

## Elevator Will Mix Dairy Feed; Machinery on Way

As soon as necessary machinery arrives and is installed, the Terminal Grain & Heads Handling Company here will begin mixing dairy feeds for the markets, Sam E. Staggs, of that firm stated yesterday.

Three different kinds of feeds will be mixed and sacked, Staggs said. They are "Big Boy," "Cow Bell" and "Cow Jazz". The firm hopes to begin putting these feeds on the markets by early in April.

## Grain and Bundle Feed Shipped Out In Large Volume

According to grain and feed men here, 190 cars of grain and bundle feed were shipped from Slaton to other markets in the six months' period between September, 1928, and February, 1929.

The marketing of this volume of surplus grain and feed was made possible by a fine crop last season which largely offset a shorter yield of cotton than is usually produced in this section. At the same time, farmers were able to keep sufficient quantities of feedstuff to meet their own needs.

## Hood & Strasser Will Open Lumber Yard Here Soon

Announcement has been made that a lumber yard will soon be opened here by John W. Hood and Ed Strasser, the firm name to be Hood & Strasser.

The firm will carry a complete stock of lumber and other building materials, as well as paints, varnishes, etc., Mr. Hood stated to a Slatonite representative early Thursday.

Location of the new yard will be just across the highway west of Slaton Motor Company, where the Alfalfa Lumber Company once had a yard, Mr. Hood stated. Offices will be maintained at the corner of Lynn and Ninth Streets, in the building now occupied by S. C. Marrs, grain dealer.

Both Messrs. Hood and Strasser are old-timers in Slaton, and need no introduction to residents of this section. They are both experienced lumbermen, having been connected with lumber yards in Slaton for a number of years.

The new yard will open as soon as necessary buildings are completed and stocks received, the owners stated. This is expected within the next few weeks.

## Mrs. J. S. Lanham Again Leads at S. S.

Attendance at Sunday school last Sunday of pupils of Slaton public schools is reported by percentage of enrollment by Supt. C. L. Sone, as follows:

- High school, 48 percent, Mrs. Pevehouse leading with 62 percent.
  - Junior High, 50 percent, Mrs. Lanham leading with 84 percent.
  - West Ward, 52 percent, Mrs. Tomlinson leading with 77 percent.
  - East Ward, 50 percent, Mrs. Pickens leading with 66 percent.
- Mrs. Lanham has again set a new record of 84 percent. Mrs. Tomlinson has 77 percent. Who will beat these next week?

## MINISTER, OF TOPEKA, TO VISIT HERE APR. 7

The First Christian Church, of Slaton, has invited Rev. A. E. Hottell, of Topeka, Kans., to visit Slaton relative to locating here as their pastor. Rev. Hottell comes well recommended, it was said, and has had several years of experience as evangelist and pastor.

All members of the local church are urged to be present at both services on April 7, for a great day in the Master's work.—Contributed.

NEXT SUNDAY, MARCH 31, IS EASTER SUNDAY. DO NOT FORGET TO ATTEND SOME CHURCH. LET CHRIST RESURRECT IN YOU A NEW LIFE.

## Hog Shipments Prove Value to Slaton Farmers

With the shipment this week to the Fort Worth markets of three cars of hogs, bought from farmers near Slaton, a total of seventeen carloads will have been shipped by W. A. Robertson, local buyer, since the middle of December.

The receipts for these shipments will average around \$1,200 per car, Robertson stated Wednesday to a Slatonite representative. Hence several thousand dollars have come to Slaton farmers during the winter months through this one buyer.

## Rotarians and Rotary-Anns to Meet at Banquet

A ladies' night program, with wives and sweethearts of Slaton Rotarians as guests, will be held by the Slaton Rotary Club at the Slaton Club House on Friday night of this week. A program and banquet will be enjoyed by the group. Claude F. Anderson and Floyd C. Rector are in charge of arrangements.

The club has such meetings twice each year, and they always prove to be enjoyable affairs, club members declare.

## The Banquet is Scheduled to Start Friday Night at 7:30 o'clock.

Delegates to Ranger Meeting Return Home

Walter E. Olive, John W. Hood and Lloyd A. Wilson returned to their homes here Saturday after attending the 41st district convention of Rotary International, at Ranger, on Thursday and Friday of last week. The men went as delegates from the Slaton Rotary Club, and report the convention to have been well attended and full of interesting features during the entire two days.

R. Bernard Bryant, of Stamford, was chosen as district governor before the convention adjourned. He will succeed Rue P. Parcells, of Amarillo, who has served the Rotary group in that capacity during the past year.

The next meeting-place of the district convention will be selected this summer at a gathering of presidents and secretaries of the 59 clubs of the district. Temple, Quanah, Plainview and Mineral Wells put in their bids for the session.

## MINSTREL CROWD SMALL; PROGRAM PRONOUNCED GOOD

Although the crowd was smaller than had been looked forward to, the negro minstrel and musical review, presented at the high school auditorium here last Friday night by Allen Bros. Post, American Legion, of Lubbock, was heartily enjoyed by those attending. The entire program was made up of comedy and music.

Slaton high school orchestra furnished music for the audience before the minstrel began.

## REV. G. W. DAVIS, OF PLAINVIEW TO SPEAK HERE

The Rev. G. W. Davis, of Plainview will speak Sunday, March 31st, at both morning and evening services at the First Christian church. A cordial welcome has been extended to all to hear him.

Born to Mr. and Mrs. Carl Wallace, of Electra, Texas, Tuesday, March 26, a girl, Mrs. Wallace was formerly Miss Edmonia Lovett, of Slaton. She was valedictorian of the graduating class of Slaton high school in 1925.

## Heavy Rains Fall On South Plains; Farms Benefitted

Extending over a period of several hours, from noon Tuesday until late Wednesday, considerable moisture was added to the soil of the South Plains section, almost an inch and a half falling in Slaton, according to G. H. Orr, local observer, who states his gauge measured exactly one and fifteen thirty-seconds of an inch. The rain fell slowly most of the time, hence the soil got the benefit, and it is believed a thorough season is now in the ground, giving farmers splendid opportunity to begin their 1929 crops.

## Driveways, Walks Are Being Laid at New Fire Station

Work of laying concrete driveways from the pavement to the main doors of Slaton's fire station and municipal building was begun early this week under direction of E. Barton, city water superintendent.

Sidewalks along the sides of the building will be laid, also, Barton stated. This work will be along Eighth St. and Panhandle Avenue.

With the completion of this work, the new municipal building and fire station will be entirely complete, city officials said, with the exception of the planting of grass and flowers around the building. This will be done, they declared, as the proper seasons approach.

## Close-Out Sale at Men's Store Starts Saturday Morning

Beginning Saturday morning, March 30, at nine o'clock, the Men's Store, of which M. W. Uzzell is proprietor, will conduct a close-out sale, according to A. L. Chase, of Kansas City, who is here this week in charge of arranging the stocks and marking down the merchandise.

Mr. Uzzell stated that the greatest values ever offered men in and near Slaton in the way of wearing apparel will be seen at his store when the doors are opened Saturday.

Large circulars, advertising the event, have been distributed throughout the Slaton trade territory.

E. L. Hicks is back on the job as manager of the Progressive Hatchery, after suffering for several days with rheumatism.

## Largest Airplane To Visit Slaton; Carries Sixteen

Landing near Slaton at 9:00 o'clock next Tuesday morning, April 2, a mammoth Ford tri-motored cabin airplane, will spend the day near this city, it was announced early this week by P. G. Stokes, local Ford dealer.

The plane, one of the largest manufactured, is equipped with three separate motors, each power unit being entirely separate from the others, thereby adding safety to the ship, it was explained by W. C. Hardin, business manager of the Kenyon Transportation Co., of Minneapolis, who has been here in conference with Mr. Stokes. Mr. Hardin stated that in the event either of the motors failed to function, which is entirely unlikely, the plane would continue to safely navigate.

This mammoth craft of the air, which is the first of its class to visit Slaton, is all steel, advance information state. It weighs 10,000 pounds, and has a wing spread of 76 feet.

Mr. Stokes said that while the plane is here Tuesday it will carry passengers, numbering each trip from ten to sixteen, and as a main feature of the day, a parachute jump will be made from its cabin from an altitude of three thousand feet.

It is believed that a large crowd will be in Slaton on that day to see, and ride in, this huge airship.

## Hood Gets Nice Gift From Firm He Once Served

J. E. Hill, general manager of the Panhandle Lumber Company, with headquarters at Amarillo, was in Slaton last week in a conference with J. W. Hood, former manager of the company's yard here.

As a pleasing surprise to Mr. Hood, he was presented with a very nice, 21-jewel, gold watch, in the back of which is engraved a message to him, stating that it is a token of appreciation of his services to the company. It was a gift direct from the Panhandle Lumber Company to Mr. Hood, who served the firm here for fourteen years, having resigned his position a few weeks ago.

A. J. Payne, who has been in Ft. Lauderdale, Fla., for several weeks, recovering from an attack of rheumatism, expects to return to Slaton Sunday. While in Florida, Mr. Payne visited with his daughter, Mrs. P. V. Burns, and family.

## POLITICAL BEES ARE BUZZING. GUESS WHO GETS THE HONEY.

List of candidates for whom petitions have been filed.

- Mayor: W. G. REESE, F. C. RECTOR.
- Commissioner, 1st Ward: T. M. GEORGE.
- Commissioner, 2nd Ward: J. H. BREWER, W. E. SMART.
- Commissioner 3rd Ward: F. B. TUDOR.
- Commissioner 4th Ward: E. N. PICKENS, J. B. LOWRIE.
- Today, Friday, is the last day for filing.

## Committees for Year Chosen by Slaton C. of C.

Twelve standing committees, to serve through the coming year, were chosen Tuesday night by the Slaton Chamber of Commerce when the board of directors held the regular semi-monthly meeting at the offices of the organization in the city hall.

The personnel of the committees was recommended by a committee on committees, composed of W. H. Smith, Dr. W. E. Payne and T. A. Worley, Jr. After the committee's report was received, it was unanimously adopted and the three special committeemen were discharged.

The list of the twelve committees as appointed follows:

- Executive—T. A. Worley, Jr., chairman; J. W. Hood, J. A. Elliott, O. Z. Ball and Dr. W. E. Payne.
- Agriculture—Horace Hawkins, chairman; W. P. Florence, T. R. Cobb, E. R. Legg and S. C. Marrs.
- Highways—J. H. Brewer, chairman; J. T. Pinkston, P. G. Stokes, J. T. Overby and R. A. Baldwin.
- Public Relations—W. H. Smith, chairman; C. F. Anderson and G. J. Catching.
- Transportation—Dr. W. E. Payne, chairman; S. E. Staggs, L. R. Cypert, K. L. Scudder and H. G. Sanders.
- Industrial—J. W. Hood, chairman; W. B. Hestand, C. A. Porter, R. H. Tudor and F. C. Rector.
- Finance—Carl W. George, chairman; J. H. Brewer and T. E. Roderick.
- Membership—M. W. Uzzell, chairman; J. H. Brewer, T. A. Worley, Jr., Dr. W. E. Payne and A. J. Payne.
- Publicity—T. E. Roderick, chairman; C. E. Hicks and H. H. Edmondson.
- Civic—H. S. Riggs and George G. Green, joint-chairmen; C. L. Sone, F. C. Jackson and H. C. Burrus.
- Entertainment—J. A. Elliott and A. J. Payne, joint-chairmen; A. Kessel, Ben Mansker and George Marriot.
- Solicitors—R. P. Burks and O. Z. Ball, joint-chairmen; and Jess Swint.

This is the committee that decides on the merit of propositions offered by transient solicitors of all classes, having as its purpose the protection of business men against "fake" schemes of any and all descriptions. Cards are furnished members of the Chamber of Commerce which notify the solicitor that he must have endorsement of the organization before his proposition will be considered. Unless he shows genuine endorsement of the organization, he should be given no consideration whatever, unless it is the desire of the business man to back his own judgment without making investigation, it is announced by Chamber of Commerce officials.

These twelve committees are headed by chairmen from the membership of the board of directors of the Slaton Chamber, and give a splendid committee organization to carry on the various phases of work to be done. Special committees may be appointed as needed, it is pointed out by Horace Hawkins, president of the body.

Several Slaton High School students are expected to compete in a local contest on April 10 when a "My Home Town" speaker will be selected to represent Slaton at the district convention of the West Texas Chamber of Commerce, at Tahoka on April 24, and also at the West Texas Chamber's annual convention in El Paso, May 13, 14 and 15.

Superintendent C. L. Sone and faculty members of Slaton High School will assist the Slaton Chamber in arranging the local contest, which will be judged by the publicity committee of the Slaton Chamber, composed of T. E. Roderick, C. E. Hicks and H. H. Edmondson.

## "My Home Town" Speaker to be Selected Soon

The speaker to be selected will be sent to Tahoka and to El Paso by the local Chamber of Commerce, announced. In both conventions "My Home Town" will be the valuable prizes are being speakers.

Several Slaton High School students are expected to compete in a local contest on April 10 when a "My Home Town" speaker will be selected to represent Slaton at the district convention of the West Texas Chamber of Commerce, at Tahoka on April 24, and also at the West Texas Chamber's annual convention in El Paso, May 13, 14 and 15.

**CUT WORMS EASILY CONTROLLED**

COLLEGE STATION.—Cutworms do not seem to be generally prevalent this season, but where they are damaging gardens and crops by cutting off the plants, poisoned bran mash will very effectively control them. This is made up of 20 pounds bran, one pound Paris Green, two quarts cane molasses, and six lemons, using both juice and rind which has been previously run through a meat grinder. The ingredients should be mixed with enough water to make a mash that is thoroughly moist but not sloppy. R. R. Reppert, Entomologist in the Extension Service, suggests that hill crops may be protected by placing one-fourth of a teaspoonful at the base of each hill, and row crops by sprinkling the mash along in a thin line at the base of the plants.

**ELECTION ORDER.**

Be it ordained by the Board of Trustees of Slaton Independent School District, that an election be held at City Hall, in the Town of Slaton, in said Slaton Independent School District on the 6 day of April, 1929, for the purpose of electing three (3) School Trustees for said Slaton Independent School District.

W. T. Brown is hereby appointed manager of said election, and he shall select two judges and two clerks to assist him in holding the same, and said election shall be held in the same manner prescribed by law for holding other elections.

The return of said election shall be made to the Board of Trustees of said Independent School District in accordance with law.

A copy of this order signed by the president and attested by the secretary of this Board shall serve as proper notice of said election, and the president shall cause notice of said election to be given in accordance with law.

In Testimony Whereof, witness the signatures of the President and Secretary of said Slaton Independent School District and the seal thereof hereunto affixed, this the 14 day of March, 1929.

S. A. PEAVY, President.  
Slaton Independent School District.  
Attest: M. W. UZZELL,  
(SEAL) Secretary. 58-3c

**Trust Fund Interest Ready to Loan To Students Soon**

LUBBOCK, Texas.—Interest from the permanent trust fund of \$20,000 bequeathed to Texas Technological College as a student loan fund by the late George T. Morrow of Lubbock will become available for loans to students September 1, 1929, according to President Paul W. Horn. The president, business manager, and registrar of the institution were named in the will as the administrators of the fund. The interest only will be available for student loans.

**AND IF THEY WERE STRAIGHTENED OUT?**

Two hundred and forty thousand pretzels a day mean about 74 million a year, and this allowing two inches for each pretzel, means a shoulder-to-shoulder line more than 2,335 miles long.

This is the army of pretzels now being turned out by a pair of gas-fired ovens recently installed in a mid-western bakery, believed to be the largest of its kind.

Twenty barrels of flour daily are mixed, rolled, cut, folded into shape

and carried on racks to the gas ovens. There they travel through a baking space of seven feet, emerging uniformly baked. They then go to a gas-heated drying room, in which the heat is automatically kept at 250 degrees Fahrenheit. This final treatment produces the crispness desired.

The substitution of gas for coal, says a report of the new plant, has not only doubled the capacity of the ovens, but has made possible a better product by reason of automatically-controlled heat.

**FARMERS' SHORT COURSE DATES ARE SET**

COLLEGE STATION.—The 20th Annual Farmers' Short Course at Texas A. and M. College will be held this year July 29th to August 3rd according to an announcement by H. H. Williamson, vice-director and state agent in the Extension Service. Plans for this educational event are already being formulated in anticipation of a crowd similar to that of last summer when about 5000 farm people gathered from every section of Texas.

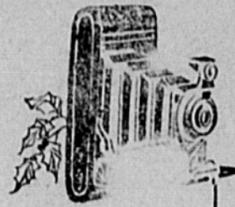

Instruction will be given this year in practically every phase of agriculture and home making, including field crops, horticulture, dairying, poultry raising, livestock production, insect

and disease control, clothing construction and home improvement. Special programs will be arranged for boys and girls, of whom 1700 attended last year for instruction and to compete in state judging contests. Local delegations will be accompanied to the short course this year by their coun-

ty and home demonstration agents as usual. Stamford.—Manager Homer D. Wade, of the West Texas Chamber of Commerce, has advised J. M. Del Curto, state entomologist, of the interest of the regional organization in the

adjustment of the fumigation expense incurred under the legal order of the state and federal department of agriculture. This followed a conference of one of his departments with Mr. Von Roeder, of the Pink Boll worm Commission.

**YES, WE LOAN**

—and don't forget to take a Kodak with you on your Easter Outing.

While dressed up for Easter, have a portrait made. Remember, Mother's Day is not far off, and mother will appreciate a good picture of you.

**FREE!**

To the person taking the best kodak picture of the Ford tri-motored plane, which will be here next Tuesday, we will give, free, an enlargement 8x10, in frame.

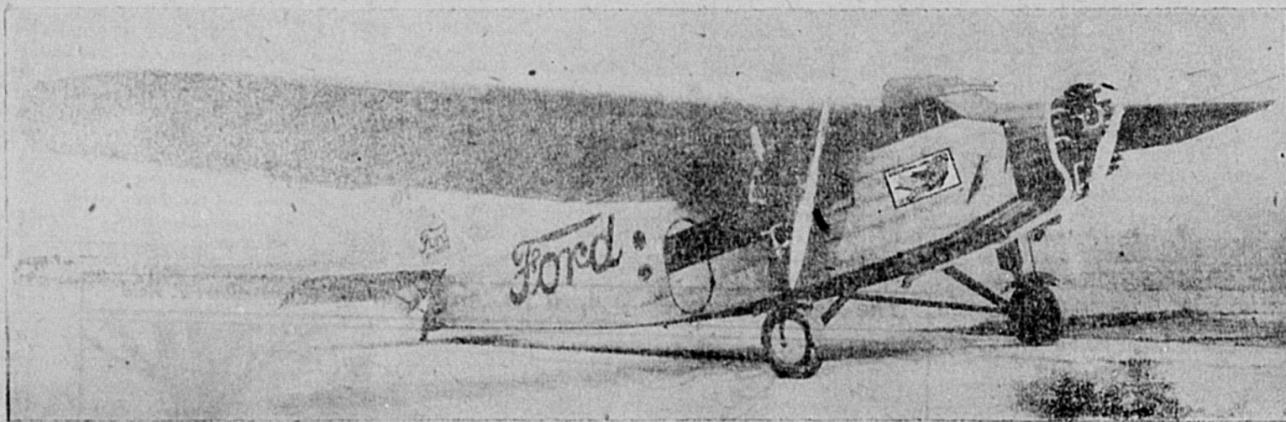

**MANIRE STUDIO**

**Paper Cement Bags Scored as Blow to Southern Planters**

COLUMBIA, South Carolina.—In difference on the part of the Mississippi River Commission to the welfare of the southern cotton planter was charged today by Wade Stockhouse of Dillon, South Carolina, widely known in cotton circles.

Mr. Stockhouse said that he had just discovered that the Commission which is empowered by Congress to carry on flood control work at public expense is using imported paper bags in place of American grown cotton sacks for transporting cement for use in building levees, construction of revetments, spillways and other projects under its jurisdiction.

"The prosperity of the South depends largely on the continued and growing use of cotton," said Mr. Stockhouse. "We have serious com-

petition to fight abroad, without being compelled to protect ourself against wasteful competition at home. Instead of helping foster the south's prosperity by requiring that all its cement be shipped in cotton bags of American manufacture, the commission is helping to increase the prosperity of the foreign paper makers by specifying paper sacks. When you build up the paper industry you build up the Canadian and Norwegian pine industry and pull down the American cotton industry.

"The Mississippi River commission might well take to heart what happened here in South Carolina where it was found that the State highway commission was using cement in paper sacks for building the state's roads. The indignation of the South Carolina people soon remedied that state of affairs, causing the commissioners to decide that only cotton bags be used for the shipment of cement for construction of roads in that state.

If many of us should take the trouble to let the members of the Commission and Congress hear just how we all feel on this question of cotton sacks the practice of specifying imported paper bags on jobs that the public pays for would soon cease."

Touching on the relative cost of cotton and paper containers, Mr. Stockhouse said that the public would be ahead on the Commission's work if cotton bags were used in place of the bags now specified. To prove his point, he cited the case of New York State which saved over one million dollars by using cotton sacks exclusively for transporting the cement for the Catskill Water Works, a project which cost more than the Panama Canal. This saving was made possible, he said, because paper bags are good for a single trip only, while the average life of a cotton cement sack is eight trips.

**CITATION BY PUBLICATION.**

THE STATE OF TEXAS, To the Sheriff or any Constable of Lubbock County, Greeting:

YOU ARE HEREBY COMMANDED to summon W. J. Thomas by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the 99th Judicial District Court of Lubbock County, to be held at the Court House thereof, in Lubbock, Texas, on the second Monday in April, A. D. 1929, the same being the 8th day of April, A. D. 1929, then and there to answer a petition filed in said Court on the 7th day of March, A. D. 1929, in a suit, numbered on the docket of said Court as No. 3618, wherein Mrs. Ida Thomas is Plaintiff, and W. J. Thomas is Defendant, and said petition alleging Suit is for divorce on the grounds of cruelty and non-support; plaintiff asks for custody and control of minor child, a girl, Valerie Doralee Thomas, now about two and one-half years old; also for title and possession of Lots 9 and 10 in Block 41 of the Original Town of Slaton, Lubbock County, Texas.

Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and the Seal of said Court, at office in Lubbock, Texas, this 7th day of March, A. D. 1929.

FLORA GREEN ATCHESON, Clerk, District Court, Lubbock County. 56-4tc

**HOME MADE FURNITURE POLISH DEvised**

DONNA.—An economical method for making a very satisfactory lemon oil furniture polish has been out by Mrs. George W. Vaughn, a home demonstration club woman who lives here. "I take olive or sweet oil and put in as many lemon peels as it will cover," she says, "using fresh peel with lots of oil in it. I let this stand for perhaps a week and then strain out the peel and the oil is ready for use. For new furniture the oil should be applied and then allowed to stand for about an hour before polishing, but for old furniture it is best to let it stand for several hours. This oil gives an excellent polish which doesn't come off in a day or two but is good for several weeks with just a little rubbing and polishing."

Suitor—Sir, I have an attachment for your daughter.  
Her Father—Young man, when my daughter needs accessories, I'll buy them for her.—Montreal Star.

**PAINS**

In Side and Back

"I HAD BEEN miserable for a long time. My health was poor, and I suffered a lot from weakness. At times, my strength was so little that I could not stand on my feet. I would have to give up and go to bed. My sides and back hurt dreadfully.

"I grew discouraged, for I could do so little. I worried about myself, and almost gave up hope of ever being strong and well. I could scarcely lift a bucket of water. My house work went undone, for I was not strong enough to do it.

"After I had taken Cardui for a little while, I began to feel better. I grew stronger, soon found that I could do my work with less effort, and the pains in my back and sides left me. I think Cardui is a wonderful medicine. My health has been excellent since then."—Mrs. D. L. Beckner, W. Main St., Salem, Va.

**CARDUI**

**WILLYS OPTIMISTIC ON RETURN FROM PACIFIC COAST**

TOLEDO, Ohio.—John N. Willys, president of the Willys-Overland Company, on his return here from California, where he spent a month on business, declared that never before in the entire history of the company has it faced such a healthy business condition as exists at present.

Mr. Willys was enthusiastic over the reception accorded the new lines of Whippet fours and sixes and Willys-Knight sixes, both on the part of the dealer organization and the buying public.

"Our new lines," he said, "are by far the most popular ever introduced by us. This is reflected in the record shipments of 64,818 cars in January and February which are more than double the shipments in the same two months of last year.

"We are now employing 22,000 workers at our Toledo plant which of course means a great daily output of both Whippets and Willys-Knights."

Mr. Willys said that in the past five weeks he has called on scores of Willys-Overland dealers and declared that the sales volume of the company's new products more than justifies the plans for 1929 which call for the greatest production of motor cars in the history of the company.

Commenting on the progress of the new Willys-Overland assembly plant which was recently opened in Los Angeles, he said that production already is well over 70 cars a day and that April car building schedules in the coast plant will reach 120 cars daily.

"Business in California in February was three times greater than it ever has been before," he said. "I look for a still greater increase in that territory because of the operation of our plant there.

"We have made the necessary expansion at our Toledo plant and have developed a line of cars that places us in the most strategic position we have ever occupied, and are concentrating on the further expansion of our sales and distributing organization."

He said that during the next six weeks he would set out on an extended trip which will take him to all sections of the country in order that he may get a close-up view.

**Some Food, Please.**

Dietitian—For your case I shall prescribe lettuce leaves without oil and a glass of orange juice.

Mrs. Overweight—And do I take this before or after meals?—Capper's Weekly.

**GAS INDUSTRY CAN NOT STAND STILL**

That former sectional problems of the gas industry have become national and that scientific research and production form the key to success in gas production and distribution, was pointed out at the recent midwinter conference of the American Gas Association, held in Los Angeles. The gas industry in the United States today represents an investment of some \$4,500,000,000.

"The gas industry cannot stand still," H. C. Abell, Vice-President of the Electric Bond and Share Company, told the Association. "It must progress through research to keep pace and bring the greatest benefits to those who use its services and to itself.

"Research activities of the gas association include, besides those of a very technical nature, such problems as scientific management, education, correlation of all branches of the vari-

ous activities in the industry, and public relations."

**Nothing Except Laziness.**

Policeman: "How did you come to get that jar of honey?"

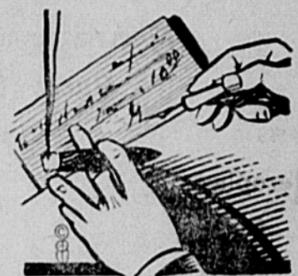

Tramp: "Well, I admit I don't keep no bees; but what's to stop a fellow squeezing it out of the flowers himself?"—London Humorist.

**Doctors Disagree**

When children are irritable and peevish, grind their teeth and sleep restlessly, have digestive pains and disturbances, lack of appetite, and have itching eyes, nose and fingers, doctors will not always agree that they are suffering from worms. Many mothers, too, will not believe that their carefully brought up children can have worms. The fact remains that these symptoms will yield, in a great majority of cases, to a few doses of White's Cream Vermifuge, the sure expellant of round and pin worms. If your child has any of these symptoms, try this harmless, old fashioned remedy, which can get at 35c per bottle from

City Drug Store.

**A Wise Idea -- Pay It By Check!**

It's convenient. Safe. For, a check halts needless expenditures, prevents money losses through paying bills twice or making the wrong change and saves you much valuable time!

Every modern business man has a Checking Account. How about you?

**DO YOU KNOW WHAT YOU'RE GETTING when you buy OIL?**

CARELESSNESS is a very expensive habit—especially when it is associated with motor car lubrication.

Unless you insist upon a reputable brand of oil—and are sure that you get it—you are certainly heading your car for the scrap heap by the shortest possible route.

You know what you are getting when you stick to the unsurpassed brands marketed by the Continental Oil Company. These are oils which have passed every test. They have a reputation to maintain—and they do it by providing a thorough lubricating job under all conditions of motor operation.

Look for the signs shown below—at service stations and garages.

**CONTINENTAL OIL COMPANY**

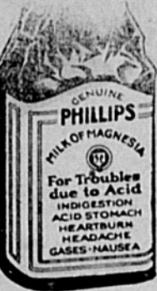

Producers, Refiners and Marketers

of high grade petroleum products in Arizona, Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming.

Conoco Amalie is 100% Pennsylvania Oil—refined from premium crudes by a special process. Universally recommended by automotive engineers and lubrication experts. Through exhaustive laboratory and road tests it has demonstrated its ability to lubricate properly under the most trying conditions of motor operation.

**EXTRA LIFE**  
for your car

**When Pain Comes**

Two hours after eating

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless, tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You

will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

**Students' Merits To be "Measured"**

FORT WORTH.—Beginning with the school year 1929-30, students in Texas Christian University will be required to pass a "Pre-Junior Achievement Test," according to an announcement this week by Dean Colby D. Hall.

"The chief purpose of the plan is to help in shifting the emphasis from credits to accomplishments," Dean Hall explains. "To measure the students' merit in terms of what achievement, skill, culture, mental attitudes and mastery they can show at the end of the educational period, rather than in terms of courses passed, hours in class and total number of credits, is the aim of the new plan. Whether the desired result can be accomplished

by this plan, or by any plan, has yet to be proven, but this is a serious, well prepared attempt in the right direction," Dean Hall says.

The new plan requires that each student in T. C. U., before being admitted to the junior year, must prove a satisfactory mastery of the "fundamental tool courses of his education."

These "tool courses" are enumerated as English composition and literature, a foreign language, government and history, a natural science, and two electives to be chosen from the field of mathematics, the Bible, another science, another language, sociology or economics, psychology or philosophy.

"In addition to these fields of study, satisfactory habits of demeanor, neatness, politeness and physical training will be required," Dean Hall states.

**Work of City Dads For 12 Months is Reviewed by Mayor**

The following are some of the business accomplishments of the City commission of the City of Slaton, Texas, for the past twelve months: \$7,000.00 of bonds retired, one land note of \$1,000.00 on land owned by City retired, also warrants of \$500.00 against tractor.

There were \$15,000.00 voted for fire station, from which the city built one of the best fire stations on the plains. Along with this, \$10,000.00 was voted for water works improvements, by which a deep water well was dug and pump bought for same.

The city purchased a new tractor for street work, costing approximately \$5,190.00, and grader, \$450.00.

To go with the new station a new fire truck, costing \$12,000.00, was bought, being of the latest type.

There were twenty blocks of new streets graded and along with this, six sidewalk street crossings were installed, also Eighth Street was widened.

The water department placed some 1460 feet of water lines to different parts of the city, as well as 925 ft. of sewer line. Drainage system was installed to take care of excess water on 11th street, with 140 ft. of curb and gutter installed on West Lynn St. Secured approximately 30 percent reduction of city pumping of water and lighting of city buildings.

W. G. REESE, Mayor.

**Expansion Program Chevrolet Service**

DETROIT.—In preparation for America's biggest motoring season, the Chevrolet Motor Company has announced the development of a comprehensive program for the service protection of the millions of its cars that will be in use this Spring.

Surveys made by the company indicate that automobile travel this year will break all mileage records; they show that the automobile will be called on to shoulder an increasing portion of the nation's transportation requirements and they point out that the automobile will pioneer its way this year into uncharted spots and secluded recesses, where until but a few years ago, service was miles away and frequently uncertain.

It was with a view to making Chevrolet service even more accessible, thorough, rapid and economical to the owner that the present expansion and perfection program was undertaken. J. P. Little, manager of the parts and service division, explained.

So extensive has been the development of the service activities of the company, he said, that there are now 20,960 points in the United States where the Chevrolet owner may obtain authorized Chevrolet service or genuine parts. This is perhaps the fullest service coverage ever offered by an automobile manufacturer, Mr. Little declared, and assures the Chevrolet owner of the widest possible parts and service protection.

The program contemplates the opening this year of eleven new parts warehouses, in addition to the 28 now in operation. Several of these will be in operation in May, with others opening at intervals until October 31 when the last of the group will be finished. New warehouses are being built or will be constructed this year in the following cities: Indianapolis, Ind.; Birmingham, Ala.; Salt Lake City, Utah; Richmond, Va.; Great Falls, Mont.; El Paso, Texas; Wichita, Kansas, and Knoxville, Tenn. Sites for the remaining three warehouses will be announced in a few weeks.

When completed this Fall, the parts warehouse program will provide Chevrolet with 1,180,000 square feet of floor space for the actual warehousing and shipping of parts, exclusive of the necessary office space.

Simultaneously with the announcement of the new six cylinder car, adequate parts supplies were shipped to each of the 28 parts warehouses. In this connection, Mr. Little explained that more than 5,000 Chevrolet mechanics in various sections of the country have already attended the special Chevrolet service schools, where under the supervision of factory experts they make a thorough study of the new car and prepare themselves to offer the owner prompt and efficient service. Thirty-one of these schools are now in operation.

The same tremendous manufacturing facilities that are enabling the company to offer the new car at its price, Mr. Little pointed out, are permitting Chevrolet to offer parts at prices consistently low and well within the price range of the four. He called attention to the strategic locations of the large group of parts warehouses stressing the fact that sites had been selected with a view to the public.

**Upshaw's Visit to Slaton was Privilege To Local People**

Hon. William D. Upshaw of Atlanta, Georgia, spoke to a large crowd at Slaton Tuesday night.

He was introduced by B. G. Holloway, pastor of the Baptist church. Mr. Holloway said of the George Congressman, that he is a statesman, reformer and layman preacher without a peer on the American continent. He is an editor, orator and entertainer who has done more to elevate young life than any other man ever elected to Congress. He held the Southern Baptist Convention spellbound for one and one-half hours at ten fifteen o'clock at night with all clamoring for him to continue speaking. He is a high class Christian gentleman with a golden heart and a silvery tongue; one of the best known men in the south. It was a high privilege to have him speak in Slaton.

**ELECTRIC IRON MOST POPULAR APPLIANCE**

The electric iron continues to lead all other electric labor-saving appliances in wide-spread use, according to a survey made public by the United States Department of Commerce.

There are in the United States 17,596,390 homes having electric service, says the Department. The percentages of these using the more important appliances are given as follows:

Electric irons	87%
Vacuum cleaners	39
Clothes washers	28
Toasters	26
Room heaters	15
Percolators	10
Hot plates and grills	9
Heating pads	8
Waffle irons	5

The state capitol of Texas at Austin was burned in 1881.

Many a good thing has been pulled off on Friday, the 13th—by fellows who forgot the date.

form flat rate system of service charges that prevails in every Chevrolet service station gives the owner the advantage of the lowest possible service cost and price protection at the same time.

**WHITEWASH FOR POULTRY VERMIN**

COLLEGE STATION.—Lice increase more rapidly in warm weather and it is advisable to thoroughly clean out poultry houses now to kill lice, mites and blue bugs. A whitewash painted or sprayed on the interior of the house is recommended by E. N. Holmgren, Poultry Specialist in the Extension Service. Such a mixture may be made by slacking one bushel of quick lime in 12 gallons of hot

water, dissolving two pounds common salt and one pound sulphate of zinc in two gallons of boiling water, pouring this into the first mixture, adding two gallons of skim milk and mixing thoroughly.

R. W. Scott and son returned Tuesday from Mineral Wells, where they accompanied Mrs. Scott, who was called there due to the illness of her mother, Mrs. J. H. Phillips. Judge and Mrs. Phillips have been in Mineral Wells for two or three weeks.

#### Coming to Lubbock

## DR. MELLENTHIN

### Specialist

In Internal Medicine for  
Eighteen Years.

DOES NOT OPERATE.

Will be at Lubbock Hotel Thursday, April 11  
Office Hours: 10  
a. m. to 4 p. m.

ONE DAY ONLY.

No Charge for Consultation.

Many in this community will avail themselves of the opportunity to visit Dr. Mellenthin on this special visit to Lubbock.

The doctor pays special attention to the SCIENCE OF INTERNAL MEDICINE AND DIETETICS. He is trying conscientiously to eliminate surgery in his treatment of disease as far as possible.

He has to his credit many wonderful results in diseases of stomach (especially ulcers), glands (especially goitre), ailments of women, diseases of liver and bowels, as infected gall bladder, gall stones, appendicitis, chronic constipation, colitis, auto-intoxication and rectal ailments, circulation disturbances as high or low blood pressure, heart and blood disorders, skin, nerves, bladder, kidneys, bed-wetting, weak lungs, tonsils, adenoids, metabolic disturbances such as Rheumatism, sciatica, leg ulcers and chronic catarrh.

Medicines are prescribed and prepared for each individual case in his private laboratory, also special attention given to diet as to proper balance and selection of foods.

For this service a nominal charge is made.

Dr. Mellenthin is a regular graduate in medicine and surgery and is licensed by the State of Texas.

Married women must be accompanied by their husbands.

Address: 224 Bradbury Bldg., Los Angeles, California. 82-64

## Stark Realism in Chaney Film; To Be Here Mon.-Tues.

There are educational angles to "West of Zanzibar," Lon Chaney's newest Metro-Goldwyn-Mayer picture, coming Monday and Tuesday to the Palace Theatre, as well as mystery and drama such as no other Chaney picture has possessed.

The locale for most of the action of Mr. Chaney's latest is in the tropical jungles of equatorial Africa, where "Dead Leggs," the character Chaney portrays, becomes master of an ivory colony by displaying his stage magic to bewilder the natives. The picture is both extraordinary and startling in the realism of its action and setting, and a good portion of the plot parallels native customs, both primitive and scientific.

The story introduces, in a novel way, a custom of healing men who have become victims of the terrific heat, the malaria and of poison insects which live in swarms over the slimy swamps. Also it refers to a native custom of offering the daughter of a dead native father as a human sacrifice on the latter's funeral pyre. Interesting bits of voodooism are also introduced in the development of the plot, in which Lionel Barrymore, Warner Baxter, Mary Nolan, Jane Daly, Kallas Pasha and Roscoe Ward appear in support of Mr. Chaney.

Tod Browning has directed "West of Zanzibar" and given the original screen story a novel photographic treatment throughout.

#### KNOW TEXAS.

Cabeza de Baca was the first white man to enter Texas. He was ship wrecked on the Gulf coast in 1528 and reached Mexico City after crossing the southern part of this state.

Ysleta, near El Paso, is the oldest town in Texas. It was founded in 1682.

The first Spanish mission was founded at San Antonio in 1718.

## Notes, News and Nonsense.

Long sour faces now are treason, Only smiles are now in season— All for just this simple reason: IT HAS RAINED.

Mrs. R. E. Hammond, of Iowa Park, is a guest at the home of her aunt, Mrs. E. C. Foster.

Mrs. Gertrude Duncan of Amarillo is visiting her sister, Mrs. Pierce Calhoun.

Mrs. Jim Goodwin, who has been visiting her sister, Mrs. C. C. Young, has returned to her home in California.

"Uncle George" Marriott tells us the next Santa Fe Program will be Thursday, April 11—a date to which we will all look forward.

Women will never be satisfied with their rights until they have liberty to walk up to the best behaved of us, and hit us over the head: in no other way can they completely express their general disapproval of our sex.—Ed. Howe.

Mr. Ellison from Wellington, Kansas has transferred to the Slaton Division as Machinist.

Chas. Salava, representing Marshall Field Co., Chicago, was here Monday.

Mrs. L. W. Mann, who has been visiting her daughter, Mrs. A. R. Hill, has returned to her home in Van Alstyne.

J. M. Sickles, who is with the West Texas Gas Co., was here Tuesday and Wednesday.

He had just hung out his shingle. That morning a stranger entered. The doctor asked to be excused as he hurried to the phone.

Taking down the receiver he said: "Yes, this is Dr. Whoosit. Yes, I will be ready for you at 2:10 this afternoon. But please be prompt, for I am very busy. Two hundred dollars? Yes, that was the estimate I gave you."

Hanging up the receiver he turned to the stranger, and, rubbing his hands, asked: "Now, sir, what can I do for you?"

"Nothing," replied the stranger, quietly. "I only came in to connect the telephone."—Missouri Pacific Lines Magazine.

Mrs. Chas. Marriott has been on the sick list this week.

Mr. and Mrs. Wm. Rust and Mr. and Mrs. J. M. Fondy were Lubbock visitors Monday.

Mrs. O. E. Rodin, who has been visiting her daughter, Mrs. Fred Petty, in Idalou has returned home.

Virginia Ham—I thought you could keep a secret!

Sal Hepatica—Well, I kept it for a week. What do you think I am—a cold-storage warehouse?

J. W. Salmoner who has been visiting in Slaton has returned to his home in Lewisville.

Inez Tunnel and Hazel Mansker went to Lubbock Saturday.

(After the visit to the art gallery) "What picture seemed most striking to you?"

"The one that fell on my head when that cord broke."—Delton Irrigation News.

—A Correspondent.

#### MISS JOSEPHINE McHUGH ENTERTAINS WITH BRIDGE

Miss Josephine McHugh, with Mrs. Floyd Rector as joint hostess, entertained with bridge at the McHugh home, 340 S. 10th St., Wednesday evening.

Mrs. Katrina Savage won high score and Miss Joe Hestand low. Decorations were in orchid and cream. After an enjoyable evening an Easter plate lunch, with miniature chicks as favors, was served to the following: Mmes. Brewer, Badgeley, Bechtal, Lewis, George, Taylor, Tomlinson, Savage, Ragsdale, McGinnis, Stokes, Cobb, Austin, Baldwin, England, Green, Wall and Miss Joe Hestand.

A placid old lady who took life philosophically sat knitting in the drawing room. To her there came rushing her fifteen-year-old granddaughter. "Oh, granny, granny," cried the girl, "father's just fallen off the roof!"

"I know, my child," replied the old lady, without even raising her eyes. "I saw him pass the window."—Tit-Bits.

## District Meeting Of W. T. C. C. at Tahoka on April 24

TAHOKA.—The Tahoka Chamber of Commerce and the Chambers of Commerce of the South Plains are preparing to put over one of the largest District Chamber of Commerce Conventions in the history of the West Texas Chamber of Commerce, at Tahoka on April 24. Invitations have been sent to every Chamber of Commerce and High School on the South Plains and those in adjoining territory, inviting them to be present, with their various organizations, Bands, Service Clubs such as the Rotary, Lions, Kiwanis, and High School Clubs of various kinds.

A silver loving cup is being offered by the Tahoka Chamber of Commerce to the winner of the "My Home Town" speaking contest. This contest is open to one contestant from each public school on the South Plains. Rivalry is expected to be keen in this contest as several schools have already stated that they are going to enter the contest.

The Convention luncheon will be served by the Lynn County Home Demonstration Clubs under the direction of Miss Thelma Greenwade, County Demonstrator. Practically all of the food served will be Lynn County products, produced by the ladies of the Home Demonstration Clubs.

All of the large newspapers of the state have been requested to have their correspondents at the convention, so as to be in a position to give to the world news of the happenings during the Convention.

## Gas Forces Woman To Sleep in Chair

"Nights I sat up in a chair, I had stomach gas so bad. I took Adlerika and nothing I eat hurts me now. I sleep fine."—Mrs. Glenn Butler.

Even the FIRST spoonful of Adlerika relieves gas on the stomach and removes astonishing amounts of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. City Drug Store.

The average cost of producing 100 pounds of pork in Oklahoma ton litter contests was \$5.91 in 1927, \$6.24 in 1926 and \$7.92 in 1925. The percentage of pigs raised under the modern system of sanitation was from 10 to 15 per cent greater than on farms where pigs were not kept on clean ground, according to the extension division of Oklahoma A. & M. College.

#### Just Like An Ostrich

A medical authority says that a person who tries to cover up skin blemishes and pimples with toilet creams and powders is just as foolish as an ostrich that buries its head in the sand to avoid danger. Skin eruptions are nature's warning that constipation is throwing poisons into your blood stream and weakening your whole constitution. Remove the constipated condition and you will strengthen your system against disease and clear up your disfigured skin. The best way to do this is with a course of Herbine, the vegetable medicine that acts naturally and easily, which you can get at

CITY DRUG STORE

#### CARD OF THANKS.

We take this method of thanking our many friends and neighbors for their donations, gifts, and general assistance to us following our recent misfortune of losing our household goods, clothing, etc., by fire. We deeply appreciate your kindness.

Mr. and Mrs. A. M. Huffstutler and children.

#### APPRECIATION.

To those many Slaton friends who contributed toward furnishing the large, beautiful wreath, that was sent and placed on our mother's bier, following her recent death in Amarillo, we wish to express our sincere gratitude. As we do not have the correct address of all who contributed, we take this means of expressing our thanks. We appreciated the presence of those who attended the funeral.

(Her children): Mrs. J. D. Watkins, George Stonefield, Ethel Stonefield, Ruth Stonefield.

## FOR OLD AND YOUNG

M. W. UZZELL

Slaton, T

CITATION BY PUBLICATION.

THE STATE OF TEXAS,  
To the Sheriff or any Constables of Lubbock County, Greeting:  
**YOU ARE HEREBY COMMANDED** to summon A. E. Wise and wife, Ruth F. Wise, or F. Ruth Wise by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the 99th Judicial Dis-

trict Court of Lubbock County, to be holden at the Court House thereof, in Lubbock, Texas, on the second Monday in April, A. D. 1929, the same being the 8th day of April, A. D. 1929, then and there to answer a petition filed in said Court on the 7th day of March, A. D. 1929, in a suit, numbered on the docket of said Court as No. 3619, wherein J. W. Philips is Plaintiff, and J. F. Smith, A. E. Wise and wife Ruth F. Wise or F. Ruth Wise are Defendants, and said petition alleging that plaintiff is the owner in fee simple of the following described

real estate in Lubbock County, Texas, being Lot No. 9, block No. 30, in the South Slaton Addition to the town of Slaton, Lubbock County, Texas, according to the official map or plat thereof now on record in the office of the County Clerk of Lubbock County, Texas; that defendants A. E. Wise and wife Ruth F. Wise or F. Ruth Wise as the name sometimes appears are claiming some interest in the said premises by virtue of a certain vendor's lien note executed by B. A. Dodgen, payable to A. E. Wise on November 26, 1920, bearing interest at the rate of 10% and for the sum of \$357.42, payable in installments of \$25.00 each beginning December 15, 1920, and one installment falling due on the 15th day of each and every month thereafter.

That defendant J. F. Smith is claiming some interest in and to said premises by virtue of a series of 4 vendor's lien notes, dated November 10, 1921, executed by E. G. Carpenter, each for the sum of \$108.50, payable to J. F. Smith as follows: Note No. 1 due May 10, 1922, Note No. 2 due November 10, 1922, note No. 3 due May 10, 1923, and note No. 4 due November 10, 1923. Said notes drawing 10% interest per annum from date.

Plaintiff alleges that all of the above described notes have been fully paid off, but that he has been unable to secure releases of same. Plaintiff further alleges that defendant J. F. Smith, for a valuable consideration, transferred one of the four notes of said series to C. C. Hoffman but has failed and refused to execute a written transfer of the said note and lien securing same.

Plaintiff further alleges that in case he is mistaken in assuming that the above described notes have been paid that he has held peaceable, continuous and adverse possession under title from and under the state of Texas of the above described land and premises for more than three years after the last installment due upon said notes matured.

Plaintiff further alleges that all of the above described notes and the last installment due thereon matured more than four years before the filing of this petition and are therefore barred by limitation, even if this plaintiff be mistaken in alleging same to be paid.

Plaintiff further alleges that the failure and refusal of defendants to execute and deliver to plaintiff releases of the above described notes and the lien securing same creates a cloud upon this plaintiff's title to the above described land, and further that the failure of the defendant J. F. Smith to execute a transfer of the note and lien to the said C. C. Hoffman creates a cloud upon this plaintiff's title to said land and premises.

Plaintiff asks for judgment for the title and possession of said land and premises, that the above mentioned cloud on his title be entirely swept away and said title cleared of same forever; for damages, costs of suit, etc.

Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and the Seal of said Court, at office in Lubbock, Texas, this the 7th day of March, A. D. 1929.

FLORA GREEN ATCHESON,  
(SEAL) Clerk,  
District Court, Lubbock County.  
56-4tc

CROPPING SYSTEMS FOR DAIRYMEN SUGGESTED

COLLEGE STATION.—That dairy farmers in Texas must adopt definite cropping system if the fast growing dairy business of the state is to be profitable and permanent is the belief of Extension Service authorities. E. A. Miller, Agronomist, and J. L. Thomas, Dairyman, have collaborated in formulating a cropping system plan which county agents are using this year in their dairy herd demonstrations. The plan is based on five-cow herds for which at least six acres of feed per cow is recommended.

THERE is nothing quite like Bayer Aspirin for all sorts of aches and pains, but be sure it is genuine Bayer; that name must be on the package, and on every tablet. Bayer is genuine, and the word genuine—in red—is on every box. You can't go wrong if you will just look at the box when you buy it!

We Hereby Respectfully Submit for Your Earnest Consideration

# F. C. RECTOR

...FOR...

# MAYOR

# OF SLATON

Mr. Rector has resided with us many years and is well known as a man of sterling worth and integrity.

He has been at all times prominently identified with the civic life, welfare and progress of our city and community.

He is not aligned with any clique or faction. He can and will serve the entire citizenship with the only object in view to accomplish Slaton's best interests.

Mr. Rector is a man of affairs, a success in his own business, calm, conservative, economical and level-headed. We think him well qualified to be our Mayor.

We want in Slaton an active and non-partisan administration of our affairs, our town and streets kept clean and in repair, our finances closely guarded, our taxes held to a minimum, and efficiency accomplished in all departments. We believe that Mr. Rector will be able, as Mayor, and with good, solid men as Aldermen, to give our city that character of administration.

We want in Slaton a healthy, sane, impartial and broad-minded enforcement of laws and Ordinances. He stands for that, and should have your support.

We want a sound financial and business policy in connection with Slaton's affairs, in every department and in every transaction. We have no private interests to serve and no individual to favor. Our object and desire is to get efficient, competent, trained, successful business men in public office.

Much depends on the sort of government we have and the calibre and ability of the men who serve us. We want to see Slaton grow and develop in harmony and prosperity. We, therefore, respectfully appeal to all voters in Slaton to come out on April 2nd and vote a good business administration for Slaton, for Mayor and for Aldermen. It is your own individual interest to do this, and to be influenced by nothing else.

This space is bought and paid for by friends of efficient government in Slaton.

## Big Chances Are in Sight For Dairyman

Experiments with dry grain and milkless rations for calves carried on at the New Jersey Agricultural Experiment Station have produced results that may revolutionize the dairy industry according to Professor C. B. Bender, associate dairy husbandman.

Records from over eight years of experimentation have convinced Professor Bender that calves can be safely raised after the first month without milk.

The cost of raising a six months old calf, according to this new method

is about \$28.00. The cost of raising the same calf under the milk feeding system is between \$65 and \$75. Thus, Professor Bender's new system will save, he estimates, from \$25 to \$50 on a calf.

A gain as large as this on a single calf, Professor Bender states, will be a great stimulation to the dairy industry. The high cost of milk has greatly cut down the number of calves raised. Even the gruel system has not proved satisfactory because of the large number of digestive disturbances which follow the feeding of gruel.

The calf should be fed milk for the first month, according to Professor Bender. About the beginning of the third week, the amount should be gradually cut down until none is fed at the end of 30 days.

The formula adopted by the experiment station is a dry grain mixture consisting of 150 pounds ground oats, 100 pounds yellow corn meal, 50 pounds wheat bran, 50 pounds linseed meal, 50 pounds soluble blood flour, and 12 pounds minerals. It is believed that the soluble blood flour and the minerals take the place of the milk in the ration.

### MAKING PLANS FOR FEED.

By Carl Williams.

It cannot be repeated too often that livestock farming must be based on farm production of feed. The feed comes first; the stock comes second. And the man who regards his livestock as the means of marketing his feed crops will never go far wrong. He is going to insist on efficient livestock in order to get the most out of the crops he raises.

If the feed isn't raised, feed must be bought, or the stock sold, or the stock fed on short rations. In either event the owner loses money. Down here in the southwest country grain feed in times of scarcity always sells on a shipped-in basis. This means that grain sells at a price which adds a long freight haul, and one or more handling charges, to the price that the grower in some other state gets for it.

But when we go to sell the stock to which that grain is fed, it is sold in direct competition with stock raised and fed in those states from which we buy feed.

In making plans to grow feed we should keep in mind that it is the extra feed from which the livestock man gets his profit. The feed required to maintain the livestock is an overhead charge; it is an expense that cannot be avoided. The profit comes from the feed over and above a maintenance ration, which feed is turned into milk and meat and wool.

In a few short weeks all the crops will be planted. Have you planned carefully for feed for all the livestock and made some allowance for dry weather? Let's not forget that feed in the bin is worth more than money in the bank when feed must be shipped in.

### FARM WOMEN DEVELOPING HOME INDUSTRIES

COLLEGE STATION.—The factory system took most manufacturing out of the home but some of it is being put back there now in a most interesting development among Texas home demonstration club women who are making a great variety of products to sell cooperatively and to use themselves. Rugs and gloves, to mention only two articles, have long been obtainable only in stores but thousands of them are now being manufactured in a small way in farm homes, with some profit and a great deal of satisfaction, the women say.

This home industries work has long been encouraged by the Extension Service through county home demonstration agents but it has taken a decided increase in the last year because of the development of marketing facilities making it possible for women and girls to earn considerable pin money in rather pleasant ways. Regular market days are held in many counties for the sale of all kinds of canned, dairy, poultry and pastry products as well as rag rugs, embroidery, linens, quilts and handkerchiefs. In Mitchell county a home products association has been run successfully for two years with sales the first year amounting to more than \$15,000.

All products thus sold by the clubs are carefully graded and passed upon for quality by a standardizing committee to see that nothing is offered except that produced by home demonstration methods and coming up to those standards.

Judge: "What possible excuse did you fellows have for acquitting that murderer?"

Juryman: "Insanity."

Judge: "What, the whole twelve of you?"—Evening Times-Globe.

## Finance Committees To Visit at Tech

LUBBOCK.—Fifty members of the Senate Finance and House Appropriations committees will visit and inspect Texas Technological College April 8, according to Senator Pink L. Parrish of Lubbock who has just returned from Austin during the legislative vacation. The local Chamber of Commerce will cooperate with College authorities in entertaining the lawmakers while in Lubbock.

### DAIRY CO-OP BUSINESS.

Co-operative dairy associations last year handled approximately one-third of the creamery butter and cheese manufactured in the United States and about one-fifth of the fluid milk used for household purposes, according to the March 15 Oklahoma Farmer-Stockman.

### A Great Discovery

When Pasteur discovered, in 1852, that the infection of wounds was caused by malignant bacteria, he performed a service of inestimable value to mankind. Since then medical science has been producing better and better antiseptics, to kill these germs that may enter the smallest cut and give us diseases such as typhoid, tuberculosis and lockjaw. Now, all you have to do to be sure that these dreadful germs will not infect a wound, is to wash that wound, however small, thoroughly with Liquid Borozone, the modern antiseptic. You can get Liquid Borozone, in a size to fit your needs and purse, from City Drug Store.

## How Much Water Should Baby Get? —A Famous Authority's Rule By Ruth Britton

Baby specialists agree nowadays, that during the first six months, babies must have three ounces of fluid per pound of body weight daily. An eight pound baby, for instance, needs twenty-four ounces of fluid. Later on the rule is two ounces of fluid per pound of body weight. The amount of fluid absorbed by a breast fed baby is best determined by weighing him before and after feeding for the whole day; and it is easily calculated for the bottle fed one. Then make up any deficiency with water.

Giving baby sufficient water often relieves his feverish, crying, upset and restless spells. If it doesn't, give him a few drops of Fletcher's Castoria. For these and other ills of babies and children such as colic, cholera, diarrhea, gas on stomach and bowels, constipation, sour stomach, loss of sleep, underweight, etc., leading physicians say there's nothing so effective. It is purely vegetable—the recipe is on the wrapper—and millions of mothers have depended on it in over thirty years of ever increasing use. It regulates baby's bowels, makes him sleep and eat right, enables him to get full nourishment from his food, so he increases in weight as he should. With each package you get a book on Motherhood worth its weight in gold.

Just a word of caution. Look for the signature of Chas. H. Fletcher on the package so you'll be sure to get the genuine. The forty cent bottles contain thirty-five doses.

# CHURCHES

## FIRST CHRISTIAN CHURCH.

Bible school, 9:45, H. H. Edmondson, Supt.  
 Communion service, 10:45.  
 Preaching service, morning, 11:00; evening, 7:45.  
 Christian Endeavor, 6:30.  
 Mid-week prayer service, Wednesday, 7:45.

## AT THE PRESBYTERIAN CHURCH

Sunday, March 31, 1929.  
 Sunday school meets at 9:45 a. m.  
 Morning worship, 11:00 a. m.  
 Christian Endeavor meets 5:30 p. m.

Evening service, 7:45 p. m.  
 The pastor will preach at both services. The subjects are: In the morning, "The Guarantee of a Future Life"—I Cor. 15:4. In the evening on the theme, "The Saving of Life"—John 12:25.  
 The public has a cordial welcome at all of these services. Come and worship with us.—James Rayburn, pastor.

## Y. W. A. MEETS WITH MRS. HOLLOWAY

The Y. W. A. met in regular session in the home of Mrs. B. G. Holloway, the counselor, Monday evening at 7 o'clock.  
 A very interesting missionary program on Africa was rendered.  
 A special feature was a reading by Miss Ruby Dan Smith.

## CHURCH OF CHRIST.

Two splendid audiences greeted us last Sunday. In fact, the house was almost filled at the morning hour. We are expecting the seats to all be taken next Sunday.  
 The subject for the morning sermon will be, "The Resurrection of Christ."  
 We had one hundred and eight at prayer meeting. One hundred and sixty communed last Sunday, about eighty percent. Let us make it one hundred percent.  
 Bible study, 9:45 a. m.  
 Preaching, 11:00 a. m.; 7:45 p. m.  
 Communion, 11:45 a. m.  
 Young people's meeting, 6:45 p. m.  
 Ladies' Bible study Monday, 3:30 p. m.  
 Prayer meeting Wednesday, 8:00 p. m.  
 J. E. MULLINS, Minister.

20th. were read by Mrs. A. L. Robertson and Mrs. Fred Tudor, who were delegates to the meeting. Thirteen ladies from the Slaton society attended this all-day session. Several interesting talks were made by visitors.  
 On April second to April fifth the missionary conference will meet at Plainview. Mrs. Eckert and Mrs. Robertson have been elected as delegates from this society, although other members from Slaton expect to attend some of the sessions.  
 Our society is growing in interest and attendance each week.  
 Press Reporter.

## DORCAS CLASS IS HOSTESS TO HUSBANDS

The Dorcas class of the Baptist Sunday school met Tuesday night, the 26, with Mrs. George Marriott, in a social meeting, the husbands being invited. After much amusement with games and jokes, ice cream, cake and coffee were served to the following: Messrs. and Mesdames S. Selmon, G. J. Catching, J. P. Boyd, J. S. Wilson, W. A. Tucker, E. S. Brooks, C. W. Wilkes, W. P. Florence, and O. N. Alcorn. Mesdames B. G. Holloway, E. E. Dapson, Wm. Rust, W. O. Bowen, A. E. Ethridge, Fred Stottlemire, F. J. Darwin, E. F. Jarman, Roy Cowan; and Docea Tucker, Emily Darwin, Flora and Esoleta Alcorn and Wayne Catching.  
 At a late hour all departed for their homes, declaring Mrs. Marriott a most wonderful hostess.—Reporter.

## CIRCLE NO. 4 MEETS WITH COLORED W. M. S.

Circle No. 4 of the Baptist W. M. U. has been assigned work among the negroes as their personal service project for the quarter.  
 Monday afternoon after the Circle meeting in the home of Mrs. Etheridge the personnel of the Circle went to the negro Baptist church where a devotional, and a short lesson on the life of David Livingstone was conducted by Mrs. B. G. Holloway.  
 There will be other lessons in the Mission Study meeting each Thursday evening at 8 o'clock until the book is completed.  
 The members of the colored W. M. S. who were present were very appreciative and enthusiastic over the proposed plan.

## ORGANIZATIONS OF PRESBYTERIAN CHURCH GIVE REPORTS

Sunday night at a congregational meeting of the Presbyterian church the various organizations made their annual report to the Church Session.  
 Mr. Peavy as clerk of the sessions acted as chairman.  
 Robert Rayburn made the report from the Christian Endeavor Society and Mrs. K. L. Scudder as Sec'y and Mrs. George Jones as treasurer of the Woman's Auxiliary reported a year of good work.  
 Mrs. C. W. Simmons as Sec'y of the Sunday School reported the enrollment in the Sunday School to be twice the active membership of the church and the average attendance to be 75 percent of enrollment. The pastor reported 20 members received into the church during the year and one hundred sermons preached. The budget adopted for the coming church year averaged about \$50.00 per member.
