FFA FATHER-SON BANQUET SPEAKER URGES ENTHUSIASM

A renewal of faith, enthusiasm and perspective—the qualities of a successful man—was urged by Joe N. Stephens of Lamesa, past vice president of Texas Association of Future Farmers of America, at the annual father-son banquet of the Slaton FFA chapter at 7:30 p. m. Monday in the Clubhouse.

Young Stephens, now married and employed by Gulf Oil Corp., told the approximately 80 FFA boys and their fathers that "you should be grateful for the opportunities offered by FFA." He pointed out these opportunities are not available in all countries of the world today.

"Give all that you have and utilize to the fullest your capabilities," Stephens said. "The world is ready for a new type of leadership which recognizes both physical and spiritual needs."

Curtis Toastmaster
The speaker was presented by Sonny Curtis, toastmaster for the evening. Curtis also teamed up with his brother, Dean, who was recently discharged from the U. S. Army after 18 months service in France, to provide musical entertainment. The brothers were a "big hit" with the audience as they vocalized and played guitar and fiddle western-styled numbers.

Truett Babb, advisor, who is marking his first year as vocational agriculture teacher in Slaton High School, expressed his appreciation for "the splendid cooperation from everyone concerned." He announced that project facilities for FFA boys that live

in town are being installed back of the new high school building.

One of the program highlights included the presentation of a corsage to the chapter sweetheart, Barbara McCoy, by Charlie Woodfin, vice president. The group sang "Let Me Call You Sweetheart," in Miss McCoy's honor.

The invocation was given by Linton Pruitt, father of Weldon Pruitt, chapter member. James Altman, chapter president, gave the welcome.

Opening ceremony was presented by chapter officers. They are: Altman, president; Woodfin, vice president; LeRoy Bloodworth, secretary; Joe Bob Jones, reporter; Alton Brookshire, sentinel; and Babb.

A delicious barbecue plate was served.

DEFINITION OF EDUCATION (An Editorial)

Many definitions have been given of the word "Education," and underlying them all is the conception that it is an attempt on the part of the adult members of society to shape the development of the coming generation in accordance with its own ideals of life. No doubt all education is effected through the experiences of the educated, but it does not follow that all experiences are educational. Whether an experience is part of an individual's education or not depends on whether it has been arranged by those concerned with the training of the one being educated. Hence it follows that it is the responsibility of our adult population to see that the proper equipment, curriculum and the supervision are available.

None of us are equipped or qualified in all branches of education to properly provide the complete education of an individual, whether it be vocational, liberal or classical, nor do any of us have the time to spare from our occupational responsibilities for this purpose. Then our responsibility can only be discharged in a collective manner and this can only be afforded through a public free school system in order that all students may have as near equal advantages as possible, and this can only be done through a democratic effort.

To acquaint our citizenship with their responsibility the week of March 7th to 12th has been designated as Public Schools Week in Texas and this move has the support of the governor, various state officials including the Department of Education, mayors and officials of most Texas cities. The school system itself is cooperating and local arrangements are being made for its observance, school-wide and population-wide. During that week you are invited and urged to visit the classrooms during session and to attend the various programs being announced so that you may see what is being done in our schools and if any items are lacking or practices not meeting general approval, steps can be taken for its correction.

SLATON BANK CAUTIONS ON CHAIN MAIL

A notice that the Citizens State Bank of Slaton will cooperate with the Treasury Department in rejecting applications for purchase of savings bonds to be used in the chain-letter scheme was made by Howard Swanner, vice president, Thursday.

Swanner pointed out the chain-letter scheme involving savings bonds had been reported active recently in Slaton and Lubbock.

The Post Office and Justice Departments are also joining with the Treasury Department in a crackdown on the chain-letter scheme.

The Postmaster General has advised that each scheme will be investigated fully and submitted to the Department of Justice for its consideration of possible violation of Federal criminal statutes. He also stated that the Internal Revenue Service is studying the matter to determine whether this scheme involves a violation of the wagering tax statutes and other internal revenue laws.

TENTATIVE PLANS MADE FOR FRONTIER DAY CELEBRATION

Tentative plans for a big Frontier Day Celebration in Slaton on Saturday, June 11, were made at a meeting of the chamber of commerce board of directors at 3:15 p. m. last Friday.

A parade, rodeo, square dance and homecoming were proposed on the agenda for the celebration, designed to attract a huge throng of citizens to Slaton for a gala entertainment.

Pres. Melvin Kunkel announced that a canvass conducted by the Slaton Rangers had revealed that local citizens were overwhelmingly in favor of having such a celebration. Out of 121 persons contacted, 117 went on record as favoring the festivity, Kunkel said.

The chamber president pointed out that while a Frontier Day Celebration was not held the last two years, it was held annually three years prior to that and drew good crowds. The directors voted unanimously to hold the affair.

John Fondy, Ranger president, was present and announced that M. E. Bruedigam had been selected by the Rangers to work with the chamber in handling arrangements for the celebration.

The chamber directors authorized the Rangers to investigate possibilities of securing a rodeo for the

Victor Buxkemper Nominated SCD 'Outstanding Farmer For 1954'

Victor Buxkemper, who farms 2 1/2 miles southeast of Slaton, has been selected by the Lubbock County Soil Conservation District as nominee for "Outstanding Farmer or Rancher" in the Ft. Worth Press Awards program.

Buxkemper, who has resided in this area 32 years and has farmed the past 10 years, will receive a handsome plaque from the Lubbock Lions Club during their meeting in May in connection with the National Soil Conservation Week. This nomination has been submitted for the statewide contest in which the state winner will receive \$1,000 and \$300 will go to each of the first place winners in the five state conservation regions.

World War II Vet

A World War II veteran, Buxkemper served two years in the U. S. Army. He is married to the former Miss Alvera Hutfless, and the couple have three children: Karen 9, Jerry 3, and Tracy 2. He attended St. Joseph's School and has had two years of GI training. He is the son of Mrs. A. J. Buxkemper, who has a nearby farm.

Buxkemper was selected on the basis of his accomplishments in developing soil conservation prac-

celebration and to report back at a later meeting of directors.

F. E. Perry, director, was appointed chairman of a committee to handle arrangements for the homecoming activity.

A decision was made to request Slaton's three civic clubs—Lions, Rotary and Rangers—to sponsor booster trips to publicize the homecoming.

L. B. Wootton

Two new candidates have filed in a Slaton city election to be held Tuesday, April 5, to name a mayor and two commissioners, City Secretary J. J. Maxey announced today.

A heated mayor's race shaped up as L. B. Wootton, retired barber and longtime Slaton resident, filed for election to that office.

Wootton was defeated two years ago by a one vote margin by the incumbent, O. N. Alcorn, who has already filed for re-election. Wootton had been mayor of Slaton for a number of years prior to his defeat by Alcorn.

Sledge Files
Bill Sledge, business manager for McSwain Clinic and also a longtime resident, filed for commissioner of Ward I. The incumbent, Ed H. Haddock, Slaton groceryman and presently serving his first two-year term, recently told The Slatonite that he didn't plan to be a candidate for re-election.

B. H. Bollinger previously announced he would seek re-election as commissioner for Ward 3. The other office to be filled in the April 5th election.

LICENSE TAGS MOVE SLOWLY

A slow sale of 1955 automobile and truck license plates was reported Monday by Mrs. F. A. Drewry, Lubbock County deputy tax assessor-collector.

Only 300 of the plates with yellow background and black numerals had been sold up to Monday morning. Normally, 2000 plates are sold locally before the March 31 deadline.

Three things are needed to issue plates: Your Texas title showing ownership of the vehicle, your 1954 license receipt and your cash. There have been no changes in the tax rates of Texas vehicles. The price you paid for your 1954 plates is the price you will pay for your 1955 plates, Mrs. Drewry said.

Mrs. Webber Williams returned Friday from a ten day trip to various points in Texas, where she visited relatives.

THIEVES HIT 2 BUSINESSES HERE SUNDAY

Slaton City Police were continuing an investigation Tuesday in the theft of narcotics, cash and a cash register, taken in two burglaries Sunday night.

Police Chief E. A. Gentry said opiates valued at \$50 were taken from a locked drawer at Teague Drug Store, and a cash register and cash estimated at \$15 to \$18 from Palace Barber Shop, adjacent to the drug store.

Entrance was gained to the drug store through a rear door by breaking the glass, while thieves climbed through a skylight to enter the barber shop. The burglaries are believed to have occurred between 10 p. m. Sunday and 7:30 a. m. Monday.

Charlie Walton is manager of the drug store and T. C. Reynolds is owner of the barber shop. Both firms are located on the north side of the square.

CHURCH AND PRESS

Historically and in a very real sense, the press and the pulpit are partners. There are times when the two seem far apart, but in a deeper sense they are not.

It is factual reporting to say that churches and newspapers rise and fall together. In every land bent under a tyrant's yoke, two things stand out: (1) a controlled press and (2) an intimidated church.

You may put it down for a truism that there cannot long be a free church in a nation which has a salve press. By the same token, a free press will not endure alongside an imprisoned church.

The two thus are dependent on each other and complementary to each other. The press maintains freedom of the mind and the church preserves freedom of the spirit. Both are necessary. Take one away and the other is sorely distressed.

It is significant that Article 1 of the Bill of Rights recognizes this church-press partnership by providing specifically that Congress shall make no law (1) respecting the establishment of religion and (2) abridging freedom of press or speech. A third prohibition forbids any abridgement of the right to assemble peaceably.

It is significant that the founders of our country placed these two guarantees of press freedom and religious freedom together, back to back.

No informed and faithful nation is likely to ever fall prey to false doctrine, or false God.—Canon City (Colo.) Sun.

NEW RED AGGRESSION

Red China, by attacking and capturing a tiny island some 200 miles from Formosa, has once again served notice that it has no concern about world opinion and no desire to allay the tensions which exist.

In recent months comparative peace has existed—at least there has been an absence of shooting war. Now the Red Chinese have acted to rouse the alarm of all those who are watching to see what will happen in Asia. Does the most recent attack forebode a future full-scale invasion of Formosa? Perhaps not. But if it doesn't it does make one wonder as to where they intend to stop.

It has been argued that Red China should now be admitted to the United Nations. Yet in the last several years the Red Chinese have been at the front of every movement to disturb the peace of the world as far as Asia is concerned. Their intervention in Korea, in Indo China, and their present attack on the islands held by the Chinese Nationalists, certainly demonstrate no desire to co-operate with an organization whose avowed aim is world peace.

It may be that the Chinese Reds do not want a real war, but do want to see how far they can go before a halt will be called. At any rate they are toying with dynamite and are proving that they are not responsible enough to assume a place in the United Nations.

BRAZORIA, A TOWN FOR NEWS

Brazoria was the scene for the founding of many early-day Texas newspapers.

The fourth publication in the state was founded there in 1932 by Godwin Brown Cotten. It was called The Texas Gazette and Commercial Advertiser.

The fifth newspaper was The Advocate of the People's Rights, published by John A. Wharton and Oliver H. Allen the next year.

Soon following was The Texas Republican, the state's sixth newspaper, edited by a Gray and Harris team.

Theodore Ledger and A. P. Thompson were founders of the eighth newspaper, The Texas Planter, in 1837.

Two cups were given newspapers for the first time in Texas Press Association history during TPA's 43rd annual convention held in 1921 at McAllen. Presented by Joe Taylor, the Belo cup for best all around weekly went to The Troup Banner. The Waxahachie Tribune received the Olmsted cup for the best exhibition of job printing.

Juan S. Hart, publisher of The El Paso Times, was elected president of the Texas Press Association at a convention in 1890 at Houston. After the meeting, the members toured Galveston and went on special train to visit Ft. Worth.

Paper cutters were unknown in the early days of Texas newspapering. Editors placed the pages along a straight edge somewhere and cut the paper with a pocket knife or a half moon knife such as saddlers used.

Austin's newspaper, The American-Statesman, is believed to be the second oldest daily in Texas.

WILLINGNESS TO TAKE THE TIME TO EXPERIMENTALLY FOLLOW THE PRAYER DIRECTIONS IN GODS WORD

Our Saviour Revealed Through Us

"Do your best to present yourself to God as one approved, a workman who has no need to be ashamed, rightly handling the word of truth." II Timothy 2:15.

All that God asks of us is that we do our best. And it is the conviction of the Christian man that the best accomplishments are forthcoming from our lives only when we experience and utilize the great power of the Holy Spirit. As the strength of God unto salvation, the Spirit is to us the actual personage of the Trinity bent in eternal effort to win us personally for that salvation. Here our Blessed Saviour enters the portals of our lives.

Our worth before the Heavenly Father is made valid only because Christ has emptied himself and become obedient unto death. His death upon the old rugged Tree and His bodily Resurrection from the grave gives us approval before God. Without this pleasure in God, we are poor, unapproved, and sick unto death. And we have every reason to hang our heads in shame for our refusal to receive and use correctly the wonderful Word of God placed into our hearts and lives. Our best of which St. Paul speaks to young Timothy is the

use of God's strength to save to the uttermost. Personally, there is no better way in which we may state our approval before God:

"I believe that I cannot by my own strength believe in Jesus Christ my Lord, or come to Him; but the Holy Ghost has called me through the Gospel, enlightened me with His gifts, and sanctified

(made me holy) and preserved me in the true faith . . ."

We as Christians possess one strength and that strength is in God. Through Christ we receive approval and thus become unashamed as workmen in the vineyard of the Lord. This is our "Strength for the Week."

THE STORY OF A STICKER THAT MAY

SAVE YOUR LIFE!

It's the 1955 Texas official auto inspection sticker that must be on your car by midnight, April 15

Your car must be inspected for mechanical safety prior to April 15. The sticker you receive assures you that your car is mechanically safe in important categories like brakes, headlamps, and stop lights. The stickers on all other cars assure you of additional protection by showing that the car in front of you, or behind, has also been carefully checked. The Motor Vehicle Inspection Act was passed by the state as a cooperative effort for your protection.

HERE'S WHAT YOUR OFFICIAL INSPECTOR WILL CHECK

- Motor Number—the motor number of your car will be checked and recorded.
- Foot Brakes—brakes will be tested with a brake-tester or road test. Cars with foot brakes must stop in 30 feet at 20 miles per hour.
- Headlamps—both headlights must be in proper condition and set at the correct height from road.
- Tailamps—your car must have at least one tail light, mounted on the rear. It must also have a light illuminating the rear license plate.
- Stop Lights—required on every car new after January 1, 1948.
- Horn—will be inspected for audible signal.
- Windshield Wiper—your car must be equipped with a working windshield wiper on the driver's side.

During the current inspection a substantial number of brake defects will be discovered and corrected. Several tragic accidents will be prevented. Lives will be saved.

Be sure you stop at an authorized inspection station. These only can approve your car by issuing you an inspection sticker.

Practice Teaching
At Abilene School**

ABILENE—Barbara Jochetz of Slaton, a student at McMurry College, is getting her first taste of public school teaching this spring, as a "student teacher" in the Abilene schools.
Students in McMurry's education department who are to receive teaching certificates from the Texas State Department of Education are required to spend a full semester—five half-days per week for 16 weeks—working with a regular teacher in the public schools.
The student teachers get no pay, but receive college credit for the time spent in actual teaching practice. This work prepares the future teachers for the time when they will take over the direction and teaching of their own classes in a public school.
Forty-seven McMurry students are currently involved in the student teaching program.
Miss Jochetz, daughter of Mr. and Mrs. Walter Jochetz, is majoring in elementary education. At McMurry, she is a member of Alpha Chi, Christian Foundation, Kappa Delta Pi, Sigma Tau Delta, Delta Beta Epsilon, and F.T.A. She is practice teaching at Crockett Elementary School.

**Guess what it costs to put
this in your driveway!**

CHANCES are, you'll be way over if you guess at the local delivered price of a 1955 Buick. Most people are.
And that's easy to understand when you look at a Buick. It's big, broad, roomy—powered for thrilling action. In prestige alone, it would seem to carry a high price tag.
But when you check into things, you discover this surprising fact: Buick is in the nation's top three when it comes to sales volume—and when it comes to low prices that make such huge popularity possible.
The price tag we'll show you is one proof of that. And an even bigger one is the soaring success of the 1955 Buick—hottest car in all Buick sales history.
So why miss out on Buick style and power and room and ride when you can have it all if you can afford any new car?

Why do yourself out of the fun and pride and deep satisfaction of bossing a big and brawny beauty like the one pictured here, when the dollars you pay for this Buick buy you so much more sheer automobile?
And why pay extra for things like direction signals, oil-bath air cleaner, full-flow oil filter, automatic lighting in the glove compartment—when such things, and more, are yours in every new Buick as standard equipment at no extra cost?
Drop in for a visit this week and start checking things.
We believe that when you look into this great car—when you see what you get for the low price you pay—and when you discover what happens when you nudge that gas pedal—you'll say it's gospel that Buick's the thrill and the buy of the year, hands down.

Thrill of the year is Buick

TIGERS LOSE CHAMPIONSHIP TO ABERNATHY ANTELOPES

By Ray Wilkins
Slatonite Sports Writer

In the deciding game for District 5-AA championship, Slaton fought to a bitter end, losing to the Abernathy Antelopes, 76-72. A crowd of almost 1,800 watched the Tigers take an early lead, to see the half-time score standing at 40-32, in

favor of Abernathy. The game was played Saturday night in the Texas Tech Gym at 7:30.

Making a desperate attempt to win, the not-to-be-outdone Tigers put on a burst of speed to tie the score at 56-56 with the ending of the third quarter. Tommy Shearer led the Tigers with 23 points;

Jack McGuire 38, for the winners.

In a two-out-of-three game play-off, Slaton won the first, 61-60. In the last few seconds of an overtime period, Jerry Don Ross tossed in four points to win the game for the overjoyed Tigers. High scorers for Slaton were Tommy Shearer, 22 points, Martin 13, and Trout 11.

The Slaton Tigers journeyed to

Abernathy to engage in the second game on Friday night at 7 p.m. They were disappointed with a 66-54 loss. The Tigers were behind from start to finish, rarely getting close to tying the score. Shearer again was high-point man for Slaton, tossing in 24 points, with Bob Martin bringing in 19. McGuire had 20 points for the Antelopes.

Results of the three games played left Slaton with the co-championship of 5-AA. This is the second year for the Tigers to receive

this title. Abernathy will stand up against Seminole, winner of 6-AA, in bi-district play-off.

SPECIAL INCOME TAX RATE FOR 'HEAD OF HOUSEHOLD'

(Editor's Note: This is the fourth of a series of articles to be published in The Slatonite, which, when used with the instructions forwarded with your blank income tax form, will assist you in filing your 1954 income tax return.)

The law provides a special tax rate for any individual who qualifies as a "Head of Household." To qualify, you must be unmarried or legally separated at the end of your taxable year. In addition, you must have furnished over half the cost of maintaining a household. The home must have been occupied for the entire year by you and another person for whom you are entitled to a deduction for exemption unless the deduction arises from a multiple support agreement or by your unmarried child, grandchild, or stepchild, even though such child is not a dependent.

You may also qualify as "Head of Household" if you pay more than one-half the cost of maintaining a household (not necessarily your home) which is the home of your father or mother and either qualifies as your dependent.

If you are married to a non-resident alien at any time during your taxable year but otherwise meet the foregoing tests, you are considered a "Head of Household" since you are not permitted to file a joint return.

The cost of maintaining a household includes expenditures for such items as:

1. Maintenance of the dwelling and premises. For example, rent (or if you own your own home, real estate taxes and interest on the mortgage), insurance on the dwelling and premises, repairs and upkeep.
2. Utilities such as gas, telephone, electricity and water.
3. Food consumed in the home.

The value of personal services performed by a member of the household is not considered. It should be noted that these expenditures are to be used only in

determining if you are entitled to use of the head of household tax rate. Do not claim them as deductions on your return unless they are otherwise allowable.

If you qualify as a surviving widow or widower as described below, as well as head of household, it will be to your advantage to compute your tax as a surviving widow or widower.

Surviving Widow or Widower

Subject to certain conditions, if your husband or wife died during your two preceding taxable years, you may compute your tax using only your income and deductions but otherwise computing the tax as if a joint return were filed.

The conditions are that (1) you must have remarried and (2) you must maintain as your home a household which is also the home of your child or stepchild for whom you are entitled to claim a deduction for exemption and (3) you must have been entitled to file a joint return with your deceased husband or wife in the year of death.

SLATON GIRL MEMBER OF TEXAS TECH SKIT

Juanita Wood, daughter of Mr. and Mrs. Clark Wood, Rt. 2, Slaton, was a member of a skit that won second place in a recent Texas Tech junior class stunt night. She is a sophomore student.

The group, members of Delta Gamma sorority, presented an old-fashioned political rally including campaign speeches, and an old-fashioned brass band.

Carloadings Up

Santa Fe carloadings for week ending Feb. 12, 1955, were 21,755 compared with 20,616 for same week in 1954. Cars received from connections totaled 11,759 compared with 11,091 for same week in 1954. Total cars moved were 33,514 compared with 31,707 for same week of this year.

Three successive Presidents occupied the White House within 30 days. They were: Presidents Martin Van Buren, William Henry Harrison and John Taylor.

Because Gulf takes out "goo" like this...

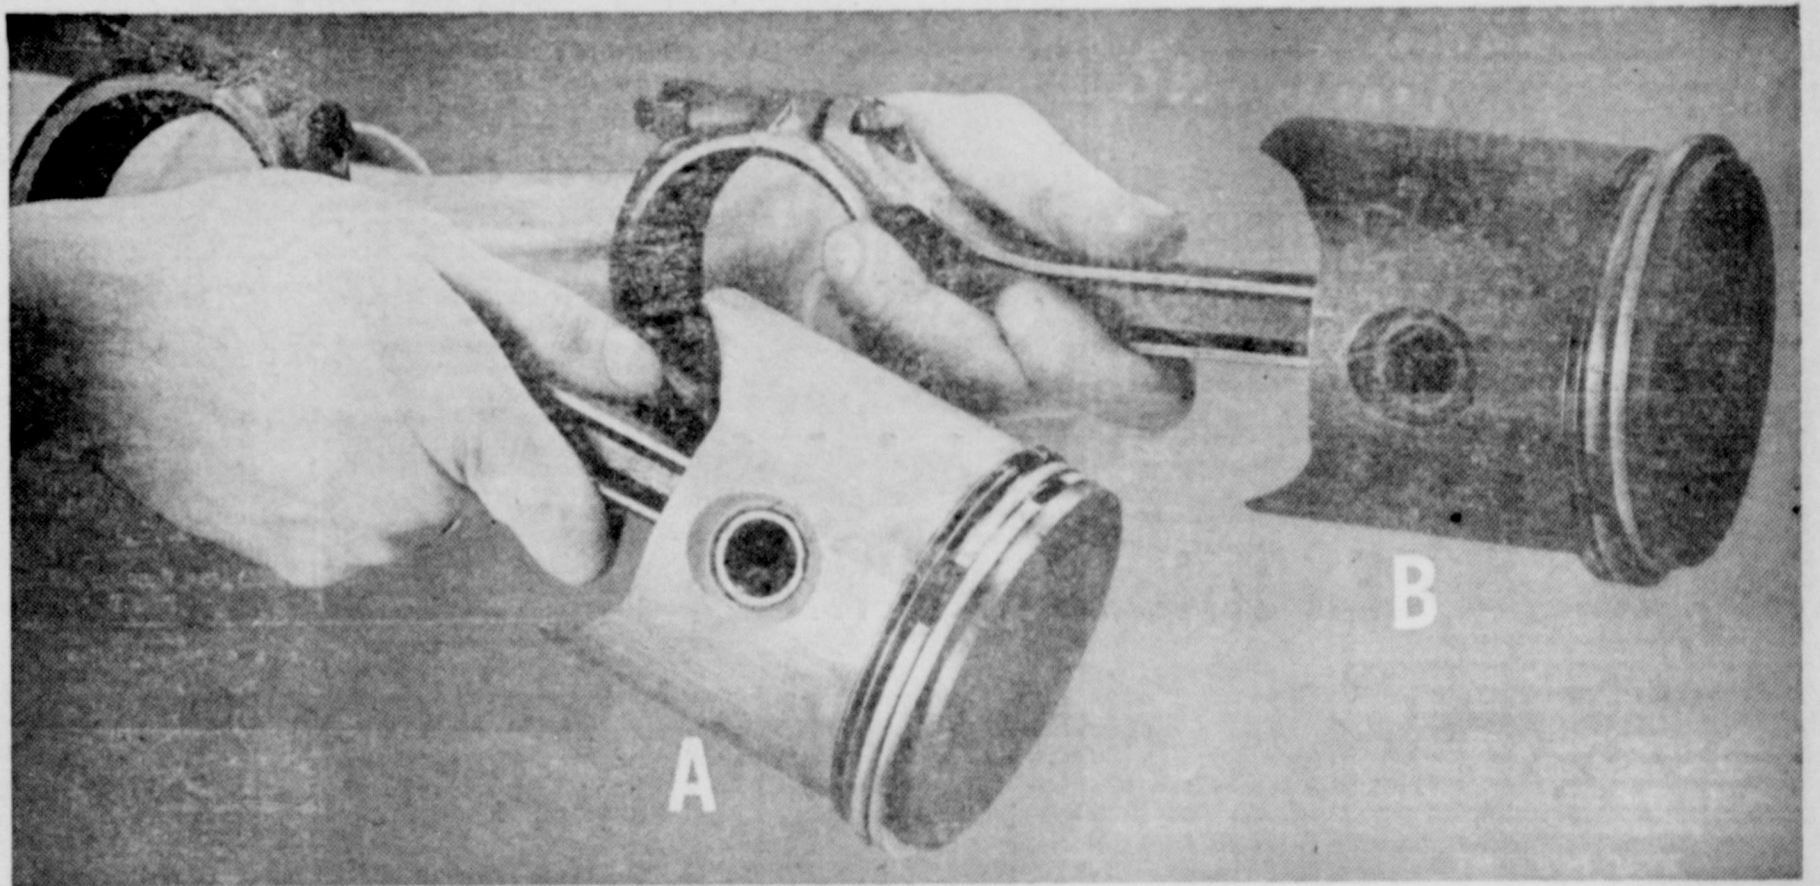

... your engine gets more "go"! This tar-like residue is what's left after evaporating a single gallon of "dirty-burning tail-end" of gasoline. There's at least this much in a tankful of ordinary gasoline.

1955 No-Nox burns clean like this...

This lamp test shows what a difference Gulf super-refining makes. Gulf refines out the "dirty-burning tail-end" of gasoline—at the refinery—to bring you new, clean-burning Gulf NO-NOX.

...and protects your engine like this!

Compare clean piston "A" from engine using new NO-NOX with piston "B" from engine using the "dirty-burning tail-end" of gasoline that Gulf refines out. Both pistons shown here, from Gulf test engines, ran the same number of hours under the same conditions.

what's more... No gasoline—no, not a single one—has higher octane than...

New 1955 GULF NO-NOX

Always remember: Octane alone is not enough. Only a gasoline that burns clean can make its full octane power really work for you, mile after mile. And that's why new NO-NOX is super-refined to burn clean and make this power last thousands of miles longer.

Fill up with new Super-Refined Gulf NO-NOX and feel the difference, right from the start, in lasting power. You'll get all these immediate benefits:

- More complete engine protection than with so-called "miracle-additive" gasolines.
- Extra gas mileage in the kind of short-trip, stop-and-go driving motorists do most.
- Stall-proof smoothness... instant starts... fast, fuel-saving warm-up.
- No knock, no pre-ignition—even in today's high-compression engines.

It's super-refined... to burn clean!

going forward with Slaton

By Bob Moore

NO WONDER Mrs. Val Wylie fainted immediately after the basketball game last Thursday night between Slaton and Abert. It was one of the most exciting cage affairs this scribe has seen in many a moon. Of course, it was wonderful that the Tigers won by 1 point after an overtime period, but both teams fought their hearts out and the sportsmanship displayed by all the players was superb. The officiating was tops, too. The game was the first of a two-out-of-three series to decide the team to represent District 5-AA in the bi-district.

"Is there anything worse than to be old and bent?" asked a philosopher, watching an aged male figure passing by.

"Much worse," answered the wayward youth. "Take being young and broke, for instance."—Santa Fe Magazine.

WELL, the Santa Fe streamliner has come and gone, and a beauty it was, too. It was an excellent promotional stunt by the company to exhibit the new Lubbock-Amarillo streamliner at the various communities of the area. The train's interior was spic and span and while this scribe didn't get to take a ride on it—in fact, wasn't invited to—it looked to have all the comfort and speed of a Cadillac automobile.

SPEAKING of automobiles, Mack Klattenhoff, who farms near Posey, has a couple of ancient Model T Fords in a shed back of his home. One of the Model T's is remarkably well-preserved and still runs good. Am trying to get him to enter it in the Frontier Day Celebration parade this year. If he doesn't feel up to driving it, himself, maybe his fine young son, Mackie, could chauffeur it in the parade. Some of the younger folks have probably never seen a Model T and it would bring back lots of memories to many of us that first cut our driving teeth on the old Tin Lizzie.

A housewife, returning an egg she had borrowed, stepped inside her neighbor's kitchen and called out: "I'm going to lay an egg here on the kitchen table."

Came a deep, male voice from the next room: "Wait a minute—this I've got to see!"

HERE & THERE: The fresh coat of attractive green paint applied last week to the tile roof of Lasater-Hoffman Hardware Store . . . The many compliments on the new "welcome sign" over the City Hall entrance . . . Marvin Jones of Clovis, N. M., who worked for the Santa Fe here in 1918, was back in town recently renewing old acquaintances and looking over the sights. He said Slaton had sure made a lot of

There's really only one thing wrong with the younger generation . . . a lot of us don't belong to it anymore.

A customer last week said he knows darn well his wife wants to go on a vacation. Every day she wraps his lunch in a road map.

Insurance statistics show that for every man 85 years of age there are seven women. But it's too late then.

Ever hear of the man who thought he was in perfect condition because every artery in his body was as hard as a rock?

And then there's the one about the husband who answered the phone and said, "I don't know. Call the weather bureau." "Who was that?" asked his wife. He replied, "Some sailor wanting to know of the coast is clear."

progress since he lived here . . . The wives of Slaton Rangers are cooks "par excellence." Never saw so much fried chicken and all the trimmings like there was at the Rangers' supper entertainment Feb. 14.

CONTINUING with excerpts from a reader's letter that was signed only as "yr fren," he says "Then there's the matter of which pocket a handkerchief should be carried in, left or right. For me it's exclusively right. Not long ago, I spent the greater part of a work day using my nose as a vacuum sweeper because of a bad case of sniffles, when I thought I had no handkerchief, while all the time, it was reposing nice and clean in my left rear pocket. Funny? Yes, I guess it is, but truthful nevertheless. I always carry what little small change I have in my left front pocket, while matches et cetera are carried in the right."

"Then there are certain things (and I'm talking about the male specie now) that are a "must" to be carried around day after day. Example, a stick of stuff for chapped lips, which isn't used more than once or twice a year (didn't cost but 10 cents), but I always feel kinda lost without its presence. Couldn't tell you for the life of me when or where I acquired the habit of carrying it around. I have an old nail file that has a permanent berth in my billfold (empty of course). Must be 10 years old and it's become so much a part of me, I wouldn't think of leaving the house without it. It's use? Beats me. I haven't used it for years, except once when I sheared the pin on my outboard; it came in handy as a screw driver. Maybe that's why I always carry it around, thinking maybe I'll shear another pin."

Rev. Stewart chose as his subject "Have a Goal in Life," using as his text James 4:14. He stated, "Don't make a shallow goal for your life!" — The Tiger's Cage.

Mr. and Mrs. Joe Kolodziejczyk spent the week end in Odessa visiting Mr. and Mrs. Emrick Kolodziejczyk and family.

HOME Furniture sets a

Something to **CROW** about!

NEW RECORD

MORE people bought MORE new appliances, MORE new furniture, MORE new bedding, MORE new dinettes last Friday and Saturday than in any previous period of the same time in the entire history of Home Furniture Company.

Why? . . . because the values were unexcelled, the terms were the easiest ever offered by anyone, and the service was the answer to our customers' wishes.

From now until March 1st, you too may purchase any item in the store, large or small with **NO DOWN PAYMENT** and up to 45 days to make your first payment. You can get immediate delivery and enjoy the use of new furniture and appliances, and we will make your **DOWN PAYMENT** for you.

We completely exhausted our stock of the beautiful new Hotpoint Ranges and Refrigerators, but Alexander Bell's invention started a new stock of these wonderful items rollin' in, so we're all set to fix you up with that completely **NEW** Electric Range, Refrigerator or Automatic Washer you've been wanting . . . **NO DOWN PAYMENT** and up to 24 months to pay.

Our big store is chuck full of the beautiful new bedroom suites that are being shown in all the glory of the new exciting finishes. Imagine a new bookcase bed, a large double dresser, a convenient night stand to place beside that bed in your own bedroom. Let your imagination run wild and imagine that old obsolete suite replaced by one of the new finishes. These beautiful colors are not a fad but a trend.

It is apparent in clothing, automobiles, upholstery and even the new smart houses being built. Ice pink or genuine mahogany, or Cascade Blue on the same mahogany looks like frosting on a cake, and almost makes your mouth water. You'll be proud to own one of these suites, and you will also be proud to tell your friends that it came from Home Furniture Company, the furnishers of smart furnishings for your home.

Make that house a home, refurbish or refurbish a room, an apartment or an entire house. Be Proud When You Say "Come In."
