

The Big Spring Herald

XX NO. 40

Big Spring, Texas, Friday, June 20, 1924

By Jordan & Hayden

DEVELOPMENT IN THIS SECTION

Remains About the Well With New Wells Coming Most Every Day in W. T.

To Test Brunson Well

Brunson, owner of the Brunson ranch in Midland County, is the forepart of the week from Fort Worth where he is to secure casing for the test well No. 1, located 10 miles southwest of Big Spring.

Brunson states that the favorable showing encountered in this well caused everyone interested to believe that a commercial well is going to be secured.

Information in which the oil was found will be tested out soon as the casing is set.

Oil News

Work of "mudding" off the Durham well No. 1, is now under way, the hole cleaned and the pump, which is scheduled to start not later than next week, is being rapidly put in operation.

Whether or not the water off cannot be ascertained until the pump is in operation.

Derrick and machinery for well No. 2, 330 feet south of No. 1, is being rapidly put in and it is expected that this well will be completed in a few days.

Knowing the log of the well, it will be an easy matter to control the water in the well.

Stirling City News-Record

Stirling City News-Record

Work of the Big Lake Oil Company was completed for only 26 barrels, and after being drilled 26 feet, did something the wells never did—flowed 45 barrels and has been flowing by ever since. It is believed that so far, is the best well in the district.

Drilling at 2778, has been completed and is now standard. These two wells should be completed by Tuesday of next week, according to Frank T. Pickrell, vice president of the Big Lake Oil Co.

Well No. 3 is making slightly over 60 barrels.

It has been flowing continuously since the derrick burned, however, the derrick has been built.

Drilling in salt at 1400 feet in group No. 1 is fishing at 1400 feet.

Drilling in salt at 1400 feet in group No. 2 in this group is fishing at 1400 feet.

Smith, president of the Big Spring Oil Company, has been in the city returned to Fort Worth, expected to return here by the week at which time he is to make an announcement of much interest to the drilling of additional wells by the Big Lake Oil Co.

It is understood that the Texon and Company will start two wells in the near future.

Well No. 4 is drilling below 3200 feet.

Drilling is shut down awaiting completion at 3200 feet.

Drilling-Smith well in Crockett County is shut down at 3400 feet and probably be deepened.

William H. Dunning well on the Lake News.

Reply to Speak June 23rd.

Tarpley, president of the Labor Conference will be in the courthouse in Big Spring Monday night, June 23rd.

It is in the interest of the candidates for state office that he will be his mission to correct the misstatements that have been spreading to confuse the voters.

Reply is an entertaining and has a message for the Howard County.

It is cordially invited to the ladies being extended a cordial invitation.

Address the citizens of Howard County at 8 o'clock Tuesday night.

Mrs. Susan Phillips Dead

Many hearts in our section were saddened last Tuesday morning to learn of the death of Mrs. Susan Phillips, which occurred June 17th at 12:20 a. m. at the home of her daughter, Mrs. G. W. Overton, 10 miles south of Big Spring.

Mrs. Phillips was born in Ohio, in 1835, and in twenty days more she would have reached the age of eighty-five years. She is one of the pioneer settlers of our county, having lived in our section almost fifty years, and during that time no woman's influence was ever more keenly felt. She was first of all of strong christian faith, having been a member of the Baptist Church for seventy-five years. At the time of her death she was a member of the Baptist Church at Elbow.

Mrs. Phillips had a big heart and she was ever ready to help those in need. She was sympathetic and had a broad understanding of human nature. Her character is not marred with a single unjust act, but is marked with deeds of kindness and of self-sacrifice.

Mrs. Phillips was a widow for twelve years. She is survived by six children, Hart Phillips, John J. Phillips and Mrs. G. W. Overton of this county; Jesse T. Phillips of Gorman, Texas; Mrs. S. Gilbreath of Dublin; Norville Phillips, and twenty-four grandchildren and thirty great-grandchildren.

Funeral services were conducted at the home of G. W. Overton Tuesday afternoon at 3:30 o'clock, and interment was made in Mt. Olive cemetery. A large concourse of bereaved friends accompanied the remains to the graveside.

Ingram-Davidson

Last Sunday evening at Midland, Texas, the ceremony was performed which united in marriage Miss Doris Davidson and Emmitt Ingram. The marriage of this young couple was indeed a surprise to their many friends since their intentions were kept a secret until after the ceremony.

Miss Davidson is the daughter of Mr. and Mrs. J. A. Davidson of this city, and is a sweet and lovable girl. She is admired for her many charming traits of character and will be a true helpmate to the man she has chosen as her life partner.

Mr. Ingram was heard in Midland, but is now traveling for a Stereopticon company, with headquarters in El Paso, where they will make their home.

This happy couple have the congratulations and best wishes of their many friends here.

T. W. (Whit) Davidson Coming

T. W. (Whit) Davidson of Marshall will be in Big Spring Thursday, June 26th and will deliver an address to the citizens of Howard County on that date in the interest of his candidacy for governor.

Mr. Davidson has an interesting message to the citizenship of Howard County. He wants to tell his side of the story. You have heard a number of candid statements from him, and you are now asked to hear Mr. Davidson.

Chicken Barbecue

One of the most delightful outings featured this season was the big chicken barbecue given by the members of the Big Spring Shrine Club and their families, at the City Park, Wednesday evening. Between eighty and ninety persons enjoyed this splendid feast which was served picnic style. Besides the bountiful supply of delicious barbecued chicken, potato salad, pickles, toast and brick ice cream were served.

It was proclaimed by all present a most enjoyable affair.

New Meat Market Opened

Everybody's Market is the name of a new meat market opened Tuesday. The new market occupies a space in Everybody's Grocery, corner Main and West First streets, and only the choicest of fresh meats will be carried.

Roy Estes and G. M. Sargent are the proprietors of the new market and will make a success of this new place.

Celebrate Emancipation Day

The colored folks of the county have been celebrating Emancipation Day here Thursday, June 19th and the big time will continue thru today. A barbecue, baseball games, platform dance and other forms of entertainment are being staged at the ball park here.

FEDERTION'S BIG CARNIVAL NOW ON

Local Talent to Put on Big Show Tonight (Friday) on Courthouse Lawn—Don't Miss It

Come to the Carnival tonight. Get your supper on the grounds, for there will be all kind of good things to eat and enough for everybody. "Eats" will be found at the Cafeteria, Tea Garden, Hamburger stand and cold drink stand. Don't miss any of the attractions. Everyone will be there—so you come, too.

Queen Contest

The contest for "Queen of the Carnival" which opened last Saturday morning at the Chocolate Shoppe, will be continued there until carnival evening, where it will be carried on until nine o'clock. The final votes will then be counted and the young lady having the largest number of votes will be crowned queen; the next will be her maid of honor. The Coahoma girl having the largest number of votes will be the other maid of honor unless she wins queen's place. Little Misses Doris Cunningham and Mary Jane Reed will be the Queen's train-bearers, and Bobby McNew the crown-bearer.

Misses Mary Hazel Hatcock and Gwendolyn Bittle are in the lead so far. Be sure and be on hand and vote for the girl of your choice. The coronation ceremony will be a special attraction.

Baby Show

Very prettiest feature of the Carnival. Some one hundred babies to be on view in the courthouse corridor. Don't miss this sight. Babies from a month old up to 47 months. Come in to see them from 5:30 to 6:30. The string of gold beads in Fox's window is the prize for baby whom public opinion proclaims the prize winner.

No votes sold—your entrance ticket gives you three votes, one each for baby 1 year or younger, 2 years and 3 years. No judges necessary. Actual count of names will determine victor. Every baby will receive something. No entrance fee. If your baby is under 4 years old bring it and put it in. Not necessary even to be a Howard County product.

Our babies can hold their own against all comers. Visitors welcome. This is to be a genuine Baby Show—not simply a commercial enterprise. It is well worth 25c to see this charming sight. A platform elevated to put babies up in one view will prevent congestion and discomfort. Choicest place in whole carnival. Be sure to enter your babies. A picture to be made of entire group, if possible. Have your baby in it.

To Play Midland Here Sunday

Sam H. Brewer who is now manager of the Big Spring ball team has arranged for a game with Midland next Sunday afternoon.

Sam expects to change the line-up of the team; and as soon as he gets them working together and worked out in good practice he expects to have a team that can hold its own with the best teams in West Texas.

The Midland team is considered one of the strongest teams in this section just now and that is the kind of a team he wants to test out his new line-up.

It is going to be a real ball game from start to finish and the fans are requested to turn out in force and root for the home team. Show the boys you are with them and we can build up a team here that will make the other towns get up and hustle.

Name Judges for Primary Election

At the meeting of the Democratic Executive committee of Howard County on Monday, June 16th, the following were named as Judges of Election of the various voting precincts for the Primary elections.

P. C. Leatherwood, precinct one; S. B. Stone, precinct two; M. H. Morrison, precinct three; J. M. Bates, precinct four; L. M. Scroggins, precinct five; Vincent; Akin Simpson, precinct six; Gay Hill; B. F. Miller, precinct seven, R-Bar; C. B. Harland, precinct eight, Auto; W. W. Lay, precinct nine, Coahoma; Truman Martin, precinct eleven, Center Point; W. F. Cook, precinct twelve, Moore; J. J. McGregor, precinct thirteen; Knott; T. W. Branon, precinct fourteen, Morris; T. M. Robinson, precinct fifteen, Soash.

Herald want ads get results.

Mrs. J. A. Baggett

It was with deepest sorrow that the announcement of the death of Mrs. J. A. Baggett was received in this city where she was loved and esteemed by a wide circle of friends. She passed away at her home in Dallas Monday morning, June 16th, following a protracted illness. Thruout her illness Mrs. Baggett bore her suffering with patience and fortitude and her greatest concern was for her loved ones. She was a true Christian, ever ready to make the pathway thru life easier for others, and she was ready to meet her Master when the angels came.

During the many years she made her home in Big Spring she took an active part in all movements looking to the betterment and improvement of our city and her heart was saddened by her going.

Funeral services were conducted at the family home and the remains were laid to rest in the Dallas cemetery.

She is survived by her husband, one son and two daughters, Frank and Mae Baggett of Dallas, Mrs. Eustace McKinney of McKinney, and her mother, Mrs. R. B. Zinn of this city, and to those who mourn for a faithful wife, a fond and indulgent mother and a beloved daughter is extended the heartfelt sympathy of many friends thruout our section.

Picnic for Pioneer Settlers

At the old McKinney home, east of Coahoma on Saturday, June 28th, will be given a barbecue and picnic for all those who have resided in Howard County more than 22 years. Jim and Bud McKinney are to act as hosts, with Jim looking after the barbecuing of the meat. As Jim is one of the best in West Texas in this line, a real feast is assured.

Talks by old timers and other entertainment will be provided.

It is proposed that a permanent organization of old settlers be formed at this time. It is also suggested that the sons and daughters of the old settlers meet and organize and plan to hold annual conventions.

A party for the young folks will be held at the McKinney home on the evening of June 28th, under the sponsorship of Mrs. Mary Taylor. She will be assisted by Misses Mamie Shumake, Fannie Amos, Lena Coffman, Virginia Hall, and Messrs. Cecil Coffman and Philip Spears.

Everyone who has resided in Howard County more than twenty-two years is cordially invited to this gathering. Come and bring your family. Remember the date, Saturday, June 28th.

Auto Accident Sunday

Mrs. Grover B. Cunningham narrowly escaped serious injury Sunday morning; being hurled from an automobile when a big automobile going at a fast pace crashed into the car in which she was riding with Mr. Cunningham and Mr. and Mrs. J. D. O'Barry.

They were turning into Scurry street from Sixteenth street, when almost upon them and going at a speed estimated at forty miles an hour, they saw a Buick automobile approaching. Figuring that it would be suicide to try to cross Scurry street ahead of the fast moving car, they had almost stopped their car, turning it slightly to the south. T. H. Yarbrough, driver of the Buick, who was on the left side of the road, instead of continuing, turned his car over onto the right hand side, but he was going so fast that it was impossible for him to stop his car in time to avoid crashing into the Ford car. The force of the collision turned the Ford almost completely around and hurled Mrs. Cunningham thru the door.

As we have repeatedly stated in our paper, it seems that some one is due to get killed before this fast driving is stopped.

H. F. Taylor Secures New Location

H. F. Taylor has secured a lease on the space in the W. O. W. building on East Second street and will move his grocery store from the Ellis building to the new location just as soon as Mr. Hatcock moves his stock of goods into his new building, at the corner of Second and Runnels streets.

Mr. Segel will probably secure the space occupied by the Taylor Grocery and enlarge his present quarters.

Rev. Seymour of San Angelo conducted services at the First Baptist Church in this city last Sunday; both morning and evening. Large crowds attended both services, and the sermons were inspirational.

Herald want ads get results.

BIG RODEO AND CELEBRATION

To Be Held Here July 3rd and 4th One of the Biggest Events Ever Held in Western Texas

Plans for making the Rodeo and Celebration in Big Spring on July 3rd and 4th, one of the biggest ever held in West Texas are nearing completion and all committees are on the job executing their part of the plans to make this affair a "go."

The members of the American Legion are behind the celebration, which in itself is a success.

Three brass bands will be here to furnish music for this occasion so we are assured of the fact that there will be "top-notch" and entertainment for all.

In connection with the Bronc-busting and Rodeo attractions there will be many stunts featured that will be of interest to all, especially entertaining to visitors. There will be baseball games on both afternoons, and big platform dances on the nights of July 3rd, 4th and 5th.

The biggest feature of the celebration will be the beautiful display of fireworks on the night of July 4th. This is a new number added to our usual program and one that we feel will be greatly appreciated and enjoyed.

Another added feature will be a mammoth steak fry which will be held at noon on July 4th.

Start talking celebration now—and invite friends here to see just how we can entertain. We will have amusements of some kind to please all, so pack all the folks in your family auto and bring them to the big two-day celebration at Big Spring.

Fire in Business District

The Blue Bird Cafe in the Ellis building on East Second street was completely destroyed by fire, about 2:30 o'clock last Friday morning. The office of the Howard County Farm Labor Union, next door, west, and the confectionery stock of Wm. Davies, two doors west, were damaged by smoke and water. The furnishing in two rooms in the upper story of the building were also practically a total loss.

The fire department did fine work in confining the flames to the space occupied by the cafe. Owing to a breakage of the fire engine on answering a fire alarm, Monday, it was necessary to use man power to get the engine to the scene of the fire. The pump of the fire engine was in good working order, however, and two streams of water were soon smothering the flames.

Hull Bros., owners of the cafe, will be heavy losers as not a thing was saved from their place.

They will be unable to reopen in the same stand as this space had been leased to Cunningham and Phillips, who are to open a branch drug store.

Big Revival

The Christian Church will begin a big Revival meeting in this city on July the 6th. The meeting will be conducted by the Rev. C. R. L. Vawter, who is a learned man and a very able speaker.

The services will be held in a tabernacle that is to be located on the H. Clay Read lot, opposite the City Hall, and large crowds are expected to be in attendance.

The entire public is cordially invited to attend. Regardless of your denomination, attend these services, and receive the blessings and benefits that will be obtained from these inspirational sermons. With the united efforts of all Christians, we can make this a great meeting and let its influence be felt. Everyone invited.

Heat Records Broken

On Sunday, June 15th, the thermometer at the U. S. Experiment Station here registered between 111 and 112 degrees, the highest mark recorded since weather reports have been kept at the station, since its establishment in 1915.

B. Reagan who kept the weather report here from 1900 until a few years ago, states that while the records are not available, he is satisfied that Sunday was the hottest day experienced here since 1900.

The hot wave has been with us now going on two weeks. On last Thursday the record shows 105 degrees; 103 degrees on Friday; 105 degrees on Saturday; between 109 and 110 degrees Monday of this week and about the same on Tuesday.

Herald want ads get results.

Water Shortage at Cemetery

Unless our folks make arrangements for a larger water supply it will be impossible to furnish water sufficient to irrigate trees, flowers and shrubs at Mt. Olive cemetery during the summer. More wells are needed and larger storage tanks; and it takes money to procure these.

At present the entire supply of water for the sexton's home and for use in irrigating at the cemetery is supplied by one windmill; and it is not a cinch that this mill will run regularly. Only one small reserve tank is provided.

It is necessary that the sexton keep some water in reserve for house use.

So if you have grass and flowers at Mt. Olive you wish to keep growing, remember this, that we all must cooperate by using the water very sparingly. If the water should be cut off while you are watering your plat—don't lose your temper—just remember that the supply of water is exhausted. Don't blame the sexton or anyone else. We have too much territory for one well and windmill to take care of. If you want more water, let us get busy and put down more wells and arrange more and larger storage tanks.

Don't blame anyone about the shortage of water at the cemetery but yourself.

Fire-Boys Appreciate Donation

The members of the Fire Department greatly appreciate the donation of \$30 made by Mrs. Mary Ellis for their excellent work in protecting her property against serious damage when the Blue Bird Cafe was destroyed by fire on Friday morning of last week.

The members of the Volunteer Fire Department stand ready to answer the call of the fire alarm any hour of the day or night. Though they work without one cent of pay, although there is rarely a fire they do not ruin several dollars worth of clothing, and risk life and limb, they are seldom given credit for their unselfish and helpful services, but are freely criticised because they do not save more property. In view of these facts the token of appreciation from Mrs. Ellis is doubly appreciated, and if more citizens would show a similar spirit it would be better for our city and we certainly owe something to the men who risk their lives to protect our property.

P. Telegraph Installing Equipment

R. T. Dickerson of Dallas is now busy installing equipment at the testing plant and office of the Postal Telegraph Company in this city. He states that it will be fifteen or twenty days before the office here can be opened for business.

W. E. Boring of Shreveport, La., is to be wire-chief with headquarters in this city and will have supervision of the lines between Dallas and El Paso.

The Postal Telegraph Company has about twenty-five commercial offices in Texas but in the North and East they have a network of lines. They have eight Atlantic cable lines.

Wilson Defeats Big Spring

Inability to "swat the pill" effectively while the other side "hit 'em hard" was the principal reason why the Wilson baseball team walked away with the game here last Sunday. The game ended with a score of 8 to 3.

Sam H. Brewer, who managed a successful team at San Angelo, has thrown his hat in the ring and is going to try his luck at lining up a team of ball players here. Sam says there is no reason why Big Spring can't have a winning team and he is going to put one over or "bust a trace." George White is to be field captain of the team.

There are a whole lot of real fans in Howard County who will give the team their hearty cooperation when we line-up a winning aggregation.

Former Citizen Dies at Odessa

Emmett C. Rice, a pioneer citizen of West Texas, was claimed by death at Odessa, Texas, about nine o'clock Tuesday morning. His death came most unexpectedly and was a shock to relatives and friends.

Mr. Rice and wife were visitors in Big Spring at noon Monday, guests at the home of Mr. and Mrs. Will P. Edwards.

Mr. Rice and family formerly lived in Howard County; Mr. Rice owning the R-Bar ranch in the early days. Much of this ranch has been converted into farms and is one of the best farming sections of our county—the R-Bar community.

We contend it is not good business to permit our city to be exposed to a big fire hazard as at present. We know that our present fire fighting equipment is inadequate. We know it is not dependable because some part of the engine may give way any time due to chrysalization. Then, too, it is good business to have an auxiliary fire engine. It is possible that we might have two fires in different parts of the city near the same time. By our refusal to recognize the danger now confronting our city we will be responsible for an increase in the insurance key rate and a big increase in the cost of insurance in our city.

A community swimming pool could certainly be appreciated by our folks these days. Some day we are going to be able to boast of such a feature.

Of course we have great respect for our own opinion; and we are all in the same boat in this respect. That is one reason we have such a hard time getting together and pulling together in this man's town. It is O. K. if we have our way but we think the other fellow's suggestion is punk. It is a pity we cannot get together on a fifty-fifty proposition.

The guy who will deliberately throw rubbish along our public highways should be soaked a nice, stiff fins. A free dumping ground has been established just east of town—use it.

One of the biggest crowds ever in Big Spring is expected here July 3rd and 4th, for the Big Rodeo and Celebration to be staged by the members of the American Legion.

Let Us Secure More Fire Protection

Had the citizens of Lamesa dreamed that they were going to have a million dollar fire they would not have hesitated about purchasing more fire fighting equipment. Had they made this preparation they could easily have gotten the fire under control before it jumped across a wide street and spread to the second block. If we could just take our folks to Lamesa and let them view the great damage wrought by the fire there they would not hesitate about demanding better fire protection for our own home town.

We had better dig up the money to purchase needed equipment and loan it to the city on long time rather than take the chances we are now taking.

Possibly a good many of you were not aware that the fire engine was out of commission when we had the fire early last Friday morning. The firemen pushed it out of the city hall and after getting it started down hill it rolled to near the scene of the fire by its own momentum.

You see we need an auxiliary engine because machinery will break occasionally, and if we have but one engine to depend upon the breakage may occur at a critical time, and cost us the price of several fire engines.

Think it over and decide if we can afford to continue to take such chances.

Dr. Campbell

of Abilene

will be in Big Spring every Saturday to do Eye, Ear Nose and Throat work, and fit glasses.

A guy with a head for figures asked us this week if we knew that Howard County was right at the head of the class as a cotton producer. He pointed out that we produced two bales of cotton per capita last year and less than one half of our population is engaged in agricultural pursuits.

While we have not been completely converted to the single tax theory we do believe that unimproved property should carry a heavier tax than improved property, especially so when the owner refuses to sell, lease or improve such property. He should at least pay on an amount equal to what he has been offered for such property.

Shake old dull care and join the kids in having a big time at the City Federation Carnival, this evening.

Why load your shoulders down with greater burdens? A smile weighs less than a frown.

Remember, we should have a fine agricultural exhibit at the Dallas Fair this fall if we want to attract more homeseekers to the Big Spring country. Now is the time to select extra plots for growing farm and garden products that can be used in the display sent to Dallas to represent our county. We will be able to be among the first few counties if our people will just take a little time and help to prepare an exhibit that will prove to folks back East that Howard County is one of the best agricultural sections in Texas. It is surely worth our time and effort to send a real exhibit to Dallas this fall.

Fredericksburg, Texas, spends lots of money advertising her "Balancing Rock"—a granite boulder twelve feet thru, resting on only two small points "Read Rock" on the side of Big Spring Mountain could be advertised in the same way and would be an object of interest. Real Indian beads are to be found at the base of this rock. Then too it is near the wonderful Scenic drive along Big Spring mountain.

Honest now folks, wouldn't you like to see the announcement that Howard County won first prize at the Agricultural Exhibit at the Dallas Fair? This is possible if we are willing to go to a little extra trouble and help prepare products for an exhibit. There is not a doubt but that Howard County can produce the goods. Are we willing to show folks that she can?

We knew President Coolidge didn't love the Senate any too well but it does look like his friends at the Republican convention rubbed it in when they named Hell-and-Maria Dawes to preside over that staid and sedate body. Just imagine what a jolt the senators will get when Mr. Dawes opens up some time and tells them what he thinks of a senator.

The Republicans oftentimes make boneheads, but they made no mistake when they picked Charles G. Dawes as President Coolidge's running mate. They could not have selected a man who will make a greater appeal to the voters. He is a go-getter, the human kind of a fellow we all admire even though we Democrats can not vote for.

If everyone had the same view of aiding the community how much progress would be made? We can help or hinder, just as we decree. Strange to say, however, we cannot prosper by hurting our community. We can help ourselves and others by aiding the community's progress and prosperity.

The City Aldermen made a good move in purchasing the one-man road grader for the streets of our city have been permitted to get in bad shape and a great amount of repair work must be in order. With this one-man grader this work can be performed economically and well.

This millionaire slayers of Chicago should employ as their tutor that newspaper guy who played crazy so successfully that he had been ordered to an asylum before another newspaper reporter discovered the deception and stopped the farce.

With Fireater Dawes to conduct a front porch campaign and Coolidge "sitting jake" on the back porch, the Republicans plan to make the Democrats play second fiddle in the big political marathon that will be completed on November 4th.

Why not lend a hand to help push our community forward? If every one pulls back instead of pushing forward we can't make any progress.

The Texas & Pacific railway company plans to erect a million dollar railway repair shop near Shreveport, Louisiana.

Is this your home town? If so, treat it as such and say a good word for it occasionally.

Opportunity is insidiously knocking but you must open the door yourself.

Is it your flag, too, or only the other fellow's.

When work is a pleasure we all feel rich.

Six kinds of ice cream fresh every day.

The Store That Quality Built

DID YOU EVER STOP TO THINK

By E. R. Waite, Secretary, Shawnee, Oklahoma, Board of Commerce

THAT advertising speeds up success.

THAT truthful advertising is nourishment that the people can easily digest, and will pay any business concern that uses it persistently.

THAT competition is keener today than it has been in years, and this makes it necessary for business concerns to pay greater attention to the great work that advertising does.

THAT truthful, persistent advertising compels attention, and always creates favorable impressions. It aids sales with its convenience, economy and effectiveness.

THAT advertising is vital to the success of every business. Persistent advertising builds quality and value and creates confidence in the mind of the buying public.

THAT every good advertiser should be a "sell" and "keep on selling."

THAT the advertiser who does not advertise is like the merchant who does not sell.

THAT the advertiser who does not advertise is like the merchant who does not sell.

FOR HIGH QUALITY AT SAME PRICES ADVERTISED GOODS ARE BEST.

Good Farm For Sale

160-acre farm, 1 mile west of R-Bar school house, for sale. 125 acres in cultivation, 4-room house, well and windmill, eastern, surface tank, barns, etc. Price \$45 per acre, cash; if sold within 60 days, rent goes to purchaser. See me at house. MRS. ADA CANADA. 40-1f

P. B. Metcalfe for Representative.

We are authorized to announce Penrose B. Metcalfe of San Angelo as a candidate for the office of Representative of the 91st Legislative District of Texas. He announces subject to the action of the Democratic primary and his name appears in the announcement column of The Herald.

Mr. Metcalfe's candidacy is being made by friends at San Angelo who are convinced that he is the logical man for the place.

Mr. Metcalfe was born on a ranch in Tom Green County thirty years ago; was reared in that county and obtained his preparatory education there. He spent four years at the Agricultural and Mechanical College of Texas, graduating with honor with the class of 1916; he enlisted as a private in the Air Service of the Army shortly after our entrance in the World War and emerged as a Captain. He has always been actively associated and identified with the agricultural and business interests of this section and is familiar with their needs and requirements.

He is a life long Democrat and believes in registering the will of the majority; he is opposed to exorbitant taxes but believes in the proper maintenance of our schools and other state institutions. He is in favor of a business administration of our state affairs and if elected shall endeavor to serve ALL the people faithfully and efficiently.

Mr. Metcalfe spent Monday in this city, met many of our citizens and made a most favorable impression on all those whom he met.

He is a capable and progressive citizen and our folks will make no mistake in voting for him for this office in the July primary.

How's Your Title

Over million dollars loans rest on the reliability of our abstracts. Better have us to do your abstracting. We have a complete set of abstract books for all tracts of land and town lots in Howard County. Every abstract has a written guarantee. BIG SPRING ABSTRACT COMPANY, Room 4, West Texas National Bank Building. 18-1f

Walter Gallimore of San Angelo was here Monday in the interest of the candidacy of Penrose B. Metcalfe for Representative of this, the 91st, district. Walter knows most everybody in the county and he made Mr. Metcalfe acquainted with a large number of our citizens. He stated that the reception accorded Mr. Metcalfe here was most gratifying.

A. P. Kasch and family arrived Sunday from Idabel, Okla., to make their home in Big Spring, and are now at home at 604 Scurry street. Mr. Kasch, who is an expert plumber, has leased a space in the basement beneath the Clyde Fox Jewelry and Drug Co., and will open with a full supply of plumbing fixtures and supplies on July 1st.

For Rent

Two rooms furnished for light housekeeping, at 211 W. Houston street. Phone 574. 1t

Station-to-Station Calls Cost Less

When you ask Long Distance to get a certain telephone number in a distant city and, when connected, you speak to any one at that number, you have made what is described as a Station-to-Station call.

This is, on a Station-to-Station call do not specify a particular person to be reached, but give only the number of the telephone or the name or address under which that telephone is listed.

A Station-to-Station call costs less than a call for a particular person because less operating labor and less circuit time are required than if particular person has to be located and brought to the telephone.

Calls cannot be reserved on Station-to-Station calls.

SOUTHWESTERN BELL TELEPHONE COMPANY

Chautauqua

Childress Index: Jess Adams, editor of the Plainview News, has been one among a number of his fellow-citizens in placing his name upon a guarantee for the purpose of securing a Chautauqua for that little city. The third or fourth attempt closed last week with a deficit of \$800. The forty men who had guaranteed the payment of expenses went down in their pockets for \$20 each. Jess says he has quit, as the people do not appreciate good, clean entertainment.

Why should as prosperous a man as Jesse Adams become a quitter when jolted by a \$20 flare-back? He has spent many twenty dollarsees less usefully than the Chautauqua twenty was spent. But isn't it possible the Chautauqua magnates themselves are to blame for the Plainview and a good many other deficits? Haven't the Chautauqua magnates sadly cheapened their offerings of late years? How much of their programs is really worth paying one's way into? At its best, the Chautauqua was an important and deserving organization. It was cultural, interesting, enlightening, and sometimes rather too self-conscious or condescending in its own regard. The lyceum course, formerly a popular and valuable contribution to public instruction and public amusement, was to the larger urban communities a good deal of what the Chautauqua season was to the smaller. But the Lyceum course has all but disappeared. Mechanical musical instruments and lectures, together with a long procession of foreign lands and exotic customs, came along and disturbed the older forms everywhere. The people are very good judges of what they want, of what is good for them, of what is worth the price, and of what ought to be or ought not to be successful. The people, in fact, are very powerful in the aggregate and eventually have their way in everything. We are prone to assume in our minds that God is with minorities, but often it seems as if He is with the majority. The minorities may be more self-appealing, but sometimes it appears doubtful if God rates them as highly as they suppose. —State Press in The Dallas News.

Big Spring is another unfortunate as to a Chautauqua deficit and it will take just one more fizzle to wear our folks. Chautauqua has been appearing each year for the past nine years and if they were presenting the form of entertainment folks wanted it would not be necessary to beg folks to attend. It is as State Press says—the Chautauqua management is to blame. The offerings have been cheapened, and appeal mainly to the small audience of chautauqua fans. The Chautauqua folks by trying to be too "high brow" have driven away from their entertainments seventy-five per cent of the folks who can be depended upon to spend their money for entertainment. They are not reaching for the folks they claim they want to Americanize.

Unless they make a radical change in their programs many communities, that believe in the chautauqua plan, will be compelled to look elsewhere for entertainment.

Tourist, Watch for Seal of Safety!

The State Board of Health in cooperation will launch a state-wide "Seal of Safety" Campaign beginning June 15th. Dr. Duggan, State Health Officer, stated that in addition to fish, a healthy tan, a vigorous appetite, a gain in avoirdupois, chiggers and poison ivy, many of the 1923 tourists caught dengue, malaria, and typhoid, and the purpose of the "Seal of Safety" campaign is to better protect the vacationist and tourist by raising the standard of sanitation at the various tourist camps, swimming pools, and drinking water supplies afforded the tourist such as streams, roadside wells and springs.

The local supervision and inspection of camps will rest with the city and county health officers or other designated authorities who will cooperate with the local chambers of commerce and civic organizations. The camps will be inspected as to proper drainage, adequate and potable supply of drinking water, proper disposal of sewage and garbage, and if approved they will be listed as an approved tourist camp and further identified by appropriate sign boards and posters on the highways.

The water supply of all wells and hydrants will be tested by the laboratory of the State Board of Health, and if the water is safe, a metal "Seal of Safety" will be attached to advertise the supply as safe. The State Board of Health will furnish the metal seals, with posters for placarding camps as well as streams. Some of the posters read, "This is an Approved Camp Ground," "Help Keep it on the Approved List," or "Do Not Use This Water for Drinking Without Boiling," and "The water from this Well has been Tested and found to be Safe for drinking." The State Board of Health is also planning to classify the swimming pools and bring about a more sanitary control of the two hundred pools in Texas.

All city and county health officers in Texas have been requested to make surveys of camps and to collect samples of water in their locality and have been furnished questionnaires for recording the conditions found. The information obtained will be used as a basis for the issuing and placing of the "Seals of Safety." Where the development is not satisfactory, advice regarding the improvement or abandonment of the camp or water supply will be given the State and local health departments, and periodic re-examinations will then be made from time to time. Camps wishing recognition should communicate with the State Board of Health as soon as possible.

Entered as second class matter at the Postoffice, Big Spring, Texas, under Act of Congress, Mar. 8, 1897.

Big Spring, Friday, June 20, 1924

Not Appreciated

It is not likely Plainview will have a chautauqua next year. There was a deficit of \$800 in the expense of the one which closed Sunday night, which was covered by \$20 in cash from each of the forty guarantors. Last year five guarantors had to foot up a loss of \$600. The year before there was a shortage of \$600 and only six men behind it.—Plainview News.

Snyder, too, faced a deficit in its chautauqua funds yet the people of Snyder signed up with 101 good men and women on the contract for another season. A small committee this year bore the brunt of the expense of the chautauqua. Next year more are sharing the burden. The suggestion was made last Sunday night that we buy the chautauqua outright next year and give it to the people free, which should be done. In this day and age of light entertainment and literature the chautauqua furnishes the only avenue for real worth-while entertainment for the young people. If we are to deny them the benefits of the splendid lectures that come with our entertainments we will license them to feed their fill upon cheap light entertainment that come their way. People fill tent shows night after night and listen to cheap vaudeville and plays of little merit yet they are not willing to pay 20 cents to hear some of the nation's big men in lectures of real importance. Never before in the history of America does the situation demand that we bring to the people good and wholesome instruction and entertainment. It can be found only in lyceum, and chautauqua. —Scurry County Times, Snyder.

Preserving Season

There's a fragrance of the orient thru all the house today. The spicy smell of cinnamon, cloves, nutmeg and bay.

And it mingles with the perfume of the peaches and the plums;

Do you recognize this fragrance—

when preserving season comes?

There are baskets heaped with apples; heaped with damson plums and pears;

Jelly glasses by the dozen; Mason Jars long stored down stairs.

And neatly written labels soon their contents will disclose.

Blackberry jams and melon pickles, branded peaches, apple jelly, Preserved pears (last season's winner) and quince marmalade as well;

All the sunshine of the summer for the winter time put by;

All the orchard's golden sweetness ripened under azure sky.

Like the squirrels of the forest women folks are full of thrift

When Queen Nature in her beauty pours before us gift on gift,

And I seem to read a promise in the kettle's frothy foam

That the summer time will linger in the heart and in the home.

Cement Work

I am prepared to do all kind of cement work, such as coping, walks, water troughs, tanks, etc. I refer you to any work I have done in this city as reference. A. B. WINSLOW.

What to Do With the Rooster

After hatching season is over, what use have you for the male bird? He causes you untold loss in the hot summer months by fertilizing the eggs. These fertile eggs start to incubate and then are chilled, the result being a spoiled egg. Every spoiled egg that is put on the market means that much deducted from the producer's income. Kill, sell, or pen up those males this summer and produce nothing but infertile eggs.—E. O. Edson, in The Progressive Farmer.

Big Men in Small Towns

Long ago America's great philosopher, Emerson, wrote:

"If a man preaches a better sermon than his neighbor, writes a better book, or builds a better mousetrap; and though he live in the woods, the world will beat a path to his door."

The career of the Mayo Brothers in Rochester, Minnesota, of the Garver Brothers with their store in Strassburg, Ohio, and of other able men and women in small towns of the United States prove the truth of this aphorism.

Many of America's greatest men did not go to the city in search of fame and fortune—they brought the city to their doors. There is no question as to where opportunity is to be most easily grasped—in the big city or in the small town.

A few become rich in the city, but they win their fortunes at a price. Broken health, unstrung nerves, and an early old age tell the story of keen, competitive strife. But the vast majority of young people who are lured out of their home towns by attractions of the big city simply join that great tide of humanity. They become known only to a few associates, swallowed up in the sea of people.

Theirs is not a life to be envied. Many of them might have been big toads in their own little puddles, if they had remained at home, but instead they have become little toads in the big puddle.

It is a fact that most of our great merchants, lawyers, statesmen, authors, and many great doctors have achieved fame and fortune in small towns. There is a real reason for all this.

We will take two young men of ordinary ability. Joe decides to go into the merchandising business in his home town. George accepts a position in a department store of the big city.

Now leap over an interval of twenty years, and you will find Joe with a fine store of his own, a knowledge of all parts of the business, and the respect of the people of his community.

At the same time you may find George holding a mere "job." He has been in the same department for years, he knows about little but one part of the big business. Nobody in the city except a very few personal friends knows that he exists. He has been under the direction of others so long that his initiative and independence have been destroyed. He is merely a cog in the big machine.

This is a common experience. Even most men who do achieve greatness in the city first acquired success in some small town.

G. M. Long for Commissioner

We are authorized to announce G. M. Long as a candidate for Commissioner of Precinct Three of Howard County.

He announces subject to the action of the Democratic primary and his name appears in the announcement column of The Herald.

Mr. Long is a pioneer settler of Howard County, coming here twenty years ago and for the past nine years he has resided on his farm twelve miles west of Big Spring.

He is a good, substantial citizen, competent and qualified to look after the duties of the office to which he aspires in a business like and conscientious manner. He is deeply interested in the welfare of the county and will give full time and attention to promoting her best interests. If honored with election to this office he can be depended upon to administer the duties in a fair, impartial and satisfactory manner.

The voters of precinct three are requested to give his candidacy every consideration when casting their ballots for county commissioner.

Not Daunted by Fire

The Rix Furniture and Undertaking Company made a quick comeback after the fire which wiped out a big section of the business district at Lamesa, Saturday afternoon, June 7th. On Monday morning, June 9th they were doing business at Lamesa. In order to keep from missing a day they purchased the Burns Furniture Company at Lamesa and secured a lease on the building occupied by that firm. They will conduct their business in this building on the east side of the square until a new building has been erected on the site of the one destroyed in the big fire. They saved much of their stock before the fire destroyed their building and consequently they had a good line with which to start business when they reopened last week.

This is the spirit that is needed to make a success and there is not a more progressive firm in West Texas than the Rix Furniture and Undertaking Company.

Herald Advertisers.

Pickerill-Barron
Society has been much engrossed of late, over weddings and parties for bride-elects, and a marriage of more than ordinary importance, was that of Miss Hollie Belle Pickerill to Mr. T. Paul Barron, on last Tuesday morning at 9:30 o'clock.

The entire reception suite of Mrs. C. A. Goldsmith's attractive residence was a bower of flowers, carrying out the exquisite color motif, pink and white. Tall floor vases of carnations and pink and white roses were in the living room while the ceremony was read before a screen of pink was read before a screen of pink rose buds imbedded in trailing ivy. Overhead was an arch of the same artistic design while white candles in crystal holders and tied with cloudy maline bows cast a soft glow over the pretty scene. Southern smilax and ferns were twined gracefully around the chandeliers and the rooms were also hung with ropes of smilax.

Mrs. Roy Proctor accompanied by Miss Lydie G. Watson, in sweet dulcet tones, sang "I Love You Truly," as a pre-nuptial solo, and as the always beautiful strains of Mendelssohn's Wedding March, played by Miss Watson and Mr. Ned C. Watson on 'cello, sounded, little C. A. Goldsmith, Jr., in a white, pongee-suit entered bearing the wedding ring in the heart of a stately lily. The groom with his best man, Mr. Herman Spaulding of Lubbock, entered next and then came the flower girls, Anna Belle Youngblood and Eddie Blanch Cowden, looked like two little princesses from some fairy court in their peach colored crepe de chine frocks and casting rose petals in the pathway of the bride, who next entered with her maid of honor, Miss Mary Barron. They were met at the altar by Dr. J. C. Burkett, of Abilene, who beautifully read the sacred service, the soft strains of 'cello and piano playing Schubert's Serenade, adding to the impressiveness of the service. The bride looked lovely in a handsome brown flat crepe going-away gown with harmonizing accessories.

Her bouquet was of Onhelia and bride's rose. The honor-maid was attractive in a modish navy blue crepe Romaine frock with hat. She carried a bouquet of pink Killarney roses.

After the ceremony punch was served in the dining room by Mesdames Joe Youngblood and Guy Cowden.

The out of town guests were the bride's mother, Mrs. Eliza B. Rutledge, of Roswell, N. M., her sister and husband, Mr. and Mrs. Fahrkamp of Big Spring; Dr. J. C. Burkett, of Abilene, and Mr. Herman

Spaulding of Lubbock.

This happy event was the climax of the interest which has centered for months in the engagement of this prominent young couple. The bride has been one of our teachers for several years and by the beauty and dignity of her character, the charm and grace of her personality has won the esteem and admiration of all of Midland. The groom, who bears the worthy distinction of being the youngest mayor in Texas, belongs to one of the oldest and most prominent families of the West and is one of Midland's sons in "whom she is well pleased." He is a graduate of our high school and also of Baylor University. His life has been fine, true and manly, thus he was beautifully prepared for this, the supreme love of his young wife. They received many lovely gifts which bespoke of friends both far and near. Mr. and Mrs. Barron left immediately after the ceremony for a honeymoon trip to El Paso after which they will be at home to friends in Midland. — Midland Reporter.

Presbyterian Notes
Sabbath school at 9:15 a. m., and at 11 a. m. morning hour of worship, at which time the pastor will speak on: The Prophet Hour of Darkness.

Grade Crossing Psychology

When ill, people will spend weeks or months in bed and money for doctors, nurses and medicine, with the hope of saving their life.

But, judging from the number of grade crossing accidents, many of them place their life in imminent peril by dashing across the track in front of a fast-moving train and even into the train rather than spend 10 seconds waiting for the train to pass.

The psychology of this is not easily discernible. It is, evident, however, that not grade crossings, but carelessness in effecting a crossing is the seat of trouble.

Many devices have been installed for protection of public at grade crossings but the most effective safeguard is for drivers of autos to stop look and listen.

North Carolina enacted a law requiring autos to stop before crossings and in six months with this law in effect, in spite of increase in registered autos, grade crossing casualties on the principal railway system of that state were reduced 50 per cent, fatalities being 4 instead of 8, injuries 11 instead of 22.

When it is considered that such a law is intended to safeguard the drivers of autos against injury or death at crossing, it would seem that they above all others should favor its enactment.

If the "stop law" such a reduction in North Carolina, how much greater would be the saving of life from passage of a similar law in all states.

Hear J. Lee Tarpley, June 23rd
J. Lee Tarpley, president of the Texas Farm Labor Political Conference will speak at the courthouse in Big Spring at 8 o'clock Monday night, June 23rd. He will speak at Comanche Tuesday night, June 24th, at 8 o'clock.

Mr. Tarpley is an entertaining speaker and has a message for the citizens of Howard County. The public is cordially invited to hear him. He speaks in the interest of the Farm-Labor candidates for state offices. — (advertisement)

Herald Want Ads Pay.

Honesty in Taxes

Everybody pays taxes. We may not own a bit of land or a house. We may not have a penny in the bank, or even a War Savings Stamp left over from the war.

But we pay taxes just as surely as if we owned town houses, country homes and broad acres of farm land, stocks and bonds, bank accounts, mills, factories or railroads.

We all have to eat or starve to death. If the owner of the property in which the grocer has his store has to pay higher taxes, the grocer has to pay higher rent and we have to pay the grocer higher prices for our food.

We all have to sleep if we want to live. If the person who owns the house where we live has to pay higher taxes, then we have to pay higher rent, of course.

If the railroads have to pay higher taxes, they have to charge higher rates to haul everything we consume, and naturally, the increase is tacked on to the paying end—that's where the ultimate consumer hooks on.

Out of every eight dollars of our national income, one dollar goes for taxes federal, state and local.

This means that the boy whose expenses are eight dollars a week pays one dollar in taxes in the form of prices made higher by taxation.

The same ratio prevails, regardless of the cost of living, though you may not own a dollar's worth of taxable property.

When it comes to dealing with the question of taxes, we need to be more honest with ourselves.

We need to understand that we can not continue to load on overhead and not have our pocketbooks feel it. Governments are like individuals. The only way they can economize is to spend less money. As long as people clamor for legislation to cure this or that fancied evil, just so long will taxes continue to be high and in some cases oppressive.

J. A. Bishop for County Judge

We are authorized to announce J. A. Bishop as a candidate for the office of County Judge of Howard County. He announces subject to the action of the Democratic Primary and his name appears in the announcement column of The Herald.

Mr. Bishop is a long time resident of Howard, and has ever taken an active interest in its growth and development. He has the confidence and esteem of everyone who knows him, and his fairness and business ability is unquestioned. He is making the race on a platform of a stronger and more perfect rural school system, as he firmly believes that the greatest problem before us today is the work in behalf of our boys and girls. He considers this the rock on which our civilization and future depends. While he loyally stands for better educational advantages for boys and girls in the rural districts, if elected, he expects to serve all the people of the county with fairness and impartiality. He is in every way competent and qualified to fill this important office and he has every confidence in the integrity of her people and faith in the voice of her citizenship.

You are requested to carefully consider Mr. Bishop's claims for your consideration and remember his candidacy when casting your ballot in the July primary.

Good Home For Sale

T. W. ANGEL.
- For Hide and Animal Inspector:**
JOHN NORTHINGTON SR.

The editor, W. G. Hayden, left Tuesday evening for the Texas Press Association meeting at Amarillo. From there he will join Joye M. Fisher and wife at Colorado Springs and they will visit places of interest in "Kool" Colorado. The devil will have full charge for two weeks, and if the paper is not up to the usual, you will know who to blame. In fact, you can blame the devil for everything except this hot weather. Don't lay that at his door, for while he has a monopoly on heat, it is said we can't believe that he has this weather beat even when he is roasting a country editor.

A small boy called on the doctor one evening. "Say, doc, I guess I got measles," he said, "but I can keep it quiet."

The doctor looked puzzled. "Aw, get wise, doc," suggested the small boy. "What'll you give me to go to school and scatter it among all the kids?"—Ex.

Mrs. D. Griffice and daughters, Willie and Zadora, have returned to their home in Colorado, after a two weeks' visit with homefolks.

Charity

Perhaps my faith is like my race,
An accident of birth.
Determined only by the place
Where first I came to earth.
So for the faiths of every land,
Though many there may be,
If some I cannot understand,
Lord, give me charity.

And if my neighbors go to church
To learn a different creed;
For God in other ways to reach
And seek the help they need;
Although their forms to me seem
odd,
Their ways too far to see,
If through their prayers I can
If through their prayers they come
to God
Lord, give me charity.

Had I been born 'neath China's skies,
To ancestors I'd pray;
Had India met my op'ning eyes
I'd bow to Brahma's sway.
The creed I hold derives its plan
From where I chance to be.
So, when I judge my fellow man,
Lord, give me charity.
—David V. Bush in Golden Rule Magazine. —Missouri Freeman.

Prizes Offered

\$100.00 in gold will be awarded in four prizes by the management of the International Fair and Exposition of the Southwest, with headquarters at the Chamber of Commerce building, El Paso, Texas, for the four best articles of not more than 250 words on the subject: "Why the Southwest is the Best Place in Which to Live and to Invest." The prizes are: 1st, \$50.00; 2nd, \$25.00; 3rd, \$15.00; 4th, \$10.

The contest is free and open to all School children of the Southwest States especially are invited to participate in this contest.

Contestants are requested to send their articles to the editor of this newspaper and time between now and 12:00 o'clock noon September first. A committee of judges will select four of the best written articles and send same to the Exposition Committee of the Chamber of Commerce of El Paso, Texas, who will select judges to make final decision and award the four prizes. The prize winning articles will be published in the newspapers of the southwest and used in printed matter issued in El Paso and elsewhere.

Boys with air guns—do be careful! Several complaints have been made to us recently about boys with airguns shooting promiscuously and there is great danger in such actions—oftentimes the innocent observer falls victim to a stray shot and many times eyes are put out, and chickens, dogs, cats and other harmless pets are made to suffer just at the expense of the boys having a good time. It is alright for the boys to learn to shoot, but do be careful and be sure that you aim at something that you can't injure or impair before you shoot. Look out for the welfare of others, as well as for your own good times.

Trade at Woodson's Cash Grocery
East Second street—where you will receive with each 25c purchase a coupon that will entitle you to a chance at a valuable silver ware set, and other valuable premiums. I also handle gas and lube. Get in the habit of paying cash, and pay less.
WOODSON'S CASH GROCERY
—(advertisement-40-2t)

We hear everyone kicking about the hot weather these days — and about all the good it does is to let off a little hot air, which has some few cooling qualities, but it doesn't help much. Let us not become discouraged too soon, but keep up our high spirits by believing that we'll have a humdinger rain one of these days that will set the whole country to booming, and set everything right again. It is up to the old timers of this section to remain optimistic, for if a new comer should hear a native talking downheartedly—just think how "down in the mouth" he'd get at once. He'd think that he'd made a grave mistake by choosing our country as his Eden, when in reality he has made the proper choice. Let's not fuss about a thing that we can't help—but hold the stiff upperlip and everything will come out alright.

Mrs. J. I. McDowell's class in the Presbyterian Sunday school has been reorganized with Miss Carleta Williams, president; Miss Mary Johnston, vice president; Miss Irene Knans, secretary-treasurer. This class is putting forth an extra effort to get more in Sunday school and if you are not attending any other Sunday school class, the would be glad to have you for a member. You will find a hearty welcome here. Attend next Sunday.

W. R. Purser, Bob Austin, Cliff Talbott, J. E. Price and N. W. McCleskey returned Wednesday from a fishing trip. They report plenty of fish and a royal good time. Some of the party are worrying about Evan's health and think maybe that the hot weather is affecting his appetite as he refused to eat eggs for supper or fish for breakfast.

Belah Meskimen and family of Robstown are here for a visit with his parents, Mr. and Mrs. H. S. Meskimen. Mr. Meskimen who has been secretary of the Chamber of Commerce at Robstown and also editor of the Robstown Record is planning to move back to the Plains country.

Dock Martin this week sold his home place at 511 Bell street to F. F. Gary. This is a nice home and Mr. Gary is fortunate in securing this valuable piece of property. Mr. Martin and family will leave next week for Ajo, Arizona, where they will make their future home.

H. L. Rix returned Sunday from Lamesa where he has been since the big fire which visited that city and which destroyed their furniture store. He has been mighty busy getting things straightened out and getting another store opened.

C. H. Vick, Harry Dunning, D. Hilliard and E. W. Brown returned Sunday from a two days' fishing trip on the Concho. They report a most enjoyable outing, and were lucky enough to catch plenty of fish to do them while in camp.

Blake Fritz, aged 63 years, watchman at the oil derrick of the River oil test, 12 miles east of Barstow, was killed at 4 p. m. last Saturday in a pistol battle with two deputy sheriffs. The property of the oil company was in litigation.

OUR HALL OF FAME

The Grocer is a Big-Hearted Chap who extends Credit to Debtors rather than See their Kids go Hungry. He went into the Biz to Make Money, but Right Now he will be Satisfied to Break Even. If all the Stores were to Close their Doors, we'd Miss the Grocer First.

That Waco Convention

I have been asked repeatedly by individuals and the press of Texas for my views regarding the action of the Democratic Convention recently held in Waco, in refusing to give me a place as delegate-at-large to the National Democratic Convention.

In all candor and sincerity I do not aspire to this honor with any selfish view. I was not then, nor do I now, seek political honor or preferment for myself. As President of the Texas W. C. T. U. it was thought by many that such an honor would be a deserved recognition of the many thousands of women of Texas who have so earnestly striven for the realization of the ideals of what we choose to term "progressive democracy."

Just how well the dry, progressive element of the Democratic Party represented by the delegates-at-large chosen by the "one man wonder" convention is well known by now to the people of Texas.

Most of the people now know how a resolution requiring all delegates-at-large to have a record consistent with the ideals of the Prohibitionists was adopted by the committee, and how mysteriously the resolution was changed after adoption by the Convention in order that those whose records as anti-prohibitionists is so notorious and well known as to admit of no argument, might be put upon the delegation to further the interests of a "now wet—now dry" candidate for Governor, whose interests to paramount any other consideration "the saloon druggists boss" of the convention might have had.

The facts in the case admit of no explanation: I deem it a great victory for the forces I represent, to have been kept off this "half and half" delegation—big half wet, little half dry. I knew my name was presented to the Delegation Committee, selected only as a matter of form and to present nominations from the floor that I could not be considered.

I knew the 50-50 men and women delegation meant the "saloon-druggist chief" would pick the slate, and so far as the women are concerned would be elected. I have positively no objection to them and would not if I could, change the list insofar as they are concerned.

I do however most strenuously object to the men selected to represent the "dry" Democracy and I take this means of expressing the hope that the people of Texas will repudiate, in no uncertain terms, those persons who are responsible for the debauching of the Democratic Party in Texas by trades, chicanery, manipulation, misrepresentation, and fraud, would thrust upon an unsuspecting public, a political monstrosity in the shape of a "wet and dry" candidate as the occasion demands.

Mrs. Claude De Van Watts,
President, W. C. T. U.

Church of Christ Notes

Bible school, 10 a. m.
Church services every fourth Sunday at 11 a. m.
Prayer meeting Friday evening at 7:30 o'clock.

The Ladies Week-day Bible class meets every Monday afternoon at four o'clock with one of the ladies. We met with Mrs. Stovall this week. There were six present. Next week we will meet with Mrs. A. N. Stephens. Brother Forehand will preach for us Sunday morning and evening. He will preach at Knott at three o'clock Sunday afternoon.

All services are held at the court-house.

FOR RENT—Two southeast rooms, furnished for light housekeeping—800 Johnson street. MRS. SAM CAUBLE.

Drafting Money For War

In the next war, draft dollars and property as well as soldiers, urges Bernard M. Baruch, former chairman of the War Industries Board.

It is not a new idea. Many others are advocating it. Legislation along this line recently was proposed in Congress.

If dollars were drafted for the next war, the same as men for the army, there wouldn't be any "next war."

A war without someone cleaning up big profits is beyond the powers of imagination. No chance of robbing the government on war contracts, or profiteering on the public. What would be the use of having such a war?

Our national war debt is big enough, but war-inflated prices have cost the public even more. There was the big epidemic of profiteering, you recall. Prices are down quite a bit now (so are incomes), but the disruption of our price level will cling for at least 30 years.

Baruch's plan for drafting wealth and property includes government fixing of all prices. He says: "Prices of materials, commodities and, in fact, all things would be declared fixed as of such and such a date, and it would be illegal either to buy or sell at a different price."

"The excess production, if any, of the profits in industry and internal revenue would go to the prosecution of the war."

"If such an organization, which we were approaching at the end of the war, had been put into effect at the beginning, the cost of the war in my opinion would have been not more than one-half of what it was, and there would not have been charges of profiteering and economic chaos after the war."

All very true. The trouble is that the whole idea is too sensible to be put into effect. —Fort Worth Press.

Wise Men's Words

The secret of good and happy living is good will.

Doing good to others is doing harm to ourselves.

Gifts and aims are the expressions, not the essence of charity.

Man should be ever better than he seems.

He who knows most grieves most for wasted time.

It is not so easy as people suppose to hate continuously.

Live in the present so that you will be ready for the future.

Nature never stands still, nor souls either. They either go up or go down.

It is better to preserve a kindly silence than to speak an uncharitable truth.

Misunderstandings may separate friends far more widely than either time or space.

Language was given to us that we might say pleasant things to each other.

Gentleness is revealed in the last analysis of greatness. The blusterer is always weak.

All roads may lead to Rome, but they must be traveled if one would arrive there.

Merit begets confidence. Confidence begets enthusiasm, and enthusiasm can conquer the world.

We can never replace a friend. When a man is fortunate enough to have several friends he finds they are all different.

A man of sense may be in haste, but can never be in a hurry, because he knows that whatever he does in a hurry he must necessarily do very ill.

When you are right you can afford to keep your temper. When you are wrong you can't afford to lose it.

Sooner or later that which is now life shall be poetry, and every fair and many trait shall add a richer strain to the song.

One who has climbed the ladder should not pull it up or kick it down. He should extend a kindly hand to the man or woman below.

—Fort Worth Record.

Treasury Department Office of the Comptroller of the Currency

WASHINGTON, D. C.

May 26, 1924. Whereas by satisfactory evidence presented to the undersigned it has been made to appear that the State National Bank of Big Spring in the City of Big Spring in the County of Howard and State of Texas has complied with all the provisions of the statutes of the United States, required to be complied with before an association shall be authorized to commence the business of Banking; now, therefore I, Henry M. Dawes, Comptroller of the Currency, do hereby certify that the State National Bank of Big Spring in the City of Big Spring in the County of Howard and State of Texas is authorized to commence the business of banking as provided in section fifty-one hundred and sixty-nine of the Revised Statutes of the United States.

Conversion of The First State Bank of Big Springs, Big Springs, Texas.

In testimony whereof witness my hand and seal of office this twenty-sixth day of May, 1924.

(Seal) HENRY M. DAWES, Comptroller of the Currency.

"Tax Improvements at a Lower Rate Than Land"

The present system of taxing farm lands is unjust to the good farmers, for the reason that it tends to penalize their thrift and energy. It does not encourage improvements of either soil or farm buildings, for after making such improvements the owner is always called on to pay a higher rate of taxes on his property.

Take, for example, two adjoining farms which have about the same soil types and are equal in value so far as improvements such as farm buildings, fences, etc., are concerned. Let us suppose that the owner of one of these farms lives in town and rents out his farm, while the other lives on his farm, personally supervises it, and puts forth every effort to improve it. The owner who lives on the farm may by his good farming and business ability increase the fertility of his soil until it will produce large, profitable crops. The income from this farm may enable him to build a nice comfortable house, a good barn, fence his farm, and stock it with purebred cattle and hogs. This farm will then be improved and is an example for the whole community. It will attract the attention of all the farmers in the community, many of whom will profit by watching the method used by this farmer.

Now suppose the owner of this adjoining farm who lives in town and rents out his farm makes no effort to improve his place and probably by his slack methods his farm is really getting poorer all the time, yet he holds on to it until it has increased sales value resulting from the fact that it joins a well-improved farm and can be made as good as the adjoining farm.

Let us see how the tax adjuster looks at these two farms. He passes by the unimproved place and considers the owner who is already paying a low rate of taxes as paying too much, but he travels by the place of the good farmer who by his energy and thrift has built up his farm to a high state of fertility, has built a comfortable house and nice farm buildings, and says immediately: "This is a good, profitable business, and this farmer can stand an increase in taxes."

We all realize that it is hard to arrive at a fair and just system of taxation, but I believe the present system of taxing farm lands, as it applies in the above illustration, is unjust to the good farmer who owns, operates, and improves his farm. We should encourage this class of farmers by exempting from taxation up to a certain amount (say \$3,000 to \$5,000) for improvements.

On the other hand, let the owner of the unimproved property bear more of the burden of taxes. Encourage the owner of the unimproved property to improve it or dispose of it, that it may go into the hands of a good farmer who will make the soil more productive and the farm an asset to the community instead of a liability.—W. D. Barton, in The Progressive Farmer.

REWARD OFFERED

For information leading to conviction of any party throwing trash and garbage on roadside in or out of the City Limits, we will give \$25.

There is a City Garbage Ground 300 yards South of the public road, about one mile east of Big Spring, and any and all persons are welcome to dump garbage there, free of any costs. But better not drop the trash near the public road.

Report violations to either City or County officials.

CLYDE E. THOMAS, Mayor.

To Broadcast Road Condition Reports

An additional evidence that the State Highway Department is striving to serve the people of Texas to the fullest extent is the announcement that beginning with Monday, June 16th, the Texas Highway Bulletin, the official organ of the department, will conduct a road condition report bureau in order to inform those who use the state highways, of the exact condition of the roads over the state.

This service will be rendered in two separate forms. First, the report on the highways will be broadcasted every day from the Broadcasting Station of the Texas Highway Bulletin at Austin; second, inquiries by mail will be answered.

The report will be broadcasted twice each day. In the morning the report will be sent in code; in the afternoon, between the hours of six and seven it will be given by voice. The report will be relayed to all sections of the state by amateur radio stations in different cities within the range of the Bulletin broadcasting station at Austin. In answering inquiries by mail the best routes and the condition of the highway to and from various places over the state will be given. Maps of the state highways, with the best routes marked will be enclosed in each reply sent out.

There are one hundred and three state highways in Texas, and answers to inquiries will give the best routes over any of these roads, but for the present, at least, the report of only the following highways will be broadcasted:

Highway No. 1, Texarkana to El Paso, distance 871 miles.

Highway No. 2, Laredo to Oklahoma line, distance 550 miles.

Highway No. 3, Louisiana line to San Antonio, distance 340 miles.

Highway No. 5, Texarkana to New Mexico line, distance 566 miles.

Highway No. 6, Galveston to Oklahoma line, distance 340 miles.

Highway No. 8, Port Arthur to Arkansas line thru New Boston, distance 268 miles.

Highway No. 9, Amarillo to San Antonio, distance 500 miles.

Highway No. 12, Beeville to Rosenberg, distance 150 miles.

Highway No. 15, Dallas to Louisiana line, thru Marshall, distance 157 miles.

Highway No. 16 and 12, San Antonio to Brownsville, distance 330 miles.

Highway No. 19 and 40, Houston to Dallas, distance 253 miles.

Highway No. 36, Paris to Greenville, distance 50 miles.

The Texas Highway Bulletin, the official organ of the State Highway Department, is published without expense to the department. The publication of this Bulletin is not a commercial enterprise and it is not conducted for profit. The money received from the advertisements is used to defray the expense of publication and the broadcasting of the road condition report has been made a part of this publication's service to the people of this state in the interest of good roads.

With the touring season for this year now in its initial stage the Bulletin believes that this service which it will render will serve a long felt need for those who use the highways.

To the Voters of Glasscock County, LADIES AND GENTLEMEN:

I wish to take this method in acknowledging my appreciation to a large number of my friends in Glasscock County for the many solicitations and the encouragement received by me to enter the race for County and District Clerk of Glasscock County, but must again decline the honor as I did some time ago.

Other business interests at this particular time render it impossible for me to make a campaign of the county which I would want to do should I enter the race.

In making this announcement it is with a deep sense of gratitude and appreciation that I wish to thank those who would have given me their support.

Respectfully,
LAWRENCE SIMPSON.

Secret Sought by World's Chemists Found By Dr. Dismukes!

LARGE BOTTLE WITH SPRAYER

50c

AT DRUG, GROCERY AND OTHER STORES

SOLD IN BULK to Hotels, Restaurants, Factories, Hospitals and other users of insecticides in large quantities. Ask your wholesaler for quotations, or write Lehn & Fink, Inc., New York City.

"SMOTHER insects and you kill them"—is the theory on which Dr. W. J. Dismukes worked to banish the insect pest. Many chemists sought the secret, but all stopped short of the all-destroying formula—all except one. By perfecting his marvelous preparation, Fly-Flu, Dr. Dismukes discovered what scientists had long sought.

Fly-Flu fills insect pores, killing insects instantly. It is harmless to humans and plants,—an excellent deodorant and cannot stain. No bothersome mosquitoes tonight—no death laden flies tomorrow—if you spray with Fly-Flu now!

Kills every insect—Harmless to humans

Let this be your happiest summer! Spray every room today with Fly-Flu according to directions. Insure complete freedom from these pests.

Trade Marked by Fly-Flu Corporation. Manufactured and distributed by LEHN & FINK, Inc., 635 Greenwich St., New York, N.Y.

Fly-Flu Kills

Flies, Mosquitoes, Water Bugs, Moths (and their eggs), and all germ-carrying insects.

"Girl Shy" Proves the Versatility of Lloyd

Variety is the spice of life, and it is also the secret of success in making good motion pictures. Many stars fall into a rut because they insist upon making the same line of pictures and using the same kinds of characterizations. They never change because they feel the public is used to seeing them in a certain type of picture.

Such is not the case, however, with Harold Lloyd, whose latest feature Pathé-comedy, "Girl Shy," will be seen at the R. and R. Lyric next Monday and Tuesday, June 23 and 24. Harold has fortunately discovered that "mixing them up a bit" is the secret of success. He has never made two comedies even remotely alike, considering his big hits, "Dr. Jack," "Safety Last," "Why Worry?" and now "Girl Shy." He has jumped from small town situations to a South American revolution, from portraying a doctor to a ribbon clerk. Now in his latest, he has again striven for something different from anything he has ever made. He is seen in "Girl Shy" in an entirely novel characterization, as a bashful small town boy who is an apprentice to his uncle, a tailor. He makes a secret study of girls, although not a very accurate one, and the more he studies them, the more he fears them.

He has tried in "Girl Shy" to present a character who will instantly win the sympathy of his audience through his humanness. A really dramatic story has been built around this central figure of the boy and nothing has been sacrificed to make the picture true to life in every small detail. And it is attention to detail that helps largely to make the Lloyd Pathé-comedies the big hits that they are.

The cast of "Girl Shy" includes Jobyna Ralston, who plays opposite Lloyd. She made a big hit in her initial appearance with the comedian in "Why Worry?" which resulted in her being signed by Lloyd to a long term contract. Her excellent work in "Girl Shy" is said to be one of the contributing factors in its success. Others in the cast are Richard Daniels, who plays the role of Lloyd's uncle in the film, and Carlton Griffin, playing the part of a wealthy young idler. Fred Newmeyer and Sam Taylor, who co-directed "Why

Worry?" also wielded the megaphone on this new mirth provoker, which was taken from a story by Taylor, Tommy Gray, Ted Wilde and Tim Whelan.

Photos of Kathleen Elizabeth and Mary Margaret Williams, daughters of Mr. and Mrs. P. K. Williams of this city, and granddaughters of Mr. and Mrs. J. M. Morgan, occupied a prominent place in the pictorial section of Monday's Fort Worth Star-Telegram. The photo showed the little girls fondling young wolves.

I N. McNEW, Dealer
BIG SPRING, TEXAS

THE PASSING DAY

By Will H. Mayes, Department of Journalism, University of Texas

One of the worst features of our "jazz" age is that half of the people seem to be almost perpetually weary and bored. Unless keyed up to the highest pitch of excitement they are suffering from a sort of reaction that makes them tired of life and everything about them. They rush from one exciting business or pastime to another and between times are afraid that they may not make connection with some event more thrilling than anything that has gone before. They are forever wanting more. If they have money, even beyond all possibility of using it, they are eager for greater gains; if they have position, they feverishly long for still higher places of honor and conspicuousness; if they have either friends or foes they seem anxious for more of either. All the while they show a spirit of dissatisfaction, of unrest, of killing eagerness for they know not what.

This perturbed state of mind, this longing for something more than they have, or something different from past experiences, wears out body and mind, and incapacitates for real progress. Ambition of any kind, desire in any direction, may be laudable, but it can be overdone. Impatience, of a kind, is commendable, but when it results in dissatisfaction it is destructive of constructive effort. Pleasures overdone are as bad as too much food; intemperate success may be worse than failure; men and women are so constituted that struggle is best for them; disappointment is often the best discipline.

Dissatisfaction invariably accompanies over-excitement and restlessness. I met a man recently who complained that he was not succeeding as he thought he should. He was not getting wealth fast enough; his health was not as bad as he wished it to be; and he was inclined to blame God for placing him in a world that the man did not understand and that would not do his bidding. Yes, he had prospered, but not enough; and he feared his business might not continue so good. He was able to be about, to attend to business, to mingle in society, to do things that a few years ago seemed impossible for him; but he did not feel like a fighting cock after either business or social disipation, and so life was getting drab and monotonous. He merely wanted more of everything than he had secured, and he was dissatisfied because it did not come as fast as he wished.

It is nice to dream of having everything just as we would like everything to be; but if that should be, the whole social system would soon go to pieces, just as the planetary system would quickly end in chaos without some guiding, restraining force. The sensible thing to do is to dream and strive to bring dreams to pass, but to leave the results with a higher power that regulates things pretty well despite our complainings. We merely weaken ourselves when we waste our energies in fretting. We can't regulate the world or con-

trol absolutely our own fortunes, so why complain about it? We can't stop the waters of the passing river, so why drown ourselves in the effort? Get the most out of the passing day, and look joyously to the morrow.

Just now the farmers of Texas seem to have more reason than any other class for becoming discouraged. Rains in almost every part of the State have put them behind with their work. Planting has been greatly delayed and many crops that are up are badly in the grass and weeds. In some sections crops have been drowned out and seed for replanting can not be had. But in spite of all this the farmers can not afford to become discouraged and there is no need for it. The best thing is to make the best of the conditions and to work to overcome them. If one crop can not be made there may be time for another, and intensive work will overcome the grass and weeds. The hot summer sun will soon dry out the top of the ground and the rains have given a season that will cause a quick growth of crops. Rices are good and there is every prospect that they will continue good. Texas farmers are resourceful and may be depended on. They know how to meet and overcome difficulties.

Fear is man's worst enemy, and yet it is needless to entertain fear. The things we most fear seldom come to pass, and even if they do the person with a mind filled with fear is not prepared to meet them like the one who faces difficulties with confidence. Fear is surely cowardice expressing itself with greater strength than courage.

Gasoline Cafeteria Has Arrived
Next—the gasoline cafeteria!

Can you imagine driving up to a filling station, inserting in a slot a dollar or so, filling your gas tank, replacing the hose and tank cap and driving away again without any aid by an attendant? You had better brush up your imagination if you can't, because there is considerable indication motorists within a short time will be doing just that.

The gasoline cafeteria proposal has been advanced in the interest of lower gasoline prices by no less authority than a special committee of the State of Massachusetts appointed to investigate the cost of commodities used in everyday life, such as food, clothing and motor fuel. The soundness of the theory remains to be tested. One thing certain, however, the very novelty of the idea would attract considerable trade from the outset.

Will Knox Edwards of Big Spring is the inventor of a gasoline self-servicing, automatic pump that will fill this need. The pump, operated by electricity and you get the quantity of gasoline to equal the value of the coin you drop in the slot. Will Knox is now in conference with manufacturers relative to having this unique device placed on the market to fill a need, and incidentally lower the cost of gasoline to the consumer.

Six kinds of ice cream fresh every day.
Clyde Fox.

THE COMMISSION ESTABLISHED

By Walter Splawn, Railroad Commissioner of Texas

The law prescribed as qualifications that a commissioner should be a resident citizen of the state, a qualified voter, twenty-five years of age, neither directly nor indirectly interested in any railroad nor a holder of any office. The salary of each commissioner was fixed at \$4,000 per annum. The Commission was authorized to appoint one secretary at \$2,000 a year, two clerks at \$1,500 each per annum, and experts as necessary. The commissioners were to be allowed their travelling expenses, when engaged in the discharge of their official duties. As soon as the commission organized, it issued notices to the railroad companies that hearings would be held in the city of Austin on the existing rates. The Commission at first adopted the rates in force, but later issued a schedule reducing many of the freight tariffs, which became effective September 1, 1891. These rates were enjoined and the constitutionality of the commission attacked. The issues were carried to the Supreme Court of the United States.

In that contest the Commission was represented by the Attorney General, then Chas. A. Culberson. The issue as to the reasonableness of the rates were by agreement abandoned and arguments confined to the question of the constitutionality of the commission. May 26, 1894 the Supreme Court of the United States held that the commission act by the Legislature of Texas was a valid and constitutional exercise of the state sovereignty and that the commission created thereby is an administrative board for carrying into effect the will of the state as expressed by its Legislature; that a citizen of another state might contest any rates prescribed by the commission in a Circuit Court of the United States in Texas; that such a suit would not be against the State of Texas; that a court of equity could decree that rates established by the commission are unreasonable and unjust and restrain their enforcement but could not establish rates itself or restrain the commission from again establishing rates.

This decision of the Supreme Court forever settled the question of the constitutionality of the Commission law in favor of its friends. The commission finding itself clothed with rate making power again resumed that part of its work in the summer of 1894.

L. E. Lomax has been busier than a cranberry merchant since he purchased that large tract of land south of Morita. So far he has had a big tract of land grubbed and put in cultivation. He reports 875 acres of cotton up to a good stand. He will also have fifty acres of feed on his place.

There should be an intelligent, workable system of collecting delinquent taxes, and clearing the tax rolls of dead stuff. It is hardly fair to schools, city or county to permit some property owners to ride the delinquent roll when the schools, city and county are up against it for funds.

Mrs. J. W. Pittman and daughter returned Friday morning from a visit in Abilene and Baird.

A Lifetime of Laughter Crowded Into Seven Rousing, Rip-Roaring Reels

One of Harold Lloyd's Newest and Best. The Prince of Merry Makers in his Best. "GIRL SHY" has all the dramatic and best interest of "Grandma's Boy" and thrills of "Safety Last" and more laughs than any comedy ever made.

Don't Miss the Best of the Season!

He was bashful — and dreamed that e was brave and bold. He was shy of girls — and longed to master them. He made a study of girls — and feared them.

Every girl who spoke to him struck him dumb! Every girl who came near him scared him silly. But, though in real life he fell far below his idea of a complete Romeo in the world of ideals into which he retired when his day's work was done, Harold was an expert with the girls. So expert, that he was writing a book that was to be his gift to the world — a book that told the secret of making love by "who knows, and, and knows." It's a scream.

YOU'LL SHRIEK, YOU'LL ROAR, YOU'LL LAUGH UNTIL YOUR SIDES ARE SPLIT!

Texas Weekly Industrial Review.

Knox City — Ground broken for construction of \$40,000 high school building.

Winters — Installation of \$50,000 sewer system under way.

Georgetown — Southwestern University receives gift of \$100,000.

Nacogdoches — Three boarding houses being erected in vicinity of Stephen F. Austin Teachers College, costing approximately \$40,000.

Big Spring — Another lumber yard being established here.

Fort Stockton — Fort Stockton Alfalfa Association lets contracts for construction of warehouse.

Gilmer — Bond issue voted for extension of waterworks and sewer systems.

Dallas — 200-room addition to Waldorf hotel to be constructed at cost of \$250,000.

Abilene — Seven-story office building to be erected.

Hale Center — Material on ground for construction of \$25,000 addition to school building.

Graham — Plans being prepared for new hospital building.

Haskell — Ground being cleared for erection of buildings for Haskell County permanent fair.

Georgetown — Publication of Southwestern magazine, official organ of Southwestern University, to be resumed after discontinuance of several years.

Kaufman — Dallas interests purchase entire business block of W. A. Nash.

Quanah — New business building to be erected.

Big Spring — Cotton compress and huge warehouse to be built.

Memphis — \$30,000 road bonds voted.

Ten new oil wells to be drilled in Reagan County.

Houston — \$3,000,000 school bonds to be voted upon.

Kaufman — Contract let for construction of new city hall.

Houston — Southern Steamship Company reduces freight rates on cotton shipments to eastern spinning mills.

Markley — School building to be erected.

Dallas — 700-room hotel to be erected on present site of Oriental hotel, at cost of \$5,500,000.

Houston — Texas Packing Company to erect building costing \$70,000.00.

Texhoma — Four-stand 80-saw cotton gin under construction.

Nederland — 1,800 acres of land between this city and Port Arthur to be subdivided into small dairy farms.

Houston — Contract let for construction of first unit of \$175,000 cotton textile mill.

O'Donnell — \$25,000 school bond issue approved.

Three Rivers — New gas field opened in Live Oak County three miles from here.

Victoria — Contract let for construction of grandstand at fair grounds.

San Angelo — Steam heating plants being installed in four public school buildings.

Dallas — Seven streets to be resurfaced.

Big Spring — Postal Telegraph Company to open office here.

Wichita Falls — New producer in local oil fields brought in.

Blooming Grove — City experiencing building activity.

Houston — Rycade Petroleum Co. brings in a new well.

Luling — Portable refinery, built on two big railway cars, in operation here.

Save More Baby Chicks This Year

The very surest way you can save more baby chicks this year is to use the right starting feed. Ordinary grain feeds and home mixed rations kill countless chicks every year. How often you hear the expression "I had bad luck with my chicks. So many of them died." In most cases the trouble is in the starting feed. Make up your mind to save more baby chicks.

Purina Chicken Chowder and Purina Baby Chick Chow

fill every requirement of a perfect feed for baby chicks. With Purina Poultry Chows you can give your chicks a double start.

Double development or money back is the guarantee if, when fed as directed, these two Chows do not produce double growth over ordinary grain feeds the first six weeks.

Order these Chows now before your chicks become stunted for lack of proper nourishment.

Miss Fay Ward is here from Abilene for a visit with relatives and friends.

GET AN ELECTRIC FAN.... CUNNINGHAM & PHILIPS.

Reception at Mrs. Stokes'
Mrs. P. G. Stokes was hostess Tuesday afternoon from 5 to 7 o'clock at a reception in honor of her guests, Mrs. Gene Rice, of Abilene; Mrs. Oscar Oliver, of New Orleans; and Mrs. Harry Stokes, of Slaton.

Very alluring were the cool darkened rooms, made comfortable with many softly whining electric fans, and fragrant with cut flowers.

Miss Lillian Frances Gary met the friends of the hostess at the door and ushered them into the drawing room, where welcome was extended by the gracious hostess herself.

The receiving line was in the following order: Mrs. P. G. Stokes, Mrs. Oscar Oliver, Mrs. Harry Stokes, Mrs. Clyde Fox, Mrs. Gene Rice, Mrs. C. W. Cunningham, Mrs. Homer McNew, Mrs. F. F. Gary and Mrs. J. I. McDowell.

In the dining room dainty refreshments were served by Mrs. B. B. Fox and Mrs. Nat Shick, assisted by Misses Thelma Fox, Clara Pool and Lena Price. The color scheme was orchid, and the table was beautifully decorated with tiny souvenir baskets of bonbons.

Passing thru the hall, Mrs. W. C. Henley and Mrs. Travis Reed escorted the guests to the north room where delicious punch was served by M. J. Wm. Menger, Henry DeVries, and Misses Ruth Hatcher, Lillian Rhoton and Verbena Barnes.

It was a most delightful reception, thoroughly enjoyed by the number of guests present.

Business and Resident Lots for Sale.
Business and suburban resident lots for sale. A mighty good investment just now. See me. J. F. HAIR. 30-1f.

John Woznak of West, and Joe Szymszek of Brumond, Texas, were here last week on a prospecting trip. Mr. Woznak bought 160 acres northwest of here on a recent visit and is so well pleased with this country that he is interesting many of his friends by urging them to make a trip here to learn what a fine agricultural section we have.

Now that the heated season is upon us it is of great importance to keep all premises, alleys and streets in as sanitary condition as possible. Nothing that attracts flies, those dreadful disease carriers, should be allowed to stand and endanger the health of our precious children.

Mrs. Chas. Koberg and children returned Friday morning from a visit with relatives in Little Rock, Ark. Oscar Koberg who has been taking a course in dentistry at Vanderbilt University at Nashville, Tenn., accompanied them home.

The customer must be satisfied Chocolate Shoppe.

E. W. Douthit was here last Friday from his ranch, twenty-five miles southeast.

"Where can I buy such coffee back home?"

THE first question that pops into the mind of an eastern visitor. And the earnest conviction that has spread the tradition of the West as the home of wonderful coffee. It is wonderful coffee, without a doubt.

That's why Hills Bros. Red Can brand outsells all others. That's why it is, beyond peradventure, The Recognized Standard. Puncture the vacuum seal and breathe that rare aroma! Taste the marvellous flavor of the beverage! Yes, the West's coffee tradition is in safe hands.

With all its high quality, Hills Bros. Coffee is not high-priced. It is economical to buy—and economical to use. Hills Bros., San Francisco.

Practical Nurse Tells

Mrs. N. E. Snow, of Route 1, near Paris, Tenn., tells the story of her experience as follows:

"I am 62 years old and I have been a practical nurse for more than 20 years, taking mostly maternity cases. One of my daughters suffered from cramping at . . . She would just bend double and have to go to bed.

CARDUI

The Woman's Tonic

was recommended to her and she only had to take about two bottles, when she hardly knew that it was . . . she suffered so little pain. "My youngest daughter was run-down, weak and nervous, and looked like she didn't have a bit of blood left—just a walking skeleton, no appetite and tired all the time. I gave her two bottles of Cardui. It built her up and she began eating and soon gained in weight and has been so well since." Cardui, the Woman's Tonic, has helped suffering women for over forty years. Try it. At all druggists. E-100

Belah Meskimen and family of Robstown are here for a visit with his parents, Mr. and Mrs. H. S. Meskimen. Mr. Meskimen, who has been secretary of the Chamber of Commerce at Robstown and also editor of the Robstown Record, has resigned and is planning to locate at San Antonio or Houston.

The kind that the Doctors recommend—Butler's Ice Cream. Chocolate Shoppe.

Mrs. E. E. Brindley of Fort Worth arrived Thursday morning for a visit with relatives.

Special attention given to car trade. Chocolate Shoppe.

Paint in small cans for any purpose. . . . Cunningham & Philips.

Strong for Schools

Fort Worth.—Jesse R. Smith of Breckenridge, candidate for State Senator, has declared himself in favor of a generally progressive program for Texas schools. Himself a member of a school board, Smith has pledged the Texas State Teachers' Association his assistance in putting over a progressive program of public education.

Economy was pointed out by Smith as the possible solution to the school finance problems. He does not favor the raising of tax rates if it is possible to avoid it, rather, he would like to see a more business like management of school affairs.

Candidates from all sections of the state are pledging their support of a progressive school program for the ensuing year.

CROP FOR SALE

100 acres cotton, 40 acres feed; good stand and worked out in good shape. 10 head horses, cow, chickens, wagon, all farm implements, 2 houses, 300 acres grass land. For further information see COOK BROS. Over Williams Store. It

A Real Citizen

I like to see a man proud of the place in which he lives. I like to see a man who lives in it so that his place will be proud of him. Be honest, but hate no one; overturn a man's wrong doing, but do not overturn him unless it must be done in overturning the wrong. Stand with a man that stands right. Stand with him while he is right, and part with him when he goes wrong.—Abraham Lincoln. Big Spring needs more citizens that will measure up to this standard.

Episcopal Church

Sunday, June 22. First Sunday after Trinity. 7:30 a. m. Holy Communion. 9:45 a. m. Sunday school. 8:30 p. m. Evening prayer. Rev. F. B. Eteson, Rector.

Miss Zora Fisher resigned her position with the Southwestern Bell Telephone Company this week, and will leave Sunday for Abilene, Texas, where she will attend Draughon's Business College.

Come clean: We have the soap. . . . Cunningham & Philips.

Pepsinated Calomel Is Better than the Old-Time Sickening Kind

It is gentle, imported English Calomel, combined with Pepsin and other helpful ingredients. It is mild but certain, causing no harshness or unpleasantness and will absolutely relieve indigestion, biliousness, bad colds, constipation and sick headaches. And best of all it does it at once—quickly and pleasantly. Take one small tablet at bed-time and you will get up hungry and feeling fine. Recommended by Cunningham & Philips

Ferguson Loses in Texas Ballot Case
Austin, Texas, June 12.—The Special Supreme Court, answering certified questions in the case of J. E. Ferguson, ex-Governor, held that the impeachment was constitutional and legal; that the Senate acted within its constitutional jurisdiction, and that its decision is final, and that as to impeachment it is a court of original, exclusive and final jurisdiction.

It is also held that Mr. Ferguson's resignation as Governor did not prevent the judgment of the high court of impeachment from being carried out, otherwise "it would have been a farce."

This decision holds valid the decree of the court of impeachment which barred the former Governor from holding office in Texas, and, in effect will keep the name of James E. Ferguson off the Democratic ballot.

Old Timers to Rope July 4th

R. E. Slaughter, Joe Stokes, D. W. Christian, Mr. Nance, and other old-time cowmen are to enter the Calf Roping Contest here on July 4th.

All ex-cowmen over fifty years of age are eligible to enter, and the above named challenge cowmen from all surrounding counties to enter for the championship.

The Howard County entrants have the reputation of having swung a mean lariat some thirty years ago, and they insist they can yet give some of the young bucks a few pointers.

Don't miss this contest. It will be worth the money.

Our Own Bodies

"You know the model of your car; You know just what its powers are. You treat it with a deal of care. Nor tax it more than it can bear. But as to self—that's different. Your mechanism may be bent, Your carburetor gone to grass, Your engine just a rusty mass, Your wheels may wobble; your cogs Be hauled over to the dogs. And you skip and skid and slide Without a thought to things inside. What fools, indeed, we mortals be To lavish care upon a care With never a bit of time to see About our machinery."

—John Kendrick Bangs.

A Plan We Should Adopt

The citizens of Lamesa voluntarily subscribed over \$1,000 and presented it to the City Commissioners to purchase more fire fighting equipment.

Here's the way they expressed it: "Realizing that our fire fighting equipment is inadequate we hereby subscribe the amount opposite our names to be used by you in the purchase of and make fire payment on a standard auto pump fire engine."

Do You Know Them?

Mr. Mean-to has a comrade And his name is Didn't-do. Have you ever chanced to meet them? Did they ever call on you? These two fellows work together In the house of Never-Win, And I'm told that it is haunted By the ghost of Might-Have-Been. —The Galley.

Mr. and Mrs. S. H. Hise of Brownwood enroute to Sawtelle, California, to spend the balance of the summer spent a few days here the first of the week on a visit to John Burns and family. Mrs. Hise is a sister of Mr. Burns.

Dyes. . . We have the kind and colors you want. . . . Cunningham & Philips.

The three boys arrested, last week, for entering the Anderson home west of town, gave the officers fictitious addresses as to the residences of their parents, and an effort is being made to find just where they do hail from.

The cost of holding the Democratic primary elections in Howard County is estimated at \$568.00, and the candidates were assessed on a pro rata basis to meet the cost of same.

Take some of our Butler Ice Cream home to the kiddies. — It's pure. Chocolate Shoppe.

Beware of Civil Service "Schools."

Washington, D. C.—The United States Civil Service Commission and the National Vigilance Committee of the Associated Advertising Clubs of the World today issued a joint warning against misleading advertising of many so-called civil-service coaching schools. The following points are emphasized:

No "school of this kind has any connection whatever with the Civil Service Commission or with any other branch of the Government.

No school can give advance information regarding examination questions.

No school can furnish civil-service information of value which can not be obtained without cost from the Civil Service Commission at Washington or its representative at the post office or customhouse in any of approximately 3500 cities.

No school can "guarantee" appointment in the classified civil service. Appointment can be secured only through open competitive examination under the civil-service rules. No school can cause a competitor to be certified for appointment out of the regular order, as determined by his examination rating.

The Civil Service Commission states that large numbers of applications for examination received at its office indicate that many civil-service schools accept as clients and take money from practically illiterate persons who could not possibly pass any kind of examination.

E. L. McKinley, deputy labor commissioner of Arkansas, it is said in the joint warning, recently has investigated correspondence schools of this class and authorizes the statement that he has concluded that the majority of them come as near being "fakes" as the postal laws permit. The "schools" that Mr. McKinley condemns are the ones that offer to qualify persons for civil-service positions or make a professional man of a laborer in a few weeks. Mr. McKinley says that schools which prepare for civil-service examination ranks second to "detective schools" in number.

FOX STRIPLING OFFERS LAND BARGAINS

Prices for next ten days \$15 to \$18 per acre. See me at once if you want a home. Fox Stripling. It-

Cotton Works Lower Under Selling.

Cotton futures worked steadily lower, with occasional feeble rallies, from the bulge last week that followed the publication of the government's condition estimate. From present indications the list is likely to decline somewhat further before even a substantial rally may be looked for. As for a turn in the trend, we do not believe it to be in sight. The declines from last week have ranged from \$13 a bale on July to \$10 a bale on the winter options and almost \$12 on October.

There already has been a quiet hedge selling movement from the South. The lesson of 1920 has not been forgotten. Those who hope and talk for 30 and 40 cent cotton remember that planters who hedged on their crop by selling October or December at 35 to 40 cents in 1920 were able to view with equanimity the remarkably steady improvement from a May 25 condition of 59.234568 to a May 25 condition of 62.4 to 70.7 in June, and a progressive improvement in the crop prospect until it culminated in the yield of 13,500,000 bales—the largest yield in the 19-year period from 1914 to the present, with the poorest May 25 condition report of the same decade.

So while it may be possible to get 35 cents for cotton this year 25 or 26 cents appeals to many who have weighed the various factors in the situation and have not allowed the wish to sire their conclusions.

Attention

Listen, Carnival folks, be at "Y" promptly at five o'clock Friday afternoon, June 20th. Parade will leave "Y" on time for courthouse lawn. Everybody who is in carnival and everybody who is going there to be in parade. Let's make it an unbroken line. Boys and girls come in costume or without. But march in a body. We are going to have even more fun than usual this time. Save up your shakels and come to enjoy it to the limit. See the Fiji Islanders, the coronation group and everything.

C. E. Thomas and family returned the first of the week from an auto trip to, and outing at Christoval.
