SLATON TO CLOSE TIGHT SATURDAY FOR MEMORIAL DAY

Business Firms Will Close Tomorrow To Pay Tribute To Heroic Dead

At the cemetery tomorrow morning at 11 o'clock, Happy Smith post commander of the Tahoka American Legion, will pay tribute to the heroic soldiers who have died for their country.

Most of the business firms of Slaton will close from 10 a. m. until 4 p. m. tomorrow, in order that a full attendance at the services may be made possible for all employees.

At 10 a. m. a memorial parade will be formed at the City Hall in which the High School Band, the Slaton company of the Texas Defense Guard, American Legion members and other civic organizations will take part. The parade will go to the cemetery from the City Hall. A preacher, a priest, and a rabbi will offer prayers for the men in the service of our nation.

According to Briggs Robertson, Slaton is probably the only town in the United States south of the Mason-Dixon line to observe Memorial Day in a manner that has made it a day of great importance in many parts of the nation.

Invitations have been extended

COWGIRLS INVITED TO POST RODEO

An invitation was received this week by the Chamber of Commerce here for Slaton to have a cowgirl representative at the Post Stampede and Rodeo which is to be staged June 18 and 19.

The association will care for the young ladies' horses, pens, feed and care of equipment. Complimentary tickets will be given each sponsor and their escorts to the dances to be given both nights.

Any young lady who would like to go to Post for this event as a Sponsor for Slaton can secure full details at the Slaton Chamber of Commerce office.

to the people of other towns on the South Plains to attend the ceremonies and Memorial Day in Slaton is expected to be one of great solemnity.

Women's Auxiliary of the American Legion are placing flowers on the graves of soldiers at the cemetery. Any one having flowers that they will give to this organization for decoration are asked to call number 590-W-2 or number 454. Mrs. Felix Boldin and Mrs. Fred Tudor are in charge of the flower arrangements.

SCHEDULE FOR LAUNDRY DELIVERIES IS ANNOUNCED

The Slaton Steam Laundry announced this week that beginning June 1st only one delivery call will be made each day at one business or residence address. The new schedule is being inaugurated in order to comply with the new regulations governing deliveries.

Those who desire one day service on dry cleaning or on laundry can have the laundry truck call for them but they will have to pick bundles up when finished or if the customer prefers they can be brought to the laundry and the truck will deliver later in the day.

"We feel sure that our customers will be glad to cooperate with us on this new schedule as it is a vital Government regulation to conserve rubber and delivery equipment all over the nation," said Mr. Marvin Abernathy, "with a little planning this arrangement will not inconvenience the housewife or the business man. Those who give us their laundry orders early will help us deliver better work on better schedule and at the same time assist our nation in its effort to conserve on most necessary equipment."

FARMERS HAVE EQUIPMENT REPAIRED FOR PLANTING

Farmers are not only talking about victory, they are also preparing for it. Six men have had their farm implements repaired and worked over in the past week. Keeping them in shape will be of vital importance in the winning of the war.

These men are: L. H. Dramer, route 1 of Slaton, having his tractor tuned up; J. D. Norris, Slaton, got his planter and other equipment worked over; B. B. Jones, route 1 of Slaton, had his tractor repaired; C. A. Griffin, Route 1 of Slaton, had his tractor repaired also; Alton Meaker, Route 2, had his tractor worked over; and Geo. Hilbur, Route 2 of Slaton, brought his tractor in for repairs.

Since farming is such an essential industry to the war effort, it is necessary for the farmer to keep all his equipment in good condition.

Mass Meeting Today At 6 P. M.

A meeting of all War Veterans has been called for six o'clock this afternoon at the City Hall where plans for the Memorial Day observance will be completely worked out.

Veterans of all wars, Civil, Spanish and World wars are urgently requested to come so that full details can be outlined and a part for everyone can be arranged. Delegations from a number of neighboring towns are expected to take part in the observance as well as representatives from civic organizations and City officials.

GARBAGE MUST BE PLACED IN ALLEYS

Mayor J. H. Teague says that the sanitary condition of Slaton may become serious unless residents place garbage so that it can be collected.

Women Will Apply For Membership In Uncle Sam's Army Before June 4

Lieut. Colonel Joseph R. Peller, recruiting officer from Lubbock, was in Slaton Wednesday to inform the women that they can now apply for officers training in the Women's Army Auxiliary Corps. Women interested must have their application on file in the Recruiting office, located in the Federal building at Lubbock, not later than June 4.

The Women's Army Auxiliary Corps is a corps of women in military uniform and under military discipline, organized for non-combatant service with the Army. It is the only women's organization, exclusive of the Army Nurse Corps authorized to serve with the Army.

Among the qualifications for enlistment in Officers' Training school are: women must be citizens of the United States; between 21 and 45 years of age; have excellent character; high school education or its equivalent; pass an intelligence test; qualify according to a standard height and weight chart, and be physically fit.

Regulations drafted by the War Department for the new organization specify that a married member who is going to have a baby will have to leave service, although she will be eligible for reenlistment after the child is born. To reenlist, the mother will be required to meet the same requirements specified for her original enlistment. If a vacancy exists, her commanding officer may reassign her to the same position and rank she held before.

The recruiting program is to select candidates for the officers school to be held at Fort Des Moines, Ia., beginning about July 15. It will be handled exclusively by the regular Army recruiting stations.

Applications will be accepted through June 4, and the headquarters of each of the nine corps areas will choose 60 for recommendation to the War Department. These will be sifted for the final selection of 40 from each corps area.

The department also will choose 90 candidates, from members of the aircraft warning service to make up the quota of 450 candidates for the first school.

Those completing the course with the highest grades will be commissioned as officers, their rank to be determined by their work at the school. Others whose work is satisfactory will be appointed to non-commissioned grades and candidates who fail to qualify either as officers or non-commissioned officers will remain in the corps as enlisted auxiliaries.

After the candidates complete this course, they will be detailed immediately to training enlisted members.

Enrollment in the Women's Army Auxiliary Corps does not cancel a Civil Service status held at time of enrollment. If you leave a United States Civil Service position for membership in the Women's Army Corps, you can at the expiration of your enrollment, return to your former position or one of similar grade, without loss of your seniority rating.

"We were pleased to see that the pictures of Slaton men in the service of the United States, were carried in the local paper last week," said Lieut. Colonel Joseph R. Peller, when he was in Slaton. "We have sent several copies of that paper to the War Department to show the sentiment of the people."

WE SALUTE-

MRS. R. H. TODD

We salute Mrs. R. H. Todd, one of the outstanding leaders in the community. For the past twenty years Mrs. Todd has sung in the Methodist Choir. She has been active in all civic and religious activities since coming to Slaton in 1918.

Mrs. Todd has one son, R. H. Jr., in the United States Air Corps. He is now stationed at Randolph Field and will receive his commission as second Lieutenant in July.

Mrs. Todd was born in Collinville, Texas. Her father, Prof. J. B. King, had come to Texas from Virginia. Her great grandfather, William Rufus King, served as vice-president under the Pierce administration in 1852.

After graduating from Sherman high school in 1911, she moved with her parents to New Mexico. There she attended several Normal schools. She taught school at Silver City and Las Vegas, New Mexico, for four years.

In 1916 she married Mr. R. H. Todd, a farmer, and moved to Elida, New Mexico. About six months later Mr. Todd started working for the Santa Fe railroad in Amarillo. When Slaton was made a terminal, the Todds moved to Slaton. They now have three sons, R. H. Jr., David and Frank, all born here in Slaton.

On her maternal side, Mrs. Todd is descended from a long line of Methodist preachers, and she has several uncles who are in the ministry.

Mrs. Todd has always taken pride in her home, and enjoys redecorating her house. "We had planned to add a few little things to our home this year, but in this time of great national emergency, we are investing as much as we can in defense bonds," she said.

She has been a member of the Civic and Culture club for 15 years and was, for a while, president of the club. She is now Superintendent of Missionary Education for the Women's Society of Christian Service. Active for fifteen years in church work, she is now Director of the Methodist Young People's Department. When her boys were in school, she was a leader in the Parent Teachers Association, and for several years, president of it.

She enjoys music and poetry as a hobby. She collects all kinds of poetry and keeps a scrapbook of her favorite poems. Mrs. Todd is an accomplished pianist, having taken music during her school years.

HOPPER POISONING PROVES EFFECTIVE

Reports from dealers who have been distributing hopper poison are that the demand has decreased and that most farmers believe the first hatching of hoppers has just about been killed out.

The showers that fell last week with the cooler weather seems to have had some effect as well as the poisoning that has been done and unless more hoppers fly in from other sections the danger seems to be about over.

AUCTION SALE TO BE STAGED IN SLATON SATURDAY, JUNE 6

The first of a series of Auction Sales is scheduled to begin here in Slaton Saturday, June 6th at which time Colonel Houston Glasson will do the auctioneering. The place of the sale will be at the former location of the Rockwell Bros. Lumber yard at the corner of Texas Avenue and 7th street.

Colonel Glasson is an experienced Auctioneer having held auctions in Lubbock for the past several years and in many other points.

Every kind of material of value will be offered at the Auction, household furniture, electric and other kinds of powered home equipment, radios and used furniture,

farm machinery, hogs, calves, cattle and horses will be auctioned off and every one who has anything for sale may bring it in for a bid. There will be a nominal charge for selling but none for purchases, all sales made on the ground will be considered as Auction Sales.

Due to the fact that many new articles are scarce or off the market the Auction Sale should prove an easy means for many people to sell farm implements and other articles around a home or farm that are no longer in use but would be valuable to some one else.

A successful auction held in Slaton at regular intervals should prove both profitable to the merchants and to the people in this community.

MOTHER OF SLATON WOMAN TO BE BURIED TOMORROW

The body of Mrs. Ollie L. Green, who died in Sweetwater last Wednesday was prepared for burial by The Williams Funeral Home and taken to Abernathy today where the funeral services will be held.

Mrs. Green is the mother of Mrs. Tige Hall who lives North East of Slaton. She was about 74 years of age at the time of her death.

Drive For Old Metal Still On Everyone Urged To Sell This Week

Tomorrow is the last day of the Lubbock County "Old Metal Drive" and reports from Slaton and other towns in the County show that a large amount of scrap metal of all kinds has been sold to dealers.

Lee Tudor who has been buying the metal locally reports that he purchased many small lots of metal as well as several truck loads from farmers and local people, and he hopes to end up the week with a big pile of metals so that Slaton can boast of having done its part in putting over the drive.

An urgent appeal has been put out by the Government and by steel mills for more metals of all kinds as there is an immediate danger of some of the mills shutting down on account of lack of material to work with and once a furnace has been allowed to cool off many weeks are required in which to get it back into operation. There are large quantities of old metals on the farms according to reports and it is a patriotic duty for everyone to sell all old metal.

Even small amounts will be of help and Mr. Tudor is buying it from boys who bring it in in sacks or in red wagons as well as in truck loads.

While Saturday is the last day of the Lubbock County old metal drive it does not mean that the shortage is over or that the necessity for collecting it and selling is

less urgent however today or tomorrow is just as good a time to collect old metal as any other day and those who have it around the place should sell it and do it now.

RETAILERS FOR VICTORY

A telegram from a Government agency in Lubbock to the Slaton Chamber of Commerce received last Saturday gave details on a nationwide campaign of "Retailers for Victory," outlining a plan to have retailers all over the United States, close for fifteen minutes at noon on July 1st and devote the time to selling War Saving Bonds and Stamps.

Briggs Robertson reports that in answer to the telegram he promised that every merchant in Slaton would be 100 per cent back of the campaign.

GARDEN PROJECT STARTED HERE TO CARE FOR 863 CHILDREN

Planting has been started on the WPA Garden Project on the ten acre plot of Felix Boldin which has been leased for this purpose. Vegetables will be raised to care for 863 children in Lubbock and Garza Counties. The schools that are cooperating in the program are Post, Southland, Grass Burr, Slaton and Cooper.

The work is being done by WPA labor and over 43,000 cans have been provided by the Government agency to take care of the produce that will be raised.

A wide variety of vegetables will be raised, much of which has already been planted. The ground is being prepared to take care of more.

Young Slaton Engineer To Join Westinghouse

Seven 1942 engineering graduates of Texas Technological College, Lubbock, Texas, expect to join the Westinghouse Electric & Manufacturing Co. at East Pittsburgh, Pa., after graduation. Three of them are pictured above with a classmate who expects to graduate in August, and Prof. Willard F. Gray, of the College engineering department. Left to right—John K. Wright, son of Mr. and Mrs. J. N. Wright, of 3021 Yamparika St., Vernon, Texas; James G. Wilhite, Jr., son of Mr. and Mrs. J. G. Wilhite of 905 S. Eleventh Street,

Slaton, Texas; Ronald Duff, classmate, who expects to graduate in August; Glenn M. Davidson, native of Chillicothe, Texas, and son of Mr. and Mrs. Mack C. Davidson of Tuco Station, Abernathy, Texas, and Professor Gray. Mr. Wright and Mr. Wilhite expects to become members of the Westinghouse graduate student course. Mr. Davidson hopes to specialize in testing.

Mr. Wilhite graduated from Slaton High School in 1938 and the following fall entered Texas Technological College to study electrical engineering.

He has gained practical experience as an electrician by working summers for M. L. Elliott in Slaton. At Texas Tech he was a member of the student branch, American Institute of Electrical Engineers; the Engineering Society, and the tennis team. He also took part in the annual Engineer's Show.

In the Westinghouse Graduate Student Course at East Pittsburgh, Pa., Mr. Wilhite expects to specialize in design. He also plans to attend the University of Pittsburgh part time.

POSEY ITEMS

Mrs. S. N. Gentry, Correspondent

The Posey H. D. Club met in the home of Mrs. O. R. Patterson Tuesday. Mrs. Wesley Gentry was elected vice president and program chairman to fill a vacancy.

Miss Clara Pratt, home demonstration agent, told the group to paint the hen house to keep the flock and house free of mites and bugs.

The club voted to have both programs at one meeting during the duration, meeting once a month to conserve tires. The next meeting will be with Mrs. Sam Gentry June 15 at 2 p. m.

Members attending were Mesdames L. K. Hart, M. P. Gentry, Wesley Gentry, C. Z. Fine, Mack Klattenhoff, W. A. Wilke, Benton Patterson, and a visitor, Miss Juanell Hart.

Vaughn Campbell and Linus Moeller have a job in Amarillo driving trucks for some company.

Lesley Rodgers returned home from Ohio last Friday. He had been employed in Aircraft work there, but failed to find a suitable place to board.

Joyce Johnson spent last week with her sister, Mrs. Melvin Johnson, of Lubbock. Jessie Johnson, another sister, is spending this week with her.

There was stinging at the school house Sunday night. A nice crowd attended and several special numbers were given. Next singing night will be June 14. Visitors always welcome.

The Women's Society of Christian Service met in the home of Mrs. J. M. Shafer Thursday evening. Mrs. M. M. Brieger from Roosevelt was a visitor. Sunshine sister were chosen, each member drawing a name to keep secret until the quarter ending. Each one is to bring the chosen one gifts and let them guess their Sunshine Sister.

After a business session Mrs. Carl Miller taught a lesson from the two first chapters of the book "The Methodist Meeting House."

The 3rd and 4th chapters will be given at the next meeting, to be with Mrs. Joe Morrison.

The society is showing more interest and we urge all members to attend more regularly. Refreshments were served.

The Posey Epworth League met at the school house Sunday night for a regular meeting.

New sponsors, Mr. and Mrs.

Carl Miller were elected to fill the place of Mr. and Mrs. W. C. Arnold, who are moving away.

The League is to re-organize next Sunday night and will meet at the school house at 8:30.

Mrs. Melvin Johnson and small daughter, Varetta June, have returned to their home in Lubbock after spending two weeks with Mr. and Mrs. Tom Johnson.

Mr. and Mrs. Bob McCaslin from Douglas, Ariz. spent two weeks with her mother, Mrs. O. R. Patterson.

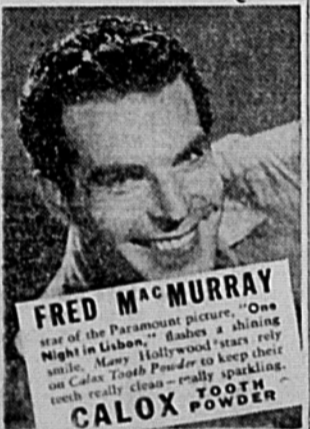

A new crop of grasshoppers have appeared this week and farmers have started poisoning again. It was thought they were under control last week; these seem to have hatched recently. The small ones can do as much damage as the larger ones.

Mrs. L. K. Hart is keeping two of her nieces, daughters of Mr. and Mrs. Orville Cranfill of Dimmit while their mother is nursing in a hospital there.

The Home Nursing school taught at Mrs. O. R. Patterson's by Miss Barrett from Lubbock closes this week. Those who attended have enjoyed the course and value it very highly. The group honored Miss Barrett with a miscellaneous shower Monday afternoon. Miss Barrett is leaving soon for New Orleans to take a post graduate course in nursing.

Mrs. W. T. Gentry is planning to visit her son Jim Gentry at Camp Ord in California soon. He is doing guard duty on the coast. Miss Pauline Lokey of Amarillo spent the weekend with her sister Mrs. O. R. Patterson.

Emporia, Kas.—The war has resulted in the cancellation of the Emporia Big 4 Brotherhood picnic, an annual Santa Fe railroad system June event here for the last sixteen years. Roy Kramm, conductor and picnic chairman, said the event was called off this year in order not to attract busy railroad workers away from their jobs and to conserve transportation facilities for the war effort. In previous years many Santa Fe employees from Arkansas City, Newton, Kansas City and other towns

Mr. and Mrs. Melvin Johnson and daughter, Varetta, visited Mr. and Mrs. T. A. Johnson over the weekend.

GIRLS! WOMEN! TRY THIS IF YOU'RE NERVOUS

On "Certain Days" of the Month
Do functional monthly disturbances make you nervous, restless, highstrung, cranky and blue—at such times?
Then try famous Lydia E. Pinkham's Vegetable Compound. It's made especially for women to help relieve monthly cramps, backache and nervousness—due to this cause. And in such a sensible way! With nature's own beneficial roots and herbs. No harmful opiates.
Taken regularly thruout the month—Lydia Pinkham's Compound helps build up resistance against such symptoms. Thousands upon thousands of girls and women have reported benefit. Follow label directions. Worth trying!

The Santa Fe System carloadings for the week ending May 23, 1942, were 22,204 compared with 22,155 for the same week in 1941. Receiver from connections were 10,557 compared with 7,310 for the same week in 1941. The total cars moved were 32,761 compared with 29,465 for the same week in 1941. The Santa Fe handled a total of 30,886 cars during the preceding week of this year.

The University of Texas has awarded 33,130 degrees in its 58-year history, according to the annual report of Registrar E. J. Matthews. Of this total, 5,176 were in graduate fields.

Our Weekly Sermon—Remember

By the Rev. Harold L. Lundquist, D.D., Member of Faculty, Moody Bible Institute, Chicago

We are told to remember many things, and on Memorial Day we have special occasion to remember our honored dead. They died to make America free. It is for us to live that we may keep it free, so that we may say with confidence, "God bless America!"

Let us recall the obligations of true patriotism, of Christian citizenship. Patriotism is not a matter of speech-making and flag-waving, but an inward devotion to the good of the nation. In Matthew 22 we find that good citizenship calls for—

1. A right attitude toward God (vv. 21, 37-39). No man will make any real progress in the direction of being a good citizen until he has a right attitude toward God. Had the ritualists, the rationalists, and politicians of our Lord's day really known God and Jesus Christ, His Son, their problems of patriotism and neighborliness would have been solved in the light of His Word and, what is perhaps even more important, in His spirit. Is not the crying need of our world today that it should hear and heed the gospel of the Lord Jesus Christ?

2. The right attitude toward government (vv. 15-22). The subtle hypocrisy of the question, "Is it lawful to give tribute unto Caesar, or not?" lay in the fact that these leaders were not interested in knowing the truth, but only wanted to make Jesus out either to be disloyal to His own people because He advocated paying tribute, or a traitor to Caesar because He advised rebellion against taxation. His answer is complete, final, and unanswerable. He has that kind of an answer to every honest question of man. In this case He clearly states that one who lives under an established government, enjoying its protection, using its money in trade, and so forth, is to be loyal to every proper obligation to that government. God and the things of God must come first, but a right attitude toward God will reveal itself in a proper attitude toward government.

3. A right attitude toward our neighbor (vv. 34-40). We have talked a good deal about being good neighbors, and certainly everyone

should do everything possible to encourage the good neighbor policy in his own community and throughout the earth. But why does not the good neighbor policy work? Read the parallel passage in Luke 10 and you will see how man tries to dodge his responsibility (see Luke 10:29 and the answer of Jesus in Luke 10:30-37).

A good neighbor is not one who is seeking some kind of "you favor me and I'll favor you" arrangement. He does not see the barriers of race, creed, or color. He is ready to help anyone, anywhere, at any cost. Only the man who loves God with all his heart will be able thus to love his neighbor as himself.

Women's Wear To Be Scanty

The use of unnecessary yardage in women's and children's lingerie is prohibited in a WPB order (L-118) which took effect at midnight May 10.

The order applies to nightgowns, slips, petticoats and pajamas. It does not apply to other types of underthings, in which as a rule little extra cloth is used.

The WPB apparel section estimates that the order will result in a saving of approximately 15 percent of the yardage used by the lingerie industry.

Tucks and full sleeves are out. Ruffles all-over pleating or tucking, full sleeves, and excessive length or sweep of garments are prohibited.

The new order follows the basic principles of the order governing women's and children's outer garments (L-85).

All stocks, either on hand May 11 or in process of manufacture prior to May 11, are exempt from the lingerie order.

Under general restrictions, no nightgown, slip, petticoat or pajamas may have double material yokes; balloon, dolman or leg-of-mutton sleeves; all-over tucking, shirring or pleating; more than one pocket; a hem wider than an inch, or a ruffle bottom or a ruffle attached or applied below the waistline.

No more than one article of lingerie may be sold at a unit price. This provision is similar to the prohibition in L-85 against the sale of "ensembles" at a unit price.

In addition to the general restrictions, the order contains the following prohibitions:

Nightgowns
 Nightgowns may not be made, sold or delivered with a separate or attached pocket, robe, sacque, negligee, fichu, shawl, cape, slip, chemise, teddy bear, mittens, cap, hood, hot-water bottle cover, or shoes at a unit price.

A nightgown may not be longer than 54 inches for a size 36, with corresponding lengths for different sizes. The sweep for a size 36 is limited to 72 inches.

A belt of self or contrasting material may not be more than half

an inch wide.
Slips and Petticoats
 A slip or petticoat may not be made, sold or delivered with a separate or attached pantie, brassiere, teddy bear, chemise, gown, robe, negligee or housecoat at a unit price.

It may not have a sweep of more than 60 inches for a size 36, with corresponding measurements for other sizes. Length is not restricted because it is governed by the length of a skirt or dress, restricted in L-85.

A slip or petticoat may not have a shadow or double skirt panel of any kind.

Pajamas
 Pajamas may not be made, sold or delivered with a separate or attached jacket, robe, sacque, negligee, hood, cap, mittens, belt or shoes at a unit price.

Maximum measurements for a size 36 permitted under the order are: length top, 25 inches; length trousers, including waistband, 41 inches; circumference of trouser leg, 24 inches.

Coat Hangers Freed from Death Sentence

WPB on May 9 lifted a previously imposed death sentence on coat hangers. Amendment No. 2 to Order L-30 excludes from the list of restricted household articles coat hangers made of wood or paper board if their only scarce-material content is a steel wire hook.

The amendment also removes restrictions on the use of joining hardware, such as nuts, nails, bolts and screws, in the manufacture or assembly of kitchen and household articles, provided the weight of such joining hardware is not more than 5 percent of the weight of the completed article.

Payne, O'Hara and Scott Appear in Stirring Show Dedicated To Marines

The world's toughest fighting men are the United States Marines. "From the Halls of Montezuma, to the Shores of Tripoli" their praises ring, and already they have notched still another place in history with their tenacious fighting in the far corners of the world as the vanguard of American Expeditionary Forces in World War II.

Always true to their motto, "Semper Parati," the Marines have never retreated—preferring annihilation to giving ground. The cream of the crop, they have added to the glory of their country in every war we have ever fought, and in between have organized "private wars" just to keep in shape.

Sensating the interest in the Marines and their background in the minds of all America, 20th Century-Fox's Production Chief, Darryl F. Zanuck, conceived of a story which would not only utilize all the thrills, color and excitement inherited in the Corps, but would show much of the training they receive. This he contrived to do in entertaining and dramatic fashion in the new Technicolor hit, "To The Shores of Tripoli," and from all reports has succeeded in providing one of the year's most outstanding action films, documented by months of study, and inspired by the gallant stand of those now legendary defenders of Wake Island, to whom the film is dedicated.

Today at San Diego, Quantico, Guantanamo, Parris Island or wherever the rigorous training of the Corps is producing more fighting "leathernecks" to meet the threat to our nation, one thing is certain, the same spirit of Wake Island and Belleau Wood prevails.

"To The Shores of Tripoli" stars John Payne, Maureen O'Hara and Randolph Scott. A hand-picked

Billie Faye Wicker And William Lord Exchange Marriage Vows Tuesday

Marriage of Miss Billie Faye Wicker, daughter of Mr. and Mrs. Roy Wicker, and William Marvin Lord, son of Mr. and Mrs. J. H. Lord, of Kansas City, Mo., took place at the home of the bride Tuesday afternoon at 2 o'clock.

The bride wore a gown of aqua and blue accessories. She was given away by her brother, R. W. Wicker.

Reverend J. O. Quattlebaum, of Clarendon, read the marriage ceremony.

Mrs. Truman Shelton, sister of the bride, was the matron of honor. She wore a navy redingote suit and a corsage of pink rose buds.

Mr. Wayne McCann, of Kansas City, was the best man.

Ceremony was read in front of the fireplace. Baskets of tall white flowers stood on each side of it and fern and red roses decorated the mantle.

At the reception, Mrs. Truman Shelton and Rose Wood presided at the tea table. It was centered with a bowl of red roses. A three-tiered wedding cake topped with a miniature bride and groom was at one end of the table. At the other, was the crystal punch bowl. A lace cloth covered the table.

Mrs. William Lord wore a going away suit of black gaberdine with a white blouse and a corsage of white carnation.

Mr. and Mrs. Lord are going to New Mexico on their wedding trip. They will be at home at Roswell, New Mexico, where Mr. Lord is employed at the air base.

Mrs. Lord is a graduate of Slaton High school. Mr. Lord is a graduate of Kansas City High school. He attended Northeastern

Art Club Meeting Held In Kent Home

Blue Bonnet pictures were featured at the last meeting of the Slaton Art Club.

A pastel, painted by William Holt, was shown. Two oils painted by Mrs. G. A. Clevenger's mother were in the exhibit. One painting by a famous artist in Austin was shown also.

Mrs. W. S. Bradshaw talked to the club on the subject of "Blue Bonnets."

Meeting was held at the home of Mrs. D. L. Kent and Mrs. Jimmie Rankin, of Ralls, was hostess. Eight members and one visitor were present. The visitor was Mrs. Kent's mother, Mrs. Green.

Sunrise breakfast at the park, on the last Tuesday in June will be the next meeting of the Slaton Art Club. At this meeting new officers will be elected.

Mr. and Mrs. Brit Trice of Oklahoma City were weekend guests in the Claude Anderson home.

Homemaking Girls Begin Projects

Twenty-four girls have enrolled for the Summer Home Projects course in Homemaking which is under the direction of Miss Drake, homemaking teacher. Most of the girls are taking clothing construction while others are taking preparation of meals, remodeling bedrooms, caring for gardens and care and repair of clothing. Four recreational activities have been planned and there is to be an Achievement Day and exhibit of work done on the twenty-fifth of June. Instead of the usual group work on the Homemaking Department, the girls are taking the Junior Red Cross First Aid course. In order to receive her half credit each girl must satisfactorily complete home project work equal to a semester's work in Homemaking. This work is all planned and managed by each individual girl on her own initiative which gives her excellent training in the management of time and work.

Those enrolled for the course this summer are:

Gwendolyn Hanna, Charlene Lee, Ray Jean Ely, Ann Evans, Leona Burton, Jean Holt, Ruth Doherty, Juanell Hart, Louise Gentry, Imogene Gentry, Josephine Kempt, Virginia Smith, Erma Jean Williams, Nina Ral Hickman, Billie Jean English, Jerry McMillin, Alice Jean Meading, Billie Jean Jarman, Marion Bain, Margaret Neu, Le Verne Bain, Geneta Maxey, Mildred Piwonka, Scharlene Yandell.

Our Great America by Tryon

Illustration of a man reading a book titled 'THE OUTLINE OF HISTORY'. Text: 'THE AMERICAN PEOPLE ENJOY THE USE OF APPROXIMATELY HALF OF ALL THE TELEPHONES IN THE WORLD!' 'THERE ARE MORE THAN SIX MILLION BOOKS IN THE LIBRARY OF CONGRESS... AT THREE HOURS PER BOOK, EIGHT HOURS PER DAY, IT WOULD TAKE ONE MAN OVER 6000 YEARS TO READ THEM!' 'THE ENTIRE LAND AREA OF GERMANY IS LESS THAN ONE-FOURTH AS LARGE AS THE 630,000,000 ACRES OF FOREST LAND IN THE U. S. A.'

JUST TALK by A.M.J. Through a round about route I was told last week that Father O'Brien reported that snow fell in Slaton about six o'clock last Thursday morning.

What is going to happen to our way of life after the smoke has cleared away and we endeavor to settle back into a normal life? Will airplanes be flying through the air like flies around a sugar barrel and has the automobile reached its zenith as the most popular means of travel, will bigger and better corporations spread out more and more or will that be restricted; will it be possible to accumulate large personal fortunes again and will large corporations be allowed to sell stock to double and treble the actual value of their assets and then buy it back at ten cents on the dollar?

The many new recipes for good things to eat made with sugar substitutes are very encouraging until you start doing a little figuring and find out that the substitutes are just about as hard to find as sugar.

The luscious description of a four story cake made with marshmallows, corn syrup, corn starch, saccharine, sweet potatoes honey and stuff puts me off into a gorgeous dream of delicious sweetness until I stop and consider the fact that marshmallows are just about as hard to find as a loose pound of sugar, corn syrup I am sure is right on the edge of getting frozen and honey is not many degrees behind. But just the same I am on the close look-out for more substitute recipes for sugar so that I can go into another cake dream.

Sug Robertson says that I am all wet about his soy bean venture. He has not planted them yet. One problem that has to be worked out is whether to plant them bottoms up, sideways or on end and another serious difficulty is the fact that he has found out that the beans have to be inoculated. To me this sounds like a big job, for to take each bean and give it a hypodermic needling of dope would take a whale of a lot of time. However Sug says that soy beans have a wide use in the making of plastics that are used in the manufacture of automobile parts and accessories. This however has its dark side as Mr. Ford and General Motors have quit making automobiles. It is my suggestion that Sug just kill a steer and have a big barbecue and bean picnic.

And when I stop to think about it I feel sure that there has been a large quantity of soy beans used in making all of the automobiles I have ever owned, for they rattled like a hand full of beans in a can. For a long time I have been wondering what caused that rattle in the back end of my present automobile.

veyance; now I know—it is from the soy beans that were used in making my real axle. It is men like Sug who are to blame.

The boys with the accordion bill collecting books who listen to so many sad tales may get a little cockier now that all bills must be paid by the 10th of the second month. Just how the slow accounts are to be collected is not given in detail, it's a secret many merchants have been working on for many centuries.

My curiosity has been aroused lately over what an average Russian looks like. The only picture of such a man I can conjure up is a bowlegged individual with long black whiskers wearing a tasseled hat without a brim while he scrambles around on the floor in what the Russians term dancing while the orchestra grinds out a doleful tune called the Volga Boat song. Perhaps the Russians have several other songs they sing and perhaps they do not get down on their knees to dance all of their dances, the men may not all have long whiskers but it is going to be hard to get this impression out of my mind. Another thing that I do not quite understand about the situation is why I felt so bitter against the Russians when they were fighting with the Finns and now feel so elated every time they sock the Nazis in the neck.

THIS WEEK'S WAR MOVES

Rubber and Gasoline

The WPB said if Americans do not conserve the transportation miles in their tires it may be necessary eventually to transfer automobiles and tires to communities where they are needed more. The Board reported no rubber can be spared in 1942 or 1943 to make new tires for ordinary passenger cars, because the Armed Forces need all the rubber the Nation can muster from its stockpile, synthetic program and greatly curtailed crude sources. The synthetic program might produce 30,000 tons of rubber this year and 350,000 tons in 1943, the Board said.

Price Administrator Henderson reported a preliminary count of car owners in the Eastern Rationing area showed about 10 per cent received X ration cards, 31 per cent received A cards, 11 per cent received B-1 cards, another 11 per cent received B-2 cards, and 37 per cent received B-3 cards. The OPA ruled X cards must be surrendered if the essential purpose for which they were issued does not cover "substantially all" of the use of the car for which they were provided.

Women's Army Auxiliary Corps

Recruiting for the Women's Army Auxiliary Corps First Officer Candidate School will begin May 27, the War Department reported. Application blanks may be obtained only by going in person to one of the 446 regular Army Recruiting Stations throughout the country. The term of enrollment will be for the duration of the war and for not more than six months thereafter. Officer candidates must be citizens of the United States, between the ages of 21 and 45, with

a high school education or its equivalent, in good health and of excellent character. They may be married or single. The first class will consist of approximately 450 women, and will begin July 15.

Transportation

The Office of Defense Transportation banned operation of all sight seeing bus services and restricted use of chartered buses to such essential operations as transporting members of the armed forces, war workers and school children. Four bus lines operating between New York City and Washington, D. C. were ordered to pool their services, stagger schedules, permit interchange of tickets and ODT also reported it has begun a survey of intercity bus and railroad passenger travel in 100 selected cities to determine necessary adjustments of travel requirements to available facilities. The Office requested employers to help reduce weekend travel by arranging mid-week departure for employees who plan vacations.

THREE WAYS TO GET WINTER COVER SEED

Texas AAA cooperators will have one of three methods by which winter legume seed may be obtained for fall planting.

The plans are: (1) purchase order plan, under which county AAA committees will issue orders to local seed dealers for seed requested by farmers and then pay dealers for the seed; (2) service fee plan, through which local seed dealers will receive a service fee to be paid by the AAA; (3) committee distribution plan, under which county AAA committees will supervise distribution of Government-owned seed.

If proper distribution of seed cannot be made through either purchase order or service fee plans or if a county does not have local seed houses, local AAA committee will distribute seed to cooperating farmers, according to Fred Renels, assistant administrative officer of AAA in Texas.

Meeting to determine the plan under which a county will operate will be held by June 1 and the state AAA office notified not later than June 5 as to method of distribution that will be used. Choice of applicable methods will be decided by majority of seedmen in the county.

Winter legume and rye grass seeds which should be considered in determining the method of distribution that will be used in a county are hairy, Wilamette, common and Monantha vetch, Austrian winter peas, rough and perennial peavine, annual rye grass and crimson clover.

Under this phase of the AAA program, seeds are provided at planting time with proportionate deductions being made from producers' future AAA payments.

the operation of the cotton crop insurance program and request recommendations that will improve the program, making it even more acceptable to cotton growers.

In announcing the meeting, Donald L. Cothran, state crop insurance supervisor, explained that similar discussion meetings are being held in other major cotton producing states during May and June and will replace a national conference. Reducing expense and travel time in interest of economy are reasons for state conferences, as said.

Texas cotton growers led all other cotton farmers in the nation in all-risk crop insurance which is offered for the first time this year. Approximately 54,252 farming units in the state insured 1,488,690 acres against all unavoidable hazards. On national basis, 172,000 farming units, comprising more than a million and a half acres, were insured.

WHY BLIND BEGGARS ARE GETTING SCARCE

Have you been missing the blind beggars who once were familiar sights upon the streets of Texas cities?

Texas is now providing blind persons with regular monthly support in their own homes through the Aid to the Needy Blind program of the State Department of Public Welfare. Those who continue to collect alms either do so because they do not meet the resi-

dence or citizenship requirements, or prefer to make their living by begging because it is more profitable or because they have learned to love the daily contacts with passers-by and the hubbub of street life.

Welfare statistics reveal that 2,999 blind persons are now receiving a total of \$68,661 per month in average grants of \$22.89. The Texas law specifies that no person who publicly solicits alms shall be eligible for blind aid. Of course, only a small percentage of recipients of state aid previously lived by soliciting alms. The great majority of the blind population disdained this mode of livelihood.

The slogan of Texas educators, "The Cultivated Mind is the Guardian genius of Democracy," was first spoken by Mirabeau B. Lamar, second president of the republic of Texas, in his first address to the Texas Congress.

GARBAGE MUST—

(Continued from page 1)
Due to difficulties of collecting garbage it is absolutely necessary that all refuse be placed in pails in alleys. If this is done it will be collected said the mayor.
"With summer time coming on this refuse spoils quickly and is a prolific source of disease germs," said the Mayor, "while we have had some difficulty with our sanitary equipment we now have that straightened out and with the proper cooperation of our citizens we can care for this service however we cannot take care of refuse unless it is placed in the alleys so that our men can gather it in a short length of time."

CHARGE ACCOUNTS MUST BE PAID SAYS RULING

Stiff regulations controlling the installment purchases of nearly every article in common use in this American home were issued recently by the Federal Reserve Board, which also decreed that ordinary charge accounts involving such articles must be paid up quickly.

Effective May 5, the regulations were made in compliance with President Roosevelt's plea that people pay off their bills and stay out of debt.

Charge accounts must be paid by the 10th day of the second month following purchase, but no down payment is required. For instance, an article bought any day up to the end of this month must be paid for by July 10. That date also is the deadline for charged articles on the list which were bought before May 5.

It is absolutely necessary that all customers comply with the regulations. If a merchant does not stop an account, but lets it run longer than the time specified, his license is revoked, his merchandise is cut off, and he is fined up to \$5,000.

The charge account rule allows between 40 to 70 days for pay-

SHE: Oh, all right Bob, but what about the tires and the battery and all the other things it might need?

HE: Right... everything should be attended to. Gosh!... can't you take some responsibility for the car?

SHE: All right, smarty... I have taken the responsibility. I joined the Once-a-Week Club today.

HE: Great Caesar's ghost! Another club! Didn't we just agree last night to cut out unnecessary expenses?

SHE: That's exactly what we are doing. This is a club without any dues, fees or anything.

HE: I'm listening... proceed with caution!

SHE: Well, you know that nice Conoco station over on Myrtle Street? I went in there this morning and Mr. Blevins, the Mileage Merchant, told me he would go over our car every Thursday morning; check the tires, the battery, water... in fact, everything... and if he saw anything needed, he would write it down for me.

HE: Atta girl! This war will make a business woman out of you yet!

SHE: Oh, yeah? Well, I may be a business woman, my dear, but I'm going to get a permanent this afternoon just to prove I'm still a female... and the price will be charged up to the extra life of our car and the savings we're going to have because of that Conoco Once-a-Week Club.

GASOLINE HOARDERS WARNED OF DANGERS

Austin—With indications pointing to a possible nationwide system of gasoline rationing, Marvin Hall, State Fire Insurance Commissioner, warns against storage of gasoline at home.

"The storage of any quantity of gasoline at home," he said, "promotes extreme fire hazards. Gasoline, when stored and handled through the regular facilities of the oil industry and kept in standard tanks, is relatively safe as a result of safeguards incorporated in the design of equipment and the training of personnel over a long period of years. However, gasoline is a dangerous explosive if kept in all sorts of cans and make-shift containers, stored in basements and garages, and poured from open containers.

"Fire insurance can be voided under the Texas standard fire policies," Hall asserted, "if gasoline is stored on the premises without a permit of consent from the insurance company. Thus, if stored gasoline contributes to a fire destroying the property insured, policies could not be collected if the insurance company had not granted

ed permission for storage of the gasoline.

Wartime Transportation

Cattle on the hoof, grain on the farm, minerals at the mine, oil at the well, goods at the factory—these cannot help our soldiers or our people until delivered where they are needed.

Our job is to "Keep 'Em Rolling"

Santa Fe is eager to do its full share of this huge wartime transportation job, military and civilian, throughout our territory. Years of careful operation, maintenance and expansion conditioned Santa Fe facilities for just such an emergency. But to meet every demand, existing equipment must be used to the limit!

You Can Help, Too

Last year you shippers did a lot to increase efficiency of existing freight equipment. Now we ask you to continue cooperation to that end by doing these things:

- Make every car you use carry a maximum load
- Save every hour you can in loading and unloading cars
- Order cars only for your actual current needs.

Your help will help us do a better job for you, as well as for Uncle Sam, whose needs must come first in war.

At Your Command

Besides all-out war service, Santa Fe is maintaining regular and efficient freight and passenger transportation vital to your community. Talk over your travel and traffic problems with your Santa Fe agent.
