New Machinery Is Bought By City For Street Upkeep

The city commissioners of Slaton have bought a street grading machine from the Idalou precinct, it was announced early this week by city officials. The grader was put into operation here early this week, and, according to officials, is giving the best of service.

The machine was purchased following an investigation by E. Barton, who is at the head of the street maintenance department, and other officials, who reported that, although the machine had been used some in Precinct No. 3, it was in first-class condition and was well worth the price asked.

With the new equipment the street maintenance department can now put Slaton's streets in good condition much quicker following a rain than they could with the equipment they have been compelled to use, city officials stated.

Boy, Seventeen, Admits Killing Two

EASTLAND, Sept. 12. — Clyde Thompson, 17, who resides in the community where the bodies of Lucion and Leon Shook, brothers, were found dead early Tuesday, was spirited out of Eastland late today to escape possible mob violence after he had signed a complete statement in which he admitted shooting the two young men and beating them over the head with a pistol.

Young Thompson declared that, after inducing Woodrow and Thomas Davis, aged 14 and 18 years, to accompany him to the hut of Lucion Shook on a lonely oil lease near Lecray he was surprised to find the two in the house. The elder Shook told Thompson he must accompany him to Thompson's father's place and recover for him a banjo and shotgun which Thompson admitted having stolen from the Shook hut, said the statement. When the three had walked a short distance from the hut Thompson shot both brothers with a pistol he had taken from the Davis boys' father's home, he said.

Woodrow and Thomas Davis are being held in connection with the double killing. Thompson's statement was that they were hidden in a clump of bushes near the hut when the brothers were killed.

The two men were killed about 3 p. m. Friday, said Thompson's statement. He talked freely about the killings showing no nervousness.

"We had gone to the Shook shack Thursday while the occupants were absent and had stolen a banjo and shotgun," said Thompson. Friday evening he went to the home of Sam Davis in the same community and persuaded the Davis boys to go with him to the hut to steal some more things, he continued.

While at the Davis home he obtained a .45-caliber pistol with which the Shook brothers were killed, he said.

Thompson said he went to the shack and that the Davis boys remained in a clump of bushes nearby. He was not aware that Lucion and Leon were in the house but when he entered they accused him of stealing the banjo and shotgun and told him that he had to go with them to Thompson's father's home and produce the stolen articles, the statement continued.

Case of Tetanus Endangers Life of Young Petty Boy

Thomas L., young son of Mr. and Mrs. T. O. Petty, is reported to be in a serious condition at the home of his parents in East Slaton, suffering from a severe case of tetanus, or lockjaw.

The illness of Thomas is said to be the result of his sticking a rusty nail in his foot several weeks ago. The wound was apparently healed, it was thought, until last Sunday when tetanus set in. The patient is receiving the attention of specialists, and it is hoped his condition will be improved.

The New Farm Hand

Wet or Dry? That Is Present Day Issue, Says Forrest, Head of The Anti-Smith Forces in Slaton Precinct

To the people of Slaton and Lubbock County, and all who are interested in the candidacy of Herbert Hoover:

We want to ask you to rally to the cause of increasing the club membership, both ladies and men.

This fight is being made solely on the grounds of wet and dry. It is not of interest to us save only for the preservation of the Volstead Act and the Eighteenth Amendment, both of which Smith declared against, when he made his wire acceptance of the nomination, thereby accepting it with reservations after the platform was made.

He bolted the platform. Are we bound to him? Certainly not. We do not wish to, nor will not raise any question that will tend to divide our people. Our position does not need to be explained. It is too well known on any past issues to make this necessary, but the sole issue now is wet and dry. Shall we stand for the preservation of our boys and girls and the preservation of our prohibition laws or be whipped into party line by the bosses?

They tell us that the president cannot change the prohibition statute. This we all know, but nevertheless the presidential influence will be there if we place Mr. Smith at the head of our nation, and in such event you would hear the cry that the Volstead Act and the Eighteenth Amendment had been repudiated.

They are saying as little as they can about this just now, but trying to raise another issue. We refuse to recognize any other issue for there is none save in the minds of those who would raise this as a scarecrow. We will enter into no personal controversy with anyone opposed to the cause of prohibition. We only want to rally our forces to see the need of leaving no stone unturned that will further our cause, and to say nothing that will leave a personal sting of bitterness. The unity now prevailing among our citizenship is the thing most important to us. We will have to live together after this campaign is a thing of the past, but mothers, fight for the preservation of the laws and for the future of

boy of yours. It is a cause that sinks deeper than politics. It matters not for whom, nor how your fathers voted, nor on which side of the Mason-Dixon line he lived and served, but we are living and serving for a greater America and not for a greater party in politics.

We are not making an appeal to any who desire to support the Democratic nominee to not do so, but our appeal is to those Democrats of long standing who cannot and will not support Mr. Smith to come out and vote their choice between the two candidates. The opposition will say to you to stay away from the polls, not vote, go fishing that day, but are we serving our country when we neglect this duty? A negative policy is a half vote for Smith. If those who are opposed to his election will come out and cast their votes he will be largely defeated.

We are living and serving to raise the present generation to higher ideals and nobler service, to lose no ground that we have gained. Shall party greed or love for office sway us? Shall sectionalism, or a desire to hold the solid South in line be placed above the interest of our nation and our homes? No, a thousand times no!

S. S. Forrest.

Oldsmobile Agents Receive New Cars

Yesterday the Slaton Oldsmobile Company received a solid carload of the new model Oldsmobile cars, according to L. T. (Chick) Garland, senior member and manager of the firm. Mr. Garland states the new cars are on display at Garland's Service Station, at the intersection of Panhandle Avenue and Garza Street.

Oldsmobile cars are products of General Motors Corporation, and are gaining wide popularity in the motor world. Mr. Garland invites the public to call at Garland's Service Station and look over the new models.

Beauty of Caverns At Carlsbad To Be Theme for Sermon

After a trip to Carlsbad, N. M., this week, where he visited for a second time the Carlsbad Caverns, located thirty miles from Carlsbad, Rev. B. G. Holloway, pastor of the First Baptist Church here, has announced that he will devote his sermon Sunday morning to a discussion of the beauties of the caverns, weaving into the sermon certain appropriate Scriptures which will be made more impressive by the descriptions of the wonders of the caverns. Rev. Holloway said it is difficult to state exactly how the sermon will be presented, but gives an invitation to everyone to attend the service Sunday morning to hear it personally.

Accompanying Rev. Holloway on the trip to Carlsbad this week were Mr. and Mrs. L. A. Wilson, of this city; M. S. Varnado, of Fort Worth, who directed the music in the Baptist revival which closed last Sunday night, and Rev. J. Ernest Young, pastor of the First Baptist Church at Sabinal, Texas, who is a personal friend of Rev. Holloway, and who has been visiting in his home here for several days.

All members of the party reported that they were captivated beyond their power of description by the wonderfully impressive beauties of the caverns.

Edmondson's Father Is Visiting Here

S. P. Edmondson, whose home is in Clayton, N. M., is here visiting his son, H. H. Edmondson, who is manager of the Model Dry Goods Company. The senior Mr. Edmondson, who, on Dec. 2, will be 88 years old, is en route home from Washington, D. C., where he visited his older son, A. D. Edmondson, who is 66 years old.

Mr. Edmondson, apparently, is very active for a man of his age, and takes pride in the fact that he is physically able to travel alone. He likes Slaton, he states, adding that it is one of the most attractive towns

Contract For Municipal Building And Fire Station Is Let Monday Night; To Be Occupied in Ninety Days Time

New Building For Scudder Motor Co. On Lubbock Street

Due to the increasing demand for additional room for their sales department, the Scudder Motor Company has let a contract for a building to be erected next door to their present location at the southwest corner of the square, according to a statement made public early this week by K. L. Scudder, manager of the firm.

The new building, which, Mr. Scudder states, will be rushed to completion, is to be of brick and tile, and will have a floor space of 25 by 75 feet. The new compartment of the business is to house the automobile sales divisions of the firm. Mr. Scudder states. Contractor M. O. Napus has been awarded the contract to erect the building, it was stated.

Scudder Motor Company are local distributors for Willys-Knight and Whippet cars, and their sales records for the past few months indicate the expansion of the business.

THE "BOSS" HEARD FROM

A letter from the "boss," T. E. Roderick, publisher of The Slatonite, who is in Kansas City, Mo., in company with Mrs. Roderick, visiting with relatives, indicates they are enjoying themselves splendidly. Mr. Roderick stated it was his pleasure to attend a meeting of the Kansas City, Mo., Rotary Club last weekend, and that he hoped this week to attend the Kansas City, Kans., Club. Mr. Roderick sent his regards to The Slatonite force and to Slatonite readers.

Oil Mill Building Almost Complete

A new seed house, which will have a capacity of approximately 12,500 tons, is now nearing completion for the Slaton Cotton Oil Company. This new building is replacing an older one with much less capacity, according to the manager, Horace Hawkins, who states the new storehouse for cotton seed will be ready for the coming cotton crop.

Baptist W. M. U. Cicles Redistrict

All four circles of the Women's Missionary Union of the Baptist Church met in the home of Mrs. P. G. Stokes in a missionary program, which was enjoyed by all. Then came the social hour, with a watermelon feast. Thirty-seven were present.

Circle No. 1 meets with Mrs. W. T. Driver, Monday at 3 p. m. Circle No. 2 meets with Mrs. E. M. Lott at 3 p. m. Circle No. 3 meets with Mrs. Bowen, and Circle No. 4 meets with Mrs. A. R. Keys at 3 p. m.

The town has been redistricted for the W. M. U., as follows: No. 1, all north of Garza Street. No. 2, from Garza Street south to Division and East to Ninth Street. No. 3 from Division Street south and east to Ninth Street. No. 4, from Garza Street south and west to Ninth Street.

Democrats Will Hold Meeting On Lawn Saturday

Democrats of Slaton and community, who believe in supporting the nominees of their party, will meet at the city hall lawn at about four o'clock tomorrow (Saturday), it was stated yesterday by W. P. Florence, chairman of the Slaton Democratic Club, who states that the meeting will be open to everyone.

It is urged that a large attendance be present, and listen to the public addresses. Attorney R. A. Baldwin will address the gathering, and other speakers will, unless appear on the

Contract for Slaton's new municipal building and fire station was let Monday night, when Mayor W. G. Reese and City Commissioners John T. Loke and J. I. Bradley met in regular session at the city hall and opened bids from various contractors.

J. E. Maxey, contractor, of Lubbock, who is a brother of H. C. Maxey, of Slaton, was the successful bidder, having been given the contract at approximately \$15,000.

Actual construction of the building is to begin within ten days from the time the contract was let, Mayor Reese stated, and its completion is to be reached within ninety days from that time.

The new fire station, which will be located at the southeast corner of the square, is to be a two-story structure, according to specifications, the lower story to be occupied by the fire fighting apparatuses and offices for the fire marshal and fire chief. Club rooms for the Slaton volunteer firemen, and ample living quarters for the fire truck driver and his family will be arranged on the second floor.

The building will be modern in every detail, according to Mayor Reese, who states that every effort is being made to furnish the city with fire-fighting apparatuses and conveniences for volunteer firemen that will take care of the city's needs along those lines for years to come.

Highway Paving May Soon Face Our Taxpayers

Consideration of the proposed bond issue to care for the expense of paving the highways of the county, which was scheduled to be brought up, was not discussed by the county commissioners in their regular meeting Wednesday. Commissioners explained that no action would be taken by the court until a petition signed by local citizens was presented.

It is understood that several local organizations are working on the petition in preparation for a county-wide drive for the bond election.

Petition of G. L. Lowden and eight other citizens of the county, seeking a public road of a second-class, was granted by the commissioners. Mr. Lowden was selected as overseer.

County Judge Nordyke, who has been ill for several days, presided at the Wednesday meeting. — Lubbock Avalanche.

Retail Merchants Directors Meet Mon.

Directors of the Slaton Retail Merchants' Association met at the office of the secretary in the city hall Monday night in regular monthly session. An enthusiastic meeting was held, according to the secretary, Mrs. Lee Green. She states a membership meeting will be held Monday night, Sept. 24. All members of the association are requested to keep this date in mind and attend if possible.

Revival At Union Reported Successful

The revival meeting at Union, conducted by Rev. M. S. Leveridge, pastor of the Methodist Church of Slaton, assisted by Rev. C. C. Logan, pastor of the Lubbock circuit, closed Sunday evening with twelve conversions and reclamations, according to the Rev. Leveridge, who stated that nine of this number united with the Methodist church, and one with the Baptist Church.

At the close of the services Saturday evening the good people of the Union community panted their pastor, Rev. Logan, with groceries and \$49.50 in cash. Rev. Leveridge stated. The revival was reported beneficial to the entire Union community.

PICTORIAL LIFE OF HERBERT HOOVER

No. 15 By Satterfield

1. Back in private life after the war, Hoover returned to California and built a house.

2. His world-wide prestige brought him offers of great business positions, but he refused them.

3. Enthusiastic friends tried to capitalize his popularity by urging him into politics.

4. But Hoover crowned his work for children by organizing May Day as Child Health Day.

FISTS FLY AT DALLAS DEMOCRATIC SESSION

DALLAS. — Flying fists attended the parting of the ways here Tuesday morning of the Smith and anti-Smith factions of Texas Democracy. "Goodby, Tammany!" yelled the bolters, whose seating at the regular convention was denied. "Get out, you Republicans," retorted the regulars. "Tripped the light fantastic on the sidewalks of New York," blared the band, and the audience rocked the rafters with a mighty cheer. Some 15 persons were escorted out of the auditorium by Ranger Captain Tom Hickman and six uniformed Dallas policemen as a consequence of the first fighting which marked the bolt, but so far as could be learned, no formal arrest was made and no one was noticeably injured. Several women participated in the melee and had their hats torn off. A few banners were torn up.

Former Governor O. B. Colquitt led the procession of bolters out of the convention hall. With several hundred in attendance, former State Senator Thomas B. Love of Dallas called the anti-Smith convention to order, in the shade of the Fair Park Coliseum. While the regulars, indoors, were "purging themselves of Hoover Democrats," and going through the routine process of permanently organizing a peaceful convention, the insurrectionaries, outside, were applauding denunciatory speeches and voting by acclamation for caustic resolutions. The regular convention officially declared that "ninety-seven and one-half per cent of the bolters" were not delegates. The bolting convention adopted a resolution pledging loyalty to the Democratic party "insofar as such loyalty is permitted." Picturesque banners were flouted at the bolting convention, where some 300 persons gathered.

Tri-State Fair to Draw Crowds With Free Gate

AMARILLO.—The Tri-State Fair this Fall expects to "pay out" on a novel scheme—"a free gate," the first time such an innovation ever has been attempted in the State of Texas, it is believed.

The 1928 annual Tri-State Fair will be held at the fair grounds here Sept. 22 to 29 inclusive, and in place of the 40,000 who attended last year and paid the usual admission, indications already point to 250,000 visitors and exhibitors next month.

Visitors from this section of the Southwest, under this plan may drive to Amarillo, park in twenty-nine acres of free parking space adjacent to the grounds, see every exhibit and take in much of the entertainment and programs without paying a cent.

Twenty farm exhibit spaces already have been reserved.

Some of the entertainment features procured for the eight days and

nights are Schooley and Collins Winter Garden Revue from Chicago, which will perform every night at the grandstand. This is the revue that will be used at the Dallas Fair.

Leonard Stroud Rodeo will appear each afternoon before the grandstand. Included in the rodeo acts are some of the leading cowboys and cowgirls of the country.

Two interstate high school football games between the now famous and formidable Amarillo Sandies and the fast, powerful high school squads of Norman, Oklahoma's university city, and Oklahoma City, the state's capital. Claude and Pampa are scheduled for a Panhandle high school game on the twenty-eighth.

Oklahoma City and Norman will run special trains here with the teams, fans and pep squads.

Just Like An Ostrich

A medical authority says that a person who tries to cover up skin blemishes and pimples with toilet creams and powders is just as foolish as an ostrich that buries its head in the sand to avoid danger. Skin eruptions are nature's warning that constipation is throwing poisons into your blood stream and weakening your whole constitution. Remove the constipated condition and you will strengthen your system against disease and clear up your disfigured skin. The best way to do this is with a course of Herbine, the vegetable medicine that acts naturally and easily, which you can get at City Drug Store.

Don't Make a Toy Out of Baby
—Babies Have Nerves—
By RUTH BRITAIN

Much of the nervousness in older children can be traced to the overstimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting, and invariably causes irritability, crying or sleeplessness.

Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.

12,350 miles of main track, 1,779 miles of second, third, and fourth main tracks; and 5,627 miles of yard tracks and sidings, or a total of 19,756 track miles.

Santa Fe main lines are ballasted,

A SUCCESSFUL SIX NOW WINNING EVEN GREATER SUCCESS

In the tremendous success which Pontiac Six is enjoying is ample reason for designating this great General Motors car "Chief of the Sixes." Never has any new car risen so rapidly in the estimation of motor car buyers for during the first six months of 1928, over 136,000 Pontiacs were sold—the largest volume ever achieved by any car during the first half of its third year in production! This great public acceptance tells more of what Pontiac offers at \$745 than even the most complete listing of such features as Fisher bodies, 186 cu. in. engine, the G-M-R cylinder head, cross-flow radiator, foot-controlled headlights, coincidental lock, etc., etc.! Come in for a ride today and learn why its sales sweep ever upward.

2-Door Sedan, \$745; Coupe, \$745; Sport Roadster, \$745; Phantom, \$775; Cabriolet, \$795; 4-Door Sedan, \$825; Sport Landau Sedan, \$875. Oakland All-American Six, \$1045 to \$1265. CONSERVATION OF "WOMAN POWER"

Foreign critics who find fault with American waste and extravagance overlook one department of social economy in which we lead the world. There is no other country where so much has been done to release women from household drudgery.

Addressing an audience of women recently, Leod D. Becker, managing director of the Oil Heating Institute, declared that economists are only beginning to recognize the importance of this factor in our national progress. The emancipation of women from monotonous hand labor through the wider use of automatic heating devices, washing machines, vacuum cleaners, improved plumbing, and other household mechanical improvements should double the potentialities of the American people within the present generation.

In the nation's pioneer days hours of the housewife's time were necessarily devoted to keeping the home fires burning. Men cut and piled the wood, but there their work ended. It was the women of the family who built the fires and kept them supplied with fuel. The utilization of coal lightened this task, but in many homes the woman is still the furnace tender, running up and down stairs a dozen times a day to shovel on coal, agitate the grate and regulate drafts.

From the standpoint of the American housewife, the perfection of the automatic oil burner and gas heating systems are as important as the invention of the sewing machine.—Industrial News Bureau.

THE KITCHEN CLUB had a full attendance on the afternoon that it met with Grandmother Lovett, for the members could always be sure of getting from her, new ideas tempered with the experience of fifty years in the kitchen. Grandmother remembered the time when tomatoes were called "love apples," were grown in the front yard as ornaments, and were considered rank poison! Grandmother had raised five sons to stalwart manhood long before calories or vitamins were ever heard of! Grandmother had loved and lived with her family long enough to know that her kitchen had the greatest influence of any room in the house.

"Many a time," she would say, "I'd want to tell Mr. Lovett and the children, 'For goodness' sake, get out of this kitchen and let me do some work!' But I didn't. After all, I was glad they wanted to stay around me and my cooking."

"But, Mrs. Lovett," protested one of the club members, "My husband says he doesn't want me doing the cooking. You don't think a woman should spend her life in drudgery, do you?"

"No, daughter; but look at that fine man and those splendid children; realize that their bones are strong, their blood pure and healthy, their eyes bright, because you're giving them the right sort of food—then you know that your work is not drudgery. It's art."

"Get all the labor-saving devices you can get into your kitchens, girls. Make your kitchens beautiful and easy to work in. But don't begrudge the time you put into them, for you're painting pictures out of flesh and blood, and a whole lifetime isn't too much to give, if necessary. . . Sermon's over, girls. What do you want me to tell you about this afternoon?"

"Left-overs, Mrs. Lovett. What do you do with them?"

"I don't have many," replied Mrs. Lovett. "It's a confession of poor planning if you always have left-overs to contend with. If I have them, I usually put them in the garbage. It's far better to have your family know that they're going to get something good at your table than to give them bread puddings and hashes if they detest them. I'd rather preserve my family's appetite than a little dab of food. Besides, left-overs always call for other ingredients to make them fit to eat, and there's no use in throwing good ingredients after bad. I'll give you a few recipes for left-overs that I have found good, but there's not a bread pudding among them!"

LEAVES FROM NANCY'S KITCHEN CLUB NOTEBOOK

I think we managed to make a modern kitchen for Grandmother Lovett without taking away the delightful home-iness of the one she had. It will have a gray linoleum floor, light-gray walls, white woodwork, light-gray cabinets, refrigerator and table, light-gray chair with a lavender cushion in it, lavender curtains, silver-gray oil stove, lavender lacquered bookcase, a china clock in purple and white, and a foot-stool covered purple.

Keeping Meat Fresh

"We didn't always have ice when I was a young housekeeper," said Grandmother Lovett, "and so we made our meat stay fresh longer in this way: instead of putting it flat in a pan, we set it on a grill, so that it didn't rest in its juices; we covered it, but not tightly."

Left-over Biscuits

Sprinkle cold biscuits with hot water, or dip them in hot water for an instant. Then set in the oven to dry and heat.

Children will love biscuits cut in two, each half with a dab of butter on it, put in a pan with syrup poured over the whole and cooked for a few minutes.

Meat and potatoes in one dish

Meat Omelet

Shred or run through food chopper left-over roast beef or steak. Heat in double boiler or in container over boiling teakettle. Fold into washed potatoes. Make a smooth mound of the mixture, brush it over with white of egg and brown in oven. Mashed potatoes should always be mixed with hot, not cold, milk.

Table on Rollers

"I'm not so fond of taking steps as I used to be," says Mrs. Lovett, "So I had a small table put on rollers. I keep this at my outside kitchen door. The delivery boys put their packages on it without having to come in to the kitchen with their muddy feet. Then I roll it to the refrigerator. At meal time I use it as a table for my dishes."

Chevrolet Co Makes Five Millionth Car

Marking, for the second time within eight months, the passing of a millionth milestone, the Chevrolet Motor Company announced today that the five millionth Chevrolet was produced at the Flint, Mich., plant, Sept. 8. The four millionth car was built Jan. 11, following quickly on the spectacular nation-wide reception accorded the present "Bigger and Better" model.

The early arrival of the five millionth car was in response to a continued demand that has kept Chevrolet plants on a day and night basis since the first of the year and has resulted in the setting of new monthly production records every month this year.

Production for the year promises to go well beyond the million mark and will show more than a 1,000 per cent increase over 1921 when 77,565 cars were built.

The apocah five millionth car was a standard coach and came off the line amid the cheers of a vast army of assembled mechanics who gathered momentarily to see the record maker.

The Racer

I use Champion Spark Plugs because I know I can depend on them—no matter how tough the going.

Champion is the better spark plug because it has an exclusive sili-manite insulator specially treated to withstand the much higher temperatures of the modern high-compression engine. Also a new patented solid copper gasket-seal that remains absolutely gas-tight under high compression. Special analysis electrodes which assure a fixed spark-gap under all driving conditions.

CHAMPION Spark Plugs

Dependable for Every Engine

W. C. ROUNTREE, M. D.

Pellagra A Specialty

If you have any of the following symptoms, I have the remedy, no matter what your trouble has been diagnosed: Nervousness, stomach trouble, loss of weight, loss of sleep, sore mouth, pains in the back and shoulders, peculiar swimming in the head, frothy like phlegm in throat, passing mucous from the bowels, especially after taking purgative, burning feet, brown, rough or yellow skin, burning or itching skin, rash on the hands, face and arms resembling sunburn, habitual constipation, (sometimes alternating with diarrhoea) copper or metallic taste, skin sensitive to sun heat, forgetfulness, despondency and thoughts that you might lose your mind, gums a fiery red and falling away from the teeth, general weakness with loss of energy. If you have these symptoms and have taken all kinds of medicine and still feel my booklet, Questionnaire and FREE Diagnosis. W. C. ROUNTREE, M. D. AUSTIN, TEXAS. BOX 1150.

Doctors Disagree

When children are irritable and peevish, grind their teeth and sleep restlessly, have digestive pains and disturbances, lack of appetite, and have itching eyes, nose and fingers, doctors will not always agree that they are suffering from worms. Many mothers, too, will not believe that their carefully brought up children can have worms. The fact remains that these symptoms will yield, in a great majority of cases, to a few doses of White Cream Vermifuge, the sure expellant of round and pin worms. If you or child has any of these symptoms, try this harmless, old-fashioned remedy, which you can get at 25c per bottle from

City Drug Store.

ing model glide off the line under its own power. Exacting schedule requirements did not permit of any ceremonies and a few seconds later the five millionth car became history, when number 5,000,001 was driven away.

It was pointed out that, whereas it had required a little more than 10 years for Chevrolet to build its millionth car, the last four million were produced in a little more than five years, an indication of the spectacular march that the Chevrolet Motor Company has made in recent years to attain its present position as the world's largest automobile manufacturer. It was shown too, that since January 13, 1927, when the three millionth car was produced, a little less

than 20 months had been required to produce another two million.

This record-breaking production program was in response to the greatest demand in the company's history. During the first six months of this year 60 per cent of all automobiles sold in Chevrolet's price class were Chevrolets. This was an increase over 1927 when Chevrolet outdistanced all competitors by selling 40 per cent of all cars purchased in its price class.

In light of the fact that Chevrolet production is geared to meet the demand, ranking company officials viewed the recent production achievement as a tremendous popular tribute from the motoring public. W. S. Knudsen, president and general man-

ager, stressed the point that precision is the father of speed. He explained that to make such a record possible it was necessary to adhere even more closely to precision manufacturing methods and to make the slightest inaccuracy in workmanship or inspection would increase costs and slow production, he pointed out.

NINETEEN-TWENTY-EIGHT BANNER TELEPHONE YEAR

The year 1928 will mark a new high point in telephone development. At the present time extensions of service and improvements of facilities are be-

ing made to a greater extent than ever before.

A recent announcement states that more than \$11,000,000 in addition to the immense sum already authorized, is to be spent on constructing new long distance facilities. This brings the total to be spent this year on long distance circuits to almost \$50 million, as compared with 36 million spent in 1927.

The telephone industry, by making it simple to talk to persons hundreds or thousands of miles away at small cost, has performed a great social service.

Opportunity Keeps Knocking

Opportunity knocks at every door. They say but once, then knocks no more. How can we believe this adage old Since opportunities we have untold? The world is full of things to do That can and will bring success to you. If you will only think and act, Good judgment use and be exact The First State Bank will gladly be Your every day opportunity.

PERFECTION STOVE COMPANY, DALLAS, TEXAS

DAIRY PREMIUMS AT FAIR INCREASED

In an effort to help encourage the dairy industry on the Plains Panhandle section, officials have increased the premiums in the Jersey department at the Panhandle South Plains Fair more than 66-2-3 per cent and are making plans for the biggest dairy show ever held in West Texas.

Efforts will be made to secure as much dairy stock from the South Plains section as possible and yet the outside professional show herds will also be encouraged to show Plains farmers the best in dairy stock in the Southwest.

The number of premiums offered in every lot in the standard classification have been increased from three to five. This increase was made to encourage local exhibits. The prizes were also made larger. With five prizes in each classification, the local exhibitor is sure to get part of the premium money and he will have the satisfaction of winning in a real show.

Roy B. Davis, county agent of Terry and Gaines counties will serve as superintendent of the dairy department and he is working hand-in-hand with other fair officials to secure as many entries in the department as possible.

The dairy industry is destined to be one of the leading industries on the Plains Panhandle section, many agricultural authorities here believe. Officials of the fair have this opinion and are making this step in an effort to carry out the purpose for which the fair was established years ago, that of helping develop the resources of this great Plains section.

In the fall of 1927, thousands of fair visitors found a big variety of Jersey and Holstein cattle in the livestock barn. The show set a record at the Plains Fair but with premiums almost doubled and with officials of the fair exerting a bigger effort on this department and with a new livestock building to offer the exhibitor, indications point to a much larger dairy cattle show this fall, October 1, 2, 3, 4, 5 and 6.

WORMS MENACING TEXAS POULTRY

When the poultry flock gets to looking dull and unthrifty and the combs and wattles become shriveled, rough and colorless, the flock is more than likely the victim of worms. Such infestations have spread to such an extent that worms are now considered one of the greatest handicaps to profitable poultry production in Texas, and E. N. Holmgreen, poultry specialist in the Texas A. and M. College Extension Service, has made their eradication his major project with county agents for the year.

"A severe infestation," he says, "may altogether stop egg production, for worms slowly poison the birds, inflame their intestines and sometimes completely clog the intestinal tract. Worms so lower the vitality of the flock as to make it the easy prey of such ailments as colds, roup and chicken pox."

Round worms are much more common than tape worms but both species are best controlled by preventive sanitary measures such as sanitation of the soil around poultry premises.

A Great Discovery

When Pasteur discovered, in 1852, that the infection of wounds was caused by malignant bacteria, he performed a service of incalculable value to mankind. Since then medical science has been producing better and better antiseptics, to kill those germs that may enter the smallest cut and give us diseases such as typhoid, tuberculosis and lockjaw. Now, all you have to do to be sure that those dreadful germs will not infect a wound, is to wash that wound, however small, thoroughly with Lignol Boraxone, the modern antiseptic. You can get Liquid Boraxone, in a jar to fit your needs and purse, from City Drug Store.

by plowing at least three times a year; cleaning dropping board weekly and poultry house floors monthly; and by avoiding dirty, sloppy water vessels and wet grounds on the poultry premises. Feed troughs should be designed to keep birds from getting in with their feet and from standing where droppings fall in the feed. Since young stock is more easily and fatally affected than mature birds, brooder houses should be located on grounds separate from the rest of the flock and pullets should be wormed before placing them in the laying houses with the older birds.

"While preventive measures are most effective," Mr. Holmgreen says, "an infected flock may be freed of round worms by mixing two pounds of pulverized tobacco (1 1/2 to 2 per cent nicotine content) with each 100 pounds of mash, and feeding this mixture to the flock for three weeks. The tobacco should then be stopped for three weeks and then fed again for the same period. For tape worms the best remedy is one No. 000 capsule or tablet of kamala to each fowl. For chickens under three months old the dose is reduced one-half and for turkeys two capsules or tablets are given for grown birds and one for poults."

More detailed information as to damage, symptoms, prevention and treatment are contained in C-69, "Common Worms in Poultry," which may be obtained by writing the Extension Service, College Station, Texas.

BODIES OF TWO BROTHERS ARE FOUND NEAR LEERAY

BRECKENRIDGE. — While the mangled bodies of Lucius Shook, 26, and his brother, Leon, 21, lie in an undertaking establishment at Cisco, officers of two counties are endeavoring to solve the mystery of their

deaths. The bodies were discovered Tuesday at Leeray, 18 miles south of here. Officers of both counties, after working all day on the case, have only a slender clue.

The older brother was said to have told a sister, Mrs. Frankie Pierce, Cisco, who he recently visited, that he had found a whisky still near his cabin at Leeray and that the operator at the point of a gun had ordered him to leave the county. Officers are searching for the man thought to have operated the still.

They also are working on the theory that robbery may have been the motive for the double murder. It is said a banjo, clothing and a pistol owned by the younger brother are missing.

An inquest verdict today was that the brothers were murdered.

Lucius Shook was an oil well tender. He lived alone in a cabin in an isolated place. His brother arrived recently to visit him until time for the latter to leave to enter school.

The bodies were found near the cabin by Les Kelly, who lives on a farm near the Shook cabin. They were about 400 yards from the cabin, near the oil well the older brother attended. There was no sign of a struggle. It appeared the young men had been slain elsewhere and their bodies brought there.

The older brother was shot once through the body. Both were so badly beaten that identification was difficult.

Officers believe they had not been dead more than a day for the oil well pump was still working.

The Shook family lives in Stephenville. The brothers are survived by their mother, Mrs. J. E. Shook, and several brothers and sisters.

UPSET

With Stomach Spells

"I have taken Black-Draught ever since I was a child, and can recommend it as a splendid medicine for family use," says Mrs. Cora Maberry, of Sagecyah, Okla. "My mother used it, in bringing up her family, and after I had a home of my own, I continued to use it, as I thought it was good to give the children."

"My children did not mind taking Black-Draught, and so when they got upset with stomach spells, or were constipated, I gave them Black-Draught tea."

"They are all grown now and have homes of their own, but I still keep Black-Draught in the house and use it myself when I wake up in the morning feeling dull and 'headachey', and have a bad taste in my mouth."

In use over 87 years. Price 25c. 6-1103

RESOLUTIONS OF RESPECT
"The honors that I crave when I am gone,
Are that some lonely one may safely say,
When I was wandering wearily along,
He helped me on my way."

IN MEMORY OF
Brother Allan Owen, who died at San Angelo, Texas, Sep. 5, 1928. The Angel of Death has entered our midst and we are called to mourn the loss of a faithful friend and brother.

We cherish his memory tenderly as a true friend and brother. We shall meet him again in a blessed reunion after life's work is over, and greet him in the land where our Heavenly Father has prepared a place of eternal rest for His faithful children, and there we will realize more fully that his work in this life was for Benevolence, Sobriety and Industry, and the Brotherhood of man has not been in vain.

Resolved, that Cap Rock Lodge, No. 892, B. of R. T., of Slaton, Texas, tender the family our deepest sympathy in their affliction, and that a copy of these resolutions be sent to the family.

"THE VALUE OF HIGHWAYS"

"Rome was only as great as her highways," a keen minded historian has pointed out. "He was right," says the Grand Forks, North Dakota, Herald.

"As the roads spread the power and prestige of the nation spread. The Alps were scaled, the territory now occupied by the French republic was covered with a network of hard surfaced highways, and all roads led to Rome.

"The old roads of Caesar's day were built as military roads, of course, but they were used for purposes of the hour and served their end.

"In the United States hard surfaced roads are not needed primarily as military roads, but we are living in the age of the automobile and nobody is going back to the horse and buggy. We travel by motor and move our supplies to a considerable extent by motor. The state with poor roads is behind the times and not abreast with the needs of the age. Progress depends to a considerable extent upon roads and so long as we burn gasoline and travel on rubber this will continue to hold true.

"Is the United States, or any state within the United States, only as great as its highways? An affirmative answer may be a trifle harsh and a bit overdrawn, but at that it would not miss the mark a great deal."

Giron Bradley, who has been connected with a law firm in San Antonio for the past summer, is here visiting his parents, Mr. and Mrs. J. L. Bradley. He and Mrs. Bradley expect to leave soon for Austin, where Giron will receive his L. L. B. degree in June.

Mrs. Percy Olive returned Sunday to her home at Midland, after visiting here with her parents, Mr. and Mrs. J. R. McAttee.

Mrs. Marie Guist is in Chicago taking a graduate course in music at the Chicago Conservatory of Music. She will return home in October.

H. C. Todd of Paris, Texas, has been in Slaton for a few days visiting his brother, R. H. Todd, and family.

Miss Frances Adams will leave Sunday for State University, where she will receive a B. A. degree in June.

Earl F. Wilson is back on the job at the Slaton Oil Company's offices, after enjoying his annual vacation. He and his wife visited the Carlsbad Caverns and other points in New Mexico during their vacation.

Mark Leveridge, of Clovis, N. M., is visiting here with his parents, Rev. and Mrs. M. S. Leveridge.

Houston. — Southern Pacific Railroad will expend \$3,500,000 for construction of new railway station, and \$1,500,000 for land and track changes here.

John Santa Fe

AND HIS Family of Folks

Master Mechanic G. R. Miller returned Tuesday from Topeka, Kans., where he had gone in response to a message stating his mother was very ill.

Mrs. J. J. Neihoff, wife of the general clerk, and daughter returned the first of the week from Glen Rose, where they had been receiving treatment for some time. Each of them is much improved.

Boilermaker C. E. Olson and family are spending their vacation in Chanute, Kans., and other points in that state.

Wrecker Engineer M. A. Grant and family have returned from California, where they spent a two weeks' vacation. They report a very enjoyable trip.

Machinist J. N. Colston and wife spent Sunday with their daughter, Oleta, who is in a sanitarium at Dallas. Miss Oleta is improving as rapidly as can be expected, they state, and she expects to return to Slaton

in a short time.
Machinist Frank Harvey and wife left Slaton Sept. 8 for Riverside, Calif. in response to a message stating his sister was critically ill.

Machinist Helper F. H. Bryon is doing jury duty in Lubbock this week.

Machinist Apprentice Chas. E. Smith, who has been spending a ten-day vacation in Hutchinson, Kans., and other Kansas points, returned to work the first of the week.

The regular monthly shop council meeting was held at 7:30 p. m., Sept. 11, with a large number in attendance. After the regular order of business those present were presented with a watermelon feed by Master Mechanic Miller. Besides the regular members of the different associations present, there was Mr. Corkhill, grand division chairman of the M. of W. for the system, of Topeka, Kans. He made a very interesting address. Also, Safety Supervisor A. R. Tillman was with us.

Car Carpenter B. C. Ehlers, who went to Georgetown several days ago in response to a message stating his mother was very low, has returned and reports that his mother is very much improved in health.

Carman E. G. Carpenter is relieving Carman R. A. Brubham at Bledsoe, for a few days.

Miss Louise Lanham left Thursday for Austin to enter Texas University.

GAS MADE HER CROSS; CAN'T EAT OR SLEEP

"When I ate would bloat up with gas. I couldn't sleep, was cross and nervous. Adlerika has given me real relief."—Mrs. M. Meyer.

Adlerika relieves stomach gas and sourness in TEN minutes. Acting on BOTH upper and lower bowel, it removes old waste matter you never thought was in your system. Let Adlerika give your stomach and bowels a REAL cleansing and see how much better you feel. It will surprise you! City Drug Store.

Santa Fe system lines own and use in the transportation service 2,040 locomotives, 83,000 freight cars, 1,500 passenger train cars, and 5,465 work cars. These locomotives and cars are so diversified in character and capacity as to meet all the requirements of freight and passenger service.

TODAY'S MARKET

The following livestock prices were furnished The Slatonite today by the McDonald Packing Company of Lubbock:

Hogs—Choice butchers \$10.50 to \$11; choice light weights \$10 to \$10.50; choice heavies \$9.75 to \$10.50; packing sows \$8 to \$8.75.

J. R. McAttee left Thursday morning for San Saba. He expects to visit his old home at Berlington, Milam county, also.

Kessel's Store To Close All Day Sat.

Mr. and Mrs. A. Kessel and their sons, Julian, Bertram and Milton, expect to leave Friday evening for Sweetwater, where they will visit with friends, and on Saturday attend services commemorating the Jewish New Year.

Kessel's department store here will be closed all day Saturday, Mr. Kessel stated. It will be open for business early Monday morning.

Building Home On Prize-Winning Lawn

Harvey Arvatin has begun the construction of an English style stucco residence building on his lots on South Ninth Street. The residence is to be strictly modern, according to Austin, who is city secretary, and who took a prize in the recent "Beautiful Lawn" contest, conducted by the Slaton Chamber of Commerce.

JONES DRY GOODS, Inc.

TECH MATADORS TRAINING

LUBBOCK, Sept. 12.—With half a hundred old men in uniform, Coach Ewing Y. Freeland has opened his football training camp on the Texas Technological College grid. With Captain Ransom Walker at the helm, the coaches will put the boys through two hard weeks of work prior to the opening of school Sept. 24. The absence of first year men in the camp is due to the fact that for the first time Tech is enforcing the freshman rule of the Southwestern Conference.

Among other contenders for places are two ex-captains, "Ox" Reed of last year, who will be back at his guard post, and "Red" Carpenter, who was Matador captain two years back, who will perform in one of the tackle positions. "Chubby" DeWitt and "Red" Smith, both powerful guards, are back and will team with Reed to insure a strong defense against opposing line plungers.

Bill McWilliams and Vaughn Corley will fight it out for the pivot position, Corley playing his third year with the Scarlet and Black. Candidates for the tackle positions include such men as "Tough" Vermillion, Westy Westerfelt, and James Tolson. On ends Doc Barfoot, Dennis Vinzant and Jess Lockhart will compete.

For the backfield places there will be plenty of competition with Captain Walker, Volney Hill, Floyd Woodridge, and Elson Archibald, all ball toters of ability in past contests. Other backfield men who are expected to make a good showing are Dude Lassiter, Duck Marr, Buddy Brothers, Levi Walker, Tubby Taylor, Clarence Hodges, and Sid Knowles.

VACATION IS OVER

The glad summer season of play is over for our children, and they are again creeping, as the Immortal Bard of Avon phrased it, "unwillingly to school." Yet not as "unwillingly" as

in the days of the Bard of Avon. Taken by and large it seems to us that school is a rather pleasant place these days.

The days of the rule of the rod are pretty generally over. Teachers of today are sympathetic, interested in the problems of youth. They want to instill knowledge, not to inspire fear.

In addition, new and interesting studies have been added to the curriculum, and in most cities and towns

there is ample provision for healthy recreation in the form of athletics, which are an integral part of the school course.

Educational methods, as well as educators, are progressing so rapidly that in the near future people reading Shakespeare simply won't understand how he came to use that word "unwillingly."

**WILLYS SEES BIG YEAR
AHEAD FOR AUTOMOBILES**

The biggest year in Willys-Overland history with prosperity generally for the automotive industry 1929 was forecast by President John N. Willys of the Willys-Overland Company at a convention in Toledo of the company's Hundred Thousand Dollar Club.

The company, Mr. Willys said, has plans in making looking not only to increased production of Willys-Knight and Whippet cars but to entering the truck business on a large scale.

More than 90 of the company's crack retail salesmen, who sold more than \$100,000 worth of Willys-Overland automobiles during the year, attended the convention of the Hundred Thousand Dollar Club as guests of the company. Members of this club sold more than \$12,000,000 worth of automobiles last year. C. J. Phillips of Toledo leads the field with \$308,000 to his credit.

Members of the club inspected the company's Toledo plants during the first day. Many new buildings have been added and production methods improved to enable the company to

turn out more than 2,000 cars in one day. The company, however, is aggressively planning further expansion.

The star salesmen were taken to Detroit as guests of the sales organization there and later left for Pontiac, where they inspected the Wilson foundry, where the Willys-Knight double sleeve valve engines are built. On the last day of the convention the entire group, with officials of the company, left for Kingsville, Ont., on a special boat, where field sports and special entertainment were featured.

Mr. Willys declared that more Whippet and Willys-Knight cars were sold during the first six months of 1928 than in the entire year of 1927 and that this year would be the greatest in the company's history.

UNION NEWS

We are having fine weather this week. Everyone is very glad to see some dry weather.

Health is fine at this writing. Mr. and Mrs. George Abney have returned from Oklahoma and East Texas. They report a good time. Our school started Monday with

good attendance.

Fred Paton Menyard Smith made a business trip to Post last Wednesday afternoon.

W. B. Smith and wife from Lubbock visited C. N. Smith last Saturday.

Mr. and Mrs. E. A. Dearing and Mrs. Paton went to Idalou last Tuesday, visiting Mr. Dearing's sister.

The meeting closed last Sunday night. It was a great success.

B. T. Ussery and Carl Walters and families went to Morgan last week. Mr. Davis is moving to Union this week.

**GOVERNMENT OWNERSHIP IN
A NUTSHELL**

The weakness of government ownership and operation is the tendency to suppress individual initiative, to hamper it with laws and with rules of departments. It takes off the economic check on expenditures and substitutes only a political check, which is highly unsatisfactory.

When there is no power to levy taxes, the man who has to go to people who are free to give their money or withhold it, must make out a sound

economic case for himself or he doesn't get the money. If he has to make out only a political case, he forces the money from individuals through a tax levy.

That is the whole case of government ownership and operation of industry versus private ownership and operation.

EXTENDING HUMAN PROSPERITY AND HAPPINESS

Supplying electric light and power to a community is not merely a business. It is a public service that forever frees men from the tyranny of excessive burden; that spells the difference between less toil and more comfort; less confinement and more leisure; less poverty and more wealth. It is the measure of human prosperity and happiness.

Every time electrical service is extended, every time there is a new labor-saving device introduced in the home or in the factory, labor is made more useful and productive, the individual is released for those pursuits which make for better government, and civilization is broadened and strengthened.

A GREAT TRIBUTE

The Unknown Soldier, whose tomb is under the Arch of Triumph in France, has received a perfect tribute. Many have been the decorations of that tomb, but none more sincere, none more touching, than that placed on it by the farmers of Rheims.

These farmers, having good crops, deposited a sheaf of wheat ornament-

ed with white grapes on the tomb. The inscription on the tribute was worded as follows:

"From the peasants of Rheims who owe their harvest to your sacrifice."

Howard and C. C. Hoffman expect to leave Friday for Austin, where Howard will enter State University. They will stop at Midland for a short visit with friends.
