#### **Expect Arrival Here** Some Time In Sept.

A letter was received by the Slaton Chamber of Commerce Wednesday from Ralph W. Ater, Public Relations Department, Amarillo, that the city of Slaton was to receive as a gift, Locomotive 1809, announced Melvin Kunkel, president of the C. of C. Plans are for this engine to be placed in the park at the Santa Fe depot as a historical marker.

The letter was in reply to an inquiry Mrs. Bisbee had sent to the Santa Fe people concerning this gift.

John Berkley, chairman of the C. of C. engine presentation committee, reported Wednesday that the engine was expected to be ready in about three or four weeks but that it would be the middle or latter part of September before everything would be ready for cepting this historic donation.

When told of the receipt of this letter by Mrs. Bisbee, the president of the C. of C. said: "Slaton being a town founded by the Santa The summer revival of the West- Fe and a town that is still a rail-

#### BANK DEPOSITS NOT SCHEDULED FOR TAXATION

Editor's note: This article appeared in the Dallas Morning News on Thursday, July 21, of this year, and was written by Allen Quinn.

Because it is of general interest to residnts of this area Howard Swanner at Citizens State Bank in Slaton suggested it be run in the Slatonite.

Mr. Swanner believed that the article would serve to clear up possible confusion about bank deposits in Texas.

The recent ruling of the Texas Supreme Court that bank deposits are taxable will not make any difference in the City of Dallas tax assessment policy, Assessor and Collector Norman P. Register said Wednesday.

Register said that the court's decision has created much confusion in the minds of taxpayers, particularly among those saving for their old age.

"The decision announced is nothing new, but merely restates what has always been the law in Texas," he said.

"So that real estate, particularly homes, would not carry an undue burden of taxation, a substantial part of the tax roll has consisted of moneys, credits, inventories, merchandise and other items of personal property under the Dallas assesing policy.

"This policy, we believe, has fairly distributed the tax burden and we see no reason for changing it," Register said.

In practice, the city has not assessed individual bank accounts except where bank balances were rendered for taxation. While all bank accounts are taxable under the law, the city has no way of obtaining information about the accounts of individuals unless the individuals themselves declare them. The city, under the law, cannot require banks to furnish the

The same is true of household goods, which are taxable under Texas law. Unless householders declare them for taxation, the tax department has no way of knowing what people

Dallas business, on the other hand, is required to make rendition of all personal assets, including money, accounts due, inventories, merchandise and business equipment. Tax appraisers also check on businesses to determine the accuracy of the renditions.

As a result of business renditions and a few declarations by individuals, Dallas assesses and taxes millions of dollars in bank deposits and other personal property.

More than 40 per cent of the assessed value of property on the Dallas tax rolls is personal property—the highest percentage of any city in Teas.

But for the average individual, the only personal property tax is on his automobile although nearly everything he owns is subject to taxaxtion if it were feasible for it to be assessed.

Step in ... and command the most modern truck power on any job!

### Seven new "high-voltage" high-compression valve-in-head engines!

Here's hour-saving, dollar-saving power for your job ... the biggest choice of engines in Chevrolet truck history! And they're the most modern engines in the industry!

You've got it good under the hood with a new Chevrolet Task-Force truck! With two new V8's and five new sixes to choose from, you can pick the power that's tailor-made to do your kind of hauling.

Shortest stroke V8's in any leading truck! Both of Chevrolet's new truck V8's have an ultra-short stroke-shortest of any V8 in any leading truck. They're of modern oversquare design, which means that the piston stroke is smaller than the bore. The result is less piston travel per mile . . . longer engine life. Also, Chevrolet's compact truck V8's deliver ex-

ceptionally high horsepower per pound of engine weight. More power is actually available for hauling your loads!

Modern 12-volt electrical system! You get this great development in all new Chevrolet truck engines-both V8's and sixes. The 12volt electrical system delivers twice the punch for quicker cold-weather starting (up to 30% faster cranking speed). It also provides a hotter, fatter spark for better ignition.

Come in and command the most modern truck power for your job!

Year after year . . . America's best-selling truck! CHEVROLET

# WE'RE TRADING HIGH, WIDE -and then some!

So-you get a triple bonus in today's top-selling Buick

> 1 Bonus Trade-In Allowance -biggest in our history

2 Bonus Buy

- because Buick is the thrill of the year in style, power, performance, value

3 Bonus

Resale

-beause a

Buick always

resells high

brings you more

money when you trade it in Bonus Beauty in Hardtops

Even the new hit in hardtops—the 4-Door Riviera is included in our profit-sharing bonus deals today. Shown here is the low-price Buick SPECIAL, 6-Passenger, 4-Door Riviera, Model 43. Also available in the supremely powered CENTURY Series as Model 63.

Jou can come in right now on a Buick dividend distribution that's like money in the bank for you. And a look at the nation's new-car sales figures will tell you why.

This year, Buick is doing far better than just outselling all cars in America except the two most widely known smaller ones. This year, Buick sales are soaring past every highwater mark in the book-past 600,000 carsand we're still going strong.

So we're declaring an extra dividend - for you. On top of the long trade-in allowances we have been making all year, we're adding a profit-sharing bonus allowance.

But you'll be getting a lot more than a great deal. You'll be getting a great car - the hottest-selling Buick in history.

You'll be getting Buick's far-in-advance

styling, Buick's mightiest V8 power, Buick's highly envied all-coil-spring ride, Buick's extra size and room and comfort and solidity of structure. And you'll be getting the performance thrill of the year-Variable Pitch Dynaflow\*- the switch-pitch transmission that's taken the country by storm.

Come in today and see for yourself that there's never been a car like this before and never a deal so easy to make.

\*Variable Pitch Dynasiow is the only Dynasiow Buick builds today. It is standard on ROADMASTER, optional at millest extra cost on other Series.

Thrill of the year is Buick-

# FORREST DAVIS IS LIONS CLUB SPEAKER TUES.

Forrest Davis, head of the water and sewage departments of the City of Slaton, was guest speaker at the Lions Club luncheon Tuesday of this week. Mr. Davis told the club of the present set-up the city has in the water and sewage department and the problems facing the city. He pointed out that the city has no chlorinators with which to apply chlorine to the water supply, a system a city the size of Slaton should have as it is possible for any water system to have contamination.

For the information of the members present the speaker gave a series of chemical and bacteriological analyses of water as analyzed by the State Health Department.

In speaking of the sewage disposal in the city, Mr. Davis stated that up until a few years ago Slaton was operating with a disposal system adequate for a population of 500 but at the present time the city has an adequate disposal plant on city property northeast of town.

There are some sections of the city that are not covered by the city sewer system. Terrain in the southeast section of town is so low that an almost entirely new system would have to be installed to take care of that section.

Bill Smith was program chairman for the day. Lion J. Floyd Jordan introduced the speaker.

A discussion was held concerning the Lions Club participating in the Slaton booth at the Lubbock County Fair. They voted to take part and help furnish labor and personnel to help with the booth

Warlike Indians are believed to have known a secret exit to Texas Longhorn Cavern, near Burnet. They often used the cave as a sanctuary, holding many white captives there. The secret exit to this day has not been discovered.

Eight miles of underground passageways have been explored in Texas Longhorn Cavern near Burnet, but the end has not yet been reached. Lowest level discovered so far is 310 feet below surface. Two miles of the cavern are open to visitors.

Warren G. Harding was the first president to address the American public over the radio.

Sometimes a person who offers you a penny for your thoughts has a shrewd understanding of values. —CHANGING TIMES

Fowl ticks—also known as blue bugs and chicken ticks—are unnecessary, drain on turkey and chickens during the summer months. A spray containing .5 percent lindane, chlorodane or toxaphene is recommended for fowl tick control.

Brush were exchanged in the home Their accessories were of blue and white and they were matching Mrs. Francis Perry.

Their accessories were of blue and they wore matching Mrs. Tuesday morning with Mr. and Mrs. C. E. Gravell at 915 W. Jean the double ring ceremony before St., on Wednesday, Aug. 10, at a background of fern trees and

Dorothy Jo Gravell and J. R. Mr. and Mrs. W. C. Brush. The Rev. J. T. Bolding, pastor shades of pink, white and yellow. Dublin visited for a little while of the bride's parents, Mr. and of the First Baptist Church, read

> in candelabra were also used. Mrs. Clyde McGinley, pianist, played traditional wedding music and accompanied Mrs. F. W. Hoffman, Lubbock, as she sang "Because" and "At Dawning"

baskets of white daisies. Tapers

Given By Her Father

The bride, who was given in marriage by her father, wore a wedding gown of tulle and Chanilly lace. From the bodice designed with a portrait neckline, fell a pillowing tulle skirt with bands of ace set into the ballerina-length skirt. Her veil of illusion was atached to a coronet crown studded with seed pearls and rhinestones. She carried a bouquet of white and pale pink roses.

The bride's only attendant was her sister, Miss Martha Gravell, who wore a ballerina-length gown designed of taffeta and net o jewel pink. She wore a wristlet of multi-colored daisies

Brother Best Man

Kenneth Brush was his brother's

Immediately following the cere mony a reception was held in the home. The table was laid with a lace cloth and centered with an arrangement of roses flanked by blush pink candles and crystal holders. Crystal appointments were used. The wedding cake was a double-ring decorated in pink and white, Mrs. Tip Culver presided sided at the bride's book.

#### Slaton Streets Become Confusing To Little Girl

Little four year old Diane Mc Meekan, daughter of Mr. and Mrs. J. E. McMeekan, 310 S. 5th St. became quite perplexed Tuesday afternoon when she couldn't find her way home from the grocery her way home from the grocery

Diane and her grandfather, S. C. Quisenberry, left the house to go to the grocery store, just a few blocks away. After an hour had passed and they hadn't returned home, Mrs. McMeekan decided she had better see if she could find them. After an unsuccessful attempt to locate them, she asked aid from her neighbors. They looked all over their section of town for another hour. Douglas Lively told them he thought he saw them on West Division. And so they were, walking hand in hand looking peaceful and calm. When asked what happened, Diane told her mother that she was showing her grandfather the town. Then she said she guessed that they took the wrong turn when they left the store and she couldn't find her way back.

Mrs. McMeekan said Diana knew their telephone number and she asked her why she didn't call home and she replied, "We never did

### Silage Fills Bill For Stock Raisers For Fall Term

COLLEGE STATION,-Next to pasture, silage is the cheapest source of succulent feed for livestock, says C. H. Bates, extension

farm management specialist. And it's filling the bill for many at Texas Tech are running more than 30 per cent ahead of last of 7,000 students this fall for the Texas producers.

"No other method of storing year's figures, H. L. Burgess, su- fall term which begins September forage is as economical as the pervisor of room reservations, an- 12. unlined trench type silo," says Bates. Recent studies indicate that such a silo of 200-ton capacity can be constructed and maintained for 93 cents for each ton of material ensiled. Silage, Bates continues, provides

an excellent source of vitamins and minerals essential to mainten ance and growth of livestock Chances of loss from rodents fire or weather is negligible and are other silage advantages. It may be put up in seasons not

can be "self-fed," eliminating practically all labor costs in feeding. Specialized equipment, however is required for an efficient harves and silo-filling operation. Field cutters for chopping the material rom row or broadcast stands usualare available to farmers on a istom job basis at costs of about

suited to hay production. And it

\$1 an acre. A sizable labor crew also is needed for harvest of silage, but Bates ays many farmers work out this problem with a labor and equip ient exchange agreement with neighbors

# Reservations High

At Texas Tech LUBBOCK, July - Dormitory room reservations for the fall term date a record-breaking enrollment

Burgess reported that through Monday 2555 reservations had been made for the term, 1595 by mes, 960 by women. Reservations the time last year numbered 1912 Reservations are being receive

at the rate of about seven per day from men, four per day from we men students, Burgess said.
