## Organization of baseball league for Latin teen-agers underway

Organization of a baseball league in Slaton for teen-age Latin American youth is underway, according to Vincent Franco, who will be captain of the team.

Working with Franco on the organization are Joe Rubio, who will manage the team, and Ernest Alvarado, coach.

Arrangements were made this week to purchase uniforms for the boys, and equipment was being secured as rapidly as possible.

Franco said that enough boys had expressed interest in the program to form four teams, while uniforms and equipment were available for only two teams.

Some equipment was still needed, he said.

Franco pointed out that no conflicts would be made with players now active in Pony League teams. He stated that no games would be played during the hours Pony League games were going on, and that arrangements had been made to play Pony League teams when no regular games were scheduled.

Land near the fiesta grounds has been made available to the boys for a playing field, Franco stated. Prior to beginning play there, a backstop must be built, and other work done on the field.

The men expressed appreciation to those merchants who had donated equipment and money for the program.

## Missionary Baptists will host Panhandle-Plains group Friday

Slaton's Missionary Baptist Church will host the Top O' Texas Fellowship Friday, June 20, according to the pastor the Rev. H. E. Summar.

Representatives from Missionary Baptist Churches from over the South Plains and Panhandle areas will gather at the church

beginning at 10 a. m., have lunch on the grounds, be in session during the afternoon, and be served supper in the evening.

## Mrs. Payne improving

Word was received in Slaton this week from Mrs. W. E. Payne, who was injured in an automobile accident several weeks ago, that she was progressing very well. She is convalescing in Houston at the home of her daughter.

## Quite ideal for Father's Day!

Jay Clinton is the name given the Father's Day package for Otis Rogers. The young man arrived about 6 a. m. Sunday, June 1 at Mercy Hospital.

The young man, the Rogers' first child, weighed 7 lbs., 9 oz.

## Installation of new pastor at Grace Lutheran planned Sunday, June 29

The Rev. Leroy R. Deans Jr. will assume pastorate of Grace Lutheran Church on June 29, at which time he will be installed by the Rev. W. B. Slaughter of Lubbock.

Installation will take place at the 8 a. m. worship service. Rev. Deans was ordained into the ministry last Sunday in his home church in San Antonio. He was graduated from Capital Seminary, Columbus, Ohio, on June 1.

Both he and his wife were graduated from Brackenridge High School, San Antonio, and attended Texas Lutheran College in Seguin.

Following his graduation from High School, he served two and a half years in the U. S. Navy in the South Pacific.

The Deans, who have three children, Regieann Susan, 8; Richard Allen, 6; and Jonathan Craig, 3, are expected to arrive in Slaton on June 23.

The Rev. F. A. Wittig of Posey has been conducting services at Grace Church since the resignation of the former pastor, the Rev. Henry Treptow, who has assumed a pastorate in Fredericksburg.

The regular schedule of services will be resumed July 6, with morning worship at 10:45 a. m. and Sunday School at 9:30 a. m.

Rev. Leroy R. Deans Jr. Lutheran Pastor

## Bible Baptists plan evening Bible school

Members of Bible Baptist Church will institute a new-type Vacation Bible School beginning Monday, when their school begins its one-week run in the evenings.

The pastor, the Rev. H. E. Summar, said that classes would be available for all ages—from adults down through children. Classes will be held from 7 until 9 p. m. Monday through Friday nights.

Rev. Summar stated that transportation would be provided for those needing it.

## Open house at bank Sunday attracts 1,000

Crowds estimated at about 1,000 people attended the Open House at the new quarters of Citizens State Bank Sunday afternoon and evening.

Guests were taken on tours of the bank's facilities, and were presented with souvenirs, small purses for the men, and rain caps for the ladies.

## Results told in girls summer program softball games scheduled Saturday

With activities of the Girls Summer Program well underway, competition between the girls is becoming rather keen. Results of free throw competition for 9, 10, and 11-year olds, as well as table tennis tournaments for 12 to 15 year olds have been released by the program supervisors.

Judy Lain placed first in the free-throw competition for 9-year olds, with Marsha Holloman placing second and Judy West third.

IN THE 10-YEAR old's contest, Joan Claiborne was first followed by Judy Angle in second place and Jane Tefertiller in third.

For 11-year olds, Linda Dodson took first place, followed by Paula George in second place and Luida McCain in third place.

For table tennis tournaments, Areta Privett defeated Jane Thompson, Margaret Meeks and Susan Lovelady to take first place in her age group. Susan came out second, and Margaret third. Susan defeated Linda George and Bonnie Cole to take

her place, while Margaret defeated Carol Walston and Bonnie Cole to take third place.

NELDA RAY TOOK first place in her age group, with Barbara George taking second and Jeanette George taking third place.

Nelda defeated Kathy Claiborn, Jeanette George, and Barbara George to take the title. Barbara downed Sue Armstrong, Norma Clark for her place, while Jeanette downed Mary Ruth Green and Norma Clark in order to win her honors.

Glenda Bownds defeated Judy Dunn, Patsy Patterson and Mary Lee Morris to place first in her tournament. In second place was Judy Dunn, who defeated Luidie Roach and Thelma Kid. Mary Lee Morris

## Twins 'do it together' idea follows through

Identical twins usually do things "together" while they're growing up, but after they're grown and married, it's usually a different story.

But Slaton's identical twins, Raymon and Ray Wilkins, have carried out the "do it together" idea past their teen-age days.

Both boys graduated from Slaton High School back in 1955. They were married the same year, in a double wedding, with both boys marrying girls named Betty.

As time went on, both had children—girls. Raymon's daughter is Sherry Lynn, while Ray's is named Angela Jean.

Though they're not living in the same town now—Raymon is in Abilene attending Hardin-Simmons University, both started out working for the Santa Fe, as clerks.

Well, time has gone on, and now Raymon and his wife have a son, Raymon Michael.

The Ray Wilkins are expecting their second child next month. And the whole family's rather excited... waiting to see if Ray will follow Raymon, and make their twin-like life continue... with a boy.

and Zana House were downed by Thelma Kidd in order for her to place third in the tournament.

ACTIVITIES in which the girls are taking part include basketball, softball, badminton, volley ball, skating and swimming.

Skating sessions are held each Thursday morning, with swimming sessions scheduled for Wednesday mornings. Softball games have been set for 7 p. m. Saturday at Pony League Park. Teams in the 9-11 age group will play the first game, while girls from 12-15 will play in a second game.

Coach M. W. Kerr is director of the program. He is being assisted by Victor Day, Linda Smith, and Peggy Ray.

## Slaton child admitted to Dallas hospital

Karen Denise Hagens, 18-month old daughter of Mr. and Mrs. Loyd Hagens of Slaton, was admitted Wednesday, June 4, to the Scottish Rite Hospital for Crippled Children in Dallas.

Texas Scottish Rite Masons founded the hospital 34 years ago in an effort to provide a chance at a normal life for the handicapped child. The hospital, which has accepted more than 100,000 children for treatment since 1925, is supported by public contributions and bequests.

Just to prove how effective the air conditioning system of Citizens State Bank really is, here's a story said to be a fact. Last week a farmer came into the bank to transact some business. After a few minutes he was really cooled off and soon began to shiver. Turning to a by-stander, the man remarked, "If it's still this cold when I get home, I'm gonna slaughter them hogs of mine!"

That's a true story, too, according to Hack Lasater.

While we're telling tall ones, here is one that is really true. It's anybody's guess as to what made Alita Jo Dees, 9-year old, Lubbockite, curious about the matter, but was asked her mother, "What nationality are we, Mother, Stallions?"

About two weeks ago there was a player on one of the league teams that did not have a catcher's mitt, and he wanted one more than anything. Those who knew of it, couldn't afford to buy it, because of expenditures already made toward the youngsters. Then word leaked out about the boy with no glove. Promptly the money was given. I do not know who the men were who bought the glove, but somehow I feel that the glove was to the boy what a cup of cold water would be to a tired and thirsty traveler, and Jesus said in Matthew 10:42 "And whosoever shall give to drink unto one of these little ones a cup of cold water only in the name of a disciple, verily I say unto you, he shall in no wise lose his reward."

UP AND COMING YOUNG MAN—Sonny Curtis, 21-year old Slaton resident, literally reaches for the stars as he begins a career of writing songs and recording them for DOT. Already released are the popular "Laughing Stock" and "Wrong Again." Both songs were penned by the young artist, as were "Willie May Jones" and "A Pretty Girl." The two latter songs are soon to be released. National attention came for Curtis, when

Terry Nolan, recording artist, sent a record to Bob Thiele, vice-president of DOT. Curtis made his first trip to New York in March, when his first record was made. He returned from his second trip in June. The picture above shows Curtis as he tapes his latest songs to be sent to a friend who is in the Navy stationed at Midway, and unable to obtain the latest stateside songs.

## Techniques in bi-lingual classrooms being probed by local school teacher

It's difficult to pass by Room 164 in Texas Tech's Administration building these summer afternoons.

From the room comes the sound of children's voices singing Spanish serenades or delighted laughter, perhaps in Spanish, possibly in English, from the voices of children and adults.

In any case, the activity is the kind that stops anyone with a little curiosity.

It can be—and is—serious school, the type which may well bring some distinctive changes in elementary classrooms.

BUT YOU'D NEVER realize the seriousness from watching the 33 teachers and 31 school children who are participating. They're having fun as well as learning.

The course is listed in Tech's

summer catalog as "Spanish 5335." Its purpose is to help Southwestern teachers cope with a bi-lingual problem—what to do when you walk into your classroom and find half your pupils speaking Spanish, the other half speaking English, and neither group able to converse with the other.

That happens in Southwestern schools. Mrs. Evelyn Boyd, one of the Slaton school teachers in elementary work, is enrolled in the course.

ANOTHER PURPOSE of the course is to experiment with ways to teach a second language to youngsters at an age when they want to learn one rather than in their teens when nothing could be farther from most of their minds.

Teaching the course is Dr. Faye Bumpass, an expert on instruction in English, as well as Spanish as a second language.

Dr. Bumpass has had many years of experience doing just that in Lima, Peru, and in the U. S.

She is author of several books on the subject.

"MODEL" STUDENTS are two groups: 16 pre-school Spanish-speaking children and 15 English-speaking children who have just finished the first grade.

There are no rigid dull language drills awaiting them. In fact they themselves determine how they will learn their second language. Dr. Bumpass finds out their interests and builds a vocabulary around those interests as she goes.

The needed words and grammar come almost spontaneously in the midst of games, dances, songs and conversation. Dr. Bumpass isn't in the center of attention long. After demonstrating the basic techniques,

the teachers enrolled in the workshop take over instructional duties and plan their own lessons.

ALTHOUGH IT MAY seem informal, actually the pupils are being led through the listening, repeating and enactment of each new concept of language.

Dr. Bumpass' teachers includes those with assignments in every grade through junior high school. One is a principal with a pupil population of more than 50 per cent Latin Americans.

Another is a junior high English teacher who is looking for ways to help her Latin American students get rid of excessive Spanish accents in speaking English.

Whatever their individual problems may be, Dr. Bumpass is providing assistance in solving them.

**WE'VE A DESIRE TO GROW**

In a world filled with uncertainty, of one thing we can be absolutely sure—time is marching on! Life might be compared to a reel of tape on a tape recorder. As the full reel begins to roll onto the empty reel, its speed seems slow. It seems that the reel will never empty. Yet there is a constant acceleration of speed hardly perceptible. Not until the reel is half spent does its speed seem to increase. And during its closing minutes, the tape seems to fly!

So far as the tape is concerned, it is traveling at a constant rate through the recorder. It only seems slow at first and fast at the last.

Life is like that. Time seems to pass slowly for the youngster, fast for the adult—yet its true speed is constant.

Who is the person who hasn't longed to retard this race to the grave? By the time we learn how to live, it is time to die, we say to ourselves. The road of life will always be crowded with those seeking a fountain of youth.

All of which illustrates man's innate love for the world.

Yet such a philosophy is not Christian.

Strangers in a foreign land do not take root in their temporary environment. They long for their homeland. Time seems to drag as they await their return journey.

The wisdom of God, so much higher than that of man, is not always apparent to humans. Yet even the earthling can see the wisdom manifest in the Divine Plan which decrees that time must march on.

Miserable would be the person who in this life achieved his desire to stop time. Intense boredom would be only one aspect of such a curse. But even worse than boredom would be the maladjustment that would result.

Mortal bodies are made to change, to grow. Like a rosebud or perhaps a cocoon, they are changing things, destined to develop according to the ultimate plan God has for them. To be normal is to grow, even though it means, perhaps, the loss of beauty and health.

We'd all like to maintain the irresponsibility of boyhood, the carefree nature of childhood, the sentimentality of adolescence, the vigor and ambition of young manhood. Few would want to pay the price each would exact.

And what is true of the physical is doubly true of the mental and spiritual.

So when we notice those telltale reminders that time is marching on, when our bodies begin to deteriorate, when our children, advance past that stage we would like to keep them, when we see them leave for military service, let us be thankful that we are normal. Let us be thankful that we have the privilege of growing and maturing. Let us be thankful that God didn't make us so wouldn't grow.

Although our physical and mental growth are ordinarily automatic, our spiritual and intellectual growth are not.

The latter require positive effort on our part. Paul wrote of those who remain babes all their lives, those never able to partake of anything more solid than milk. Likewise we are surrounded by persons immature intellectually.

Those spiritually and intellectually stunted are no less deformed than those with dwarfed bodies and minds.

The good life is only achieved by those who grow normally, physically, mentally, spiritually and intellectually—as time marches on!

When Mrs. Eisenhower appeared recently wearing a new hat adorned with yellow blossoms, some may have felt she was rushing the season. If it will help bring an early spring we all hope to see Mamie wearing more chapeaux of the same kind.

A 19-year-old boy styling himself a student of psychology said he engaged in an attempted holdup to see how the victim would react. It is true the country wants boys to study science, but not exactly that way.

The Russian people are celebrating the 40th anniversary of the Bolshevik revolution this year. That's a bit like having a party to celebrate the start of a toothache.

Few men at the top get there by being pulled up.

TEXT—Proverbs 22:6.

"Train up a child in the way he should go, and when he is old he will not depart from it." To many parents this is a difficult passage. Even some wonder if the wise man of old knew what he was talking about. For they often tell the pastor—"I have raised my child in the right way. Why has MY child done this or that?"

Some of us wonder, if in this modern day, we are always conscious of all that goes into the training of that child. Do we always know the kind of playmates our child has? Do we know the picture shows that have helped mold the thoughts of my child? What about the comic books my child has read? What are my child's favorite TV shows? Who has helped teach my child—either in the home or out of the home? "As a Twig is Bent—so the tree." And it may be that the parable of Jesus as recorded in Matthew 13:25-43 applies to many—while parents sleep, enemies sow tares.

We thank God for the multitudes of youngsters who do have the right training, and who do become the sort of men and women we have a right to be proud of, though their names may never be in the papers. May God bless every parent—who is prayerfully trying to rear the fathers and mothers of tomorrow.

## "Do It Your Self" Sewing Becomes Magic In The Talented Hands Of Mrs. Leo Henzler

An artist with the sewing machine, Mrs. Leo Henzler finds pleasure and profit in what started out to be a hobby. "Anyone can sew, if they can follow printed instructions," states Mrs. Henzler.

The first thing to remember Mrs. Henzler will tell you, is to buy good materials. "Make good things, that will last and last," the vivacious red-head insists.

A perfectionist, Mrs. Henzler does not particularly enjoy sewing for other people because every stitch and seam must be just right. "They don't appreciate all the fittings that I insist upon," Mrs. Henzler laughed. But she does sew for a few close friends, and her most prized possessions are the two sewing machines, a Necchi and an Elna.

The Elna she keeps at home,

and the Necchi is installed in a room that she has fixed up at her husband's shop, Henzler Implement Co. at 100 S. 7th St. Her husband and son built a table for her that measures 4 feet wide and 8 feet long. She covered this table with cotton and a blanket and then covered the padding with unbleached domestic. Neatly measured off in inches, the padded table serves her well when she makes drapes for the public. "The secret to making drapes, is to be very careful to get them straight," Mrs. Henzler states. In the pictures above the drapes were made by Mrs. Henzler for Mrs. Walter Cannon who has recently moved into a new farm home near Slide.

Back to her favorite subject, dress making, Mrs. Henzler says that every woman who sews

for her self must know her own measurements. "Every woman varies in measurements from every other woman," Mrs. Henzler states. As for herself, Mrs. Henzler measures 36-21-38 and explains that she is very long waisted. "The first thing I do when I buy a pattern, is to alter it to my very own measurements. I cut the pattern and make the alterations, then tape it back together with scotch tape. Thus, the pattern becomes my own, and no other woman

could possibly use it to her advantage," she explains. Asked to comment on the Chemise, Sack, Balloon and Trapeze styles, Mrs. Henzler stated; "I think it is a woman's place to look as pretty as possible, and I just don't see how she can do that in those dresses."

With a cabin and boat dock at Buffalo Lakes, Mrs. Henzler finds recreation with her family, Leo and Leo, Jr., in skiing and boating. She recommends

skiing to any woman who wants to lose weight. "It is very good for the legs and abdomen, she stated.

## Speed is dangerous - especially until after Labor Day holiday week end

"Keep off the gas!" This is not a typographical error, but a life-line of advice from J. O. Musick, general manager of the Texas Safety Association, whose organization is sponsoring the current Slow Down and Live program being conducted throughout the state.

"Summertime—like any other season of the year—means safety time, but a lot of Texans forget this," Musick said. "They let the warm days and balmy nights detract from their driv-

ing responsibilities as they hurry from one cool spot to another.

"They step on the gas and rush to vacation spots, picnic areas or a day at the water's edge—forgetting to ask themselves: 'How much time do I really gain by speeding, IF I get there.'"

Musick pointed out that traffic engineering and enforcement are important in public speed control, but that the final answer lies with the individual driver.

"Ever driver on our streets and highways must initiate his own personal campaign to obey all the traffic signs and signals and to regulate his speed so that it is neither too fast or slow," Musick said.

The general manager said the purpose of the Slow Down and Live campaign is to simply draw the public's attention to the fact that speed is dangerous anytime, but especially now, during peak vacation months, through Labor Day.

## Poor Eyesight Listed as Basic Cause of Traffic Accidents

How's your eyesight? If you drive a car the condition of your eyes should be of great concern to you, naturally. Yet, according to professor of ophthalmology, poor eyesight probably is one of the basic causes of traffic accidents.

About 35,000 drivers in motor vehicle accidents in 1956 were reported to have defective eyesight, according to the National Safety Council. Add to that the number of accidents that result from blocked vision, and you can see just how important sight is to motorists.

In more than a million auto accidents in 1956, not being able to see clearly was a contribut-

ing factor. In about half of the million accidents, obstructions on the vehicle—most important of which were rain or snow on the windshield—were factors.

Highway obstructions such as trees, bushes, buildings and signboards were the culprits in more than 200,000 of the million accidents.

How can the problem be solved?

1. Don't drive if your eyesight's so bad it can't be corrected with glasses.
2. Reduce your speed 5 or 10 m.p.h. so you'll have more time to spot hazards ahead.

I am now in Slaton for a few days looking after business interests. I have a few buildings to rent, and 4 small buildings for sale to be moved. Am also interested to buy 3 or 4 room houses to be moved. Anyone interested may phone VA 8-3200 or see me at 510 W. Lynn.

## Longhorn Cavern Lighting System Is Being Modernized For Beauty

Visitors to Texas Longhorn Cavern, the state's largest cavern and one of the three largest in the U. S., will now see this scenic masterpiece of nature "in a new light."

A complete new system of illumination has been installed in the cavern by the State Parks Department to dramatically light up the two-mile route of the guided tours through the vast subterranean chambers.

In the first major improvement to the lighting system since Longhorn Cavern was first opened to the public in 1932, many modern theatrical lighting effects have been utilized to better bring out the beauty and grandeur of the great variety of unusual formations inside the cavern.

More than four miles of new wiring has been installed in the cavern and stage lighting devices ranging from tiny spotlights to huge floodlamps have been strategically placed. Nearly a thousand electric bulbs were used. The entire project required more than five months and 17 different sections of the cavern were involved.

The new lighting installation not only adds to the overall beauty of the cavern, but provides greater illumination and better visibility to many features of the cavern which have not been as noticeable before.

Among the cavern's noteworthy rooms and rock formations, all newly revealed and made even more impressive by the new system of illumination, are the Crystal Room, Liberty Bell Dome, Queen's Throne, Frozen Waterfall, Jacob's Well, Cathedral Room, Biking Prow, Chandelier Room, Twin Domes, Hall of Diamonds, Stalactite Room, Natural Bridge, Hall of Wonders, Hall of Marble, Rock of a Million Layers and the Abraham Lincoln Head.

The cavern is located in Longhorn Cavern State Park. Entrance to the park is four miles south of Burnet, on U.S. Highway 281. The cavern is open to the public every day of the year. Guided tours leave the administration building every

hour. The round-trip stroll to the deepest point on the tour, 120 feet below the surface, takes about two hours.

The present site of Washington, D. C., was selected for the national capital in 1789.

In the language of the railroad industry, refrigerator cars are known as "reefers."

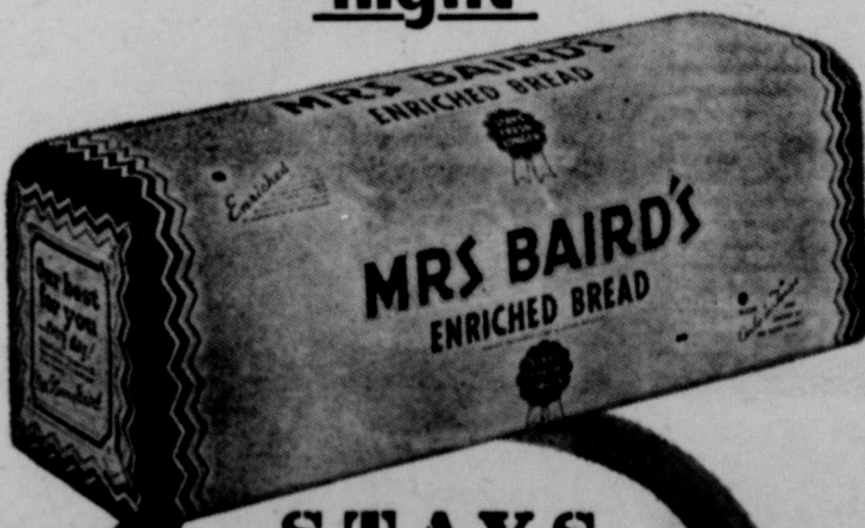

Carbon occurs in three distinct forms—as coal, as graphite and as diamond.

The U.S. Coast Guard was established Jan. 28, 1915.

# Mary Martin show secured for Lubbock auditorium in February

Miss Mary Martin—the first lady of the American Musical Stage—will appear at the Lubbock Auditorium on February 2nd in "Music With Mary Martin." David Blackburn, Manager of the Auditorium has announced. By special arrangements Miss Martin will make her only West Texas appearance under the sponsorship of Civic Lubbock, Inc. She will also appear in Dallas, San Antonio, Houston and Austin.

Miss Martin, the Weatherford, Texas girl who rose to world fame by way of the movies, stage and television, will bring a cast of some thirty with her and the highlight of the evening will be a "Montage of Songs" productions in which Miss Martin has starred. Although ticket prices have not been set, Blackburn announced that they would probably be about the same as the Victor Borge show of last year.

This would mean a top price of \$4.80. Although Civic Lubbock, Inc. is sponsoring the show it will not be a part of their regular season, but a Special Attraction. However, Season Ticket buyers will be entitled to reserve the same seat locations for "Music With Mary Martin" as they hold for the regular season.

Texas, and we know that it will be most popular with patrons of the Lubbock Auditorium," Blackburn said. (Ticket orders will be filled in the order of receipt—after the Season Ticket holders have placed their orders.) "Miss Martin is certainly one of the brightest stars of all time in the theatre and we feel certain that we will have a sold-out house on February 2nd," Blackburn continued. "However, because of other commitments, Miss Martin can only appear in Lubbock for one night."

## Fast Driving Equally Dangerous With Russian Roulette—Slow Down!

Russian roulette, anyone? Of course not. Who'd be silly enough to play that game? Good question. But how about out there on the highway? Do you ever drive fast? Then you're playing just as dangerous a game as Russian roulette, the National Safety Council points out. "Driving at high speed is pretty silly," it says. Let's suppose you're on a 400-mile trip. Council statistics show that if you whiz along at 75 m.p.h., the chances of someone getting killed if an accident occurs are 1 in 8. Drive 65 m.p.h. and your chances of dying if an accident occurs are a lot slimmer — 1 in 20. At that speed it'll take about an hour more on the road.

Slow down to 55, though, and if a collision takes place the chance of a fatality occurring is 1 in 50. The slower speed will mean a couple more hours of driving on the 400-mile jaunt. Each 10 m.p.h. decrease in speed increases your chances of coming out of a car wreck alive. "Don't be a gambler on the highway," the Council warns. "The stakes are the greatest—your life, or the lives of your loved ones."

## The Slaton, Tex., Slatonite Thursday, June 19, 1958 Keeping Car in Shape Affords More Safety, Pleasure in Today's Living

Pretty tough making ends meet these days, isn't it? And just about everybody's in the same boat. A lot of folks, though, have learned how to stretch their dollars — and their years of living. The system involves the family auto. "Take good care of your car and drive it safely. You'll save money," the National Safety Council says. How? Well, money-savers have found that keeping their cars in good shape costs less in the end. The most frequent problems on trips, for example, involve steering, wheel alignment, tires, lights and brakes. A minor defect on the road may cause a costly accident or become a major under the stress and strain of turnpike driving.

The Council reports that at least 8 out of 100 cars in accidents are unsafe. Other sources say that 9 out of 10 cars on the road today are in need of repairs. Okay, you say—so taking care of repairs when they're needed saves on major repair bills later. But how can safe driving mean money in my pocket? 1. By avoiding sudden starts and stops and excessive braking, you save on gas and wear and tear on your brakes — and your nervous system. 2. If you exceed the speed limit you take a chance to being ticketed. And that's at least \$10 out of your pocket right there. Besides, you'll have fewer red lights to stop for—

Season tickets to Civic Lubbock, Inc. shows will go on sale in late August, and single admission tickets will be on sale after October 1st. Candidates comes from a Latin word meaning "white-robed." It was first applied to Roman office-seekers who were required to wear white garments. Caliph is the name given to the successors of Mohammed. It is generally believed there has never been a time, including the present, when the world was entirely free of cannibalism. Napoleon, seeking a way to nourish his armies, offered a prize which led to the development of food canning. Cantaloupes were first grown at Cantaloupe, Italy.

**Love story**

It seems this girl was so cr-azy about the service she got from her Phillips 66 Dealer that she'd buy only one gallon of Flite-Fuel at a time... just so she'd have an excuse to come back oftener.

It was rather trying for this Phillips 66 Dealer, considering all the free services he provides for every customer on every visit: Brushing out inside the car; for example: Cleaning the windows all around. Checking the tires, battery, and radiator.

It turned out just about as you'd expect. Such an obliging fellow; she decided; would be a handy man around the house. So she hooked him.

The trouble is, of course, that most Phillips 66 Dealers are so dedicated to their jobs that household chores get short shift: No moral here for wives: Obvious moral for motorists:

## Lubbock banker named chairman of Soil Building Week campaign by SCS

The Slaton, Tex., Slatonite  
Thursday, June 26, 1958

Mr. and Mrs. Neal Hallmark and two daughters, Dina and Nancy visited last week in the home of Mrs. Hallmark's mother, Mrs. C. L. Pack. The Hallmarks are from Austin.

Clyde Gordon Jr., vice president of Citizens National Bank, Lubbock, was named chairman of the South Plains Soil Building Week campaign recently by the Board of Supervisors of Lubbock County Conservation District.

Serving with him as vice-chairman will be Alton Strickland, of the Lubbock Production Credit Association office.

August 3-10 have been set as dates for the observance.

Purpose of the campaign, according to Joe Walker Sr., board chairman, is to encourage farm land owners to plant fall cover crops which protect and maintain the fertility of the soil.

Walker stated that the board is most fortunate in having Gordon serve as chairman. He has the education and experience

which qualify and inform him along the lines of soil conservation, Walker continued.

Gordon was employed for several years with the Soil Conservation Service before coming associated in the banking business, where he deals almost entirely with farm financing.

Strickland also has been interested in agriculture all his life. Walker said, being reared on the farm, and being associated for many years with farm production financing.

Approval was granted to applications from seven farmers for 1010 Arizona Cypress trees, under the district's tree-wind-break program. Thus far this spring, 6,805 trees have been planted on 58 farms. About 20,000 trees have been secured through the district for planting on farms in surrounding counties.

Mr. and Mrs. R. C. Sanner returned last week after visiting a few days with Mrs. Sanner's parents, Mr. and Mrs. George Weddington, and other friends and relatives in Fort Madison, Iowa.

Mr. and Mrs. R. L. Smith and Mrs. Smith's father, C. W. Wilkes Sr., visited last week in San Angelo with the Smith's son and his wife, Mr. and Mrs. Tom Smith. While in San Angelo they fished some.

Mr. and Mrs. Kenneth Shelton and their daughter visited last week end in the home of Mr. and Mrs. B. E. Taylor.

Mr. and Mrs. Joe Schwertner returned last week after a week's vacation in Trinidad, Colo., where they visited with Mrs. Schwertner's parents, Mr. and Mrs. Ed Miller, and other friends and relatives.

Mr. and Mrs. C. L. Tanner had as guests last week Mrs. Tanner's sister-in-law, Mrs. Ed McDonald, and Mrs. Donald's daughter and father. They were enroute to Cripple Creek, Colo., where another daughter of Mrs. McDonald is in summer theater.

Mr. and Mrs. Dick Adkins left Tuesday to go to Midland where they are visiting several days with their daughter, Mrs. Travis Melton, Mr. Melton and boys.

Mr. and Mrs. H. R. Schwertner and children returned last week after vacationing at Lake Buchanan, San Marcos and Austin.

Mrs. June Spikes and her daughter, Cindy are visiting this week in Amarillo with Dr. and Mrs. S. W. Ball and Mr. and Mrs. G. F. Everline.

**SAFETY DEPOSIT BOXES**—and how they work are shown to Ray C. Ayers by J. S. Edwards. Two keys are required to open the boxes, one of which is in the possession of the person renting the boxes and one of which the bank keeps in its possession. The vault has a new and modern safety feature by which fresh air is available with the turn of a switch, should any person become locked inside. Private stalls are also provided, to which a depositor may take his safety deposit box. A chair and a glass topped table are provided for his comfort, and the glass top provides a safety measure so that, should anything drop unnoticed from the box, it could easily be seen through the clear glass.

## Norman-Kincer Wedding Vows Exchanged June 7

Beverly Norman became the bride of Dale Kincer in a double ring ceremony June 7, at the Central Baptist Church in Grassland, with the Rev. Kenneth Leach officiating.

The bride, given in marriage by her father, wore a gown of imported tulle and chantilly lace over net and taffeta. The dress was designed with a scoop neckline in scallops of lace. The fitted lace bodice had long petal point sleeves and terminated with a point at the center front waist line. The skirt was made of tulle, frilly shirred, which was highlighted with a band of applied chantilly lace. Her finger tip veil of illusion was joined to a tiara of seed pearls and sequins. Miss Norman carried a cascade bouquet of feathered white carnations.

The church was decorated with an archway of red and white gladiolas with candelabra on each side.

Patsy Norman, cousin of the bride, served as maid of honor. She was attired in a red cotton satin embroidered sheath with red net over the skirt and white gloves. She carried a long stemmed red carnation. Kaye Kincer of Slaton, sister of the groom, and Minnie Lee Mathis of Post were bridesmaids and dressed like the maid of honor. Cherie Norman and Nan Saage were candle lighters and wore red cotton satin embroidered dresses with full skirts.

Denny Kincer, brother of the groom, served as best man and Lanny Swanner, and Haynes Howell, Tahoka were ushers.

Traditional wedding music was played by Diana Hensley, and Marilyn Cormack sang "I Love You Truly," accompanied by Miss Hensley.

The reception took place in the home of the bride's parents, Mr. and Mrs. A. L. Norman, Rt. 3, Post. The table was covered with a white damask cloth decorated with red candles and crystal appointments. The houseparty was made up of Dotty Harrison, Jan Thomas and Diana Hensley.

The bride selected an orchid embroidered cotton satin sheath with white accessories for her going-away dress.

After a short trip the couple are residing at Hale Center, Mr. Kincer, son of Mr. and Mrs. L. T. Kincer of Slaton is employed as an apprentice operator with the Santa Fe.

## For A Slim-Dandy Barbecue Use Sauce Low in Calories

Who doesn't drool at the savory aroma and tangy flavor of the cook-out? It's part of summertime's finest fun.

And here's good news: weight watchers who haven't gotten to first base with barbecue can stop sniffing their neighbors' smoke now and start cooking up their own storm.

Dieticians have come up with a low-calorie sauce which, brushed generously over lean meats such as chicken, will turn out barbecue guaranteed not to go to waste.

Saccharin gives it just that touch of needed sweetness, but without adding a single calorie. Although 400 times sweeter than sugar, it is calorie-free; can be used for any summertime sweetening to avoid heat-producing calories.

### Barbecue Sauce

Mix in a quart saucepan:  
1 saccharin tablet (1/4 grain)  
3 Tbsp. cider vinegar  
3 Tbsp. butter or margarine  
1 Tbsp. grated onion  
1 1/2 tsp. finely cut garlic  
3 Tbsp. Worcestershire sauce

1/2 tsp. salt  
1/2 cup water  
1/4 tsp. paprika  
1/4 cup tomato paste  
1/2 tsp. chili powder  
3 drops Tabasco sauce  
1 Tbsp. bottled mustard

Cook and stir until mixture boils. Lower heat and cook five minutes longer. Use to barbecue lean pork chops, hamburgers, chicken and frankfurters. Makes about two cups. Calories in 1/4 cup: 46.

## Little League Standing

Little League baseball closed out its first half of play Saturday afternoon with the make-up game between the Giants and Indians. Giants were the victors, 3-2.

Standings at the close of the first half of play show the Giants in first place, having played 10 games and won 7.

In second place are the Cardinals, who played 10 games and won 6, followed in third place by the Dodgers, who played 9 and won 6.

The Tigers played 10 and won 5, the Indians played 10 and won 3, and the Yankees played 9 and won 2.

"I cook complete broiler meals for my family—thanks to my Electric Range!"

**Broiler Recipe...**

Here's the recipe Mrs. Wadley used when these pictures were taken. It's a complete, delicious broiler meal — one you'll want to try.

Steaks 2 cans asparagus 1 can pimiento 2 cans Mexicorn Tomatoes Grated Cheese

Drain liquid from cans of vegetables and arrange in bottom of the broiler pan. Place asparagus down center of pan. Place pimiento strips down the center of asparagus. Arrange 1 can of Mexicorn on each side of asparagus. Season vegetables with salt and pepper.

Wipe steaks with damp cloth, score fat around edges to prevent curling. Place on rack of cold broiler pan, season, and place under broiler unit of electric range so the top of the steak is four or five inches from the broiler unit.

Turn oven control to Broil. Leave oven door ajar. Cook on one side until brown (about 12 minutes). Turn and broil other side (about 10 minutes). Cut tomatoes in halves and put grated cheese on top. Arrange on broiler rack just before steaks are done.

says Mrs. Gary Wadley, GUYMON, OKLAHOMA

That's the nice thing about an electric range — you can cook complete meals — at one time. There are several ways, too. You may cook complete deep well meals, complete oven meals, complete surface unit meals or, as Mrs. Wadley favors, complete broiler meals. All come out tasty, tempting and nutritious.

**Free ... Two Outdoor Bug Lamps!!!**

# Pony league teams running neck and neck for first place in standings

PONY League play this week saw all four teams going neck and neck for first place. The Braves and Tigers are tied for first place, with the Cubs and Red Sox tied for second.

The first place teams have won four games and lost two, while the second place teams have won two games and lost four each.

On Tuesday, June 10, the Tigers defeated the Cubs 17-10. Fourteen hits were batted out for the Tigers, with Burk accounting for four; Cooper and R. King getting one hit each. The Cubs had five hits, with Martin taking credit for two, and one each going to M. Kitten, Wartes, and Jones.

It was on Thursday, June 12,

that the Tigers moved into a tie for first place with the Braves, when they downed the Braves 10-9. C. Curtis and J. King each knocked out two hits, with Burk, R. King and Wheeler getting one hit each. Loke for the Braves got two hits, while Cummings, Lancaster, Haire and Hatchett each had one hit.

The Red Sox moved into a tie for second place with the Cubs on Friday, June 13, by defeating the Cubs 6-5. Caldwell, Williamson, and G. Hernandez got two hits each, and Enloe and Bain got one each.

For the Cubs, Lowry had two hits, while M. Kitten, Crawford, Wartes and Nowlin each had one.

The game scheduled for Monday, June 16, between the Cubs and Braves, was rained out.

The German title "kaiser" and the Russian "czar" were derived from caesar.

## STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

**AUSTIN, Tex.**—Texas Board for State Hospitals and Special Schools is working toward getting a gold star when an economy-minded Legislature hits Austin next year.

Launching a new tight-purse policy, the Board voted to prohibit superintendents of individual state institutions from (1) using leftover funds without Board permission and (2) making any expenditure of more than \$1,000 without Board approval.

Sometimes individual hospitals develop surplus funds resulting from smaller patient loads than had been expected, or other reduced costs. New rule puts an end to no-strings-attached spending of such surpluses. These lapsed funds could amount to as much as one million dollars, according to Board Member W. G. Kirkin of Odessa.

**CHILL WIND**—Hospital Board's move pinpointed the spot where the state's money shortage is expected to pinch hardest — administration of state's services.

A revenue shortage in excess of \$10,000,000 by next year has been freely predicted by various authorities for months.

A survey of the platforms of legislative candidates over the state shows a fairly consistent approach by those making statements on the revenue dilemma. General pattern of promises to voters:

(1) Continuation or, often, increase in state obligations for education, welfare payments, road building, soil and water conservation, etc.

(2) Opposition to certain new taxes or sometimes new taxes in general.

(3) Cuts in state spending by "elimination of waste, duplication and needless services by state agencies."

Actual achievement or near-achievement of this fiscal magic will put a real squeeze on every state department.

**NOT ME**—Likelihood that someone may draw the "black bean" of new state taxes has group after group telling the State Tax Study Commission how overburdened they are already.

A spokesman for the Texas Motor Bus Association told the Commission taxes on that industry are heavy and discriminatory. He said many smaller lines were having to go out of business.

A representative of retired people asked tax relief for people living on pensions.

"We are no longer concerned with saving the goose that lays the golden eggs. Our goose was cooked when we lost our ability to work and earn," said W. B. Wood of Port Arthur.

On behalf of the Texas Association for Tax Relief for Texans over 65, Wood asked for tax exemption for the first \$3,000 of property owned by oldersters. He also opposed a sales tax.

**REPUBLICAN**—Texas Supreme Court is considering the question of whether a former Democratic candidate is entitled to a position on the Republican primary ballot.

Grover Cantrell, Dallas labor leader and onetime Democratic candidate for the Legislature attempted to file against Texas' only Republican congressman, Bruce Alger. He called himself a "Stevenson Republican," an apparent parody of Eisenhower Democrats.

A lower court ruled that Cantrell, as a member of one party, was not entitled to seek nomination in another party's primary. Cantrell appealed to the high court.

Since there is usually only one nominee for each office,

Republican primaries do not ordinarily attract a heavy vote. It is widely assumed that many Republicans cross party lines to vote in Democratic primaries where most state offices are decided.

Cantrell's candidacy is generally interpreted as a move to force Republicans to stay in their own primary.

**DIESEL TAX CHANGE**—Proposed revision in the diesel fuel tax law are being planned by the State Comptroller's Department. Next Legislature will be asked to change the law so diesel fuel taxes would be collected from the wholesale distributor rather than the user, said a Department official. This is expected to make it easier for tax agents to keep track of consumption and purchases.

Comptroller's Department staffers admit that there are some evasions of the state motor fuels tax, but contend that Texas collects more per vehicle than any other major state. They discount as too large Sen. Charles Herring's guess that some \$25,000,000 in fuel taxes were uncollected.

Senate investigating committee looked into records in the Houston area to discover if small staffs, vague laws or insufficient penalties were causing the state to lose revenue.

**OVER THE HUMP**—Texas' general revenue fund is back in the black, according to State Comptroller Robert Calvert.

During the spring, state expenditures got ahead of tax receipts. A month ago the fund was in the red by some \$1,250,000. But collection of corporation franchise taxes and insurance company occupation taxes during the month put finances back on schedule.

Now there's more than \$12,000,000 in the fund, said Calvert.

**THINNING RANKS**—Withdrawal of Joe Booker of Orange reduced to four the number in the governor's race.

Alvis Vandygriff, Austin attorney, dropped out earlier.

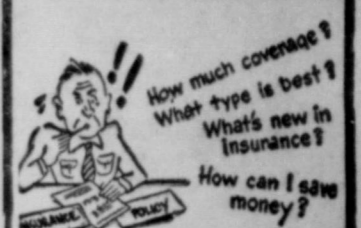

Still opposing Gov. Price Daniel are W. Lee O'Daniel, State Sen. Henry B. Gonzales and Joe Irwin of Dallas.

Lord Byron, the English poet, was lame from birth due to a defect in one ankle.

California has within its boundaries all the various climates of North America.

**SKIRTS DOUBLED**—From Paris, France, comes this swimsuit with two skirts. Bathing ensemble, from the 1957 resort collection of Brigitte of Cannes, consists of a one-piece suit in white cotton, framed in bands of colorful print, with a matching skirt for town wear.

How much coverage? What type is best? What's new in insurance? How can I save money?  
Answering those questions takes professional experience... years of it. And because your home town, independent agent may be acquainted with you and your family, he's best equipped to be helpful. Try him!

### RECIPE OF THE WEEK

#### Bunburgers

(Makes 6 servings)

3/4 cup (small can) undiluted Carnation Evaporated Milk  
1 egg  
1 1/2 pounds ground beef  
1/2 cup fine cracker crumbs  
1 1/2 teaspoons salt  
1/2 teaspoon pepper

1 teaspoon dry mustard  
1/4 cup finely chopped onion  
1/2 cup finely chopped green pepper  
4 to 8 ounces sliced process-type American cheese  
8 hamburger buns

Mix all ingredients except cheese and buns. Form meat mixture into 12 thin patties. Place a meat patty on each bun half. Cover bun completely with meat mixture. Place on broiler pan about 6 to 7 inches from heat. Broil about 5 minutes. Top each "burger" with sliced cheese. Broil until cheese bubbles (about 2 minutes longer). Serve at once.

## Anne Ford Neal announces for Lubbock County Treasurer's office

Mrs. Anne Ford Neal has announced her candidacy for the office of County Treasurer of Lubbock County.

Mrs. Neal, who formerly served as Lubbock County Treasurer four years from 1928 to 1932, formally announced her candidacy for the office, subject to action of the voters in the Democratic primaries.

A resident of Lubbock for 32 years, Mrs. Neal formerly taught school in the Liberty community in Lubbock County before moving to Lubbock in 1926. She moved her mother and family to Lubbock and assisted in putting her four younger brothers and sisters through the Lubbock schools and Texas Tech.

In 1932 she opened a woman's ready-to-wear business which she operated for 22 years, closing it out in 1954.

Mrs. Neal and her 83-year old mother reside at 814 Avenue M. in Lubbock.

She is a member of First Methodist Church.

"After having served as county treasurer four years, and having 22 years business experience, I feel that I am well qualified for the position," Mrs. Neal's statement said.

"I earnestly solicit the support and vote of all my friends and acquaintances, as well as the support and vote of all voters in Lubbock County."

She said that she would make an effort to see as many Lubbock County voters personally as possible between now and the July primary.

Anne Ford Neal

**THIS IS A DIRTY-BURNER**

... it's a ring-grinder, a valve-sticker, a gum-clogger. It's known by the motor oil it keeps.

**THIS IS A TIDE-TURNER**

... its good name is more to be desired than an overhaul. It substitutes grease-for-grind, slick-for-stick, clean-for-clog.

**SHAMROCK**

No, Shamrock 10W-30 won't substitute for an overhaul... but it'll surely help prevent one! That's because there's one thing we always take seriously - SHAMROCK QUALITY...
