Slaton, Lubbock County, Texas, Friday, October 19, 1928

Number 16

GOOD PROGRESS IN BUILDING PROJECTS

Perhaps two of the leading building projects now in progress in Slaton are the city's new fire station and the grain elevator and grain heads threshing plant being erected by a company of local men. Construction work on both of these projects is reported to be making splendid advancement.

The brick walls of the fire station for the second story are about completed, and it is believed likely that this building will be ready for occupancy before many more weeks have passed by. J. B. Maxey of Lubbock is the contractor.

According to R. C. Ayers, who will manage the grain elevator and heads threshing plant when it is finished, these plants will be ready about November 1, as originally intended. Some delay in getting machinery shipped out from the factory has been experienced, Mr. Ayers said, but this will probably not cause serious hindrance in finishing the construction on schedule time.

The elevator will have storage capacity of 10,000 bushels, while the heads threshing plant will have daily average capacity for threshing 350 tons of grain sorghum heads.

When the city's fire station is completed, all Slaton fire equipment will be housed there. One fireman and his family will have comfortable living quarters, and there will be office space and clubrooms for firemen. The building will cost \$15,000.

Larger Crowds See Feature At Palace Sunday

"That people of our neighboring towns prefer to make Slaton their headquarters, if we can offer the same attractions as can the larger towns, was manifested by the hearty support and an increase in attendance at the Palace Theatre last Sunday afternoon," stated Oskar Korn, owner of the theatre, and proprietor of the O. K. Circuit of motion picture shows.

A large number of out of town cars were here Sunday afternoon, it was stated, many people coming from long distances to attend the show, when Bebe Daniels appeared in "The Fifty-Fifty Girl."

Many attending the show spent several hours here, Mr. Korn believes, window shopping and otherwise passing the time in Slaton. Some of these people, doubtless, have heretofore been attending attractions in other towns, it was stated.

Next Sunday, October 21, William Haines will appear at the Palace in a high class picture entitled, "West Point." This subject is of the highest class of entertainment, the Palace management states, and, no doubt, will draw many new faces to Slaton.

The show will begin promptly at one o'clock p. m., and continue until six p. m., Mr. Korn stated. In addition to the above feature a two-act comedy will be shown, he said.

Boys For Troop 31 To Meet Mon.

All Boy Scouts, who are members of Mr. Brinker's troop, No. 31, and all boys within the required age who wish to become boy scout members, are asked to meet Monday night at eight o'clock at the East Ward school building. It is hoped that Troop 31 can be completed within a short time, and that actual scouting can be begun. Boys are requested to be at the school building Monday night promptly at eight o'clock.

RETURN FROM CONVENTION

Thomas R. Cobb, post adjutant, of Slaton, accompanied by E. J. Henry, also of Slaton, and a war veteran, returned from San Antonio, where they attended the American Legion National Convention. V. J. Williams, also representing Slaton, returned from there Friday. All the participants in the convention reported a most successful time.

Many Enter New Organization For Texas Students

COLLEGE STATION. — Approximately 600 Texas boys, students in vocational agriculture in various public schools over the state, have already enrolled in about twenty-five local chapters of the Future Farmers of Texas organization, reports from the school of vocational teaching of the A. & M. College of Texas shows. The idea of this comparatively new organization, for students taking vocational agricultural courses in the public schools, was launched in Virginia in 1926 and was adopted for Texas during the past summer. The Texas organization is being sponsored by the vocational division of the State Department of Education and the school of vocational teaching of A. & M. Purpose of the organization includes the promotion of vocational agriculture in the high schools of the state, creation of more interest in intelligent agricultural pursuits in the various counties, promotion of thrift, scholarship and rural leadership. It is planned to organize a local chapter in every school of the state where vocational agriculture is taught.

The first local chapter was organized at Winters under the supervision of R. E. Honan, teacher, the early part of September. The second chapter was organized at the Cisco High School. Monthly news letter under the title of Future Farmer News is being issued monthly in the interest of the organization, with E. R. Alexander, professor of agricultural education of A. & M., as editor.

Business Methods Make Farm Pay

The difference between profit and loss to the farmers is often a matter of production cost, according to agricultural authorities.

Modern competition, states a recent bulletin of the United States Department of Agriculture, necessitates modern methods of business, and the farm problem is just as much a matter for production cost studies as are the problems of modern factory management.

The feeding of livestock for market, agricultural experts agree, has many of the aspects which face the manufacturer of any community. The farmer's livestock represents his outlay or productive machinery. His raw materials are his grains and his feeds. His finished product is his milk, his beef, or his pork. And his profit is represented by the margin between the cost of feeding and upkeep of the animal as against the selling price of his product.

Linseed meal and other concentrates, Mr. Vrooman, whose name is signed to the bulletin, points out, when fed with roughage such as straw or stover, gives twice the food value as the same amount of corn, and while linseed meal and roughage cannot actually be substituted for corn; as a supplement, it can to an appreciable extent be used to cut down his feed bills.

In a series of experiments carried on by the agricultural experiment station at Wooster, Ohio, C. G. Williams, director, states that he increased the gain in hogs from 75 pounds per day to 1.02 pounds daily and at the same time cut the costs per 100 pounds of grain from \$6.45 to \$6.22 by supplementing his ration of corn, tankage, salt and limestone with linseed meal.

The pigs that were fed linseed meal ate only 406.4 pounds of feed per 100 pounds of gain, whereas hogs on the ration from which linseed meal was eliminated ate 421.1 pounds of feed per 100 pounds of gain, a saving of nearly 15 pounds of feed for each 100 pounds of gain.

Savings in production costs just such as these, agricultural experts explain, are the factors which enable modern manufacturers to earn dividends. The farmer, they say, must learn them if he wants to make money in this modern day of lowered marginal profits.

BUY GARAGE AND SERVICE STATION

H. C. Kyle and E. G. Williams have bought the service station and repair shop from Ben Clark, located at the intersection of Ninth and Lynn Streets, in the Sam Selmon Building. They have already taken charge of the business, and invite the public to call on them.

Rotarians Talk Plan of Programs For Next Quarter

An outline of programs that will be held at the weekly luncheon meetings of the Slaton Rotary Club during the ensuing three months was the main item on the club's program last Friday noon. The discussion was led by Roy A. Baldwin, chairman of the program committee.

A well-balanced program for the entire three months, carefully planned by the committee, and with all members of the club included in some kind of program during the quarter, was adopted by the club.

A vocal quartet, by Lem Sone, Allen Payne, Claude Anderson and Lloyd Wilson, started the program off at Friday's meeting. Each Friday during the next three months will see four Rotarians, different members on various occasions, presenting song numbers.

Chick Garland and Jess Swint were called on for their "Best Yarns" at the meeting last Friday, and both gave snappy responses.

Visitors at the luncheon were Dr. Goodall of Slaton, and J. A. Raley, Jr., of Lubbock.

Allen J. Payne, club secretary, announced the club's percentage in attendance for September to be 94.90, compared with 91.94 in August.

R. Pink Burks presented the club with a framed picture of Rotary executives who attended the district meeting at Mineral Wells in August. President John W. Hood and Secretary Allen J. Payne were in attendance at the executives' session.

The program for this Friday's Rotary luncheon will include a vocal quartet by Sam E. Staggs, Harry C. Eurus, Lee Tudor, and W. H. (Bill) Smith. A business methods program, with these speakers, will be held: Floyd C. Rector, Walter E. Olive and F. G. Stokes. A brief talk on one of the proposed constitutional amendments to be voted on in Texas at the November election will be made by C. Lem Sone. The proposed amendment bears upon school administration in Texas.

The subject to be discussed in connection with the business methods program is, "What Are the Reasons Advanced by People in Slaton and Slaton Trade Territory to Justify Their Purchasing Merchandise Outside of Slaton, and What Are the Answers to Those Reasons?" Admitting that Slaton Merchants Are Not Meeting the Situation, How Can They Do So?"

Time Draws Near For Lectures By Ben R. Vardaman

Dates for the "Greater Business and Community Institute," to be conducted in Slaton by Ben R. Vardaman, nationally and internationally known author, lecturer and business expert, are rapidly nearing. The week of November 5 to 9 is the time scheduled for Mr. Vardaman's appearance in Slaton. This is pointed out by officers of the Slaton Chamber of Commerce, which organization is sponsoring Mr. Vardaman's engagement here for the five-day program.

In addition to the lectures during the five days, a city-wide meeting is being planned for Sunday night, Nov. 4, at which time Mr. Vardaman is to speak on "Building the City Four-Square."

Through the five days, from Monday to Friday, inclusive, Mr. Vardaman will deliver addresses to business men, their employees, professional men, women's clubs, high school students and others, and will also be available for personal appointments to discuss business problems with any individual business head in the city, or will meet with employees of different stores to talk over methods used in salesmanship.

During the present week Mr. Vardaman is conducting an institute at Brownwood. He has just finished institutes at Breckenridge, Wichita Falls, and other places. He will be at Coleman next week and at Lamesa the week preceding his visit here.

Mr. Vardaman's visits to these cities, according to reliable reports received by the Slaton Chamber of Commerce, are proving highly successful. Large attendances are reported at his meetings, and it is believed these same facts will be true of his visit here.

A letter from a prominent Wichita Falls man, speaking of Mr. Vardaman's visit there, says, "Mr. Vardaman left his impress upon our community. He is a clear thinker, a fine speaker and will greatly benefit your entire community." Mr. Vardaman was at Wichita Falls the first week in this month.

Final details connected with Mr. Vardaman's visit to Slaton will be planned in a few more days, Chamber of Commerce officials said today. Every business man in Slaton, besides many other citizens, are invited and urged to take advantage of this exceptional opportunity to hear a man of Mr. Vardaman's rank, it is stated. Many people from nearby communities and towns will likely hear the lecturer while he is here.

Simmons Has Ten Outstanding Pupils From Slaton High

ABILENE.—Ten students from Slaton have enrolled in Simmons University here, it is shown by a survey of Fall registration. A Slaton club will be organized in the near future, it is announced, since this is the largest representation ever to enter Simmons.

Seven of the number are freshmen, two are sophomores, and one is a special student.

The students are: Misses Ruby Catching, freshman; Lucy Manly, special; Beryl Hardesty, freshman; and Jewel Armes, freshman; Messrs. C. S. Greer, freshman; Curtis Hamilton, freshman; "Red" Bennet, freshman; Vernon Haddy, sophomore; W. P. McCelvey, freshman, and Maurice Brashear, sophomore.

Hamilton and Bennet are members of the football squad. Brashear is a track man. Miss Hardesty was given unusual recognition by the musical conservatory when she was placed in the senior piano class by Irl Allison, director.

Human Interest In "King Of Kings"

Cecil B. De Mille, who based his famous picture, "The Ten Commandments," on Mosaic times and the tablets of the Law, produced "The King of Kings," which is based on the story of the Gospels and the life of the Divine Man of Nazareth.

The color and warmth of real human interest are here, conjoined with spectacular beauty and the very height of dramatic power. Mr. De Mille begins with the quest by the proud Magdalene in her zebra-drawn chariot of an admirer who has forsaken her banqueting board and followed an itinerant worker of miracles.

Then the story from the redemption of the Magdalene, rises to the grand sweep of the cleansing of the Temple and the attempt to crown Jesus as King of the Jewish people. The terrific counter motive brings forth the betrayal of the Lord, the capture at Gethsemane, and the trial before Pontius Pilate which is, perhaps, the loftiest dramatic theme of painting or story. Thenceforward the grand events move to the world catastrophe on Golgotha, accompanied by eclipse, storm and earthquake.

With its myriad great sets of New Testament scenes, fine acting of eighteen stars, fine reverent sincerity, "The King of Kings," which comes to the Palace Theatre, Lubbock, next Sunday, October 21, for a six-day run. The show will begin at 1 p. m. Sunday, according to the management.

BOND PETITION ON ROADS IS STARTED

County-wide circulation of a petition asking that an election be ordered to allow Lubbock County voters to vote on the issuance of bonds amounting to \$2,005,000 for hard-surfacing all state highways and several lateral roads in the county has been started. Copies of the petition were distributed through the county on Wednesday when members of the Lubbock County Good Roads Association, composed of men from virtually every corner of the county, held a meeting at Lubbock to discuss the form of the petition. It was approved by the association, and had been formerly endorsed as to its legal form by Claude Pollard, attorney general of Texas.

The petitions, which are now being signed up in various parts of the county, are to be returned to the county capital by Saturday or early Monday, and will be presented to the Commissioners Court in the regular meeting to be held on that day. Thirty days must elapse after the commissioners accept the petitions before the election can be held. It was said by members of the road association Wednesday that the bond election may be called for some time late in November.

The executive committee of the good roads association met at 11 o'clock Wednesday morning to consider the petition, after which the directors of the association from all parts of the county convened at 1 p. m. and spent two or three hours in

(Continued on Page Four)

Democratic Rally To Be Held Here Tues., Leaders Say

On next Tuesday night, Oct. 23, the well known "Democratic Band Wagon," carrying some of the best orators of the South Plains, accompanied by an old time fiddler, and other musicians, will hold a Democratic rally here, in view of educating the people on the issues involved in the present campaign, according to local Democrats.

The program will be held at the local city hall, it was stated, or from the band stand on the city hall lawn. Ladies of Slaton and community, and everybody, in fact, are urged to attend this meeting. There will be good entertainment, leaders say.

The program will be in charge of Judge Clark M. Mullican, it was said.

RETAILERS TO MEET AT CITY HALL MONDAY

A membership meeting of the Slaton Retail Merchants Association will be held Monday night at the office of the secretary in the city hall. It was stated late this week. All members of the association are requested to be present.

CITY LINE CLUB TO MEET OCTOBER 24

The City Line Club will meet at the club house Wednesday, October 24, at 2:30 p. m., with Mrs. Jones as leader, and Mesdames Parrish, Armes and Allen as hostesses.

NEW SLATONITE READERS

Among those who have, during the past few days, ordered The Slatonite sent to their address are E. V. Rippstein, local insurance and loan man, and George Correl. Several others have renewed their subscriptions.

PRESBYTERIAN CHURCH

Sabbath school at 9:45 a. m. Morning worship, 11 a. m. Young Peoples' Christian Endeavor, 5 p. m. Evening worship, 7:30 o'clock.

The pastor will preach at the morning hour and Dr. Sommerdike, of Philadelphia, a representative of the Board of Christian Education, preach at the evening hour.

The members of the church are urged to be present at the services.

Courtesy of the Domestic Science Department, Perfection Stove Company

LIKE a great many women, Mrs. Alden was inclined to resent the interference of any outsider into her kitchen affairs. Her kitchen was her own; and while she attended the meetings of the Kitchen Club, and was glad to give suggestions, she decided to make her improvements without calling the Club in.

However, when the job was done, Mrs. Alden invited the Club in to see it; for, after all, she had been inspired to dress up her kitchen by seeing what was done for other women.

"Girls," she said to the Kitchen Clubbers before they went in to look at it, "My kitchen might not suit anybody else in the world but me. But I have made it remind me of the thing I love most—the sea—and now it makes me happier just to go into it. I was born on the coast of Maine, as you may know, and I never got over missing the water with its marvelous blue and green and white. Come and see how I have reproduced it in my kitchen!"

"O a life on the ocean wave!"

LEAVES FROM NANCY'S KITCHEN CLUB NOTEBOOK

Mrs. Alden's kitchen is a dream! It has all the cool, restful effect of the sea itself! Washable paint walls of the palest blue-green; dark blue and white "marbled" linoleum; jade green chairs and kitchen cabinet; white shelves lined with jade green; white porcelain enamel oil range; jade green table with white porcelain enamel top. Dark blue woodwork. A beautiful print of the ocean, hung right above the sink! It's surprising to see pictures in the kitchen; but, after all, why not? And why shouldn't a woman make her kitchen a picture of the thing she loves best, if it will make her happier?

Refinishing Furniture

Mrs. Alden did all her furniture herself, and it looks like a professional's job. She gave us these directions for using lacquer on old pieces: Clean the surface. Sandpaper, if furniture has had glossy finish. Wipe off with cloth saturated in benzine, gasoline or alcohol. Wait until surface dries. Brush lacquer on lightly; for a heavy stroke will soften any remaining varnish on the piece, and make it "bleed through". Three coats of lacquer should be used, and more if you wish a more satiny surface than the three coats give. Do your painting in a room away from the fire, or outdoors if the weather permits. Lacquer dries almost instantly, but should be aired before using.

"Wet Paint. Come back in half an hour."

New Heat Indicator

Mrs. Alden's new range has a heat indicator which she says is the most accurate she has ever seen for an oil stove. It is built into the side of the oven.

We got some recipes for excellent imitation sea dishes this afternoon. Here they are:

Beef Oysters

Beat one pound of round steak. Cut it into pieces the size of an oyster. Soak for ten minutes in water with a teaspoon of baking soda in it. Take out, dry, salt and pepper. Dip in meal. Fry in hot fat until very brown. This process makes the steak taste very much like oysters, and it can be eaten at any time of year.

Tomato Oysters

Slice half-ripe tomatoes. Salt, pepper, and dip into cracker crumbs. Fry in deep fat. This dish also tastes like oysters, and many like it better.

Salsify (Oyster Plant)

Scrape the salsify. Boil it tender. Remove from fire; wash well and mix with cracker crumbs, butter, salt, pepper and a beaten egg. Make into patties the size of an oyster, roll in cracker dust and fry in hot fat.

"Treasure Chest" Salad

"To be ho and a plate of salad!"

Take curved leaves of lettuce. Wash and arrange on platter. Halves of fresh tomato, sliced, arranged in center. Sliced, peeled, and seeded cucumbers, sliced, arranged around. Sliced, peeled, and seeded carrots, sliced, arranged around. Sliced, peeled, and seeded radishes, sliced, arranged around. Sliced, peeled, and seeded turnips, sliced, arranged around. Sliced, peeled, and seeded rutabagas, sliced, arranged around. Sliced, peeled, and seeded beets, sliced, arranged around. Sliced, peeled, and seeded cauliflower, sliced, arranged around. Sliced, peeled, and seeded broccoli, sliced, arranged around. Sliced, peeled, and seeded green beans, sliced, arranged around. Sliced, peeled, and seeded lima beans, sliced, arranged around. Sliced, peeled, and seeded kidney beans, sliced, arranged around. Sliced, peeled, and seeded pinto beans, sliced, arranged around. Sliced, peeled, and seeded black beans, sliced, arranged around. Sliced, peeled, and seeded navy beans, sliced, arranged around. Sliced, peeled, and seeded great northern beans, sliced, arranged around. Sliced, peeled, and seeded cannellini beans, sliced, arranged around. Sliced, peeled, and seeded adzuki beans, sliced, arranged around. Sliced, peeled, and seeded mung beans, sliced, arranged around. Sliced, peeled, and seeded lentils, sliced, arranged around. Sliced, peeled, and seeded chickpeas, sliced, arranged around. Sliced, peeled, and seeded garbanzo beans, sliced, arranged around. Sliced, peeled, and seeded fava beans, sliced, arranged around. Sliced, peeled, and seeded broad beans, sliced, arranged around. Sliced, peeled, and seeded horse beans, sliced, arranged around. Sliced, peeled, and seeded butter beans, sliced, arranged around. Sliced, peeled, and seeded cranberry beans, sliced, arranged around. Sliced, peeled, and seeded pink beans, sliced, arranged around. Sliced, peeled, and seeded white beans, sliced, arranged around. Sliced, peeled, and seeded black beans, sliced, arranged around. Sliced, peeled, and seeded kidney beans, sliced, arranged around. Sliced, peeled, and seeded lima beans, sliced, arranged around. Sliced, peeled, and seeded navy beans, sliced, arranged around. Sliced, peeled, and seeded great northern beans, sliced, arranged around. Sliced, peeled, and seeded cannellini beans, sliced, arranged around. Sliced, peeled, and seeded adzuki beans, sliced, arranged around. Sliced, peeled, and seeded mung beans, sliced, arranged around. Sliced, peeled, and seeded lentils, sliced, arranged around. Sliced, peeled, and seeded chickpeas, sliced, arranged around. Sliced, peeled, and seeded garbanzo beans, sliced, arranged around. Sliced, peeled, and seeded fava beans, sliced, arranged around. Sliced, peeled, and seeded broad beans, sliced, arranged around. Sliced, peeled, and seeded horse beans, sliced, arranged around. Sliced, peeled, and seeded butter beans, sliced, arranged around. Sliced, peeled, and seeded cranberry beans, sliced, arranged around. Sliced, peeled, and seeded pink beans, sliced, arranged around. Sliced, peeled, and seeded white beans, sliced, arranged around.

Brothers Meet After 49 Years

DALLAS.—Forty-nine years after they separated, one to seek his fortune in the West and the other to remain with the family and help fight off marauding Indians, H. Stevenson, 59, of Breckenridge, Texas, and J. E. Stevenson, 71, of Winton, Calif., were reunited at the State Fair grounds here.

Though only 10 years old when his brother left home, the younger Stevenson revealed a vivid recollection of those stirring days. Shortly before J. E. Stevenson departed for the West another brother, Charles, had been killed by Apaches. The two brothers recounted that tragic event and many others during their reunion.

LET'S BE GOOD SPORTS

During the next few weeks Slaton will have several high school football teams from other South Plains cities come here as our guests, meeting the Slaton High School Tigers on the gridiron to struggle for athletic supremacy. We wish to join with hundreds of other Slaton citizens now in expressing the hope that each of these teams and all people who accompany them to Slaton will find a hearty welcome while visiting here and that they will go away feeling that "Slaton has a bunch of good sports." In other words, we hope the spirit of rivalry

will not become so strong that we or any single individual in Slaton will forget that he owes courtesy to every visitor who comes here.

Recently a regrettable incident occurred in a nearby town when another town was visiting there for the two high school teams to play football. Just who was to blame we know not, and are not interested so much in that. But, somebody acted unsportsmanlike, it seems, and now there is cause for regret.

Such a thing, if we should be unguarded in our deportment, could happen here, and would indeed be a sad occurrence for Slaton. Every citizen is a representative of his city, and we should always deport ourselves so as to reflect credit upon our city, instead of bringing ill repute upon it.

Remember, folks, regardless of what happens, let's be courteous to our football guests this season, even if we are forced to bite our lips sometimes while doing so. Courtesy to team members, referees and other officials and all the fans will pay large dividends. Slaton does not have a bad reputation in this respect, we feel sure, but let's keep a good name for ourselves, and improve it, if possible.

J. V. Dyer, of near Tahoka, suffered a broken leg last week, when his team, pulling a row-binder, became frightened and ran away. The broken limb was sustained when Mr. Dyer jumped from the machine.

TRUE BLUE CLASS

The True Blue Class of the Baptist Sunday school gave a social at the home of Miss Audrey Price on Thursday, Oct. 11.

Those present were Misses: Anni Gray, Audrey Workman, Adean Ryak, Audrey Price, Beatrice Henry, Christine Champion, Dale Cooper, Dorothy Childress, Karan Douglass, Lois DeVore, Melba Hillyer, Mardel Childress, Oma Graves, Odell Jobe, Opal Byers, Pauline Owens, Theresa Lokey, Thelma McCallum, Maurine Saunders, Zebra DeVore; Messrs. Aldon Crawford, Bascom Taylor, Carl Self, Clark Self, Claude Woolever, Clide King, Delmar McCollum, Edgar Woolever, Everett Austin, Frank Stalcup, Floyd Collins, Floyd Taylor,

J. J. Makey, Jake Thomas, J. W. Price, Jr., Levey Campbell, Loren Cullar, Nicholas Montague, Odie Hood, Ronald Woolever, Roy Lee Williams, Russell Graves and several others whose names were not available.

After many interesting games, a delightful course of ice cream and cake was served by Mrs. Price and

Mrs. DeVore, to forty-two young people.

All left declaring they enjoyed the evening very much.—Class Reporter.

Almost every glass window in Slaton was shattered recently when 600 quarts of nitroglycerine exploded two miles from the city, the Miami Chief reports.

IN ALL THE WORLD No Other Low-Priced Six Like This

a Successful Six now winning Even Greater Success

The Cabriolet • Body by Fisher Bumpers and Wire Wheel Equipment Extra

Study as thoroughly as you please the entire range of automobiles produced today, you must finally conclude that in all the world there is no other low-priced six like Pontiac... For of all the sixes available at as little as \$745 only Pontiac offers bodies by Fisher—a 186-cubic inch engine—the cross-flow radiator—a fuel pump—the famous G-M-R cylinder head. Only Pontiac offers such stamina and long life. And only Pontiac offers special factory equipment including six wire wheels and tires with the two spares cradled in fender wells at slight additional cost... With all these exclusive features Pontiac Six has established itself as foremost among all low-priced sixes. And with good reason, for where else can you find such advantages for as little as \$745?

2-Door Sedan, \$745; Coupe, \$745; Sport Roadster, \$745; Phaeton, \$775; Cabriolet, \$795; 4-Door Sedan, \$825; Sport Limousine Sedan, \$875. All prices at factory. Baptist Sunday School Makes Good Record in First Year Graded System

Sunday, Oct. 7, was Red Letter Day for the Baptist Sunday School of Slaton. Not only did it mean the passing of the first yearly milestone in the history of the graded school, which made possible six months later the attainment of the A-1 standard. But it indicated the high point of enthusiasm and loyalty on the part of every officer, teacher, and member. Sunday's record indicates that the Baptists of Slaton have learned that no one man can build a Sabbath school, neither can equipment nor sentiment, but folks can, and that is the only way Sunday schools are ever built. From the various expressions of pride and gratification voiced over the record one would judge that the Baptists are just getting ready to really build a Sunday school that is commensurate with their duty and possibilities. Nor can they build alone. Every loyal member of every church should be

challenged to lend their aid in every way to the upbuilding of their respective church schools and thus make Slaton the religious and Sunday school center of West Texas as she is now the pride of the Santa Fe. The total attendance, including the cradle roll and home department was 588 with some 25 of these late for the record, but they were secured later. Of this number, 120 are on the cradle roll and 51 are members of the home department. The following record, submitted by the very efficient secretaries, H. C. Kenedy and H. C. Burrus, indicates something of how the school has been able to come to the present gratifying proportions. These records are computed on the basis of the six-point record system without the observance of which no school can become a standard Sunday school. These six points are that the pupil shall be: Present, on, time, have a

prepared lesson, bring and use the Bible, have an offering, remain for the preaching service. The children below the junior age are not required to bring the Bible and remain for preaching in some schools, but in Slaton they are encouraged to do so by special recognition and seating arrangement. These are some of the averages submitted to the school Sunday by Mr. Kennedy, who has kept an accurate record for the past forty weeks, and based these figures on those records: Average enrollment 804, average attendance 370, average grade for school 52, average collection \$13.14, visitors for 40 weeks 279, collection for 40 weeks \$525.18. At same ratio the offering for year would be \$810.36. The various departments averaged as follows: General officers 88 per cent, adult department 48 per cent, young people's department 28 per cent, intermediate department 40 per cent, junior department 56 per cent, primary department 54 per cent, beginner's department 54 per cent, cradle roll 40 per cent. The occasion for the submitting of these grades and records was the fact that the first Sunday in October was

UNCLE GEORGE RETURNS
Uncle George Marriott returned Saturday from Shreveport, La., where he spent a day or two. While away he visited with F. C. Fox, near Marshall, Texas, who was formerly general manager of the P. & S. F., with headquarters at Amarillo. Uncle George states that Mr. Fox, who is well known by local Santa Fe employes, is enjoying good health, and has a wonderful plantation of 2,700 acres. promotion Sunday and so the new year with a new record begins next Sunday. If all the Baptist prospects would show the same interest these who have made this record have, there would be just twice as many in the Sunday school next Sunday with a like number in the Methodist Sunday school and a like proportionate number in the other church, each one in his place, doing his best to make Slaton a better and more attractive city in which to live.—Contributed.

A NEW COTTON DISEASE
A new disease of cotton has been discovered by Dr. J. J. Taubenhans, chief, division of plant pathology, Texas Agricultural Experiment Station, in connection with his studies of the cotton root rot disease. This new disease has been found in three different sections of Texas, including the black land section, and its effects upon cotton are, in many respects, similar to those due to the cotton wilt, common in the eastern states. Just how serious this new disease may now be, or may become, is not known, but it is not believed to be of so much importance as cotton root rot, nor is it believed that farmers need feel serious apprehension at present. In the study of cotton root rot disease from every angle that offers hope for a practical solution of the problem, these workers are also careful to note the presence and activity of any other disease of cotton which may be affecting the crop under Texas conditions. Eight thousand head of sheep have been unloaded at Muleshoe, in Bailey County, according to the Muleshoe Journal. They will be pastured and fed during the Winter near Lazbuddy.

BUYING LINENS
It does not pay to buy the cheapest linens, as they are loaded with starch, which comes out in the first washing and leaves the cloth flimsy and thin. Good linens, used with good judgment and laundered with care, will last for years and be a joy as long as there is anything left of them. Colored table damasks are a novelty, pretty while in style, but probably will not continue long. It is fun to have just a touch of them for variety, but one should not buy a large supply to last for years. We have today the cheeriest soft yellows, blues, lavenders, ivory, pinks and greens in table linens, as gay and as popular as all the other startling color development of this age. **WATER YOUR EVERGREENS**
Evergreens keep on growing all Winter long, when other trees and shrubs are dormant. For this reason they need to be watered so times in the Winter. There are always some pleasant days when the water will not freeze, especially in the middle of the day.

**Topics of the Town
—and—
News of its People**

Abe Kessel, W. H. (Bill) Smith, J. Tom Overby and Lloyd A. Wilson, members of the Slaton Rotary Club, attended the Lubbock Rotary Club luncheon at Lubbock on Wednesday.

Dr. Standefer, eye, ear and nose specialist of the Slaton Clinic, performed a minor operation of removing the tonsils and adenoids of Miss Lucille Massingill, Wednesday afternoon. Miss Massingill is reported as doing nicely.

Miss Avelee Hallman, of Brownfield, had her tonsils and adenoids removed Wednesday at the Slaton Clinic, Dr. Standefer doing the work. Miss Hallman is doing nicely.

W. F. Lee, who attended court in El Paso last week, returned to his home in Slaton Sunday.

Miss Margaret Cummings visited in Lubbock Sunday as a guest of Mr. and Mrs. J. Floyd Asken, of Oklahoma City.

Mr. and Mrs. G. W. Horn, of Greenville, spent the weekend with their niece and nephew, Mrs. G. R. Evans and H. L. Henderson, and family.

V. G. Browning has accepted a place on the sales force at Jackson Chevrolet Company.

Mrs. George Marriott and Misses Ethel Neihoff and Audrey Marriott were visitors in Lubbock Tuesday afternoon.

Mrs. W. M. Henderson, of Plainview, is visiting her children, Mrs. G. R. Evans and family, and H. L. Henderson and family, this week.

B. E. Workman, representing Texas Utilities Company, of Plainview, was a visitor at the company's office here Wednesday.

Mrs. L. C. Odum and daughter, Maxine, are in Fort Worth for the weekend, visiting with the former's sister, Mrs. O. D. Wyatt.

Mr. and Mrs. W. M. Henderson, Mr. and Mrs. N. R. Northcutt, Mr. and Mrs. F. A. Henderson, and Misses Ruby Henderson and Inez Evans, of Plainview, visited the Henderson and Evans families here Sunday.

Mr. and Mrs. J. A. Elliott were in Lubbock Wednesday afternoon attending a meeting of the Texas Unity Club, which was held in the Utilities building in that city.

Born, to Mr. and Mrs. C. E. Porter, Monday, Oct. 15, a baby girl, named Elizabeth Jean. Mrs. Porter is with her parents, Mr. and Mrs. Dick Tomlinson, at Cisco.

C. C. Young, Santa Fe brakeman, has returned to Slaton from Berger, where he had been for quite a while.

Mrs. E. M. Lott is visiting with friends in Amarillo.

Born, to Mr. and Mrs. R. G. Kirkpatrick, Saturday, Oct. 13, a girl. Mr. Kirkpatrick is dispatcher for the Slaton division of the Santa Fe.

FOR A SHAMPOO

To cut the sticky curd when you have washed your hair, squeeze lemon juice into the rinse water. A little vinegar will answer the same purpose.

Clifford Sherrod, who lives just west of Ralls, happened to a peculiar and very painful accident last week when he and his small son were returning from Ralls to their home. They were riding in a wagon and trailing another. A steel beam, connecting the bed with the running-gear, in some manner came loose, suddenly raising the front end of the front bed, which threw Mr. Sherrod out. The boy was in the back end of the wagon and was not thrown out. Four wheels passed over Mr. Sherrod's body about the hips and his back and arms were injured, besides various body bruises and scratches.

**SICKLY BOY, 7, GAINS
15 LBS.—FATHER HAPPY**

"My boy, 7, would not eat. I gave him Vinol and the way he eats and plays now makes me happy. He gained 15 pounds."—J. F. Andres.

Vinol is a delicious compound of cod liver peptone, iron, etc. The very first bottle often adds several pounds weight to thin children or adults. Nervous, easily tired, anemic people are surprised how Vinol gives new pep, sound sleep and a BIG appetite. Tastes delicious. City Drug Store.

**HOPKINS COUNTY EDITOR
AGAIN HEARD FROM**

After about two years of quietude, Editor Bagwell, of Sulphur Springs, has again been heard from. This time he doesn't seem to know where West Texas is located. He writes as though he thinks it's the "jumping off place." Sulphur Springs, as all West Texans know, is located in Hopkins County, where the hoot owls roost with the chickens—where the principal business district is made up of a couple of banks, that many picture shows and a loan office, or pawn shop. A peculiarity of Editor Bagwell, of the News-Telegram, is that he never asks anyone about the outside world, and, therefore, doesn't know what's going on about him. He is bad about jumping at conclusions, just as he did two years ago, when a Slaton citizen visited Sulphur Springs, and he stated in the columns of his paper that this particular person got hungry and returned to Sulphur Springs to stay.

It so happens, however, that this citizen, with his family, has returned to Slaton, and, apparently, is well satisfied here. He is R. L. Tate, who Editor Bagwell is well acquainted with. Tate has gained twenty pounds since returning to West Texas, and he says it is all because he is getting all he wants to eat, besides enjoying fresh air, and plenty of pure water.

This time, the Hopkins County editor deviates over to politics, and bursts loose with the following:

"No Man's Land knows its okra on the political situation in Texas, except as to how the Windy West will go. No fellow can tell about that country. When we lived out there years ago, Socialists, Populists and Bolsheviks were in control. In fact, a good old-line Democrat had little show in that country, and that is why we left over night. We have no money to bet on the Windy West about her political affiliation. We don't know and care less. In fact, we don't think many people out that way ever pay a poll tax. Now, we are not talking about that country but merely stating that we don't know."

**CRITICISM SHOULD BE
PROFITABLE**

A young man back east hanged himself because someone criticized him. If that practice were to become general, the trees would be full of preachers, teachers and editors.—Austin Butcher in the Altoona, Kan. Tribune.

There are people who are tender in their feelings and can not bear criticism. They go all to pieces if others do not happen to see things as they see them. Such tender souls have an enlarged ego. Hence they get hurt and are a misery to themselves and those about them. While none of us like to be the subject of criticism, it sometimes happens that good may result from criticism. If preachers see the critic's point of view, seeing might help them to overcome the thing that hinders them and the result would be that they might advance more rapidly and fill their place in life more successfully. Teachers harkening to the word of criticism, might find a way to overcome the defect—whatever it might be—and really be benefited by the words of criticism. And editors might get some good from criticism. They usually get plenty of it, along with other folks. But why not get good from criticism, whether favorable or unfavorable, friendly or otherwise. Why not grin and make the very best of everything that comes to the mill to be ground, without whining or making excuses or hanging ourselves hoping thereby to find a soothing salve for our injured ego. Sometimes it happens that spiteful folks are free with criticisms that are meant to be like the sting of a bee, or a bite from a snake, or a wig from the claws of a very caty cat, or a nip from a very oggy dog. But good may even come from that kind of criticism. So, dearly beloveds, be you preacher, teacher or editor, do not cheat the birds of their leafy hovers by hanging yourself because somebody sits in judgment on your down-sittings or up-sittings. Calm yourself and turn the criticism to your own advantage.

THE SECRET OF THE SORROW

Republican leaders in New York State, weeping lugubrious tears, affect to deplore the "dragooning" of Mr. Franklin Roosevelt as the Democratic candidate for governor. They suddenly become vastly concerned about the state of Mr. Roosevelt's health and the effect upon his family should the rigors of the campaign prove too great for his impaired constitution.

The spectacle does the Republican leaders credit only if it can be assumed that they are sincere. But since Mr. Roosevelt himself ridicules the allegation of dragooning, and since he asserts his confidence in his ability to withstand any rigors that the campaign may bring, and since he has been active all along in campaigning for the national ticket, making perhaps as many speeches for Governor Smith as he would be required to make for his own candidacy, and since these activities have produced no ill effects, it appears that the Republican grief, however real, is not because of any thought for Mr. Roosevelt's welfare. Rather does it appear that the Republicans, excited by the certainty that Governor Smith would not be a candidate for re-election this time, thus being fired with the prospect of avenging their numerous defeats by the Governor, have had their optimism dashed by the contumelious action of the Democrats in nominating a man who is as able a campaigner and as effective a candidate as Al Smith himself.

The G. O. P. grief is not for the sacrifice of Franklin Roosevelt, but for the loss of their own hopes to elect a Republican Governor.—Fort Worth Star-Telegram.

C. E. Jarnigan of Dumas, who was recently arrested at Dalhart in connection with a cutting affray in which Earl Smith of Hartley was badly slashed on both arms, received a two-year suspended sentence on a Hartley County charge of transporting liquor. The charge grew out of the allegation that Jarnigan had whiskey in his possession at the time of the fight with Smith. Charges of assault have now been filed against him.

J. R. Massengal and Misses Anna Mae and Opal Stewart of Littlefield were painfully injured in a car collision on the streets of that city. They were riding in a small coupe which was overturned.

George E. Park, 52, of near Abernathy, was instantly killed when a small truck in which he was riding overturned. The accident happened 15 miles west of Plains.

Work has been started at Post on the foundation of a Masonic temple. Samson and Napier are the contract ors.

Slatonite Want Ads Always Pay.

**Bond Petition On
Roads Is Started**

(Continued From Page 1.)

discussing the questions connected with the bond petition and the election. The executive committee is composed of J. A. Rix, Lubbock, president; these vice-presidents, J. T. Overby, P. G. Stokes, Slaton; E. T. Daniels, Idalou; M. T. Daniels, Wolffarth; E. C. Calley, Shallowater, and L. A. Wilson, secretary. Five of the men attended the Wednesday morning meeting. Daniels of Wolffarth and Calley of Shallowater were absent. Among the other directors of the association from this section of the county are: R. S. Johnston, McClung; C. C. Wicker, Posey, and A. C. McRae, Union. Mr. McRae attended the meeting Wednesday afternoon. W. H. Smith of Slaton attended Wednesday's meeting in place of P. G. Stokes, who was absent from the city.

The road bond petition names specifically each road in the county that will be hard-surfaced, together with the amount of money to be spent on its improvement. Engineers have given estimates on construction of first-class types of roads for all the state highways in the county and for substantial types of roads on the lateral units of the system. In one instance, definite decision has not yet been made on the routing of a road, the one from Slaton to Idalou. It will either go direct from Slaton across the west crossing of the canyon and on to Idalou, or from Slaton across the east crossing, thence by McClung and to Idalou, it was said.

The exact copy of the road bond petition in its final form as it is being circulated is as follows:

"To the Honorable Commissioners

Court of Lubbock County, Texas:

"We, the undersigned resident property taxpaying voters of Lubbock County, Texas, respectfully pray this Honorable Court to order an election in said county to determine the following propositions:

"Whether or not the bonds of said county shall be issued in the sum of \$2,000,000 for the following purpose, the issuance of county bonds for the purchase of district roads and the further construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, throughout such county, as follows:

"(1) Bonds to be issued in the aggregate sum of \$23,000 for the purpose of the purchase of district roads in said county, and which bonds shall be issued in similar denominations, bearing the same rate of interest, having the same date or dates of maturity and with similar options of payment as the bonds heretofore issued and now outstanding against Road District No. 1 of said county.

"(2) Bonds to be issued in the aggregate sum of \$1,982,000 for the further construction, maintenance and operation of macadamized graveled or paved roads and turnpikes, or in aid thereof, throughout the county, and which bonds may mature serially or otherwise at the discretion of the Commissioners Court and may run for a term not to exceed forty (40) years

from date and shall bear not more than five (5) per cent interest per annum.

"We further pray your Honorable Court that at said election there shall be submitted to the resident property taxpaying voters of the county the question as to whether or not an ad valorem tax shall be annually levied upon the property of said county, subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity.

"We further pray your Honorable Court that the proceeds derived from the sale of said bonds to the extent of \$1,982,000, if necessary, be expended in the construction, maintenance and operation of paved roads and highways, or in aid thereof, in Lubbock County, as now or hereafter designated, in accordance with the amount set opposite each of the following sections or units of road construction, or so much of said amount as may be necessary, to-wit:

"Texas State Highway No. 7, via Slaton, Lubbock and Shallowater, \$320,000.

"Texas State Highway No. 9, via Woodrow, Lubbock and Monroe to Abernathy, \$275,000.

"Texas State Highway No. 53, via Idalou, Lubbock and Wolffarth, \$371,000.

"Road west from Slaton to Highway No. 9, via Union school, \$135,000.

"Road north from Lynn County line through Slaton, Idalou and Beeton to Hale County line, \$470,000.

"Road east from Lubbock through Cadyss and Acuff to the Crosby County line, \$263,000.

"Road west from Lubbock to Hookley County line, \$187,000.

"Total \$1,982,000.

"Bonds shall be issued and delivered as work is let on each section or unit of construction, and on State Highway construction only in such sum or sums as shall equal the amount of aid made available on such unit or section by the state, federal or other authorities or sources."

**Over a Billion Deadly Germs
in a Single Drop of Water.**

"Germs are so small that there may be as many as one billion, seven hundred million of them in a drop of water. And just a few of these tiny germs, if they get into your blood through a cut in your skin, may make you so sick you will be in bed for weeks—may cause the loss of a limb through blood poisoning—may even infect you with that most dreadful and fatal of diseases, lockjaw.

Just because you can see no dirt in a cut does not mean that it is clean. You cannot see germs. The only safe and sane thing to do, is to thoroughly wash every cut, no matter how small, with Liquid Borosone, to kill the germs, and then dust it with Borosone Powder, to hasten the healing. Liquid Borosone costs 50 cents, 60 cents, \$1.50 and \$1.50; Borosone Powder, 30 cents and 60 cents, and can be had at

City Drug Store.

THERE is nothing that has ever taken the place of Bayer Aspirin as an antidote for pain. Safe, and physicians wouldn't use it, and endorse its use by others. Sure, or several million users would have turned to something else. But get real Bayer Aspirin (at any drugstore) with Bayer on the box, and the word *genuine* printed in red.

Educators From Many Towns Will Attend Celebration

CANYON.—Superintendents, teachers, college presidents, and laymen are accepting the invitations of the West Texas State Teachers College to attend the celebration October 19 and 20. At this time the Education Building, just completed at a cost of \$300,000, will be dedicated and the annual home coming of ex-students will be celebrated.

President J. A. Hill will have on his campus at this time some of the best known educators in the United States and practically all the presidents of the institutions of higher learning in Texas, as well as teachers, superintendents and principals from hundreds of towns in Texas, New Mexico and Oklahoma.

Names that appear on the program include, Dr. Bruce R Payne, president of Peabody College, Nashville, Dr. W. F. Morgan president of the American Association of Teachers Colleges; Dr. John W. Withers of New York University, and such well known Texas educators as R. B. Cousins of Kingsville, W. L. Hughes of College Station, L. H. Hubbard of C. I. A., J. D. Sandefer of Simmons, President, H. Y. Benedict of Texas University, W. A. McIntosh of Amarillo, and others.

All of the dedication programs are open to the public. Since the West Texas State Teachers College organized the first training school in Texas, people of the region feel a particular interest in the addition to the college plant, which has been the college home of 17,000 West Texas students.

An effort is being made in Nolan County to get a county health unit with financial assistance from the Rockefeller Institute. The county would finance half the project which would insure a full time doctor and four helpers.

'An Unpleasant Subject'
All of the functions of life are not pleasant to consider. Perhaps this is why some mothers refuse to think that such symptoms as restless sleep, loss of flesh, lack of appetite or itching nose and fingers in their children, can be caused by round or pin worms. Many mothers have proven, however, that a few doses of White's Cream Vermifuge, that sure and harmless worm expellant, will make these symptoms disappear. You can get White's Cream Vermifuge for 35 cents per bottle from City Drug Store.

President Hill Asks Attendance At Dedication

An open letter to all citizens of Northwest Texas, from J. A. Hill, president of the West Texas State Teachers College:

Dear Fellow Citizens: On October 19 and 20 there will be dedicated the new Education Building at the West Texas State Teachers College. In many respects this building stands as an evidence of the ability of all the people of this section of the State to

work together for a common worthy cause, for without such co-operation the building could never have been erected.

Then too, the West Texas State Teachers College at Canyon had the first training school in the State of Texas. This fact gives the people of this region greater interest in the beautiful structure which has just been completed, at a cost to the State of \$300,000. Here the teachers of the children will be trained for their tasks.

Let us all attend this great celebration, especially the dedication ceremonies at 10 o'clock, October 20, en-

joy the occasion, and pledge ourselves once more to the task of building our communities and state.

The speakers on this occasion are among the best known educators of the United States and practically all the State institutions of higher learning in Texas will be represented. Come and meet with us and your friends in Canyon on this great occasion. Sincerely yours, J. A. Hill.

Gins at Southland are now receiving cotton in quantities sufficient to keep them running almost regularly, reports indicate.

NOTICE

We have bought the service station and repair shop from Ben Clark, on Ninth and Lynn Streets, in the Selman Building. Your patronage will be appreciated, and the best of service assured.

Nail Picker Busy On Plains Highways

A nail picker is in operation on Highway No. 9, between Plainview and Hale Center, according to newspaper reports from that section. It is said the machine on a mile of road picked up 600 pounds of nails, tin cans, license plates, bolts, and other metal substances.

A powerful magnet attracts the metal substances and dumps them into a can. The machine will be in use on the highways in this district, it is said.

Opinion is expressed that the operation of this machine will save motorists many punctures along the highways.

RESULTS SEEM DISAPPOINTING

Compulsory automobile liability insurance has been advocated because it is alleged that it will assure the financial responsibility of drivers, reduce accidents, and lower insurance costs.

While 38 states have voted down proposals for such compulsory insurance, only one state, Massachusetts, has established state-wide compulsory automobile liability insurance.

The value of such a law is questionable. It makes many citizens buy insurance unwillingly. It makes insurance companies issue insurance on undesirable risks. It makes insurance agents do more work for less pay.

It affords no protection to citizens against the recklessness of drivers of cars from other states. It prevents no accidents, as more people were injured and killed in Massachusetts in 1927 than in 1926, although there were fewer cars licensed. It has caused the insurance companies such serious losses that no decrease in insurance cost can be expected—rather the reverse.—Industrial News Bureau.

Contract has been let for the construction of a court house in McLean, Gray County. The building is to cost \$213,354. A temporary injunction has been granted, however, restraining the county commissioners from issuing warrants for this purpose, and a permanent injunction is being sought.

DID YOU EVER STOP TO THINK?

That advertising is the way modern business concerns appeal to the buying sense of the people.

That persistent advertising means progress and permanence for a business.

That prosperous concerns are prosperous because their ads bring in the business.

That advertised quality is in a class by itself. Their sale is never hurt by the unknown grades which are made to compete with them.

That persistent advertising of quality increases business. There is no substitute for quality. Quality, once used, creates a desire for more.

That the better the quality the more people will buy. Better quality gives satisfaction.

That persistent advertising of better quality not only attracts new buyers, but keeps present ones and increases consumption because better quality gives better service.

Advertising has an unbeatable drawing power.

An aggressive policy of steady advertising will build a permanent, profitable business.

VALUES TEXAS AT 10 BILLION

AUSTIN.—Total value of all property in Texas is ten and one quarter billion dollars, according to figures compiled by Burt C. Blanton, of Dallas, consulting industrial engineer. This gave the people of the state a per capita wealth of \$2,010, he said. This per capita wealth is increasing at the rate of eight per cent a year.

Dangerous Business

Our stomach and digestive systems are lined with membrane which is delicate, sensitive and easily injured. It is dangerous business, then, to use medicines containing harsh drugs, salts or minerals, when we are constipated. In addition to the possibility of injuring the linings of our digestive system, these medicines give only temporary relief and may prove habit forming. The safe way to relieve constipation is with Herbine, the cathartic that is made from herbs, and acts in the way nature intended. You can get Herbine at City Drug Store.

YOUNG FARMERS AVOID THE RUNDOWN FARM

No wonder the younger generation is traveling cityward. These coming young farmers don't want any rundown, washed-away farms, says a writer in the Oklahoma Farmer-Stockman of October 12.

A few more years will knock that wonderful phrase of the soap-box politician, "Our most wonderful, rich, virgin soil" into ancient history. Instead of rich, virgin soil, our farms will be crossed and crisscrossed with ditches and trenches—a beautiful hiding place for Von Hindenburg's army. The Gulf of Mexico has received a wonderful untold supply of virgin soil fed annually to the southern sea by Uncle Sam's master farmers.

Talk about farm relief. It won't be many years until Mr. Gulf of Mexico and Mrs. Loan Company will relieve all these hillside farmers of their farms and occupation. Then what a wonderful relief it will be to those bald-headed senators at Washington. This farm relief, surplus, McNary-Haugen bill and other reliefs and political measures will gently and automatically glide down to the gulf together with Oklahoma's virgin soil.

FIGURES TELL THE STORY

Figures from more than 100,000 individual yearly records from cows on test in dairy herd improvement associations in the United States indicate that on the average, cows producing 100 pounds of butterfat a year re-

turned but \$14 over the cost of feed, says the October 15 Oklahoma Farmer-Stockman.

Cows that produced 300 pounds of butterfat returned \$54 above feed costs; those producing 300 pounds returned \$99; the 400-pound producers returned \$138, and the cows of 500 pounds butterfat production returned \$178 above feed costs. Thus the man milking a 500-pound producer would have more net return than if he

turned but \$14 over the cost of feed, says the October 15 Oklahoma Farmer-Stockman.

milking a dozen cows producing only 100 pounds of butterfat. This would take no account of the added labor of milking and caring for the larger herd or of the much greater expense of providing stable room for a herd instead of a single animal.

DON'T LET INDIGESTION AGE YOU

Many a young person looks old and haggard through indigestion. The continual pain and discomfort combined with the inability of weakened stomach organs to extract nourishment from food are such a terrible strain that they drive all traces of youth away.

If you ever have indigestion, no matter how slight—beware! Get to the root of the trouble before it becomes chronic. "Pape's Diapain" will do this quickly. This great stomachic stops indigestion almost instantly by neutralizing excess acid and stopping food fermentation—common causes of digestive trouble—while nothing else so surely soothes, heals and strengthens your weakened stomach. "Pape's Diapain" is used by millions all over the world. Get a 50-cent package of "Pape's Diapain" from your druggist today. The complete freedom from digestive pain and discomfort will be wonderful and will make you feel healthier and younger.

To the 5000 who daily become owners of the new Ford car

THE service obligation of the Ford Motor Company and its dealer organization is now growing at the rate of 5000 cars a day. It is to these new car owners that this message is addressed.

The new Ford is a remarkably fine car for one that costs so little. It is simple in design, constructed of the finest materials, and built to unusually close measurements.

These are the reasons it performs so wonderfully. These are also the reasons its service requirements are so few and the up-keep cost so low.

When you receive your new car, the dealer will explain the simple little things that should be attended to at regular intervals to insure the best performance. He will also tell you something of his own facilities for doing this work promptly and at small cost.

With the purchase of your car, you are entitled to Free Inspection Service by your dealer at 500, 1000 and 1500 miles. This service is due you and we urge you to take full advantage of it. Proper care during this breaking-in period means a great deal to the life of your car.

Included in the Free Inspection Service is a check-up of the battery, the generator charging rate, the distributor, the carburetor adjustment, lights, brakes, shock absorbers, tire inflation and steering gear. The engine oil is also changed and chassis lubricated.

No charge whatever is made for labor or materials incidental to this inspection service, except where repairs are necessary because of accident, neglect, or misuse.

The labor of changing the engine oil and lubricating the chassis is also free, although a charge is made for the new oil.

We believe that when you see the good effects of this inspection you will continue to have it done regularly throughout the life of your car.

Wherever you live, you will find the Ford dealer very helpful in keeping your car in good running order for many thousands of miles at a minimum of trouble and expense.

He operates under close factory supervision and has been trained and equipped to do this work promptly, thoroughly and economically.

The Light that Failed, a Romance, Helen Clay.
Parliamentary drill.
Be sure to answer roll call with a quotation from Kipling.—Reporter.

BAPTISTS WILL MAKE GOOD SHORTAGE IN HOME MISSION BOARD'S ACCOUNTS

Honor Day is Set for Sunday, November 11, When Churches Are Asked to Lay \$953,000 in Cash on Altar for This Purpose

In order that the Home Mission Board of the Southern Baptist Convention may not suffer the permanent loss of a single dollar, through the reported shortage of its former treasurer, Baptist churches throughout the South are expected to lay a cash offering of \$953,000 on their altars Sunday, November 11. This day has been designated Baptist Honor Day and the appeal for this offering made by the Promotion Committee of the Convention, following a thorough canvass of the situation.

DR. ARCH C. CREE
Acting Executive Secretary of the Southern Baptist Home Mission Board.

At the meeting of this large committee October 3, Dr. Arch C. Cree, acting executive secretary of the Home Mission Board, reported that the auditors gave the sum of \$953,000 as their best estimate at that time of the shortage in the treasurer's accounts. Of this amount approximately \$259,000, was taken from the Church Building Loan Fund, the auditor found, while the remainder of the shortage is accounted for chiefly through the sale of the notes of the Home Mission Board to banks in various Southern states. While the Church Building Loan Fund is the property of the denomination,

it represents a trust fund created for aiding congregations in erecting houses of worship, and the committee feels that the obligation to restore the money taken from this source is just as binding upon Baptists as the repayment of the banks.

Need to Restore Full Amount
In his report to the Promotion Committee, Dr. Cree said the Home Board expected to realize \$50,000 from the bonding company and possibly as much as \$150,000 from the recent treasurer's estate ultimately. The bulk of this estate consists of real estate, however, and it may require a period of years for a full realization upon that. With all these considerations in mind, the committee felt the churches should be asked to restore the entire amount of the shortage immediately and the date for such offering was fixed for Sunday, November 11. In the case of rural or village churches not having preaching services on that day they are asked either to take this offering at the Sunday school hour on that day, or else take it on whatever preaching date falls nearest November 11. A goal of as many dollars as there are members is recommended to the churches.

Big Retrenchment Made
Drastic retrenchment has been in the work of the Home Mission Board, following its reorganization. Forty per cent of all current receipts are being applied to the reduction of the previous indebtedness of the board, making it necessary to cut the current operations to 60 per cent of the current receipts. All special offerings from whatever source are being applied to the reduction of the obligations at the banks. Dr. Cree has secured the consent of the banks carrying the bulk of the board's indebtedness to carry the present paper at a reduced rate of interest a little while longer in order to afford the churches an opportunity to make a cash offering for the relief of the board. The Promotion Committee has asked the Georgia Baptist Convention to continue its loan of Dr. Cree to the Home Board until the Southern Baptist Convention meets in May.

The demand for a special cash offering for making good the Home Board's shortage came from practically every section of the South, and Dr. George W. Truett, president of the Southern Baptist Convention, and other officers expect to see the full amount raised in a cash offering November 11.

H. A. K. PLANS PARTY
The president of the H. A. K. Class called a meeting last Wednesday for the purpose of planning a party. It was decided that a masquerade party should be had at the club-house Friday night, October 26, and that the other Junior class should be invited. Alva Jo Blundell, Faye Jesse and Dennie Lawson were appointed as refreshment committee, and Dorothy Alcorn, Bonnie Thomas and Loren Cullar were appointed as entertain-

ment committee.
We hope to make this a very lively party, and long to be remembered. We also hope to make it pleasant for the other section of Juniors, who will be our guests.—Reporter.
LUTHERAN CHURCH
Sunday school, 9:30 a. m. Services, 10:30 a. m. The choir meets on Thursday evening; all members should be present to practice for the coming festivals.
A. B. Weiss, Pastor.

As the snowflakes make the avalanche, so does the M-System make the bank account.
