## DEVELOPMENT IN THIS TERRITORY

### Developments in Oil Situation—Steady Progress Being Made—Number of Important Tests

#### The Westbrook-Iatan Section

Oil development seems to have a stamp due to the cessation of a water shortage, several of the companies, including the California Company continue to quietly develop.

The cause of the slow up in operations was the failure of the wells and T. & P. wells to come up on a pump. It is now planned to pump these two wells up to be given a long shut down, operations are resumed on the Smith well, west of Colorado. Fishing tools at 2425 feet is now under-

California Company is drilling test on the Richardson tract, south of Colorado. They are now below 150 feet at the last record.

Edna Brennan test, between Westbrook and Iatan, is now about 100 feet with drilling operations in progress.

They are drilling around 3400 feet on the Murphy No. 1.

The collapsed casing in Coleman No. 1, the Fletcher Petroleum Company, was replaced and they are drilling about 2400 feet.

Magnolia Co. is now making time on their test four miles west of Iatan. They are drilling about 1800 feet. A good gas showing reported last week.

Wood No. 1, northeast of Coahuila, is being drilled by the Fensland Company, is setting casing at 3100 feet at the water.

Stewart No. 1, and the Lucas No. 1 of the Maxwell Company, is held up on account of water shortage. The Foster is also suspending operations on account of a lack of water for boiler use.

### At the Enders-Cushing Test

H. Enders of Boston, president of Cushing Ranch Drilling Association is here to personally direct operations on the Enders-Cushing well No. 1 on the Cushing. It is very optimistic over the outlook for bringing in a producing well.

Enders-Cushing No. 1 has now reached a depth of 4025 feet, the last three feet drilled through being black shale or selenite—and the indications for this well being brought in are indeed good. A continuous time is now being drilled.

It is planned to drill to a depth of 4500 feet in the hope of striking a big gas and if they fail to locate this well it is planned to place a heavy shot on the 3882 foot depth, where the showing was good for a distance of three feet. Large crowds continue to visit the well daily and it will be one of the interesting tests until well is completed.

Sparkman well No. 1 of the Cushing Ranch Drilling Association is being raised at 800 feet to prevent trouble which have been giving them considerable trouble.

Well No. 1 of the Cushing Drilling Association is shut down for casing.

### Garage Sold

H. Hall and J. E. Price this week sold the Tourist Garage from King and will continue to operate garage and repair department. J. E. Price in charge.

They purchased the machinery, supplies and accessories and secured a license on the building.

They, who will manage the garage, is an expert mechanic and a home and there is not a doubt but a big patronage will be secured.

A. Merrick, J. B. Shockley and Smith returned Thursday from a several days' visit at the West and state that large crowds attending and many fine attractions in evidence.

## Williams-Cosby

A wedding of much interest to a wide circle of friends was solemnized at seven o'clock Thursday evening, Sept. 21, at the Baptist parsonage in Lamesa, Texas, when Miss Bernice Williams became the bride of Mr. Jennings (Flint) Cosby. Only the bride's parents and a few intimate friends were present. Rev. Grant, pastor of the First Baptist church of Lamesa, officiated.

The bride was dressed in a blue poriet (twill) dress with accessories to match.

The bride is the accomplished young daughter of Mr. and Mrs. Walter Williams of Soash and is loved and esteemed by all who know her.

The groom is a successful young ranchman of Borden County and is the son of Mrs. M. E. Cosby. Mr. and Mrs. Cosby will make their home on their ranch, south of Lamesa.

Many friends and relatives join in wishing for this young couple all the happiness and prosperity possible as they go thru life.

## Football Game Today

A big football game is scheduled for this afternoon at the ball park at 4:30 o'clock and our citizens should turn out in force to encourage the home team. The game will be between the Odessa boys and the Big Spring High School team.

The Jay Hawks of the Big Spring HI are out for the state championship this year and if given the support and encouragement they are entitled to, they will make a record our folks may well be proud of. The team opened the season at Lamesa last Friday and chalked up a victory by a score of 6 to 0. They expect to repeat today, and their chances will be much better if a big crowd of homefolks are on hand to "root" for them.

Be a booster for your schools, and come out and encourage the High school team by your presence at these athletic contests.

## Restaurant Changes Ownership

Mr. and Mrs. Ledford Baird of Abilene have returned to Big Spring with the intention of making this their permanent home. They are now in charge of the restaurant on Main street, formerly owned and operated by Levi Robinson.

Mr. Baird and Sebastian Merrick purchased this restaurant from Mr. Robinson last week and took charge of same Monday.

The new proprietors are experienced in the restaurant business and have many friends in this city so it is assured that a fine patronage is certain to be enjoyed.

## More Than 3100 Bales Received

Cotton continues to roll into Big Spring at a rapid rate, and this program will continue for the next few weeks if the fine brand of weather we have been enjoying holds on. Never was a season more favorable for gathering cotton and with plenty of help available our cotton raisers are not losing any time in getting cotton out of the fields.

More than 3100 bales has been received at Big Spring up to the present. Cotton is also coming into Coahoma at a fast clip. We have not learned the total receipts at that place.

## Tyler Strikers Adopt Resolutions

Striking shopmen of Tyler, Texas, have given out for publication, the following resolution:

"First that we wish to announce the extension of our vacation for another ninety days, as we feel that our rest or vacation has not yet been prolonged to our own satisfaction and wish to state further that unless our demands have been met in full by this time, we may extend the vacation onto the farm and into the peaceful production of cotton, corn, hogs and peas, and wipe our hands of railroading now and forever.

## Mrs. Gordon Phillips Entertains

Mrs. Gordon Phillips entertained at Bridge Thursday afternoon, honoring Miss Nell Phillips of Dallas. Seven tables of players took part in the interesting games and enjoyed the delicious refreshments.

To Mrs. Bernard Fisher went the honor of making high score of the afternoon. In the cut for second honors, in which all who had won four games participated, Mrs. M. H. Jones was the winner. The occasion was indeed a most pleasurable one for every one present.

G. E. McNew and son, Durah, made a business trip to Lamesa, Thursday. While there, Durah purchased a five-chair barbershop, one of the best in Lamesa, and will leave Saturday morning to take charge of same.

## U. S. RAIL WRIT NOW IN FORCE

### The Drastic Temporary Injunction Order Asked Against the Shop-Craft Leaders Put in Force

Chicago, Sept. 23.—Holding the railway shopmen's strike a conspiracy in restraint of trade, in interference of interstate commerce and carriage of the mails because "where minds meet together on such a purpose a conspiracy exists without even a word being spoken," Judge James H. Wilkerson, in United States District Court, today sustained the Government's plea for a country-wide temporary injunction against striking railroad crafts.

The decision was hailed as one of the most significant for law and order ever read into the records of the judiciary by Attorney General Harry Daugherty and Assistant Attorney General A. A. McLaughlin, who presented the Government's case against the shopmen.

Donald R. Richberg, of counsel for the shopmen, said he would take an appeal at once from the ruling of the court in an effort to have the injunction set aside.

While the decision was interpreted as holding in effect that the strikers were accountable for acts of violence, whether these acts were committed by the strikers or not, its exact form will be argued before Judge Wilkerson next Monday, pending which he continued in effect the present stringing restraining order. The restraining order prohibited the shopmen, and the injunction is expected to prohibit them from:

Interfering with operation, repairs and employment on the roads.

Conspiring to interfere.

Loitering or trespassing on railway property.

Attempting to induce road employees to quit or prevent persons from seeking employment with the roads.

Picketing.

Harming employees or would-be employees or visiting their homes.

Hindering transportation.

Encouraging or directing employees (union members or others) to stop work or others to refrain from seeking work.

Issuing instructions or public statements which might have the above effect.

Using union funds for purposes to be enjoined as above.

## Facts and Claims Differ

The officials of many railroads must be cheerful lars or else they are not familiar with conditions on their own roads for the advertising columns of daily papers have oodles of ads for railroad men; many offering nice bonuses in order to attract men on strike—yet officials claim normal forces of skilled men.

Here is one advertisement that has been appearing in the Globe-Democrat of St. Louis for some time: "Wanted for the Union Pacific R. R.: Machinists, boiler makers, and all crafts-men for permanent positions; new wage rate in effect Sept. 1st, as high as 22 cents per hour above Labor Board set rate. Free transportation. Free board. See agent 612 Walnut, St. Louis."

In this same issue appeared advertisements offering good pay, board and lodging for machinists, boiler makers, coppermiths, blacksmiths, and carmen. There were ads for the following railroads: Union Pacific, Cotton Belt Ry., C. B. & Q. R. R.; M. K. & T. Ry.; Kansas City Southern Ry.; C. R. I. and P. Ry.; Chicago and Eastern Illinois Ry.; Los Angeles & Salt Lake Ry. Co.; and Oregon Short Line of the Union Pacific system; Missouri Pacific Ry.; Frisco Ry.; Colorado & Southern Ry.; Chicago & Alton Ry.; Norfolk and Western Railway Co.; The Wabash Ry.

In other dailies are to be noted similar ads, so it must be that there is some reason to doubt the statement that men on strike are returning to work before a settlement has been made.

## State Insurance Inspectors Here

Three representatives of the State Fire Insurance Commission arrived Tuesday for the purpose of making a survey of Big Spring to determine whether or not our city should have changes made in the present insurance key rate. Though it has been seven years since such inspection was made heretofore, it is not likely that any changes will be made.

The abdication of King Constantine of Greece is announced; and is deserved in view of the great bonhead he pulled in pushing the war on the Turks.

## The Herald's Birthday

The Herald's birthday has rolled around once more and we are now eighteen years of age; and starting out on our nineteenth year.

We will soon be able to claim The Herald is of age, and a natural settler, as it has weathered the periodic unfavorable seasons and is here to stay.

We have no excuse for not being huskier or larger, for we have long since learned that we can only grow and prosper as the country and her people grow and prosper. When good times are in the saddle and our folks are all doing well, we find that The Herald is not forgotten in the business way. Likewise, when our folks are not prosperous The Herald suffers.

We have no kick coming on the treatment that has been accorded this publication. We doubt if any publication in Texas or elsewhere can boast of a better or more loyal circle of true friends. It is in appreciation of this that we ever strive to make The Herald a paper that will be a credit to our city and county, and a welcome visitor in each home; and it shall ever be our aim to keep striving to merit your approval and good will.

## Hodges-Hatch

At the home of Mr. and Mrs. M. D. Stoner, at five o'clock Saturday afternoon, September 23, was solemnized the marriage of John Hodges and Miss Billie Hatch. The wedding ceremony was performed by Rev. Ben Hardy, and was witnessed by Mr. and Mrs. Stoner, Miss Mary Morgan and Harold Hatch, brother of the bride. The young people stole a march on relatives and friends, as only a few were aware of their plans until after the happy couple had started on their honeymoon.

Immediately after the ceremony they left via automobile for Colorado City where they caught the evening passenger train, and left for a visit in Dallas, Waco, and New Orleans.

The bride who is a popular young lady of Waco had been spending the summer here with her sister Mrs. Robt. T. Piner. She also visited here last year and has won a host of warm friends in this city.

The groom is one of our popular and progressive young business men.

We join a large circle of friends in extending to these worthy young people best wishes for a happy journey thru life.

## Electric Light and Power Extension

Residents of the Cole and Strayhorn addition are jubilant over the fact that the West Texas Electric Company have at last decided to hear their plea for the extension of the electric power and light lines to that addition.

This has long been considered an ideal resident section of the city except for the fact that it was unable to boast of electric light and power service.

Some of the residents of that addition certainly deserve praise for the fight they put up to secure this service.

## Two Railroads Face Charges

Following the report of a federal car inspector, Prosecutor Zweifel has filed complaints against the Fort Worth & Denver and the Panhandle & Santa Fe for violation of the defective equipment law.

In one of the complaints filed at Amarillo against the Fort Worth & Denver the coupling chain was disconnected and a handhold was missing. Complaint against the other road, filed at Abilene, was for a disconnected lock lift.

## First Baptist Church Calls Pastor

At the conference held at the First Baptist Church of this city Rev. E. N. Strother of Brownwood was called to be pastor of the church here. He has been attending the Southwestern Seminary at Fort Worth. He is expected to begin upon his work here Sunday October 1st.

Our citizens extend Mr. and Mrs. Strother a cordial welcome to our city. Mrs. Strother is a niece of Mrs. D. W. Christian of this county.

## Some Big Vegetables

Cowpeas nine inches long and beans two feet long were sample of garden products raised by R. E. Carroll and now on display at the office of the Chamber of Commerce. The Gaint bean, which is two feet long and weighs five pounds, is called a gourd by folks not familiar with this new vegetable. This bean is good to eat, having a flavor similar to squash and is especially palatable when fried in batter.

## Profiteers?

New York—Bootleggers make 2500 per cent profit on the sale of champagne here. They make it for \$1.75 a quart and sell it for \$46.

## SALVATION ARMY DRIVE BY LEGION

### A Campaign to-Raise Funds for the Salvation Army Will be Conducted by the A. L. October 16-23

The members of the American Legion will conduct a drive in Big Spring and Howard County, October 16th to 23rd for the purpose of raising funds for the Salvation Army.

Most everyone is aware of the great work the Salvation Army is doing, and know that money donated to the Army is spent where it will do the most good.

No other organization has ever attempted to reach the class of citizens reached by the Salvation Army, and no class is in greater need of assistance. No one sinks too low to be denied a helping hand from this great organization, and they need the hearty cooperation and support of the citizens who are able to give something toward charity.

Pitt Gardner, commander of the William Frank Martin Post of the American Legion, will be in charge of the drive for the Salvation Army and asks the hearty cooperation of every citizen of the county. Most of us are aware that times are not as prosperous as they might be, but most of us know that our people are well off compared to many thousands of unfortunates in our state and most everyone is able to donate a little to this cause.

Mr. Gardner states that he will not attempt to tell anyone how much they should donate—but leave that up to their own conscience—and he will gratefully accept whatever amount you wish to donate.

It would be appreciated if each one would send or bring your donation to Mr. Gardner and eliminate the necessity of making a house to house canvass. You could easily do this; and think of the time and troubles others—who must do the soliciting—would be saved.

It will only require a few minutes to drop by the post office and leave a check or cash with Mr. Gardner. You need not wait until Oct 16-23—do it while the thing is fresh on your mind.

## File Protest Against Earle Mayfield

Austin—Formal protest against certification of Earle B. Mayfield as Democratic candidate for U. S. Senator was filed in writing today by R. B. Creager, chairman of the state Republican executive committee, with Secretary of State S. L. Staples. Protest is lodged in behalf of the state Republican executive committee, the Republican party and George E. B. Paddy.

Creager makes allegation that Mayfield has no legal nomination, for two reasons: Neither party usage nor other precedent and valid laws were observed in securing his selection.

It is alleged the so-called primaries at which Mayfield was nominated and selected were not held and conducted according to the law, "for it is common knowledge that the same were held and conducted by persons purportedly selected by the Democratic party for that purpose and were not held or conducted by the duly appointed and constituted election officers referred to in section 34, acts of the thirty-third legislature.

## Birthday of a Longtime Resident

On Monday September 25th Wm. Fisher was sixty-seven years of age, but by no manner of means that old. Mr. Fisher is still one of the boys, and a live wire when it comes to hoisting and working for Big Spring. He has made his home here the past thirty-eight years, and if he lives to be a hundred and fifty years of age, you can depend upon it that he will be found working for Big Spring, his home town.

Mr. Fisher's host of warm friends wish him many happy returns of his birthday.

## Rebuilding Gin at Knott

The work of rebuilding the cotton gin at Knott, Texas, twenty-two miles northwest of Big Spring, has been started by B. G. Bly, the owner. This gin was destroyed by fire some two weeks ago.

In order to aid Mr. Bly and insure the rebuilding of the gin, many citizens of the Knott community agreed to hauling building material to Knott free of charge and the building is now in course of construction and new machinery has been ordered.

## To Show Registered Cattle at Midland

Among the breeders of Registered cattle who expect to have animals on display at the big Livestock Show to be held at Midland in October are E. T. Cobb of Glasscock County, Hardy Morgan of Dawson County, and I. B. Cagle of Howard County.

## Dodson-Johnson

On the evening of Sept. 12th, at eight o'clock a very pretty wedding was solemnized at the First Baptist church, when Miss Lera Johnson became the bride of Floyd Cummins Dodson. The church was artistically decorated with Queen's Crown and fern, carrying out the color scheme of pink and green. In the center of the altar, which was an embankment of beautiful ferns and palms, stood a large basket of white lilies.

Proceeding the ceremony, Mrs. R. E. Callender sang "At Dawning." She was accompanied by Miss Zelma Fortune who played "To a Wild Rose" by MacDowell, while Rev. Hoffman performed the marriage ceremony. The bridal party entered to Lohengrin's Wedding March. The processional was "The Wedding March" by Mendelssohn.

The bride was gowned in gorgeous white tulle with overdress of exquisite silk lace and girdle of velvet morning glories. She wore a most becoming hat of white malfine-trimmed in morning glories. White-foot-wear completed the costume. She carried a lovely bouquet of rosebuds and sweet peas.

The bride entered with her maid-of-honor, Miss Adele Adams, who wore a beautiful dress of pale pink and gold changeable taffeta. Her head-band and trimmings of the dress were of corresponding gold. The two bride's-maids, Misses Dora Lay and Lorraine Olsen of Austin, were dressed in dainty taffeta frocks of jade and orchid wreaths of silver and gold leaves added to their attractiveness. The three attendants carried bouquets of pink rosebuds.

The flower girls, Marie Hilliard and Edith Lee Johnson, and the ring bearer, Mildred Hilliard, nieces of the bride, were very pretty and dainty in their fluffy white organdy dresses.

The groom entered with the best-man, Mose Knebel of San Antonio. The groom's-men were Dade Johnson, a brother of the bride, and Walter Balbridge of Corpus Christi. Reese Blundell and Howard Kelly served as ushers.

The bride is the youngest daughter of Mr. and Mrs. W. J. Johnson After having been graduated from the Lockhart High School, she attended the University of Texas. She has always taken a prominent part in church activities. Her amiable disposition has won her scores of loyal friends.

The groom is the son of Mr. and Mrs. T. E. Dodson. He is a graduate of the University of Texas. At present he is a very successful geologist at Big Spring. All who know him admire him for his manly character.

Immediately after the ceremony, the bridal party left for Austin where Misses Dora Lay and Lorraine Olsen gave a reception in their honor at the home of Mr. and Mrs. L. Olsen.

Mr. and Mrs. Dodson caught a midnight train for Houston. After their bridal tour they will be at home in Big Spring, Texas.—X. Post-Register, Lockhart, Texas.

## Why Not Swat the Weeds

One of our citizens points out that now would be a fine time to have a weed cutting squad put to work in our city.

On some vacant lots and along some sidewalks, weeds are plentiful enough to provide a hiding place for an army of men; much less a horde of insects and varmints which make life miserable and spread disease and discomfort. Property owners should be required to clear weeds from vacant lots within the city limits and to cut them along the sidewalks.

This is about the time of year our city needs a good general clean up and if you haven't time to do the job there are many men out of work who would be glad to secure a few days' employment.

Let us get rid of the present crop of weeds and improve the appearance of Big Spring.

## Large Cabbage in Exhibit

One article of the exhibit sent to the Abilene and other fairs to represent Howard County was a head of cabbage raised by Mrs. G. G. Knight at her home on West Fourth street. This giant plant measured thirty-six inches across and is certain to attract favorable comment.

Even more remarkable is the fact that such a head of cabbage was raised during a drought; for since planted no rain has fallen in our city with the exception of the heavy shower two weeks ago.

In addition to raising a nice garden Mrs. Knight gives her time and attention to raising flowers and she has been especially successful in this line.

The Seed of Discord Sprouts Says Houston Chronicle

The Ku Klux Klan, declares the Houston Chronicle, has taught every other institution how to divide; why not the Democratic party?

could the anti-Klan force ask? George Peddy was almost made to order for them, and that, too, by the very preachments of the Klan.

What the outcome will be, we do not pretend to know, but it will probably be sufficient to give Texas Democrats, especially Klan Democrats, something to worry about during the next two months.

Charity By The Million The Charity Organization Society of New York has not been slow to make capital out of the recent exposure of the beggar on wheels whose chauffeur's financial troubles led to his exposure as a man who maintained an expensive suite in one of the New York hotels, and who, when the day's work of begging was done, strapped on a pair of aluminum legs, donned his evening clothes, and made merry in the bright lights of Broadway.

Now we are told that beggars in the big city take more than \$36,000,000 a year from careless Gothamites and transient visitors, all of which is highly undesirable. However, it ill behooves the Charity Organization of the city to break into the picture.

The expense of distributing a dollar through the Charity Organization, however, has several times been shown to be preposterously high and its notorious wood yard and laundry still remain a stench in the nostrils of many persons whose memories are acute.

Its secret black list, distributed "confidentially" among those who support the organization also has left none too good a taste in the mouths of the people.

It is now being pointed out that the police should put an end to the begging pest.

It is known there are at least 5,000 beggars in New York not one of whom takes in less than \$15 a day.

If the police do not make a clean up it might not be a bad idea for the courts to sentence some of these loafers to work on the county farms so that they may learn just where an honest living comes from.

Freight Tieup in Southwest Unrelieved Is railway service getting back to normal in the southwest, where practically all lines have refused to join in the peace agreement with the striking shopmen?

Rail officials say it is. But freight congestion continues. Local rail offices get hundreds of calls daily from anxious and impatient shippers. Builders can't get materials. Merchants have trouble getting goods.

Representatives of southwestern roads are still scouring the country in search of experienced help. "Turn-over" in strikebreakers is heavy. Many of them are "boomers," whose service is of short duration.

One local line was compelled to annul eight regular freight trains because of engine failures and the "tagging" of defective equipment by a government inspector Sept. 20.—Fort Worth Press.

 The Texas and Pacific shops are  
 in Big Spring. The whole  
 ought to be deeply concerned  
 what kind of citizens will come  
 to work. Here is where that  
 about which so much has been  
 comes in. Men under assumed

 Every bank, every church, every  
 commercial enterprise, every property  
 in Big Spring is vitally con-  
 that a settlement of the strike  
 the Texas and Pacific should be  
 made, which will place the men to  
 work at once at the positions and the  
 rights they held June 30th.  
 This is the most important matter  
 which has confronted our city in many  
 years. We desire to thank the ladies  
 for their loyal support;  
 for a continuance of the same,  
 until the strike is over.  
 During the war Mr. Lancaster  
 visited Big Spring many times, he  
 every man by his first name, he

 support in buying Liberty bonds  
 that he could say that the Texas and  
 Pacific Ry. had gone over the top.  
 We gave him our full support; our  
 subscribed from fifty dollars to  
 one thousand dollars in bonds, and the  
 T. & P. did go over the top. These are  
 the men that are out on strike  
 today. Many of our citizens came  
 down to the shop with Mr. Lancaster  
 at that time. And we now ask their  
 support at this our time of trouble.  
 We want the people of Big Spring to  
 understand that the strike is not set-

 At Versailles Wilson made an effort  
 which will be written into history as  
 an heroic purpose to bind the Nations  
 of the world to a policy of perpetuat-  
 ing peace. Peace means prosperity.  
 Revolution or war mean want.  
 Harding made his campaign primar-  
 ly on the issue of repudiating the  
 League of Nations. The Republican  
 party could not repudiate the war, so  
 it made an effort to repudiate the out-  
 come of the war. It went back to the  
 declaration of George Washington on  
 entangling alliances and said: The  
 Washington policies, and the Wilson  
 policies are in conflict. We'll stand  
 with George; we're for the United  
 States alone; let the rest of the world  
 wag.  
 Now we are beginning to find out  
 who was more for the United States.  
 In Washington's time we were quite  
 sufficient unto ourselves. Eighty per  
 cent of our people lived directly on  
 the land. The Southern planter and  
 the Northern farmer clothed his family  
 from the wool he sheared, from the  
 cotton he grew, Beef and pork were  
 home-grown and home-cured. So were  
 the cereal foods. The local tanner  
 dressed leather. The local cobbler  
 made shoes for the family and har-  
 nesses for the horses. We used things  
 more than money. We grew and made  
 things we used.  
 Today all this is changed. Only 35  
 per cent of our population now live on  
 the land. Sixty-seven per cent live in  
 towns and cities. We are taking our  
 bulk production and making more re-  
 fined commodities than the home  
 manufacturer could make. The cob-  
 bler is in Massachusetts factories.  
 Cotton is woven into cloth in South  
 Carolina. Beef is cured in Chicago or  
 Texas towns. And the flour is milled  
 in Minneapolis.  
 What is more, we are producing and  
 manufacturing more than we consume.  
 When we do not find a market for that  
 which we produce the market becomes  
 overstocked and prices fall.  
 Because we have not helped to  
 stabilize Europe, the countries over-  
 seas have not found the peace basis  
 on which to build a prosperity that  
 can help us. We are dependent upon  
 European ports as places to sell our  
 surplus. Without a European market,  
 what do the American farmers think  
 they are going to do with their 3,000-  
 000,000 bushels of corn, their 800,000-  
 000 bushels of wheat and all the rest?  
 Since we have decided that Wilson  
 was wrong and we would leave the  
 rest of the world to wag, the price of  
 dairy cows has gone from around \$200  
 down to as low as \$50. Wheat has  
 gone from as high as \$1.25 a bushel  
 down in some instances as low as 25c  
 a bushel. Cotton has fallen off so as  
 to affect every Southern State from  
 Georgia to Texas.  
 What hits the farmer and the  
 planter has the town bank. When  
 the town bank is strained the clear-  
 ing house tightens on credits; bills are  
 hard to collect; doctors find it hard to  
 get their fees; the clergyman is not  
 paid, and the whole financial fabric  
 of society is weakened thread by  
 thread.  
 We are living in a new world. It  
 is not Washington's world. It is a  
 world which Wilson and not Harding  
 saw. Harding is repudiating his own  
 platform pledges. The farmer is find-  
 ing out that the League of Nations was  
 not the idealist's dream, but the in-  
 sistent need of practical business men.  
 It was Wilson who was for the United  
 States. And he who is for the United  
 States will not let the rest of the  
 world wag, for the rest of the world  
 is the port into which our surplus  
 must be sold and from which our sus-  
 tained prosperity must come.—Jack-  
 sonville Journal.  
 T. & P. to Get 8 Pacific Type Engines.  
 Eight Pacific 4-6-2 type passenger  
 locomotives have been ordered by the  
 Texas & Pacific Railway, as part of  
 the new equipment purchase of six-  
 teen locomotives recently placed by  
 J. L. Lancaster, receiver for the Texas  
 & Pacific, with the American Locomo-  
 tive Company, it was announced Sat-  
 urday. The entire lot of equipment  
 will cost approximately \$1,000,000, Mr.  
 Lancaster said.  
 The locomotives ordered will give  
 the Texas & Pacific the very latest  
 thing in motive power, Mr. Lancaster  
 said. The Pacific type engines will be  
 equipped with the Franklin Booster  
 auxiliary engine, superheater loco-  
 motive feed and water-heater system,  
 and superheater; power reverse gear,  
 and every modern locomotive appli-  
 cation, Mr. Lancaster stated. The equip-  
 ment will be received at an early date.

### Are You Wearing a False-Face?

(By J. J. Mundy)

You would get a lot more comfort out of life if you were really as good as many persons think you are.

Sometimes you are ashamed when you hear praise which would be changed to condemnation of yourself if the one praising you but knew the facts.

Why do you not try to be just what those who have the most faith in you think you are?

You are not as good a friend to many persons as you have led them to believe you are.

Do you believe that if it came to a showdown you would be as friendly as chummy, with certain plain folk, if they lost their money or their position, as you would be if they seemed to be in a higher strata of society?

In fact you will admit to yourself that you wish you were rid of certain friends who were intimate in the old days of less prominence (so far as your position in the social world is concerned.)

Those persons were your friends because of what you were, what you represented as a human being, while many of your more recent friends have been drawn to you because you have acquired money or influence.

Whereas our heavenly Father has seen fit in his infinite mercy that our beloved kinsman should depart this life.

Be it resolved that Leonard was a true and devoted son, a loving brother, a faithful and law-abiding citizen and a pure and true kinsman, and be it further resolved that our brother kinsman will not only be missed in his home and office but his presence and wise counsel will be sorely missed in our klunklave when assembled.

Be it further resolved that a copy of these resolutions be spread on the minutes of our klunklave and a copy be sent to the bereaved family.

### Endeavor Surprise Party

Oh we had more fun. Don't you wish you'd been there? I'll bet you do, so I'll tell you about it. That's the next best thing to being there.

The party was given Friday Sept. 22, in honor of Ida Mae (Toppie) Haller who left Saturday morning for Alpine where she will attend the Normal. We met at the home of Marian Purser. From there we marched over to "Toppie's", ten thousand strong and took possession while she was having her trunk checked.

After listening to some few rare pieces played by Charlie on his favorite instrument, the Edison, we decided to fake a ride in an airplane. Some soared among the clouds only to come crashing down to earth the next minute. Quite a few received injuries on the head but none were seriously hurt.

Having exhausted several sources of fun we were each given a box of cracker jack and I know you won't believe me when I say there wasn't one had to be told what to do with it. To be frank with you Charlie and Elmo knew so well what to do that they offered to run a race for the benefit of all spectators. It wasn't quite decided who won, as Charlie spilled most of his on the floor, and Elmo gave most of his away. The prizes were collected in a box and given to Toppie so that she might remember us better when she is wont to forget us.

We each wrote a little message to Toppie on condition that she should not read them until she was on her way.

Everyone present left with the memory of one more good time stamped upon their hearts. Reporter.

### All Aboard For Lamesa

"We've packed all our troubles in our old kit bag," and we're off for Lamesa. And we won't cry when we get there for we're going to make the convention the best that has been held in this district for many a long year. Why don't you come along and help us whether you are an active member of C. E. or the mother or father of an active member, why not put aside the petty troubles and come help us to have most delegates at the convention, not merely to win the prize but to show the rest of the district that our Endeavor is really interested in the work and that the older people are as much interested as we are.

If you haven't thought seriously of going, get right down and tell yourself you're going. If it is impossible for you to attend all three days don't by any means let that keep you back but go the day you can. We want to see every one of you in Lamesa either the 29, 30 or 1. Help yourself by helping your society.

Be sure and come to C. E. Sunday, Oct. 1 at 7:15 p. m. and see what your society is doing. Reporter.

### Declines Offer of W. T. Electric Co.

At a called meeting of the City Council held Saturday night, a majority of the City Council decided against the proposition of the West Texas Electric Company to take over the big engine the city recently bought from the Fairbanks Morse Co. as well as pay for the two engines traded in on the deal and supply electric power to propel the pumps at the city water-works.

Time will tell whether or not this was a wise decision.

## Sensational Cross Country Endurance Test!

Made Recently By the New Nash Six  
178-Mile Trip to Gainesville and  
Return Was Completed in 3  
Hours 4 Minutes Actual  
Running Time, At An  
Average Speed of  
57.6 Miles Per  
Hour

This remarkable run was made over all kinds of roads, including a gravel stretch of 20 miles and detour of 16 miles. Speed checks over the route showed a range of 35 to 75 miles per hour. Many miles of straight-away were averaged at better than 70 miles per hour.

A strictly stock car examined by Mr. H. N. Legg, manager of the Dallas Automobile Club, was used throughout the test. The entire run was driven by Mr. E. J. Negy, wholesale manager of the Nash-McLarty Motor Company. He was accompanied by Deputy A. A. Love, Undersheriff of Dallas County, and a reporter from the Dallas News.

The run was terminated in front of the Nash-McLarty Motor Company, where the car was re-examined and found to be in perfect running condition.

This run was made to prove to the public that the NEW NASH SIX, without an equal, has quality, speed, power, economy and comfort—and harmoniously grouped into a beautiful, finished product.

We are willing to demonstrate to prospective buyers or others interested persons that the NEW NASH SIX, capable of the remarkable performance shown by this test, can be built and retailed at \$1395.00.

### Money Vs. Money

Wall Street Journal declares that Henry Ford can no longer pound Wall Street and the money power, as he is now richer than even Rockefeller and has an income of \$500,000 per day in good business seasons.

The two year old bank of the Brotherhood of Locomotive Engineers, at Cleveland, had assets on Aug. 29, 1922, of \$17,547,402.35 and the brotherhood is going to erect a 21 story bank building.

Behold the incubation of a war on the money power by money power!

Henry Ford is already, single handed, fighting the incumbent money power, with his cheap autos and trucks, his Muscle Shoals project and his novel railroad policies. That Cleveland bank's assets are a mere dew drop compared to the flood that would eventually follow the assessment of \$1 per month, say, upon every member of labor organizations. There is nothing, from coal mines to congresses and courts, that concentrated labor organization dollars could not control. Already the brainiest among the union men are figuring that it is cheaper to own banks, mines and even railroads than to conduct strikes or boycotts in which the wage-earner always stands the bulk of the losses.

"God's next adventure" may not be "the Christianization of industry," as an eastern economist recently put it. It may be the capitalization of union wages, instead, and the aggression of the money power now in the saddle will be one of the things to bring this about. Labor rejects revolution by force. It seems unable to unite in politics. There will be a mighty "adventure", when it fully realizes the possible profits and advantages in concentration of its own capital.—Fort Worth Press.

### Notice of Election

#### THE STATE OF TEXAS,

#### County of Howard,

Whereas, on the 13th day of September A. D. 1922, the same being at a regular term of the Commissioners' Court of Howard County, Texas, a petition in writing, signed by more than fifty Freeholders residing in Howard County, Texas, praying that an election be ordered to be held in Howard County, Texas, to determine whether hogs, sheep, and goats shall be permitted to run at large in Howard County, Texas, was presented to said court;

And whereas, on said date the Commissioners' Court of said County granted the request as prayed for in said petition and ordered said election to be held in each and every voting precinct in Howard County, Texas, on the 28th day of October A. D. 1922.

Therefore, I, James T. Brooks, in my capacity as County Judge of Howard County, Texas, do hereby order that an election be held at the usual voting places in the several election precincts in Howard County, Texas, on the 28th day of October A. D. 1922, to determine whether hogs, sheep, and goats shall be permitted to run at large in Howard County, Texas.

All persons who are Freeholders in Howard County, Texas, and are qualified voters, under the constitution and laws in Howard County, Texas, may vote at said election; and all voters who desire to prevent hogs, sheep and goats from running at large in said county shall place upon their ballots the words:

"For the Stock Law," and those in favor of allowing hogs, sheep and goats running at large in said county shall place upon their ballots the words:

"Against the Stock Law."

The Election officers heretofore appointed by the Commissioners' Court of Howard County, Texas, as presiding officers of the several voting precincts in said County are hereby appointed as managers in their respective precincts to hold said election and each of them shall elect two Judges and two Clerks, who are Freeholders and qualified voters in said county, to assist him in holding said election.

The Sheriff of Howard County, Texas, is hereby directed and ordered to give public notice hereof by causing this notice to be published in the Big Spring Herald, a weekly newspaper published in Howard County, Texas, for at least thirty days before the day of the election.

Given under my hand and seal of office at Big Spring, Texas, this 13th day of September A. D. 1922.  
JAMES T. BROOKS,  
County Judge, Howard County, Texas. (Seal.) 1-41

### Notice in Probate

THE STATE OF TEXAS  
To the Sheriff or any Constable of Howard County—Greeting:

You are hereby commanded to see to be published once each week for a period of ten days before the day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year said Howard County, a copy of the following notice:

#### THE STATE OF TEXAS

To all persons interested in the estate of C. O. Jenkins, deceased, Jenkins has filed an application in County Court of Howard County, Texas, the 21st day of September 1922, for probate of the Last Will and Testament of C. O. Jenkins, deceased, and for Letters Testamentary to be issued to her, which said application was heard by said Court on the 2nd day of October 1922, at the Court House in Big Spring, Texas, which time all persons interested in said estate are required to appear and answer said application, should they desire to do so.

Herein fail not, but have you been said Court, on the first day of the term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at Big Spring, Texas, this 21st day of September 1922.

(Seal) J. I. PRICHARD,  
County Clerk, Howard County, Texas.

**Baptist Notes**

Promotion exercises and a State Mission Day programme occupied the morning until 11:30 last Sunday. The church then went into conference to consider the question of calling a pastor. As the result a call was extended to Rev. Strother of Waco. Word has been received that he accepts the call and will be here the last of this week to take up the work. So we are glad to announce for next Sunday, preaching by the pastor at 11 a. m. and at 7:45 p. m. Sunday school at 9:45 a. m. and we hope to have a full attendance at all of these services.

The W. M. U. held their September Missionary meeting last Monday afternoon at the home of Mrs. D. E. Daniel. Mrs. F. W. Beetle was leader with "State Missions" as her subject. The roll call of states was responded to by ladies giving missionary news from each of the nineteen states in the Southern Baptist Convention. This gave us a much appreciated view of what is being accomplished in the different states and inspired us to greater efforts.

A reading by little Miss Margaret Beetle was very much enjoyed, and showed her marked ability in this line. A report of the annual W. M. U. meeting held recently at Stanton was given, and an interesting discussion of some of the associational work followed.

A letter from Miss Lucile Reagan, our missionary to Africa, gave us a glimpse of her life in her faraway new home, and we were glad indeed to hear from her. We miss her, but are glad to know that she is well and happy and is progressing in her study of the language and of the people.

Gold seals were awarded to some of the ladies who have completed the study and taken the examination on "The Lure of Africa." Others are to be awarded later. Thus far six have taken the examination, and the study has been a great pleasure to all.

Elegant refreshments were served by Mesdames Daniel, Brown and Lewis, and immediately after this seemed an opportune time for Mrs. Stokes to present her plan for the ladies to feed the inmates of Buckner Orphan's Home one day. Food for them for one day costs \$365.00, and all entered with a lively zest into the plans, for raising the amount. The president announced again that on next Monday a box for Buckner Orphan's Home is to be packed at the church, and asked that all be on hand with generous offerings for it. This opportunity is not to our church members alone, Buckner Orphan's Home is an institution well known to our citizens in general and many have frequently responded cheerfully to its calls in behalf of the orphans being cared for and trained there. Their need just now is great. We will gladly call for your packages if you will phone Mrs. Stokes or Mrs. Beckett.

On Tuesday evening the officers and teachers in the Sunday school were called together in the interest of the S. S. work, at the home of Mrs. Gary. Plans were made for observing Rally Day on Sunday after next—Oct. 8th. After the business session delicate refreshments were served by Mrs. Gary, assisted by her daughter, Mrs. Etheridge.

**Methodist Notes**

Four hundred and eighteen were present at S. S. last Sunday, to hear the story of Ruth, which was all the Supt. had promised, and more. "Abide with We," was softly played through the entire story by Miss Ruth Johnson, our pianist, and Miss Ricker never sang better than during her special on "Ruth's Entreaty." We are to have "The Prodigal Son" in a short time from now.

Last Thursday the Susanna Wesley class had a splendid meeting at the home of Mrs. Bun, former president of the class, on whom the Supt. laid violent hands and forced to take a primary class to teach. But her interest is keen in both. Games of many sorts engaged the attention of those present, and at the close, delicious refreshments were served.

On Monday the W. M. Auxiliary met in social session at the "Y," a large number present. A most interesting program was given, and everyone had excellent time. Quite a number paid dues and pledge.

On Sunday night our presiding elder was present to preach for us, and attended the Senior League, which had a special program on Mexico. The League is doing a thriving business, and its sessions are well attended.

On Monday at three the Auxiliary will meet at the church for a business meeting. Let all who possibly can be present. The Bible drill will be the book of Isaiah and Song of Solomon. Be on time. Next week the Press Reporter will give the two reports from the S. S. and W. M. Auxiliary that was turned in at the quarterly meeting. Be sure to see them.

**Miss Sibley Given Purse**

Southbridge, Sept. 12.—Miss Marion Sibley, employed in the transcribing department at the plant of the American Optical Co., who has resigned her position and will leave Southbridge for Texas Friday, was given a farewell surprise party at Optic hall on Mechanic street tonight by about 40 fellow members of the Optic Girl's club, of which she is the vice president. During the evening she was presented a purse of gold. The evening was passed with vocal and instrumental music, games and dancing. Miss Sibley, will sail from New York for Galveston, Texas where she will be met by relatives and will travel by automobile to her destination at Big Spring.

Although totally blind, Miss Sibley has always been considered one of the speediest and most accurate typists in the company's transcribing department. She lost her sight through an accident in early childhood and received practically all of her education at the Perkins Institute.

She has always been active in the social activities of the club. She is a member of the Grange and has contributed repeatedly to the various programs of the organization and has been a member of the choir of the Methodist Episcopal church. Miss Sibley has accepted a position as typist for the Chase Oil Association, Inc., at Big Spring, Texas.—Worcester Mass., Telegram

**Cotton and Cottonseed Prices**

As compared with last Saturday, Monday's cotton market showed declines of around 25 points in the State, with New Orleans unchanged and New York off from 26 to 40 points. As compared with a year ago, Monday's prices in Texas markets this year lead last year's by from 60 to 80 points. The Tuesday's market appeared practically unchanged from Monday's with the exception of a decline of 15 points Houston spot market was 20.40; Galveston and New Orleans 20.50 and Dallas 19.90. The New York spot market for this day was 21.00.

Cottonseed: The general trend of cottonseed markets of the State the past week was upward, farmers receiving at the gin from \$24 to \$29 a ton. At Troy, Saturday farmers received \$28 a ton for seed which on an f. o. b. basis was quoted out at \$31. Cleburne was reported between \$28.50 and \$31.50 with Sherman, Weathersord, Wichita Falls, Texarkana and Tyler around \$24. Corpus Christi all week was practically steady around \$28 to farmers with oil mills paying for the same seed \$31 toward the close of the week.

**Resolutions of Respect**

Whereas the Ruler of the Universe has called from this earth our beloved friend and brother, Leonard Fisher, aged 25 years, seven months and 25 days, son of Mr. and Mrs. W. W. Fisher; Mullin Lodge No 327, I. O. O. F. has lost a highly esteemed and faithful member.

Whereas the death of this worthy young man has broken the family circle, and brought deep sorrow to those who loved him; we bow in humble submission to the Divine Will, for it has been written that He does all things for the best; though it is difficult for us to give up our loved ones or understand why the Master should call them before they have lived the allotted span.

Therefore be it resolved that we tender to the father and mother and sisters who mourn for a noble and upright son and a dearly beloved brother, our deepest sympathy and may the Heavenly Father comfort and sustain them in their time of deepest trial; and be their constant guide until they meet their loved one in that Home on High.

Be it further resolved that a copy of these resolutions be spread on the minutes of the lodge; a copy sent to the family and one sent to the "Big Spring Herald" for publication.

Our Sunday school is increasing steadily. Come out and help us go over the hundred mark. We have a class for every age, and are willing to organize more if necessary.

The Senior Endeavor is the pride of the church. Twenty-five to thirty of these young people are at work, and they make things hum. They are always in the homes of members in distress, either with kind words and deeds or beautiful flowers.

Watch them grow, and encourage them in this splendid work.

Mrs. Leslie Thomas entertained her friends with Rook on Wednesday afternoon of last week. Mrs. Riley Purser scoring high. At the close of the games a dainty salad course followed by an ice course was served.

**Farming Land For Sale**

2500 acres fine agricultural land in Dawson County, Texas, is to be placed on the market. The land is all tillable and close to good school and church. Will sell in any size tracts from 100 acres up. Price \$20 to \$30 bonus \$2 due the State.

No cash is needed if you have property elsewhere as I will accept deed of trust on real estate or other property as first payment; and you can pay balance in nine equal annual instalments. This is some of the finest farming land in Texas and it will pay you to investigate if you want to own a home in the West. Come, write or wire.

I also own 8,000 acres in Gaines County which I will sell on the same terms, but at a lower price. Address all inquiries to A. L. WASSON, Big Spring, Texas.—Advertisement.

**Father of Local Man is Pleased With Lubbock**

Mr. and Mrs. B. C. Rix, of Big Spring, are here visiting their son, Jed Rix, of the Rix Furniture and Undertaking Company.

Mr. Rix had not been in Lubbock for more than a year, and said he was delighted to see such wonderful growth made in the business district here. Those new bricks along Broadway, he declares, are a credit to the town, and he is hopeful that before many months have passed that street will be the location of many more such structures.

While Mr. Rix is a little past middle age, he still claims to be just as active as any of his boys, and after talking with him for a while we learn that a great deal of the alertness of our young townsman is hereditary.—Lubbock Avalanche.

THE UNIVERSAL TRACTOR

## Buy Your Fordson NOW

At this amazingly low price you can't afford to wait another day for your Fordson Tractor.

There is no tractor made that can approach the money value of the Fordson. Nor is there a tractor made that can do more work for you.

Remember, the very day your Fordson arrives, it is ready for any one of the 101 jobs it can do—either as a tractor or a stationary power plant.

The Fordson has proved to the 170,000 owners that it has not only cut the cost of field work 30% to 50%, but that it has made substantial savings on every job to which it is put.

Fordson figures are interesting—money-savers, labor-saving, drudgery-saving facts you ought to know. Come in, phone or write today.

### Another War Threatens

Humanity is facing another world war. WHY?

Instead of attempting to give an answer to that all-important question the newspapers fill their columns with shocking stories of "atrocities"—cities looted, children butchered, women outraged. But you can't have war without atrocities any more than you can have pneumonia without fever.

The rulers of the world—the kings, the politicians, the bankers, the diplomats—like to have the press devote itself to atrocities at a time like this in the hope that the people will be so horrified by the gruesome tales that they will forget to ask embarrassing questions.

What's back of this row in the vicinity of the Dardanelles? What's the issue between the Greeks and the Turks and between the Turks and the Allies—Great Britain, France, and Italy?

It's a long tale, but it can be boiled down to a few paragraphs.

The primary cause is the struggle between the financiers of Great Britain, France, and Italy for control of the tremendous natural resources in the territory formerly governed by the Sultan.

The three nations named agreed on a division of the spoils when they signed the Treaty of Sevres, after the Great War, but the bankers of France and Italy complained that their diplomats had been out generated by the Britishers, and they attempted by devious methods to force a new deal.

The Turkish Nationalists were encouraged to fight the Greeks and to defy the British with the understanding that if they won the French and Italian bankers would get the concessions they wanted. The Greeks were urged on by the British because their success meant protection of British "interests."

The munition makers of Europe and America reaped a harvest. They impartially supplied Christians and Moslems with the engines of death.

The Greek defeat has become a rout. The Turkish Nationalists, intoxicated by their success, are pressing on Constantinople. The British are digging in. France, alarmed, pleads for peace. The Soviets may place millions of Slavs back of the Turks. The world is facing an appalling crisis.

And all because international bankers could not agree upon a division of concessions and because civilization tolerates the munition makers' damnable trade.

The thing may be patched up. Probably the youth of the world will not be sent to the trenches tomorrow, but they will go eventually unless men and women everywhere seriously address themselves to the task of destroying the causes of war—Labor.

### The Newspapers

"High trees meet the most wind," says an ancient proverb.

Some of the newspapers of this country have succeeded in arousing the ire of Attorney General Daugherty to such a pitch that he allows himself to indulge in left-handed denunciations of the press as sweeping as his Chicago injunction.

Said Senator Robinson of Arkansas in the course of a speech in the Senate: "The attorney general is quoted as saying that the decent newspapers of the United States support his action, the inference being that newspapers edited by men who have the courage, in the face of unpopularity, to stand for the constitution of the United States and the principles of human freedom are indecent."

"No newspaper that I have read has denied in an editorial, but on the contrary by implication the editorials have admitted that the injunction goes too far."

"The attorney general by implicitly branding papers which in this controversy have spoken for justice and right and liberty and in the name of humanity, cannot destroy their reputation for honesty and fairness nor can he give to them a reputation of indecency."

Newspapers aimed at—but not hit—by the attorney general of course needed no defender for having spoken "for justice and right and liberty," nevertheless they may accept with acknowledgements the bouquet offered so spontaneously by the senator from Arkansas.—Fort Worth Press.

### WOMEN GIVE OUT

Housework is hard enough when healthy. Every Big Spring woman who is having backache, blue and nervous spells, dizzy headaches and kidney or bladder troubles, should be glad to heed this Big Spring experience:

Mrs. J. B. Sloan, 200 Austin St., says: "Quite a while ago kidney trouble came on me all of a sudden. I had sharp pains in my back over my kidneys which were so bad sometimes I could hardly catch my breath. Nights it hurt me so I would roll from side to side and was very restless. My kidneys acted irregularly. I felt all worn out. I started using Doan's Kidney Pills and am glad to say they gave me immediate relief."

### Well Known Banker-Ranchman Dead

J. L. Jones, aged 73 years, well known banker, merchant and ranchman of Stamford, Texas, was found dead in the bathroom at his home last Sunday with a pistol lying beside him. He had been in ill health for several months.

In addition to owning a number of oil mills he was interested in banks and ranches. He owns the old Scott Green ranch in the northwest part of this county.

Deceased was the brother-in-law of Mrs. E. H. Happel of this city and the step-father of Robert and J. W. Middleton of this city. Mrs. Happel, Mr. and Mrs. Robert Middleton and J. W. Middleton left Sunday night for Stamford in response to the message announcing the death of Mr. Jones.

He is survived by his wife and six children. L. W. Jones of Westlaco; Chester L. Jones of Colorado; Oscar L. Jones of Stamford; Mrs. W. L. Hillis Jr. of Rule; Mrs. Nell Graft of Dallas and Miss Thelma Jones of Stamford.

Funeral services were held at Haskell, Texas, Sunday afternoon.

We join many friends in extending condolence to the bereaved in their time of deep sorrow.

### Salt Gusher in Mitchell County

Badgett well No. 1 of the Mitchell County Oil Corporation, located fifteen miles northwest of Colorado, which blew in a salt gusher Sunday afternoon continues to provide many thousand barrels of strong salt solution every twenty-four hours. The solution is shooting forty feet above the crown block. Roaring of the well is plainly heard more than a mile away. The gusher may be seen for a distance of six miles.

Fifteen acres of land on the Badgett farm surrounding the well is literally covered with a layer of salt. Oil men claim the well is a puzzle as there is no other well similar to this on record.

All vegetation and the ground around the well are covered with salt crystals, making it appear as though a big snow storm had visited that immediate vicinity.

Many folks are visiting this freak well.

W. W. Rix attended the West Texas Fair at Abilene Tuesday. Mr. Rix states that Abilene people certainly have reason to be proud of the fine attractions they have provided for the Fair this year.

Local weather prognosticators are predicting plenty of rain here during the month of October. They base their forecasts on the fact that many dry creeks and lakes are now producing water—an unfailing sign in drouthy times that big rains are to make their appearance soon thereafter.

In the little town of Hawley in Jones County the Chamber of Commerce has ninety active and progressive members. There are but five business houses and the voters number 127. The citizenship of Hawley are more nearly one hundred per cent for their community than in any other place we ever heard of.

Mrs. W. W. Rix Entertains Bridge Club  
Mrs. W. W. Rix delightfully entertained the members of the Bridge Club and a few visitors Wednesday afternoon; the occasion proving one of much enjoyment for the seven tables of players.

In the keenly contested games Mrs. Bernard Fisher made club high score while Mrs. R. L. Davis made victors' high score.

The delicious refreshments served added to the pleasures of the occasion.

**Y. M. C. A. Auxiliary Party Postponed**  
On account of other social affairs the party announced by the Auxiliary of the YMCA for Friday, of this week, has been postponed until the regular meeting time, which is the second Tuesday afternoon in October, when we hope to have a large attendance, as this organization is planning a number of things which will be very helpful to our young people. **Wasting Good Money**

It's pretty hard to convince a merchant that he had better drop his money down in the well than pass it over to a fly-by-night advertising solicitor, the smooth guy who drops in with a publicity scheme that isn't worth a minute of time or a cent of money. It takes some people a good while to learn that the money spent in a newspaper would infinitely bring better returns.

This country is filled to the brim with smooth young men who do nothing but think up publicity schemes. Once they have framed a catchy one they beat it to the smaller towns to "unload" on the merchant who believes that any kind of advertising is good advertising, and who thinks that novelties and time cards, and stock booklets with his name upon them are actually business getters. These young men don't ply their trade so much in the large cities, because there is usually a commercial club or a board of trade ruling against just the sort of thing they seek to dispose of. But in towns where every merchant has to think out his own plan of advertising, and where he hasn't tried to understand the inside workings of these fly-by-night schemes, the waste of good money goes right on. And the funniest part of it is that the merchant who bites actually pays cash in advance and takes the smooth young stranger's word for it that he is going to get more than his money's worth.

We are strong for every kind of advertising that will pay the man who advertises, but we detest fakes. That is why we spend a good deal of time regretting that some merchants can't see what successful merchants long ago learned—that of all forms of advertising known to man—nothing has yet been found as good as space in the home paper.—The Minden (Neb.) Courier.

**Country Newspaper Ethics**

"Sometimes we are criticized for withholding unpleasant facts from the paper, and it may be a shortsighted policy to pursue. But there are other hearts to consider and we are always willing to forego a real scoop for the satisfaction of treating a fellow-creature as we would have him treat us."

Thus remarks Austin Callan in the Del Rio News.

Mr. Callan speaks further: "A man may commit some very grave offense. His conduct might be such that he does not deserve any consideration, and what a juicy, fat story the wreck of his honor makes for a newspaper. People love to read of such misfortunes, too. We all start the day with the recitals of crime and distress. But somewhere there are eyes that see each story of that kind through scalding tears; there are hearts that almost break as they read the ugly charges. And, when it is not altogether inconsistent, might we not have a care for such unfortunates?"

"We had rather suppress a piece of news that shoots a dart into the heart of a sorrowing wife or mother, than to print a damaging innuendo under the disguise of keeping our readers informed of 'carrying on' in the great battle for moral uplift."

"Our mission is to help not to hurt. We harbor no hatred and herald no harsh intimations against human creatures. When we fight it is in support of a principle and against some founded clan that seeks to usurp governmental powers and to tear down the guarantees of the United States Constitution. This we consider our duty, because it involves the welfare of the republic. But such a duty stands above little veiled personal attacks that are not only cowardly but odious to real men."

**Resolutions of Respect**

In memory of our departed brother, C. O. Jenkins, who died September 16th, 1922.

Once again a brother Mason having completed the design written for him on life's Trestle Board has passed through the portals of eternity and entered the Grand Lodge of the New Jerusalem; and hath received as his reward the white stone with the new name written thereon.

And whereas, the all wise and merciful Master of the Universe has called from labor to refreshment, our beloved and respected brother, he having been a true and faithful member of our beloved order, therefore be it:

Resolved, that Coahoma Lodge No. 992 A. F. & A. M. of Coahoma, Texas, in testimony of her loss, drape its charter in mourning for thirty days; and that we tender to the family of our deceased brother our sincere condolence in their deep affliction. And also that a copy of these resolutions be sent to the family.

**What You Need to Know About Vitamines**

Most interesting experiments in nutrition have brought to us a knowledge of what the vitamines does for the body and in what foods it may be found.

For want of a better way of indicating the three vitamines thus far discovered, they are called fat soluble A, water soluble B, and water soluble C.

A and B are the important growth promoters and are found in many of the same foods.

A is called the anti-rachitic vitamine or the preventer of rickets. It is also a specific in certain eye diseases.

B is the anti-neuritic vitamine, and the lack of it in the diet causes terrible scourges of beri in some parts of the world.

C is the anti-scorbutic or the preventer of scurvy.

Fortunately these vitamines are found in our common foods. Milk contains all three of them and is particularly high in the growth promoters A and B.

It is in the cream of milk that A, the fat soluble, is found, and butter, eggs, the glandular organs of animals (liver, kidneys, etc.) furnish rich sources.

Spinach, turnip greens, cabbage, collards, lettuce, string beans, okra, asparagus, and other leafy and succulent vegetables contain vitamine A.

When one realizes that in addition to the easily assimilated fat and sugar which milk contains, it supplies vitamines for growth, lime and phosphorus for bones and teeth, and furnishes just about the highest quality protein or body-builder in existence, one is in full sympathy with the nutrition specialists who are urging "one pint of milk per day for adults and one quart for children."—Mrs. Jane S. McKimmon, State Home Demonstration Agent, in The Progressive Farmer.

#### What Schools Have Done

By John J. Tigert.

U. S. Commissioner of Education

America has made no more noble contribution to civilization than public education. Our school system is "Made in America."

The child of any resident in the Union may pass through the kindergarten to the university, with proper study and the observance of reasonable rules of conduct. The cost is borne by taxation.

So great is the prestige of American education that no important general educational reorganization has taken place during the last generation in any part of the world which did not show the influence of American ideas.

America spends more money for education than for any other purpose, and the expenditures for schools are greater per capita than those of any other nation.

As compared with children of other countries the American pupil's personality is carefully respected. The air of humility often found in European schools has no place in America. Education here aims at the acquisition of knowledge no more than at the development of character and of independence of thought and action.

Notwithstanding our greater expenditures we are still far behind some of the European countries in essential respects. Even in the cities, where educational conditions are most favorable, there is too much illiteracy. The average for the entire country, six illiterates in every hundred persons over 10 years of age, is distressingly high. It is evident that large numbers of Americans do not avail themselves of the advantages offered them, and that the compulsory attendance laws are not sufficiently effective.

Also, we have not yet attained that equality of opportunity for all children which is the first article in America's educational creed. Some of the schools in the sparsely settled districts are still deficient as regards length of term, character of equipment, and qualification of teachers.

We have done much, but there is still much more to be done.

#### No Magic Gold Finder

There is no instrument that you can use to discover gold supposed to have been buried in an iron pot or steel safety box, writes the Director of the United States Geological Survey to a correspondent. Iron ore beds extending over large areas have been prospected for with success by means of the so called "dip needle," but this instrument would not indicate the presence of a single pot or vessel in a particular spot. Neither is there any instrument that would indicate the presence of gold and silver or their ores. Iron attracts the "needle," but gold and silver, however attractive to man, are not magnetic.

#### Germany With The War Ended

By Edward Percy Howard

(Antioch—New York Bureau)

We have just passed the eighth anniversary of the outbreak of the world war.

And what results? A few new nations in place of older nations, new nations destined to bloodshed and suffering to maintain and develop their entity, old nations embittered to battle for their reincarnation.

Of Germany a review indicates a bankrupt nation, but one getting back on its feet. Financial ruin has little meaning. So long as the world will accept German paper money at some price, so long will the printing presses turn it out.

It is difficult to get a proper perspective of Germany. Henri Lichtenberger, professor of the University of Paris, in a twelve day visit to Berlin a few weeks ago, dug out some very interesting facts.

Lichtenberger points out that the German National party has succeeded the old Conservative party. This includes the aristocrats, the proprietors of large estates and high officials of the old regime. The officials who have lost their positions and who are living from hand to mouth supply the party with force, are always ready for action, are energetic, eager for battle and even anxious for a fight.

The university people, both faculty and students, fed on the traditions of a policy of force, feel keenly the humiliation of defeat, and have ranged themselves solidly behind the idea of a restoration of the German military power. The peasants form the mass of the party.

The leaders have capitalized certain elemental mental conditions for the purpose of building strength and organization. They exploit the bitterness of the former privileged classes, they play upon the resentment of the disbanded army, they wave the fear flag of Bolshevism, and excite the anti-Semitic passion and the profound misery caused by the attitude of France toward the conquered. Hence they have linked to a common cause the fanatics, the discontented, and the lovers of militarism.

The German newspapers, particularly the Deutsche Tageszeitung, aid in driving the masses to despair. They infuse them with the conviction that they have nothing more to lose, no matter what happens.

Even before the blood has coagulated in the German wounds, there has been established an almost universal determination to reconquer the lost provinces, particularly upper Silesia and even Alsace-Lorraine. The old German Imperialism is far from dead.

As against this attitude of the National party there battle the Democratic Socialists and idealists who want to purge the country of revenge, and who dream of a lasting peace in which the nations shall lie down together, the lions becoming lambs. Plus this is found the People's party, composed of many captains of industry, bold and resolute men who have financed Germany in the war and since the war, men who are making huge profits from the revival of industry and who are doing the best they can to conceal every dollar they make. While the Nationalists would be happy with revenge, the People's group would be content with revenue.

Briefly the public mind is kept in a responsive condition by wise German economists, ready to be excited in whatever direction may be most useful. It must and will be moulded to suit the emergency of the hour, and that it will respond there can be no doubt. The lion and the lamb may lay down together, but sooner or later there can be only one answer—more graves, more suffering, more treachery, and more sacrifice, thinks Lichtenberger.

There is no hurry about this thing, of course. A renewal of physical war is not probable in some time. The first phase of a struggle usually is political and economic.

There are a great many things wrong with the world, and a lot of clever people are having the time on their lives telling you so. But in the course of two or three thousand years the world has achieved some big things and we ought to go mighty slow about scrapping them. The idea of everything which Americans thought worth while twenty years ago is rotten to the core may prove to be more of a fad than of a permanent state of mind. It is worth while for some men to stand on guard and make the people who want to "sell" us their ready-made millenniums prove that what they offer is better than what we've got.—The Weekly Review.

#### Quits Municipal Ownership

Emporia, Kansas, famous as the home of William Allen White and the Emporia Gazette, has joined the ranks of cities that have given up the municipal ownership idea. The Emporia Light & Power plant has been sold to a private company, and the money will be used to reduce the tax levy.
