FUNDS NEEDED FOR POULTRY SHOW EXPENSE

Indications are That Business Interests Will Respond

The announcement is made public this week that funds to pay expenses of the Slaton poultry show Dec. 1, 2 and 3, are needed, and that the business interests of Slaton will be asked to contribute to the expense fund during the month of November. Expressions from several business men indicate that the sentiment is solid for supporting the show wholeheartedly in a financial way and that it is believed no difficulty will be had in getting cash subscriptions from virtually all business houses and business leaders in Slaton when the requests are made. This is the opinion held by the committee of the Slaton Poultry Association and the Agriculture Committee of the Chamber of Commerce, in whose hands is the responsibility for making the poultry show "go over big."

The show this year will be under direction of the Poultry Association assisted by the Chamber of Commerce.

Actual needs of the show may be seen from the following figures which are furnished The Slatonite this week:

Plans are being made for having at least 800 birds on display in this year's show, and poultrymen declare they believe the number will probably go beyond that figure. Thirty-three varieties of fowls may be entered, and under the scale of awards arranged, the premiums to be paid would total approximately \$1,200.00. New coops and expenses for use of other coops will range from \$225 to \$500, depending upon whether all additional coops needed are bought this year, or that some coops be purchased and others leased for the three days. The latter plan is favored and will be followed if possible, it is announced by leaders.

The total expense of the show will reach anywhere from \$1,425 to \$1,700, according to estimates. Entry fees and rentals of booths will probably offset something like \$400 to \$600 of that amount, leaving a net amount of from \$1,000 to \$1,100 to be raised, according to the nearest estimates the committees have been able to make.

The Poultry Association committee is composed of T. L. Kimmel, chairman and also superintendent of the show, Pierce Youngblood and A. A. DeVore. The Agriculture Committee of the Chamber of Commerce is composed of Fred B. Tudor, chairman, T. R. Cobb, W. P. Florence and I. J. Thornton.

A poultry show catalog will be off the press right soon, and other plans for the show are being completed rapidly.

Armistice Celebration To be Big Event

Plans are going forward and assuming definite shape for a rousing Armistice Day celebration in Slaton November 11. A few years ago the Legislature of Texas declared Novmbr 11 a legal holiday and it is expected that the banks and stores will be closed for a good part of the day.

In the morning the school children will parade and enjoy a patriotic program, with music playing and flags flying. In the evening at the high school auditorium will occur the principal celebration meeting of the day. The Slaton band will meet down town and play, then march to the high school and there render a concert, after which a program of speaking and songs will be rendered.

It is hoped that every ex-service man and his family will be able to join in the celebration, and that every man who wore the uniform in the World War who resides in or about Slaton will wear his uniform and honor badge on that day, but this is by no means compulsory. Their presence is desired because this celebration is in honor of the ex-service man.

Also, the program being a patriotic one, it is hoped that all Boy Scouts in and about Slaton and all the upper grades in a new supply of wool rugs, see them.—Elrod Furniture.

Catholic Women To Serve Annual C. of C. Banquet

The women's organization of the Catholic church of Slaton will have charge of serving the banquet dinner at the annual membership meeting to be held at the Slaton Club House, Tuesday evening, January 10, according to announcement of Chamber of Commerce officials this week. Mrs. J. R. McAtee will supervise the work to be done by the ladies, and the dinner will be served family style, which will probably appeal to the fancy of those who have appetites demanding to be satisfied.

Interest in the annual get-together meeting of the Chamber of Commerce is already high and is growing rapidly, it is said by those in charge of plans for the event, and it is probable that a record-breaking attendance will be had at the gathering, according to predictions now being made.

Further announcement of the details of the meeting are promised at various times between now and the date for the banquet.

New Branch House for Williams Auto Supply

The Williams Auto Supply will open a branch house for handling automobile tires, accessories, etc., in Lubbock on November 1, it is announced. F. V. Williams, senior member of the firm, will be in charge. This will make three retail and wholesale establishments operated by the firm, one here, one at Midland and one at Lubbock. R. T. Williams will be the Slaton manager. Vic Schroeder, formerly of this city, is now actively in charge of the Midland branch.

Oscar Korn, proprietor of the Palace and Custer theatres, was a business visitor to Pyote early this week.

PHONE PLANT WILL BE READY BY YEAR'S END

Entirely Modern Will Be New Service, Manager Says

T. A. White, district manager for the Southwestern Bell Telephone Company, was a Slaton visitor last week end, and while here he stated that his company will, according to present indications, be ready to "cut-over" on the new telephone service by the end of December. This is the original schedule as planned by the company and as announced through these columns on other occasions.

The new, brick office building which is to accommodate the telephone plant was finished several weeks ago. Material is now on the ground for laying underground cables through the business district of Slaton, and actual work on this phase of the project will soon be going on, Mr. White said. In addition to the work on lines, new telephones are to be furnished to all subscribers, and a specially built switchboard of the flashlight type, along with every other modern equipment feature, will be installed in the new building.

The total cost of the work which is being done by the telephone company is estimated at \$77,000.00. When finished, Slaton will have one of the most modern telephone plants to be found in this section of the state, according to Mr. White.

Mr. and Mrs. E. F. Jarman returned Monday from Merkel where they spent several days visiting with their daughter and her family.

A million dollar guarantee of satisfaction stands back of every Detroit Jewel Gas Range.—Elrod Furniture.

classmen of the Slaton schools and of all country schools within reasonable access to Slaton will be present. A raising time is being planned in celebration of one of the biggest events in the history of the world.

A Few Things You Should Know.

With favorable weather until Saturday night, the five cotton gins in Slaton will have turned out more than 1,000 bales of this year's crop.

The telephone company has a large quantity of material on the ground for completing improvements on the Slaton system, and the new service will be ready by the close of this year, it is said by officials.

Poultrymen are predicting that between 800 and 1,000 birds will be on display at the Slaton Poultry Show, Dec. 1, 2 and 3. It is estimated that the 1927 record in the poultry industry here will double that of 1926.

Building permits and public improvements in Slaton this year, including the Santa Fe extensions in the local yards, have already exceeded the half-million mark.

(More Next Week)

Need for Cotton Pickers Rapidly Being Met, Report

According to reports coming from farmers around Slaton and from the Chamber of Commerce, cotton pickers have been coming into the Slaton section in satisfactory numbers during the past several days, and it is believed the demand will be filled without undue inconvenience. The roads have been crowded for several days with trucks and cars load with white people, negroes and Mexicans headed for the Plains country to pick cotton. Slaton farmers have been getting their share of the laborers, it is said.

Letters and newspaper publicity sent out all over the state by the Slaton Chamber of Commerce has played a large part in turning the labor supply toward this section, it is claimed, and besides the benefit coming to farmers right around Slaton, a large part of the South Plains will be benefited by this service rendered by the Chamber of Commerce, the report says.

Chamber of Commerce News Notes

Reported by L. A. WILSON, Secretary. The Southwestern Bell Telephone Company has a large amount of material on hand with which to push forward their improvements on the Slaton system. The new service is to be ready by the close of December, it is stated by officials.

Cotton harvesting is getting in full swing. If weather continues favorable, next week will see gins running at capacity, cotton men say. The 1,000-bale mark should be passed this week by the five Slaton gins.

The Slaton Band is in need of more funds with which to carry on their work. A campaign to raise a larger monthly income is to be made. It is hoped a glad response will be made by citizens of the town who are approached for aid.

Although little has been said of it recently, the Chamber of Commerce is steadily working on the proposition of getting a new hotel for Slaton. The secretary, together with the chairman of the hotel committee, J. T. Overby, have lost no time in doing what could be done, and prospects are now "on their string." It has been difficult during the past two years to make much headway toward getting a new hotel, but conditions seem to be improving so that some real hopes are held for carrying this project to successful completion. If done, however, it will require the combined help of many business men and leaders.

Plans for the poultry show Dec. 1, 2 and 3, are shaping up so well that the committee in charge are highly enthusiastic. It looks as if Slaton will have the best show on the Plains

Mitchell's Men Defeat Olton for Slaton Win, 31-0

Again forgetting how to tread softly, as members of the feline tribe are reputed to do, the Slaton Tigers defeated the Olton high school football team here last Friday afternoon, 31 to 0. Coach Mitchell's aggregation "pawed" the visitors heavily, preventing their dangerous encroachment upon Tiger territory except for one brief moment in the close of the last quarter. And, even then it was not the fault of the team, and netted no advantage for Olton.

In the first quarter, Nichols carried the ball over for the first Tiger score. An attempt to kick goal failed. In the second quarter, Armes was the touchdown hero and a successful try at the goal brought the score to 13 for the home team. Frank Pohl crossed the Olton goal line in the third quarter, and the try for goal failed again, the score standing 19 to 0. Two touchdowns in the fourth for the Tigers, Owens going across once and failing to kick goal, followed by another when a pass from Owens to Nichols was received behind the goal line, and in turn another failure at kicking, left the score 31 to 0 when the final whistle was tooted.

Before the timekeeper's blast sounded, however, the Olton team, completing a successful long pass, advanced to the nearest point for scoring which had been their lot throughout the contest. It was then that the referee penalized Slaton fifteen yards because spectators failed to withdraw from across the sidelines after being commanded by the referee to do so. This brought the visitors within three yards of a touchdown. Two hard drives at Slaton's line put them across, but without a penalty first being called by the umpire. Retreating to Slaton's five-yard line, the delegation again made a short gain by plunging the line. Before another drive could be made, however, time was called and the battle was over.

The Tigers completed several long passes during the game, failing on a very few attempts. The Olton crew, however, should not be considered a weak combination because of their decisive defeat, but instead they were rated by onlookers as a rather strong team, playing against a few bad "breaks" which netted a higher Tiger score.

Coach Mitchell's crew now have the following to their credit for the season: Played Lubbock, a Class A team, to a scoreless tie; beat Plainview, another Class A school, 6 to 0; tied Post 18-13; beat Amherst 44 to 0; and walloped Olton 31 to 0. The latter three teams are in Class B and the games played with them will affect the Tigers in their battle for district honors.

Slaton is scheduled to meet Littlefield at Littlefield, Saturday of this week. A big assortment of mattresses priced from \$6.50 up to the Sealy—Elrod Furniture.

Saturday Fire Destroys Home Of Aged Couple

Fire originating from an oil cook stove broke out at 9 a. m. last Saturday and destroyed the home and its furnishings belonging to Mr. and Mrs. W. M. Savage, 75 and 70 years old, respectively, the former blind for the past four years. The building, situated at the southwest outskirts of the city, was beyond the reach of an available water supply with which the Slaton Fire Department might otherwise have prevented a large part of the loss. Although the fire alarm was sounded and the fire department make a quick run to the scene, no assistance could be rendered. Practically nothing was saved from the burning building and no insurance was carried.

Before the walls of the building had crumbled, spectators at the fire were busy writing checks and making cash donations to a fund for replacement of the old couple's home. This fund was swelled to about \$75.00, and other cash contributions were solicited afterwards. Workmen began Monday morning on a new structure to replace the burned one, and perhaps by this time it is completed. Other funds will probably be required to meet the cost, however, it is said by those taking the lead in the relief work.

Tenth Street Paving Is Making Progress

The paving of the west side of South Tenth Street in front of the residential properties of J. S. Edwards and Dr. S. H. Adams is making good progress. Concrete has been poured and the remainder of the work will be done soon. Contractor M. H. Edwards is in charge of the project. The distance being paved is 110 feet.

SEEK BETTER SUPPORT FOR SLATON BAND

Campaign to be Made For Solid Financial Backing

Realizing the imperative need of placing the Slaton Band organization on a more solid footing financially if it is to have the proper chance to serve Slaton, a campaign for stronger financial support is to be made among the business men of the city next Monday, according to present plans. The circumstances leading up to this decision and the conditions of the band organization in general, follow:

Because of the numerous expressions from various Slaton citizens to the effect that the Slaton Band should be supported stronger financially than it has been in recent months, and in order that some definite information might be had so that intelligent plans might be made to relieve the financial situation confronting the band, Ernest Pogue, director of the band, and Jack Wadley, band manager, were invited to meet with the Board of Directors of the Slaton Chamber of Commerce in their regular meeting last Tuesday evening, there to discuss the situation in a general way.

At Tuesday night's meeting, the discussions revealed that the Slaton Band has a good membership and that it is making splendid progress. Interest among the members is said to be high. The band has recently appeared in the role of public entertainer outside of Slaton, having furnished music one day at the fair held at Lubbock in September, and having made a trip to Post with the Slaton high school football team on Oct. 10. Public concerts at home rendered recently were pointed out Tuesday night as a basis for pride in the home band now felt by the citizenship of the entire city and community.

With the funds received by the band for services rendered at the fair at Lubbock, a new baritone horn has been purchased, according to a report by Messrs. Pogue and Wadley, and the horn is now the property of the Slaton Band. This instrument was badly needed, they said, and its purchase is mentioned to show that actual progress is being made and that the band could be made more efficient in every way if it had the needed financial backing.

GIN REPORTS SHOW GROWTH IN RECEIPTS

Five Slaton Plants Get 699 Bales Up to Tuesday

A steady gain has been recorded in cotton ginnings at the five gins in Slaton during the past few days, ginners reported Wednesday morning. Up to Tuesday night of this week, a total of 699 bales had been ginned here by the five plants. These figures are obtained by counting two round bales as one square bale. That is, there had been the equivalent of 699 square bales ginned up to Tuesday night.

The Tuesday run amounted to a total of 89 bales received by the five gins, according to the reports.

Besides the ginnings of the five gins in Slaton, there are three gins in communities of Slaton's trade territory, one at Union, one at Posey and one at McClung, all of which are getting a large quantity of cotton regularly now. If the total receipts for those three gins were added to those of this city, the figure would be increased at least 50 per cent or more, it is thought.

According to press reports from Lubbock, only 538 bales had been ginned there up to Monday of this week. This is 161 bales less than the Slaton record calculated one day later.

With favorable weather through the week, Slaton gins will have easily passed the 1,000 mark by Saturday, not to mention the receipts at the community gins. This appeared certain, judging by recent daily gains in the number of bales received at local gins.

The cotton now coming in is of exceptionally high grade, according to ginners and other cotton men. If weather conditions remain favorable, the steady stream of cotton coming into Slaton will be greatly increased, as cotton is opening rapidly all over the Slaton trade territory. The supply of pickers seems to be fairly satisfactory.

The price of cotton advanced almost \$5 per bale Tuesday when the ginners' report was published showing 8,118,978 bales ginned up to October 18. This was said to be at least 200,000 bales less than had been expected, and indicated the low government estimate was more nearly accurate than some have believed. At the same time last year, 8,727,709 bales had been ginned. Two years ago at the same date, 9,518,946 bales had been ginned, according to the Tuesday report.

Texas ginnings this season had reached 2,886,822 on Oct. 18.

band for services rendered at the fair at Lubbock, a new baritone horn has been purchased, according to a report by Messrs. Pogue and Wadley, and the horn is now the property of the Slaton Band. This instrument was badly needed, they said, and its purchase is mentioned to show that actual progress is being made and that the band could be made more efficient in every way if it had the needed financial backing.

During recent months, the average income for the support of the band is reported to have been only about \$30 per month. This fund, it is recognized, is entirely inadequate to pay the band director what he is entitled to for his services which are being rendered regularly and consistently for the advancement of the band to a higher point of efficiency and better organization. Besides, there are expenses for music, and occasionally new equipment. The available funds simply will not meet even half the actual needs of the band, it is shown by band members and others interested.

The belief was expressed by Chamber of Commerce directors Tuesday night that the band is a valuable asset to Slaton and that it can be made more valuable with proper support. It is also believed the people are willing to give this needed support if asked to do so. Hence, the decision came that a committee would work to enlist a large number of new contributors to the band fund, and then place the organization "on its feet." Citizens and ready response is looked for, and it is hoped for when citizens make the

SOCIETY

BLUE BONNETT CLUB
The Blue Bonnett Club met at the home of Mrs. Youngblood, Oct. 12th, with Mrs. J. F. Merrill assistant hostess.

After the business meeting a pleasant afternoon was spent in a social way, and a lovely two-course luncheon was served to a large number of members.

The Halloween colors were used in the decorations.

The next meeting will be with Mrs. Roy Cobb, 410 South Ninth St., with Mrs. J. B. Williams assistant hostess. —Reporter.

CITY LINE CLUB
The City Line Club met at the home of Mrs. Williams on Oct 21. Fifteen members and one visitor were present.

Mrs. Fine was present and made a good talk on "Co-Operative Marketing."

All members attended the meeting at the Methodist church in Slaton Saturday. The Lubbock County clubs meet Saturday. The next meeting December 1, will be with Mrs. Gene Wilson. —Reporter.

WEDNESDAY STUDY CLUB
The Wednesday Study Club met Oct. 19 at the home of Mrs. David Tudor, with Mrs. Dick Ragsdale as leader of the novel "Black April," by Julia Peterkin.

Mrs. Green gave us the current events. The story was told by Miss Bailey. Passages of Emotional Value, by Mrs. Peavy. Life of Black April and Joy, by Mrs. Scudder.

After the lesson a lovely two-course lunch was served. —Reporter.

METHODIST MISSIONARY
The Woman's Missionary Society met in the church Monday afternoon. Devotional—Led by Mrs. Adams. The ideal Christian home—illustrated by Mrs. J. H. Brewer, who led the mission study program. Subject: "The Straight Way Toward Tomorrow."

Mrs. Dickey, Mrs. Ragsdale and Mrs. Fred Whitehead gave splendid talks on homes as the starting point of Christian character building.

Monday, Oct. 31, Mrs. Dick Ragsdale and others will entertain at 2:30 p. m. at the church the Missionary Societies of this zone which include Post, Dixie, Wilson, Southland, Union, Vada Gillilan, Garlynn.

All members are requested to be present next Sunday afternoon. Mrs. Adams and other members are invited to New Hope to organize a missionary society.

WEST WARD P. T. A.
West Ward P. T. A. met in regular session Thursday, Oct. 20. The following program was rendered:

"Harvest Blessings"—Pupils of Miss Hardesty and Miss Bullock, grades 2 and 3.

Piano solo—Crystelle Scudder. Reading—Oleta Coulston. Piano Solo—Virginia Sanders.

The next meeting will be held Thursday, 3:30 p. m., Nov. 3. The following program will be given:

"An Autumn Fancy" Grade low 4, pupils of Mrs. Mitchell.

Reading—Maryeta Tudor. Two violin choirs—Miss Guffin. Reading—Docia Tucker.

Mothers, don't you think it wise to know your child's teacher? Come to P. T. A. and get acquainted. —Reporter.

PRESBYTERIAN AUXILIARY
The Presbyterian Ladies' Auxiliary met on Monday afternoon at the home of Mrs. Clifford Simmons.

An interesting Bible study was led by Mrs. W. Donald, after which the president, Mrs. Zeph Fogerson, appointed Mrs. Donald as permanent Bible study director.

The next meeting of the society will be with Mrs. W. Donald, Eleventh St., on Monday, Nov. 7. All members are urged to attend, and it has been suggested that the meeting time would be an appropriate time for paying dues.

Those who met with Mrs. Simmons were: Mesdames. Zeph Fogerson, N. A. Stuart, W. F. Maxey, J. W. Henry, Ernest Pogue, W. L. Cherry, Clifford Simmons, W. Donald, F. A. Donnell, R. W. Amick, C. L. Pack, S. A. Peavy and K. L. Scudder.

J. S. Welch and son, W. G., of near Hillsboro, in Hill county, were here this week visiting with the former's niece, Mrs. L. M. Williams, and family.

Rev. T. J. Berry and family are moving here this week from Clovis, N. M. It is stated, and will be at home in the Dr. C. A. Smith residence on G 12th St. Williams Transfer and Storage, of Slaton, moved the household goods of the Rev. Berry.

CORSETS CREATE A CHANGE IN WAISTS

Wanted—six girls, who:
Have long hair—
Slim waists—
Are quite tall—
Well rounded—
And extremely beautiful.
Search began some months ago for the type of girl that went out of fashion with mutton-legged sleeves, key-wind watches and ankle-length skirts. They were needed for a sequence in Hector Turnbull's Paramount comedy.

A SPLENDID FEELING
That tired, half-sick, discouraged feeling caused by a torpid liver and constipated bowels can be gotten rid of with surprising promptness by using Herbine. "Casey at the Bat," which stars Wallace Beery and comes to the Palace theatre, Slaton, Saturday matinee and night, showing a group of 1800 chorus girls going through their intricate steps.
Although more than fifty aspirants were interviewed and measured, only one eligible was easily found, Iris Stuart, the magazine cover model, who recently completed a supporting role in Bebe Daniels' "Stranded in Paris." The chief objection to most of the applicants, it is said, was due to the size of their waists. In that "hour-glass" figures were popular at the time, none of the waists, to be correct could measure more than eighteen inches. And the casting office discovered that few modern girls have waistlines of less than twenty-four inches.

Entered as second class mail matter at the postoffice at Slaton, Texas.

An Oklahoma man announces himself for President of the whole U. S., upon a platform to abolish penitentiaries within his first four year term. The trouble is, however, that most of those out of the pen don't want the thing abolished and those in cannot vote.

As the autumn leaves begin to turn scarlet tourists are returning home from the watering places. It should be explained, however, that water at a watering place is used principally as a chaser the morning after the night before.

There is a bigger difference between being curt and courteous than in the two words expressing those qualities.

Reports of the trial of Mr. Fall that is now in progress at the nation's capital lead us to believe that the poor fellow is pleading loudly for justice and praying silently that he can avoid it.

As further proof that there is nothing in a name, most men who are recreant to duty eventually fall, just the same as do those who carry through life the name of Fall.

We have at last minutely analyzed the whole political situation and it is all as clear to us now as midnight. It simply amounts to this: The Republicans are on the inside looking out; the Democrats are on the outside looking in. The former want to maintain the status quo and the latter do not. That makes it clear, doesn't it? It does.

A news article says that Labor plans to get its share of the profits. Yes, it's been doing that many years, but doesn't seem ever to get its plans completed.

Never is this country so restless as when there is a big surplus in the Treasury. It takes Texas governmental methods to insure a deficit and thereby maintain a condition of normalcy and a spirit of contentment.

If cotton prices just have to come down we hope they will use the parachute and not try a nose dive.

We offer an embroidered leather medal to the farmer who can tell us all the mighty forces, lesser forces, and little forces at work to beat him down on his cotton grades and prices while he is dragging his sack and gathering in the fleecy staple for the vultures that will prey on his pocket-book the minute he undertakes to sell.

Virtually all politicians during the campaign are in favor of what everyone of us wants, but it is only after the election that we really discover how strongly they favor it.

THE NEGRO QUESTION "UP NORTH"

Some days ago up in Gary, Indiana, 1400 white high school pupils went on a strike because the school authorities permitted an even two dozen negro children to occupy seats in the same class rooms and to recite lessons with the whites. It is a long story of high feeling, hot blood, race prejudice, threatened violence, and with the outcome just as would be expected. The whites won.

The incident is one of deep significance. Some so-called highbrows ridiculed the authorities for yielding to the demands of the white pupils, "taking dictation from children," as some put it. Others, viewing the scene from afar, cried "Shame! Shame!" at what they branded an exhibition of narrowness on the part of Indiana Caucasians.

But the incident nevertheless is a splendid example of what the "North," that has little or no contact with the Negro, will do when it comes face to face with the race question. It further serves to enable the North to gain a more sympathetic attitude toward the South, and to learn by experience that the South has been brave, honest, intelligent and fearless in grappling with this the most serious and baffling problem in American life.

The white man's nature is everywhere the same. So is the Negro's. In the misfortune of the ages that

the two extremes of the human species, the Caucasian and the Negro, should be thrown together on the same continent and in the same nation, and the same community. It is a tragedy, but the white man who stands face to face with the issue forgets that phase of it and sets himself courageously to provide a modus vivendi. It speaks volumes for the statesmanship of the Southern white man that he has solved the race question in a way so practical as to arouse the admiration of the world, and the prejudice and condemnation of those who fail to understand.

The Southern white man has solved the problem among other reasons because he has been able to teach the Negro his place. The Southern negro knows that race equality and race amalgamation is a vain dream and a delusion. He no longer harbors any ambitions along that line. The Northern negro does, and misguided Northern whites—some, a few—encourage the Negro in that fatal delusion. But when the Northern white finds himself actually facing the possibility of white-black amalgamation, with all its unthinkable consequences, he shudders, revolts, recoils, and rebels with all the vehemence of that pride of race which has ever characterized the Caucasian and which as yet is entirely wanting in the African.

The instinct of race preservation is perhaps an even stronger instinct than is the instinct of self preservation in the individual. White-black amalgamation spells race death. The white man knows it; the black man does not care. The difference is fundamental and elemental. The South long ago hit upon segregation as one effective means of avoiding any temptation to or opportunity for amalgamation. The North, with the same pride of race, at Gary, Indiana, at the first opportunity, instinctively (note the word) began to shun the very appearance of the evil. He who would condemn the whites of Gary in their course just does not know; does not understand; does not comprehend; has not yet had the lightning strike close enough to his own blood, kith, kin and pride.

To condemn the Gary school children in this instance is silly and futile. That the course they took had the full assent of their parents goes without saying. The Councilmen of Gary took up the issue. One of them, a Negro, showed an utter lack of statesmanship by opposing segregation. He said the Council was setting an awful example by yielding to those students. He seems to have had no idea of the bigger, more elemental and fundamental forces at work—forces imbedded in the implacable and inexorable nature of the Anglo Saxon—that instinctively cry out for and demand, at any hazard and at all costs, racial purity, at least a race without any admixture of Hamitic blood.

The North has a few Negro leaders who of late have hinted at a racial war if the white man did not accord to blacks racial equality, and in the next breath they define racial equality as racial amalgamation. And perhaps if such deluded persons, like, for example, Alain Locke, should ever get the upper hand among their kind, such a contest might become a reality. Fool that he is, not to know that the white man would war to the death, and welcome extinction, before he would consent, even in theory, to giving his white daughter in marriage into the arms of "a beck nigger".

But the future holds for this country no such unthinkable catastrophe. The spirit of the white man, as manifested by 1400 white school children at Gary, Indiana, gives assurance of that!

SOMEBODY SAID

SOMEBODY SAID plenty of cotton pickers have been coming to the Slaton section during the past two weeks.

SOMEBODY SAID if the price of cotton doesn't hold up through the marketing period when South Plains farmers are harvesting their crop, then the whole bunch should go to Washington and "have it out" with the politicians and on to New York and give the "bears" a sound "thrashing".

SOMEBODY SAID ignorance is dangerous, but the less a fellow knows about a murder case, the less likely he is to be called as a witness. Also, the more likely he is to be called as a juror.

SOMEBODY SAID if "elder" means "older," then Ruth Elder can thank her lucky stars she has the chance of realizing something on the meaning of her name, instead of meeting her death in the briny waters of the ocean.

SOMEBODY SAID the youth of today are what they are because their parents set the example for them. The statement doesn't contain an intimation of a very great compliment for the young folks or the older ones, either. It all depends on what the young folks actually are.

EXCHANGE SHOTS

OFF THE SUCKER LIST.

There is one man in this State whose name has been taken off the sucker list by mail order houses that have a practice of sending out un-ordered merchandise.

Not long ago this gentleman, a doctor by profession, received a box of neckties with a letter telling him to keep the ties and remit a dollar or return the package. Instead of following the instructions the doctor sat down and sent the house a few pills, enclosing them in a letter telling the receiver that they were recommended for "gall". He also told them the value of the pills was two dollars, and he would give credit for same on the necktie bill and they would need only to remit one dollar.

He was requested to return the ties. The doctor then replied and told the writer that it was a half block to the nearest mail box and that he always charged \$2.50 for leaving the office, so if the writer would send that amount he would mail the ties back to them.

The correspondence was closed when the sender of the ties wrote and told the doctor that he had taken his name off the list.—Colorado Record.

"Tommy, The Blind Tie Man", has had a profitable season in some quarters during recent months, but recently one of those fellows was exposed and found to be a fraud, telling untruths wilfully to deceive the public, and getting his messages to the people through Uncle Sam's postal system. He probably has his eyes open by now, anyway. The doctor referred to in the foregoing gave the tie vendor the right medicine, it worked, it got the needed results. Others can at least return the ties with the postage enclosed for that purpose, provided

they are not doctors who know how to prescribe a better remedy. And, by the way, folks, come to think about it, this is the time of year when fakers are busy everywhere. Better be on your guard if you don't want to be

one of the millions who are swindled in the United States each year, getting absolutely nothing for their money. Keep your eyes open.

For many ages the women in the

mountains of Serbia have washed their hair with sheep shears.

The earliest record of wooden coffins among the English was in A. D. 542 in the burial of King Arthur.

Mid-week services Wednesday evening at 7:30.

"BARGAIN BILL" IN SLATON; STOPPING AT KESSEL'S STORE
"If the use of a little printer's ink will get some results, the use of more ink should get more results," said Bargain Bill, as he was preparing "copy" for the big yard-long circular which is being distributed by the thousands by Kessel's Department store this week. The circular, which was printed by The Slatonite artists, advertises the fact that Bargain Bill has come to Slaton, and is making his headquarters at Kessel's. He will make his formal appearance at the store at 9 a. m. Friday, Oct. 28.
Mr. Kessel states that he wants the people of Slaton and surrounding communities to come around to his store and meet Bargain Bill.

GRAHAM WHITAKER IS PLEASED WITH RESULTS
Another customer has expressed his satisfaction that advertising in The Slatonite pays.
Last week, Graham Whitaker, salesman for the Slaton Motor Co. here, advertised the fact that he had lost an automobile casing.
Soon after The Slatonite was put in

to the mails, and as a direct result of the inexpensive advertisement, according to Mr. Whitaker, his casing was returned to him. The price of a small classified advertisement in The Slatonite is much cheaper than a new tire, The Slatonite customer was convinced.
If you have never used the classified column in this paper, try it.

CLARA BOW'S CAMERA-MAN SAYS, "NEVER AGAIN"
"Rough House Rosie," the new Clara Bow starring comedy, coming to the Palace Theatre, Slaton, Monday and Tuesday, kept James Murray, its chief camera-man, dizzy while it was being produced.
Murray was obliged by director Frank Strayer to put his camera in every conceivable place—on a merry-go-round; on the rear seat of a racing roller coaster; on the seat behind

the set occupied by the colored gentleman in the ball throwing contest; in the middle of a cabaret dance floor and just under the ropes in a prize ring, with a last furious boxing match

being waged about him.
"I'd rather film a war picture than another Clara Bow comedy," Murray declared. "It moves too fast for me."

What more could you want?

HERE at G & J Headquarters you will find tires that are ideally suited to your car and your driving needs. G & J Tires cost you less to buy and run—give you greater service and wear. And in addition, they give the protection of the most efficient non-skid tread known to tire science.

Like Getting a Premium

—On Every Bale

One thing is certain; all cotton must be ginned, and the cost, based upon pounds of seed cotton delivered at the gin, is the same.

But when your cotton is ginned according to principles which produce a better sample and greater turnout, your ginning cost actually is less; you get the equivalent of a large crop of lager yield and higher quality. That means more money for you, as truly as if the ginner had paid you a premium on every bale ginned for you. Such in brief, are the advantages you gain when your cotton is ginned on a

Murray Gin
HIGH SPEED
LOOSE ROLL
AIR BLAST—

A great majority of the Cotton Contest Prize Winners have had their cotton Murray-Ginned for better staple and greater turnout.

Fire Alarms Heard Friday, Saturday

Besides the fire alarm accompanying the blaze which destroyed the home of Mr. and Mrs. W. M. Savage Saturday morning, two other alarms were turned in during Friday and Saturday, one each day.

At noon Friday, the alarm was caused by a fire in the Davis gin, but it was under control with practically no damage before the fire department reached the scene.

An alarm Saturday just an hour following the fire at the Savage home was caused by a smoking oil stove in an office on the second floor of the Garland building. No damage was done, it was said, though the fire department was on hand to render assistance within a very short time after the smoke was discovered.

CAMBRIDGETEAM MEETS TECH IN DEBATE NOV. 19

Men of Cambridge Squad Lead in Various Athletic Sports

Much interest is being shown in the Cambridge-Tech Debate which is to be held in Lubbock on November 19. By the end of the week, Tech's representatives will have been chosen. The subjects from which we are to choose are: "The Power of the Press Has Increased, is Increasing, and Should be Diminished," and "This House is Opposed to Woman".

Either of these subjects will prove to be entertaining and of interest. The English speakers are informal in address and use the discussion type of debate, abounding in wit and their delightful sense of humor.

The personnel of this team of Englishmen who come to us, includes the following persons:

Mr. M. A. B. King-Hamilton, aged 23, whose home is in London, England. In 1923, he went up to Trinity Hall, Cambridge, and in his early undergraduate career, he began to participate in the Union Society's debates, with the result that he attained last March to the office of President, the highest dignity that the Society has to offer. Meanwhile, he fulfilled the athletic promise of his schooldays, playing for his college at all the games in which he had so distinguished himself at Bishop's Stortford. In addition to these, he took up fencing, in which sport he had represented the University upon several occasions, though he was a reserve against Ox-

Retail Merchants Elect 2 Directors

At a meeting of the directors of the Retail Merchants' Association held Monday night, H. G. Sanders and A. G. Taggart were elected as members of the board of directors to replace A. L. Brannon and F. H. Lanham, both of whom have recently severed their business relations here.

The directors voted, also, Monday night to tender their thanks and appreciation to Mrs. Lee Green, secretary of the association, for her splendid management of the recent banquet held at the Club House. Mrs. Green was in charge of the sale of tickets, the planning of the program and the arrangements for serving of the dinner. The Wednesday Study Club was engaged for the latter service.

Greenhouse Being Built West of Main Bldg.

Construction on the college greenhouse began last week. The new building is located just west of the administration building. Shipments of part of the material for the greenhouse was made from New York a week or so ago, and should arrive in Lubbock by the time it is needed.

Need of a greenhouse has been felt for some time; and should prove of great assistance to the Department of Horticulture in growing plants for class instruction.—The Treador.

ford, just missing his 'Blue'. On his return to England he expects to be called to the Bar.

Mr. Herbert Lionel Elvin, aged 22, hails from Buckhurst Hill, a village a few miles from London. His interests extend to those of sport, and he represented his college at Association football, hockey, cricket and other athletics. This year he has been President of the College Athletic Club, and secured his 'Blue' for the University. In politics, Mr. Elvin is a Socialist and a supporter of the Labor Party and for the coming year is Chairman of the University Labor Club.

Mr. Hugh Mackintosh Foot is only 20, and is from Plymouth, Devon. He is a keen carman and is a member of the famous Lady Margaret Boat Club which started Head of the River in the May Races this term. On leaving Cambridge, Mr. Foot intends to take up his father's profession of a solicitor, and probably to take some active part in politics.—The Treador.

EMPLOYMENT OF STUDENTS IS VARIED

Positions of Cook and Truck Driver Rank as Money Makers

Unlike the thousands of other students who are working their ways through the colleges and universities of America, the boys and girls here at Tech had rather wash dishes or sweep floors for their board and room than to try to sell articles where they could make big profits.

Salesmen at Texas Tech are hard to find. Somehow or other they just don't seem to like that kind of work. Instead, they choose such jobs as washing wood work, polishing floors, building chicken coops, mowing lawns, delivering circulars and daily papers, cooking and a number of other similar jobs.

One student is doing good at this kind of work. In addition to his board and room he makes \$65.00 a month besides his tips which usually amount to about \$25.00 in a month's time. This boy works at a hotel doing janitor work and anything else that they decide for him to do.

A girl who is doing housework gets \$5.00 per week in addition to her board

4 Rhodes Candidates To Represent Tech

Four Tech candidates for the Cecil Rhodes Scholarship to Oxford University were announced Thursday, by the Faculty Committee. C. W. Ratliff of Lubbock, Dayle Wallace of Mt. Calm, Guy Carter of Grady, New Mexico, Wilbur Eddleman of Plainview, were the Tech men chosen to compete in the Texas state wide competition for the honor.

—The Treador.

Two boys who are working their way brought their trucks to school with them and have established a transfer business that is yielding good returns. Another boy goes out to the neighboring country schools and gives lessons in band music to the country children during his spare time. Another boy is earning his expenses by working for a newspaper as a special correspondent. Countless boys are working in drug stores as "soda jerkers". Any number of students are doing as many other things to earn their expenses here at school.

Cecil Horne, head of the Employment Bureau, says that the time is coming when student enterprises will be built up that will enable a greater number of students to get employment. Texas Tech hails the working boy or girl who has ambition enough to work for his or her education.—The Treador.

Slaton to Form Post Of American Legion

Plans are underway to organize in Slaton a Post of the American Legion, and it is expected that such an organization will be perfected on Armistice Day, November 11.

Irwin Brewer, Cashier of the First State Bank, is now registering all ex-service men in and about Slaton. He states that already many of the boys have come in and registered, and that he expects to be able to enroll at least 100 names between now and Armistice Day. On that day, about 11 o'clock in the forenoon, and immediately after the high school celebration program is over, all ex-service men are urged to meet at the City Hall for the purpose of perfecting the organization of Slaton Post of the American Legion.

To make this the success that it deserves it is needful that each and every ex-service man who possibly can be present and participate in the meeting, and as early as possible to see Mr. Brewer at the First State Bank and register in a book that has been provided for that purpose.

Dante finished the "Divina Commedia" at about 51.

NEW ARRIVALS IN Men's and Young Men's Clothing THIS WEEK At Payne's Cash Dry Goods and Clothing Store.

"LONG DISTANCE?"

"What will it cost me to talk to my brother in Kansas City?"

The Long Distance operator is glad to answer such questions. Quickly as possible, she looks up the rate to Kansas City and answers the enquirer. She does not hesitate to suggest how his call may be handled with greatest economy.

Soon afterward, perhaps, she tells a business man how he may place several calls at once and have them completed in succession, as he sits at his desk. In that way, he can cover his trading territory, in person, within a few hours.

Or she may be telling a mother how she can keep in touch with a son at school by calling once a week after 8:30 in the evening, when low Station-to-Station rates prevail.

Or she may be talking to you. She will enjoy helping if you will call upon her.

MEMORY'S CHILDREN

By DOUGLAS MALLOCH

WHEN they grow up, the girls, the boys,
And leave us just remembered joys,
No more a voice upon the stair
But only an old echo there,
When they grow up, and far they roam,
Or build another house and home,
Heart-hungry, often we complain;
For all our toil where is our gain?

Well, much we gained. Though only these
We have, we have the memories;
And what makes lovely, lovely age
Is written on some other page,
Some earlier record. Youth must look
Ahead for joy. But age's book
Is filled with pictures of the past
That give us pleasure to the last.

Though children gave us nothing more,
They left within our hearts a store
Of childish prattle, many a kiss
That now perhaps we sadly miss
Yet still we have. However far
This very night our children are,
I'm sure that many treasures stay
That time can never take away.

That is our gain. When they grow up
They leave some joy within the cup
The man may lie him over hills
The woman wander where she will,
But from the cradle of our hearts
No baby ever quite departs.
We have the buds who lose the flowers:
Our children still are always ours.

THE WHY of SUPERSTITIONS

By H. IRVING KING

BACKWARD, FORWARD

THIS is for young ladies still unmarried. Go upstairs backward. Into your chamber backward and get into bed backward. Drink some salt and water and if you dream of some one bringing you a drink of water it will be your future husband. This superstition is quite general in the United States and Canada.

The principal feature of this superstition is the backward movement enjoined. To put one's self in harmony with the world of spirits it is essential to reverse the order proper for the world of the flesh. William Wells Newell, in his introduction to Mrs. Bergen's collection of Current Superstitions, says of superstitions similar to the one under consideration: "There seem to be indications showing an original association of some of these usages with the lower world; such may be the significance of the backward movement. In order to put one's self in connection with the world of darkness it is necessary to reverse the procedure proper for the world of light. This principle, appearing in medieval magic, could also be illustrated from savage custom." But the principle of going backward, the principle of the reverse order, in magic antedates the Middle Ages and its existence among savage tribes would indicate that it was of primitive origin. And it is not necessarily the "powers of darkness" with which connection is established by the backward movement—though in medieval magic such was generally the object; but with the world of spirits generally. The reverse ritual might be called a phase of sympathetic magic, that ruling idea in primitive man's philosophy.

Uncommon Sense

By John Blake

"STORAGE FOR VALUABLES"

IN YOUR imagination print those letters on your forehead. Then arrange to store nothing but valuables behind them.

The valuables are to be found in plenty. You will find them in books, in experience, in conversations with intelligent and educated people.

All you need to do that they may be transferred to the storehouse behind your forehead is to pay attention to what you hear or read—and think about it afterward.

You can, if you choose, read every letter of every word on a printed page, and not, at the end of it, remember anything you have read.

Easy reading is poor reading. Unless your brain is at work stowing away what you have read, the time you spend turning the leaves is wasted.

At the end of a talk with some person who has something worth telling, spend a few minutes thinking it over.

If you do that you will store some of the valuables that have been given you.

Otherwise they will be lost. Good teachers impress on pupils the importance of thinking over lessons or lectures after they have been given.

The reason that really great plays are not forgotten is that they are so impressive that you go back over them in your mind repeatedly, and at last come to remember a great deal of them.

The task of stocking the mind with things that are useful is a really difficult one—but it can be accomplished by concentration.

The alert brain will take in everything that is brought to it by the senses, and stow away a good part of it for after reference.

All that education means is training the brain to remember and to consider what it cannot help seeing and hearing, and to be careful to distinguish between what is useful and what is worthless.

There is no value in painfully learning by rote things which can be readily found in reference books, or in stocking away long lists of detached information.

This makes a lumber room out of your brain, instead of a storehouse.

Somewhere in those mysterious convolutions is abundant room to put an immense amount of knowledge, and to put it where it can be got at when it is wanted.

That sort of mind makes its owner resourceful and competent through his working days, and abundantly able to get pleasure out of life when the working days are over.

Rotarians Debate School Athletics

The subject for debate last Friday at the regular weekly Rotary Club luncheon, "Do athletics in our schools and colleges receive undue attention?" provoked an interesting and lively discussion. It was a subject, it seemed, about which the members have been thinking, and presented a popular and timely topic for consideration.

J. W. Hood and Minter Uzzell contended for the affirmative, and Lam Sene, who was substituted in the place of Floyd Rector who was absent, and W. H. Smith upheld the negative. Many interesting statistics were presented by both sides and the outcome of the argument was undoubtedly close.

Some ten or a dozen members of the Lubbock Rotary Club were guests on this occasion.

Tomorrow, Friday October 28th, the subject is, "The chief benefit I have derived from my membership in the Slaton Rotary Club." Walter E. Olive, H. Frank Miller, J. B. Williams and Bill Johnson will have charge of the program.

FIGHT FILMS RULED LEGAL.

NEW YORK, Oct. 26.—Fight films can be exhibited legally in New York or any other States, according to an opinion Thursday by United States District Court Judge Henry W. Goddard.

Judge Goddard also ruled that exhibitors receiving fight films from persons other than common carriers, or through the mails, may display them without becoming accessories to an off use against the interstate transportation law.

Judge Goddard's ruling was made in answer to questions put to him by the federal grand jury investigating moving pictures of the Dempsey-Tunney bout at Chicago.

Mrs. R. P. Burks returned Friday from Midlothian, in Ellis county, where she visited for several weeks.

Mr. and Mrs. W. R. Steekman left Saturday morning for Hereford, after visiting here for several weeks with their daughter, Mrs. Carl A. Lewis. Mr. Steekman is now regaining his strength following a recent serious operation.

The first permanent Atlantic cable was laid from Valentia Bay, Ireland, to Trinity Bay, N. F., July, 1866.

ADAMS DRY GOODS TO OPEN HERE FRIDAY

The Adams Dry Goods Co., occupying the E. N. Twaddle Bldg., on Texas Ave., next door to The Slatonite office, will open for business at 9 a. m. Friday, Oct. 28, it is announced this week. Large circulars, printed by The Slatonite, are being circulated this week announcing a big sale event for the opening of the store.

For the past several days a sales force have been making preparations for the opening.

Large stocks of merchandise have been received by the store here, it is stated, several truck loads being hauled from Amarillo by the Williams Transfer & Storage here.

Mrs. H. J. Gentry was called to Lockney Monday on account of the illness of her mother there.

Slatonite subscription, \$2.00 per year.

Why We Fit Tillyer Lenses

In a few words, we use this latest optical development because it gives you lenses that have our prescription ground accurately from margin to margin. Ordinary lenses give clear vision only through the center—through the margins, the vision blurs and may cause eyestrain. Drop in, let us explain why Wellsworth Tillyer Lenses are so much better for your eyes.

Dreaded Aches, PAINS Disappeared

"My health had been poor for ten years, before I took Cardui," says Mrs. Anna Cronin, of Rockport, Ind. "I was lifeless and 'no account'. I dragged around day after day, every move an effort, and never feeling the joy of being well.

"At times, I had a dreadful ache across my back, and my sides hurt me. I worried along, sometimes hardly able to leave my bed, but the demands of a growing family had to be attended to; so I would get up, do what was absolutely necessary, and then lie down again.

"One day, someone suggested Cardui to me. I took it for several months, and all the time I was growing stronger, and less nervous. My aches and pains finally disappeared.

"That was two years ago. My improvement has been permanent. The good health, which followed the taking of Cardui, is still with me, so I do not hesitate to recommend it to my friends."

VEGETABLES FOR VITAMINES

(Editor's Note: This is one of the unusual cooking articles by 6 famous cooks.)
Vitamines! What are they? We hear about them on all sides. "They are necessary for normal nutrition, necessary for growth," it is said.

Their chemical nature is not known. But it is an established fact, that when they are lacking in the diet, health suffers. Certain diseases are attributed to this lack—outstandingly rickets.

Vegetables, fruits and milk are rich in vitamins. Spinach and tomatoes contain a higher percentage of vitamins than any other foods.

The Year Around
Can we have plenty of vitamins in the diet the year around? Certainly. And very easily, too. In canned vegetables and fruits, among other things. (Though canning lessens the vitamin content somewhat.)

Mrs. Sarah Tyson Rorer, the Philadelphia cooking expert, gives today a few simple rules for canning vegetables.

"Light your stove first. Put a wash boiler filled with water on one burner, a teakettle on another, and a large pan of water on the third.

"Prepare vegetables by washing, and skinning where this is necessary," Mrs. Rorer says. "Wash the glass jars, adjust rubbers on them, and screw on the tops to test them.

Scald Quickly
"Then open jars, but do not remove the rubbers. Put them with the lids in a pan, and dip over them from the boiler enough water to scald.

"Put the vegetables in a square of cheesecloth, and lower into the pan of boiling water for 15 minutes. Lift, drain, and put into the jars at once.

"Add a teaspoon of salt to each quart jar. Add enough boiling water to fill jar (after vegetables are in). Renew on the top, give jar turn back, and place at once on the rack in the wash boiler or on pan.

"Individual wire holders cost but little and are more easily managed than a solid rack. Wire holder is filled, cover, wait until the water again boils and turn down to low heat."

Mrs. Rorer's Table for Canning

Spinach	15 minutes
Tomatoes, to skin	2 minutes
Asparagus	5 minutes
Green Beans	15 minutes
Beets	25 minutes
Peas	5 minutes
Corn, on cob	3 minutes

Table for Sterilizing

Spinach	2 hours
Tomatoes	1 hour
Asparagus	1 1/2 hours
Green Beans	1 1/2 hours
Beets	2 hours
Peas	2 hours
Corn	4 hours
Chicken	3 hours

What a comfort it is to have a stove which needs no watching. One of the modern long-chimney oil stoves has this advantage. Once you set the flames, they will not vary. You can leave the kitchen, and forget all about this stove.

Fiesta String Beans

Mrs. Belle DeGraf, San Francisco home economics counsellor, suggests a new and pleasing way of cooking string beans. String beans are very rich in vitamins. Mrs. DeGraf's recipe follows:

String and cut beans in two lengthwise. Cook in a boiling salted water in an uncovered saucepan about 25 minutes. Use only enough water to barely cover beans. Drain and season with 1/2 teaspoon salt and a dash of pepper and 1 tablespoon of butter. Set beans aside until sauce is made.

Put 2 egg yolks in a small saucepan, add 2 teaspoons of flour and 1 tablespoon of lemon juice; mix them and add 1 cup of stock. The stock can either be canned consommé, a bouillon cube dissolved in warm water or strained soup stock. Cook over a very low fire until sauce has thickened, then add to hot beans. Too fast or too long cooking will make this sauce curdle.

Beans Au Gratin
Another good dish is one recommended by Miss Lucy G. Allen, principal of the Boston School of Cookery, string beans au gratin.

"Drain a can of stringless beans, and place them on a clean cloth to absorb all moisture," Miss Allen says.

"When well dried, put half of them into a shallow baking dish, season highly with salt and cayenne, sprinkle over the beans three tablespoons of grated cheese, and pour over three tablespoons of heavy cream. Repeat, making two layers and put into the oven to heat and brown about ten minutes.

Glassed Carrots
Miss Allen also gives a recipe for glassed carrots. Carrots also have a high vitamin content.

Wash, scrape and cook five medium carrots. Cut in thin slices. Melt two tablespoons of butter in an enamel pan, add two tablespoons of sugar. Add slices of carrots, and stir well until browned.

Every home with a kitchen pump can now have running hot water! One manufacturer of kerosene hot water heaters has perfected a simple system of connecting the kitchen pump and the heater. By means of a valve connection either hot or cold water can be pumped.

ZELLMAR BROS SHOWS.

Greater Combined Wild Animal Attraction Soon Due.

Zellmar Bros. Greater Combined Trained Wild Animal Shows will present to the public their beautiful spectacular Oriental Pageant, "Arabia," that excels all former efforts in that direction—an awe-inspiring, breath-taking spectacular extravaganza with beautiful women, gorgeous gowns, wonderful jewels, prancing horses and roaring wild animals—thrilling to the senses and dazzling to the eye—a gorgeous and beautiful sight, with all the magnificence of Oriental splendor.

This thrilling and long-to-be-remembered spectacle, with an accompanying and incomparable circus of performing human and animal wonders, will be seen at Slaton on the afternoon and evening of Wednesday, Nov. 2, the two exhibitions being scheduled at 2 and 8 o'clock p. m.

CITATION BY PUBLICATION

The State of Texas,
To the Sheriff or any Constable of
Lubbock County—Greeting:

You are hereby commanded to summon E. T. Murphree by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the County Court of Lubbock County, to be held at the Court House thereof, in Lubbock, Texas, on the 3rd Monday in November, A. D. 1927, the same being the 21st day of November, A. D. 1927, then and there to answer a petition filed in said Court on the 15th day of January, A. D. 1925, in a suit, numbered on the docket of said Court No. 1329, wherein J. M. Rockwell, trading as Rockwell Bros. & Co., is Plaintiff, and L. T. Murphree and E. T. Murphree are Defendants, and said petition alleging On Feb. 1, 1924, defendants executed to plaintiff their promissory note for \$450.00, due October 15, 1924, with interest at 10 per cent per annum and 10 per cent attorney's fees if placed in the hands of an attorney for collection, which note bears following credits: \$103.90 paid Feb. 1, 1924, and \$149.00 paid Nov. 7, 1924, but otherwise due and unpaid, and plaintiff has placed said note in the hands of attorney for collection and contracted to pay such attorney's fees for his services in this behalf a sum in excess of the 10 per cent attorney's fees provided for in said note, and defendants are liable for said attorney's fees. Plaintiff alleges both defendants are insolvent, and heretofore, since institution of this suit, plaintiff sued out attachment and caused one Fordson Tractor, Engine No. 240319, located in Lubbock County, Texas, the property of defendants, to be attached and now holds and claims an attachment lien thereon to secure payment of his debt.

Plaintiff prays for judgment against defendants, jointly and severally, for his debt, principal, interest and attorney's fees, that he be decreed attachment lien on said tractor and for foreclosure thereof and sale of said property as provided by law, for costs, general and special relief, in law and equity.

Herein fail not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Lubbock, Texas, on this the 11th day of October, A. D. 1927.

AMOS H. HOWARD,
Clerk, County Court, Lubbock County, Texas.
(SEAL) 7-4

Union News.

Mrs. Edwin Parker, who has been visiting her parents, Mr. and Mrs. Robert L. Staples, for the past month, has returned to her home in Houston.

Mrs. W. H. Toney has returned home from an extended visit with relatives at San Angelo.

Mr. and Mrs. Odell Johnson and family were guests of relatives at Post last Sunday.

There will be preaching services at the Baptist church next Sunday, Oct. 30, at the eleven o'clock hour, by Rev. Johnson, of Meadow. Everybody invited to attend.

R. V. Mullenix, who is attending the Slaton High School, spent Saturday and Sunday with his parents.

Mr. and Mrs. Jeff Mullenix and children, of Commerce, arrived here last week to help his brother, C. R., gather his cotton crop.

Arthur C. McRae, who has charge of one of the large gins at Shallowater, came in Saturday evening to spend Sunday with his family.

Mrs. Odell Johnson and children were the guests of friends at Post last Saturday.

Prof. B. A. Myers and his mother have gone to Plainview to spend the school intermission with relatives.

BUICK BREAKS SALES RECORDS

Increase Averages 4,000 Cars a Month over Same Period in 1926

Flint, Mich., Oct. 15—Buick sales since the introduction of new models in July have shattered all records in Buick history. C. W. Churchill, general sales manager of the Buick Motor Company, announced today. The July, August and September total this year is 82,953 cars, as compared with 70,941 cars sold during the corresponding period in 1926.

"The average monthly increase during the last three months, over the corresponding period in 1926, amounts to more than 4,000 cars," said Mr. Churchill. "This represents an average increase of 1,000 cars a week, or considerably better than 100 a day."

"When it is recalled that these are retail sales figures, and not mere production totals, such a record seems to us highly significant. It means that the instantaneous public reception of the new Buicks was not a mere flash in the pan, but rather the forerunner of a sustained demand for Buicks, all over the country, based on the recognition that here was such style, comfort and performance as best filled the public's conception of value in a motor car."

Mr. and Mrs. Floyd Pair and son, of the Morgan Community, were the Sunday guests of E. A. Dearing and family.

Joe Wayne, the infant son of Mr. and Mrs. Bob Ussery, died last Saturday morning from spinal meningitis after a two weeks illness. The funeral services were held in the Southland Baptist Church, Rev. Clinton of Lubbock conducting the services, and interment was made in the Southland cemetery. Mr. and Mrs. Ussery have the heartfelt sympathy of the entire community.

The Union school let out last Friday for several weeks, so the children can help their parents in the cotton fields and with the gathering of the feed crops.

F. L. Peterson brought in the first bale to be ginned here last Saturday morning. He was followed in a short time by McDuff Gamble. Both bales weighed over 550 pounds and brought 20c per pound. Mr. C. Davis, manager of the gin, bought them.

Mr. and Mrs. Aaron Ward, of Dublin, and Mrs. Autice Ward and son,

ANIMAL ACTORS PLAY BIG PART IN PROGRAM

Besides the many trained wild animals at the performances of the Zellmar Bros.' Greater Combined Animal Show, which comes to Slaton for one day only, on Wednesday, Nov. 2, there are quite a number of star performers among the animals that are not so ferocious by nature. Prof. Yorke's wire-walking goats and ponies will be seen in all kinds of stunts. Also George E. Engesser's Spivins County Farmyard Circus, introducing sheep, pigs, geese and goats that set the children in an uproar at every

PREVENTS INFECTION

The greatest discovery in flesh healing is the marvelous Borozone, a preparation that comes in liquid and powder form. It is a combination treatment that not only purifies the wound of germs that cause infection but it heals the flesh with extraordinary speed. Bad wounds or cuts which take weeks to heal with the ordinary liniments mend quickly under the powerful influence of this wonderful remedy. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by

CATCHING'S DRUG STORE

performance, for there are few things more ludicrous than a porker when he is trying not to act like a pig. For the convenience of those wishing to purchase their tickets down town to avoid the crowd on the grounds, both general admission and reserved seat tickets can be had at the down-town ticket wagon on show day without increase in prices.

Engineering Publication Carries Word of Tech

The current number of the Engineering News Record of New York carries a two page layout of the Texas Technological College. The article devoted to the college contains pictures of the two main buildings, floor plans of the Textile building and a

good write-up on the school. The article bears the head, "New State Technological College at Lubbock, Texas".

The Southern Memorial Association has offered to any lineal descendant of a Confederate soldier, who is a student in a Texas College or University, a prize of \$100 for a one-act play written around some character or incident of southern history.

Buy a Gas Range
With The
"FRESH AIR" OVEN

A wonderful range!
—yet it costs surprisingly little!

We are taught from childhood that fresh air is the healthy thing to breathe—Why not bake with fresh air? If you use an Estate Gas Range you will bake

and roast with sterilized fresh air. The Estate oven—built like a double boiler—is so constructed with its closed side linings that it gives uniform

heat all over the oven—which means that your cakes and pies will all bake uniformly—the Estate gives perfect baking always. Only Estate offers you a fresh air oven.

All sizes and finishes in stock to select your range from.

SICKLY, FEVERISH CHILDREN

Children suffering from intestinal worms are cross, restless and unhealthy. There are other symptoms, however. If the child is pale, has dark rings under the eyes, bad breath and takes no interest in play, it is almost a certainty that worms are eating away its vitality. The surest remedy for worms is White's Cream Vermifuge. It is positive destruction to the worms but harmless to the child. Price 35c. Sold by

Utilities to Increase Sub-Station Capacity

The Texas Utilities Company will, according to J. A. Elliott, local manager, increase the transformer capacity of their Slaton sub-station by installing three transformers of 150 K. W. capacity to replace the three transformers now used having a capacity each of only 75 K. W. The change will be effected Sunday afternoon, it is announced, and the attention of the public is called to the fact that current will be off from 1 to 5 o'clock Sunday afternoon while the work is in progress. The new transformers will double the "load" capacity for serving Slaton.

CLARA BOW "QUEEN OF LEATHER PUSHERS"

Clara Bow was recently notified by a square-jawed ambassador representing the professional boxing fraternity of Los Angeles and Hollywood that she had been elected "Queen of the Leather Pushers," a fraternity made up of the young men who furnish the main events and preliminaries in the southern California fight stadiums.

The little Paramount star became acquainted with several of the boys who deal in lefts and rights during the filming of her picture, "Rough House Rosie," in which Reed Howes, her leading man, boxes Charles Sullivan, a professional fighter. It was Sullivan who proposed Miss Bow as the fighters' mascot at a meeting of the pugna-cious clan. The picture reaches the Palace theatre, Slaton, next Monday, and will be shown Monday and Tuesday. Arthur Housman, Doris Hill and Douglas Gilmore are co-featured with Howes.

Mrs. S. S. House, Mrs. C. D. Hartman and Mrs. Frank Parish, mother and two sisters of Mrs. O. D. McClintock, arrived here Tuesday from their homes in Wichita Falls, and are spending this week in the McClintock home.

Mrs. A. J. Staggs, of Indiana, is visiting her son, Sam E. Staggs.
