Self Is Elected Mayor

L. O. Lemon, B. A. Hanna Get Nods As Commissioners In Balloting

A total of 916 persons cast ballots in the City Election here Tuesday which saw Clark Self, Sr. elected Mayor in a hotly-contested race.

The election held perhaps the most community interest of any which has been held here in the history of the city. The unusually good turnout of voters came in spite of a tornado alert and inclement weather.

The voters also selected L. O. Lemon as commissioner for Ward One and re-elected B. A. Hanna for commissioner from Ward Three.

A vigorous campaign had been waged on behalf of Self by several local individuals and by the candidate himself, whose platform was based on "Progress for Slaton."

His opposition was just as vigorous and the outcome was uncertain until the returns from Ward One, the largest, were complete.

Self was elected with a total of 418 votes to 341 for B. H. Bollinger and 157 for Jeff Custer. Bollinger led when reports came in from Wards three and four, but Self pulled ahead when Ward Two returns were made known. The Ward One returns clinched the win for Self as he led in that ward by 68 votes.

The Ward-by-Ward returns in the Mayor Race:

Ward One, for Self, 198; for Bollinger, 130; for Custer, 15.
Ward Two, for Self, 127; for Bollinger, 86; for Custer, 9.
Ward Three, for Self, 35; for Bollinger, 51; for Custer, 7.
Ward Four, for Self, 58; for

Auxiliary Police Forming

The formation of the Slaton Regular Auxiliary Police is underway here, according to Eugene L. Martin, chief of police.

The Auxiliary, which will consist of six men when formation is completed, will include a captain, lieutenant and four Auxiliarymen. Already named are W. A. Riley, captain, and Otis Rogers, Jr., lieutenant. The

chief is now approving applications for the other four positions.

The function of the Auxiliary will be to supplement the regular commissioned police force when a personnel shortage occurs or in emergencies.

The force will not be authorized to carry weapons except when on assignment from the

chief personally or in the company of a commissioned officer.

The six men will receive police training along with the regular police force and will be subject to rules and regulations which limit their activities to those which would be endorsed by any good citizen.

Under the Auxiliary plan, Chief Martin points out that when the force is functioning, he can cover a given area with six to eight men in from three to five minutes through telephone calls to the Auxiliary men who will be used. The Auxiliary will be available at any time to serve in the case of emergencies.

Regular training duty will be "pulled" during the week-ends for the Auxiliarymen, the chief pointed out. He added that when the force reaches full strength he will then be able, in the event of its necessity, to put men walking beats downtown or in any other area of the city.

Also formed is the Junior Auxiliary, made up of High School students. The Junior Auxiliary, a force of 15 students, will be used as a reserve force or in emergencies. Another duty of the Junior Auxiliary will be to stand tornado watch when Slaton is in a tornado-alert area.

The Junior Auxiliary will meet at 6 p. m. Thursday in the police station and any student interested may set in on the session.

The chief pointed out that he had plenty of applications for both the regular Auxiliary and the Junior Auxiliary but that he would receive them from any other individuals interested.

AUXILIARY POLICE BRASS

These two men, W. A. Riley at left and Otis Rogers, Jr., will serve as captain and lieutenant, respectively, of the new Slaton Regular Police Auxiliary under formation here. The function of the new force will be to supplement the regular police department when personnel shortage or emergencies occur. The volunteer Auxiliarymen will receive no pay for their services.

Rain!

Rain finally came to Slaton Tuesday and Tuesday night.

There was a gleeful look on the faces of farmers and merchants alike early Wednesday and reflections of cotton bales and dollar marks in their eyes.

Reports ranged from an inch and a half in west Slaton to two and a half inches in the eastern section of the city.

There was one report of an inch and a half in downtown Slaton and one of two and a half on Seventh Street just east of the downtown sector.

After The Election...

Now that some of the sound, fury and fur has settled after one of the liveliest City Elections in years the citizens of Slaton should be thankful that there were as many good men who were willing and able to take over the direction of the town's affairs which offered nothing much in return except the probable promise of severe criticism, or there is no doubt that whatever will be done by the city commissioners and the Mayor will stir up some ill will regardless of what they do.

While the campaign for City Mayor and one Commissioner was going full steam ahead there were promises by all concerned, at least it seemed all concerned, to clean up the town with perhaps a hinted insinuation that the town needs cleaning up. It was never made clear whether the town is dirty because the homes and premises of its citizens have become pretty badly messed up or that the morals of some of our inhabitants have become lax or perhaps that both morals and health conditions need attention. A close watch on both is always desirable and what is going to be the results of some of the promises will be interesting to anticipate.

A casual inspection by any one who has lived in Slaton over the past seven to ten years will probably bring out the opinion that Slaton is a much cleaner and better appearing town than it has ever been. The business section has undergone almost complete renovation of the buildings on the square with a goodly number of very attractive new buildings such as the ones on the west side that took the place of the building in which the Forrest Hotel did business and most outstanding, of course, our new bank building.

The residential sections have also expanded and improved with the construction of some homes that would do credit to any town much larger than Slaton such as the W. R. Wilson home, the Arrants home, the McSween home and the newest the Glen Payne home and many others. Slaton may be a little dust spattered by the recent storms but it's a big cut above the average in improvements in most of the towns in West Texas when it comes to appearance. If we need to be cleaned up let's get out our hoe, rake broom and linament for sore muscles and go to work.

But if the cleaning up is a moral issue the sins of most of the members of the community must have been kept pretty well covered up. There have of course been some minor and a few major infractions of the law but Slaton is no little Chicago or Houston.

One of the major troubles in Slaton according to a number of complaints is the use of air guns by destructive minded individuals. There have been many thousand of dollars worth of plate glass marred or ruined by boys and young men in our town. There is a law against the use of air guns within the city limits but without the help of the parents of boys using them it would be just about as impossible to enforce as the law against spitting on the sidewalks. No doubt the police do their best but for any control over the nuisance the parents of the boys are responsible and any parent who allows a child to shoot an air gun in the city is encouraging him to break a law and when he is allowed to break one law he is not likely to have much respect for any other laws. It is hoped that some improvement in control of air guns may come about as well as other conditions that may not be so apparent.

THE AMERICAN WAY

The Legacy

The Sounding Board

Editor's Note: Gloom seems to have overpowered most of the newspaper publishers of this area lately. Read their wailing see how much good it is going to do.

The Dublin Progress As columnist Jay Hayden sees it: "The most significant domestic political fact for 1959 promises to be the three-sock — American taxpayers seem to be in for."

This gloomy anticipation should surprise no one. There's hardly a state that isn't scratching around looking for more revenue and new sources of revenue. Thousands of communities are in the same boat. As for the federal government, it's true that the President is going all-out in support of a balanced budget. However, in Mr. Hayden's words, he "faces the fight of his life" with a Congress where the big spenders are numerous.

One of the things that has happened is that we have lost sight of the distinction between what is necessary and what is merely desirable. Every family would like a mansion to live in, a staff of servants, custom-made cars and other such luxuries. But the intelligent family cuts its suit to fit its cloth. Unless government follows the same course, we're asking for financial troubles that will dwarf anything that has happened in the past.

Another significant trend is taking place. On the state levels, particularly, there is much talk of "broadening the tax base." This is a euphemism for taking more tax money away from lower-income groups, and for reaching those who pay no direct taxes now. It simply reflects the fact we've reached the point of diminishing return when it comes to taxing the high-bracket incomes. It's going to be the many, not the few, who suffer most if the limitless spending philosophy prevails.

Brain Jewels, Petersburg Journal: "East Germany Communists charged the U. S., Britain and France with misusing supply lines to West Berlin by transporting arms over them. It's easy to tell when Communists are planning some dirty work against the West, as they invariably first make accusations against it."

With reference to the Berlin situation it seems that while Macmillan is opposed to backing down he's willing to do a little sidestepping.

Our progress towards achieving an Eutopian welfare state receives a few minor setbacks now and then. Recently South

Pop Valve in Hamlin Herald: Employees of Congressman Jim Wright of Texas wear large buttons with the inscription, "No Kin to the Boss."

That's a good way to dramatize the nepotism situation in Congress which has rocked the country.

It's true that Jim's folks are advertising the kind of thing they ought to be doing naturally.

But that isn't par among the members of the House these days. Jim Wright's record becomes one of the exceptions. In this nepotism scandal he's as clean as a hound's tooth. His constituents are proud of that.

—SOUNDING BOARD—

The Country Editor in Tulla Herald: There's a story on this page from the American Cancer Society which, if true, should make all of us see red. It asserts that the number of lives saved from cancer is directly related to the number of dollars raised in the American Cancer Society's crusade, and "about a third of all cancer patients are being cured today, but this figure could be improved by 50 per cent if enough effort is put forth."

If it is true that a cure for cancer is being retarded simply by lack of funds for research, then why in the name of common sense doesn't Congress set aside a little pocket change for this research?

Is a cure for cancer less important than providing comforts and even luxuries for the Hot-teuts?

Awards Given Car Dealers For Safety Training

Certificates of merit for lending automobiles in the high school driver training program were received this week by two authorized new car dealers in Slaton.

The awards were made to the dealers by the Texas Automotive Dealers Association, the state-wide association of factory franchised dealers whose members have for more than 10 years loaned cars to high schools for "behind the wheel" driver education. The vehicles are loaned without charge as a public service.

The dealers and the schools to which they loaned cars are: Slaton Motor Co., Slaton Ind. School Dist. and Doc Criss Chevrolet, Roosevelt Rural High

School. The schools to which the dealers loaned automobiles have instructors qualified to teach the fundamentals of actual driving, as well as the theoretical aspects of proper use of today's modern motor vehicle.

Officials of the state new car dealers association describe the driver training program as a most important part of the campaign to cut down the accident rate of teenagers and those in the early 20's age group.

"Youthful drivers are the reservoir from which future operators of motor vehicles are siphoned," said Sam H. White, Houston, president of the association. "As the sellers of motor vehicles, our members who have loaned these cars are glad to do everything possible to give them as much advance training as they can."

Records show that students who have been graduated from a high school driver training class have little trouble passing

the driver's license tests, and upon being licensed usually make better drivers than those who have not had such training. Authorized new car dealers have more than \$1,000,000 invested in automobiles on loan to high schools throughout the state for this purpose, according to an estimate by Tom J. Crooks, manager of the association at Austin.

In addition to cars loaned for driver training, many dealers lend cars to FFA and 4-H Clubs so agriculturally minded youths may become familiar with the operation of at least one type of vehicle used in agriculture.

JUST TALK

BY A. M. J.

As this is being written before the city election I do not know who will be Mayor of Slaton by the time it is in print. I have a feeling he is going to be faced with some pretty tough business as soon as he is gingerly seated in his new chair.

From underground sources I get it pretty direct that the members of the Slaton Garden Club are determined to pretty Slaton and they are willing to get the money by devious means to plant a lot of flowers, shrubs, etc., if some dependable organization, person, or fire department will undertake to give the plants a good care after they have been planted and if my information is reliable the new Mayor is directly in the line of fire.

There have been an untold number of foundation garments, girdles and et cetera pretty things sprung for the efforts that have been made in the past so far the money spent and shoveling and spading has done little benefit because the houses of some good intended folks has been neglected. It is most probable that Slaton is going to be made a garden of the South Plains and if the picture now the Mayor and the city commissioners are gracefully watering possibilities as the tourist flitter does and come to think of it does an azalea look like what kind of a trail does it

By Ball in last week's paper I told me of wanting to go to the day of the peg top paper collar and bull dog shoes and incidentally said it is nothing just about "Talk," because I wailed a because all the hats a man buy these days are come and narrow brim.

THE CLEAN WINGED STYLE OF BUICK '59!

Next time you look through your windshield at the unmistakably clean, sleek tail of a Buick '59... take a moment to envy its owner...

He owns THE Car... "hottest" thing on wheels today. He owns THE style that's farthest ahead both in public notice and in future trade-in worth. He commands the most efficient automobile power plant in America today. (Buick's new Wildcat engines not only deliver an important increase in actual miles per gallon... but when you take car weight and performance into account, they get more out of each gallon of gas than any others.) He stops with Buick's exclusive braking system. (Fin-cooled, front and rear, aluminum drums in front.) When he wants to speed up or slow down, he feels the quick answers of the smoothest transmissions of all... (only Buick combines Twin Turbine* or Triple Turbine* transmission smoothness with Wildcat getaway).

But why not find out for yourself? This car's quietness of motion. Its comfort of roominess and ride. Its willingness to do exactly what you wish of it.

You'll live so much better in a Buick '59. Let your Quality Buick Dealer show you why... and how easily the man in the Buick could be... YOU!

Visit your Quality Buick Dealer soon. He's anxious to show you why your family belongs in the NEXT 150,000 to make the magnificent change to Buick '59!

*Optional at extra cost on some models.

Five Youths Are Implicated In Statement

Several thefts and destruction of property cases were solved here this week with the arrest of several youths from Slaton, Southland and Lubbock. Approximately five youths ranging in age from 14 to 16 were involved in a statement made by a Slaton youth which admitted the thefts and property destruction and implicated the others. Included was the breaking out of windows at the East Ward and West Ward Schools, breaking out a window of a car, and the theft of tools, cigarettes, pies, etc., from various local stores and parked automobiles.

TREADOR — Tight-fitting treador pants and brief bodice are fashioned of a gay cotton print in this Paris original, which boasts wide, solid-color sash and matching cap.

Experts consider NIKE missiles relatively simple—yet typical NIKE system contains some 1,500,000 parts, 217,000 feet of wire, 2,000 electron tubes, making equipment to control missile in flight requires more than 20,000 drawings. Battery here is located at Taipei, Taiwan, first to be raised in the Far East.

JAYCEE 'JAILBIRDS'

You view here five "one-time losers," Jaycee contest losers, that is. These five gentlemen, along with five others, were on the losing side in a Jaycee membership contest. The contest held a stiff stipulation for the losing side . . . that it spend the night "in jail." Police Chief Eugene Martin went along with the zany consequence; however, the fellows got a "pardon" about 3 a. m. and went home determined to win the next contest. Slaton's Junior Chamber of Commerce dreams up. They are: bottom to top, Otis Rogers, Jr., John Schmidt, Joel Combs at left, Don Kendrick at right, and Tommy Swanner. Better luck next time, fellows!

Lubbock Little Theatre Production, 'Wuthering Heights,' Set April 13-15

"D'Ruth Hopping and Charles Stewart co-star in the forthcoming Lubbock Little Theatre production, "Wuthering Heights," which will be presented in the LLT Playhouse, 2508 Avenue P, on Monday, Tuesday and Wednesday, April 13-15.

Miss Hopping, a Lubbock resident, has consented to come out of temporary acting retirement to appear in the drama which is being directed by Frank Rose.

Miss Hopping graduated from Texas Tech in 1949 with a degree in speech. Local and area residents will remember her in "Joan of Lorraine" and "Romeo and Juliet" in which she took the leads while a student at Tech. Following her graduation she went to New York where she studied under Stella Adler who trained such great stars as Van Heflin, Shirley Booth and Imogene Coca.

Her fortunes began to rise when she became a resident member of the Lake Whalom Company, appearing in co-starring and supporting roles with such stars as Dana Andrews, Mark Stevens, John Ireland, Joanne Dru, Denise Darcel, Vincent Price and Larry Parks.

In the summer of 1953, Miss Hopping was discovered by Sidney Lumet of the Columbia Broadcasting System and was featured in such plays as "The Web," "Robert Montgomery Presents," "Omnibus," "Suspense," "Our Lady's Juggler," and "Mono Drama Theater," with James Dean, Betsy Palmer, Frank McHugh, Bill Gargan, John Barrymore, Jr., and Joseph Schildkraut.

In 1954 Miss Hopping appeared at Carnegie Hall where she sang and danced to the overwhelming response of an overflow audience. In 1957, after the appearance in "The Gully" in Pennsylvania, Miss Hopping went into retirement because of illhealth and returned to her home city of Lubbock.

Earl Wilson, noted syndicated columnist, once wrote, "watch D'Ruth Hopping . . . a climbing star."

Co-starring with Miss Hopping will be Charles Stewart as Heathcliff. Stewart is well-known for his work with the Toastmaster Club and is a prominent area speaker. He is originally from Brownfield and attended SMU and Tech. He is a former detective sergeant with the Lubbock Police Department and was attached to the narcotics division. He is a newcomer to the Lubbock Little Theatre stage.

The remainder of the cast and the characters they will play include Roland Myers, Edgar Linton; D. A. Plumlee, Isabel Linton; Margaret Ann Houle, Ellen Dean; and Rod Lambert, Joseph.

Advance reservations to the production may be obtained by calling the Lubbock Little Theatre Porter 3-1821, between 9-11 p. m., Monday through Friday.

Science Will Control Weather

... snow to advance the planting season.

Rain-makers have been in business since 1946, when a scientist breathed into a freezer, added dry ice to chill the water vapor, and created a miniature snow-storm.

Scientists now can produce rain and snow, and even change a drizzle into a downpour, by this process of "seeding" clouds with dry ice.

But changing the climate—or the pattern of temperature, wind, rainfall and sunshine—is a more tricky problem, especially since the changes in one part of the world might affect the weather in another area.

Man has no power over the amount of energy from the sun that falls on the earth, which ultimately controls weather and climate. But he might be able to control the amount of solar energy that the earth retains.

An ambitious weatherman might spread microscopic layers of colored matter over Antarctica to capture the sun's rays and transform the frozen continent into rich farmland.

While man tinkers with nature, traveling forecasters in the form of unmanned satellites will circle the globe. They will pick up information with a television camera and relay it to earth.

You won't be able to put the blame on the weatherman if you get caught with your umbrella down. The human forecaster will just set a dial and let an electronic computer worry about what kind of a day it will be.

... Texas economy as possible."

5. Likewise on appropriations if college professors and state employees get a raise, public school teachers should, too.

Carr's speech was regarded as public announcement that he is taking the reins of leadership to get a tax program passed.

Gov. Price Daniel's comment on Carr's statement was in the vein of "why didn't you say so before?" Daniel said, "I am in agreement with much of it and only wish it had been made 30 days earlier."

House Taxation Committee Chairman V. L. Ramsey of Beckville named a five-man committee to write a tax bill and have it ready early next week.

Given the task are Reps. Wesley Roberts of Lamesa, H. J. Blanchard of Lubbock, Joe Burkett of Kerrville, Ben Atwell of Dallas and Warren C. Cowen of Fort Worth.

Abandoned Property Bill—

Governor's abandoned property bill has been reported favorably by the House Tax Committee, but sponsors claim it has been "gutted" by committee action.

As originally proposed, the bill would have allowed the state to take over bank accounts and money and property held by banks, insurance companies, oil and gas companies, etc., if unclaimed for seven years.

As amended, the measure cut out all holdings except bank accounts and added the waiting period to 20 years.

Rep. Marshall O. Bell of San Antonio, sponsor, said this would take away 60 per cent of the revenue raising possibilities.

Texas In 1980—

Creation of a vast "government center" that would cover most of an area seven blocks long and four blocks wide is the aim of the Capitol Hill Master Plan.

Legislators, whose assent will be needed to make the dream a reality, got a preview of the 20-year plan from architects and Building Commission members.

Governor Daniel said the \$37,000,000 project could be financed with no new taxes. Income, he said, would come from the Confederate pension fund, funds of state agencies now paying rent for privately owned buildings and funds now available to the Building Commission.

Party Registration Fight—

A watered-down party registration bill is in line for House consideration after approval of the Election Committee.

Original proposal by Rep. Jamie Clements of Crockett would have required that a voter state his party preference and have it stamped on his poll tax at time of purchase. Thereafter, the carrier of a "Republican receipt" could not vote in a Democratic primary and vice versa.

Attorney General Will Wilson ruled this unconstitutional. He said it set up requirements for voting not authorized in the constitution.

As amended, the measure provides that a voter would have his receipt stamped when he voted in a primary or participated in party conventions. This would prevent his participating in the convention of a different party until he bought a new poll tax.

Help For Buses—

In this two-car-in-every-garage age, public transportation companies say they've fallen into hard times, and need tax relief.

A bill to lower the license on motor buses to a rate equal to trucks of the same weight has Senate Transportation Committee approval. It is sponsored by Sen. George Parkhouse of Dallas.

City transit companies are asking to be relieved of motor fuel taxes. Rep. Warren C. Cowen of Fort Worth is sponsoring a measure to do this.

Transit companies are caught in a cost squeeze, say supporters that makes it hard to continue serving working people at reasonable rates. San Antonio transit lines had to give up, were taken over by city government.

Sunday Sale Ban—

Senate has given final approval to a measure that would prohibit selling, buying or trading motor vehicles on Sunday.

Exempted would be persons who observe some day other than Sunday as the Sabbath, such as Seventh Day Adventists.

Bill had lively opposition from several senators whose argument was that it would "restrict competition in the name of Christianity."

Mr. and Mrs. Eugene Legg have returned from Natchez, Mississippi where they went on the Gordon and Homes pilgrimage and saw the Confederate pageant.

Around and About Slaton

When you drive West on Garza, glance at the Red Bud tree in the East side of the E. R. Legg home, it is a beauty. So is the forsythia plant in the front yard of Mrs. M. A. Pember on the same street and in the same neighborhood. Mrs. E. R. Wilson, on South 10th St. just South of the Methodist Church, has a number of fruit and decorative trees in full bloom, or did, unless some hard luck has overtaken this area before the Slatonite gets in the mail this week.

There are no doubt many other pretty specimens of out-

standing beauty in gardens and in shrubs and flowers that are in bloom at this time. This paper would appreciate a phone call by anyone having such displays about their home so that attention can be called to them in this feature of the paper.

The City Sanitary Department reports that more trees have been removed from the spaces between walks and curbs than during any previous season. New styles, as the homes come out from behind their bushes.

Merchants over town report a brisk business already in power lawnmowers, insecticides, fertilizers, etc. Looks like a good year coming for the folks dealing in such lines.

So far as can be found, the Mercury topper all records for Slaton when it went to 93 Sunday, April 5. A late freeze would kill or damage all vegetation now growing in vegetable or flower gardens. It hardly seems possible but cross your fingers and knock on wood, don't let any black cat cross your path or walk under a ladder.

STATE CAPITAL Highlights AND Sidelights

TEXAS PRESS ASSOCIATION

AUSTIN—With just about a month left between now and May 12, automatic adjournment date, it's "now or never" time in the Texas Legislature.

Bill sponsors are challenging other members to "pass it or kill it." No more playing the waiting game. Less juggling of the parliamentary ball.

House Speaker Waggoner Carr gave this "get with it" mood a strong shove by taking a firm stand on tax goals. There is no Santa Claus, Carr told House members. Texas must raise \$300,000,000 in new money to meet its obligations, he said. On "how to do it," the speaker made these suggestions and observations:

1. A bill is needed "which will include a broad array of selective taxes—including, but not confined to—selective sales taxes."
2. A general sales tax is "out." Lawmakers will—and should—keep their promises not to pass one.
3. "Broad" taxation would include upping levies in areas suggested by the governor—natural gas, liquor, cigarettes, corporations—but at a lower rate than suggested by the governor. In addition, many new items would be added, in keeping with the "spread thin, hurt little" principle.
4. "Piece-meal taxation" is unfair, inadequate to the present challenge. State government should not "reward political favorites." New taxes should be "spread across as much of the

The C. W. F. of the First Christian Church met Wednesday, April 1, with twelve members and one guest answering roll call with Proverbs.

They decided to send a contribution to Ceda Glenn Camp near Amarillo to help pave the road, and plans were discussed for serving the Chirios banquet.

For the month of April and May the society is going to bring sewing notions to send to an orphanage and old age home.

A thank you note was received from the little Spanish-American girl, who is in Mrs. Reasoner's Class, for the Easter clothes they gave to her.

The worship program was

Teague Drug Monthly News

A message from Teague's Drug, "Your Pharmacist"

"DOOR-TO-DOOR PEDDLING OF DRUGS, VITAMINS AND OTHER MEDICINES will be outlawed by the New York City Board of Health" said Dr. Roscoe P. Kandle, Commissioner of the Department of Health.

DR. KANDLE SAID: "Many door-to-door peddlers make wild, irresponsible and fraudulent claims about the diseases their products will prevent or cure. The courts have forbidden such claims but the individual peddlers make such claims orally."

ANOTHER SOURCE OF GREAT DANGER IS THEIR SALE OF FOOD SUPPLEMENTS, most of which have little value. Because potent vitamins, which can accomplish much good, are regulated by law for sale in a pharmacy under professional supervision, many opportunists skirt the law by calling them foods. To do this the strength is so reduced that results are negligible. Yet, the prices they charge are usually much higher.

THERE IS NO REASON FOR ANYONE TO GAMBLE WITH THEIR HEALTH. Our desire to protect and keep our good professional reputation is your assurance that your health will always be our foremost consideration. The products we supply will always be dependable and fairly priced. In this competitive age, no one can sell for less and give equal value or quality.

BE SAFE. DEPEND ON YOUR PHYSICIAN TO TELL YOU WHAT MEDICINE TO TAKE AND ALWAYS GET IT FROM A PHARMACIST

STRENGTH FOR THE WEEK

ALONE

It is human to stand with the crowd. It is divine to stand alone. It is manlike to follow the people, to drift with the tide. It is Godlike to follow a principle and stem the tide.

It is natural to compromise conscience, to follow the social and religious fashion, for the sake of gain of pleasure. It is divine to sacrifice both gain and pleasure on the altar of truth and duty.

"No man stood with me, but all men forsook me," said the battle-scarred apostle, referring to his first appearance before Nero to answer for his life and for believing and teaching contrary to the Roman world.

Truth is out of fashion. It has been out of fashion since Eden, when man changed his robe of fadless light for a garment of faded leaves.

Noah built and voyaged alone; his neighbors laughed at his strangeness and perished in

style.

Abraham wandered and worshiped alone. The Sodomites smiled at the simple shepherd, followed the fashion, and fed the flames.

Daniel dined and prayed alone. Elijah sacrificed and witnessed alone.

Jeremiah prophesied and wept alone. JESUS LOVED AND DIED ALONE!

He told His disciples of a lonely way: "Strait is the gate—few there be that find it."

Of their treatment by those who walk in the broad way, He told them: "If ye were of the world, the world would love you."

WANTED TODAY: Men and women, young and old, who will obey convictions of truth and duty at the cost of fortune, at the cost of friends, at the cost of life itself.

From the scrap book of Dr. Frank A. Godsoe, submitted by Rev. H. E. Summar, pastor Bible Baptist Church.

Other results:
Jr. Boys Doubles, won by Floydada's Carroll Hill and Frank Barrow, 6-2, 6-2, 6-3, over Slaton's Jim Haile and Robert Keys.

Jr. Boys Singles, won by Roger Cummings of Slaton, 6-3, 6-2, 14-12, over Charles Christian of Floydada.

Sr. Boys Doubles, won by Don Vickers and Richard Graves of Floydada, 6-2, 6-2, 4-6, and 6-1

over Johnny Taylor and Bill Wheeler of Slaton.

Sr. Boys Singles, won by Richard Marler of Floydada, 6-2, 6-2.

FREE AIR AT SELF'S SERVICE STATION

A prominent salesman summed up his success in three simple words—"and then some." "I discovered at an early age," he said, "that most of the differences between average and top people could be explained in three words. The top people did what was expected of them—and then some. They were thoughtful of others; they were considerate and kind—and then some. They met their obligations and responsibilities fairly and squarely—and then some. They were good friends to their friends, and could be counted on in an emergency—and then some."

We try to give "and then some," not just a good car wash, a good lubrication job or a good set of tires... We do all in our power to give the best that can be had—then some—When you want your car serviced ABOVE the average bring it to the place that give service above the average—bring it to —

William Allen White and The Church Bell

"I don't need to advertise," an established merchant in Kansas once told William Allen White, renowned publisher of The Emporia Gazette. "Everybody knows me and knows what I sell."

"In that event," replied the thoughtful publisher, "we can dispense with the oldest advertising medium for the oldest institution in the world. See that church down the street," continued Mr. White, pointing to one of Emporia's oldest and most beautiful structures. "That church has been established here for many years. Everyone knows what it is and what it does. In the tower of the church is a bell and every Sunday it rings out to remind folks to come to church."

"Shoppers go where they are invited and stay where they are well treated," concluded the publisher.

"Regardless of how well established a firm may be, newspaper advertising is a repeated invitation and a reminder to come and do business with that store."

SPRING HAS SPRUNG! as you have probably noticed. Haven't the past few days been nice? Gives you a touch of spring fever, does it not? It won't be long now. Just seven weeks. Seven long weeks.

With spring here and the end of school not far in sight, the spring activities are being lined up. The Jr.-Sr. banquet is to be the 27th of April. This annual event is looked forward to by the juniors and seniors each year. Western Day the hi-lite of the year, is set for May 8. Better get out your shooting iron, partners!

Notice anything different about some of the boys walking the halls of SHS? All of the sudden, their hair is blonde. Couldn't be the work of a bottle of Peroxide, could it?

The week of April 5-10 is F. H. A. week. Each day has a special meaning. The activities extend from attending church as a group, which the girls did Sunday, to a community day on Saturday.

In order to get even with those brave boys who generously applied peroxide to their hair Jerry Hogue started a new fad also; having a small x placed on the tip of your nose, or on your ear. One of the first victims (a rather unwilling one) was John Fincher.

Congratulations! (again) to George Privett. Just imagine how wonderful it will be to go on a navy cruise on the Gulf of Mexico and the Caribbean, Bon Voyage, George!

Saturday marks the day (to go to Spur, that is). Interscholastic League contests of all sizes, shapes, and weights (?) will be held on that day. The shorthand, typia g. spelling, speech and other entries are going along. Among those who will be going are Shirley Kitten, Don Edwards, Lola Hopkins, Jerry Kitten and Johnny Morris. We hope everyone brings home a first prize.

In the spring a middle-aged man's fancy lightly turns to all sorts of thoughts, including unicycling through New York's Central Park. Milton Fehar, 47, demonstrates the proper technique as the hansom in the background wait for younger men and their ladies, who'd rather ride in comfort.
