

THE BEST PLACE TO LIVE

Slaton has a good start toward being one of the most attractive towns on the South Plains because of the many unusual and attractive flower gardens that have been developed within the past few years and the interest in growing things has taken on a great impetus.

The new water well on the East side of town has added considerably to give the city enough water to encourage the irrigation of flowers during the summer time and if more water rate arranged so that the gardeners could be encouraged to grow more flowers and fresh vegetables the appearance of the town and the health of the citizens would surely show much improvement.

Slaton at the present time has a water rate comparative to the other towns on the South Plains, but if there is enough water available that could be put into the city mains it would surely be profitable to make the rate more attractive because a great many people would take advantage of growing more and better cared for lawns and gardens.

With the improvements at the City-County park and the better care of the City Hall grounds Slaton is taking on the appearance of a most attractive town, the face lifting of the business district and the cleanliness of the town should and does make visitors most pleased with Slaton. Better think twice before you sell Slaton short. — A. M. J.

SLATON'S BIRD IN HAND

The progress and prosperity of every community is governed to a more or less extent by what the citizens of each town do to improve and encourage the advantages that are already established just as much as by what can be done to bring more activity to any area.

The town of Slaton has one activity in the way of the Santa Fe Railroad that has been here so long that it is accepted as just as much a part of the town as its streets, water works and sewer system. Slaton has grown slowly in importance also as the center of rich farming area. This also has been accepted as a part of its natural rights and no concentrated effort made to improve the conditions between the business men and the farmers.

True, most of the business men of the community individually endeavor to make friends among the farmers but little is being done to encourage the people who live outside the city limits to come here and bring their families here to shop.

Where would a family of people visiting in Slaton for a days shopping find rest room facilities, where would they go for amusements outside of a picture show, who would make them feel welcome to Slaton?

Of course it is probably important to secure new enterprises for the town but how about giving some serious consideration to the good things that are here now and to taking full advantage of what is a reality and not a bird in the bush. — A. M. J.

HUNGER FIGHTERS

When we speak of mass-production, we automatically think of industry. Few of us connect it with agriculture as well. Yet, as an Eastern bank points out, "Recently developments in farm machinery have been so rapid that the farmer has outstripped other segments of our economy in mass-production methods."

The farmer now has available combines capable of harvesting 30 acres of wheat a day; mechanical corn pickers that can harvest two acres in a single hour; cotton pickers that do the work of 40 men, and all manner of other machines and appliances that do the work of agriculture swiftly, efficiently and economically, and with a minimum of human sweat. And modern equipment does more than just handle the crops. It makes it possible for the farmer to conserve the land for future generations.

We have over 30,000,000 more mouths to feed than in 1940. We eat better than ever. Yet, in those 15 years, some 2,500,000 farm workers have left the farms and entered industry. The machine, by bringing mass-production to agriculture, made that possible.

Moreover, American farm equipment doesn't all stay home. Since 1946 we have exported \$2,000,000,000 worth of it. The Eastern bank says, "Abroad, American farm machines are known as 'hunger fighters.'" They are helping to solve the grave food problem that has plagued much of the world since history began.

Some parents endeavor to raise their children by the book—and some apply it with carefully directed force.

Whenever a husband and wife have words, it is easy to guess which one gets to use them.

STRENGTH for THE WEEK

Theme - Great Chapters Of The Bible:

Continuing our study of great chapters of the Bible, Proverbs 3 is entitled the "wisdom" chapter. A brief survey reveals this outline:

- 1-12 Always trust God.
- 13-26 Hold fast to wisdom.
- 28-35 Dwell in God's house.

It would be safe to estimate that 50 to 75 per cent of our Christian knowledge is learned in Sunday school, yet people persistently stay away after they have "grown up." Prov. 1:3 reminds us, "My son, do not forget my teaching, but let your heart keep my commandments."

The paths the Lord asks us to follow are many times twisting, full of thorns, dangerous, unmapped, but he says, "trust in the Lord with all your heart, and do not rely on your own insight." (Prov. 3:5) But then, when we stray from his guidance and take other roads we are reminded what happens; "my son, do not despise the Lord's discipline or be weary of his reproof, for the Lord reproves him whom he loves" (Prov. 3:11-12b).

The tone changes a bit to that of how "happy is the man who finds wisdom, and the man who gets understanding." (Prov. 3:13) Do you have understanding and wisdom, my brethren? "Jesus in-

The Slaton Quartet entertained the Rotarians Thursday noon with several numbers including spiritual songs. They were presented by T. E. McClanahan.

The quartet was composed of Bill Baker, Bill Mosley and Rev. Herb Smith. Mrs. R. A. Thompson accompanied them on the piano.

Two rodeo performers were present as visitors. They were George Kostenuck of Longview, Alta, Canada, and Mervyn Carter of Penttocton, B. C., Canada.

Mr. and Mrs. Jessie Ewing and Dalton of Texas City and Mrs. W. E. McAllister of Lubbock were in Slaton to attend the Frontier Days celebration and visit with old friends. Mrs. Ewing is the former Erlene McAllister. Both of the Ewings graduated in Slaton. Mrs. Ewing in the class of '31 and Mr. Ewing in the class of '29.

creased in wisdom" (Lk 2:52), but have you done so? "My son, keep sound wisdom and discretion, — and they will be life for your soul. Then you will walk on your way securely and your feet will not stumble." (Prov. 3:21a,22a,23) My friend, there is no substitute for real thing - "grace and truth came thru Jesus Christ." (Jn. 1:17b) So now, as you read Proverbs 3, may the Holy Spirit guide and draw you closer to the wisdom, that all men need—Jesus Christ, our Lord and Saviour. L. Lake

Mr. and Mrs. Bill Sikes and Jimmy spent the week end in Corpus Christi visiting Mr. and Mrs. A. L. Voigt and children. Mrs. Voigt is the daughter of Mr. and Mrs. Sikes.

Biggest thing in Low-Priced cars

-actually costs less than some models of the well-known smaller cars! (Come in and check)

THIS is a Buick — a 2-door, 6-passenger SPECIAL Sedan.

It packs a wallowing 188-hp V8 engine under the hood—is carried on a strapping 122-inch wheelbase—rides with the luxury cushioning of all-coil springing, the solid steadiness of a full-length torque-tube drive, the extra safety and silence of tubeless tires.

It's big and brawny and road-steady and roomy—each seat cushion measures over five feet in width.

Yet this beauty—as the price we'll show you proves—delivers locally for just about the price of the well-known smaller cars—even below some models of those same cars.

Buick Sales Are Soaring To New Best-Seller Highs

That, for sure, is one reason why Buick sales go higher and higher and higher. More and more people are finding that you can buy a

Buick for the price of a smaller car, so more and more people are getting this bigger buy for their money.

They want the bigger package of sheer automobile for the money that they get in Buick — bigger in power thrill, in roomy comfort, in riding steadiness, in structural solidity.

They want the added prestige and pleasure of owning Buick styling and size — and the added safety and sureness of Buick road-ability and handling ease.

They want, too, the spectacular performance and better gas mileage of Variable Pitch Dynaflo†—yours at modest extra cost.

And they certainly want the choice Buick offers of a car in every price range, with each one the buy in its field—the low-price SPECIAL, the supremely-powered CENTURY, the extra-roomy SUPER, and the custom-built ROADMASTER.

Why don't you come in for a visit and see how much real automobile your money can buy here?

†Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.

Two Slatonites Enlist in Army

Two recent Slaton enlistments were announced today by Master Sergeant W. A. (Sam) Bass, Station Commander of the Lubbock Recruiting station.

Glen Allen Crews of 320 West Garza St. enlisted May 31 in the Ordnance Corps. After eight weeks of basic training at either Fort Ord, California or Camp Carson, Colorado, Crews is scheduled to attend an Advanced Individual school at Aberdeen Proving Ground in Maryland.

Leroy Bloodworth of 225 West Dickens enlisted May 26 in the Third Armored Division and is in Fort Knox, Kentucky for basic training and pre-embarkation training with his assigned unit.

Bloodworth will depart with his unit this year for Germany's new rotation plan.

Under this plan Bloodworth's unit, the Third Armored Division will replace the Second Armored Division in Germany.

Master Sergeant Bass Station Commander Lubbock Recruiting Station visits Slaton each Monday morning and may be contacted at city hall or at the court house.

AUSTIN, Tex.—This may be the final week of the 1955 Legislative session.

Gov. Allan Shivers' guess for final adjournment, made two weeks ago, was May 25. It appears now that the Legislature may beat that date by a few days.

Overshadowing everything the past several weeks has been the big tax bill. But it is reaching its final form. Only hassle in the House, over acceptance or rejection of Senate charges in the \$100,000,000 new-tax measure will cause further delay in adjournment.

Optimists thought final agreement might be reached by Friday on the tax bill. This would unblock the big billion and a half dollar, two-year appropriation bill on which conferees already have agreed. If and when that is done the Legislators will go home. They have been serving since May 10 without pay.

Final agreement on the constitutional reviving the veterans land program—passed in different form by the two chambers—and one the \$100,000,000 bond issue to aid water districts—amended in the House to change the form of taxation—would round up major business.

Both branches virtually abandoned efforts to pass any more of the untouched calendar bills.

A final vote on Sen. George Parkhouses "Port Arthur State Bill" in the House, early this week left it awaiting only Senate concurrence or conference action. The bill prohibits picketing to force an employer to recognize a union, or to force workers to join it, unless the union represents a majority of the employees. It authorizes a court to order an election to see if the union has the majority.

Already passed was Parkhouse's "Ford Motor Bill" to deny unemployment benefits to workers idled because of strike of their union in some other plant of their employer.

Hanging fire in the House was the third of Parkhouse's labor bills, authorizing suits for injunctions and damages in picketing or strikes contravening the "Port Arthur

bill."

Insurance Remedy

One of the major jobs that faced the legislature has been completed, says Lt. Gov. Ben Ramsey, by the passage of four insurance bills. This is what the measures do:

Plug up legal loopholes that permitted promoters in the last four years to sell \$100,000,000 in worthless insurance stocks.

Require fire and casualty insurance companies to have capital of at least \$150,000.

Require stock life companies to have \$100,000 capital and \$100,000 surplus and prohibit future organization of \$25,000 limited capital stock companies. Limit investment in home office building to one-third of a company's assets.

Define the authority of the State Insurance Commission to act as a board and authorize it to make stricter and more frequent examination of insurance companies. Provide for the commission to review the management operations and financial plans of proposed new companies.

Shivers, Shepperd Talk

Governor Shivers and Atty. Gen. John Ben Shepperd appeared before the House investigating committee to talk about the veterans land problem.

Shivers remarked that he had been criticised because, as a member of the Veterans Land Board, he had not discovered any of their

irregularities.

"Regular hecking by the state auditor failed to uncover any wrongdoing," Shivers said, "and it is well known that irregularities were discovered outside the land board's records."

Both Shepperd and Shivers assured the committee that no change has been made or ordered in the minutes of the Veterans Land Board.

Where errors occurred, it was pointed out, the original minutes were rubberstamped to show that corrections were made in the minutes of the April 27 meeting.

Land Bill Debated

On the Senate floor, there was debate on a bill which the House has passed and which is aimed at preventing future villany in the veterans land program.

Rep. Dolph Briscoe of Uvalde is author of the bill which would more strictly regulate land sales and introduce new safeguards into administration of the program.

Surprise Development

Biggest development was the surprise call by Justice of the Peace Travis Blakeslee of a court of inquiry, at the request of Attorney General Shepperd, to start a six-week check of the operation of the entire billion-dollar General Land Office under former Commissioner Bascom Giles.

This involves money of state land sales, the leasing and sales by the Board for School Land Leasing, the Board for Mineral Development of University lands. The tidelands leasing is in the school program.

Shepperd said other VLB members, Gov. Shivers and new Land Commissioner J. Earl Rudder, joined him in requesting the court of inquiry.

Sen Jimmy Phillips charged it was a publicity gimmick to head off a legislative investigation of the Land Office, proposed in pending House resolutions.

District Judge J. Harris Gardner

Norma Jean Bickers of Beverly Hills, Calif., and Tommy Bickers and Miss Nancy Stevenson of Austin spent the week end with Mr. and Mrs. T. N. Bickers.

Mr. and Mrs. Joe Holland and Mrs. C. R. Potthast spent the week end in San Angelo visiting Mr. and Mrs. L. E. Ayers and family at Lake Nasworthy. Mr. Ayers is a brother of Mrs. Potthast.

Mr. and Mrs. A. K. Lincoln and children of Magdelina, N. M. spent the week end visiting Mrs. Lincoln's brother, Jim Vickers, and Mrs. Vickers.

Mr. and Mrs. Leon Moore and daughter, Angela, of Ft. Worth spent the week end with Mr. Moore's parents, Mr. and Mrs. H. L. Moore, and family. Louise Moore returned to Ft. Worth with them and will remain for a visit.

Guests in the home of Mr. and Mrs. A. T. Wright last week end were Mrs. Wright's sister, Mrs. Walter Doimney, and Mr. Doimney of Ft. Worth, Mr. and Mrs. Earl Wright, of Abilene and Mr. and Mrs. Shirley Young of Lubbock.

"I love the time-saving advantages of my ELECTRIC RANGE!"

says **Mrs. James Russell,**
1009 BALTIMORE STREET
PLAINVIEW, TEXAS

The modern range? Of course, it's electric. Mrs. Russell points out the "plus values" on her electric range. "The minute minder — convenience outlets — grill — automatic timer — and well-lighted work surface are all wonderful. They give me a big bonus — extra time for other things."

Perfection comes from accuracy — and the heat of an electric range is pre-set, no outside force — a breeze, for example — can affect it. In Mrs. Russell's words: "I can put my pie in the oven, set the timer, and go about my other household tasks while my electric range bakes the pie perfectly."

Yes, in ranges, as in all other appliances, to be modern, it must be electric. And if it's electric its convenient and time-saving, like Mrs. Russell's all-electric kitchen. "My all-electric kitchen affords more leisure time for my family and friends." Yours will, too.

Here's where all that wonderful performance begins!

They're all true—all the wonderful things you hear about Pontiac's great performance.

The way it sweeps uphill or down with the same effortless ease. The tremendous burst of passing power that answers the nudge of your toe. The thought-quick response in stop-and-go traffic that makes the car seem part of you. The smooth, quiet way it goes about its business however hard or far you drive.

Lift the hood of a Pontiac and you'll be face to face with the reason. That compact power plant nestled there may look much like other V-8's—but that's where your eyes deceive you!

The Strato-Streak V-8 is in a class all by itself—filled with engineering "firsts" that make it the mightiest engine ever to appear in Pontiac's price field. And it's one of the many Pontiac advantages you can't get anywhere else. Pontiac alone gives you the terrific drive of Strato-Streak performance.

This sensational performance, remember, comes in a distinguished, future-fashioned beauty that is tagged with a price any new-car buyer can readily afford.

Here's your wide-open invitation to come in and try the result—the fastest-selling Pontiac of all time. The car is ready whenever you are! Make it soon.

Slaton Senior Class To Receive Scroll

The Slaton Senior Class of 1955 is soon to receive a scroll as a permanent record of their gift to the American-Korean Foundation, according to a letter received by Nan Clifton senior class secretary this week.

The letter, coming from Major General C. W. Christenberry president of The American-Korean Foundation thanked the students for the gift and for the "thought and humanity that inspired it".

The class gift, according to the letter, "will go into urgently-needed educational projects in South Korea. The value of these will be enhanced by the fact that they express to Korean students the sympathy and goodwill of students in the United States."

Christenberry went on to say in the letter, "By extending a helping hand to Korean students, as you have, you show commendable concern over the plight of young people in Korea and equally commendable awareness of that new republic's importance in the world picture today."

Clifton Graduates With High Honors

James Clifton, the son of Mrs. A. L. Clifton of Slaton has earned the distinction of being the honor man in the graduating class of the I. C. Electricians School, U. S. Navy, with a mark of 91.24.

Mrs. Clifton received the information in a letter sent to her by the commanding officer of the U. S. Naval Training Center, Service School Command, San Diego, California.

The letter stated that Clifton voluntarily acted as an assistant instructor to the night school supervisor and by so doing assisted slower trainees in maintaining satisfactory progress and by his efforts, a number of men were able to continue in the school who otherwise might have been dropped.

While assisting the school in training personnel for the fleet, Clifton continued to maintain his own scholastic standing far above the average.

Lubbock County Has Vast Network Of Natural Gas Lines

Card Of Thanks

I want to thank all of my neighbors and friends, who helped me win in the Home Furniture contest.
Mrs. J. R. Robertson
Mrs. Curtis Hamilton of Lubbock visited during the Frontier Days celebration with Mr. and Mrs. Wade Thompson.

Many farmers in the West Texas area are discovering that the legendary "Pot-of-Gold" at the end of the rainbow isn't so legendary after all.
The "rainbow" in this case is a vast network of natural gas feeder lines and farmer group lines which have been constructed during the past two years which will result in savings of many thousands of dollars to Lubbock County farmers this year.

Construction crews of Pioneer Natural Gas Company, with its West Texas Division headquarters in Lubbock, recently laid the final length of pipe in a series of natural gas feeder lines totaling 787.59 miles in 12 West Texas counties. Pioneer's overall investment in the irrigation feeder line program totaled about \$7,875,000 or approximately \$10,000 a mile.

Of the total mileage, 70 miles of feeder line have been laid in Lubbock County, serving a total of 1,210 irrigation wells as of May 15, 1955. Pioneer Natural Gas Company's investment in the county is approximately \$700,000.

The gas utility company's irrigation program was first instigated in 1953. Since that time Pioneer has run feeder lines off of their trunk lines where a sufficient number of wells and right-of-way can be obtained. The farmers, in turn, have formed consumer groups and run their lines to connect with Pioneer's feeder lines.

Thus far, feeder lines have been laid in Randall, Palmer, Castro, Swisher, Bailey, Lamb, Hockley, Hale, Floyd, Deaf Smith and Crosby counties in addition to Lubbock County. A total of 8,629 irrigation wells are now run by natural gas in this 12 county area.

The farmers in this area have averaged laying approximately eight miles of consumer-owned line to every one mile of feeder line laid by Pioneer. This totals approximately 7,088 miles of natural gas pipeline laid in the 12 county area during the past two years.

This amount of pipeline, if laid end to end, could carry natural gas to Miami, Fla.; and from Miami to Raleigh, North Carolina. To the farmer who is fortunate enough to have a natural gas supply available with which to run his irrigation motors it means he has been able to cut his irrigation fuel costs in half and in many cases the farmer has been able to save two-thirds of the amount he paid in previous years for corresponding amount of irrigation fuel.

It has also meant lower motor-maintenance costs and has enabled the farmer to conduct longer and more intensified watering seasons which in turn have increased his per-acre yield.

And area businessmen are also realizing benefits from this new source of power for the farmer's irrigation engines as the buying power of their rural customers increases with the savings realized from the use of natural gas.

A network of natural gas feeder lines serving Lubbock County farms irrigation fuel are shown on the above map indicated by dash lines. These lines, laid by Pioneer Natural Gas Company, tie in with Pioneer's trunk lines which are shown as solid lines. A total of 70 miles of feeder line have been laid by Pioneer in Lubbock County during the past two years.

From where I sit ... by Joe Marsh

Sad Note From The Bugle

All of us on the Clarion were alarmed to learn that our principal rival in the newspaper field—the Balesville Bugle—might have to shut down.

Crops were bad in Balesville last year and one of their factories moved out of town. Just temporary hard times, of course—but the Bugle needs help now if it's to survive.

So, this paper is going to scrape up a little money to help tide them over, and we hope other local concerns will do the same. We've seldom agreed with them editorially over the years—but we want their competition to keep us on our toes.

From where I sit, this country needs papers with different points of view—just as it needs people with different ideas and tastes. You may prefer iced tea as a hot-weather cooler . . . I generally choose a cold glass of beer. But if either of us couldn't express his opinion, and act on it, that would be "bad news" for the whole community.
