two-crust pies are baked more slowly. Place them in a hot oven for just the first few minutes and then reduce the heat. A fruit pie will never run out unless the oven is hot enough to bring the juice to the boiling point, but if that boils nothing can make it stay where it belongs. Custard pies are always baked slowly, even at the beginning because egg and mixtures curdle if overheated.

WHERE GOOD EGGS GET WHAT THEY DESERVE

Every day hundreds of thousands of eggs are delivered by farm patrons to more than 100 Swift & Company produce plants over the United States. Producers are paid cash for all they offer.

In these plants all eggs are carefully graded and packed in cases. Only the best, in size and quality, are destined eventually to go into cartons and be sold under the Brookfield label. Others, perhaps not so large or so even in color, are sorted to get the highest price for their grades.

Under refrigeration and in carload lots Swift & Company ships the eggs to more than 400 branch houses, each the distributing center for a great population. Every retailer customer of every branch house is a possible customer for any eggs that arrive at a produce plant.

In these branch houses the best eggs are packed in cartons with the Brookfield label. Thousands of salesmen daily make their rounds, selling eggs, poultry and butter as they sell meat. That means economy in sales cost. Deliveries are so frequent the eggs reach the consumer in perfect condition just as they were when Swift & Company selected them.

With Swift & Company as a guide, every egg has the chance to make the most of itself. Demand is dug up by the sales force and fostered by product advertising. Costs of service are as low as long experience and great volume can make them. Profits are low—over a period of years our profits from all sources have averaged only a fraction of a cent per pound.

Chamber of Commerce News

By A. J. PAYNE, Secretary

At a meeting of the Directors of the Board of City Development and Chamber of Commerce, it was voted that Slaton be placed in the beautification contest of the West Texas Chamber of Commerce. PURPOSE: The purpose of the contest shall be to promote the beautification of the West Texas landscape and appearance of West Texas Communities by stimulating competition between the Cities in beautification and clean-up activities. The contest shall be for a period of five years, but separate awards shall be made at each annual convention of the West Texas Chamber of Commerce for the best showing during the year ending with the convention.

And while we are on this beautification subject, we would ask that you not forget to look after the yards from front to rear, including the alley, or your half of the alley as our judges are out this week, and you do not know who, or what yard they are to judge, it will depend on the appearance to start with whether they stop and look at your place or not.

At a meeting of the committee of the United Charities, it was decided not to have a 42 party next Tuesday night on account of the protracted meeting going on at the First Christian Church and it was further decided there would be no more 42 parties till Sept.

Mr. E. E. Wilson was in this week and told me to tell any one who wanted to do the work on canning, that he had the work and all vegetables to can, and would furnish all vegetables and half of the cans to those who would do the work.

On account of the protracted meetings now going on in the Communities visited by the Slaton Good Will Trippers, it has been decided that the Good Will Trips be postponed till later in the season.

The auditing committee, that audited the books of the Chamber of Commerce, Board of City Development, Texas Panhandle Plains Poultry Association, handed in their report to the Directors, which was accepted and committee discharged, and reports follow below.

AN EXTRA SLICE OF BREAD ADVISED

Did you know, that if fifty per cent of the American people would eat one more slice of Bread at each meal, it would mean an increased consumption of 90,000,000 bushels of wheat a year and the use of 45,000,000 cotton sacks. Wouldn't that mean something to the farmer, as well as the rest of the business.

Eat more of the health-giving products of wheat, such as white bread, whole wheat and Rye bread. It will help make business better all down the line.

SLATON BAKING COMPANY

Only the NEW NuGRAPE Has Their Delicious Flavor

You'll admit there is a goodness in the flavor of grapes—and that's why the New NuGrape is different from all artificial flavors—different as gold and brass.

In a certain valley, made rich and productive by reason of the moisture, in season, from surrounding hills—a famous brand of grapes is raised. The vineyards are renowned for the rich, wine-like flavor of the great purple clusters of fruit. And it has been our obligation to YOU, to transport that natural delicacy of flavor—to your home—to places where soft drinks are sold.

The New NuGrape — made exclusively with Welch's Grape Juice — costs no more than any artificial grape substitute. It's now on sale everywhere for 5¢.
