## Famous Photographer Sets 2 Appearances

Mrs. Sune Richards, reknowned photographer, will return to Slaton Sunday and Monday with her inspiring story of "My Search For The Disciples."

Mrs. Richards has devoted her photographer-artist career to photo-oil portraits of Biblical characters modeled by living persons she has discovered.

At 7:30 p.m. Sunday, Mrs. Richards will speak on "My Search for the Disciples," in the First Methodist Church. The public is invited to attend the address. Also, at 7:30 p.m. Monday, Mrs. Richards will discuss "Women of the Bible," a new series of photo-paintings which she is at present working on. This talk also will be given in the auditorium of the First Methodist Church.

Mrs. Richards first told of her search for the Disciples here four months ago in a highly successful appearance at the church.

Rev. J. B. Sharp, pastor of the church, points out that the public is cordially invited to attend either or both of the addresses. There will be no admission charge.

Mrs. Richards will also speak at Lubbock and Post churches during her stay on the South Plains.

Rev. Sharp announced this schedule of events for the week end. There will be a "Dine-A-Mite" supper to be served by the Susanna Wesley Class at 6 p.m. Sunday. There are also two study groups currently being worked. One, a panel, will discuss "Family Tensions." On

the panel this week are Bill Smith, leader, Mrs. J. S. Edwards Jr., Jack Nowlin, W. J. Thomas and Lee Vardy. This group study group is working on the general theme, "Faith, Family, Freedom."

The other study is on "The Bible and The Presidents." George Washington will be discussed this week, appropriately. The study groups get underway at 6:30 p.m.

## Rites Are Held Monday For The Brother Of J. A. Warren

MULESHOE (Special)—Funeral services for Neal C. Warren, 62, Rt. 5, Muleshoe, will be held at 2:30 p.m. today in the Muleshoe First Baptist Church. Burial will be in Bailey County Memorial Park under the direction of Singleton Funeral Home.

Warren, longtime resident of Bailey County, died at 4:30 p.m. Sunday in West Plains Hospital in Lubbock following a brief illness. He became ill early Sunday.

Warren, a farmer, had lived in Bailey County 35 years, moving here from Hollis, Okla., in 1924. A native Oklahoman, he was born Nov. 18, 1896, in Greer County, and was married to Birdie B. Moore, Dec. 7, 1919, at Dodsonville, Tex.

## Industrial Film To Be Shown Sunday

An industrial film, one in which Raymond Henzler had a part, will be shown at St. Joseph Catholic Hall Sunday at 7:30 p.m. Everyone is invited to attend.

## Two Honored At FFA Banquet

Mrs. R. D. Bisbee, secretary of the local Chamber of Commerce, and J. P. Brown, chapter advisor, were awarded Honorary Chapter Farmer Degrees at Tuesday night's annual Father-Son Banquet held by the Slaton High School Future Farmers of America chapter.

Both were honored for their outstanding contributions to the chapter's work.

Speaker at the affair was Dr. J. Harvey Scott, pastor of the First Baptist Church in Petersburg.

## Slaton Schools to Observe Texas Public School Week

Slaton Schools will observe Texas Public Schools Week, March 2-6 this year in several different ways.

The program will emphasize the science program in the elementary school. The science program in the high school is complete, as the four basic sciences are offered and there are 180 students taking a science course.

"Patrons are cordially invited to visit Slaton Schools at all times but we are requesting that as many people as possible visit our schools Wednesday or Thursday of next week, March 4 and 5. A special demonstration will begin at 1:30 p.m. Wednesday in the auditorium of West Ward that will interest everyone," said Dr. Lee Vardy, superintendent of schools.

In cooperation with the Elementary Parent-Teacher Association, an evening program will be presented Tuesday, March 3, at 8 p.m. in the High School Auditorium. There will be a small charge for the program which is to be used to pay the expenses involved. Mrs. Perkins, West Ward Music Supervisor, is in charge and will also direct the presentation. All faculty members in West Ward are cooperating in the project. The P.T.A. will have a short meeting prior to the program in the library and all members are requested to attend.

"It is sincerely hoped that each citizen in Slaton is able to visit one or more schools during the week of March 2 to March 6," Vardy said.

Friday, March 6, Slaton Schools will be dismissed in order that the staff members

can attend the district teachers' meeting in Lubbock. Members of the local chapter of the Future Homemakers of America will attend a district meeting in Amarillo Saturday, March 7, and the Lubbock County Stock Show will be on Saturday, March 7. This show is conducted by the local F.F.A. chapters and the 4-H Clubs of Lubbock County.

Mayor Pro Tem Howard Swanner has proclaimed the week of March 2-6 as Public School Week in Slaton. His proclamation follows:

"Today, more than ever before, the importance of our schools is being realized by an awakened Nation. A new perspective has been taken on by education, both in scientific and liberal arts fields.

"As we rush to train scientists and place satellites in outer space, however, it is important to remember that our public schools will furnish our leaders of tomorrow with the basic human, moral and spiritual foundations necessary for more ad-

vanced training and knowledge. "In an effort to make Texas public schools the finest in the Nation, the citizens of our communities are urged to take an active interest in the school systems and to cooperate with the respective school boards, superintendents, principals and teachers.

"For the past nine years Public Schools Week in Texas has been set aside as a special time each year to place increased emphasis on our educational system. Parents visitation is encouraged and each citizen is urged to recognize the tremendous importance of our public schools.

"THEREFORE, I, as Mayor Pro Tem of Slaton, do hereby designate the week of March 2-6, 1959, as PUBLIC SCHOOLS WEEK in Slaton.

In official recognition whereof, I hereby affix my signature this 26th day of Feb., 1959.

Howard Swanner  
Mayor Pro Tem  
Slaton, Texas."

## School Board Election Is Set For April 4; Two Terms Are Expiring

A School Board election is scheduled for April 4, according to Dr. Lee Vardy, superintendent of schools here.

The terms of two directors, Leon Walston and Robert Hall Davis, are expiring.

The election shall name two directors to serve three-year terms. The election will be held in the City Hall with polls opening at 8 a.m. and closing at 7 p.m.

All persons who are qualified electors under the constitution and laws of the state and who have resided within the School

District for six months preceding the election will be qualified to vote.

Charlie Whalen has been appointed by the board to hold the election.

Deadline for filing for a place on the ballot is Wednesday, March 4.

Other members of the board are Clark Self Sr., M. B. Brieger, Milton Davis, J. C. Smith Jr. and Dr. Don Hatchett.

## Judging Team Places Second In Contests

Slaton High School's FFA livestock judging team placed second in a contest at Spur last Saturday.

The contest was held at the Spur experiment Station. Twenty-six teams from Area I were entered.

Members of the team are Glen White, Jerry Harlan, Jerry Kitten and James H. Wright.

White was the high point individual in the contests.

The team will take part in a contest at Olton on Feb. 28.

## TO SPEAK SUNDAY, MONDAY

Mrs. Richards, photographer-artist who devotes her time to photo-oil portraits of living persons who approximate her conception of Biblical characters, will speak at the First Methodist Church here at 7:30 p.m. Sunday and Monday. Her address is open to the public.

## FFA Week Being Observed By Local Members Of Organization

February 21-28 is an important date for the Slaton Chapter Future Farmers of America. This week of George Washington's birthday is set aside each year by the National FFA organization as National FFA Week. Over 37,000 boys, in more than 970 chapters in Texas, will observe this special week. Bands, stock shows, parties and other activities will highlight the Farmer activities in Slaton and the United States. Future Farmers are proud of their organization and try in one week to let the nation know of its progress in agriculture, citizenship, leadership, hardship and co-operation. FFA representatives point to the Slaton Chapter joins other Chapters in the nation trying to show the citi-

zens of Slaton the progress it has made in recent years along these lines.

The local chapter has a variety of activities planned for, and immediately after, National FFA Week. Tuesday, Feb. 24, Slaton Future Farmers held their annual Father-Son Banquet at the Community Club House. Throughout the week, Future Farmers will distribute stickers and signs over the area, advertising Future Farmers Week. Members will wear FFA jackets and strive to help the people of Slaton realize that they have an outstanding FFA chapter. Immediately following FFA Week, the Lubbock County Fat Stock Show will be held in Slaton at the old Cotton Oil Mill. FFA members are currently working on the stock show,

putting pens and panels together and hauling hay for the show.

"Future Farmers in Texas will have a wide variety of activities during FFA Week. It is the sincere wish of the Chapters of Texas, that through FFA Week, the public's knowledge of the FFA and its work will be widened and that their appreciation of the organization might be deepened. The Slaton Chapter is typical of these and hopes that through the citizens of Slaton's cooperation, this will be the best FFA Week ever to be observed in Slaton," local members said.

Several local merchants have taken ads in today's Slatonite congratulating the Slaton High School FFA Chapter. Their ads point with pride to the organization and its members.

## Local Youths Grooming Animals For Lubbock County Fat Stock Show

On Saturday, March 7, Future Farmers from more than eight area high schools will be in Slaton for the Eighteenth Annual Lubbock County Fat Stock Show.

The show is for members of FFA Chapters in Lubbock County and the Wilson School District.

According to J. P. Brown, Slaton High School vocational agriculture teacher and advisor of the Slaton FFA Chapter, one of the largest turnouts ever is expected.

Local Future Farmers have been grooming their animals

for over a month and hopes are high that Slaton entries will "walk off" with a larger percentage of the more than \$700 in cash prizes and bonds than they have in recent years, due to the large number of animals bought from registered breeders this year.

SACK STYLES ARE BACK!

At least they are in the animal world. Frank Chapple, a 3-year FFA member, has blocked his lamb and has the animal ready to enter in the Fine Wool Division of the Fat Stock Show. The sack serves the purpose

of keeping the lamb clean and in condition for the judging. Frank bought two animals and has had the complete care of them. Frank is the son of Mr. and Mrs. F. E. Chapple Jr.

## Local Campaign For Heart Fund Nets \$722.16

The Heart Fund campaign here last Saturday and Sunday netted a total of \$722.16 for that organization.

Last Saturday, members of the Slaton High School Future Homemakers of America chapters gathered in 287.77 via the Heart Tag Sale.

And then on Sunday, Heart Sunday from coast to coast, volunteers from local civic clubs and churches got \$434.39 in contributions through door-to-door solicitations.

Local chairmen praised all who helped in the drive. Volunteers for the Heart Sunday drive included members of the First Methodist Church, First Christian Church, Church of Christ, Catholic Daughters, Jaycees, Ettes, First Baptist Church, High School Science Class, Junior Civic and Culture Club, Senior Civic and Culture Club, Centurettes, and the Athenian Study Club. There were also workers for the negro and Latin American sections.

Visiting in the home of Mr. and Mrs. L. W. Lewis are his brother and family, Captain Fred Lewis of Shreveport, La.

## OUTSTANDING YOUNG FARMER

Allspaugh, right, has been named Slaton's "Outstanding Young Farmer" by the Slaton Jaycees. He is shown here receiving a plaque from Otis Rogers, chairman of a committee which arranged for the judging by 14-of-town judges. Allspaugh lives and farms a mile north of town. He won the distinction in competition with four other area men and earned the right to compete for the state title. Local Jaycees will have their annual banquet and installation of officers at a banquet held in the Club House on March 21. John Schmidt will be the emcee and Bill Ball will speak. ### 'Total Selling Medium'

How valuable is newspaper advertising to the retail merchant?

Here's what the president of a Montana department store has to say: "If I were suddenly restricted to one and only one advertising medium, I would board up the display windows, discontinue all interior and departmental selling displays, eliminate all informative show cards, discontinue all sales meetings and sales incentives, stop all telephone selling—and continue an aggressive business-building advertising investment in the newspapers."

This merchant also terms newspapers "the total selling medium." What advertiser could ask for more?

### 'We Believe ...'

On the occasion of its 35th anniversary, the American Farm Bureau Federation adopted resolutions explaining its credo. These included the following:

- "We believe: ... in the American competitive enterprise system.
- ... that a man's search for progress should be encouraged by maintenance of opportunity, not hindered by illusions of security.
- ... that a person should be rewarded in accordance with his productive contribution to society.
- ... that every man is entitled to own property, earn money honestly, save, invest and spend as he chooses.
- ... that government's regulatory functions should be based on law.
- ... that government should provide only minimum controls and aids.
- ... that government should stimulate, not discourage individual initiative."

### 'Nobody Can Control The Budget'

"... Neither the Administration nor Congress actually can control spending because nobody can control the budget," says The Wall Street Journal.

If that startles you, here's the paper's explanation for the sad state of affairs: "Some Government projects exist outside the budget as though they were imbued with some magical independent life. Money is spent that hasn't been appropriated. Congress throws spending measures together in slap-dash fashion and naturally emerges with a crazy-quilt. We don't even know what the budget is, for all the more than a thousand pages of fine print in the big book. For example, the Administration says it plans to spend \$77 billion in fiscal 1960, but actually the whole Government plans to spend—including its non-budgeted outlays—nearly \$93 billion. So where does that leave us when we try to talk about 'the budget'?"

Various cures have been suggested. One is for Congress to put a ceiling on spending as each session begins and thus to regard the budget as a whole instead of just passing bills as they come along. Another is to give the President the power of the item veto, so that he could disapprove parts of money bills without affecting the rest. As matters stand now, the President has to take the whole hog or more when a bill reaches his desk. This forces the Executive in many ways to give his signature to spending he considers unwise and unnecessary, because use of the veto eliminates appropriations for essential purposes.

Whatever the cure, it's high time we were given it—before we die of the disease.

Combining business and pleasure often spoils the pleasure.

If you wish to be perfect, follow the advice that you give others.

## The Sounding Board

(Editor's Note: Editorial comment from a couple of weeklies we think will interest you.)

From the Commerce Journal: When a boy grows, he grows all over ... And when he bends he splits out every seam.

This truism well applies to our growing city.

And one of the many civic problems that must be solved eventually is that of an airstrip or a landing site for aircraft.

To the airborne, it matters not that only a small percent of travel is above the globe's surface, and once the airman are aloft their need for a landing field at once becomes urgent. The nearer the air depot is to Commerce, the more reason there will be for Commerce residents to fly.

Time to plan for an airfield is now. The time to build, will be when money and facilities become available.

Rosecoe Griffiths and James Clark asked for a consideration of airport plans at a recent meeting of the city commission.

According to Mr. Griffiths, a landing field could be set up on as little as 25 acres of land. Minimum requirement would be a one-way strip, 2,000 feet long, not necessarily hard-surfaced. A T-strip would be better, of course. Other desirable improvements would be an office, some arrangement for supervision and fuel pumps. Aviation gasoline now must be hauled into Commerce from Sulphur Springs. Individual hangers could be supplied by plane owners.

Plans cost nothing. But a lack of plans can cost everything.

—SOUNDING BOARD— Charles Didway, editor of the Post Dispatch, quotes a speaker at the Floydada Chamber of Commerce banquet:

This is the chamber of commerce banquet season throughout the South Plains and each banquet has a guest speaker who nine times out of ten has something to say worth listening to. That was the case last Friday night at the annual banquet.

### Senator Preston Smith

The widely discussed "lobby law" passed by the 55th Legislature has already shown its effect in Austin this session.

The law, it should be explained, was not to outlaw lobbying but to put the lobby in the open where the public and government could see it better.

It is still early in the session, but the lobby law has caused a change of pace in the operations of the so-called "third house," the title long given to the lobby force that watches legislators at work from the balcony.

Major companies and trade associations have apparently gone out of their way to register all personnel who might have any occasion at all to discuss pending legislation with members of the House or Senate.

In some cases this extends to area officials who never leave their home ground, but who might have occasion to talk with the lawmakers when they return to their districts on weekends.

Lobbyists themselves have admitted to newsmen there that entertainment is not on a scale equal to the past. But from general observation, small breakfasts and two or three men luncheons are as popular as ever.

Other charges affecting the Legislature, though not specifically or directly through the lobby law, include and innovation in the House which automatically closes the doors of the chamber at 8:30 a.m. to all who do not have the privilege of the floor. This allows the members a couple of hours of work time with their secretaries before the House session convenes.

give help and encouragement to existing industries.

"Make a community a wonderful place to live," Jennings asserted, "and industry will come."

We are sure that Floydada's business and professional leaders got a lot of good out of the Fort Worth man's speech. Its basic points could be profitably applied to any community in the United States.—CD

## Stage Show 'Li'l Abner' Presentation Due In Lubbock On April 17 And 18

Because of the numerous requests that Civic Lubbock, Inc. has received to have the Broadway musical comedy hit "Li'l Abner" presented in Lubbock on a Friday and Saturday night, they have been able to make arrangements with the New York producers to change the dates of the production to Friday, April 17 and Saturday, April 18 at 8:00 p.m. each night. The show will not be presented on April 14 and 15 as originally scheduled.

Patrons already holding seats will be sent duplicate locations for the new performances and the old tickets should be destroyed. Only the new tickets will be honored on these dates.

The over the counter sales will not begin again until Monday, March 9th in the lobby of the Auditorium, but mail orders are being received at the Auditorium, c/o City Hall Lubbock, Texas. Prices are \$4.50, \$4.00, \$3.50, \$3.00, \$2.50 and \$2.00 for the spectacular Broadway hit.

Civic Lubbock officials have announced that they are most happy that these dates could be charged to accommodate more patrons, and appreciate patrons writing of their interest

in seeing Spring attractions on week-end dates. Other shows this Spring include "National Ballet of Canada" on March 23 at 8 p.m.; "Roger Williams and the Silent Men" at 3:30 on Sunday, March 29 and the two performances of "Li'l Abner" on Friday, April 17 and Saturday April 18 at 8 p.m.

Mr. and Mrs. M. B. Francis and Mrs. Lou Greaves of Portales, N. M., and Mrs. R. H. Todd had dinner with Mr. and Mrs. R. C. Sanner last Wednesday evening.

Mr. and Mrs. William Holden and Richard Marvin of Lubbock, Mr. and Mrs. E. W. Reynolds of Wolforth and Mr. and Mrs. C. W. Reynolds of Lubbock visited Sunday in the M. W. Reynolds home.

Mr. and Mrs. George Dubose and children visited Sunday in the Dewey Nelson home.

## PONTIAC NAMED CAR OF THE YEAR

"Pontiac with wide-track wheels is the best combination of ride... handling... performance and styling of any '59 car" —The Editors of Motor Trend Magazine

In making its annual automotive award, the staff of Motor Trend Magazine, leading automotive publication, tests and evaluates all new cars. Here are quotations from the April 1959 issue:

"The stability of the 1959 Pontiac is the outstanding automotive advance of the year. Everyone considering a new car should experience it."

"It's the best balanced passenger car in America. We firmly believe that in moving the wheels farther apart, to develop the widest stance of any American car, Pontiac has created an entirely new sense of balance and handling security."

"Pontiac's lines are clean, simple and beautiful. It has a fleet look, a trim appearance. The wide wheel design contributes greatly to its

over-all integrated styling. Any comparison with narrower track cars readily shows the difference."

"For the economy-minded, an efficient new engine. The new 420E Tempest economy engine offers remarkable performance along with exceptionally high mileage while operating on regular grade gasoline."

"Pontiac is again tops in performance, based on our extensive road testing. Acceleration is outstanding, yet the engine is unusually quiet and smooth."

Your nearest Pontiac dealer will be glad to let you road-test this award-winning automobile on your own. You'll see why it's the year's most talked-about car!

### THE ONLY CAR WITH WIDE-TRACK WHEELS

Wheels are five inches farther apart. This wide only the stance, not the car. Pontiac takes a better grip on the road, hugs tighter on curves at corners. Sway and lean disappear, ride is smooth, balanced, steadier. Handling is easier. You drive with a new confidence, a comforting security. Pontiac gives you roadability no "narrow track" car can offer.

**STATE CAPITAL**  
**Highlights**  
**AND Sidelights**  
by Vern Sanford

State Comptroller Robert S. Calvert called the governor's plan a gain \$18,000,000 by a change in bookkeeping just "legalizing a false statement." Budget Board Director Vernon McGee termed it "unworkable."

Daniel also contends that his plan for the state to take over unclaimed bank accounts, abandoned property, etc., might help a lot of people, since the state first would advertise for rightful owners. But bankers and spokesmen for other affected industries called it "confiscation," said it would undermine public trust in their institutions.

Corporations continue to blast at a franchise tax raise they say would increase their burdens as much as 500 per cent. A two-thirds vote of each house would be necessary to put this into

effect to help with the deficit this year. Many say chances are dim.

A Lubbock legislator, Rep. H. J. Blanchard made a survey on tax and spending attitudes. About 60 per cent of those replying opposed a sales tax. Roughly the same percentage favored more spending for teacher pay, higher education, old age assistance, state hospitals and prisons.

**GOTTA HAVE IT** — Strong pitches for more spending are being made by spokesmen for three major state services.

"I don't see how higher education can be financed without some broad-based tax," said J. R. Sorrell, chairman of the University of Texas Board of Regents. "You will have the backing of this administration and this board in selling it to the

people of Texas."

"We are absolutely broke, we don't have a dollar," said Prison System Director O. B. Ellis. "Riots that will cost more than the appropriation requested may result, if conditions aren't improved."

"You can chop off dollars, but you can't chop off children," declared a representative of the Texas Youth Council. Director James A. Turman said money spent on parole supervision and rehabilitation of youngsters in trouble would save on future prison costs.

**THREE FOR SPEAKER**—Three definite candidates already are jockeying for speakership of the House in 1961.

They are Reps. Wade Spilman of McAllen, Ben Glasing of Kingsville and L. Dewitt Hale of Corpus Christi. It may

be a close-quarter fight. All are from the same general South Texas area.

Rep. Joe Burkett, who lost to present Speaker Waggoner Carr in a very close race, said he won't run again. Many members have protested early campaigning. They say it hampers work of present session.

**"FREEDOM" BILL DELAYED**—Senate Committee has put in its "back pocket" a bill to set penalties for those who refuse to make public records public.

Measure is one of several "freedom of information" bills sponsored by a group of newsmen's organizations.

It was sent to subcommittee for reworking with no time set for the subcommittee to report. In some cases, such action means the bill is buried for the session.

**NEW AGENCY URGED** — A bill has been proposed to take tax collection out of the Comptroller's Department and set up a new agency headed by a state collector of revenue.

All members of last session's Senate General Investigation Committee joined in sponsorship. They said they felt tax collecting could be handled more efficiently by an appointive officer of longer tenure.

Committee investigated the Comptroller's Department extensively last session. At one time members commented on the awkward position of an official who had to collect taxes and solicit votes—from the same people. However, the present Comptroller hasn't had any opposition in years.

**SAFETY CONSCIOUS**—Traffic safety legislation is developing into a major issue this session.

Rep. Tom James of Dallas has introduced the uniform traffic ticket bill, which he says will make for more effective enforcement against violators. He also proposes setting up county courts of record to review corporation court cases and also city traffic appeals courts.

James said he would join Col. Homer Garrison Jr., Director of the Dept. of Public Safety, in asking better salaries for state highway patrolmen.

Garrison told a recent meeting that "if the present trend continues, every second child born in Texas today will be killed or injured in traffic accidents."

Speaker Waggoner Carr said he felt "the climate of opinion was more favorable than ever before" for safety legislation.

**SHORT SNORTS** — Texas is pouring millions in state tax money into "inadequate, unnecessarily small school districts," said Texas Research League Director Alvin A. Burger in a recent speech. . . Maj. Gen. K. L. Berry has been reappointed state adjutant general by Governor Daniel. Brig. Gen. William H. Martin was renamed assistant adjutant general. . . Texas started 1959 by paying out more for unemployment

compensation that it did in '58, the "recession year." Texas Employment Commission reported payments for January of this year were \$5,613,664, compared to \$4,918,511 a year ago. . . In a generous gesture toward a new revival, a House resolution was proposed to fly the flag of Alaska beside the Texas flag when the new 49-star U.S. flag is first raised at the State Capitol.

**School Week To Be March 2-6**

Public schools throughout the State of Texas will be the center of attention during the week of March 2-6, when civic leaders, business men and educators will join to pay tribute to a great American institution, the public school system.

Texas Public School Week has been proclaimed officially by Governor Price Daniel, and a special committee, headed by John McKee of Dallas, has been working with local committees to organize open houses, town meetings and other programs designed to focus attention on the accomplishments of the public schools.

According to Mr. McKee, Texas Public School Week "will attract some two million visitors to their public schools during the week of March 2-6. "Citizen interest stimulated by this one visitation week can be the beginning of better understanding and active support of public schools throughout the years," he said.

The theme suggested for this

year's Texas Public School Week activities will be "Democracy in Action," with emphasis on the American foundation principles that support the free enterprise system. These foundation principles include: Trust in God; Importance of the individual person; the profit motive; private ownership of property; fair and open competition; dignity of work; and the role of government as protector, not provider.

**AIMS YOUR ANTENNA** straight at the sending tower of the channel you want.

**NO WONDER YOU HAVE TV TROUBLE** with weak or snowy picture and "ghosts" on so many channels! Like most people, you're probably in a location where TV signals come from many directions—not just the one your antenna was set up to face.

**WHAT TO DO ABOUT IT?** Make your antenna work 3 or 4 times more efficiently and bring in the best possible picture from any direction. What you need is the TV marvel that causes your antenna to Circle and Detect like Radar—the CDR ROTOR. **EASY AS ONE-TWO-THREE!** Here's all you do to pull in clearer, sharper, stronger pictures:

1. Turn handy Skyweep Direction Selector on CDR's beautiful little Control Cabinet.
2. Rotor at the base of your roof-antenna turns it in a complete circle till you see the picture clearer than ever before.
3. Lift your finger from the Selector and your antenna automatically locks in position.

Simple, isn't it? So why settle for half-way TV? Pull in all the channels your set is equipped to receive—with a thrifty CDR ROTOR.

**READ WHAT ACTUAL USERS SAY!**  
Hundreds of thousands of CDR Rotors are now in use and in TV reception areas just like yours.

"MORE STATIONS, BETTER PICTURES. We have lots of company from far and near, and they all say we get more stations and have a better picture than they do. The CDR ROTOR can't be beat."  
—Mrs. C. J. McCasas, Anthony, Kansas

"STATIONS WE NEVER DREAMED OF GETTING come in clean and clear. We never received real pleasure out of TV till we got the new CDR ROTOR."  
—Curtis Coon, Benton, Ill.

"SURROUNDED BY HIGH BUILDINGS. Even though my antenna is a very good one, I couldn't get a true, sharp image. Since installing a CDR ROTOR, my pictures are clearer, sharper, steadier. My set behaves like a brand new one, even though the nearest TV station is over 45 miles away."

Hair Styles Around SHS Have Interesting Shapes

Some interesting hair styles around SHS are the half-shag, fluff, and ducktail in short hair styles and the French roll, pony tail, and page-boy in long hair styles.

The half-shag is obtained by cutting the hair into a short shaggy looking cut, bringing small curls down around the face, and pulling the top back into a wave.

Short hair can also be arranged into a full-shag. This is obtained by cutting the top of the hair to arrange into small curls to pull over the forehead. The half-shag is a smart, easy-to-care-for style.

The ducktail is a very popular hair style. This hair style is obtained by cutting the hair to truly resemble a duck's tail. The hair is cut and brushed up in the back and the sides are arranged in waves or soft curls. The top is usually pulled back into a wave-crest or soft curls. The ducktail is a very comfortable, "outdoor" type of hair cut.

The hair style sometimes referred to as the "fluff" is also a popular style this year also. The fluff is obtained by cutting the hair short on the sides and in the back and making it go into curls all the way around, the top is either pulled into waves or over the forehead into bangs. The fluff is a lovely, naturally-curling looking hair style.

The French roll is one of the long hair styles which is very popular this year. This hair style, as its name implies, was concocted by a French hair stylist. It is obtained by brushing

The Slaton, Tex., Slaton Thursday, Feb. 26, 1959

the hair back and into a roll located on the back of the head in about the vertical center.

The sides are most often pulled into waves or few small curls are brought around the ears.

The top may be fixed a number of ways. It may be pulled back into waves or pulled down into soft curls. The French roll is a classic looking hair style with a beauty all its own and is equaled by any other hair style.

The pony tail is a very easy-to-care for hair style which is always in fashion wise for long hair. The pony tail is arranged by pulling the hair back and catching it at the back with something to make it resemble a pony's tail.

The page-boy hair style is also a lovely hair style which is very popular. It is obtained by bringing the hair completely down in a smooth effect and brushing the hair under at the ends give it the completely smooth appearance. The page-boy truly a lovely style and is natural looking. The top is either rolled into semi-bangs pulled into a wave-crest.

## Future Farmers Of America Creed Gives Ideals, Beliefs Of Members

(Editor's Note: This is FFA Week in Slaton. This special week, Feb. 21-28, has been set aside to commemorate the activities of the local Future Farmers

of America organization, of which Slaton High School has an outstanding chapter. Here is the FFA Creed.)

The Future Farmers of America Creed was adopted at the 1941 National Convention. The creed symbolizes the ideals for which FFA stands and by which Future Farmers try to live. The following is the creed and a brief explanation of it.

### FFA CREED

(1) I believe in the future of farming with a faith born not of words but of deeds. Achievements won by the present and past generations of farmers, with a promise of better days through better ways, even as the better things we now enjoy have come up to us through struggles of former years.

(2) I believe that to live and work on a good farm is pleasant as well as challenging; for I know the joys and discomforts of farm life and an inborn fondness for those associations which, even in hours of discouragement, I cannot deny.

(3) I believe in leadership from ourselves and respect from others. I believe in my own ability to work efficiently and think clearly, with such knowledge and skill as I can secure, and in the ability of organized framers to serve our own and the public interest in marketing the product of our toil. I believe we can safeguard those rights against practices and policies that are unfair.

(4) I believe in less dependence on begging and more power in bargaining; in the life

abundant and enough honest wealth to help make it so—for others as well as myself; in less need for charity and more of it when needed; in being happy myself and playing square with those whose happiness depends upon me.

(5) I believe that rural America can and will hold true to the best traditions in our national life and that I can exert an influence in my home and community which will stand solid for my part in that inspiring task.

### The explanation:

(A) Farming is a trade born in and based on our ancestors. It is only through their struggle and hard work that we are able to enjoy the modern conveniences and ease with which we live. Future farmers realize this and strive to make the very best out of everything they do, for they realize that it will be their children who will reap the benefits of today's agricultural research and practices.

(B) Farming is not an easy life. Future farmers realize this, but they know what joys farm life can bring. FFA boys are proud of their farm heritage and most of them would not trade farm life for city life.

(C) Farming is the most important occupation on Earth. It is only through organized rural practices that farmers will be able to feed the teeming millions in years to come. Future farmers recognize the need for more leadership from and respect for rural leaders. Only through organized professional

training can rural America develop the kind of leaders needed to represent the farmers of America. America's future farmers are the answer; they are today's leaders of tomorrow.

(D) Future farmers recognize the need for true happiness. Ability to get along in life through bargaining and one's relationship with others are his aims in life. Future farmers realize the lack of such traits in American life, and they sincerely hope that through their meager efforts they can do their part in remedying the situation.

(E) Future farmers believe in the future of rural America and that, if organized properly, it can become one of the reasons for a stronger, better and happier America. Future farmers

### GETS ASSIGNMENT

Army Lt. Col. Choice R. Rucker, son of Mr. and Mrs. James E. Rucker, Slaton, recently was assigned as assistant chief of staff for personnel and administration for the Western Area Command in Kaiserslautern, Germany. Colonel Rucker entered the Army in 1940 and arrived in Europe in August, 1957. He holds the Silver Star, the Purple Heart and the Combat Infantryman Badge among his decorations. A graduate of Slaton High School, the colonel is a graduate of the University of Arkansas. His wife, Dorothy, is with him in Germany. (U.S. Army Photo)

are striving to do their part and hope that their influence will help America as she struggles for a free world.

ACCORDION FOLDING DOORS

**\$9.95**  
32" W x 90"

All doors are a standard 90" in length.

To fit opening up to 32" wide \$9.95

To fit opening up to 38" wide \$11.95

In beautiful leather design, Russet, Baige, Doekin Grey.

Here's a beautiful folding door and what a buy it is. Gracefully curved steel panels run the full length of every fold... permanently laminated between 2 layers of quality plastic. This gives the "Easterner" a rigidity—a firm full appearance—found only in the most expensive doors and so practical, too. Add striking new beauty to every room... will give you so much more working space. Ready and easy to install.

**NARROW DOORS, CORNER POSTS STICK OUT.** Other cars are actually issuing printed instructions on how to get in with dignity, without cracking elbows and knees. And note center hump now bigger than ever.

**WIDEST DOORS, CORNER POSTS PULLED BACK.** Doors are, in fact, six inches wider. Doorsills are wide enough for sure, easy step. Even ladies in tight skirts, or six-footers can step in easily. And see how center hump is cut in half.

## LOOK! HERE'S ONE CAR YOU DON'T HAVE TO FALL, CRAWL OR BACK INTO

Mercury alone in its field gives you a body designed specifically for just one car. Other manufacturers give you—even on cars in Mercury's price class—the same basic body used on their lowest priced makes. That's why Mercury alone is so easy to get in and out of. Why Mercury alone can cut the center hump in half and provide decent cushioning and stretch-out room for six (not four) passengers. That's why Mercury is the one "better car" that gives you a full measure of better car comfort. Performance?—just come in and drive this beauty. You'll see.

*electric clothes drying's a breeze!*

★ We'll all agree, to dry clothes you need a breeze—and breezes come in two styles. There's the outdoor breeze that tears clothes, covers them with dust particles, and chills you to the bone. Then there's the indoor breeze which is gentle as a lamb on the clothes and on you. An electric clothes dryer is the way to get that soft and fluffy breeze, and it's the way to have the sweetest, whitest wash in town. Make clothes drying a breeze—electrically.

**April 15 Deadline For Automobile Inspections**

Residents of Lubbock County were reminded today that the 1959 deadline for having their motor vehicles inspected is midnight, April 15.

Captain Alan Johnson, Motor Vehicle Inspection Service, Texas Department of Public Safety, stated today there are 42,105 motor vehicles registered in Lubbock County; of these 52% have been inspected.

Drivers are urged to have their vehicles inspected early to avoid a last minute rush. This time of the year is noted for adverse weather conditions which may be predominate during the next two and one-half months. As a result the number of inspection days will be cut down since stations cannot inspect vehicles under these adverse conditions.

"Passenger cars are inspected for brakes, lights, reflectors, horn and windshield wipers; while commercial vehicles are inspected for the above plus additional items required by law," said Johnson. "In 1958 approximately five out of every one hundred accidents were caused by a mechanical defect;

## Students Show imagination in Two Articles Written For Their Teacher

(Editor's Note: Two third grade students of Mrs. A. F. (Flossie) Bohannon wrote articles recently which she thought were exceptionally good. They are reproduced here as written, for your enjoyment.)

**WHAT HAPPENED TO TOM**  
Tom tried to climb through a barbed wire fence. One of the bars caught in his coat. He couldn't get loose.  
A big bull got mad and started

running toward him.  
Tom tried to get loose again. But he couldn't! He tried and tried but he just couldn't get loose!  
His hand slipped and he cut it. It wasn't very bad.  
The bull was getting closer. He was very very mad.  
Tom's hand was getting worse. He started calling for help. No one came!  
His hand was hurting and bleeding. And the bull was getting closer. He was very mad. He saw Tom's hand and he felt sorry for him. But he kept right on coming!  
Tom was afraid! He started calling again. But no one heard him.  
His hand was hurting more than anything.  
The bull was still angry. But he felt so sorry for Tom that he stopped running. He went to the house and started chasing Tom's mother. He chased her out of the house.  
She saw Tom and ran out to help him.

And the policeman said, "Yes." "But I was going to get my shopping not the ten dollar bill," said Mary. The policeman said, "You will have to come with me." "Where!" said Mary. "To the policeman station." Mary did not like this. She ran away. The policeman ran after Mary. Mary ran faster and faster.  
When Mary got home Mary's mother was mad when she heard this. Mother went to the telephone and called Daddy. Daddy said he would be right home. When Daddy got home Mother was sick. Daddy called the doctor. When the doctor got there Mary and the ten dollar bill matter was all right. The doctor said Mother had to go to the hospital for about 5 weeks. After Mother was all right Mary never got to go to the store again.

### Teen Talk

By Karen Henry and Carol Rosser

If you're one of those lucky people who had colds Friday and couldn't smell anything, you may be wondering why everyone was fussing to class holding anything available over their face. The chemistry class brewed up some mad concoction, H2S Hydrogen Sulfide gas, better known as the "rotten egg" gas. The "potion" was floating around in the rooms and was especially strong in the hall. There have been many suggestions for a remedy to this situation, from isolating the lab in the field house, to purchasing gas masks for the entire student body and faculty.  
James "Ab" Wright seems to think the whole Speech class is daft. Just because when he walked into the room everyone stood up and waved their arms above their heads. No need for alarm. "Ab." We were merely exercising our diaphragms.  
The Choraleers are determined to improve their singing ability. They are going to attend a Choral Clinic Friday afternoon, which should prove to be interesting.  
The Shorthand students are going to have an inter-school shorthand meet soon. Better sharpen your ball-point Shirley Kitten.  
Many of the FHA girls are looking forward to the area meeting to be held in Amarillo the 7th and 8th of March. Some of the girls who are going are: Diane Heinrich, Jan Bownds, Rosemarie Phillips, Jan Smith, Linda Hogue, Claudine Townsend and Melinda Clifton.  
There are three geniuses actually walking among us in school. Dorothy Morton, James Murphy, and George Privett! have cinched first, second and third prizes in an essay contest here. All of us who didn't enter the contest are really in a spin.  
Mr. J. P. Brown was pleasantly surprised to find some of the homemaking girls in the "Ag" room last week. Mr. Brown wishes that all of his "Ag" boys looked like them.  
Here's some vocabulary words for you or should we say "Daffinitions":  
Drizzle—a drip that goes steady.  
Mosquito—the original skin diver.  
Skeleton—a pile of bones with the people scraped off.  
Quarterback—a small refund.

# 'Scout Circus' Is Scheduled For March 7

Adult ticket sales managers in Lubbock were to meet at 7:30 p.m. Tuesday in the Public Library to pick up their tickets. Managers in other towns over the area will receive their tickets through the mails.

Plans for the circus call for eight big acts to be unveiled in the arena at the coliseum. Admission will be 50 cents per person.

Bill Vancleeve is general chairman for the Circus and John Whitcomb is vice chairman. Other members of the planning committee include Dr. W. I. Hess, health and safety; William Wicks and Tommy Tarlton, physical arrangements; Dr. Davis Armistead, circus director; Frank Junell, publicity; Charles Shanklin, ringmaster; B. T. Rucker, Dr. Cliff Breard, Mary Thomas, Joe Wilson, Leo Hay, Weldon Snodgrass, Jim Harding, Bill Bray and Harold Willhite.

The circus, being held on a Saturday night so as not to interfere with school work, will open with a grand entry by the Cubs, Scouts and Explorers of the South Plains Council.

Eight separate acts will follow. Cubs in uniform will play Cub Scout games and other Cubs costumed as spacemen and on roller skates will present a "Spacemen on Wheels" act.

The Cubs also will build floats to be used in a "Cub Scout Parade." This will be followed by a "Physical Fitness" demonstration by Boy Scouts displaying Scouting games and fun contests.

All types of towers, bridges and outdoor Scouting activities will be demonstrated in an act entitled "Pioneering."

Each of the six districts in the South Plains Council will enter a patrol of Scouts to compete in wall scaling, fire building and other Scouting skills during another of the acts. Each Explorer post in the area will present its specialty act, just before the closing ceremony.

Scouts in full Indian costume will perform Indian dances and specialty acts.

The entire circus will last

### HIGH PRICE PREJUDICES

An active churchman was discussing another member of the church with his pastor, and in doing so expressed a great truth in a few words. He said, "I am afraid Frank is bankrupting his soul trying to support his prejudices, for he is maintaining some of the most expensive ones I have ever known any man to have."

That is one of the great difficulties connected with a prejudice; IT COSTS SO MUCH TO SUPPORT IT.

The Christian man will guard his soul against prejudices as he would guard his money against thieves, or his health against infection. He will discipline himself with extreme care lest he become a slave to petty judgments, unreasonable dislikes, and undisciplined sensitiveness.

It will pay large spiritual dividends for any man to make an occasional study of his likes and dislikes, just to see how

"Some people are like blisters—they don't show up until the work is done."

much of life he is missing on their account. Very few situations in life can be entirely to our liking. There are some weeds in every garden, some disagreeable people in every neighborhood, and some uninteresting pages in every book. Even our best friends have their bad days.

The Christian who is eager to live triumphantly will judge his friends by their averages, not by their worst nor by their best. He will estimate his preacher by the general level of his sermons, not by the one he dislikes or the one that sweeps him off his feet.

To cure oneself of a prejudice it is sometimes necessary to compel oneself to act in direct contradiction to the prejudice. This may mean that we must deliberately and purposefully speak to someone who, we are perfectly sure, has insulted us. We must be ready to laugh off the slights, the oversights, and neglect. To do so may call for a good deal of self discipline, but it cannot possibly be as hard as it will be to support the prejudice into which resentment grows so easily. Every man has to pay for his own prejudices, and some of them are very expensive.

# Texas' Leadership In Rip-Snortin' Weather Field Gets Backed By Fact

A Texan who wanted to be fully prepared for all kinds of natural disaster common to his state would have all these: a storm celler (for tornadoes and hurricanes), a boat (for floods), tire chains (for blizzards) and a bull dozer (for forest fires).

And if he makes his living from the land, he ought to have a sizable bank account to get him through the 'inescapable drought cycles.

Texas' legendary leadership in the field of rip-snorting weather was backed up with factual data in the annual report just released by the State Division of Defense and Disaster Relief.

A total of 534 natural disasters were covered in the 1957-58 summary sent to Gov. Price Daniel by Acting Defense Coordinator James H. Garner. The Dallas tornado, Silverton tornado, Lampasas flood, Hurricane Audrey, Bastrop Park fire, Rio Grande floods and scores of other calamities built up an overall property loss of more than \$55 million.

"Natural disaster during the past two years, particularly in the spring and summer months of 1957, were the most widespread and extensive ever experienced in Texas," said Garner. "Illustrating rather vividly the distinction Texas holds as first in the nation in all major disasters — first in tornadoes, second in hurricanes and first in devastating floods — every

At least 14 Texas streams bear the name of "Rock Creek."

Texas has not been without cattle since 1690, when the Spanish brought stock for the first mission.

There is evidence that the pecan—Texas' state tree—grew in this region in prehistoric times.

section of the state was affected at one time or another by disasters that ranged from tornadoes to hurricanes to snowstorms."

The Defense Division, an integral part of the governor's office, is the agency which channels assistance from both state and national government to stricken areas. Federal disaster assistance totaling \$1,747,406 was obtained for 65 counties and 90 cities during the two-year period.

A month-by-month breakdown indicated the March-through-June periods as the most tumultuous, mostly because of tornadoes.

Even after the period of storm and flood fighting began, the economic disaster brought on by prolonged drought continued in some areas. The Defense Division served in an administrative role in dispensing assistance to farmers and ranchers through the federal Emergency Feed Grain Program and Emergency Hay Program.

Before extensive rains finally brought an end to the need, certificates with a value of \$33,148,085 were distributed for grain and \$9,395,406 for hay.
