Laid End to End They Add up to a Swell Idea

We mean these Four New Additions to the Buick SPECIAL Series that Give you Big-Car Thrill in less Curbside Space

THE way cars have been stretching out lately, it usually takes only a couple of cars to occupy the curb space of an extension-ladder fire

Not so with the newest additions to the 1941 Buick line.

Here we've reversed the trend-just to prove that an honest-to-golly BIG car can be built without going overboard on bumper-to-bumper distance.

The four new models now adorning the Buick Special Series fit neatly into modest garages without putting a permanent crimp in the doors.

They slip into parking places smoothly as a rowboat nestles up to a

dock-and the way they flit through traffic is a delight to wheel-weary

When it comes to action - well, they've got a 115-hp. FIREBALL eight under their bonnets that skims you down the road like a mallard heading home. You can add Compound Carburetion at small extra cost and have 125 horsepower that does things we hardly dare hint about in print.

But they're a handy six inches shorter, bumper to bumper, than other Buicks-a quartet of top-quality cars in a new and easily-handled size.

The price? It's lower too. So better take a look at the first really BIG car in this bumper-to-bumper size.

you can make on the Big New Ford right now!

You have to get two things to complete a really good "deal" when you get a new car and your Ford dealer would like to have you try him out on both! First, you want a good allowance for your present car — and all he asks is a chance to make an offer! And next, you want a lot of value in your new car - and that means a Ford this year more clearly than ever before!

This is the biggest Ford and biggest value in all ord history. Its passenger room exceeds anything else in its field. Its soft and quiet new ride is one of the motor year's most talked-about improvements. Its engine is a smooth V-8, which you enjoy at no extra cost for either gas or oil. And its bodies and style are really new this year, all the way through.

If you're trading cars this year and want to be sure you make the most of

The Mother and Daughter, Fath er and Son banquet was held in the Cooper gym Friday night. A barbecue type meal was served to about 200 people. The tables were decorated in western style consisting of spurs, cactus, covered wagons, and lariat rope. Helen Wilson gave a welcome speech to the fathers and mothers; Doyce Barrett, FFA president introduced the fathers, mothers, faculty, and the FFA sweetheart, Dortha Nell Dawkins, who presented the boys with gifts; Mr. Berry led in prayer, after which the food was served. During the meal the Freshmen boys gave the Chapter Conducting. Following this the group listened to the broadcast of the annual Father and Son banquet from Washington, D. C. Mr. Paul Me-Nutt gave a nice speech on the need of FFA. Mr. Johnson then presented a motion picture entitled Green Hands, which taught a good lesson as to what FFA could do for a boy.

Our Weekly Sermon-

Disclosed Christians By Rev. Kenneth S. Wuest,

Member of Faculty Moody Bible Instute, Chicago

Text: "Brethren, if a man be overtaken in a fault, ye which are ing thyself, lest thou also be tempted."-Galatians 6:1

Our text speaks of a Christian who has in his life a known sin CARD OF THANKS which he cherishes and refuses to give up. The spiritual Chistian is friends for their many expressions Christian. The word "restore" is floral offerings during our recent the translation of a Greek word bereavement in the loss of wife, which was used when referring to the act of putting a dislocated arm back in place.

The Church of Jesus Christ, made up of all true believers in the Lord Jesus as Saviour, is likened to the head of that body. Each believer is a member of the body of Christ.

When an arm is dislocated, it not cut off from the human body. It is still a member of that body, and the blood running through the head still runs through the arm. The life of the head is still in the arm. When a Christian has sin in his life, he is still a member of the body of Christ, and still has the life of the Head in him. But when an arm is dislocated. it is in great pain. So with a Christian with sin in his life. He is a miserable person. He knows he has done wrong, and his conscience gives him no rest until he confesses that sin to the Lord Jesus and gets rid of it.

When an arm is out of joint, it is useless to the body. So a Christ-

When an arm is out of joint the pain is felt through the whole body and through the head. Just so when a Christian is sinning, it makes other Christians sad, and grieves the Lord Jesus.

When an arm is out of joint, it will neither obey the head nor the body. When a Christian has sin in his life, he does obey either the Lord Jesus or the elders of the church who are in spiritual authority over him.

The thing to do with a dislocated arm is to go to a doctor and have it put in place. Your Home and Your Church

There is nothing that can take the place of the influence of the Church in your home, the serenity, the confidence in the future and the faith that gives all lives a purpose brings happiness and concord to a home as nothing else can.

And to have this faith and happiness in your home you must be part of some church and bring your home, social and and business life in accord with its ever helpful influence. You, your children and your associates in your home will find a guiding light in the teachings of a church and in these times of great stress you need your church and your church needs you. As never before in History each and every one of us need the guidance of the church in our homes.

The Churches of Slaton are open to you, whoever you are, and wish to lend you a helping hand. Make your home a happier one by bringing the influence of some Church into it.

Planning the serving was work ed in as a class problem since the girls study various types of meal service, and most of them have occasion to work with banquets at some time.

Important for Women

A weak, run-down condition often gives a foothold to functional dysmenorrhea, causing much peri-odical distress from headaches, odical distress from headaches, nervousness, cramp-like pain for women. CARDUI so often helps in such cases, for it sharpens appetite, boosts flow of gastric juices; so improves digestion, helps build physical resistance. CARDUI, taken a few days before and during "the time," is another way to help periodic distress. Used 50 years.
