BREAKFAST TO LAUNCH SCOUT FUND DRIVE NEXT SATURDAY

The fund drive to raise the 1954 budget of the South Plains Council of Boy Scouts will be kicked off locally with a breakfast at 7 o'clock Saturday morning, Oct. 24, at the Club House. It was announced this week by Melvin Kunder, drive chairman.

A definite goal has been set for the drive, but it is hoped that the year's drive will better the \$1100 raised here last year.

The campaign will be conducted somewhat differently this year than in previous years.

Kunder has named four drive leaders — Richard Perry, Bill Cluff, Cliff Cox and Lee Vardy — as auditors. T. A. Worley, one of the majors is responsible for the drive, and each man will be responsible for five workers.

Each worker will be asked to get five persons for contributions to the Boy Scout fund campaign.

Workers are urged to attend the Oct. 24 kickoff breakfast where campaign details will be outlined and each worker given a list of five names to contribute to.

The entire South Plains Council, the drive seeks to obtain \$100,000 for the 1954 budget. The Council includes 55 communities of the South Plains and West Texas.

The Council conducts an independent campaign in all communities of the 20 counties except Lubbock, Plainview, Lamesa, Seminole, Matador where the Council is participating agency in their community chests.

The South Plains Council fund drive last year raised \$69,728.98.

The borrowed money will be repaid under terms of a plan approved by the city commission more than a month ago. The \$90,000 would be paid back over a period of 19 years as follows: \$1,000 principal payments for the first 5 years; \$2,000 payments for the second 5 years; \$5,000 payments for the next 3 years, and \$10,000 payments for the final 6 years.

City commissioners have indicated that a major portion of the \$90,000 will be spent to provide Slaton with adequate overhead water storage facilities.

FREE FORTY-TWO PARTY

The O.E.S. will sponsor a free Forty-two party Monday night, Oct. 19, at 7 p.m. at the Club House. Everyone who enjoys playing Forty-two is invited to attend.

SAN ANTONIO FIRM IS LOW ON BOND BID

The Slaton city commission Monday awarded to Russ and Co. of San Antonio contract for sale of the \$90,000 waterworks and sewage improvement bonds voted here on Oct. 3.

The San Antonio firm was low among 13 bidders on the 3.41739 per cent bid submitted by the 3.6623 per cent bid submitted by R. A. Underwood & Co., Dallas. Net interest cost on the latter bid would have been \$46,329.10, a difference of \$3,099.10 from the low bid.

HUB CITY MAN TO DELIVER SERMON HERE

Guest speaker at the Sunday morning worship service at the Church of Christ here will be John B. White, who has been named superintendent of the non-denominational children's home to be constructed near Lubbock. It was announced this week by M. E. Blake, minister of the Church of Christ.

The service is set for 10:45 a. m. White is expected to explain the plans for the children's home, for which ground-breaking ceremonies were held Sunday afternoon. The home will be situated on a 200-acre tract of rich, irrigated farm land with a half-mile of frontage on Highway 82, two miles east of Lubbock.

Plans call for the eventual construction of 18 seven-bedroom homes, each home capable of housing 18 children. The plans also include a school, gymnasium, administration building, infirmary, chapel and superintendent's home.

Blake also announced plans for another special program to be held at 7:30 o'clock Wednesday night, Oct. 21. At that meeting, O. C. Horn of Lubbock will give a talk illustrated by colored slides describing his recent trip to the Holy Land. Horn is an elder in the College Avenue Church of Christ.

TALKING IT OVER—Waymoa Muse, left, and David Collins, starting guards for the Slaton Tigers, take time out from practice to talk over the important blocking assignments they'll have when the Tigers tangle with Floydada tonight in the district opener for both teams. The pair of junior guards have shown marked improvement since season's opening, and how well they perform their jobs tonight may spell the difference in victory and defeat against the unbeaten Whirlwinds. WILL OBSERVE LAYMAN'S DAY

Layman's Day will be observed at the 11 a.m. worship service on Sunday, October 18, at the First Methodist Church. It was announced this week by Rev. J. L. Mayhew, pastor.

The speaker will be Charles H. Dean of Plainview. Dean is a director of the First Methodist Church choir at Plainview and is a member of the Official Board. He has held various District offices and is reported to be an excellent speaker.

Rotary To Host Faculty Members

An estimated 125 persons were expected to be in attendance Thursday night when the Slaton Rotary Club held its annual dinner honoring members of the public school faculty here.

The dinner was to be held at 7:30 p.m. Thursday at the Slaton Club House. Invited to attend were faculty members and their wives or husbands, trustees of the Slaton Independent School District and their wives, and Rotarians and their wives.

SHS ANNUAL STAFF MEMBERS ATTEND YEARBOOK CLINIC

Members of the SHS annual staff attended the third annual Panhandle-South Plains yearbook clinic held in the Hilton Hotel, Plainview, Saturday, Oct. 10.

Walter Richter, Steck representative, presided at the first general session. He was assisted by J. M. Alexander, Steck representative from East Texas. Other speakers were Hal Marsh and Eugene Marr, Eastern New Mexico University, Portales, New Mexico; Bill Henry, New Deal High School; Mrs. Jewel Austin, Stamford High School; and Miss Roberta Ellison, Borger.

A fun hour with entertainment furnished by the schools represented was the highlight of the afternoon session. "Rick's" Silver cup was won by the Abernathy School. Slaton's representative was Viola Walton, who did a Betty Hutton impersonation of "Orange Colored Sky."

Staff members who attended were Barbara McGinley, editor; Pat Stansell, art editor; Neta Sanders, business manager; Nancy Clifton, assistant business manager; Kay Ella Buxkemper, typist; Raymond Wilkins, assistant photographer. Sponsors of the staff who attended were Mrs. Thomas Martin and Mrs. M. W. Kerr.

Tiger-Whirlwind Clash Looms As Thriller In First Conference Game To Be Played At Floydada

RETURNED POW TALKS SUNDAY

The Westview Baptist Church is to have as guest speaker next Sunday morning at the 11 o'clock service, Lt. Vernon "Sunshine" Wright. Lt. Wright is a Slaton boy and has many friends in this church and community. "Sunshine" will tell of his experiences as a prisoner of war of the Communists.

Lt. Wright, a Jet Fighter pilot, was reported missing in action on Jan. 15, 1952, and no word was received concerning him until on July 20, 1953, when his mother, Mrs. Alta Faye Wright of Odessa, received a letter from the War Department stating that there was "reason to believe" he was a prisoner, although his name was not on an exchange list at that time. Lt. Wright was returned near the end of "Operation Big Switch."

SCTA ELECTS NEW OFFICERS

At a recent organizational meeting, the Slaton Classroom Teachers Association named its officers and committee chairmen for the 1953-54 school year.

Named to office were A. C. Strickland, president; C. E. Fox, vice-president; Mrs. C. P. Mitchell, secretary; Mrs. J. B. Brooks, treasurer, and T. C. Martin, reporter.

President Strickland appointed Mrs. M. G. Davis of Slaton High School, Mrs. Virgie Hunter of West Ward School and Mrs. Earl Reasoner of East Ward School as committee members to work with the newly-elected officers.

Named as committee chairmen were C. E. Fox, program committee; Mrs. J. M. Gilbert, welfare committee; Mrs. Virgie Hunter, public relations; Mrs. J. B. Brooks, finance, and Mrs. G. K. Haile, refreshments.

The group announced plans to sponsor a bake sale at Piggly Wiggly store on Sat., Oct. 17.

Speaker at the organizational meeting was Mrs. Bertha O'Keefe, who described her recent teaching experiences in Heidelberg, Germany, and showed colored slides to illustrate her talk.

HURRY! HURRY! HURRY!

Get that gift for the Legion Auxiliary Christmas box for disabled veterans and take it to Liles Sheet Metal Works, The Slatonite or the home of Mrs. Nola Waldrop, 545 W. Lynn. The Auxiliary gift box makes it possible for veterans who are physically and financially unable to do their Christmas shopping to send gifts to their families and loved ones. Gifts for all ages are suitable. The box must be mailed by November 5.

OK WIDENING OF NO. NINTH

The city commission Monday gave its okay to a merchant-sponsored petition requesting the widening of North Ninth St. from Garza to Lynn by ten feet to allow diagonal instead of parallel parking in the one-block area.

The City of Slaton and merchants in the one-block area will bear the cost of the project on a 50-50 basis, according to Monday's agreement.

The change will leave the same amount of driving space on U. S. Highway 84.

Merchants who appeared before the commission Monday in behalf of the petition included Hugo Mosser, John Fondy, Irving Greenberg, and Bill Welch.

"We feel that the change will help business and consequently help the town," they told commissioners.

The petition had been pending before the city commission since August 24.

TD CLUB WILL MEET MONDAY

Coach M. W. Kerr will report on Slaton's junior high school football team and will describe "What a Football Scout Looks For" at the Slaton Tiger Touchdown Club meeting to be held at 8 o'clock Monday night, Oct. 19, at the city hall auditorium, it was announced this week by club president Robert Huser.

Also slated for Monday's meeting is a report by E. L. "Curly" Norris on the club's current membership drive. Approximately 200 memberships had been sold at mid-week. The club hopes for a minimum membership of 300. Membership cards for 1953-54 are on sale by club members at \$1 each. Proceeds will be used for the furtherance of Slaton High School athletics.

All interested persons are invited to attend TD club meetings, which are held at 8 p.m. each Monday throughout the football season.

Unbeaten Floydadans Boast Great Line, Rate Slight Favorite Role

What happens when an irresistible object collides with an immovable force will be pretty much the question at hand at Floydada tonight when Slaton's high-scoring Tigers collide with the rock-ribbed defense of the unbeaten Floydada Whirlwinds in the first district clash for both teams. Kickoff time is 8 p.m.

The Tigers, edged 19-13 by Coahoma in their opener but unstoppable since, have rolled to an almost unbelievable 197 points in five games, and have demonstrated an explosive ability to score both on the ground and through the air.

Just how well their offensive juggernaut will be able to move tonight against the Whirlwinds is a matter of considerable speculation, for Coach Preston Watson's Whirlwinds have allowed only 13 points in five outings while brushing aside a quintet of non-conference opponents.

Scouting reports indicate that the Whirlwind line is a mighty thing to behold in action. The normal offensive lineup usually employed by Floydada averages 179 pounds per man, some 15 pounds per man heavier than the starting line usually fielded by the Tigers.

Another decided advantage boasted by the Whirlwinds is depth. The Floydadans have enough capable talent to throw in several different boys on defense — some of them even heavier than the offensive starters — and that's an advantage not enjoyed by Coach Homer Tompkins' Tigers.

Probable starting lineup for Floydada tonight will be Bobby Ashilton (170) and Jack Womack (160), ends; Jimmy Dunn (195) and Stan Vickers (205), tackles; Gordon Joiner (170) and Leon Anderson (165), guards; Don Barber (190), center; Jerry Bob Harrison (180), quarterback; Cloyd Stephens (135) and Norman Muncey (155), halfbacks, and Jackie Jarrett (170), fullback.

Barber, only starter back from last year's tremendous Floydada team, is touted as one of the best linebackers in South Plains school-boy grid circles, and has played havoc all year long with up-the-middle thrusts by Whirlwind opponents.

The big guns in the Whirlwind backfield are Harrison, senior quarterback who is equally dangerous passing or running, and Stephens, a scabbard who reportedly resembles greased lightning once cleared past the primary line of defense. Stephens has scored 30 of the 122 points rolled up by the Whirlwinds this year.

Coach Watson's club, the choice of many area grid experts to nab the District 5-AA title this year, deploys from both the T-formation and the double wing.

Probable starting offensive lineup for the Tigers tonight includes Harold Trout (174) and Darrell Wiley (140), ends; Loran Gilliland (178) and James George (187), tackles; Waymon Muse (150) and David Collins (155), guards; Tommy Shearer (165), center; Jerry Reynolds (139), quarterback; Joe Sparkman (165) and Ronald Smith (165), halfbacks, and Chester Fondy (170), fullback.

Floydada's record: Crosbyton, 19-7; Tulia, 40-0; Lockney, 32-6; Paducah, 7-0, and Ralls, 24-0. Slaton's record: Coahoma, 13-19; Seagraves, 40-6; Ralls, 45-6; O'Donnell, 53-8; and Amherst, 46-0.

The Whirlwinds will enter the game as 7-point favorites, chiefly because of their untarnished record and the fact that they'll be playing on home ground.

Here last Friday, the Tigers banged across a touchdown in each of the first three periods against a surprisingly stubborn Amherst aggregation, then exploded for four tallies in the final quarter to turn the game into a 46-0 rout. It was the fourth consecutive win for the Bengals, and also was the fourth game in a row in which they have scored 40 or more points.

The Tigers first tallied on the final play of the first period when Quarterback Jerry Reynolds broke through a gaping hole between his left guard and left tackle and scooted 70 yards to score, outdistancing four Bulldog pursuers to the double stripe. Ronald Smith

Fondy Scores

The Tigers widened their margin to 13-0 six minutes deep in the second period when they climaxed a 57-yard sustained drive by sending Fullback Chester Fondy lulling into the middle from 3 yards out to score. Reynolds faked a handoff to Joe Sparkman and pegged a perfect pass to Harold Trout for the point that gave the Tigers a 14-0 lead.

Thanks to a miraculous pass interception by Tiger Center Tommy Shearer, the Bengals were driving deep into Amherst territory a minute later, but the first half ran out with the Bengals owing the ball on the Bulldog 10-yard-line.

After taking the Bulldog kickoff to open the second half, it took the Tigers only 10 plays to move 60 yards for their third tally, which came when Reynolds dove through the middle on a quick-copener from 5 yards out. Sparkman was hit down short of the goal on the PAT try.

Reynolds Scoots

Then after Shearer recovered a Bulldog fumble just seconds deep in the final period, the Tigers staged a 32-yard scoring drive culminated when Reynolds skittered around left end 6 yards to score, with Stan White throwing a key block to clear the path. Sparkman failed to hold Reynolds' pass on the PAT try, and the score remained 26-0.

Less than a minute later, Reynolds snared an Amherst pass while falling to the ground to give the Tigers possession at their own 42. On the next play, he pegged a perfect aerial to Felix Wylie, substitute left halfback who had just entered the game, and the fleet-footed Wylie gathered it in at the Amherst 16 and ran across untouched. Reynolds pushed over his right guard for the point-after to give the Tigers a 33-0 margin.

The Bulldogs were unable to move after the kickoff, and the Tigers took possession at the Amherst 44 following a poor kick by Delvin Nuttall. On the first Tiger play from scrimmage, Reynolds fired a touchdown pass to Sparkman on the identical play that had scored two minutes early, and Sparkman pulled it in on the 3-yard line and dove into the end zone, carrying a pair of Bulldog defenders on his back. Fondy was hit down short of the double stripe on the PAT try.

They're On Your Side

Too often, probably, we're inclined to think of the members of our police department as "spies" or something of the sort. We may occasionally criticize the job performance of such faithful public servants as Chief of Police E. A. Gentry, W. C. Brush, Dutch Robison, Leonard Lott and Alvin White . . . but perhaps we need to stop and remind ourselves that these folks are "on our side."

Did you ever stop and think "why do we have law enforcement officers?" The answer is a simple one. We need police officers to protect us . . . from other people and, if we are honest about it, even from ourselves.

Take the case of the traffic officer for instance, when he arrests an intoxicated driver, he does it so that the other motorists on the street or highway will not be endangered by someone who cannot drive safely. That is the sole purpose behind the work of the traffic officer. Every arrest he makes or warning he gives is to protect the safety of the public. If you have gotten a traffic ticket for some moving traffic violation, the officer actually did you a favor. Maybe you didn't look at it that way, but you should have! It cost you money, true, but at the same time, it reminded you that you had done something that was dangerous to you and to other motorists.

Why not start looking upon the traffic policeman and highway patrolman as a friend? If a man saved your life, you'd count him as a friend, wouldn't you? If a patrolman arrests a drunk driver or a driver of a car without headlights five miles down the road from you, then he has protected you from having to risk your life when you would have met them farther down the road.

He has done the same thing when he stops you and tells you that the tail light on your car is not working. He may have prevented your death or injury when a car ran you down from behind, unable to see your car because your tail light was not working. Simple? Yes, but important!

Law enforcement officers like Gentry, Brush, Robison, Lott and White are your servants. Let them know that you appreciate their efforts and can count on you for your support and cooperation. Learn to respect the men who work long hours each day to protect the health and safety of you and your loved ones.

Sales Tax Vetoed

In coming out against a retail sales tax by the Federal Government, President Eisenhower strikes another blow for States' rights and local government.

Clarence E. Manion, head of the new 25-member commission to study relations between units and levels of government, acclaims the Eisenhower stand as "very encouraging." That is, as a start toward easing the frictions between Federal and State Governments. Treasury Secretary Humphrey adds that his department advised that Washington should not invade the state tax field.

It is true that the President did not rule out the possibility of a much more widespread federal excise tax. Representative Mason of Illinois, a ranking Republican on the House ways and means committee, predicts that the administration will go for a flat 5 per cent excise tax on the manufacturers' level.

It has long been apparent that many of the excise taxes now in effect are grossly unfair. That is because they seek to narrow a circle of the products of industry. It would be far fairer to spread this burden of raising some five billion dollars a year in such taxes among a larger number of lines of industry.

Opposition to a stepped-up federal excise tax as merely a hidden sales tax may be expected to be loud and persistent. It may seem that, like the rose by any other name, it would smell like the same thing. But the consumer would be better off with an excise tax. That is because all taxes are passed on to the consumer in the final analysis, and a 5 per cent tax on, say, a tube of toothpaste at the manufacturer's price would be smaller than the same percentage tax levied on the retail price.—Dallas Morning News.

Chief Justice Warren

In naming Earl Warren to be Chief Justice of the United States the President has selected an American noted for integrity and fairness, long experienced in government, and possessing a middle-road political philosophy which appeals to millions in both parties.

These are splendid qualifications and support our hope that the California Governor will make as Mr. Eisenhower predicted "a great Chief Justice." This newspaper had urged the appointment of a man with one other qualification—judicial experience and distinction. This view was based both on a sound fundamental rule and on the special circumstances of the court, and we have not abandoned it.

The Supreme Court, as an equal branch of government and guardian of the Constitution, should be kept as far from party politics as possible. In recent years it has been gravely weakened by the appointment of so many members whose careers were made in politics, not in the law. Only one of its eight members had had any judicial experience above the level of a police court judge.

Aside from its effect on public confidence, this lack of experience has handicapped the expeditious handling of cases. It has been reflected too in an extreme and confusing multiplicity of individual opinions. For these reasons we hope that the President in future appointments will build up the professional standing and competence of the court.

Meanwhile we wish every success to the new Chief Justice. He has had good experience as a lawyer and administrator. His tact and moderate political philosophy should foster unity in the court and country. He himself speaks of compensating for "limitations with industry and faithfulness to the cause of constitutional government in America." Such humility and consecration are prime requisites of the greatness of the office and the times demand.—Christian Science Monitor.

I have been in the doghouse for several days now. My favorite brunette's favorite new pastime is nothing less formidable than home-made bread, but she caught me the other evening weighing one of her proudly-produced loaves on the bathroom scale.

It costs something like 40 cents a loaf to produce, and one good slice of it is a whole meal.

Ever catch yourself, either consciously or unconsciously, imitating someone else? It's a fairly common occurrence. There is something mysterious about Mr. Common Man that stirs him to emulate important people in order to look important to others and to seem important to himself.

This has been defined as vicarious identification. That's fancy language meaning that it makes us want to join the snobs and anticipate the salutes of those whom we imagine would like to imitate us.

But snobbery is an accepted, serious business. Without it our magazines of sophistication and fashion could not exist, they live on snob-appeal advertising Culture itself, without the support of people lacking the refinement they aspire to, couldn't keep symphonies, museums or colleges in business. The "Big Stores" on Broadway and Main Street would shrink to the dimensions of side-street grocerias if hats and gowns were staples like salt and sugar.

Then canvass the "Mutual Administration Societies" and the "West Side Hens' Club." Every dear Mrs. Woman is stretching her financial neck (and her husband's pocketbook) trying to "keep up with the Joneses." And Mrs. Jones is getting insomnia trying to maintain her leadership over her ambitious patriots.

But don't think we would put even a pebble in the path of progress. Ambition for excellence has promoted Mr. Common Man and his family from the mud huts of the Stone Age to modern apartments, TV sets and V-Eights. With all of the petty faults inherent with this worthy desire of betterment, it is the cosmic urge of rivalry in athletics, society and business. It is the fundamental urge to improve all humanity . . . starting with Mr. Common Man himself.

Robert, the ambitious boothblack at the West Side Barber Shop, might boost his annual gross with a sign like this one, which has done wonders for a shoe shine boy in Pine Bluff, Arkansas: Pedal habiliments artistically lubricated and illuminated with an ambidextrous facility for the infinitesimal remuneration of 20 cents."

One of the most pleasant people in Slaton is Miss Rusty Kitten, the

young lady who handles Slatonite society and a thousand and one other duties at the Slatonite office which would make an average person so preoccupied with his own duties that he wouldn't have the time for social pleasantries during working hours. But regardless of the volume of work heaped on Rusty's desk, she has an engaging smile and something pleasant to say to all visitors, and she shows a sincere interest in whatever news they may have to report.

Unlike most of us, she's never so busy that she can't be pleasant. She's among the few who do not need to remind themselves that: A smile costs nothing, but gives much. It enriches those who receive without making poorer those who give. It takes but a moment, but the memory of it sometimes lasts forever. None is so rich or mighty that he can get along without it, and none is so poor but that he can be made rich by it.

A smile creates happiness in the home, fosters good will in business and is the counter-sign of friendship. It brings rest to the weary, cheer to the discouraged, sunshine to the sad, and it is nature's best antidote for trouble.

It cannot be bought, begged, borrowed, or stolen, for it is something that is of no value to anyone until it is given away. Some people are too tired to give a smile. Give them one of yours, as none needs a smile so much as he who has no more to give.

Another and perhaps even more enviable quality about Rusty Kitten is that in the nearly two years in which I have worked across a desk from her I never once have heard her criticize anyone in any way. She just doesn't do it. And in fact, her unflagging genuine pleasantness has me convinced that she doesn't even think unpleasant things about other folks.

Take a bow, Rusty. You've acquired a couple of qualities that most other folks would like to have, but can't buy.

All summer long we bellyached about not having enough water to keep our yards in good shape. "Why don't they do something about it?" people asked each other. Then on Oct. 3 less than 110 resident property owners here went to the polls to register their approval or disapproval of the \$90,000 waterworks improvement issue. People is funny.

The Slaton Tigers will be up against a big, tough, impressive ball club at Floydada tonight. The Whirlwinds, partly because they'll be playing at home, rate as six- or seven-point favorites. You can help offset that advantage by making the trip tonight and lending your support to the Tiger cause. Boys play better ball when they know there are folks up in the stands who would like to see them win.

CULLING CALLED

DIREST OF NEEDS

After the laying flock has been in the house a short time, the poultryman should begin culling out the nonlayers. Unless a scientific method, such as the use of trap-nests or some other device, is used, the raiser must rely on his observations to detect the culls.

This can be done, of course, in pullets by watching the color of the beak, shanks, eye rings, and vent. If a bird is laying, the yellow pigment should begin to disappear. The vent especially is a clue regarding the bird's production; if it is large, moist, and faintly bluish, the bird is laying. If the vent is shrunken, dry, and yellowish, the bird is not producing.

How Often To Cull

How often should a flock be culled? That depends on the desired goal, but it is not too much to think of culling as a bimonthly job. In fact, when "continuous culling" is referred to, it means just that; whenever the poultryman notices an obvious nonlayer, he removes her from the flock.

One of the best ways to secure a good record of individual layers without trap-nesting, is to use colored leg-bands. Red, white, and blue bands may be placed on the left leg to indicate differences in the start of laying. Green bands may be used to mark those individuals that show a winter pause and molt. A black band may be put on every hen that goes broody, and the red, white, and blue bands may be used in reverse order, on the right leg, to indicate differences in the time that birds stop laying.

Handle 6 Or 7 Times

Under this plan, the entire flock will be handled some 6 or 7 times a year, and a very reliable index of laying ability will be obtained. It will lack only the quantitative character of a trap-nest record.

Egg production can no longer be "by guess and by gosh" to succeed. It now has to be done on a carefully-planned basis. Culling is one of the direst needs in most poultry-raising; too many poultrymen pass it over. But this is just where they lose money, for it is almost as difficult as drawing the proverbial blood from a turnip to get eggs from a nonlayer.

We have added

New Type Faces

The Slatonite is proud to announce that we have added four new type faces on the Linotype. This new type is primarily for commercial printing use although it will be used some in the newspaper.

Technically, the type added is 5 and 6 point Gothic, light and bold face, to be run in a split magazine on a model 14 Linotype.

For the people at large the following sample of this type is a little easier to understand. Following are samples:

THIS IS THE NEW TYPE FACE ADDED THIS WEEK.
THIS IS THE NEW TYPE FACE ADDED THIS WEEK.
THIS IS THE NEW TYPE FACE ADDED THIS WEEK.
THIS IS THE NEW TYPE FACE ADDED THIS WEEK.

This is just another of the improvements made at The Slatonite. We believe that our customers will like this type and also appreciate what we are trying to do for your newspaper and printing plant in Slaton. We do feel grateful to the people here for the wonderful help that has been given us.

Again we say, together we can build a better newspaper and a better town in which to live.

ADVISES WRITTEN CONTRACT FOR LANDLORD AND TENANTS

At this time of year, landlords and tenants alike are thinking about farm rental arrangements for 1954. While many operate from year to year on the basis of verbal agreements regulated largely by local customs, written leases are better and may save disagreement and hard feelings between the parties.

Farming is a business and should be conducted in a businesslike manner for best success. Rental contracts involve a full year's work by the tenant and possibly thousands of dollars for both parties. A few dollars spent on a property drawn agreement is good business economy.

A farm lease is not a simple paper. Printed lease forms often turn out to be traps if not understood, or if not properly executed.

A farmer-tenant contract is intricate and of such importance to both parties concerned that amateur draftsmanship is risky. Fixing of cash rent or designating the length of term are relatively simple. Yet, even in these matters, ambiguity or incompleteness can cause bitter disputes and expensive lawsuits.

A loosely drawn property description may have consequences entirely unintended by either the landlord or tenant. Where rent is to be based on acreage, an accurate description is doubly important.

In addition, there are legal rules to substitute for some omissions in written leases. For example, the tenant who holds over beyond his term may automatically renew the contract if the lease is silent on the subject. It is as important to know the results of omissions as to know the courts' interpretation of the language used.

There are many matters which should be covered by a properly drawn lease. For instance, if a tenant is to farm on a share basis, care should be taken to define what expenses are to be paid by the parties as well as what shares are to be taken out. A lease could cover such things as who is to make repairs, what land is to be cropped, whether the tenant can cut timber, whether loss of a building by fire or other cause frees the tenant, or whether the landlord must accept a sub-tenant.

One great cause of difficulty with leases is blind faith on the part of the persons involved that all differences of opinion can be worked out. Poor memories as to verbal agreements can cause disputes between persons even though they are both honest and generous.

Tests conducted at the Spur Experiment Station show that moisture penetration was doubled on cropland when cotton burrs were spread on the land. The mechanization of cotton harvesting is making more of this material available each year. Plenty of organic matter in the soil is an aid for fighting drought.

Local demand, quality, competitive buying and the time turkeys are ready for market along with location are factors which will influence the final price producers receive for their birds.

There are at least five reasons why planting seed should be treated. Seed borne diseases are controlled; the seed are protected in the soil; stands are improved; yields are increased and quality of the crop is improved.

The Texas Agricultural Experiment Station has just announced that a vaccine for controlling pinkeye in cattle has been developed.

Recent visitors in the home of Mr. and Mrs. August Kitten were Mr. and Mrs. Florence Wilde and Linda, Mr. and Mrs. Isador Hoelscher, all of St. Lawrence.

Three factors may hold the answer to how much time will be required to rebuild the depleted and drought stunted ranges of the state. Research done at the Sonora Experiment Station show the drain of past grazing, the kinds of grasses and the management practices used after rains finally broke the long dry spell to be of prime importance.

Tech-COP Clash Saturday Night Seen As Toss-Up

LUBBOCK OCT. 12—Some of the most wide-open football ever seen in Lubbock is expected when Texas Tech and College of the Pacific collide here Saturday night.

College of the Pacific, whose Tigers knocked off Stanford University in their opener, has two of the nation's top rated passers in Roy Ottoson and Bill Jacobs. Their favorite receiver, Ken Buck, has the most catches of anyone in the nation.

With a massive line and the hard-running Art Leibscher returning to haunt the Red Raiders again, the Tigers also move well along the ground.

Ottoson is the man who tossed COP to a 42-21 victory over Tech in Stockton last year. Jacobs is being hailed by an illustrious predecessor at COP, Eddie LeBaron, as "by the time he graduates, the best T quarterback in the nation." Jacobs is a sophomore.

Tech, with some fine running backs, may have to take to the air on the arms of three South Plains athletes—Post's Jack Kirkpatrick, Hale Center's Jerry Johnson, and Lubbock's Buddy Hill.

Bobby Cavazos of Kingsville, noted for his running, showed he could throw the ball in completing a 15-yard touchdown pass to Paul Erwin of Odessa as the Raiders bowed to Texas A&M 27-14 before 26,144, the largest crowd to see a game in West Texas, here Saturday night.

That tied the score at 7-7 in the second quarter, but a rugged, mobile Aggie line helped the Southwest Conference team grind out its victory. Don Ellis' passing was kept reasonably well in check, but Iraan's Billy Pete Huddleston moved well through Tech defenses.

Visiting Mr. and Mrs. Wilke recently was Mrs. Wilke's mother, Mrs. J. A. Taylor of Whiteface.

Jamie Lynn Hubbard of Coleman is spending an extended visit with her aunt and uncle, Mr. and Mrs. M. L. Abernathy.

Use Of Machines Shortens Cotton Harvest Season

Mechanical cotton harvesters threaten to make cotton gins a bottleneck to the cotton industry. This is caused by a greater amount of cotton being harvested in a shorter season than by hand picking.

Already capacity of gins frequently is inadequate to keep a-lease of harvesting at the peak of hand picking. And, as the shift from hand to mechanical gathering increases a balance established over the years between the size of the cotton crop and its rate of harvesting and ginning is further overturned.

In a study conducted recently by the Texas Agricultural Experiment Station to determine the effects of mechanical harvesting on the ginning business, ginners and growers alike agree that farm storage of seed cotton is the most logical way to relieve gin load during the busy season. The study initiated by J. M. Ward and W. E. Paulson, department of agricultural economics and sociology, Texas A&M College, College Station, and D. L. Jones, superintendent of the Lubbock Experiment Station was confined largely to the High Plains since machine stripping has been widely adopted in that area.

Three possible methods of easing the condition were considered. Storage in fields on farms won out over storage of seed cotton at gins and in farm buildings. Very few ginners favored gin storage because of fire danger.

Growers on the Plains in 1949 and 1951 chose full-scale stripping and farm storage over other possible solutions. As much as 90 per cent of the storage was on the ground in the cotton fields.

In further tests at the Lubbock Station field stored cotton received, one inch of rain and an additional two inches artificially applied with no decline in grade.

Results of the study are reported in bulletin 765, "Storing Of Seed Cotton," and is available from the Agricultural Information Office, College Station, Texas.

MODERNIZED WILSON STATE BANK SLATES FORMAL BOW TO PUBLIC THIS SATURDAY

Open house in the enlarged and completely remodeled Wilson State Bank will be held from 5 p.m. to 9 p.m. Saturday, Oct. 17, as announced this week by H. G. Cook, president.

The public is cordially invited to attend.

The bank now has a 50-foot stage instead of the former 25-foot stage and is 60 feet deep. The motto of "old-fashioned courteous service" is now coupled with one of the most attractive buildings on the South Plains. Bank officers are rightfully proud of the modernization.

The remodeling program began in 1922 and the bank was situated in temporary quarters adjoining the Wilson post office until the present sufficiently neared completion last week to enable moving into the new quarters on Oct. 6.

are a completely modern front with heavy glass doors, four new teller's cages, a 12 by 15-foot director's room, cork tile and vinylite plastic flooring, fluorescent lighting, 265 safety deposit boxes, a kitchen-dining room combination available for public gatherings, a new night depository service, a new I.B.M. accounting machine, and a new automatic Recordak machine to photograph all checks which pass through the bank.

The interior is finished in pleasing shades of pastel.

Bank Officers

Officers of the bank are H. G. Cook, president; W. G. Lumsden, vice-president; A. L. Holder, cashier; A. J. Holder, assistant cashier; and Ethel Covey, assistant cashier.

Bank employes include Mrs. Mozelle Nolen, teller and file clerk; Noah Cromer, teller; Mrs. Thioie Young, bookkeeper, and Miss Margie Owens, bookkeeper.

The directors are Callie Lumsden, H. G. Cook, W. G. Lumsden, H. B. Crosby, Mrs. Johnnie Mae Cook and A. L. Holder.

Organized In 1919

The Wilson State Bank was organized in October, 1919, and was first situated in the rear of the Wilson Mercantile building. It remained in that location until the bank situated in its present location in November, 1923, in a new 25 by 60-foot building.

William Green was the bank's first president, and his son, William D. Green, was president from 1927 to 1945. L. Lumsden, who had been vice-president under the senior Mr. Green, was president from 1945 until his death in October, 1951. Then H. G. Cook moved up from the vice-presidency to president.

Cook has been with the Wilson State Bank since Jan. 1, 1924, at which time he was employed as a bookkeeper.

At the close of business on Sept. 30, the bank's official statement of condition showed resources totaling \$1,297,915.32.

ATTEND HOMECOMING

Rev. and Mrs. Elmer Crabtree are spending the week end in Amherst where they will attend a Methodist Church homecoming. Rev. Crabtree will preach at the Sunday service at Amherst.

Ask Texans To Eat More Beef

ABILENE—Texans, who take pride in boasting of their state as the world's biggest cattle range, are being asked to eat more beef this fall.

With an already low-price picture to stare at, cattlemen have been told by their own industry representatives and by government authorities to expect a heavier-than-normal marketing of grass-fed cattle during the period Sept. 15 - Oct. 31.

The Texas and Southwestern Cattle Raisers Association has called on the West Texas Chamber of Commerce to "do something," and a statewide campaign is now underway to encourage greater per-Texan consumption of beef during this period.

The program was planned in July by the WTCC's agriculture and livestock committee with the assistance of restaurant, hotel, grocery and bankers associations as well as railroads and meat packers, state press and advertising associations, and from the U. S. Department of Agriculture, the National Livestock Board and the American Meat Institute.

"It's a cooperative venture of Texas business to help a Texas industry to help itself," says R. M. Fielder of Abilene, chairman of the regional chamber's agriculture and livestock committee.

Emphasis is being placed on appealing to the Texas housewife to use more of the lower-cost cuts of beef in preparing her meals.

Mrs. Unic Vaughn of Petersburg visited with her daughter and son-in-law, Mr. and Mrs. O. L. Doyle over the week end.

Week end guests in the home of Mr. and Mrs. J. A. Elliott were Mrs. Elliott's sister and family, Mr. and Mrs. C. R. Tato and son, Paul, of Amarillo.

OPEN HOUSE—The enlarged and completely remodeled Wilson State Bank will be the scene of an open house to be held from 5 p.m. to 9 p.m. Saturday, Oct. 17. The bank, a Wilson organization since 1919, now is in 25 by 60-foot quarters

completely modern in every respect as a result of an enlarging and remodeling project which began in June. The public is cordially invited to attend tomorrow's open house to inspect the building and bank facilities. (Slatonite Photo)

After House No. 2 has been sold, the sale will move to House No. 3, as hereinabove described.

IT IS FURTHER ORDERED that the above described houses and improvements be sold for cash only at the above described time and place to the highest bidder on each improvement. The County of Lubbock herein reserves the right to refuse to accept any and all bids which are not being satisfactory and to the best interest of the County.

IT IS FURTHER ORDERED by the Commissioners' Court that as a condition of any sale and purchase of the above described improvements, the highest purchaser at public sale shall understand, promise and agree that he will remove the purchased improvement from the right-of-way tract within and not later than thirty days from the date of sale, the same being the 7th day of December, 1953, and that if the improvements as purchased are not removed from the property where situated by the 7th day of December, 1953, the said sale to said purchaser shall be deemed null and void for all intents and purposes and the County of Lubbock shall have the right, power and authority as legal owner of the property to remove the improvements as the Commissioners' Court shall deem to be the best interest of the County.

Read and passed on this the 12th day of October, A. D. 1953, Lubbock County Commissioners Short, Green, Isom and Stokes voting "Aye," None voting "No."

Mahon Explains His Concern Over Control Program On Cotton Acreage

Congressman George Mahon reports that many cotton farmers have expressed concern over the anticipated impact of the cotton control program which is expected next year. Mahon has issued the following statement on the situation:

"I think the concern over the administration of the anticipated cotton acreage control program is well founded. The principal difficulty arises over the question of what weight should be given to the drought in making allotments. But aside from the drought many difficulties and inequities are in prospect.

"Congress provided in the law that abnormal weather conditions must be taken into account in arriving at allotments. I joined with other Texans in urging that land prepared for planting to cotton this year should be measured on individual farms and fully considered. PMA officials in Washington rejected this request as being impractical but maintained that when state allotments were granted drought conditions would be taken into account.

"But my fear is that drought conditions will not be adequately taken into account. I feel that there ought to be an accurate record of all acreage planted to cotton, all acreage prepared for planting to cotton but not planted or which may have been subsequently planted to a cover crop of feed or otherwise. Upon that basis reasonably fair allotments could be made. Likewise it is important that the effect of the drought be considered for the previous dry years included in the base period.

"It is true that cotton acreages in 1953 will not be considered in arriving at allotments for 1954 but the year 1953 will be taken into account fully in following years and the matter is of the greatest importance. If we have an acreage control program in 1954, the county allotments will be based upon the previous three year period, excluding 1953.

"I am advised that the county PMA officials have considerable information on hand in regard to the facts of the situation and I have again addressed a further appeal to PMA officials in Washington and College Station, urging that the true facts be ascertained and taken into consideration in any future control programs. I have pointed out that several hundred thousand acres of cotton land are involved in this problem and the welfare of thousands of cotton farmers.

"Recently I have suggested to county officials of the PMA that if possible they take the initiative in certifying to the State Office a figure which includes actual cotton acreage plus acreage which would have been planted except for abnormal weather conditions."

QUITE A DIFFERENCE

A hardy fixture of the Old Sod left Ireland and came to America. After a year's time he sent for his wife.

"Goodness," she exclaimed on her first day here, "but don't they talk funny in this country!"

"You think they talk funny NOW?" exclaimed her husband. "Why, you shoulda heard 'em when I first got here!" — Santa Fe Magazine.

Mr. and Mrs. H. T. Scurlock attended the funeral of Mr. C. S. Taylor in San Angelo Monday.

Egg production in Texas during July totaled 208 million compared with 224 million last year. Production for the first seven months of 1953 was down 220 million.

With acreage controls back in the picture, high acre yields become even more important. Legumes grown for soil improvement will help boost yields.

STATISTICS SHOW REYNOLDS RAN WILD AGAINST BULLDOGS

The statistics sheet on Slaton's jarring 46-0 conquest of the Amherst Bulldogs here Friday indicates that the occasion might appropriately have been termed "Jerry Reynolds Night."

The 139-pound senior quarterback for the Bengals had quite a night for himself, as evidenced by the following statistics:

He ran for three touchdowns on jaunts of 70, 5 and 6 yards re-

turned a punt 45 yards for another, and carried for one point-after-touchdown to score 25 points and boost his season scoring total to 86 points, or an average of slightly better than 17 points per game.

Reynolds also completed a pair of fourth quarter passes for touchdowns, one for 58 yards to Felix Wylie and another for 44 yards to Joe Sparkman, and flipped two more aerials—to Harold Troutt and Darrell Wiley — for points after touchdown.

Good Average

The little tailback carried the ball 26 times for a total of 158 yards, or better than 6 yards per carry, and would have had a considerably higher average had he not been nailed for three long losses while hunting receivers on intended pass plays.

Reynolds completed 9 of 14 passes for a total 203 yards and had only one intercepted. He connected with Sparkman on four occasions, completed three aerials to Darrell Wiley, and found Felix Wylie and Ronald Smith once each.

Sets The Stage

Then early in the fourth period Reynolds made an almost impossible interception of an Amherst pass at the Tiger 42-yard-line to set the stage for the fifth Tiger touchdown, which came on the next play when he fired a breathtaking 58-yard aerial to substitute Left Halfback Felix Wylie.

Too, the little quarterback played head-up defensive ball, and called his offensive shots almost to perfection in guiding the Bengals to their fourth consecutive triumph against non-conference opposition.

In routing the Bulldogs, the Tigers compiled 16 first downs and rolled to an almost unbelievable net offense of 500 yards. They picked up 203 yards through the air and got another 297 net yards on the ground. The Bulldogs, meanwhile, could garner only five first downs and a net offense of 110 yards. On the ground, the Bulldogs picked up 49 yards but lost 43, so their net ground offense at game's end was a mere six yards. Their other 104 yards came on completion of 9 out of 21 aerial attempts.

Breaks About Even

The Tigers drew five penalties for 45 yards, while the Bulldogs were penalized on four occasions for a total of 30 yards. Both teams lost the ball once on fumbles, and

Spectacular eruption of the volcano Krakatau climaxes Republic's magnificent romantic drama in Trucolor, "Fair Wind to Java," which will show Saturday at the Slaton Theatre. Stars Fred MacMurray and Vera Ralston are pictured at left in a scene from the thrilling film.

Clark Gable and Gene Tierney co-star for the first time as the lovers of "Never Let Me Go," M-G-M's romantic action-drama which closes a two-day run today at the Slaton Theatre. Gable is seen as an American newspaper correspondent who rescues his young Russian wife from behind the Iron Curtain.

points, or slightly better than 39 points per game. They have limited their opponents to 39 points, or less than 8 points per game. The Tiger offense has rolled for a net 1772 yards, an average of 354 yards per game, and Tiger opponents have compiled a net offense of 944 yards, or 189 yards per game. Only Coahoma has scored more than one touchdown against Bengal defensive barricades. The Tigers have compiled 59 first downs against 47 for their five opponents.

Tiger scoring to date is as follows: Reynolds, 86 points; Sparkman, 57; Fondy, 21; Smith, 21; F. Wylie, 6; D. Wiley, 3, and Troutt, 3.

Copper-Whiskered Wooden Mouse To Feature SW Bell's Fair Exhibit

Philbert, the smartest mouse this side of Hollywood, will be the star performer in the Telephone Exhibit at the Texas State Fair in Dallas, and one of the hits of the exposition, predicts Manager J. C. Oakley of Southwestern Bell Telephone Company here.

The educated electronic mouse will make his first public appearance in the Southwest at the Fair. He can find his way through a large variety of complicated mazes to a piece of "cheese" at the end, and then remember and retrace his path through the winding passage.

Philbert is carved from wood, has copper whiskers, and is actuated by telephone relays or switches, the same as are used to furnish telephone service, Oakley said. The antics of the little rodent are comical when he is searching his way through the maze, but he is strictly business when he goes over the path the second time from memory without any hesitation and without veering to

the right or left. Rivaling the long-memoried mouse in interest at the exhibit will be a demonstration of the transistor, which has been called the most important electronic discovery since the invention of the vacuum tube, according to the manager. An invention of telephone scientists, the tiny transistor is expected to replace vacuum tubes in many communications jobs. This little gadget, about the size of a .22 calibre cartridge, may make wireless telephones and even perhaps "Dick Tracy" wrist

radios possible. One of the transistor-powered devices shown at the exhibit will be a short-wave radio transmitter about the size of two packages of king-size cigarettes.

Sunday visitors in the home of Mr. and Mrs. W. R. Mabry were their daughter and family, Mr. and Mrs. A. C. Bolton and sons of Lubbock.

Mr. and Mrs. O. D. Kenney returned home Sunday from a two-week's vacation. Their son, Alton, who was stationed in San Francisco received his discharge from the Marine Corps Oct. 2. They also visited their daughter and her husband, Mr. and Mrs. R. D. Parise in Seattle, Wash.

Modern Art Takes a Licking!

Did you know we had a real artist in town? Yes sir! Handy Jackson was a contributor to the Sculpture Exhibition at the Centerville Fair last week.

His work was streaky pink and curved all around—sort of streamlined. Caused quite a stir. Nobody was sure what it was supposed to represent, but some liked it and thought it was good art. Handy gave me the lowdown.

"Why, it was nothing but a piece of cattle salt our cows have been lickin' at for months. I just had it mounted. Fooled a lot of folks—one fellow even wanted to buy it!"

"From where I sit, Handy's 'modern art' just shows how some people can be led astray. Some even get to be 'experts'—especially about the other fellow's business. Whether it's art or music, or a simple thing like choosing, say, beer or milk with a snack, we should live and let live. There's no call for either of us to set ourselves up as a 'model' for the other!"

punt at the Amherst 45 and shot down the left sideline to score, with Shearer and Fondy helping pave the way. Ronald Smith carried around left end standing up for the point-after-touchdown.

It was a heyday for Tiger field general Jerry Reynolds, as seen from the statistics story which may be found elsewhere in this issue. Tommy Shearer, lanky Bengal center, turned in his outstanding defensive performance of the year, intercepting a pass and recovering a fumble, and getting in on a king-sized portion of the tackles.

Darrell Wiley, in addition to his usual stellar defensive performance, caught three passes and turned in several good downfield blocks to help clear the way for Tiger thrusts around end.

Barry Bearden, burly 170-pound Bulldog right tackle, was outstanding for the visitors.

**Why Excess Weight?
Asks Nutritionist**

Why excess weight? You may have certain excuses, but most of them like, "All my family is fat" are probably untrue. You can blame your skeleton on your ancestors but not your excess weight.

Jimmie Nell Harris, foods and nutrition specialist for the Texas Extension Service says overweight is invariably caused by eating more calories in food than you use as energy. According to the Federal Security Agency, obesity has probably replaced the vitamin deficiency diseases as the number one nutrition problem in the United States.

The first step in weight reduction, Miss Harris says, is to decide that you will reduce. Then, check with your doctor and have a thorough physical checkup, get his approval of your plan and continue to check with him as you lose weight. Find out how much you need to lose for a normal weight, plan your diet and stick to it. Be sure your reducing diet is a sound one; beware of fad diets, reducing pills, and losing too fast. There are no tricks to reducing, and a good reducing diet is not freakish. Check your diet by these standards: is it safe calorically—low enough to reduce your weight and high enough not to reduce vitality and feeling of well being? It is best not to lose more than one or two pounds a week. Is your reducing diet adequate nutritionally and does it include popular every day foods? A reducing diet should be low in calories only. It should still provide all the other nutrients necessary for a good diet. And this isn't hard to do if you use the Texas Food Standard as a guide in planning.

First of all, start off with a good breakfast. This is one of the most important meals of the day and continues to be true in a reducing diet. You'll be less apt to get hungry and it will be easier to follow the diet. Select a diet pattern that supplies about 1400 calories a day to enable the average woman to lose one or two pounds a week. Very active persons and men probably need to increase this number. In no instance should your diet supply less than 1,000 to 1,200 calories unless you have special and constant contact with your doctor.

Miss Harris suggests this diet pattern to supply about 1,400 calories a day:

Breakfast

Citrus fruit or 1/2 cup of Juice
2 eggs — 1 thin slice bread
Medium pat of butter — Milk

Lunch

Meat - 4 ounces
Green vegetable or fruit - 2/3 cup
Milk

Dinner

Meat - 4 ounces
Potato - small - butter
Fruit or vegetable
Milk

Use salt sparingly, the specialist advises. If you prefer, you can drink skim milk and add the extra calories in some other food.

Once you gain your new figure you will want to keep it. Increase your food gradually so that you maintain a constant weight and remember to keep your diet adequate.

Remember, the specialist says, the first step is to decide you want to do something about overweight, see your physician and get his approval, and then make a plan you can follow.

On Sept. 28, 1923, Lt. David Rittenhouse, USN, in a Curtiss-Navy seaplane, won the Schneider Cup Race at Cowes, England with a speed of 177.38 mph. Lt. Rutledge Irvine, USN, also flying a Curtiss-Navy seaplane, placed second with 173.46 mph.

Brandt-Teinert Double Ring Vows Read Sunday In An Evening Church Ceremony

Before an altar banked with white chrysanthemums and greenery and lighted with white tapers, Miss Betty Brandt exchanged wedding vows with Hubert T. Teinert Sunday evening at 6:30 in a double ring ceremony at the Emanuel Lutheran Church of Littlefield. Rev. Louis Tabor officiated. Rev. P. W. Schumann of Wilson officiated.

Raymond Hahn and Bill Brandt were candle lighters. They also acted as ushers. Donna Larue Teinert, dressed in white net, was flower girl and Keith Martin Wuensche, Jr. served as his cousin's best man and Ralph Droegge was a groomsman.

A reception followed in the community center. The refreshment table, covered with a lace cloth over green, was centered with the bouquets of the bride and her attendants. Mrs. Leland Stange, Mrs. Hubert Gohlke, Misses Ruby Faye and Clara Teinert and Miss Frances Wuensche assisted in the hospitality.

The couple will be at home in Wilson after a short wedding trip to Ruidoso, New Mexico. For traveling the bride wore a mauve suit with brown accessories and an orchid corsage. Mrs. Teinert is a graduate of Littlefield High school in the class of 1953. Mr. Teinert is a Wilson High School graduate and is now engaged in farming.

Guests were present from Lariat, Plainview, Lubbock, Coppavas, New Braunfels, and Temple.

Mrs. Leslie Heuber and Ann Heuber sang "Oh, Perfect Love" and Rev. Heuber sang "The Wedding Prayer." They were accompanied by Miss Martha Neuenschwander at the piano.

The bride, given in marriage by her father, wore white slip and satin with a net yoke attached to a tight fitting bodice with lace ruffle. The floor length dress was buttoned down the back with self covered buttons and had a tiny collar and a fitted hip line. The finger tip train was edged with lace was attached to a headpiece of pearls and orange blossoms. The bride carried a white Bible topped with a red ribbon.

Mrs. Hubert Gohlke of Roswell, N. Mex., matron of honor, wore a dress of mauve nylon, a present shaped headpiece and carried white daisies. Miss Ruby Teinert, sister of the bride, was a bridesmaid. She

was dressed in gold nylon with white net overskirt. Her headpiece was similar to that worn by the matron of honor and her flowers were also white daisies. Miss Jane Brandt, sister of the bride, was junior bridesmaid and wore a gown of turquoise net with white net overskirt.

Howdy Folks; Considering the weather, this should be a cold column. This is the season that's so cold even the wind howls about it.

Cold Weather Advice

If you wish to have a short winter, have your note come due in the spring.

Summer has ended: winter drawers on.

This is the time of the year when every one wants a thermometer. If you haven't one, get it now; they'll be a lot higher in summer.

The first real touch of winter is the fuel dealer's.

Why go south for the winter when you have so much winter here?

And why go elsewhere for good Automotive Attention, when we can serve your needs so thoroughly?

We'd like to have you for a customer. We'll try hard to please.

SOMETIMES EVEN THE TWINS DON'T KNOW WHO'S WHO

"Look, there are two of him," is a surprised comment still heard in Slaton from people who see Ray and Raymond Wilkins together for the first time after seeing each boy alone over a period of months and thinking it was the same boy. There are still a number of Slaton residents who don't realize that that friendly fellow who seems to get around so much is actually not always the same fellow, but one of a set of identical twins, 17-year-old sons of Mr. and Mrs. R. C. Wilkins, and Slatonites for the past six years.

The boys' names add to the confusion because Ray could be short for Raymond, and both will answer to either name. It was just as confusing in Arkansas, where they grew up, because from the time they were babies they have been so identical that the old saw applies—"As alike as two peas in a pod."

The twins are 5' 8" tall, weigh about 145 pounds, have brown hair and butch haircuts in the process of growing out. They have brown eyes with that special sparkle seen in the eyes of very witty and very happy people. They have a nice sense of humor and they like being identical twins. What's more they make the most of the situation. There's no end to the fun they can have confusing people. And it's easy to do because their voices are alike; they have the same walk, stance, talk with their hands in identical motions, and their mobile faces light up the same way when they speak.

Ray and Raymond not only look and act alike; they like the same things, and they even think alike. Very often they say the same thing at the same split second. And these spittin' images of each other like one another very much—naturally. A fellow who couldn't

Dudes Then And Now

like a reprint of himself would be in bad shape. They don't like to be invited to go somewhere separately because neither can have as much fun without the other present. They usually double date, but about a year ago Ray was going with a girl from Southland and one night the twins pulled a switch and Raymond rode to Slaton with her. They say when she found out what happened, it made her so mad she wanted to kill them both.

When they have a class under a new teacher one will answer roll call, "Raymond Wilkins," and the other will say, "No, I'm Raymond;

Seeing Double?

It is assumed that Ray Wilkins is on the left and Raymond on the right. The reason for the assumption is that the twins are usually photographed together with Raymond on the right to simplify identification. (Slatonite Staff Photo)

you're Ray," and they proceed to argue about their own identities. It's just in fun now, but when they were small the ditto brothers really didn't know which was which because they always answered to both names.

One Saturday when both boys were working at the laundry, a customer said she thought that was the fastest kid she had ever seen; she just didn't see how one boy could be in so many places at once. When they had their pictures made at a studio they received only one finished picture because the man who printed them thought it was two proofs of the same boy.

Their grandparents can't tell the replicas apart to this day, and they think it funny that their parents, especially their father, still confuse their identity almost every day. But look who's laughing. When they show pictures of themselves, even recent ones, they will say, "This is me—no, it's my brother," and they have little debates about who is on the left and who

is on the right. Who can blame them? Who could tell?

It's hard to say whether they answer to both names out of mischief or courtesy. Many people find it impossible to distinguish between the indistinguishable brothers and are embarrassed at calling the wrong name. Others have found a unique solution to that problem. They greet either boy as Ray and if that doesn't seem to bring a bell they just add—mond. Raymond says if you are an identical twin you have twice as many friends as other people—or was it Ray who said that? Anyway they agree. These duplicate copies have no trouble agreeing on what to buy when they shop for identical clothing; they like the same things, but sometimes they have trouble finding two garments in the same style and size. Years ago their mother took one twin to a dry goods store and bought him shoes, then went with him to another department of the store while their father was fitting the other twin with the same style shoes. The conscientious clerk informed Mr. Wilkins that his wife had already purchased that very shoe for the little boy.

This year Ray and Raymond have the same classes in high school. They always try for the same schedule, but were separated last year because Raymond went out for sports. The versatile twins have no objection to helping their mother in the house, and are both good cooks. The first time they were allowed to wash dishes they broke a cup and cried for fear they wouldn't be allowed to wash them again. That would never happen now; they prefer cooking to cleaning up these days.

The twins plan to continue to be identical, even to the extent that they think when they are grown and established in business, they will probably live in identical houses and drive the same make of car. They are both working now in their spare time, Raymond at the Laundry and Ray at Western Auto. When Raymond stops in to see Ray during the lunch hour, Ray's boss, Bill Welch says, "What are you doing back so early, Ray?"

How would you like to be two of you instead of just one? How would you like to have an exact replica of you in the family? How would you like to meet your double on the street, in class, at home? The identical Wilkinses say it isn't double trouble; it's just twice as much fun.

Pvt. Edward Maeker is spending a twelve-day furlough at home with his parents, Mr. and Mrs. Ed Maeker. He was inducted May 13, 1953 and was stationed at Camp Roberts, Calif. He will report to New Jersey Oct. 15 and from there be shipped to Europe.

Delbert Geer, who is in the Navy, flew home last Monday on an emergency leave to be with his mother, Mrs. C. E. Geer, who is ill. He is stationed on Mare Island off Vallejo. He will report back the 24th of October. He expects to be sent to Alaska when he returns.

Far East (FHTNC)—Aboard the destroyer tender USS Frontier here is Eddie L. Faulkner, ship's serviceman seaman, USN, of Route 1, Slaton, Tex. The Frontier is a floating base. A ship moored alongside the tender can have anything repaired from a simple clock to the most intricate radar gear. She can draw supplies ranging from tiny screws to five-inch gun barrels. The ship also provides dental and medical treatment.

This year the tender has completed work on vessels from the size of a 26-foot motor whaleboat to the battleship USS New Jersey. Pfc. E. P. White writes that he is temporarily stationed at the air base at Othello, Wash. According to White, all he ever sees there is sagebrush and jackrabbits, and the sand blows as bad as it does here in our worst standstill seasons. He says he can't even get any western music and that most of the citizens of that area don't even know what a guitar is. Pfc. White expected to get a Christmas furlough, but says it may be January before he can come home because so many men want Christmas furloughs. He talked recently with Walter Womack's brother who is stationed in Washington.

Pfc. Joe Schilling, son of Mr. and Mrs. Herman Schilling, has recently been promoted from the rank of Private. He has been on maneuvers and expects to be out in the field off and on until in December. He has done a lot of traveling and finds Germany very interesting. He is studying the German language. Joe tells about a football game he saw at Nuremberg between the Division Artillery and the Nuremberg Army, a 40-0 victory for the Artillery.

Mrs. Douglas Wilson, Mrs. C. S. Wilkins, and Mrs. W. R. Wilson attended a Guest Day Tea of the Study Clubs of Ralls last Thursday. Mrs. W. R. Wilson was a member of one of the clubs when she lived in Ralls.

Visiting with Mr. and Mrs. Finas Griffin this week are Mrs. Griffin's sister and daughter, Mrs. Wiley Baker and Kathy Lynn of Muleshoe.

W. H. Eanes who has been in the Veteran's Hospital in Big Spring for two weeks will be sent to the Veteran's Hospital in McKinney for further treatment.

Visitors in the home of Mr. and Mrs. W. O. Townsend last week end were their son and family, Mr. and Mrs. Carl Townsend, Genevieve and Glenda, of New Mexico.

When you want to GO
You want DYNAFLOW*
(We mean T.T. Dynaflow!)

THE GREATEST
BUICK
IN 50 GREAT YEARS

No doubt about it—as thousands of prideful owners will tell you.

When you press the pedal of a 1953 Buick with Dynaflow, you move.

You move with instantly responsive getaway, with great quiet, with truly infinite smoothness. You move in this special and spirited and soul-satisfying manner because you're bossing Twin-Turbine Dynaflow—where two turbines, instead of one, now turn out the magic.

We can put pictures before you to show how TT Dynaflow delivers its sensational performance and flowing-oil smoothness. And we will, if you ask.

But surely you ought to take the wheel of a 1953 Buick with this big-thrill wonder drive and let your own sensations tell you how wonderful it is.

You ought to try it for getaway, for cruising, for

suave deceleration—for the sheer and restful comfort it gives you every step of the way.

And, very definitely, you ought to try it for the power that goes with it...

For the highest horsepower and compression ratios, Series for Series, ever placed in a Buick—including the power of the world's newest V8 engine in every SUPER and ROADMASTER.

Why not come in and try out this terrific performance team of Buick power and TT Dynaflow?

We're ready, willing and eager to show you what you've been missing—and how easy it is, price-wise, to have it. Can you drop in on us for a no-obligation sampling—this week?

AYERS SUPREME EGG MASH

EXCEPTIONAL RESULTS AT NO EXTRA COST

FEEDING FOR MORE EGGS

The average sized hen consumes about 64 pounds of feed per year just to maintain her body and about 9/100 of a pound of feed to produce one egg. Thus hens laying 250 eggs per year will consume an average total of 86.5 pounds of feed (mash and scratch), or 4.15 pounds of feed for each dozen eggs. Now compare these figures with the consumption of a hen that lays only 100 eggs per year. She will consume a total of 73 pounds of feed, but this amounts to 8.8 pounds of feed per dozen eggs—or 4.65 pounds more than required by 250-egg hens. This clearly shows the profit-value of high producing hens that are fed properly. USE AYERS SUPREME 20% PROTEIN EGG MASH.

Most-liked low-priced car

... among people who want more for their money when they buy ... and more money when they sell!

There's a big reason why more folks are buying more Fords than ever before. No other low-priced car offers so many of the things people want and need for today's driving. In fact, to get such "Worth More" Ford features as a V-8 engine, completely automatic transmission and fine-car power steering in any other car, you'd have to step well up from the low-price field.

Of course, Ford owners will discover that Ford's worth more when they sell it, too. Surveys of used car prices show year-old Fords returning a higher proportion of their original cost than any other car.

because it's most like high-priced cars

... more and more people are considering Ford as the one fine car in the low-price field!

It's hard to believe that a car which is built like the finest still sells in the low-price field. Yet a Ford with its hultight Crestmark body, its Full-Circle Visibility (most in its field), its new fine car ride and roomy luggage locker (roomiest in its field) delivers at a figure that keeps it right down in its price class.

Ford's only low-priced car which offers you a choice of a completely automatic transmission (Fordomatic), Overdrive or Conven-

tional Drive. And Ford Master-Guide, available on all V-8 models, is the last word in power steering ... makes turning up to 75% easier, yet retains the natural feel of the wheel on the straightaway.

See ... Value Check ... Test Drive the Ford of your choice at your Ford Dealer's. Find out why Ford is America's "Worth More" car.

FORD

Ford's V-8 is the same type of engine powering America's finest (and costliest) cars. And Ford's Mileage Maker Six is the most modern Six in the industry.

ELECTRIC COOKING!

Mrs. Jackson finds electric top-range cooking cool and clean. All the heat goes into the food to be cooked—none spills over to heat up the kitchen.

She likes the even baking and economy of electric oven-baked cookies and other pastries, pies and meats. Meat shrinkage is at minimum with electric baking.

Too, she likes the easy method of preparing timely meals. Before going out, Mrs. Jackson sets oven controls—meals cook electrically while she's gone.

She says—

"Some of the outstanding features I like about electric cooking are the cleanliness and the coolness of my kitchen, the easy method of preparing timely meals, the even baking and economy. For my family of four, it costs only a few cents a day to prepare the meals."

Last week's frost, one of the earliest on record for this area was very costly to irrigation farmers, and to some dry land farmers. Irrigation farmers suffered the biggest loss because watered cotton was still green and sappy and was harder hit, and the irrigated cotton had more undeveloped bolls that will not mature due to the frost.

In a double ring ceremony read Thursday at 7:30 p.m. in Slaton Church of Christ, Miss Joan House, daughter of Mr. and Mrs. J. L. House, exchanged marriage vows with Marcus Lee Crumbley, son of Mr. and Mrs. H. M. Crumbley.

Miss Nancy Hoil Thompson, 215 Newcomb St., S. E., Washington, D. C., daughter of Mrs. Hoil Payton Thompson of Troutman, N. C., became the bride of Charles Edward Sokoll, United States Air Force, son of Mr. and Mrs. Charles Sokoll of Southland, at Bolling Air Force Base chapel with Chaplain Mark J. Rogan, Major, USAF, officiating.

Friends gathered at the home of Mrs. A. J. Buskemper for a surprise birthday party honoring Miss Dorothy Mae Buskemper on Saturday night, Oct. 11. Games were played during the evening with prizes for highest scores being awarded to Miss Mary Lou Kitten and Cpl. Joe Kitten. Low score award went to Franklyn Heinrich.

Mrs. W. E. Smart and her sister, Mrs. Ernest Wallace of Los Alamos returned Monday from a trip through Texas.

Visiting Mr. and Mrs. C. F. Austin, southeast of Slaton, are Mr. and Mrs. Charles Austin and family of Orange and Mrs. W. C. Crawford and Mike and Billy Charles Crawford of Albuquerque, New Mexico.

Rev. and Mrs. J. L. Mayhew and J. L. Jr. are visiting in Winters this week end and will go to Homecoming at McMurry College, Abilene, Saturday. They plan to visit their daughter, Charlene.

FIVE YEARS AGO IN SLATON

Mrs. H. G. Sanders announced this week that she has sold the Texas Grocery to W. F. West, who took over the management the first of the week.

Leo Henry Wendel, son of Mr. and Mrs. Leo A. Wendel enlisted in the United States Air Force for a 3 year period.

On Monday night, Oct. 8, an Indian Pow Wew and Boy Scout Circus is to be held at the Slaton Football Stadium.

The sheriff's department Monday afternoon investigated two burglaries which occurred here on Sunday night. The Slaton Pharmacy had been broken and entered at a back door. Taken were \$67.43 in money, and a quantity of pen and pencil sets, other pens, and a few watches. The C. H. Sartin service station was entered through a rest room window, which was smashed. Eight tires, five tubes, six cases of oil and 24 bottles of oil were reported taken.

The condition of Harmon Thompson, who was seriously hurt in an accident at Hindman last Monday afternoon, was reported late Wednesday as being slightly improved. The accident occurred when a gravel loading machine fell on the freight car on which Mr. Thompson was working and he narrowly escaped being killed. He suffered several broken vertebrae, one rib was broken and he was severely bruised. He will be confined to the hospital for some time.

A reunion of the immediate family of Mrs. Robert Maeker was held last Sunday, Oct. 10, at the spacious home of Mr. and Mrs. Chris Schnell. Plenty of Czech and German food and refreshments were prepared and served throughout the day and evening. Dominoes and other games were played during the afternoon.

War Ration Books No. 4 will be issued next Friday and Saturday, Oct. 22 and 23, from the Slaton Club House, under the direction of Professor M. S. Kavanaugh, who will be assisted by Earl Brasfield, principal of the Slaton High School and R. M. Nash, who is director of Business Instruction, by members of Mr. Nash's classes, and by Briggs Robertson.

Slaton may have done fairly well in the Third War Bond Drive, but the slump in War Bond sales has certainly hit since the Drive closed, says Postmaster Kirby Scudder at the Post Office. Unless more Bonds are bought within the next two weeks than have been bought in the last two weeks, the month of October will be a record breaker, said Kirby, and the record will not be one of which we should be proud.

The Canning Center at Junior High School on West Lubbock will open again this next week. The days will be Tuesday, Wednesday and Friday afternoons from 1 to 5. All women in Lubbock County are invited to take advantage of this opportunity.

With the approach of winter and both the Army and the Navy in great need of more cold weather garments, a special appeal for more knitters has been issued by Mrs. J. H. Brewer, chairman of Knitting Production.

Mrs. Claude Young, Jr., of Riverside, California, is visiting her parents, Mr. and Mrs. H. C. Maxey.

Mrs. J. O. Orton and son, David, and Mrs. Webber Williams, Glynna and Webber B., are visiting over the week end in Abilene.

Allen Ferrell has returned to Slaton after spending about seven months in Belen, N. M. He will work out of this division.

EVANS HIGH SCHOOL QUEEN—Miss Katherine Hammons was crowned queen of Evans High School in halftime ceremonies at the Evans-Plainview homecoming tilt here Thursday night, Oct. 8. Placing the crown on her head is Milton Granville, EHS principal. Runner up in the queen contest was Pearl B. King. Despite good attendance and a colorful halftime ceremony, Plainview spoiled the Wolverine homecoming, 50-6. (Slatonite Staff Photo)

LONE STAR Agriculture

Released by The Texas Department of Agriculture

By John C. White, Commissioner

New Seeding Method

The problem of how to establish a good grassland crop may now be close to a solution due to experiments conducted during the past year.

The farmer has long been troubled by the puzzle of how to give grass seed: a good footing in the soil. In most cases, he still relies upon the old "broadcast" method—a system prevalent during Biblical times. Now, a new type of "precision planting" is showing excellent results.

Precision planting calls for drilling of grass and clover seed at a depth of one-fourth inch. One inch below these seeds have been placed a band of fertilizer. Soil is then packed over the seed.

The advantage of fertilizer placement in a band below the grass seed became evident soon after the plantings were made in September of last year. Although seedlings in all test plots were up within a few days, those in which the fertilizer had been "banded" one inch below the seed, developed most rapidly. Weeds also were less prominent in the "banded" plots than they were when the fertilizer was broadcast.

Plants in banded drill rows eight inches apart grew rapidly and made growth enough to survive the winter. But plots where the plants were between fertilizer rows developed slowly and many were killed during the winter.

Further tests showed that if a high rate of fertilizer, 750 pounds per acre of 3-12-6, were placed in contact with the grass and clover seed at planting time, then the stands of clover was suppressed. Growth was also slow if the bands of fertilizer were one inch below and one inch to the side of the seed. Therefore, the method of placing fertilizer one inch directly below the seed proved superior to all other tests.

There was apparently very little advantage in broadcasting the seed and banding the fertilizer. However, drilling the seed showed considerable advantage even when the fertilizer was broadcast.

Examination of the weed content in harvested forage showed that where both seed and fertilizer were drilled, practically no weeds were in evidence. But where seed or fertilizer were

broadcast, weeds were a real problem, especially at low rates of seeding and fertilization.

Dr. and Mrs. W. G. Plinke and children visited Mr. and Mrs. Lamar Suddeth and children in Midland Saturday.

Mrs. Eunice Cox of San Diego, Calif., is visiting her brother and his wife, Mr. and Mrs. E. D. Manire.

Mrs. W. R. Weatherford of Sweetwater is visiting in the home of her granddaughter and family, Mr. and Mrs. T. N. Bickers.

Mrs. L. A. Reasoner and her sister, Maida Kirk of Lubbock, accompanied their uncle, R. C. Kirk, of Littlefield to Temple last week to be with Mrs. Reasoner's father, Mr. I. C. Kirk, who has undergone surgery at Scott and White Hospital. Mrs. Reasoner returned home with Mr. and Mrs. I. C. Kirk of Petersburg.

Mrs. Melvin Tudor visited her father, Mr. J. T. Aylor of Sweetwater, recently.

Outline Plans For Old Stove Drive

Plans for the West Texas Gas Company's annual "Old Stove Roundup" promotion were outlined at a Tuesday banquet held at Lubbock's Caprock Hotel. In attendance were company representatives and gas range dealers from various South Plains cities.

In attendance from Slaton were Freddie Schmidt, Bill Layne, John Sims, Harmon Thompson and Francis Perry.

Dealers from Slaton, Tahoka, Levelland, Lubbock and other South Plains cities heard speakers outline plans for the annual promotion, which stresses the idea that "better gas ranges give better gas service."

Wednesday guests in the home of Mr. and Mrs. R. W. Cudd were their niece, Mrs. Jack Witcher and her mother, Mrs. Joy Hoover of Littlefield.

Mr. and Mrs. M. W. Abernathy spent the week end in Lubbock visiting Mr. and Mrs. A. C. Hamilton and Mr. and Mrs. Jack Miller of Amarillo. Mr. Hamilton and Mr. Miller were football coaches in Slaton several years ago.

FRIDAY, OCTOBER 16, 1953 THE SLATON SLATONITE

Mr. and Mrs. Edwin Haddock and children, Mike and Ann, visited Mrs. Haddock's father and brother, R. D. Favor of Clyde and Joe M. Favor in Jayton Sunday.

Mrs. C. C. Kirksey and her sister, Mrs. R. G. Woolever accompanied by their sister, Mrs. L. B. Montgomery of Littlefield and their mother, Mrs. Minnie Custer of Huntington Park, Calif., visited Mrs. Faye Stanley in Seminole on Tuesday.

Stephen and Mark Holt of Midland spent the week end with their grandparents, Mr. and Mrs. J. D. Holt.

Miss Betty Sue Layne, daughter of Mr. and Mrs. Bill Layne, 335 West Lynn, was home for the week end from McMurry College, Abilene, where she is a freshman. She was accompanied by her roommate, Miss Shirley Floyd of Lamesa.

Visiting in the home of Mr. and Mrs. C. Kitchens is their son C. L. Kitchens and a friend, Mrs. Lula Mae Kelly of Crane. Billy Kitchens returned to Crane with his brother, C. L., Monday. Mrs. Kelly is going to spend the week in Slaton.

ANTICIPATE BIG WEEK END AT STATE FAIR OF TEXAS

By Vern Sanford
Texas Press Association

AUSTIN, Tex.—Politicians are working up a head of steam that will blow off when President Eisenhower visits Texas this month.

As far as any public announcement is concerned, the reason for Ike's Texas trip is to join President Adolfo Ruiz Cortines of Mexico in the dedication of Falcon Dam on the Rio Grande.

But it is clear that H. J. Porter of Houston, Republican national committeeman, will use the presidential trip as a means of rallying GOP support in Texas.

When Eisenhower gets to Texas, his official host will be Governor Allan Shivers. The president will stay at the Shivers' palatial home at Sharyland, near Mission.

While Shivers led the Democratic Party of Texas in helping to elect Eisenhower last year, there is no indication that the governor and his political friends will line up with the Texas Republicans as a permanent arrangement.

In other words, the Shivers Democrats were for Eisenhower—but that does not mean that they will move over into Republican ranks in the Texas political battles of next year.

At the Falcon Dam celebration there will be represented a third political faction, the Texas Democrats who supported Adlai Stevenson.

Senator Lyndon Johnson, a Stevenson Democrat, is expected to be present at the border celebration.

Porter, by the way, has announced that the Texas Democrats will put up the strongest candidate they can find to oppose Johnson next year.

That candidate may be Ben Guill, who once served as a Texas Republican congressman from the Panhandle district.

Guill is now an executive assistant to Postmaster General Sumnerfield.

Workers in state departments and some of those in state hospitals and other institutions received \$15 per month pay increases on the first of this month.

Increases ranging up to \$300 per year also went to faculty members of state colleges and universities.

And some state workers received "incentive" raises amounting to as much as \$50 per month under a new law authorizing such boosts out of savings effected by decreasing the number of employees.

There will be more pay hikes if the courts uphold the Texas natural gas gathering tax, Governor Shivers has said.

Death took George B. Butler, 49, chairman of the Texas Board of Insurance Commissioners.

Butler died of a malignancy in a Temple hospital, and funeral services were held in Austin.

Another member of the Board, Paul H. Brown, has been at McCloskey Hospital, since he suffered a heart stroke last February.

Twenty-one church schools formed an association and will ask Texas business and industry for a million dollars to balance their budgets this year.

Texas Foundation of Voluntarily Supported Colleges and Universities is the long name of the organization, whose board of directors will meet in Dallas November 1.

Dr. W. R. White, president of the foundation and head of Baylor University, said the organization already has the support of the National Association of Manufacturers, the Texas Association of Manufacturers, and the United States Chamber of Commerce.

To be employed by the Texas Turnpike Authority is a firm of consulting engineers—yet to be named—who will survey the Dallas-Fort Worth toll road project and determine its economic feasibility.

Following the survey, and when bonds are sold in the amount of \$30 million or more, the authority will be ready to go into the road-building business.

All this was decided at the authority directors' meeting here. Mayor Armistead Rust of San Angelo was chosen chairman of the auth-

Tiger Coaches Stress Importance Of "Playing One Game At A Time"

"We think of playing only one ball game at a time," Slaton High School Football Coach Homer Tompkins told Slaton Rotarians at their Oct. 8 luncheon meeting at the Slaton Club House.

"Thinking about the team we play two or three games away might cause a loss of the next game on our schedule, and we ask the cooperation of the people of

Slaton in keeping the boys thinking only about the next game on our schedule," the coach asserted. Other guests at the Rotary luncheon were Willard Hedges, assistant Tiger grid coach, and players Jerry Reynolds, Joe Sparkman and Darrell Wiley.

Both the coaches and players emphasized that Tiger spirit this year is good. They pointed out

that 30 boys are on the Tiger squad now as compared with 22 the beginning of fall practice. Hedges and Tompkins gave explanations of the "spread" phrase employed by Slaton, and emphasized that it's only when a member of the team carries his assignment that the ball gets "gets the job done."

M. E. Blake was Thursday's gram chairman. Mr. and Mrs. C. A. Porter Lamesa spent the week end with Mr. and Mrs. Grady Wilson.
