Rotarians Show Proof of America's Greatness by Utility Representative

"Americanism" was the topic of a presentation before Slaton Rotarians by Harold Pernod, utility representative of the American Telephone and Telegraph Company, Thursday. Pernod, who is in charge of the day's program, presented a series of slides illustrating the "Lucky American" to illustrate the advantages of the American system of freedom.

"This system made America great," Brown said.

Pointed out by illustrations of present-day progress were medical advances, longer life span, better education and increased security.

Ninety-four per cent of the work done in America is done by machines, it was pointed out. More and better tools enable Americans to make their living in less time, Brown said.

Slaton Rotarians sat at the front of the clubhouse to represent the United States and the remainder of the world, in recognition of the fact that the U.S. occupies 1-16 of the earth's land area.

Graphic illustration of the nation's prosperity in comparison

with the rest of the world was made when he gave the "U.S." representative half of the telephones in the world; half of the radios; three-fourths of the television sets; half the coffee; two-thirds of the silk; three-fourths of the bath tubs; half the electricity; three-fourths of the automobiles; two-thirds of the oil; and 80 per cent of the rubber.

He closed by reminding Rotarians that Russia is trying today to sell us their system of government — where a month's work will buy one-half a suit of clothing, where a week's work will buy one shoe.

He compared that to the average American wage where a month's work will buy four suits of clothing, and a week's work will buy three pairs of shoes.

"We must do something about the changes happening in this country toward the socialist system," Brown concluded.

R. E. Evans was presented by J. J. Maxey as a new Rotarian. His classification is Natural Gas Distributor. He was presented with the Rotary Manual and pin.

An attendance contest was announced by Wayne Liles, which will continue for six months.

Chlorinators Ordered for Water System; Installation To Begin in About Two Weeks

Contracts in the amount of \$7,500 were let last week to the Wallace-Tiernan Company, Lubbock, for the installation of chlorinators for the water supply system for Slaton. The bid submitted by Wallace-Tiernan was lowest received by City Commissioners. Second-low bid was \$8,011, with the high bid \$9,005.

Work on installation will begin immediately upon arrival of equipment.

Red Sox Lead Pony League; First of Season's Home Runs Batted This Week

After last week's play the Red Sox remained in first place by one and one-half games over the second place Braves in Pony League play.

Fans saw the first home runs of the season batted out of the park. On July 9 the Red Sox defeated the Braves 10-7 with Johnny Taylor hitting the season's first homer for the Red Sox.

The second round trip hit was by Jerry Harlan for the Cubs on July 11 when the Cubs downed the Red Sox 11-9. In this game Taylor

Lubbock, Post, Slaton Will Compete in Swimming Meet Here Saturday

Lubbock Post and Slaton will compete in a swimming meet which will begin at 9 a.m. Saturday at the Slaton Municipal Swimming Pool.

Included in the competition will be four members of the Texas Tech swimming team, Bob Shackelford, Harry Van Horn, Bill Pittman, and Jim Tom Davis. They will compete in the men's division.

Division competition will be in age groups 10 and below, 11 and 12 year olds, 13 and 14 year olds, 15 and 16 year olds, in girls, men's and women's divisions.

ment, according to Forrest Davis, water superintendent. Davis said he expected the equipment to be here in about two weeks.

On Monday of this week, 1,796,000 gallons of water were consumed by local residents. Davis said that this figure was about average for the daily consumption over the past week.

All pump stations and wells were not running full-time Davis said. He reaffirmed his statement made last week that water rationing would not be necessary in Slaton this summer.

Pony League Names All-Star Team for Area Tournament at Post

Fifteen players from Pony League teams were named to the All-Star Tournament team for 1957 this week by managers and coaches of the Pony League.

The team will take part in the area tournament beginning July 25 at Post. Winner of the tournament will play in the district tournament at Monahan August 2-4. Regional tournament will begin August 12 at Lubbock.

Members of the team are Johnny Taylor, Jerry Kitten, Roy Allred and Mike Bain from the Red Sox; Jerry Harlan, James Wright and

Roger Cummings from the Cubs. Johnnie Clack, Arthur Sumrall, Charles Curtis and Robby Merrell of the Tigers, and Joe Loke, Gary Ward, Gene Talbert, and Robert Keys of the Braves.

Team members selected C. E. McCoy to be their manager, and Roy L. Wells to be coach. The team will wear the Braves uniform for tournament play.

Teams in this area, which will compete at Post include Floydada, Slaton, Crosbyton, Littlefield, Post-Tahoka, and Lubbock Southwestern.

Charges were filed in Justice Court Friday against Samuel Loyd Stephen and Pearl Lee James in connection with the July 4, 1956, burglary of Schuette Service Station here.

Police Chief Bill Daniels said that \$2,000 bond had been set, awaiting the next grand jury session.

Both negroes are residents of Snyder. They took some 31 tires from the station when they broke in.

In statements signed by the two, they also implicated Earl "Jack of Diamonds" Thomas, who has been killed in an accident since the time of the burglary.

Slaton Boy Enters Scottish Rite Hospital Friday

Thomas Moore, 3-year-old son of Mr. and Mrs. Ivay H. Moore of Slaton, was admitted on Friday, July 12, to the Scottish Rite Hospital for Crippled Children in Dallas.

Texas Scottish Rite Masons founded the hospital 33 years ago in an effort to provide a chance at a normal life for the handicapped child.

The hospital, which has accepted more than 100,000 children for treatment since 1925, is supported by public contributions and bequests.

An expert staff, plus unique physical facilities and dedication to the welfare of the child, make the Scottish Rite Hospital and outstanding treatment center which serves the entire state.

Jail Houses 16 Over Week End

Charges of drunkenness were lodged against 15 persons when they were jailed this past week end, and a charge of drunk and fighting against another man when he was jailed.

Four tickets were issued, for failure to grant right of way, speeding 40 in a 30 mile zone, and driving without an operator's license.

A car belonging to J. C. Robertson of 405 S. 7th street was recovered this week at Posey after it had been reported stolen.

Two calls were received Sunday evening reporting cars speeding up and down on West Division street.

Cars were reported driving recklessly in a game of "ditch 'em" in the area of 3rd and 4th and Garza streets on Friday.

One call was received this week concerning stray dogs.

'Singspiration' Will Highlight Baptist Program

Singspiration, followed by games and refreshments will highlight the program when the Baptist Youth Program meets at 8 p.m. Friday at First Baptist Church.

About 42 youth attended the meeting held last week at South-land.

Members of the program committee include Jerry Arrington, Jerry Gentry, Jack Dokken, Sue Liles, and Patsy Petigrew. Attendance is open for boys and girls 13 through 24, according to the reporter, Jerry Hitts.

Meetings are held to give the young people clean fun and fellowship. Next week's meeting will be held at Westview Baptist Church, Slaton.

Youth of all church relationships will be welcome, Hitts said.

Chamber Directors To Aid with Little League Tourney

Chamber of Commerce directors Monday night voted to pay \$50 toward the expenses of the Little League tournament to be held in Slaton July 29, 30, and 31.

Other items of business taken up at their regular meeting held Monday night were a discussion of the Slaton booth at the South Plains Fair, and a discussion which resulted in tabling of work of a committee concerning recommendations on the extension of the city limits.

Present at the meeting, in addition to Chamber President Traett Babb were Don Crow, Ray Belt, R. S. Boyd, Ted Swanner, Earl Reasoner, Don Britt, Don Hatchett, John Schmidt, and Mrs. Julia Bibe.

American Legion Officials To Take Office August 12

Officers for the coming year will be sworn in at the regular meeting of Luther Powers Post No. 438, American Legion, on Monday, August 12.

Claude Wingo will succeed Surman Clark as Commander of the post. First vice commander will be Lee Bevis. Second vice commander will be Bruce D. Bridges.

Hobart Trimpia will be adjutant, with Wayne Liles serving as finance officer. Claude S. Cravens will be historian and Sam N. Gentry will serve as chaplain.

Service officer will be Alfred Grause of Wilson, and mess officer will be Henry B. Jarman.

Carter Shaw will be child welfare chairman, with Ernest Robertson serving as sergeant at arms.

Park Cleanup Project Underway by Slaton Jaycees

Work is underway by Slaton Jaycees on improving of the park area immediately behind the tennis courts.

The land has been plowed, and will be sowed with grass seed sometime next week according to a Jaycee spokesman.

Water tap installation will be completed this week by City Water Department workmen which will furnish water for the park area.

Included in the project will be completion of a parking area for the tennis courts, and a cleaning up of the tennis courts.

Former Resident Dies in Austin

Word was received in Slaton this week of the death of a former resident, Mrs. Opal Highower, in Austin.

Mrs. Hightower was the widow of Dr. J. H. Hightower, a former Slaton dentist.

Mrs. Hightower passed away early Tuesday morning. Burial was to be held Wednesday in Pittsburg, Texas.

Mr. and Mrs. J. H. Lambricht have as their guests this week their nieces, Miss Billee Maurene Irwin and Karen White Irwin, from Oklahoma City.

Charges Filed This Week in Connection with 1956 Burglary

Charges were filed in Justice Court Friday against Samuel Loyd Stephen and Pearl Lee James in connection with the July 4, 1956, burglary of Schuette Service Station here.

Police Chief Bill Daniels said that \$2,000 bond had been set, awaiting the next grand jury session.

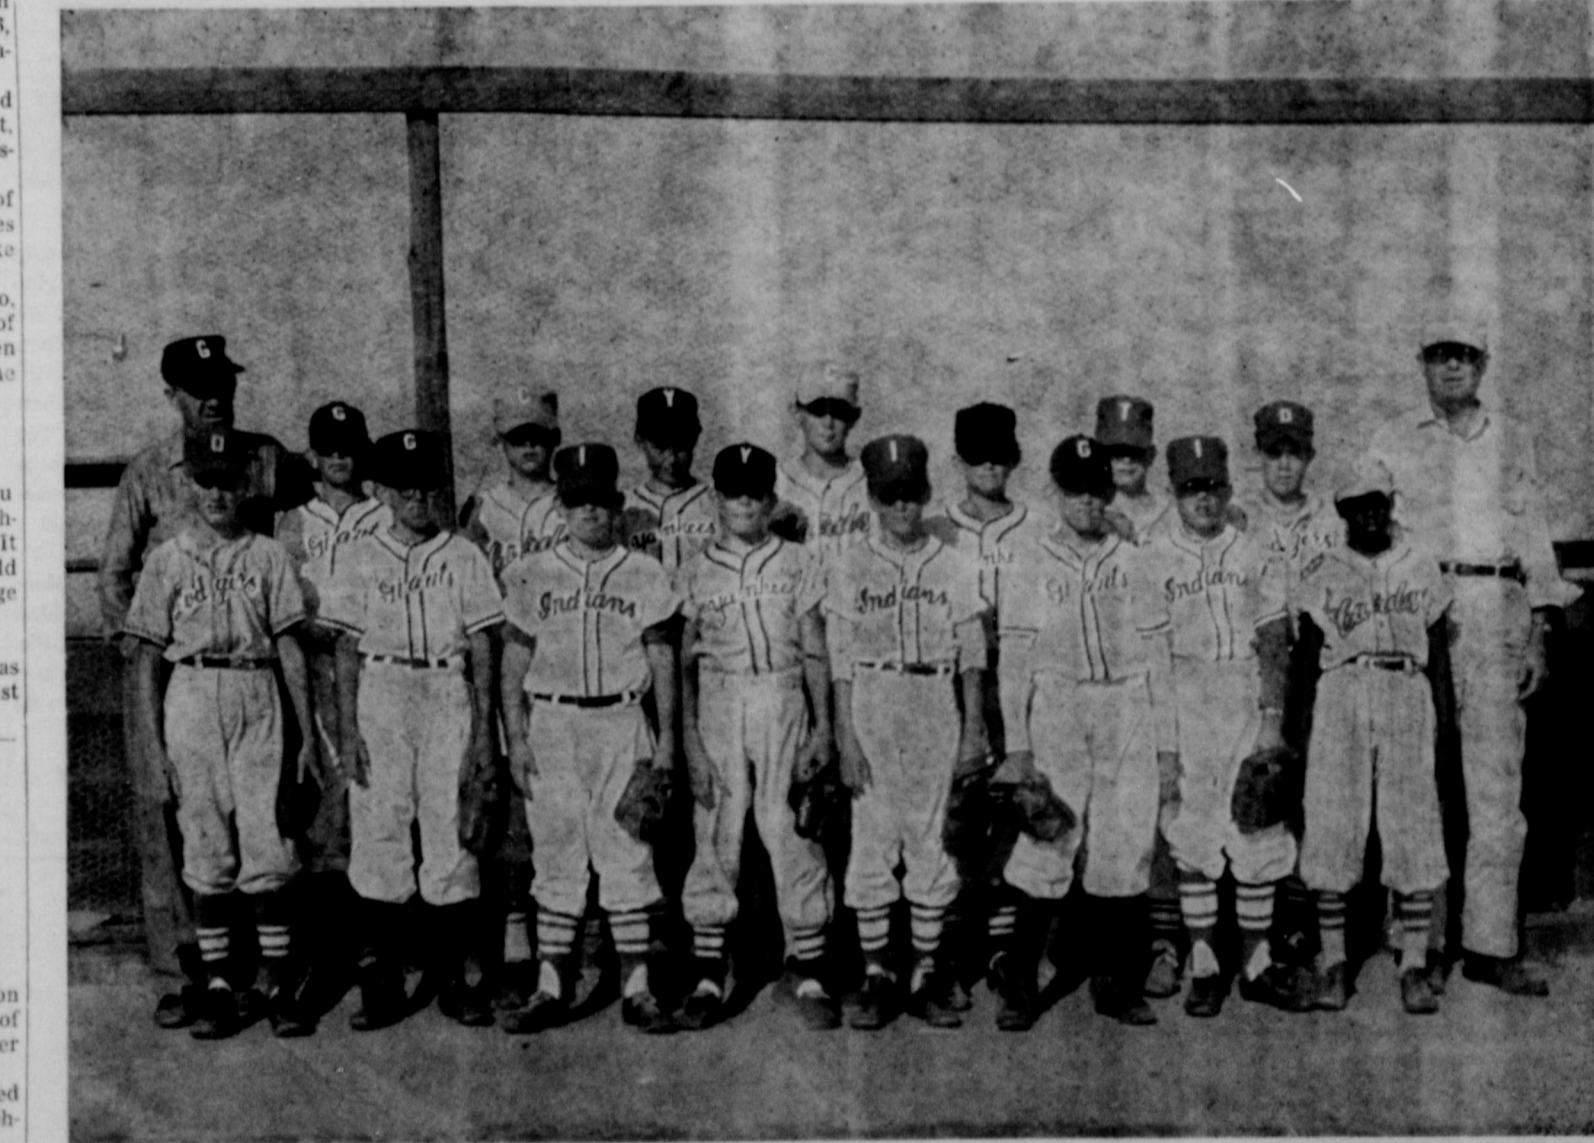

Both negroes are residents of Snyder. They took some 31 tires from the station when they broke in.

In statements signed by the two, they also implicated Earl "Jack of Diamonds" Thomas, who has been killed in an accident since the time of the burglary.

Pickup Truck Stolen

A pickup belonging to R. J. Schuette was stolen from a field northeast of Slaton Monday morning. It was found parked in Littlefield Monday night. No serious damage was done to the truck.

Aveno Alexander of Borger was the guest of Mary Jackson last week.

LITTLE LEAGUE ALL-STAR—Ready to match their ball-playing ability against that of other towns in this district, these Little League All-Stars will take on the winner of the Ropesville-Wolforth game on Tuesday afternoon, July 30.

Otis Neill is coach of the team and L. K. "Andy" Anderson is manager. Six teams will compete in the district tournament on Monday, Tuesday and Wednesday, July 29, 30, and 31.

Tips for Happy Vacation Driving Given Lions by Highway Patrolman

Fred Marshall of the Texas Highway Patrol, Lubbock, spoke to Slaton Lions Tuesday. Bill Daniels was program chairman.

Marshall pointed out in beginning his talk that thus far this year Texans are only two per cent below their automobile accident fatalities from last year. "In order to reduce the figure, we are now," he said, "This is necessary because the heavy traffic-fatality months lie ahead."

He cautioned drivers to plan their vacations ahead of time, and try not to cover too much territory in too short a time.

Careful planning and sensible, unhurried driving will make for a restful vacation, he pointed out. Marshall said that according to the National Automobile Manufacturer's Association, 85 per cent of vacation trips are made in automobiles.

During the summer, traffic volume is greatly increased, Marshall said. This adds to the already heavily loaded, drivers not so alert highways are carrying. With cars heavily loaded, drivers not so alert as usually, and children possibly

urging the driver to "hurry up," the danger of having an accident increases.

Accidents are more likely to occur after a driver has been behind a wheel for about six hours, he emphasized.

While on vacation, Marshall urged drivers to see that their cars are loaded carefully, with all the luggage in the trunk, and no sharp instruments in the car where they might injure the occupants.

"Drive sensibly, and don't do sight-seeing or map reading while driving the car." Speed limits, he said, were not necessarily a safe speed. He cautioned that the speed should be governed by the traffic and road conditions.

"Pause to rest and view the scenery," he said. This will give you a chance to relax, and really enjoy your trip.

More law enforcement officers than ever before are on duty all over the nation this summer, he said. This should remind us that traffic laws and regulations vary from state to state, and from area to area.

In urging courteous driving, Marshall said that particularly when

Rodeo Fun Night Begins Saturday, 8 p.m. at Arena

Members of the Slaton Rangers and the Slaton Roping Club will sponsor a Rodeo Fun Night Saturday, July 20, at the Slaton Roping Arena. Activities will begin at 8 p.m.

Events to be held will include club ribbon roping, kids pony race, girls' barrel race, old men's roping, cutting horse contest, jackpot roping.

All events except the club ribbon roping will be open to anyone who wishes to enter, according to George Harlan, president of the Roping Club.

No admission will be charged.

Little League District Tournament July 29, 30, 31 Scheduled in Slaton

Slaton will be host to the District Little League Tournament on July 29, 30, and 31, according to local Little League officials.

Six teams, including Slaton, will take part in the tourney. They include Brownfield, Denver City, Sundown, Ropesville, Wolforth and Slaton.

Saturday, July 20, has been set as "Work Day" for dads and inter-

100 persons would probably accompany each team to Slaton for the tournament.

Andy Anderson has been named manager of the Slaton All-Star team, with Otis Neill as coach. Slaton's team, like that of each of the other towns, will be selected from the 12-year old boys taking part in the Little League Program.

Team members include Ronnie Jones, Larry Burk, Don Caldwell, Billy Ganus, Johnny Haire, Butch Wartes, Elmo Curtis, Malcom Gilbert, Gregg Nowlin, Carroll Holley, Mike Kitten, Webber Tefertiller, Teddy Hatchett, and Dick Marriot. Alternates are Steve Ball and John George.

THE GIRARD TRIAL

The recent anti-American riots in Taipei, Taiwan, and announcement that Army Specialist 3C William C. Girard must stand trial for murder in a Japanese court bring home to all Americans, and especially to parents, a problem that is grave and the source of great anxiety. No American of fair-mindedness will condone crimes by American soldiers, committed against the natives of countries in which they are stationed. But at the same time, there are many other considerations.

The system of law and justice in many other countries is different from the Anglo-Saxon one which is the basis of American law and trial procedure. Further, in many countries, anti-American sentiment can be whipped up by Communists as well as by others. There can be miscarriages of justice. Severe, perhaps too severe, penalties can be handed out. We all want to keep this from happening.

Possibly Girard will receive a fair trial. The facts of his case, as reported, leave issues in doubt. A positive statement rendered from afar and by one who only has the information given in press reports would obviously be of little meaning. But this case points up a grave problem. It will leave Americans very troubled. They want to be certain that their boys overseas receive justice.

Here is one case where a "junket" is called for. A committee of senators and congressmen selected for their legal ability should travel abroad and investigate this entire situation. The expense of such a trip is one which the majority of Americans would approve of. Congress should act on this matter, and to act it must gain as much sure knowledge as possible. Also, a competent Congressional observer with an able translator should be present at the Girard trial. This matter cannot be taken lightly or as mere routine.

THE CAUSE OF TRUTH

After 30 years of teaching and lecturing in Russian literature and history, Prof. Michael Karpovich has retired from Harvard University. When he delivered his final lecture recently, the class of 200, plus some outside visitors, gave him a standing ovation.

Professor Karpovich came to the United States on a diplomatic mission for the Russian provisional government which was established after the March Revolution of 1917. When the Bolsheviks triumphed, he remained a voluntary exile. In Moscow he had been a graduate student in history. He became a teacher here in America, and his influence has long been felt at Harvard. Some of those in academic life who best understand Russia have been Karpovich's students.

Gentle, witty, erudite and liberal, Karpovich has never been soft-headed on the Communist question. He clearly understands the nature of this tyranny. His retirement leaves a hole in American academic life, but he will write and still be able to benefit from his knowledge and experience.

Professor Karpovich, an exile by choice, made a big contribution to American intellectual life. The standing ovation of his students at the close of his last lecture was more than earned. The nation should wish this scholar well now in his years of retirement. He has served the cause of truth.

ATOMS FOR PEACE

In an address before the mighty sounding board of the United Nations General Assembly three and a half years ago, President Eisenhower proposed the creation of an international agency to promote the peacetime uses of atomic energy. His plan was acclaimed throughout the civilized world.

The United States Senate has now, at long last, given the Eisenhower atoms-for-peace proposal a major boost by ratifying U. S. membership in such an agency. This brings to 10 the number of nations that have ratified the treaty creating this agency. Eight more ratifications are needed.

The idea of an international atomic pool has been the butt of more than a little cynical comment. Opponents of the plan have been quick to point out that nuclear fuel can also become the stuff of nuclear destruction. It has been said that Uncle Sam will be a fool to contribute nuclear materials and technical knowledge to nations which may then use these things to make weapons.

These are considerations that cannot be ignored. To participate in the international atomic agency is a calculated risk. It is a risk that seems eminently worthwhile, however, when one considers that from this world atomic pool there may come benefits which will at length overshadow the terrible threat of nuclear warfare.

There is risk, these days, in almost anything we do as a nation in a world torn by warring ideologies. The risk can be minimized to some extent by keeping our armed forces in readiness at massive strength. But armaments alone are not enough. There must also be wise and generous cooperation with other peoples in a concerted effort to make the best use of atomic power and other fruits of modern technology. President Eisenhower's atoms-for-peace plan comes under the heading of such cooperation.

Did men, in the days when the wore powdered wigs, have to get haircuts as frequently as modern men?

**STRENGTH
FOR THE WEEK**

in history; hosts of people who are fanatically worshippers of statism; the machination of the life of the individual. Is our civilization disintegrating unto death?
Unless we oppose these trends we could become accessories to the crime of a third world war. A third world war would probably mean that we would all be cremated. Some one said recently, "We must come to the place where we are willing to admit that all men are created equal" or we shall come to the place when all men will be cremated equally."
By being indifferent, winking at wrong, and falling into complacent attitudes we can be an "accessory to the crime."
—Rev. J. B. Sharp, Pastor, First Methodist Church.

ACCESSORY TO THE CRIME
A lawyer friend tells me that if a person knows about a bank robbery being planned and does nothing about it, he is an "accessory before the fact." If he assists them in the get-away he is an "accessory after the fact." It all points up to the fact that we can by indifference and complacency, be accessory to the crime without being aware of it.

Recently a 17 year old boy entered the home of his sweetheart, and shot her three times with a borrowed gun. At the trial he said, "I killed her. I don't know why I did it, guess it was that vodka. I was pretty high that night." It would seem that the man who illegally sold the vodka to a minor ought to be tried for murder too, since he was an accessory to the crime.
If public-spirited citizens wink at the illegal distribution of pornographic and indecent literature, allow it to be freely distributed from every news counter, and there is an increase in rape and sex assaults, they can not escape being "accessory to the crime."
If we encourage, by indifference, private gambling in clubs and at sporting events, we ought not to be surprised when the big-time gamblers and racketeers move in and take over. Our complacency in such matters makes us accessory to the crime.
If the church loses its influence, ceases to be dynamic in its program, wanes in its enthusiasm, we are indifferent to the whole affair are likewise culpable since we are accessory to the crime.

TELEPHONE TALK

by J. C. Oakley, Manager

OPEN HOUSE

An open house will be held in the near future for all of you to go through our new office and see the maze of wires and equipment that now provides telephone service to each of you.

I would like to see and meet as many people as possible at our office and I know you will be interested in the "behind the scenes" picture of your telephone service.

If you recall we converted to the dial system last September, but have been waiting on the completion of the remodeling of our old section of the telephone building before we had our open house.

EXTENSION TELEPHONES

Did you ever stop to think how much time and how many steps would be saved if you had several extension telephones conveniently located in your home-kitchen-den-bedroom-patio and utility rooms.

You wouldn't think of asking your secretary to walk clear across your office to answer your telephone. Why ask your wife to run from the kitchen to the living room to answer her telephone?

An extension only costs a little more than three cents a day. Call the business office, VA8-4591, today and we will have your extension right out.

TELEPHONE PEOPLE

Did you ever stop to think of what kind of people provide your telephone service. They are everyday, good, solid citizens like you. They have varied interests, church and social affiliations, and hobbies.

Call by number. It's twice as fast.

Biggest Sellers...because they're Biggest Savers!

You can tell from the way they're put together that Chevrolet trucks stay on the job... save on the job!

A truck with built-in stamina—that's Chevy. Whether highballing down highways or roughing it across rugged terrain, or doing delivery duty in town, dependable "can-take-it" Chevrolets are cutting

downtime to the barest minimum. A truck with a choice of ready-to-go power—that's Chevy. From an advanced lineup of eight engines—140 to 210 hp—you can save by choosing the power precisely matched to your job. Thanks to compact weight-saving design, Chevrolet's V8's deliver high power per pound of engine weight—power that works harder for you. Chevy truck 6's are famous for their stay-

ing power. Whichever engine you choose, you know it's got the power to back up every inch of brawn in every Chevrolet Task-Force truck. A truck for your job—that's Chevrolet, too. From pickups to middleweights to high-tonnage tandems, there's one just right for your job. See your Chevrolet dealer. He'll show you a model that's practically made to order for your kind of hauling.

OVER NINE AIRCRAFT ENGINES a day are assembled in the maintenance shops at Kelly Air Force Base, San Antonio. These R-4360 engines, which power the B-36 bomber and C-124 Globemaster, have 28 cylinders and generate 3500

horsepower each. Kelly's aircraft engine production lines are beginning to convert over from conventional to jet and turbo-prop engines.

Applications Now Being Taken for State Aid to Totally Disabled Persons

Complete and permanent invalids or persons in the community so mentally deranged that they require continuous oversight to keep from harming themselves or others may soon be able to receive small monthly checks from their State Department of Public Welfare through the new state-federal program of Aid to the Permanently and Totally Disabled.

The constitutional amendment which was adopted by the voters in November 1956, limiting the amount of money that can be appropriated for this program to \$1.5 million per year, makes aid possible only to those who are helpless and have no relatives able to support them.

Leo Heiler, welfare supervisor for this area, pointed out this is the only welfare program which requires consideration of the ability of relatives to support. This law defines "responsible relatives" as children, parents, step-children, step-parents, brothers and sisters.

Heiler said that for the first time in nearly 20 years the department's field workers will be required by law to determine the resources of relatives of persons who apply for aid.

The "permanency" and "totality" of the disability will be determined

by a state reviewing physician after study of a complete physical or mental examination by the persons' own private physician.

Complete helplessness from a medical standpoint, rather than inability to work, is the criteria. The state will pay the private physician for his examination.

Funds for assistance payments will not be available until September 1, 1957, but applications are being taken now. While the helpless individual will not be able to leave home, the persons responsible for his care may come to the local welfare office and acquaint the department with his situation. A field worker will call as soon as possible thereafter at the home to take the application.

Offices in the area are located at City Hall, Slaton; Old Courthouse, Lubbock; Courthouse, Tahoka; Courthouse, Brownfield; Courthouse, Littlefield; Courthouse, Levelland; Courthouse, Morton; Courthouse, Muleshoe, and Courthouse, Dimmitt.

Field worker headquarters offices in the area are located in Lubbock, Littlefield, and Brownfield. Outlying towns and counties are handled by workers from these offices.

Farm Bureau Queen To Be Selected Thursday at Slide Road Clubhouse

Lubbock County's Farm Bureau Queen will be selected Thursday night, July 18, at the Slide Road Community House, Lubbock.

The queen will be named from the nine candidates. A Slaton girl, Mary Ann Klattenhoff, was Lubbock County Queen last year. She is a candidate in this year's contest.

Candidates include Rosemary Boyd, daughter of Mr. and Mrs. Charlie Boyd, Slaton Rt. 1; Glenda Pearl Hess, daughter of Mr. and Mrs. R. F. Hess, New Deal; Miss Klattenhoff, daughter of Mr. and Mrs. Magnus Klattenhoff, Rt. 1 Slaton; Paula Jane Mayo, daughter of Mr. and Mrs. A. W. Mayo, Abernathy; Betty Hotley, daughter of Mrs. Fred Motley, Rt. 1, Idalou; Barbara Lee McGuire, daughter of Mr. and Mrs. B. L. McGuire, Rt. 1, Shallowater; Sherry Patricia Patterson, daughter of Mr. and Mrs. John T. Patterson, Wolforth; Jeanette Roberts, daughter of Mr. and Mrs. W. O. Roberts, Rt. 4, Lubbock; and Sandra L. Shadden, daughter of Mr. and Mrs. J. W. Shadden, Rt. 1, Idalou.

Some 38 persons attended the rehearsal dinner for the contest

held Tuesday night in Lubbock. Mrs. Herman Shropshire will furnish entertainment for the program. She will represent the Prak School of Dance, Brownfield. Students will be accompanied by Mary Kate Ramsauer.

Otis Rogers Jr. is local representative of Farm Bureau Insurance.

Dollar for dollar and man for man, the submarine is this country's most economical weapon. Comprising only 1.6 per cent of the Navy's World War II personnel, the submarine service accounted for 55 per cent of all enemy shipping destroyed.

Santa Fe Will Discuss Union Shop with Labor

Santa Fe Railway has agreed to a request of union representatives for resumption of talks on the demand of the non-operating labor organizations for a union shop, according to a statement made Thursday by Company officials in Amarillo.

Renewal of talks as provided for by the Railroad Labor Act have been suggested for July 29 in the Company's general office in Chicago.

The agreement for renewed talks came in response to a joint request addressed to Santa Fe officials by John Byrne of Chicago, representing the General Chairman of the 16 participating railway Brotherhoods and A. O. Olsen, of St. Louis, Mo., representing the Employees' National Conference Committee.

The Statue of Liberty faces away from shore because she is supposed to be enlightening the world.

Modern submarines can travel faster submerged than on the surface. They can fully submerge in less than one minute.

To rig for diving in a modern submarine, the crew must conduct 225 individual operational and equipment checks.

United States submarines sank 214 naval and 1178 merchant vessels in World War II operations against the axis powers.

Ready Kilowatt Dealers Meet

Melvin Kunkel, local manager of Southwestern Public Service Company, presided over a dinner meeting held for Slaton Ready Kilowatt dealers Monday night at the Red Arrow Cafe.

A report was given by Rex Brown on the electric range campaign which was recently completed. Discussion of the home freezer campaign which will be in progress until September 15 was made by Nolan Swain. Both Swain and Brown are with the Lubbock district office of Southwestern Public Service Company.

Recognition Given To West Texas Museum at Tech

The West Texas Museum, located at Texas Tech, has received national recognition "for being a cultural force of the greatest importance in its area for over a quarter of a century."

Those are the words of an Award of Merit to the Museum by the American Assn. for State and Local History.

The 1955-56 fiscal year was of particular importance in the decision to give the West Texas Museum an Award of Merit, according to Assn. officials.

During that time, more than 150,000 persons visited the Museum. Some 12,000 children participated in 411 guided tours for school groups.

CITATION BY PUBLICATION
THE STATE OF TEXAS.
To: C. E. Morris, if living and if dead, the legal representatives of said C. E. Morris, and the unknown heirs of said C. E. Morris; the legal representatives of the unknown heirs of said C. E. Morris, GREETINGS:
You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday, the 19 day of August A. D. 1957, at or before 10 o'clock A. M. before the Honorable 72nd District Court of Lubbock County, at the Court House in Lubbock, Texas. Said plaintiff's petition was filed on the 25 day of June, 1957. The file number of said suit being No. 29198. The names of the parties in said suit are: W. H. Sanders, as Plaintiff, and C. E. Morris, et al, as Defendants. The nature of said suit being substantially as follows: That on or about the 1st day of January, 1957, he was lawfully seized and possessed of Lots 5 and 6, in Block 98, South Slaton Addition to the City of Slaton, in Lubbock County, Texas, holding and claiming the same in fee simple that the Defendants unlawfully entered upon said premises and ejected Plaintiff therefrom and unlawfully withheld from him the possession thereof to his damage in the sum of \$100.00.
Plaintiff prays for judgment for title and possession of said land and his damages and other and further relief to which he may be entitled as more fully shown by Plaintiff's Petition on file in this cause.
Issued this 5 day of July, 1957. Given under my hand and seal of said Court, at office in Lubbock County, Texas, this 5th day of July A. D., 1957.
EMZY PIERRAT, Clerk
72nd Dist. Court, Lubbock County Texas.

Texas Safety Council Reports One Death Every 16 Minutes in Home Caused by Carelessness, Negligence

Not many housewives would put a DANGER sign over their front door! Yet, unless more people suddenly become "safety-conscious" that sign wouldn't be a bad idea at all. Home accidents can kill! Carelessness and negligence in the home cause a death every 16 minutes and produce some disability every four minutes, reports the Texas Farm and Ranch Safety Council.
Falls are the home's greatest hazard, claiming a total of 14,000 lives annually. Burns are next in the grim order and about 5,400 people die yearly as a result of them. Poisoning and carelessness with firearms each cause slightly over 1,000 deaths a year, and almost 6,500 people annually succumb to a list of varied causes.
More children under 14 are killed by home accidents than by any single disease. Here's how to minimize the dangers to children in your home. Label all medicines and store them out of children's reach; make sure all firearms are unloaded and stored safely; keep matches and knives out of reach; and don't leave scissors, pins, and sharp tools within children's grasp.
How safe is your home? Check yourself on these questions asked by the safety council. Are too many electric appliances running from any one outlet? Are rugs kept from curling and slipping? Do you immediately wipe up water or grease spilled on the floor? Do you have a safe can opener such as the swing-away wall type? Is there a nonslip floor in the shower? Are all flammable liquids labeled and sealed?
Keep a first aid kit handy at all times. Remember—someone is hurt in the home every seven seconds.

A JESUIT SINGS—The Rev. Aime Duval, guitar-playing Jesuit priest, sings at Paris' Gaumont Theater to an enthusiastic audience of more than 5,000 teen-agers. One of France's top popular singers, Fr. Duval says musical recitals of spirituals and swing and of blues, ballads and religious songs of his own composition lead his audience closer to God. The 38-year-old priest sings in nine languages. His income goes to his religious order.

Order Eastern Star Celebrates Birthday

Slaton Chapter 585 O.E.S. celebrated their forty-second birthday their regular meeting on July 9. A program honoring all members was given. Carrying out the theme "Times Moves On," a wheel was made of styrofoam and covered with blue flowers representing members. The blue flowers were placed in the hub of the wheel. Yellow flowers, representing all members, were placed around the hub. The spokes represented those who have passed on, made the rim of the wheel, while red roses placed on the spokes represented the Past Officers and Past Patrons.

The dining room was decorated with red, white and blue streamers from the light above the table to the white covered tables. The white streamers extending the length of the tables. Small paper umbrellas and large silver numbers completed the table decorations.

The birthday cake and bottled drinks were served and everybody joined in singing the birthday song.

CIRCUS SUNDAY SCORE A HIT

What's more fun than a circus when it's party time for the youngsters? Make the next gathering for the young fry a Big Top theme with toy animals in a striped ring and balloons to add the party touch. For the very young, plan to keep the food simple, ice cream dressed up with a special topping, animal crackers and glasses of milk. It's the gay festive touches and the extra good ice cream topping which mean party for the children.

Packaged instant puddings are a quick and easy basis for delightful and different ice cream and dessert sauces for the youngsters and adults alike. The basic recipe for the sauce is on the chocolate, butterscotch and strawberry cream Royal instant pudding package, a quick and easy combination of the pudding, light corn syrup and water. Other instant pudding flavors are vanilla, coconut cream and banana cream. For the youngsters, combine instant banana cream pudding with corn syrup and peanut butter. If desired, sprinkle crushed or whole salted peanuts over the top of the sundae.

BANANA PEANUT ICE CREAM TOPPING
1 package instant banana cream pudding
1 cup light corn syrup
1/4 cup peanut butter
2 tablespoons water

Stir the contents of the pudding package into the corn syrup. Add the peanut butter. Stir in water. Makes approximately 1 1/2 cups.

CHOCOLATE MARSHMALLOW TOPPING
1 package instant chocolate pudding
1 cup dark corn syrup
2 tablespoons water
1/4 cup marshmallow whip

Stir contents of package of pudding into corn syrup. Add water and stir in well. Beat in marshmallows until smooth and well-blended. 1/2 cup salted crushed nuts may be added if desired. Makes approximately 1 1/2 cups.

Cold Cuts Cater to Summer Menus

Who could get through a sizzling summer without the help of cold cuts? There are more than a hundred to choose from, such as the cervelat, salami, souse, tongue, ham, bologna and liver sausage in the picture. So good to choose from for sandwiches or for serving with traditional potato salad. And no fussing over a hot stove when cold cuts serve as the main dish. Like the meats you cook at home, cold cuts have complete high quality protein that is the mainstay of a meal. They are nourishing and attractive, and good appetite coaxers in hot weather.

For a quick and cooling snack or summer meal, an assortment of cold cuts makes it easy to cater to everyone's fancy. And plan to add some new cold cuts to your repertoire. Try some of the sausage group you may not have had before such as Thüringer or Goteborg. You'll like new "shapes" in sausage, too, such as liver sausage in loaf form rather than the familiar round sausage. The loaf form makes just the right shape slices for sandwiches.

Perk up menus too with some of the meat loaves that vary from one section of the country to another, and are so delicious in every form. There are many different kinds of salami that you will find worth trying, including the famous Genoa salami which is air-dried and made with pork. Pepperoni is an air-dried sausage without garlic which is also popular.

Bride-Elect Honored With Shower July 9

Miss Norma Corley, bride-elect of Skipper Tumlinson, was the honoree at a miscellaneous shower held in the home of Mrs. Tom McCain last Tuesday, July 9. Calling hours were from eight until nine-thirty.

Mrs. McCain met the guests and presented them to the receiving line composed of the honoree, her mother, Mrs. C. E. Corley, the mother of the groom-to-be, Mrs. M. M. Tumlinson and the honoree's sister, Sue Corley.

Refreshments were served from a table covered with a pink Itasca Weaver's cloth and centered with an arrangement of white gladioluses, blue variegated carnations and leather-leaf greenery in a silver container. Silver candles in crystal holders and the crystal punch bowl completed table appointments.

Mrs. Jan Sorrels furnished piano music for the evening. Hostesses for the occasion were Mesdames Charles Fely, C. A. Wells, A. T. Wright, W. D. Cooper, C. J. Johnson, Sam Phillips, J. F. Richey, Hern Pettigrew, Oma Fae Brown, Max Arrants, J. W. Bagby, H. C. Maxey, C. E. Hogue, C. A. Pierce, Ford Stansell, H. H. White, Verl Woodfin, Bill Chriesman, Donald Polk, Jack Pearson, J. J. Maxey, J. H. Trimble, Dave Draper, Otho Dillard, W. L. White, L. T. Kincaid, Johnnie Hogue of Lubbock, Linton Pruitt of Lockney and McCain.

Hostess gift was an electric mixer and an ironing board. Miss Corley and Mr. Tumlinson will be married Friday, July 26, at 7:30 at First Baptist Church.

Dr. and Mrs. H. L. Spitzer and Jeanine of Lubbock visited with Mr. and Mrs. Wallace Becker and family Saturday night.

Sue Corley

Sue Corley To Be Married in August

Mr. and Mrs. C. E. Corley announce the engagement and approaching wedding of their daughter, Sue, to Mr. Ernie Davis of Stamford.

The wedding will take place on Friday, August 23, at 7:30 p. m. at First Baptist Church of Slaton.

Sue, who will be a sophomore at McMurry College in Abilene when she returns in the fall, was a member of Delta Beta sorority, was freshman class favorite and a runner-up for Totem beauty.

Ernie, who is the son of Mrs. Gene Butler of Stamford, will be a junior at McMurry next year. He is a member of the IHR Boys Club and played halfback on the McMurry Indians football team.

Two Woods Give Group Great Charm

By the interplay of two lovely hardwoods — nut brown walnut and spice-toned cherry—a design of great simplicity achieves an air of timeless elegance in this six-drawer dresser.

All its companion pieces in a new, moderately-priced bedroom group have the same unadorned lines, but there is nothing severe in this design, primarily because the walnut surfaces of themselves offer great visual warmth. This is especially true when their grain patterns are the main decorative theme. Here, for example, the walnut surfaces reveal shell-like figures—the gentle, familiar wood pattern of which no one ever tires.

The lighter-colored cherry which "frames" each drawer is a luxurious note, suggestive of costlier decorator furniture.

Walnut "Warm's" Glass
Polished brass pulls are thin, straight-lined — just a dash of accent on each drawer — to avoid distracting the eye from the wood. Note, too, how the gently rounded, plain walnut frame softens the "coldness" of the large mirror, and how its "off-balance" placement avoids monotony.

In this group the manufacturer has introduced a new size—42 inches—in chest pieces. It is a three-drawer version of the above

Benefits of "Bonded Woods"
For those interested in construction details, the dresser's frame, which includes the slightly "shaped" protruding posts in view, is made of solid walnut. But all the flat surfaces — sides, drawer-fronts, top — take advantage of the great modern process of "bonding" woods which has superseded what used to be called "veneering." Thanks to this development, these flat expanses are immune to warping, cracking or splitting, and have extraordinary durability regardless of weather or climate.

**Public Service Adds to Facilities
With New Generating Plant Opening**

More power for the growing electrical requirements of the Eastern New Mexico and West Texas area becomes available early in July, when Southwestern Public Service Company's new and modern Cunningham generating plant goes on the line.

Southwestern Public Service's 11th principal steam plant is located 12 miles west of Hobbs, New Mexico and one mile north of the Hobbs-Carlsbad highway. The gleaming aluminum structure is on a 160 acre tract owned by the power company.

Named for President

The new plant is named for J. E. Cunningham, president of the Public Service Company and member of its board of directors. He has been associated with Southwestern Public Service 30 years, and president for the last 12 years.

Generation from Cunningham plant will "feed" onto the existing 115,000 volt transmission line between the Company's Denver City and Carlsbad plants. This same line connects the power company's principal generating stations and interchange substations with 3000 miles of high voltage transmission line over the 45,000 square mile area served by Southwestern Public Service.

GE Generator

The turbo-generator in Cunningham plant was manufactured by General Electric has a nameplate rating of 70,000 kilowatts and a capability of producing 96,000 horsepower. This additional generation brings Southwestern Public Service's total plant capability to 820,000 kilowatts or 1,100,000 horsepower.

A. R. Watson, executive vice president and general manager of Public Service, remarked that just 10 years ago the total plant capability of Southwestern's system was only 166,000 kilowatts.

"Our last ten year's growth and the new plant capability symbolizes the progressive thinking of our 170,000 customers in applying more electric power for use in industry, commercial establishments, and the home," the power company executive added.

Latest Features

Watson also added that Cunningham plant was another home grown product, for this newest plant was the second steam generating station in Southwestern Public Service's system which was designed

by the company's own engineering staff. And, like the first, which was Plant -X, Cunningham plant incorporates the latest features in economical power plant design and operation. H. O. Hodson, vice president of Southwestern Public Service Company, supervised the design and construction.

Public Service engineers cut down on the construction time by putting aluminum exterior walls instead of steel. Designers did not omit a decorative touch, for they used black ceramic coated aluminum for outside trim, parapet caps and front entrance facade.

Another construction cost cutting application was the location of the plant's 55,000 gallon water storage tank on the roof deck of the semi-outdoor boiler. This location saved most of the construction cost of a conventional hi-tank.

J. B. Matthews is plant manager at Cunningham. He was named to this position February 1, 1957, and moved here from Public Service's Moore County Plant near Dumas, Texas.

NOTES

from the
Lubbock County Soil
Conservation District

The Board of Supervisors of the Lubbock County Soil Conservation District will hold their regular monthly meeting next Friday, July 19. This meeting will be held in the conference room of the Production Credit Association building on Avenue Q. Everyone interested is cordially invited to attend and take part.

Several of the cooperators around Slaton have planted all or part of the cotton and milo four rows and skip four. If you are one of these who has seeded your crop in this manner, it is an excellent opportunity to seed the area left between your other crops to a soil improving crop. Some of the soil improving crops can be used in this area are guar and Chinese red peas. Legumes of this nature help the soil by adding organic matter, nitrogen and protection of the soil from the intense summer heat and hard beating rain.

Soil Conservation Service technicians will be glad to assist you in selecting the legume and proper seeding rate for your soil.

D. B. Williamson, who lives southeast of Wolforth, has a complete plan for his two farms. When SCS technicians contacted him about an application for pipe, he expressed a desire for a complete plan. Williamson lives on 160 acres and plans to farm it in 40

They came by Slaton for a visit with their parents, Mr. and Mrs. Jack Cooper and Mr. and Mrs. W. A. Basinger of Southland.

A B-36 QUICK ENGINE CHANGE is readied on a maintenance production line at Kelly Air Force Base. Each of the giant powerpacks, which include all of the necessary accessories in addition to the engine, weigh approximately 8,200 pounds. In December of 1953 it took 1100 manhours to complete one B-36 powerpack, but today the operation takes only 450 manhours.

HERE IS THE NEW PURINA HOG PROGRAM

1. Start litter on new, improved Purina Baby Pig Chow. Then creep feed Purina Pig Starter until 3 weeks after weaning.
2. Put pigs on growing ration of 4 parts grain and 1 part Purina Hog Chow until pigs are about 3 months old.
3. For last 6 weeks, feed 9 parts grain to 1 part New Purina Hog Chow, feed either free choice or mixed, in correct proportions.

Now...market hogs in 4 2/3 months

New Purina feeding program weans pigs at six weeks . . . grows pigs to 190 lbs. in 4 2/3 months . . . cuts feed costs 4% . . . 1 lb. of pork for every 3.26 lbs. of feed, from weaning to market . . . conditions sows faster for next farrowing.

Every year more proof piles up that hogs should be fed according to age and weight requirements. Young pigs use feed differently than do older hogs. They need more protein . . . more vitamins . . . more of the expensive parts of the ration. But, as pigs grow, they become more efficient users of carbohydrates—the less costly part of rations. The proportion of cheaper carbohydrates can be rapidly increased.

Tests at the Purina Research Farm showed that this new program cut feed costs an average of 4% below any previous Purina Program . . . produced each pound of pork on only 3.26 lbs. of feed from weaning to market. It also gave sows the chance to recover faster from farrowing and nursing. Sows were ready to breed again in less time than when pigs were weaned at 9 weeks.

Improved Purina Hog Chows Make Program Click

Purina Baby Pig Chow and Pig Starter, the famous Fast-Start Twins, have been further improved to take advantage of the newest research findings. Purina Hog Chow has been improved to the point where you may now use 33% more grain during the last six weeks than on previous Purina Hog Programs. Be sure to feed right . . . follow the recommended steps closely. The fast gains, early weaning, and increased efficiency of this new Purina Hog Program can be yours when you feed these high-quality Chows in the way research has proved they should be fed for top results.

Highlights and Sidelights From Your State Capitol

By Vern Sanford
Texas Press Association

AUSTIN, TEX.—It's quiet around the Statehouse now, especially compared to two months ago when Legislative issues came to a tense climax.

Groups of sauntering sightseers have replaced the bustling, businesslike crowds that choked the Capitol corridors. They carry cameras instead of brief cases. But people who are still on the job, like Comptroller Robert S. Calvert, have plenty to ponder. Calvert gave money-worriers a jolt by announcing the state is going to have to ante up \$6,000,000 more for the teacher retirement system in the coming two years. Increase is due to the teacher pay raise which ups the amount both the state and the teachers must pay in.

Since the Legislature spent to within \$30,000 of the state's expected revenue for the next biennium, this new drain means, according to Calvert, that "the poor old revenue fund will hit the deficit column sooner than expected."

"If I had to make a new estimate of expected revenue right now," he said, "I'd have to say we'd end up almost \$5,000,000 in the hole." But he added that he hoped the outlook would improve before he's called for another official forecast.

JURY TAKES BREAK—Travis County's grand jury room is quiet too. Jurors are taking a two-week "breather," but will resume investigation of the ICT collapse and Legislative bribery charges July 23. Spokesmen gave no hint when the jury might give its report and end the general suspense.

Another grand jury in Dallas is still at work. It subpoenaed former Insurance Commissioners J. Byron Saunders and Garland Smith and Smith's son-in-law, Max Wayne Rychlik.

INSURANCE FORMS APPROVED—Texas Insurance Commission has granted "temporary approval" to all life, health and accident policy forms filed before Aug. 22. It's a stop-gap measure to conform with a new law and yet allow Texas insurance companies to continue business.

A law passed last session requires that all life insurance policy forms receive Commission approval before being offered to the public. Previously, only filing of forms with the Commission was needed.

But thousands and thousands of forms are involved, more than the Commission could possibly get through before the effective date of the bill. Hence, temporary approval for all during the checking period.

ADVISORS NAMED—A committee of four has been named to help small Texas cities that want to participate in the state's new urban redevelopment law.

They are Dr. D. R. Reilly of the Nolan-Scurry County Health Dept., Joe Driskell of Fort Worth, Marvin R. Springer of Dallas and Jack Shelly of Garland. State Health Commissioner Henry A. Holle announced the group, to be known as the State Urban Renewal Advisory Committee.

Its function will be to help cities under 25,000 population develop city plans to qualify for federal aid in slum-removal programs.

BIGGER CROPS SEEN—Texas' 1957 grain harvest is expected to be significantly increased over that of drought-pinched 1956.

But citrus production will be down, according to the U. S. Dept. of Agriculture, and cotton is still a question mark.

USDA forecasts Texas' wheat crop at 33,885,000 bushels, compared to 26,388,000 bushels last year.

But it's still below the 1946-55 average of 47,339,000 bushels. Corn production is estimated at 39,160,000 bushels compared to 27,465,000 for last year. Oats are expected to hit a whopping 37,148,000 bushels compared to only 19,170,000 bushels for '56. Only rice is expected to be down—10,440,000 bags of 100 pounds each this year compared to 11 million last year.

15 SCHOOLS FLUNK—State Commission on School Accreditation says it will recommend that 15 Texas schools be dropped from accredited status.

Final decision will be made after the commission reports at the Sept. 2 meeting of the State Board of Education. Commission also suggested that 7 schools seeking accreditation not be approved and that 79 more schools be warned they must improve. Inadequacy of personnel, facilities and curriculum were cited.

Recommended for loss of accreditation were Asherton, Bardewell, Barry, Ben Hur, Concord, Gordon, Kirkland, Kosse, Minden, Mount Calm, Norwood, Purdon, Sand Hill and Winfield.

VOTING RIGHTS DEFINED—Military personnel who are discharged, wait a bit, then re-enlist are entitled to establish voting residence in the Texas county where they re-enlist.

So ruled the attorney general's department. But it doesn't ally, said the opinion, if the discharge and re-enlistment are continuous. Texas constitution allows military personnel to vote in the county where they resided at the time of entering service.

SHORT SNORTS—Rio Grande Valley citrus growers are hopeful Florida officials will decide this month to remove a 20-year ban on shipment of Texas fruit to Florida. Texas, Agriculture Commissioner John White pointed out, has not barred Florida fruit during that time.

Lieutenant General Ernest O. Thompson concluded a 40-year military career by retirement as commander of the Texas National Guard. Gen. Thompson, who was "The youngest lieutenant colonel in World War I," commanded Texas' 36th Division in the between-wars interval and served again in World War II. He is a member of the Texas Railroad Commission.

Texasans tested their atom bomb defenses in "Operation Alert," a practice exercise that assumed seven Texas cities had been struck.

State Civil Defense and Disaster Relief Headquarters sent out surprise notices to officials in the target cities. State agencies, as well as local groups, participated in the game of "what we'd do if..."

Some 9,000 acres of cotton in West Texas have been damaged by improper use of chemical weed killers, according to the State Agriculture Department. It urged caution in use of hormone-type herbicides, principally 2-4-D and 2-4-5-T. Contact with county agents was suggested.

Mrs. Lem Scarbrough of Austin has been appointed by Gov. Price Daniel to the State Board of Mansion Supervisors. Made up of three women, the board plans repair, decoration and beautification of the Governor's Mansion and grounds.

Mrs. Leon Austin and her daughter, Miss Janet, and Mrs. Preva Hilber of Austin spent from Thursday until Monday in the home of Mrs. Austin's parents-in-law, Mr. and Mrs. C. F. Austin. They left Monday for Denver, Yellowstone National Park and other places of interest. They will be gone about two weeks before coming back through Slaton.
