

**Arctic Hunters Keep Warm in Pajamas**

When icebergs are crushing a ship in an Arctic sea it is possible to keep warm in pajamas or underclothing. Sidney Snow, famous explorer, says so in his diary of a trip into the frozen north to discover the fate of the missing members of the Stefansson expedition.

When the scraping and bumping began the captain ordered everybody on deck. He had on a union suit and a pair of boots and climbed into the rigging. The engineer wore pajamas. Others were similarly attired, but they were too busy to feel a chill.

It was one of the near tragedies with a touch of comedy which makes "The Great White North," which comes to the Palace Theatre Friday, March 29.

This show will be screened for the benefit of the Slaton High School girls' basket ball team.

**"Buy at Home" Campaigns Suggested By Retail Merchants Ass'n of Texas**

Timely suggestions as to how to conduct "Buy at Home" campaigns have been sent to the Slaton Retail Merchants Association, by the Retail Merchants Association, of Texas, with headquarters at San Antonio. Some of the suggestions are as follows:

A campaign of this kind can only be successful if the merchants of the town co-operate and get behind the movement whole-heartedly and with determination to win. A plan of action should be outlined in advance but it is not necessary to spend a large amount of money. We feel that the following suggestions may be helpful.

Maintain a good, active Retail Merchants Association and boost your home town, boost everything your town produces, everything it has for sale and everything that is connected with it.

Agree upon a slogan, have it printed and displayed in the stores, as for instance, "Buy it in Slaton, patronize your home merchants and your industries". Stick a sign of this on every show-window, in front of the post-office, the city hall and every other public place.

Use your slogan in all your advertising, get your local paper full of advertising and mention your "Buy at Home" slogan in every advertisement. Run a buy at home advertisement in your newspaper from time to time as you find it necessary or convenient and your editor will back it up in the news columns.

Print your slogan on all of your letterheads, on your billheads, and envelopes and print it on every piece of literature you are sending out to your customers.

Have a speaker at all of your big gatherings to make a few remarks on the advantages of buying at home.

urge your citizens to back up the movement and help to build up the community by patronizing home business and home merchants.

Make arrangements with the ministers of your churches to back up the movement whenever an opportunity presents itself, they will be glad to co-operate with you.

Do not forget to make your stores attractive. Attractive show-windows and attractive store entrances, newly painted and varnished store fixtures, clean floors and clean walls help a great deal to bring business, to attract customers and to hold them.

Arrange for the necessary accommodations of the shopping public, as for instance, fresh drinking water, convenient seats for resting, rest rooms, etc.

Efficiency on the part of the sales force and the business management is, of course, one of the principal factors for success.

**Industry Looks to Smaller Communities**

There is at present an unprecedented opportunity for the smaller city and town to prosper and develop, through the acquisition of suitable industries. Manufacturers of all sorts of commodities are becoming eager to enjoy the advantages of plentiful labor, low overhead and unbounded space which the great cities cannot provide.

Bonnors Ferry, Idaho, a town of some 2,000 population, is a good illustration of how civic spirit should manifest itself. It wants a pulp and paper mill and is making intensive efforts to interest the industry. The town offers proximity to a perpetual supply of pulp wood, unexcelled water and rail transportation, an ample supply of high grade lime, plentiful and reasonably priced power and a splendid 40-acre site.

Bonnors Ferry will undoubtedly realize its ambition. It has the requisites and what is equally important—it understands how to "sell" them. It wants prosperity which it knows must result from industrial development. It is in accord with the modern idea of economic and civic progress. And the editor of its local newspaper, The News, is leading its development program.

Other towns would do well to emulate communities which have distinguished themselves by their progressiveness. The old illusion that wealth accumulates only in large cities has been exploded. More and more great industries are turning their backs upon crowded metropolises in favor of smaller communities.

**You Answer It.**

"Father, freight is goods that are sent by water or land, isn't it?"

"That's right, son."

"Well, then, why is it that freight that goes by ship is called cargo, and when it goes by car it is called shipment?"

And then Johnny wondered why father put on his hat and sauntered outside for the air.

**Mother!**

Child's Best Laxative is "California Fig Syrup"

Hurry Mother! A teaspoonful of "California Fig Syrup" now will thoroughly clean the little bowels and in a few hours you have a well, playful child again. Even if cross, feverish, bilious, constipated or full of cold, children love its pleasant taste.

Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother, you must say "California." Refuse any imitation.

**Proverb:**  
"If Youth Knew What Age Would Crave—It Would Both Get And

**SAVE!"**

YOUTH does "get" but, unfortunately, not always "Saves". Blindly it succumbs to Life's temptations, letting its money slip through its fingers as fast as it comes in—never thinking that those ill-spent dollars some day might be buying the comforts that "old age craves!"

**Slaton State Bank**

**New Buildings Ready For Dairy Show**

Plainview.—The contractors are putting the finishing touches on the carpenter work on the large building which will house the Texas Panhandle Plains Dairy Show at Plainview.

The big building, which is really five buildings joined together, will be absolutely ready in every detail for the show on April 2nd when the doors open. Harrison and Smyth, the contractors, started the work on the building about March first, and by employing as many as forty-eight carpenters at a time are going to be ready to turn the building over before the time allotted for its construction.

All that remains to be done to it is to stucco the entrances of the building and finish up the plaster work on the commercial exhibit room.

**NEW LONG DISTANCE RATES SAVE \$5,000,000**

The telephone users of the nation, including those in Colorado, New Mexico and Wyoming, will save in excess of \$5,000,000 a year as a result of the new long distance rates

which became effective February 1. This is the third rate reduction made by the Bell system in less than three years, the last having been made a little more than a year ago. All classes of distance service are comprehended in the new rate schedules.

**ATTENTION, FARMERS!**

We have a small supply of pure Half & Half cottonseed from the Frederick Seed Farms, of Frederick, Okla. These are high linting and high germination seed. See us at once for the amount you might need, as we have been able to get only a limited supply.

**How to Have Foot Comfort**

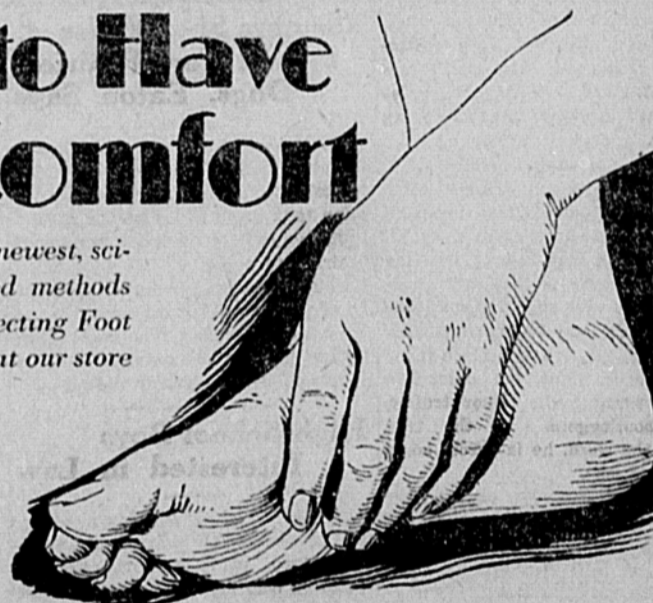

An Exposition of the newest, scientific, most advanced methods of relieving and correcting Foot Troubles will be held at our store

**Saturday, March 30**

How they give Comfort will be explained By an Expert from Chicago

ON the above date we shall have at our store an Expert from the staff of the world's most noted Orthopedic authority, Wm. M. Scholl, M.D., at which time the newest, most advanced scientific methods of correcting foot ailments will be shown and explained.

No matter how painful, difficult or long-standing your foot trouble may be, you will be shown how instantly modern science now brings you foot comfort. This Expert will Pedo-Graph your stockinged feet and show you exactly the nature and extent of your foot trouble. He will then prove to you how the specific Dr. Scholl Foot Comfort Appliance or Remedy made for your particular ailment, relieves you of pain and removes the cause. All this without any charge or obligation to you! Don't miss this opportunity.

**CALLUSES?**  
Dr. Scholl's Zino-pads for Calluses instantly relieve the painful hard growths on the soles. Remove shoe pressure. Positively safe, sure, soothing, healing. 25c box.

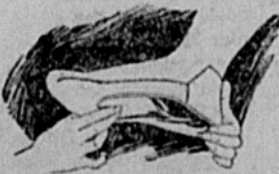

**CORNS?**  
Dr. Scholl's Zino-pads for Corns give instant relief. They remove the cause—friction and pressure of shoes. Tissue cushioning, safe, sure, healing, soothing. 25c box.

**PAIN, CRAMPS, HIVES?**  
Dr. Scholl's Muscular Arch Support removes the cause of callouses, tenderness and cramps at the ball of the foot. Gives immediate contact. Wear in any shoe. 25.00 up.

**SORE, BURNING FEET?**  
Dr. Scholl's Foot-Pain is a delightfully cooling, soothing, healing emollient for sore, swollen, hot, tender, aching or itching feet. Gives instant relief. 25c per jar.

**TIRED, ACHING FEET?**  
Dr. Scholl's Arch Support relieves and corrects tired, aching feet, weak or fallen arches, cramped toes, calluses, tenders, painful heels, etc. Light, comfortable, adjustable. Wear in any shoe. 25.00 to 45.00 per pair.

**BUNIONS?**  
Dr. Scholl's Bunion Reducer relieves pain by removing pressure from the sensitive spot. It reduces the swelling, hides the bunion, and preserves shape of shoe. 25c each.

**CROOKED TOES?**  
Dr. Scholl's Toe-Flex straightens the crooked toe without discomfort by exerting an even outward pressure to the great toe. Builds up the crippled structure. 25c each.

**CYPERT DRY GOODS CO.**

Slaton, Texas

**TO PHYSICIANS**  
You are invited to refer or bring your foot troubled patients to our store during this demonstration. The newest scientific methods of Wm. M. Scholl, M.D., will be fully explained.

### News Shorts Of Towns of Texas

Out of 70 4H Club boys around Big Spring, 25 have decided to buy young Jersey calves from 6 to 12 months old, through cooperation of business men, and have pledged to raise three acres of cotton and two of maize—the cotton to pay off the note on the calf, and the maize to feed the animal.

Five vocational agricultural livestock, dairy and poultry judging teams and pecan budding teams will be sent from Coleman High School to the Agricultural & Mechanical College short course at College Station in April. The winning dairy judging team will be given a trip to Memphis, Tennessee.

A banquet celebrating the 22nd year of the Alfalfa Growers association recently held at Roswell, N. M., brought out the fact that 4,802 tons of hay had been handled up to March 1st of the 1928-1929 season. This organization is worked on a non-profit basis and handles business amounting to \$1,500,000 annually.

A plan to build a 50x90 basket ball court in addition to a commodious stage for the presentation of various shows in a combination gym and auditorium at Dalhart is a plan of the local Lions Club. The Sixth Annual tri-state meet would be one of the first attractions held in the building.

The Manchurian sunflower may form a source of income in the South Plains in the future. One farmer on a Levelland ranch planted 1,600 acres and realized \$25.00 an acre on the seed which are used in poultry feed, and as cooking fat and in the manufacture of varnishes. From 750 to 1200 pounds of seed per acre can be grown which sell for \$100.00 per ton.

The local paper, the chamber of commerce, the business men, and the women's clubs are cooperating in an effort to get a modern, fireproof hotel for Hereford. Contributions are coming in to the committee appointed to get them in an increasing volume.

The winner of the first prize, and a registered heifer calf in the annual fat stock show of the vocational agricultural class of Mertzon, went to Howe Mayse who took them to the Fat Stock Show at Fort Worth. Fourteen other ribbon winning calves were taken to Fort Worth and sold after being distributed.

The farmers short course held in Sweetwater recently, was one of the most successful ventures ever sponsored by the board of city development, business men, and a well known implement company. The program was entirely educational, having lectures, music and picture shows.

Contract has been let for a 40 bed sanitarium at Paducah to cost \$41,490. The structure will be of three stories, of fire proof construction and will be equipped with every modern convenience. The building was made possible by the will of the late W. O. Richards, pioneer ranchman, who gave \$50,000 for the building and \$10,000 on an endowment.

The Brady Chamber of Commerce, under the direction of Carl Blasig, secretary, is planning for prompt action on an airport. A landscape gardener has been obtained to help in a beautification campaign in the town during the coming year.

The March number, which is an Aviation Special, of West Texas Today, official magazine of the West Texas Chamber of Commerce, will be put in the mails this week. Practically every town of importance is covered in the magazine, and specific information about the progress of aviation in West Texas is given in detail.

The program of work of the Burk Burnett Chamber of Commerce, Rex Smith, Secretary, during the year includes purchasing uniforms for the local band, improvements on roads leading into the town, repairs on the approach to the free bridge across the Red River, cotton premiums, and reduction of county tax rate.

Economy should be the watchword when marketing, but it is necessary that the real meaning of the word economy should be understood.

Extreme activity in Wall Street Stock Market has made necessary additions to telephone service in that district amount to \$3,000,000. An entire new exchange will be created.

AN AIR THRILL SCENE FROM "EAGLE OF THE NIGHT" PATHEFRAMA

### Clarke is Veteran Airplane Stuntster

Frank Clarke, veteran stunt flier and the first person to change from one 'plane to another while both were in motion, has joined the thrill makers of Filmiland.

Clarke brings his daring to the latest Patheserial, "Eagle of the Night," a ten-chapter production that bristles with action in the air. Changing from one 'plane to another is a mere incident compared to some of his stunts in the new to-be-continued drama. Clarke brings his 'plane to rest on a moving train, swings from the ground on the tail of a rising plane and climbs to the cockpit; he climbs from a rope ladder suspended from a machine to a speeding automobile and is brought to earth by bullets to live after a terrific crash.

The story is bound up with the invention of apparatus which silences a 'plan's motor and vaporizes gases from the exhaust which cloaks the machine and makes it almost invisible from the ground.

Clarke's supporting cast in "Eagle of the Night" includes names familiar to the film fans for years. These are Earle Metcalfe, Shirley Palmer, Maurice Costello, Josef Swickard, Jack Richardson and Max Hawley.

Direction was by Jimmie Fulton, noted director of thrill films.

"Eagle of the Night" will open at the Palace Theatre, Slaton, starting Friday and Saturday.

Landlady: "I think you had better board elsewhere, if you don't like this here."

Boarder: "Yes, I often had."

Landlady: "Often had what?"

Boarder: "Better board elsewhere."

Them "Good Old Days" London.—Mr. and Mrs. Tom Lovelock of Lynham, in celebrating their golden wedding anniversary, revealed that they were married when Lovelock was making about \$2.50 a week and that shortly afterwards his salary was reduced to \$2.25.

### Nine-Tenths Preventable

Nine-tenths of all the diseases of the American people can be traced directly to constipation, doctors say. Constipation throws into the system poisons which taint and weaken every organ of the body and make them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases, with their consequent pain and financial losses. Herbine, the good old vegetable cathartic, will prevent constipation in a natural, easy and pleasant way. Get a bottle today from City Drug Store, Slaton.

### How to Raise Poultry

By Dr. L. D. LeGear, V. S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

#### ARTICLE III

#### THE CASH VALUE OF CLEANLINESS

Sanitation, by Insuring a Healthy, Productive Flock, Pays Actual Cash Dividends, Says Dr. L. D. LeGear, V. S., of St. Louis, Mo.

Editor's Note—This is another story in a series of 52 stories on poultry raising written by the well known poultry authority, Dr. L. D. LeGear, V. S., of St. Louis. The entire series will appear in this paper. Our readers are urged to read them carefully and clip them out for future reference.

Little Johnny, in his bath, with ears full of soap and soul full of rebellion, undoubtedly has no use whatever for the doctrine that cleanliness is next to Godliness. To him it is just a pain in the neck—a devilish invention of grown-ups to keep a boy from his rightful occupation of play. Left to himself, he will most certainly have as little as possible to do with that particular kind of Godliness.

Most grown-ups recognize the desirability of personal cleanliness and of common sense sanitation in their homes and places of business. It is more comfortable to be clean after one has reached maturity and too inconvenient to suffer the expensive ills that result from unsanitary surroundings. When it comes to their poultry, however, that is quite a different story in all too many instances.

The same man who would recoil in horror from a filth-encrusted dish placed before him on his table allows his fowls to eat and drink from utensils that are no less an offense to decency because they are in the poultry yard instead of a dining room. He will howl his head off if Junior tracks a little mud onto the living room rug, but he will allow droppings, decomposed food materials and other offensive litter to accumulate in his henhouses until they smell to high heaven. He is scrupulously careful about the lawns near his house, but his chicken yard looks like that lower corner of the "south forty"

after the last batch of city picnickers had done their worst to it. Then he wonders why his fowls are such poor layers, look so droopy and dispirited and so readily take on all the ills that chicken flesh is heir to.

The discoveries of Dr. Gorgas in Panama and of Dr. Noguchi, who recently died a martyr to science in Africa, have shown how certain kinds of mosquitos transmit the germs of yellow fever. This suggests that such parasites as lice, fleas, mites, ticks and bedbugs, which so often infect chickens, may also be carriers of disease. There is reason for believing that such is the case, but whether they do not, such parasites cause a heavy drain on the vitality of the fowls. That means decreased ability to block the progress of disease should infection occur from other sources. The simplest kind of sanitary measures will make poultry houses and yards very unhealthy for germs and parasites, so why they should be tolerated is past understanding. Simple cleanliness is the first essential of sanitation. Poultry houses should be made so they can be scrubbed out occasionally and they should be regularly sprayed with coal tar dip and disinfectant.

No animal or vegetable matter should be allowed to remain exposed in yard or house until it begins to decay. All such material should be removed and burned or deeply buried. Be particularly careful so to dispose of fowls or animals that have died from one cause or another.

Drinking vessels and feeding equipment should be watched carefully. All fountains, troughs and hoppers should be so constructed that the fowls cannot get in them with their feet or roost on them, thereby begetting the contents with dirt or droppings. Fresh water should be given at least once a day. All feeding and watering equipment should be thoroughly scrubbed out, scalded or disinfected at frequent intervals.

Droppings are perhaps the most dangerous of all possible sources of infection. They are almost invariably breeding grounds for disease germs and also frequently harbor intestinal worms. These may be picked up by fowls not already affected, thus spreading the evil. Furthermore, nothing could be worse for fowls than to be compelled to roost just above a filthy droppings board. The odors and gasses arising from droppings are extremely unhealthy. Continued breathing of air so contaminated weakens the lungs, thus making easy the progress of any disease which may be contracted later on. Both roosts and droppings board should be frequently cleaned and disinfected, as well as the whole house. It is also advisable to cover the droppings board with wire netting so the fowls cannot get into the droppings with their feet.

Birds that show signs of disease should always be put to themselves and treated until it is safe to return them to the flock. If any considerable number of them show signs of the same trouble, they should all be taken out of the flock and a wholesale clean up should be made; clean out and disinfect all houses and equipment; clean up yards and in every way attempt to remove all possible sources of infection.

Not all of the possible sanitary measures can be discussed in an article of this kind, but some of the most important ones are described above. A good dip and disinfectant used regularly and conscientiously will go a long way toward making disease impossible in your poultry flock, not forgetting the most effective of all—God's own great sterilizers, fresh air and sunshine. It is not as easy to keep things sanitary as it is to let them go to pot, but it does keep down disease and THAT PAYS.

Hens that are healthy, robust strong, free from parasites and disease are better layers, better breeders and are worth more on the market than those that are neglected and compelled to get along as best they can. Maintaining sanitary conditions may mean work, but it is neither

#### 3 Glasses Water Help Constipation

One glass of water is not enough—take three glasses one hour before breakfast. Much better results are obtained by adding a teaspoon of simple glycerin, saline compound (known as Adlerika) to each glass.

Adlerika acts on BOTH upper and lower bowel and removes old waste matter you never thought was in your system. Stops gas and sour stomach in TEN minutes! Relieves constipation in two hours.

"He wanted to know when you'd be back, and I told him not till after lunch."

#### DISTINCTION IS GIVEN

283 A. & M. STUDENTS

COLLEGE STATION, Texas.—A total of 283 students at the A. & M. College of Texas made sufficiently high scholastic records during the first term of the present school year to place them on the list of students eligible for distinction for the session, records from the office of the registrar of the college show. The college regulations require that in order to merit the distinguished rating, a student must fail in none of his work and must show at least sixty grade points, representing a high academic record, for the whole session. It is required that at least twenty-two grade points must be made during the first term.

T. B. Thompson, a junior architectural student, from San Antonio, with a total of 47 grade points, took the lead in scholastic rank for the term. A. D. Martin, Jr., of Bryan, was second with 43½ grade points and M. Montemayer, a student from Mexico, and B. C. Langley, of Bullard, tied for third place with 42.

Seven members of the student body made straight "A's" in all their courses for the term. These include: P. M. Honnell, Dallas; J. F. Konecny, Bryan; D. V. Krumholz, Tyler; J. E. Latta, Tyler; Cody Lentz, Red Rock; M. Montemayer, Jaumave, Tamps., Mexico; and W. W. Taggart, Dallas.

#### KNOW TEXAS.

Texas has 8.8 per cent of the land area of the United States.

Texas population density is 20.9 per square mile, about half the density of population of the entire nation.

The total annual production of crude raw material of Texas averages \$1,500,000,000, approximately seven per cent of that of the United States.

Texas has about 4.5 per cent of the total population of the country, but does only about 1.5 per cent of the country's manufacturing.

MOST people know this absolute antidote for pain, but are you careful to say Bayer when you buy it? And do you always give a glance to see Bayer on the box—and the word *genuine* printed in red? It isn't the genuine Bayer Aspirin without it! A drugstore always has Bayer, with the proven directions tucked in every box:

Aspirin is the trade mark of Bayer Manufacture of Monosaceticacidester of Salicylicacid.

#### Nature Thought of Everything

Nature thought of everything when the human body was made. When the body is about to become ill, nature planned danger signals to warn us. Thus, if our children grind their teeth when they sleep, or lack appetite, or suffer from abdominal pains, or itch about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy a bottle of White's Cream Vermifuge and safely and surely expel the worms. Thus we avoid the danger of very serious trouble. White's Cream Vermifuge costs only 35c a bottle, and can be bought from

By Arthur Brisbane  
**COW MILKING TABLE. STAND OR RUN YOU'RE SHOT. AN OFFER FOR COOLIDGE. WHY NOT LINDBERGH?**

Farmers will be interested in the "fifty cow milking table". The information comes from Dr. J. H. McNeill, Chief of the New Jersey Bureau of Animal Industry. The milking table is devised by the Walker Gordon Company's New Jersey milk farm.

It is a beginning of industrial methods applied to milk production. A huge table like a small "round house" with fifty absolutely clean cow stalls

on it, is made to revolve, slowly. The cow walk on and off, while the table is in motion and soon get used to the new idea.

To each cow an electrical milking device is attached as it enters its stall. At the end of no complete table turning, the cow, milked and "stripped", walks off the table at the spot where it walked on, and is immediately fed.

Feed your cows always after milking. Feeding before milking taints the milk. Cows like the milk mass production idea, the relief of milking, followed by the pleasure of eating, makes a pleasant combination.

The Walker Gordon Company, milking fifteen hundred cows in one of its stables, can use several tables.

Farmers may take their cows to co-operative milking lines, like the production line in an automobile factory. Workmen will stand still, cows slowly passing them, one man cleaning them free of dust by vacuum

cleaner, made by Mr. Wooley of the American Radiator Company.

Another man would wash the cow's udders, another apply the milking machinery, another meet the milked cow, walking off the line to her dinner.

Such a plan, taking the cow to the man, would put milk farming on a modern industrial basis. The average milk farmer would like to get thirty cents a quart for his milk, as Walker Gordon does, instead of \$1.80 for 100 pounds of milk, but that is another problem.

In these days of widespread crime it is difficult to know whether to stand or run.

Henry Lagowitz, seventeen, innocent of evil, coming out of his aunt's house, saw a "plain clothes" detective who for some reason didn't like his looks and told him to stop.

He thought it was a highwayman, and ran. On general principles, the detective shot him. He will recover.

On the high road a man raises his hand, orders a driver to stop. The driver has two guesses. He may be stopped by a highwayman, intent on robbing him, or by a virtuous prohibition enforcement officer, investigating.

The wise thing is to stop and save your life, for in either case you run the risk of being shot.

Mr. Mills, able advertising man, wishes you to know that he has offered President Coolidge \$70,000 a year for four years, to act as general director of a home-furnishing movement.

President Coolidge has bigger offers. Why not offer the home-furnishing job to Colonel Lindbergh, whose mind just now is probably concentrated on that very subject.

## Chinese Eggs Now Menace Our Markets

Chinese eggs are the "cloud like unto a man's hand" which has appeared on the horizon of the poultry industry, the Oklahoma Farmer-Stockman points out in its March 15 issue.

For years Chinese eggs have threatened to interfere seriously with the market of the American poultryman and at times they have had a serious adverse effect upon egg prices in this country.

Egg prices in China are often as low as 5 or 6 cents a dozen. They are seldom higher than 10 to 12 cents a dozen. It is not surprising that the American market for eggs has attractions for this oriental hen fruit.

A tariff of 8 cents a dozen on eggs in the shell, that has prevailed for several years, has been too much of a wall for most of the Chinese eggs to get over. Once in a while, however, they have come to the Pacific coast markets and demoralized prices there for a time. Invariably the other markets take a nose dive when that happens, and the effect is felt all over the country.

The most important effect of Chinese eggs in the American markets is felt in the dried egg and frozen egg trades, which are becoming more and more important as outlets for the eggs produced on American farms. There the Chinese eggs are playing hob with American products.

Present tariffs are 8 cents a dozen on eggs in the shell, 6 cents a pound on frozen eggs, and 18 cents a pound on dried eggs. The poultry organizations are asking for 10 cents a dozen on eggs in the shell, 12 cents a pound on frozen eggs, and a sliding scale on the various forms of dried eggs, running from 30 cents a pound on the yolks to 60 cents on the albumen. They seem to think that this schedule of rates will preserve the American market for American producers.

## And We Thought He Did it With a Saw

Patient: "Awfully sorry to call you out on such a night as this, Doctor, but you see it was a case of necessity."

Doctor: "Oh, that's all right. I have another patient down the road so I can kill two birds with one stone."

A contract has been let for the paving of four and one-half blocks of street in the main business section of Santa Anna. At the time the paving is done the water main will be replaced with an eight inch pipe which will cause the insurance fire rate to be reduced.

### Indian Population In U. S. is 350,000

Washington, D. C.—The Indian population of the United States is roughly estimated by the Department of the Interior at 350,000 persons. Of this number, about 225,000 are in some respects wards of the Government. They are located in twenty-four states and there are something over a hundred jurisdictions. The larger groups of this Indian population are located in the states of Arizona, California, Minnesota, Montana, New Mexico, North Dakota, Oklahoma, South Dakota, Washington, and Wisconsin, with considerable groups in Idaho, Kansas, Michigan, Nebraska, Nevada, Oregon, Utah, and Wyoming. The Government has responsibilities also in connection with groups of Indians in North Carolina, Mississippi and a few additional states.

Dad (to youngster just put to bed): "Now, what are you crying for?"  
Son: "I wanna drink."  
Dad: "So do I; go to sleep."

#### Would You Know One If You Saw It?

If you ever came face to face with a germ, would you recognize it? Of course it is not likely that you ever will see a germ, unless you own a tremendously powerful microscope, for you would have to magnify one over a thousand times to make it as big as a pin head. But you should recognize the fact that these tiny germs can get into your blood streams through the smallest cut, and give you typhoid fever, tuberculosis, lockjaw, blood poisoning, and many more dangerous and perhaps fatal diseases. There is one sure safeguard against these dangers — washing every cut, no matter how small, thoroughly with Liquid Borozone, the safe antiseptic. You can get Liquid Borozone at CITY DRUG STORE

Scene from "The Man Who Laughs" A LACMILE SUPER-SPECIAL PICTURE

**"The Man Who Laughs" Coming Here**

Victor Hugo's immortal romance, "The Man Who Laughs," has at last been made into a motion picture. With infinite effort and at great expense, the Universal Pictures Corporation has translated the stirring story of early English court intrigue into a super-production that mirrors Hugo's unusual and colorful characters and events in gripping scenes. Manager Smith of the Palace Theatre has just completed arrangements for presenting this Universal-Hugo masterpiece to local moving picture fans and Victor Hugo enthusiasts. It will open at the Palace Theatre on Monday for a run of two days.

The filming of "The Man Who Laughs" was sponsored by Carl Laemmle, the same motion picture impresario who brought Hugo's "The Hunchback of Notre Dame" to the screen. The same producer was instrumental in presenting the French-made "Les Miserables" to American screen lovers. Those two photodramas have become screen classics. The new Hugo rendition is expected to be even more of a success, not only with Victor Hugo readers, but with all lovers of gripping drama and colorful romance.

Conrad Veidt and Mary Philbin play the leading roles in "The Man Who Laughs." Veidt is one of the most famous screen stars of Europe. He was brought to America primarily to play the role of Gwynplaine, the Man Who Laughs, in this picture. Miss Philbin is the beautiful girl of such pictures as "Merry Go Round," "The Phantom of the Opera" and "Drums of Love." In "The Man Who Laughs" she is Den, Hugo's blind and lovely heroine.

**A. & M. Herds Win At Fat Stock Show**

COLLEGE STATION.—Winings by livestock exhibited by the A & M College of Texas at the Southwestern Exposition and Fat Stock Show at Fort Worth included championships in each of the four divisions in which the college was represented—cattle, hogs, sheep and horses—as well as a large number of first, second and other place ribbons, reports on the records of the college entries, as cited by D. W. Williams, head of the animal husbandry department, show. Altogether, the college exhibited five carloads of stuff at the exposition.

Fourteen of the prizes winning Aberdeen-Angus, Hereford and Short-horn steers were sold at fancy prices following the showing. The champion Aberdeen-Angus steer, exhibited by the college, was sold to the Southern Pacific railway for dining car service at 45c a pound.

Championships won included: Champion Aberdeen-Angus steer, Grand Champion pen of barrows over all breeds with Hampshires, Champion pen of Berkshires, Champion Hampshire barrow, Champion Tamworth barrow, Champion fine wool wether with Rambouillet yearling, Champion ewes in both B and C type Merinos, Champion C type Rambouillet ewe, Senior and Grand Champion Percheron mare.

Men should be made to take vacations—so they won't get the idea they're indispensable.

If we have a sense of responsibility the world will keep us in harness as long as we live.

**Notes, News and Nonsense.**

Mr. and Mrs. Gordon Pouncey left Tuesday for Nevada, where they will visit the latter's mother, Mrs. R. L. McClindon.

W. R. Wilson, of Slaton, Charlie Musgrove, of Lubbock, and Ward Crim, of Monroe, served as jury commissioners at Lubbock this week.

Mrs. Rodin is at the bedside of her daughter, Mrs. Petty, in Idalou.

Mrs. F. W. Mann, of Van Alstyne, is visiting Dr. and Mrs. A. R. Hill.

Do not stop or hesitate;  
Go on!  
Nothing comes to those who wait;  
Go on!  
Let no cramping sorrow mold you,  
Let no empty pleasures hold you,  
Or the snares of sloth unfold you;  
Go on!

Hold your dream and follow it;  
Go on!  
Do not falter, do not quit;  
Go on!  
Spend no time in useless sighing,  
For your time and life is flying,  
'Til you die, and, after dying  
Go on!

A number of Slaton women attended the zone meeting of the Missionary Society at Garynn Wednesday, among whom were Mesdames Adams, Hightower, Ragsdale, Eckert, Metcalfe, Salmon, Robertson, Darwin, Burke, Margaret Smith-Anderson and Fred Tudor.

W. A. Milborn, of Chicago, was a business visitor here Monday.

Mrs. Jewell Lindley spent Tuesday and Wednesday with friends in Lubbock.

C. J. Sutton, traveling agent from Amarillo, was in town Tuesday.

Mrs. W. R. Wilson and son, Paul, visited the family of Silas Wilson, in Lubbock, Thursday.

H. E. Weisinger and E. G. Sanders, Santa Fe fuel supervisors, of Clovis, N. M., and Amarillo, respectively, were here Wednesday, attending a fuel meeting.

O. H. Watson, of Cherryvale, Kans., is now switching in the local Santa Fe yards.

Father—"Is there anything worse than being old and bent?"  
Son—"Yes—to be young and broke."

Ah, gas in the Club House! Gobb, I say! There has been gas there on many a day, but never before has it been all it should—in honest-to-goodness tangible good!

A sensible suggestion from the Toledo Blade. Try it sometime: Frequent suggestions for making castor oil tasteless are tiresome. The way to take castor oil is to swallow it without hesitation, then lick the spoon in recognition of the triumph of mind over matter.

W. R. Wilson returned Wednesday from Muleshoe, where he had gone to look after his land and other business interests.

Mrs. W. H. Proctor is visiting in Lubbock with her daughter, Mrs. R. J. Murray.

Rev. and Mrs. Webb went to Dallas Monday. Rev. Webb has returned.

**INDIGESTION SPOILS YOUR LIFE**

How to End Stomach Troubles

Although indigestion may not be chronic with many people, it is surprising how even slight pains or feelings of fullness after eating steal much of life's sparkle and happiness. Perhaps you scarcely notice it in the early stages, but remember indigestion never cures itself and usually gets worse. Be on your guard then.

The safest, surest and easiest way to end indigestion, heartburn or flatulence is to take a little "Pape's Diasepsin" after meals or whenever pain is felt. This quickly stops your discomfort by neutralizing excess stomach acid and preventing fermentation, and at the same time soothes, heals and strengthens your delicate stomach lining.

Get a 60-cent package of "Pape's Diasepsin" today—every druggist sells and recommends it, as a sure remedy for stomach troubles. Don't let indigestion spoil your life—you can't have stomach troubles and "Pape's Diasepsin" test!

but his wife has remained there for a visit with their daughter.

Fisk—Can you let me have a week off? I'm all in.

Weatherby—But you just had a two weeks vacation.

Fisk—Yes, that's the trouble. I must have another week to recover.

A. E. Whitehead returned Tuesday from Hereford, where he spent several days on business.—A Correspondent.

C. E. Hicks, manager of the Panhandle Lumber Company's yard here, was a business visitor to Lubbock Wednesday afternoon.

Mr. and Mrs. W. E. Martin and family spent last week-end in Abilene visiting with friends and attending to business matters.

J. L. Osborne, an employe of the Santa Fe here, is leaving for Hope, New Mexico. He is going there for his health, he said. Mr. Osborne has ordered The Slatonite sent to his new address.

Mrs. A. R. Keys and daughter have returned from Lockney, where they visited Mrs. Keys' father, Ira Simpson, who is suffering from injuries sustained in a recent automobile accident. Mrs. Keys states her father's condition is not at all satisfactory.

Mr. and Mrs. W. M. Martindale were in Snyder Sunday visiting with their friends, Mr. and Mrs. Will Faulkner. This was the first meeting of these couples in 33 years, and they doubtless enjoyed the visit heartily. Mr. and Mrs. Faulkner are parents of Duke Faulkner, chef at the Lone Star Cafe here.

Miss Ruby Catching, student at Simmons University, Abilene, is here on a few days' visit with her parents, Mr. and Mrs. G. J. Catching. Mr. Catching drove to Abilene Wednesday to accompany her home. He was accompanied by G. M. Cullar, who went there to visit a son who is in college. Miss Catching expects to return to Abilene Sunday.

Mr. and Mrs. A. L. Robertson and Mr. and Mrs. Briggs Robertson returned early this week from Ft.

**Curved Rows of Value to Farmer**

SHAMROCK.—"It's a little troublesome to cultivate curved rows of cotton," declares B. R. Lane who farms near here, "but it doesn't make my mules drunk to follow the curves and it's making me money." Mr. Lane terraced 26 acres of land last year with the aid of T. R. Broun, county agent, and from this land he gathered 18 bales. The same kind of cotton on similar land nearby yielded only 11 bales on 50 acres. This is a return of three to one in favor of terracing as reflected by yields in the first year after the work was done.

Worth, where they visited the Fat Stock Show. They were accompanied there by Mr. and Mrs. Kenneth Kimbro, of Lubbock, who went on to Houston for a few days visit. Mrs. Kimbro is the daughter of Mr. and Mrs. A. L. Robertson.

**WANTS SINGLE CLOCK TO TICK FOR WORLD**

A fifth of a second is of no vast importance to the average citizen, or even to a commuter, but to astronomers and other scientists it may make a big difference. To overcome this difficulty, according to reports from Germany, a noted inventor has developed a plan whereby one clock will beat time for the entire earth. It is proposed that from a central observatory the ticks of this master electric clock be sent instantaneously by radio to all countries, giving a single accurate time. At present each country sets its clocks by radio and telegraph from a national observatory, and there is often a discrepancy between different countries.

In the plan proposed, television devices would be used to synchronize all clocks with the master timepiece, and with this system in operation, the world's clocks need never be more than one one-hundred-thousandth of a second apart.

**Whale's Husband Supplies Thrills**

Chasing a whale with a harpoon and a motion picture camera in a small boat is considered one of the most exciting of pastimes. Being pursued by the whale's husband in the middle of the chase reaches the ultimate in thrills. It is one of those things that happen once in a lifetime, because the second whale usually gets in some deadly work.

Sidney Snow, explorer, and his

party had a rare stroke of luck. They killed the second whale with a carefully aimed bomb and continued the chase. The scenes are all shown in the Fox picture, "The Great White North," which will be shown at the Palace Theatre here Friday, March 29. Arrangements have been made for the Slaton High School girls' basket ball team to receive a good percentage of the receipts.

If "opportunity" knocked less often some of us might catch up with our work.

**Engineering School At A. & M. Leads Number Graduates**

COLLEGE STATION, Texas.—A total of 294 students at the A & M College of Texas are candidates for degrees at the forthcoming fifty-third annual commencement of the college to be held next June. Graduates last June numbered 275. The school of engineering with 155 leads in prospective graduates for the current scholastic year, the school of agriculture being second with seventy-nine. Other graduates are divided between the graduate school, school of arts and sciences, school of vocational teaching and school of veterinary medicine. Electrical engineering with forty-four shows the highest number of prospective graduates for any one course, agricultural administration being second with thirty-nine.

**CITATION BY PUBLICATION.**

THE STATE OF TEXAS, To the Sheriff or any Constable of Lubbock County, Greeting:

YOU ARE HEREBY COMMANDED to summon A. E. Wise and wife, Ruth F. Wise, or F. Ruth Wise by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the 99th Judicial District Court of Lubbock County, to be holden at the Court House thereof, in Lubbock, Texas, on the second Monday in April, A. D. 1929, the same being the 8th day of April, A. D. 1929, then and there to answer a petition filed in said Court on the 7th day of March, A. D. 1929, in a suit, numbered on the docket of said Court as No. 3619, wherein J. W. Philips is Plaintiff, and J. F. Smith, A. E. Wise and wife Ruth F. Wise or F. Ruth Wise are Defendants, and said petition alleging that plaintiff is the owner in fee simple of the following described real estate in Lubbock County, Texas, being Lot No. 9, block No. 30, in the South Slaton Addition to the town of Slaton, Lubbock County, Texas, according to the official map or plat thereof now on record in the office of the County Clerk of Lubbock County, Texas; that defendants A. E. Wise and wife Ruth F. Wise or F. Ruth Wise as the name sometimes appears are claiming some interest in the said premises by virtue of a certain vendor's lien note executed by B. A. Dodgen, payable to A. E. Wise on November 26, 1920, bearing interest at the rate of 10% and for the sum of \$357.42, payable in installments of \$25.00 each beginning December 15, 1920, and one installment falling due on the 15th day of each and every month thereafter.

That defendant J. F. Smith is claiming some interest in and to said premises by virtue of a series of 4 vendor's lien notes, dated November 10, 1921, executed by E. G. Carpenter, each for the sum of \$108.50, payable to J. F. Smith as follows: Note No. 1 due May 10, 1922, Note No. 2 due November 10, 1922, note No. 3 due May 10, 1923, and note No. 4 due November 10, 1923, said notes drawing 10% interest per annum from date.

Plaintiff alleges that all of the above described notes have been fully paid off, but that he has been unable to secure releases of same. Plaintiff further alleges that defendant J. F. Smith, for a valuable consideration, transferred one of the four notes of said series to C. C. Hoffman but has failed and refused to execute a written transfer of the said note and lien securing same.

Plaintiff further alleges that in case he is mistaken in assuming that the above described notes have been paid that he has held peaceable, continuous and adverse possession under title from and under the state of Texas of the above described land and premises for more than three years after the last installment due upon said notes matured.

Plaintiff further alleges that all of the above described notes and the last installment due thereon matured more than four years before the filing of this petition and are therefore barred by limitation, even if this plaintiff be mistaken in alleging same to be paid.

Plaintiff further alleges that the failure and refusal of defendants to execute and deliver to plaintiff releases of the above described notes and the lien securing same creates a cloud upon this plaintiff's title to the above described land, and further that the failure of the defendant J. F. Smith to execute a transfer of the note and lien to the said C. C. Hoffman creates a cloud upon this plaintiff's title to said land and premises.

Plaintiff asks for judgment for the title and possession of said land and premises, that the above mentioned cloud on his title be entirely swept away and said title cleared of same forever; for damages, costs of suit, etc.

Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and the Seal of said Court, at office in Lubbock, Texas, this 7th day of March, A. D. 1929.

FLORA GREEN ATCHESON, (SEAL) Clerk, District Court, Lubbock County.

56-4tc

No Change.

"Has Meyer changed much in the years he has been away?"

"No, but he thinks he has."

"How so?"

"Why, he is always talking about what a fool he used to be."

**T. C. U. Students Choose Magazines**

FORT WORTH.—Boys and girls of Texas Christian University both prefer literary magazines, with current events publications as the boys' second choice, and women's and household periodicals as the girls' second choice, according to a survey of 432 members of the class of 1921 as a cross-section of the student body.

The American Magazine is the most popular publication with both boys and girls. The Saturday Evening Post, Literary Digest and Liberty are other favorites of the boys, in the order named. The girls chose the Literary Digest as second preference, and next, Cosmopolitan and the S. E. P.

No girls read any scientific magazine, according to the survey, but one boy reads Vogue and one read Vanity Fair, although no girls named these two on their lists. Of the girls, 84.6 read some magazine regularly, while the same is true of 78.3 per cent of the boys.

Of books recently read, American authors are the most popular, with English, French, German and Spanish coming next in order. Favorite books mentioned included Lew Wallace's "Ben Hur," Percival Wren's "Beau

Geste," and Sinclair Lewis' "Elmer Gantry."

## Alfalfa Hay Shortage is Feed Problem

The limited supply of alfalfa hay this year necessitates supplementing it with some standard high-protein concentrate, according to E. J. Maynard, associate animal husbandman at the Colorado Agricultural college.

Alfalfa hay can no longer be considered only on a dry roughage and protein basis in western states according to Professor Maynard, for although alfalfa furnishes an efficient source of home grown protein, yet the

limited supply this year makes it necessary to supplement its use by cereal grains and a standard high-protein concentrate like linseed meal.

When silage is on hand, but no clover or alfalfa, a satisfactory ration for dairy cows is to feed silage at will for roughage with some dry feed such as hay or fodder. Three or four pounds of grain should be fed daily, one-half of which should be a high protein feed such as linseed meal. The remaining half may be corn, oats, barley, bran, or any mixture.

When corn fodder, timothy or prairie hay is on hand but no silage or clover or alfalfa, it is well to purchase some clover or alfalfa, if not too expensive. If one of these hays can not be purchased it is suggested that in addition to as much of the fodder or hay as the animal will eat, it be given about five pounds daily of a grain mixture composed of one part corn or barley, one part oats or bran, and one part linseed meal.

## That "Gentlemen Prefer Blondes" Not Now True, Survey Shows

FORT WORTH.—Gentlemen no longer prefer blondes. At least they do not at Texas Christian University, where students answering a questionnaire on "What Characteristics T. C. U. Students Desire of Their Future Mates," voted nearly two-to-one in favor of brunettes.

The typical husband wanted by girl students, according to the survey, is a young man, tall and slender, with black, curly hair. The typical wife desired by boys is an attractive girl, of average height, having blue or brown eyes, and with dark or red hair.

Eighty-five per cent of both boys and girls demanded that their future mates have a college education. Fifty-five per cent wanted 'home-loving' mates.

Of the girls, 65 per cent preferred marriage to a profession or career, 20 per cent were non committal, and 15 per cent expressed a preference for simple blessedness and a career of their own.

One student commented on the uselessness of making such a survey. "Love is blind," this one wrote, "and when one falls in love it makes no difference about physical or social characteristics."

"Petting" was condemned as undesirable in a future mate by 95 per cent of the students.

### His Destination.

Little Willie: "Mamma, is papa going to heaven when he dies?"

Mother: "Why, son, who put such an absurd idea into your head?"

### Up-to-Date.

Little Johnnie: "Yah, I saw you kiss my sister."

Sister's Boy Friend: "Sh, sh, here's a quarter."

Little Johnnie: "An here's your ten cents change. One price to all—that's the way I do business."

### CITATION BY PUBLICATION.

THE STATE OF TEXAS, To the Sheriff or any Constable of Lubbock County, Greeting:

YOU ARE HEREBY COMMANDED to summon W. J. Thomas by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the 99th Judicial District Court of Lubbock County, to be held at the Court House thereof, in Lubbock, Texas, on the second Monday in April, A. D. 1929, the same being the 8th day of April, A. D. 1929, then and there to answer a petition filed in said Court on the 7th day of March, A. D. 1929, in a suit, numbered on the docket of said Court as No. 3618, wherein Mrs. Ida Thomas is Plaintiff, and W. J. Thomas is Defendant, and said petition alleging Suit is for divorce on the grounds of cruelty and non-support; plaintiff asks for custody and control of minor child, a girl, Valerie Doralee Thomas, now about two and one-half years old; also for title and possession of Lots 9 and 10 in Block #1 of the Original Town of Slaton, Lubbock County, Texas.

Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and the Seal of said Court, at office in Lubbock, Texas, this 7th day of March, A. D. 1929.

FLORA GREEN ATCHESON, Clerk, District Court, Lubbock County, 56-4tc

CHEVROLET PRODUCTION FIGURES ARE BOOSTED

The manufacturing facilities of Chevrolet Motor Company, numbering 16 great manufacturing plants in this country, are rapidly approaching the volume of output necessary to meet this year's revised annual quota which calls for the manufacture of 1,350,000 passenger car and truck units.

This was signified last week when W. S. Knudsen, president of the company, announced that March production would reach 140,000 units, an amazing output when it is considered that active production on the new six cylinder cars has been underway less than three months. Although no definite figures were issued it can readily be assumed that April's schedule will call for an even larger production, and that mid-summer will witness a quantity output in all of Chevrolet's assembly plants never before equaled by a manufacturer of six cylinder automobiles.

Mr. Knudsen related that February production amounted to 121,249 units. With only 22 working days in the month, daily production for the period averaged better than 5,500 a day.

These figures lend further emphasis to the astounding achievement of the company last fall in changing over from production of fours to sixes with only a six weeks interim to effect necessary alterations.

Upon his

days ago from a six weeks trip which took him across the northern part of the country and into the far west, R. H. Grant, Chevrolet vice president in charge of sales, spoke with marked optimism of the prevalent demand for the new six cylinder cars. Nearly everywhere, he declared, dealers indicated to him that they had found an increased market for the new product. The cars, he said, are being delivered to owners as fast as they can be distributed.

To carry communication between the Fordson plant of the Ford Motor Company and the outside world, 100 telephone lines extend from the switchboard of the new Ford administration building and the Detroit central exchange.

Appropriations for extension of telephone equipment in New York City alone during 1928 amounted to nearly \$4 million dollars.

"BETTER BULLS BUILD BIGGER GANK BALANCES"

COLUMBUS.—"Better bulls build bigger bank balances" is a truthful slogan, so scores of farmers in Colorado county think after two years of intensive campaigning by county agent D. D. Clinton to build up beef cattle herds by better sires.

Scores of well bred Hereford bulls have been imported and bought by local cattlemen and the movement is only well begun, for as some cowmen estimate, 150 more good bulls could be placed here right now. One of these men gave the reason for the interest in good bulls by declaring that he made \$5000 more last year because of having used registered Hereford bulls.

Then What Happened They snuggled on the sofa before the fireplace.

He had talked for a long time without saying anything. She thought he was Mr. Slow himself.

"Do you perceive," he observed, "how the pretty fire reddens."

"Yes," she sighed, "but I'm sure it's not because of anything we have done."

OH! FOR A GARAGE!

When a motor goes wrong in Alas-

ka it is something more than ordinary trouble; it is a catastrophe. Weeks drag into months before repairs can be made.

Sidney Snow was on his way to the Arctic to solve the mystery of the missing members of the Stefansson expedition when trouble began. Off the Yukon delta the crankshaft of the motor schooner Herman broke. That was on June 22. It was August 20 before a new shaft which had been brought from San Francisco had been put into position.

During that time Mr. Snow made trips into the Yukon Region to make pictures of the bird life, the reindeer, seals and natives. The scenes are some of the most remarkable ever shown on the screen. They are a part of the Fox picture, "The Great White North" which will be shown at the Palace Theatre Friday, March 29. A percentage of the receipts will go to

the girls' basket ball team of the Slaton High School, it was stated.

## Ice Berg No. 1

### ELECTION ORDER.

Be it ordained by the Board of Trustees of Slaton Independent School District, that an election be held at City Hall, in the Town of Slaton, in said Slaton Independent School District on the 6 day of April, 1929, for the purpose of electing three (3) School Trustees for said Slaton Independent School District.

W. T. Brown is hereby appointed manager of said election, and he shall select two judges and two clerks to assist him in holding the same, and said election shall be held in the same manner prescribed by law for holding other elections.

The return of said election shall be made to the Board of Trustees of said Independent School District in accordance with law.

A copy of this order signed by the president and attested by the secretary of this Board shall serve as proper notice of said election, and the president shall cause notice of said election to be given in accordance with law.

In Testimony Whereof, witness the signatures of the President and Secretary of said Slaton Independent School District and the seal thereof hereunto affixed, this the 14 day of March, 1929.

S. A. PEAVY, President, Slaton Independent School District. Attest: M. W. UZZELL, Secretary. 58-3c

# A Quarter Million NEW SIX CYLINDER CHEVROLETS on the road since JAN. 1st

To satisfy the overwhelming public demand for the new Chevrolet Six, the Chevrolet Motor Company has accomplished one of the most remarkable industrial achievements of all time. In less than three months after the first Chevrolet Six was delivered to the public, the Chevrolet factories are producing 6,000 cars a day. As a result, more than a quarter-million new Chevrolet Sixes have been delivered to date—and this tremendous popularity is increasing every day! If you have not yet seen and driven this remarkable car—come in for a demonstration!

## JACKSON CHEVROLET CO. SLATON -- TEXAS

**MRS. RECTOR HOSTESS TO TUESDAY BRIDGE CLUB**

Mrs. F. C. Rector entertained the Tuesday Bridge club this week at her home, 900 West Lubbock St.

A salad course was served to the following members: Mesdames R. W. Ragdale, A. L. Brannon, Tom Blair, D. K. Tudor, H. W. Ragdale, W. B. Hestand, J. H. Brewer, A. E. Hightower and K. L. Scudder.

Guests present were Mesdames P. A. Minor, H. W. Wall and R. A. Baldwin. Tea guests were Mrs. Katrina Savage and Miss Josephine McHugh.—Contributed.

**Shower is Given For Recent Bride**

Mrs. Carl W. Geroge, who until her marriage March 10th, was Miss Grayce Pirtle, was complimented with a prettily planned miscellaneous shower Tuesday evening, March 19th, by Mrs. I. M. Brewer, Miss Tera Baughman and Miss Clarice Smith, at the home of Mr. and Mrs. T. M. George, 750 South Eleventh Street, where the bride and groom are making their home while their residence at 720 South Eleventh Street is being re-finished.

Miss Ruby Dan Smith entertained with an appropriate reading entitled "How to Manage a Husband," and Mrs. Lillian Butler sang, "When Love Came Calling," accompanied by Miss Jeannette Ramsey as the piano.

After an interesting cup-towel hemming contest, Miss Nora Seeley was awarded the rolling pin, which she presented to the honoree.

Miss Edith Marrs was declared the winner in the word contest and she received the mixing spoon and dish mop, which she also presented to the bride.

A refreshment plate was passed to Mesdames W. E. Olive, L. W. Smith, Terry Austin, R. H. Todd, Charlie Taylor, Gene Phillips, Joe Teague, Jr., Zeph Fogerson, J. W. Wallace, Allen Ferrell, R. L. Tate, Lillian Butler, T. E. Pirtle of Lubbock, T. M. George, Carl W. George; Misses Jeannette Ramsey, Nora Seeley, Ruby Dan Smith, Edith Marrs, Lois Stallings, Gertrude King, Billie Nelle Pirtle, Vivian Teague, Mary Helen Pirtle, "Chic" Brewer; little Messrs. Joe Teague, 3rd, and Herman Greer Brewer.

Mrs. George received many beautiful and useful gifts.

**Newly-Weds Entertained at Barton Home**

Mr. and Mrs. Garland Hamilton were honorees at a 6 o'clock dinner Saturday, March 16th, at the home of Mr. and Mrs. E. Barton, at 309 South 3rd Street.

Mrs. Barton was assisted in serving by her daughters, Mesdames Ivy Moore and W. F. Lee.

Dr. J. W. Thomas was the only invited guest present outside of the immediate Barton family and Mr. and Mrs. Hamilton.

**Miss Baird Will Visit Union Club**

The Ladies' Home Demonstration club, of Union, met last Thursday, March 14, with Mrs. H. M. Cade, in regular session.

The next meeting of the club will be held Thursday, March 28, with Mrs. John Lamb. Each member is urged to be present and bring a new member. Miss Baird, county home demonstration agent, will be with us at this time.—Reporter.

**High School P. T. A. To Meet Wednesday**

The High School Parent-Teacher Association will meet Wednesday, March 27, at 3:30 p. m. For this meeting, the following program has been arranged:

- Business session.
- French harp band, East Ward—Directed by Miss Baughman.
- Things we should know about our boys—Coach Wright.
- Mothers with girls of high school age—Mrs. B. G. Holloway.
- Influence of dress—Miss Pauline Lokey.
- Song.
- Benediction.

Mrs. W. B. Reynolds and little sister, Billie Jean, of Panhandle, arrived here Wednesday for a week's visit with her parents, Supt. and Mrs.

**News Of Union**

Mr. Orrel Pair and Miss Dolly Tonnie were happily united in mar-

riage Saturday afternoon at 5:00 o'clock, Rev. Thomas, of Wilson, officiating.

Mr. Gawl Smith and Miss Bridie Berry quietly slipped away and were married Thursday afternoon of last week.

Their many friends wish both couples much success and happiness through life.

Mrs. O. N. Smith is visiting her mother, Mrs. B. T. Ussery.

Mrs. Bill Show was visiting her mother, Mrs. Will Price, Monday.

Mrs. E. A. Dearing is still on the sick list.

Mr. and Mrs. B. T. Ussery went with Mr. and Mrs. E. A. Dearing back to the Lubbock Sanitarium, where Mrs. Dearing is taking treatment.

We are having some very inspiring sermons by Rev. Noal Clark, who is a student of Wayland College. We are very glad to have this young minister with us. Rev. J. T. Clinton is also with us.
