For a laugh each week, check the first paragraph in the Davis Motor Co. ad. I'd like to know what joke book Mr. Howington, sales manager, uses.

Overheard this one at the Slaton Pharmacy. Bro. Sharp didn't know old snoop's ears were so good. Seems a preacher was talking about ideas, and remarked that "You can't shoot an idea with a gun," when an excited three-year-old shouted, "I can, I can."

Please do check the Whittington Grocery ad and go by and register for the drawing to be held Saturday. Who couldn't use an extra basket of groceries a week? Free Cokes, too.

Also worth checking was last week's classified ad. The one that read: "Wanted—Would like night work cleaning officers."

It is sure fine to see Whitey Guest up and around after his operation.

From the Big Bend Sentinel comes this quote from the "Omnibus" column:

A recession to us is much like the old boy who owned the little hot dog stand. He was a hard worker. He spent most of his time tending to his own business. He was deaf and therefore had no radio. He had very poor eyesight and so, read very little and had no television set. But, he put out a good hot dog and was well patronized. He advertised regularly in his home town newspaper and even erected a sign telling all passersby of his product. Business was good.

As time went on his business increased. He increased his meat order, which helped the wholesaler. He increased his bun order, which helped the baker. He increased his order for condiments, which in turn helped this particular wholesaler. He purchased a larger grill, which in turn brought business to the local appliance dealer. Then, to top it off, he took his son out of school to help run the business and added two more waitresses.

However, about this time things began to happen. His son, who had attended the school of higher education, approached the old man one day. "Father," he said, "Haven't you heard the news on the radio, and read the news in the papers. If money stays tight we are bound to have bad business. There is a big recession coming on. You had better prepare for a slackening off in your trade."

This gave the old man many sleepless nights. He weighed the problem pro and con. But he thought, "My son has been to college. He reads all the papers and news stories, he listens to the radio, he watches television, and he should know whereof he speaks." So, the old man cut down on his meat and roll orders. He slashed his mustard, onion, and condiment orders. He quit his newspaper advertising and took down his fine cafe sign. No more did he bother to tell people of his place of business and of his fine hot dogs. The results; his hot dog sales fell sharply, almost overnight. Finally the old man approached his son, as the bottom was about to fall out of his long-established business, his hard work going to pot and said, "You're right son, we are certainly headed for a recession."

Funds for Red Cross Aid in Tornado Disasters, Training Programs Here

Groundwork for the 1958 Red Cross Fund Drive was being laid this week as drive chairman Don Crow and co-chairman Hobart Trimpa worked toward completion of plans.

No quota has been set to date for the drive, nor have definite dates been planned.

In the South Plains area last year about \$130,000 was spent in rehabilitation of 160 families whose homes were destroyed by tornadoes.

Food, clothing and maintenance were provided for 11 families, 39 homes were built or repaired, furniture was provided for 115 families, and hospital and medical bills were paid for 29 families.

Truck loads of clothing, furniture, food, bedding, dishes, electric appliances and toys were provided for persons disabled by the tornado which struck Silverton last year. Twelve carpenters were sent by the Lubbock County chapter to assist in rebuilding.

The chapter also assisted in the rehabilitation of tornado victims at Ralls, Olton, Shallowater, Littlefield, and Leveland.

In addition to disaster aid, the Red Cross issued 416 certificates for water and swimming safety. Fourteen active instructors taught 39 classes within

Lubbock County. Throughout the county some 1266 persons were given instruction in first aid at the 48 classes taught at various schools. Among the groups receiving the instruction were Girl Scout leaders, Parent-Teacher Associations, and other groups.

In order to maintain the training and service programs on a level adequate for the needs of Lubbock County, an operating fund of \$70,000 is needed for the fiscal year July 1, 1958-June 30, 1959.

In speaking of the local Red Cross Fund Drive, Crow said that plans should be finalized by next week.

PROUD PRESIDENT—John Fondy, receives trophy from the appreciative members of The Slaton Rangers. A message was attached to the back of the trophy which read in part: "... To a man

WHAT SLOWS BUYING?

Are people not buying new automobiles because they have read four or five lines of an interview given to a journalist by some "prophet of doom and gloom?" Or are they not buying new cars because they cannot afford them? Or because they are fearful of the future and of not being able to meet future installment payments?

Similarly, why are not more refrigerators being bought? Are people listening to glum economists or reading technical articles about recession? Or do they have other reasons for sticking it out with the refrigerator which they already have?

It is easy for everyone to know why he or she is or is not buying. Merely ask yourself. This will serve as the best possible test of the charges of "doom and gloom" as far as these are related to consumer purchasing.

The idea that all talk of recession should be silenced because it keeps people from buying consumer goods is simply not in accord with the facts. Extreme pessimism is not justified by what has happened thus far, but it is equally true that a head-in-the-sand attitude is no help at all.

AFRAID OF CONCLUSIONS

A friend of ours who deals with young students tells us that too many of them today seem like sad intellectual sacks to him. He describes them as poor boys and girls who do not think, but merely believe that they think.

They incline, says our friend, toward a mere fetishistic fair-mindedness. Assign them a paper on a major issue of the current world, he says, and they will assemble the major arguments pro and con, state these in language which sounds like well worn cliches of newspaper columnists, and then avoid drawing any conclusion.

The pros and cons are set forth, but what does the student think about the question after having studied it? He'll let somebody else think. He merely leaves the two sides of the question on two sides.

The whole point of thinking is to try to resolve a problem by arriving at the most warranted and reasonable conclusion. All opinions are not equally valid or sound. Some are imbecilic; others are sensible. All evidence is not equally valid. Many alleged facts are untrue.

Too many of the students of today do not concern themselves about this. Yet to draw conclusions on the basis of the available facts is the very essence of the rational process. Not all students are guilty of failing to go beyond a mere statement of pros and cons, but this particular shoe does fit an alarming number of them.

Parents of a 15-year-old boy accused of killing a neighbor child wondered where and how their son "went wrong." When that problem can be solved probably 90 per cent of juvenile delinquency will be eliminated.

Who says there's no opportunity for old folks? Ted Williams, that 39-year-old baseball player, has just signed a \$135,000 contract with the Boston Red Sox.

We are inclined to berate TV rating systems which list our favorite program near the bottom of the score sheet.

Too many minds are like rich land never cultivated.

A survey taken among 600 Ohio high school students indicated that the average high school boy expects to spend from three to five dollars on an ordinary date. Time was when a young man who saved two dollars could get married—and if he had five he could go off on a honeymoon.

Whether we have enough money to go around usually depends on just what we mean by around.

STRENGTH FOR THE WEEK

"Now this is the way I look at that." You will hear these words often when a discussion of the Bible comes up. I will be the first to admit that a preacher or Sunday School teacher does not have a monopoly on Bible truth and knowledge. The way any of us look at a thing means very little if it is not backed up by the Scriptures. The Bible is, even though it is the word of God, a Book that must be studied to know and understand.

"For the prophecy came not in old time by the will of man; but holy men of God spake as they were moved by the Holy Ghost." II Peter 1:21. The Bible is the Word of God and is very clear in its commands.

Man has a duty and obligation to God. When He gives a command in the Scriptures it is not up to man to look at that command anyway except as it is given. While our country gives us the right to freedom of worship, God gives us definite

commands as, "Thou shalt have no other gods before me." Ex. 20:3. Also in Acts 17:30 "And the times of this ignorance God winked at; but now commandeth all men everywhere to repent."

There are some men that will take the Scripture literally when it says that the man is to be the head of his house. He proceeds to rule it with a rod of iron. This same one many times will settle down with the Sunday paper while his wife and children go to church. If any man is going to be the head of the family and do the job as he should, he must also take the lead in their spiritual life.

God also has commands concerning our children. Some parents say that they will not try to influence their children and will let them decide what church they will go to or, if they will go at all or not. How much freedom should a child have as to whether he will go to church or not? As much freedom as he does whether he will go to school or not. Or whether he will go to the doctor when he is sick or not. The Scriptures tell us to, "Train up a child in the way he should go; and when he is old, he will not depart from it." Prov. 22:6. There are some that contend that if you made a child go to church when he is young, it will turn him against church when he is older. That will not be true if you do it in the right spirit. Also go with him. Parents make their children bathe and keep clean in their youth. Very few turn out to be as Moonbean McSwine.

There is a place where freedom stops and indifference and carelessness starts. Parents need to be as Joshua of old. "But as for me and my house, we will serve the Lord."

Obedience to His Word will indeed bring "Strength for the week."

Rangers To Ride In S'graves Rodeo

The Slaton Rangers will make this year's first appearance in a full dress parade when they journey to Seagraves Thursday to take part in that city's annual rodeo.

Viewing in competition with 11 groups, the Slaton Rangers last year took second place trophy in the Seagraves parade.

According to the Ranger's president, John Fondy, the Rangers plan their next meeting for the first week in April. They will complete plans for a ride and camp trip, in which all members and their families will be included. Tentative plans call for the trip to be a two day affair.

The next competition will likely be in the Lubbock rodeo, according to Fondy, but it is not yet official.

—The Tiger's Cage

Nearly half the emigrants coming to the United States in 1905 were Italian.

READY FOR THE RAIN — When it comes, a field like this irrigated sorghum field will be ready to take the moisture and make the best possible use of it. Land such as this, in cooperation with Soil Conservation Service, has been conditioned for protection against wind erosion, and is ready to hold what moisture might fall. (Photo courtesy Lubbock County Soil Conservation District.)

A GOOD WAY TO SAVE—Surface irrigation pipe has proved to be a good way for farmers to save—both in money, water, and labor. By using the surface pipe in connection with underground concrete pipe, water is saved and erosion is prevented. The surface pipe cuts down on labor and requires less skill for its use. (Photo courtesy Lubbock County Soil Conservation District.)

Soil Conservation District Growing; 306,309 Acres Under Agreements

Steady progress toward a goal in any organization or business determines its lasting ability. The Lubbock County Soil Conservation District is no exception and the progress made in establishing enduring Soil and Water Conservation measures on the land in 1957 will bear this out.

During 1957 91 farmers became cooperators with the District. To date there are a total of 1213 cooperators covering 306,309 acres of land. From this total 355 were served and 796 established at least one conservation practice on their farm last year.

Practices These conservation practices included such things as 55,257 acres of crop residue management to help control wind and water erosion, 37 acres of windbreaks were established through the Soil Conservation District's Farmstead Arizona Cypress

Windbreak Program, 163 miles of underground irrigation pipe were installed and 1023 acres of land were leveled to conserve both rainfall and irrigation water.

Farmers are making better use of applying irrigation water and to prove this, improvement of applying irrigation water was done on 15,701 acres for the first time last year.

Crop Rotation These are just a few of the many conservation practices applied by cooperators last year. Others include sizeable acres of grass as a part of a crop rotation, proper use of rangeland, conservation crop rotation, terraces and waterway development.

Assisting farmers and ranches to apply conservation on the land is only part of the program the Lubbock Soil Conservation District helps carry out. The District sponsors a local essay writing contest open to all high school students; Soil Conservation Week and South Plains Soil Building Week in May and August, each with programs on radio, television and special newspaper articles; programs for civic clubs; awards for outstanding conservation work being done by farmers and business people. The churches devote one Sunday each year to observe Soil Stewardship Sunday.

Sponsor Programs Banks played a big part in making 1957 a success by lending the drive during South Plains Soil Building Week Civic clubs such as the Lubbock Downtown Lions Club, the Slaton Rotary and Lions clubs, and Slaton Chamber of Commerce hold special programs to honor outstanding conservation people in the District.

Many agricultural agencies also assisted the Soil Conservation District last year such as the Soil Conservation Service, Agriculture Conservation and Stabilization office, the Extension Service and the vocational agricultural teachers in the District.

Space will not permit having all of the many organizations and people who have assisted the District in carrying out its work, it would have been impossible to get as much conservation work done without their help.

Mrs. Mattie Dixon and her daughter, Mrs. A. L. Warren of Post were in Slaton last week assisting Mrs. Dixon's daughter, Mrs. Roy Hodges, and her family move from their home on 13th street to their present home on 20th street.

Mrs. Minnie Ward, her brother, J. W. Hood, and her son, Glen Ward, and family visited Saturday night in Lovington, New Mexico with Mr. and Mrs. John Meadows and Sunday in Denver City with Mr. and Mrs. Dell Ward and family Mrs. Meadows and Mr. Ward are Mrs. Ward's daughter and son.

Prompt Inspection of Vehicles Urged by Area DPS Officials

Out of 425,000 vehicles registered in Region No. 5, only 44 per cent have visited safety inspection stations and obtained their 1958 safety inspection stickers, it was announced today by Major R. A. Crowder, Regional Commander of the Texas Department of Public Safety.
"All registered vehicles in Texas must be inspected by April 15 and have an inspection sticker on the windshield," Major Crowder said.
He stated that there will be no extension of the April 15 deadline and advised motorists who have not had their cars inspected to do so now, before long lines start forming.
"In the past, many people have waited until the last few days of the inspection period to have their vehicles inspected and have had to wait in long lines at inspection stations," Major Crowder said. An inspection of the motor number, brakes, head lights, tail lamps, stop lights, horn, windshield wipers, and mirror will be made as part of the inspection as required by law.
According to the records of Captain Alan Johnson, of the Motor Vehicle Inspection Service of the DPS there are 42,000 vehicles registered in Lubbock county and only 27,900 or 66% of the vehicles have been inspected to date.
Captain Johnson had the same advice for motorists as did Major Crowder. He stated "By having your vehicle inspected today, you will be driving a safer vehicle."
Johnson suggested that all motorists check their vehicle and see if they have a current inspection sticker on the windshield and if not to have their vehicle inspected today in order to avoid the last minute rush.

Bagworms on Increase—Extra Caution Urged with Shrubs

Shrubby around your house may well take a beating this summer from the common bag worm, Dr. Donald Ashdown, Texas Tech professor of horticulture, predicts.

The bagworm population has been building up the past few years, Ashdown said. He pointed to the abundant evidence of the little spindle or bobbin-shaped cocoon bags hanging on tips of bare branches this winter.

Damage to the plant results from the worm eating the leaves. Much damage is already done by the time the homeowner notices the thinning foliage.

March 21: Mary Watson, Mr. Gerald Meador, Gaylon Porsch, Dannie Marsh.

March 22: M. L. Aberna by Mrs. Bruce Bridges, Judg. Smith, Mrs. Danvy Holt.

He suggested that the best protection for the trees and shrubs is a close watch for the small brown worm which begins to hatch about May 10. When the first to hatch get about as long as a match head then spray the plants.

Early steps to protect shrubbery may be taken now by pulling the bags off the branches and burning them. Ashdown said that spraying too early may be ineffective because of spring rains. But in any case it is best to spray before the worm matures.

The bagworm cannot spread without help. Hitchhiking is one of the favorite tricks of this little moth. As a small larva hunting adventure—but mostly food—he may climb aboard whenever a bird happens to perch near his abode.

If the bird takes off before the worm completes his inspection he gets a free ride to another tree, perhaps many miles distant.

The bagworm is found throughout the Southwest. Thyridopteryx empenneraeformis is the formal name for this little pest. More information about control of the bagworm may be obtained from the local County Agent's office.

STATE CAPITAL
Highlights
AND Sidelights
by Vern Sanford
TEXAS PRESS ASSOCIATION

AUSTIN, Tex.—[state's fiscal cupboard is bare at the moment. By the end of the month it'll probably be about \$20,000,000 short, says State Treasurer Jesse James.

Texas' treasury has been running in the red during spring months for several years. Situation corrects itself sometime after April when sizeable state tax payments come in. For more than a decade the state has come out solidly in the black by the end of each fiscal period.

This year Treasurer James predicts incoming revenue will wipe out the deficit by May or June.

But there's a difference this year, lagging oil revenue have choked off a sizeable hunk of expected tax income. Comptroller Robert S. Calvert, the state's official income estimator, sees another—and worse—deficit by next fall. By the end of the present budget period in August, 1959, he estimates the state will have spent \$32,000,000 "on the cuff."

This estimate holds even if oil production picks up within the next few months. Meanwhile, state banks are still cashing the state's warrants and holding them until the state gets money in to pay them.

A PENNY SAVED—With an eye on the state's depleted coffers, the Legislative Budget

Board is asking state departments to look for ways to pare expenses.

Board's letter calls on department heads to "review... each activity in your organization to determine if there is anything that can be eliminated without detriment to the citizens of Texas."

DEFENSE NEED CITED—It won't be just Texas that will suffer if oil importing continues, says Railroad Commission Chairman Olin Culberson.

In an Austin speech to members of Texas Service Stations Associated, Culberson took the usual swat at imports for draining some \$1,000,000 a day from Texas economy.

But above this, he said, is the danger to national security of the domestic oil industry if strangled and the country becomes dependent on oil fields "half a world away."

"It's suicidal," said Culberson.

He doesn't see prospect of cheaper gasoline from imports, said the Railroad Commissioner. Europeans, who get all their oil from the Middle East, pay from 80 cents to \$1.10 per gallon, he said.

NO TREND YET—Texas Employment Commission's latest report showed a slight drop in number of jobs—from 79,004 to 79,079.

But the change was not enough to indicate a "turning

point," the hoped-for spring upswing in job activities.

TEC's figures include only those unemployed persons covered by unemployment insurance.

DIFFERENCE IN VIEW—Texas Supreme Court is considering the arguments of rival groups of optometrists who don't see eye to eye on advertising.

One group, associated with Texas State Optical, contends a law passed by the last Legislature prohibits eye glass advertisements mentioning price. Opponents from Lee Optical declare the section of the law limiting advertising is unconstitutional. It wasn't mentioned in the caption of the bill.

Suit is part of a long history of legal maneuvering between competing optometry firms.

LOAN STUDY SET—Small loan study group of the Legislative Council will hold a series of fact-finding hearings over the state. First will be April 4 in Houston.

Numerous organizations and officials have, for some years, called for an overhaul of loan laws, charging that small borrowers have been exploited. State Junior Bar of Texas set the "loan shark problem" as its principal target at its recent meeting in Austin.

Sen. Abraham Kazen, chairman of the study committee, said any interested person with information or recommendations is invited to appear before the committee.

ANNUAL SESSIONS URGED—House Speaker Waggoner Carr of Lubbock wants Texas voters to approve a proposed constitutional amendment to provide annual sessions of the Legislature.

Carr is campaigning over the state for re-election to the speakership. Voter approval of annual sessions also is being urged.

Budgeting on an annual basis would be much more business-like and efficient, he said, than the present two-year plan.

SALARY SQUABBLE FLARES—Plans to supplement the \$15,000 salary to get a qualified executive director for the state hospitals and special schools has bumped into a lawmaker's indignation.

Sen. William S. Fry of Victoria said the supplement would violate the appropriation bill he helped to write. He said the \$15,000 salary was purposely set below that of several other staff members to reflect that the executive director was "serving" and not "over" the higher paid staff members.

Six applicants for one of the higher paid jobs reportedly turned it down because of the "unworkable" situation.

TAINT THAT TAINTED—No point in throwing away money, says the GOP, even if it's "tainted" oil money.

Texas Republican State Committee, meeting in Austin, voted to use \$100,000 raised by National Committeeman Jack Porter for its state budget. National GOP wouldn't touch the money after Eastern newspapers headlined Porter's fund-seeking letter which reminded Texas oil and gas men they needed GOP support to pass the natural gas bill.

State committee gave Porter

a vote of confidence in a resolution saying that New Dealers had distorted his intent.

SHORT SNORTS—Texans' driving habits seem to have improved thus far in 1958. Reports (not final) from the Department of Public Safety for the first nine weeks of '58 show a traffic death toll of 267 compared to 319 for the same period last year... Almost twice as many degrees are awarded in teacher education than in any other field in Texas state colleges and universities. Business administration, liberal arts, engineering, science follow in that order. Listing is by the Commission on Higher Education.

State revenue collections from liquor sales dropped \$300,000 in January below collections for the comparable month a year ago, Liquor Control Board figures show. January collections this year totaled \$2,201,306... Governor Daniel, as hard-beset as any Texan in this year of flu sieges, took to his bed for the third time. Members of the governor's family also have had the flu.

They all went to Lovington, New Mexico over the week end and visited with Mrs. Hanna's sister, Mrs. L. H. Chambers and family. The Findleys have spent the past three years in Alaska.

Mr. and Mrs. D. L. Burress and family from Abernathy were week end guests in the home of Mr. Burress' sister, Mrs. Glenavon Hill, Mr. Hill and family.

Mr. and Mrs. J. B. Hinson from Hobbs, New Mexico, spent Saturday with Mr. Hinson's mother, Mrs. Martha Hinson.

Miss Lois Ann Kendrick, a student at Wayland College in Plainview spent the week end with her sister, Mrs. Bill McCray.

Pee Wee Hunt's famous Dixieland jazz "Twelfth Street Rag Band" will provide entertainment twice daily during the show's run.

Show tickets are being sold by the Texas Tech Red Raider Club, which will receive all profits for use in its athletic scholarship fund.

The tickets, at \$1 for adults and 50 cents for children under 12, will be available at the showrooms of most West Texas and Eastern New Mexico dealers.

Mrs. Roy Jones
... the former Linda Kay Lusby ...

Linda Lusby-Roy Jones Marry in Post Ceremony

Miss Linda Kay Lusby and Roy Alton Jones were united in marriage Saturday evening, March 1, in the home of Mr. and Mrs. Oscar Gray at 815 West 6th Street, Post.

The Rev. Graydon Howell, pastor of the Calvary Baptist Church, officiated for the double ring ceremony at 7 o'clock before a mantle decorated with pink and white stock, entwined with greenery.

Mr. and Mrs. N. A. Lusby, Post, and Mr. and Mrs. Virgil Jones, Route 2, Slaton, are parents of the couple.

Recordings of "Because," "I Love You Truly," "The Wedding March," and "Melody of Love" were played during the ceremony.

Given in marriage by her father, the bride was attired in a dress of white embroidered cotton satin, styled with a sabrina neckline, three-quarter length sleeves, and full skirt. Her shoulder-length veil descended from a tiny band of flowers and rhinestones. She carried a bouquet of blue iris on a white Bible. She also carried out the tradition of something old, something new, something borrowed, and something blue.

Miss Freda Kennedy attended the bride as maid of honor. She wore a coffee sheath dress with matching jacket. Her accessories were bronze and she wore a white corsage.

Jerry Don Ross of Slaton served the bridegroom as best man.

Mrs. Lusby chose for her daughter's wedding a brown and white tweed suit, with brown accessories and a white corsage of carnations. Mrs. Jones wore a mauve printed dress with a mauve duster and white accessories. Her corsage was of white carnations.

Following the ceremony, the bride's parents were hosts for

a reception in the Gray home. The serving table was laid with a white lace cloth over pink. A three-tiered cake, topped with a bridal couple, formed the table decorations.

Members of the houseparty included Miss Kennedy, Miss Mozelle Edwards, Mrs. F. M. Reep, Jr., sister of the bride, Mrs. Gray and Miss Rhea Hays.

Forty guests signed the bride's book.

For a wedding trip to New Mexico, Mrs. Jones chose a blue knit suit with black accessories. They will be at home at Slaton, where he will be engaged in farming and as an employee of the local post office after April 11.

Mrs. Jones, a 1957 graduate of Post High School, is presently employed by General Telephone Co., Post. Her husband graduated from the Slaton schools and has been engaged in farming near there.

Those from Slaton attending were Mr. and Mrs. Virgil Jones, Mr. and Mrs. Joe Glasco, Mrs. J. W. Winchester and sons, Mrs. Bob Milliken and Jimmie Hogue.

Southland Woman Honor Guest At Professional Meet

Mrs. Alice Martin, Southland, whose hobby of photography was claximed recently with the acceptance by Life Magazine of a picture she made of a pet crow, was guest of honor Monday night at the meeting of the Professional Photographers Association of Lubbock. The meeting was held at the studio of Marinell Portraits, Slaton.

The picture of the crow, named Jim, appeared as a full page illustration in the magazine and showed "Jim" arousing his young master from a night of rest by pulling at the bed sheet. The picture also appeared in two London papers.

A success story of another woman was told by Frederic de Vries. The photographer was Alberta Rae Richards who has just completed a ten year project of searching and photographing 12 men whom she believes are typical of the disciples chosen by Jesus. Reproductions of Mrs. Richards' hand painted portraits were displayed as part of the story.

Photographers from Slaton, Lubbock, Post, Southland, Snyder and Hereford attended the meeting.

The Story of Diana Butterfly Editors note: This story, written by Cheryl Kuykendall, a third grader in Mrs. Virgie Hunter's room, is typical of the science these children are learning according to Mrs. Hunter.

"Mark McPherson brought a Chrysalis to school one day. Active life began when the egg was laid on a leaf and it was then hatched into a caterpillar. The caterpillar ate leaves and grew big. She made a chrysalis around her. It was then that Mark brought her to school.

It was ten days before the butterfly came out. It was a female. The top wings are black with white spots and the bottom wings are black with large blue spots. We named her Diana. She was one week old March 6, 1958."

Brownies Observe Scout Week

Brownies of troop 97 began National Girl Scout Week by attending church Sunday, March 9, in a group accompanied by their leaders and committee members.

The girls made a contribution to the Juliet Lowe Friendship Fund by measuring their waist and giving a penny for each inch measured.

They and their parents plan to attend the Girl Scout Birthday party at the Lubbock Coliseum, Friday, March 14 at 7:30 p.m.

Girl Scout Week Climaxed With Birthday Party Friday in Lubbock

Approximately 3500 girls in this area are having a birthday party and everyone is invited.

They are the 3500 members of the Caprock Girl Scout Council which includes 9 1/2 counties or 7 districts.

The party is to be held Friday, March 14, at 7:30 p.m. in the Lubbock Coliseum as a climax to national Girl Scout Week which begins March 9. The purpose of this special week is to celebrate the 46th anniversary of the founding of the Girl Scouts of the U.S.A. by Julietta Gordon Low in Savannah, Ga.

The program at the party will highlight the eleven program fields of Girl Scouting, according to Mrs. Sam Dial of Lubbock who is program chairman.

Scout programs throughout the year include these eleven fields. They are arts and crafts, music and dancing, literature and dramatics, community service, health and safety, home-making, agriculture, nature, camping, sports and games, and international friendship.

Each of the seven districts in the Caprock Council will take part in the program, Mrs. Dial explained.

TELEPHONE TALK

by J. C. Oakley, Manager

HEMO THE MAGNIFICENT

Remember, almost a year ago we introduced Hemo the Magnificent to you over television. This, as you recall, told the story of blood and its circulation, blending information with entertainment in presenting this complex and fascinating subject. The film "live" actors, cartoon characters, animated sequences, and X-Ray movies in telling the story of blood.

Since this showing last year there has been thousands of showing of this film in our public schools and all over the nation.

The response has been terrific and the Telephone Company is again giving you the opportunity to see it over Channel 11, Lubbock, Sunday, March 16 at 4:30.

NEED PRIVACY?

Have you ever wished you could have a little more privacy on some of your telephone calls? Well, there's an easy way to solve your problem. Put an extension phone in your bedroom or kitchen.

You'll have privacy on your calls and you'll find extension phones are convenient, too. No more running from one end of the house to the other to answer the phone, only to find the caller has hung up. You'll be surprised at the number of steps conveniently located phones can save you in a day.

And an added touch for the housewife with good tastes... a phone in color. We now have phones in nine bright colors plus black to blend or contrast with any colors in your home.

Extension phones are low cost, too. Here in Slaton an extension costs you only \$1.00 a month plus a small, one-time installation charge. Just call the business office and pick your extension telephone in color today.

ONE-THIRD OFF!

No, we're not having a sale "for a limited time only." It's an everyday offer to save you one-third of the cost when you call Long Distance station-to-station.

Long Distance charges for station-to-station calls are about one-third lower than for person-to-person service.

Here's a sample: A person-to-person call from Slaton to Dallas costs \$1.75. It's only \$1.10 when you call station-to-station. You save 65c. It's like getting one call FREE for every two you pay for. So, why not plan now to make all your Long Distance calls station-to-station?

Call by number. It's twice as fast.

Officer: "How do you get along without a speedometer?"

Motorist: "Well, when I git to drivin' fifteen miles an hour, my fenders start to rattle; at twenty-five the windows rattle; at thirty the motor starts knockin'—an' that's as fast as she'll go."

Judge: "The last time I saw you I told you I didn't want to see you here again."

Prisoner: "Yes, your honor, that's what I told these policemen, but they wouldn't believe me."

Our policy is just the reverse of that of the judge. When a customer comes to our station, we want him to come back again and again, and we give the kind of service that makes our customers WANT to come back again.

Try us and see if that is not so.

Library Week Is To Be Observed

"Wake Up and Read!" is the theme for National Library Week which will be observed March 16-22. It will focus, with the help of radio, television, newspapers, business, clubs and schools, widespread attention on reading and on the importance of libraries of all kinds, from the old bookshelves at home to the vast collections in city, county, and university libraries.

In the shadow of the H-bomb, the generation of today must keep well informed if they must survive. Reading will take care of that. The newspapers carry the daily events that happen throughout the world. Even if something happened in Timbato, a thousand or so miles away, it might indirectly involve by some way or another the graduating senior of today or the first grade child of tomorrow. "Books and reading may well be one of our most effective weapons in our protracted and bitter war against the ism of evil—stronger than guided missiles, sturdier than hydrogen

bombs," says Jack Valenti, Houston public relations executive, and Texas Library Week Chairman.
