LET'S PUT TEETH IN OUR LAWS

One of the constantly recurring lessons of government is that it is useless to tell somebody to do something unless you provide a penalty if he does not do it.

Such is the case in a series of bills now before the legislature.

These bills require publication of the full text of city ordinances, a record of the proceedings of the commissioners court, and annual financial statements of school, road, soil conservation, and other local districts. They are badly needed to prevent laxity or downright crookedness in government.

But even if they are passed, they will be little more than pieces of paper if a companion measure, H. B. 148, is not also

H. B. 148 carries the legal artillery for the "freedom of information" bills. It fixes definite responsibility on certain officials for publishing records. If those officeholders fail to carry out this duty, they will be subject to removal from of-

This proposed law has real teeth in it; it allows no leeway. Conscientious officials will have nothing to fear, but woe to the "public servant" who would try to cover up incompetence or dishonesty through suppression of records.

AN ISLAND OF SOLITUDE

Many of us have a most satisfying memory of gliding gently over the surface of wilderness lake, dipping a paddle now and then, finding ourselves after a while with a much more balanced view of the world than is often possible in the raucous city canyons.

Canoeing is a joyous sport, whether you are loafing over a lake or running a stream. Perhaps the finest canoeing on the continent is in the Quetico-Superior region on the border between northwestern Ontario and Minnesota. It contains 5,000,000 acres of wilderness that have been kept free of roads and low-flying airplanes by complementary action of the two governments.

Not only is the Canadian-American action to preserve a wilderness encouraging when despite our ocean-to-ocean border we have few joint projects, but also because it shows dedication to sane values in a world that often tries to crowd in with the latest jangly commercial or the hollow roar of a jet

Now from the Canadian side there comes reinforcement of all this with the announcement that a Quetico Foundation has been established to promote this great area of lakes, streams, pines, fish, and wildlife. It will sponsor educational, research, and other projects in an effort to be sure that this lovely land is preserved. This looks toward the eventual creation of an international peace memorial forest, returning the entire region to public hands.—Christian Science Monitor

REFRESHING

Reports of what is in the several Senate bills to bring federal aid to solving the juvenile delinquency problem are at the very least refreshing. (They were introduced by Senators Kefauver and Hennings, Democrats, and Langer, Republi-

Junior Civic-Culture Meets in Lasater Home Tuesday

On Tuesday, March 1 the Junor Civic and Culture Club met in the home of Mrs. M. H. Lasater, The program for the evening was Your Money's Worth."

Mrs. W. C. Williams brought a part on the "Family Budget" and said that to really have a successful budget every member of the family must participate.

Mrs. W. A. Wilke introduced Mrs. G. K. Haile, as guest speakr. She spoke on "Homemaking as Business." In this talk she said that to keep any business running successfully one needed to keep apreast of the times, and that a homemaker had the most impor tant business in the world and should be interested in all the information she can receive.

Mrs. R. M. Shepard spoke on "Teaching Children the Value of Money." On this subject Mrs. Shep-Mr. and Mrs. Virgill Jones were ard brought out the fact of the

"Tenjoy my family while I dry my clothes ELECTRICALLY!"

says MRS. PAUL FRANCIS 909 SOUTH 4TH STREET ARTESIA, NEW MEXICO

"Time releasing" is the way Mrs. Francis describes her new electric clothes dryer. Time that was once devoted to outdoor drying drudgery is now available for family enjoyment and

"I used to hear that you didn't need a dryer with beautiful New Mexico sunshine," Mrs. Francis says. Yes, the sunshine is beautiful in the southwest, but so are the colors in your clothes - if you don't let that beautiful sun fade them, and dry them in an electric clothes dryer.

SEE YOUR REDDY KILOWATT

APPLIANCE DEALER

"I've cut my clothes costs for the children considerably," Mrs. Francis concludes. Here's full-time economy, for your clothes last longer when they are dryed electrically, and because they can be worn, in many cases, right after being dryed, you don't need so many clothes. Dry clothes the modern way. Of course, it's electric.

TEAGUE MONTHLY NEWS

A Message from Teague Drug "Your Pharmacist"

FIFTEEN YEARS AGO you spent 18.3 cents of your medical care dollar for medicines. Today, despite the fact that some of the newer drugs seem expensive, you are spending only 14.5 cents of your medical care dollar for medicines.

THE REASON OF COURSE IS that your prescriptions are now so much more effective, that you get well much quicker, and they help prevent more serious sickness, and often an operation.

THE COST OF LIIVING has advanced considerably for almost everything you buy. But according to government statistics, you are now actually spending less for medicines, for each dollar of your medical care, than you did 15 years ago.

AS YOUR PHARMACIST we will always do our utmost to keep your cost of medicines as low as good pharmaceutical practice will permit.

NOOD thing the Buick factories stepped up pro-I duction of the 1955 cars when they did because customer orders are pouring in. It seems that just about everybody wants a 1955

Buick - the "hot" car that's getting hotter by

So hot, in fact, that it's topping the huge popularity which moved Buick into the "Big Three" of the nation's best sellers last year.

Know why? Plenty reasons.

MILTON BERLE STARS FOR BUICK

AND LYNN STS.

Bold new styling, of course. And brilliant new V8 power. And room and comfort and luxury interiors -and an even finer, softer, steadier ride.

But the big reason is a new magic from the field of aviation - Variable Pitch Dynaflow.*

Twenty propellers inside this wondrous automatic drive do what the modern airplane propeller does - they switch their pitch.

One way, you get a lot more miles per gallon in normal driving and cruising.

You switch the pitch to another angle just by pressing down on the gas pedal - and you get a new kind accelerating power.

It's an experience you've never had before in an earth-bound vehicle-and it's thrilling beyond

of instantaneous response for getaway or safety-surge

So you can see why we're writing up orders and selling Buicks at a record rate.

And you can see more of the reason why when you look into the low pricing schedule that makes Buick the buy of the year, hands down.

Buick Sales Are Soaring!

Proof? Buick is outselling all other cars in America except two of the best-known ones in the smaller-car field. And for two good reasons: (1) popular prices low enough for any new-car buyer to reach; and (2) a line of cars to fit any budget, from the low-priced SPECIAL, to the high-powered CENTURY, to the extraspacious SUPER, to the custom-built ROADMASTER.

Come in and check things for yourself. Once you do-and press that gas pedal-we believe you won't be happy till you're bossing your very own Buick. *Dynastow Drive is standard on Roadmaster, optional at extra cost

Thrill of the year is Buick

NEED OF OUR TIMES

(Editorial)

The need for the public school never changes, but times and conditions may change or require a change in methods and practices of public education. This is inherent with anything that grows, for growth is the result of change.

Our Texas public schools were created 101 years ago. In 1854 the first law passed establishing the public school.

It is a healthy thing in our democratic way of life to have an intelligent understanding of the important functions of our basic institutions. This is especially true of the schools. The initiative and resourcefulness and the wisdom and leadership that our schools are inculcating in the youth of today are the answer of the problems of citizenship in the years ahead.

Yes, "bring me men to match my mountains." That is the need of our times and must come from the public schools-schools that are strong in the virtues required for building strong men and women.

We can be assured of this and do our part in understanding and helping the public schools to fulfill their great obligation to our times by being a participant in the annual Public Schools Week, March 7 through 12. Schools will hold open house; accept their hospitality, and you will en-

joy the experience of going back to school-if but for a day.

> when you visit a public school. Make it a point to return to school the week of March 7 through 12, designated by Governor Shivers as Public Schools Week.

Out of our public schools come the future leaders of our country. Pay tribute to the schools during the week of March 7 through 12. That's Public Schools Week, and a fine time for all Texas citizens to go back to school for a day.

Attention, Mothers and Fathers! You have an opportunity to go back to school during public school week. You are invited to visit your public schools. See what is going on. This chance comes but once year, during Public Schools Week. Take advantage of the opportunity. Please find the time to proached the "expectant" woman visit your public school this week.

All Texans should be proud of their school system. You are urged to pay some tribute to your public ols during the week of March 7-12, designated as Public Schools Week by Governor Shivers. Meet the teachers and learn their problems. It's your responsibility to see that the schools are doing the job you want them to do. Visit a public school and see Democracy capacity. in Action.

Public schools are our investment in Democracy. Support

Card Of Thanks

We would like to take this means of thanking our numerous friends for the many acts of sympathy extended to us in the passing of our father. It is wonderful to live where people are as friendly and kind as they are in Slaton.

going forward with Slaton

By Bob Moore

PLANS for a Little League baseball program in Slaton this summer are going great, Coach Homer Tompkins advised the other day. Most of you are probably familiar with this fine recreational and character building program for the "small fry." The Little League is just like big league baseball, with everything in miniature except the enthusiasm on the part of the boys and their parents. Tentative plans are to have four teams to play an intramural schedule, with the local winner entering to competition which ends in a national champion being selected. Each of the local teams would have their own uniforms and equipment, and Little League would have its own baseball stadium. Of course, this is going to cost the merchants one way or another, either in advertising for signboards and programs or outright donations, but believe me fellows, it's worth it. You'll be surprised (I know I was at other places where Little League was started) at the interest it creates among the citizens and what a healthful influence it is on the boys-both physically and spiri-

AN INQUISITIVE neighbor was unable to hide her curosity any longer. One afternoon she apnext door and asked her pointblank, "Are you going to have a

Smiling sweetly, the lady answered, "Oh no, I'm just carrying this for a friend.

TOO MANY of us tend to be like the old Negro deacon who wound up a long prayer by saying, "Use me, Lord, use me in thy work-'specially in an advisor

ORCHIDS to the Slaton Rotary Club, which held a big banquet last Thursday night to celebrate the 50th anniversary of this splendid organization. This scribe regrets being unable to attend due to a conflict with another engagement. We Lions often refer to them as the "old men's club," but seriously speaking, Rotary is doing and has done untold civic accomplishments for Slaton. Here's wishing them another 50 years of successful activities.

TOO MANY parents tie up their logs and let their 16-year-olds run

HERE & THERE: Farmers and farm writers never had it so good as they do on the South Plains. The wife of Jim Compton, farm editor of the Lubbock Avalanche, spoke at the recent Farm Bureau meeting in Lubbock. She was runner-up in the 1954 Texas Did you know that "Doc" was the nickname of Truett Babb, vocational agriculture teacher at Slaton High School. Incidentally I never saw such well-behaved boys as there was at the annual FFA banquet the other night. Could it have been because their fathers were special guests Bill Smith, the genial Slaton Ford dealer, loaning this scribe '55 model to go joyriding in the other day . . . And why is it that when a family gets a new car, the husband always says "it belongs to my wife? . . . Really "jive candy" Teague Drug had for Valentine gifts. Some read 'Crazy mixed up chocolates, and soon they'll be real gone." Many regretful fans because Slalost the 5-AA basketball championship to Abernathy. Oh well, baseball's just around the

IN THE MAIL comes another etter from a reader that signs is name only as "yr fren."

"I know its not right to be ovetious, but by golly I'm downight jealous of you, or rather I hould say of your job. For one thing, you get to meet so many people and have the opportunity exchanging views with each of hem. To my way of thinking about he only real and lasting knowledge ve learn (outside of the Bible, o ourse) is by friendly contact with our fellowman. It's surprising what a fellow can learn by just oseying around town talking to first one then another of the peo ple he meets. For instance, the other day I was exchanging the ime of day with a friend and in ed a new way to fix eggs for break-Just wrap a strip of bacon around the edge of a muffin pan, break the egg inside the ring of bacon and bake. Delicious, and since I'm a bachelor and have to fix my own, simplifies my morning chores allowing me to shave while breakfast cooks. I appreciate learning things like that. After all, there's bound to be a pretty good reason for the Good Lord putting us here (probably lots of reasons if we just look for them) and I think service to our fellowman is

\$600 Deduction On Income Tax For Each Qualified Exemption

There's even more to Chevrolet styling than meets the eye!

This is beauty with a bonus . . . for Chevrolet styling is designed to add safety and comfort while you drive, and to return greater value when you trade.

Truly modern lines are shaped by usefulness. You can see what we mean in the deep crystal curve of Chevrolet's Sweep-Sight windshield . . . a dramatic style note, certainly, but one that stems from the need for wider, safer vision. Or take highset taillights-they add to the impressive length of line . . . but they are up there where they can be seen for safety's sake; and as convenient guides in parking. So, too, with the jutting peaks over the headlights.

The smart louvers across the hood aren't just decoration . . . they mark the intake for the High-Level ventilation system for cleaner, fresher air. And the whole shape of the body-its lowness, the dipped belt line-is merely a reflection of a lowered center of gravity, the added stability.

This is truly functional styling that serves you better every mile, and preserves its value against the distant day when you trade. This is Body by Fisher-another Chevrolet exclusive in the low-price field. Come in and let us demonstrate that this new Chevrolet is just as exciting to drive as to look at!

A COMPLETE AUTO SERVICE FOR WILSON

Engine KNICK signals power-loss...

with ESSO EXTRO

STOP MOTOR OIL KNOCK WITH HUMBLE UNIFLO

Humble Esso Extra gasoline for '55 will give you the best anti-knock performance you've ever had.

But motor oil can also cause knock. Some oils form combustion chamber deposits that raise compression ratios even higher, increase a high compression engine's tendency to knock. These deposits also cause pre-ignition ping.

Humble Uniflo motor oil does not form knock-causing deposits. Thus, in effect it raises the anti-knock performance of your gasoline.

lengthens battery life, gives you

superior lubrication and cooling. You use the same grade the whole year around.

When you use both Esso Extra gasoline and Uniflo motor oil, Unifio also saves gasoline, you're using the best performance combination ever.

for

The entirely new gasoline with the highest performance rating ever offered Texas motorists.

When your car knocks, you're losing power, burning too much gasoline, dirtying your engine. Knock-even ping-is more than a noisy inconvenience—it's expensive, too.

But you can stop knock with Humble's Esso Extra for '55. This entirely new gasoline has the highest octane rating (antiknock quality) offered Texas motorists.

It's an absolute must for the new high compression 1955 engines.

And it assures the improved performance of any car, any make, any model.

> Get the Esso Extra habit! . . . Your car will give you performance you never dreamed it had!

HUMBLE OIL & REFINING CO.

Now, more Texans than ever before prefer Esso Extra to any other premium gasoline.

(Continued from Page One)

is 200 gallons per minute; and capacity of No. 3 booster station is 1,300 gallons per minute. Capacity of ground storage tanks is 970,000 gallons, while elevated storage capacity is 120,000 gallons; making a total of 1,070,000

Production of wells follow: 4 north of town, 500,000 gallons daily; 2 on AT&SF property, 130,-000 gallons daily; 4 in center of town, 200,000 gallons daily; and 8 in northwest part of town, 950,000 gallons daily. Total production is 1,780,000 gallons daily

Meter Connections

tions are 1,700. All not in use. In 1949 the city operated wells and pumped an average of metered connections. The average estimated per capita use was 79

In 1952 the city operated 15 wells and pumped an average of **567,000** gallons daily with 1,536 metered connections. The average estimated per capita daily use was

wells and pumped an average of 799,698 gallons daily with 1,574 metered connections. The average estimated per capita use was 127 gallons per day. (Reason for estimated figure-no exact population

The city is presently engaged in enlarging the water system by adding two new water wells in the southeast part of town, installing a new booster station, a new ground storage tank of 280,000 gallon capacity and approximately 4,000 feet of 8-inch water main with fittings and fire hydrants. Cost is approximately \$30,000.

Water department receipts 1949 amounted to \$49,456.87 with operation expenditures of \$27,119. 91, leaving a gross profit of \$22, In 1952, receipts were \$62,488.77, with expenditures \$39,005.44, leaving a gross profit of \$23,483.33. In 1954, receipts were \$72,509.75, with expenditures of \$45,707.34, leaving a gross pro fit of \$26,802.41.

Water Rates

The following water rate was established in 1929: 2,000 gallons minimum for \$1.65, 3,000 gallons minimum for \$2.15, 4,000 gallons minfmum ter \$2.55; 5,000 gallons minimum for \$2.85. For all over 5,000 gallons at 25 cents per during the summer of all over 5,-000 gallons at 12 cents per 1,000.

These rates were kept in effect until Jan. 1, 1954 when the following rates were placed in effect 3,000 gallons minimum for \$2.50. 4,000 gallons minimum for \$2.90. For all over 5,000 gallons at 25 months during the summer of all 1,000. Summer rates are in effect from March 20 through Sept. 20

It was found that the 5-year average cost of producing and distributing water was 18.7 cents proximately in line with cost in other businesses. This, together with taking care of bond payments on the last bond issue necessitated the increase in water rates.

ARLIE JACK HOOVER MAKES HONOR ROLL
