

Truman Says U. N. Has Full U. S. Backing

RIO DE JANEIRO, Sept. 5. (AP)—President Truman today pledged anew the full backing of the United States to the United Nations and expressed confidence the problems of peace can be solved "with mutual good will and forbearance."

Speaking before a joint session of the Brazilian Congress in Tiradentes Palace, Mr. Truman also hailed as "splendid" the achievement of the recent Inter-American conference in reaching agreement on defense of the Western Hemisphere.

Brazil and the United States, he said, must continue to cooperate with other countries of the hemisphere "in the development of a strong and concerted force for the good of mankind."

Marshall Calls Treaty Of Rio Peace Example

WASHINGTON, Sept. 5.—Secretary of State Marshall today held forth the new inter-American security pact as the outstanding postwar example of how nations can join together to promote world peace.

Marshall who will present the treaty to the United Nations assembly two weeks hence, and Senator Vandenberg (R-Mich) hailed it in a radio broadcast last night as a pattern for the U. N. to follow in its quest for world wide security.

Throughout the talks of both men ran an implied criticism of Russia and the Soviet attitude toward international cooperation.

Marshall declared that the results of the conference at Petropolis, Brazil, in which the treaty was drafted and signed "demonstrated, I think beyond doubt, that where nations are sincerely desirous of promoting the peace and well-being of the world it can be done."

Broad Government Seen For Greece

ATHENS, Sept. 5.—Politicians forecast today that the liberal party leader Themistokles Sophoulis, 86, would form a broadened Greek government, possible during the day, with the Populist (Royalist) party which Premier Constantin Tsaldaris heads.

This would temper a political feud between the two parties which has disturbed Greek politics for 37 years. The current government is all Populist and Rightist.

Crowding Of Local Schools Is Critical

Voters of the Big Spring Independent School district ballot Tuesday on two issues: 1) To authorize a tax rate not to exceed \$1.50; and 2) to sanction bonds not to exceed one million dollars. (The board had announced it will not issue more than \$200,000 in event of approval of the bond provision.

Schoolmen Plan Enrollment Check

School administrators prepared for a check Friday afternoon on enrollments in the various grades and schools of the system, the first complete survey possible in the first week of school.

Normally, the first comparative reports for any school year are based on the enrollment the last day of the first week. Precursory checks after the first day indicated the enrollment might be slightly higher than comparable dates last year.

Elementary figures then were on about par with those for the second day last year. High school was up slightly and the eighth grade off a bit. One problem which may be reflected in the survey today is increased enrollment at schools which already were over - taxed for space.

Last year enrollments showed a 10 per cent gain the first week of school.

Mr. Truman noted that the two nations have been "spared the wanton destruction and dislocation of war. He said he is certain they "will be faithful to a great trust on which depend the lives and liberty of so many millions of disillusioned and discouraged people."

The address was Mr. Truman's second on Brazilian soil this week. In his first, he told the inter-American conference Tuesday that the United States is determined to remain strong and fulfill obligations to the U. N. He also expressed belief that postwar disputes can be settled without armed conflict.

Hereford Breeders Buy AAF Buildings

Members of the Howard County Hereford Breeders' association, meeting in a called session Thursday afternoon, agreed to underwrite the purchase of one of four Army warehouses, which are being sought by the Howard County Fair Association to be used for exhibit purposes.

J. H. Greene, chamber of commerce manager, who asked city commissioners to give the fair association an opportunity to purchase buildings, said the action by the Hereford breeders gave virtual assurance that funds for two of the warehouses would be subscribed within the next few days. Parents of 4-H club members contributed and pledged almost enough to purchase one structure Saturday, and their fundraising campaign is still underway.

Railway Express Gives Wage Hike

WASHINGTON, Sept. 5. (AP)—George Harrison, president of the AFL brotherhood of railway clerks announced today the Railway Express Agency has agreed to a 15 1/2 cents hourly wage increase for 65,000 employees.

The boost, effective as of Sept. 1, is the same increase given earlier this week to approximately 1,000,000 railroad workers under an "arbitration award."

Ramadier Given Confidence Vote

PARIS, Sept. 5.—Premier Ramadier won a vote of confidence today in the national assembly, which also approved the government's program of subsidies for the coal industry by a margin of 50 votes.

The vote was 292 for the motion of confidence, 243 against. It was the 5th vote of confidence Ramadier has received since becoming Premier in January.

TUC Approves British Policies

SOUTHPORT, England, Sept. 5.—The powerful Trades Union Congress approved today the labor government's "go-slow" policy in nationalizing Britain's iron and steel industry.

After being assured the government had not abandoned this project, delegates representing more than 7,000,000 workers at the 79th annual TUC conference overwhelmingly rejected a resolution to force it through the next session of Parliament.

While many other laws became immediately effective when signed by Gov. Beauford H. Jester during and at the close of the 50th Legislature's regular session, the laws put in operation today had to wait 90 days after the end of the session.

Human Tests Set For Cancer Serum

ST. LOUIS, Sept. 5. (AP)—A New York scientist today said he planned to try the Russian "KR serum" for cancer on three hopeless human cases this fall, after getting some apparent cures in mice in preliminary tests.

But he emphatically stressed that there was not yet the slightest hope to believe that humans would react like the mice.

At the same time, another scientist reported no cures and only moderate effects at best from KR in mice in his experiments over a period of two years.

The apparent recoveries in some mice were reported by William M. Mallisoff, Ph.D., biochemist and research director of the Longevity Research Foundation, New York, to the Fourth International Cancer Research Congress.

KR is named for its Russian developers, Nina Kluyeva and Gregori Roskin, who prepared it from organisms that cause a tropical disease, Chagas disease.

The Soviets have cautiously reported about 10 "more or less successful" recoveries from cancer among 60 persons treated with KR injections, said Theodore H. Hauschke, Ph.D., microbiologist of the Institute for cancer research, Lankenau hospital, Philadelphia.

It was Dr. Hauschke who reported the generally poor results with KR preparations made at Philadelphia.

Dr. Mallisoff said he has been making a KR solution since last May, and "I intend using this method on three already-selected human cases about the end of October. The cases, of course, will be inoperable and in very advanced stages."

There have been rumors that at least one person has been treated with KR in this country, but all scientists questioned here said they could not confirm the reports.

Grand Jury Indicts 17

The grand jury for the September term of district court, out for a record three days, returned 17 indictments Wednesday.

E. C. Parker, who is already under prison sentence for two convictions in Canyon, will face two charges. He was indicted for theft along with John Cantwell and for attempted jail break along with E. J. Roberts on another count.

Parker and Cantwell allegedly stole some swine from the Big Spring State hospital two months ago.

Roberts must also face trial for the theft of an automobile while Louis P. Gonzales was indicted for the murder of Bernardino Salgado, which allegedly died April 23.

Bessie Grider was indicted for forgery as was Dolph Prather while Ike L. Barnes was formally charged with driving while under the influence of intoxicants, a second offense.

Three persons not yet in custody were indicted for forgery along with one for burglary and another for swindling by bogus check.

EGYPT BARGAIN — CAIRO, Egypt, Sept. 5.—An advertisement in the newspaper Al-Khousr today offered "Farris El Khoury silk" and "Gromyko satin" at reduced prices "in recognition of Syria's and Russia's support of Egyptian demands in the United Nations security council."

Labor, Traffic Laws Head List

AUSTIN, Sept. 5. (AP)—Texas added 123 new statutes to the law books at midnight last night.

The collection of new laws includes measures placing new restrictions on labor, standardizing and modernizing traffic regulations, permitting voluntary pension plans for city employees, establishing a state university for Negroes and liberalizing benefits under the workmen's compensation act.

Food Prices Whirl Steadily Upward

Senator Sees No Need For Special Session

WASHINGTON, Sept. 5. (AP)—Sen. Vandenberg (R-Mich) said today he sees no need for a special session of Congress on the European economic crisis. He added that the decision, however, is up to President Truman.

Vandenberg, who is chairman of the Senate foreign relations committee and handles legislation dealing with foreign affairs, held his first news conference since returning yesterday from the inter-American security conference at Petropolis, Brazil.

On Wednesday, Undersecretary of State Robert Lovett told reporters the European situation may demand United States help in 1947 and indicated a special session may be in order.

Questioned on the outlook, Vandenberg said: "I have no information on the subject. There is not a word from the state department or the White House about a special session since the day President Truman said none would be necessary."

Vandenberg said the reporters asking about a special session were "putting the cart before the horse."

The Senator said the need for such a session to consider possible aid to England and other European nations depends "entirely upon authentic disclosure of the Administration's plans."

Abilene Man Gored By Bull

R. J. Wilkerson, Abilene, suffered painful but not serious facial wounds when gored by a Brahma bull at the second performance of the Colorado City Frontier rodeo Thursday evening.

He was rushed to a hospital for treatment after the bull had been riding turned on him after he was thrown. Jim Langston, Colorado City, sustained minor injuries when thrown by a bull.

Ikey Davidson, Big Spring, was one of seven riders who were able to stay aboard in the bareback bronc riding event. Neal Collier, Wichita Falls, and Junior Hayes, Big Spring, were among successful saddle bronc riders.

The time of the top three calf ropers, including Toots Mansfield and Sonny Edwards, Big Spring, and Walton Poage, Rankin, stood up for best in the first go around when Leo Thorn, Del Rio, turned in 18.9 for the best in the second leg of the first half contest.

Hunter Swann was first in Mitchell county calf roping with 21.7 seconds. Jack E. Worthington, Jacksboro, tied the low mark for the first night of the clover leaf race in clipping off 16.7 seconds.

Shorty McCoy, Arlington, was best in steer wrestling with 13 seconds, and Jess Everett, Snyder, took cutting horse honors.

The rodeo continues its series of evening performances through Saturday.

Army Recruiters Hold Meet Here

Recruiting personnel of five Army sub-stations in West Texas, including Big Spring, met here this morning to confer on matters relating to the US Army recruiting program.

Non-commissioned officers from Lamesa, Odessa, Monahans and Sweetwater were in attendance.

Mexico Arrests 39 Ambushers

MEXICO CITY, Sept. 5.—Thirty-nine persons, including a woman, were under arrest today in connection with the ambush Monday at Sanguio, where seven soldiers and a veterinarian were knifed, clubbed and kicked to death while on a mission connected with Mexico's campaign against foot and mouth disease.

Gen. Guzman Cardenas, commander of the 21st military zone, said all 39 were being held for disposition of the Morelia district court and that federal troops from two military zones were searching through the mountains of western Michoacan state for other perpetrators and instigators of the ambush.

The general told reporters that his investigation indicated the ambush was carefully planned in advance. He said the party, which had been ordered to Sanguio to kill 400 infected or exposed cattle, was encouraged to enter the village by shouts of "long live the army."

As soon as the soldiers and the veterinarian entered the village street they were set upon by a mob armed with knives and clubs and later were trampled by mounted horsemen. President Miguel Aleman ordered a thorough investigation and punishment for the guilty persons.

The general said Teodora Torres De Guioja, whom he described as "one of the ringleaders," was one of the 39 being held at the disposition of Morelia district court. He asserted she was active in the anti-ambush movement.

CIO To Ignore Red Affidavit Deadline

PITTSBURGH, Sept. 5. (AP)—Ranking CIO leaders will wait until their Oct. 13 convention at Boston before taking any action to comply with the Taft-Hartley Labor law requirement that union officials file non-communist affidavits prior to Sept. 25.

That flat announcement was contained in a bitterly-worded statement issued by the CIO executive board here yesterday after a conference with CIO-President Philip Murray.

Immediate effect of the union leaders' decision was not determined but Robert N. Denham, general counsel of the NLRB, has indicated that unless affidavits are filed by all the nation's labor leaders before the deadline nearly 15,000,000 workers will be denied use of the NLRB.

Murray did not give any elaboration of the board's decision but at a news conference after the meeting said the CIO's steelworkers union has held 10 elections independent of the NLRB in the last two weeks.

Until this announcement both the CIO and the AFL had kept the NLRB in the dark as to whether the government agency could expect to do a rushing business under terms of the Taft-Hartley Law or none at all.

O'Daniel Is Mum On Son's Action

FORT WORTH, Sept. 5. (AP)—Sen. W. Lee O'Daniel had no comment today for the application of his son, Pat, for permanent postmaster at Fort Worth.

The civil service commission at Washington announced yesterday that young O'Daniel is one of 19 applicants for the job.

The postmastership comes under civil service and applicants will be interviewed by a civil service examiner. Then the civil service commission will submit to the president a list of the three top eligibles for the job. The president will make the appointment but the senator from a state usually has a voice in the selection of the postmaster for his home town. Senator O'Daniel is from Fort Worth.

Also an applicant for the job is J. Edwin McKee, the senator's appointee to the temporary job of postmaster.

Britain Plans To Stem Refugees

LONDON, Sept. 5.—A foreign office spokesman said today the United Kingdom would take new international action to stem what he called the "inhuman" movement of Jewish children from Europe to Palestine.

The same source said two more ships believed headed for Palestine with unauthorized Jewish immigrants were being watched. These were the Northland, moving East off North Africa, and the Paducah, which was reported at the Bulgarian Black Sea port of Varna.

EX-REDS IMPRISONED — MOSCOW, Sept. 5. (AP)— Pravda reported today that two former local communist secretaries and a prosecuting attorney were sentenced to six to eight years imprisonment by a Rostov court for arresting and detaining a reporter who criticized them in his newspaper.

Most Staples Reach High Peak For Year

Commodities Are Certain To Go Higher

CHICAGO, Sept. 5. (AP)—The nation's principal commodity markets cast lengthening shadows over family household budgets today in a dizzy whirl of rising prices.

With most staples foods at high peak for the year and certain to go still higher, the consumer was advised to adjust to substitutes, such as spaghetti, and to shop around for cheaper cuts of meat. Only fresh fruits and vegetables were holding at steady prices.

Some observers predicted that unless "consumer existence" shows up in the market places eggs in New York will soar to \$1 a dozen, butter and meat \$1 a pound. Such grains as corn and oats sold in futures trading yesterday at new record high prices in the 99-year history of the Chicago board of trade.

John Krey, chairman of the American Meat Institute, said "a major catastrophe is striking this country and a hungry world because of the drastic reduction in this year's corn production."

In anticipation of further advancing prices for the grain, one Chicago broker reported that wheat producers were withholding some of their 1947 crop from market channels.

The midwestern drought which sharply curtailed corn crop prospects was an important factor in meat prices but in virtually all other commodity exchanges the trend was sharply upward, including cocoa, sugar, hides, cotton, cottonseed oil and coffee. Some of these already were at record high quotations.

Butter was selling at 87 cents a pound retail in New York where Eugene Schurz, city market commissioner, predicted it would climb further because of short supplies. He said "only slight consumer resistance" against the high prices had appeared there.

Eggs for delivery in October and butter for delivery in November and January were at record quotations for these particular deliveries in Chicago. October eggs brought 54.65 cents a dozen yesterday, while butter for November delivery was quoted at 73.95 cents a pound and the January delivery at 73.60 cents. One grade of butter and eggs were up around 20 cents wholesale over prices of last April.

Hog prices advanced as much as 75 cents a hundredweight to \$28.50 at Chicago yesterday. There were no strictly choice cattle offerings but a record September price of \$35 a hundredweight had been paid for cattle within the past week.

Panhandle Gets Relief From Heat

The Texas Panhandle where heat records of 55 years standing were broken this week got some relief from the hottest spell of the summer but it was just more blistering temperatures for many other sections of the state.

The cool front that moved out of the Rockies dropped temperatures in the Panhandle but failed to penetrate very far south and east. The maximum at Amarillo yesterday was 97, contrasted to better than 100 degree weather the previous few days. Wampa reported 96.

Henrietta continued the hottest spot, reporting 112 degrees for the fourth straight day. Seymour sweltered under 109 degrees. Quanah 107, Memphis 107, Graham 106, Haskell 105, Gainesville 105, Clarendon 104, Childress 107 and Texarkana 100.

North and east Texas also were hot. Naacogdoches reported 104, Lufkin 102, Dallas 101 and Texarkana 100.

Other readings: Fort Worth 99, Abilene 100, El Paso 96, Brownsville 92, Laredo 96, Del Rio 91, San Antonio 95, Austin 94, Galveston 92, Houston 94, Guadalupe Pass 89 and Fort Davis 81.

(The International Uniform Lesson on the above topic for September 7, is II Kings 4:8-13; Proverbs 3:9-10; 11:4, 24-28; 16:8, 19; 20:11; 21:6; 22:1-2; 23:4-5; 28:11; 20:2; Ecclesiastes 5:10-17; 19 James 5:1-6, the Memory Verse being Proverbs 20:11. "Even a child maketh himself known by his doings. Whether his work be pure, and whether it be right.")

THE BIBLE never speaks against wealth as being something evil. Only the misuse of riches is rebuked. In the story of the prophet Elisha and the wealthy Shunemite woman, told in the first part of our lesson, we see one who used her wealth to help others. She was kindly and unselfish, thoughtful for the needs of those whose lives touched hers.

"And it fell on a day that Elisha passed to Shemem, where was a great woman; and she constrained him to eat bread. And so it was that as oft as he passed by, he turned in thither to eat bread."

"And she said unto her husband, Behold now, I perceive that this is an holy man of God, which passeth by us continually. Let us make a little chamber. I pray thee, on the wall; and let us set for him there a bed, and a table, and a stool, and a candlestick; and it shall be when he cometh to us, the he shall turn in thither."

This house, according to our commentator, probably was built next to the woman's house and connected with it, but had its own entrance, so Elisha, when he came weary with travel, could rest there and be alone, and yet have the company of the host and hostess when he felt like it, and would eat with them. This was surely a lovely, thoughtful thing for her to do, and Elisha showed by his actions later how much he appreciated it.

Solomon's words in Proverbs 3:9-10, show how we should honor God in our deeds as did the woman whose name we do not know. "Honor the Lord with thy substance, and with the first fruits of thy increase: So shall thy barns be filled with plenty, and thy presses shall burst out with new wine."

There are plenty of people who are stingy with their possessions and money, afraid that if they give generously to their church or any other good cause, they will be poorer. But almost always it is true that generous givers prosper. I remember once when my own church finances came up for discussion that one of the prominent members told us that only at that time did he realize how little his family paid into the church in contrast to what they spent on their social activities, and that he was ashamed and intended to do better.

"Riches profit not in the day of wrath, but righteousness delivereth from death." Solomon rebuked the people who recently called hoarders because when some usually scarce article of food or household was occasionally available, they bought as much as they could and hid it. "The liberal soul shall be made fat, and he that watereth shall be watered also himself."

"He that withholdeth corn, the people shall curse him; but blessing shall be upon the head of him that selleth it."

There have been people, you know, and even are to this day, who, when foods, etc., are abundant, store them like the man who built huge barns and storehouses and filled them, intending to live on the profits thereof. But the Lord came to him that night in a dream and told him that on

that very night his soul would be required of him, and what good would his riches do him then? "He that trusteth in his riches shall fall but the righteous shall flourish as a branch."

As we have noted in other lessons, wealth does not always bring happiness. Ill-gotten wealth for instance usually makes the owner miserable because of the weight on his conscience and the fear of consequences.

"Better is a little with righteousness than great revenues without right."

Also, "Better it is to be of a humble spirit with the lowly, than to divide the spoil with the proud."

"Even a child is known by his doings, whether his work be pure, and whether it be right." Watch children playing or in school and notice how some will "play fair" and some cheat; how some will be cruel to playmates and others be kind and thoughtful; some utter lies and others be truthful.

Finally as we have come to the end of the space assigned us: "A good name is rather to be chosen than great riches; and loving favor rather than silver and gold. The rich and poor meet together: the Lord is the maker of them all. Rich or poor, of whatever race or color, we are all God's children. He made us all, so why should the spirit of mortal be proud?"

Education...FOR WHAT?

Thoughtful people are becoming increasingly aware that what is commonly called an education is not enough. Of course we need the training that sharpens our wits and develops our skills. But real education must go deeper than that! Somehow, somewhere, we must find direction to life, so that wit and skills will be employed not only for self but for the common good.

For some fortunate persons this emphasis is made in the home. Where this takes place, under Christian guidance, there is a lasting quality to the training that time can seldom efface. Sometimes the college or university offers this valued guidance and the student, as he sits before a Christian professor, learns more than books and lessons. He catches here some of the deeper overtones of life's true meaning.

In a special way this extremely important instruction is imparted by the Christian Church, the mother of education. Through worship, study, fellowship, activity, we learn that noble purposes are infinitely superior to mere things, and through fellowship with God we are made strong to every test that life can throw against us.

**THE CHURCH FOR ALL...
ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday and read your Bible daily.

Hold Out Your Hand, Learn Rules

Better hold out your hand in ample time before turning your car on a public street or highway starting today—and it would be wise, too, if you schooled yourself on other rudiments of the state's new uniform traffic code.

In a nutshell, it all adds up to what most of us know is sensible and safe driving practice. The advantage is that it is uniform across the state and in concert with the uniform codes in most of the other states of the union. Thus, wherever you go, you will have a fundamental knowledge of driving rules if you know the Texas laws.

The turning signals (arm out straight for 100 feet before a left turn, out and up for right hand and out and down for slow or stop) may be the most difficult to employ. We've known about them all along but have not used them except in rare instances and then a fraction of a second before turning.

Here are a few more you ought to stamp indelibly on your mind in event of accidents: Stop immediately if you are in collision involving injury, death or property damage; be prepared to give your name, car number and show your drivers' license; render aid when necessary or requested; in event of injury, death or property damage of \$25 or more, notify officers at once and file a report on the accident with that department within 24 hours. If you are in collision with an unattended vehicle, notify the owner, driver or post a conspicuous notice with your name, address and an explanation.

Lay off driving if drugged or drunk. Penalties range up to \$5,000 and five years in jail for these offenses. Stay on your side of the road. Observe speed limits. In short, drive as safely as you know how.

Birthmark Of A Social Worker

Lt. Gov. Allan Shivers has sounded off in the Kibbe case, accusing Mrs. Pauline Kibbe, who resigned as executive secretary of the Good Neighbor commission, of meddling in affairs not within her scope. He also denied knowledge of a Senate deal to oust Mrs. Kibbe from her post.

This reference to meddling was the portion of Mrs. Kibbe's report which was highly critical of low wage rates paid to immigrant Mexican workers. His contention that this was a matter between the governments of the United States and Mexico, hence not proper subject for comment by the executive secretary of the commission.

His position is ill-conceived and ill-advised. Mrs. Kibbe, as a citizen of this nation, had as much right as any other citizen (and we all have that right) to voice opinions on wage structures or any other subject for that matter. Her report was so

near the truth that it hurt.

As for a Senate deal to oust or muzzle her, we have no way of knowing the facts. She says there was and so do some members of the commission. Others, the lieutenant-governor, who is presiding officer of the Senate, and some members of the Senate say not. Thus, it is a more or less moot point.

Mrs. Kibbe provided distinguished service in her role. She was not without fault, chief of which was her militancy. This, however, is the birthmark of the earnest social worker. They become indignant with conditions as they find them and literally demand that others share their indignance. Unfortunately, most people can't be bothered, or they resent being bothered, or having their play houses disturbed. Sooner or later, the enthusiastic social worker is bound to step on toes (Mrs. Kibbe has) and change jobs (so has Mrs. Kibbe).

Europe's State Causes Anxiety

Ground for anxiety—though not surprising—is American Undersecretary of State Lovett's report in Washington that Europe's economic crisis is developing much faster than expected and that the United States may have to take some kind of emergency action before the end of the year.

Representative Hays, Arkansas Democrat, just back from European tour, pinned the thing down more closely. He told reporters that in all probability it will be necessary for Congress to meet before January, "assuming that the Marshall Plan will take shape by that time and that we will have something definite and substantial to work on."

Lovett attributes the speedy worsening of the situation to two main causes: (1) the effects of the British economic crisis have been very contagious, he believes. (2) many countries have had to divert their resources from production to such non-productive purchases as foodstuffs. In this connection their troubles have been added to by such afflictions as floods and droughts. There also has been mismanagement.

Fort Knox Gold Is Back In News

By MAX HALL (For James Marlow) WASHINGTON, Sept. 4. — The world's biggest pile of gold is back in the news. It happened yesterday when Ernest Bevin, the British foreign secretary, suddenly proposed that the United States "redistribute the Fort Knox gold."

Bevin's speech at Southport, England, started a first-class mystery—the mystery of what Bevin meant, how the plan would do.

Work, and what good it would. Another Associated Press reporter and I spent hours talking with treasury officials and private economists, and not one of them professed to understand exactly what Bevin had in mind. The speech also revived people's curiosity concerning the monstrous hoard of yellow bars, twelve thousand tons of them, in Kentucky.

Let's pay a little visit to Fort Knox, 30 miles southwest of Louisville. First we find that only part of America's gold is there. The governments of the world

now have a grand total of about \$38,000,000,000 in monetary gold—that is, gold used to back up paper money. About \$21,800,000,000 of this is owned by the U. S. government. And about \$12,500,000,000 of that is stacked in a heavily-guarded two-story building in a field at Fort Knox.

This gold is in small bricks which, although they are only about six inches long, weigh about 27 1/2 pounds each. There are rough 892,000 of these bricks, stacked without so much as a wrapper around them. Today the U. S. gold that isn't at Fort Knox is in various cities, in buildings owned by the bureau of the mint. For example, \$5,700,000,000 is at Denver, \$2,900,000,000 is at New York, and \$417,000,000 is at San Francisco.

Character Actors Are Scarce

HOLLYWOOD, (P)—Are you grey-haired, paunchy, middle aged? Can you act? If so, come to Hollywood. The movie town is suffering one of the oddest shortages in its history—character actors are getting scarcer and scarcer. The situation is getting critical, or so MGM casting director Billy Grady would have us believe. The competent character people are dying off like flies, and there is no one to replace them.

"Where can they come from?" asked Grady, a fast-talking ex-actor and agent. "Our best character actors have come from vaudeville, stock and repertory companies. Those fields are now dead. There is no adequate training ground for new talent."

The result is that 30 well-trained veterans have a virtual monopoly on character roles in Hollywood, through lack of competition. The familiarity of their faces gives a quality of same-

What It Means—Sigrid Arne

Colored Money Feud

BY ARTHUR EDSON (For Hal Boyle) WASHINGTON, (P)—Rep. Edith Nourse Rogers (R-Mass.) sees red every time she sees green folding money.

Some people figured that if her business was teaching, she must be teaching monkey business. Why didn't she wear clothes like respectable teachers?

The treasury didn't bother to clothe the lady. Next bill-issuing time, it issued another bill, and tipped softly away.

Like to have your picture on paper money? Your best chance is to (A) die, or (B) become President. In that order.

There are 12 different people, none living, portrayed on our money. All but three—Hamilton, Franklin and Chase—were presidents.

Washington is on all \$1 bills, Jefferson is on all \$2's, Lincoln is on all \$5's and Hamilton on all \$10's.

Snyder replied, cautiously, that he has heard no great clamor for rainbow-hued money. And there the matter probably will rest until Congress comes back, whereupon the persistent Mrs. Rogers will introduce a bill calling for pretty money.

In case you hadn't noticed lately, that's Wilson on the \$100,000. Not one picture but two Lincoln and Grant shared one bill, and so did Martha and George Washington.

Carefully putting glue on my fingers, in case I should happen to lean on some samples, I went over to the treasury to check up on money.

Invading Italy, for instance, troops carried orange, olive, gray, purple, yellow, green, red blue and brown money. I have inspected some of this, but I refuse to take sides in any debate.

I don't care whether it's new or old, clean or dirty, blue or beige. As long as it's money, I think it's beautiful.

Later when I went to Williamsburg, scene of the founding fathers' earliest heartaches, where University of Virginia students are now reliving those heart-sagas in Paul Green's stirring pagesant, "The Common Glory."

This gal was supposed to be freedom instructing youth, and the bill no sooner got into circulation than a horrendous cry went up.

With most of us worrying about communism and the jittery state of the world, I decided to visit the area which reared some of the men who made this country great—Virginia. One visit was to the northern neck of Virginia, the land of once-great tobacco plantations where George Washington and Robert E. Lee were born.

Washington is on all \$1 bills, Jefferson is on all \$2's, Lincoln is on all \$5's and Hamilton on all \$10's.

That also is why we cease being inspired by crusades and causes, as were the founding fathers. We tend to be merely agit'ng things, not for building up new things. Our national motto becomes similar to that which hangs in the aisles of pullman cars after 10 p. m.: "Quiet is requested for the benefit of those who have retired."

Como Remembers

NEW YORK — No Business Like Show Business item: Perry Como is that rare avis in the entertainment trade, a guy with a memory.

Years ago, Perry left Ted Weems' orchestra to branch out as a solo vocalist. Frank Dailey, who owns the mammoth Meadowbrook night club at Cedar Grove, N. J., signed the talented fledgling at a modest salary.

It also shows the rest of the world that if this country should import more goods than we ship to other countries, we have the gold to pay the difference. Gold is accepted as money every where.

When I say the play is "trying out," I mean the Guild is trying to envision it as a musical, to be rewritten with songs and dances as was "Oklahoma," which used to be a play by Lynn Riggs called "Green Grow the Lilacs," and of "Carousel," which grew from Ferenc Molnar's "Lilium."

How did the government get all this gold?

They caught several 10 to 20 pound catfish, and decided to use them as bait for old Joe. They baited up, tied the cable to a pine tree and the boat, and went to sleep.

Como never forgot Dailey's generosity. . . . When he heard several weeks ago that the Meadowbrook was changing from a policy of "name band" attractions to the presentation of acts, Perry telephoned Dailey and offered to be the first in his new series of "name" presentations. . . . He signed a contract at his usual salary, a starting amount, and immediately ripped it up in front of Dailey's startled gaze!

During the night they were awakened by "gosh-awful splashing" and ran to the creek to see the pine tree give way and fall into the stream, then begin swishing down the creek, with the boat tagging along, too.

Como then pulled out a copy of the same old contract which the proprietor had so generously returned up years ago, and at the same moderate figure which had been his asking price in the years before he became a swoon sensation, signed his name.

At dawn they called for help, and started out looking for the fish, cable and boat. They found them miles downstream—the boat and tree sort of dancing together on the surface of a wide place in the creek, and people on the banks looking on in wonderment.

Grady tells of uncovering a potential star named Archie Leach in New York some years ago. The actor had only \$800 and a car and was thinking of signing up for a five-year stretch in Schubert musicals. Nuts, said Grady, go west.

Old Joe was tired, and with the aid of trucks and tractors, they haven't weighed him because scales are not big enough.

With Grady's instructions, Archie drove as fast as Denver, where his car broke down, and took the train to Hollywood. He got a job and has been faring well since. Archie now calls himself Cary Grant.

This one is true, however: Floyd Bobbitt and Game Warden Joe Loftin, both of Port Isabel, went fishing for jewfish one morning. They moored their boat to piling at the end of the north jetty, using two stern lines.

Grady admitted. Some of the old gaffers can't remember lines; two had to be removed from MGM pictures recently because they couldn't make the grade.

They had caught a couple of snappers when up came a giant ray—one of those mantas 15 to 20 feet across their flippers.

Grady, go west.

It struck their anchor line and took off, towing the boat after snapping its stern lines.

Grady admitted. Some of the old gaffers can't remember lines; two had to be removed from MGM pictures recently because they couldn't make the grade.

The ray headed for the open sea, but Joe and Floyd had other plans. They grabbed a bait knife and cut the line.

Washington Merry-Go-Round—Drew Pearson

Filling Of A Silo Is Restful

By DREW PEARSON WASHINGTON. — First, I want to thank Bob Allen for the swell columns he wrote in my absence. They set a tough standard for me to follow, but enabled me to take the longest time off from the Merry-Go-Round since the whirl started.

When I embarked on this period of idleness I thought I would be bored stiff. It turned out that I wasn't but my wife was. Reason was that I insisted on spending part of my vacation filling the silo.

Silo-filling is a very dangerous period around our farm, and anyone who comes too close is liable to get caught. Once my son-in-law—then a suitor for my daughter's hand—found himself in the unenviable predicament of having to humor his prospective father-in-law by tramping down ensilage for a whole week inside the silo. Now that he has married my daughter, he is most careful to put a thousand miles between himself and the farm at silo-filling time.

Although I have never put my wife inside the silo, she is never quite happy about silo-filling. This is not because she drives a truck from the cornfield to the silo, but because she would rather have me relax at Nantucket or the mountains. However, if we go to one of these summer resorts everyone I meet wants me to predict who will be the next president or when we will fight Russia; while at the farm we are concerned with much simpler things—such as how long before the people who moved into the haunted house across the road will see the alleged headless man who prowls up its stairs in the moonlight, and will hurriedly move away.

Bert Baez To Face McPike In Playoff Battle Tonight

LOOKING 'EM OVER

With TOMMY HART

Employers of Lloyd "Pat" Patterson, the part-time pitcher for the Big Spring baseball Bronces, have given him permission to come out from Fort Worth Sunday, which means he may climb the hill against the Sweetwater Sports, if the Shaughnessy playoff now in progress is still going on.

Big Pat worked effectively against the Vernon Dusters here last Sunday afternoon, although he tired in the late rounds. He had been off the firing line for nearly a month and had no chance to work out.

When he went back to Fort Worth the last time, he took his shoes and gloves with him, intended to do some running and engage in several warm-up drills. If he can work, he'll fill a big gap in the Bronces pitching corps. Manager Pat Stasey has an ample number of operatives on his staff but never knows when any of the slabsmen are going to wax warm.

Incidentally, Jose Cindan wasn't at his best in Sweetwater Wednesday night, although he won by a comfortable margin. He complained he tired prior to the contest and showed it in his warm-up drills. He got stronger in the innings, however, and exuded confidence.

Umpire Mac McMahon had his head in the game when he called Gaspar Del Toro safe in that all-important play in the eighth inning of the Wednesday night tussle. At least it looked that way from our pew, and we were camped within 20 feet of the base.

Joe Dotlich, the Sports' capable first sacker, had to climb down off the cushion to take Mac Dunlap's erratic throw and danced a jig around the base trying to find it after taking the pitch. However, the speedy Del Toro breezed in ahead of him to gain a life.

And what a break it was for the Hosses. Pat Stasey stepped up to catch one of LeRoy Jones' fast balls and sent it over the wall in left center field for the three runs that won the contest.

Incidentally, the Sweetwater club is campaigning for a new park. The present facility is inadequate, was originally used for softball. It is a hitter's dream — many a pop-corn home run has sailed out of there that ordinarily would have been caught in other fields — and a pitcher's nightmare.

Ballinger and Big Spring finished neck and neck in the race for full-season attendance honors. Each had aggregates of around 45,000 for the regular season. Add to that another 4,000 or 5,000 for the playoffs and it represents a sizeable figure.

Midland wound up with something like 25,000 — below expectations. Lefty Lonergan and Joe Bauman, pitcher and first sacker, respectively, of the Amarillo WT-NM league club, are to get tryouts with Minneapolis, Pat Stasey's old club, next spring.

Local fans rejoice that Willard Ramsdell, once of Our Town came so close to winning the Texas league's most valuable player award. In fact, many of them thought the Fort Worth knuckleball artist should have won it.

Ramsdell didn't notch as many victories as did Clarence Beers, of Houston, who copped the prize, but was more effective.

Abilene loses in WT-NM play. The play-off bracket has been determined in the West Texas-New Mexico league.

Lubbock, Amarillo, Albuquerque and Lamesa will be in it. Only two games were played last night but everything was settled anyway.

Lubbock and Amarillo were already so far ahead they couldn't be dislodged. Today Albuquerque is seven games out of fifth place with six games to play. Lamesa is five and one-half games ahead of fourth with five to go.

Pampa beat Amarillo 3-1 on Dub Scott's six-hitter and four Amarillo errors. Clovis beat Abilene 7-3 as Jack Immell also pitched six-hit ball.

The Berger-Lubbock game was postponed when a bus carrying the Lubbock team broke down and couldn't reach Berger. Lamesa at Albuquerque was postponed because of rain.

Teams Are Here Thru Sunday

Diminutive Bertie Baez, all 140 pounds of him, will ankle his way to the hill tonight and try to lead the Big Spring Bronces out of the baseball wilderness.

Steer park will be the scene of operations. The Sweetwater Sports who blasted the Bronces into submission last night, will form the opposition. The starting time will be 8 o'clock.

The Sports erased all doubt as to their prowess in last night's tussle at Sweetwater. The sporting gentry who fancied they were about to turn the other cheek after losing the opening contest to Jose Cindan were in for a rude surprise.

The Hosses should smart from that stinging reversal for a long time. It could make them fighting mad tonight, or take the fight out of them altogether. Time will tell.

At any rate, it is up to Baez to lead the way. He beat the Sports last time out, despite the fact that he gave up four home runs, and owns 17 victories this season, although.

His mound foe is due to be Calien McPike, the only Sports tosser who hasn't worked in this series. Calien has enjoyed moderate success against the Big Springers, having beaten them twice.

The teams will play here through Sunday. If the outcome isn't decided by that time, the two brigades will move back to Sweetwater Monday to have the thing out.

Winner, of course, gets at the survivor of the Ballinger-Midland battle in the finals.

Gamboa's Blow Gives Tigers 3-2 Victory

A seventh inning double by Ealsi Gamboa scored Pat Martinez with the run that enabled Big Spring Tigers to turn back the Nathan Jewellers, 3-2, in a baseball exhibition unrec'd at Steer park Thursday night.

The Bengals trailed going into the seventh. Isa Mendoza, the crafty right-handed pitcher for the Latin-Americans, doubled to lead off the frame and came home with the tying run on a blow by Martinez.

The contest developed into a tight pitchers' duel between Mendoza and Wayne Johnston, Gem-Setter hurler. Mendoza gave up nine blows but struck out 16 men and walked but two.

Johnston limited the Tigers to seven hits and whiffed six. Gus Fierro dented the batter for Ynez Yanez's team in the initial round. The Jewellers tied matters in the fifth when Freddy Acton reached first on an error by Gus Fierro and counted on a safety by Bill Rinewall.

In the seventh Ted Gross crossed the plate on a blow by Red Womack.

The victory was the second within five days for the Bengals, who blasted Sweetwater, 33-4, last Sunday in a game played here.

Fading Rebels Skid To Fourth In Standings

Fortunately for Dallas the Texas league season ends in just three days and Shreveport picked an opportune time—for the Rebels—to go into a tailspin.

At the rate Dallas now is traveling—in reverse—the Rebels wouldn't have made the playoffs.

It's getting so Dallas fans have to look in the records to recall when the Rebels last won a game. Last night they dropped another to Tulsa, 6-3. It not only plummeted the Rebels into fourth place but moved Tulsa into third.

The play-off bracket already has been determined and except for appearances Dallas don't have to worry about losing right now.

Last night Houston increased its lead to a game and a half over Fort Worth for first place as the Buffs licked San Antonio 4-2 while Fort Worth was dividing a doubleheader with Oklahoma City, losing the first 2-1 but taking the nightcap 5-2.

Beaumont beat Shreveport 9-3 as the two managers took over pitching duties. Goldie Holt of Beaumont bested Salty Parker of Shreveport, hurling a five-hitter while Parker was hammered for 15. Now Goldie may be embarrassed when the fans want to know how come he hasn't been pitching all the time, pointing out that if he had maybe Beaumont wouldn't be tied for the bottom with San Antonio.

Tulsa made it six straight triumphs over Dallas, scoring all its runs in the eighth inning by bunting around. Barney White started the rally with a single and he also got the last hit of the spurge.

Clarence Beers, the league's leading pitcher, hung up his twenty-fourth victory by taming San Antonio. John Hernandez furnished the batting fireworks for the Buffs with a homer and two singles.

Preacher orsett tagged his fifteenth pitching victory by turning back Fort Worth in the opener while Eddie Chandler kept Oklahoma City virtually helpless in the second game.

Tonight Dallas moves to Oklahoma City, Fort Worth to Tulsa, San Antonio to Shreveport and Beaumont to Houston to close out the league race.

Yearling Grid Drills Start

Some 50 eighth and ninth grade youngsters have reported to Coaches Jim McWhorter and Good Graves for Yearling football practice and are taking afternoon drills at Steer stadium.

McWhorter lost most of the regulars from last year's crack eleven to the varsity team and will have to start from scratch this season.

However, the beef seems to be fairly well in evidence.

COWSAR HAS PERFECT NIGHT

Sports Crush Cayuses With 25-Hit Barrage

SWEETWATER, Sept. 5. —Joe Dotlich's Sweetwater Rifles wore their hitting clothes into Sports park last night and cut loose with a round of pyrotechnics that swamped the Big Spring Bronces by a record 25-1 score.

Not even the loyal Sweetwater fans could believe their eyes as the Sports pummeled the Hosses with a 25-hit barrage and evened the playoffs for the Longhorn league championship at one game each.

While the home club was making merry with Big Spring pitching, Chester Zara was doing a superlative job of stifling the Big Spring bats. Zara gave up but six hits and pitched eight innings of shut-out ball before Gaspar Del Toro hit for the circuit in the ninth.

To make matters complete, the Bronco defense leaked like the proverbial sieve. Big Bob Cowsar enjoyed a perfect night at the plate, blasting out two home runs, as many doubles and a brace of singles in six expeditions to the plate. He drove in eight runs.

The Hosses committed five boners afield that slipped into the records and perhaps a half dozen more that did not.

All in all, it was a black night for the scores of Big Spring fans on hand for the tussle.

Lombardi's Ability To Handcuff Giants Helps Keep Bums In Lead

Little Vic Lombardi, the fellow who couldn't win a ball game in early season, is the most consistent Dodger pitcher of the moment — especially when the Giants are around.

Over a three-year span, the pint-sized left-hander has lost only once to the New Yorkers in 12 starts. They have contributed 11 of his 34 major league victories.

Since the All-Star game, Lombardi has copped nine and dropped but two, including a pair of wins over the St. Louis Cardinals. He has a five-game string working for him as he guns for a starting assignment in the World Series — if the Brooks get there.

Lombardi's latest effort, a five-hit 2-0 job on the New York club last night in the Polo Grounds before 49,203 customers, has given Dodger series hopes another boost. As of the moment they are 8 1/2 games in front of the Cards, who were rained out in Chicago.

St. Louis' rained out game in Chicago was rescheduled for Sept. 25, originally an open date for both clubs.

Boston continued to drive toward second place by outslugging the Phillies, 6-5, after spotting them five runs in the first three innings. Another big inning by Cincinnati helped sink Pittsburgh a little deeper in the National league cellar via a 7-5 setback.

The Washington Senators won a 5-4 night game edge over the New York Yankees. Jeff Heath and Fred Sanford were the whole story in St. Louis' 2-1 edge over Detroit. Heath hit his 25th homer after Johnny Bernardino walked in the first inning and Sanford set down the Tigers with five singles to hand Freddie Hutchinson his 10th loss.

Chicago came up with two in the tenth to top Cleveland, 4-2. Boston and Philadelphia were not scheduled.

New State Traffic Laws

Skyward I. Gaze May Find His Wallet And Head Both Bashed

(Editor's note: This is the third in a series of four articles explaining the principal effect upon the motoring public of the 50th Legislature's uniform traffic code which becomes effective Sept. 5. The following article is devoted to rights and duties of pedestrians under the new law.)

AUSTIN, Sept. 5.—(AP)—Skyward I. Gaze, notable pedestrian unpopularly known to every motorist for consistently looking everywhere when he is going, may find his pocketbook bashed in along with his head after today.

When the 50th Legislature's newly enacted uniform traffic code becomes effective, it will provide fines up to \$200 for the hazardous stunts of Mr. Gaze and his fellow foot-travelers.

If you, like Mr. Gaze, ever walk anywhere, you will be required

by law to abide by the following pedestrian regulations:

1. Hitch-hiking is okay provided you stand off the vehicular-travelled roadway to do it. Sidewalks, curbs, or unsurfaced shoulders of roads protect hitch-hikers from both the law and the oncoming traffic. Otherwise you're breaking the law.
 2. You must strictly comply with official traffic control signals, crossing only at crosswalks in signal-controlled areas.
 3. In areas of no signal controls, you must not suddenly leave the curb to walk or run in front of an approaching vehicle. After you have started across at a crosswalk or intersection, however, after exercising due diligence, you are then entitled to right-of-way, even if the oncoming car has to stop.
 4. No car may pass another car which has stopped to give you right of way to cross at a crosswalk of intersection.
 5. Pedestrians crossing a roadway at any point other than at a crosswalk or intersection must yield right-of-way to all vehicles.
 6. Where sidewalks are provided, it is unlawful to walk on the roadway.
 7. Where sidewalks are not provided, pedestrians shall when possible walk on the left side of the road, facing traffic.
 8. Notwithstanding the specified provisions of the law relating to the pedestrian, all drivers are required to exercise due caution to protect the pedestrian upon a roadway.
- Violations subject the violator, whether pedestrian or motorist, to as much as a \$200 fine.

Elementary School Children Faced With Double Sessions

Big Spring school children in the elementary grades face the prospect of approximately 36 double sessions daily unless additional classroom facilities are provided, school officials told members of the Kiwanis club at a luncheon session Thursday in the Crawford hotel.

Five members of the school board and two faculty representatives appeared on the program to discuss the proposed school tax raise and bond issue, which is scheduled to be submitted to voting property owners Tuesday.

Ira L. Thurman, chairman of the board presided during the discussion.

W. C. Blankenship, superintendent, told the Kiwanians that during his 19 years in the local school system that the district had never possessed enough classroom space or enough money to meet competition in contracting qualified teachers. The current situation is even more acute than the district has been confronted with in the past, he declared.

The superintendent said that 112 pupils were listed in one class at the West Ward school Wednesday and the figure is expected to increase. At least 30 double sessions in the various elementary schools were assured as early as Wednesday and at least six others may be required by the end of the term's first week.

John A. Coffee, board secretary, said the voters are being asked to approve the tax raise and the bond issue primarily to pave the way for an early solution to the crowded conditions. The board has pledged that no more than \$200,000 in bonds will be issued at this time. He reminded, despite the fact that the ballot will carry the notation "not to exceed \$1,000,000."

Coffee said the board plans to use one of two buildings obtained at the Army airfield to alleviate excessive crowding at the Kate Morrison school for Latin-Americans. The other airfield structure probably will be put into use in the west part of town to take part of the load from West Ward.

However, all other elementary schools in the city need from two to four additional classrooms, he declared, and the \$200,000 would be used for that purpose.

The school's budget, which was rejected by the state board of education, regarding qualification for the \$55 state apportionment, also

First In Series Of Six Lectures Given At Church

Sixty persons attended the first in a series of six lectures in connection with a Stewardship Conference Wednesday evening at the East Fourth street Baptist church, launching of a campaign Oct. 12 to gain added monetary support for the church. The Rev. J. S. Parks, pastor, will speak at each session on the theme "More Than Money."

The Stewardship movement is state-wide over the South.

Attending were Mrs. and Mrs. O. R. Smith, Boyce Patton, Mr. and Mrs. Leroy Minchew, Mr. and Mrs. Denver Yates, F. C. Rue, Preston Denton, Mrs. and Mrs. R. T. Lytle, Mamie Lee Wilson, Mr. and Mrs. V. J. C. Webb Heads Local Film Council

J. C. Webb was elected chairman of the Big Spring Film Council at the organizational meeting Thursday evening at Hotel Settles.

Chadd Rockett will serve as vice-president, W. B. Younger as secretary and Lonnie Coker as treasurer.

The local chapter, with 30 charter members, will be affiliated with the Film Council of America which has headquarters in Chicago. Purpose of the organization is to promote training and recreation in the field of 8 mm and 16 mm films.

The Film Council will convene each second Tuesday of the month at 7 p. m. The coming meeting, Sept. 9, will be held in St. Mary's Episcopal church parish house.

Other persons interested in joining the council may attend coming meetings.

Country Club Meeting Is Reset

The special stockholders meeting for the Big Spring Country Club has been reset for 8 p. m. on Sept. 16, Neil Hillard, secretary, announced Friday.

The new date was fixed to avoid conflicts, which already have produced some confusion as to the date, and to permit the meeting to fall after the next regular meeting of the directors at 5:30 p. m. Sept. 14 at the Country Club house. Directors will discuss the possibility of the assessment of stockholders for proposed improvements, the particular question to come up at the special stockholders meeting.

School

(Continued From Page One)

some of the increase was due to the location of an army post here and not all the children were local children. But at the same time Big Spring and Howard county men off in service weren't different from those stationed here. Correct for the difference during the war years and there is still a healthy local increase, perhaps 10 per cent or more. This has actually gained with return of GI's and establishment of homes.

This year first of the "war babies" showed up in classrooms, and they created a perplexing space situation. If there is anything in figures, subsequent years will be worse.

The board has at its disposal two classroom buildings acquired from the army post. These can be placed and converted out of maintenance funds to provide fairly quick relief this year. But they won't answer the problem when the "war baby" crop really swings into stride next year and two and three years from now.

That's why the board is asking for the \$200,000 bonds for providing more elementary classroom space. Ultimately, this will mean a problem in junior and senior high school plant, but the board feels that perhaps at that time the district will be in a better financial position to deal with the problem than now.

To meet minimum salary standards, the board feels, will require an amount of the proposed tax rate increase sufficient to fix the maximum bonds of sound issuance at \$200,000. That's why the million dollar proposal is really a \$200,000 proposal. That's why a new high school plant has been put on the shelf until the current emergency is solved.

Markets

WALL STREET
NEW YORK, Sept. 5.—(AP)—Selling tapered considerably in today's stock market but there still was enough to keep most leaders at moderately lower levels.

The principal bullish argument again at 11:30 a. m. was the possibility of serious repercussions on domestic business as short covering and reinvestment demand were based on the thought that the list had been pretty well liquidated and was in technical shape.

Drainage slowed after a fairly active start. Fractional declines predominated near midday.

Bonds were narrow and cotton futures were steady.

All-Star Show Terminates Park Series

The weekly series of amateur programs, sponsored by the chamber of commerce, will terminate tonight with the annual all-star show at the city park amphitheatre.

The series, which is an annual weekly feature during the summer months, usually closes out with the opening of school. However, due to several good programs, the traditional all-star event could not be arranged before tonight.

The final show will open at 8:15 p. m. Dan Conley will be master of ceremonies.

Amateur entertainers, mostly prize winners during the earlier part of the season, are listed on tonight's program. The show will open with a novelty skit by Donald Snyder and Don Royalty. Other numbers will feature piano selections by Mary Louise Porter, novelty whistling by Roy Hickman songs by Ross Plant, songs with guitar accompaniment by Kenneth Bryant readings by Mrs. Sylvia Dalmon songs by Margaret Ann Nickole, instrumental numbers by the Logan Brothers, songs by Twila Jackson of Colorado City, readings by Arthur and Biddy Dodd, accordion numbers by Betty Jo Adams, cornet duet by Larry Evans and Wendell Stasey.

Plymouth No. 1 Frost Potential Expected Soon

Potential of the Plymouth No. 1 Frost, north-central Sterling county Ellenburger discovery, may be known Friday or Saturday.

Washed with 500 gallons of acid from 8,358-78 feet after a squeeze job apparently succeeded in shutting off drilling mud from behind the pipe, the test yielded some new free oil and no drilling mud. The drilling mud was forced through perforations when the explorations prepared for a test and operators had not been able to revive flow, estimated at 180 barrels per day. Location is 1,980 feet from the south and west lines of section 32-2, H&C, 12 miles north and slightly west of Sterling City. Humble Oil No. 1 Pratt, north east Mitchell county deep wildcat four miles northwest of Loraine, returned 615 feet of sulphur water and no shows of gas or oil on an hour and a half drillstem test from 7,475-7,515 feet. It was drilling ahead at 7,547 feet. Location is 780 feet from the north and 660 feet from the west lines of section 25-28, T & P.

FILLS PULPIT

Rev. Burl Clark of Forsan will fill the pulpit of the Airport Baptist church for both services Sunday in the absence of the regular pastor, Jesse McElreath, who is confined to a local hospital.
