Church of God Revival Will Begin Monday

Revival services will begin at 7:30 p.m. Monday at the Church of God according to the Rev. W. F. Toles, pastor.

Mrs. Zoe Brown of Plainview will be evangelist.

Services will be held at 7:30 p.m. each day next week at the church, located at 206 Texas Avenue.

Telephone Company Schedules Open House for Next Tuesday, Wednesday

An announcement went out from Southwestern Bell Telephone Company this week for Slaton residents to attend a special open house at the Slaton telephone exchange on Tuesday and Wednesday, October 15 and 16.

Manager J. C. Oakley said the doors would be open from 2 p.m. until 5 p.m., and from 7 until 9 p.m. both days.

"It's the first chance we have had to show off the dial telephone system since it was put into use here in Slaton last year," Oakley said. "We have been planning this event for a long time and have some exciting exhibits to show."

Oakley said that a special machine will be ready to play the old tick tack toe game with anyone. He warned that the machine is unbeatable, and the best anyone has ever done is to tie in the game.

A special new exhibit will be

Fire Department Sponsors Magician Show Thursday Night at High School

Members of the Slaton Volunteer Fire Department will sponsor the performance of Zolo, Master Magician, beginning at 7:30 p.m. Thursday, October 17, at the Slaton High School Auditorium.

Zolo and his all-star magic review will present the "20th Century Phantasies."

Such mysteries as "The Girl Without a Middle," "The Girl Buried Alive," "Fantasy in Flowers," "The Doll's Dream House," "The Dancing Handkerchief" and many others with rabbits, pigeons and ducks will be shown on the stage.

Over a ton of equipment will be utilized in the Thursday night performance. Elaborate costuming enhances the production of magic, described as "truly beautiful."

The Zolo show has been acclaimed by the press and public as being one of the cleanest and most attractive shows of its kind on the road today. Thousands have witnessed his spectacular illusions and have been completely baffled by his artistry and skill of presentation.

The entire show is synchronized to music, adding to the effect of the illusions. The show is planned for all ages, from 6 to 60.

The first half of the performance contains the small but deceptive wonders, plus some of the large illusions. The second half contains the larger effects which go to make the performance one of the finest of its kind on the road today.

Admission will be 50c for children, \$1 for adults.

Layman's Day Observance at First Baptist

Laymen of First Baptist Church will assume primary responsibility for services at the church Sunday, in observance of Laymen's Day.

George McClesky, Lubbock attorney, will be speaker at the morning service, which begins at 11 a.m.

Following a theme of "A Layman's Responsibility," various members of the church will speak at the evening service. Speakers will include Jack Clark, Melvin Kunkel, L. O. Lemon, and Bill Alspaugh.

Fred England will lead the music for the evening service, and a men's choir will bring special music. The evening service starts at 7:30 p.m.

"An invitation is extended all men in the city to participate in this Laymen's service," according to the Rev. Ted E. Gaze, pastor of the church.

Officers Jail 22 Persons Here During Week

Some 22 persons have been lodged in Slaton's City Jail since October 4, charged with various offenses.

Eight persons have been jailed for drunkenness in addition to two for being drunk in a car, two for drunk and fighting, one for drunk and disturbance.

One juvenile was handed over to county juvenile authorities after being arrested by local officers. Four persons were charged with breaking the curfew law. One person was jailed for possession of beer by a minor; one for a liquor law violation.

Destruction of property was charged against one person, and another was charged with indecent exposure.

Traffic tickets were given five persons, for driving without an operator's license, running a stop sign, and negligent collision.

Two Slaton boys were picked up by Levalland officers Monday night suspected as being runaways. Parents of the boys here were notified, and went to Lovellland after them.

Hub caps were reported stolen from a car during the Slaton-Post football game Friday night, while the car was at the football stadium.

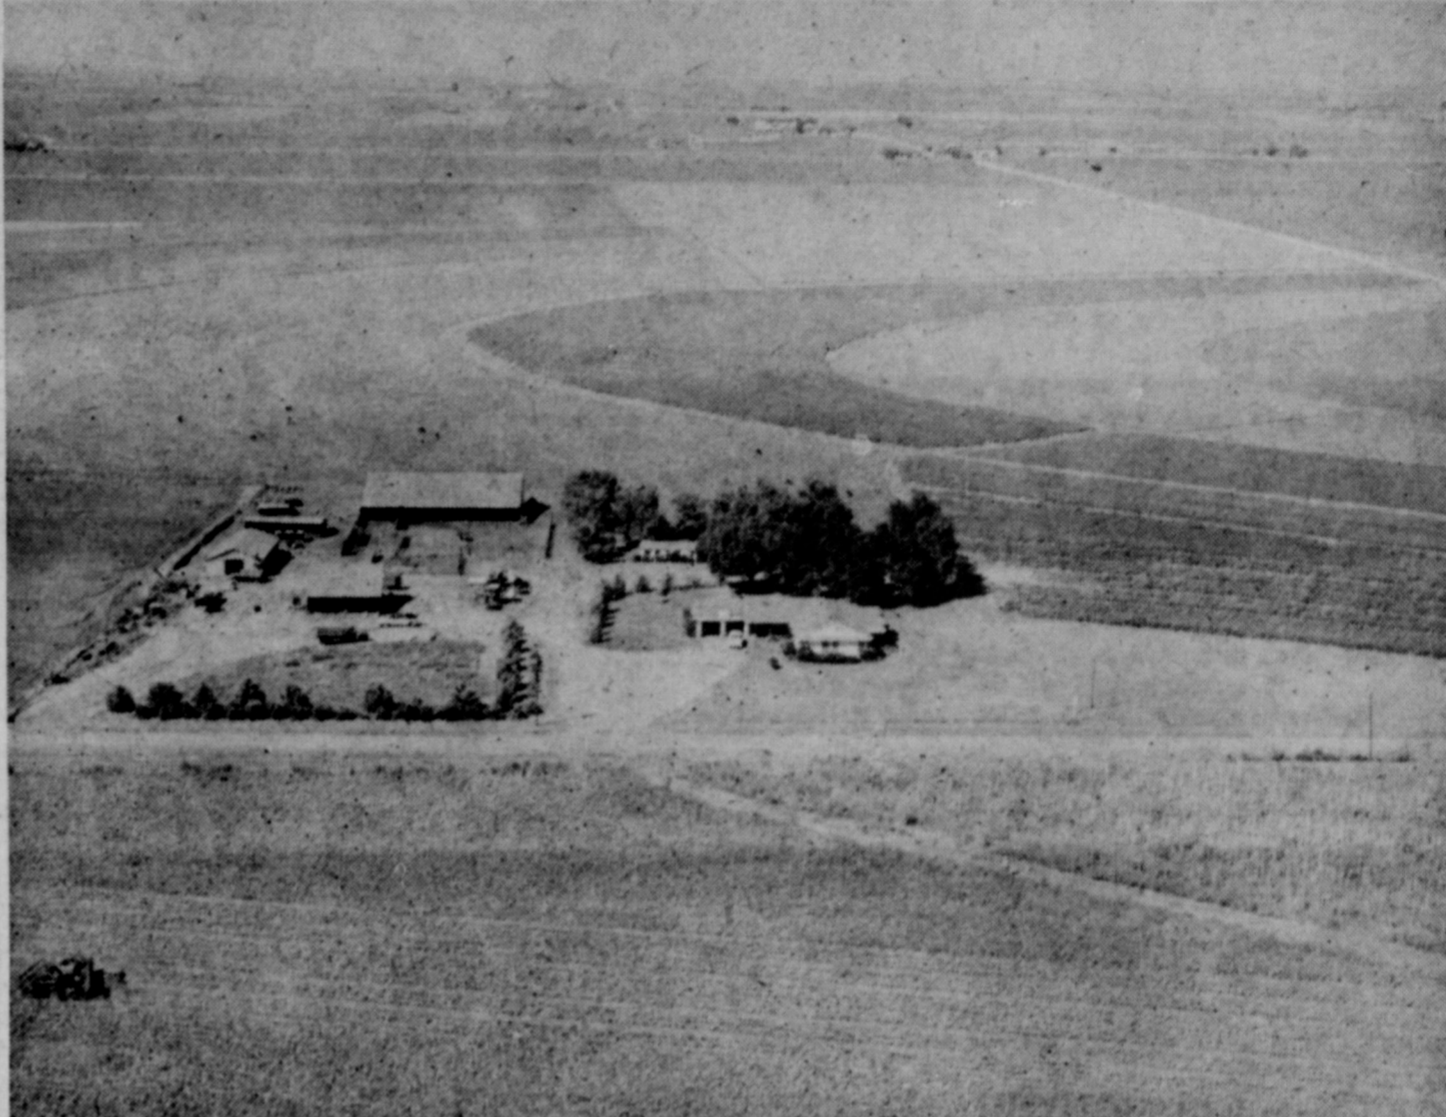

Report of a "short-change artist" in town was received by officers early Friday evening.

A car reported stolen Saturday night was recovered about two hours later.

Palace Barber Shop Sale Told

Sale of the Palace Barber Shop was announced this week. Howell Sammons purchased the shop from Bob Vival. The change in ownership took place Friday, October 4.

Associated with Sammons in the shop will be Casey Walling. Sammons said this week that another barber would be added in the near future.

WINS STATEWIDE RECOGNITION—for outstanding soil and water conservation practices, Firas H. Griffin of Slaton has been recognized as one of the 25 outstanding farmers and ranchers in Texas. This aerial photo-

graph of Griffin's farm was painted in oils and is on exhibit in the Agricultural Building of the State Fair of Texas. The painting will be presented Griffin after it has been exhibited at fairs and expositions throughout the state.

Children's Home Superintendent Will Speak Here

E. H. McCarter, superintendent of the Children's Home in Amarillo, will be guest speaker at First Presbyterian Church here at the 11 a.m. service Sunday.

With him McCarter will have his wife and a group of the older children from the Home who will have a part in the service.

The church pastor, the Rev. C. N. Wylie, issued an invitation for persons interested in knowing more of the work being done for children to worship with them Sunday.

Oregon Pastor To Hold Revival

The Rev. Walter C. Hutsell, pastor of the Pentecostal Holiness Church, 8th and Knox streets, announced this week that revival services will begin at his church Sunday evening, October 13.

Services will be held each evening at 7:30 p.m.

The Rev. Hubert Crawford of Myrtle Point, Oregon, will be evangelist.

"Come and hear the dynamic messages of soul and body deliverance," Rev. Hutsell said.

Slaton Farmer Receives Statewide Recognition for Conservation Work

Finas H. Griffin, farmer in the Union community near Slaton has been notified that he has been named as one of 25 Texas farmers and ranchers selected to receive an unusual reward in recognition of the excellent soil and water conservation work done on his land.

The award will be an 18x24 inch oil colored framed aerial photograph of Griffin's farm.

The picture will be presented to Griffin after it has been exhibited at different fairs and shows in the state, and after being displayed at the January 15-17 convention of the Texas Soil Conservation District Supervisors at Corpus Christi.

First public showing of the picture is currently going on at the State Fair of Texas, in Dallas. The pictures can be seen in the Agriculture Building.

This is the first year of the awards program. Association president Howard said that Griffin is to be congratulated for being selected as one of the first year's award winners.

Selection of the 25 outstanding conservationists was made from nominations submitted by the 172 Texas Soil Conservation Districts. From this list of nominations to 25 directors of the Association of Texas Soil Conservation Districts then selected one farmer or rancher from this group of district to receive the award.

Selections were based on the progress made in applying sound soil and water conservation program on farm and ranch lands.

Griffin is a cooperator of the Lubbock County Soil Conservation District, which named him as their farmer doing the most outstanding soil and water conservation work in the district during 1956.

Association president Howard, and D. A. Childre, president of the Great Southwest Life Insurance Company, both report that although this is the first year for this unusual awards program, it has already attracted widespread interest and that many soil conservation districts have said they would have a farmer or rancher in the running to receive one of the awards for outstanding soil and water conservation work during 1957.

Tigers Travel to Lockney Tonight; Meet Longhorns in 2nd District Tilt

Two victors from last week's gridiron battles will meet tonight when Slaton and Lockney clash at Lockney. It will be the Tigers' second try for a conference victory.

In play last week Lockney defeated Abernathy 42-13. Slaton and Post in their game last Friday ended up with 33-0 score with Slaton the victor.

Outstanding on the Longhorn lineup is 150-lb. halfback Jerry Williams, a senior. Williams was named "Back of the Week" on the South Plains, and added some 318 yards gained to the Longhorn table of statistics in last week's game.

Highlighting homecoming for Slaton's ex-letmen the Tigers blanked the Post Antelopes 33-

0 for a victory in the first conference game of the season.

It was Slaton's game all the way with the Tigers scoring twice in the first period, and once in each of the remaining periods.

Slaton took the ball on their own 47, after taking a punt from Post. Drives by Rodney Fulcher and Pat Adamek brought the ball to the Post 30. Alex Franco covered the rest of the yardage to score. The extra point was good, with completion of a short pass.

Beginning the drive for their second score, the Tigers took over on the Antelope 48. In the next play Post recovered a fumble on their own 48.

Then after four plays, an Antelope punt went straight up in the air and behind the kicker. Howard Limmer took the ball on about the 10 yard line and ran for the score. Extra point attempt was good. That left the score at Slaton 14, Post 0.

Early in the second quarter the Tigers took over on their own 23, drove to the 46 yard line. Carries by Franco and Fulcher put the ball on the Post 35. Adamek and Fulcher carried down to the 29, where a pass was completed to Adamek on the Post 16. From that point Fulcher carried over into pay dirt. With the score 20-0 for Slaton, some 3:29 minutes remained in the second period.

The Tigers began the third period on their own 15, and drove in 8 plays down to the Post 10. Franco took two plays to drive the ball up to the 7 yard marker, where Fulcher went over for the score. Extra point attempt was no good.

With Slaton taking over on downs after Post's Noel Don Norman had been smothered while attempting to get off a pass, the Tigers drove from the Post 48 to the Antelope 4. Lavo Reed carried, and an offside penalty against Post put the ball on the 1 yard line. Randy Sanders scored on a keeper play.

Extra point conversion was good when Giles Smith carried through the line into the end zone.

Final score was Slaton 33, Post 0.

A SLATON HOMECOMING?

Interest shown in the Ex-Letterman's Homecoming held at the Slaton-Post football game last Friday night certainly speaks well for the members of the Slaton Junior Chamber of Commerce.

This year's letterman's homecoming was promoted, according to Jaycees spearheading the effort, as a sort of "feeler" to see what the interest would be in expanding the event to a homecoming for all ex-students of Slaton High School.

Invitations were sent out to about 250 ex-lettermen. Registration Friday night neared the 100 mark. That in itself should indicate a need for some sort of ex-student organization for our local schools.

Spur, for example, this year will hold a three-day affair for its homecoming. A pep rally on Thursday will begin the Bulldogs' homecoming activities. A downtown parade on Friday, with several bands from surrounding towns participating has been scheduled. Friday night the climax of the celebration will be the Abernathy-Spur football game. Class reunions and a barbecue are on the agenda for Saturday.

A pat on the back to our Jaycees is in order for getting things lined up for a possible homecoming for Slaton exes . . . and it's up to the rest of us to get in there and push in order to put it over. A few people working toward an annual homecoming can't get it done—but a little help from everyone will see it accomplished.

A COMPLEX OF CAUSES

Some people, FBI Director J. Edgar Hoover among them, believe that the breakup of the American home is responsible for the nation's tremendous increase in juvenile delinquency. Though there is something to this, it is by no means the whole story. It can be demonstrated that a very big proportion of delinquents come from broken homes or homes in which there is marital maladjustment and strife. But back of this is the question as to why there is so much erosion in the family today.

Earlier this year the Minnesota state commission on juvenile delinquency, adult crime and corrections pointed out that the rapid industrialization and urbanization of American society has had much to do both with family difficulties and the increase in delinquency. There are many forces in our mobile technological society that play on the old bases of family solidarity. Until we perfect means for shoring up the family against this onslaught we will have increasing social difficulties.

Many plausible explanations for increasing juvenile delinquency have been advanced. The breakup of families is one of them. But we have to go beyond any one simple explanation if we are really to act effectively. Delinquency is a social complex. There are many, many causes, and these can be overlapping and interacting.

When we simplify too much in this area we are likely to miss the tough, complicated problems that confront us. When we congratulate ourselves on an easy answer we evade the hard work that must be done if we are to find a solution.

BILLION UP IN SMOKE

Americans are setting one record this year that is no cause for rejoicing. Fire losses are almost certain to pass the billion dollar mark for the first time by year's end. That would be more than 10 million dollars above the previous record high set in 1956.

Some of the fire loss increase can be blamed on higher costs. That does not, however, explain away the fact that the number of fires is on the increase. Last year, for example, there were 865,561 fires; in 1942, there were only 650,335.

The obvious question that comes to mind is: What can we do about it? The answer is that we ought to step up the pace of what we have been doing—schooling ourselves to recognize and correct fire hazards, and taking the precautions dictated by common sense and experience. Organized fire prevention training has paid off handsomely in the past, and it will continue to do so.

Despite the effectiveness of fire prevention programs, it still remains true that curbing fire losses is an individual as well as a community responsibility. Consider, for example, the fact that about 26 per cent of the nation's fires are caused by matches and smoking. The smoker, the user of matches, is the one who can act more directly to reduce this particular fire hazard. The same thing is true, in varying degree, of the other leading causes of fires.

The fact is that here, as in many other situations, the individual must carry his full weight. He cannot shrug and depend on concerted action in the community. On the contrary, he himself, multiplied by all the millions of our population, is the best tool for cutting down on fire loss. A tool, to be effective must be used.

THE QUEEN'S MESSAGE TO YOUNG PEOPLE

IT IS SURELY AN ENCOURAGING SIGN THAT THERE IS A RISING GENERATION ACTIVELY PREPARED TO GO FORTH INTO THE WORLD TO SERVE GOD FAITHFULLY. WE KNOW THAT WE SHALL PROBABLY BE IN THE MINORITY WHEREVER WE ARE. WE KNOW THAT WE SHALL HAVE TO FACE INSECURITY, OPPOSITION, AND, PERHAPS, DANGER FOR THE CONFESSION OF OUR FAITH. BUT THE CHRISTIAN CHURCH HAS ALWAYS PROSPERED IN ADVERSITY, AND WE MUST CERTAINLY NOT BE AFRAID.

STRENGTH FOR THE WEEK

A VITAL FAITH
"Thy faith hath made thee whole." Mark 10:52

The story of blind Bartimaeus is a simple one. That is to say it involves no reasoned theology, no articulated logic, no long excursion in psychology. There is no tragic struggle of the soul. Yet the story is symbolic of the most profound realities of the Christian religion.

What is religion? From the multitude of definitions let us select one of the best: Religion is religion, meaning the right relation of the individual to God and fellow man.

What is it that brings us into right relation? The answer of the New Testament is instant and constant. It is the answer of blind Bartimaeus—a vital faith. A vital faith springs from a consciousness of need. Bartimaeus was blind and knew it. He was a beggar, and he knew that. There is a need we too are to be conscious of; namely that we are sinners, and stand in the need of forgiveness. We are spiritually blind, and we know it. A deep sense of need is nothing to be ashamed of. It is something to be proud of. It tells of our kinship with God. It says we have a destiny beyond the seen and temporal. It proclaims that we are citizens of two worlds.

A vital faith lays hold on Christ with strong vigor. Let the rabbi call Him impostor, let the crowd say, "After all he's only the carpenter's son." Bartimaeus knew better. Like many blind men his ears were quick, his intuitions sure and swift. He calls upon Jesus in his true character: "Thou Son of David, have mercy on me." We to will lay hold on Christ, through our

faith. We too will call upon Him for mercy upon us. A vital faith seizes opportunity. Too many are unaware when Jesus is passing by. They think they can do what they please and nothing will happen. They pay the penalty. Not so much in what happens, as in what does not happen. Jesus' response to blind Bartimaeus, as to every man, is immediate and all-sufficient.

The text of every man is in the words: "and followed Jesus in the way"—the way of vision, of peace, and of abundant life.

Timely Check in Order for Farmer Claiming Social Security Payment

Now would be a good time for South Plains farm and ranch operators in the area serviced by the Lubbock Social Security Office to take a long look at their earning prospects for 1957, according to John G. Hutton, district manager of the Social Security administration.

The particular farmers referred to are those who have filed claims for social security payments and were under age 72 on January 1, 1957. Some of these persons have had their checks suspended, while others have had them arriving each month, depending on how much they estimated their 1957 earnings to be.

Rain—too much or too little—and other workings of nature may have caused their original estimates to be too high or too low. As a result, some of these persons who have had no checks this year could get them, and others who have been receiving their checks should have them stopped.

This comes about, Hutton said, because of the earnings restriction for beneficiaries not yet 72. If net earnings for the year are \$1200 or less, the claimant can collect all 12 retirement checks from Social Security for that year. If net earnings are between \$1200 and \$2080.01, some benefits may be payable for the year.

If earnings are expected to exceed \$2080, generally no social security checks would be payable for that year since such persons are not considered "retired" within the meaning of

the Social Security Act. Persons living a considerable distance from Lubbock representatives visit all counties following a schedule available at the local post office.

A representative will visit Slaton at the Red Cross City Hall, at 9 a.m. Tuesday, October 15.

TV AND YOUR CHILDREN . . . Is television good for children? The overwhelming opinion of educators and child psychologists reporting to a recent survey indicates TV is WONDERFUL for children IF PROPERLY SUPERVISED! More than that, television can be an excellent educational aid for your child—according to some educators, as important as another class in school. Television does NOT hurt a child's grades in school . . . if his viewing habits are carefully supervised.

Taken from the files of The Slatonite dated October 12, 1956 James Wolfe, the oldest elder in the church, turned the first shovel of dirt at the ground breaking for the new Church of Christ building last Sunday afternoon at 3:00 p.m. The \$61,760 edifice will be located on Division Street just west of the present building.

The church was started in the early days of Slaton, with a few members among whom were the late Mrs. W. E. Smart, the Trammel families and the Blondells.

The Slaton Garden Club met on October 3 in the home of Mrs. O. Z. Ball. Mrs. F. A. Drewry was co-hostess. A program on planting and culture of bulbs was presented by Mrs. V. G. Browning. Mrs. J. D. Holt conducted a quiz on horticulture. The coffee table arrangement for the month was of pink roses, arranged by Mrs. H. T. Swanner, and Mrs. Bruce Pember.

Present at the meeting were: Mesdames B. A. Hanna, Webber Williams, R. E. Ayers, J. S. Edwards Jr., Clifford Young, Grady Wilson, Edwin Haddock, Dudley Berry, V. G. Browning, J. D. Holt, A. M. Jackson, E. R. Legg, Jack Nowlin, A. E. Whitehead; and a guest, Mrs. August Kitten.

Miss Joan Pember, daughter of Mr. and Mrs. Bruce Pember 905 W. Garza was recently initiated into Phi Eta Chapter of Delta Delta Delta at Texas Technological College.

Richard Perry of Sandia Base, Albuquerque, spent the first of the week with his parents Mr. and Mrs. Francis Perry.

Taken from the files of The Slatonite dated October 10, 1952 Prizes of \$2.50 each have been awarded to eight elementary school students here for drawing the best posters during Fire Prevention Week, Oct. 5-11 a nationwide promotion sponsored locally by the Slaton Volunteer Fire Department. The winners announced yesterday by Fire Chief Elbert Wilson, are Allan Lee Reasner, first grade; Tommy Cheek, third grade; Nancy Lee Coleman, fourth grade; Barbara Childress, fifth grade; Floyd Horton, grade 6-A; June Lytle, grade 6-B; Greta Ann Brookshire, grade 6-C and Louise Moore, seventh grade.

A stork shower in the form of a seated tea honoring Mrs. Don Crow was held in the home of Mrs. Howard Hoffman Wednesday, Oct. 1, with Mrs. Hoffman and Mrs. Vern Johnson as hostesses.

Slaton Junior High School recorded its third consecutive gridiron victory of the year last Thursday night here, rambling to a 35-0 win over Tahoka Junior High.

TORNADO WARNING in time can spell the difference between heavy loss of life and light casualties when the twisters sweep into populated areas. Under the experimental Weather Bureau program for tornado tracking by radar and telephoned visual reports, adequate warning could be broadcast so that local civil defense, police and firemen could evacuate residents or advise them to seek cover in basements. This drawing shows how such a warning station at Lincoln, Neb., might alert the inhabitants of Dorchester, Neb., in the expected path of a twister. The twin funnels are an unusual phenomenon—most tornadoes occur singly. (Courtesy A. Leydenfrost)

Distributive Education Notes

by Raymond M. Smoot

The term "Distributive Education" is comparatively new, and I'm sure there are people who do not know just what we mean when we use the term. There are any number of definitions, but here is a simple one that will help you to know what we mean and to understand what is going on when you hear of Distributive Education.

Distributive Education is a planned program of work for students who need to work or who just want to work part-time and go to school. The area of employment are in the retail, wholesale, and service-selling fields.

As coordinator of Distributive Education, I want to tell the businessmen of our community that I am highly pleased with the response we are getting to our program of work.

Our department is growing, and with the wholesome attitude that exists between our school and our community, there will not be any problem in making D.E. a full time program of work within one year.

I told you last week that we would give the names of students and their station of service in this week's column, and here are most of them. Others will be given later.

Students and their place of employment include: Joe Diaz, Fondy's Shoe Shop; Roy Wilson, Schuette Service Station; Jerry Jones, Geer's Texaco Service; John Foster, C. R. Anthony & Co.; Ronald Heinrich, Heinrich Texaco Service; Robert Miller, Eaves Grocery; Derrell Payne, Caprock Drive In Theater; Opal White, Slaton Variety; Frances Flores, Ben Franklin Store; Lupe Parra, T.G.&Y. Store; Ruby White, Slaton Steam Laundry.

There are other students in the D.E. classes who need employment, and there are others who want to come into the class, but we are not going to load the class with prospective students any faster than we have good possibilities for employment.

We have several good places that are about ready to be filled and there are others who have indicated they want to employ a student. It is going to be my goal and ambition to have a student to fill every request we have.

The D.E. Department had a class meeting last week, and here are the officers who were elected: Jerry Jones, president; Joe Diaz, vice president; Echo White, secretary; Delma Tucker, treasurer; and John Foster, sergeant-at-arms.

If you are interested in employing one of these high school students, please contact me at home, VA 8-4889, call the school, or call the Slatonite. It isn't always possible to get just the student you want when you want them, but if you will give us time, we are going to do our very best to develop our department into a service organization that will do a worthwhile job in our community.

The railroad's share of every dollar spent by American people for food products is less than 4 cents.

Daniel Defoe, creator of "Robinson Crusoe," wrote some 30 books in the last four years of his life.

Prospective home buyers and builders in small communities and members of minority groups will greatly increase their prospects of obtaining financing for their homes if they make use of the facilities offered by the Voluntary Home Mortgage Credit Program, Housing Administrator Albert M. Cole, said recently.

"In spite of the tight money market, the new 5 1/2 per cent interest rate on Federal Housing Administration loans is sufficiently attractive to enable VHMCP to obtain private financing to meet the needs of all qualified borrowers," Cole said.

"In addition to being Housing Administrator, Cole is also chairman of the VHMCP's National Committee.

"The availability of funds coupled with the lowered down payments on FHA-insured mortgages," Cole added, "can result in quite a spurt in homebuilding in small communities if prospective home buyers and home builders take advantage of the VHMCP's facilities."

VHMCP was established by Congress in 1954 to serve as a nationwide mortgage clearing house by bringing together persons who are unable to obtain FHA or VA financing for homes from local banks or lending institutions all over the country.

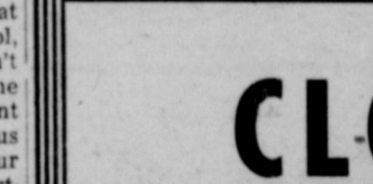

Mrs. M. D. Gamble accompanied by her sister, Mrs. V. L. Cade of Lubbock, attended homecoming at Goree High School last week end. Mrs. Gamble visited with a cousin, Mrs. Walter Williams, and her husband while there and Mrs. Cade visited with her brother, Sam Hampton, and family.

who are in the market for such mortgage loans. Region XIII, which serves the states of Texas and New Mexico, has its office at 1114 Commerce street, Dallas. C. J. Hermann, executive secretary in charge of the office, reports that 2,350 loans, totalling \$19,750,000 had been placed through August 1957 with private lenders for the purchase or construction of private dwellings in these states. On a nationwide basis, \$275,422,929 with private lenders in the same period.

VHMCP's services are available to all persons in communities and to minority groups anywhere. Applicants for obtaining loans with VHMCP's assistance must certify that they have denied loans by two reasonably accessible institutions.

THE WEEKLY WITNESS by BRYAN ROSS

Westview Baptist Church
830 S. 15th St.

One of the misunderstandings in the Bible is the matter of salvation by grace through faith. Possibly one of the reasons for this difficulty is because of the various beliefs as to what faith is. Poss. James 2:14 and 17 has added to the confusion. We read in verse 14, these words: "What profit, my brethren, though man say he hath faith, and it not works? Can faith save him?" We read in verse 17: "Even so faith, if it hath not works, is dead, being alone." The only way to reconcile these verses with Ephesians 2:8 and 9 is to understand that faith is, Ephesians 2:8-9 says: "For by grace are ye saved through faith; and that not of yourselves; it is the gift of God: not of works, lest any man should boast."

Next Sunday morning, 11:00 o'clock, I will bring message on the subject, "Faith and Works." You are invited to come and worship with us Sunday.

The Texas Safety Association is asking motorists, this month, to remember that it is a state law to Stop when School busses are loading or unloading children. Then proceed with caution at a speed not to exceed ten miles per hour.

"Driver lost control of car"—these are words that repeatedly appear in traffic accident reports. What this really means, says the Texas Safety Association, is that the driver was driving too fast for conditions and didn't actually have complete control of his car in the first place.

If you MUST drink a toast to your favorite team's football victory — wait until you get home, advises the Texas Safety Association. Last year, in Texas, 39 percent of all rural fatal accidents involved a drinking driver.

CANAL CASUALTY—That which is missing is what is significant about this picture. Absent from the site of Egypt's brooding pyramids near Cairo are the tourists. They often fill the benches dotted across the nearby desert as points from which to observe the ancient tombs of the Pharaohs. The tourist trade is a casualty of the Middle East unrest, scuttled for the time being as surely as the hulks which block the Suez Canal.

HIGHLIGHTS AND SIDELIGHTS FROM YOUR STATE CAPITOL

AUSTIN, TEX. — Gov. Price Daniel apparently is going all out to get the balance of his 1957-58 program adopted into law.

Special legislative session begins Oct. 14.

In recent speeches over the state Daniel has plugged for lobby control and a crime commission. More talks were scheduled—one on water conservation in San Antonio and another in Liberty.

In addition, the governor has made some outspoken statements on federal-state relationships. Excerpts from his busy round:

CRIME—Present criminal code, says the governor, "is so antiquated that it protects the convicted criminal more than it protects the public."

He asked for a state law enforcement study commission that would make recommendations to the next regular Legislature on how crime and highway accidents can be reduced.

Texas crime rate is rising faster than it population, 46 percent of it by juveniles, said Daniel. (A recent FBI survey showed that during the first half of 1957 Texas has had an increase, up to nearly 10 per cent over 1956, in every type of major crime.)

LOBBY CONTROL—Opponents of this bill are trying "to picture it as a struggle between business and labor," said the governor.

"This is ridiculous... the bill would require registration of those employed by both labor and industry to influence legislation.

"Vast majority of Austin lobbyists are legitimate operators who identify themselves and honestly perform their work. They have nothing to fear from this bill."

Opponents of the bill, said Daniel, are "modern-day carpetbaggers who hide their identity and improper expenditures."

FEDERAL SCHOOL AID—"Full responsibility for the operation and financing of public schools should be exercised by the states and their political subdivisions."

Governor Daniel sent a resolution to this effect to the Federal State Action Committee meeting in Chicago.

"With federal dollars comes federal controls," commented Daniel. As a single exception, Daniel favored federal aid for schools with a heavy enrollment from U.S. military installations.

LITTLE ROCK CONTROVERSY—Governor Daniel suggested that both President Eisenhower and Arkansas Gov. Orval Faubus has fumbled in handling the school integration problems there. Neither, he said, had "exhausted every means at their command" to avoid a violent showdown.

"Of course, here in Texas," said the governor, "we would have sent a couple of Texas Rangers to handle the situation."

BRIGHT FUTURE—Texans can look forward to more money, but a little less elbow room in the next few years.

So says U. S. Sen. Lyndon Johnson in predicting a population of 12 million for the state by 1975 with a total personal

income for some 9,500,000 people compares with a \$9,000,000,000 income for some 9,500,000 people in the past few years.

Senator Johnson forecast a 1975 farm output of \$2,900,000,000, up a billion from now, and factory production worth \$8,600,000,000, nearly three times present production.

But, said Johnson, we cannot operate a \$24,000,000,000 state on the basis of our present water use. The rosy prospects for the future will quickly vanish unless we act to control our water resources.

"Texas," he said, "is a growing giant wearing last year's shirt. It's going to strangle, he said, unless there is quick action."

WEATHER TOLL — Cost of Texas' natural disasters in 1957 would be \$12 for every man, woman and child in the state.

Latest Civil Defense Department reports put the year's toll from blizzards, floods, tornados and Hurricane Audrey at 61 dead, 638 injured and \$100,000,000 in property damage.

Once again, said Department Director William L. McGill, Texas holds the dubious distinction of being first in the nation in major disasters.

TB IN TEXAS—Startling facts revealed about tuberculosis in Texas came from Dr. Patrick McShane, head of the state's TB hospitals.

In a twin-panel session composed of newsmen and doctors, Dr. McShane reported that 22,000 Texans have active tuberculosis. One out of three persons has TB germs in his body.

"Texas spends \$6 per patient per day on its TB hospitals," Dr. McShane advised. "And we rank in the bottom fourth on what is spent in trying to get them well."

SCHOOL PANEL NAMED — Way is clear for a new study into needs of the public school system. Six appointments by Gov. Price Daniel completed membership of a new commission created by the last legislature to do the job.

Daniel's appointees: Dr. J. W. Edgar, commissioner of education; Dana Williams, Gladewater superintendent and president of the Texas State Teachers Association; Ed Ray, executive editor of the San Antonio Express and Evening News; Mrs. L. E. Dudley, Abilene; H. K. Jackson, Gatesville; Felix Tiperina, Houston.

Six appointments each were made earlier by the Speaker of the House, the Lieutenant Governor and the department of education.

BUSINESS YEAR UNCERTAIN —Despite its present high level, Texas business faces uncertainties in ending the year.

There is little evidence pointing to any substantial rise, observes Dr. John R. Stockton, director of the University of Texas Bureau of Business Research. Causes for concern; softening of the building outlook, slackened expenditures by the federal government and business concerns. Bright hopes: expanding expenditures by state and local governments, high level consumer spending, continuing population increases.

SHORT SNORTS—House Speaker Waggoner Carr is entitled to use capital quarters for office space, Atty. Gen Will Wilson has held in an opinion requested by the State Comptroller. Salary for a secretary and expenses for stationery, supplies, telephone and telegraph also were approved. . . John H. Hargrove has been appointed chief of the staff services division of the State Insurance Department by Commissioner William A. Harrison. Hargrove was formerly with the Texas Research League.

Rediscover America

COLUMBUS DAY • 1957

Yes, it's time to rediscover America — the land of freedom, opportunity and progress. Time, too, to discover that freedom, opportunity and progress have many enemies — right here in our own country. Enemies who say the government should be in business, should provide our medical care, should control the education of our children. Rediscover America — and the American Way of Life — before socialism traps you and your children.

Home Economics Girls Doing Practice Teaching At Slaton High

Everyone noticed the two girls walking around in the Slaton High school building. They are Mrs. Ainsworth and Mrs. Robert Ralston, who are doing student teaching here.

They are attending Slaton High School and will graduate in 1958. Mrs. Ainsworth and Mrs. Ralston will be about eight weeks.

Mrs. Ainsworth was graduated from Van-Cove High School in Arkansas, and then started to teach where she is majoring in home economics. She is a member of the Home Economics Club and was a third grade teacher in an elementary school in Slaton for two years.

Mrs. Ralston has been married four years. Her husband is teaching in Rush Elementary School in Slaton and is doing graduate work at Tech. They reside at 10th street in Lubbock.

Mrs. Ainsworth majored in home economics because she was interested in it and she is a homemaker in her home when she completes her education.

Mrs. Ralston came from Dallas where she was graduated from Highland Park High School. She is also a home economics major at Texas Tech. She finishes her student teaching here she will live in

the Home Management Building at Tech.

Mrs. Ralston is a member of Delta Gamma, Future Teachers of America, Christian Organization of General Service-SMU, and the Home Economics Club. In her leisure time she likes to play tennis. When she graduates she would like to teach in Lubbock.

Mr. and Mrs. Ralston live at 4209-B on 34th Street in Lubbock. They were married August 24, 1956. Mr. Ralston is attending Tech and is an architect.

J. O. Musick, General Manager of the Texas Safety Association says, "There are approximately 8,000 school buses in Texas. These buses make thousands of stops each day. If you overtake or meet a school bus that is loading or unloading passengers, the Texas law requires that you come to a complete stop. You may then proceed — with caution — at a speed not to exceed 10 miles per hour. For the children's sake, and your own, please obey this law."

In its earlier years Detroit was proclaimed as "the Constantinople of the Western World."

Mahon Lauds Distress Loan for Milo

Representative George Mahon of the 19th District this week commended officials of the Department of Agriculture for announcing a special distress loan on milo. The loan has been urged by farmers and farm groups, and Mahon had presented the request to the grain branch of the Department of Agriculture early in September.

The distress loan will provide milo producers with a special loan equal to 80 per cent of the regular loan. It is designed to aid producers who are unable to take advantage of the regular loan by reason of the lack of storage facilities. The producer would have 90 days, or not later than March 31 of next year to locate storage and convert his distress loan into a regular loan. Details of the program are avail-

able through County ASC offices.

The distress loan is necessary by reason of the very heavy milo production, limitation of elevator capacity and the critical shortage of boxcars to transport the milo to available storage.

Mahon said that it was his hope that the distress loan would tend to stabilize the marketing of the milo crop. He said that he hoped the new program would not have to be used in a very big way as it had certain disadvantages and was primarily meant as an aid to a more orderly disposition of the crop.

At the same time the distress loan was announced, a 3 cents per hundred weight increase in the loan rate was announced. The previous rate was an interim rate. The new rate is the final rate for 1957 milo crop.

Mrs. Fannie Patterson has returned home after spending three weeks with her daughter and family in Houston. While there she attended the wedding of her granddaughter, Pat Lawson. She was accompanied home by another granddaughter, Joan Lawson, who will spend a few days of her vacation in Slaton.

Double Trouble on Hand for Drivers Engaged in Nighttime Driving

"Slow down at sundown!" J. O. Musick, General Manager of the Texas Safety Association, warned motorists today. His appeal came as a part of the safety-after-dark program of TSA.

"Since nighttime doubles traffic troubles, the driver has to soft pedal the gas pedal — he has to watch out for the lives of others as well as his own."

He emphasized that a driver must be alert at all times and

expect the unexpected. Sometimes children dart out from behind parked cars, or bicycle riders make turns without signaling, or an animal wanders onto the highway. Musick also mentioned that when drivers become drowsy or fatigued, they should stop for a short nap or a brisk walk around the car.

"If a driver must stop at night, it is imperative that he always pull completely off the road and leave on his parking

and dome lights," Musick said. He particularly stressed the fact that night driving is different from daytime driving. Motorists must adjust to that difference by putting their guard up when the sun goes down.

"Fourteen percent of the 2,611 traffic fatalities in Texas, last year, occurred in the three hour period from 5 p.m. to 8 p.m.," Musick said. "Thus, emphasizing the slogan that 'Dusk brings death' on the highways."

A COMPLETE AUTO SERVICE FOR WILSON

A 25,000 bale increase in the 1957 High Plains cotton crop estimate during September has pushed the October estimate past 1,700,000 bales, according to county estimates released early this week. Estimates were made by the Lubbock Cotton Exchange and the Plains Cotton Growers, Inc.

The September estimate totaled 1,688,000 bales for the 23 member counties of the Plains Cotton Growers, whereas for October the estimate is 1,713,000 bales.

With the crop estimate a bit larger, several agricultural officials admit that dryland cotton has suffered for moisture in some counties and the estimated yield has thus been reduced.

The September estimate of 216,000 bales for Lubbock County remained unchanged for the October estimate. Estimates for Crosby and Lynn Counties stayed the same, while that for Garza County increased 2,000 bales.

Ginning is underway in most counties with the bulk thus far from dryland fields and early-irrigated cotton. More warm weather is still needed to speed up maturity. An early frost still is the top danger feared by most high plains producers.

It could either see this crop estimate realized, or it could see a much smaller crop harvested depending on how late or early frost comes.

Golden Age Club Organized Here

At the organizational meeting of the Golden Age Club last Friday afternoon at the club house, Mrs. L. C. Odum was elected chairman of the club. Other officers named were J. H. Brewer, vice chairman; Mrs. Bessie Donald, secretary-treasurer; Mrs. S. H. Adams, chairman of transportation committee; Mrs. Fannie Patterson, chairman of kitchen committee; Mrs. I. C. Tucker, pianist; Mrs. R. H. Todd, song leader.

It was voted to plan the programs for a month in advance and place in the hands of the members. Meetings for the next month will be held each Wednesday at noon with a covered dish luncheon. The first of these luncheon meetings was held Wednesday of this week.

According to Mrs. Odum anyone interested in the club is invited to come and participate in the luncheons and recreation, whether they plan to become a member or not. "It is open to all adults," she said.

There will be group singing, games of 42, canasta and dominoes for everyone to participate in. Mrs. Odum says there will be instructors to teach those who do not already know how to play games.

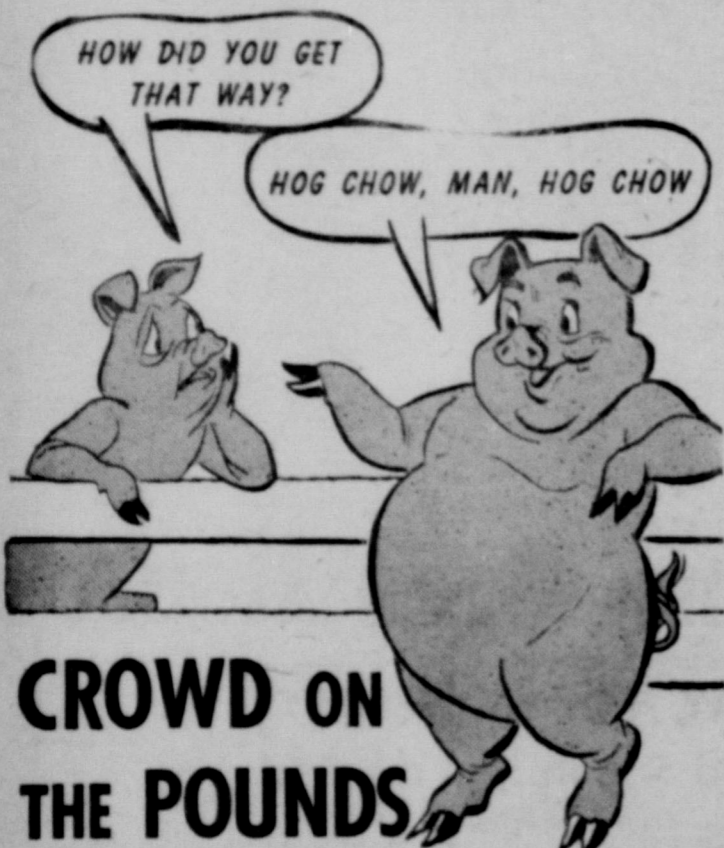

More than 60 attended the meeting last week.

River deltas are so called because their triangular shape resembles the Greek letter, Delta.

The word, "democracy," is Greek in origin, means literally "rule of the people."

Artificial teeth were considered quite fashionable by early Roman women.

A 25,000 bale increase in the 1957 High Plains cotton crop estimate during September has pushed the October estimate past 1,700,000 bales, according to county estimates released early this week. Estimates were made by the Lubbock Cotton Exchange and the Plains Cotton Growers, Inc.

The September estimate totalled 1,688,000 bales for the 23 member counties of the Plains Cotton Growers, whereas for October the estimate is 1,713,000 bales.
