

**EDITORS' DILEMMA**

Because residents in communities served by weekly newspapers read these papers once a week, they have a tendency sometimes to imagine that the editor and staff work only a day or so and have the rest of the week to go fishing.

Just the contrary is true. Gathering and writing news, editing it, preparing editorials, columns and features, laying out and selling advertising, getting material set in type and printing it, posting books, billing, seeing to purchase and repairs, and often carrying on a job printing business, is a week-long job.

As a matter of fact, the staff of many of the smaller weeklies is not large enough to carry on while the editor takes a vacation. Sometimes he must be responsible for so many different things that he cannot turn loose of things.

It would be nice to skip a couple of issues and go off somewhere to relax for two weeks, except that such a suspension would terminate the paper's second class mailing permit and make necessary a new application.

With the view of easing the county editor's dilemma, Sen. Mike Mansfield of Montana has introduced in Congress a bill to permit retention of mailing permit if not more than two issues in one calendar year are omitted.

How South Plains residents would react to the prospect of missing two papers in 52 weeks is uncertain. Merchants depend on the newspapers as advertising media. Essential notices of public events would fare ill if word of mouth was the only way to spread them.

Possible residents of small communities would prefer, rather than have their papers stopped two weeks, to supply a volunteer staff while the overworked editor gets a much-deserved rest.—Lubbock Avalanche-Journal.

**MERGERS, GOOD AND BAD**

Last year six "independents" of the automobile manufacturing industry merged into three groupings, thus cutting down some of the great disparity in size between the "big three" (General Motors, Ford, and Chrysler) and the others in the field. In an advisory opinion the Justice Department approved. A little later, and in the steel industry, Bethlehem and Youngstown proposed a merger. This the Justice Department disapproved in a similar opinion.

There has been a pretty general agreement that the first merger was in the public interest in that it moved toward widening realistic competition in the auto industry. Although some very knowledgeable people have disagreed as to its conclusions, it appears that the Justice Department followed a logical course in applying the same test to steel.

Recent history, therefore, supports the Federal Trade Commission's action in setting up a special panel to "police" business mergers and to construct a code of rules by which such mergers may be judged.

Like the recent Senate "study" of the stock market, establishing this panel appears, from our point of view, as neither friendly nor unfriendly. Mergers have been frequent enough in the postwar years to raise legitimate questions as to whether they represent a trend and whether such a trend is good or bad.

To accept all mergers as good for the economy would be to ignore the danger that, were justification not demanded in the public interest, they could pave the road to monopoly. To condemn them all as inherently bad would be to ignore the problem of competition presented by the auto industry. It would also deny that a larger, stronger firm can often serve society better than two too small to do the job, and that jobs and capital have both been saved on occasion when a prospering company absorbs a faltering one. A nation's business isn't that simple.—Christian Science Monitor.

**VALID OBJECTION**

The final confirmation of Judge John M. Harlan for the Supreme Court does not alter the fact that, in addition to the many captious objections urged against him, one was reasonable. This, expressed by Senator John C. Stennis of Mississippi, is his limited judicial experience. He has been on the Federal Court of Appeals only since last March, barely a year.

His new colleagues are extraordinarily lacking in this qualification. Justice Sherman Minton of Indiana served eight years and four months on a lower federal court. The other seven had no judicial experience whatever before their appointments. This is true of President Eisenhower's only other appointee, Chief Justice Earl Warren.

It is not necessary for all Supreme Court justices to go through the mill of the lower courts. Understanding of Constitutional Law and power to interpret it wisely are more important.

We wonder who that bachelor is who keeps insisting on naming hurricanes after women.

**Caprock Chapter Of Lutheran Exes Will Be Formed**

SEGUIN—Ex-students of Texas Lutheran College, Seguin, of the Lubbock area will organize the Caprock ex-student chapter when they meet Monday, April 25, at 6 p.m.

The banquet-meeting will be held at the Mackenzie State Park Terrace in Lubbock. Persons planning to attend are asked to meet at Shepherd King Lutheran Church, 2122 19th St., at 5:45 and to proceed from there to the meeting place in a car caravan.

President Edward A. Sagebiel of the college will be the guest speaker. Also attending the meeting from Seguin will be Garfield Kiel, director of the college's public relations department, and a number of students who will provide the entertainment for the evening.

Pres. Sagebiel will speak on the recent progress at Texas Lutheran and will outline the \$500,000 building program for 1955.

In charge of arrangements for the meeting is the Rev. Bill Slaughter, an ex-student of the college and pastor of Shepherd King Lutheran Church, Lubbock.

"And Jesus said unto him, no man having put his hand to the plow, and looking back, is fit for the kingdom of God." — (Luke 9:62)

Do your looks bother you? You may be handsome, or you may be very homely; but this is not the question. Beauty, after all, is only skin deep. Your looks here refers to your actions, and attitudes which sway your actions.

You were once active in the Church. You were once a worker for Christ. You put your hand to the plow and found joy and happiness there.

But like Lot's wife you looked back. You began with determination, but you stopped. You soon became engulfed in excuses. These piled one upon another until soon you were convinced you were justified in ceasing your work for Christ.

Whatever your reasons for ceasing your work for Christ may be,

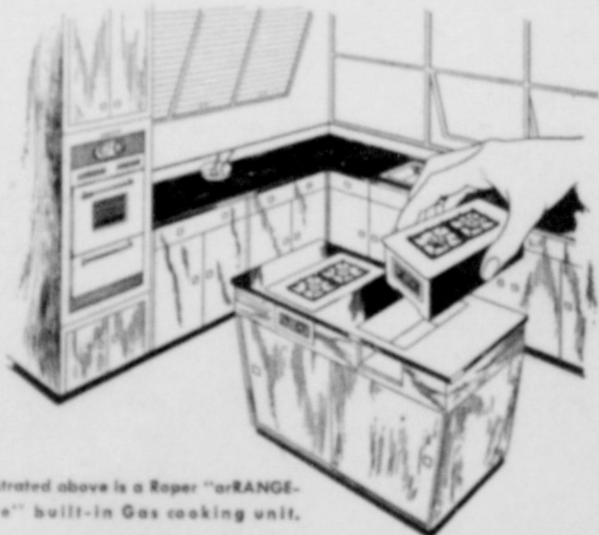

"No man having put his hand to the plow, and looking back, is fit for the kingdom of God."

Standing some day before the Great King, answering for life's deeds, we shall catch that divine, searching eye, and all our excuses shall melt away.

Why not resolve to go back "to the plow" of Christian work and service. Give Him the best that you have. Give Him first place in your heart.

### HOME SUSTAINS SMOKE DAMAGE

Considerable smoke damage resulted to the interior and furnishings of a two-story residence that became ignited from a floor furnace at 10:55 a.m. Wednesday, according to Fire Chief Elbert Wilson.

The residence, located at 1055 W. Garza St., is owned by Mrs. J. D. McPhaul of Lamesa. She is the former Mrs. Pauline Crawford of Slaton. The unoccupied residence was closed tightly and a vast amount of smoke had accumulated, resulting in firemen having to don gas masks to combat the blaze.

Wilson said that someone had apparently placed a rug over the floor furnace and that during the cooler part of the night, the furnace automatically heated. An estimated 18 foot area of flooring around the furnace was burned, walls and furnishings were smoke damaged, the chief said.

## FOUR TIGER TRACKMEN WILL COMPETE IN REGIONAL MEET

This is to notify all my friends that I am now in partnership with Mr. J. B. Smith at the Southwest Barber Shop, on the West side of the square. I would appreciate your stopping in to say "Howdy."

A. N. BAUGH

Four Slaton Tiger trackmen qualified in the district meet last Saturday to compete in the Region Interscholastic League meet this Saturday at Texas Tech. Coach Willard Hedges announced on Wednesday.

They are: Waymon Muse and Ronald Smith, seniors; Dean Goad and Jerry Jones.

Muse was high point man in the District 5-A meet—winning first in discus, shot and pole vault. He will compete in all three events in the Region contests as well as running in the mile relay. Coach Hedges said prospects were very bright for Muse to advance to state competition.

"Waymon has worked hard in track this year and is in peak condition," Hedges declared.

The coach also had high praise for Smith, who will compete in the 440-yard dash and the mile relay.

Goad and Jones will compete in the mile relay, also.

A sophomore lad, Dickie Thomas, came in for special commendation from the coach. Thomas won fourth in the district with a time of 2.9 in the 880-yard dash. While only first, second and third place winners qualified for the region; Hedges said this was a very good showing for a sophomore, and he is expecting great things from Thomas in future track seasons.

The coach pointed out that his team this year included 15 freshmen and several sophomores and that possibilities appear bright for Slaton High School to field a well-rounded team in coming seasons.

The Crusade was sponsored by the FHA girls and the FFA boys as their part in the battle against cancer.

The city had been divided into 12 sections with a captain and a co-captain over each section.

Persons desiring to contribute may still mail their donations to the American Cancer Society, Slaton.

At least two former world champion ropers and a number of others who have ranked close to the top in former years in championship standings make the list of entries in the Crosbyton contest read like a roster of "Who's Who in the Roping World." # Here's why Chevrolet out-V8's everybody!

These features and advantages are the measure of a truly modern V8 engine... and only Chevrolet has them in the low-price field. Most aren't even found in high-priced cars. That's why Chevrolet is stealing everybody's thunder with the most modern V8 on the road!

The "Two-Ten" 4-Door Sedan. You'll find your favorite model among Chevrolet's complete line of Fisher Body beauties.

Don't buy ANY V8 until you've tried Chevrolet's record-smashing 'Turbo-Fire V8'!

#### Modern 12-volt electrical system!

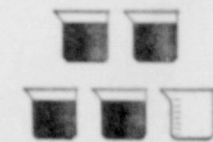

The only car in the low-price field with the extra energy of 12 volts... twice the electrical punch.

Faster, stronger cranking for cold-weather starts and a "fatter" spark for faultless high-speed operation.

#### Highest standard compression ratio in its field!

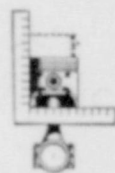

Chevrolet's compression ratio is 8 to 1, to wring every possible ounce of power and extra miles out of every gallon.

Requires only four quarts of oil! Chevrolet's V8 engines are so efficient they need only four quarts of oil... so you save money on every oil change!

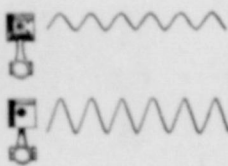

#### Highest horsepower per pound!

These great V8's weigh far less than any similar engine in America, top the low-cost field in power per pound!

Shortest piston stroke in the industry! Three-inch stroke reduces cylinder-wall friction, generates less heat, permits more compact design.

The pistons do far less traveling per mile... that means less engine wear, lighter loads on bearings, longer life.

It's the valve-in-head V8 as only the valve-in-head leader can build it!

## Awards Announced For 4-H Members

Awards valued at \$50,000 are being offered 4-H Club members in the 1955 National 4-H Garden, Canning and Foods programs.

Of the half-million 4-H'ers who participate in the three projects each year those with outstanding records will be honored on county, state, sectional and national levels. Much of the foodstuffs grown in the 100,000 acres of 4-H gardens are used fresh, but members also can over six million quarts of food and freeze more than three million pounds annually.

Medals will be offered to four outstanding garden members in each county. State winners in the program will receive trips to the National 4-H Club Congress in Chicago, Nov. 27-Dec. 1. The eight top-ranking 4-H'ers among the state winners will get \$300 college scholarships each. For the 10th consecutive year, the Tractor Division of Allis-Chalmers is providing the awards for garden winners. Similar county and state awards are made available to canning winners. The six top state winners will receive \$300 scholarships from the Kerr Glass Mfg. Corp., donor of the canning awards, at the National Congress.

In the frozen foods program, medals are provided for two county winners by International Harvester awards donor. State winners will receive \$50 U. S. Savings Bonds. All-expense trips to the National 4-H Club Congress will be given eight sectional winners, representing all parts of the country, and six of the trip winners will be presented \$300 scholarships as national winners.

Club members in the programs "learn by doing," while increasing individual and family incomes by reducing the amount of food purchased and providing the family with healthful foods.

4-H Club work is conducted by the Cooperative Extension Service, and full information about the programs is available from county extension agents.

Mr. and Mrs. Woodrow Bland and two girls spent from Thursday until Sunday night in San Lewis, Colo. visiting Mr. Bland's brother and sister-in-law, Mr. and Mrs. R. C. Bland.

## going forward with Slaton

By Bob Moore

MANY a gem of wisdom has gone unsaid, because someone lacked the ability or the fortitude to express it.

WILBUR, out shopping with his mother, pointed to a set of false teeth in a shop window and said, "If I had to wear false teeth, that's the kind I'd like."

"Why Wilbur," said his mother in shocked surprise, "how many times must I tell you not to pick your teeth in public!"

BY the time this appears in print, the first and second graders of Slaton schools will have had their initial shot of a series of three of the marvelous new Salk polio vaccine. School officials, local physicians, the Elementary Parent Teachers Association, and others who assisted in the program are to be commended for the promptness and the spirit of teamwork that went into making the preventive serum available to the children. Perhaps, within a few years the word "polio" will be as much a thing of the past as yesterday's newspaper. Anyway, the future looks bright.

WHETHER you like pancakes or not, every citizen should drop by the West Ward Cafeteria Friday, April 22, 6 p.m. and help the student body out in their campaign to raise funds for Western Day. I think the youngsters are especially deserving of our support, in the fact, that instead of going around town asking for outright donations; they have the initiative and desire to work for the money. They are promising "all you can eat" for 75 cents—including bacon or sausage, coffee and pancakes.

THE MAN who wants to lead the orchestra must turn his back upon the crowd.

IF . . . this old world were just a perfect world—if men and women never said foolish things nor ever did unwise ones; if we were never weary nor ever hungry; if our eyes were always brave and never dim; if we never tramped mud onto clean floors nor flicked ashes behind davenport; if hearts were never dreary nor lips light with pain—would life be half so good?

HERE & THERE: An orchid to the FFA and FHA organizations for the hard work they did in the Cancer Crusade Sunday afternoon . . . From the rehearsals at the Lions Club "Womanless Wedding," Slaton folks are in for a real laugh treat Friday, May 6, at 8 p.m. in the high school auditorium. Coach Homer Tompkins as the frisky old grandma appeared particularly "promising" in this role at a recent rehearsal . . . Ronald Barry, Slaton High School student, will be a "natural" for the school Western Day as he has grown a heavy black beard right along for the Frontier Day Celebration in Slaton June 3-4. If everyone will continue to work on this project as they have been doing, this should really be an affair to attend and remember . . . Jack Lienfelder, Slatonite advertising manager, sporting a new station wagon. Who says advertising doesn't pay? . . . Looks like Slaton people are really "on the go" and having company these days as Mrs. Frances Murphy, who writes the personals for The Slatonite, reports a record number last week.

IT'S not what you say, but how you say it that makes all the difference in human relationships.

OUR favorite barber, and we regret to say that we don't even know his name, reports a catch of 46 fish recently at Lake Stamford. Looks like we may have to mosey down that way some week end pretty soon. W. H. Rodgers, manager of Buffalo Lakes, reports that fishermen are having better luck due to some recent dredging around the banks; so it might not be a bad idea to try out there again. Anytime you fishermen have any luck, let us know. Nothing we like better than a good fish story, but keep 'em within reasonable bounds of the truth, please.

Mr. and Mrs. J. E. Rucker left last Friday to go to Arkadelphia, Ark. to visit their son, Choice Rucker, and family. They will also visit in Dallas and Waco and plan to return to Slaton about May 1.

Mr. and Mrs. A. L. Wilson of Plainview and Mr. and Mrs. Harold Morrison of Edmondson visited with friends in Slaton last Friday night.

Mr. and Mrs. R. H. Todd Jr., David, Carol and Mark and Mrs. M. L. Turnbow spent Sunday in Hereford visiting Mr. and Mrs. J. C. Hennington. Mrs. Hennington is Mrs. Turnbow's daughter, and Mrs. Todd's sister.

## Why Trop-Artic Oil Can Double Engine Life

## IT'S PERFORMANCE THAT COUNTS!

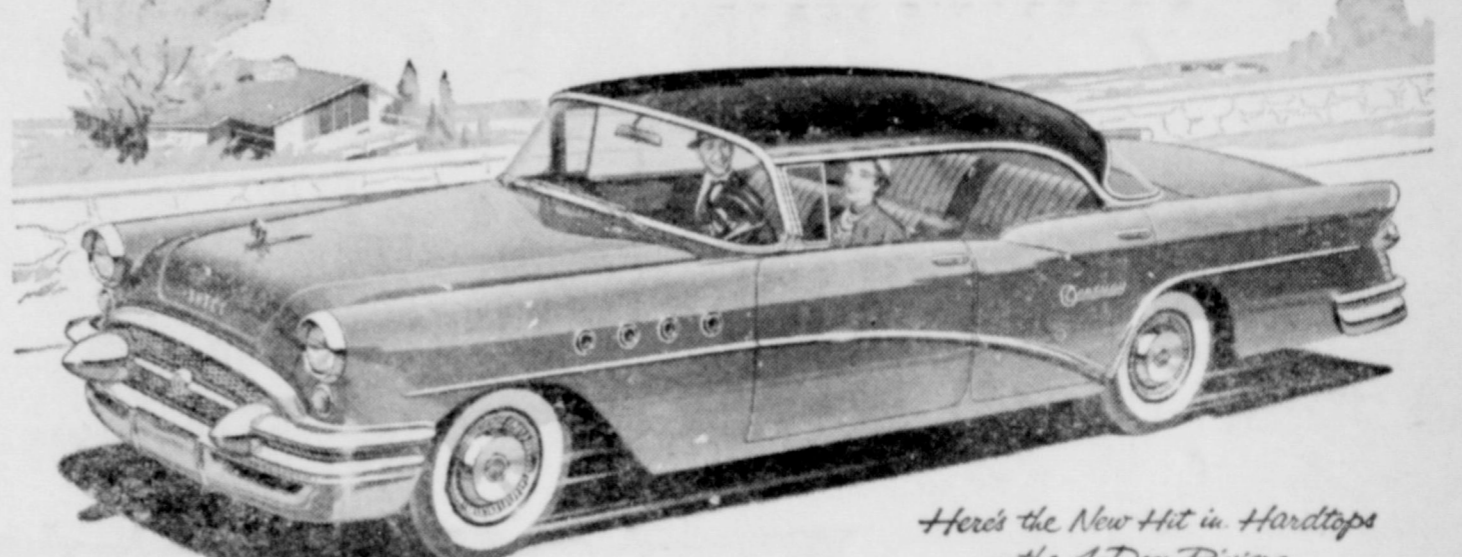

Some motor oils give good protection at low temperatures. Other oils are effective at high temperatures. But new TROP-ARTIC All-Weather motor oil gives protection at all temperatures, from below zero to extremely high heat. So it's easy to see why TROP-ARTIC is so much better than ordinary motor oils at preventing engine wear . . . so much better that it can even double engine life. TROP-ARTIC lets you start easier . . . saves you gasoline . . . and can save 15% to 45% on oil consumption. Phillips 66 TROP-ARTIC is the first all-weather oil to meet the highest standard ever established for automobile motor oils . . . the Mil-0-2104 Supplement 1 Test. ## Got an itch to switch the pitch?

Here's the New Hit in Hardtops—the 4-Door Riviera

WANT to do what a pilot does when he clears for take-off? Want to feel the pulse-quickenning thrill that comes of giving the gun to a high-powered automobile with the world's first airplane-inspired transmission? Want to try Buick's Variable Pitch Dynaflo\*—the spectacular new wonder drive that's the talk of car makers and car buyers alike—and the drive that's sending Buick sales soaring to new record-breaking highs? Well, sir—be our test-pilot guest at the wheel of a '55 Buick and let today's Dynaflo do the honors. When you press the pedal as you normally would, you move ahead in velvety smoothness, getting plenty of miles from each gallon of gas . . . Because twenty propeller-like blades inside the Dynaflo unit, spinning in oil, have an angle of "pitch" for top economy—like the modern plane's propellers when cruising in the air. But comes the need for emergency acceleration, and—like a pilot does for quick take-off and climb—you switch the pitch of those Dynaflo propellers for action, just by pressing the pedal all the way down. Instantly, you get full-power response for split-second getaway, or for a sudden safety-surge to get out of a tight spot on the highway. It's a response thrilling beyond all previous experience—because there's never been anything like it before in any car. And we'd like you to try it—along with the wallowing new V8 power, the cruiser-steady ride, the fine handling ease, and the true big-car roominess that are all part and parcel of every Buick. Can you come in today—this week, for sure—and test pilot the hottest Buick yet built? \*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.

Local Delivered Price of the 1955 Buick SPECIAL Sedan, Model 48 (illustrated) is less than some models of the best-known smaller cars! Come in and check it!

**Slaton Women Give Their Favorite Tested Recipes**

"I can remember my grandmother making this pie when I was just a small child and I just loved it then and still enjoy making it," says Mrs. B. B. Green, of 925 W. Dickens St. Margie warns that it is very rich, but also very good.

**Osgood Pie**

- 2 eggs
- 1 cup butter
- ½ cup sugar
- ½ tsp. cloves
- ½ tsp. vinegar
- ½ cup raisins
- ½ cup nuts

Method: Beat the egg yolks lightly, add sugar, butter, vinegar, spices and mix well. Beat the egg whites, then add the nuts and raisins. Place in an unbaked pie shell and bake in 325 degree oven for about 30 minutes.

**Moved Here 5½ Years Ago**

Margie says that when they moved here from Plainview five and one half years ago she really did hate to leave Plainview, but she has found Slaton to be a very friendly town and she enjoys living here now.

Her husband, Bill, is employed as a fireman on the Santa Fe. They have one small son, Roy Clay, who is five years old and is attending kindergarten now.

**Margie President of Auxiliary**

Margie is president of the Ladies' Auxiliary of the Brotherhood of Locomotive Firemen and Engineers and is very active in this organization. At the present they are planning to send a drill team to Ft. Worth May 26-27 to participate in a contest at the Texas-New Mexico Union Meeting. Slaton's drill team won a trophy at Amarillo in 1951, and hopes to this time.

There are 18 women who are to compose the team and they are all to be dressed alike. Their dress are to be made of red and white printed nylon sheer over red taffeta. Margie's mother, Mrs. C. A. Hughes, of Lorraine, is to make these dresses, assisted by Margie and Mrs. C. C. Hunter Jr., so you can see that things are going to

be humming at the Green home for the next month or six weeks.

Margie attended school at Lorraine and finished high school there. She attended Jolly's Beauty College in San Angelo and worked as a beautician for over three years. She says that she just loved her work.

The Greens met in Ft. Stockton, where Bill was working and Margie had gone to visit a girl friend. Later the friend and her boy friend and the Greens had a double wedding and the couples have been friends ever since.

Mrs. Green's hobbies are sewing, embroidering, oil painting and reading. She loves to cook, and smiled when she said that you could look at her and tell that. She has a weakness for materials and shoes and just can't resist them.

The Greens attend the Church of Christ.
