All band students who will be members of the "A" band are requested to meet at the Slaton High School Monday, August 12, at 7:30 p.m., according to an announcement made by Bill Townsend, band director. He asks that each one bring his instrument to the meeting.

## Concert by Tech-Lubbock Civic Chorus Scheduled 8:15 Tonight at Auditorium

Members of the Texas Tech Summer Civic Chorus will present a concert of choral music Friday, August 9, at 8:15 p.m. at the Slaton High School Auditorium. The concert is being sponsored by the Slaton Rotary Club, M. G. Davis, President, and has been arranged through the efforts of Jim

D. Campbell, minister of music at First Methodist Church.

No admission will be charged. The concert will be informal, with male members of the chorus wearing slacks and sport shirts. Members of the audience are urged by Ira Schantz, director of the chorus, to dress informally. The auditorium is air conditioned.

The Tech Summer Civic Chorus is made up of townspeople from Lubbock and surrounding towns and students from Texas Tech. A completely voluntary organization, its members gather for rehearsal once a week, solely for the pleasure and enjoyment of singing great choral music, Schantz said. This is the fourth season for the group. The program will consist of a cappella compositions, that is, compositions that have no accompaniment. The selections will range from early sacred compositions and madrigals of the 17th century to folk songs of the present time.

Spoken commentary on the works to be sung will be provided by Schantz. Schantz is presently a private voice teacher in Lubbock and minister of music at First Presbyterian Church there. A former member of the Robert Shaw Chorale, he has toured the United States with this group, and has also been soloist many times in

New York City, with various symphony orchestras in the southwest, and has given several solo recitals. In September he will assume duties as head of the voice department of Howard County Junior College, Big Spring, and will also be minister of music at the First Methodist Church in Big Spring.

Members of the chorus include Mrs. G. W. Buhler, Mrs. E. D. Clements, Mrs. Paul Dane, Sue Dickson, Mrs. C. N. Hallmark, Mrs. Martin Hayhurst, Jan Higginbotham, Mrs. W. G. McMinn, Naneska Nall, Janelle Ohlenbusch, Mrs. Nancy Preuit, Mrs. James Pursell, Arlene Robinson, Billie Turner, Marilyn Watkins, and Mrs. Walter White, sopranos.

Kyle Ellison, Kline Nall, Eudell Spitzer, Charles Spradlin, Cecelia Stamm, Wayne Starch, tenors. Don Allen Marvin Armstrong Jr., E. L. Green, Eugene Keever, James Moesser, H. D. Pierce, Rex Saffle, John Shaud, Arthur Stamm Jr., and Harry Stasney, basses.

## 'World of Progress' Through Electronics Described to Lions Club Tuesday

Vernon Cannon, communications supervisor with Southwestern Bell Telephone Company, Lubbock, reviewed some of the progress made in past years through electronics, and gave a preview of some of the things which would likely be taking place in the future, when he spoke before the Slaton Lions Club Tuesday.

Cannon was introduced by H. H. "Soapy" Gore, plant superintendent with the telephone company here.

He began his talk by stating that most of our electronic advances had their beginning with the wide use of radar during World War II.

After discussion of some of the more common electronic devices found in use today, he went on to say that probably in the future, no home would be complete without television sets fixed so that the housewife could flick a switch and see what was going on in other rooms of the house.

The possibility of automatic controls for automobiles, such as are now found on airplanes was pointed out.

Another possibility is that whenever an infant is born, he will be given a telephone number that will last throughout his lifetime.

Cannon also predicted inter-city dialing within geographic areas. He said that work was going on now in an effort to perfect the use of speaking into a telephone to get your number, rather than dialing it, such as is done today.

Visitors at the meeting included Cannon and James Vardy.

Waymon Muse, Electrician's Mate Third Class arrived in Slaton Saturday from Shula Vista Naval Base, California, on a 30-day leave. He is presently attending electronics school at Chula Vista. Muse is visiting with his mother, Mrs. Leonard Foster, Mr. Foster, and his sister, Charlotte Muse.

Mr. and Mrs. Marvin Harvick and David of Port Arthur spent the week end with Mrs. Harvick's uncle, Robert E. Lee, Mrs. Lee, and Canzada.

William Wiley of Slaton, a member of the Reserve Officers Training Corps, was one of 1324 cadets taking part in this year's ROTC Summer Camp being held at Fort Hood, Texas.

The six-week camp closed Friday, August 2, with commissioning exercises and a final troop review.

Cadets from Arkansas, Louisiana, New Mexico, Oklahoma, and Texas, took part in the encampment.

The training, compressed into a brief six-week period, covered every important phase of military training, and stressed leadership, topics such as the nomenclature, and use of individual weapons, and use of individual weapons, such as the M-1 rifle and the Browning Automatic Rifle as well as crew-served weapons were covered in the training.

Wiley is a student at West Texas State College, Canyon.

## Observance of 'Soil Building Week' Set August 11-18 on South Plains

In a never-ending effort to keep the soil of the South Plains as fertile as possible, cooperators with the Lubbock County Soil Conservation Service are joining hands in observing "South Plains Soil Building Week" August 11-18.

Under the direction of Jim Ed Waller campaign chairman, farmers, college professors, county agents, and others are joining together to bring to light ways in which our soil may be saved for present and future use.

High on the list of farming practices which will do much to prevent waste of the land is the planting of cover crops. Few of us carry on our daily work without some planning . . . the housewife plants what she will cook for the next meal . . . a man plans to buy a new car or tractor, but what are South Plains farmers doing to

protect their soil against wind erosion during the fall?

Soil specialists and farmers alike acknowledge that top soil is the capital from which crops are made to provide the many things people buy. It pays large dividends to protect this capital with a cover crop of vetch, vetch and rye mixture, or rye seeded alone.

Soil Conservation workers said this week that seeding dates are from August 15 to September 15. Interplanting can be done in parallel bands on cotton or grain sorghum rows, and should be done before the last irrigation to insure adequate moisture to make the cover crops come up.

Television programs will be presented at 10:50 p.m. Monday August 12 over KDU-TV on the "Final Feature," and at 5:45 p.m.

Tuesday over KCBD-TV's "Hospitality Time."

Co-chairman of the Technical Advisory Committee are Bill Reece of the Soil Conservation Service, and Lee H. McElroy, Lubbock County Agent.

Those available for programs and materials, and the areas they will cover include Charlie Fisher and Harvey Walker, both of the Lubbock Experiment Station, "Soil Fertility and Building," Dr. A. W. Young, Texas Tech, "Factors Making Fertile Soils."

Walter Y. Wells, A.C.P., "Payments and Soil Fertility," Bill Broadhurst, High Plains Water District, "Improved Irrigation," Conrad Loehffer, Plains Cotton Growers, "Soil Fertility and Quality Cotton."

Frank Gray, farmer, "What Farmers are Doing," Fred Warren, Farmers Home Administration, "What FHA Borrowers are Doing," Dave Sherrill, Extension Service, "Improved Fertility in High Yields Under Irrigation," Dean W. L. Stangel, and Dr. Casey Fine, both of Texas Tech, "Livestock and Soil Building."

## Christian Church To Have Guest Speaker Sunday

The Rev. Claude E. Cogswell of Colorado City will be guest speaker at both services Sunday, August 11, at First Christian Church, Slaton.

He will fill the pulpit regularly held by the Rev. Claude Wingo while the Wingos are on vacation.

Rev. Cogswell is well known as a Christian speaker throughout Texas, Rev. Wingo said.

Rev. and Mrs. Cogswell will be guests in the parsonage during their stay here.

## Scenes of Austria Shown Rotarians

Color slides of Austria were shown to Slaton Rotarians Thursday by Johann Reichart, visitor from that country.

Jack Berkley was in charge of the day's program.

Included in the slides were scenes in Vienna, the capitol of Austria, which has a population of some 265 people per square mile. The City Hall, opera house, churches, museums, parks, railway station, and other important sites in Vienna and throughout the country were included.

Visiting Rotarians included John T. Morris and Grady Allen of Ralls, and Lawrence Evans of Abilene.

Guests last week end in the home of Mr. and Mrs. C. E. Spence were Mrs. Spence's brother, J. D. Saunders, of Fort Worth; Mr. and Mrs. Dale Cravy, Mr. and Mrs. Dick Cravy, of Post; Mr. and Mrs. Dale Spence, Patricia, Ronnie and Claude from Seminole.

South Plains Soil Building Week  
Aug. 11 - 18

THIS COULD BE YOUR LAND—It's bad, isn't it? But it could happen. It did in this case. Severe wind erosion has taken away the soil to the depth of the listing. Adequate cover crops can do much to prevent waste of land such as this. (SCS Photo)

THIS IS MORE LIKE IT—Vetch interplanted in grain sorghum, such as this, will provide the maximum protection against wind erosion. When the time comes, the vetch can be incorporated into the topsoil to add organic matter and nitrogen to the soil. Planning ahead can aid everyone in building the soil on the South Plains. ## Chlorination Equipment Shipped; Installation To Begin on Arrival

The last of the steps which will give Slaton a clear shot at State Health Department-approved water will get underway upon the arrival of automatic chlorinating equipment, according to Water Superintendent Forrest Davis.

He said this week that he had been notified that the equipment was shipped July 23 from the factory in New Jersey. Time required for installation was estimated at 10 days to 2 weeks.

First of the Chlorinating equipment will be installed at the No. 4 pump station on S. 5th street. Davis said that this pump station was furnishing the majority of the water being used by Slaton residents.

Work was completed this week on removing a cross-connection between Slaton water and that of the Santa Fe railroad. Because of the cross connection, water from city wells and that from the Santa Fe wells could mix, but that situation has been corrected, Davis said.

## Surgery Performed On Roy Strube; Condition Good

Roy Strube, son of Mr. and Mrs. F. A. Strube of Slaton, underwent surgery Monday at John Sealy Hospital in Galveston.

Strube is being treated there for correction of injuries sustained last year when he was accidentally shot.

He was removed from a cast last Saturday, and following the surgery Monday was reported to be in good condition.

## Youth To Have Charge of Bible Baptist Service

Young people and boys and girls of the Bible Baptist Church will be in charge of the morning worship service at that church Sunday, August 11. The youth and children of the church have spent the past week in Vacation Bible School, and service will climax the week study, according to the Rev. Sumner, pastor.

The youth will usher, lead the singing and prayer. The pastor will give a special sermon to the youth.

The boys and girls are our leaders tomorrow in our churches, and as in every other job that we carry on, we believe they do a grand job," the Rev. Sumner said.

The public was invited, he said, to come and back up the youth in service.

Schools To Open Here Tuesday, September 3  
Superintendent of Schools P. L. Vardy Jr. said this week that all schools in Slaton Independent School District would open for the 1957-58 session on Tuesday, September 3.

## Pony All Stars, Jaycees To Meet Tonight, 8 p.m.

Members of the Pony League All Stars will take on the Slaton Jaycees at 8 p.m. Friday, August 9, at Pony League Park.

Starters for the Jaycees will include John Schmidt, SS; Ted Prier, 1B; Ted Swanner, RF; Webster Williams, 3B; Pete Williams, C; D. W. Walston, 2B; Glen Akin, P; Otis Rogers, LF; and Tom Swanner, CF.

Other Jaycees who will see action include Don Crow, Bob Vivial, Bennie Moeller, Don Kendrick, Warren West, Bob Connor, Joe Lester, and Paul Melton.

**AIRSPACE FOR ALL**

There is a growing traffic problem in the airspace above the United States. The seriousness of this problem was indicated once again when the Civil Aeronautics Board reprimanded the military for declaring too much airspace off limits to private and commercial flights.

Obviously, our military forces should have all the airspace they really need for training activities and the national defense. Just as obviously, commercial planes need adequate corridors for their flights. In an effort to reconcile these conflicting demands on available airspace, the CAB has taken the rather drastic step of giving the Civil Aeronautics Administration overall control of the air.

The CAB's attitude is that military aviation officials have taken undue advantage of the rules allowing the military to bar civilian planes from areas considered necessary for the nation's defense. "It was never intended," the new CAB order says, "that this section would be used to justify non-compliance with air traffic rules in such operations as continuing training activities."

The last word has by no means been spoken on this subject. The military point of view should be fully set forth. So long as it is clearly understood, however, that the CAA's authority cannot be allowed to interfere with actual defense of the country in case of attack, the new order seems wise.

The Civil Aeronautics Board is right when it speaks of airspace as a "rapidly diminishing" national resource. That resource should be used for the greatest public benefit. This will involve reconciling civilian and military requirements.

**PERSONAL HISTORY**

Some health authorities have been urging that a complete medical case history should be kept for everyone. As the number of new drugs increases, and as we move into an era when radiation will become a greater health factor, the arguments in favor of such a system are more persuasive than ever.

The other day, a boy died in South Bend, Ind., apparently because of a mixup as to whether or not he had had tetanus antitoxin shots as a baby. If the boy's medical record had been readily available, he might still be living. The case illustrates one of the ways in which personal medical reports would be helpful.

As it is, people move about the country and their medical records are lost or become hard to get at. Memory is a faulty guide, as was shown in the case of the Indiana boy. If everyone could have a simple reference card giving the individual's significant medical history since birth, much trouble and some tragedy could be avoided in the future.

**SENSIBLE ORDERS**

The Air Force has decided to forgive the young man who was court martialled and convicted for failure to obey an order to get a "white sidewall" haircut. He was freed from a sentence of four months at hard labor and a fine of \$200.

It is hard to condone the young serviceman's disobedience. A member of the armed forces must give instant and unquestioning obedience to the orders of superior officers. There are times when hesitation to obey can cost a life, even lose a battle that might cost many lives. It is not a soldier's right to question any reasonable order, no matter how much he might prefer disobeying it.

Having made the point that the young man was wrong in refusing to obey, the further point should be made that the order to get such a haircut seems somewhat ridiculous. It behooves an officer to see that his commands are intelligent, that in giving them he exercises judgment and restraint.

The young man has been forgiven. It is to be hoped that he has learned his lesson. It is also hoped that his superiors have learned, from all of the unfavorable publicity, that their orders should be sensible ones.

**LET'S WAIT AND SEE**

Heretofore, Marshal Zhukov has been regarded as a military man and not as an ideologist, a political thinker, or a politician. He has made no significant contribution to ideology, to political thinking or to the art of politics. Speeches of his which have been reported in the American press have been largely a combination of military bluster and slogans and phrases accepted as the party line of the moment.

As Mark Anthony said with such penetrating irony, they all were honorable men who slew Caesar. Zhukov may be a man who would not even chop down a banana tree, for all we know, but if he is a thinker beyond the military field, this has not been demonstrated by what we know of him.

In the past, Americans have painted wish-fulfillment portraits of one or another Russian who got himself up high in the cynical, power-driven Kremlin clique. And the rise of Zhukov has been in that clique. If he has anything more than Kremlin bean balls to throw at us, let us wait to see what stuff he has.

We should wait and see about the conqueror of Budapest. If the hired Russian propagandists are ordered to build him up, that is their job. Doing their job will keep them out of Khrushchev's clink. But there is no need for us to do their work for them.

**THAT WHICH IS ETERNAL**

**STRENGTH FOR THE WEEK**

**TO HEIGHTEN ATTENDANCE INTEREST**  
 "Not forsaking the assembling of ourselves together, as the manner of some is." — Hebrews 10:25.  
 The Church is the Body of Jesus Christ on earth. She is the gathering of believers on this earth waiting for the consummation of heaven and earth and the salvation of the members of that Body. She is the caretaker of the Word of God — His message of life and salvation for sin-sick men.  
 Is the Church necessary? Does she serve a useful purpose in the plan of God for all men? The answer is obvious. Only through this Word of God, over which only the Church has charge, can man be saved. There are many, many institutions of man on this earth; but the Church always remains the institution of God and Him alone. That Body of Christ which preaches and teaches the Word of God in its truth and its entirety is very necessary in the entire realm of God's plan of salvation through Jesus, His Son.  
 One important and vital dimension of the Spiritual Growth of

each individual is the heightening of attendance interest in the Church. God acts through His Church to bring salvation to every individual. The Church must never become a "parade ground" upon which men full of pride display their own works. The Church is a "filling station" where sinners regularly and constantly receive the Bread of Life, Jesus Christ Himself. Or — "The Church is not a museum for saints; She is a hospital for sin-redeemed mankind."

It was considered by the early Christians an honor and a privilege to be found in the house of the Lord. For us to forsake regular worship, prayer, praise and thanksgiving, is for us to forsake our own salvation made possible as a free gift through Jesus Christ, the Lord of the Church and the Redeemer of all mankind.  
 Rev. Henry F. Treptow, Pastor, Grace Lutheran Church.

**Mrs. Tom Scarborough,**  
 5104 42ND STREET,  
 LUBBOCK, TEXAS

"My home freezer is wonderful! It cuts down the number of times I have to go to the store and to a woman who works, that really means time saved," says Mrs. Scarborough.

★ "My home freezer is my 'home super market'. It's so easy to fix snacks for the family and I can always keep an adequate supply of desserts on hand. Too, we like fruit juice with every meal and the economy of a home freezer makes that and many more treats possible. Economy is one of the many reasons I use, and recommend, an electric home freezer," Mrs. Scarborough says.

# Cotton Production for '57 Set at 1,654,000 Bales for High Plains

The first 1957 cotton crop production estimate for the 23-county Texas High Plains, as of August 1, shows an estimated 1,654,000 bales expected of this year's crop, agricultural officials report.

This production is based on allocated acreage, stands and crop conditions as of August 1, from 23 High Plains counties.

This crop estimate is more than 200,000 bales higher than the first crop estimate of the 1956 cotton crop which actually produced the second biggest crop in history in this area—1,640,000 bales.

The Lubbock Cotton Exchange and the Plains Cotton Growers, Inc., in making the crop estimate said that the estimate is on the conservative side, due to the lateness of the crop and the fact that so much dryland is dependent on rain in August.

Dry land was estimated at 160 to 200 pounds yield. If this estimate is too low, and should it be increased by 75 pounds per acre for the dry land acreage, then

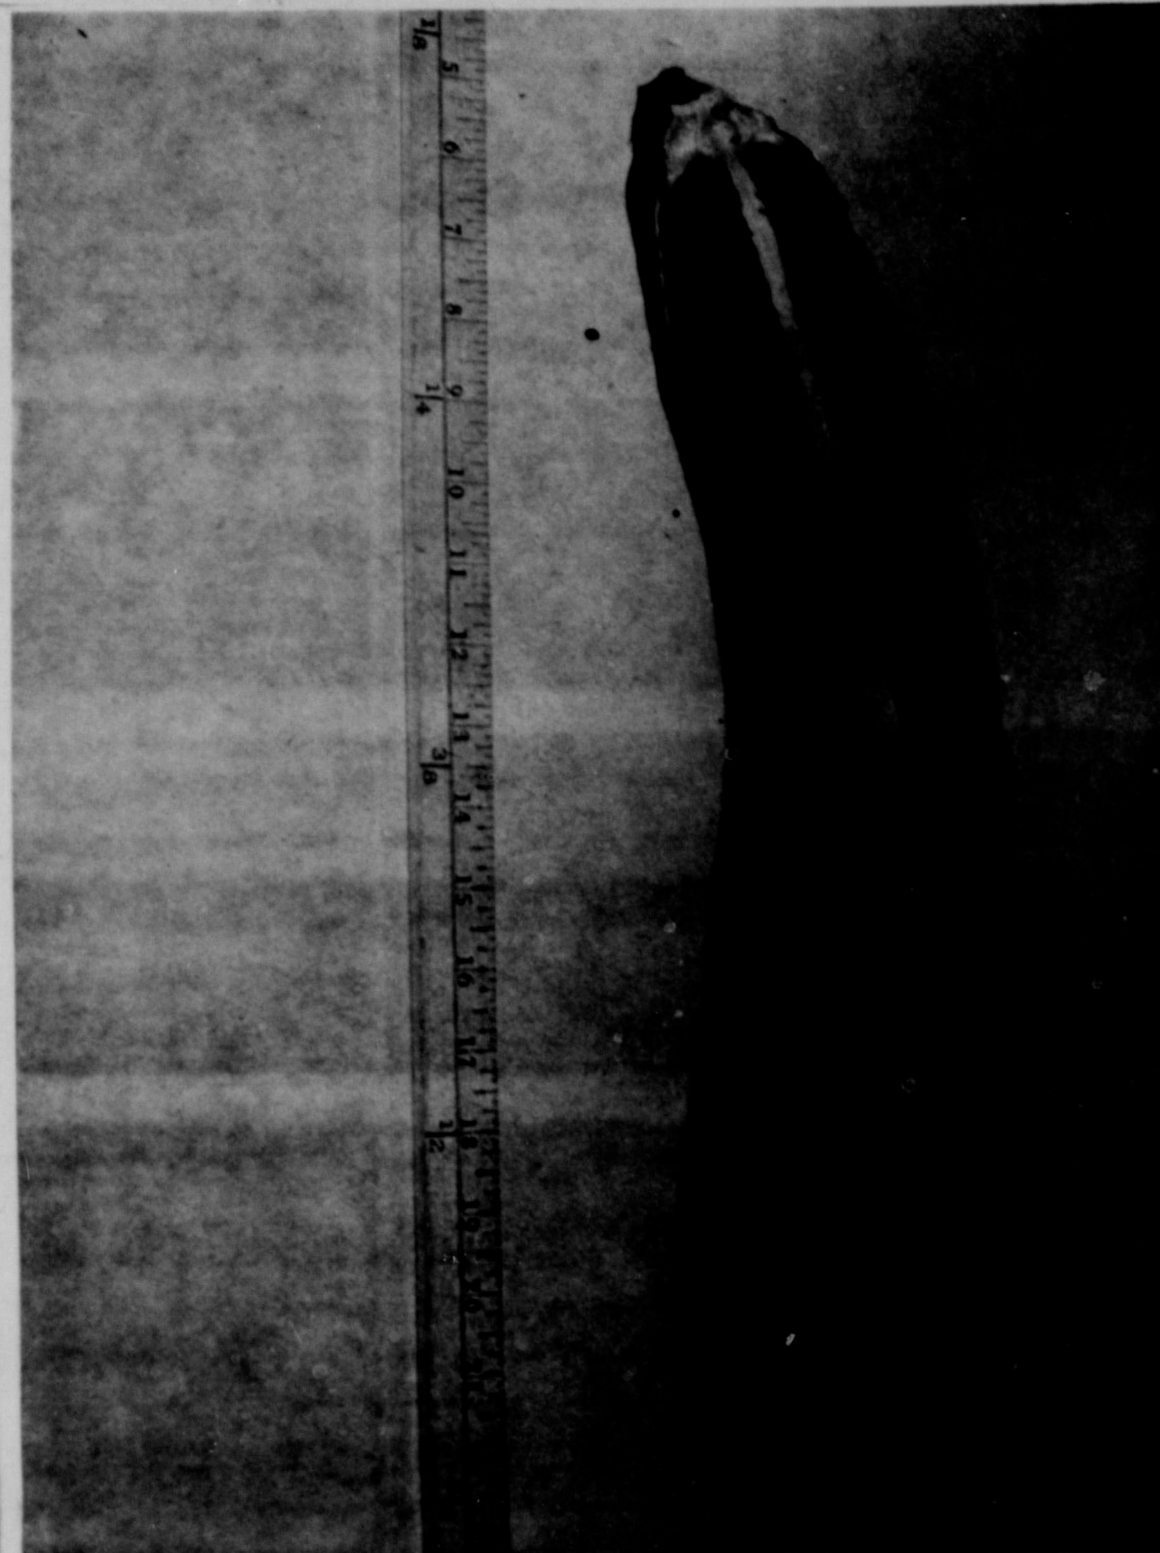

another 100,000 bales or so could be produced and production will break all existing records.

If the big acreage counties come through this year along with the high-yielding counties and the dry land equals one-half bales, then this year's crop could easily top

1,750,000 bales.

In Lubbock County, 29,000 acres of dryland and 195,000 acres of irrigated land are estimated to produce 215,000 bales. Lynn County, with 125,000 acres dryland and 55,000 acres irrigated, the estimate has been set at 107,000 bales.

Crabby County has 11,000 acres dryland, 100,000 irrigated acres, with an expected production of 105,000 bales. Garza County's 24,000 acres dryland and 15,000 acres irrigated land are expected to produce 20,000 bales.

**THIS — A ZUCCHINI SQUASH? —** Usually only five or six inches long, this Slaton-grown specimen measured 17 inches from one end to the other. It was grown in the backyard garden of Howard Hoffman, 1135 W. Texas street.

Mrs. Joe Teague Jr. and her brother, George Green will leave Tuesday for Sayre, Okla., where they will attend a reunion of the Green family on Thursday. They will be gone for about a week.

Mr. and Mrs. Joe Neilon left Thursday on their vacation which will be spent in Estes Park, Colo.

## Local Negro Beaten Sunday Following Gambling Session

A Slaton Negro was located about 11 a.m. Sunday in the canyon, where he had reportedly been beaten by three white men following a session of gambling in the flats.

The white men allegedly owed the colored man about \$150 in gambling debts, and had only a check in an amount over \$200 with which to pay. They were headed to Ralls, the colored man said, to cash the check, when they stopped at the canyon and beat him.

A second Negro, who had been picked up hitch-hiking, escaped at the canyon and called local police. The victim was carried to

a hospital, where he was treated for severe bruises. The men who did the beating had not been located, local officers said.

Eleven persons were jailed over the week end, on charges of drunkenness, vagrancy, violation of the liquor law and drunk and disturbing. One man was held for questioning and released.

Six traffic tickets were issued, for speeding 50 in a 30 mile zone, 45 in a 30 mile zone, and 40 in a 30 mile zone; running a stop sign and driving without an operator's license.

Four dog calls were received during the past week. A group of youths was dispersed about 11:30 p.m. Monday in the 200 block of N. 12th street. They had been reported to be yelling and using foul language.

Mr. and Mrs. Richard Becker and Larry spent the week on a vacation to Corpus Christi.

**BUTTON-SIZE NUCLEAR BATTERY**—Five years of research has resulted in an atomic-powered battery which utilizes what was once considered a nuclear waste product as its power source. The tiny battery will deliver power over at least a five-year period. It is the forerunner, supposedly, of batteries for use in radios, guided missiles, hearing aids and even wrist watches. Joint developers Walter Kilde Laboratories and the Elgin National Watch Company stress that more research will be necessary before something like an atomic watch will be possible. Promethium 147, the power source, emits fast-moving rays which are trapped in a specially designed phosphor, converting them to "atomic light." The light is captured by a photo-cell and automatically transformed into energy.

The first submarine to actually sink another enemy vessel under combat conditions was the Confederate "Hunley" built during the Civil War.

The USS Holland, which became the first undersea craft to be commissioned by the U. S. Navy was accepted on Apr. 11, 1900 for a price of \$150,000. Today's atomic submarines cost about \$30,000,000 exclusive of the power plant.

## Texans Receive Death Benefits From Life Insurance of Over \$85 Million

Texas families received \$85,679,000 during 1956 in death benefits from their life insurance companies, the Institute of Life Insurance reports. These payments were made under 47,419 policies.

The 1956 death payments compare with \$79,220,000 the year before, under 45,086 policies.

"The death benefits paid in this state last year were 125 percent more than ten years ago," the Institute commented. "In 1946, they amounted to \$38,005,000 under 29,466 policies. The increase has been primarily a reflection of the great amount of life insurance owned and not a rise in death rates, which declined nationally about one-fourth in these years. Ownership of life insurance in this state increased 226 percent between the start of 1946 and the start of 1956."

Of the 1956 death claim payments in the state, \$52,913,000 was under 17,715 ordinary life insurance policies; \$25,962,000 was under 9,039 group life insurance certificates; and \$6,804,000 was under 20,674 industrial life insurance policies.

For the nation as a whole, the 1956 aggregate of death claim payments was \$2,418,992,000 under 1,739,108 policies, compared with \$2,240,731,000 under 1,660,949 policies the year before and \$1,280,362,000 under 1,259,944 policies in 1946.

Last year's payments were made up of \$1,452,896,000 under 514,195 ordinary life insurance policies; \$683,265,000 under 275,702 group life insurance certificates; and \$282,831,000 under 949,211 industrial life insurance policies.

New York led the states in the total of death benefit payments in 1956, with \$359,693,000 under 226,855 policies. Next in rank were Pennsylvania, \$215,288,000; Illinois, \$182,812,000; California, \$175,923,000; and Ohio, \$148,522,000.

In Korea, experience has shown that resettled refugees who receive CARE self-help tools and machines increase their earnings by 39 percent. Contributions in any amount to CARE Self-Help Program, 660 First Ave., New York City, provide the needy in Korea and other underdeveloped lands with the kind of supplies that enable them to support and otherwise help themselves.

The \$15 CARE fishing gear kit that provides a livelihood for refugees who have fled to Hong Kong from Communist China represents five week's pay to a working fisherman. Contributions to the CARE Self-Help Program, 660 First Ave., New York City, may be marked specifically for this package.

### Seek State's Top 4-H Alumni For 1957-58 Honors

WOULD you like to nominate for special honors a former 4-H Club member who has become an outstanding citizen? This is now possible through the national 4-H Alumni Recognition program being conducted by the State Extension Service, and sponsored by Olin Mathieson Chemical Corporation, Plant Food Division, Little Rock, Ark.

To be eligible, candidates should have performed some outstanding service, made a notable contribution to the community, state or nation, or displayed exceptional leadership. The person need not now reside in your state. There are more than 21 million former 4-Hers throughout the country, and undoubtedly the beneficial influence of 4-H training and ideals has affected the lives of every one. Among them are men and women whom you know as friends and neighbors—such as farmers, housewives, the

family doctor, teachers, local business men and legislators.

By sending in the name of a qualified 4-H alumnus, you may pave the way for well deserved recognition. Two winners from each county will be named for special recognition certificates. Four outstanding persons will be honored in the state, and will receive a burnished copper and walnut plaque.

**Key Award** Eight men and women will be honored during an impressive banquet at the national 4-H Club Congress in Chicago next December. Besides the expense paid trip, each one will be presented with a gold 4-H alumni key, the national award. The 1957 candidates also will be selected at this time.

So don't delay—fill out the form below, clip and mail today.

### Post 'Caprock Cavalcade' Planned For Golden Jubilee Celebration

"The Caprock Cavalcade" has been selected as the name of the historical pageant to be presented during Post's Golden Jubilee celebration September 14-17.

The pageant, with a cast of 350 Post residents, will be presented the nights of September 14, 15, and 17, at the Post Stampede Rodeo Arena. There will be no presentation of the pageant on Sunday night, September 15.

Jubilee highlights announced by Paul Haagen, special representative of the John B. Rogers Producing Co., will be Pioneer Day on September 14; "Faith of Our Fathers" Day on the 15th; "Brush and Centennial Bells" Day on the 16th and Youth Day on the 17th.

Mr. and Mrs. James Turner of Lubbock visited last week end with Mrs. Turner's parents, Mr. and Mrs. C. L. Clark.

**Hopkins-Franklin County Reunion Set for Sunday**

The famous "Hopkins County Stew" will be served at the noon meal Sunday, August 11, at the Hopkins-Franklin County Reunion.

Former residents and their families, from the two counties, will meet east of the swimming pool on the east side of Mackenzie Park, Lubbock.

Glenn T. Hackey, president of the reunion, said that there would be plenty of stew and crackers. Those attending should bring a basket lunch, plates, bowls, spoons, glasses, etc.

Mr. and Mrs. R. W. Coffee, Baxter and Wayne spent the week end in Sweetwater with their parents, Mr. and Mrs. W. C. Coffee, Fanny and Edna, and Mr. and Mrs. R. L. Banks, and Richard Joe.

### Social Security Benefit Checks Going Out to Disabled Workers

Representatives of the Lubbock Social Security Office will be in Slaton at 9 a.m. Friday, August 16, to assist in social security matters. The representative will be at the Red Cross Room, City Hall.

More than 100,000 disabled workers over the nation have been notified that they are entitled to social security disability insurance benefits, and will receive their first benefit checks during August.

John G. Hutton, manager of the Lubbock office said this week.

In making the announcement, Hutton said that action is being taken as speedily as possible on all disability applications and that many other disabled workers, who may not yet have received notice

of final action on their applications, will receive their first checks in coming months. No further action is necessary on their part, Hutton said.

Applications for the new disability insurance benefits increased to a rate of about 12,000 per week through the nation in the first six months of 1957.

Disabled workers who meet the requirements of the law, and whose applications have been filed with their social security officers before the end of December 1957, will get benefit payments for the months of July through December, Hutton said. After December payments cannot be made for any month before the month of application.

### Highlights and Sidelights From Your State Capitol

AUSTIN, TEX.—Labor unions in Texas now are welded into one 300,000-member organization.

The mammoth merger was accomplished at a joint AFL-CIO convention in this Capitol City.

Sharp internal disagreements heartened those who fear the political power of such a massive group.

A Resolution, recommended by labor's Civil Rights committee, condemned the 55th Legislature for passing "immoral and undemocratic" laws concerning school segregation. Gulf Coast delegates balked. Finally, the convention compromised by adopting the national AFL-CIO civil rights plank, worded in a more general language.

Delegates also criticized Texas' daily newspapers; the Texas Tech Board of Directors; the Republican Party; and highway contractors.

Endorsed were a state income tax on corporations; and increase in individual income tax exemptions; federal aid for school construction; higher pay for teachers; and honesty among union officials.

AFLman Jerry Holleman was elected president. CIOer Fred Schmidt was chosen as secretary-treasurer.

**LOBBY CURB PROPOSED**—With legislative opposition to the special session weakening under Gov. Price Daniel's determined stand, attention now turns toward what the lawmakers might enact.

Sen. Henry B. Gonzales of San Antonio has drafted a strict lobby control measure. It is patterned after the Federal Law. It would require registration of all persons seeking to influence legislation, for pay. Also it calls for a detailed accounting of money used to influence legislation... where it comes from, how it is spent.

It would hang a heavy sword over the head of any lawmaker or lobbyist found guilty of a bribe arrangement. Penalty up to a \$25,000 fine and 10 years imprisonment. Corporations involved would lose the right to do business in Texas.

**SALES SURGE SEEN**—Experts foresee a "slow but strong upturn" of production and marketing in Texas for the last quarter of the year.

It might even break last year's record, despite the restrictions on credit. So states the UT Bureau of Business Research.

June retail sales dropped five per cent from May. But totals for January-June, 1957 were two per cent above 1956.

Home modernization has done "surprisingly well." But completion of new homes in 1957 is expected to fall some 10 to 20 per cent below last year.

**EMPLOYMENT TO CLIMB**—More jobs, better pay, is the outlook for Texas workers.

Texas Employment Commission forecasts a small rise in job-holders during August, followed by the usual steep jump from increased activities in September.

Early summer brought the customary glut of workers as schools poured out thousands of graduates and vacation job-seekers. In addition, factory jobs dropped somewhat as automobile assembly plants and aircraft companies cut back.

However, the same period brought good news to factory workers as average weekly wages jumped some \$2. In the higher brackets were workers in coal and petroleum products, up \$4.76 to \$113.16 per week, and those in chemicals, up \$2.49 to \$103.34 per week. Less fortunate were those in apparel and fabric products, up 37 to \$43.92.

**NO MAGIC EXPECTED**—Rebuilding public confidence in Texas insurance cannot be done "by any magic touch or wave of a wand, not overnight nor within a few months."

It will take "painstaking planning, organized effort and competent performance," said Joe P. Gibbs, member of the newly organized Board of Insurance Commissioners.

Board members are reconciled to operating in a "show window," said Gibbs, recalling the recurrent troubles that resulted in a wholesale legislative overhaul of the department.

"We recognize that the public has a right to look in on us to see what we are doing to remove the clouds of doubt," Gibbs stated.

**CONSTRUCTION UP**—Construction authorized in Texas for the first half of 1957 is five per cent higher than for 1956, according to the UT Bureau of Business Research.

Foremost among the cities making gains were Midland, Houston, Amarillo, Lubbock, Fort Worth, El Paso and Odessa.

Dallas, San Antonio and Austin showed declines.

**FAMR OUTLOOK**—Where rain has not fallen recently, outlook for grass and feed crops is poor, reports the Texas Agricultural Extension Service.

Timely showers helped pasture and late crops in some areas. But were too late for corn and feed.

**DRYS LOSE**—Anti-prohibitionists still are riding high in local option elections. So reports the Texas Liquor Control Board.

Orange and Culberson Counties favored continued sale of alcoholic beverages by one-sided margins.

**VOLUNTARY CUTS**—Texans seem to have adopted a dubious "wait and see" attitude toward Pres. Dwight D. Eisenhower's request for a voluntary 10 per cent cut in oil imports.

For months Texas officials and industry leaders have sought White House help to restrict the flow of foreign oil into the country. They blamed "excessive imports" for the dwindling demand for Texas oil.

State oil allowances slipped month by month to an all-time low. State revenue estimates, heavily dependent on oil taxes, were dragged down correspondingly.

After study by a Cabinet committee, the President's advisory asked importing companies east of the Rockies to reduce crude oil imports to 10 per cent below the 1954-56 average. Implied was the suggestion that mandatory quotas would be imposed if the voluntary program doesn't work out.

Gov. Price Daniel called it "a step in the right direction." But, he said, the step "does not go as far as is necessary to meet the present emergency." He suggested there should be no waiting period before applying positive government controls and that 10 per cent was not a "realistic reduction."

Mr. and Mrs. Carl Erickson, Johnny and Anna Marie, of Ft. Arthur, visited in the home of the Rev. and Mrs. F. A. Wittig of Posey last Wednesday.

Misses Darlene and Gloria Combs of Fresno, Calif., are visiting in the home of their aunt, Mrs. Roy Carpenter, Mr. Carpenter and children.

Mrs. Joe Tate, Mr. and Mrs. John Fondy Jr. and children Tate and Judy attended a reunion of the Tate family at Hamlin last Sunday.

Shakespeare, according to estimates, never made a continuous journey as far as a round trip from Boston to New York.

THE ROOF OF THE NEW HANGAR used for aircraft maintenance purposes resembles a runway itself as it spreads out for 2000 feet at Kelly Air Force Base, San Antonio. Twelve football games could be played simultaneously inside the 300-foot-wide hangar. The smaller shops and offices portion of the \$14,000,000 project to the left is 1650 feet long and 250 feet wide.

## Juanita Wood, R. Chapman Marry In Slaton Ranch Home

Miss Juanita Wood, daughter of Mr. and Mrs. Clark Wood, became the bride of Richard Chapman Lowery, son of Mr. and Mrs. E. J. Lowrey of Lubbock in the ranch home of her parents at 4 p.m., Friday August 3.

The Rev. Clarence Fugua, pastor of First Christian Church of Lubbock, performed a double ring ceremony.

The sitting room of the home was decorated with baskets of white gladioluses and white stock. The baskets were flanked by stands of fresh huckleberry with two candelabra filled with white tapers completing the arrangement. On the mantle and staircase were garlands of huckleberry and Marguerite daisies.

Bernie Howell organist, played "O Promise Me," "I Love Thee," "I Love You Truly," "Schubert's Serenade," "Romance," and "Meditation." from Thais.

The bride, who was given in marriage by her father, wore an original gown of white imported Swiss organdy over net and taffeta designed with a high neckline and upstanding collar of organdy flatters. The fitted bodice had tiny sleeves completed by gauslets worn over the hands. Escalloped edges marked the center front and terminated with a rounded waistline. From this stemmed a voluminous waltz-length skirt of plain organdy fully shirred with center front enhanced by full-length embroidered panel marking scalloped edges at center and Val lace outlining the edges. The immense fullness of the organdy over taffeta was emphasized by crinoline worn underneath. Her short silk illusion veil was joined to a tiny plateau cap of lace embroidered with iridescent sequins and seed pearls.

Attendants Mrs. C. S. Bilbo of Separ, N. M., attended her cousin as matron of honor. She wore a waltz-length gown of white organdy over blue taffeta fashioned with a blue cummerbund and bouffant skirt. Her bandeau was of blue net and she carried a colonial nosegay of blue Marguerite daisies and white stock blossoms.

Jim Lowery of Austin, brother of the groom, served as best man. Ushers were Clark and Joe Wood, brothers of the bride.

The reception was held in the dining room of the home. An ice carving of two love birds, wedding bells and a cloud of blue baby's breath formed the centerpiece for the table which featured a three-tiered wedding cake circled with blue gardenias.

House Party The house party included Mrs. M. S. Doss, great aunt of the bride; Mrs. Harry Homig, sister of the bridegroom; Mrs. J. J. Lane, the bride's grandmother; and Mrs. M. O. Carter.

For a wedding trip to Santa Fe and points of interest in New Mexico, Mrs. Lowery chose a two-piece dress of black and white pin-checked Italian cotton with white organdy collar and cuffs edged with embroidered lace. It was designed with a short jacket and bouffant skirt and was worn with black patent shoes and bag. Her hat was a wide-brimmed white lace and her gloves were white.

At Home In Lubbock The couple will be at home at 3507 47th St., Lubbock after August 7.

The bride attended Sullins College in Bristol, Va., and was graduated from Texas Tech where she was a member of Delta Gamma social sorority.

Mr. Lowery, a graduate of the University of Texas, is affiliated with Phi Gamma Delta social fraternity. He will coach 9th grade football and teach at Atkins Junior High School in Lubbock this fall.

Mrs. H. H. King, Gary and Francis of Lubbock and Miss Juanita Hightower of Odessa were guests Sunday in the home of Mr. and Mrs. Robert Lee Hagler.

# TELEPHONE TALK

By J. C. Oakley, Manager

## WONDERFUL WORLD

It's a wonderful world we're living in. Modern day science is making it easier every day to do the simplest things in life. I read the other day about an invention that will cook a whole meal in minutes—electronically. There are television sets which can be carried easily from room to room, and radios that fit into your pocket. The telephone company is keeping pace with modern times, too. Take the telephone itself. We've got wall telephones, hang-up telephones and portable telephones—the kind you can "plug in" wherever you like. And we've got telephones with a volume control which can be regulated for low, medium or high—the kind which is especially helpful for people with impaired hearing. There are telephones in eight decorator colors, too—besides black. But that's only the beginning of our "Speakerphone" plans. The user to talk with both hands free since it's equipped with a microphone and loudspeaker.

## HOT WEATHER TIP

Plenty of people now days are trying to beat the summer heat by staying outdoors. With backyard living so popular, I like to suggest that you allow your friends a little more time to answer the next time you call. We suggest letting the telephone ring ten times—that's ten minutes—before you hang up. That way, the person who is calling might find it easier to get to his telephone answer. If you spend lots of time outdoors, you'll appreciate this little added courtesy when friends call you, too. Nobody likes to make a mad dash when the telephone rings, only to find there's no one on the line.

## SPEED YOUR CALLS

Many of our customers have found out that their calls through a lot faster when they call by number. In fact, we think you'll discover they go through twice as fast that way. If you don't know the number, the operator will be glad to obtain it for you—then jot it down for use later on. Blue books are just the thing to keep your numbers in, too, and they are available without charge at the telephone business office.

Call by number. It's twice as fast.

In a ceremony Friday evening, August 3, at the First Methodist Church, Miss Edith Ann Holloman became the bride of Jack Ronald Haliburton of Southland. The Rev. James B. Sharp, pastor of the church, officiated at the single-ring ceremony assisted by the groom's brother, Jimmy Haliburton. Wedding vows were exchanged by Miss Mary Jo Shoemaker and Jim D. Campbell last Saturday afternoon, August 4 at 4 p.m., in Robertson Memorial Methodist Church in Whitesboro, Texas. The Rev. John H. Bland officiated. The Rev. F. A. Wittig of Chenoa, Illinois was installed as pastor of Immanuel Lutheran Church at Posy at the Sunday morning service. The Rev. Malcolm Hoffman of Wilson preached the sermon and performed the act of installation. Huser Hatchery was the scene of a demonstration of the Daffin Feed Mill Saturday from 2 to 5 p.m. More than 30 people turned out to watch the mill in operation as it ground and mixed feed. Slaton's first Pony League baseball season has come to a close with the Red Sox taking the season's championship. Little Steven Lee Ward, son of W.O. and Mrs. Claud Ward, celebrated his first birthday the first of the week with a party in the home of his grandparents, Mr. and Mrs. F. B. Sexton.

## Taken from Files of August 8, 1952

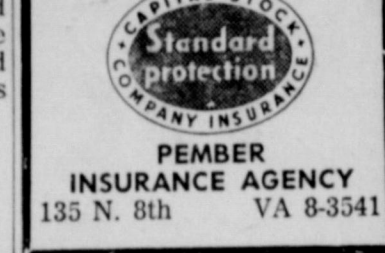

Mr. and Mrs. Edgar Moseley of Southland celebrated their Silver Wedding anniversary Friday, July 25th, in the home of their daughter, Mrs. Harley Martin, from eight to ten in the evening. Whether telephone rates will be boosted here, and if so to what extent, is a matter to be decided by a five-member citizens committee and officials of Southwestern Bell Telephone Company. The municipal swimming pool proposed for Slaton would not raise taxes here. The citywide tennis tournament sponsored by the Chamber of Commerce is rapidly coming to a close with winners already determined in the junior boys singles and doubles and junior girls singles. Some 25 to 30 young leather-swingers are holding regular twice-a-week workouts at the high school gymnasium in preparation for the citywide amateur boxing tournament which will be staged here Friday and Saturday nights, August 15-16. Lieutenant and Mrs. E. P. Schmid are visiting his mother, Mrs. F. A. Drewry. Lieutenant and Mrs. Schmid arrived last Wednesday from Monterey, California, where he has been attending an Army Language School. Cpl. Tommy Smith and Mrs. Smith returned to Camp Hood Monday night after spending a few days visiting his parents, Mr. and Mrs. R. L. Smith, and Mrs. Smith's parents, Mr. and Mrs. Adolph Spradley. S/Sgt. Jerry Lovelady returned to Camp Barstow, Calif., and Sgt. James Lovelady left for Camp Pendleton, California, after a brief furlough in Slaton.

Miss Jolene Tate, Slaton, and Miss Hazel Patton, Floydada, have been awarded Fannie Breedlove Davis scholarships from District 9 of the Texas Baptist Woman's Missionary Union, for the 1947-48 school year at Mary Hardin-Baylor College. Miss Tate is the daughter of Mr. and Mrs. Joe W. Tate, 705 7th Street. In a five game series for the finals, Ayers defeated Drive-In four out of five thus placing Ayers as top team of the softball league. According to Max Arrants August 11 and 12 are big nights in Slaton for the amateur boxers of this section when the boxing Tournament sponsored by the Slaton Chamber of Commerce gets underway. Construction was begun last week on an office building for Dr. J. E. Lovelace on the corner of Tenth and Lubbock streets. Mrs. Clifford Simmons left Monday, July 28, for Temple to attend the marriage of her nephew, John Bryan Bryson, Jr., to Miss Judith Carroll Scott of Temple. A large crowd from Slaton and its surrounding territory attended the opening last Sunday of the local airport two miles northeast of Slaton on the paved Canyon Road. Miss Charlotte Nesbitt, daughter of Mr. and Mrs. G. B. Nesbitt of Slaton, will become the bride of Ben H. Becker, Jr., son of Mr. and Mrs. Ben H. Becker, Sr., also of Slaton in a double-ring ceremony Monday morning, August 11, at St. Joseph's Church with the very Rev. T. D. O'Brien officiating. Rev. and Mrs. Claude Wingo, pastor of First Christian Church and wife, left early Monday for a ten day vacation. They will visit in Kerrville, Junction, Mason and Blanco and probably come by Mexia and visit with their daughters and their families before returning home. In Blanco they will visit with Mrs. G. H. Candlin, a member of the Christian Church in Laredo. Mrs. H. W. Cooper of Arlington came Friday night for a few days visit with her sister, Mrs. Francis Perry, and family. Mike and Cathy Brown spent last week at Junior Camp at Ceta Canyon.

A WORD ABOUT YOUR PICTURE TUBE—At all times be very careful in your contact and handling of the picture tube. It's expensive, fragile and dangerous. It retains an electric charge for a considerable length of time even after the set is turned off. It is advisable not to touch the picture tube at all. By far, most troubles have nothing to do with the picture tube, so leave it alone. If your tube develops trouble our technicians can spot it in a minute, but you'll be ahead in the long run if you never touch it yourself. Just pick up your phone and call us.
