Miss Mae Driver Became Bride of Dr. Roland Peters

In a pretty ring ceremony Sunday morning, September 1st, at the Slaton clubhouse, Miss Virginia Mae Driver became the bride of Dr. Roland Peters, of Lubbock, with Rev. B. G. Holloway officiating.

Ferns and pot plants banked the altar at which the couple were married.

The bride wore a blue frock with hat and accessories to match and carried an arm bouquet of bride's roses. She entered with the bridesmaid, Miss Edda Bell Benton, who was gowned in a green dress and hat and carried an arm bouquet of pink rosebuds.

Miss Erika Peters, of Lubbock, only sister to the groom, was maid of honor. She was gowned in peach georgette with hat to match and carried a lovely arm bouquet of rosebuds. She was accompanied to the altar by Dr. Clarice Phillips, of Lubbock.

Dr. John Dupree, of Lubbock, was best man to the groom.

Miss Lorene McClintock played Lohengrin's "Wedding March" as the bridal party entered and "Traumerli" by Schumann during the ceremony.

Miss Ruby Catching presided at the bride's book.

The bride is the only daughter of Mr. and Mrs. W. T. Driver, of this city. She was graduated from Slaton High School in 1926 and immediately entered the Nurses' Training school at the Lubbock Sanitarium, from which she graduated last June.

Dr. Peters is the son of Mrs. O. K. Peters, of Lubbock. He has been serving an internship at the Lubbock Sanitarium for the past fifteen months. Dr. Peters is a graduate of Rice Institute at Houston and also holds a medical degree from the School of Medicine at Galveston.

A lovely breakfast was served following the ceremony, after which the happy couple left for a honeymoon trip to Colorado, which will include various points of interest. They will return to Slaton in about three weeks and will be at home in Galveston, where Dr. Peters will take a post graduate course in medicine, after September 25th.

Those from out-of-town who attended the wedding included, Mr. and Mrs. R. A. Driver, of Hamilton, Mrs. C. C. Driver and son, Floyd, of Cleburne, and some twenty guests from Lubbock.

High School P. T. A. Will Meet Sept. 11th

The High School P. T. A. will hold its first regular meeting Wednesday, Sept. 11th, at the high school building.

This will be an important business meeting and all members are requested to be present.

Press Day at Fair to Bring Many Editors

Cooperation, Courtesies of Panhandle Press are Appreciated.

Invitations are being mailed out to newspaper men of the entire Panhandle, Western Oklahoma and Eastern New Mexico, requesting them to attend the Tri-State Fair association on Friday of fair week, September 2, Wilbur C. Hawk, president of the association announced last night.

According to present indications, this year's Press Day will be one long remembered by the Panhandle editors. Free tickets to the Hagenbeck-Wallace circus performance will be given to the newspapermen, and many other features of entertainment all free, will be included in the extensive program arranged in their honor.

It is gratifying to realize the cooperation and courtesies extended to the Tri-State Fair association by the Panhandle Press, and we intend to show them just how much we appreciate all they have done for us," Mr. Hawk said.

A complete program of the day's entertainment features will be mailed out to the newspapermen within the next few days, it was said.

Fire of Unknown Origin Friday a. m.

A fire of unknown origin occurred at the Slaton Confectionary last Friday morning between 4 and 7 o'clock, but was not discovered until about 7 o'clock when the proprietors, H. M. Phillips and W. E. Garren, came down to open up for day's business and found the building to be filled with smoke.

The rear of the building was slightly burned but little damage resulted. The building is owned by W. E. Olive and Tom Overby.

Will Start Plans For Poultry Show At Meeting Here

Plans for Slaton's fourth annual poultry show will be set in motion at a meeting of poultrymen of the Slaton territory to be held at 8:15 o'clock on Friday night of this week at the office of the Slaton Chamber of Commerce in the city hall, it has been announced by E. L. Hicks, president of the Slaton Poultry Association.

"Every poultryman in this section is invited and urgently requested to attend Friday night's meeting," Mr. Hicks said. "Important questions concerning the show this year will be discussed, and the advice and help of all poultrymen is wanted."

The show this year will be held on Thursday, Friday and Saturday, Dec. 5, 6 and 7, Hicks said, and it is hoped to make the show the largest and best one in the history of poultry shows in Slaton.

Letters were mailed out this week by the Slaton Chamber of Commerce to many poultrymen of this territory, asking them to attend the meeting Friday night, according to L. A. Wilson, secretary of that organization.

Circus Will Set New Run Record

DALLAS, Texas, Sept. 3.—The longest engagement ever played under canvass by any circus in the world, will play at the State Fair of Texas, Oct. 12 to 27, when the Hagenbeck-Wallace moves on to the "grandstand lot" for a 32 performance engagement. This circus will come to the State Fair with the great number of wild animals ever taken on tour by any organization.

One of the big features of the show is the act of Clyde Beatty, 24 year old animal trainer who handles a mixed group of "cats"—lions and tigers. Beatty has an act in which 32 "cats" perform. He worked all last winter putting the lions and tigers through their routines.

The circus will unload in Dallas the night before the Fair opens and be on the "lot" before the gates open on Oct. 12.

The State Fair engagement is not only the longest run ever made under canvass by a circus, but is also the greatest number of performances ever played by one show at one place in the entire south. There are but few cities in the entire country which can support a circus for 32 performances.

T. K. Smith Dies in Abilene Sanitarium

Mr. and Mrs. M. I. Bourland returned Sunday from Abilene to which place they were called by the death of the later's father, T. K. Smith, who died in a sanitarium there. Mr. Smith became acquainted with a number of Slaton people in visiting his daughter, Mrs. Bourland.

He was buried at Asermont, his old home, where he had lived for over forty years and was 79 years old at the time of his death.

Junior C. and C. Club Will Meet Saturday

The Junior Civic and Culture club will meet Saturday afternoon, September 7th, at three o'clock at the home of Mrs. C. L. Suit, 135 N. 4th St., in the first meeting for the new club year.

The meeting will be devoted to business with a short social hour. All club members are requested to be present.

Census Figures Say Only Forty-Two Per Cent of Lubbock County Births Were Registered During Year 1928

According to a letter received by the Slaton Chamber of Commerce from Jesse T. Nicholas, of Austin, special agent of the Bureau of the Census at Washington, less than half of the births in Lubbock County during 1928 were registered with state authorities at Austin. Excerpts from the letter follow:

"According to figures compiled from data secured by the scholastic enumerations and checked with the birth certificates on file with the State Department of Health, only about 42 per cent of the children born in Lubbock County during 1928 were registered by the physician or midwife in attendance. Many of the children born in Lubbock County during 1928 were deprived of the protection of a legal record of their age, parentage and citizenship.

"This failure is also causing the veterans of the World War and their widows considerable trouble and expense in filing their claims with the veterans' bureau for compensation.

"A concerted drive is being made at this time by the U. S. Census Bureau, co-operating with the State Health Department, in an effort to improve registration in Texas in order that it may be admitted to the Federal Registration Area during 1929. Ninety per cent efficiency is required for admission. If we are to reach our goal, the combined co-operation of the civic organizations and local officials is needed. Any help you and your organization can give us will be appreciated."

DR. PAYNE RETURNED.

Dr. W. E. Payne returned Monday from Chicago, Ill., where he has been for the past few weeks taking a post graduate course in surgery.

Dr. Payne was met in Amarillo by Mrs. Payne, to which place she was accompanied by Mrs. Clifford Simmons, who visited her sister there.

Dr. Payne states that it was much cooler there than here and that he enjoyed his work very much, but is glad to be home again.

BACK FROM VACATION.

Mr. and Mrs. L. A. Wilson and little daughter, Lena Lee, returned home late Friday after a vacation trip of eight days. They visited relatives at Edgewood, Mineral Wells and other points, and report a very enjoyable trip. Crops throughout the territory from here to Dallas are not as good as those around Slaton, Mr. Wilson said. He declared he and the wife and daughter were glad to get back to Slaton.

Midland to Have Breeder - Feeder Meeting, Sept. 7

A conference of West Texas breeders and feeders will be held at Midland next Saturday, Sept. 7, and Slaton farmers and ranchers are invited to attend, according to word received by the Slaton Chamber of Commerce from the Midland Chamber.

The object of the meeting is to get an actual start made on feeding West Texas cattle on West Texas feed, thus keeping more money at home for the ranchers and providing a better market for farmers' feed crops, according to Paul T. Vickers, secretary of the Midland Chamber of Commerce.

Speakers at the meeting will include Frank Holland and Stud Barnes, of Dallas; E. Gibbons and W. B. Mitchell, of Marfa; Leon Goodman, of Midland; J. M. Jones, of College Station; and others, Vickers announced.

A barbecue at the John Gist ranch, near Midland, will start the day's program, after which the meeting of breeders and feeders will convene at the Hotel Scharbauer, in Midland.

Special Meeting For Poultrymen Friday Afternoon

A special meeting for poultrymen of this territory will be held Friday afternoon, at 2 o'clock, at the Slaton Club House, it is announced by E. L. Hicks, president of the Slaton Poultry Association to discuss subjects of interest to poultry growers, and the meeting is expected to attract a good attendance. It will prove very profitable for all who attend, it is expected.

Included in the subjects to be discussed will be problems of "Selection," "Diseases of Poultry and How to Combat Them," "Culling the Flock," and other interesting topics. A round table discussion will also be held, giving each poultryman a chance to ask questions and to tell of his experiences in raising poultry.

Almost everyone took an interest in the presidential election, and many worked hard for the different candidates. It is really surprising to learn how quickly they forget. Ask some of those fellows to tell you right quick who is vice president of the United States.

Slaton's Pedagogues At Lubbock Session

The teachers from eleven counties have taken Lubbock by storm, with the sessions held at the Tech, the Teacher's Institute got into full swing. Dr. Paul W. Horn welcomed the teachers, Dr. Horn is conductor of the institute.

One of the celebrities is Dr. Frank L. Wright, of Washington University, who addressed the teachers, with the subject, "A Challenge: Why Teachest Thou?". Reports say that it was a fine address.

Florence Dairy Has Served Slaton For Fifteen Years

A representative of the Slatonite visited the Florence Jersey Dairy one afternoon, and through the kindness of W. P. Florence and Mrs. Florence was shown over the plant.

Much interesting history is connected with this Dairy, which is located just four blocks south of the new Mercy Hospital, and borders on Powers Street, on the north.

This is perhaps the oldest continuously operated business in Slaton, and the oldest dairy on the Plains.

Originally it was established as the Rose Hill Jersey Dairy in 1911, as Slaton began to grow and had every indication of being a town. The present owner, W. P. Florence, took charge of the proposition September 1, 1914, and has continuously served the public without having missed a delivery covering the entire fifteen years, this is a record very enviable. The equipment was meager at the inception of the Dairy, but the Florence Jersey Dairy has kept pace with the growth of Slaton, being such that it would be a credit to a much larger city, they have added much to the equipment, especially in the shape of an Empire Milker, of two units, that milks four cows at a time, the great care given this is evidenced on all sides, the sterilization after each period of milking. We observed the manner in which the milking was done, the udders and teats are washed with pure water from the deep well, the milker is attached, and is run by motor, the vacuum lines run to all the stalls where it is attached and the process of milking is started, not a atom of sediment can get into the container that holds the milk, as it has a tight fitting top. After this process, the milk is taken to the strainer where a process is used consisting of fine cloth and cotton, and the milk is passed through the cooler, when it is bottled, iced and ready for

(Continued on Page 3.)

Rotary Program Friday was Quite Instructive

Under the guidance of W. H. "Bill" Smith, who gave the signal for starting, and on time, Bill simply has not railroaded for these many years without knowing the importance of time, and without variations. The gathering had a chorus sing. Sounded good, under the leadership of Allan Payne. King George Shanks marked time, mighty good at it. Dr. Marvin Overton administered the anesthetic. Shylock Hoffman was made master of the finger bowls. Philosopher Florence furnished the sawdust and cream. Horace Hawkins, the oil that soothes and comforts.

The subject for discussion at this meeting was, "Do the masses of the people in the United States actually rule the country?" John Hood stated they did, and proceeded with a recital as to that great document, "The Constitution of the United States," its untold benefits to mankind, how man by it is made a better citizen, friend, neighbor, and love for constituted government. John builded such a wonderful case in his first 12 minutes, that he had Rod knocked out in the first round. Rod came back with the statement that the mass of the people did not rule the country, but his efforts were very feeble as compared to Rotary's orator, John Hood. John took two minutes to administer the final knockout. Rod threw the towel in the ring. Thus ended the first act, of scene 1, Rotary's Friday program. One visitor from Lubbock, G. W. McCleary. Two visitors from California, Johnnie Abel, son of Tom Abel, sergeant-at-arms, and Joe Burton, brother of Santa Fe John Burton, as the guest of C. C. Hoffman.

It was very noticeable that some of the good scouts were absent. Just why we cannot pick up our attendance is a question that many are asking. When you are absent, why no make it good? Lubbock is not far away, neither is Post. Those boys will give you the glad hand, when they know you are making good, and take your six-bits cheerfully. Say, fellows, do some thinking and bring our percentage up to 100 plus.

Adams Family Home Again

After an absence of five weeks, Dr. and Mrs. S. H. Adams and daughters, Misses Frances and Josephine, returned the past week from a trip through the eastern states, spending a week at Camden, Maine, on the beautiful Penobscott Bay, and going as far south as points in Southern Georgia.

All report a wonderful time, though it is said that Dr. Adams claims to have spent most of the time "greasing the car, buying gasoline and looking for a place to spend the night."

A friend observes that one of the first steps to make prison life better is a declaration to how fewer motion pictures in Sing Sing.

First Cotton of Season Earliest Within Six Years

The first bale of cotton received here from the Slaton territory for this season was five days earlier than any first bale received here during the past six years, according to carefully kept records in the office of the Slaton Chamber of Commerce.

The first bale this season was ginned on Aug. 26. Last year, the first bale was received on Sat., Sept. 15, and was ginned on Monday, Sept. 17. It was grown by F. G. Grawunder, seven miles northeast of here.

The first bale for the 1927 season was brought in by Robert Maeker, of the Posey community, and was ginned on Sept. 9. In 1926, the first bale was received on Aug. 31 and was grown by John Oehrlein. The first bale in 1925 arrived on Sept. 7 and the first one in 1924 came in on Sept. 1.

The unusually warm weather was responsible for the earlier ginning of the first bale this year, it was said by farmers.

ARE THESE MAMMOTH MERGERS AND OVER-SPECULATION GOOD.

That there is an increased wealth of the country, and we fail to appreciate that condition, is evident.

We note the orgy on Wall Street with the fabulous investment of the country's funds, manipulated by the powers that control these markets and securities and from this speculation fortunes are made and lost. It strikes us that people who buy these securities for cash or on margin, are simply taking funds, in fact, draining the country of its ready credits from the legitimate business, in the hope of material reward. While corporations are stressing the fact of mass production, the same condition can be seen in the mass formation of securities. Stock Exchanges and corporations, gathering up the widow's mite and putting the money in stock operations. We wonder if we are mortgaging the future by these wild speculations and mergers. Many of these mergers have thrown thousands of men out of employment, and in many instances the mergers have advanced the price of their commodities to the consumer, in some cases the price has been lowered. Is there not danger from this condition, are we discounting too far in the future by these advancements that are making the rich richer and the poor poorer? We are sure that this country cannot live partly abounding in great wealth and partly in desperate poverty and unemployment. We feel that there is danger, and that it lies in the probability that if persisted in, they will eventually impede the progress of commerce and industry along with this inordinate speculation. History will surely repeat itself. Financial orgies bring financial distress, and the less heed paid to the lessons of the past, the more acute will be the penalties.

Mr. Hoover, in one of his addresses, has stressed the thought that we may be in sight of the abolition of poverty, when that time comes there will have to be a wonderful change in banking and finance. If the abolition of poverty can be brought about, and we all know that poverty is one of the great curses resting upon humanity in constant sorrow and suffering; and poverty itself is responsible for a large proportion of the criminality which exists throughout the land. We truly hope that Mr. Hoover is so thoroughly committed to this effort to abolish poverty that he may bring it to pass. If successful, he will have made the greatest achievement that any human has ever accomplished. We hope that it may be.

THE COMMUNIST HOLIDAY FAILS.

August 1 was to have been a Communist "holiday". All over the world, in the great cities, special details of police were on duty to keep order in case of demonstrations by the radicals on behalf of the "exploited" and "oppressed" wage earners.

August 1 came and nothing happened. It was merely another day. The Communist demonstration was a flat and pathetic failure. In this country especially, the workers seem content to ride about in their automobiles, live in modern homes, attend high-grade amusements and work for good wages under the best of conditions.

It is from sources other than communism that danger threatens American ideals and traditions. The slow encroachment of local and Federal socialism that has placed our government in competition with various lines of industries, all the way from printing envelopes to carrying freight and doing a banking business, is insidiously undermining the doctrines of individualism and personal liberty.

As the politician is exalted, the private citizen is pushed down. Such a tendency constitutes the greatest menace to democracy and free government.

COOLIDGE ON THE RAILROADS.

"I think the future outlook of affairs is very encouraging," said former President Coolidge recently, in speaking of our national problems, "and one of the reasons for that is the confidence that the railroads have in their future prosperity. That is due in part to the encouragement

they received from the decision in the O'Fallon case.

"That made it evident that they were to have a fair consideration in the treatment they were to receive from the government. The railroads are so important an industry in this country that when they are prosperous they carry prosperity to many other allied industries. They are a basic industry, almost as basic as agriculture and manufacturing."

No man knows more of the economic structure of this nation than Mr. Coolidge. We live in an age where transportation is not only necessary to agriculture and industry but is their very life-blood. The farm, the factory and the home are all dependent, directly and indirectly, on the railroads.

The fact that so far this year the lines have come nearer to earning adequate profits than in the past, is encouraging. Progress cannot be carried on indefinitely when profits are lacking or negligible. And if the signs point truly and we are coming into a new era of railroad prosperity, every citizen in every walk and occupation of life, will feel the beneficial influence.

CAREFULNESS AVERTS ACCIDENTS

Motor Commissioner R. B. Stoeckel of Connecticut believes that constant education of drivers in safe practices will be the greatest factor in reducing the appalling casualty list from automobile accidents.

He holds that no person can be a good driver unless "he thinks about his driving every moment while he is out." He must regard everyone he meets on the road as a "potential trouble maker." Calmness in driving he holds to be more important than "perfect ability to handle the wheel."

Automobile accidents show a 10 per cent increase this year over 1928. Attributable causes are many and varied but it cannot be disputed that carefulness on the part of all concerned would avert at least 90 per cent of them.

If your intellectual development is just average you had better get to work.

How to Raise Poultry

By Dr. L. D. LeGear, V. S.
St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

ARTICLE XXIII

MATED OR MISMATED—HOW ABOUT YOUR FLOCK

If You Are Not Giving Due Attention to Proper Breeding, You Are Losing Money. Success is Only for Those Who Realize the Importance of This Often Neglected Opportunity to Improve the Strain.

Editor's Note—This is another story in a series of 52 stories on poul-

try raising written by the well known poultry authority, Dr. L. D. LeGear, V. S., of St. Louis. The entire series will appear in this paper. Our readers are urged to read them carefully and clip them out for future reference.

I once heard a lecturer remark that if as great care were used in the mating of human beings as most poultry raisers observe in mating their chickens, there would be fewer divorces.

If he had in mind only the professional poultry raisers who recognize the importance of ever and eternally striving to better their flocks, I can agree with him. If, however, he intended this statement to be as broad as it sounded, I most certainly cannot agree with him. Far too many people feel a rooster is only a rooster, and a hen nothing but a hen. They know in a general way that the two together are necessary in order to produce eggs which will ultimately result in a new generation. They do not, however, have the slightest conception of the importance of proper mating between the two sexes.

If more poultry raisers could be made to realize that proper mating is one of the most essential elements of success, there would be fewer scrub flocks in the country and more money made from the business. To be sure, many writers on the subject have caused it to appear too complicated for the average person to understand. If one goes into all the reasons for things that must be done, the whole affair does get rather too involved for anyone but the professional. The man with a farm flock is not so much interested in the "why" of the question as in the "how". I shall, therefore, try to give some simple non-technical suggestions on mating which, if followed carefully, are bound to result in the betterment of any flock.

There are many methods of mating—far too many to be discussed in an article of this kind. I must, therefore, limit myself to those that are practiced for the ordinary farm flock, rather than the professional or the fancier. I must assume an understanding of the necessity for choosing only such specimens of both sexes as are good size, vigorous, healthy, free from deformities or defects, and which conform to the standard requirements of their respective varieties.

The most common method of mating is known as flock or mass breeding. This consists of mating the entire lot of hens with a number of males.

In flock mating there is no way to study individual members of your flock. You do not know which ones produced good layers or good breeders and which did not. Consequently, have no way of influencing the nature or quality on to the offspring. The result may be a steady decline in the quality of each succeeding generation.

A desirable alternative to the flock mating is the Special Mating System. This system is thoroughly practical for even the smallest flock. Eight to

fifteen hens are confined in a pen to themselves, preferably with but one male bird. Naturally, only such specimens are chosen as are known to possess the qualities desired in their descendants. This is a scientifically correct course because it follows the law of heredity that like begets like.

Furthermore, since you use only your best fowls in this type of breeding, you will take a greater interest and will give the necessary care and attention to individuals and to the hatching eggs. Consequently, the chicks will, as a rule, be as good or better than their parents. Such mating gives a chance for real improvement because it affords you some definite data to work with. Fertility is usually higher from such matings because the male suffers no interferences. All of my matings are special matings. My breeding pens consist of 8 to 10 hens and one male.

Little would be gained by entering into the technical phases of such subjects as inbreeding and line-breeding, together with details of the laws of heredity as they concern proper mating. In passing, however, I should like to explode the popular fallacy that inbreeding or the mating of closely related birds is in itself a cause of decline in quality of succeeding generations. On the contrary, this method is regularly used by the best poultry raisers to maintain the purity of a strain once a certain desired standard is definitely established. This excludes the introduction of alien blood into a strain or flock which is often accompanied by results disastrous to uniformity. Generally, where a decline in quality follows the mating of closely related fowls, it is due to the use of birds lacking in vitality or which did not conform to the desired standard.

Whatever system of mating is used, it is well to know the best time for mating. Some poultrymen continue breeding and hatching the year round. Best results are secured, however, in the normal breeding season. This will vary somewhat with climate. As a rule, pullets hatched at the proper season—February, March or April, when all the world is beginning to show signs of renewed life—will be better, stronger, and lay more quickly than those hatched in May, June or July. The poultryman should so arrange his hatches so the pullets will be ready for winter laying. Those

hatched so late that they pass through the winter without laying cause a distinct loss.

Some poultrymen allow males to run with the hens all through the year. We should swat the rooster as soon as the breeding season is over. The males should be separated from the females until about two weeks before the breeding season starts. This keeps the males from worrying the hens and also permits them to produce infertile eggs, which are preferable for market.

(Copyright, 1929,

"Very Latests"

Each season has its own style idiosyncrasies to offer, but the trend of fashion for the coming year—whether in coats, dresses or hats—is clearly indicated by what the haute couture displays during September and October.

This fall the trend in millinery is toward strict simplicity, with a return to favor of the brimmed felt, of medium size. These models are often of the poke variety—similar to the hat illustrated, which Frances Clyde, New York, designs with a simple brim, without folds. Again she achieves irregularity of lint for the poke by means of creases in a hat designed for sports wear.

Crowns are equally simple, occasionally decorated with ribbon-like bands of contrasting felt or a band of narrow belting. Frequently a broad band of felt inserted in the crown follows the natural lines of the head, as in the hat of the photograph. For sports wear the colored felt is strongly advocated in shades that harmonize or blend with the three quarters jacket that is frequently made of bright-colored Leda cloth for wear with a tweed frock in neutral shade.

There is the brimmed toque, having a short brim turned up flatly against the crown in front, which is very effective, especially when a coiled quill is introduced as trimming. In draped turbans the vogue is for black and taupe. These hats—diverse in outline—go very well with afternoon frocks and ensembles and are most attractive in two of the colors found in the frock.

Then there are the fabric hats, de-

signed for the extremely person occasion. Among them one finds series of taffeta, velvet and lame models to be worn with the bridesmaid's frock—or for dinner wear.

Brown seems to be the most popular color for all types of millinery.

In reds the shades turn to ruby wine-red as distinguished from brighter shades; greens, too, are subdued, and blues are dark, rather brighter than the regulation navy but not as bright as the so-called pencil blue.

Under-Arm Pouch Wins First Place.

Answers to a questionnaire sent out by hand-bag makers show that for fall the under-arm pouch is considered of first importance; envelope styles stand second on the list. Bags of the dressy type will be good.

In the winter your powder may be
cosmete, nothing more. But in the
summer it is the comfort of warm
rays, the freshness of humid ones, the
cool soothing, cooling touch all
through the season that nothing else
can furnish.

Probably in the first month of summer
more bath talcum is used than during
the rest of the year together.
It should not be, of course. Talcum
powder is a useful, dainty feminine
accessory all through the year.
But it is especially important in the
summer.

After a warm bath, or after a cool,
refreshing shower, bath powder applied
generously with the big, soft
puffs which come in the large, open-
mouthed boxes will add immeasurably
to your sense of personal comfort and
daintiness. And to your security, as
well, for most of these bath talcums
have deodorizing properties that effectively
neutralize the odors of perspiration.

Face Powder is another important
summertime consideration. A shiny
nose is such an annoying feature—it
can do more to upset one's self confidence
than any other defect of good
grooming. And shiny noses are so
common in warm weather.

Before I discuss the ways of selecting
a summertime face powder I am
going to advise you to use a "shine"
corrective during these warm, sultry
months before you apply your make-
up. A special lotion or a liquid
astringent skin tonic which corrects
"shine" will preserve your makeup
longer and also normalize the function
of those over-active pores.

In choosing your powder be sure to
get one dark enough—it should be at
least as dark as your skin, and to be
fashionable, one or two shades darker.
A powder with a cream base, specially
created to "stay put" is much to
be preferred in warm weather. Such
a powder, in addition to being an
attractive and convenient cosmetic, actually
provides a certain desirable
amount of protection for your skin
against detrimental, weathering effects.

can't afford the sort of food you like
and when you're rich the doctors
won't let you have it.

HOW TO SELECT STALK FOR NATIONAL COTTON SHOW

ABILITY, or at least indications of
ability, to produce large amounts
of a quality product, is the basis of
award at all agricultural fairs. This
is true whether the entries are dairy
cows, swine, chickens or field crops.

Heavy production of quality cotton
should be the ambition of all cotton
growers. The One-Stalk Cotton Show
to be held under the auspices of the
Sears-Roebuck Agricultural Foundation
and The National Fertilizer Association,
in connection with the Mid-South
Fair at Memphis, the Southeastern
Fair at Atlanta, and the State
Fair of Texas at Dallas, was inaugurated
to stimulate interest in economic
production of better cotton.
Prizes totalling several thousand dollars
are being offered.

In judging the single stalks at the
show, a score-card which has been
prepared by some of the leading cotton
authorities in the South will be used.
This score-card has been carefully
prepared in order to give proper
weight to the various plant characters.
Actual judging will be done by
competent authorities from each section.

According to the score-card, a perfect
plant would secure 100 points total
score. Since productivity of the
cotton stalk is probably of greatest
importance, production, as measured
by the amount of seed cotton on the
plant, is given a possible 50 points.
Thus heavily fruited stalks would
secure a high rating under production.

A possible 25 points has been allotted
to lint. Percentage of lint in seed
cotton, length, character and uniformity
of strength and color, are all factors
that will be considered in studying the
seed. The plant, as a whole, has been
given a possible 20 points. Symmetry
of form, amount of wood in proportion
to fruit, character of branches, and
density, are considered in studying
the plant unit.

Character of bolls has been allotted
a possible 12 points. Size of bolls
to be considered and well opened
are desirable, although a cer-

Topics of the Town and News of its People.

T. L. Kimmel, of Littlefield, was a Slaton visitor Friday.

Thomas Pirtle, of Lubbock, transacted business in Slaton Saturday.

Franklin Walker was a Lubbock visitor Monday.

Mrs. J. R. McAtee, Jr., of Flomot, is visiting in the J. R. McAtee home here.

Otto Sexton, of Corpus Christi, is visiting relatives and friends in Slaton.

Joe Duke, manager of the Clarence Saunders store, was a Lubbock visitor Thursday night.

Rev. S. J. T. Williams, of Abilene, was a Slaton visitor Thursday morning.

Miss Lois Cone has returned to Slaton to resume her position as English instructor in high school.

Misses Lois Stallings and Edith Marrs have returned from Colorado, where they attended summer school.

Joe Duke and Paul Houston spent the week-end in Lubbock visiting with relatives and friends.

Miss Jackie Lamar, of Borger, spent the week-end in Slaton with her parents, Mr. and Mrs. J. R. Lamar.

Jimmie Sullivan has returned to his home in Lawrence, Kansas, after spending several days in Slaton visiting Miss Billie Nell Pirtle.

Mr. and Mrs. Jimmie McGinnis visited with the former's parents in Clovis, New Mexico, last Friday and Saturday.

Walter McAtee has arrived in Slaton for a short visit with homefolks. Walter has been a student in Oklahoma University during the summer.

Rev. and Mrs. L. R. Byrd and two sons, of El Campo, have been visiting in the city with Rev. and Mrs. B. G. Holloway.

J. A. Elliott transacted business in Lubbock Friday.

Mr. and Mrs. Jerry Leverett and daughter, Rixie Vernell, returned Saturday from a delightful visit with relatives and friends at Nevada, Tex.

Miss Billie Nell Pirtle left Friday for Toyah, where she will teach school this year. She spent the past week with her sister, Mrs. Carl W. George.

Miss Clarice Smith arrived Friday from Abilene and will resume her place as teacher in the East Ward school.

Mr. and Mrs. A. A. Hillyer and son have returned from Portland, Ore., where they have been for the past few weeks.

"Chunky" Humphries has returned from Kansas and Oklahoma, where he visited relatives and friends for several weeks and transacted business.

Mrs. Margaret Smith-Anderson left Sunday morning for Kansas City, where she will study piano at the Horner Conservatory.

Mr. and Mrs. James Ham, Vernie Cowin and Fernie Merrell motored to Silver Falls Sunday and spent the day.

Mr. and Mrs. J. M. Clark left Saturday for San Antonio, Houston, Galveston and other points of interest in Texas.

Miss Mattie Lou Proctor, daughter of J. I. Proctor, left Monday for Austin, where she will attend the Austin State school.

J. F. Frye, of Lubbock, owner of the Frye Chain Tire Stores, was in the city Tuesday looking after his business interests at this place.

Mr. and Mrs. Barney Wilson have returned to Slaton after an absence of about three months. Mr. Wilson will resume his position as manager of the Farmer's Produce.

Mr. and Mrs. Marion B. Benton have returned from a delightful trip through New Mexico and Colorado. They will leave soon for Dimmitt where they will make their home.

Abe Kessel has returned from Dallas, having visited several points while away. Mrs. Kessel remained at Mineral Wells for a few days, to enjoy the baths.

Ben Klattenhoff, Luster Gentry and Courtney Sanders have returned from a delightful trip through New Mexico, Colorado and to various points of interest in Texas.

Ben Holloway, Jr., left Friday afternoon for California, where he will enter training for an army flyer. His many Slaton friends are wishing him success.

Mr. and Mrs. C. C. Cramer and daughter, Betty Jo, spent the week-end in Clovis, New Mexico, visiting with Mrs. Cramer's parents, Mr. and Mrs. W. E. Cramer.

E. M. Lott, Santa Fe engineer, and son, George, left last week for Port Arthur, where George has a situation. Mr. Lott expects to visit for several days before returning.

Mrs. T. O. Lane, daughter of Mr. and Mrs. W. P. Florence, and her children, left Monday for their home in Brownwood, after a visit with homefolks.

Mrs. T. J. Abel has returned from Dallas, where she visited her daughter, Bonnie, who is a patient in the Scottish Rite hospital, and reports that Bonnie is doing fine and will be home in a few weeks.

Mr. and Mrs. Claude Thomas left Saturday for Amarillo, where they will make their home. Mr. Thomas has been employed as a member of the construction party at the Mercy Hospital.

Miss Louise Lanham is spending a short vacation in Slaton with her mother, Mrs. J. S. Lanham, and sister, Elizabeth, and brother, James. She has been a student in Texas University at Austin.

Mr. and Mrs. Clay Curl, of Tolar, Texas, were overnight visitors with Miss Eunice Florence, on their way to Carlsbad Cavern. Mrs. Curl was an associate teacher with Miss Florence while teaching in Tolar.

Miss Ella Loyce Gentry returned Saturday from a two week vacation at Lockney, where she visited her grandparents and several points of interest in New Mexico, including Carlsbad Cavern.

Mr. and Mrs. W. F. Maxey and sons, Wilson and Chester, returned Sunday from a vacation trip to Galveston, Waco and Chilton, where they enjoyed an outing on the Gulf and visited with relatives.

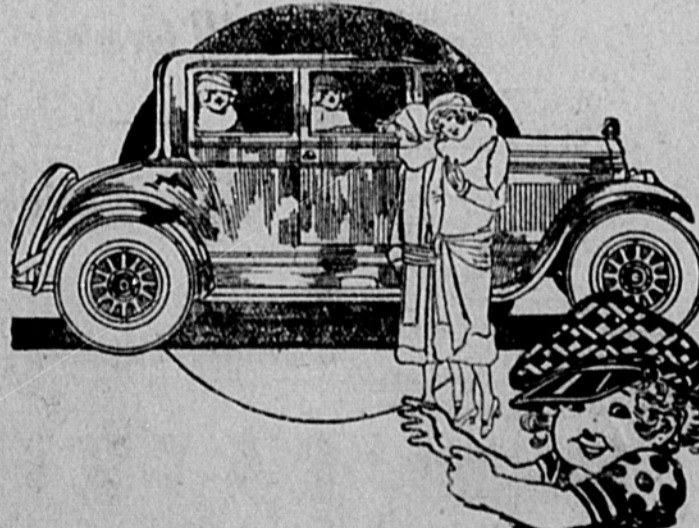

Mr. and Mrs. W. P. Florence, daughters, Mabeth and Zona, also Mr. and Mrs. C. V. Young, returned from a short vacation to the Carlsbad Cavern. W. P. states that you surely have to have your holdbacks and breeching on when you descend the golden stairs, and he thinks, to use an English expression, that they should have some lifts.

Some of the Slatonites were empanelled on the grand jury, at the convening of the 99th district court, presided over by Judge Clark M. Mullican. The jurors chosen were, A. G. Hunt, foreman; J. W. Nesbitt, W. G. Alderman, W. N. Waldorp, T. E. Cole, W. L. Muerer, A. M. Hughes, A. M. Hughes, Frank Bledsoe, W. H. Blackmon, T. A. Worley, Jr., R. L. Powell and F. W. Johnson. They started the session today.

Uncle George Marriott, that old ticket puncher, is always on the job. He dropped into the sanctum of The Slatonite, leaving his trail, a couple of copies of "The Earth" and the Santa Fe Magazine. George simply does not forget his friends. While the magazine is issued for the employees, it contains some wonderful reading matter that most anyone would be interested in. The first article in the magazine is by Glenn D. Bradley, un-

der the title, "Famous Frontier Fights". Which recounts the Confederate Invasion of New Mexico, and when the Texas Rangers fought Colorado "Pikes Peakers".

FLORENCE DAIRY HAS SERVED SLATON FOR 15 YEARS

(Continued From First Page.)

delivery. We found Mrs. Florence had this part of the work in charge, assisted by her daughters, Mabeth and Zona, James makes a full hand, and always has a pleasant smile when he delivers the milk. While Slaton has not as yet any regulations as to the production of Grade A milk, we feel sure that the great care given the production of milk by this Dairy, that a high grade would be registered. Mr. Florence states that it has been their aim to produce the best milk that can be obtained, and that is complying with the law that we do not have. He has had customers who have used this milk during the past fifteen years, including city and health officers.

They have a nice herd of Jerseys, and are milking 24 cows at present. Their stalls accommodate the 24 cows, and the stalls are covered with concrete and have 2,000 feet of this covering, the drainage is by underground system, the floors are so made that the drainage is almost perfect. In the cooling and bottling house they have 200 feet of concrete, and this department has a system of underground drainage as well, no waste water is allowed to remain but all carried off. We found in looking over the herd that they had some thirty head of high grade Jersey yearlings and calves, with thirty-six high grade Jersey milk cows. We find that the Florence's have raised most of their cows from the best registered males. They have just recently added to their herd, Flo's Duke's Captain, whose pedigree includes some of the Jersey world champions, he shows fine breeding and like most Jersey's is docile.

The Slatonite representative asked Mr. Florence to just what he attributed his success as a Dairyman, and he answered, first we have tried to produce the best milk obtainable, and under the best sanitary conditions; second, to have good cows, feeding them a balanced ration so as to produce the best milk and cream, and to

give our patrons the best service possible. A hard combination to beat, we are sure.

Of course the most interesting part of our visit was the milking time, between five and six o'clock, this is a phase that every one in Slaton should see. We feel sure that Mr. and Mrs. Florence would be pleased to show visitors their plant and give them all the information in the production of pure milk at their command. It will be time well spent to make them a visit, and observe the care and sanitary condition surrounding their Dairy.

The Big Feature Attraction of The Tri-State Fair at Amarillo

Hey! Skinnay, Circus Coming.

Youngsters today were able to proclaim to their companions that within two weeks the Hagenbeck-Wallace Circus, the highest class circus on earth, would make its appearance in Amarillo, Texas, giving afternoon and night performances. The exact dates will be Sept. 23 to 28, according to the highly colorful posters that will be distributed by members of the Hagenbeck-Wallace advance forces.

Circus Day is one of the events of the year for Young America, as well as the majority of their elders. It is an old saying "we are going to the circus just to take little Willie and Dorothy" but circus statisticians have discovered that practically 15 per cent of those that attend enter on adult tickets. So the circus really attracts the old folks, as well as the young.

Hagenbeck-Wallace is the only big show scheduled in this territory this coming year.

Don't fail to see this big circus at the Tri-State Fair at Amarillo. The rates to the fair will be free again this year.

Notes, News and Nonsense.

Phone 71

In the list of notables who were preacher's sons, mentioned in Rev. Ham's sermon here, the name of Bob Ingersoll was omitted—yet he also was a "preacher's son".

W. H. Rhodes, of Los Angeles, California, is visiting his parents, Mr. and Mrs. J. M. Rhodes.

M. J. Nelson, Division Accountant, returned Friday from a business trip to Alpine.

Mrs. F. M. Crawford, of Borger, is visiting her sister, Mrs. M. I. Bourland.

Mrs. E. E. Bouds and son, John Tillman, of Belem, New Mexico, are visiting her parents, Mr. and Mrs. J. N. McReynolds.

Milton Thomas, of Amarillo, visited his family here over the week end.

A Surprise for Wife.

Farmer Podsnicker drove to town with a load of potatoes and after transacting his business he decided it would be great fun to surprise his wife by dressing up. So he bought a suit of clothes, new underwear, a hat and a pair of patent leather shoes, and put them under the wagon seat.

After doing another errand and talking with old Si Gooberpea whom he met tinkering with his fillyer, Podsnicker headed his horse back home. A half mile before he got to the house he stopped at a lake, took off his old clothes and threw them in. Then he looked under the seat for his new outfit.

Everything was gone—new suit, underwear, hat and shoes!

Podsnicker thought desperately for a moment. Then he climbed into his wagon, cracked his whip and said, "Giddap. I'm goin' to s'prise her anyhow, by heck."

Mrs. P. V. Burns and sons, Allen and Robert, of Fort Lauderdale, Florida and the former's mother, Mrs. A. J. Payne, returned Friday from a trip to Carlsbad Cavern.

S. G. Tomlinson, of Cisco, visited his sisters, Mrs. J. N. McReynolds, of this city, and Mrs. T. B. Williamson, of Lubbock, last week.

Mr. and Mrs. D. E. Rhodes and children, of Alva, Okla., returned home Friday after visiting the former's parents, Mr. and Mrs. J. M. Rhodes.

Mr. and Mrs. J. M. Redwine made a business trip to Brownwood, Thursday and Friday.

Mrs. L. C. Odom left Friday for El Reno, Okla., accompanying her father, A. N. Dillard, who will visit relatives there for a time.

Miss Charline Ely, of Snyder, spent the week-end with Miss Pauline Owens.

Henry Salm, of Kenton, Ohio, is visiting his sister, Mrs. Susan Heilers, and his nieces, Misses Joe and Clem Kitten. Mrs. Heilers will accompany her brother home.

Raymond Miller, cashier of the Harvey House here, left Thursday for Galveston, to which point he was transferred to look after the Fred Harvey interests there.

Miss Elizabeth Hargraves, of Brownfield, and her cousin, Linnie Carter, of Dallas, visited Miss Alice Whitty, in the home of Mrs. J. W. Cartwright, the past week.

Mrs. I. H. Whalen, Mrs. Mary Richardson and daughter, Miss Edna, and Miss Elsie Milsap, of Laznesa, accompanied by G. H. Orr, returned Thursday from a trip to Carlsbad Cavern.

John T. Lokey returned Friday night from a business trip to Dallas and Nevada, Texas.

Mr. and Mrs. O. D. Wyatt left Friday for their home in Ft. Worth, after visiting the latter's sister, Mrs. L. C. Odom.

Court Notes.

Briggs: I've lost my new car.
Griggs: Why don't you report it to the sheriff?
Briggs: He's the one who took it.

Misses Rachel Darwin and Theresa Lokey went with friends from Dallas to the Carlsbad Caverns over the week-end.

FLORENCE JERSEY DAIRY.

Florence Jersey Dairy has been delivering the best milk, butter and cream twice daily for the past FIFTEEN YEARS. In celebration of this even we invite everybody to come to our Dairy any day after 5 o'clock, and see our electric milkers in operation, and our sanitary equipment and the great care with which we produce the milk. We have served the same customers for fifteen years, having furnished feed for hundreds of Slaton's finest children. Our Dairy is just four blocks south of the new Sanitarium, close in for quick service. We are prepared to take on some new customers. Phone 6. Florence Jersey Dairy. 3-2t

FLOWER SHOW AT FAIR.

A flower show will be one of the big features of the 1929 State Fair of Texas, Oct. 12 to 27, it has been announced by T. E. Jackson, president of the Fair. The flower show will be held on the new mezzanine balcony of the Agriculture Building. Florists horticulturists, and landscape architects from the entire Southwest will be represented in the flower show.

Miss Kelly Entertains With Birthday Party

Miss Gladys Kelly entertained with a birthday party, Wednesday, August 28th.

A number of interesting games were played and enjoyed by all. Refreshments were served to the following: Misses Alline Harvy, Imogene Harper, Beulah Kelly, Nadine and Irene Childress, Juanita Campbell, and the hostess, Gladys Kelly.

An enjoyable time is reported by all.

Mrs. Schmidt Hostess To C. and C. Club

The Civic and Culture club met in its last summer meeting, Saturday, August 24th, in the home of Mrs. Fred Schmidt, 450 Garza Street.

The president, Mrs. A. L. Robertson, presided during a lengthy business session.

The new yearbooks were presented to the club by the calendar committee, of which Mrs. E. N. Pickens is chairman. The course of study for the coming year is "The Contemporary Short Story".

The business session was followed by an enjoyable social hour. The guests were then asked to the dining room, being led through the labyrinth by Mrs. W. E. Smart, where unique signs were pinned up showing the way. A delicious salad course was served in cafeteria style, each food being designated by a clever witticism.

Mrs. J. A. Klaser will be hostess to the first study meeting, which will be on Sept. 4th.

Reporter.

Dinner Given for Peters-Driver Party

The Peters-Driver bridal party were honored with a three-course dinner at the Glorietta at Lubbock, last Thursday evening, with Miss Erika Peters, sister to the groom, as hostess.

Covers were laid for the bride and groom, Miss Virginia Mae Driver of Slaton and Dr. Roland Peters of Lubbock, and Misses Luene McClintock and Ruby Catehing and Mrs. W. T. Driver, all of Slaton; Mrs. O. K. Peters, Johnnie Brown, Dr. John Dupree, Dr. Clarice Phillips, and the hostess, all of Lubbock.

The party enjoyed a picture show following the dinner.

Win One Class Enjoys Social

A very pleasant social and study hour was spent at the home of Mrs. R. F. Swafford, 320 West Panhandle, on Friday afternoon, by the members of the Win One class of the Methodist Sunday school and their visitors, at a regular meeting of the class.

Mrs. Pinkston, the teacher of the class, read a lesson from the Bible and led the class in prayer, after which a discussion on the first chapter of the book, "The Bible, Its Origin and Growth", which the class has taken up for study at their regular class meetings, was presented by Mrs. Green, who is directing the study.

Delicious refreshments of punch, ice cream and cake were served during the afternoon by the hostess, assisted by Mesdames Clark and Walker.

Those enjoyed the afternoon were, Mesdames Pinkston, Drewry, Merrill, Green, Evans, Hillyer, Rucker, Oliver and Cramer.—Reporter.

BIBLE STUDY CLASS.

The Bible Study class of the Methodist church will meet Thursday afternoon at 4 o'clock with Mrs. Frank Merrell, 825 W. Garza Street.

Everything is being merged nowadays except religion.

WILSON—CALDWELL.

Thursday evening, August 28, Mr. Grady Wilson and Miss John Lee Caldwell, accompanied by Mr. and Mrs. Henry Jarman, motored to Lubbock where a marriage license was obtained for the above mentioned young couple. After getting the license they returned to Slaton, going directly to the home of Rev. B. G. Holloway, where they were united in the bonds of wedlock at eleven p. m.

The bride is the charming daughter of Mr. and Mrs. Andy Caldwell, of this city. The groom is the son of Mr. and Mrs. E. E. Wilson, also of Slaton.

Those witnessing the ceremony were: Mr. and Mrs. Andy Caldwell and family; Mr. and Mrs. Henry Jarman; and Mr. and Mrs. E. E. Wilson and family.

The couple left Friday morning for a short honeymoon trip to north and east Texas, where they will visit friends and relatives. They will be at home at Slaton about September 9. Mr. Wilson is connected with the Farmers Gin Company.

Hi Plane Class Enjoys Picnic

The Hi Plane Sunday School class of the First Christian Church enjoyed a picnic Thursday evening, August 29, at the three-mile canyon.

Mrs. Wilhite, teacher of the class, was hostess.

Games were enjoyed and a delicious picnic lunch consisting of wieners, marshmallows, potato chips, tea cakes and iced tea, was spread.

A glorious time was reported by all attending.

STATELY SIGHTS OF WASHINGTON DAZE TOURISTS

It is recorded that two men, in a car bearing a New York license plate, pulled up before the great terraces of the never-to-be-forgotten dignity of the Capitol; one hailed a policeman and inquired, with a jerk of the thumb, "Hey, buddy! What's that joint?" Washington is the mecca of tourists, but also their downfall. The city itself is a veritable museum of tradition and history. But there is too much to see!

The Lincoln Memorial, the stately dome of the Capitol, the massive pillars fronting the White House, the tall needle of the Washington monument, the grave of the Unknown Soldier at Arlington and picturesque Mount Vernon make a medley of "places of interest".

The Capitol is two miles distant from the White House, yet one woman, descending from a sightseeing bus, was heard to argue that the two were "right across the street from each other."

HOMEMAKERS CLASS

We, the Homemakers Class of the Baptist church, wish to extend our sincere love and sympathy to Mr. J. E. Holdren and children. To those sorrowing hearts we yearn to console, those we love, and yet there is near us a friend, the best, the truest, and the most devoted, "Our God". We wish them comfort, for the one who soars above earthly cares, in intimate converse with God, their mother.
Reporter.

It is reported that two of Slaton's most promising young men were transacting business in Lubbock Monday evening. Of course we do not know the nature of this trip to the county seat, but it was probably on "court" business. However, it was after courthouse hours.
