of a Lifetime to get plus value in Tires

The majority of people who read this advertisement are going to need tires this season; the time to buy them is right now.

Crude rubber is cheap; as a result tire prices are the lowest in history.

You can actually buy at this time the world's best tires for no more money than you used to pay for inferior or unknown tires.

You can buy Goodyear Tires on an extreme low-cost-mileage basis, and that is exactly what smart buyers are doing.

The special advantages to be enjoyed from Goodyear Tires are due to definite Goodyear superiorities in both tread and carcass, the two main parts of a tire.

The Goodyear All-Weather Tread is superior in traction, and everybody wants sure-footedness underwheel.

. The Goodyear Supertwist Carcass is superior in vitality and long life, and this means economy and freedom from trouble.

These superiorities are not imaginary; they are real.

Any Goodyear

Dealer will be glad to demonstrate the

And the facts unmistakably are: Goodyear Tires do give greater value.

That's why Goodyear sales are going ahead at a rate surpassing any previous record.

That's why impartial investigation shows

Now is the time to get a nation-wide preference two-and-ahalf to thirty times as great for Goodyears as for any other tire.

That's why Goodyear builds annually millions more tires than any other manufacturer in the world.

That's why more people ride on

Goodyear Tires than on any other kind!

The dominance enjoyed by Goodyear Tires is not temporary or new-it has flourished for fifteen years strictly on a basis of superior quality.

If you want Goodyear value at bed-rock prices: now is the time to get yours!
