## GAS RATIONING RUSH SWAMPS C OF C

### COTTON LOANS TO BE VOTED ON SAT 12TH

#### Monthly Meeting Held

Slaton Co. Pack No. 28 met Monday night at Senior High School with a complete attendance of cubs from each of the three dens together with Den Mothers and Den Chiefs. Parents of the cubs present were well numbered.

In the business meeting, at which the master, W. T. Cherry, presiding, the second Monday night in each month was set as the regular monthly pack meeting night, at which time awards will be made for work achieved.

A short program was presented by Den 2 with Mrs. B. L. Pritchard and Den Chief, Bert Loring assisting. Mrs. Pritchard, Ass't. Cubmaster, presented the registration cards, ranks and achievement awards. In Den 1 with Mrs. Carl Lewis as Den Mother, the following boys received 1942 registration cards and Bob Cat Pins. Glyndon Dawson, Billie Ray Glasscock, Clark Self, Jr., Pat Lowrance, Phillip Morgan, Jimmie Wilson, Alvis Collins, Wyman Richey, Lawrence Morgan, Tommie Swanner, Ray Walter and Carl Lewis, Jr.

Den 2 received their registration cards with the following ranks: Lion; Marcus Bourland, Bear; Fred and awards: Blanchard Pritchard, die England, Wolf gold, Wolf silver, and Bear; Billy Joe Payne, Bear; Joe Thomas Tucker, Bear; Jimmy Cherry, Lion; Davey Lee Bear; and Jim Porter, Bear. Den 3 with Mrs. A. R. Keys as Den Mother and Roland McCormick as Den Chief have each earned the following awards: Billy Layne, wolf gold, wolf silver, and bear, with Duane Teffertiller, Jack McCormick and Johnny McCormick receiving the same awards and Russell Keys receiving the wolf, wolf gold and wolf silver.

The meeting was closed by Den 1 as they gave the Swing Circle, singing "Day is Done."

#### New Residents For Slaton

Mr. and Mrs. Herbert Wollard are new residents of Slaton and expect to construct a modern home on South 14th St. just two lots north of the W. P. Florence home. Mrs. Wollard is the daughter of Mr. and Mrs. Florence and Mr. Wollard is a salesman for a large Woman's ready-to-wear concern.

#### COTTON GINNING REPORT

Census report shows that 51,586 bales of cotton were ginned in Lubbock County, Texas, from the crop of 1941. November 14 as of 1941, 18,441 bales for the year.

No government cotton loans can be offered on the 1943 cotton crop if marketing quotas are rejected in the referendum Saturday, December 12, Mr. D. B. Williamson, chairman of the county AAA committee, pointed out this week.

The AAA chairman explained that the present law prohibits the offering of government loans in any year in which quotas are voted upon and rejected.

The loan is the means the government uses to support the price of cotton, he continued. The current loan rate in Lubbock county is 17.50 cents per pound on 7-8-inch middling cotton. Cotton loans this year are being made at 90 per cent of the parity price of cotton.

Reviewing the effect the loan has had on cotton prices during past years, Mr. Williamson pointed out that last year the basic loan rate for the nation was 14.02 cents per pound, while the average price received for cotton was 17.03 cents.

Similar figures for previous years were as follows: 1940, loan rate 8.9 cents, cotton price 9.89 cents; 1939, loan rate 8.7 cents, cotton price 9.09 cents; 1938, loan rate 8.3 cents, cotton price 8.6 cents; 1937, loan rate 9 cents, cotton price 8.41 cents.

POCATELLO, IDAHO -- Snorting "iron horses" of another age, long treasured as historic specimens, at the University of Idaho, Southern Branch, are destined to go into service again -- as vital scrap for the war effort. Returned to the Union Pacific for eventual conversion into quality battle steel, they included the No. 11, shown, the first locomotive to operate through Idaho, which had a maximum speed of 30 miles an hour. At presentation ceremonies were, in the cab, left to right, Commander John A. Scoville, U. S. Navy, and Ralph E. Titus, general of the Union Pacific south-central district, and standing, Governor Chase A. Clark, and Dean John R. Nichols of the University.

Cadet Bill Ball, who is in training in Pasadena, California, as a meteorologist for the Air Corps is now keeping up with his old home town through the Slatonite.

A letter from Jack Norman to the Slatonite says that he will be glad when the war is over and he can come back to Slaton. His letter had been well crossed out by a censor and just where Jack was when it was written was not clear. He is in the Marines.

One South Plains Army Flying School glider pilot won't be "grounded" by gasoline rationing. He is Staff Sgt. Leroy Erwin of Hollis, Okla., who has overhauled his ancient 1930 model car so it will operate on kerosene. He is a mechanical engineer by trade.

One glider pilot at SPAFS definitely is necessary. He is James M. Necessary of Hot Springs, Ark., believe it or not.

A USO camp show will play at the South Plains Army Flying School approximately every three weeks, it has been announced. The shows are presented in the post recreation hall and are free to SPAFS soldiers. The next one is scheduled for Dec. 19.

Radio programs about South Plains Army Flying School over

#### OUR WHOSIT DEPARTMENT

The above illustration has been in our morgue for a long time. The young lady is evidently considering how much bacon will bring in 1942. To the first person who can tell us who the little girl is, we will give a pass to the Palace Theatre. Last weeks master award goes again to John Berkley although we have some doubts about the correctness of his answer, but as only one other person endeavored to answer we are giving the pass to John, the other man lives so far away that a pass to the Palace would be of no value to him.

#### Funeral Held Last Monday For Mrs. Charles A. Joplin

Funeral services were held at the First Methodist Church last Monday afternoon at 2 p. m. by Reverend H. C. Gordon for Mrs. Charles A. Joplin who died at her home here November 30th.

Mrs. Joplin was a pioneer resident of Slaton and was known by practically every long time resident of this community having been active in civic and religious circles. Mrs. Joplin was born in Waco, Texas, January 8th, 1863. Her maiden name was Margaret Elminor White and she was married to Charles A. Joplin on Sept. 5th 1878. Mr. Joplin died in March 1928 at Littlefield.

She is survived by a sister, Mrs. Annie Ross, of Moody, Texas and the following children, S. W. Joplin, Amarillo, J. R. Joplin, Levelland, J. O. Joplin, Tatum, N. M., Jess L. Joplin and Mrs. Minnie Smith, Slaton, Mrs. C. W. Olive, Dallas, B. N. and Charles A. Joplin of Littlefield and Julian Joplin of the U. S. Air Corps, and twenty nine grand children and seven great grand children.

Mrs. Joplin was a Charter Member of the Slaton Methodist Church as well as a Charter Member of the Littlefield Methodist Church.

Burial was at a Lubbock Cemetery where the body was placed near her husband.

#### Junior Class Presents It's Annual Play

The Junior Class of Slaton High School under the sponsorship of Miss Maude Dean and Mrs. D. J. Neill, will present it's annual play entitled, "The Elopement of Ellen," in the high school auditorium on Friday evening, December 11, 1942 at 7:30 p. m.

Mrs. E. H. Ward is directing this three-act comedy drama and admission prices for pre-high school children are 15c and for adults 30c, including tax. Announcement of the play cast will be made later.

#### CORNERSTONE PROGRAM HELD BY NEGRO CHURCH

Members of the colored Triumph Missionary Baptist Church are celebrating the laying of the cornerstone of their new church which is to be constructed in the very near future. The program began on the 2nd of December and will last through the 6th. The Cornerstone Program will be held Sunday at 3:00 p. m.

#### Slaton Agriculture Students Active In War Time Activities

This war is being fought on the home front as well as on the front line. The student body of Slaton High worked hard, and with all seriousness and willingness in gathering the large pile of scrap which most of you have seen stacked in front of the High School.

As the scrap has already been gathered, the Agriculture boys decided that it would be worth a lot to the government as well as being educational to themselves, to use the acetylene torch in cutting the metal into small pieces so it would be easy to ship. The Agriculture boys have learned quite a bit about the torch, which may prove helpful in the future.

The work is being done under the supervision of the Slaton High School Superintendent, Mr. M. S. Kavanaugh.

#### RED CROSS ACTIVITY IN FULL SWING

A number of clubs are coming now to the Red Cross Sewing Room in a group and more interest is being shown.

Members of the Thursday Club sewed yesterday and the 1940 Study Club are sewing at the rooms today. They are making kit bags and will fill a number of them.

Mrs. O. N. Alcorn who has a button hole machine has contributed her time by making buttonholes. Cynthia and Martha Lou Lovelless are each filling a kit bag and Mrs. Coke Oliver and Mrs. L. B. Thornton each contributed \$1, the cost of filling a bag.

Next weeks chairmen are Mrs. Tom Turner and Mrs. M. L. Turnbow Monday; Mrs. B. A. Hanna and Mrs. J. M. Hannah Tuesday; Mrs. C. L. Tanner and Mrs. C. H. Whalen Wednesday.

### RATION BOARD NEAR THROUGH

The Slaton Gasoline Rationing Board after many hours of labor has passed upon all of the passenger car applications that have been made up to date and have passed on all of the applications for non highway use that had been filled out up until the time that the supply of application blanks for this classification had been exhausted. More non-highway blanks will be available soon.

There is no time limit for application for the rationed gasoline and those who have not applied may still do so if they feel that they have reasons for extra amount over the A books.

Although all applications have been passed upon except those that were turned in yesterday very few of them have been delivered to the motorists due to the amount of time required to make out the ration books and record each one. This work is being done through the Chamber of Commerce and those who have been okayed by the Rationing Board will be notified through the Chamber of Commerce.

There have been many reports of people storing away gasoline and concerns handling oil cans and other containers report that a land office business was done last Monday with people buying anything from a gallon glass jar to containers of ten gallons or more capacity.

Good natured criticism of the program has been widespread and

Here's a letter we were most pleased to receive.

Dear Sir: Of course I won't be able to use the pass if I win, but I am almost positive that your "whosit" in the Nov. 27 issue of the Slatonite is a house owned by Mr. S. S. Forrest, located approximately 5 miles east by a little south of Slaton. Although it has been quite a few years since I left Slaton I hardly think I shall forget that house, I used to live in it!

Please continue your "Whosit Department," I look for it each week.

Sincerely,  
J. A. Culver, Mgr.  
Hotel Milner  
Coffeyville, Kan.  
P. S.: In case you are wondering how the heck I get the Slatonite up here without subscribing, my mother Mrs. L. S. Jeffcoat sends me hers.

the public is awaiting the result of the restrictions with interest. The restrictions have affected many delivery services and a man who owns a wheelbarrow is now most fortunate for it will soon be about the only other means of transportation for food and other articles for home use.

#### Hospital Report

**Surgery**  
Mrs. Roy Williams Slaton  
Miss G. Maxwell Taboka  
Mrs. J. Gostica Crystal City  
Miss A. Benevides Tahoka  
Frank Vargas Lubbock

**Medical**  
Mrs. G. Patterson Slaton  
Mrs. M. Walker Posey  
Mrs. C. Buxhemper Slaton  
Mr. W. A. Tadlock Wilson

**Births**  
Congratulations to --  
Mr. and Mrs. W. H. Luker of Wilson on birth of a son, Norman Jean, 8 lbs. The father is a farmer.

Mr. and Mrs. Truman Shelton on birth of a daughter Sharon Ann 7 lbs. 8 oz. The father is stationed at Lubbock Flying School in Army Band.

Mr. and Mrs. W. H. Wilke of Southland on birth of a son Marlos Walter 6 lbs. 9oz. Father is a farmer.

Mr. and Mrs. M. E. Sales of Wilson on birth of a son James Ronald, 7lbs. and 9 1/2 oz.

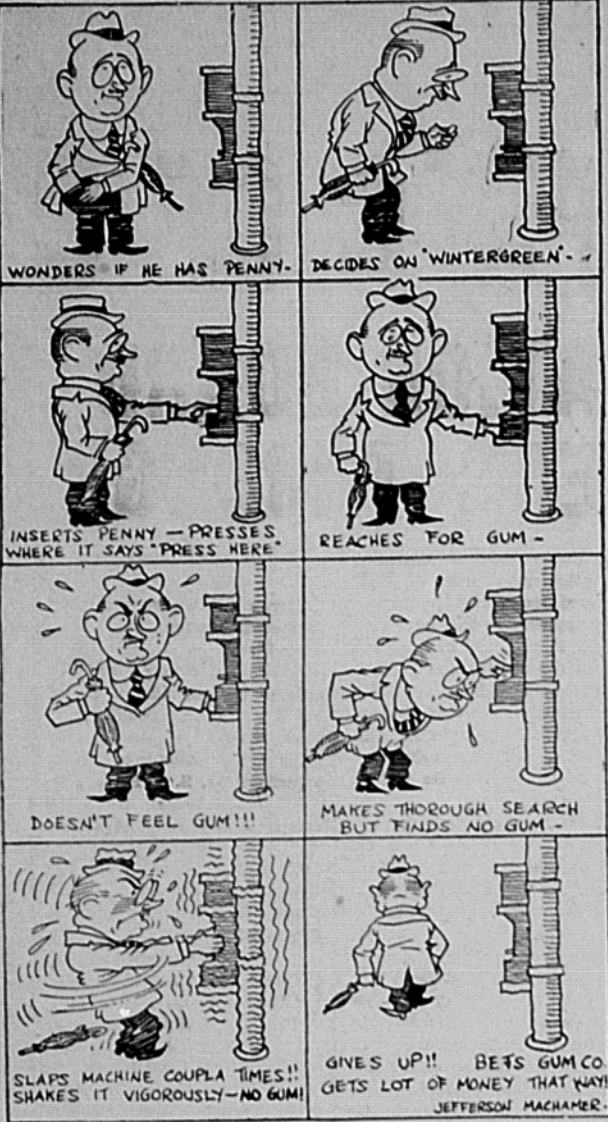

Mr. and Mrs. A. Aquilar of Dermont on birth of a son Anthony 6 lbs 8 oz.

Mr. and Mrs. Travis Hendrix on birth of a son, Travis Ray, Jr., 8 lbs and 12 oz. The father is employed by the Santa Fe.

Mercy Hospital reports the condition of Judge W. A. Sewell has been much improved during the past few days.

(EVERYBODY'S Difficulty)

# Fire Creates Need For Increased Home Precaution

## Our Weekly Sermon—

The Way To God  
By the Rev. Elgin S. Moyer, Ph. D., Member of Faculty Moody Institute, Chicago

Text: "Jesus saith unto him, I am the way, the truth, and the life: no man cometh unto the Father, but by me." John 14:6.

What a wonderful pronouncement this is! It expresses a most sublime conception of divine and eternal reality. It is all-embracing; it is all-sufficient. It comprehends a complete view and philosophy of life, temporal and eternal. And it is given us by divine authority, by Jesus Himself.

Jesus said, I am the way. There is no other way. He is the only way to a knowledge and experience of God; the only way to the love of God, and relationship and fellowship with God. Jesus came from the Father to reveal the Father to us. Jesus was God, but He became man in order to lead us back to God. In Him, and in none other do we truly and fully find God. He is the answer to all the quests and longings and strivings to find peace and happiness—and God.

Jesus said, I am the truth. All truth is included, incorporated, consummated in the blessed Son of God. All truth lies within His teachings. Jesus told Pilate that everyone who is of the truth and follows the truth will hear, obey and follow Him. As Christians, we must align ourselves so fully with Christ, the embodiment of all truth that our lives will be consistent with truth and will express the truth. We must say with Paul, "We can do nothing against the truth, but for the truth" (II Cor. 13:8).

Jesus said, I am the life. Again He said, "I am the bread of life: he that cometh to me shall never hunger"; "I am come that they might have life, and that they might have it more abundantly;" "He that believeth on me hath ever

AUSTIN, Texas, Dec. 4.—Marvin Hall, State Fire Insurance Commissioner says wintertime brings a seasonal increase in fire hazards.

The added dangers of destructive fire creates a need for closer inspections at home.

"A substantial percentage of our fires at home during cold weather," he explained, "result from a few common causes. The most of these we could prevent by being more careful. Our neglect in taking proper precautions during winter has caused unnecessary fire losses."

Commissioner Hall listed the following as several of the common causes of fire at this season of the year:

1. A danger spot is often found in a chimney at the point where it passes through a roof. The construction of a chimney is important. Frequently the lack of sufficient brick or stone allows surrounding woodwork to become ignited.
2. Where fireplaces are used care must be taken to see that sparks do not ignite the floor or room furnishings. The safest protection is a metal screen in front of the fire.
3. Steam pipes, unless properly installed, can cause fires. Steam heat dries the wood which is then in condition to absorb oxygen and ignite. A steam pipe may in time char the wood and dangerously lower the ignition point. Steam pipes should be at least one inch away from any woodwork.
4. A common report on the cause of fires during cold weather

lasts life" (John 6:35; 10:10; 6:47). If we accept the Christ as the eternal, ever living Son of God and believe with Peter that He has the words of eternal life, we shall know that we truly have our life, our abiding life, our everlasting life, in Him. Jesus, the Son of God is the way to life, for He is the "He that believeth on me hath ever

## Firemen To Get Training Soon

AUSTIN, Dec. 4.—Representative of each fire department in Fire Service District Two are expected at the wartime training school for firemen in Lubbock beginning December 7.

Marvin Hall, State Fire Insurance Commissioner and Fire Service Co-ordinator of the National Defense Committee for Texas, said many problems arising during wartime will be discussed at the five-day school.

is the "defective flue." This type of fire can be prevented by frequent inspection of all flues, or smoke pipe connections.

5. Overloaded electric circuits must be regarded as year 'round hazards. It is of particular importance that all electric circuits be protected against overload by the use of proper size fuses.

6. A leading cause of winter time fire fatalities is the use of kerosene or gasoline to kindle or "quicken" a fire. Gasoline is a dangerous explosive—too dangerous to keep in the house under any condition. Also, the improper use of kerosene can cause serious fire losses.

7. A few simple practices in the use of portable oil heating appliances will prevent many home fires. Wicks in such heaters should be kept clean and adjusted to the proper level. Sufficient ventilation is needed to assure proper combustion. Heaters should be kept a safe distance from combustible furnishings and placed where they will not be easily overturned.

8. Personal carelessness in cold weather frequently results in death. Clothing ignited when a person stands too near an open flame heater or fireplace is one of the common causes of fire fatalities during winter months.

## Our Great America by Tryon

## MECHANICS NEEDED

A widespread civil service campaign began in this area today to recruit critically needed junior mechanics, \$1860 a year, for civilian employment at the Army Air Force Sub-Depot, Midland, Texas, according to Tess A. Brewer, local civil service secretary.

Persons with two years mechanical training or experience may qualify. Auto mechanics and men with hydraulic, machinist or instrument experience are especially urged to apply for this civil service position.

Application forms may be secured from and should be filed with the local civil service secretary at the post office.

Persons engaged in war work of equal skill need not apply.

Ten per cent of your income in War Bonds will help to build the planes and tanks that will insure defeat of Hitler and his Axis partners.

## If You Suffer Distress From Monthly FEMALE WEAKNESS

And Want To Build Up Red Blood!

If at such times you suffer from cramps, backache, distress of "irregularities", periods of blues—due to functional monthly disturbances—Start at once—try Lydia Pinkham's Compound TABLETS (with added iron). They not only help relieve monthly pain but also accompanying tired, nervous feelings of this nature. This is due to their soothing effect on one of WOMAN'S MOST IMPORTANT ORGANS. Taken regularly—Pinkham's Tablets help build up resistance against such symptoms. Also, their iron makes them a fine hematinic tonic to help build up red blood. Follow label directions. Get today!

# "35 won't hurt your car if you're careful at 00 miles an hour..."

**JOIN FREE** Elect yourself to the ONCE-A-WEEK CLUB at Your Mileage Merchant's Conoco station. Choose your own regular day to have him check tires, oil, radiator and battery. His systematic attention means trouble-prevention. He'll report in advance on lubrication and anything that he finds you need for the duration of your car! CARE FOR YOUR CAR... FOR YOUR COUNTRY

"Couple of my customers could even get a new car by U. S. regulations. But they're careful with the car they've got—doing under 35, same as others in wartime. That's the spirit!

"And this 35-mile 'tops' can make your car last longer yet, if you don't hunt up grief at 00 miles an hour! That's no wisecrack—00 miles an hour. It's when you car is standing and your engine is starting cold, needing lubrication the worst of ever. So I don't just change your oil. I change you to an OIL-PLATED engine with my Conoco Nth oil that attaches OIL-PLATING inside your engine, sort of by 'magnetism'—keeping OIL-PLATING from all draining down to the crankcase overnight, and all day, etc.

"Sooner than you're in the car, OIL-PLATING is up where you need it—instead of taking time getting there. You've had lots of people's word besides mine, that the worst danger of wear comes in starting cold. But what's plainer to get around that, than OIL-PLATING your engine with Conoco Nth oil? I'm extra glad I've got it for you now in wartime."

Your Mileage Merchant

# for a full line of Conoco Products see HEINRICH BROS.

Long ago the railroads made possible the swift settlement and development of this land.

Today they face their greatest test in the struggle to preserve it.

For this is essentially a war of rolling wheels. Millions of men, and tens of millions of tons of vital raw and finished products must be moved swiftly and surely, where and when they are needed.

That is why today, on the Santa Fe, movements essential to the war effort are "topping" the biggest job in our history. They must come first, beyond argument or selfish interest, on every American railroad.

**KEEP 'EM ROLLIN'—OR ELSE**  
\* No nation that does not possess efficient mass transportation can hope to win a modern war. In America that mass transportation job is squarely up to her roads. If they fail, we lose.

Neither battle gallantry nor industrial wizardry alone will turn the tide. To meet this tremendous responsibility, we ask for every possible consideration in the allocation of materials for vitally essential repairs, maintenance and new equipment.

**LET'S ALL PULL TOGETHER**  
As the tide of military rail travel mounts, you can help us maintain adequate civilian passenger service as well, in these ways:

\* Make reservations and buy tickets early \* Cancel unwanted reservations promptly \* Carry least possible luggage, checking extra pieces to avoid crowding \* Vacate dining cars quickly after meals \* Travel mid-week, avoiding week-end and holiday rush periods.

Turn freely to your local Santa Fe representatives for help on your travel or shipping problems.

**JUST TALK**  
by  
A.M.J.

The food shortage and the cry for more food production has been weighing heavily on my mind for several weeks but now I feel sure I have the answer to the problem and the rest of the world can sit back and breathe easy again. The secret weapon to whip the food enemy is turnips.

All that is necessary is to turn a few South Plains turnip raisers loose next year with a handful of turnip seeds and we will produce enough turnips to feed the allies and have enough left to use as bombs for our flying fortresses.

Last week B. H. Coston brought me in a turnip that weighed 8 and 1-4 pounds and week before last S. M. Rogers brought in three, the largest of which weighed a little over six pounds. These big turnips are not tough or pesty either, they are as sweet and delicious as turnips can be although there are people who deny that turnips should be classified as food.

Just how many vitamins are packed into turnips I am unable to say but if turnips can be made to take the place of T.Bone Steak, bacon and sweet cream butter I am sure we can solve the food shortage in short order. All we need is a go ahead signal and we'll have the world swamped in turnips.

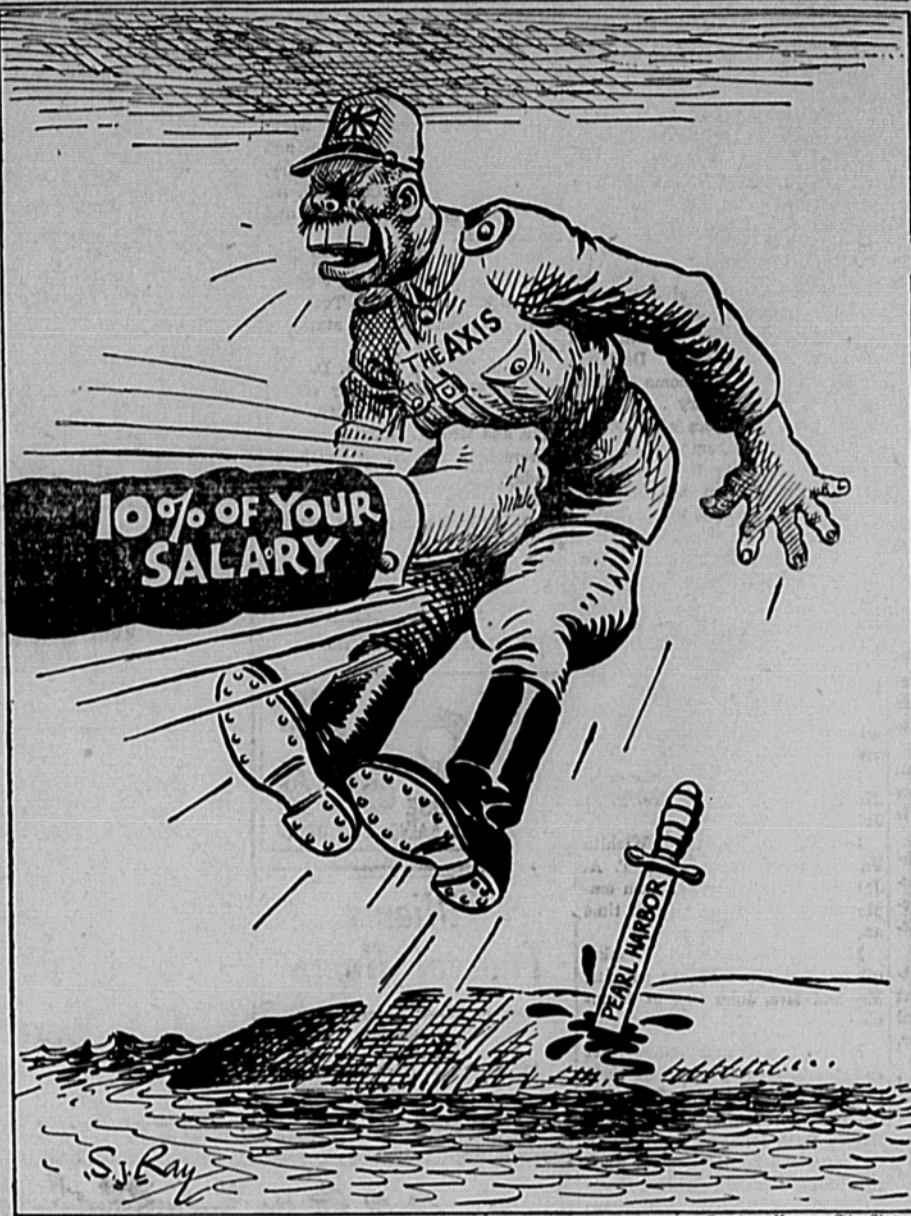

W. R. Wilson says he had intended taking a trip to Mineral Wells but his wife was slow on getting back from one of her trips, gasoline rationing has gone into effect and the busses and trains just as likely to dump ordinary passengers off at any point along the line. It seems that Slaton is a very nice place to be. Mr. Wilson says that if the soldiers need the trains and busses and Uncle Sam the rabber that it is O. K. with him.

The many recent magazine advertisements by the Airplane manufacturers on the family car of the air, must have made deep impressions on me for I have been taking some dream trips that were very nice. There was one dream I got into a whiz bang traffic jam and did not know whether to go under, to the side or over the top of another dream plane and I then began to wonder what air signals should be like. We had a crash and everything went to pieces and I floated around in the

Teague Drug Store

**Remember Pearl Harbor—Every Payday**

Courtesy Kansas City Star.

air and had a terrible time reaching the ground. Since then I have refused several helpings of pumpkin pie at eleven o'clock at night.

It has taken a war to make most of us appreciate the things we have had and on which we are just beginning to get rationed. The little steaks that hide under the piece of fried potato are beginning to come back in style at the restaurants and a hunk of butter will look like a big dish of ice cream before long, a slab of salt pork will taste better than premium bacon does now and the girls will be using gasoline as a perfume.

Just why I should get myself all in a dither over gasoline rationing and because I will not be allowed to chase butterflies all over West Texas in my car, is not quite clear in my mind, but just the same I feel all upset over the proposition. When I was a boy and lived in a town not much larger than Slaton, I sometimes got a trip of one day to the Dallas Fair. Dallas was

100 miles away and it took most of the day on the train to get there and back. We were packed into the cars like cattle and the return trip was always a pandemonium of squalling babies and crying drunks. It took two weeks to recover from the mauling one received in the scrambles for seats or from bruises received in crawling through train windows. The Fair was pretty much of a fizzle as far as I could find out with the limited amount of cash I had after paying \$1.00 for the round trip on the train.

Now I feel all cooped up although I have taken trips that

have covered several thousand miles in the last year, but perhaps I'll get a little better acquainted with my fellow citizens and can find a good soft rock to sit on out on the City Hall lawn.

There was a good cartoon published in the New Yorker not long ago. It showed two

**The WAR—  
a  
SCREW DRIVER  
and a  
PAIR OF PLIERS**

Yes, sir, these tools have a big responsibility during the war, but you won't find them shirking. The war has made their job increasingly difficult. New appliances are gradually disappearing from our shelves and it will be our job, yours and mine, to keep the old ones in repair. It takes trained labor and service parts requiring critical materials to make a service department function efficiently. Uncle Sam needs both labor and material. Therefore, we on the Home Front are called upon to help, by taking care of the appliances you have.

**Southwestern

Company**

cars on a wide, paved road with no other cars in sight, the occupants of the cars were hailing each other, the caption was "Hi Doctor" and "Hi Reverend". Perhaps we should start training Saint Bernard dogs to go out and hunt for stranded motorists for it is going to be a dangerous proposition to get out on the roads in West Texas but what could we put in the little barrels that are supposed to be hung on the Saint Bernard dogs neck?

With Louie Ares gone and gasoline rationing in effect the bass of Buffalo Lake and in the other lakes in this section should have a better chance of getting to be legal size. Louie has been around these parts a long time and he is being missed by a lot of folks and with Mrs. Ares gone the Citizens State Bank is probably in as bad a fix as a weekly newspaper on publication day.

It's common sense to be thrifty. If you save you are thrifty. War Bonds help you to save and help to save America. Buy your ten per cent every pay day.

**Suggestions For  
Coal Users Have  
Been Issued**

All sorts of predictions have been made about the coal consumption of various parts of the country, and although there is little need to become perturbed about a coal shortage in this part of the State, it is far wiser for coal users to correspond to the suggestions issued by officials in Washington.

Hints have been published at various times on proper ventilation and correct procedure of keeping hot coals and new coal in the furnace has been explained in detail. It not only saves the nations coal

but conserves your own coal supply during the winter months. Slaton Coal and Grain is ready at all times to supply you with coal for your house and not only does he have on hand fuel for your furnace but also a fine assortment of grains and feeds for all your stock and fowl feeding needs. Drop in and discuss your feeding and heating problems with Mr. Tudor at Slaton Coal and Grain Co.

## Women's Society Has Services At Methodist Church Tuesday

The Spiritual Life Committee of the Women's Society of Christian Service of the First Methodist Church with chairman Mrs. S. H. Adams was in charge of the service at the church Tuesday December 1st from 10:30 a. m. to 2:30 p. m. The theme of the meeting was "Thanksgiving and Consecration." Mrs. Charles Walton was leader of the morning service which was opened with musical renditions by Mrs. H. C. Gordon. A scripture ninety-first Psalm by Mrs. E. H. Todd was followed by a prayer led by Mrs. W. H. Proctor. The song, "Sweet Hour of Prayer" preceded the Responsive Reading and a prayer offered by Mrs. J. E. Eckert. Another song, "The Church is One Foundation" was sung by the group. Mrs. J. D. Holt gave the study entitled, "The Magnificent Minority." A solo, "Ninety and Nine", was rendered by Mrs. Leonard Harral. The morning service was terminated by a prayer from Mrs. Walton. Luncheon was served in the church dining room, to those present.

Mrs. Adams was leader of the afternoon service which was opened with music by Mrs. Gordon, who was also in charge of the devotion entitled, "Faith." Mrs. L. R. Tibbs gave the prayer. A tribute to the memory of Mrs. C. A. Joplin was given by Mrs. Adams. A Responsive Reading, "Brotherly Love" was read in unison. A hymn "I Am Thine Oh Lord", was sung

### Farmers Not Subject To OPA Meat Restriction Order Now

DALLAS, Dec. 4th.—Farmers and others who slaughter animals for their own consumption are not subject to the OPA meat restriction order of October 1, but every person in the U. S. who slaughters and delivers to others even so much as one animal of the sort listed in the order is subject to the regulation's restrictions and to its penalties in case of violation, regional OPA officials warned today.

Animals covered by the order are sheep, cattle, lambs and hogs. Delivery of meat from these animals to civilians is limited so that there shall be enough for the fighting forces of the United States and its Allies.

Officials said that records of all slaughter for delivery to others must be kept and be available to inspectors of the OPA by everyone from the country butcher, or the farmer who slaughters meat for others, to the largest packing houses. False statements of the number of animals slaughtered and delivered, or other violations of the restriction order, subject offenders to fines up to \$10,000 or ten years in jail, or both.

Limits set by the order fall into two classes. The larger slaughterers—those who kill more than 500,000 pounds in a quarter—are limited in their civilian deliveries to the following percentages of the kinds of meat covered that they delivered to civilians in the corresponding quarters of 1941—beef, 70; pork, 75; lamb and mutton, 95; and veal, 100.

The other slaughterers, including everyone else, are limited to no more than the same amount of each of the kinds of meat that they slaughtered and delivered to others in the corresponding quarter of 1941. Cutter and canner grades of beef are defined as a special kind, and here, too, "non-quota" slaughterers may not deliver more of this kind than they did in the same quarter of 1941.

### ON THE HOME FRONT

Persons who do not have copies of ration book one must apply to their local war price and rationing boards before December 14, OPA officials announced. Book one, already used for rationing sugar, will also be used for coffee rationing, and in addition must be turned in about the first of the year in order to receive war ration book two. Boards were warned to examine closely all persons who claim never to have applied for book one.

WPB warned the nation's children to take better care of their games and toys, with issuance of and order prohibiting manufacture of games or toys, or replacement parts, in which certain critical metals or other critical materials except joining hardware are used. The order, however, lifted the ban on use of rayon in toys and games.

Ending enlistment of essential employees in aircraft and shipbuilding industries in the Army or Navy, Selective Service Director Lewis B. Hersey has instructed state selective service directors to refuse releases to such men who wish to enlist. Workers who have resigned within 60 days before applying for enlistment also will be refused.

Construction of the first storage tank at the Longview, Texas, terminal of the big Texas-Illinois oil pipeline began last weekend, Petroleum Coordinator for War Harold L. Ickes announced. Seventy miles of the line were completed during the last two weeks, in spite of heavy rains on the northern stretches of the project.

Shirts and pajamas for men and boys came under the WPB axe, with issuance of a simplification order requiring that two to three inches be taken off the length of shirts, and collars, sashes and cuffs be eliminated from pajamas made after December 15. More than 10,000,000 additional shirts can be made from the material saved by the order, and more than 2,200,000 pairs of pajamas may be manufactured. Shirts with bi-swing or box pleated backs are banned, and no more shirts may be made with pleated fronts. Shirts or pajamas made for men over six feet two inches tall are exempted from provisions of the order, except that no

### LEFT OVER TURKEY — what to do with it

by Dorothy Greig

Whisked together as Individual Pies, left over turkey emerges as a fresh, hot and most appetizing dish.

MOTHER used to say, rather gaily, "You know, hot roast turkey is wonderful, but I do believe I enjoy it even more served cold, or as hash or in pie."

Do you feel that way, too? At any rate, turkey the second and third day certainly presents opportunity for inviting dishes.

How about serving it as individual pies? When these emerge hot from the oven, lightly browned crust with the rich gravy beneath, bubbling gently around generous pieces of turkey and vegetables—my! what flavor!

#### Individual Turkey and Chicken Pies

- 2 tablespoons butter
- 2 tablespoons flour
- 1 cup milk
- 1 can condensed chicken soup
- 1 cup diced turkey
- 1 cup cooked green peas
- 2 small onions
- 1/2 teaspoon salt
- 1 teaspoon pepper

Melt the butter in a sauce pan, stir in the flour and mix thoroughly. Add the milk gradually and cook until thickened. Then add the chicken soup, stirring constantly, until well blended. Add the remaining ingredients and put into individual pie dishes. Cover with biscuit dough made from recipe or from prepared biscuit mix and bake in

a hot oven 450° F for 15 to 20 minutes. Serves 4.

**Biscuit Topping:** Take 1 1/2 cups sifted flour, 1/2 teaspoon salt, 2 teaspoons baking powder and sift together. Cut in 3 tablespoons shortening. Then add 1/2 cup milk, a small amount at a time until a soft dough is formed. Cut into pieces large enough to cover mixture in individual pie dishes.

There's more than one way to serve turkey cold, too. And this jellied turkey salad is one of them—and one that you will enjoy!

#### Jellied Turkey-Tomato Salad

- 4 tablespoons gelatin
- 1/2 cup cold water
- 1 can condensed chicken gumbo soup
- 1/2 cup tomato juice
- 1 cup cooked turkey, diced
- 4 tablespoons salad or mayonnaise dressing

Sprinkle the gelatin on the cold water and let stand 5 minutes or until softened. Heat the chicken gumbo soup (just as it comes from the can) to boiling and dissolve the gelatin in the hot soup. Then add the tomato juice. Cool and when mixture begins to thicken add the diced turkey. Turn into ring or individual molds and chill until firm. Turn out on lettuce, watercress or chichory for garnish and serve with salad or mayonnaise dressing. Serves 5 to 6.

unnecessary material may be used.

Retail and wholesale ceiling prices were announced by OPA for new passenger car tires of reclaimed rubber being produced under War Production Board restrictions. The maximum retail price for a size 6.00 x 15 tire is \$15.25. Only persons who obtain certificates from their local war price and rationing boards will be eligible to buy these tires. Dealers are required to attach to each casing a label showing the maximum retail price and indicating that it is a Grade III tire for rationing purposes.

To conserve milk for consumer use, and for the manufacture of dried whole milk, cheese, butter and some other manufactured dairy products, WPB has prohibited dairy producers from distributing whipping cream or other heavy cream, to household consumers, retailers, restaurants, institutions and others. Coffee cream is not affected.

Commercial vehicle owners who

have applied for but have not received ODT certificates of war necessity may receive temporary transport rations of gasoline from their local war price and rationing boards. Gallonage thus issued will later be deducted from amounts allowed by the certificate of war necessity. Rations for use through December 31 may be obtained. ODT motor transport district offices will correct promptly any errors made in certificates already issued. Regional Manager John C. Massemburg announced. Where no errors were made, commercial vehicle operators must wait thirty days after issuance of the certificate to appeal for an adjustment.

In spite of the typewriter regulations, and the critical need by the Army and Navy for machines, the WPB officials have noticed classified ads in papers of this region offering machines for sale in violation of both the sale and price ceiling regulations. Persons having two or more typewriters can sell them only on rationing certificates except to the government. A person owning only one typewriter

### Importance of Social Security Cards Stressed

Lubbock, Texas, Dec. 4th.—From January to October 31, 1942 a total of 9172 new workers entered employment in the Lubbock area of the Social Security Board. The Area includes the counties of Bailey, Lamb, Hale, Floyd, Motley, Cottle, Cochran, Hockley, Lubbock, Crosby, Dickens, King, Yoakum, Terry, Lynn, and Garza. These figures are based on the number of new social security account numbers issued by the Lubbock office of the Board, according to a statement by John D. Palmer, manager. However, it was explained, this number does not represent the total of new employees since many workers employed already had account numbers.

In addition to the issuance of almost 10,000 account numbers to new employees within the ten-month period, the Lubbock office

issued a total of 2872 duplicate account number cards to workers, who, through carelessness or by accident, had lost their original cards. It costs the Social Security Board more to issue duplicate account number cards since the application for a duplicate number must be carefully checked against the original records. This action is necessary to insure that all wages received the individual be posted to the same account. Workers should realize the importance of their account number cards and avoid misplacing them.

Mr. Palmer asked each worker to show his social security account number to each employer for whom he works, regardless of the length of time during which he is employed. He also emphasized the fact that the more a wage earner receives in wages the more his insurance checks will be when he retires.

A man is that irrational creature who is always looking for a home-like atmosphere around a hotel and hotel accommodations when he is at home.

### Card Of Thanks

To the many friends who have walked the way with us in our bereavement and so kindly ministered in any way to our sorrowing hearts in the tragic death of our precious little grand-son, Gordon Paul Owens, we wish to express our sincere thanks and deepest gratitude.

Mr. and Mrs. G. B. Alford

A hick town is a place where it's cheaper to feed your neighbor's chickens than to have a next-door enemy.

### PUNCHES CLOCK AGAIN...FOR BOY IN JAP PRISON

Retired machinist back in harness puts 20% in War Bonds

OSCAR used to be a first-class machinist. Five years ago he retired to live out the rest of his life on a pension.

The other morning he showed up again at his old plant, which now makes war equipment, and asked for his old job back. When pay day came, he signed up with the Pay-Roll Savings Plan to put 20 percent of his pay in War Bonds.

Seems Oscar's boy was on Bataan.

Can't you spare 10 percent?

With people like Oscar making real sacrifices to help win the war, is it too much for you to put aside as little as 10 percent of your pay for War Bonds? Sign up for at least 10 percent at your place of business today!

may sell it to another person or business firm for business purposes only if ceiling price regulations are observed.

The WPB has requested us to pass along this information so that advertising of offers to sell machines illegally can be discouraged.

### Are YOU a member of the VSL?

Do you drive a car or truck? Are you interested in conserving that vehicle? Do you know that automotive transportation is America's "life-line"?

### THEN YOU SHOULD BE A MEMBER OF THE Victory Service League

An alliance of American motorists who appreciate that mobility is America's great asset today.

Chevrolet dealers, from coast to coast, are acting as Victory Service League Headquarters. We believe in the principles of car conservation that underlie the establishment of the Victory Service League. Hundreds of cars in this community now display

the VSL emblem... a token of adherence to standards of car care, careful driving and conservation of vital materials.

Come in today for your free membership card and car emblem. And bring your car in for a free conservation inspection.

## CARTER HARDWARE COMPANY SERVES WIDE TERRITORY WITH HOME APPLIANCES AND GIFT MERCHANDISE

Even though war time conditions have made many things almost impossible to get, The Carter Hardware Company still has a good selection of General Electric and R. C. A. Radios and General Electric and Kelvinator Electric Refrigerators as well as a big stock of children's toys and hundreds of gift items such as silverware sets, wall pictures, chinaware, glassware, tools for a man's work shop, and although the manufacture of sporting goods has been stopped, the Carter Hardware Company still has a good stock of guns and fishing tackle.

The Carter Hardware Company was established in Slaton in 1930 under the management of Nick Carter and has catered to the needs of the people in this section in such a way that their business has increased every year. The farmers of this section have

found The Carter Hardware Company always the best place to trade. 125 Butane plants have been sold by Carter Hardware Co. this year as well as much other farm home equipment. The Carter Hardware Co. is one of the most popular places in Slaton for gift shoppers, not only for Christmas gifts, but for party gifts and favors and they are always glad to assist in making selections.

The Carter Hardware Stock is at its best right now and Nick says that the early shoppers will be the ones who come nearer getting what they want. Some of the things they have will not be replaceable until after Victory, others are scarce and still others cannot be reordered before Christmas.

Nick says "Better shop Now."

## KESSEL'S DEPARTMENT STORE HAS LARGE STOCK OF READY TO WEAR AND HOLIDAY MERCHANDISE

Carrying one of the largest stocks of merchandise on the South Plains, Kessel's Department Store in Slaton is one of our largest business concerns. Established in 1921 it has grown to be the shopping place for people from all over this part of Texas and carries many of the nations most famous lines of men's, women's and children's ready-to-wear as well as the nations choice in home furnishings and piece goods.

Among the lines featured at Kessel's Department Store are Airstep Shoes, Marcy Lee Dresses, Kayser Hose and Gloves for women, for men they feature Friendly Five and Freeman Shoes, Resistol Hats and Lee Work Clothes as well as a full stock

of children's ready-to-wear, newest designs in piece goods, and many items for the home such as curtains, window shades, blankets, etc.

Mr. Kessel has made preparations for caring for the people of this section with one of the largest stocks of holiday goods that he has ever carried having made several trips recently to markets to get items that are scarce and hard to find. He advises early Christmas shopping.

Mr. Kessel also operates Kessel's 5c and 10c Store and employs from 30 to 50 people. The Kessel interests have six stores located in West Texas.

Kathryn Robertson

Officers were elected when Slide Home Demonstration club members met for a covered dish luncheon recently with Mrs. O. R. Copeland. Mrs. George Hindman was chosen president; Mrs. C. L. Strickland, vice president; Mrs. L. D. Stanford, secretary-treasurer; Mesdames O. R. Copeland, R. V. Giddens and Lee Rieger Council Members. Mrs. Jesse Jones was elected reporter. Mrs. Hindman will serve

as home improvement demonstrator and Mrs. Stanford as home food supply demonstrator. Miss Clara Pratt, county home demonstration agent, told the group to start roasting the hen or turkey with the back up and breast down. This insures moist white meat.

Relatives visiting in the home of Mrs. M. D. Gamble Sunday were Mrs. Sara Hampton, Mr. and Mrs. Sam Hampton and family of Goree, Mr. and Mrs. J. S. Hampton and family of Union, Mr. and Mrs. V. L. Cade and family of Carlisle, Mrs. Woodrow Eilenberger, Mr. and Mrs. Charles Hampton of Slaton and Mr. and Mrs. Joe Gamble. Others present were Mrs. C. B. Barrett, Charles Cade, Mrs. E. A. Robertson and daughter, Betty.

Wagner and Dayton Goode visited their brother, John Lewis, who is in the U. S. Navy at Corpus Christi, last week. They were accompanied by Adrain Huckabee and Max Robertson.

Walter Beverly, enlisted in the Army Air Corps last week. He left Monday for Fort Sill, Oklahoma.

Mr. and Mrs. H. M. Cade visited their son, Jackie at Artesia, New Mexico Sunday. They were accompanied by Mr. and Mrs. R. M. Cade.

Mr. J. M. Durham visited his wife and two children at Austin last week.

Mr. and Mrs. R. L. Cummins and daughters, Faye, Frankie, Lorene and Mrs. Erik Eeklund and her husband and Claude Sooter visited Mr. Cummins father and other relatives of Muleshoe Sunday.

Rev. and Mrs. J. R. Wood of Lubbock gave a dinner Sunday as a courtesy to their children. About twenty guests were present. Rev. Wood is the pastor of the Methodist Church at Cooper.

## Wedding Sets

The gift that is the most important in a lifetime should be selected with utmost care. We have many beautiful sets to choose from and we have them all priced very modestly when the actual value of each set is considered. They range from

**37.50**

## Diamond Rings

And for the young lady or for an additional diamond for wife or sweetheart we have some very, very desirable values, rings that we know are priced lower than the present day prices. See them priced as low as

**12.50**

## Dinner Rings

Every woman enjoys a colorful ring modelled in semi-precious stones. We have a large showing of these and they make ideal gifts priced as low as

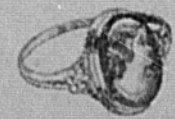

**2.95**

## Cameo Rings

Back in popularity are the cameos in rings, brooches and pins. We have some very unusual carvings that will make charming gifts priced as low as

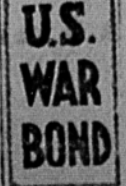

**6.95**

## Silver Services

And for the most substantial gifts of all we suggest Rogers Silverware, shown here in a variety of patterns and in sets from the most elaborate to those consisting of those that are most used. Prices range from

**19.95**

# CHIEF TOPICS

Santa Fe's net railway operating income for October was \$11,315,723, according to a statement released by President E. J. Engel today. This is an increase of \$7,748,501 compared with October, 1941.

Gross for the System was \$37,793,488, an increase over October, 1941, of \$15,876,837. Operating expenses were \$18,234,090, an increase of \$2,317,257 over the same month of 1941. Railway tax accruals were \$7,993,750, an increase of \$5,386,474 over the same month last year.

Railway tax accruals for ten months ending October 31, 1942, include \$45,324,330 federal income tax compared with \$9,693,000 federal income tax in 1941.

The Santa Fe Railway System carloadings for the week ending Nov. 28, 1942, were 20,649 compared with 22,138 for the same week in 1941. Car received from connections were 12,408 compared with 7,953 for the same week in 1941. Total cars moved were 33,057 compared with 30,091 for the same week in 1941. The Santa Fe handled a total of 36,787 cars during the preceding week of this year.

In the first ten months of this war, December 7, 1941, to October 7, 1942, the American railroads handled 8,200,000 members of the armed forces traveling under orders in organized groups, nearly four times as many as the 2,200,000 moved in the first ten months of World War I. The foregoing does not include officers, soldiers, sailors and marines traveling singly either under military orders or on furlough, according to the Association of American Railroads.

A contribution from Canadian, Texas sent in by Don Bourn, was received early this week. Jack Smith, Bob Smith, Ira Phillips, Don Bourn, Ed Hill, Sam Locke, and Jim Telfer, all borrowed engineers from Slaton are doing OK. Ed Hill is on a switcher at Pampa while Jack Smith, Bob Smith, Ira Phillips and Don Bourn are holding Pool turns between Canadian and Waynoka, Oklahoma. Sam Locke and Jim Telfer seem to do a good job of holding down the engineers extra board. Jack Smith and Bob Smith are known around

crash scene which marks the opening of "Desperate Journey."

# FORREST BIBLE STUDY

The Forrest Bible Study will meet at 3:30 p. m. Tuesday at the Methodist Church.

Lesson: Studies in the Book of Exodus, XIX-XL, Sinai (Cont.)

1. How did Moses show his great love for his people? 32-30-35.
2. Why did not God accept Moses' offer of himself as an atonement for the people?
3. What of Himself did God show Moses when He passed before Him. 34: 5-7.
4. What reward did the Levites have for remaining faithful to God amid the almost universal calf worship? See Numbers 3: 5-10
5. What reasons did God give for forbidding His people to have any dealings with the heathen nations? 34: 12-16.

Mrs. L. R. Tibbs

# Dehydration Is Answer To Food Preservation

AUSTIN, Texas, Dec. 4th.—Dehydration furnishes the answer to the problem of preserving food-stuffs without using such strategic war materials as tin, steel, and rubber, Dr. O. B. Williams, professor of bacteriology at the University of Texas, declares.

War has always brought progress in food preservation, he said, citing the invention of canning during the Napoleonic wars, and the successive advances in this field during the Civil and first World wars.

Since cans require small amounts of tin and larger amounts of steel, and since glass containers must be

Canadian as the "Cough Drop boys." This choice bit was signed "By the Navajo".
