GANG TACKLING—It was tackling such as this that aided the Tigers in their game against Canyon last week. Eight of the 11 players are headed for the ball carrier . . . and tactics such as that pay off. Tiger Coach Leonard Ehrler said this week he was well pleased

with the performance of his team last week, and was especially pleased concerning their gang tackling. Tonight the Tigers go against the Seagraves Eagles at 8 p.m. on the Eagle gridiron.

Second Game Tonight

Tigers, Eagles Meet at Seagraves; Kickoff 8 p.m.

Members of the Slaton Tigers were reportedly in good shape for the game against the Seagraves Eagles tonight in Seagraves. Kick-off will be at 8 p.m.

Three team members will be out this week. Tommy McClanahan, who was taken out last

week because of a broken collar bone, will be out all season. Wayne Banks sustained a hair-line fracture on the shoulder this week, but should be ready to resume play in time for district games. Bill Berry will be out this week because of the flu.

The Seagraves eleven was victim of an upset last week when they met defeat at the hands of Morton, 14-13. They reportedly have a strong team.

Head Coach Leonard Ehrler said this week that he was especially proud of his boys last week. "They did everything we asked of them," he said in describing the play against Canyon. Ehrler said he couldn't single out any one player as outstanding as a result of last week's game.

The gang tackling displayed by the Tigers was much to the liking of the coaching staff, he said.

Slaton's freshman squad will meet the Idalou freshmen at 7:30 p.m. Thursday in Idalou.

Seagraves' B' team will meet the Slaton Junior Varsity squad at Tiger Stadium at 7:30 p.m. Thursday. Ehrler said this week that members of the Touchdown Club were buying sideline hoods with travelling bags for the Tigers as their project for the year.

Buffalo Lakes Property Purchase Approved by Improvement District

At a meeting of the directors of the Lubbock County Water Control and Improvement District No. 1 Tuesday afternoon, an offer for purchase of the Buffalo Lakes property from its present owners, W. H. Rodgers and George Etz, was approved.

The offer provides for a purchase price of \$500,000 for 1,892.8 acres of land, equipment and buildings owned by the Buffalo Lakes Co., in Yellowhouse canyon.

The objective of the district is the development of this area as a water control and recreation area. Purchase will be financed through the sale of approximately \$600,000 worth of bonds of a \$1,860,000 bond program that was approved by voters in Lubbock County early last year.

The offer made Tuesday was prepared at the suggestion of the owners for acceptance or rejection. J. S. Edwards Jr., chairman, presided at Tuesday's meeting. Others present were Directors Woodrow DeBusk, executive secretary; Don Schiever, assistant; Elmer East, financial adviser; Kim Hart, attorney; Clarence Cooper, engineer; and Ernest Dickey, bond representative.

Local Officers Receive Reports Of Wild Driving

Two reports of reckless driving were received by local officers Tuesday. The first came at noon concerning cars on W. Lynn street. About 10 p.m. cars were reported racing on W. Division street.

Reports of boys disturbing by loud singing and yelling about 11 p.m. Monday were received from the vicinity of 5th and Geneva streets. Reports of excessive noise came from S. 12th street, south of Division, about midnight Saturday.

Four traffic tickets were issued over the week end. Two were for driving without an operator's license, one each for following too close and failure to grant right of way.

One person was jailed for being drunk in a car; eight for being drunk; six on vagrancy charges; one each for destruction of city property, simple assault, and disturbance.

Jack Seals has been added to the police force, replacing Zanna Anderson, who resigned recently. Seals formerly was with law enforcement agencies at Brownfield.

Week-Long Revival Begins Sunday At First Methodist Church, Slaton

Revival services will begin with the 10:50 a.m. service Sunday at First Methodist Church. Dr. Clovis Chappell will preach. Services will continue throughout the week at 10 a.m. and 7:30 p.m. On Saturday, September 21, no morning service will be held, and the evening services will begin at 8 p.m. A "Pack the Pews" program has been undertaken by the women of the church for Sunday evening, September 15. On Saturday evening, two laymen, John Morris and Bart Jones, will

make an all-out effort to fill the church.

Dr. Chappell, an outstanding preacher and author, was in Slaton last year to conduct revival services at First Methodist Church. He has been listed in Who's Who of America, and named one of the 40 outstanding ministers in the past 400 years. A retired minister, Dr. Chappell makes his home in Waverly, Tennessee. He has written a number of religious books, one of which was published this year.

Larry Dickson, senior music student at Texas Tech, will lead the singing.

An invitation to the entire community to hear Dr. Chappell was extended this week by the Rev. James B. Sharp, pastor of the church.

Amarillo, Plainview, Pampa Seat Directors on CRMWA Board Monday

Directors of the Canadian River Municipal Water Authority, in a meeting Monday, passed a resolution asking for government financing of the dam and pipeline project to furnish 11 Panhandle-Plains cities with water specifically directing that financing be made on a sales revenue basis.

Representatives of Amarillo, Pampa and Plainview, three cities which withdrew from the project two years ago, were seated as new directors.

The resolution, which seeks government funds for the project citing three years of unsuccessful efforts by member cities to secure private financing, will be presented to regional Bureau of Reclamations officials soon by the Amarillo directors and Secretary A. A. Meredith of Borger.

Under the proposed plan the revenue from the sale of water to various cities would be used to repay any government loan which might be obtained to help finance the dam.

This action is another step in the long effort by the Panhandle-Plains area to construct a dam and reservoir at Sanford, Texas, as a source of domestic water for cities in the area.

Future meetings of the board will be held in Plainview. Howard Hoffman of Slaton is serving as temporary chairman of the board. He presided at the meeting in Lubbock Monday.

Explanation of Boys State Made Before Lions

Hugh Van Pierce related experiences he encountered while attending Lone Star Boys State this summer before members of the Slaton Lions Club Tuesday.

Pierce was introduced by Charles Marriott, program chairman for the day.

Some 539 boys attended the program this year. Held on the University of Texas campus, boys in attendance were divided into two political parties, and into cities for the purpose of political training.

Elections were held in which boys were named to posts on the city, county, district, and state levels. Pierce said he was elected to the state legislature as a representative.

Elected legislators went to the state capitol where they worked on the floor of the legislature for one day. Included in bills passed by the Boys State Legislature was one authorizing a flag for Lone Star Boys State, and one calling for more complete information concerning needs of individuals while there to be sent to members in coming years.

Pierce was sponsored by Luther Powers Post, American Legion. He described the experience as one which gave a better insight into the working of our governmental system.

Guests at Tuesday's luncheon included Leroy Holt, Wyatt Swint and Elmer Nelson.

Mexican Independence Celebration Marked by Fiesta Saturday, Sunday

Latin-Americans in Slaton will observe the 147th anniversary of Mexico's Independence this week end with dancing and a coronation ceremony as well as singing and talks by Mexican dignitaries.

On Saturday evening beginning at 8 p.m. there will be dancing on the platform in south addition of Slaton. Mike Ornelas and his orchestra from Laredo, Texas, will furnish the music.

Sunday evening there will be a dance beginning at 7:30 p.m. and continuing until 10:30 at which time the queen will be crowned by Mexican Vice Consul Emilio Rodriguez of Amarillo. Miss Maria Elena Balderaz of Slaton will be crowned queen.

Her princess will be Miss Maria Alicia Valdez of Post and Miss Guadalupe Parras of Slaton will be the duchess.

Miss Virginia Estrada will direct the special choruses which will sing the American and Mexican national hymns for the coronation as well as render special numbers for the Monday evening program.

Loss to Canyon 26-13 Deemed Unimportant As Tigers Make Good Showing in Opener

Opening the 1957 football season with a game played in the rain; Slaton took defeat at the hands of the Canyon Eagles Friday night in Canyon, 26-13. The Tigers, however, held the lead over Canyon through the third quarter, and relinquished that lead in the opening minutes of the last period.

Following the opening kickoff, Adamek took the ball on his own 5 yard marker and ran back 41 yards to the Slaton 46. Fulcher took the ball 29 yards for a first down on the Eagle 25, then on the next play went an additional 3 yards.

After 4 yards were gained by Adamek, Franco went 3 for the second first down.

Later, with Canyon taking the ball over on downs, Miller and Boydston carried for 7 yards in three plays, and Pruett kicked 37 yards to the Slaton 44.

Tiger Drive
Franco made a 9-yard return to Canyon's 47, followed by a 10-yard pass from Corley to Limmer good for a first down.

The second first down of this series of play was made after Franco made 7 yards in two plays, and Fulcher took the ball forward an additional 6 yards.

Setting the ball into play from Canyon's 12 yard line, Franco went for 3, then Fulcher, on a dive play, covered the remaining 9 yards into pay dirt. Two minutes' 47 seconds were left in the first quarter. Franco's attempt to run for the extra point was unsuccessful.

The end of the first period saw Canyon in possession on Slaton's 22-yard line. Slaton took the ball on their own 7 yard line, following an incomplete pass by Canyon's Pruett, when a clipping penalty against the Tigers brought the ball back to their 23.

Tiger Fumble
Franco took the ball up the field for 8 yards, a play by Corley lost a yard, and the ball was fumbled and lost on the Tiger 14.

Canyon's Pruett carried for nine yards in two plays, then Miller took it over the goal line from the five-yard marker. The score stood 6-6 after the extra point kick failed, with the clock stopped with 9:26 remaining in the first half.

Later in the same period the Tigers took possession on the Canyon 38 following a quick-kick from Boydston from his own 6.

Gordon Kicks
Corley passed to Adamek for 88 yards and six points. The pass was caught on the 22, and the Tiger half-back ran the remaining distance. Gordon kicked the extra point, leaving the score at Slaton 13, Canyon 6, with just over six minutes remaining in the first half.

The Eagles took the ball on their own 47 following the half-

time kickoff by Fulcher, and marched down the field to the Tiger 4 in nine plays, marking up three first downs in the process.

Canyon's Pruett, in a keeper play over the right side crossed into pay dirt. The Eagle's running effort for the extra point failed to produce the desired results, and left the score with Slaton in the lead 13-12.

Canyon in Possession
The third quarter saw the Eagles in possession on the Tiger 19 when the whistle blew, signalling the end of that period. Canyon's Boydston carried for three, and an offside penalty against Slaton took the ball to the Tiger 5, and gave Canyon a first down.

Boydston and Huyck pooled their efforts and carried the ball the remaining five yards, with Huyck going over from the one. Boydston carried for the extra point, so the Eagles took the lead 19-13 just one minute, two second deep into the final period.

Late in the final quarter Canyon's Pruett kicked some 51 yards to the Slaton 10. Sikes attempted the runback, fumbled, and lost possession of the ball there.

The Eagles capitalized on that, attempted one pass, tried a run, both of which were unsuccessful. Then Pruett completed a throw to Miller good for the remaining 10 yards, and a TD.

Pruett's keeper was good for the extra point, leaving the score at Canyon 26, Slaton 13, with only 38 seconds remaining in the game.

Preview of Pigskin Prospects Presented Before Rotarians

O. Z. Ball was program chairman for the Slaton Rotary Club last Thursday when Coach Leonard Ehrler gave a preview of what could be expected from the high school football team this year.

"We have had a lot of people out to watch us practice this year, which we appreciate," Ehrler said.

He said that the attitude of the boys was better this year than it was last year.

Much progress has been made by the team during their two weeks of practice. The team is faster this year than last year, he continued. Prospects of each individual player were discussed.

The squad this year consists of 63 boys, eight less than last year's team.

Ad Libs

By MARY BAGGETT
There is an old saying to the effect that a woman can shovel money out the back door as fast as she can bring it in the front. In Henzler's Gro. ad this week that is really pointing out the quality coconut. For instance, bulk coconut can be bought regularly for 49c a pound. It is on special this week for 39c a pound. That is good, but not my point. My point is how many housewives stop to figure that when they buy packaged coconut, either in can or package, they are getting 80c a pound for the quality coconut? I conclude, to supreme ignorance. I don't even know it was available in the bulk. How many in a week are we guilty of extravagances, that, if used, could be used for a new one sister?

OPEN NOTE TO CHARLOTTE MUSE

We were talking one day, if you remember, about the new suit you planned to buy. I searched the stores and found one that came close to the description you gave. It isn't brown, it's a beautiful green that I believe would just right with your blonde hair. If you want to check it out, Wheeler's. It is a Brant outfit, size ten, fitted, and has the tab or belt effect you wanted in the back. P.S. It's size ten, too.

When, when we delivered Football posters, we overheard S. and J. Cleaners. I'm sure that happened, and if you are more of you that were shocked, please call VA 8-1234.

Three weeks ago I called a lady seeking news for the paper, and we discussed an article in Life Magazine about Gary Mantle. It seems that she grew up near his wife and her well. I thought it would make a good feature, and told her so. I made an appointment to talk further about it. Then I lost her about it. Had I jotted it down, and now I don't know where it is or how to get in touch with her. If she reads this, I would like very much for her to call me and give me an opportunity to apologize.

My husband and I enjoyed our football game very much and attended with Mr. and Mrs. Bill Layne. Their son-in-law, assistant coach for the Slaton team, but he was wearing another team that night he didn't get to see him.

We gratified this week to read from Webb's. As the boys go, they were conspicuous by their absence. Here's a bunch of you will go and look at the Name Brand brandies he carries, like Don, Doty Dan, Gossard, and others. And have you noticed for the drawing of the 1957 schedule for the 14th, since the 15th is still open, but none the less, a Bobby Brooks skirt and sweater set are being given to lucky number.

Football Schedule Given

1957 football schedule for Slaton Eagles was released this week. Two games will be played on Thursday. The first is at Southland at Union at 8 p.m. on September 26, and the second at Southland on Friday, October 2 at 8 p.m.

Following is the season's schedule:

Sept. 20, Wellman at Southland, 8 p.m.; Sept. 26, Southland at Union, 8 p.m.; Oct. 3, Southland at Southland, 8 p.m.; Oct. 11, Nazareth at Southland, 8 p.m.; Oct. 18, Southland at Union, 7:30 p.m.; Oct. 25, Southland at Cotton Center, 7:30 p.m.; Oct. 31, Pettit at Southland, 7:30 p.m.; Nov. 8, Bula at Southland, 7:30 p.m.; Nov. 15, Southland at Spade, 7:30 p.m.

RE C VA 8-1234

THE LEOPOLD DECISION

Governor Stratton of Illinois has given a flat turn-down to Nathan Leopold, denying executive clemency to the prisoner. This decision is not likely to be popular among those interested in rehabilitation of prisoners. Leopold appears to have given ample evidence that he has rehabilitated himself, and he has served 33 years in prison for his crime of helping to kill Bobby Franks.

In denying to Leopold, Governor Stratton stated that the latter could "try again . . . anytime." This leaves but a slim hope. The prospects are that Leopold, now suffering from a heart ailment and diabetes, will die in prison.

Nathan Leopold's crime was a fearful one that cannot under any circumstances be condoned. But he has paid a terrible price for that crime and has, moreover, done measurable service for humanity during his years in prison. There is strong evidence that his repentance has been deep and sincere. We believe that Governor Stratton's decision cost society a chance to witness the genuine rehabilitation of a murderer. The wisdom of that decision will, to say the least, remain in doubt.

EDUCATIONAL CHANCE

The appointment of Maxwell H. Gluck to be United States ambassador to Ceylon is apparently an educational opportunity for Gluck, who owns fine race horses and a chain of dress shops. He revealed before a Senate committee that his lack of knowledge of Ceylon and of Southeast Asia extends far beyond the fact that he cannot pronounce the names of Asian statesmen. He did not know that Ceylon was on the United Nations subcommittee which issued a recent report condemning the role played by the Soviet Union in Hungary.

The President says that Gluck is capable of learning. But should we send ambassadors abroad on educational ventures and self-development pilgrimages in a world as complex as the present one? Was there not a man better informed about Southeast Asia who could have been sent to Ceylon? We need the most qualified men we can get in Asia in this crucial period.

FIVE-WAY SCRAMBLE

The National League race is the most scrambled in the history of that league. Never before in the modern history of the league have five teams been contenders at the beginning of August. But this year the Milwaukee Braves, the St. Louis Cardinals, the Brooklyn Dodgers, the Philadelphia Phillies and the Cincinnati Reds were all very much in the fight for the pennant.

The National League is now more balanced and interesting of the two major leagues. Except for the New York Yankees, it can be said that the National League is a superior league. It has a number of new and young pitchers of promise.

There is a definite possibility that the National League will remain the most interesting of the two big league circuits unless some of the clubs in the American League can seriously attack the business of building up to the New York Yankees. But the Yankees, withal, now as in the days of Babe Ruth, remain the class of baseball.

BY THE NUMBERS

Suppose someone says, "426. 717. 195. 81." These are not football signals, but communications in a new international language devised by Prof. Erick Funke of the University of Iowa. His system, which he calls Translingua, lists in it dictionaries common words, with number attached.

"Today," for example, might be 317 in an English-Translingua dictionary. The same number would be given in a German-Translingua dictionary for the German equivalent of today." This would apply also to any other language with a dictionary turning the words into Translingua.

The new language may be another example of a trend toward the substitution of numbers for names. While many streets are named for example, others have numbers; locomotives used to be named, and now are numbered. The logical outcome might be the end of personal names.

If Translingua leads to better communication among peoples, more power to it. All the same, we can't imagine any very moving thoughts being expressed in numbers.

The Post Office Department's new red, white and blue trucks are involved in fewer accidents than the old olive drab ones. Whether it is because motorists are patriotic or merely see the bright colors more easily is a matter of conjecture.

Although peace does not prevail throughout the world, even a piece of peace here and there is appreciated.

NEEDED: A LIFTING FROM THE SLOUGH

STRENGTH FOR THE WEEK

by TED GAZE
"Verily, verily I say unto you, Whosoever shall ask the Father in My name, He will give it to you." John 16:32

Have you ever had the experience where some one handed you a check filled out except for the amount and told you that you could complete it by filling in the amount yourself? I agree, something like that would

not happen very often or maybe once in a life-time. Yet, if this scripture is true, it is something that God does every day for those who are his children. Here, in the "asking" of prayer, is a blank check signed by God that is good at any time and in any experience. If we believe that God answers prayer then Jesus said that all we must do to make the check complete is to add or fill in our "whatsoevers."

This is the love of God made manifest in his thoughtful provision for his children in their needs. His heavenly foresight has left us a number of "blank checks" which we may use when we sense a need. This is the

power in prayer available to every servant of the Lord.

May I call to your attention that with such a great gift there is great responsibility. One must learn to ask for the right things and not to pray "amiss." Selflessness is the first requirement to the realization of this check being made good from the heavenly resources of our God. Once we have learned to cash these checks properly, God always sends other blank checks that will bountifully supply our needs.

Irrigation Water Conservation Suit Filed on County Farmer

The first suit to be filed under present ground-water laws of the State of Texas was entered recently by the High Plains Under-ground Water Conservation District against Eldon L. Jones, a Lubbock County farmer.

The suit involved the waste of irrigation water.

Hearing on Saturday, August 31 in Judge Robert Bean's 140th District Court resulted in issuance of a temporary court order enjoining the defendant from allowing irrigation water to escape from his land until the case could be tried.

A permanent injunction is sought to prevent further waste of water from the land he operates.

The case, in addition to being the first suit filed under the present laws, is the first agricultural waste case in the history of the High Plains Water District.

Area riding groups, high school bands, floats, and other units will highlight the opening parade for the Post Golden Jubilee at 3 p.m. Saturday, September 14.

The Jubilee, scheduled for September 14, 15, 16 and 17, will include a visit by Mrs. Merriweather Post, daughter of the town's founder; presentation of "Caprock Cavalcade," address by Dr. W. R. White, president of Baylor University, and Dr. D. M. Wiggins, Lubbock banker, and a mammoth parade.

A street dance and presentation of the Jubilee Queen and her court will be held Friday night as a prelude to the four-day celebration.

The first performance of "Caprock Cavalcade," with a cast of 350, will be presented at 8 p.m. Saturday at the Post Stampede Arena. The spectacle will depict the highlights of Post and Garza County history. Also on the program Saturday night is the coronation of the queen.

Sunday worship Sunday will be "Faith of Our Fathers Day," with Dr. White speaker at a public worship service at the rodeo arena at 8 p.m. Earlier in the day, a Post delegation will go to Lubbock to greet Mrs. Merriweather Post, daughter of C. W. Post, the town's founder.

Monday will be "Pioneer Day" and will include a checker and domino tournament, barbecue, Indian dances, pioneer awards ceremony, fiddlers' contest, etc. The second presentation of "Caprock Cavalcade" will be at 8 p.m., followed by the second in a series of three fireworks displays, also at the rodeo arena.

Square dances will be held Saturday, Monday and Tuesday nights on the rodeo dance slab. Tuesday, which is "Belles and Brush Day," will feature judging of beards and Jubilee Belles costumes in the afternoon on the courthouse lawn. Another

The city commission Monday voted to buy three new traffic lights for Slaton.

Mayor Lee Wootton says probable location of the new lights will be on West Division at Thirteenth, at Jean and Tenth (in front of Slaton High School), and at Ninth and Seurry.

The lights will cost approximately \$200 each, not including installation cost, Wootton said. The city ordered the lights by wire from Chicago. By mid-week, no information had been received here concerning a shipment date.

J. S. Edwards Jr. of Slaton and other recently selected representatives of the West Texas Chamber of Commerce highway policy committee for District No. 2 are scheduled to hold their first meeting this Friday

at Abilene.

Great to have—and only Chevy's got 'em!

Chevrolet's the only leading low-priced car with any of these advances—the only car at any price with all of them!

BODY BY FISHER. You get more to be proud of in Chevrolet. No other low-priced car is quite so beautifully or substantially built down to the last detail.

SHORTEST STROKE VS. This helps explain Chevrolet's smooth and lively V8 ways. Short-stroke design also means less piston travel, longer engine life. Here's

super-efficient power with plenty of vim and vigor!

STANDARD BALL-RACE STEERING. Chevy's Ball-Race steering gear mechanism is virtually friction-free! That means easier parking, surer control, more relaxed driving.

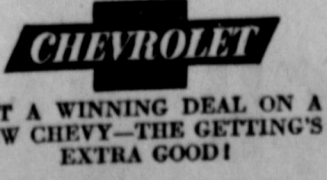

POSITRACTION REAR AXLE.* When one rear wheel slips in mud, snow or ice, the wheel with the traction grips for sure going!

TRIPLE-TURBINE TURBO-GLIDE.* The silkiest automatic drive anywhere! You move from

standstill to top cruising speed in one gentle stream of motion. Special "Grade Retarder" position saves braking on hills.

Preventive Dentistry for Young Gives Great Hope for Dental Woes

"Pedodontics" is a big word with a simple meaning—the care and treatment of children's teeth. A major part of pedodontics is preventive dentistry, and preventive dentistry for the young is the one great hope for a realistic solution to our dental woes.

If a child's teeth are properly cared for up to age 15, a strong foundation has been laid for minimizing dental troubles in later years.

At about 6 months of age the four front teeth—two upper and two lower teeth—begin to peek out. These front teeth are incisors, the cutting teeth. By age 7 to 11 months, four more teeth, upper and lower, start to come in. These are the lateral incisors at either side of the central teeth.

Then Mother Nature wisely skips a few spaces in order to properly shape the jaw. In 12 to 16 months, the back teeth or molars, come in. Then the cuspids show to fill in the space between. At about 24 months, the second molars come in.

Up to this point teeth which have erupted are primary teeth, and although temporary they

are vital. They help shape the face, help the youngster learn to speak distinctly, and help him nutritionally.

While all this has been going on, the permanent teeth are slowly developing in the jaw bone so they can come forth at the proper time.

The first permanent teeth to erupt are molars—sometimes called "six-year" molars simply because they emerge at about age 6. Because they do not replace the first teeth but come in just behind them, these molars tend to confuse parents who think they are also temporary teeth.

This error can lead to unfortunate consequences. Since the "six-year" molars are permanent teeth, they will not be replaced if lost.

Family dentists strongly emphasize the importance of watching for the six-year molars. They are important to the structure of the mouth. The manner in which they interlock with their opposite teeth will determine the eventual shape of the jaw, facial contour and regularity of alignment of other teeth.

QUARTERBACK SNEAK—It was good for 12 yards on the first down for Slaton when Doug Corley, No. 10, led a quarterback sneak against the Canyon Eagles Friday. Two plays later Rodney Fulcher crossed

into pay dirt. The Tigers came out loser 26-13 in the game which was played in drizzling rain. The Seagraves Eagles, who were upset by Morton 14-13 last week, are this week's opponents of the local eleven.

reservoirs (a measure which failed last session).

Planning division probably would cost from \$500,000 to \$1,000,000 says Daniel. This can be obtained, he says, from special funds appropriated, but not used, for other purposes.

If Texas doesn't face the responsibility for its water planning itself, declared the governor, the federal government will take over with a "take it or leave it" plan.

GREENHILL APPROVED—Joe R. Greenhill of Austin will become an associate justice of the State Supreme Court on Sept. 30.

Greenhill was appointed by the governor to replace Judge Few Brewster, who is resigning because of ill health. A former Houstonian, Greenhill, 43, will be the youngest judge on the high court.

He is a former assistant attorney general to Daniel and was the governor's campaign manager in '56. Daniel termed him "one of Texas' ablest lawyers."

COTTON CROP SLOW—Ginning of Texas' cotton crop is lagging behind 1956, but a larger yield than last year is still expected.

By mid-August only 365,504 bales had been ginned, reports the U. S. Dept. of Agriculture. Last year at this time almost twice as much had been ginned.

But crops in many areas are late due to prolonged rains. USDA still predicts the '57 crop in Texas will be 3,775,000 bales compared to 3,615,000 last year. **MORE ERRORS FOUND**—All the excitement over moving the State Insurance Department out of the International Life Insurance Co. building in Austin was for naught.

Atty. Gen. Will Wilson has ruled invalid that part of the reorganization bill which ordered a new building.

Wilson says the bill was improperly drawn. **MOST ARE SOUND**—Most Texas insurance companies are strong. So said Judge Penn Jackson in his first public speech since becoming chairman of the Board of Insurance Commissioners.

But, he added, "a smaller number are losing ground and may or may not be able to survive."

NEW COURTS—A new district court in Austin and one in Dallas now are open for business. Judge Mace-B. Thurman, formerly of Travis County's County Court-at Law, was named to the new bench in Austin.

SHORT SNORTS

Texas ranked seventh in the nation last year on per capita income, reports the Bureau of the Census. Texas per capita income, \$1,686. National average, \$1,940.

Dr. N. Jay Rogers of Beaumont and Dr. Ira E. Woods of Grapevine have been re-appointed by the Governor for six-year terms on the State Board of Optometry.

Another motor vehicle inspection period has arrived. You have until next April 15 to get your new sticker, however. But early inspections are urged by the Department of Public Safety.

Texas draft calls continue to shrink. October quota is 338. It compares with 387 for September and 547 for August. Inductees will be taken from age 22 and over, except for delinquents and volunteers.

Texas has 308 new nurses. They passed the recent statewide examination for vocational nurse licenses. Two schools have been newly accredited to teach vocational nursing — Marcom Hospital of Vocational Nursing at Ladonia and Permian General Hospital School of Vocational Nursing at Andrews.

Jobs as examiners with the State Board of Insurance now are open. They are additional posts created by the last legis-

Sale of Slaton Implement Co. Told This Week

Sale of Slaton Implement Company to Clarence Basinger and Sam Ellis of Southland was announced by J. T. Kendrick, former owner.

Kendrick said that he had retained the Kendrick Pontiac agency, and when he obtained a location, would move that to a separate building.

Requirements include a college degree with both courses and experience in insurance accounting.

First Baptist Revival Will Close Sunday

Evangelistic services at First Baptist Church will close Sunday, after being held twice daily this past week.

Dr. P. D. O'Brien, pastor of First Baptist Church, Big Spring, is the preacher. Walter Johnson, music and youth director at College Avenue Baptist Church, Ft. Worth, is song leader.

Services are held at 10 a.m. and 8 p.m., according to the pastor, the Rev. Ted Gaze.

Tip to motorists: Watch out for school kids—they weren't brought up to be run down.

TAX-MAN SAM SEZ:

If you are getting a divorce you probably won't be concerned about how much income tax it may cost or save you. Texas is a community property state and all the income of the husband and wife is ordinarily community income up to the date of divorce. All the deductions, expenses, and salaries of both husband and wife have to be divided up for income tax purposes. Let's hope that you don't have to get into splitting your income and expenses as a part of divorce proceedings. But it might be better to get the blanket completely split, including your income tax, while the splitting is going on.

HIGHLIGHTS AND SIDELIGHTS FROM YOUR STATE CAPITOL

AUSTIN, Tex.—Students are trooping back to school for another year of readin', writin' and 'rithmetic.

But the knottiest school problems are not in the math books.

For parents the problem is the high-cost of practically everything. Tuition at state colleges has doubled. Even the parents of first graders are winching as they add up the "outfitting" bills. Cost of blue jeans, plus crayons, plus lunch money, takes an ever growing bite out of most family budgets. Many mothers will go back to work this fall to help balance the income-out-go equation.

On a bigger scale Texas school agencies and administrators have the problem of the "old

woman who lived in the shoe." They have so many children they don't know what to do. Their problem of trying to balance school facilities against school needs is complicated by the fact that one side of the equation — needs — keeps on growing.

Some 1,885,640 children are expected to enroll this month. That is 70,000 more than last fall. To keep the education mills grinding, Texans will spend an estimated \$526,000,000 this year. It's twice as much as we spent eight years ago. Local districts are pouring some \$40,000,000 into new buildings this year.

SHOWDOWN ON WATER—It's now or never for Texans to solve their water problems in an orderly manner.

This, in effect, is the attitude of Gov. Price Daniel as he sets the wheels in motion for a "big push" this fall.

First attack will be by a 100-person statewide water planning committee beginning Sept. 9 to develop a plan to be presented to the governor. It is to meet in Austin planning and leadership for a master plan for water conservation and flood control over the state. Committee members include civic leaders and persons interested in and acquainted with water problems from all parts of the state.

They'll also be asked to help plan future water legislation and develop support for the proposed constitutional amendment that would provide a \$100,000,000 bond issue for water projects.

Second phase of the governor's plan is the special legislative session to pass needed additional laws. Target date for the session still is October, the governor has indicated.

Two pieces of water legislation are proposed by Governor Daniel: (1) Creation of a state water planning division to draw up a master plan and (2) a law enabling the state to purchase water storage space in federal

HIGHLIGHTS AND SIDELIGHTS FROM YOUR STATE CAPITOL

AUSTIN, Tex.—New faces, new jobs enter the Capitol scene as laws passed in the last Legislative session go into effect.

A consolidated Texas Securities Board swung into action with a statement by newly-appointed Chairman Maurice Bullock of Fort Stockton that "all doubts (about securities issues) will be resolved in favor of the buying public."

Also appointed to the board by Gov. Price Daniel were Jay A. Phillips of Houston and Pete Rodas of Emory. An attorney, Bullock is former president of

the State Bar of Texas. Phillips is a certified public accountant, former president of the Texas Society of CPAs and present chairman of the State Board of Public Accountancy. Rodas is president of the First National Bank in Emory.

Board members selected William King to be acting securities commissioner, a full-time, \$10,000-a-year job. He is former attorney general and had charge of securities in the secretary of state's office.

Approving or disapproving proposed issues of both general and insurance securities will constitute the prime duties of the new agency. Formerly, these functions were divided between the Insurance Department and Secretary of State's office. It also will supervise the licensing of securities dealers and salesmen.

Governor Daniel called the new law an "outstanding measure for protecting the public against fraud and swindling." **YOUTH COUNCIL**—Frank M. Wilson of Waco will be chairman of the new Texas Youth Council. Other members named by Daniel are Louis Henna of Round Rock and Robert Kneebone of Houston.

New agency replaces the old Youth Development Council. It will have charge of the three state correctional schools for young people and the Corsicana State Home, the Waco State Home, and the Blind, Deaf and Orphan School at Waco.

Wilson is a Waco attorney and instructor at Baylor University School of Law. Henna, a member of the old Youth Council, was one of the founders of the Baptist Children's Home in Round Rock. A banker, Kneebone has been active in youth work in Houston.

SCHOOL STUDY PANEL—Six legislators and two private citizens are early appointees to a new committee to study the growth problems of Texas public schools.

Named by Lt. Gov. Ben Ramsey were Sens. George Parkhouse of Dallas, A. M. Aikin Jr. of Paris and Floyd Bradshaw of Weatherford plus former Atty. Gen John Ben Shepperd of Odessa and Laredo school superintendent J. W. Nixon.

House Speaker Waggoner Carr named Reps. Scott McDonald of Fort Worth, L. DeWitt Hale of Corpus Christi and Malcolm McGregor of El Paso.

Full committee will number 24. Ramsey and Carr were directed by the law to pick three legislators and three laymen. Governor Daniel and the State Board of Education are to pick six more each.

One proposal made during the session was to have the state build school buildings and lease them to districts. Numerous Texas officials have opposed federal aid for school building.

HOUSE COMMITTEES—A long list of groups has been set up by Speaker Carr to study basic state problems and report to the 56th Legislature. They include: Legislative Budget Board—Rep. Max Smith of San Marcos, Frates S. Seeligson of San Antonio, William S. Healy of Paducah, J. T. Ellis Jr. of Westaco.

Legislative Budget Board—Robert Hughes of Dallas, Wesley Roberts of Lamesa, A. R. Schwartz of Galveston, Tony Korioth of Sherman, James M. Cotten of Weatherford, R. H. Cory of Victoria, Menton J. Murray of Harlingen, Alonzo W. Jamison Jr. of Denton, Don Kennard of Fort Worth and Harold B. Parish of Taft.

State Tax Study Commission—

Reps. Seeligson, Richard C. Slack of Pecos and John A. Huebner Sr. of Bay City.

Full list includes 12 committees—even a committee to study the committees.

HARVEST TIME—Typical hot, dry August weather has been good for harvesting, but hard on pasturage and late crops.

Dry weather and insects stunted the cotton in central, southeast and coastal counties, U.S. Dept. of Agriculture reported, but better yields are expected in the northern half of the state.

However, USDA noted northern crops are two to three weeks late and could be damaged by an early freeze.

EGG DEALERS GET LICENSES—State Agriculture Department is in the process of licensing some 36,000 egg producers, handlers and sellers.

New egg grading law will be in effect Oct. 22. Enforcement will begin Feb. 17, 1958.

Exempt from the license requirement are retailers who sell less than a case of eggs a week to persons other than consumers and producers who do not claim a certain grade for their eggs.

TEXAS LEADS IN ROADS—Texas is out in front in the interstate highway building program with 293 miles of roads "in the mill."

These are projects which are either under construction, contracted or advertised for bids. Cost will be \$86,000,000 with \$76,000,000 coming from federal funds.

California is ahead of Texas in cost of projects, but second in mileage. It has 95.5 miles underway at a cost of \$96,000,000.

SHORT SNORTS—Texas prison population increased 7.5 per cent last year for a total of 9,268 persons behind bars. National average increase was 2.2 per cent. National average is 102 prisoners per 100,000 population; Texas ratio is 106 per 100,000. Texas Railroad Commission retained the lowest-in-history 13-day production pattern for the Texas oil industry.

Teacher Training Class Begins Fall Program of First Christian Church

October has been designated "Loyalty Month" by members of First Christian Church, as their fall program gets underway. The Rev. Claude Wingo,

said that the program was intended to bring all members into active participation in the total program of the church, both local and world-wide.

Leading off in the fall program will be a teacher training class offered to all church members and friends of the church.

Meeting at 7:15 p.m. the class is intended especially for parents of growing children, workers with children or youth, teachers and officers. Rev. Wingo said.

The class will begin September 23 and continue through Friday September 27.

Included in the agenda for the class are topics such as "Learning to Teach," "Helping Pupils to Learn," "Methods of Teaching," "The Bible in Christian Teaching," "How to Use Lesson Helps."

Eagle territory. Fulcher's dive over the goal line drew "first blood" of the season. Attempt to convert was not successful.

Mr. and Mrs. Wilfred Kitten spent the week end in Longview, Texas, where they attended the Texas State Council of the Knights of Columbus.

Seating Requirements for Mexican Labor Announced by Labor Dept.

The U.S. Department of Labor has announced minimum seating standards for all buses used to transport Mexican Nationals, effective immediately.

Dempsey L. King, field representative for the Labor Department's Bureau of Employment Security in Lubbock, said the standards, announced in Washington, had just been relayed to him by Regional Director Ed McDonald in Dallas.

At least 16 inches of seating space must be provided for each passenger, and all seats are to be securely fastened to the vehicle, he said.

Aisle seats are provided on buses with a seating capacity of more than 10 persons, unless such seats are designed and installed so as to fold and leave a clear aisle when they are not occupied, he added. If aisle seats are used on buses with a capacity of 10 or less, they must be secured to the vehicle.

In lieu of this regulation, seating space requirements prescribed by the state in which the bus operates, or size requirements by the Interstate Commerce Commission may be followed, but in no case is the individual seating space to be less than 16 inches.

King said he was particularly concerned with seeing that the new requirements were known and understood by all employers of Mexican Nationals in this area who do not use commercial carriers to transport their workers.

Mr. and Mrs. T. G. Morgan of Henderson, Tenn., and Tommy Morgan, who will be a law student at the University of Tenn. in Knoxville, spent from Thursday until Monday in the home of Mr. and Mrs. Francis Perry and Richard. Mr. Morgan and Mrs. Perry are cousins.

Mrs. Arthur Thomas of Dallas spent from Saturday until Tuesday in the home of her daughter, Mrs. J. B. Sharp, Rev. Sharp, Jimmie, Bob and Ann.

Mrs. Leon Kenney and Mary Alice visited last week end in Abilene with Mrs. Kenney's parents, Mr. and Mrs. E. L. Black.

Although the exact process of the formation of a hurricane is not known, conditions generally favorable for the start of a storm are light variable winds, high humidity, low atmospheric pressure, and strong solar heat, according to data compiled by the Navy's Hurricane Hunters.

The P2V "Neptune," one of the planes used by the Navy's Hurricane Hunters in hurricane reconnaissance, is flown into a hurricane 300 to 500 feet above the water to record the strength and direction of the winds and also to obtain other valuable aerological information concerned with surface conditions which can be obtained in no other manner.

Specially equipped Lockheed "Super Constellations" are used by the Navy's Hurricane Hunters in high level reconnaissance of hurricanes. The "Connies" are capable of flights up to 18 hours and can either track the path of the storms from a distance of several hundred miles, or penetrate to the center and take soundings of meteorological conditions in the eye.
